

Bodyguard 5771

Chapter 5771 Don't Accept Surrender

Wood forest thousand transformation!

This was a move Lin Yi used a long time ago, and it was basically useless after he went to Sky Class Island. Even if he did use it, he'd changed it. Now that he was using the original, the power was completely different.

In an instant, hundreds of Lin Yi's doppelgangers appeared around the villa, attacking all the masked Men in Black, including Xue Jianfeng. He knew that there was a 99% chance that they were illusions, but these masked Men in Black's auras were too real. Lin Yi didn't dare to be careless. If one of them really sneaked into the villa, it would be a big problem.

With Lin Yi's strength, one shadow clone was more than enough to deal with one masked man. The extra hundreds of them would surround Xue Jianfeng and beat him up. Even if the power of this martial skill was weak, it was still very painful to be hit by such a dense attack!

Xue Jianfeng's face was instantly filled with tears. Who the hell said that an undying body was awesome? Was it fun to be beaten into a pig's head, recover, and then become a pig's head again? Indeed, there was only a fine line between being awesome and being an idiot!

Lin Yi was curious about Xue Jianfeng's recovery ability, so he decided to test it out with a skill like the thousand changes of wood and forest, which wasn't that powerful. He wanted to see what Xue Jianfeng's limit was. As for killing him, he wasn't in a hurry.

Xue Jianfeng knew that he couldn't escape and decided to fight back, but Lin Yi's rain of fists and legs made him lose all hope of fighting back.

Xue Jianfeng's body was flying back and forth in the air, like a bouncing ball. He couldn't even land on his feet, let alone fight back.

The disguising device on the flying saucer had lost its effect, and Lin Yi's other phantoms had completely shattered the Phantoms. They didn't continue attacking Xue Jianfeng, but disappeared.

"Boss, this move of yours is so cool. It's very suitable for handsome guys like us to use, so boss, you have to teach me how to use it later!" LAN Guzha shouted as he waved his hands and feet. As expected, the moves used by the most handsome man in the world were beautiful. It was likely that the second most handsome man in the world, the wyrm dragon, would not be inferior to them.

As for whether this kind of martial arts technique with low power was of little value, LAN Guzha did not consider it at all. It was fine as long as he could act cool. Who cared about the power?

"If you want to learn, then look carefully. It's not a difficult martial technique!" Lin Yi smiled slightly. With LAN Guzha's strength and vision, he could master this kind of low-level martial arts after a few looks. If he liked it, then let him learn it.

"Stop ... I admit defeat ... I surrender ..." Xue Jianfeng took advantage of the time when Lin Yi slowed down his attack speed for LAN Guzha to learn and quickly shouted.

At this moment, Xue Jianfeng felt that this damned immortal body was simply a research that was specially developed to be a human sandbag! Was the doctor sure that Lin Yi didn't arrange for him to be

a spy? No matter how I look at it, they seem to have colluded to trick this young master! Dafeng killing the doctor glasses was actually just a ruse to hurt himself, right?

Xue Jianfeng's mind was in a mess as Lin Yi's skill ended. Xue Jianfeng fell to the ground with a bloody nose and a swollen face, panting like a dead dog.

LAN Guzha seemed to have not had enough. He waved his hand and shouted, "Boss, one more time, one more time, I didn't see clearly!"

Hearing this demonic voice, Xue Jianfeng couldn't help but shiver. His injuries were recovering quickly, but the shadow in his heart was multiplying.

"Don't! Don't do it! Senior Lin, Master Lin, I've already surrendered, you can't torture the captive!" Xue Jianfeng begged for mercy while cursing Lin Yi's ass in his heart. This young master's strength is a bit weak now, but when I get stronger, I'll kick you like a ball for the whole day!

Lin Yi looked at Xue Jianfeng with a half-smile, "When did I agree to accept your surrender? So, you're not my captive!"

This motherf * cker is trying to kill this young master! No, he was asking for death but couldn't be messed with!

Xue Jianfeng wanted to cry but had no tears. He continued to lie on the ground and play dead. He said pitifully, "Senior Lin, you're such a big senior. Is there any meaning in bickering with a junior like me? Besides, you've been beating me up for so long, and you've vented your anger. Why don't you treat me as that kind of anger and let me go?"

"I can let you go, but I want to do a few more experiments on you first." Lin Yi smiled faintly as he walked to Xue Jianfeng.

Xue Jianfeng's heart was in a mess. He calculated that if he suddenly attacked, would he be able to hurt Lin Yi and escape? the result was that the possibility was above 99%, but he wouldn't be able to escape, he would be beaten up a few hundred times ...

Since sticking his head out was a knife, and pulling his head back was also a knife, then what was the point of stretching his head out? Xue Jianfeng thought angrily, then squeezed out a fake smile and said, "Senior Lin, please do as you please. If you need me to cooperate, just tell me. As long as you're satisfied, you can let me go!"

"Boss, this guy is really shameless. Can I beat him up? I promise I won't kill him!" LAN Guzha came over eagerly and asked as he rubbed his fists and wiped his palms.

He had wanted to beat Xue Jianfeng up for a long time, and now that he finally had the chance, how could he miss it? If Lin Yi agreed, it would be perfect if he could kill Xue Jianfeng.

Lin Yi stood in front of Xue Jianfeng and thought for a while, "That's good too. LAN Guzha, you can do it. As long as you don't kill him, you can beat him however you want!"

The thousand changes of wood and forest was enough to deal with a normal primary stage mystique Ascension cultivator, but Xue Jianfeng's ability to heal infinitely was too strong. Lin Yi didn't manage to test his limit. Now that LAN Guzha was going to do it, he could observe better.

With Lin Yi's nod, LAN Guzha was overjoyed. He charged towards Xue Jianfeng with a weird laugh, his fist already flying towards him before he even reached him.

Xue Jianfeng sighed in his heart. Fortunately, LAN Guzha's fist wasn't aimed at his vital parts. It seemed that Lin Yi was telling the truth when he said that he wouldn't kill him. In that case, he could only grit his teeth and endure it. It was good news that he was still alive.

"Don't hit the face!" Xue Jianfeng retracted his hands to protect his head and heart as he cried out in resignation. He then started cursing Lin Yi and LAN Guzha in his heart.

Other than that, Xue Jianfeng was also calculating the time on the flying saucer's timer. He had come alone this time, so he had prepared an escape route for himself. In about a minute, the flying saucer's traction device would pull him back into the flying saucer.

Chapter 5772 Just Let Him Run

Sure enough, it was better to be safe than sorry. Without this trump card, Xue Jianfeng was sure that his life as a human sandbag had just begun. Now, he only needed to hold on for about a minute and he would be able to escape!

"Ahoho, ahoho!" Xue Jianfeng was very cooperative and screamed loudly. Of course, it was really painful. Every time LAN Guzha's fist landed, it would take away a piece of flesh from Xue Jianfeng's body. The scene of blood splashing was not suitable for children in movies.

However, Xue Jianfeng's heart was getting more and more relaxed. Anyway, these injuries would soon heal. As long as his head and heart were not blown up, even if his limbs were broken, they could still be reattached. It was no big deal.

Initially, LAN Guzha was worried that he would kill Xue Jianfeng with one blow, so he held back his strength carefully. However, he slowly realized that this fellow was a very qualified sandbag! Ever since he came to the secular world, he had never felt so comfortable beating someone up!

