

Bodyguard 5931

Chapter 5931 The Appearance Of The God-Gathering Branch

Lin Yi felt that something was wrong-could it be that the pill on the list was the spirit tempering pill he brought to the auction yesterday? Didn't yang lianqing say that he would put it on the last day? why did he take it out so eagerly today?

However, he immediately understood. There were a total of six soul quenching pills. The people from the auction house probably took one out to test the waters, and at the same time, they also wanted to use the name of the soul quenching pill. As long as there were many people competing for it today, the news would naturally spread quickly. On the last day, when the other five soul quenching pills were out, the effect would be several times stronger than today!

As expected of a professional auction house, their methods were indeed impressive!

Lin Yi was right-the exquisite Jade bottle on the stage did indeed contain the soul quenching pill. Huang Wenjing introduced it with a smile,"This pill is the legendary spirit tempering pill that can temper one's spirit sense! If it's used to temper one's spirit sense, the effect is extremely shocking. Everyone knows that under the Titan stage, almost no one can cultivate their spirit sense very well, so no one paid much attention to it. Only when one reaches the Titan stage will they know how important spirit sense is to a cultivator!"

"Although I'm not a Titan, I can tell everyone responsibly that between two Titan cultivators of the same level, the one with the stronger consciousness has a very high chance of instantly killing the one with the weaker consciousness. This is almost no secret, so I don't need to say more about the value of the soul quenching pill, even if it's only a golden class level Seven pill!"

"I'd also like to remind everyone that you must never underestimate the soul quenching pill's yellow-class level Seven rank. Because it's a yellow-class pill, it's not only available to powerhouses in the Titan

stage. In fact, even if you're in the foundation establishment stage, you can also use the soul quenching pill. The lower the rank, the more benefits you'll get from using the soul quenching pill. I won't say much about this. The official auction will begin next. One Supreme-grade soul quenching pill. The starting price is ten million spirit Jade. Each bid must be at least five hundred thousand spirit Jade!"

Huang Wen Jing had really put in a lot of effort today. She said that she was just going to give a simple introduction, but she was actually quite detailed. It was obvious that she had been warned by the higher-ups of the auction house.

Although the spirit tempering pill had been lost for a long time, there were actually quite a few people who knew about it. Because spirit sense grass couldn't be found on the Sky Class Island, there was no way to make the spirit tempering pill even if they had the recipe, which led to the extinction of this pill.

With the sudden appearance of a Supreme grade spirit tempering pill and Huang Wen Jing's detailed introduction, the auction's atmosphere was instantly ignited.

"Eleven million spirit Jade!" The first bidder was in Room 12. Lin Yi blinked, and immediately understood that Cai Zhongyang was trying to boost his popularity.

Of course, only Lin Yi could auction the soul quenching pill. Cai Zhongyang was well aware of this, so he bid without hesitation.

If he could get it, he would be helping Lin Yi a little, and he could also get something good for the five elements Chamber of Commerce. It was worth it.

However, Cai Zhongyang had underestimated the power of the soul tempering pill. In just three to four breaths, the bid had broken through twenty million spirit Jade, and it was still rising at the same speed.

Thirty million spirit Jade was not enough to dampen the crowd's enthusiasm. It was only when forty million spirit Jade appeared that the bidding began to slow down, and the margin of increase in the bid also gradually became extremely small.

In the end, the first soul quenching pill was sold for 49.5 million spirit Jade. It was just a little short of 50 million spirit Jade, which was much higher than yang lianqing's estimation yesterday.

Lin Yi didn't know what to say. He didn't think that one pill was almost as important as the red dust manifestation mask he bought yesterday. To him, even ten or twenty of them wouldn't be as important as the red dust manifestation mask, let alone one pill.

No matter what, it was a good thing for Lin Yi that the soul quenching pill was sold at such a high price. At least he had more confidence in getting the soul raising tree and the soul gathering branch.

For the next items, Lin Yi sent Wei shenjin a signal through the mini-speaker device he brought from the common world for Wei shenjin to bid as he pleased. He looked at Qian Xiaodong and Yu Ziqing's reactions, but he didn't expect these two to be so abnormal today. There were a few bids from room five, but they didn't seem to have any intention of suppressing it.

This made Lin Yi very curious-if he'd known this would happen, he wouldn't have come to the main hall. Did those two idiots think it through?

No matter what, it was a good thing that Qian Xiaodong and the others weren't targeting Lin Yi. Lin Yi thought that he should find a chance to go back to room five.

At noon, Li Zao Yi's alchemy opportunity was put up for auction. Mystic first level pills and below were guaranteed to be completed, and the quality was guaranteed as well. The starting price was only one million spiritual Jade, especially since The Alchemist was the head of the alchemy Hall, the most talented one apart from the God of alchemy Zhang Liju. There were still many people who wanted to follow him.

The final transaction price was not bad either, reaching eighteen million spiritual Jade. As long as he did not compete for the most popular items, it was enough to buy quite a few good things.

Seeing that Li Zao Yi's opportunity was selling for eighteen million spirit Jade, Lin Yi started to calculate the price of his own opportunity. His was a Mystic second level pill, and the starting price was ten million. It might not be ten times better than Li Zao Yi's, but it should at least be seven or eight times better, right? That would be more than a hundred million spiritual jades.

No wonder Li Zao Yi said he made a loss the last time he refined the accept sea pill, it really was a huge loss!

Lin Yi was just thinking about it—it was Mystic second level, after all, and the cost wouldn't be that high, but anything was possible at the auction.

The day of the auction was about to end, and today was really calm for Lin Yi. Even without Qian Xiaodong and Yu Ziqing targeting room five, Wei Shenjin managed to get a few items, most of which were spiritual herbs. It was only one to two million spiritual Jade in total, and if it were yesterday, he wouldn't have gotten a single item.

As for Lin Yi himself, he didn't bid at all today, as if he'd just come to the hall to watch a show. He didn't even bid once.

Lin Yi did this to keep a low profile and not attract attention. He wanted to save his identity for critical moments. Normal things weren't enough for him to do anything.

"Alright, another day of the auction is about to end. Today's finale item is also extremely valuable. Because the first item today is the soul quenching pill, the last item is also related to the primordial spirit and spiritual awareness. Many friends seem to have guessed it. That's right, the last finale item is the misty soul gathering branch!"

Chapter 5932 Intense Competition

Lin Yi sat up straight. He didn't think that the spirit gathering branch would appear so suddenly. He was completely unprepared. He thought that the soul raising tree and the spirit gathering branch would appear on the last day, but his biggest target appeared on the second day!

A Jade-like branch appeared in the crystal cover on the auction stage. It was about 30 centimeters long, and there were not many branches, nor were they long. The entire God-gathering branch had a faint brilliance flowing over it. One look and one could tell that it was not an ordinary item.

Lin Yi took a deep breath. He had to get the spirit gathering branch no matter what!

There was no need for Huang Wen Jing to elaborate on the use of the concentration branch as it was already one of the main auction items. The details of it had already been made public, so there was no need to waste time on it.

Therefore, Huang Wen Jing announced with a smile, ""The starting price for the soul-gathering branch is twenty million spiritual jade pieces. Each bid must be no less than one million spiritual jade pieces. The bidding starts now!"

Wei shenjin was the first to bid for Lin Yi, "Twenty-one million spirit Jade!"

This was just a test to see how many people would participate in the competition.

Soon, four to five bids appeared almost at the same time, and the price was pushed to more than 30 million.

Wei shenjin received Lin Yi's instructions and immediately raised the bid to fifty million!

The rest of the bids were slightly sluggish. After all, a one-time increase of nearly twenty million spirit Jade was still quite shocking.

