

## Bodyguard 5861

### Chapter 5861 Wei Jiading's Background

When the waiter saw Lin Yi and Shangguan LAN 'er, he immediately greeted them with a big smile and saluted respectfully, "Vice-President Lin, miss Shangguan, long time no see. Are you here to see manager Hong?"

Lin Yi thought the guy looked familiar-he'd probably known him before, so he knew who he was.

"Is manager Hong in? If you're here, please inform us. " Lin Yi smiled gently at the guy.

"You're too kind, Vice-President Lin. Manager Hong is just upstairs. He told us that if you come, you can go to him directly without any notice." The shop assistant turned his body and respectfully invited them upstairs.

"Thank you," Lin Yi nodded.

Shangguan LAN 'er giggled. "You're the most respected one, little brother. I don't get this kind of treatment if I come here. I can only see manager Hong after reporting to him."

"If you're an honorary Vice President of the Hong Chamber of Commerce, you'll have this privilege too," Lin Yi smiled faintly.

That being said, Lin Yi knew that this wasn't the case. Hong Zhong valued him because of their friendship, not because he was an honorary Vice President. Otherwise, even if there was a Vice President of the Hong Chamber of Commerce, Hong Zhong would've ignored him.

"Hahahaha, miss Shangguan, you're a rare guest. In the future, just come to me and see who dares to stop you!" Hong Zhong appeared at the top of the stairs, probably knowing that Lin Yi was here and coming out to welcome him.

"Brother Hong, long time no see. You're still as elegant as ever!" Lin Yi greeted with a fist salute.

Hong Zhong came up and pulled Lin Yi's arm, "You know that we haven't seen each other for a long time. Tell me, how should I punish you?"

"Is there a punishment? Then I'll have to eat and live at your place every day from now on. " Lin Yi said with a smile. He and Hong Zhong had only gotten along because of benefits, but slowly, they became true friends, especially after the auction on the northernmost Island. Their relationship had improved rapidly, and they were now close friends.

"Hahahaha, that's for the best. I can't even invite you. As long as you're willing to stay here, I can even give you the entire Hong Chamber of Commerce on the North Island." Hong Zhong laughed heartily, and then made a gesture to Shangguan LAN 'er. She was indeed the shopkeeper of the North Island of the Hong Chamber of Commerce. There was no room for criticism in her treatment of people.

Lin Yi and Hong Zhong walked into the guest room, chatting and laughing. Naturally, someone brought them spiritual tea and spiritual fruits. Shangguan LAN 'er didn't stand on ceremony and casually picked up a spiritual fruit and started eating it. She knew that Lin Yi had something to say to Hong Zhong, so she could only be a quiet foodie on the side.

After some small talk, Lin Yi asked, "Brother Hong, are there also factions in the Hong Chamber of Commerce?"

"Why do you ask, little brother Lin?" Hong Zhong asked, slightly startled. Did someone from the Hong Chamber of Commerce make things difficult for you? Tell this big brother, I'll definitely get justice for you. "

Lin Yi waved his hand and smiled, "it's not that serious. It's just that I'm going to the northernmost Island for an auction. There's a Vice President of the Hong Chamber of Commerce in the middle Island called Wei Jiading. When I got on the boat, I thought that we were still part of the Chamber of Commerce, so I went to say hello, but he didn't want to talk to me." At that time, I was still worried that something had happened to you, brother Hong, causing me to lose my backing in the Hong Chamber of Commerce. "

"Hahahaha, how can I be considered your backer? with your ability, it wouldn't be an exaggeration to say that you're my backer!" After Hong Zhong cracked a joke, he slowly became serious. "Where there are people, there will be Jianghu. Naturally, there will be a lot of power struggles in the Hong Chamber of Commerce. Although I'm a member of the Hong family, I'm not a direct descendant. Moreover, the eldest branch of the Hong family that I support is not strong enough, so it's more difficult to enter the core."

Lin Yi remembered that Hong Zhong came to the North Island as the Vice-President of the central headquarters, and he was right about that.

"That Wei Jiading is also the Vice President, but he's not on the same side as me. He's a die-hard supporter of the Hong family's second branch and has never had any relationship with me. Moreover, he's Wei Zhaotong's uncle. Say, if you go and greet him, do you think he'll be nice to you?" Hong Zhong shook his head with a bitter smile. Wei Zhaotong was the helper he recommended to Lin Yi before, but he almost killed Lin Yi. It was a bit embarrassing.

Lin Yi didn't mind and shrugged, "So that's how it is. But let him be, as long as he doesn't come and provoke me. By the way, brother Hong, didn't you prepare anything for the auction on the northernmost Island?"

"I'm still going, but I'm going with the Nakajima district headquarters, so I won't be bringing anything. There's nothing good in the North Island, so I might not even be qualified to participate in the auction. I'm mainly going there to buy some good stuff as the treasure of the shop. " Hong Zhong laughed at himself. The auction last time was the stage for the North Island branch to show off their skills. This time, the main character could only be the central island branch. Of course, if someone from the East Island branch went there, there might be some good things.

After a slight pause, Hong Zhong still reminded, ""Brother Lin, don't look down on Wei Jia Ding too much. This person is narrow-minded and will seek revenge for the smallest grievance. I think he will definitely find an opportunity to take revenge for Wei Zhaotong. Even if you're not afraid of him, you still have to be on guard against him."

Lin Yi didn't really mind what that guy said, but he still had to listen to Hong Zhong's kind reminder.

"I know what to do. Don't worry, brother Hong." Lin Yi smiled and nodded. "This time, I can go to the northernmost Island with you again. We can have a good chat on the way."

Hong Zhong didn't say anything more about what happened to vejia, but smiled and said, ""That's right. Fortunately, I decided to go with the fleet. If I had ridden an aerial spirit beast, I would have missed this opportunity!"

Lin Yi suddenly remembered that Wei shenjin and Shang Yuhua might come over to ask about the Yang extreme grass,"Brother Hong, do you have any yang extreme grass here? I have a friend who needs it, so I don't know if I've been to your place. "

"I've never seen your friend before, but the Yang extreme grass is a very rare and precious spirit grass. If I had it here, I could directly auction it off on the northernmost Island. I'd say it could be sold for at least one million or eight hundred thousand spirit Jade." Hong Zhong knew a thing or two about the Yang extreme grass, but the price he mentioned surprised Lin Yi.

"Brother Hong, you're saying that yang extreme grass can be sold for 1.8 million on the northernmost Island?" He'd thought that the Yangji grass was about the same as the yin core fruit back on the ancient ship, at most thirty to fifty thousand spirit Jade. That wasn't the case at all.

#### Chapter 5862 Fruitless Search

Hong Zhong did not know about Shang Wanyi's matter, so he casually nodded and said,""And that's the least I can say. You have to know that the price at the auction on the northernmost Island is completely different from the price here on the northern island. Perhaps the extreme yang grass can only be sold for tens of thousands of spiritual Jade here, but the problem is that you can't buy it at all!"

Realization dawned on Lin Yi-he'd been to different islands before, and he had some understanding of the price differences, but he just didn't think of it at the moment.

It was precisely because of this huge price difference that the high-level elixirs of the heavenly elixir Pavilion were so tempting to Shang Wanyi. As long as he obtained the authorization, he could resell them to the northernmost Island or the East continent. He would definitely make huge profits.

In that case, it would be a little troublesome for Cai Zhongyang to lose the Yang extreme grass. Fortunately, Shang Yuhua and Shang Wanyi had said that they would bear the consequences of the Yang

extreme grass. If it could be solved with just two to three million spiritual Jade, it would not be a problem for Wantong Chamber of Commerce.

"Actually, I've underestimated the value of the Yang extreme grass," Hong Zhong said after some thought. "There's one more factor that I didn't consider."