As a result, the power on LAN Guzha's fist slowly began to be released. As long as he avoided the fatal points of the snow sword, it would not be a problem if he could not kill LAN Guzha in one blow.

"LAN Guzha, that's enough!" Lin Yi raised his hand and pulled Xue Jianfeng in front of him. He understood what was going on-he had to try and see how he could counter this fast healing ability. He'd be in a very passive position if he met a large group of people like this in the future.

"Boss, it's rare to have such a sandbag that can take a beating. Why don't you let me beat you up a little longer?" LAN Guzha said, still not satisfied.

"Don't worry, you'll have a chance," Lin Yi smiled.

Lin Yi wouldn't let go of Central's base, so LAN Guzha didn't have to worry about not having a chance to attack.

Xue Jianfeng calculated in his heart that he still had about 30 seconds left. LAN Guzha had only used 30 seconds to punch him full of holes. Fortunately, his recovery was quite fast, but this kind of recovery was not without a price. He could already clearly feel that the true energy in his body was almost completely exhausted.

"Senior Lin, are you satisfied now? Are you going to let me go?" Xue Jianfeng continued to use his fake smile to numb Lin Yi. The closer it was to the time of traction, the more he didn't dare to be careless, in case something unexpected happened.

Lin Yi grabbed Xue Jianfeng's arm and felt the empty Qi in his body. He nodded, "I see. Your treatment still needs Qi as the energy supply, or else you won't be able to maintain this consumption. As expected, energy is conserved. What's lost is lost. There's no possibility of it being generated out of thin air."

In this case, this so-called immortality was actually not that scary. As long as it could quickly consume the true energy in Xue Jianfeng's body, he would not be able to continue his self-healing.

Lin Yi felt a lot more at ease now that he understood this. Even if central could mass produce this kind of combat personnel, as long as his own people had enough strength to protect themselves, it wouldn't be a problem to wear them out until their Qi ran out.

However, this was still too passive. Lin Yi sent a stream of five elements killing Qi into Xue Jianfeng's body, wanting to see how destructive it was.

Unexpectedly, Xue Jianfeng's remaining Zhen Qi was completely suppressed by the killing Qi of five elements. The injuries that had not been completely healed also stopped healing. Xue Jianfeng, whose body was ravaged by the killing Qi of five elements, directly fell to the ground and twitched continuously. His breath was also quickly weakened.

"Boss, is this guy having an epileptic attack as you humans say? Why are you frothing like a crab?" LAN Guzha poked Xue Jianfeng's body with the tip of his foot. He didn't see Lin Yi's killing intent entering Xue Jianfeng's body. He was still wondering if he was too heavy-handed just now. He couldn't die like this! It would be bad if boss restricted him from fighting in the future because of this!

Lin Yi smiled faintly. He didn't think that the killing intent of the five elements would have such a strong restriction on Xue Jianfeng's self-healing ability. Even if central could make someone as strong as him in the future, he wouldn't have to worry.

High up in the air, the timer on the flying saucer finally reset. A beam of light descended, enveloping Xue Jianfeng and pulling him up at a speed that even Lin Yi was caught off guard.

When he saw Xue Jianfeng being pulled back to the flying saucer by the ray of light at lightning speed, LAN Guzha immediately cried out in panic, "This kid wants to run away. Boss, I'll go get the flying saucer!"

Lin Yi quickly extended his hand to stop LAN Guzha, "Wait, just let him run!"

"You let him run again? Boss, do you feel sorry for him because you beat him up too badly?" LAN Guzha asked, confused. Lin Yi had already let Xue Jianfeng go back in Europe, and he was letting him go again? Boss's heart was too kind!

Seeing LAN Guzha's expression of unwillingness, Lin Yi smiled and patted his shoulder, "Don't worry, we just need him to lead the way. Let's go and take a look at the second base in the center!"

Before she could finish her sentence, the flying saucer that Han Jing and the supernatural Investigation Bureau had created together had already enlarged and activated its cloaking device to hover above the villa. Other than the open hatch below, which revealed the interior, the rest of the place was empty.

Lin Yi turned to Chen Dongcheng and ordered, "Dongcheng, I'll leave this place to you. As long as Xue Jianfeng doesn't come, there shouldn't be anyone who can threaten you,"

"Martial granduncle, don't worry. There won't be any problems if you leave this place to this disciple!" Chen Dongcheng quickly bowed and agreed. It was rare for Lin Yi to have a use for him, and he was quite happy. Although it was only a task of looking after the house, it was enough for him to be happy.

"Boss, let's go! Otherwise, that guy is going to disappear without a trace!" LAN Guzha urged.

Lin Yi smiled and entered the door first, followed by LAN Guzha.

Han Jing Jing was already waiting inside. She smiled when she saw Lin Yi, "Lin Yi bro, I'll go with you. I'm very interested in the technology in the base."

"Then let's go! Don't let snow sword's flying saucer get away " Lin Yi didn't object. With him by her side, han Jingjing would be safe, not to mention that LAN Guzha was with her.

"Lin Yi bro, don't worry, he won't be able to run!" Han Jing Jing smiled sweetly, controlling the flying saucer to chase.

The flying saucer was powered by spirit Jade, but it was controlled by a computer and a spiritual sense control console. Apart from han Jingjing, no one else could perfectly integrate technology and spiritual sense to create such a flying device.

Chapter 5773 Barging Into The Second Base

The supernatural Investigation Bureau wanted to make a simple copy of another UFO, but even if they succeeded, they didn't have spiritual Jade to power it. Fortunately, han Jingjing had given them a design of the UFO based on pure technology, so nuclear power could be used as a substitute.

In terms of technology, han Jingjing had improved the system by referring to the information obtained from the central computer. After invisibility, snow sword Edge's flying saucer couldn't detect anyone following it.

If Xue Jianfeng was still in his normal state, he might be more careful, but he was being tortured by Lin Yi's five elements killing intent. He couldn't control the flying saucer until he got rid of it. The flying saucer was only able to fly back because of the escape plan the system had set up.

In an instant, Lin Yi's flying saucer was already very close to Xue Jianfeng's flying saucer, and the entrance to the chemical plant appeared.

"So they're hiding here, I didn't think they'd be in the outskirts of Songshan. Central is using the dark under the light principle, they're really cunning!" Lin Yi didn't think that the second base in the center would be this close to his villa. He could've even found this base if he extended his spirit sense a little more when he was breaking through.

"Lin Yi bro, these guys from central are really cunning! I hacked into their system before, but I couldn't determine the correct location. It turns out that it's really close!" Han Jingjing said in surprise.

From this point of view, han Jingjing even felt that her previous network intrusion had failed. Even though she had obtained all the information, she could not determine the location. It was as if the other party had not left any information in this area. He was indeed a master of cunning.

LAN Guzha rubbed his hands excitedly. "Boss, sister-in-law Jing Jing, there seems to be quite a number of people here. Let me go down and open a path for you and sister-in-law."

Before she could finish, the base's alarm system went off. Although han Jingjing's UFO had entered invisibly, when it landed with the UFO in front of it, the alarm system detected something unusual.

"There are intruders! He came in with snow sword's flying saucer!" In the control room, LAN xiaoru's face changed. The first thing she thought of was the scene when Lin Yi broke through the central Saint realm!

"LAN Guzha, you go! Just do your best to destroy the facilities of this base!" Lin Yi waved his hand and ordered LAN Guzha.

"Boss, don't worry. Leave it to me!" LAN Guzha laughed and immediately jumped out of the opened cabin door.