More importantly, everyone seemed to have seen the intense battle from yesterday again. If it was as expected, the fourth or sixth box should be making a move!

As expected, room four, who lived up to everyone's expectations, made a move. Fifty-one million spiritual Jade!

Lin Yi's face darkened-it wasn't that they weren't targeting him anymore, but they knew that he was aiming for the spirit gathering branch and were waiting for him here!

In order to confirm, Lin Yi asked Wei shenjin to bid sixty million spirit Jade, and room four immediately raised it to sixty-one million!

This way of increasing the price was clearly telling Lin Yi that trouble was coming!

"A hundred million spiritual jades!" Lin Yi told Wei shenjin to continue bidding. If Qian Xiaodong wanted to cause trouble, he could do so. The price of the branch hadn't reached its peak yet, and there were still many people competing for it. He'd clear the others first before dealing with Qian Xiaodong.

Such a large increase in the bid had indeed scared off many people, and the number of competitors had suddenly decreased significantly.

Qian Xiaodong, who was in the fourth private room, laughed and said,""Lin Yi's getting anxious! You think you can scare me off by adding a few tens of millions of spirit Jade? you're too naive!"

Yu Ziqing, who was at the side, first raised the bid by one million, then said with a smile, "Let's play with him slowly first and see how long he can last. I really want to see what kind of expression he will have when he doesn't have the spiritual Jade. It must be very interesting, right?"

After Wei shenjin's bid of 150 million, Room 8 suddenly made a bid as well, and it was raised to 200 million spiritual Jade all of a sudden. This time, Qian dongkong was depressed.

"Who's in Room 8? Why are you suddenly interfering?" Qian Dongdong was already prepared to bid 151 million, so it didn't feel good to be interrupted.

If it wasn't for the restriction on the northernmost Island that prevented people from disturbing the distinguished guests in the box, Qian Xiaodong would have sent uncle li to greet the people in the eighth box!

Yu Ziqing raised his hand to pull Qian Xiaodong back and said, "Let's just wait and see. As long as it's not Lin Yi who got it, it's the same no matter who it is. "

Qian Xiaodong thought about it and agreed. He wasn't interested in the soul-gathering branch to begin with, but since someone had come out to mess things up, he was happy to watch the show from the side.

Huang Wen Jing quickly replied with a smile, "Box eight has bid 200 million spirit Jade. The spirit gathering branch is indeed a top-grade treasure. However, it's not surprising. This is not a one-time pill like the spirit tempering pill. It can be used repeatedly, so it's only right that everyone values it. Two hundred million spirit Jade going once!"

"Two hundred and five million spirit Jade! This was the bid from Room 11! A new bid has appeared ..."

Lin Yi frowned. He didn't think that the higher the price, the more people would come out to compete. This was troublesome!

Qian Xiaodong didn't continue bidding. It seemed that as long as the fifth private room didn't move, his side wouldn't make a move. The day he spent in the hall was not in vain.

"Two hundred and ten million spirit Jade! The friend from Room 12 has bid 210 million spirit Jade ..."

Lin Yi didn't know whether to laugh or cry. Did Cai Zhongyang want him to help him bid for the spirit gathering branch? Although he was touched, he reckoned that this would only cause more trouble ...

As expected, when Qian Xiaodong saw room 12 make a move, he immediately added a million spiritual Jade. Anyone else could get it, but Lin Yi and his friends couldn't. So this time, everyone close to Lin Yi, including Cai Zhongyang, was targeted.

Lin Yi immediately informed Wei shenjin to go to Cai Zhongyang's side and tell them not to interfere with the auction.

Box eight and box eleven each raised the bid once more, but the range was not large. It was obvious that at this price, they had become cautious.

As long as room five and the people related to Lin Yi didn't make a move, Qian Xiaodong and the others wouldn't come out to mess things up. It was only the two new rooms that were competing.

The price went up a few times at the rate of one million each time, and it reached two hundred and twenty million. Cai Zhongyang didn't bid anymore, probably because he got Wei shenjin's notice. Lin Yi didn't wait any longer and directly called for two hundred and sixty million!

After the new bid was shown on the projection array, Huang Wen Jing was slightly stunned. However, her professionalism made her snap out of her daze and she announced with a little excitement, ""No. 1233 has bid 260 million spiritual Jade. Is there anyone else who wants the soul-gathering branch? please consider it as soon as possible!"

The hall was immediately in an uproar. The number 1233 was obviously for the seat in the middle of the hall. No one had expected such a rich guy to be hiding below. Two hundred and sixty million spiritual Jade was the highest bid since the auction began. The previous record was set by the storage ring that was sold at the first auction yesterday.

Unfortunately, the number plates in the hall were all scattered, and the seats were not arranged in order, so no one knew who number 1233 was.

A one-time increase of 40 million spirit Jade was indeed a little too much. That was why the previous two private rooms did not make a new bid immediately.

The sound amplification array in Room 11 was suddenly opened, and someone inside said, ""Friend of No. 1233, no matter who you are, please give me some face. I am Zheng dongjue, the Deputy Hall Master of the Nakajima pill Hall. This spirit-gathering branch is what our pill Hall's chief Alchemist, Master Li Zao, wants. I think the friendship of the pill Hall will be more valuable than a mere item!"

Chapter 5933 Targeted

Huang Wen Jing, who was on the stage, was a little unhappy. The auction was not meant for people to show off their identity. If everyone did that, the auction would be over. Everyone could just show off their identity and sit in a row.

The person in Room 8 couldn't help but sneer, ""What is Zheng dongjue? I didn't even say anything, Who Do You Think You Are? Let Zhang Liju come over, if you have the money then bid, if not then scram! Why are you so long-winded?"

The sound amplification array could change a person's voice, so this person might not be speaking in his original voice. But to dare to speak to the pill Hall's vice Hall Master like this, it was presumably not some simple figure either.

Huang Wenjing was secretly pleased. What he said was quite satisfactory. Someone like Zheng dongjue should be dealt with like this!

In Room 11, Zheng dongjue's expression was extremely ugly. He originally wanted to help li Zao Yi fight for it, but he didn't expect to be humiliated like this.

In the beginning, he didn't think that li Zao Yi would need a spirit gathering branch. The Zheng family's spirit Jade was almost spent, and he didn't dare to use the public funds of the pill Hall casually, even if it was to bid for li Zao Yi's spirit gathering branch.

"Vice Hall Master Zheng," li Zao Yi said calmly. "Since you can't bid for it, it's fine. It's no big deal. You don't need to use the name of the pill Hall to suppress others."

"Master Li Zao is right, I've been too thoughtless." Zheng dongjue's heart was filled with bad luck. It was also his own thoughtless consideration. Now, it was a thankless effort!

On the stage, Huang Wenjing had already called for the second time, and was about to call for the third time. If no one else made a bid, the spirit gathering branch would be Lin Yi 's.

But the guy in room eight didn't seem like he was going to give up. He added another million spiritual Jade, and Lin Yi was helpless.

Why was this bastard as annoying as Qian Xiaodong when he was so close to getting what he wanted?

Two hundred and seventy million! This was almost Lin Yi's current limit, including the one hundred and twenty million he had to spend on the branch. If he wanted the soul raising tree, he'd have to sell a few more soul quenching pills.

When Lin Yi bid this time, a few spirit senses instantly caught his position. It couldn't be helped-the isolation in the hall was non-existent. No one noticed him the first time he bid, but by the second time, the powerhouses were all in every corner of the monitoring Hall.

Lin Yi didn't mind. He was Shuang mu now, and no one knew him. As long as he could get the spirit gathering branch, everything else was secondary.

The person in room eight laughed evilly and said, ""Friend No. 1233 is indeed rich and generous. In that case, let's make a good relationship today."

