

Bodyguard 5961

Chapter 5961 Easily Suppressed

The northernmost Island was able to stand outside the five sky-class islands and become an independent money-squandering cave. Li zaixiang's Island master really couldn't be underestimated. If all his internal and old injuries were healed, his strength would increase again.

"Boss, let's hurry up and leave, or we won't even get to drink the soup!" LAN Guzha also felt li zaixiang's dominance and became anxious.

The two strongest people in that battle were only in their mountain opening stage. If li zaixiang wanted to go over and settle the dispute, it would only take a breath's time. LAN Guzha did not want to miss such a rare opportunity to fight.

Lin Yi nodded and rushed to the scene with LAN Guzha at full speed. Fortunately, it was close, and the two arrived at the scene of the battle in a dozen breaths.

To LAN Guzha's dismay, li zaixiang had indeed ended the battle in an instant. The five cultivators were all knocked to the ground without even a chance to fight back.

"The northernmost Island is a fair and just place. Everyone can pay the price here and get everything they want, but in return, we also need everyone to abide by the rules of the northernmost Island! For example, this article prohibits anyone from fighting in the commercial area of the northernmost Island for any reason. Violators will be severely punished with imprisonment, a fine, or even execution without mercy!" Li zaixiang's face was as calm as water. His eyes were cold as he glanced around the scene. When he said the words "kill without mercy," everyone felt a chill in their hearts.

The five powerful cultivators who were lying on the ground turned pale. They wanted to beg for mercy, but their strength was restricted by li zaixiang. They could not even open their mouths. They were nervous and did not know what kind of punishment they would face.

Although it was embarrassing to be imprisoned, it was still better than losing one's life. However, li zaixiang clearly felt that they had gone too far. Ordinary punishment was not enough to warn others.

"In view of the wide range of the five people's fight and the terrible impact it has caused, I, li zaixiang, in the name of the island master of the northernmost Island, announce that they will be sentenced to death and executed without mercy!" Before he finished his sentence, li zaixiang flicked his fingers and five gusts of wind shot out from his fingers, aiming at the glabella of the five people. Once they were hit, they would definitely die!

"Uncle li, please wait!" Lin Yi had just arrived at the scene when he saw li zaixiang announcing the punishment in a fit of rage and then going for the kill. He was shocked and quickly stopped him.

Li zaixiang moved his fingers and five gusts of wind from his fingers deviated slightly, avoiding the vital points between the eyebrows of the five people on the ground. Instead, they pierced through their shoulders.

"Nephew Lin, you know them?" Li zaixiang's face was calm as he looked at Lin Yi. No one knew what he was thinking.

However, li zaixiang had already declared that these five people would be killed without mercy. Even if Lin Yi begged for mercy, he might not be able to change li zaixiang's sentence. After all, the rules of the northernmost Island could not be broken. He just had to give Lin Yi some face for now.

"Uncle Li, I don't know them, but this is too much of a coincidence. I think we should interrogate them properly to see if we can find any clues. Maybe there will be some unexpected gains!" Lin Yi used voice transmission to communicate with li zaixiang, in case the news got out.

Li zaixiang suddenly understood. He was too angry just now and did not think about this. It seemed that he had been in seclusion for too long and his brain was a little rusty. Fortunately, he had only executed these people after announcing their crimes. Otherwise, during the battle, it would not be just sealing their cultivation but directly killing them with a slap.

However, he had already said what he wanted to say. It did not seem appropriate to change his mind now. Li zaixiang was secretly upset. He was already so old but his murderous aura was still too strong. It was no wonder that he would go into Qi deviation during cultivation. It seemed that he would need to cultivate his heart and mind for a period of time before he could continue cultivating.

Just as he was in a dilemma, li Zeyu also rushed over with a group of Northern Garrison guards.

"Old man, you finally came out? This young master, as the young Island master, still has to work hard for the auction every day, while you've been doing God knows what all day long. Have you ever considered my feelings?" When li Zeyu saw that his father had finally come out to take care of things, he was secretly surprised. However, his mouth was still muttering some things that did not match his heart.

"Stinky brat, you know that I'm not feeling well, but you still made me worry so much. Since you're here, I'll leave these troublemakers to you to deal with. Let's go!" Li zaixiang laughed and scolded him, just in time to throw this difficult matter to his son. At the same time, he gave li Zeyu an obscure look.

Li zaixiang said his goodbyes to Lin Yi and LAN Guzha and left.

Don't look at how li zaixiang was not serious when interacting with li Zeyu, this weird father and son pair. In fact, the two of them were absolutely telepathic. With just one look, li Zeyu had already understood.

"Damn old man, you only know how to slack off. This young master has already been ordered around by you for so many years at such a young age!" Li Zeyu grumbled at li zaixiang's back in dissatisfaction. Then, he pointed to the ground at the North Garrison guard beside him, ""The few of you, go and lock these guys up first. The old man said to kill them without mercy, but this young master is going to lock them up for eight to ten years!"

Lin Yi laughed to himself. This father and son duo really had great chemistry. They were able to resolve the awkward situation between laughter and curses. If he didn't send a voice transmission to li zaixiang and Li Zeyu, they would also think that this was a melodramatic scene where a rebellious son was going against his father!

To cancel the island master's order in this way, not only would no one say anything, but most of them would also smile. After all, everyone had been in their youth, and many of them were already parents, so they had a deep understanding of this situation.

"Brother Lin, what happened just now?" Li Zeyu asked Lin Yi in a low voice after he ordered the northern Garrison to evacuate the crowd.

He'd arrived late, and only heard Lin Yi's hint that he shouldn't kill anyone. He didn't know the details, but the old man's eyes seemed to be telling him to ask Lin Yi.

"Let's ask those Five Guys first. I can't tell them the details now. " Lin Yi whispered back as he pulled li Zeyu in the direction of the cell.

LAN Guzha's face was full of dissatisfaction. Yingying followed behind. It was not easy for them to get a chance to fight, but they could not make it in time because they were too slow. It was the same with the transformed spirit beast last time. It seemed like they had to find a way to increase their speed on land.

