

Bodyguard 5801

Chapter 5801 Boss, You're Back!

Zhaoming glared at Lin Yi when they reached pinliang's room, signaling for him to stay put. He then knocked on the door with a respectful face, "Liang bro, Lin Yi's here!"

"Come in!" Pinliang said indifferently, and then went silent.

Kang Zhaoming was about to turn around and call Lin Yi when he was pushed to the side by Lin Yi's arm. Lin Yi then pushed the door open and walked in.

The decorations and decorations in this room were almost the same as those CEO's offices on earth. Sofa, desk, bar, wine cabinet, computer, and so on were all available. As expected, with a wormhole, you could get anything!

Pinliang was sitting at his desk with a serious face, clicking his mouse from time to time as if he was doing something important. He didn't seem to notice Lin Yi and Kang Zhaoming's arrival at all.

Lin Yi scanned with his spirit sense and laughed to himself. The kid was doing something important-he'd finished half of the advanced minesweeper skill already, and he couldn't afford to be distracted ...

Zhaoming squeezed his way past Lin Yi and jogged to pinliang's desk. He smiled and nodded, "Liang bro, Lin Yi's here! Do you think we should arrange for more people to come over? This kid is very dangerous!"

Pinliang didn't even want to talk to the idiot anymore-he could've done it a long time ago if he wanted to, what the hell was he even talking about right in front of Lin Yi? She was really worried about his IQ!

But since Kang Zhaoming had already said that in front of him, Zhong pinliang had to give up on the difficult mission of minesweeper. He raised his head and glanced at Lin Yi. His face was cold as he snorted with his nose. His expression was as if he was writing the word "looking down on you" on his forehead!

Lin Yi's heart sank-did pinliang really turn on him? He wasn't under Lin Yi's control at all, so it wouldn't be strange if he really did betray him.

However, Lin Yi still felt that it would be a pity if that was the case. After all, Zhong pinliang's performance before this wasn't bad, and he had gained the trust of the man.

Kang Zhaoming turned around and straightened his body. He raised his head slightly and said with pride, "Lin Yi, hurry up and greet Liang bro! Do you want to send a letter to the mortal world? I'm telling you, it's all up to Liang bro, do you understand? If you understand, then come over!"

Zhong pinliang's hatred towards Lin Yi was no less than his, and so Zhaoming thought that he'd be recognized for stepping on Lin Yi in front of Zhong pinliang. If it weren't for the fact that he was afraid of Lin Yi's anger, he would've been even more ruthless.

Lin Yi was already thinking about whether he should teach Zhaoming a lesson first, in case the guy forgot who he was and always jumped out arrogantly. It was annoying.

Pinliang said with a wave of his hand, "Zhaoming, you can leave first-I need to talk to him. You don't have to do anything else."

"Ah?" Kang Zhaoming looked back at Zhong pinliang in confusion. He realized that Zhong pinliang wasn't joking. He could only bow, "Okay, Liang bro, I'll be going now. Call me if you need anything!"

He really wanted to stay and watch what Lin Yi and Zhong pinliang were talking about, but he didn't dare to do that. He walked out obediently and threatened Lin Yi as he walked past, "Lin Yi, be careful-our people are outside, and if you do anything, I'll make sure you won't be able to walk out of the Chamber of Commerce alive!"

Lin Yi didn't waste any more time. He reached out and grabbed Kang Zhaoming's neck. He threw him out of the room and closed the door, cutting off the outside world.

The room was isolated from even spirit sense, so there was no need to worry about any sound going out. Pinliang wanted to talk to Lin Yi alone, so there was no need to worry.

As expected, pinliang's face changed as soon as the door closed. The cold and distant look on his face disappeared without a trace, replaced by a warm smile. He rushed over.

"Boss, you're finally back! I was so worried!" Pinliang couldn't hold back his excitement any longer-he gave Lin Yi a big hug and invited him to sit down on the sofa.

"Pinliang, you're doing pretty well, aren't you? you're already the Nakajima special envoy from central!" Lin Yi breathed a sigh of relief-pinliang was still the same follower he'd known before, and he hadn't betrayed him just because of his position.

"It's just a coincidence. Actually, what I want the most is to be able to stay by boss 'side. This Nakajima special envoy is so boring." Pinliang said with a smile. He turned around and took out a bottle of red wine from the wine cabinet, pouring a glass for both of them.

Taking the glass from pinliang, Lin Yi felt as if he'd returned to the common world-everything was exactly the same as it was back in the common world.

"Boss, I heard that you went back to the secular world, so I spent a lot of effort and went through many operations before I could be transferred to Nakajima. I wanted to know your situation as soon as possible. Unfortunately, it's been two years and you haven't come back. To be honest, I feel as if I've lost my backbone. Let's not talk about how anxious I am, but fortunately, you've finally returned safely. It's good that you're fine, it's good that you're fine!" Pinliang said as he clinked his glass with Lin Yi 's.

So pinliang came to Nakajima as a special envoy because he was worried about Lin Yi. Lin Yi didn't think that the guy's loyalty to him would be this high. He took a small sip of wine and smiled faintly, "That's nice of you-I heard from that Kang Zhaoming that you're the highest-ranking person in charge here as Nakajima's envoy, right?"

"That's right," pinliang said with a smile. "I'm basically in charge of the central affairs of the island, but I have a mysterious Man in Black above me. I don't know who he is, but I think he's in charge of all the central personnel of the Sky Class Island. As for the North Island, the person in charge is Xu lingchong. That guy's quite capable, and he's the best shield for me when I transferred to the middle Island, so no one suspected anything."

Lin Yi understood pinliang's intentions-two tigers can't live on the same mountain. Since lingchong was in charge of the North Island, pinliang naturally had to find another place to develop. He probably didn't consider him at first, but with lingchong's excuse and his own operations, he was able to come to the middle Island.

Pinliang may have made it sound like it was nothing, but Lin Yi knew that the process wasn't going to be easy.

Chapter 5802 Who Is Master Pao?

"Right, how many of the higher-ups are there on Sky Class Island?" Lin Yi wanted to get to know the central power structure of this place, so it would be easier for him to deal with them in the future.

"Boss, I'm not sure about that. It's always been that mysterious Man in Black contacting us. I mean, the Nakajima district's special envoy isn't even close to being in the central circle." Pinliang smiled bitterly.

Lin Yi nodded-this was normal. If pinliang had been able to make it into the core of central in such a short time, it'd only mean that he was suited to work for them. It'd be better for him to join them as soon as possible.

"Then you should know what central has been doing recently, right?" Lin Yi decided to settle for the next best thing-the problem should be a lot simpler. With Zhong pinliang's identity as the Nakagama Island Special envoy, even if he couldn't directly participate in the core of the plan, he had to at least be able to cooperate.

It was easy to find some clues from those clues and deduce what central wanted to do.

Pinliang said after some thought,"as for their movements ... I heard that central has a plan for the South Island or something. I'm not too sure about the details, but the mysterious man in Black and master Pao are in charge of it. I didn't get much information."

"Master Pao? Who's there?" Lin Yi asked, confused. This person might be a key figure in central-it'd be great if he knew more about him.

"I'm not too sure," pinliang shrugged. "I've only seen him once, wearing a hooded cloak and a black face cloth. I was thinking if he was Pao, but he didn't say anything, so I didn't dare to think too much."

Lin Yi's heart jumped-it was a possibility, but there was no rush. He'd look into it later-if master Pao really was Zhang naipao, pinliang might be able to reverse the situation.

Speaking of which, Zhong pinliang's authority as Nakajima's special envoy was a little too low. He didn't have much useful information, but he hadn't been in central for long. It was already hard for him to rise up the ranks, so he shouldn't have too many requests.