Lin Yi was thinking about Cai Zhongyang's trouble and asked casually, "What factor?"

"There aren't many pill recipes that can be used for yang extreme grass, but its main use is to make Yin Yang pills. The other main ingredient for the Yin Yang pills is the yin core fruit. Brother Lin, as a high-level Alchemist, I'm sure you've heard of it, right?" Hong Zhong didn't know that Lin Yi had not only heard of it, but also made the Yin Yang pill by himself, saving Shang Wanyi's life.

But Lin Yi was a little embarrassed. If it wasn't for Shang Wanyi's Qi deviation, he wouldn't have known about the Yin Yang pill, yang grass, and Yin core fruit. He was a little embarrassed to be praised like that by Hong Zhong.

Before Lin Yi could reply, Hong Zhong continued, "Compared to the Yang grass, the production of the yin core fruit is much higher. This is because there are usually twenty Yin core fruits on a Yin core fruit tree. As for the Yang grass, there will only be one in a certain range. Although both are the main ingredients of the Yin Yang pill, in terms of value, the Yang grass is at least ten times more than the yin core fruit."

"I see!" Lin Yi nodded, but he was thinking why Zheng Dongsheng would take out the yin core fruit.

The yin core fruit wasn't as valuable as the Yang extreme grass, but on the ancient battleship, the spirit Jade Zheng Dongsheng took was far from the real price of the yin core fruit. Lin Yi wouldn't believe it

even if he was beaten to death if this old man said that he was sincere in saving people. They were the ones who poisoned them, so how could they be so kind as to give out the yin core fruit?

Lin Yi felt that something was wrong. According to Shang Wanyi, his Qi deviation was caused by poisoning, and the person who poisoned him was most likely someone from the Zheng family. If that was the case, why did Zheng Dongsheng sell a Yin core fruit at such a high price? Could it be that he was being hot-headed and was deliberately squandering?

Perhaps Zheng Dongsheng was really just trying to create a chance for his grandson, Zheng Tianqing, to win over Lizao Yi, but Lin Yi's intuition told him that it wasn't that simple. At that time, Shang Yuhua was already willing to take out hundreds of thousands of spiritual Jade to buy the yin core fruit, so there was no reason for Zheng Dongsheng not to earn spiritual Jade.

A vague idea was slowly forming, but Lin Yi couldn't put all the clues together yet. He could only put it aside for now.

Just as they were talking about the Yang extreme grass, Lin Yi's spirit sense caught Wei Shenjin, Shang Yuhua, Xiao Ran, Qiao Hongcai, and the others walking into the Hong Chamber of Commerce.

Both Xiao Ran and Xiao Yan were Lin Yi's underlings, so they naturally had a good relationship with the Hong Chamber of Commerce. They knew all the workers, so they were told that Lin Yi was upstairs with Shangguan Lan'er as soon as they came in.

The four of them were led to the VIP room without Lin Yi's help.

"Boss, so you've already arrived. We're a step too late!" Wei shenjin held Shang Yuhua's hand and greeted her with a smile.

Xiao ran and Qiao hongcai greeted the three of them one by one before sitting down.

"You've been walking around for a day, did you find anything?" Lin Yi didn't think there was much hope left for the Yang extreme grass, but he still asked anyway. What if they were blind cats and came across dead rats?

Shang Yuhua frowned."We couldn't find the extreme yang grass. Boss, since you're here, you must have asked manager Hong. It seems like we can't do anything this time."

So it was Wantong Chamber of Commerce who wanted the Yang extreme grass. If he had it, he wouldn't mind giving Lin Yi face and selling it to Shang Yuhua, but he didn't have it, so there was nothing to say.

On the North Island, the Hong Chamber of Commerce and Wantong Chamber of Commerce didn't have much of a relationship. Not only that, but they had a big conflict before. If it wasn't for Lin Yi, the workers wouldn't even let Shang Yuhua in.

"This kind of spirit herb can only be encountered and not sought, you don't have to take it to heart." Lin Yi could only comfort him. He could only hope that Cai Zhongyang's customer could settle it with spiritual stones, or he would be in big trouble.

At that thought, Lin Yi's heart suddenly moved. His guess was clear-Cai Zhongyang was in big trouble! Could it be that the Zheng family's target was not Shang Wanyi and Li Zao Yi, but Cai Zhongyang? In comparison, those two were just in passing?

However, Cai Zhongyang and the Zheng family did not seem to have any grudges. Why would the Zheng family set him up? Of course, if there was a grudge between them, it would be that Cai Zhongyang and Lin Yi were close, so they naturally became enemies.

Cai Zhongyang was targeted because of her!

Lin Yi's eyes turned cold. If this was true, then the Zheng family really didn't know what was good for them. They set up his friend for this reason. This made him angrier than targeting Lin Yi himself!

As for whether that was the case, they'd only have to wait until they reached the northernmost Island and see how much trouble Cai Zhongyang would get into. At that time, Lin Yi would let the Zheng family know that playing with fire would only lead to self-destruction.

"What's wrong, lil bro Lin?" Hong Zhong was the first to notice the sudden change in Lin Yi's body. The cold and bone-chilling killing intent shocked even him. Lin Yi's strength was less than an ant to him back then, but now he could move him. The speed of improvement was too terrifying.

Lin Yi let out a light breath and retracted his aura, returning to his normal self with a smile. "It's nothing. I just suddenly thought of something else. "

"Boss, if there's anything you need us to do, just let us know. You can't always carry the burden alone." Wei shenjin said. Lin Yi's change was brief, but they all noticed it.

Chapter 5863 Gesturing

Lin Yi waved his hand, "it's nothing, don't worry." You didn't buy anything after shopping for so long today?"

Shang Yuhua's mind was sharp, and she could tell that Lin Yi was trying to change the topic. She immediately cooperated, "Nakajima has everything else, so I didn't buy much. However, the central Chamber of Commerce really has a dazzling array of things, a wide variety, and all of them are high-tech products from the secular world. Unfortunately, the price is too expensive. Although it's much cheaper than the central Chamber of Commerce in Nakajima, it's still extremely expensive."

"Miss Shang, you're a rich person. If even you say it's expensive, then their business shouldn't be that good." Lin Yi smiled.

Xiao ran snorted. "That fellow Xu lingchong probably thinks that it's the best way to survive for three years if he does. That's why he's selling his junk however expensive it is."

Shang Yuhua and the others were speechless. The items in the central Chamber of Commerce were all popular products on the Sky Class Island, and Xiao ran actually said they were all junk. He must still be angry about the conflict from before, right?

What they didn't know was that in the eyes of Xiao ran and Lin Yi, who came from the secular world, the items sold by the central Chamber of Commerce were almost trash, if not trash. In the secular world, 90% of the goods sold by the Chamber of Commerce in the center of the North Island were almost eliminated. Ordinary people didn't care much for them, and they were all treasures on the Sky Class Island.

Wei shenjin sighed regretfully. "Boss also went to the secular world this time. It's a pity that he was projected by his primordial spirit and didn't bring anything back. Otherwise, he could have made a lot of money."

Lin Yi's heart moved. Although he was a spirit projection, the Jade space could carry a lot of things. Unfortunately, he didn't have such thoughts on this trip back to the secular world, so he didn't bring back many things.

But that wasn't the point-the point was that the wormhole in the center was open to Lin Yi now. Once Han Jing came back and studied the wormhole, she'd be able to trade between Sky Class Island and the secular world, just like the center! It was a good business!

If central could do it, so could Lin Yi. Breaking the monopoly would cause the price to drop, and the products would become worthless in the end, but this was what he wanted to achieve. If central just made money from this, Lin Yi's future wouldn't be good.

A year's break wasn't a long time-after a year, there would be a battle with central. As the saying went, food comes first before soldiers and horses. No matter what kind of battle it was, it was all about consumption. If Lin Yi didn't have enough resources to fight central, he would naturally need to find ways to improve himself and weaken the opponent. Using the wormhole tunnel to compete with central was the best way.