Since he'd been found out, he'd just force his way in. Lin Yi's goal was to find this place anyway, and now that he'd achieved his goal, it didn't matter what happened next.

Xue Jianfeng escaped from the flying saucer that landed first. Although he couldn't resolve the five elements killing intent in his body, he had recovered some of his physical strength and true Qi during the time he was on the flying saucer. Therefore, he activated the self-healing ability and was able to move again.

When he saw LAN Guzha descending from the sky in an aggressive manner, Xue Jianfeng did not say anything. He turned around and ran into the base. He was already traumatized by the beating just now. Moreover, he had just recovered a little of his true energy. He did not dare to face LAN Guzha at all.

An Jianwen was also shocked when he heard the alarm. This base was his life's work for many years. How was it possible for someone to get inside?

Most of the most advanced Defense systems and weapons were installed on the outside. In other words, after Lin Yi's flying saucer entered, most of the base's defense was just for show.

"The base has entered special war status. All personnel, get into combat positions. We must eliminate the intruders!" An Jianwen couldn't care less about the dazed LAN xiaoru as he jumped onto the control panel and yelled into the communicator. At the same time, he activated the base's defense system.

LAN Guzha had yet to land on the ground, but his eyes were already fixed on the escaping snow sword. Boss said that the guy was used to lead the way. Since he had already been brought here, he was no longer of any use. It should be fine to kill him, right?

LAN Guzha roared as he thought to himself. Powerful true energy was unleashed from his fists and he attacked the walls of the base. Before he caught up with Xue Jianfeng, he should follow his boss's instructions and destroy some of the facilities in the center.

However, these walls were all made of alloy and could not be destroyed by two simple punches. LAN Guzha could only leave two deep marks and a violent tremor at most.

Before the quaking had died down, a dense number of round muzzles appeared on the alloy wall, shooting out tongues of fire that were nearly a meter long, forming a Metal Storm on the landing platform!

LAN Guzha was shocked. He quickly curled up his body to protect his vital parts and rushed into the door that Xue Jianfeng had escaped to.

Even so, his body was hit by two to three hundred bullets in an instant. Fortunately, these high-speed machine gun bullets from the secular world did not pose much of a threat to the body of the flood Dragon, LAN Guzha. It did hurt a little, but it could only leave white spots on his body.

It was a pity that LAN Guzha's clothes had already turned into genuine holes. There were charred holes everywhere. This made LAN Guzha, who liked handsome clothes and styles, unable to bear it any longer!

"Who did this? Get out here! I promise I won't beat you to death!" LAN Guzha roared and unleashed all his strength. He began to destroy everything he could see.

As for Lin Yi and han Jingjing, LAN Guzha wasn't worried at all. These bullets were enough to harm normal people, but it wasn't a problem for Lin Yi and han Jingjing. Their Yuan spirit bodies were completely immune to physical attacks.

Han Jingjing put the flying saucer into her soft armor and smiled at Lin Yi, "Lin Yi bro, Central's setting off firecrackers to welcome us. They're pretty friendly, but it's a little too noisy."

"I also think it's a little noisy. Let's just let them have a break." Lin Yi smiled faintly as he sent a few lightning bolts towards the alloy wall, burning off the circuits and silencing all the machine guns.

LAN Guzha, who was at the front, was still roaring and shouting in anger. His image was ruined. This was simply an irreconcilable hatred! The hundreds of bio-humans sent out by an Jianwen were like ants in front of LAN Guzha. The weak bio-humans were wiped out with a single sweep. They couldn't even stop LAN Guzha.

Lin Yi, on the other hand, walked behind with Han Jing Jing as if he was taking a walk in the park. He casually threw out destructive lightning arcs and threw two super alchemy bombs when he was free, using the directional blast ability to blow a new path. He was not taking the usual route at all.

Chapter 5774 Why Are You Here Again?

Jianwen's face was pale as he looked at the screen. In fact, wherever Lin Yi and the others walked past, the screens would turn black.

However, the entire base was rumbling. He didn't need to look to know that it was about to be demolished!

Thinking about how much time and effort it took to build this second base made Jianwen want to vomit blood. This damn Lin Yi, he was the bane of his life! Without Lin Yi, everything went smoothly for him-as long as he met his nemesis, he'd lose everything he'd earned!

LAN xiaoru was helpless too. After doing so much, she really thought that she could get rid of Lin Yi's spirit this time. Who would've thought that Lin Yi would come to her door again in the end? it had only been a few days! Could it be that the self-destruction scene in the central sacred zone was going to happen again?

"Miss LAN, let's hurry up and leave! Otherwise, it'll be too late!" Zhaolong said, panicking. He'd inherited the doctor's memories, but his fear of Lin Yi wasn't any less than Xue Jianfeng's, especially after house Kang was traumatized by Lin Yi. It'd be weird if he wasn't scared.

LAN xiaoru smiled bitterly and said, "leave?" Where to? If we lose the second base, will we still have a place to live?"

Now, Central's main focus was on the Sky Class Island, and there were not many resources in the secular world. In addition, the ancient little world's operation had been a crushing defeat, and they had lost a lot of resources. Even LAN xiaoru couldn't bear the loss of two bases in a row.

Base No. 3 was indeed planned, but it was still in the construction stage and couldn't be used at all. As for the general strongholds under the central control, they couldn't meet the research needs of LAN xiaoru and the others.

Jianwen and Zhaolong both fell silent. If they could kill Lin Yi, then blowing up an entire base wouldn't be a big deal, but if even the explosion at the central sacred zone couldn't kill Lin Yi, then base two wouldn't be of much use either!

Most importantly, although the central was powerful, it had always been hidden in the dark. Otherwise, it would be boycotted by scientific institutions from all over the world, and it would not be good.

"Lin Yi, stop! Let's talk!" LAN xiaoru sighed softly. She could only use the base's broadcast system to speak to Lin Yi.

"Miss LAN, what are you doing? Lin Yi's a dangerous guy, how can you negotiate with him face to face? We should leave quickly. Where there's life, there's hope!" Zhaolong was panicking-he didn't want to see Lin Yi here! Who could stop him if the guy came for him?

LAN xiaoru ignored Zhaolong and repeated what she had said. She was just a clone, so if she died, she died. As long as she had the genetic data, she could be reborn at any time.

Lin Yi raised his head to look at a surveillance camera above him. He didn't destroy it this time, but smiled at the camera, "Miss LAN? We meet again so soon. Last time, you self-destructed so miserably. Don't tell me you want to self-destruct again this time?"

With Central's technology, Lin Yi believed that LAN xiaoru could hear everything he said, so he didn't bother to use telepathy.

LAN xiaoru laughed, "Lin Yi, you're not afraid of me, are you?" Otherwise, you wouldn't be afraid to come and negotiate with me. How about you ask your little brother Flood Dragon to stop first, in case this place collapses and we die together?"

Lin Yi shrugged nonchalantly. No matter how big the impact was, it had nothing to do with him. Plus, this was the center of the city, and there weren't any civilians living nearby. There wouldn't be any innocent casualties even if he blew this place up.

As for what LAN xiaoru said about Lin Yi not daring to negotiate with her, he didn't take it to heart at all. He'd been trying to catch them all along the way, and now that his spirit sense had locked onto the entire area, even if LAN xiaoru wanted to run, she wouldn't be able to escape this lock.

"LAN Guzha, just destroy this place. Don't make it collapse!" Lin Yi said loudly on purpose, and LAN Guzha responded loudly from a distance.

