

Bodyguard 5871

Chapter 5871 The Zheng Family Who Sowed Discord

A battle like this was a rare experience for LAN Guzha. If Lin Yi got involved, it wouldn't do him any good. Only continuous tough battles could give him the chance to evolve.

"Brother ao Tian, who do you think will be the winner?" Lin Yi asked, pretending to be casual.

Ao Tianba laughed. "That's hard to say. Although the sea serpent Dragon is strong, it's a pity that it's only at the xuansheng stage. It's still a long way from reaching the great circle of perfection. On the other hand, the octopus is at the early stage of the mountain opening realm. If it wasn't for the sea serpent Dragon's natural King aura suppressing a part of the octopus's strength, it would have been whipped to death by the octopus. In my opinion, it's more likely that both sides will suffer in the end. "

"Both sides are injured? That might not be the case!" Lin Yi smiled faintly. He was still very confident in LAN Guzha. It was just a cross-level challenge, not something that difficult.

"Brother Lin, are you interested in these two sea beasts? If you want to capture or kill them, just say the word. " Ao Tianba waved his hand heroically. With the strength of the ancient warship, it was easy to deal with two sea beasts in the early stage of mountain opening, let alone the sea serpent Dragon that was not in the early stage.

Lin Yi smiled, "I'm interested in the sea Dragon, but I don't need your help. I'll fly over and take a look. If possible, I'll form a good relationship with the sea Dragon. When the time comes, you just need to open the defense and let me out."

"Brother Lin," ao Tianba said,"although it's not too dangerous for you to ride an aerial spirit beast with your strength, there's still the ancient battleship. Why take the risk?"

"Brother ao Tian, don't worry. I know what I'm doing. Oh right, can you lend me one of the flying spirit beasts on the ship? wait for my signal and open the defensive layer." Lin Yi didn't explain further. This was a good chance for LAN Guzha to appear. Other than that, he also wanted to watch LAN Guzha up close, in case the guy really died with the octopus.

Seeing Lin Yi's determination, ao Tianba didn't say anything else and nodded,"If that's the case, then you'll have to be careful, younger brother Lin. I'll prepare the Starfall formation. If any sea beast dares to ambush you, we'll kill it together!"

"Aotian bro, let's just forget about the Starfall formation. It's too powerful and consumes too much energy. Just a normal attack formation will do."

Lin Yi was worried that the Starfall array might land on his head if it didn't kill the sea beast with the rough control of ao Tianba and the others. It would be too much of a waste if that happened, so it was better to make ao Tianba give up on the idea for safety's sake.

"You're right. The Starfall array is my trump card. I can't use it easily. Forget it. Be careful. I'll support you at any time." Ao Tianba patted Lin Yi's shoulder with a smile before turning around to have someone prepare an aerial spirit beast for him.

Lin Yi thanked him and immediately left the bridge, returning to the deck to wait for the aerial spirit beasts. At this time, Spirit Warrior walked up to him and greeted him with cupped fists,"Master Lin, did those two sea beasts affect you?"

He'd spent a lot of money on the grass-the spirit Jade was secondary, but the pill couldn't have any problems-it concerned the safety of the person behind him. Naturally, he'd be worried when he saw Lin Yi.

Lin Yi said that he'd give him the pill tomorrow, but it wasn't really appropriate to give it to him now. He just smiled casually, "It's okay. Don't worry. Just come over tomorrow."

"Vice sect leader Ling, you didn't really ask this guy to concoct the truth restoration pill, did you? Then you better be mentally prepared, I don't think you'll be able to get your truth-restoring grass back. " Zheng dongjue suddenly interjected with a sneer. He had a very worried expression on his face, as if he was really worried about the spirit martial ancestor.

Ling Wuzong's expression darkened as he coldly replied, "What do you mean by that, vice head Zheng? Are you trying to sow discord between Master Lin and me?"

Zheng Tianqing, who was standing beside Zheng dongjue, glared at the spirit martial ancestor in disdain. "A dog biting Lu Dongbin, you don't know what a good person is like! A country bumpkin like you is pitifully stupid. Don't you know that if you hire an Alchemist to concoct pills, The Alchemist won't bear any responsibility if you fail?"

"So what?" The martial spirit initially did not want to pay attention to Zheng Tianqing, but he still wanted to hear what he had to say, so he subconsciously asked.

As for asking an Alchemist to refine elixirs, if they failed, they would get nothing. As the Deputy sect leader of the thousand blades sect, he was clear about this. This was also the rule of the alchemy industry. Otherwise, if The Alchemist failed in refining elixirs and had to pay for the damages, who would still refine elixirs for you?

"Country bumpkins are country bumpkins. So what if you still ask?" Zheng Tianqing looked at the spirit martial ancestor with pity in his eyes, as if talking to him was a great act of charity. "I'll teach you a lesson today. Alchemists refining pills isn't as simple as you think. Under normal circumstances, after refining a pill, you need to rest for a while. The length of this time is determined by the grade of the pill you refine. For example, you'll need to rest for at least ten days to half a month after making a golden class level Seven pill. Do you understand what I'm saying?"

Spirit martial ancestor was slightly taken aback. He wasn't an Alchemist, so he really didn't know the intricacies behind it. Those alchemists who made pills for others usually wouldn't say these things out loud. However, spirit martial ancestor did know that golden class level six or seven alchemists would only accept a Commission once every ten days or half a month.

He remembered that Lin Yi had just made the yin and yang pill-how long had it been? Yet, he said that he would be able to successfully refine the pill the next day. When spirit martial ancestor thought of this, he could not help but feel a little flustered.

Zheng dongjue laughed, "vice sect leader Ling, we're thinking for you. You're looking for Lin Yi to make elixirs, but he clearly just made the yin and yang pill. He can't continue making elixirs for a while. If he promised you that he'll finish the elixir in two days, he'll most likely take your grass of truth restoration. So I advise you to get it back as soon as possible!"

"Our pill Hall's master Li Zao's pill refining skills are much better than this guy 'S. He has to rest for many days after refining a pill. You don't really think this guy is better than Master Li Zao, do you?" Zheng Tian Qing said.

Spirit warrior's face was a bit ugly-he really was starting to get a bit nervous after hearing what the two Zheng punks said. Lin Yi stood to the side without saying anything-it was time to see Spirit warrior's

character. If he chose to believe the Zheng family, then Lin Yi's friendship with him would end from this deal, and they'd have nothing to do with each other anymore.

Chapter 5872 Another Trick

If the spirit martial track chose to believe Lin Yi, then he would become a friend worth befriending in Lin Yi's heart.

"Where did this Mad Dog come from, barking here, really annoying! If you don't get lost, be careful of this young master's rod!" Wei shenjin saw Lin Yi and quickly came over to greet him, but he heard Zheng Tianqing's words and immediately turned hostile.

Zheng Tianqing's eyes turned cold as he said, "You're looking for death!"

"We'll only know who's looking for death after we fight!" Wei shenjin retorted without showing any weakness. Zheng Tianqing thought that he was a genius, but Wei shenjin was definitely not inferior.

Wei shenjin was already a recognized genius in the snow sword sect, and after following Lin Yi, he had more than enough elixirs to use-he didn't need to worry about resources at all, and his strength was enough to suppress Zheng Tianqing. He wasn't afraid of this self-righteous East continent genius at all.