"Boss, there are no more problems with the letter you wanted to send. I specifically asked the people above and said that you and central have reached a one-year non-aggression agreement, as well as the opening of the wormhole pathway and research rights to you. We'll just stay out of each other's business and develop on our own, so if there's anything we need to teleport, we can do it at any time. " Pinliang didn't say much about Pao and turned back to Lin Yi's letter.

Lin Yi nodded casually. He should've informed the people of Sky Class Island about the agreement with central already, but pinliang didn't know about it until now. It seemed that pinliang was only a high-ranked special envoy on the surface, but he was still an outer member.

Pinliang paused for a second before asking, "Boss, why do we have to sign a one-year armistice agreement with central? If the southern island Plan is carried out and you want to destroy it, wouldn't that be the same as tearing up the truce agreement?"

Lin Yi blinked as he turned to pinliang. "So you're saying that the agreement between central and I includes the Sky Class Island?"

"Isn't that so?" Pinliang didn't know what was going on-that should be what the higher-ups were saying, but Lin Yi didn't seem to think so.

Lin Yi smacked his forehead, "I get it now, it's really that woman LAN xiaoru's fault!" Her agreement didn't state whether it was the common world or Sky Class Island, only between central and me, which naturally included all the places! She probably just wants me to go back to Sky Class Island, so she can't just get in my way, right?"

Han Jingjing had already carefully found a hidden loophole in the agreement. She did not expect there to be another one here. However, she could not be blamed for this. Perhaps han Jingjing did not think that there would be any problems with a total truce with central for a year.

This was all because of the information imbalance. If han Jingjing had known about the South Island Plan in the center of Sky Class Island, she would have suggested a one-year period only for the secular world.

Pinliang said, understanding the situation. "Boss, central has been trying so hard to get you not to interfere with their plan. It's obvious that this is very important to them. It's fine if you don't want that agreement. You must not let central do what they want smoothly!"

Lin Yi nodded, "you're right, but since it's been set, I have to follow it. Although neither of us really care about this agreement, I won't be the first to go back on my word!"

"Then what should we do?" Pinliang didn't think it was a big deal to tear up the agreement, but Lin Yi had to keep his promise. Pinliang would only respect Lin Yi more, and only people like him were worthy of his loyalty. People like Kang Zhaoming, who treated promises like farts, would never be trusted.

Lin Yi didn't answer immediately, but closed his eyes to think. After a while, he smiled faintly. "We won't take the initiative to tear up the agreement, but if central makes the first move, I won't have anything to worry about!"

Pinliang's eyes lit up as he laughed, "It's boss indeed! That's right! We can just let central tear up the agreement!"

Now that he knew that central had a plan for the South Island, Lin Yi only needed to set up his plan there first. Central would definitely have a conflict with him because of this, and he could say that central tore up the agreement. It was the truth, too.

The only thing to worry about was the southern part of the island. Lin Yi would have a 90% chance of escaping if he went there, and who knew what would happen if he went back and started his plan? The spirit beasts weren't easy to deal with, especially the Vermilion Bird. Lin Yi knew that he was no match for the Vermilion Bird at his current level, and he could be killed easily if he was discovered.

Pinliang patted his chest before Lin Yi could say anything. "Boss, don't worry. Regarding the southern island Plan, I will definitely speed up the investigation. As long as we have the detailed location and target, it will be much more convenient for us to prepare in advance. When the time comes, it won't be us who'll cause trouble, but central who'll cause trouble for us!"

"Good! However, you must pay attention to your own safety. You can't expose yourself for the sake of getting information. Remember this, haste makes waste!" Lin Yi said seriously. Pinliang's safety had to be taken into consideration if the guy was serious about following him.

Chapter 5803 Good Acting

If it weren't for Chen Dongcheng's betrayal back in the sacred zone, Dafeng bro would've been dead for sure-Lin Yi didn't want that to happen to pinliang again.

So he'd rather give up on the plan to destroy the center than let Zhong pinliang get caught because of this!

Lin Yi's words were simple, but pinliang understood the underlying meaning. He was grateful for what Lin Yi had said, and raised his glass."Boss, I won't say anything else. I wish us success!"

Lin Yi finished the wine in his glass and put it down,"Then I'll go back first. If there's any news, let me know!"

"I'll remember that! Boss, please wait a moment, let me clear the cups first!" Pinliang finished his drink as well, washing Lin Yi's glass and putting it back.

He poured some red wine into his own glass and put it on the desk. People who came in would think that pinliang was drinking alone, and wouldn't want to drink with Lin Yi at all.

Lin Yi nodded to himself-pinliang seemed to have matured quite a bit, after all. He'd be dead by now if he'd noticed something wrong.

After everything was done, pinliang turned to Lin Yi with a smile. "Boss, I'll have to trouble you again!"

Lin Yi smiled nonchalantly and waved his hand, telling pinliang to do what he wanted. He'd only be happy and at ease to see him like this-there wasn't any grievance at all.

Pinliang turned back to his desk and sat down on his chair with a glass of wine in his hand. He put his legs on the table, his face cold and proud again. Lin Yi had to give him a thumbs up for his acting!

"Kang Zhaoming, come in for a moment!" Pinliang said coldly as he pressed a button on the side of the room. This was probably a technology from the secular world, or he wouldn't be able to let anyone hear him even if he shouted in the room.

Three seconds later, Kang Zhaoming knocked on the door and entered the room. It was obvious that the guy had been waiting outside the whole time.

"Liang bro, you were looking for me?" Zhaoming came in with a big smile on his face. He was happy to see pinliang and Lin Yi sitting on the sofa without even a cup of tea in front of them.

Pinliang sniffed, his face expressionless. "The higher-ups said that we've signed a one-year truce with Lin Yi, and that we'll let him use the path to the secular world unconditionally. Send him out now, I don't want to see him again!"

Kang Zhaoming wasn't surprised by the news. He must have heard about it before. He turned to Lin Yi and said, "Did you hear that? Hurry up and leave, don't be an eyesore here. Fortunately, you were tactful and signed a truce with us. Otherwise, you wouldn't be able to leave this door today!"

It was all bullshit-Zhaoming only had the guts to say that because he knew Lin Yi wouldn't do anything to him.

Lin Yi laughed coldly, "Zhong pinliang, Kang Zhaoming, you're just two small fries from central. You don't even have the right to talk to me. I only made two trips here today because of LAN xiaoru. If you trouble me again, I'll kill you two and LAN xiaoru won't have anything to say!"

Zhaoming's body shook as he thought that it was possible! To the higher-ups in central, he was just a replacement chess piece. Even if Lin Yi really killed him, no one would come to avenge him.

Zhaoming was starting to lose hope at the thought-he hmped, "Stop talking nonsense. I said that you're not welcome here. If there's nothing, don't come!"

She didn't wait for Lin Yi to continue speaking and quickly pulled open the door, signaling for Lin Yi to leave!

Lin Yi gave pinliang a look as a farewell with his back to Zhaoming. He smiled coldly, "Zhong pinliang, send my letter out properly. If anything goes wrong, I'll come back to you!"

Zhong pinliang's face was calm and composed, as if he didn't want to talk to Lin Yi at all. Kang Zhaoming, who was standing at the door, was deeply impressed. He dared to throw a tantrum at Lin Yi. As expected of Liang bro! No wonder he's the envoy, and I'm the assistant! This doesn't make sense!

Lin Yi didn't want to waste any more time since he'd achieved his goal. He turned around and left after a few lines, not paying any attention to Kang Zhaoming.

Kang Zhaoming didn't dare to continue provoking Lin Yi. He didn't have any Masters protecting him now. He wasn't stupid enough to force himself on something that was obviously disadvantageous to him.

Hou guanqi from the pill Hall, Cai Zhongyang from the five elements Chamber of Commerce, and Wei shenjin from the snow sword sect were all here when he returned. They all came up to welcome him.