In a loft far away, Zheng Tianqing and Yu Ziqing shook their heads regretfully, as if they were very dissatisfied with li zaixiang's sudden appearance.

"It's a pity. It was supposed to cause a great chaos, but I didn't expect li zaixiang to appear so quickly! Speaking of which, this Island master of the northernmost Island is really powerful. When two mountain split experts were fighting, he directly forced his way in and put them down with one move. This strength is too strong!" Yu Ziqing sighed softly, losing confidence in his plan.

Chapter 5962 Man-Made Chaos

With such a powerful master here, not to mention aunty LAN, even if there was one more ou Bo, they would not be enough to fill the gaps between li zaixiang's teeth!

"It's fine. Creating chaos is not the purpose. The purpose is to let the Li family of the extreme north investigate why there is chaos. This will distract their attention!" Zheng Tianqing was quite proud of himself. The battle between the five cultivators was caused by his poisoning. The plan this time was also formulated by him. The only pity was that the poison was provided by the organization. If he could make it himself, it would be awesome.

A poison that could even poison a mountain-opening cultivator! If there were enough of them, Zheng Tianqing felt that he could definitely unify the middle Island and sweep across the East continent.

It was a pity that his superior had said that the materials for this poison were precious and difficult to make, so there were not many in stock. He could only use six sets, and this time, all of them were given to Zheng Tianqing.

He had just used one portion, and the effect was indeed very good. Zheng Tianqing could not wait to find his next target.

He was even considering if he should give Lin Yi one as well-the scene would be too beautiful. However, she remembered that Lin Yi's detoxification technique seemed to be even better than her own, and she lost her hope.

"Young master Zheng, you have to stir up this chaos on a large scale as soon as possible. Otherwise, we can't carry out our plan!" Aunt Lan was a little anxious. It was almost dark now, and the next day's dawn was getting closer and closer.

If they couldn't shift the Li family's attention to these things, then the possibility of their failure was 100%. The consequences were too serious, and Yu Ziqing couldn't bear it.

"Don't worry. In the next hour, Li Zeyu and the North Garrison guard will keep trying to stop the fight from happening. Then, they will start to investigate the cause. Take this opportunity and finish your business quickly!" After I'm done with this, I can go help you. " Zheng Tianqing was very enthusiastic. The more he didn't know, the more he wanted to know. If it wasn't for the fact that he was the only one who could poison Yu Ziqing, he would have followed Yu Ziqing closely.

Yu Ziqing also wanted to cry but had no tears. He wanted to F * cking throw this mess to Zheng Tianqing, but time waited for no one. If he couldn't take advantage of the opportunity created by Zheng Tianqing to settle it, when Li Zeyu came back to his senses, he would be completely finished.

"Tian Qing, you're really loyal, but you won't be able to make it in time. As long as you can attract the attention of the Li family and the North Garrison, it'll be a great achievement!" Yu Ziqing truly felt regretful. He could only sigh and pat Zheng Tianqing on the shoulder.

Zheng Tianqing also felt that it was a pity. He had been so close to the truth, but he had to distance himself again. What a mess!

"Young city Lord, we don't have much time left. We have to prepare for the operation. Leave the rest to young master Zheng!" Auntie LAN nodded politely to Zheng Tianqing and then pulled Yu Ziqing to leave.

Zheng Tianqing was quite satisfied with Auntie Lan's attitude. This woman had never given him a good face before. After all, Zheng Tianqing was not worth mentioning in Auntie Lan's eyes, whether it was his strength or identity.

Now that auntie LAN was begging him, Zheng Tianqing's vanity was greatly satisfied. If it was not related to the organization's mission, he might have to hesitate a few more times before agreeing to help.

"Don't worry, I won't let you down!" Zheng Tianqing laughed and cupped his hands at Ziqing and auntie LAN as a farewell.

Yu Ziqing's face darkened. 'You're the only one who can go in peace? you can't even say a few auspicious words. I wonder what the hell that organization sees in this idiot follower?' Was it because this idiot was white enough?

In fact, Yu Ziqing also knew that although Zheng Tianqing's strength was not as good as his and was far from the real geniuses in the East Province, he was very good at poisoning. Even if this method was unorthodox, it was enough to play a huge role in the right place. Perhaps that was what the organization was interested in.

After Yu Ziqing and aunty LAN left, Zheng Tianqing heard the deep male voice from the communicator in his ear again. "Zheng Tianqing, you must do your best! Our organization has already given you all the potions you can use. If you can't even do this well, then the organization will re-evaluate your ability! Remember, this is your only chance. If you don't succeed, you'll have to think of a way!"

"Understood!" Zheng Tianqing pouted his lips in annoyance. 'My mood has just become a little more comfortable, and it's F * cking ruined by you again. What a killjoy!'

"Hurry up. After a while, the people at the auction will all leave. Who else will you look for?" The deep male voice could not help but raise his voice. He was obviously very dissatisfied with Zheng Tianqing's procrastination. From this detail, it could be seen that this person was definitely nearby, watching him. Otherwise, how could he know Zheng Tianqing's actions like the back of his hand?

Zheng Tianqing was startled. He quickly agreed and jumped out of the pavilion, running quickly to the crowded place.

Lin Yi and Li Zeyu brought the five captured practitioners to the dungeon and interrogated one of the initial stage cultivators.

"Tell me, why are you fighting on the northernmost Island? don't you know the rules here?" Li Zeyu personally went into battle, staring at this guy with a cold gaze.

His expression was exactly the same as li zaixiang's when he announced that he would be killed without mercy. He was indeed his biological son!

This Big Shot at the beginning of the mountain could not help but feel a chill in his heart. Although li Zeyu's cultivation level was not much different from an ant in his eyes, his strength was currently restricted. Any ordinary person who came could crush him like an ant.

"I didn't want to fight with anyone. I was forced to protect myself! In fact, if you ask the people nearby, you should know that I'm really on the defensive. You can't be unreasonable, can you?" This guy had a huge shadow in his heart towards li zaixiang. However, li Zeyu's expression and appearance were extremely similar to li zaixiang 's. If one had to say it, li zaixiang's appearance had suddenly become many years younger.