LAN xiaoru's expression was getting uglier and uglier, but there was nothing she could do. All the combat power of the base was brought out. Not to mention Lin Yi, even LAN Guzha himself had no chance of being stopped.

This time, it was central who started the fight, and Lin Yi took the chance to beat him up. He asked for it, so who could he blame?

Lin Yi's spirit sense found that LAN xiaoru, Zhaolong, and Jianwen didn't have any intention of running away. It seemed that they really wanted to negotiate. He didn't waste any time and continued on the shortest path, walking slowly.

Lin Yi made a hole in the control room's wall with a wave of his hand, just big enough for two people to walk side by side. With the newly opened door, he and Han Jing Jing walked in hand in hand.

LAN xiaoru, Jianwen, and Zhaolong were already standing in front of the wall. They knew that Lin Yi would come in from here, so they were very calm.

"An Jianwen, it's you again? I warned you last time that I'd kill you if you caused any more trouble, but it seems like you didn't take it to heart!" Lin Yi said coldly, pretending that he'd just found out that Jianwen was here.

Jianwen's heart skipped a beat-his fear of Lin Yi was bone-deep as well. He shook his head and waved his hand at Lin Yi, "It's none of my business! I'm just following orders. Besides, I've never been to your house even once. If you want to find someone, you should find Xue Jianfeng. Don't come to me!"

At this critical moment, Jianwen used Xue Jianfeng as a shield without hesitation. He had been annoyed by this arrogant guy for a long time now. If he didn't bring Lin Yi back, the base wouldn't be in this state.

Lin Yi sneered,"you're already standing here, and you're saying this has nothing to do with you?" Do you think I'm a three-year-old child? I'll settle this with you later!"

Jianwen was dumbfounded-was Lin Yi targeting him now? But there were clearly other big bosses here! Of course, he didn't dare to say this out loud. Otherwise, neither side would spare him.

LAN xiaoru snorted and said coldly,""Alright, let's not talk about these things for now! Lin Yi, I admit that I've underestimated you, and that Han Jing beside you-you're both strong, and I lost this time, but you think you've got me for sure? you're underestimating me too much!"

Chapter 5775 One Year Agreement

"Just say what you want to say-I know better than you whether I've underestimated you or not!" Lin Yi smiled faintly.

"Lin Yi, can you tell your little brother Jiao Dragon to stop? Isn't it better to be quiet when we're negotiating?" LAN xiaoru suddenly smiled very gently, making Lin Yi, who had seen her self-destruct like crazy, very uncomfortable.

He felt that LAN Guzha had pretty much destroyed most of the facilities in the base. Lin Yi didn't waste any time and called him back.

It was apparent that LAN Guzha, who was dressed in full armor, had not vented his anger enough. When he saw the three core figures, he stared at them with an extremely unfriendly expression.

LAN xiaoru nodded as if nothing had happened. ""It's much quieter now. Mr. Lin, please come over and sit down!"

Pointing to the sofa in the control room, LAN xiaoru walked over and sat down first, finally returning to her previous strong style.

Jianwen and Zhaolong had the right to sit with LAN xiaoru, but they always felt weak in front of Lin Yi!

Especially in a situation like this, if they could escape, they didn't want to appear in front of Lin Yi. They stood behind the sofa, hoping that Lin Yi wouldn't notice them.

LAN xiaoru couldn't do anything about their behavior. How could she expect them to deal with Lin Yi in the future with their useless faces? However, he couldn't care about them now. He would deal with them when he had time in the future.

Lin Yi pulled on Jingjing's hand and sat down, his face calm. "You can say it now, do you want to apologize to me or what?"

LAN xiaoru ran her fingers through the hair on her forehead and said with a sarcastic smile, ""Apologize? Then aren't you overestimating yourself? I admit that I can't kill you, but that doesn't mean that I'm afraid of you. You know that I'm immortal, and so are your people in the secular world?"

Lin Yi's face changed. LAN xiaoru was clearly threatening him with the people in the villa, and he couldn't refute her.

The second base was indeed half destroyed, but LAN xiaoru was right. Even if Lin Yi killed her here again, she'd still be alive and kicking after a few days, and Lin Yi couldn't just stay in the common world forever.

If LAN xiaoru was determined to target the people in the villa, Lin Yi really couldn't do anything about it. Even if he left LAN Guzha and Chen Dongcheng to protect them, it would be impossible to guard against them.

"Miss LAN, are you threatening me?" Lin Yi said with a cold smile. Even if he was threatened, he wouldn't show it. He would be even more aggressive, "If it's a threat, you can give it a try and see if the center will still appear in this world!"

LAN xiaoru was silent for a moment, then she smiled and said, ""I'm just letting you know the truth. Why are you so agitated?"

Lin Yi didn't want to continue the topic, "I've always maintained a delicate balance with your central. This time, you're out of the ordinary and want to kill me. Is it your own idea or your central 's? Do you want to start an all-out war with me?"

LAN xiaoru was taken aback, not expecting Lin Yi to be so direct. She shook her head, "You're wrong. Even if your soul is destroyed, your body won't die because your soul came here through a projection, so if I kill your soul here, your body on Sky Class Island won't have any problems. That way, you'll still be alive, and you won't break the rules. Your elders won't have to come here in a desperate situation. "

"You're the one who's desperate and wants to risk your life, right? Otherwise, he wouldn't have caused so much trouble!" Lin Yi hmphed coldly. He finally understood Central's plan, and it was rare that LAN xiaoru wasn't hiding anything. She seemed to be negotiating openly.

As long as the body was not destroyed, even if he lost his spirit, Lin Yi's elders would still think that there was a chance to save him. LAN xiaoru thought that this was a great opportunity.

And if Lin Yi died, no one would be able to control them in the common world, Sky Class Island, or even the ancient martial world. Central's life would be much better, and its development would be much smoother. This was LAN xiaoru's true goal.

Lin Yi knew that there was no point in talking about this anymore, so he crossed his legs and put on a winner's attitude. "Alright, let's not talk about this. Just tell me how you're going to compensate me for my losses!"

LAN xiaoru's pretty face darkened slightly. 'What kind of losses are you going to suffer?!' Our Center is the one who lost it, alright? two bases were destroyed, and you even took away two of our capable people.

"Lin Yi, Mister Lin! I hope you understand that I'm not asking for your forgiveness now, but to negotiate with you fairly. I can promise that I won't take the initiative to attack you and the people around you in the future, and this matter will end here. What do you think?" LAN xiaoru knew that Lin Yi wouldn't stop

until she gave him something in return, but she couldn't just reveal her bottom line in a negotiation like that. She decided to throw out this argument first to see how Lin Yi would react.

"Do you think I'll believe you?" Lin Yi laughed coldly, "with that insincere attitude of yours?" If that's the case, why would I waste my time negotiating with you? In short, show me your sincerity, or we'll stop here!"

LAN xiaoru smiled calmly and said, "what kind of sincerity do you want me to show you?" The two bases are almost all my trump cards. You know the current situation better than I do. Even if I want to deal with you again, I can't. What are you worried about?"

Lin Yi didn't say anything and just looked at LAN xiaoru coldly. There was no point in talking nonsense like this. If this woman just wanted to lie, he would have to consider whether he should cut off all means of retreat and get rid of them regardless of the losses, and then wipe out the remaining forces of central.

As for the people in the villa, they couldn't stay in the common world anymore. Kang Xiaobo, Lai Changyi, and the others had to give up everything and move into the ancient martial world. With Lin Yi's reputation and power in the ancient martial world, they could be safe.