"Lil bro Lin, you're finally back! Sure enough, heroes come from youngsters. His primordial spirit projection took two years at once. It really made people anxious to death! If I hadn't just received the news, I wouldn't have known that you were back. I'll drink three glasses as a punishment!" Cai Zhongyang laughed and was the first to speak, his face full of joy.

As the Vice President of the five elements Chamber of Commerce, he was naturally very sophisticated when it came to dealing with people and things, but Lin Yi could feel that Cai Zhongyang was being sincere!

Although hou guanqi was Cai Zhongyang's senior, he didn't want to be the first. After Cai Zhongyang finished, hou guanqi stepped forward and cupped his fists. "I've said it before, brother Lin is blessed by the heavens. There won't be any problems. As expected, it's just as I've expected, right?"

The last question was directed at Cai Zhongyang, and he immediately laughed in agreement.

Wei shenjin was the last to come up, and he shouted with excitement, "Boss, you're finally back!"

The three of them took care of the sky elixir Pavilion when Lin Yi wasn't around, but the one who spoke the most was naturally Wei shenjin. It was just that he had something to do at the sect today, so he didn't hear the news of Lin Yi's return immediately.

When Lin Yi took him in, he used the heart-devouring Gu insect. If he didn't come back, Wei shenjin would be buried with Lin Yi. At first, he was worried about the Gu insect, but slowly, he fell in love with the heavenly elixir Pavilion and wanted to follow Lin Yi. Seeing Lin Yi come back, he was really happy from the bottom of his heart.

This time, it was all thanks to Lin Yi giving the prescription to Tian Gang in advance. Otherwise, Wei shenjin might not even have bones left after two years.

"Since everyone is here, it's better to have a chance encounter than to invite you. Let's have a meal together!" Lin Yi greeted them with a smile, thanking them all for taking care of the sky elixir Pavilion before inviting them to dinner.

Chapter 5804 God-Gathering Branch

At their level of cultivation, they had no need for food at all. However, eating something rich in spiritual energy could not only satisfy their appetite, but also improve their cultivation, so why not?

The group followed Lin Yi to the living room as they talked. Tian Gang and Xue Li didn't come to accompany them, they were busy making food.

"Brother Lin, I'm late today because I'm preparing to go to the northernmost Island to participate in the auction. If you'd come back a day or two later, you might not have seen me on the middle Island." Cai Zhongyang laughed and explained the reason why he couldn't come today.

Hou guanqi was in the middle of making a batch of pills, so he came over as soon as he received the news.

Lin Yi waved his hand. He didn't care about these small things, but he was very interested in the auction. He'd been to the auction on the northernmost Island with hongzhong once, and he still remembered it clearly. This news was very tempting.

Anyway, he wanted to go back to the North Island. The northernmost Island was the closest to the North Island, so it would not delay anything if he went back.

"Brother Cai, when will the auction on the northernmost Island begin? when are you going to leave?" Lin Yi asked casually. He didn't have to go to the auction if the time didn't match up.

Cai Zhongyang laughed and said, "the auction will start in about half a month. We are almost done with our preparations. We will probably leave in two days. Brother Lin, are you interested in going with us?"

Lin Yi muttered to himself, not immediately answering Cai Zhongyang's question. If han Jingjing could wake up successfully, he would be able to go to the auction on the northernmost Island without worry. However, Cai Zhongyang's group had to leave in two days, and they were a little rushed. He didn't know if han Jingjing could return in two days.

If he let han Jingjing continue to be unconscious like this, Lin Yi wouldn't be able to leave the central island at all. Whether it was going back to the North Island or investigating and sabotaging Central's plan on the South Island, it couldn't be compared to han Jingjing.

Hou guanqi saw that Lin Yi didn't say anything and spoke up after some thought, ""Brother Lin, I've heard about miss Han's situation. It's a pity that Junior Brother Cai and I are too weak in alchemy and can't help much. However, I think you should go to the auction on the northernmost Island."

"Is there something at the auction that can help Jing Jing?" Lin Yi asked.

Without waiting for hou guanqi to answer, Cai Zhongyang clapped his hands and said, ""That's right, if it wasn't for senior brother's reminder, I really wouldn't have thought of this!"

After saying that, Cai Zhongyang realized that it would be rude of him to rush to speak, so he quickly apologized to hou guanqi, ""Senior brother, I'm sorry. I was too excited and interrupted you."

Hou guanqi waved his hand and smiled. "We're all brothers. What's there to apologize for? you know this better than I do. It's more appropriate for you to say it."

Lin Yi didn't care who said it, as long as it could help han Jingjing. He didn't want to rush them, though, so he looked at the two with anticipation.

Cai Zhongyang didn't stand on ceremony. After he cupped his hands and apologized to hou guanqi, he immediately said, ""It's like this, in this auction on the northernmost Island, it has been confirmed that there will be several precious items participating in the auction, one of which is a treasure that will be beneficial to miss han,"

"Brother Cai, please explain in detail!" Lin Yi was in a hurry, but Cai Zhongyang didn't get to the point.

"In this auction, a spirit gathering branch has appeared. This is a treasure that can condense a primordial spirit. As long as you carry it with you, you can continuously nourish your primordial spirit and gather the power of your soul. Miss Han's current condition is that her primordial spirit has not returned to her body after being projected. If you have a spirit gathering branch on you, you should be able to guide the return of your primordial spirit. Even if you can't wake up for a while, you can slowly gather the power of your primordial spirit." Cai Zhongyang was quite detailed in his explanation, and this spirit gathering branch was indeed very useful to Han Jingjing.

Lin Yi decided that he'd have to get the branch no matter what. Even if Han Jingjing woke up before this, the branch would still be useful.

Cai Zhongyang saw that Lin Yi was interested and continued, "In addition to the spirit-gathering branch, there's also the soul-nourishing wood. However, this is a treasure that nourishes the primordial spirit. It won't be of much help to Miss Han's situation, but if these two things can be used together, the effect may be enhanced."

Lin Yi's heart moved-the soul raising wood wasn't much use to Han Jing Jing, but it should be useful to ghosts. Besides, it would be very useful for spirit projection in the future.

"Brother Cai, it seems that I'll have to follow you to the auction this time. I'll have to trouble you to take me there." Lin Yi smiled and cupped his hands at Cai Zhongyang. He could go to the northernmost Island himself, but it would be more convenient with Cai Zhongyang.

Whether it was the soul raising wood or the spirit gathering branch, the people fighting for these treasures would be quite shocking. Lin Yi wasn't sure if he'd have enough money to buy them, so he had to make more pills to sell on the way.

Cai Zhongyang laughed. "You're too kind, brother Lin. It's no trouble at all. It's my honor to have you with me!" When the time comes, I'll have to ask you for some knowledge about alchemy!"

It wasn't a polite remark. Although Cai Zhongyang was the disciple of the elixir God Zhang Liju, his elixir making skills were far from Zheng Dongsheng 's, let alone Lin Yi. After all, Lin Yi's elixir Master title was one of the top two in the East continent!

"That means I have to go with you," hou guanqi said. "Otherwise, I'll miss such a great opportunity!"

"Haha, of course senior brother will come along. It's such a rare opportunity, wouldn't it be a pity to miss it?" Cai Zhongyang's face was filled with joy. The more people there were, the better. At that time, there would be more momentum.

Wei shenjin also said, "boss, can I go too?" Although I don't know much about pill Dao, running around and doing odd jobs isn't a problem. "

In the snow sword sect, Wei shenjin was a special one. If he wanted to go with Lin Yi to the northernmost Island, no one would object.

Lin Yi thought about it and nodded. Wei shenjin had been doing his best for the past two years, and it was rare for him to ask for something like this.

Chapter 5805 The Conspiracy Of The Famous Medicine Sect

Cai Zhongyang smiled and said, "it's good that Wei is coming. There should be something suitable for you to auction on the northernmost Island. Just remember to bring enough spiritual Jade!"