"Ha ... That's a good idea. Don't worry, you'll have the chance to realize it in the future." Lin Yi said with a smile. It was a good plan, but the most important thing was for Han Jingjing to come back. It was too early to talk about it now. It wouldn't be too late to think about it next time.

The group chatted for a while, and someone from the sky-Ascension Pavilion came to find Shangguan LAN 'er, saying that her grandfather was looking for her. She could only arrange to meet Lin Yi later, and she also wanted to ask Shangguan Tianhua if she could go to the northernmost Island with Lin Yi and the others.

Lin Yi had wanted to visit Shangguan Tianhua, but LAN 'er said that he was accompanying an old friend from the East continent. He probably didn't have time to see him, so he had to let Shangguan LAN' er do it for him.

Not long after Shangguan LAN 'er left, Wei Jia Ding brought a few followers to the Hong Chamber of Commerce's North Island branch. He ordered the staff arrogantly, ""Where is hongzhong? quickly call him out to see this Lord!"

The shop assistant knew that this was the Vice-President of the Nakajima District, so he didn't dare to neglect him. He quickly went to inform hongzhong and Lin Yi. The two didn't want to talk to this guy, but they were from the same Chamber of Commerce after all. Even if they were from two different camps, they still had to give him some face on the surface.

"Vice President Wei, long time no see. I thought you wouldn't come down today and was about to board the ship with brother Lin. I didn't expect you to come here." Hong Zhong greeted him with a smile. This was already giving vejia a lot of face.

As for Lin Yi, he didn't even look at Wei Jia since he didn't give him any face on the ancient warship.

Lin Yi didn't have the habit of going up to his enemies to please them-the moment he did, it was probably to give them a good slap.

With an arrogant expression on his face, Wei Jia slightly raised his chin and slowly said, ""Hongzhong, the fleet to the northernmost Island will be leaving soon. Hurry up and take some people to help load the cargo. Don't waste time."

Hong Zhong's expression turned cold and he retracted his smile, "There are naturally people arranged by the fleet to load and unload the goods. Since when do we need to send people from our Chamber of Commerce? Moreover, the North Island branch doesn't have any goods that need to be brought along this time. Could it be that there's always something that needs to be placed on the North Island for sale?"

"Why are you talking so much nonsense? Just go when I tell you to! Don't tell me that you dare to disobey this Lord's orders?" It was unknown what kind of stimulation Wei Jia had received, but he actually directly gave Hong Zhong an order.

Hong Zhong immediately sneered and said, "how impressive!" Wei Jia thought, "could it be that my position as the Vice President has been revoked?" Or is it that you've already become the president of our Hong Chamber of Commerce? Otherwise, I really don't know where you got the confidence to order me around. "

"You're not even a chicken-feather Vice President! You actually dare to talk back to this Lord!" Veijia disdainfully glanced at hongzhong and said in an extremely disdainful tone, ""You're just a shopkeeper of the North Island branch. How dare you claim to be the Vice President? do you think any Vice President with real power would leave the middle Island?"

"It was my own idea to leave the island, do you think I was forced to do so?" Hong Zhong retorted without giving in. In the end, you're just a dog of our Hong family. Remember, my surname is Hong, and your surname is Wei!"

Wei Jiading was stunned by Hong Zhong's words. He instantly felt speechless, because Hong Zhong was right. No matter how not a direct descendant he was, he was still a member of the Hong family, while he, Wei Jiading, was an outsider!

Although veka was confident that he could suppress hongzhong, he was extremely angry after hearing these words, but he couldn't flare up.

"Cut the crap, hurry up and arrange for people to load and unload the goods. That Lin Yi, go and help too!" Wei Jia was somewhat angry from embarrassment, and waved his hand as he spoke. That appearance didn't allow the slightest rebuttal.

Chapter 5864 Directly Cripple Him

Lin Yi was amused-was this guy crazy? Even he was being commanded by him! This was the northern part of the island, not his courtyard!

"Wei Jia Ding, brother Lin is the honorary Vice President of the Hong Chamber of Commerce. Don't you know what an honorary Vice President is?" You actually dare to command an honorary vice-leader? even if the president was here, he wouldn't dare to do such a thing. Are you really thinking of rebelling?"

Lin Yi pulled on hongzhong's arm, gesturing for him to calm down before looking at him quietly. "Surnamed Wei, I remember that we don't need to load or unload any goods when we stop at the North Island. The goods of the Hong Chamber of Commerce in the middle Island are all sent directly to the northernmost Island for the auction. Could it be that he had taken it off and then put it back on? What are you doing?"

Wei Jia Ding snorted coldly. "I've bought some things here," he said calmly. "I'm going to take them to the northernmost Island to participate in the auction, so I'd like to ask you to help me."

His tone softened, and Lin Yi smiled faintly at Hong Zhong, "Brother Hong, let's go and see what good things this old thing has bought."

"I was thinking the same thing. Let's go out and take a look!" The corner of Hong Zhong's mouth curled up. Could this vejka really be an idiot? just to make Hong Zhong lose face, he would risk his own future?

As for buying enough items to participate in the auction on the northernmost Island, Hong Zhong didn't believe it at all. If there really was such an item, he would have bought it long ago and taken it for himself. How could he wait for veka to step in?

Lin Yi almost laughed out of anger when he walked out the door. There were quite a lot of things bought, filling up a few big cars, but they were all common goods sold by the central Chamber of Commerce, the lowest grade ones.

This kind of thing, in the secular world, would only be picked up by scavengers for use, but on the Sky Class Island, it would only be a decoration for the fashionista. With this kind of junk, you dare to take it to the auction on the northernmost Island?

Do you think we are all blind?

Hong Zhong looked at Wei Jiading with a mocking expression and said, ""Vice President Wei, you really have a unique vision. You've specifically chosen things that others can't think of to buy. The problem is that no one can think of buying them. Are you sure that the auction house on the northernmost Island will agree to let you auction these things?"

Shang Yuhua, who followed behind, also looked down on Wei Jiading. She, Wei shenjin, and the others had gone to the central Chamber of Commerce to take a look, and of course, they knew that these truckloads of things were the cheapest ones. If they were to buy these things, the daughter of the Vice President of the Wantong Chamber of Commerce could also afford them, because these things added up were not as valuable as a premium product.

Wei Jia didn't look ashamed at all and boasted, ""What do you know about my foresight? Just send the things to me! Do I need to explain to you one by one what decision I make?"

"You're pretty smart, Vice-President Wei," Lin Yi said with a sneer, "you knew that the central Chamber of Commerce's goods would be more expensive than those in the North, so you came all the way here to prepare the goods. You've put in a lot of effort. " The problem is that you, as the Vice President of the Hong Chamber of Commerce, went to the central Chamber of Commerce to buy a large batch of junk and then said that you would take it to the northernmost Island for auction. I really want to know, are you trying to give the central Chamber of Commerce face? Or do you want to embarrass the Hong Chamber of Commerce?"

The words were extremely harsh, almost pointing at Wei Jia's nose and calling him a traitor. But after thinking about it, it was exactly as Lin Yi said. It was fine if he went to another Chamber of Commerce to buy something he needed, but what was the Hong Chamber of Commerce if he went to them to buy something unique and then put it up for auction?

Even with the thickness of Wei Jia's face, he could not help but have a slight change in expression. Other things aside, if these words were to reach the ears of the Nakajima district's headquarters 'higher-ups, he would not be able to bear the consequences no matter how much of a Vice President he was.

Hong Zhong was also an understanding person. He immediately chuckled and said, "Could it be that Vice President Wei is preparing to switch to the central Chamber of Commerce? Was that why they were building up momentum for the central Chamber of Commerce in advance? Just like that traitor si tsunami. I heard that he's doing well in Nakajima. You two used to be old acquaintances, right?"