But Lin Yi wouldn't do that unless he had no other choice.

LAN xiaoru saw that Lin Yi didn't say anything and continued after some thought, "Mr. Lin, I know you still don't believe me. How about this, let's make an agreement for a year. During this time, neither of us can attack the other. What do you think about what to do after a year? we can discuss it again. What do you think?"

Chapter 5776 Sharing Resources

She said that she wouldn't attack Lin Yi or the people around him without a time limit-Lin Yi didn't believe it, and even she didn't believe it herself.

The time limit of one year actually made his words very convincing. After all, central had indeed suffered a great loss this time. A year's time of rest and recuperation might not even be enough to recover.

Lin Yi was helpless as well-if he could uproot central in one go, he'd kill them all without hesitation, but these guys couldn't be killed. He couldn't go back to Sky Class Island without peace in the mortal world.

It was an acceptable result to be able to hurt Zhong today and make them promise not to go against Lin Yi's people for a while. Time! Not only did central need it, but he also needed it very much!

Lin Yi was still thinking when LAN xiaoru spoke again,"Mr. Lin, you'll probably run into me when you go back to Sky Class Island. I know you have a lot of businesses and close friends there, so if we can't live in peace, it's best if you can appear in many places at the same time like me. You know that there are all sorts of natural disasters everywhere, and you probably can't save everyone by yourself, right?"

"I've said it before. Don't threaten me. It's useless Against Me!" Lin Yi said calmly, but his heart tightened. LAN xiaoru had the cloning technique to create a clone, but he only had one. If the central Chamber of Commerce on Sky Class Island suddenly attacked him, the damage would be devastating.

If it weren't for the elders behind Lin Yi, Central's strength at this stage wasn't something Lin Yi could handle alone.

"Mr. Lin, it's good enough that you're not threatening me. How would I dare to threaten you?" LAN xiaoru said with a smile. As I said before, this is just a statement of fact. "

After a slight pause, LAN xiaoru softened her tone and said,""No matter what, we have lost this time. The information that you have copied from the second base's system can be considered as compensation to you. I will not ask you for it back."

"Hehe ... How generous! To use something that already belongs to us as compensation, you are indeed very sincere!" Lin Yi looked at LAN xiaoru mockingly and said,"Since you know that you've lost this time and have taken the initiative to surrender, if you don't take out some practical benefits, do you believe that I'll just blow up this entire place?"

Base two's facilities were pretty much destroyed, but the overall structure was still there. It was only thirty to forty percent of the total damage, and if Lin Yi really did blow this place up, central would really lose a lot of money.

LAN xiaoru was silent for a moment before she asked,""What do you want? There are only these things here, is there anything that you're interested in?"

Lin Yi scratched his head. Yes, this place was already like this-was there anything of value left? He was just saying it casually, thinking that it would be a loss if he didn't ask for some benefits, but if he really had to ask, he didn't know what conditions to ask for.

The most important thing to central was technology, of course, but all the data in base two had been copied by han Jingjing. He didn't expect central to pay tens of billions of Yuan or something. It was meaningless to Lin Yi.

Han Jingjing, who had been silent the entire time, suddenly said, ""Lin Yi bro, I've seen a record in their records, saying that the center found a wormhole tunnel that connected to Sky Class Island. After using technology to improve it, they can send things between each other, but there's no detailed information here."

Lin Yi's eyes lit up.

Back then, he'd bought the right to deliver a letter at an auction and received a reply from the secular world. The central Chamber of Commerce on Sky Class Island had also been constantly selling technology from the secular world, and all of this was probably because of this wormhole tunnel!

What could be more precious than this? Lin Yi couldn't help but get excited. "This matter shouldn't be fake, right?"

"That's right," LAN xiaoru admitted. "There are so many things from the secular world on the Sky Class Island. I'm sure you've all guessed it. But it's impossible for you to take over this wormhole tunnel!"

Han Jingjing smiled. "I know you won't let us monopolize this wormhole tunnel, but it shouldn't be a problem to open up this location and let us participate in the research of the wormhole, right? You have to know that I can return to Sky Class Island at any time, and I can project back to the mortal world at any time. Since I know about this wormhole's existence, do you think I can find its location?"

LAN xiaoru paused, remembering that her threat was a joke. Even if central didn't have to worry about attacking Lin Yi's people, with the genius han Jingjing around, they might not be able to gain the upper hand. Especially with their Yuan Shen traveling back and forth, it seemed to be more convenient than her contacting Sky Class Island. If they really attacked, han Jingjing would completely suppress them in terms of timing.

To be honest, the research on the wormhole pathway was only in its initial stage. If Han Jingjing could participate in the research, the progress might be much faster, which was not a bad thing for the center.

"I understand, but I can't make the decision. I need to discuss it with my true body on Sky Class Island. If possible, we'll automatically come to a temporary truce for a year. What do you think?" LAN Xiaoru only hesitated for a moment before giving her answer. She didn't agree on the spot, but Lin Yi thought that she was already halfway to success.

"Well, in that case, we'll go back first today. Let us know when you have news!" Lin Yi stood up and was about to leave with Han Jingjing and LAN Guzha.

Lin Yi stopped in his tracks when he saw Jianwen and Zhaolong cowering behind the sofa. "An Jianwen, remember my words and be good, or you won't be so lucky next time! Also, Zhaolong, stop copying your stupid brother. You won't die if you don't do it, understand?"

If it wasn't for the fact that he couldn't uproot Central yet and had to rest for a year, Lin Yi wouldn't let these guys go today, including Xue Jianfeng who was hiding in a corner room. But overall, Lin Yi didn't lose anything these two times, and instead gained a lot of benefits, so it didn't matter if he let them go for now.

This crazy woman, LAN Xiaoru, resurrecting endlessly was indeed annoying. Lin Yi wondered if he could get Han Jingjing to think of a way to crack Central's cloning and resurrecting method. Otherwise, there would be no end to it.

Chapter 5777 Brother Dafeng's Departure And Stay

Before he left, Lin Yi secretly left a spirit sense mark on LAN xiaoru and the others. As long as they were still in the secular world, he would know their location. This way, even if he let them go today, it would be easy to find them in the future.

It was a pity that he forgot to leave a spirit sense mark on Xue Jianfeng, but this guy wasn't a threat anymore. Lin Yi didn't want to bother pulling him out. He'd think about it next time.

After leaving the control room, Lin Yi made a big hole in the top floor and jumped up with the two. In mid-air, Han Jing Jing released the flying saucer, and the three disappeared in a flash.

When they returned to the villa, they announced that central had admitted defeat. Everyone was naturally very happy. Although they did not manage to completely destroy central, a simple celebration was necessary for such a victory.

Brother Dafeng brought Chen Dongcheng to Lin Yi and bowed respectfully, ""Boss Lin Yi, you're amazing! You took care of two bases in one go! They should know their place now!"

"Come sit down and talk!" Lin Yi asked the two to sit down-he was thinking about what to do with them as well.

"Thank you, boss (senior granduncle)!" "Sure!" The two replied before sitting down beside Lin Yi.

Chen Dongcheng was very excited now. When he heard the news that central had given in, he felt that he was too wise! Being Lin Yi's disciple was much better than being a lab rat in central. That idiot Xue Jianfeng couldn't understand it, and he was beaten up like a dead dog. Was there any meaning to that?