After deciding on who to go with them, Cai Zhongyang turned to Lin Yi, "Brother Lin, this time we're taking a giant treasure ship to the northernmost Island. The ship we've booked will dock tomorrow night. If we're on time, we can set off the day after tomorrow. I'll let you know when the time comes."

"Then I'll have to trouble brother Cai!" Lin Yi thanked him with a smile before raising his glass. "Let me propose a toast to all of you. Thank you for taking care of Tiangang Xue Li in the past two years!"

The three of them hurriedly raised their glasses and exchanged a few polite words before Downing their glasses in one go.

While the atmosphere in the heavenly elixir Pavilion was harmonious, the atmosphere in the medicine sect was heavy. Lin Yi's sudden return made Zheng Dongsheng a little uneasy. He was just discussing Lin Yi's matter with Wu Miao and Nantian guangzhao, and now this guy had jumped out.

If this went on, Zheng Dongsheng could almost feel that he would be kicked out by Lin Yi again. It was enough to have this experience in the East continent, he didn't want to have it again in the middle Island.

Zheng dongjue put down the teacup in his hand with an expressionless face and said indifferently, ""Cousin, since that Lin Yi kid is back, there's no doubt that the heavenly elixir Pavilion will be revived. Do you have any ideas?"

Zheng Dongsheng said impatiently, "what ideas can we have? let's wait for Wu Miao and Southern sky Aurora to discuss it together!" He had to come up with an article! Dongjue, can't you send some spies to the heavenly elixir Pavilion? Don't you know that we're at a disadvantage because we don't have accurate information?"

"There are only a few people in the heavenly elixir Pavilion. It's not easy to bribe them, let alone plant spies!" After Zheng dongjue snorted, he said with some dissatisfaction, ""Cousin, isn't Tong Yang's death a little too worthless? Next time, don't bring people to do such meaningless things. "

Meaningless things? Zheng Dongsheng was secretly annoyed. However, Tong yangfei was Zheng dongjue's man. If he followed him out and was killed by Tian Xing Dao, he could not say anything. It was only right for Zheng dongjue to complain.

"F * ck, you come in!" After Zheng dongjue finished speaking, he raised his voice and called in a tall and thin man from outside the door.

This thin and tall man had a gloomy face, but his eyes were extremely sharp. He did not speak when he walked in. He just cupped his fists and bowed to Zheng dongjue and Zheng Dongsheng. Then, he stood up straight and stood to the side.

Zheng dongjue pointed at the thin and tall man and said to Zheng Dongsheng, ""Cousin, this is Tong yangfei's younger brother, Tong wofei. They've been with me for many years, and can be considered my right-hand men. I'll leave him to you this time, so you must protect him."

"Naturally!" Zheng Dongsheng smiled and nodded at Tong wozui. Without Tong yangzui by his side, it was a bit inconvenient to do things. Now that Tong wozui had come over, it could be considered a big help to him, so his attitude was still considered gentle.

As for Tong Yangxin's death because of him, Zheng Dongsheng never thought that way. The people around him had to be prepared to die at any time.

Tong wozian cupped his fists and bowed again, finally saying, ""Master Zheng, I'll definitely do my best to assist you. I'll also avenge my brother!"

Zheng Dongsheng nodded and promised, "of course. I'm also very sad about yangfei's death. This revenge must be taken. Don't worry, Tianxing will take care of him sooner or later. As long as you can do your best, you will be able to see this scene soon."

"Thank you, master Zheng," Tong woyin said through gritted teeth. "Please hand over the punishment of heaven to me when the time comes. I won't be able to dispel the hatred in my heart until I cut him into a thousand pieces!"

"Of course, there's no problem. Tian xingdao, this ignorant fellow, deserves to have such an ending." Zheng Dongsheng readily agreed to Tong yangzhui's request. He didn't need to offer any benefits, so it was a good deal to get Tong yangzhui's gratitude and loyalty.

Zheng dongjue smiled. "Cousin, Tong wozha is a meticulous person. He's a rare think tank. I've asked him to come here. Maybe he can give us some useful advice."

"Oh? He was such a rare talent! Come, come, come, sit down and talk!" Zheng Dongsheng showed a surprised expression and warmly greeted Tong wozui to sit down. He looked like a gentleman, but Tong wozui knew that he was sincere.

After thanking him, Tong wuhui also sat down, but he only held half of the chair and straightened his back, not daring to show the slightest disrespect.

"Hey, you tell me, do you have any ideas on how to deal with the heavenly pill Pavilion?" Zheng dongjue casually glanced at Tong wocai and said indifferently.

This was to let Tong wozhui show off in front of Zheng Dongsheng. Tong wozhui immediately cupped his fists and said, "I thought that since Lin Yi has returned, the heavenly elixir Pavilion wouldn't be able to do anything for the time being. Not to mention his strength and ability, just ao Tian Zhou, hou guanqi, Cai Zhongyang, and that guy from the Tianxing path have a terrifying amount of support for Lin Yi. Before he returned, this support would not have fully manifested, but now, it's at the peak. "

Zheng Dongsheng felt strange and asked, "don't you want to take revenge on the heavenly path?" The heavenly elixir Pavilion and the heavenly path are actually two entities in a single body. You should understand this, right?"

"Master Zheng, of course I know that. However, revenge is revenge, and it needs a suitable time. I won't let hatred get to my head and make some wrong judgments!" Hatred appeared on wooshui's face, but he quickly suppressed it.

Zheng Dongsheng nodded with satisfaction. "Not bad. It's good that you can think like this. Continue, we can't touch the heavenly elixir Pavilion now. What should we do?"

"It's very simple, pull the firewood from the bottom of the cauldron!" A trace of madness flashed in Tong wohui's eyes, and even Zheng Dongsheng and his brother didn't notice it, "I think that the heavenly elixir Pavilion itself is nothing to be afraid of, and Lin Yi won't always stay in the middle Island. He'll only come here occasionally, so we just need to get rid of the heavenly elixir Pavilion's supporters!"

"Are you trying to say that you want to remove the acting Island Lord position in the otian state? It's not that we haven't thought of this method, but it's not very useful!" Zheng Dongsheng was a little disappointed. If Tong wohui only had this much knowledge, he could not be called a wise man.

"Master Zheng is right, but that's only one of the aspects!" Crouching Tong smiled darkly, his face full of confidence. ""The otian state will always be the acting Island Lord. As long as there are any mistakes, he can be impeached. Even if he has the otian family behind him, there will be no changes."

Chapter 5806 Important Person

"F * ck you," Zheng dongjue said indifferently. "Tell me your specific plan. Don't waste any time!"

"Yes, vice Hall Master!" Crouching Tong bowed slightly and then said, ""Ao Tian state must be moved. The breakthrough point is his brother ao Tian BA. This subordinate has received news that ao Tian BA has already formed a small-scale treasure ship caravan. We can think of a way in this regard. As long as he's in trouble, our acting Island Lord will definitely not stand by and do nothing!"

Zheng Dongsheng's eyes brightened. Why didn't he, Wu Min, Nantian Aurora, and the others think of this? Ao Tianba was indeed quite a character, but it wasn't difficult to kill him just because he was causing him some trouble.

If ao Tianba was still on his ancient battleship, it would not be easy to deal with him. However, since he had formed a small-scale treasure ship caravan, there were many more opportunities!

Crouching Tong stuck out a finger, indicating that he had only said the first point. He then stuck out a second finger and said, ""The AO Tian state's matter can't be settled so quickly, so we have to do a multi-pronged approach. The second person we have to make a move on is hou guanqi from the pill Hall. With

him here, it won't be easy for us to control the pill Hall. His support for the heavenly pill Pavilion is only second to the AO Tian state!"