Therefore, the moment this mountain split expert opened his mouth, he was completely suppressed by li Zeyu's imposing manner. It was precisely because of this that his words were somewhat credible.

Lin Yi frowned. If this guy was really on the defensive, then the problem must be with the other mountain split.

"Brother li, let's go and interrogate the other mountain split expert first. The other three peak of the late xuansheng stage are probably just following the two leaders. We won't be able to get anything out of them." Lin Yi suggested telepathically.

"Be honest, I'm going to verify if your words are true. If I find out that you're lying, you'll just have to wait for death!" Li Zeyu was now very trusting of Lin Yi, and so he gave a fierce warning and immediately left the interrogation room, heading to another.

Chapter 5963 Strange Fighting Incident

Lin Yi followed beside him. He wanted to know the truth as well. The whole thing was weird!

However, before they could enter another interrogation room, a Northern Garrison guard rushed in and cupped his fists in front of them, "Young Island master, there has been a battle between cultivators in the commercial area again. This time, the island master has already informed us in advance that he will not come out unless it is an emergency. So, we will need you to personally command the battle to calm it down."

"Another battle between cultivators?" Li Zeyu felt a great headache. He hadn't even figured this out yet, and there was another one? The damned old man had deliberately not appeared. Who was the master of this northernmost Island?

Lin Yi sent out his spirit sense and found two groups of people fighting in the commercial area. There were even more people this time, close to ten of them. There weren't any big shots in the mountain opening stage, but they were all Masters in the xuansheng stage.

Perhaps this was also the reason why Li Zaixiang did not take action. A group of little guys at the xuansheng stage were causing trouble, and he, the island master of the earth creation stage, had to take action. The northernmost Island was indeed too weak.

"Boss, let's go and deal with these small fries!" LAN Guzha appeared from an unknown corner. He rolled up his arms and sleeves with an excited expression on his face. He was ready for a big fight at any time.

"Brother Li, leave the matters outside to LAN Guzha and me. You should figure out the reason for these people's fight as soon as possible. Since it's not a coincidence, the reason behind it is even more worthy of scrutiny!" Lin Yi didn't waste any time and gave Li Zeyu their respective tasks.

LAN Guzha was overjoyed. He finally had a chance to make a move. He was afraid that Li Zeyu would not agree, so he looked at Li Zeyu with eager eyes.

Li Zeyu didn't have any objections. With Lin Yi's help, he was naturally at ease, and it was also very important to find out the reason for these guys' actions.

"Brother Lin, I'll leave it to you guys then!" Li Zeyu nodded his head decisively and ordered the North Garrison guard, ""Go and bring some men to work with Master Lin. You must listen to his commands. At the same time, mobilize a North Garrison from the city guards institution and strengthen the patrols to avoid similar situations!"

"Yes, Young Island master!" The northern Battlefront guard saluted and immediately went out to issue orders.

Lin Yi and LAN Guzha couldn't wait for the northern vanguards to arrive. They rushed to the scene first.

At this moment, there were nine cultivators on the scene. They were basically evenly matched, four against five. The side with fewer people had a stronger individual strength, and the situation appeared to be evenly matched!

It was precisely because of this that the damage caused was maximized. If one side had an overwhelming advantage, perhaps the battle would have ended long ago before the other side arrived.

LAN Guzha shrieked and charged into the battle without waiting for Lin Yi's orders. He didn't care which side they were on-he'd beat up whoever was next to him.

Lin Yi didn't make a move. He used his spirit sense to check if there was anything wrong with these people. He also searched for suspicious people.

LAN Guzha's strength was completely unrivaled among his peers. He could even wrestle with the big shots in the beginning stage. Hence, he charged into the chaotic battle group without any pressure and took down one of them very easily.

No matter which one was knocked out, it meant that the momentum had been broken. One side took advantage of the situation to retreat, wanting to break away from the battle, but the other side didn't give up and continued to attack. What made Lin Yi feel strange was that the one who didn't give up was the group that LAN Guzha had knocked out.

"LAN Guzha, take them down. Don't waste time!" Lin Yi saw the strange part and told LAN Guzha to finish the battle quickly.

LAN Guzha agreed. It was a rare opportunity to fight. He had wanted to play for a while longer, but since his boss had spoken, he could only find another chance to play next time.

The violent true energy exploded instantly. LAN Guzha was simply a human bulldozer. Wherever he went, the resistance was completely flattened. In just a few breaths, these people were all lying on the ground and groaning.

"Boss, I did pretty well, right? I didn't kill a single one!" LAN Guzha appeared beside Lin Yi, clapping his hands and grinning.

"Did you enjoy the beating?" Lin Yi looked at LAN Guzha with a half-smile on his face. This guy's fighting was just a form of entertainment, what was there to be proud of?

"I'm not satisfied. Next time, boss, you have to let me do it again. " LAN Guzha laughed in embarrassment and immediately reserved the next opportunity to make a move.

"What a jinx. Do you want a next time?" Lin Yi was also speechless. Li Zeyu was already in a terrible fix, and LAN Guzha was still thinking about next time. Couldn't he have thought of something better?

The soldiers of the North Garrison rushed over, but they could only wrap things up because the matter was already settled. Just like when Lin Yi and LAN Guzha rushed over, li zaixiang had already finished his work.

LAN Guzha was very satisfied with this. He had finally experienced the treatment of an expert like li zaixiang.

"Take these troublemakers to prison and hand them over to Young Island Master Li for interrogation, especially those few!" He ordered. Lin Yi pointed at the few guys who were still going on and on even though they had fewer people, focusing on the northern Garrison.

He wanted to go over and ask about Li Zeyu's interrogation, but after two incidents, Lin Yi didn't think it would end so easily. There might be new situations, so he had to continue patrolling with LAN Guzha to prevent any problems from happening.

Before that, Lin Yi wanted to ask the people around how the battle happened. Maybe he could get some useful information from the witnesses.

"Friend, may I ask if you've been here since the beginning? Why are these people fighting?" Lin Yi picked the practitioner closest to the group and cupped his fists politely.