Lin Yi smiled coldly. Was this guy threatening him? Unless it was an expert of the earth-splitting stage or even the sea-splitting stage, there was really nothing to be afraid of.

With the crisp sound of the hammer, the branch was finally in Lin Yi's pocket. However, when the transaction was completed, Lin Yi had a few simple spirit sense marks on him.

Lin Yi had used this method before in the common world, and the guys in the center still had his spirit sense mark on them. He didn't think that someone would use it on him today.

It seemed that mu Shuang's identity, which had no roots and no background, made the other powerful Titans feel that it was easy to deal with him. That was why they had left behind some means to track him down, so that they could seize the treasure when they had the chance.

It was a pity that their methods of using spirit sense were too simple. Lin Yi was stronger than them in this aspect, and a few mountain opening spirit sense marks weren't a problem to him.

After the branch was sold, the second day's auction was over. Lin Yi packed up his things and left the auction house quickly, not planning to meet up with Wei shenjin and the others.

Lin Yi could easily get rid of those spirit sense marks, but he didn't want to let those guys go just like that. He needed to know who was after him.

Running at full speed, Lin Yi quickly left the bustling area of the northernmost Island and came to a desolate place near the coast. He had already spread out his spirit sense, but he didn't find anyone following him yet. It should be that the few mountain split cultivators weren't ready to kill him yet.

After checking carefully and making sure there were only four spirit sense marks on him, Lin Yi quickly removed them and threw them into a Jade bottle he took out, throwing it far away into the sea.

After that, Lin Yi found a good hiding spot and hid in it, completely hiding his presence.

His estimation was correct. When they noticed that his spiritual awareness mark had left the scope of the northernmost Island, the Four Masters of the mountain opening stage had followed him at the same time.

They came from different directions, but they were all gathered together in the end. Lin Yi hid in the dark and saw all four of them clearly. There were a few familiar faces-the old man beside Yu Ziqing, uncle Li beside Qian Xiaodong, and the red-faced Dachang Lu. This bastard was probably the guy in room eight.

Lin Yi wanted to laugh just thinking about how he fought with Lu Dachang for the essence-cultivating golden devil grass at the auction in Morning Star City. This old bastard was clearly a guest elder of the Morning Star City Lord's Manor, but he forcefully bought the young lord's essence-cultivating golden devil grass at the base price. Becoming a guest elder like him was beyond the universe.

Lin Yi had given up on the bid for the essence-cultivating golden devil grass and gave it to Dachang to make a pill, so the relationship between Lin Yi and the old scoundrel was pretty good. If it really was Dachang in room eight, it wouldn't be strange for him to scold Zheng dongjue.

Dachang Lu was an expert in using his status and strength to suppress others. Zheng dongjue was lucky that he didn't get beaten up for daring to do this in front of him.

He didn't see Dachang at the small trade fair before, so the old scoundrel probably just came to the island two days ago. Otherwise, he wouldn't be so calm, and Lin Yi would've heard about him.

Lin Yi hadn't seen the last one before, and it didn't seem like he'd had any interactions with the three from the East continent. He only took one look at them from afar before leaving.

Dachang Lu, uncle li, and uncle ou seemed to know each other, so they exchanged a few words. Although they knew why everyone was here, they didn't mention it. After a few laughs, they left first.

After Lu Dachang left, uncle li and ou Bo went to the beach for a while, trying to find the location of their spiritual sense mark. However, the Jade bottle had been taken far away, and it might have sunk to the bottom of the sea, so they could only return without any success.

Chapter 5934 Something Happened To Hou Guanqi

Lin Yi was considering if he should kill these two guys now. To be honest, he was already getting impatient with Qian Xiaodong and Yu Ziqing's schemes. If he could, he wanted to kill them right away, but he considered that killing ou Bo and Li Bo now might alert the enemy, so he decided to hold back.

As for Dachang Lu, he was an acquaintance, so he would let it go this time. However, he didn't know where the last guy came from. The next time he offended him, he would definitely get back at him with interest.

After an hour, Lin Yi returned to his original appearance and strolled back to the five elements Chamber of Commerce's base. Cai Zhongyang was waiting for him in the yard and immediately welcomed him when he saw him.

"Lil bro Lin, what took you so long? How's the God-gathering branch? Why don't you let me interfere?" The series of questions showed that Cai Zhongyang was indeed worried about Lin Yi.

Especially the spirit gathering branch, Cai Zhongyang knew how important it was to Lin Yi. It was something that concerned han Jingjing, and Lin Yi wouldn't give it up even if he had to go bankrupt.

Lin Yi smiled and pulled Cai Zhongyang into the living room, "Brother Cai, don't worry. I've already obtained the soul-gathering branch. I was the one who arranged for room 1233. Otherwise, how could I be so calm?"

Cai Zhongyang was stunned for a moment, but he immediately understood. He laughed and said, "I see. I knew it. It's impossible for little brother Lin to ignore miss han. Now I understand. This elder brother is indeed meddlesome!"

Lin Yi didn't tell Cai Zhongyang that 1233 was actually him, as it wasn't important. He didn't want Cai Zhongyang to know because he didn't want to drag the five elements Chamber of Commerce into this.

As the two were talking, Wei shenjin rushed in and said to Lin Yi and Cai Zhongyang with a serious face, "Boss, guild leader Cai, someone from the pill Hall just came over and said that pill master hou has gone missing!"

"What?" Lin Yi stood up. How was that possible?

"What's going on?" Cai Zhongyang asked nervously. Hou guanqi was an old friend of his, and they were both Zhang Liju's disciples. They were very close, and he was more worried about hou guanqi than Lin Yi.

Wei shenjin shook his head. "That disciple from the pill Hall didn't say in detail. He only said that someone went to look for Alchemist hou and then lost contact with him. Not long ago, someone came to tell them that something happened to Alchemist hou and asked the pill Hall to send someone to inform boss."

"Is this directed at me?" Lin Yi's killing intent rose instantly. He wouldn't be this angry if they were coming at him directly, but he couldn't tolerate it if his friends were coming at him.

"Calm down, brother Lin!" Cai Zhongyang tried to persuade him. "We don't know what's going on. Don't panic!"

Lin Yi took a deep breath and turned to Wei shenjin, "What did the people from the pill Hall say? Forget it, I'll go out and ask him directly!"

The disciple was waiting in the yard and didn't leave. Lin Yi found him with a sweep of his spirit sense and quickly walked out, ""What is going on? Tell me the details!"

"Master Lin!" The disciples all knew who Lin Yi was, and immediately cupped their fists and bowed respectfully when they saw him. They quickly said, "After the auction ended, elder hou was called out by someone the moment he returned. He didn't say what happened. Then, just now, another person said that something happened to him and that he had to inform Master Lin. Here's a letter for Master Lin."

The disciple took out a letter from his pocket and handed it to Lin Yi. It was a serious matter, and he didn't dare give it to anyone before he saw the person in question.

Lin Yi took the envelope and nodded, "thank you!" Are there any other situations?"

"No, I'll take my leave first. If there's any news, I'll inform Master Lin again!" The pill Hall disciple cupped his fists respectfully and bowed to Cai Zhongyang, who had followed him out. Then, he turned around and left.

Lin Yi tore open the envelope and pulled out the letter. There were only a few simple words on it. "I'll head to the beach on the east side of the island alone. I won't leave for a moment and I'll collect hou's corpse!"

Cai Zhongyang was anxious and wanted to read the letter, but he was blocked by Lin Yi's ugly face.

"Lil bro Lin, what does the letter say? What's wrong with senior hou?" Cai Zhongyang stood there and asked after being stopped by Lin Yi.