Zheng dongjue's lips curved into a smile. Compared to destroying the heavenly elixir Pavilion, he hoped that he could control the hall of alchemy. Zhang Liju couldn't always show up at critical moments. As long as he could control the hall of alchemy completely, he would be able to slowly wear Zhang Liju's influence away. So, Tong wohui's suggestion was very much to his liking.

"To deal with hou guanqi, we can't do it on Middle Island. After all, the influence of the pill Hall here is too great. Without a thorough plan, it's almost impossible to succeed. It's the same for Cai Zhongyang of the five elements Chamber of Commerce!" Crouching Tong extended three fingers in a row, indicating that these three people were the most important.

As for Tian Xing Dao, Tong wozhuan didn't specifically mention it. It was obvious that he didn't think that Tian Xing Dao was a threat. It was unknown whether he was just trying to take revenge, or if he really thought so.

Zheng Dongsheng nodded again and again. Although the details of the plan were not mentioned, this direction should be correct. It was obviously much more brilliant than the plan he had discussed with Wu Tong and Tian Guangming before.

"It's not easy to deal with these people, but this is a great opportunity!" Tong wozian laughed coldly and retracted his finger, showing his strong confidence.

"What do you mean?" Zheng Dongsheng was attracted by Tong wuhui's words and couldn't help but ask.

"The auction on the northernmost Island!" Tong wooshan clenched his fists, making a cracking sound. At the same time, he stopped smiling and said in a certain tone.

Zheng dongjue interjected. "The pill Hall will also be participating in the auction on the northernmost Island, so I'll think of a way to send hou guanqi to the northernmost Island. Cai Zhongyang from the five elements Chamber of Commerce should not be absent. The two of them will definitely be traveling together. Wooshan, our most important goal now is to control the pill Hall, so when you make plans, you must put this goal as the top priority. One more thing, don't mess with Lin Yi for now-anything that might cause conflict with him, put it aside!"

At this time, Zheng dongjue did not know that hou guanqi had decided to go to the northernmost Island. Otherwise, he would have laughed and said, "God is helping me!" He didn't even need to think of a way to achieve his goal. This was a good start!

"I understand. Don't worry, vice Hall Master!" Crouching Tong bowed respectfully and continued, ""Hou guanqi and Cai Zhongyang are heading to the northernmost Island together. This is the best time to strike. According to the information I received, they will be taking ao Tianba's ship. We must grasp this golden opportunity!"

Zheng Dongsheng couldn't help but be slightly moved. He didn't expect that the three important figures in Tong woken's plan would all gather together at once. It was indeed a heaven-sent opportunity. After leaving Nakajima, it would be much easier to deal with the three of them.

Once something happened to ao Tianba, the AO Tianzhou would definitely not sit by and do nothing. Zheng dongjue and the others would take the opportunity to make trouble, and it would not be a problem for them to remove him from his position as the acting Island master!

This F * cking referee really did have the appearance of a think tank!

"If we want to deal with them on the ship, we'll need our men to go with us. Do you want to go with us, Tong wuzhui?" Zheng dongjue smiled with satisfaction. How many helpers do you need?"

"Of course, it'll be easier for me to control the situation if I go with you. I'll be able to make adjustments if there are any small changes! As for helpers, I don't need too many, or else it'll easily raise their vigilance. Just two or three experts will be enough!" "Yes!" Tong wozhen replied respectfully, showing enough confidence.

Zheng Dongsheng clapped his hands and laughed, "good! As long as this is done, you can get whatever reward you want, especially in terms of medicinal pills. As long as you can find the herbs, I can refine them for you for free!"

"Many thanks, master Zheng! This subordinate will do anything for you, even if it means sacrificing my life!" Tong wohui's face was full of excitement and gratitude, but he was very disdainful in his heart. Free alchemy was good, but after doing such a big thing, he had to find his own spiritual herbs to make elixirs. It was really too stingy.

Zheng dongjue smacked his forehead and said, "by the way, cousin, there's something I forgot to tell you. There's an important figure among the people from our pill Hall who are going to the northernmost Island this time. I heard that grandnephew Tian Qing is young and promising. He's a rare Qilin son of our Zheng family. Why don't we let him go with us this time? if there's a chance on the way, we can get our hands on that important figure. Then, the day that the pill Hall will fall into our hands will really be close!"

"Oh? Why is it so important?" Zheng Dongsheng was slightly surprised. His grandson, Zheng Tianqing, was only in his early twenties, but he had already reached the early stage of Yuanying realm. He was

indeed a good genius, especially Zheng Tianqing's cultivation. He did not rely on the accumulation of many medicinal pills, which was quite rare.

This time, he had just come to Nakajima from the East continent, and Zheng dongjue had not even seen him yet. How could he have set his eyes on him?

Zheng dongjue smiled mysteriously and said in a low voice, "Don't worry, cousin. Do you think I would harm Tian Qing? If it wasn't for Tian Chu's incompetence, I might not have allowed Tian Qing to interfere!"

After that, without waiting for Zheng Dongsheng to ask, he directly leaned over and waved to him to come closer.

Zheng Dongsheng was curious, so he followed Zheng dongjue's example and leaned over, letting him say a name in his ear in an inaudible voice.

Chapter 5807 The Hidden Identity

After hearing this name, Zheng Dongsheng's face was suddenly filled with shock, which immediately turned into great surprise. He suddenly reached out and grabbed Zheng dongjue's wrist, saying, ""Is what you said true? Is she really going to follow us to the northernmost Island?"

Zheng dongjue chuckled. "Of course it's true. Moreover, you only know her superficial identity. You'll never know her other hidden identity."

"He still has a hidden identity? What is it?" Zheng Dongsheng was slightly stunned. The identity on the surface was enough to match his grandson, Zheng Tianqing. What other hidden identity was there?

"You don't need to know about this for the time being. If Tian Qing can succeed, I will definitely tell you in detail. But now is not the time yet. Cousin, you only need to tell Tian Qing to do his best in this matter, he will definitely not suffer a loss!" Zheng dongjue waved his hand. He had no intention of revealing the answer to Zheng Dongsheng's question.

Zheng Dongsheng could only endure the unbearable feeling of itching in his heart. Since Zheng dongjue didn't say it now, there must be a reason. He wouldn't force the other party to say it.

In any case, that person's superficial identity was enough to match his grandson, Zheng Tianqing. His other hidden identity was not important for the time being.

"Good! Since that's the case, I'll have Tian Qing follow us!" Zheng Dongsheng nodded his head hard, then turned to Tong wozhui and said, "F * ck, I'll leave my grandson in your care. Remember, his and that person's safety is the most important. As for the rest of the plan, you can act according to the situation. You'd rather let him go than get yourself into trouble, understand?"

"Your subordinate understands!" "Yes, master!" Tong wofei cupped his fists and bowed his head, respectfully agreeing. However, as he lowered his head, a trace of disappointment flashed in his eyes.

Zheng Dongsheng was overcautious and indecisive in doing things. He really didn't have any courage. It was almost impossible for this kind of person to have any big development.

"Alright, you can leave first. Go and arrange the manpower and other matters. Under the premise of ensuring the safety of Tian Qing and that person, find a way to complete the task with the least

movement and cost!" Zheng Dongsheng solemnly ordered, then waved his hand to send off crouching Tong.

The schedule for the northernmost Island was settled here, and the heavenly elixir Pavilion was almost done. Hou guanqi and Cai Zhongyang both had to continue their preparations, so they left. Wei shenjin stayed for a while longer before leaving the heavenly elixir Pavilion.

After everyone had left, Lin Yi left the heavenly elixir Pavilion and flew towards the beach. With his speed, he could get there in no time. The reason why he came to the beach at night was not to find some romance, but to let LAN Guzha out.