Taking a deep breath, Ling Wuzong stood between the two and said, ""Two young heroes, don't make unnecessary disputes. We are all in the same boat, so it is better to make peace. Since I've chosen to ask Master Lin to help me refine pills, it's naturally because I believe in Master Lin. So, no matter if it's a success or failure, I'll support Master Lin to continue refining pills. Vice head Zheng, you don't have to worry about me. "

To tell the truth, the martial spirit ancestor couldn't help but feel uneasy after hearing the Zheng couple's words. However, he also knew that if he were to ask for the herb now, he would be thoroughly offending Lin Yi. He was the master of the heavenly pill house, the honorary vice-captain of an ancient battleship-if he were to ask for the herb, it would be the same as saying in public that Lin Yi was trying to steal his herb. How stupid would he be to do that?

Did the thousand blade sect still want to stay on the ship?

Since that was the case, he had to make sure that he believed in Lin Yi!

Lin Yi didn't know that the spirit martial arts track had thought of so many things in such a short time, but he was satisfied with the results.

"Wei shenjin, you have to give face to vice sect leader Ling. You don't have to bother with those boring people." Lin Yi smiled faintly and turned to the spirit martial track, "Vice sect leader Ling, don't worry. I, Lin Yi, will always do what I say. You can come and get the pills tomorrow. If I don't have any for you, I'll compensate you double!"

"Master Lin, you're being too serious!" Spirit martial ancestor quickly cupped his fists and said, "I believe that Master Lin will definitely succeed. Even if there are any mishaps, our thousand blades sect will not be so unreasonable as to ask for any losses. This is all within a reasonable range. If Master Lin continues to say this, you're going to make me suffer!"

Lin Yi smiled and waved his hand, "alright, vice sect leader Ling. Let's cut to the chase. We'll get the results tomorrow. My reputation can't be destroyed by a mere truth recovery grass."

Hearing this, the spirit martial arts track's heart instantly settled. Lin Yi's reputation wasn't worth ten or a hundred times more, let alone a herb! In that case, the success rate of the pill was indeed very high-Lin Yi wasn't lying!

At this time, the ancient warship's aerial spirit beast had arrived. After Lin Yi got on it, he beckoned to Hongzhong Guanqi and the others before flying into the sky through the gap in the defensive layer and into the battle area.

Hong Zhong and the others were surprised, not understanding why Lin Yi was going there, but they couldn't ask now. The gap in the ancient battleship was closed again, and it was impossible to follow them. They could only wait for Lin Yi to come back.

Zheng Tianqing saw Lin Yi suddenly fly out and was secretly happy. He only hoped that Lin Yi would die outside, which would save him some trouble.

"Tianqing, do you really think Lin Yi can keep on making elixirs?" Zheng Dongjue whispered. The yin and yang pill isn't a simple pill, and it was concocted by him alone. To be honest, I find it strange that he's still alive and kicking, so how can he still concoct the truth restoration pill?"

"Second Grandpa, let's not talk about the yin and yang pill for now. If Lin Yi can really make pills continuously, I think it's because he's taking some recovery pills. But this kind of method is like drinking poison to quench thirst for a refiner, it can't solve the root of the problem. Let's not talk about whether there are enough pills for him to recover. If he eats too much of this thing, it will produce pill poison, which will have a great impact on his cultivation and alchemy." Zheng Tianqing was also an excellent Alchemist, so he immediately made his own guess.

Zheng dongjue clapped his hands and chuckled in a low voice. "Tianqing, you're right. This Lin Yi guy must've taken some recovery pills. Other than wanting to earn some money, he probably also wants to show off on this ship. There's nothing to lose if he fails, but it'll be great if he succeeds,"

"Second Grandpa, I've thought of a brilliant plan!" Zheng Tianqing's eyes lit up as he whispered into Zheng dongjue's ear, "Since that idiot Lin Yi wants to earn spiritual jades by acting tough, we'll satisfy his vanity. We'll arrange for people to bring Mystic first level pills to him for refining, and make him use up the energy replenishing pills. This way, when we reach the northernmost Island, he'll be at our mercy."

Zheng dongjue pulled Zheng Tianqing to a quiet place with fewer people. He then lowered his voice to a point where it could barely be heard, "Tian Qing, that's a good idea. It's as good as Tong wohan's idea. You're indeed the Qilin of our Zheng family!"

Zheng Tianqing looked proud, but he still pretended to be humble and said, "Second Grandpa, you're too kind. It was just a sudden idea. The only question now is, do we have that many Mystic first level main ingredients?"

"Don't worry. We represent the pill Hall. How can we be short of spirit herbs? If Lin Yi can make the pill successfully, the value of the spirit medicine will increase by a few times. If he fails, it'll ruin his reputation. It doesn't matter if he succeeds or fails, as long as he can make the pill, we'll achieve our goal! This plan is perfect!" The more Zheng dongjue thought about it, the more he felt that Zheng Tianqing was reliable. Previously, he had looked down on Zheng Tianqing and felt that this kid did not live up to his name. He did not expect that he would be able to change his opinion of him today.

Both of them thought that the plan was perfect, and so they didn't discuss it with wootong or Zheng Dongsheng anymore. They started looking for people to choose from, ready to go to Lin Yi's house and ask for the pills when he came back.

Lin Yi, on the other hand, didn't know that such a good thing was waiting for him. He was already close to the sea where the battle was taking place.

It was only after getting close that Lin Yi could truly understand how terrifying these sea beasts were. Every time the octopus waved its tentacles, it would bring up huge waves, and the huge power contained in them was so great that even Lin Yi, who was far away, could feel danger.

Chapter 5873 Quick Battle

LAN Guzha did not show any weakness. The sea serpent Dragon's body was already extremely strong. He had even gone through mutation and the tempering of lightning. The strength of his body was comparable to that of a Sea Dragon. Although the octopus's whip was painful, it was not enough to cause fatal damage to LAN Guzha. Therefore, these two fellows who were fighting in close combat had almost given up on martial arts and other attacking methods. They were completely trading injuries for injuries. They were using the simplest and most violent method to fight for their lives.

Lin Yi shook his head silently. He thought LAN Guzha had improved a little, but he was still messing around. This Sea area was not a safe place. The sea beasts in the early stage of the mountain opening stage were not strong. Did they make such a big commotion because they were afraid that the strong sea beasts would not know that there was a delicious meal here?

If they continued to let them fight, even Lin Yi's fleet would be in danger, let alone these two. He didn't want to get involved at first, but now he changed his mind.

"LAN Guzha, if you can't kill this octopus within a minute, I'll make my move!" Lin Yi communicated to LAN Guzha from afar. If he could really kill the octopus in a minute, that would be the best.

LAN Guzha had seen Lin Yi coming a long time ago, but he didn't dare to be distracted by the intense battle. Now that he heard the boss's order, LAN Guzha was excited, "Don't worry, boss. I'll finish this

battle in a minute. But I want to eat grilled octopus skewers. I'm tired of eating raw fish slices these days!"

As he spoke, LAN Guzha launched his most violent attack. With Lin Yi by his side, he didn't need to hold back anymore. The wisest thing to do was to go all out.

Lin Yi couldn't help but smile-this guy didn't forget to eat no matter where he went. He didn't have the fire element in the sea, so what else could he eat if not raw?

"Don't even think about grilling octopus. Before you come back to me, you'll have to find a way to solve it!" Lin Yi couldn't be bothered with this guy-who knew if he'd get another king crab or something for Lin Yi to steam if he were to really do it?

LAN Guzha muttered, lamenting that he could only continue to live a pitiful life of eating raw meat and drinking blood. He then vented all his dissatisfaction on the octopus.

It was a pity that the octopus was strong. No matter how hard LAN Guzha tried, he couldn't take it down in a short time. Lin Yi waited for the one minute to be up and used the soul-hooking hand to hook the octopus's spirit.