The guy Lin Yi asked was also a xuansheng stage practitioner, around the peak late phase. He probably just broke through not long ago and wasn't stable yet.

After seeing LAN Guzha's aura, he didn't dare to be slow in answering Lin Yi's question. He quickly cupped his fists and replied, "That's right. I've been watching from the beginning until now. It's quite strange. The two groups of people were originally going their own ways and didn't seem to know each other at all. However, the leader of the group with fewer people suddenly launched an attack on the other group."

Lin Yi frowned. Suddenly attack? Could it be a long-planned surprise attack? But what the audience member said next immediately overturned this idea.

"When the leader attacked, the others were stunned for a moment. It was as if they didn't understand why their companion suddenly started fighting with the others. It wasn't until the group that was attacked retaliated that they had no choice but to go up and help. In the end, it became a chaotic battle

between two groups." The audience gave a simple and clear account of the whole incident-Lin Yi didn't find the wrong person.

Chapter 5964 Situation In Turmoil

"Why did that person suddenly attack him? did anything special happen before that?" Lin Yi couldn't understand it, so he continued asking.

Unfortunately, after the cultivator carefully recalled, he shook his head apologetically, indicating that this was all he knew.

"Many thanks!" Lin Yi didn't have a choice-he cupped his fist in thanks and turned to the other two.

The answers they got were mostly the same, basically the same as the first one. No one knew why the leader suddenly went crazy.

"Boss, do you think that guy's nerves suddenly went haywire, and he bit everyone he saw, just like the rabies disease in your secular world?" It was rare for LAN Guzha to have such an idea. He provided an idea very actively.

"That's possible. If you can find a Mad Dog or something on the northernmost Island, it'll probably be like this!" Lin Yi said with a smile.

Just as he was speaking, his divine sense suddenly discovered that in another place three streets away from where he was, another six mysterious Ascension stage cultivators had suddenly started fighting. Furthermore, they had attacked without any warning. The side that was attacked was completely unprepared and one of them was seriously injured. Compared to the second wave of people who were fighting, it was clearly much more unfortunate.

"Boss, there's a fight again!" LAN Guzha also felt the fluctuations of the battle and immediately called out excitedly. That expression of wanting the world to be in chaos and asking for a beating made Lin Yi feel embarrassed.

But he didn't have the time to scold him. Lin Yi used his super limit butterfly micro steps and turned into a shadow as he shot out, jumping over the roof.

LAN Guzha was immediately filled with admiration. As expected of the boss. He could even think of such a shortcut. It was indeed much faster! Therefore, he quickly followed after her ... And almost crushed the house.

After a few ups and downs, the two of them had already arrived at the scene. LAN Guzha shouted, "Boss, I'm coming!" Then, he charged into the battle between the two sides.

Lin Yi, naturally, wouldn't go for the chance to fight. He used his spirit sense to check everyone nearby to see if there were any similarities or overlaps with the people he saw just now. This might be the key to solving the mystery.

Unfortunately, no matter how hard Lin Yi checked, he couldn't find anything similar to what happened before. He couldn't help but wonder if it was a coincidence.

LAN Guzha was having the time of his life. He beat up the cultivators but did not go all out, allowing the cultivators to continue their attacks. In the end, it became a situation where he was fighting against five of them alone. The party who was ambushed earlier wanted to retreat but was unable to do so ...

"LAN Guzha, have you had enough?" Lin Yi didn't know what to say-was this guy here to help or cause trouble? Now that the battle had to be quelled as soon as possible, he was still having fun!

"Boss, I'll be done in a minute!" LAN Guzha agreed and quickly increased the frequency of his attacks. If the boss forbade him from beating people up after he got angry, it would be a big deal!

Once LAN Guzha got serious, these xuansheng stage cultivators were no match for him at all. They were defeated in an instant. The patrolling Northern Battlefront guards rushed to the scene and brought them to the prison for Li Zeyu to deal with according to Lin Yi's instructions.

"It's not fair, it's too unfair. We were the ones who were ambushed, how can we be caught like these bastards? Where was the fairness and justice of the northernmost Island? Don't tell me that we can't even fight back when we're ambushed and can only wait for our deaths?" The first guy who was seriously injured by the sneak attack did not participate in the battle after that. Therefore, LAN Guzha did not seal his cultivation, and the North Garrison did not take him away. Therefore, he protested at once.

Lin Yi blinked-the guy had a point. If someone were to ambush him, he wouldn't care where he was-he'd just kill them first.

Lin Yi wasn't the only one who heard this-even the people who were watching started discussing.

"That's right. If that's the case, who would dare to come to the northernmost Island? if we're ambushed, we'll either die if we don't fight back, or we'll die if we fight back. Are we here to die?"

"That's nothing. Aren't you worried that you'll be killed by someone while walking on the road? Why do I feel like many people here are going crazy? I heard that the same thing happened just now. I was just walking when I was attacked for no reason!"

"What do we do? It might seem dangerous to stay, but tomorrow is the last day of the auction. It's a waste not to attend!"

"Don't go out before the auction starts. Leave immediately after tomorrow and don't come back again. This place is a little strange!"

All kinds of discussions were going on, and a feeling called panic was slowly spreading. Lin Yi felt that things were not good. If this continued, the northernmost Island would fall into chaos! At that time, the sea beasts would take the opportunity to attack, and it would simply be a disaster from both inside and outside!

Lin Yi suddenly had an idea-was this something the sea beasts were creating? All for the sake of throwing Thule Island into chaos? In that case, wouldn't the sea beasts 'attack begin soon?

"LAN Guzha! Come over here!" Lin Yi took out a recording pen as he shouted, quickly recording a few sentences before passing it to LAN Guzha.

"Boss, what's this for?" LAN Guzha took the recording pen and wanted to listen to the content.

Lin Yi glared at him."It's not for you. Go to the ancient battleship and give the recording pen to Captain ao Tianba. Don't come back. Stay in the ancient battleship and help me keep an eye on the sea!"

"In the sea? Boss, are you saying that those guys are coming again?" Initially, LAN Guzha was not too willing to miss the chance to fight because he was running errands. However, when he heard that there might be a situation in the sea, his interest was immediately aroused.