If he continued to say this, he could directly change his name and become a traitor! Damn it, he didn't have anything to refute!

"Hahahaha, you guys don't think that these things are what I'm going to auction off, do you? Don't joke around, these are just gifts that this King bought to bring back to give to others. If it's really something that can be auctioned, of course I have to carry it with me!" Now that things had come to this, there was nothing else he could do. He could only quickly push aside his original words to avoid falling deeper and deeper into the pit he had dug.

"So it's all Vice President Wei's personal goods? I don't think that's what you said just now. " Lin Yi looked at him with a smile that wasn't quite a smile. He walked up slowly and tapped on the connected items. An undetectable arc of electricity shot out from his palm and went around all the items.

Lin Yi was very familiar with destroying electronic devices like this-he could even paralyze a base in the central common world, so a few truckloads of stuff was child's play to him.

Wei Jiading didn't even know that the things he had spent so much spiritual Jade on had all gone to waste. He was still laughing and saying, ""Oh, really? No matter what, as the Vice President of the Hong Chamber of Commerce's main headquarters, it's only right and proper for me to commandeer the people from your North Island branch. Even the president wouldn't say much, but you guys are so full of nonsense!"

Hong Zhong sneered, "Wei Jia, you think too highly of yourself." Even if it's the president, he wouldn't use a Vice President and an honorary Vice President to help him move his private goods. Did he really think that the Hong Chamber of Commerce was going to change its surname to Wei?"

Feeling that the topic was going back to those sensitive topics, weijia quickly waved his hand and said impatiently, ""Don't change the topic, and don't make slanderous remarks. You disobeyed my orders and refused to cooperate with the NAKAJIMA TAKASHI's work. That's your fault. I won't talk nonsense with you today. When we return to Nakajima, I will naturally reflect today's matter to the Executive Vice President."

"You want to impeach me? The North Island branch doesn't welcome you, so you can leave!" Hong Zhong waved his hand indifferently, no longer wanting to maintain any courtesy to this idiot.

Chapter 5865 Small Trade Fair

Lin Yi smiled faintly, "brother Hong, if it weren't for you, I wouldn't even care about this honorary Vice President. Let's go. Don't bother with this stupid guy. Let's go back and continue our chat."

Hongzhong didn't even look at the pale-faced man as he turned and walked back with Lin Yi. "Brother Lin, don't think that all the Hong Chamber of Commerce is so stupid. We've known each other for a few years, don't just quit!"

If one were to say that the honorary Vice President position was a very high status for Lin Yi in the past, and he needed to work hard to maintain it, then it was completely reversed now. It was the Hong Chamber of Commerce's honor to have a senior Alchemist like Lin Yi as the honorary Vice President. Not to mention impeaching Lin Yi, if he wanted to leave, the Hong Chamber of Commerce would probably do their best to keep him.

Lin Yi knew this, and Hong Zhong knew it even more clearly. Only an idiot like Wei Jiading would think of making Lin Yi move goods for him, even threatening them with impeaching Lin Yi. No one would believe that he didn't want to bring down the Hong Chamber of Commerce!

Wei Jiading snorted coldly. He did not have the face to continue showing off his power here. With a gloomy face, he left the Hong Chamber of Commerce with his men and went directly to the dock to board the ship. As for the junk he had bought, it had already become real junk. He would probably only find out after returning to Nakajima and giving it away.

After returning upstairs, Lin Yi asked Hong Zhong if he'd seen the ghost cicada wings before, and it turned out that he hadn't. The truly precious things here were indeed hard to find, and it was probably because of the low prices.

For example, the ghost cicada wings could only be sold for 50000 to 60000 spiritual jades on the North Island. If it were to be sold on the middle Island, it could be sold for at least 200000 to 300000 spiritual jades under normal circumstances. It might have broken a million spiritual jades in the last auction. The price of the northernmost Island would only be higher than that of the middle Island. This resulted in a situation where the good items would not be kept on the central, Western, and Northern islands.

Of course, there were opportunities to pick up things that weren't available, but they were extremely rare. Lin Yi didn't think that he'd be able to get what he wanted just by going out for a walk.

A while later, Shangguan LAN 'er sent someone to inform Lin Yi that her grandfather didn't allow her to go to the northernmost Island, and that she had to stay here with her future master. However, Shangguan Tianhua still valued Lin Yi very much, and told him to meet him once he returned from the northernmost Island.

Since Shangguan LAN 'er couldn't go with them, Lin Yi didn't wait any longer. It was almost time for the fleet to set off again, and they said their goodbyes to Xiao ran and the others before returning to the ancient warship with Hong Zhong.

Ao Tianba greeted Lin Yi with a smile. "Little brother Lin, you're back! Even manager Hong is here! I've already arranged your room, it's not far from you, is that good enough?"

Hong Zhong smiled and cupped his fists. "Thank you, Captain ao Tian. This is exactly what I want!" We haven't seen each other for a while, let's go for a drink later!"

"No problem! I was just waiting for you to say that!" Ao Tianba laughed heartily. The two seemed to be on good terms-Lin Yi didn't know if it was from the past or from the recent developments, but he was happy about it.

"Brother ao Tian, are you waiting for some important person to come?" Lin Yi asked casually. There were only a handful of people on the northern island who could make ao Tianba wait for them. Shangguan Tianhua probably wouldn't come, or Shangguan LAN 'er would've been able to come with them.

Ao Tianba shook his head and smiled."No, I'm just waiting for you, brother Lin. Everyone on the ship will be here after we set sail today, so I'll take the lead in holding a small trade fair tonight. It'll be a warm-up for the auction on the northernmost Island. This is the Jade token for entry, if you're interested, come over and take a look!"

"Brother ao Tian specially gave me a Jade token? You're too polite!" Lin Yi said, surprised. He took the Jade token and thanked him. They could've just gotten someone to send the Jade token over, there was no need to wait for him to come back, right?

He knew about this small trade fair. The passengers on the ancient warship were either rich or powerful, so it was necessary to have a small trade before arriving at the northernmost Island. For one thing, it would give those who wanted to collect spirit Jade more time to prepare. For another, it would also consume the financial and material resources of some potential opponents in advance.

"I was afraid that I would forget about you if I got busy, so I decided to come out and catch some fresh air when I was free. I was waiting for you." This Jade token can allow two people to enter the hall, so I won't be giving little Wei's one. However, you can't save shopkeeper Hong's one!"

Hong Zhong took the Jade token from ao Tianba and laughed, ""Looking at your pained expression, is it because this Jade token is quite expensive?"

"Not really. It's only ten thousand spiritual jades per piece. Those who can participate in the trade fair are all people of status. This little entrance fee is still required!" Ao Tianba didn't hide it, he smiled and winked at Hong Zhong, ""It's just some pocket money. After all, I have to provide the venue and some food and drinks. Ten thousand spiritual Jade is really not expensive."

"You profiteer, it's a good thing you didn't open a Chamber of Commerce to steal business. Otherwise, you'd really be a formidable enemy!" Hong Zhong laughed and joked a little, and the few of them walked in together.

Shang Yuhua bid farewell to the crowd and left first. This time, she had not been able to buy the Yang extreme grass on the North Island. She had to discuss with Shang Wanyi on how to solve Cai Zhongyang's problem. After all, he had taken out the Yang extreme grass for them. They definitely could not burn the bridge after crossing the river.

Ao Tianba had a lot of things to prepare for the trade fair tonight, so he left after saying a few words to Lin Yi and Hong Zhong. Fortunately, it was late, and the trade fair was about to start. Lin Yi decided to wait at the venue with Hong Zhong and Wei shenjin.