It wasn't easy to explain LAN Guzha's origins if he suddenly appeared in the heavenly elixir Pavilion, and Lin Yi needed LAN Guzha's identity as the Overlord of the sea. The trip to the northernmost Island would be much smoother with LAN Guzha swimming in the nearby sea, so he put LAN Guzha in the sea without hesitation. If they met by chance in the future, LAN Guzha would be able to follow him.

After coming out from the Jade space, LAN Guzha stretched lazily and made a crackling sound. He then looked around curiously and said, "Boss, this is Sky Class Island? It doesn't seem like there's anything fun to do. It's no different from a small world!"

Lin Yi smiled faintly, "LAN Guzha, I've mentioned it to you before. I'll let you swim in the surrounding sea and help me collect some sea beast cores. Now, you have to protect the ship from afar. When we reach the shore, you can find any excuse to meet me."

LAN Guzha didn't want to leave Lin Yi's side, but since Lin Yi had made up his mind, he wouldn't object. He could only hope that there were enough sea beasts in this Sea area. He was a King of the endless sea, after all. It would be very satisfying to show off here! They were also protecting the area around Lin Yi, not too far away from him.

"LAN Guzha, your strength is indeed the top existence in the immemorial small world. However, there are countless people stronger than you on the Sky Class Island. Not only are there people in the mountain opening stage, the earth splitting stage, and even the sea splitting stage, especially in the depths of the major sea areas. Although you are a flood Dragon in the Sea, you must not be careless!" Lin Yi warned LAN Guzha with a serious face. A late-stage xuansheng might not look weak, but it was still an ant compared to the real masters in the sea.

For example, the Dragon of the five demons was thousands of times stronger than LAN Guzha, but he still hid in his lair and did not dare to come out. Of course, it was also because he was targeted by the Vermilion Bird. Otherwise, it should not be too much of a problem for him to become an Overlord of a region.

LAN Guzha laughed nonchalantly, "don't worry, boss. I, LAN Guzha, have always been cautious in my actions. I will never do anything that I'm not confident in. Anything that I do will definitely be done. With my top talent that is second only to you, boss, I will be able to improve my strength very quickly and become a true king of the sea!"

Lin Yi smiled faintly. LAN Guzha was cautious? This joke was not bad! However, his talent was indeed quite strong. It shouldn't be too difficult for a mutated Sea Dragon to break through the xuansheng stage and enter the mountain opening stage. If he could evolve into a real Sea Dragon again, even the sea splitting stage and the earth splitting stage wouldn't be too much of a hindrance.

"Alright, you can go now. Be careful. When you enter the mountain-opening stage, come back and follow me again!" Lin Yi smiled and waved at LAN Guzha, setting him a target.

This was not a difficult task for LAN Guzha. After the sea serpent Dragon returned to the sea, leveling up was a relatively simple matter. He estimated that he would be able to achieve this goal in no time.

LAN Guzha patted his chest and laughed, "Don't worry, boss. I, LAN Guzha, still want to follow you to play everywhere. It's just the opening of the mountain. It won't take more than a few months!"

If they were still in the immemorial little world, LAN Guzha would not have dared to make such a big statement. Every small level in the mysterious Ascension stage required decades of accumulation. However, after arriving at the Sky Class Island, LAN Guzha could clearly feel the difference between this place and the immemorial little world. Although he could not explain it clearly, he could feel that his cultivation had a desire to soar to the sky. Perhaps it was because the spiritual Qi here was more abundant, or perhaps it was because the heaven class island's laws of heaven and earth were more complete. There was no suppression of realm strength.

No matter what, LAN Guzha had a vague feeling that it would not be difficult for him to improve. However, he did not think that he would be more powerful than his boss even if he had reached the beginning stage. At most, he would not be a burden.

Chapter 5808 Mountain Gaze Pill

The two of them could use communication beads to communicate under normal circumstances, but to prevent any special circumstances from happening, Lin Yi and LAN Guzha agreed on a way to contact each other on the sea without using communication beads before letting him leave the island.

After returning to the sky elixir Pavilion, Lin Yi started making level six and seven elixirs. First, it was for the sky elixir Pavilion to sell, and second, it was to prepare for the auction. Of course, if he wanted to use the elixirs to raise funds to buy the soul-raising tree, level six and seven elixirs were probably not enough.

The Thunder profound pill, a Yellow Class level Seven elixir, was precious, but if one wanted to buy a treasure like the soul-nourishing wood with it, they had to pile it up in quantity.

Lin Yi didn't want to use all his Thunder mystical vines to make Thunder mystical pills and Exchange them for the spirit gathering branch and soul nourishing wood-that would be too much of a waste. The best way was, of course, to make Mystic first level pills.

For example, the earth stabilizing pill was a pill that could be used even in the groundbreaking stage. Or, the mountain gaze pill that could be used to break through from the xuansheng stage to the mountain opening stage!

It was a pity that Lin Yi didn't have the materials to make them even though he had the recipes. The materials were much rarer and more precious than the soul-nourishing wood and the spirit-gathering branch.

Lin Yi spent the night making elixirs, and handed all the elixirs to tianshuo to handle. He heard that Shangguan LAN 'er had been taken away by Shangguan Tianhua last night, as if something urgent had happened.

Shangguan LAN 'er was going to say goodbye to Lin Yi, but she heard that he was in seclusion refining pills, so she didn't disturb him and went back to the northern island with Gongyang Jie.

Lin Yi wasn't too worried about Shangguan LAN 'er's safety when he heard that it was Gongyang Jie. In the entire North Island, other than Shangguan Tianhua, Gongyang Jie was probably the last person who would hurt Shangguan LAN' er.

He didn't know what had happened in Beidao for Shangguan Tianhua to bring LAN 'er back in such a hurry. Lin Yi decided that he had to go and take a look when he passed by Beidao this time, but he could only put it aside for now.

If Shangguan Tianhua needed his help, Gongyang Jie would've waited for him to come out and tell him, but since he didn't say anything, it meant that the situation wasn't so urgent that he needed Lin Yi's help.

Seeing that there was no change in Han Jingjing, Lin Yi went out again to the pill Hall to look for Hou Guanqi.

Hou Guanqi had already requested to go to the auction on the northernmost Island, so he was packing his stuff as well. Lin Yi's sudden visit surprised him.

"Lil bro Lin, what's the matter?" Hou Guanqi smiled as he walked out. If everything went well, they would be on the ship tonight. Lin Yi's visit couldn't be for nothing.

"Brother Hou," Lin Yi cupped his fists, "don't you welcome me here?"

"How is that possible? you're a rare guest that I can't even invite. Come in and sit!" Hou Guanqi laughed as he pulled Lin Yi in. He asked after the tea was served, "Brother, you didn't come at this time just to chat with me, did you?"

"Chatting is also one of my purposes. However, I still need brother Hou's help with something." Lin Yi didn't stand on ceremony and revealed his intentions with a smile, "It's like this. I'm here to ask brother Hou if there are any mountain gazing stones in the pill Hall. If you do, can you sell some to me?"

"Brother Lin, you want to make the mountain gaze pill? With your cultivation base, it's time for you to start preparing. " Hou guanqi paused for a moment, but he understood. Lin Yi was already at the peak of the late-stage of mysterious Ascension. It was normal for him to prepare the mountain gaze pill for the mountain opening stage.

The mountain-gazing stone looked like a stone, but it was actually a kind of spiritual fruit. It only had such a name because its appearance was very similar to a stone. To be more accurate, it should be called the mountain-gazing fruit.

It was just that this mountain gaze fruit was very rare, much more precious than the Thunder mystical vine. Even the pill Hall might not have it. Lin Yi just wanted to try and ask, he didn't really expect to get the mountain gaze stone.

To his surprise, hou guanqi nodded and said,""If it's a mountain gaze stone, the pill Hall does indeed have reserves. This thing was left behind by master. Other than him, no one else would use the mountain gaze stone, so there should be two more."