Lin Yi shook his head and didn't say anything. He wrapped the envelope and letter with his Qi and sent out a refinement fire, burning them completely, not leaving even a trace of smoke.

Cai Zhongyang's expression changed. Lin Yi did this because there was something weird about the letter, and it might even be poisonous! Otherwise, Lin Yi wouldn't be so silent.

After a while, Lin Yi let out a breath of air and said to the concerned Cai Zhongyang and Wei shenjin, ""It's fine. This little bit of poison is nothing. You don't need to worry. I'll go find brother hou now. "

Wei shenjin anxiously said, "boss, you're going alone?" This is too dangerous, let's go and find li Zeyu. This is his place, he must have a way!"

"It's too late. I have to go now, and I'm going alone. Otherwise, brother hou will die. " After Lin Yi finished speaking, his figure flashed and he left the courtyard. When Cai Zhongyang and Wei shenjin chased after him, he was long gone.

The eastern Beach of the island was the most desolate place on the northernmost Island. There were restriction guards on the periphery, and because sea beasts liked to swim in that Sea area, no one would usually go there.

Lin Yi went to the southern beach before-he should've gone to the eastern Beach if he'd known. He might've run into hou guanqi then, and all of this wouldn't have happened.

Lin Yi had neutralized the poison on the letter, but a person who would do anything to get to hou guanqi wouldn't just have this set up. There had to be other dangers involved in this rescue mission.

Lin Yi had used the Super butterfly micro steps as a means of travel-he would've used it already if it weren't for the fact that he had to keep it as a trump card.

Luckily, the eastern Beach wasn't too far away. Lin Yi arrived at the deserted area after a while and his spirit sense found hou guanqi's trail.

To his surprise, hou guanqi was lying unconscious on the beach. There were no enemies nearby, and hou guanqi didn't seem to be in any danger.

Lin Yi used his spirit sense to scan the area, but he didn't find anything suspicious. He even went a few feet underground, but there was still no sign of the enemy.

"What's going on? Could this be a prank?" Lin Yi couldn't help but mumble to himself. He wouldn't let his guard down, but this situation was really weird.

Chapter 5935 Sneak Attack

The demonic thing laughed strangely and said, "you're really wasting my time. I've taught you for so long, but you can't even see through a concealment array!" That hou fellow is right beside the concealment formation. If you go over, you'll probably be ambushed by them. I can only help you up to this point, you can do the rest by yourself!"

"A concealment array?!" Lin Yi was a little surprised. His array skills were still weak, and he could barely set up a level two stealth array, but he could still see through normal level three and even level four arrays.

His spirit sense couldn't find anything unusual, which meant that this formation was powerful and high-level. Lin Yi immediately thought of the level eight formation disk he got from the sixth room.

Sky Class island's classification of formations was completely different from elixir making. Anyone who could set up a formation from level one to three was a Gold Class formation master, and Lin Yi was at the gold Class.

Those who could set up level four to six formations were known as Mystic-Lin Yi's formation skills were definitely not up to par, but his eyes were at least at the threshold of Mystic. As for Level Seven to nine

formations, only an earth-grade formation master could do it. If he guessed correctly, this damn thing was a real Earth-grade formation master.

It was said that above level nine, there were even higher level arrays. Unfortunately, there were no more arrays above level nine on the Sky Class Island. Even if it was a ghost, it only knew a little. Perhaps it could be seen in the higher level sea areas of the East continent.

If it was the level eight invisibility formation disk on the beach, it wouldn't be strange for Qingsong to hide from all of Lin Yi's detection. This way, it would be clear who was plotting against him.

The poison on the letter made Lin Yi think that it was Zheng Tianqing's doing, but it seemed like they were working together!

Lin Yi carefully made his way to the unconscious hou guanqi's position after getting the warning from the ghostly thing. He made it look as if he was on guard and slowly got closer to hou guanqi with a confused look on his face.

Less than six meters away from Lin Yi, Qian Xiaodong laughed heartily as he spoke to the people beside him, "This array disc is really not bad. I didn't waste so many spiritual jades. Look at that Idiot's face. Hahahaha, just that expression alone is worth it!"

A level-eight concealment array disc could also isolate sound and aura, so no matter how loud Qian Xiaodong was, he was not afraid of being heard by the people outside the array.

Other than him, uncle li and uncle ou were also in the formation. The two didn't find anything from following mu Shuang, so they came here after making a circle. Lin Yi didn't do anything to them before, but now it was their turn to attack Lin Yi.

After Qian Xiaodong paused for a moment, he said to ou Bo with some dissatisfaction, ""Uncle ou, where did Yu Ziqing and aunty LAN go? How can he disappear at this time?"

"Young master Qian, didn't you know that the young castellan followed Zheng Tianqing to arrange the second plan?" ou Bo said calmly. The two of us are more than enough to deal with Lin Yi-we can even kill him in a face to face battle, let alone a sneak attack like this!"

Uncle li added, "that's right. Although that Lin Yi has some tricks up his sleeve, he's still at the peak of the late stage of the mysterious Ascension realm. If we ambush him, even if we can't kill him in one hit, we can at least guarantee that we can injure him heavily. It doesn't matter if young master Yu and the others are here or not."

"Didn't this guy look down on Zheng Tianqing? why did he change his attitude? Look, Lin Yi doesn't look like he's poisoned at all. He's a useless guy after all, saying that his poisoning skills are unparalleled in the world. He's just bragging!" Qian Xiaodong muttered a few words, but there was nothing he could do. It was his own suggestion to pull Zheng Tianqing in, but he did not expect Yu Ziqing to also think that Zheng Tianqing's idea was good, and the two of them actually hit it off.

The original plan was to use the branch to lure Lin Yi out, but Zheng Tianqing suggested that they use hou guanqi instead, and poison the letter to weaken Lin Yi.

Hou guanqi was a member of the pill Hall, so it would not be difficult for the Zheng family to trick him out first. Therefore, the plan went quite smoothly. Yu Ziqing also looked at this silly follower in a new light, which made Qian Xiaodong a little unhappy.

Lin Yi walked over step by step. On the surface, he was looking around vigilantly, but in fact, his spirit sense was always on the formation that the damn thing pointed out. If someone launched a surprise attack from the formation, he would be able to notice it immediately.

This distance was the optimal distance for a sneak attack, but the enemy was patient, waiting for an opportunity. That opportunity would be when Lin Yi went to help hou guanqi up!

After understanding this, Lin Yi's heart was filled with killing intent! The other party was clearly waiting for him to help hou guanqi up before launching a sneak attack. This way, they could kill both of them at the same time, killing two birds with one stone.

No matter who they were, they had crossed Lin Yi's bottom line by involving the people close to him. As long as they weren't Super Masters of the earth splitting stage and sea splitting stage, Lin Yi would kill them for sure!

If it wasn't for hou guanqi, Lin Yi could've just charged in through the formation door with the help of that damn thing, catching his opponent off guard. Unfortunately, the situation wasn't clear yet, and he didn't want to risk hou guanqi's life.

Lin Yi knew that he'd only raise suspicion if he continued to act cautious. He sped up and grabbed the man's collar and belt, and a lightning arc appeared at the same time, pointing a hundred meters away.

At the same time, two terrifying Qi landed where Lin Yi and hou guanqi were standing, creating a two-square-meter deep hole in the sand. With the concentration of Qi, even Lin Yi would be injured or dead if he touched it!

If it wasn't for his lightning movement, he would've been in real danger this time. But Lin Yi didn't run away completely-he had a counter-attack plan when he used the lightning movement!

The pill fire spiritual sense vortex!

As soon as uncle li and ou Bo landed on the ground, they felt an invisible vortex sweeping toward them. It kept tearing at their primordial spirits, and the tearing force turned into a terrifying flame that burned their turbulent primordial spirits!