Hou guanqi and Cai Zhongyang, naturally, had their own Jade tokens from ao Tianba as well, so Lin Yi didn't have to worry about them. The two arrived a while later, and started chatting with hongzhong.

After a while, Shang Wanyi brought Shang Yuhua over. When he saw Cai Zhongyang, he came over immediately and said apologetically, ""President Cai, I'm sorry. I didn't manage to buy any yang extreme grass on the North Island this time. I'm really sorry to have caused you trouble. When we reach the northernmost Island, I'll definitely help you explain, and I'll bear all the subsequent losses. "

"Chairman Shang, you don't have to be so polite. We're rivals in the business world, but we're friends in private. You don't have to take this to heart." Cai Zhongyang smiled and waved his hand. Of course, he couldn't really not care. However, since things had come to this, there was no point in saying more. He could only let go of his worries.

"President Cai, the more you put it that way, the more embarrassed I am!" Shang Wanyi said guiltily. If there's any yang extreme grass in today's trade fair, I'll definitely get it at all costs!"

#### Chapter 5866 Truth-Restoring Grass

Even so, he knew that the possibility of another stalk of yang extreme grass appearing on this ship was extremely low. On the other hand, he might be able to find a Yin core fruit. After all, the production of this thing was much higher than the Yang extreme grass.

Cai Zhongyang didn't say anything more. This matter had already reached the point where they could only take one step at a time. There was really nothing more to say.

As more and more people entered the venue, most of them knew each other. No matter how close they were, it was still necessary to greet each other when they met, and so the people around Lin Yi slowly dispersed.

To put it bluntly, this small-scale trade fair was similar to the cocktail parties in the secular world. They would eat, drink, and build relationships. In the end, everyone would take out what they were willing to trade and say what they wanted. If they were satisfied, they would make a deal. It was very simple.

Wei shenjin naturally stayed by Lin Yi's side, so Shang Yuhua stayed as well. The three of them sat in an inconspicuous corner, chatting, drinking tea, and eating spirit fruits. It was quite a pleasant scene.

When almost everyone had arrived, ao Tianba came out and stood on the high platform. "Distinguished guests, I welcome everyone to participate in the small trade fair that I, ao Tianba, am holding tonight. Let's cut to the chase and begin today's trade!"

Lin Yi did some calculations-there were three hundred people in total in this Hall. One Jade tag could only bring two people, but most of them came in alone. They were all people with status, after all, and it wasn't appropriate for followers to come. So, excluding the few who came with them and the ones who gave out the Jade tags, ao Tianba was able to earn two to three million spirit Jade just from the entrance fee. He was a business-minded man!

Ao Tianba's face was also glowing as he took out a Jade box and said, ""Next, I'll be throwing bricks and guiding Jade. I'll take out some small things to warm everyone up. Don't laugh at me if they're not good."

"Captain ao Tian, you're too humble. How can the things you've taken out be bad? hurry up and show us!" Someone from below raised his voice. Lin Yi didn't know if it was ao Tianba's guy, but he didn't know who the person was.

Ao Tianba smiled and nodded at the man. He opened the lid of the jade box and said, ""This is a thousand-year-old recovery grass, it can be used to make the recovery pill. As everyone knows, the recovery pill is a Qi recovery pill for the cultivators of the beginning stage. It's not very precious, but it's a Mystic first level pill. A low quality recovery pill can instantly recover all the Qi that was used up by a cultivator of the beginning stage. If it's in a battle, this pill can save a life!"

Some people below were already gasping. Although there weren't many big shots here, it didn't mean that they didn't have one behind them. The truth restoration grass was a very important strategic material during the opening stage. It wasn't a small thing as ao Tianba had said. It was definitely a good thing!

"As an item to use as a guide for throwing bricks and jades, I don't have to specify what I want to exchange this thousand-year truth restoration grass for. As long as everyone sees something similar, it'll be fine. Of course, you can also buy it with spiritual jades!" Ao Tianba smiled as he looked around at the people around him. He had indeed taken out the truth restoration grass to liven up the atmosphere. Otherwise, this thing would be useful to him, and he wouldn't have to sell it.

"Captain ao Tian, how much spiritual Jade are you planning to sell this truth-restoring grass for?" Some people couldn't help but start to inquire about the price. Those who went to the auction on the northernmost Island had no lack of spiritual Jade. As for the good things, they would not take them out if they could. For them, spiritual Jade was the most useless thing.

"I won't name a price," ao Tianba said with a smile. "Everyone can just see that it's about the market price."

Everyone silently cursed the old fox in their hearts. How much was it about the market price? Could the market price of the North Island be the same as the market price of the northernmost Island? Moreover, there were definitely more than one or two people here who wanted the truth restoring grass. They clearly wanted people to bid for it, and then the one with the highest price would get it!

However, ao Tianba's move was indeed the best way to liven up the atmosphere. As long as this truth restoring grass could be auctioned for a high price, the tone of the subsequent auction would be set. If it wasn't a good thing, no one would be embarrassed to take it out.

"I bid a million spirit Jade!" The person who had asked the question earlier did not waste any more time and immediately bid one million spiritual Jade.

Ao Tianba only smiled and said nothing. One million spirit Jade was indeed the market price, but it was only the market price of the central, Western, and central islands. However, it was basically impossible to buy the thousand-year truth restoration grass at this price. Ao Tianba was not in a hurry. This was just the beginning, and he believed that there would be new bids soon.

"I bid two million spirit Jade!" Another person made a bid, and the price was doubled. Unfortunately, the price was still low. The herb could be sold for at least four million spirit jade pieces in an auction. Now that they were on their way to the northernmost Island, no one believed that they could get the herb for two million spirit jade pieces.

Ao Tianba had only said that a low-grade recovery pill could instantly recover the true Qi of an early stage mountain split cultivator. In fact, a high-grade recovery pill could also recover the injuries of the user in an instant! Otherwise, there would be other elixirs that could recover true Qi, and the truth restoration grass would not be so sought after. Its most valuable part was the word "instant"!

In such an intense battle, what was the difference between this and having an extra life? A sect-opening powerhouse was a top-notch existence to any force. What was a mere spiritual Jade to give them an extra chance to live?

In just four rounds of bidding, the thousand-year-old herb of truth restoration had already been called a sky-high price of five million spiritual Jade. However, this was still within the normal price range, and ao Tianba was not satisfied with it either.

However, at this point, the bidding became more cautious. There were almost no bids of one or two million spirit Jade, and they were all raised by one or two hundred thousand. In the end, the herb was sold for eight million and three hundred thousand spirit Jade.

If it was just a truth restoration pill, it would easily break through ten million. Unfortunately, this was just truth restoration grass. To make a pill, you would need to find a high level Alchemist. There were not many alchemists in the three islands who could make Mystic first level.

Lin Yi felt that it was a pity-he wanted the herb as well. He didn't have the recipe for the recovery pill, but it wasn't anything special-it was easy to get. With the Shennong cauldron, making the pill shouldn't be a problem at all.

He had quite a lot of spirit Jade, but he couldn't just squander it on something that wasn't necessary-he had to give it up, but Lin Yi felt that ao Tianba might have more than one thousand-year-old recovery grass ... He'd just ask him if he needed help with the pill later ...

Chapter 5867 The Storage Bag Appears!

With ao Tian BA's good start, the second person immediately went up the stage. He took out the main herb of a Mystic first level elixir, but he didn't want the spiritual Jade. He only wanted to exchange it for one thing. Unfortunately, there was nothing he wanted, or maybe there was something he wanted, but the others were not willing to exchange, so he could only cancel it in the end.

The next three people had succeeded in succession, either exchanging or selling. In any case, the process was very smooth, and it was not affected by the second person's failure.

Lin Yi looked on with interest, not making a single move. It wasn't that he didn't want the items, but he didn't have anything suitable to exchange.