This was an ocean beast's spirit at the mountain opening stage. Of course, the strength of the spirit was only at the early stage of the mysterious Ascension realm compared to humans, but that wasn't important. The important thing was that this ocean beast's spirit was enough to support Lin Yi's spiritual sense consumption for many days.

LAN Guzha opened his mouth wide and bit the octopus's body. He dug out the inner core and passed it to Lin Yi. He also gave Lin Yi three xuansheng and five Yuanying inner cores, which were probably the results of the past few days of eating. It seemed that his appetite was still good.

"In the future, don't do things you're not confident in. If you're devoured instead, you won't have anywhere to cry!" Lin Yi quickly kept the core and reminded again.

LAN Guzha chuckled. "Don't worry, boss. I won't do it again. It was a coincidence today. I didn't mean to provoke this guy. After I eat this guy, leveling up won't be a problem. I might even be able to reach the great circle of the mysterious Ascension stage directly. If I meet someone with this kind of strength again, I can deal with it alone. "

"Alright, do as you see fit. Be careful!" Lin Yi waved his hand, telling LAN Guzha to leave quickly. It was a little dangerous, but LAN Guzha's strength had obviously increased. It might not be long before he entered the mountain opening stage.

LAN Guzha nodded. "Alright. Take care too, boss. I'll be leaving first!"

After he finished speaking, he bit the octopus's body with his mouth and spiraled down to the bottom of the sea. The most important thing now was to find a quiet place to properly digest the octopus and transform it into his own strength.

Lin Yi didn't waste any time and flew the flying spirit beast back to the ancient warship. The people on the deck saw that Lin Yi seemed to be communicating with the sea serpent Dragon and were curious about him, but no one came over to say anything. At this level of strength, sea beasts' intelligence was no different from humans, so it was not surprising that they could communicate.

After returning the flying beast, Lin Yi didn't go look for ao Tianba again. He went back to his room and continued his refinement. He'd promised the spirit Warrior ancestor that he'd give him the next day, so he had to act like he was serious.

The fleet continued to follow the established route and quickly left the sea. Fortunately, they did not encounter any other powerful sea beasts. It could be said that there was no danger and it was very calm.

The next morning, Ling Wuzong came to Lin Yi's door and waited. Other than him, there were two other people who wanted to ask for help. One was the person who asked Lin Yi to make the Golden class level Seven pill, and the other was the one who brought the ingredients to Lin Yi to make the mystic class level one pill. Of course, this was arranged by Zheng dongjue and Zheng Tianqing in secret.

Lin Yi's spirit sense saw the spirit martial artist and didn't make him wait long. He opened the room's restriction and invited him in. As for the other two, they could continue waiting.

"Master Lin! Has the pill refinement finished?" Spirit martial ancestor asked nervously, worried that Lin Yi would say he failed and that he'd affect him if he came too early. He couldn't calm down until he saw the pill, anyway.

Lin Yi smiled faintly and took out a Jade bottle with a recovery pill for Ling Wuzong. "I'm glad that I didn't fail my mission. I've successfully concocted the truth restoration pill. I also thank vice sect leader Ling for trusting me."

The spirit warrior's track was overjoyed, and the weight in his heart was finally lifted. He didn't check the bottle immediately after receiving it, but cupped his fists to Lin Yi. "Master Lin, you're indeed a man of your word. I'm deeply impressed! As for believing Master Lin's words, I won't hide it from you. I've been feeling a little uneasy. Now that I've gotten the pill, I dare to say that I'm completely at ease!"

Lin Yi had a good impression of the man's frankness-he was a person worth befriending, after all. He'd only be disappointed if he tried to cover things up with some nice words.

"Vice sect leader Ling is feeling uneasy, but You Still Believe in Me. This is even more commendable. I will make you a friend. In the future, if you need to refine pills, I can give you priority in refining pills. However, I will only give you a discount on the cost. I can't refine pills for you for free." Lin Yi said with a smile, pulling their relationship closer.

Chapter 5874 Are You Crying Because You Failed?

Spirit martial ancestor was overjoyed-getting Lin Yi's friendship was probably more valuable than the recovery pill in his hands. He thanked Lin Yi and opened the bottle.

That one look almost made Ling Wuzong drop the Jade bottle in his hand-he didn't expect Lin Yi to make special grade recovery pills!

After grabbing the bottle in a fluster, the way the spirit martial ancestor looked at Lin Yi completely changed!

He'd been suspicious of Lin Yi's ability to make the pill after hearing the Zheng couple's words-even after he'd strengthened his confidence, he'd only thought that Lin Yi would be lucky if he could make a low quality pill since he'd just started making the yin and yang pill. He'd be lucky if he could make a medium quality one.

As for high grade true restoration pills, Ling Wuzong didn't even dare to dream about them. But what was it now? Now, it was a F * cking special grade truth restoration pill!

A Mystic first level refiner who had never made a pill before, how could he make a special grade one? No matter how clueless the martial spirit track was about refining elixirs, he wouldn't think that something like this would happen. In other words, Lin Yi could very well be a Mystic second level refiner!

It wasn't just a matter of ranking up-Mystic first class and Mystic second class were two completely different things. If the spirit martial track had only treated Lin Yi with respect before, it was now filled with reverence.

"Master Lin, I didn't expect you to be a Mystic second level Alchemist. No wonder you can make the Yin Yang pill on your own. You're so young too. It's really amazing!" The spirit martial ancestor put away the Jade bottle, cupped his fists, and bowed respectfully.

Lin Yi didn't bother explaining-Mystic second level elixirs were something he could make with the Shennong cauldron, after all, and so it wasn't wrong to call him a Mystic second level refiner!

However, the Yin Yang pill wasn't something a Mystic second level refiner could make on his own-without the help of Lin Yi's automatic refining system, one had to have both water and fire spiritual roots, and be able to fuse yin and yang. Otherwise, even Mystic seventh level refiners would have to make it together.

After knowing Lin Yi's true skill in making elixirs, spirit martial arts couldn't help but be more reserved. After exchanging a few words, he got up and left. After all, there were two people waiting outside, and he didn't know if he was holding up Lin Yi's time.

No matter what, Ling Wuzong had already decided that he had to get on Lin Yi's good side. Having a powerful refiner friend like this was beneficial to the entire thousand blades sect.

After sending the spirit martial trace away, Lin Yi let a second person in and handed him the finished pill. There was nothing much to say-it was just a golden class level Seven pill, and the other party was naturally very satisfied with the quality. Lin Yi didn't mind at all and sent him away.

Zheng Tianqing, who was peeking at the situation from a corner not far away, was secretly delighted. He turned to Zheng dongjue and said, "Second Grandpa, look at the smiles on Ling Wuzong and Lin Yi's faces when they came out. It's obvious that they've gotten the pills. It looks like Lin Yi really did use the pills to recover his strength and Qi. Our people will be going in next. Did you arrange for more people to come over? Lin Yi won't completely collapse if he's just refining pills alone."

"Don't worry, I've arranged for four people, and all four of them are Mystic class level one elixirs. I heard that he rejected many requests for golden class level Seven elixirs yesterday. I think it's because there are too few spiritual jades, so he doesn't like them!" Zheng dongjue sneered and said indifferently, "All the orders today are Mystic first grade, let's see if he has the guts to take them all!"

The first person came out after a few minutes, making a hidden gesture at Lin Yi's door, indicating that he'd successfully commissioned Lin Yi to refine the pill.

At the same time, the people assigned to the back arrived and entered Lin Yi's room one by one.

Zheng dongjue and Zheng Tianqing couldn't help but feel a little nervous. They wanted Lin Yi to take it all, but they were also worried that if Lin Yi really did take it all and failed, it would be a huge loss for them.