"What is this? A divine sense attack?" Ou Bo's face changed, and he looked at uncle li in fear. They already valued Lin Yi very much, but they realized that they'd underestimated him!

Chapter 5936 Space-Sealing No-Escape Flag

As for Lin Yi using the lightning movement to escape, it wasn't a big deal. Even if it had only been a few days since Yu Ziqing taught him the technique, Lin Yi's performance was still shocking.

Both uncle li and ou Bo were experienced, and they knew that they would be heavily injured if this continued. In an instant, the two old foxes slapped at each other at the same time, and after the clash, the explosive force separated the two of them, forcing them out of the range of Lin Yi's fire vortex.

However, the two of them had suffered some minor injuries, not only on their primordial spirits, but also on their bodies.

Lin Yi used this chance to carry hou guanqi on his back and tied him up with a strap so that he wouldn't fall off during the fight. He had made up his mind to kill these two old men. He should've done it back at the southern beach. Who cared if he alerted them?

Ou Bo was a little dispirited as he looked at Lin Yi, who was walking over with hou guanqi on his back. He smiled coldly, "Brat, you're really bold. Not only did you not run, but you also dared to come back! I admit that you're indeed a genius to be able to possess such a powerful spiritual sense and such a terrifying spiritual sense attack skill at the Xuan Sheng stage. However, if you think that you can defeat the two of us by doing this, you're underestimating the strength of a mountain split stage cultivator!"

Lin Yi smiled faintly, "is the mountain opening stage very strong?" Perhaps so, but you two old things are nothing!"

Uncle Li's arms trembled, and two short black thorns appeared in his hands. There was a faint black mist lingering around the tips of the thorns.

"Old ou, don't waste your breath on him. Just kill him and find out the divine sense attack skill. We'll share it!" Uncle Li said coldly as he charged at Lin Yi.

If it was possible, uncle li really didn't want to make Lin Yi an enemy, but at this point, there was no way out. Killing Lin Yi was the only way to get rid of this problem forever. Besides, Lin Yi did have a lot of good stuff on him, and he was really tempted.

"That's a good suggestion," ou Bo laughed. "Then let's end this quickly!"

Before he could finish his sentence, ou Bo had already charged at Lin Yi with uncle li. A purple flag appeared in his hand, and he waved it in the wind. Tiny light beams flew out, covering the entire area.

"Kid, that's the space Lock no-fly flag. It can make it so that no escape technique can be used within its range. Your lightning escape technique will be useless in this space! I'm just preventing you from running away!" The damn thing reminded Lin Yi out of kindness. Not only was he running away, but if Lin Yi wanted to use lightning escape in battle, he'd lose the upper hand and put himself in a disadvantageous position.

Lin Yi nodded but didn't think too much of it. Lightning movement wasn't his only technique. The flag would affect him, but it wouldn't be too big of a deal.

It was no wonder that brat Yu Ziqing would take out the lightning evasion technique to exchange for the martial skill he wanted. In any case, they had something that could restrain the lightning evasion technique in their hands, so they naturally didn't have to be afraid of increasing the enemy's strength.

Lin Yi also increased his speed as he faced the two menacing mountain opening Masters, appearing in front of uncle li in an instant.

The black spike appeared at a position that Lin Yi couldn't react to. It didn't give him time to react at all and easily pierced into his waist. The other spike followed through Lin Yi's shoulder and came out from hou guanqi's chest.

Uncle li was overjoyed when he first hit Lin Yi-he didn't think that Lin Yi would be this weak! He'd taken him down in one move, but he realized that something wasn't right-the black spike didn't hit anything solid at all, it just went through an afterimage!

Three appearances of the cloud Dragon!

Lin Yi's face was as cold as ice as he appeared behind uncle li and used the hand of the soul Reaper. He didn't dare to be too careless when facing two early stage mountain split Masters at the same time. He would take out one first if he could!

Unfortunately, ou Bo's speed was faster than Lin Yi had expected. As soon as he revealed himself, a violent Qi that could split a mountain was already on his head. Although he still hit the afterimage of the three Cloud Dragon appearances, Lin Yi's soul-snatching hand was off-course a little.

Uncle li shifted his position as soon as he realized that he'd only hit an afterimage-this sort of experience from walking on the line between life and death saved his life by a hair's breadth. Otherwise, even if Lin Yi's hand had shifted a little, it would've hit more than half of the target, and Lin Yi would've been able to kill him or cut him down with a single thought.

The hand was invisible, and so uncle li didn't realize that he was almost killed by Lin Yi. He was more angry than anything else-Lin Yi had just gotten away from him without him realizing it! It was a disgrace!

When Lin Yi reappeared, he was behind ou Bo. The flag didn't affect him much, but with the lightning escape technique, he'd be even stronger. He'd be able to fight more easily, so killing this ou Bo first was the right choice!

Soul snatching hand!

This time, he was pretty much certain that he'd be able to do it. As long as he could fire it, there was no way that OBO would be able to escape. But what made Lin Yi depressed was that as soon as he made his move, a black spike suddenly flew over, aiming for his throat.

If Lin Yi kept using the soul-snatching hand, it was true that ou Bo would be killed, but Lin Yi himself would probably be done for as well!

Helplessly, Lin Yi gave up on attacking and teleported away again, appearing a dozen meters away in an instant!

Uncle Li waved his hand, and the black spike flew back into his palm. Uncle ou stood to the side, his face cold as he looked at Lin Yi.

The three of them had tested each other's strength in the blink of an eye. Qian Xiaodong, who was in the concealment array, didn't see what had happened at all. He only saw the three of them charging at each other, then switching positions and stopping.

"Kid, you're strong indeed-you're at the peak of the late xuansheng stage, and you're able to fight against two mountain-opening primary stage Masters without falling into a disadvantageous position. There's only a handful of people on Sky Class Island who're more talented than you are, but the stronger you are, the more I can't let you leave today!" Ou Bo said coldly. In that instant, he felt the chill of death. If it wasn't for uncle Li's support, he might really not be Lin Yi's opponent!

This realization made him even more determined to kill Lin Yi today, no matter the cost!

Lin Yi smiled faintly, "I'm afraid you two can't make me stay!" You're merely at the initial stage of the mountain opening realm. Do you think you're so great?"

Chapter 5937 Suppression

"Two mere early stage mountain split cultivators? Brat, you really have a big mouth!" Uncle Li was so angry that he laughed. He raised his short black Thorn slightly, and there was a strong murderous look in his eyes. "Do you know why there are so few geniuses? It was because they didn't know how to restrain themselves that they were killed before they could grow up. Just like you!"

Uncle Li threw out one of the black stingers before he could finish his sentence. It shot towards Lin Yi like a Black bolt of lightning.

Ou Bo's body flickered and disappeared from where he was standing. When he reappeared, he was right behind uncle Li's Black spike, launching an attack at Lin Yi at the same time.

Lin Yi was helpless as well-if it was one on one, he'd've killed the two a couple of times already, but the two of them together were more powerful than one plus one. It was extremely difficult to beat them easily.

A Dragon-shaped killing intent of the five elements roared and rushed out. It swatted away uncle Li's Black spike with a claw and continued to attack ou Bo, who was behind him.

At first, ou Bo's face was full of disdain, but after he met the attack with his palm, his face suddenly changed, and his forward-charging body instantly flew back. Most of the time, he took the initiative to retreat, because the power of the Dragon-shaped five elements killing Qi was far beyond his expectations. If he forcibly resisted, not only would he lose the initiative, but there was a great possibility that he would be injured.