Shang Wanyi went up next. He did not take out anything, but he posted a request for purchase,""I need a stalk of yang extreme grass. As long as you have it, I'm willing to pay ten million spirit Jade to buy it. Or, we can discuss what you want to exchange for it. I'll do my best to satisfy your requests."

The people below the stage began to discuss in low voices. The Yang extreme grass was indeed precious, but ten million spirit Jade was already several times or even ten times the auction price of the Yang extreme grass. This was completely different from the truth restoration grass. Whether it was in terms of grade or value, the difference was very large. Moreover, the scope of use was very small. If anyone had it, they would definitely take it out without hesitation.

Moreover, Shang Wanyi had mentioned that he would consider using the items they wanted to exchange for it. This was simply a huge temptation. Unfortunately, none of the people present had the Yang extreme grass on them.

The Zheng family members sneered to themselves in the corner. If the Yang extreme grass was so easy to obtain, it would not have been used as a tool to design Cai Zhongyang. Therefore, no matter how high Shang Wanyi's price was, they would not have anything to worry about.

Shang Wanyi looked back and forth a few times, and the disappointment in his eyes grew. This was his last attempt, and it seemed like there was no hope of obtaining the Yang extreme grass. In the end, he could only shake his head and leave the stage, not continuing to trade.

Cai Zhongyang was also a little sad, but he was quite satisfied that Shang Wanyi was willing to offer such a sky-high price to buy the Yang extreme grass. At least he did not save the wrong person. He could only do his best for the rest of the things!

They made a few more deals after that, and the items weren't bad either, but Lin Yi wasn't really interested. He started thinking if he should go up and ask if he had the ghost cicada wings-if he did, he could trade or buy them.

Before he could decide, something interesting appeared on the list, and Lin Yi happened to have what the person wanted.

"Everyone, this is a storage bag that has been passed down from ancient times. The space inside is neither big nor small. It is about the size of a dining table. If you carry it with you, it is very convenient to store some things, such as weapons and so on. It is very convenient. I only want to exchange it for two mountain gaze pills. If there is only one, it must be of high quality or above, and you will have to compensate me with three million spiritual jades!"

Lin Yi looked at the storage bag with interest. It looked similar to the one he saw in the ancient martial world, but it didn't have as much space as the one in the ancient martial world.

Speaking of which, he should have taken two back when he left the ancient martial world. Since the green cloud sect was the leader of the four great sects, they could use the Alliance's items. He would let Han Jing Jing study them and perhaps be able to mass-produce them.

Lin Yi had his own Jade space, but this storage bag was a lot more convenient-at least he didn't have to worry about getting caught when he took things out of the Jade space when he faced people stronger than him.

"It's actually a storage bag. I've only heard of it, but I've never seen it before. I didn't think I'd see it for real this time. Isn't it a bit of a loss to trade for only two mountain gaze pills?" Some people began to discuss among themselves. Two mountain gaze pills for a storage bag seemed to be very cheap.

Although the mountain gaze pill wasn't something that could be easily obtained, it was on a completely different level compared to the storage bags that had been passed down from ancient times.

"Didn't you hear him say that the space is only as big as a dining table? It can only be used to store some personal items, and its value is not as high as you think!" Another person retorted.

If it was a storage bag with a large space, its value would be immeasurable. It was because the space was not large that people would not be too surprised if the man said he wanted to exchange it for two mountain gaze pills.

No matter what the others said, Lin Yi was ready to get this storage bag. He didn't lack mountain gaze pills, and this storage bag would be of great help to him. Even if he gave it to Han Jing Jing to research in the future, it would be worth it.

After making his decision, Lin Yi didn't wait any longer. He took out a Jade bottle and a green spirit Jade card and went up the stage, "I have a mountain gaze pill here to exchange for your storage bag. However, I can only give you 500000 spirit jades. You can decide if you want to exchange or not."

The man opened the Jade bottle and looked inside. He closed the bottle in surprise and handed the storage bag to Lin Yi, "Deal!"

The mountain gaze pill that Lin Yi made was special grade, and was much more effective than high grade ones. It was even two to three times stronger than medium grade ones. Even if Lin Yi didn't add spirit Jade, this guy would agree to the exchange anyway. This storage bag was of little value to him, after all. It was convenient to bring things around, so how could it be more important than breaking through to the Titan tier?

Zheng Dongsheng and Zheng dongjue looked at each other in surprise. They were thinking about how to make sure that Lin Yi had the mountain gaze stone, but someone just exchanged a storage bag for his

mountain gaze pill. Now, they could basically confirm that hou guanqi gave Lin Yi the mountain gaze stone he got from the pill Hall!

After Cai Zhongyang, the time to deal with hou guanqi was almost ripe. When they returned to the middle Island, they could start to chase hou guanqi out of the pill Hall.

Lin Yi didn't know that his mountain gaze pill would bring trouble to hou guanqi. He was trying out the storage bag with satisfaction. The space inside wasn't big, only a little over two cubic meters. If he used it to store herbs and pills, he could store a lot of them. However, he only needed the storage bag as a cover. The really important things were still safe in the Jade space.

Lin Yi didn't go down immediately since he was already on stage. He put the storage bag away and smiled at the crowd, "I'm Lin Yi from the heavenly elixir Pavilion. You may have heard of me before, or you may not know me, but that's not important. As long as you know that I'm a Mystic class level one refiner, that's enough. Next, I'll use my free alchemy opportunity to trade for a pair of ghost cicada wings. If any of you don't need me to refine pills, you can also state your conditions in exchange. "

#### Chapter 5868 An Opportunity To Refine Pills

Lin Yi only came up with the idea of using the refining opportunity to trade because of li Zao Yi's inspiration. He didn't want to be so high-profile at first, but everyone on the ancient battleship probably knew that he made the yin and yang pill alone to save Shang Wanyi, so he might as well just admit that he was a Mystic first level refiner. At least it was better than using the spirit enhancing pill or mountain gaze pill to trade.

"Master Lin, although I don't have the ghost cicada wings, I do have other materials. Spiritual Jade would do too. I wonder if you can help me with the pill refinement?" The first person who bought the herb couldn't help but ask. It wasn't easy to see a Mystic first level Alchemist, and although there were two on the ship, they wouldn't sell it easily.

For example, Li Zao Yi's chance to make a move was to be auctioned at the northernmost Island, so she definitely wouldn't be making pills for others now. Lin Yi's alchemy skills had been proven, and if Li Zao Yi couldn't make the yin and yang pill alone, then Lin Yi could. Who was better?

Lin Yi blinked, not expecting something like this to happen. Thinking about it, this was a pretty good business—helping people make elixirs not only gave him the recipe, but also extra elixirs. It was a business with no capital but ten thousand profits, even more profitable than the central Chamber of Commerce's trash!

When an Alchemist was asked to help, they would usually have to prepare their own pill formula. Furthermore, the ingredients for alchemy would normally be double. Of course, it was impossible to only prepare one set of the ingredients that were too precious. However, the remuneration would be items of similar value.

Lin Yi was very interested in the recipe and the elixir, so he couldn't really say no.

"Yes, we can talk about this in private later. Although I can help people refine pills, it depends on the situation. When things here are done, you can come to my room to talk." Lin Yi thought about it and decided not to reject the benefits that came right to his doorstep. However, the most important thing right now was to get the ghost cicada wings. If he could make the ghost speed wings, his strength would increase to another level.

"Thank you, Master Lin. I'll definitely pay you a visit with sincerity!" That person was very happy, as if he didn't expect things to go so smoothly. Being able to refine the truth restoration grass into the truth restoration pill could be considered as completing the most important step.

Some of the people in the audience had their eyes lit up as well-they'd already started planning on going to Lin Yi as soon as possible to ask him for help after they were done here. High-level refiners like him had a limit on how many times they could help, and they'd lose the chance if they were late.