Compared to fighting with these people on the northernmost Island, LAN Guzha actually preferred to fight with the sea beasts in the sea. That was his home ground, and it was easier for him to display his strength.

"I hope I'm wrong. Go now!" Lin Yi waved his hand. After sending LAN Guzha away, he found a Northern Garrison guard.

"Go to Young Island Master Li and tell him to speed up. In addition, the big investigation that I mentioned before needs to be done as soon as possible. If there is any news, ask him to send someone to inform me!" Lin Yi's words were a bit vague, but he believed that Li Zeyu would understand.

If possible, he'd want to go and find out the situation himself, but now wasn't the time. The next fight was probably going to start soon.

Those innocent people who were attacked could only be locked up for now. Li Zeyu should have a decision on how to deal with them, so Lin Yi didn't have to worry.

Chapter 5965 Affected Residential Area

Lin Yi's biggest worry now was whether someone would take advantage of the situation and sneak attack the enemy, then give some inexplicable reason. It'd happened a few times before anyway, so he could say whatever he wanted.

Lin Yi had to find out the reason before the situation got out of hand.

Fortunately, Li Zeyu's newly added North Garrison was already in place. There were people patrolling all the bustling areas. At least it had some effect, because normally, no one would dare to provoke the North Garrison for no reason.

The thought had just flashed through Lin Yi's mind when he realized with his spirit sense that someone had actually sneaked an attack on a patrol team of the northern Garrison!

This was an upheaval!

Because of the two fights, Lin Yi's spirit sense had covered the entire bustling area of the northernmost Island, searching for suspicious people, things, and things. However, no one had any obvious abnormalities, and he couldn't tell anything apart from going crazy.

Lin Yi didn't even notice anything wrong with the person who ambushed the northern Garrison. He only noticed it after the man's sudden attack.

He was a master in the early stage of the mountain-opening stage. He easily killed a guard when facing a team of five from the North Garrison and moved on to the next one.

Lin Yi didn't have time to hide his trump card. Lightning bolts flashed one after another, and in an instant, he arrived at the scene of the battle. The Dragon-shaped five elements killing intent roared and rushed up, completely crushing the attack of the master.

The guy's attention shifted to Lin Yi. He gave up on chasing the North guard and charged at Lin Yi, his attacks getting fiercer.

Lin Yi frowned. This guy's face was extremely ferocious, and there was a strange madness in his eyes. It was as if Lin Yi was his mortal enemy who killed his father!

This wasn't normal at all, and Lin Yi was sure that this guy had been tampered with, but he didn't know how it was done. There was no one around this guy except for the northern city guards, and there was no one within four to five hundred meters of him!

After a few fights, the bustling commercial area had quieted down. It was also attracted by the previous noise, so it was really quiet. Otherwise, this guy would not have been able to attack the northern Garrison.

The Dragon-shaped five elements killing intent whistled through the air, instantly pouncing towards the mountain split-stage master from the side. This guy, who had fallen into madness, didn't lose his battle instincts at all. His body twisted strangely, and he actually dodged the attack. He didn't slow down at all and continued to pounce at Lin Yi.

Lin Yi didn't move an inch, but the three fire spirit sense vortexes were activated instantly, surrounding the mountain split expert in a triangular formation.

In fact, using the soul Catcher hand was the best way to end the battle without anyone noticing, but Lin Yi needed the guy to be clear-headed and be interrogated. He had to give up on that.

"Ah, ah, ah, ah!" The mountain split expert who had crashed into the pill fire spiritual awareness Whirlpool immediately let out a shrill scream. His primordial spirit seemed to be torn and burned bit by bit. This kind of pain was not something that anyone could bear.

The Dragon-shaped killing intent of five elements whistled and followed closely behind this guy. Taking advantage of his primordial spirit being injured, it ruthlessly hit his back, turning his scream into a mouthful of blood, and then he fell to the ground limply.

Lin Yi was already holding back, otherwise he would've killed him already. The combined attack of the consciousness vortex and the five elements killing Qi was almost impossible for anyone under the mountain opening stage to resist without a spirit sense defense item.

"Arrest him and hand him over to Young Island Master Li in prison!" Lin Yi ordered calmly, and the other four Northern Garrison guards quickly followed his orders, their eyes full of respect.

Lin Yi, on the other hand, was used to this. Ever since his fight with uncle li and uncle ou, he had a clear understanding that as long as he wasn't surrounded by a group of mountain split cultivators, he didn't need to be afraid of any mountain split cultivators in a one on one situation. Even if he couldn't beat a Peak Mountain split cultivator, he wouldn't be killed by them.

This was already the fourth time the attack had happened, and the negative impact had spread. Lin Yi's spiritual sense didn't see any tourists outside except for the northern Battlefront guards. They all rushed back to their homes, afraid that they would be attacked for no reason, or even become the attackers.

"That's good too. At least no one will be targeted!" Lin Yi sighed softly. It wasn't easy to dispel this kind of panic, but he didn't need to worry about it. Li zaixiang and Li Zeyu would naturally have a way to deal with it.

"Pass down the order immediately. Keep a visible distance between the northern Garrison and pay attention to any suspicious people approaching. If the members of the northern Garrison are attacked, you must know who passed by and their whereabouts, understand?" Lin Yi called over one of the North Garrison guards and quietly gave the order. Since Li Zeyu had given him enough authority, he couldn't pass it on.

If the hidden hand still wanted to drive the soldiers of the North Garrison into madness, then they would have to wait to be caught by the tail!

Lin Yi guessed that this guy couldn't drive people crazy over a large area, whether it was the skill time, Qi limit, or the number of times the medicine could be used, or the number of times it could be used ... There had to be a drawback, or the entire northernmost Island would've been turned upside down.

The main purpose of doing this from time to time was to cause panic and make the North Garrison on the northernmost Island exhausted. At the same time, all the guests on the northernmost Island would be frightened and flee the island as soon as possible.

"Yes! Master Lin! Your subordinate will immediately relay your orders!" This Northern Wei was extremely respectful to Lin Yi, even calling himself a subordinate. It seemed that Lin Yi's performance had established his prestige in the northern Wei.