The main ingredients of Mystic class level one elixirs were all expensive and rare spiritual herbs, not to mention that Zheng dongjue had put in a lot of money to hire Lin Yi to make elixirs. If he could prepare two sets of ingredients, he would. If he didn't, he would bring enough spiritual Jade. He just gave Lin Yi fifteen million spiritual Jade-this wasn't a small amount. Even the Vice head of the hall of alchemy would feel pained if he took out so many spiritual Jade all of a sudden.

The second mission was a success, the third mission was a success, and the fourth one finally came out, and it was still a successful mission!

Zheng dongjue and Zheng Tianqing left quietly, both happy and worried. Their plan was going smoothly, however. If Lin Yi really did take the pill to recover, then he'd be asking for trouble!

Lin Yi didn't think that his business would be this good-it seemed like reputation was really important. Yesterday, he was still getting golden class level Seven pills, and today, he had four Mystic class level one pills in a row. If it was a normal refiner, the most they'd get would be some spiritual Jade, but he was different. With the Shennong cauldron, one pill was a sure thing, and with the fifteen million spiritual Jade reward, it was a huge profit!

If Lin Yi knew that this was all arranged by Zheng dongjue and Zheng Tianqing, he'd give them thirty-two likes. They were so considerate to be enemies to this extent, giving them pill recipes, pills, and spiritual jades. As a responsible enemy, Lin Yi would only say one thing to them: "Any more?"

After finishing the four orders, it was almost the start of a new day. They were almost at the northernmost Island, so Lin Yi stopped refining and put away the Shennong cauldron. He stood up and stretched his body, feeling quite happy.

He hadn't attended the auction yet, but he'd already gotten quite a lot. If he could keep this luck up until the auction, it'd probably be easy for him to get what he wanted.

The sky wasn't bright yet. Lin Yi came to the deck and looked up at the stars. All his fatigue quickly disappeared. He would be happier if Zheng Tianqing wasn't here.

"Lin Yi, I heard that you've received a lot of orders, why don't you go and make some pills? did you fail and come to the deck to cry?" Zheng Tianqing laughed out loud. Although Lin Yi's failure would be a loss to the Zheng family, he was happy to see Lin Yi in trouble!

Chapter 5875 Not Together Today?

Lin Yi didn't want to talk to this idiot at all. He was still looking up at the stars. If they weren't on the ancient battleship, he might have killed this guy.

Zheng Tianqing didn't seem to have realized anything. He walked over and mocked, "What's wrong? Did he really fail? Or do you want to use the excuse of pill refining failure as an excuse to swallow the spirit herbs that others entrusted to you?"

Lin Yi turned to Zheng Tianqing impatiently and said, "Who are you? Do I know you very well? Can't you just quietly scram to the side?"

Zheng Tianqing's face stiffened, but then he suddenly thought of something and laughed. "You're angry because I hit your sore spot? I thought you were an amazing Alchemist, not only able to continuously refine pills, but also able to guarantee an extremely high success rate. It seems that was just an illusion! In the end, you just want to take the opportunity to get some spirit herbs, right?"

At this point, Zheng Tianqing was almost certain that Lin Yi had failed! They needed to use words to pressure Lin Yi, and the Zheng family might even be able to recoup their losses.

"Hello, Master Lin! Tell me, how many spirit herbs do you plan to scam this time? I've heard that those few people all went to you for pill refining because of your high success rate. If you didn't complete any of them, wouldn't that be too face smacking? How about you beg this young master to put in a good word for you, and perhaps he won't be so calculative with you?" Zheng Tianqing was extremely pleased with himself, and his mouth was full of mockery.

Lin Yi glanced at Zheng Tianqing, a little confused. Those people who asked him to refine elixirs shouldn't have announced it to everyone, so why did this idiot seem to know it like the back of his hand? He would never believe that there was nothing fishy about this.

But it didn't matter-Lin Yi had gained a lot from these orders, and since he didn't suffer any losses and even gained a huge advantage, there was no point in being calculative.

"Does my business have anything to do with you? If you're not smart enough, go back and read more books. Don't always come out and embarrass yourself. Your grandfather is already so old, so you should at least save some face for him. " Lin Yi said sarcastically, thinking that it was a waste of time to talk to people like this. He turned around and went back to his room.

With that free time, wouldn't it be better to continue refining pills or something?

Zheng Tianqing was furious. If he didn't know that he wasn't Lin Yi's match, he would've attacked Lin Yi already.

"Surnamed Lin, don't be too arrogant. You used the excuse of a failed alchemy to swallow other people's spiritual herbs. This kind of thing is simply a disgrace to all alchemists. I will never tolerate such a scum. Just you wait, I will let everyone see your true face. From now on, let's see who will come to you for

alchemy!" Zheng Tianqing pointed at Lin Yi in the air and roared in anger. It was a pity that his acting was too bad. He didn't look like a Messenger of justice at all, but more like a Mad Dog.

"Idiot!" Lin Yi turned his head away in disdain. "If I fail, I'll naturally compensate you with something of equal value. Do you think you Zheng family are a scoundrel? you can use failure as an excuse to make money."

"Who's a scoundrel? Lin, stop right there! If you don't make things clear today, don't even think of leaving!" Zheng Tianqing wanted to pull Lin Yi away. He was already satisfied when Lin Yi said that he would compensate him with items of equivalent value, but it was about the Zheng family's reputation. He had to fight for it, or people would think that the Zheng family was in trouble if they heard it.

Lin Yi wouldn't have bothered if he'd just been talking, but the guy was overjoyed when he heard that Lin Yi was going to compensate him. He subconsciously tried to pull Lin Yi back, and it was a tragedy.

Lin Yi waved his hand and slapped away Zheng Tianqing's palm. He didn't even use much strength, and the guy was sent flying. The palm hit his own palm as it flew back.

Several large teeth were knocked out of his mouth.

The level difference between them was just too big, and Lin Yi was speechless. He just wanted to teach this guy a lesson, but he didn't expect it to be this effective.

Well, it seemed that after his strength increased, his control had decreased a little. He needed to cultivate properly!

Lin Yi nodded and walked back leisurely. As for Zheng Tianqing, who was sent flying by his palm, he stuck to the side of the ship and covered his bleeding mouth, looking at Lin Yi's back with a face full of fear.

Zheng Tianqing couldn't even imagine how big the gap was between him and Lin Yi without actually fighting him. Although it was only a small contact, and the strength Lin Yi showed was not even the tip of the iceberg, it had already caused an inextinguishable fear in his heart.

The experience of being poisoned in the restaurant came back to him again. For a moment, Zheng Tianqing seemed to be in a daze. He stood there dumbfounded and did not move for a long time.

Lin Yi, naturally, didn't care what the guy was thinking. He went back to his room and started cultivating, not feeling much of the time.

Unknowingly, Lin Yi felt the notification ring again, ""Distinguished guests, we will arrive at the northernmost Island in four hours. Please be prepared to land!"

"We're almost there?" Lin Yi stood up and muttered to himself, a little surprised. The speed this time was quite fast, but he remembered that this was a fleet of ships, and he felt relieved.

He'd heard before that a fleet of high-level ships would have a speed boost when they were arranged in a special formation-it seemed like it wasn't a lie. Lin Yi thought that he'd have to learn more about this when he had the chance-it'd be a waste if he didn't learn more from this damn thing, after all.

His spirit sense detected that Wei shenjin was already in front of his room. Lin Yi opened the restriction and walked out, ""You're not with miss Shang today?"