Lin Yi was overjoyed-he didn't expect Shanshi to really be in the pill Hall. This was indeed the territory of the God of alchemy, Zhang Liju-there were so many good things!

As for two mountain gaze stones, that was definitely enough. Lin Yi knew that one mountain gaze stone was enough to make five to six mountain gaze pills. As long as he could get one, he wouldn't have to worry about not having enough spiritual jades for the auction.

"Brother hou, I wonder if the pill Hall's Mountain gazing stone can be transferred to me? Please tell me how many spirit stones you need. " Lin Yi didn't hide his desire for the mountain gaze stone at all. He wouldn't say that if he was dealing with someone else, but it didn't matter if it was hou guanqi. He wouldn't raise the price to Lin Yi.

Hou guanqi hesitated and said with a bitter smile, "Younger brother Lin, if it were my own things, I would have given these two mountain-gazing stones to you. However, you should know that they are not mine. Master left them in the pill Hall as a reserve. If someone in the pill Hall can refine the mountain-gazing pill, it doesn't matter if they are used ..."

Lin Yi suddenly understood. If he wanted to use the mountain gaze stone to make pills, he first had to become a disciple of the pill Hall. As for how the disciples used the resources and what they needed to exchange, it wasn't important anymore. He wasn't a disciple of the pill Hall at all, so it was impossible for him to get the mountain gaze stone root.

Seeing Lin Yi's disappointed face, hou guanqi gritted his teeth, "Brother Lin, if you were to concoct the mountain gaze pill, what are your chances of success?"

Lin Yi blinked. He'd never made the mountain gaze pill before, but it wasn't like the Shennong cauldron had never made Mystic first level pills before. It shouldn't be too hard to make it-he couldn't guarantee the success rate if it was just one batch, but if it was two, the success rate wouldn't change much after some adjustments.

"Brother hou, the mountain gaze pill is a Mystic first level pill. I think the success rate is more than sixty percent." Lin Yi gave a conservative number before his eyes lit up. "Could it be that brother hou has a way for me to concoct the mountain gaze pill?"

Hou guanqi nodded and said, "There is indeed a way. According to the rules of our pill Hall, any disciple can use spirit herbs of equal value to exchange for the resources they want to refine pills or use points to exchange. Points are obtained by contributing spirit herbs and pills. The only restriction is that they must be used for their own pill refining and can not be used outside the pill Hall. In other words, the spirit herbs that pill Hall disciples can exchange for are the upper limit of their pill refining. It is precisely

because of this rule that the reserve of spirit herbs in the pill Hall increases. It's getting richer and richer.
"

Chapter 5809 Wasting A Heavenly Treasure

"I see!" Lin Yi was very impressed with this rule, and even more so with Zhang Liju who first built this storage room. High-tier treasures might not be mobile, but low-mid tier herbs could make most of the disciples not have to worry about not having enough materials to make elixirs. With this rule, the storage room of the pill Hall would only get richer and bigger!

It was a pity that hou guanqi wasn't a Mystic first level refiner, and he didn't have the right to exchange for the mountain gaze stone. Lin Yi didn't know what the method was.

Hou guanqi didn't want to keep Lin Yi in suspense as he continued, "With my status in the pill hall, I can use a mountain gaze stone to refine pills. Of course, the rule is that I have to exchange it with something of equal value or with points. These are not problems. The problem is that although I can skip levels to exchange, I have to hand over the corresponding pill in the end ..."

Lin Yi understood-no wonder hou guanqi asked him about his chances of success. If he couldn't guarantee success, he wouldn't be able to return the pills, and that would be troublesome.

"Brother hou, I wonder how many medicinal pills do you need to complete your task for one mountain gaze stone? Also, what should I use to exchange for the mountain gaze stone?" Naturally, Lin Yi wouldn't make things difficult for hou guanqi. As long as he could make the mountain gaze pill, Lin Yi believed that his Shennong cauldron would be able to make more than enough pills.

Hou guanqi smiled and said, "don't worry about the exchange. I'll take care of it. As for the mountain gaze pill, it's good enough to give one to the pill Hall. You don't need a few. After all, it's not easy to make a mountain gaze pill. You're 60% confident that you can make two to three mountain gaze pills with five sets of materials for one mountain gaze stone, right?"

Lin Yi was confident. Five sets of ingredients for the mountain gaze pill-the Shennong cauldron might be able to produce seven pills. Other than the uncertainties of the first try, Lin Yi estimated that there should be at least four or five pills. Giving two to hou guanqi was no problem.

In fact, hou guanqi was a little nervous as well. What he didn't tell Lin Yi was that if he were to apply for resources beyond his level and fail in the end, the punishment would be doubled, and he wouldn't be able to exchange materials in the storage of the pill Hall for two years, especially if the materials weren't for his own use. The consequences would be even more serious.

It was a huge risk for hou guanqi to help Lin Yi this time. He might be Zhang Liju's disciple, but he made a mistake like this in the pill Hall, and there was no room for mercy.

If Lin Yi knew about this, he would never ask hou guanqi for the mountain-gazing rock. He would rather turn all the Thunder mystical vines into pills and sell them than to let hou guanqi get into trouble.

"Brother hou, don't worry. A mountain gaze pill is definitely not a problem. As for the materials, I really don't have anything that can be compared to the mountain gaze stone. I wonder if this piece of consciousness grass can be used?" Lin Yi took out a Jade box that he'd prepared beforehand. There was a palm-sized spiritual sense grass root that was two fingers thick in it. He gave it to hou guanqi, thinking that it should be more than enough to exchange for the mountain gaze stone. After all, the spiritual awareness grass's ability to temper one's spiritual awareness didn't matter what level it was at. Even Earth formation stage cultivators could use it.

Hou guanqi's face changed and he quickly took it with both hands. He opened the jade box and exclaimed,"It really is the legendary spiritual awareness grass root!"

Although he had never really seen a spirit sense grass before, the mysterious aura that could cause spirit sense fluctuations made him completely certain that this was the legendary spirit sense grass!

"Lil bro Lin, where did you get such a treasure? Such a large patch of spiritual sense grass, not to mention one mountain gaze stone, even ten mountain gaze stones can't be exchanged for it!" Hou guanqi closed the jade box excitedly, wanting to return it to Lin Yi, but he didn't want to.

"Brother hou, you know about spirit sense grass? Although it's good to use the spiritual awareness grass to temper one's spiritual awareness, it shouldn't be to the extent that ten mountain gaze stones can't be exchanged for this, right?" Lin Yi looked at hou guanqi curiously, not understanding why the spiritual sense grass would make him so excited.

This was just a small piece that he had cut off, and he was already so excited. If hou guanqi saw the entire spiritual awareness grass in the Jade space, wouldn't he faint?

"Brother Lin, you didn't just use the spirit sense grass to train your spirit sense, did you?" Hou guanqi looked at Lin Yi, dumbfounded. He looked at Lin Yi as if he was a wastrel.

Lin Yi thought, weren't we talking about the mountain gaze stone? Why was he getting further and further away from the spiritual awareness grass root?

But looking at hou guanqi's face, Lin Yi wanted to know if the spirit sense grass was used for something else, if not for spirit sense.

"Brother hou, I did indeed use the spirit sense grass to temper my spirit sense, is there anything wrong with that?" In terms of alchemy knowledge, Lin Yi really wasn't as good as hou guanqi. He did have

Zhang Liju's notes, but that was from the common world. The basic theory was strong, and everything else was starting to show.

Hou guanqi's heart ached at Lin Yi's words. "Sigh, lil bro Lin, it's not that I want to criticize you! You're already a Mystic class master, how could you do something like this? The spirit sense grass root is a legendary treasure, and you actually used it to temper your spirit sense, it's simply too wasteful, have you not heard of the spirit tempering pill?"