He used to think that central was very strong, but now Chen Dongcheng felt that Lin Yi was even stronger. He could even take down central! He was too strong!

Lin Yi looked at the two and asked faintly, "Dafeng, Dongcheng, what are your plans for the future?"

The two blinked, remembering that Lin Yi really couldn't keep them by his side.

Brother Dafeng was already used to being an undercover in central. Now that he had suddenly cleared his name, he really didn't know where he could go or what he could do.

Chen Dongcheng was in a similar situation. He could return to the green cloud sect on Beidao, but Yu Yi was still there. There was not much room for him to develop if he returned. Especially when he thought about how he would face Yu Yi's pretentious face all day after he returned, how bad would his mood be?

"Boss Lin Yi, I was planning to stay by your side and serve you, but I heard that you can't bring anyone with you to Sky Class Island, so I don't know what to do." Brother Dafeng thought for a long time and could only say this with a bitter smile.

His roots were in central. Now that he had betrayed central, everything that had happened in the past had nothing to do with him. Thinking about it carefully, he felt a little lost.

Lin Yi nodded, not saying anything. He didn't know what to do with Dafeng bro yet, and if things really didn't work out, he'd just let Xiaobo and the others bring Dafeng bro into the business world first. He'd bring him to Sky Class Island if he had the chance in the future.

Chen Dongcheng looked at Lin Yi and said carefully, "Grand uncle-master, I don't want to go back to the ancient martial world. Xue Jianfeng is still in the center. If you go back to Sky Class Island, there must be someone who can fight him in the secular world, in case he ambushes us,"

In fact, Chen Dongcheng felt that he was more carefree in the secular world, but he wanted to show off in front of Lin Yi, so he brought up Xue Jianfeng on purpose.

"You're so considerate!" Lin Yi smiled. He really did need someone to stay back in the common world if he were to return to Sky Class Island. He wanted LAN Guzha to stay, but Chen Dongcheng suggested it, so it was good.

However, LAN Guzha was able to suppress Xue Jianfeng, but Chen Dongcheng might not be able to. If only Chen Dongcheng was left, Lin Yi would have to find a way to increase his strength. As for whether LAN Guzha was going to Sky Class Island, he would think about it when the time came.

"Since you want to stay and help me protect the people here, I won't mistreat you. In addition to the cultivation method and martial technique of the blue cloud sect in the North Island, I will also give you a detailed explanation of the martial technique of the snow sword sect. When you face Xue Jianfeng, you won't be at a disadvantage." Other than the support of martial arts, Lin Yi was also wondering if Han Jingjing could update the automatic alchemy device. If Chen Dongcheng could use the cores of sea beasts to refine elixirs, his strength would increase even more.

As long as han Jingjing could get Lin Yi's furnace to make sea beast inner core pills, the xuansheng stage sea beast inner core in her Jade space might be able to be made into a Mystic supporting pill, which could be used to increase Chen Dongcheng's strength.

After returning to the sky-class Island, he would let LAN Guzha go into the sea to hunt some xuansheng-stage sea beasts. He would not have to worry about not having the main ingredients for the Xuan cultivation pill.

"Thank you for your guidance, senior granduncle!" Chen Dongcheng didn't know that Lin Yi still wanted to make him the mystic supporting pill, but just agreeing to let him stay in the secular world made him very happy.

With the weakness of the snow sword sect's martial arts, Xue Jianfeng wouldn't be that scary after targeted training. Especially after Lin Yi gave him the follow-up skills of the Qingyun sect, his strength would definitely be able to reach another level.

"Cultivate well, I won't mistreat you!" Lin Yi nodded faintly before turning to Dafeng. "Dafeng, I haven't thought of your arrangements yet. Let's wait and see. If you have any ideas, you can tell me at any time. I will arrange everything for you if I can."

"I understand. Thank you, boss!" Brother Dafeng quickly smiled and thanked him. Then, he tactfully pulled Chen Dongcheng to his feet and left.

There were too many people who wanted to talk to Lin Yi, and it was already good enough that the two of them could talk to him for a while. They couldn't keep taking Lin Yi's place, which made people hate them.

As expected, Yu Bing and Yu Dake walked over as soon as Dafeng bro and Chen Dongcheng left, ready to talk to Lin Yi.

A day later, LAN xiaoru contacted Lin Yi, telling him that Sky Class Island had agreed to share the wormhole's location with them, and that they could cooperate with Han Jing Jing to develop the wormhole. They needed to go over and discuss the details.

Lin Yi agreed happily and told han Jingjing to set off after upgrading her automatic furnace. LAN Guzha ran over and smiled, "Boss, are you going to beat up those guys at central again? Let's go, let's go, I forgot to ask them to pay for my clothes the last time. I have to have a good talk with them today. "

Chapter 5778 Signing The Agreement

This guy still remembered his clothes that had holes in them from the machine guns, but he didn't realize that he had almost torn down the entire Central's second base. LAN xiaoru and an Jianwen didn't even have a place to cry.

Chen Dongcheng also wanted to go with them. He wanted to let Xue Jianfeng take a look. After he left the center, his life was much better than it was in the center.

Lin Yi waved his hand. "We're not going to fight today. You guys don't have to come. I'll go with Jingjing."

Lin Yi remembered something and turned to Dafeng bro, "Dafeng, come with me. You might be of some help."

Brother Dafeng was startled. He quickly went forward and said, "Alright, boss!"

As for Lin Yi's offer to help, Dafeng couldn't think of anything he could help with. Was he going to use his identity as a spy to piss off LAN xiaoru and the others? Then, bringing Chen Dongcheng along seemed to have the same effect, right?

He was confused, but Dafeng didn't ask. He just did as Lin Yi said. When he was in the central Holy region, he swore in his heart that he would even give up his life for his boss!

The three of them got on the flying saucer and arrived in the air above the second base in the center in the blink of an eye. LAN Guzha had only destroyed the internal equipment, so there didn't seem to be much damage on the outside. Other than the huge "skylight" that Lin Yi opened when he left, the chemical factory was basically still in its original state.

Lin Yi scanned the entire base with his spirit sense first. LAN xiaoru and the others were all there, even Xue Jianfeng was on the side. The base's defense system was basically disabled, and there were no other ambushes. It seemed like central really didn't have any tricks up their sleeves.

After making sure it was safe, Lin Yi jumped down from the skylight with han Jingjing and Dafeng, turning to the place where they met last time.

This time, it was still LAN xiaoru sitting on the sofa alone. Jianwen, Zhaolong, and Xue Jianfeng were all standing behind her. When they saw Lin Yi come in, except for LAN xiaoru, the three of them all had unnatural expressions on their faces.

LAN xiaoru didn't stand up to welcome Lin Yi, and he didn't want to waste time greeting her.

As he walked past Xue Jianfeng, Lin Yi marked him with a spirit sense mark before pulling Han Jing Jing to sit down. After signaling for Dafeng to sit down, Lin Yi got straight to the point, "Miss LAN, we can start the discussion now."

LAN xiaoru was still curious about Dafeng bro's visit. She didn't know why Lin Yi brought him here, but she didn't care about a traitor. She just glanced at him and ignored him.

She pushed two documents to Lin Yi, "This is the agreement. It states that the war will stop for a year, and the wormhole tunnel will be opened for your research and use. If there are no problems, you can sign it."