"Boss!" Wei shenjin's face heated up slightly, and he grinned as he called out, ""Yuhua and her father are in the restaurant. They'll be disembarking in four hours. Should we go and get something to eat first?"

"You really like the food on this ship. Do you have to have a good meal before you go down?" Lin Yi smiled and didn't decline. He activated the restrictions in the other rooms, "Ask them if they want to go together."

Soon, Hong Zhong, Cai Zhongyang, and hou guanqi also came out. They didn't have any objections when they heard that they wanted to eat.

Chapter 5876 Publicly Challenging

They were planning on getting together on the ship and talking, but Lin Yi was either in isolated practicing or refining-there really wasn't much time to chat. They'd better grab some food and chat while they still had time, making up for some of their regrets.

When they arrived at the dining room, they saw Shang Yuhua standing up and waving at them. She and Shang Wanyi were already sitting at a round table, which was more than enough to accommodate Lin Yi and the others.

But before Lin Yi could go over, the four people who asked him to make the pill all appeared as if they'd agreed on it. They all had meaningful smiles on their faces as they cupped their fists, "Master Lin, have our pills been refined?"

Wei shenjin didn't know the secret behind it, but he politely said to the four, ""You guys can come back to look for Master Lin later. Right now, we're going to have a meal first. Can we talk about the pill refining after Master Lin is done with his meal?"

Hong Zhong was a cunning old fox who'd been in the business world for many years. He could tell from the expressions of the four people that a normal person asking for pills wouldn't be as arrogant as these four. He took a step forward and stood beside Lin Yi.

This subconscious move also showed that hongzhong and Lin Yi were determined to go through thick and thin together. Lin Yi's heart warmed a little-it was a good thing to have a friend like this by his side.

However, they didn't need to worry about Lin Yi's refining as everything was under his control. He patted Wei shenjin's shoulder with a smile, ""It's fine, I'll have a chat with them first. You can bring brother Hong and the others to have a seat first. I'll be there in a while."

"Yes, boss! Then we'll head over first. " Wei shenjin was completely obedient to Lin Yi-he agreed immediately and invited the three to go to Shang Yuhua's side.

Hong Zhong whispered in Lin Yi's ear, "Lil bro Lin, these guys are a little weird, are you okay with that?"

"Don't worry, brother Hong, there won't be any problems!" Lin Yi smiled faintly and gave him a reassuring look, telling him to go over first.

Seeing Lin Yi's confident look, Hong Zhong didn't say anything more. He really admired Lin Yi's methods, so if Lin Yi said it would be fine, it would be fine. There was nothing to worry about.

After Hong Zhong left, Lin Yi smiled faintly at the four, "Do the four of you need to find a quiet place to talk?"

He didn't ask how the four of them got together all of a sudden-it didn't matter, since they wouldn't have the chance to ask Lin Yi for help anymore.

The leader of the group had a faint sneer on his face as he laughed softly. "There's no need. It's nothing shameful anyway. Master Lin, just tell me if you're done."

The news from Zheng Tianqing was that Lin Yi's refinement had failed, and since that was the case, they had to spread the news as far as possible. A crowded place like a restaurant was the best place to do so.

If it weren't for the fact that he was worried that Lin Yi would leave before he got off the ship, Zheng Tianqing might've ordered these four guys to attack when they reached the northernmost Island. By then, Lin Yi's notoriety would not only be known to the people on the ancient warship, but the entire northernmost Island would know about it in the shortest time possible.

However, the effect in the restaurant was not too bad. As the saying goes, good things don't go out, and bad things travel a thousand miles. This kind of embarrassing news was the fastest to spread, so Zheng Tianqing did not continue to wait.

Before Lin Yi could say anything, the other guy spoke up, "Master Lin, we've heard a rumor that you'll tell us that you've failed and then you'll take all of our things. That can't be true, right?"

"Master Lin, these Mystic first level elixirs are extremely precious. We asked you to make them because we believe in your abilities, but if you want to keep them for yourself, that would be too disgraceful. Four types of Mystic first level elixirs, you should at least make two or three of them, right?" The third one followed up. Lin Yi hadn't even said anything yet, and they were already putting the blame of failure on him.

Lin Yi had wanted to give them the pills and get rid of them as soon as possible-they were about to reach the northernmost Island, and he didn't want to waste his time on these small fries, but since they didn't even want him to talk, he might as well not talk. He'd like to see how these guys were going to end this today.

The fourth one, who was also unwilling to be left out, snorted and said, ""Master Lin, you're not saying anything. What do you mean? Did he really not succeed in refining a single pill? Or should I say that I've succeeded in one or something? at least give me a definite answer?"

These guys were speaking louder than each other, as if they were afraid that others couldn't hear them. Wei shenjin's expression had already changed. He suddenly stood up and wanted to teach them a lesson. Shang Wanyi, Cai Zhongyang, and the others couldn't stand it anymore, so they also stood up.

Most of the people on the ancient battleship knew each other. Whether it was Nakajima or Beidao, even if they had not seen each other before, they had heard of each other. For example, the four guys who were talking were the higher-ups of a few small sects and families in Nakajima. Compared to the Vice Presidents of big Chambers of Commerce like Shang Wanyi and Cai Zhongyang, they were not on the same level in terms of power or influence.

As long as they stepped in, the four would shut up, but Hong Zhong believed Lin Yi's words. He stopped them and told them to order in peace, in case Lin Yi came and didn't deliver the food.

"You guys really have no manners. How can you speak to Master Lin like that?" Zheng dongjue, who'd been watching from the side, couldn't help but walk over. It looked like he was helping Lin Yi, but he was actually stepping on him a few more times."Master Lin's pill refining skills, who on this ancient battleship doesn't know about it? It was just a few Mystic first level pills. How could it be difficult for a true master alchemist like Master Lin? Don't joke around!"

Zheng Tianqing also followed him and laughed evilly, "That's right. Master Lin's pill refining success rate is extremely high. There's definitely no problem with your pills. What's the point of you guys being so talkative? Don't you believe in Master Lin?"

The teeth that he'd knocked out earlier had already completely recovered, and at this level, even broken limbs could be regrown very quickly. With pills, a few teeth didn't even need pills-he could just use his own Qi to fix them back in place. However, those teeth were still hurting when Zheng Tianqing saw Lin Yi.

Lin Yi put his hands behind his back and looked at Zheng Tianqing and Zheng dongjue with a faint smile. His eyes looked like he was watching a farce, making Zheng Tianqing feel that something was wrong.

Chapter 5877 The Monkey Show

Unfortunately, he couldn't figure out what was wrong at the moment. At this point, the arrow was already on the bow and had no choice but to be fired. Even if he felt a little strange in his heart, Zheng Tianqing could only continue to implement the plan.

"Let's not talk about Master Lin's success rate. I believe that he will definitely be able to concoct all of your pills. However, you all know the restrictions of an Alchemist. If Master Lin tries to make the pills for you as soon as possible, he might make some mistakes. So, you have to be mentally prepared for the worst. That is, he won't be able to get your pills. " Zheng Tianqing's mind was spinning as he desperately tried to figure out what was wrong, but he naturally took out the excuse he had prepared.

Zheng dongjue continued, "it's true that an Alchemist can't guarantee a guaranteed success in refining pills. If he fails, he won't be responsible for compensation. Therefore, you can't ask Master Lin to compensate you for his continuous failures. You can't even say that Master Lin did it on purpose to embezzle your spiritual herbs. That's just too ridiculous!"

The leader of the four men cooperated and said loudly, ""Since there's a rule that alchemists can't continuously make elixirs, then Lin Yi knows about it, but he's still making elixirs by force. Isn't that irresponsible? In addition to the spirit herbs we've provided, we've also paid a large sum of money for the pill refinement. Don't tell me you're not going to give us an explanation?"