Lin Yi didn't try to use the soul Catcher hand this time-he knew that he wouldn't be able to deal with uncle li in time. Uncle li had already appeared beside him, and the remaining black Stinger was aimed at Lin Yi's temple.

Not only that, but the spike that was sent flying by the Dragon killing intent also flew back under uncle Li's control. Its target was hou guanqi, who was behind Lin Yi. Once it hit, not only hou guanqi, but Lin Yi in front of him would also be pierced.

Lin Yi hmphed coldly as he ignored the momentum and dodged uncle Li's two black stingers, but he also lost the best chance to chase after OBO.

The Dragon-shaped killing intent of the five elements rolled in the air and pounced toward uncle li like lightning. He had no choice but to cross his two short black thorns and face the Dragon-shaped killing intent head-on. Then, like Ober, he was half-actively and half-passively sent flying.

At this time, the retreating OBO tapped his feet on the sand and charged at Lin Yi again, not giving Lin Yi any chance to catch his breath. It had to be said that these two were the top in terms of timing-no wonder their cooperation was so smooth.

If Lin Yi only used his pure energy to fight, he might not be able to recover in time even with the Jade space. His real killer move was still the spiritual sense.

As ou Bo rushed forward, he suddenly realized that he was once again caught in the invisible vortex that could tear his soul apart. His body instantly stopped. He knew that he could be easily killed by Lin Yi like this, but the pain in his soul made him unable to react instantly!

Lin Yi let out a breath of relief. Luckily, the divine sense vortex worked twice. Compared to the soul-sucking hand, this was much more efficient!

He wanted to follow up with another hook, but the black spike came at him again. He really couldn't pull himself out.

After dodging uncle Li's sudden attack, Lin Yi's body flashed as he condensed a ball of fire in each of his hands. He quickly put them together and threw them into an empty space not far away-that was the route uncle Li was going to take.

This was the first time a super alchemy bomb had appeared on Sky Class Island. After merging with the consciousnesses alchemy fire, the speed at which it was formed had become extremely fast. It might have only been an instant, but if it had hit uncle Li, his entire body would've exploded.

A small ball of light suddenly appeared in front of uncle Li's eyes. He didn't think much of it at first, but when he got close, his instinct-honed from countless life-and-death situations-made him feel like his soul was about to leave his body.

Without any hesitation, uncle Li retreated almost subconsciously. At the same time, he crossed the two short black thorns in front of him and circulated his true Qi to protect himself.

A dazzling light flashed, and a large pit with a diameter of seven or eight meters appeared on the ground. The surrounding fine sand could not flow in for a while, because the terrifyingly high temperature had fused the sand at the edge together.

Uncle Li's face was filled with shock as he spat out a mouthful of blood. He had managed to escape death at the last moment, but he was not completely unscathed. The terrifying impact had still shaken his internal organs.

Lin Yi didn't even look at the result after throwing out the Super refinement fire bomb. Instead, he dashed out like a madman. He wasn't worried that the explosion would affect him-he could still control the direction of the explosion after adding in the spirit sense refinement fire. He wanted to use this opportunity to get rid of ou Bo, who was trapped in the spirit sense vortex!

Killing uncle li was actually an option, but it didn't matter if the explosion would hurt him or not. Lin Yi would be at his most guarded state when he went after uncle li. It was better to take care of uncle li before he could react.

As expected, uncle li was stunned by the power of the Super alchemy bomb-his first reaction was to defend himself, avoiding Lin Yi's attack. His joint attack with uncle li was finally disrupted by Lin Yi's endless cards.

At this time, ou Bo was also in a bad state. Lin Yi didn't split his attention to control the fire Whirlpool, so he could barely break free. However, it was useless. The moment he came out, he was met with Lin Yi's long-prepared soul-hooking hand!

This time, there was finally no hindrance. The soul Catcher hand hit the bull's eye. It hit the target in one shot. It was easy and pleasant!

Oberg's mouth was wide open, and the panic on his face froze. His body flipped backward.

Lin Yi relaxed a little-he'd finally killed one, so the other one was much easier. Before the man even fell to the ground, Lin Yi grabbed the flag and put it away in his storage bag.

The restrictions on all kinds of movement techniques were released, and Lin Yi could use his lightning movement again!

Uncle li, who wasn't too far away, knew that things weren't looking good when he saw Ober fall to the ground. He didn't try to attack Lin Yi again, but turned around and ran!

Even the two of them couldn't take Lin Yi down, what could he do when he was alone? If they didn't escape, they would definitely die Here.

Uncle li was running away because he wanted to save Qian Xiaodong. His young master was still in the range of the formation disk. If he stayed here, Lin Yi might kill him after he took care of him.

Chapter 5938 Almost Scared To Death

Only by drawing Lin Yi away could Qian Xiaodong escape back to his residence. Once he returned to the northernmost Island where there were a lot of people, Lin Yi wouldn't dare to kill him easily!

Lin Yi said faintly as he looked at the fleeing uncle li, a mocking smile on his face."You still want to run now? It's too late!"

There was a flash of lightning, but Lin Yi was already behind uncle li in an instant. If he wanted to compete with the speed of the lightning escape technique, he would have to use lightning escape technique as well. Otherwise, even the wind escape technique wouldn't be a match.

Uncle Li felt the killing intent rising behind him and was instantly scared out of his wits. If he could, he would leave this city completely after escaping and never have any connection with Qian Xiaodong's family again.

To go against a genius like Lin Yi, who had endless potential and a lot of hidden cards, a mere torrent city was not enough! It was a pity that he didn't have a firm stand at the start, and now he wanted to kill Lin Yi before he could grow up.

But what he didn't expect was that even if Lin Yi hadn't grown to his full potential, he wasn't someone he could kill as an early-stage sect member ...

"Senior Lin, please spare me ..." Uncle Li was scared out of his wits. He called Lin Yi "senior" just to live, but Lin Yi had already made up his mind to kill him. Especially when the black spike was aimed at Hou Guanqi, he had to wait in line at the end of the road to hell.

Uncle Li couldn't resist Lin Yi's soul-snatching hand anymore. His essence spirit was sucked into the Jade space, and his body fell to the ground.

Lin Yi let out a long breath, only to realize that his forehead was covered in cold sweat. The battle was extremely short, only three or four breaths from the beginning to the end, but the danger was something Lin Yi didn't even think of.

If he didn't handle it well, he and Hou Guanqi would be the ones dead on the ground. Luckily Aunt Lan wasn't here, or else he wouldn't be able to escape if the three of them worked together and his lightning escape was sealed.

In the future, when he faced opponents of a higher level than him, he absolutely couldn't let them form an alliance and surround him. He had to break them down one by one!

Thinking of aunty LAN, Lin Yi remembered the invisibility formation disk. He asked the ghost, "Senior ghost, is that concealment array disc still in the same place? Or have they kept it?"

The demonic thing laughed strangely. "I knew you would be after other people's things. They're still there. There's also an annoying little brat inside. You can go and deal with him while you're at it!"

"Is it Qian Xiaodong or Yu Ziqing?" Lin Yi was pleasantly surprised-he didn't think there'd be another guy here. It was an unexpected gain-it didn't matter which one of the two idiots he'd have to kill, but they weren't all here.

"It's that money hole! Go, I'll guide you on how to enter and retrieve the concealment array disc!" After saying that, the demonic thing showed Lin Yi the way to enter the invisibility formation.

Lin Yi only nodded after hearing that. No wonder the middle-aged woman wasn't here. She was probably protecting Yu Ziqing. Ever since Yu Ziqing left the Chamber of Commerce, he'd sent two mountain opening Masters to follow him in turns.

It was a good thing Yu Ziqing wasn't here, or Lin Yi and Hou Guanqi would've been the ones dead!