On the other side, Li Zao Yi frowned slightly. She didn't think that Lin Yi would use the refining opportunity to trade. She knew that she needed a lot of rest every time she refined a pill. How long had it been since Lin Yi refined yin and yang pills? how could he do it again?

What would Li Zao Yi think if she knew that Lin Yi made at least seven or eight cauldrons a day, and that each cauldron...With multiple sets of ingredients?

Lin Yi waited on the stage for a while, but no one came up to trade with him. It was clear that the ghost speed wings had to be pushed back. The ghost cicada wings were extremely rare, perhaps comparable to the rarity of the Yang extreme grass.

Lin Yi had no choice but to get off the stage, but wherever he went, most of the people greeted him with friendly nods and even a little fawning-the status of a Mystic first level was much higher than Lin Yi had imagined.

The following items were all different, but Lin Yi didn't really care about them. He wasn't interested in anything that he didn't need. In the end, he only used a Thunder elixir to exchange for a few golden class level Seven elixir recipes. It was still a harvest.

When the trade fair ended, it was already the afternoon of the second day. He didn't get the ghost cicada wings, but he got a storage bag and a few recipes. Lin Yi was satisfied, and there would be people asking him to refine elixirs later on.

Hou guanqi, Cai Zhongyang, and the others also had their own gains. Even Wei shenjin had gotten a prop that he liked. The few of them chatted and laughed as they returned to their rooms to cultivate.

They knew that Lin Yi would have guests, so they didn't want to disturb him.

Sure enough, after a few minutes, the person who bought the truth restoration grass hurried over.

"Master Lin, I hope I didn't disturb your rest by visiting so abruptly?" The middle-aged man looked refined, greeting Lin Yi with a fist salute. He was the type of person who would easily get into people's good books.

Lin Yi smiled and let him in, "You still haven't asked?"

"I was careless and forgot to introduce myself. I'm really sorry. I'm the Vice sect leader of the thousand blades sect, Ling Wuzong. Greetings, Master Lin!" Spirit martial ancestor cupped his fists once more and spoke in a very humble manner.

"So it's vice sect leader Ling of the thousand blades sect. It's an honor to meet you!" Lin Yi said casually. He really hadn't heard of the spirit martial track before.

However, when he heard about the thousand blades sect, he thought of the thousand blades sect in the ancient martial world. He wondered if Ling Tianyou had any blood relations with this spirit martial ancestor. However, after so many years, even if they were of the same bloodline, it would probably be very thin.

No matter what, this could be Ling Tianyou's relative, and Lin Yi's impression of him improved a little.

The spirit martial path and Lin Yi exchanged a few pleasantries before getting to the main topic. "I'm sure Master Lin knows that I'm here to ask you to make the truth restoration pill. However, I'm not in a hurry to use it. Master Lin can make it when it's convenient. "

Lin Yi waved his hand, "it doesn't matter when I make it. I don't have the recipe for the recovery pill. If you want me to make it, you have to give me the recipe first."

"That's not a problem, I have the pill recipe for the truth restoration pill with me!" He quickly took out a sheet of sheepskin paper and handed it to Lin Yi with both hands, "Master Lin, please take a look. This is the pill formula. I've also prepared all the other ingredients for the truth restoration pill."

After Lin Yi took the recipe, Ling Wuzong took out a Jade box the size of two palms and placed it on the table. There were small boxes inside with herbs, and one of them was the truth restoration grass that cost over eight million spirit Jade.

"Master Lin, the truth restoration grass is hard to come by so I can only prepare one. As for the reward, I wonder what you want?" Ling Wuzong asked nervously. Even if Lin Yi wanted a herb of the same grade as the truth restoration herb, he didn't have it. It would be best if he had a spiritual Jade. Ten million was nothing.

Lin Yi didn't reply. He looked at the recipe first, then at the herbs. After some calculations, he realized that there were almost two sets of ingredients.

Chapter 5869 Money-Making Profession

Although there was only one stalk of truth restoring grass, it could barely be considered as two sets of ingredients. This was because most alchemists would use the whole stalk, and even if there was an extra stalk, it would be a waste. Therefore, one stalk was considered one set of ingredients.

Lin Yi's Shennong cauldron was different-it could purify things perfectly, and there was almost no waste. He could probably make two pills out of this one.

With that in mind, Lin Yi smiled faintly, "The reward depends on what you are willing to offer. It would be best if you have spirit herbs of the same grade. If you don't, you can also exchange it with some higher grade pill recipes. If you can't, you can just give me spirit Jade."

He had a recovery pill as a Foundation, after all, so Lin Yi wouldn't be at a disadvantage no matter what. He didn't really care about the other rewards-he just took whatever he had, he wasn't picky.

Spirit martial arts even secretly gave Lin Yi a thumbs up, thinking that Master Lin was indeed a good person to talk to! Even though he didn't have any spiritual herbs, he couldn't let them suffer too much!

"Master Lin, how about this? I have three recipes here. Two of them are for the yellow Class level seven and one is for the mystic class level one. I'll give them all to you, Master Lin. On top of that, I'll take out another five million spiritual jade pieces for your pill refinement fees. Is that okay?" Ling Wuzong asked carefully. The price was high, but it was nothing compared to the recovery pill. He was worried that Lin Yi wouldn't be satisfied.

Who knew that Lin Yi would be secretly speechless at this time-he didn't think that helping people make elixirs would be so easy to earn. Thinking back to the last time, a hundred Foundation Stage elixirs were only sold for a million or so. The difference between the levels was too big, and the price difference was going to be sky high!

"Sure. Leave the things behind and come back tomorrow to get the pills!" Lin Yi's face was calm, but his heart was a little excited. If he could get more alchemy business, he might not even need to sell the soul quenching pill when he reached the northernmost Island. He'd have enough spirit Jade to buy the soul-raising tree.

"Yes, then I won't disturb Master Lin any further!" The spirit martial ancestor was also very happy. He left the items and took his leave.

He wasn't worried that Lin Yi would take the items and run away on the ancient warship, so he even gave Lin Yi the reward.

"This guy's not bad, we can work together more in the future." Lin Yi smiled as he muttered to himself. Another person came to ask for a pill.

However, this time, he only wanted a Yellow Class level Seven elixir, and the cost of refining it had directly become two hundred thousand spiritual Jade, plus a Yellow Class level Seven elixir recipe. From this, it could be seen how big the difference between the yellow Class level Seven and the mystic class level one was, it was like the difference between cloud and mud!

If it wasn't for the fact that he didn't have the recipe, he wouldn't even want to take this business.

After that, a few more groups of people came to visit, all of them asking Lin Yi to make golden class level Seven elixirs. Unfortunately, they all needed elixirs that Lin Yi had the recipe for-he really wasn't interested anymore.

He said that he couldn't accept any more requests for the time being since he'd already promised someone else, and so he hung up a "don't disturb "sign and shut the door.

After thinking about it, Lin Yi realized that he'd made a mistake. The cost of making those Level Seven pills wasn't much, and it couldn't be compared to the value of the ghost cicada wings. In other words, the ghost cicada wings that Lin Yi thought he could use to trade for elixirs were probably not of a high level, so even if someone had them, they didn't trade them because the value wasn't equal.

Lin Yi was a little annoyed after thinking it through. He did say that those who didn't want to make elixirs could ask for other conditions, but empty words like that didn't make anyone believe him. He might get robbed if he exposed it.

In any case, the trade fair was over. If he wanted to continue looking for the ghost cicada wings, he would have to count on the auction on Thule Island.

Before that, Lin Yi felt that he should just earn enough spiritual jades for the auction. He didn't have to use the soul quenching pill to exchange for it-there were so many followers and lovers waiting for him!

Lin Yi closed the door and put on the restriction before starting on the refinement. He'd finish the Golden class level Seven first before starting on the recovery pill.