"That's right! Who knew if he really failed or if he didn't refine any pills at all? If he didn't even start refining the pill and only said that he failed, how would we know if it's true or not?" The other one, who had a tacit understanding with him, immediately followed.

Zheng Tianqing waved his hand and said with a righteous tone, "You're all underestimating Master Lin. I've already heard from him that if anyone who asks him to refine pills fails, he'll bear all the losses and compensate you. Master Lin, am I right?"

The whole restaurant was focused on Lin Yi-he'd be ruined if he said he'd fail.

Zheng Tianqing was extremely pleased with himself. The uneasiness he felt just now was long forgotten. He was the one who made and carried out this plan. Although he couldn't beat Lin Yi, he was still happy to be able to destroy Lin Yi in this way.

Lin Yi's face was getting more and more ridiculed as he looked at Zheng Tianqing, "You're asking me? Is it finally my turn to speak? You guys did a good job with your monkey tricks. I almost forgot what I wanted to say just now. What a pity, was the performance over just like that? Is there an encore?"

"What do you mean by returning? I'm talking to you about serious business, don't change the topic!" The leader of the four didn't quite understand what Lin Yi meant, but he knew it wasn't anything good. He said with a cold face, "Young master Zheng is trying to absolve you. For his sake, tell me how you're going to compensate!"

Zheng Tianqing was panicking for some reason. He expected this kind of emotion to appear on Lin Yi, but Lin Yi's face was calm and composed. There was no trace of panic at all. This matter was indeed strange!

Lin Yi glanced at the guy and nodded, "You're from the Wu family of Nakajima, right? Not bad, acting as an old monkey is quite vivid. Eh, why is your face red? Could this be a monkey's butt? Her acting skills are amazing!"

The guy from the Wu family was suddenly angry and shouted, ""Lin Yi! Don't try to change the subject. Do you think you can buy time and muddle your way through? I'm telling you, that's impossible!"

He was from a small family, but being humiliated like this in public was still embarrassing. Lin Yi's reputation was going to be ruined anyway, so he didn't have anything to worry about.

But the next moment, he was dumbfounded. A small Jade bottle was thrown in front of him by Lin Yi, and because he didn't pay much attention to it, the Jade bottle fell to the ground and broke into pieces. A longan-sized pill rolled out, and the faint fragrance of the pill spread in the air.

"Mystic first class mountain channel pill! And it's a special grade mountain channel pill!" A nearby customer suddenly stood up and gasped in shock. He didn't even care about the teacup in his hand.

If they were not on the ancient battleship, he would have tried to snatch it. The mountain channel elixir was a high-level elixir used by a powerhouse during the opening stage. Its effect was to expand the width and thickness of the meridians, allowing the user to accommodate more true Qi circulation.

This kind of elixir did not directly increase one's level and strength. However, in a battle, everyone knew what the result of an opponent of the same level being able to use more true Qi was. Therefore, the mountain channel elixir was no less important than the elixir that directly increased one's level and strength.

It was a pity that this pill could only be consumed once during the entire mountain opening stage. If one ate more, there would be no effect. Hence, the value of this unique grade mountain channel pill was even more indescribable.

It was precisely because of this characteristic that it could only be consumed once that it was not an exaggeration to say that a special grade mountain channel pill could be sold at a hundred times better than a low grade mountain channel pill at an auction!

"This is the mountain channel elixir that you have entrusted me to refine. Now that the deal is over, I will not accept any requests from anyone related to the Wu family from now on, since they are listed as unwelcome by the heaven elixir Pavilion!" Lin Yi announced the decision expressionlessly. No one would think that he did anything wrong. If he didn't make the pill, then this guy's actions would be reasonable, but now that Lin Yi had completed the request, and it was a special grade pill at that, it was reasonable for him to ask for more fees. It was too easy to just ban house Wu.

The Wu family guy's face turned pale in an instant, as if an invisible hand was choking his throat, and he could not even say a word.

Offending an advanced elixir master who could refine the special grade mountain channel pill, not to mention he was only a high-level member of the Wu family, even the Wu family's head could not afford to bear the consequences, because the Wu family of Nakajima was definitely not able to bear it.

Without waiting for him to say anything, Hong Zhong said indifferently, ""The Wu family of Nakajima is really impressive. In the future, our Hong Chamber of Commerce will not dare to cooperate with such a 'big' family. I, Hong Zhong, on behalf of the Hong Chamber of Commerce, announce that the Wu family is not welcome!"

Chapter 5878 Losing A Wife And A Soldier

"Wantong Chamber of Commerce will also agree with Vice President Hong's suggestion!" Shang Wanyi added.

"The five elements Chamber of Commerce also agrees!" Of course, Cai Zhongyang would not fall behind. He also expressed his opinion.

In just a breath's time, three of the biggest Chambers of Commerce in Nakajima announced their decision to work with the heavenly elixir Pavilion, throwing house Wu into the endless abyss. That Wu guy's face was as pale as dead ash, and he wanted to kill himself in front of Lin Yi, begging him to let house Wu go.

"Hong Zhong, what right do you have to make such a decision on behalf of the Hong Chamber of Commerce? What a joke, I'm the one in charge of the Hong Chamber of Commerce!" Veijia suddenly jumped out and shouted angrily.

They were both vice presidents, but Wei Jia was from the headquarters, while Hong Zhong was only the manager of the North Island branch. It was reasonable for him to say this.

Unfortunately, Lin Yi was involved, and Hong Zhong wouldn't back down at all. Besides, Wei Jia's opposition was the same as exposing the truth of the internal discord in front of so many people, which was a huge blow to the reputation of the Hong Chamber of Commerce.

Hong Zhong's expression turned cold. Without saying anything, his figure flashed and appeared in front of vejading like a ghost. He raised his hand and slapped him. With a crisp sound, vejading's face was slapped to the side and turned more than 90 degrees. Other than the clear handprint, his face was full of shock and disbelief!

He had never thought that Hong Zhong would attack him without saying a word. What was even more terrifying was that he could not Dodge Hong Zhong's attack, or rather, he could not even make a move to Dodge.

Hong Zhong's slap wasn't too heavy, but it had completely shattered vejia's reputation. He didn't dare to react. All along, he had thought that his strength was above Hong Zhong 's. Now, he clearly realized that even if two vejia's were to join forces, they might not be Hong Zhong's match!

"Remember! My surname is Hong, you're not! If you want to smear the reputation of the Hong Chamber of Commerce, you can continue to try!" Hongzhong's ice-cold voice rang in vejading's ears. The killing intent contained in it made him shudder. However, when he raised his head to look, hongzhong had already returned to his original seat as if nothing had happened.

After this incident, Wei Jia had no face to continue staying here. He snorted coldly and turned to leave. The matter of the Hong Chamber of Commerce was settled.

Lin Yi didn't expect Hong Zhong to suddenly show such a violent move, but he understood that although this brother wasn't a direct descendant of the Hong family, he was still a member of the Hong family.

The small conflicts on the North Island were much more serious than the situation just now, but because it was an internal conflict, he didn't want to get angry at all.

This time, he had embarrassed the Hong Chamber of Commerce in public and had already touched Hong Zhong's bottom line, so it was a tragedy for Wei Jia.

No one in the restaurant paid much attention to Hong Zhong at first, but after this little incident, there were clearly more people paying attention to him. Lin Yi didn't care about these things, however, and continued to take out three Jade bottles, giving them to the other three people, "These are your pills. Check them yourself."