However, before Lin Yi's order could be passed down, another wave of battle appeared. This time, it wasn't in the commercial area, but the living area of the inn!

Lin Yi's expression changed-all living areas had restrictions that blocked out spirit sense, no matter how shallow it was. It was a setup that could prevent people from using spirit sense to spy on them.

It wasn't difficult to force his spirit sense in, and Lin Yi could do it easily, but it couldn't be hidden from the people inside because it wasn't spying, but a blatant invasion. Even li zaixiang, the island master, didn't have the authority to do that.

But this time, Lin Yi didn't care anymore. He sent his spirit sense into the broken restriction and found that the yard was covered with corpses. There were about ten people living in it, but eight of them were dead, and two were fighting to the death. It was the shockwaves from their battle that broke through the restriction and caught Lin Yi's attention.

Chapter 5966 Luring The Tiger Out Of The Mountain

"Hell! Will I be controlled after returning to the base?" Lin Yi cursed under his breath and disappeared from his spot. From this, he could deduce that this type of attack wasn't immediate, but delayed for a period of time. It would be difficult to find the culprit.

Lin Yi didn't know how long the delay was. Three minutes? Five minutes? Or ten minutes, or even half an hour, or a day or two?

If they couldn't determine the time, how could they find the mastermind?

Lin Yi's speed was already at its maximum, but when he arrived, the outcome of the battle was already decided. After all, there was a big difference in strength between the two, or else the other eight wouldn't have been killed.

The guy was covered in the blood of his comrades after killing them all, and he looked like a demon from hell. He roared with a hideous face, and started a new round of attacks the moment Lin Yi appeared.

A stream of blade energy appeared in front of Lin Yi, the direction of the attack was unpredictable. It felt like it was aimed at his chest, but it could be at his throat in the next moment. This guy was really good. Even in a state of madness, his control of martial arts skills was still perfect.

Lin Yi's shadow let the blade Qi pass through his body, but his real body appeared behind the guy like a ghost and slapped at the back of the guy's head. The guy's reaction was so fast that he did a 90-degree turn and reversed the blade's momentum, cutting into Lin Yi's body like a waterfall.

It was a pity that it was still just a shadow-the essence of the three appearances of Cloud Dragon was that it could switch between its real body and shadow at any time, so no matter how fast this guy reacted, it couldn't keep up with Lin Yi's attack speed.

When the attack landed on his back again, he had no way to deal with it. He could only collapse to the ground and fall unconscious.

"Poor fellow, when you wake up and find out that you've killed all your companions, I wonder if you'll feel that you're better off dead!" Lin Yi sighed softly, looking at the guy on the ground with pity. Perhaps it would be better for him to kill him now?

The nearby North Town guards quickly arrived and took control of this murderer and survivor, sending him to Li Zeyu according to Lin Yi's orders. As for what would happen after he woke up, Lin Yi couldn't care less.

"Master Lin, this is a message from the young Island master!" One of the northern Battlefront guards quickly came over and gave Lin Yi a sealed scroll.

"Many thanks!" Lin Yi nodded and took it. He quickly opened it, but there were no words on it. Instead, there was an image of Li Zeyu talking to him. He didn't know what technology it was, but it was similar to a 3D video in the secular world.

"Brother Lin, after the interrogation, the first batch of mountain split sect disciples did not lie. It was another fellow who suddenly launched the attack. Because the old man sealed their cultivation, the fellow who launched the attack regained his consciousness. According to him, he found his lifelong enemy while he was walking. Then, he could not suppress the killing intent in his heart and immediately attacked."

"In fact, his opponent was a stranger that he had never met before. He had nothing to do with any lifelong enemy. It was all his own illusion! And this is not a special case. In the second batch of people you sent over, the leader of the surprise attack was in the same situation, almost no difference. The people behind him haven't had time to interrogate him, but we can be sure that this is the reason!"

"According to my speculation, they should have been poisoned by an extremely powerful hallucinogenic agent, which is why they have such symptoms. The problem is that they themselves don't know when they fell into this trap. Fortunately, this hallucinogenic agent is not contagious, otherwise, the entire northernmost Island would have fallen completely. Now I'm only worried that the mastermind still has a large amount of hallucinogenic agents, and then there will be a large-scale outbreak of chaos on the northernmost Island. So, brother Lin, please help me pay more attention to this situation."

"In addition, I've sent an additional soldier from the city guards institution to patrol the commercial area. We must ensure that we have enough manpower to control the situation. I'll leave their command to you, brother Lin. At this time, the northernmost Island must not have any panic-stricken turmoil. If there is a trend, please suppress it. I'll bear all the consequences!"

Li Zeyu, who was only the size of a palm, had a serious expression on his face. He must have been under a lot of pressure to say such words.

Normally, Li Zeyu didn't even have the intention to kill, but now he even gave Lin Yi the authority to let go and suppress them. It could be seen how serious the situation on the northernmost Island was in his heart.

In the end, Li Zeyu didn't say what he went to do, but Lin Yi could make a rough guess. The mastermind behind the scenes created this kind of panic and chaos on the northernmost Island. He definitely wasn't the main target, unless he had a large amount of hallucinogenic potions in his hands, which could cause people to fall into hallucinations in a large area. Unfortunately, Lin Yi guessed that the possibility of this happening was very low, otherwise it wouldn't have only happened five times until now.

Li Zeyu also had this suspicion, so he went to arrange for the defense of some more important places. However, it seemed that there were only seven guard stations on the northernmost Island. The guard station in the North had been imprisoned and isolated because of the spirit beasts and the passage incident, and the soldiers sent to guard it were also from one guard station. There was already one guard station in the commercial area that guarded in shifts, and now two more guard stations had been transferred over. This meant that the defense of other places was equivalent to only the military strength of two guard stations left. This was simply too dangerous!

"Luring the Tiger away from the mountain, creating a diversion?" Lin Yi mumbled to himself. He shuddered and immediately ordered the northern vanguards, "Immediately get the two guard stations to return to their original defensive positions. We don't need so many people here!"