It wasn't his first time making Mystic first level elixirs, and the success rate was pretty much guaranteed. However, there was only one truth grass, so Lin Yi didn't want to be too careless. He had to be careful with every step.

After creating the script, the system predicted that he'd be able to make two pills, and Lin Yi was very satisfied with his estimation. It seemed that the more pills he made, the better his eyesight was.

After choosing the method, Lin Yi calmed down and focused on making the recovery pill. It took a longer time this time, more than four hours before he finished it. It was probably night time again.

"To be able to produce two special grade recovery pills on your first try, your luck is pretty good!" Lin Yi happily took the two pills-he'd gotten a huge sum of spirit Jade in half a day!

In fact, under normal circumstances, the recovery pill wasn't that useful to Lin Yi. After all, he had the endless supply of Qi from the Jade space to support him, and he didn't have to worry about using up his Qi in normal battles. Therefore, the recovery pill, which was equivalent to a life for other sect opening stage big shots, wasn't that important to him.

But the most precious property of the pill was instant recovery-even the Jade space couldn't do that. From this point, Lin Yi felt that it was necessary to have a pill with him. Who knew when he'd run out of time in the Jade space?

Lin Yi saw that the thing was still practicing, so he didn't disturb him. He took out a piece of consciousness grass and prepared to continue making the soul quenching pill. He could feel that the more pills he made, the stronger his ability in making pills became. He couldn't make pills on his own without the Shennong cauldron or the automatic refining system, but the success rate and quality of the pills made with the Shennong cauldron were stable at an extremely high level.

For example, the recovery pill was a Mystic class level one pill. Before, Lin Yi couldn't guarantee that he'd succeed on his first try. A fifty percent success rate was already good enough, and the quality wasn't guaranteed. But now, it was different. Before he made it, he was sure that it would succeed and

the quality wouldn't be lower than high grade. This was the confidence that came from constantly making.

Just as Lin Yi took out the recipe, the ancient battleship shook slightly, and the furniture in the room shifted a little.

#### Chapter 5870 Battle Of Sea Beasts

Lin Yi's expression changed. This was something he had never seen before. The ancient warship was extremely stable when it was traveling. With the protection of the defensive layer, even if it hit some small reefs, the people on the ship wouldn't feel anything.

If Lin Yi could feel the vibration in his room, then something serious must have happened outside. The first thing he thought of was the sea beast attack that Dragon launched!

Could it be this time? Lin Yi quickly put away the Shennong cauldron and walked out. The Jade space didn't alert him, so he wasn't too worried about the danger. But with ao Tianba there, he had to go and help if the ancient ship was in trouble.

It wasn't the only time-in the short time Lin Yi had left the room, there were two more minor tremors, and so the people around him ran out at the same time as he did. It was obvious that everyone knew something was up, and they couldn't stay out of it.

"Boss, what happened?" Wei shenjin saw Lin Yi as he walked out the door and immediately asked.

Lin Yi nodded to the hongzhong people as he replied, "I'm not sure yet. If there's an enemy attack, there should be an alarm. There's no alarm right now, so it's hard to say. Let's go and see the situation first."

They didn't know what was going on, so they could only run with Lin Yi to the deck. When they reached the deck, there were already more than ten people who came out first, and their reaction speed was even faster than Lin Yi's group.

Lin Yi's spirit sense didn't find ao Tianba. After all, there were too many places on the ancient ship that could block out spirit sense. He was probably directing the response on the bridge.

"Boss, look! It seems like two sea beasts are fighting over there. The aftershock affected us and caused the ancient warship to shake." Wei shenjin pointed to the distance and exclaimed in a low voice. This was the first time he had seen such a powerful sea beast. Just the aftershock of the battle could shake the ancient warship. If it was a direct attack, how terrifying would it be?

"I see it! You guys wait here, I'll go find Captain ao Tian and ask about the situation. " Lin Yi frowned as he turned around and sprinted towards the bridge after saying something to the others.

As the honorary vice-captain of this ancient warship, he was naturally qualified to enter the bridge when there was a crisis. However, it was not convenient for him to bring others with him unless the captain, Okita, personally invited him.

In fact, as long as the two sea beasts did not attack the ancient warship directly, it had nothing to do with them. After the outcome was decided, they would probably not provoke the ancient warship.

Now, it was because the place where these two sea beasts were fighting happened to be the route the fleet was traveling on. If they wanted to make a detour, they would deviate from the safe sea route and enter the dangerous Sea area. Normally, navigators would not do such a thing.

If it was just that, Lin Yi wouldn't have to worry. At most, he'd have to wait for a while. If he didn't want to wait, with the power of the ancient battleship, he could just go over and start a fight. But the problem now was that Lin Yi could feel that LAN Guzha might be among the two sea beasts fighting!

There was no news from him after he left the middle Island, and Lin Yi didn't take the initiative to contact him with the communication Pearl. However, he believed that LAN Guzha wouldn't be too far away from the ancient battleship. The battle was about the same place.

"Vice-captain Lin!"

"Vice-captain Lin!"

.....

Lin Yi entered the bridge and everyone greeted him. If it wasn't for him controlling the Starfall formation and injuring Dragon, this ancient ship would've sunk to the bottom of the ocean already. Everyone here respected Lin Yi from the bottom of their hearts.

Lin Yi forced down his worry and nodded at them with a smile as he made his way to ao Tianba.

"Lil bro Lin, you're here! It's just two sea beasts fighting. It doesn't affect us much. Previously, we were only shaken by the aftermath of their battle because the defensive layer was activated to block the wind and waves. Now that it's stronger, we won't feel it anymore. " Ao Tianba turned around and waved at

Lin Yi with a smile. After seeing Dragon, small battles like this weren't a concern to him at all, especially not against the ancient warship.

Lin Yi wasn't in the mood to talk about anything else-he walked up to ao Tianba and asked,"Brother ao Tian, do you have any surveillance footage that can allow us to see some of the battle scenes clearly?"

If LAN Guzha was really fighting there, Lin Yi would have to help no matter what. But on the ancient warship, his spirit sense could extend over, but it would be weakened by the defense layer. Plus, the battle was shaking violently, and Lin Yi wasn't sure if he could get a clear image, so he came to the bridge to see the surveillance image.

Ao Tianba didn't think too much about it-he thought that Lin Yi was just curious about the sea beasts."Of course there is. You have good taste. One of the sea beasts is in the beginning stage. Although the other one hasn't reached the beginning stage yet, its combat strength is not weaker than that of the beginning stage. It's still very interesting to watch."

As he spoke, ao Tianba quickly manipulated the surveillance array and projected an image generated by the surveillance array in front of him.

This method was much more advanced than the technological surveillance of the secular world, but it was slightly weaker in terms of distance. After all, the secular world could monitor through satellites, while the surveillance array on the ancient warship could only cover a thousand miles of the sea.

Lin Yi looked at the image and saw two sea beasts in the battle. One was a huge octopus-like soft-bodied sea beast, and the other was a blue sea Dragon. It was LAN Guzha!

Ao Tianba clicked his tongue and praised, "brother Lin, look! That's a Sea Dragon! We encountered a Sea Dragon last time. I didn't expect to see another one today. Although it's weak, it has the chance to evolve into a Sea Dragon. No wonder it can fight a sea beast in the mountain opening stage with its xuansheng stage strength!"

Lin Yi let out a sigh of relief. It was as ao Tianba said-LAN Guzha was still in the xuansheng stage, but he wasn't at a disadvantage against the giant octopus in the early stage of the mountain opening stage. As expected of a mutated Kraken-his strength was unparalleled!

LAN Guzha's level didn't increase in the few days they were apart, but his strength did. The sea serpent Dragon needed the boundless sea to grow quickly. Lin Yi was pleased with this and didn't want to help for the time being.