Lin Yi continued after the three subconsciously caught the bottles, ""The deal is over. Just like the Wu family, your three families have been listed as the heavenly pill Pavilion's unwelcome customers. Anyone who is related to you will be on my list of people who will not be allowed to concoct pills."

Hong Zhong and the others also expressed their stance. The three men were completely dumbfounded. They only agreed to help Zheng Dongsheng for some small benefits, but they didn't expect to offend Lin Yi, a high-level Alchemist, and cause such big trouble for their families. It was a sin that they couldn't redeem even if they died a hundred times!

"The pill Hall will also reject any cooperation with these four families!" Li Zao Yi came in all of a sudden, supporting Lin Yi on behalf of the pill Hall. He didn't know what was going on.

This matter was originally caused by Zheng dongjue and the others. If Li Zao Yi openly supported him, wasn't it obvious that he wanted to go against the Zheng family? Lin Yi looked at the Zheng family members curiously-they didn't seem like they'd say anything, other than their ashen faces.

When the four men heard li Zao Yi's decision, they fell to the ground and looked at Zheng dongjue and Zheng Tian Qing with mournful eyes. Unfortunately, these two men had Hearts of Stone. They would never speak up for them at this time.

Li Zao Yi indifferently glanced at Zheng dongjue and said, "Vice head Zheng, there's no problem with my decision, right? These four people humiliated us alchemists like this. It's equivalent to humiliating the entire pill Hall. I think that such people are indeed not qualified to cooperate with the pill Hall, right?"

"That's right, Master Li Zao is absolutely right!" Zheng dongjue gritted his teeth and nodded. He even managed to squeeze out an ugly smile.

Lin Yi nodded lightly at Fang Zao Yi, thanking her for speaking up for him, but that was all. It didn't matter if she was there or not.

Lizao Yi hesitated for a bit before nodding in response. Unfortunately, Lin Yi had already turned around and was walking towards Wei shenjin and the others. Wasn't that a waste of time?

She looked at the pills in their hands-three of the bottles were only slightly open, but she was sure that they were all Mystic first level pills of special quality. This made her even more curious about Lin Yi.

To be able to make the yin and yang pill on his own and make Mystic class level one elixirs in a short amount of time ... Was this Lin Yi really a disciple of the alchemy God? But why had he never heard of it before?

After looking at Lin Yi's back, Li Zao Yi didn't stay any longer. He turned around and walked out of the restaurant as if he had lost his interest in eating.

Zheng dongjue glared at Zheng Tianqing. He thought that it was a perfect plan, but it turned out that he was just an idiot who thought he was right. It was not an exaggeration to say that he had lost both the wife and the Army.

If it wasn't for Zheng Tianqing's promise that Lin Yi would fail, the four wouldn't have been so hard on him. They didn't even give Lin Yi a chance to speak, and in the end, they were all killed by the special grade elixir.

Now that these four families had suffered such a huge loss, Zheng Dong would definitely not take out something to compensate them. If things went wrong, they might just reveal the whole matter.

In other words, the Zheng family could forget about getting these Mystic first level elixirs back. It wouldn't even be enough to calm them down, unless Zheng dongjue was determined to kill them all. Killing them and robbing them was killing two birds with one stone.

Chapter 5879 Arriving At The Northernmost Island

If he didn't do this, he would have to bear all the losses this time. The thought of those spirit herbs and spirit Jade made Zheng dongjue's heart ache.

Lin Yi knew that the Zheng family was behind these four people, but he'd gotten some benefits from it, so he didn't bother too much about it. Plus, Lizao Yi had expressed her support for him, too. If he continued to pursue the Zheng family, it'd inevitably involve the pill Hall. It was the best choice for now.

Of course, even though he didn't lose anything, Lin Yi still remembered this. If there was a chance in the future, he would naturally get back at them.

The whole thing was left unsettled just like that. The four of them were the most unlucky ones-they'd brought so much trouble to their families for no reason at all, and not only did Lin Yi not suffer any losses, he'd even made a fortune from it. He'd even shown off his strength and influence in front of the nobles of the middle and North Islands. From now on, no one would dare to mess with his brothers from the heavenly elixir Pavilion and the Azure cloud Pavilion.

Four hours later, the fleet arrived at the northernmost Island on time. Lin Yi didn't get off the ship in a hurry, chatting with ao Tianba instead. These people would be taking his ship back, so he'd be staying here until the auction ended.

However, ao Tianba would not waste his time. When he went to the northern island of Nakajima, he had also collected a lot of goods to sell. Without such trade, he could not support the growing fleet. And if he wanted to continue to develop, it was definitely not enough to just transport goods for people.

"Brother ao Tian, you said that before the official auction, there will be a few small-scale trade fairs that are similar to the one you've held before?" Lin Yi asked, interested. It'd be great if he could get the ghost cicada wings in a trade fair like this.

Ao Tianba nodded with a smile. "That's right. The one I'm doing on the ship is something I learned from such a trade fair. As long as it's a large-scale auction, there will always be a few small-scale trade fairs like this before it starts. If brother Lin is interested, I can help you get a few slots to enter."

With ao Tianba's wealth and power, he could easily get a few more slots from the smaller trade fairs.

Lin Yi himself was already a person with quite a status, after all-there might be people who'd send their own tickets over, too. It'd save ao Tianba a lot of trouble.

As they were talking, Cai Zhongyang and Shang Wanyi walked over and greeted ao Tianba before turning to Lin Yi, "Brother Lin, we're going to explain the situation to the customer who reserved the Yang extreme grass. You can go to the reserved place and wait for us there. We'll meet up at the inn."

Lin Yi replied before asking, "Will it be very troublesome without the Yang extreme grass? Why don't I go with you guys? with one more person, we might be able to put in a few good words so that the other party won't make things too difficult for you guys. "

Cai Zhongyang smiled bitterly and shook his head. "I don't think so. It's not like having more people over there will help. Brother Lin, you should take them to the inn first. I think we won't need too much time to go back."

Lin Yi nodded and didn't ask further. If Cai Zhongyang could tell him, he wouldn't hide anything. Since he didn't want to tell him the details, it meant that it wasn't appropriate to let too many people know. Of course, he couldn't force Cai Zhongyang.

"In that case, brother Cai and brother Shang, you two be careful. If you need any help, feel free to come to me!" Lin Yi wasn't worried about the two of them being in danger. The security of the northernmost Island was extremely good, and whoever dared to fight here was tired of living.

But if the customer who ordered the Yang extreme grass wanted to make things difficult for Cai Zhongyang, it wouldn't be easy. After all, he was in the wrong first, and Lin Yi couldn't interfere.

After the two of them agreed, they cupped their fists and bid farewell. They quickly got off the ancient warship and disappeared into the distance in the blink of an eye.

Seeing that most of the people on the ancient ship had left, Lin Yi bade ao Tianba farewell, ""Brother ao Tian, I'll get off the ship first. If you need anything, you know where to find me."

"Alright. I'll send you the admission quota for the trade fair as soon as possible. Be careful. If you're not used to living down there, you can come back here. You're our honorary vice-captain!" Ao Tianba laughed as he patted Lin Yi's shoulder.

"Definitely, definitely!" Lin Yi replied with a smile. He chatted for a bit more and left with Wei shenjin and Shang Yuhua.

As for Guan Qi and the others, they had already left. They all belonged to their own forces and had just arrived at the northernmost Island, so they needed to settle down first.

After a while, Lin Yi and the other two followed the five elements Chamber of Commerce's people to a relatively high-end Inn. Cai Zhongyang booked a courtyard, which was enough for all these people to stay in. They could also place some less important and crude goods in the courtyard.