"Yes, Master Lin!" The North Garrison guard bowed and cupped his fists. However, they didn't just transfer two of the guard stations. To be exact, they only transferred two-thirds of the guard stations. Each of them left one-third of their manpower to guard their original positions, so there shouldn't be any problems!"

"Immediately send the order! All the people who were transferred over, retreat! Don't make me repeat myself!" Lin Yi didn't have the time to explain. He raised his voice and rushed out of the courtyard.

The North guard didn't dare to say anything more. He was just trying to explain, not disobey. Not to mention Li Zeyu's order, just the prestige that Lin Yi had built up in a short time was enough for him to obey.

"Where is their real target? If it were me, which one would I choose?" Lin Yi mumbled as he flew across the northern island, scanning the area with his spirit sense, afraid of missing any suspicious clues.

Chapter 5967 Array Foundation

Since the ambush was most likely a smokescreen, Lin Yi made a bold guess-even if there were more similar situations, there wouldn't be too many of them. Besides, everyone had returned to their own bases, so it was unlikely that there would be too much of an impact.

One guard Institute was enough to keep the situation under control, and Lin Yi didn't think he should be tied up here anymore. He had to find out the mastermind's true goal!

On a Pavilion, Zheng Tianqing was playing with a Jade bottle in his hand. This was the last hallucinogenic agent that he had deliberately kept unused.

There was not much difference between the effects of five and six portions. The impact that it had caused had far exceeded Zheng Tianqing's initial expectations.

"Hehe, I'm a genius, after all. Shouldn't I give the last portion to Lin Yi's lackeys?" Zheng Tianqing was moved by the idea, but he still didn't dare to cause trouble for Lin Yi.

There weren't any powerful experts among the five elements Chamber of Commerce's people this time. Even if they were poisoned with hallucinogens, they wouldn't be able to cause too much damage. They might even be subdued as soon as the hallucinogens acted up.

Even if he could kill one or two of them, it wouldn't do Lin Yi any harm. If the whole thing was exposed, with Lin Yi's protective personality, he might just destroy the Zheng family.

"Forget it, we can't kill Lin Yi, there's no point in dealing with those small fries! Let's go find Yu Ziqing and see what this guy is up to. I've already created such a good opportunity for him. If he still fails, then he's really a good-for-nothing!" Zheng Tianqing convinced himself to give up the idea, put away the Jade bottle, and left the pavilion.

Although there were Northern Battlefront guards everywhere, Zheng Tianqing didn't care at all. Walking on the street, he was the young master Zheng Tianqing, an honored guest of the northernmost Island. The northern Battlefront guards wouldn't do anything to him.

If Lin Yi had found him, he'd be suspicious, but he'd already left the area and was rushing to the northern beach.

After thinking about it carefully, Lin Yi suddenly realized that if the sea beasts wanted to attack the northernmost Island, they would have to break the restriction first.

There was no doubt that the loosening of the barrier was the work of the mastermind or his accomplices. Since they could loosen the barrier, they could most likely make the barrier ineffective, but they had not had time to complete it.

With such a big scene today, it was probably time for them to reveal their true intentions. Lin Yi guessed that these guys 'real goal was to destroy the formation base of the northernmost Island!

Every city guard post had its own area to guard. However, due to the continuous battles in the prosperous area, the North Garrison had been unusually mobilized, which led to the weakening of the guards in many places. It was the best time for them to take action.

Lin Yi had asked Li Zeyu before where the restriction array base of the northernmost Island was, and Li Zeyu didn't hide it. He gave a rough explanation, and although he didn't say everything, there must be one on each beach!

However, the array bases on the beach were guarded by teams from the North Garrison, and they were protected by arrays above level Seven. No one could get close to them, so Li Zeyu was not worried that it would be leaked. In fact, the people of the northernmost Island basically knew about the array bases on the beach. It was not a secret.

It was because of this that Lin Yi rushed to the northern beach. If there was a place that the mastermind could destroy the most, it would be the base of the formation on the northern beach!

Why did the northern border guard station have an underground passage leading to the beach? This was because the traitor had been planning to destroy this array base for a long time. Perhaps this was not the array base that had caused the restriction to loosen previously, but the first array base to be destroyed in the end would definitely be the array base on the North Beach!

As it turned out, Lin Yi's intuition was quite accurate. When he arrived at the northern beach, the twenty-five people of the North Battlefront guards were all killed without even the alarm being sounded.

And the array base that was usually protected by the combination of a concealment array, a defense array, and an attack array had been completely exposed.

The level Seven formations were all broken, and the three of them were attacking the base of the formation. If it weren't for the fact that this was a top-tier formation from ancient times, they might have already succeeded by the time Lin Yi arrived!

"Yu Ziqing, are you looking to die?" Lin Yi roared as a lightning arc flashed past and he appeared behind the three of them.

Other than Yu Ziqing and aunty LAN, the other guy was a spirit beast in human form. Lin Yi's suspicions were right-there was something wrong with this guy!

Yu Ziqing's heart skipped a beat when he heard Lin Yi's voice-he'd just broken through the protective array base after following the man's instructions, and Lin Yi, the God of plague, had arrived just as he started attacking!

Now that Lin Yi had seen through their identity, if they couldn't overturn the northernmost Island, yeyue city would be regarded as the enemy of the northernmost Li family!

"Wind Tiger, aunty LAN, kill him! We can't let this kid call for help!" Yu Ziqing screamed, not sure if he was afraid of Lin Yi or if he was afraid that Lin Yi would call people to disrupt the plan.

Aunty LAN knew the seriousness of the situation and turned to kill Lin Yi without a second word. The wind Tiger, on the other hand, hesitated. After all, his main task was to destroy the base of the formation, not to kill Lin Yi.

However, he remembered how he was chased by Lin Yi and exposed the underground tunnel, causing the spy in the northern border guards to be monitored. He was furious-if it wasn't for this guy, the formation base would've been destroyed already!

With that thought in mind, Feng Hu didn't reject Yu Ziqing anymore. He roared and cooperated with aunty LAN to deal with Lin Yi.