Lin Yi sweated-his title as a Mystic class master really didn't live up to his name at all. Without Han Jing Jing, he wouldn't even be able to make pills.

As for what the spirit tempering pill was, he had never heard of it.

Hou guanqi let out a long sigh and continued before Lin Yi could speak, "It's no wonder you didn't know-the recipe for the soul quenching pill is still circulating, but the spirit sense grass and spirit sense grass roots have long gone extinct on Sky Class Island, so many people haven't even heard of the soul quenching pill. Plus, Sky Class Island doesn't pay much attention to the cultivation of spirit sense, so it doesn't really matter if the soul quenching pill is lost. "

"Brother hou, do you mean that the spirit sense grass can be made into the spirit quenching pill? And the effect is even better than directly using spirit sense grass root to temper spirit sense?" Lin Yi understood now, and felt a little regretful. It seemed that he needed to collect more recipes and books on alchemy when he was free. Otherwise, he'd just waste any treasure he got the next time.

In the small Jianghu of the immemorial age, the practice of using the spiritual grass to temper one's spiritual sense was mostly because there was no recipe for the soul quenching pill. After the change in the ancient times, the alchemy method of the small Jianghu of the immemorial age began to change to

the spiritual sense. However, the main ingredients were mostly the inner cores of sea beasts. It was understandable that there was no recipe for the soul quenching pill.

Chapter 5810 Pill Refinement Failed

Hou guanqi sighed again. "It's more than just excellent. Your spiritual awareness grass can be divided into at least thirty to forty portions of the main ingredients of the spirit tempering pill. If you can get ten percent of the effect by directly using these spiritual awareness grass, then you can get at least fifty to sixty percent of the effect after you make the spirit tempering pill. You should be able to understand the difference, right?"

Lin Yi's heart skipped a beat as he realized just how many spiritual roots he had wasted. He still had most of them in the Jade space, but it still hurt. Hou guanqi said that there were thirty to forty sets of materials here, so the Shennong cauldron could make at least forty to fifty soul quenching pills. Wouldn't the effect be even stronger?

However, when he thought about how he would not be able to merge so smoothly in the ancient martial world without the spiritual awareness grass to temper his spiritual awareness, he felt much calmer. There were so many spiritual awareness grass roots anyway, so it did not matter if he used a little.

"There's one more thing that's the most important. Using the spirit sense grass to temper one's spirit sense is a very painful thing. I'm quite impressed that you can persevere. If you use the spirit tempering pill, this pain can be reduced by at least ten times!" Hou guanqi gave Lin Yi a big thumbs up, evidently impressed by Lin Yi's ability to endure the pain.

Lin Yi didn't know whether to laugh or cry-this guy was really uncultured! It turned out that the pain of tempering the spiritual sense could be completely avoided. He thought that it was necessary to experience it in order to become stronger, but it turned out that it was not the case at all!

Hou guanqi composed himself and handed the jade box to Lin Yi, "Brother Lin, this thing is too precious. It's not worth it to exchange it for the mountain gaze stone. Even if we want to exchange, a tenth of its size is enough. "

Lin Yi didn't take the box and pushed it back to her, "Brother hou, you can keep it. If you can exchange the mountain gaze stone, then do so. If you have any extra, consider it a gift from me to brother hou. If brother hou can help me find the recipe for the soul tempering pill, that would be even better!"

If hou guanqi knew about the spirit enhancing pill, it was very likely that he'd seen the recipe before. Lin Yi still had so many spiritual roots with him-he'd rather find a way to make the pill than just throw them in the Jade space.

Compared to the mountain gaze pill, Lin Yi guessed that the soul quenching pill would be more popular. If hou guanqi could find him the recipe, he didn't care if he had the mountain gaze stone or not.

Hou guanqi immediately understood that Lin Yi had more spiritual roots on him. What else would he need the recipe for?

Since Lin Yi still had spiritual roots, hou guanqi didn't hold back anymore. He really wanted the spiritual roots in the jade box, and the soul quenching pill wasn't that hard to make. At most, it was just about entering golden class level Seven, and he could try making it.

"Brother Lin, I won't be polite then. We have the recipe for the spirit tempering pill in the pill Hall, and you can exchange it with contribution points. Because the spiritual grass is not found on Sky Class Island, the exchange rate isn't high. Wait a moment, I'll get you the mountain gaze stone and the recipe for the spirit tempering pill!" Hou guanqi put the box away and stood up.

Hou guanqi was not prepared to use the spiritual awareness grass root to exchange for the mountain gaze stone. This thing was too precious. He would rather use his other spiritual herbs to exchange for it. As for the parts that were slightly against the rules, he did not care much to begin with. Now, he could not care less.

Lin Yi thanked him and watched as he left. He wanted to say that he didn't need the mountain gaze stone and that the recipe was enough since he would be able to raise enough money after making the spirit enhancing pill, but he thought that he would need the mountain gaze pill sooner or later. He didn't want to sell it and kept it for his own use, so he didn't say anything.

After an hour or so, hou guanqi walked in quickly and handed Lin Yi a small Jade box with a big smile on his face. There was also a recipe made from goatskin paper.

"Brother Lin, this is the recipe for the mountain-gazing stone and the soul-tempering pill. Unfortunately, I can only exchange for one mountain-gazing stone with my authority. Otherwise, I would have given both to you!" Hou guanqi said, a little embarrassed. He felt like he had gotten a huge advantage from the grass. Lin Yi didn't mind, but he couldn't.

"Brother hou, please don't say that. Having the mountain gaze stone and the pill recipe for the soul tempering pill is already a great help to me. Alright, you can go and sort it out first. I have to go back and sort it out as well. I'll see you on the ship!" Lin Yi got what he wanted and got up to leave.

He only wanted to ask this time, but not only did he get a mountain gaze stone, he even got the recipe for the soul quenching pill. Lin Yi couldn't wait to go back and try it out.

If he could really make the soul quenching pill, Lin Yi was prepared to leave a portion for Tian Gang and Xue Li so that they could also refine their spirit sense. Unfortunately, other than the heaven's fortune

tactics, he didn't have any other spirit sense cultivation techniques suitable for them. Otherwise, with the soul quenching pill, it would be twice the result with half the effort.

"Okay, see you on the ship in the evening. Take care!" Hou guanqi walked Lin Yi to the door and waved goodbye. He went in to pack his things and started researching on the spirit quenching pill.

Of course, hou guanqi didn't have the God-defying abilities of Lin Yi's Shennong cauldron. He couldn't make pills now, so he could only study it first. After boarding the ship, he could try to make the soul quenching pill. He estimated that the time he spent on the northernmost Island should be enough for him to make one or two pills.

Lin Yi had wanted to visit Cai Zhongyang at the five elements Chamber of Commerce and ask him to collect the materials and recipes for the mystic class level one pills, but that wasn't necessary anymore. With the recipe and the huge spiritual sense grass root, he didn't need to go to Cai Zhongyang now. He could collect the materials after they got on the boat.

After returning to the heavenly elixir Pavilion, Lin Yi greeted Tiangang Xue Li and went back to his room. He took out the Shennong cauldron and entered the recipe for the soul quenching pill, and the automatic elixir system started to generate a script.

The best ratio was to make four sets of ingredients at the same time, and he estimated that he could make five pills. Other than the spirit sense grass, Lin Yi had all the other supplementary herbs in storage, so this wasn't a problem.

He took out a spirit sense grass root that was as thick as a thumb and put the rest of the herbs into the Shennong cauldron. He started to form the fire to make the spirit quenching pill, but to his surprise, he failed after only five minutes.

"What's going on? Could it be that there's a problem with the pill recipe?" Lin Yi had never seen anything like this happen to the Shennong cauldron before, and he was extremely confused.