Before entering the formation, Lin Yi took everything from uncle Li's body-he was an opening sect master, after all, and he had some assets.

It was a pity that the pair of black stingers had been destroyed by the Super alchemy bomb. Otherwise, they would have been worth a bit of money.

After making sure he'd collected all the loot, Lin Yi burned uncle Li to ashes with his alchemy fire. He then went back to Ober and did the same thing again.

Inside the formation, Qian Xiaodong was trembling as he covered his mouth in fear. Cold sweat poured down his forehead like a waterfall. He knew that Lin Yi couldn't hear him in the formation, but he still didn't dare to make a sound.

In any case, Qian Xiaodong would never have thought that a carefully planned ambush would end up like this! He'd wanted to watch a good show of Lin Yi's death, but he'd ended up seeing Lin Yi killing two mountain opening Masters instead.

It was really ... Too F * cking brutal!

At this time, he still hadn't reflected on how he wanted to deal with Lin Yi. He was still resenting Yu Ziqing in his heart for not coming with him. If auntie LAN was here, they should be able to deal with Lin Yi, right?

In fact, he wasn't sure if three early stage mountain opening cultivators were enough. At least, with Yu Ziqing by his side, he didn't have to be so scared alone. At least he had a brother in distress to accompany him in fear.

"It's alright, it's alright! I'm in the array formation of a level-eight concealment array disc. This bastard definitely won't be able to discover me! When I get back to the East continent, I'll be able to ask my dad to help me out. At that time, what's a Lin Yi to me?" Qian Xiaodong kept trembling as he consoled himself in his heart.

No, it was more like he was hypnotizing himself to believe that he would be fine, but that was just his wish. Lin Yi walked over to him calmly after burning uncle.

Qian Xiaodong's eyes went wide as if he had seen a demon. His body trembled even more intensely. His only hope now was that Lin Yi couldn't find the entrance to the formation!

However, he didn't think about it carefully. This was just a stealth formation. If Lin Yi couldn't find the formation door, he could just attack it and the formation would be revealed. After all, without a defensive formation, a stealth formation was just a cover.

With this damn thing's guidance, Lin Yi didn't need to do anything so simple and violent-entering the formation was a piece of cake.

Qian Xiaodong covered his mouth as he squatted on the ground, dumbfounded as he watched Lin Yi walk up to him. He can't see me, he can't see me, he can't see me ..."

He saw Lin Yi lower his head and look down at him with a mocking smile. He waved at him, "Young master Qian, what a coincidence!"

Qian Xiaodong's body trembled, and his violent trembling stopped instantly. At the same time, he seemed to feel his heart skip a few beats.

For a moment, Qian Xiaodong thought he was dead! Lin Yi scared him to death! However, after he took a long breath like a suffocated person recovering, he was sure that he was still alive!

Chapter 5939 Great Harvest

"Young master Lin, what a coincidence!" Qian Xiaodong was already sitting on the ground, paralyzed. When he raised his head to look at Lin Yi, his face was full of tears.

He was still alive! But could he still be alive? Perhaps he would have felt better if he had died just now? These thoughts flashed through Qian Xiaodong's mind, but in the end, his desire to live triumphed over everything, including his fear!

"Young master Lin, no, senior Lin, this whole thing was planned by that bastard Yu Ziqing. He gave me a lot of benefits and asked me to lend uncle Li to him. I was worried, so I followed him here to take a look. Believe me, I really didn't want to deal with you!" For the sake of his own survival, Qian Xiaodong sold Yu Ziqing out without any hindrances. He didn't care if Lin Yi believed him or not, but he did!

Lin Yi patted his sleeves and mocked faintly, "Is that so? Why do I think it's more reliable for you to ask Yu Ziqing for that old man's help?"

Qian Dongdong quickly shook his head and waved his hand. He turned over and knelt on both knees, saying, "It's not like that. Senior Lin, please believe me. I swear on the reputation of our torrent city that Yu Ziqing was the one who did all this! By the way, senior Lin, I'm the young city Lord of torrent city. As long as you let me go today, our city will be your friend. In the future, when senior Lin goes to the East continent, I'll do my best to help you if you need our help. "

Lin Yi smiled faintly, "if that's the case, then I'm willing to believe you this once, but the friend on my back doesn't believe you!" If you have a next life, remember not to mess with the people around me!"

Qian Xiaodong was just about to show a happy expression when he heard Lin Yi's words. He immediately started screaming, "You can't kill me! I'm the young master of torrent city ..."

Before he could finish his words, his body had already rolled to the side with a plop ...

Lin Yi grabbed onto Qian Xiaodong's spirit and shrugged, "I'm sorry, I said the wrong thing. You probably didn't get a return, so there's no next life. This is farewell!"

Qian Xiaodong's spirit was still struggling and wailing, but Lin Yi had already put it into the Jade space. It was time to collect the spoils as usual.

Lin Yi was in a good mood-this idiot Qian Xiaodong was a tycoon! He'd been so mean to Lin Yi at the auction, and that was how much spiritual Jade he had.

The storage ring that Qian Xiaodong got from him yesterday was on his finger. Lin Yi took it off and used his spirit sense to scan it, easily breaking the mark on the ring and making it his.

"He's indeed a rich second generation! He's so F * cking rich!" Lin Yi couldn't help but sigh deeply when he saw the items in the ring.

Not to mention the spiritual medicines and elixirs, just the spiritual Jade cards alone had more than 500 million and close to 600 million spiritual Jade. This was after using up a lot of them during the auction in the past two days. Before the auction, he definitely had more than one billion spiritual Jade.

Other than that, there were also some weapons and armors, but Lin Yi wasn't interested in them. The most useful things to him were the spirit Jade cards-he was in need of spirit Jade after getting the focus-gathering branch, and this idiot came at the right time.

Uncle Li and Uncle Ou had quite a few spirit Jade cards on them before, and the three of them added together made Lin Yi's net worth close to a billion. He finally felt like a nouveau riche!

He put all the spirit Jade cards in the ring into his storage bag and put the ring away into the Jade space. This thing wasn't of much use to Lin Yi, and with the storage bag as a cover, he didn't need a ring at all. It'd attract attention if he did.

I'll see who needs the storage ring more later and just give it to them.

After burning Qian Xiaodong's body with a fire, Lin Yi put the level eight formation disk away. It was the biggest gain of the day, and just like red dust nature manifestation, this kind of support item could have shocking effects at certain times. Compared to spirit Jade, this was a priceless treasure.

After packing up, Lin Yi carried Hou Guanqi and prepared to go back. The battle was short, but there was still some noise. If the northern Battlefront Army found out, the Li family of the extreme north wouldn't look good. The less trouble they had, the better. Leaving as soon as possible would solve everything.

As for that idiot Yu Ziqing, without his uncle, the middle-aged woman alone wouldn't be able to protect him. As long as Lin Yi found an opportunity, he would definitely go and accompany Qian Xiaodong.

Lin Yi was about to go back when he saw Yu Ziqing, aunty LAN, and Zheng Tianqing rushing over. It was really easy to find them!

He was just about to look for an opportunity when it appeared. Lin Yi's killing intent was at its peak, and since they came to him, it was best to get rid of them.

"Li Zeyu?" Lin Yi had already prepared a lightning arc in his hand, but he suddenly noticed a group of people quickly approaching from a further place. The leaders were Li Zeyu and Wei Shenjin, and there were about twenty elite northern city guards. It seemed that Wei Shenjin had gone to ask Li Zeyu for help.

In such a short time, Li Zeyu had brought the North Garrison to find them. It was obvious that he didn't waste any time after receiving the news and used all his power to do this. Lin Yi remembered this favor in his heart, and he would definitely repay it in the future.