Lin Yi laughed as he picked it up and flipped through it. "You think this is business? What's the point of signing an agreement? I don't think this kind of thing will have any binding power on you. "

At the same time, this thing didn't have any effect on Lin Yi. It wasn't just a piece of paper that could make them stop fighting, it was the difference in strength and their concerns. A year of truce was the time the secular world calculated that they could recover their strength, and it was also the time Lin Yi estimated that he could increase his strength and find a way to deal with central. Both sides had the same intention, which was why they agreed to a truce.

Lin Yi didn't doubt that if anything happened to central in the past year, or if his strength increased greatly, or if there was any favorable progress in the confrontation with Lin Yi's elders, this agreement would be torn to pieces and thrown into the trash.

LAN xiaoru snorted. "We pay the most attention to the spirit of the contract. It's normal for us to sign an agreement. Are you going to tear it up before you even reach an agreement?"

Lin Yi smiled faintly. This woman wasn't just a lunatic, she was a shameless lunatic. Every word she said should be heard in reverse.

However, Lin Yi didn't doubt this one year truce. As long as central didn't suddenly increase their strength, they would maintain this agreement. Even if it didn't last for a year, it would last for at least ten months.

"I'm too lazy to talk nonsense with you. Since you like to sign an agreement, then sign it!" Lin Yi flipped through it a few more times, but he wasn't too sure about the contents of the agreement, so he handed it to han Jingjing.

When han Jingjing first appeared as Liu Jinghan, she was the helmsman of Liu's group and the goddess of the business world. It was not an exaggeration to say that she was overqualified to see such an agreement.

To be honest, Lin Yi really admired han Jingjing. Whether it was business, research, or cultivation, she could become one of the top people in the small group. Such a genius was hard to come by even in a thousand years!

Jingjing took the document and flipped through it casually, her movements similar to Lin Yi's. She glanced through every page, and in ten seconds, she'd finished it. People who weren't familiar with her would think that she was just flipping through it, but only those who'd dealt with Jinghan before would understand that she wouldn't miss a single word in a situation like this.

"There's nothing much, but there's one thing here. Can we trouble miss LAN to explain it to us?" Han Jingjing flipped the document to the middle and pointed at a line of small words.

Lin Yi glanced at it as well, but he didn't find anything wrong. Since han Jingjing pointed it out, there must be something wrong.

LAN xiaoru's expression was calm as she looked at the place han Jingjing was pointing at. She nodded and said, ""I'm sorry. My men probably beat the wrong number. I'll make a new set for you."

There was a notebook next to her, so she picked it up and typed a few times on the keyboard. The printer in the corner began to print out the agreement.

Lin Yi laughed coldly to himself. Everything was already prepared. If han Jingjing didn't notice the problem, then so be it. Even if she did, she could immediately print it again. The most rare thing was that LAN xiaoru acted as if nothing had happened. No one could be more thick-skinned.

However, Lin Yi didn't really care about the agreement in the first place, and he didn't even bother to ask what problems Jingjing had found. As long as she changed it, it was fine.

The new agreement was still made in two copies. As the one with the lowest status, snow Jianfeng could only go over, organize them, and bring them over. If Chen Dongcheng followed, this scene would be very interesting.

Chapter 5779 Director Of Dafeng

Han Jingjing looked through it again and didn't find any hidden problems. She knew that Lin Yi didn't care, but since they were going to sign it, she couldn't leave anything behind.

"No problem, but these are the terms you proposed. We haven't said anything yet!" Han Jingjing had completely entered Liu Jinghan's state. She put down the agreement calmly and started to negotiate.

LAN xiaoru nodded without a care, ""You can say it, go ahead!"

Han Jingjing turned to Lin Yi. She was only trying to set up a stage for Lin Yi. In the end, Lin Yi would be the one to decide what to say.

Lin Yi had already thought it through before coming here, so he said confidently, "I only have one request. In addition to the joint development of the wormhole pathway, I also want to station a spokesperson here. Well, he will be the director of your Center. You know this person, it is Dafeng!"

Dafeng bro paused for a second, but he couldn't go against Lin Yi's decision. He accepted the mission without any problems, completely ignoring the difficulties and dangers.

Jianwen couldn't help but ask, "Lin Yi, I'm the Central's overall commander, what's the point of you making me a director?"

"The director means to monitor all of you, especially you, the overall commander. I want to know at all times if you're going to jump out and cause trouble again. Why? do you have an opinion?" Lin Yi said as he glared at Jianwen coldly, his tone undeniable.

"I ... Have no objections!" Jianwen was extremely frustrated, but he didn't dare to do anything in front of Lin Yi. He knew that a wise man knew when to retreat, especially from Lin Yi. Lin Yi had been comforting him like that all the time ...

LAN xiaoru was speechless as well. Lin Yi used the excuse of discussing and stopping the war to get the spy, Dafeng bro, back. This was a genius idea.

"No problem. If you want to be a spokesperson director, that's fine. But aren't you afraid that I might kill him at any time?" LAN xiaoru agreed readily. It was not a problem for her to let a spy in. Maybe she could use him in the future.

On the other hand, brother Dafeng was quite bold. He betrayed central and still dared to come back in such a high-profile manner. He really didn't know how the word 'death' was written!

Lin Yi shrugged his shoulders, not really bothered, "It doesn't matter-you can kill me if you want, but even if I go back to Sky Class Island, I can come back to the mortal world at any time. Other people's essence spirit projections are limited, but I don't! As you can see, my primordial spirit has been projecting for so long without any problems, so there won't be any problems with repeatedly projecting."

Han Jingjing looked at LAN xiaoru with a smile. It was obvious that she could project her primordial spirit at any time, and with her around, it would be much easier for the people on the sky-class Island to project their primordial spirits. If LAN xiaoru dared to touch brother Dafeng, she would be prepared for revenge.

Dafeng bro, of course, was going to support Lin Yi. He stood up and laughed, "My brother Dafeng is not a person who is afraid of death. If you dare to touch me, you will at most die. However, I believe that boss

will come back to uphold justice for me. Boss, don't worry. With me, Dafeng, here to watch, these guys will definitely not play any tricks!"

"What's there to be proud of for a traitor?" Jianwen couldn't help but look at Dafeng bro in disdain. He didn't dare to get angry at Lin Yi directly, so he could only vent his anger on Dafeng bro.

Unfortunately, brother Dafeng was still a Foundation expert, so he heard every word of that soft Mutter. He immediately glared and shouted, "An Jianwen, what are you saying? Are you looking for trouble? I've always been boss Lin Yi's subordinate, it's a joke to call me a traitor! Come over here, I'm not playing around with my position as the director!"

Jianwen's body went cold as he smiled. "No, no, director Dafeng, you heard wrong. I didn't say anything!"

Not to mention that Lin Yi was still here, even if Lin Yi left the common world, an Jianwen still wouldn't dare to offend Dafeng bro. He knew that he was just a small shrimp in Lin Yi's eyes. He didn't care how much trouble he made when he wasn't provoked, but if he crossed Lin Yi's bottom line, he would be killed without mercy.

Most importantly, he was the Central's commander, and if he were to be killed by Lin Yi, no one would think of avenging him. Plus, his plan to revive hadn't even started yet, and if he died now, he would be completely dead. He had to endure it when he needed to.

Brother Dafeng immediately felt his whole body relax. It didn't seem too bad to be able to return to Central. With boss behind him, not only would the guys in central not dare to kill him, but they would also have to protect him well!