During the auction, the rent of the Inns on the northernmost Island was very expensive, and it was difficult to check in on the spot. Most of them had to make a reservation.

For example, the rent for Cai Zhongyang's courtyard was 50000 spiritual Jade per day. There were still a few days before the auction began. By the time it ended, the rent alone would cost hundreds of thousands of spiritual Jade. It would be difficult for anyone who was not rich to even find a place to stay.

Not long after Lin Yi and the others had chosen their rooms, Cai Zhongyang and Shang Wanyi came back. From their expressions, it seemed that they hadn't solved the problem yet.

"Brother Cai, how is it?" Lin Yi came out to ask-he needed to know the situation before he could help.

Cai Zhongyang shook his head."I didn't even see him this time. He said he wasn't at home. Let's wait until tomorrow." Let's settle down for today. "

No wonder the person didn't see it. Lin Yi couldn't help but comfort her.

Shang Wanyi and Cai Zhongyang agreed to go together again the next day, so he brought Shang Yuhua back to where Wantong Chamber of Commerce was staying. They had just arrived, so there were still many things to do.

Lin Yi picked a room and left with Wei shenjin.

He couldn't get involved in the business of the five elements Chamber of Commerce. Anyway, there was nothing to settle, so he might as well go to the commercial Street of the northernmost Island to take a look.

It was a money-squandering establishment on Sky Class Island, after all-the chances of finding good stuff were much higher than other places, and the price would naturally go up as well. Lin Yi didn't mind-he had a lot of spiritual jades on him.

Chapter 5880 A Country Bumpkin Like An Upstart

Although Wei shenjin was a genius disciple of the Nakajima snow sword sect, he had never had the opportunity to come to the northernmost Island before. This time, he had an eye-opening experience.

"Boss, this northernmost Island is indeed a good place. Although the area is a little small and can't even be called a pellet land, the spiritual Qi is much richer than that of the middle Island." Wei shenjin walked beside Lin Yi and praised.

It was a pity that Shang Yuhua had gone back with her father, otherwise it would be nice to hang out.

Lin Yi smiled,"it's because it's small that it can maintain its status. If it was the same size as the North Island, it would've been split up by the sects already."

Wei shenjin nodded."That's true. If this Island were a little bigger, perhaps it wouldn't have its current status. Speaking of which, the northernmost Island seems to be actually controlled by a family, right?" Although this family is not well-known, it should be an extremely powerful family. Otherwise, the northernmost Island would have changed hands a long time ago. "

"I've heard that the ruler of the northernmost Island is the Li family. Last time I came here, I didn't see anyone from their family. It was only steward song of the Li family who came forward. The level of this auction is much higher, so perhaps someone from the Li family will be the host. " Lin Yi guessed. He didn't really care if house Li was going to host the event.

While they were talking, they arrived at the only Chamber of Commerce on the northernmost Island. The name was very simple, which was the northernmost Chamber of Commerce. Two young and beautiful girls stood at the door. When they saw guests coming, they bowed respectfully and greeted them with sweet voices.

"Welcome to the northernmost Chamber of Commerce, my two distinguished guests. How can I help you?" One of the girls asked with a smile.

Lin Yi didn't have a chance to walk around the island last time, and he spent most of his time on refining elixirs. It was his first time here, and he had a good impression of the two pretty girls.

Wei shenjin was a little nervous facing two young and beautiful girls. Although he had a failed marriage before and his relationship with Shang Yuhua was going well, he still felt a little nervous when he saw beautiful girls.

"We're just looking around," Lin Yi smiled faintly.

"Alright. If you need anything, please call us at any time. We'll be there as soon as possible." The girl still had a sweet smile on her face as she bowed and invited Lin Yi and Lin Yi into the Chamber of Commerce.

As soon as they entered the shop, the first thing they saw was not the goods on display, but a map of different types of goods, which was very similar to the ones in the shopping malls of the secular world. It could be seen that the people of the northernmost Chamber of Commerce did have a good business mind.

Lin Yi took a quick look-there were five levels of goods for sale. The first level sold weapons and armors, the second level sold herbs and fruits, the third level sold forging materials, the fourth level sold elixirs, and the fifth level sold arts and techniques, alchemy, and weapons. From the number of people on the first level, it seemed like the business was quite good.

Lin Yi didn't have much interest in weapons and armors. The auction was just around the corner, and the really good weapons and armors would all be taken there for auction. They couldn't be sold here, so he brought Wei shenjin to the second floor.

The extreme north Chamber of Commerce had restrictions on divine sense, so it was impossible for Lin Yi to scan the entire building with his divine sense unless he forcefully used a divine sense attack to break these restrictions. However, that would be completely falling out with the extreme north Chamber of Commerce. Lin Yi wouldn't do something stupid like that without any enmity.

Lin Yi was quite interested in the herbs and fruits on the second floor. He took a quick look, but there wasn't anything he really needed.

"Boss, the northernmost Chamber of Commerce really lives up to its reputation. Look, there's even a section of the Thunder mystical vine there!" Wei shenjin lowered his voice and said with extreme excitement.

Something like the Thunder mystical vine was priceless in other places. He didn't think that the extreme north Chamber of Commerce would just put it on display outside. Lin Yi subconsciously ignored it because he still had a lot of it and it wasn't of much use to him. Wei shenjin was different. He wasn't at the xuansheng stage yet. It was no wonder he was excited to see the Thunder mystical vine.

"You want to buy Thunder mystical vine?" Lin Yi smiled faintly. The quality of that section isn't very good. When you're about to advance to the mysterious Ascension stage, I'll give you a mysterious Thunder pill, so don't bother about that section of the mysterious Thunder vine. "

Wei shenjin was overjoyed-his boss was a Mystic class level one or two Alchemist, making the Thunder elixir was a piece of cake. He also knew that Lin Yi's boss had Thunder elixir, so there shouldn't be a problem if his boss said so.

A young man came up from the first floor and sneered at Lin Yi's words."There are indeed many nouveau riche country bumpkins on this northernmost Island. They actually said that the Thunder mystical vine was not good and directly gave a Thunder mystical pill. I've really seen it."

Lin Yi glanced at the young man indifferently, not paying him any attention. It didn't matter what other people thought, as long as they didn't affect Lin Yi.

Wei shenjin was grateful to Lin Yi, and he glared at him, "It's not your fault for being ignorant. No one will blame you for embarrassing yourself. However, isn't it too much for you to fart so casually and poison innocent people?"

"You're looking for death?" The young man's face hardened. As he growled, a sharp killing intent flashed in his eyes.

A middle-aged man behind him quickly grabbed his arm and said in a low voice,""Young master, we're also new here. There's no need to make enemies. We'll talk about it after we've investigated their background."

Lin Yi glanced at the two men as if it wasn't a big deal. He heard everything the middle-aged man said, but he didn't care. If they really wanted to die, then he'd just let them.

"Wei shenjin, let's go up. Don't waste time with some boring people." Lin Yi said faintly as he led the way to the third floor.

Wei shenjin hmped and didn't say anything else. He turned around and left with Lin Yi.

The young man watched them go upstairs coldly, then said to the middle-aged man in dissatisfaction, ""Uncle Li, you're being too cautious. You've checked everyone's background before you meet them. Do you think we're afraid of anyone?"

The middle-aged man, uncle li, looked around. After making sure that no one was paying attention to them, he said with a smile, ""Young master, don't underestimate the people on other islands. Some people are important figures even in our East Province. Master told me not to offend those people. Although we are not afraid, they may not be afraid of us. In their place, we will be the ones who suffer!"