However, Li Zeyu's arrival was not a good time. It was not impossible for Lin Yi to kill Yu Ziqing and the other two before Li Zeyu and the northern vanguards arrived, but it was definitely not enough time to destroy the corpses. In order not to alert the northern vanguards, he did not use the Thunder thousand explosion or Thunder burial in the battle just now. It was even more impossible for him to make a move in front of them now.

"You guys are lucky, I'll let you live first!" Lin Yi shook his head regretfully as a lightning arc flashed in his hand. He carried Hou Guanqi on his back and quickly ran in another direction.

By the time Yu Ziqing's group reached the beach, Lin Yi was already on the southern side of the beach, where he removed his spirit sense mark.

Yu Ziqing, on the other hand, saw the traces of battle on the beach, but Qian Xiaodong and the other two were nowhere to be seen. A chill rose in his heart-his intuition told him that Lin Yi wasn't dead, but the two mountain opening Masters, uncle li and ou Yi!

Lin Yi put down hou guanqi on the southern shore. It was too eye-catching to carry him like this. He had to find a way to wake him up first.

After a careful inspection, Lin Yi was sure that hou guanqi's essence spirit was only restricted by someone's spirit sense, but there was nothing wrong with him.

This kind of technique was basically useless against other xuansheng stage cultivators, but Lin Yi's spirit sense was much stronger than the average mountain opening stage big shots. He could break through a mere spirit sense restriction with ease.

Chapter 5940 Just A Little Bit More

After removing the seal on his spirit, he woke up slowly and was a little surprised to see Lin Yi.

"Lil bro Lin, what are you doing here?" Then, he felt that something was wrong. He turned around and asked,""What is this place?"

"Brother hou, do you not remember what happened?" Lin Yi asked curiously. Could it be that hou guanqi's spirit was sealed the moment he left the pill Hall?

Hou guanqi stood up, scratched the back of his head, and said, ""I remember that Zheng dongjue sent someone to tell me that he wanted me to go to the northernmost Chamber of Commerce to appraise a batch of purchased spiritual herbs. This is a task from the pill Hall, and I can't refuse it. So, I went. However, I don't know what happened after I left the pill Hall's encampment."

"So that's how it is. I heard from a disciple of your pill Hall that something happened to you, so I came over to look for you. Then, I saw you unconscious on the beach." Lin Yi laughed coldly inside. Those Zheng bastards were determined to kill hou guanqi as well, so they were completely unscrupulous.

They'd better pray that they didn't fall into their hands, because Lin Yi wouldn't let them go so easily!

Hou guanqi didn't know that Lin Yi had omitted most of the facts. He thought that he was unconscious on the beach and looked around, "It's so strange, how did I faint here? If someone is doing this on purpose, what is their intention?"

Lin Yi didn't plan on telling hou guanqi about Qian Xiaodong and the others. It was safer for hou guanqi to not know about it. As long as he acted like he didn't know anything in front of Zheng Tianqing and the others, they probably wouldn't continue targeting him.

Qian Xiaodong and uncle ou Bo Li's bodies were missing, and it was enough to intimidate these clowns. They wouldn't attack anyone unless it was absolutely necessary before they killed Lin Yi.

"Brother hou, since you can't remember, then forget it. There's no harm in it anyway." Lin Yi waved his hand with a smile before turning to the eastern Beach. "Let's go. We'll go back early so they won't worry. "

"That's right!" Hou guanqi nodded. "I'm sorry for making you guys worry, brother Lin. I even made you come out to find me!" It's too much trouble for you!"

"Brother hou, you're treating me like an outsider. We're all on the same side, so why are you saying this?" Lin Yi pretended to be unhappy as he walked towards the center of the island.

Hou guanqi shook his head with a smile, not knowing what to say. He was about to follow Lin Yi when he realized that Lin Yi had stopped. "Lil bro Lin, why aren't you leaving again?"

"Oh, I just wanted to get some fresh air here, so I won't be sending you back. You'll be fine by yourself, right?" Lin Yi turned around and smiled.

"Of course, no problem. Lil bro Lin, do you really think I'm some old, weak, sick, or disabled person?" Hou guanqi laughed out loud. He then turned to look at the desolate scene around him and asked curiously, "Lil bro Lin, what's the point of standing here?"

After asking, he felt that he had been too abrupt, so he quickly yawned. "Look carefully, the scenery here is not bad. In that case, I'll take my leave first. Younger brother Lin, you take care!"

After that, hou guanqi cupped his hands and left. Lin Yi wasn't worried about him getting into danger. Yu Ziqing, Zheng Tianqing, and aunty LAN were still on the eastern Beach of the island. Li Zeyu was talking to them with the northern Battlefront Army.

Lin Yi's spirit sense could easily monitor that side. As long as these guys were still there, he didn't have to worry about other people attacking Hou Guanqi.

As for the reason why Lin Yi wanted to stay, it wasn't because he wanted to get some wind, but because he sensed LAN Guzha's arrival. The communication bead could be used as a communication device and could sense LAN Guzha's presence within a small range. Of course, this was only possible if LAN Guzha was willing to be sensed by the communication bead.

After waiting for Guanqi to leave, Lin Yi quickly went to the sea and made sure that there was no one nearby. He immediately put the communication Pearl in the water, and LAN Guzha's shadow appeared in front of him.

"Boss, I'm on the outskirts of this northernmost Island, but other than the dock, there are restrictions in the surroundings. I can't secretly go ashore. What should I do?" LAN Guzha asked gloomily as soon as he appeared.

One needed an identity to enter from the dock, and not just anyone could get in and out. Lin Yi didn't think of this problem before, so LAN Guzha could only stay in the water.

This matter was actually not difficult to handle. Whether it was Li Zeyu or Ao Tianba's help, letting LAN Guzha come in openly was not much of a problem.

"I'll arrange it. How are you? Have you broken through to the sect opening stage?" Lin Yi nodded with a smile.

LAN Guzha laughed drily. "No, but don't worry, boss. I'm just a little bit short. Let me have a good meal on the island, then find a few people to beat up for me. Perhaps I'll be able to advance!"

"I've never heard of leveling up by beating someone up. Just tell me if you're hungry, what's with the excuse!" Lin Yi scolded with a smile.

"Boss is wise! I knew there's nothing boss can't see through!" LAN Guzha quickly flattered her. After eating sea beasts in the sea all day long, his strength had increased quickly, but his taste was about to fade.

He had never eaten anything good before, so he did not feel that there was anything bad about the meat of sea beasts. However, LAN Guzha had stayed in the secular world for a while, and his taste had long been spoiled. It was really hard on him to be in the sea for so many days.

"LAN Guzha, that fellow from before should have given you quite a bit of improvement, right? You said that you're just a little bit away from the sect-opening stage, so you're at the great circle of xuansheng now?" Lin Yi wasn't in a hurry to leave, so he started chatting with LAN Guzha.

"That's right. Don't worry, boss. Even though I'm not in the early stages of my cultivation, I'm still much more powerful than ordinary humans. I'll be able to help you a lot if I follow you now!" LAN Guzha said with a proud expression.

Lin Yi really did believe that-if LAN Guzha had been with them, he'd be able to turn the two of them into ashes with a snap of his fingers, no matter how much they worked together.

"Since you're only a little bit away, why didn't you just advance before coming to find me?" Lin Yi glared at the guy. If it were him, he'd be thinking of breaking through first.

One shouldn't look at how there was only a thin line between peak xuansheng and early mountain split-the difference in strength was like the difference between heaven and earth. There were only a handful of people in the world who were at Lin Yi's and LAN Guzha's level. If LAN Guzha successfully advanced, there wouldn't be many people in the mountain split-stage who could be his opponent.