"You, I'm talking about you. What's your name, snow sword? our boss and sister-in-law have been here for so long, and you don't even have a cup of tea. I'm not a director who doesn't care about anything. Even if it's such a small matter, I can't be careless about it, right? Hurry up and make some tea!" Brother Dafeng pointed at Xue Jianfeng and berated loudly. Even if he was a Fox exploiting the Tiger's might, he had to at least show off his might!

"You ..." Xue Jianfeng was furious, but he swallowed the second half of his sentence when he saw Lin Yi's half smile.

He had no choice-the five-element killing intent was still in his body and hadn't been dispelled yet. It was too painful for it to flare up from time to time. Even LAN Guzha's punches that made him look like a dead dog weren't as scary as Lin Yi's five-element killing intent. He didn't know when it would completely dissipate.

"You what you! Are you not convinced? If you're not convinced, just say it! Your brother Dafeng is listening!" Brother Dafeng glared fiercely at Xue Jianfeng. There was no need to mention how pleased he was in his heart.

Which Foundation establishment stage cultivator would dare to scold a mysterious Ascension stage cultivator as loudly as he did? And that cultivator at the xuansheng stage could only hold his tongue and not say anything?

Xue Jianfeng almost suffered an internal injury from holding back his anger. It was one thing to be bullied in central, but even a F * cking traitor of central dared to show him attitude. What xuansheng stage? what undying body? all of that was bullshit!

"I've neglected you, get someone to serve tea immediately!" LAN xiaoru acted as if she didn't see brother Dafeng's arrogant attitude. She calmly informed the people in the base to send tea over. Although she had been ordering the snow sword edge to do some chores, it didn't mean that brother Dafeng could do the same. After all, the snow sword edge was an important resource of the center, and it was necessary to protect it during critical times.

Chapter 5780 Pill Refining System V3.0

Xue Jianfeng didn't dare to respond under Lin Yi's intense gaze. He only snorted and turned his head away, pretending that he didn't hear Dafeng bro's words. However, he secretly swore that when he got stronger, whether it was Lin Yi's people or Central's people, they all had to die!

Jianwen and Zhaolong's faces were dark as well-Dafeng's behavior showed that he didn't care about them at all! For a moment, these few fellows actually had some thoughts of sharing a common enemy in their hearts.

LAN xiaoru was happy to see such an effect, so she didn't interfere with Dafeng bro's actions at all. It wasn't just because she was afraid of Lin Yi.

The three generals under her had long given LAN xiaoru a headache. If she could use brother Dafeng's hands to bring them together, it would definitely be a great harvest!

Both parties' proposals were approved, and the two agreements were signed successfully. Han Jingjing obtained the wormhole information from central. After preliminary verification, it should be true. The negotiations this time were basically completed successfully.

"Boss Lin Yi, don't worry. I, Da Feng, will be in the center, I won't let these guys cause you any trouble!" Dafeng patted his chest and promised. He would stay here and start his work as the director of the Center after Lin Yi and han Jingjing went back.

"Although these guys don't dare to touch you, you have to be careful. I don't want to hear news of you being injured." Lin Yi said, but he was still quite assured about Dafeng's safety.

"Thank you, boss. I understand. I was hesitating about what I could do before, but boss actually sent me back to the center. This is indeed the most suitable place for me. Take care, boss!" Dafeng bro bowed respectfully. He was really happy. Lin Yi thought about it for a long time before coming up with this plan.

"Take care, goodbye!" Lin Yi brought Han Jing Jing onto the flying saucer and waved his hand. The flying saucer flew towards the villa.

As soon as she returned to the villa, han Jingjing immediately started to study the wormhole information from the center. She had to figure this out as soon as possible, or it would take too long to come back to the Sky Class Island and settle the score.

Lin Yi wanted to test out the upgraded automatic furnace-if he could use the cores to make elixirs, he'd be able to make some Foundation and golden cores for the people in the mortal world.

After telling them not to disturb him, Lin Yi went back to his room and took out the Shennong cauldron, turning on the automatic refining device.

Han Jingjing's familiar smiling face appeared on the touch screen, and the text below was updated."The smart alchemy system Jing Jing created for Lin Yi bro V3.0"

After entering the system interface, there was a new option, 'spirit sense refinement fire'. Lin Yi was a little excited when he saw it, just like when he first refined elixirs.

He thought about how he had tried so many times in the immemorial small world but had never been able to refine a cauldron of elixirs with the inner cores of sea beasts. Now, he had finally succeeded. It was indeed not easy.

After choosing to use the spirit sense refinement fire, a few small options appeared. They were similar to the ones before-known elixir refinement, unknown elixir recipe analysis, and so on. Lin Yi had already given Han Jing a few recipes, and she had already entered them, so she could just choose the known elixir to refine.

Lin Yi still had a lot of the cores he got from the ancient martial world, and he decided to make a Foundation-level core first.

"Please wait a moment, Jing Jing is currently creating a script for Lin Yi bro's Foundation Stage golden core. After Jing Jing's calculations, putting in three sets of ingredients at a time will give you the maximum benefit, but it's best if the cores of sea beasts are of the same element, and the difference in levels can't be too big, or it'll affect the effect."

Lin Yi quickly picked out three cores with the same attributes and level-he didn't doubt Han Jing's hint at all. If he put in three cores that didn't meet the requirements, he might fail.

Other than the cores, the rest of the ingredients were all normal. Lin Yi had a huge stock of spiritual medicine, so he didn't need to worry about this at all.

After placing the three sets of ingredients into the Shennong cauldron, he pressed the confirm button. The words "analyzing" appeared on the screen, and the results quickly appeared.

"Foundation establishment Foundation establishment pill refining script has been generated. According to the weight of the materials, three sets of high-quality materials have been obtained. The estimated refining time is one hour and twenty-five minutes, and you can obtain five pills. Please prepare the spirit sense pill fire and keep inputting the data."

In terms of time, it was even faster than using Qi, fire, and herbs to make Foundation Stage golden elixirs. Lin Yi was quite satisfied with this-making five Foundation Stage golden elixirs in less than an hour and a half was heaven-defying.

After forming the spirit sense pill fire, Lin Yi started to focus on the tablet screen. Because of his strong spirit sense, the curve on the tablet was very smooth, with almost no extra twists and turns.

Finally, after an hour and twenty-one minutes, the cauldron of Foundation-building golden pills was completed. There was no need to open the lid, and a faint pill fragrance was already spreading out.

"This alchemy session has ended. Five pills have been refined, two high-quality pills, and three medium-quality pills. The script has been discovered to have the possibility of slight adjustments. The adjustments will be automatically adjusted in the next alchemy session."

Lin Yi blinked and smiled."Jing Jing is indeed amazing. The automatic alchemy devices are becoming more and more intelligent!"

The quality of the five foundation Stage golden elixirs was only average, so Lin Yi didn't really mind. After putting them away, he put in three more sets of materials and prepared for the second time.

Since the first try wasn't perfect enough, he'd have to make a few more times, of course. He'd wait until the script was perfect before making other elixirs. Lin Yi didn't have much else, but he had plenty of materials.

The second time, the quality of the foundation was much better, and the time was reduced by about three minutes, but there was still room for improvement. So Lin Yi didn't stop for a second and continued for the third time. Finally, he reduced the time by two minutes again and made five Supreme-grade special-grade pills.

"Beautiful! We don't have to worry about not having enough pills to level up in the Foundation Stage anymore, and we should be able to find enough sea beast cores on Sky Class Island as the main ingredients!" Lin Yi nodded to himself, satisfied. He put the foundation Cores away-it was time to make the Golden core.