Yu Ziqing wanted to take the opportunity to escape, but he had no other choice now. He could only brace himself and continue to attack the array base. Unfortunately, his original infant stage strength was too weak, he could not shake the ancient array's array base at all! It would be an exaggeration to say that his little destructive power was better than nothing!

Lin Yi hmphed coldly and pointed his finger. A few bolts of lightning as thick as water buckets poured down from the sky. The momentum was shocking, and no matter where one was on the northernmost Island, they would be able to see this scene clearly!

Moreover, the power of these lightning bolts was even stronger than the lightning tribulation of the xuansheng stage. It was more than enough to deal with an opponent in the mountain opening stage.

The lightning martial technique was one of the most powerful methods. As a signal, it should be conspicuous enough.

Chapter 5968 Thunderous Methods

If he wasn't worried about breaking the formation, Lin Yi's lightning explosion or lightning burial would be more suitable for a quick battle!

Aunty LAN didn't expect Lin Yi's attack to be so strange and shocking. She was caught off guard and got hit by the lightning, but she didn't die on the spot with her strength. She just looked like a mess. A few more lightning bolts and she'd be dead!

As for the wind Tiger, its speed was indeed shocking. Lin Yi's sudden attack was able to avoid most of it at the last moment, only scratching the edge. It was much better than aunty LAN!

"You're pretty strong. Unfortunately, you've done something you shouldn't have. Today, this place will be your burial ground." Lin Yi's cold voice sounded in their ears at the same time, and two streams of Five Element killing Qi were aimed at their foreheads!

Aunty Lan's face changed-she knew that Lin Yi was strong, or he wouldn't have been able to take out both uncle li and aunty ou, but she still underestimated him.

With this kind of strength, if she wasn't prepared, she would've been killed by Lin Yi in an instant. Facing Lin Yi's attack now, she could only use all her strength to defend, she couldn't find the time to fight back.

Wind Tiger's situation was slightly better. He created a strong wind vortex in front of him, wrapping Lin Yi's killing intent in it and tearing it away.

Strictly speaking, the wind element countered Qi-type martial skills, and so Lin Yi's five-element killing intent couldn't move an inch under the wind Tiger's defense. It gradually dissipated.

However, Lin Yi didn't mind. In order to avoid being surrounded like last time, he decided to kill aunt LAN first. Lightning movement could bring Lin Yi to any place he wanted like teleportation. The aftermath of the thick lightning arcs was still there, and Lin Yi was like a fish in water.

Aunt LAN was trying her best to block the attack from the front when Lin Yi suddenly appeared behind her. Another lightning arc with an explosive aura shot out. Aunt LAN had no defense at all. If she faced Lin Yi alone, she would be dead.

Luckily, she had a reliable companion, the wind Tiger. Although it was a spirit beast, it understood that if Lin Yi killed aunt LAN, it would be in trouble too. Last time, it escaped Lin Yi's pursuit because Lin Yi didn't use the lightning escape technique. Now that it saw Lin Yi's lightning escape technique, the wind Tiger gave up on the idea of escaping.

Among all the escape techniques in the world, the Thunder escape technique was undeniably the king of speed. At least from what he had seen, there was no other martial skill of the same level that could surpass the Thunder escape technique.

The wind Tiger's wind escape technique was slightly inferior to the lightning escape technique. It might not be enough to escape, but it was barely enough to save aunt LAN at such a close distance!

A wind shield suddenly appeared behind aunty LAN, blocking the lightning arc for a moment. Taking advantage of this moment, the wind Tiger carried aunty LAN away from Lin Yi's attack and sent out countless thin shadowless wind blades, cutting off Lin Yi's pursuit route.

Lin Yi laughed coldly. If the lightning movement technique could be blocked so easily, would it still be called the number one movement technique in the world? A strange lightning arc twisted twice in a row and went around the edge of the group of wind blades, catching up with Wind Tiger and aunt LAN in an instant.

"I like Fanning. Don't you know that I actually like lighting fires?" Lin Yi said with a light smile. He was no longer using the lightning element in his hand, but the fire element.

Wild fire Eight Trigram palm!

With a whoosh, Lin Yi's fire element Qi borrowed the wind around the wind Tiger and burst out like a Prairie Fire.

The sudden and light explosions continued. Wind Tiger didn't expect Lin Yi to change his moves so quickly and strangely. He wasn't prepared for it and was burned with a thousand holes, and a lot of it was his own elemental energy.

After spitting out a mouthful of blood, the wind Tiger turned around and ran. If it wasn't for the fact that his spirit beast body was extremely strong, he might have been done for. If he didn't run now, he was really courting death!

He knew that his wind escape couldn't outrun Lin Yi's lightning escape, but as long as someone could block it for a few breaths, they still had a chance of escaping.

As for the people who resisted, of course, they were aunty LAN and Yu Ziqing, the two close comrades!

Feng Hu had saved aunty LAN to fight against Lin Yi, but now that he realized that there was no hope, he decided to abandon aunty LAN. Not only that, but he also pushed aunty LAN to Lin Yi coldly, fighting for a chance of survival for himself.

As a member of the spirit beast clan, the law of the jungle was their instinct. One of the rules was that they had to be faster than their companions when they were running for their lives. When aunt LAN left, the wind Tiger forcefully circulated his true Qi and used his strength that exceeded his limits to perform the wind escape technique. In an instant, he had fled dozens of meters away.

Lin Yi didn't care about chasing the wind Tiger and attacked aunty LAN instead, leaving her alive for questioning. He then condensed a thick lightning arc and threw it at Yu Ziqing's back.

Although this guy's attack couldn't do much damage to the array base, Lin Yi didn't dare to be careless. If something happened and he really destroyed the array base, who knew if the entire restriction of the northernmost Island would collapse?

The lightning arc pierced through Yu Ziqing's back without any suspense, completely nailing him to the beach. Aunt LAN, who was seriously injured, let out a sorrowful cry, but she could do nothing about Yu Ziqing's death.

Lin Yi grabbed aunty LAN from the ground and was about to chase after the wind Tiger, but he hesitated after seeing that a lot of the formation foundations had been destroyed.

If someone else came to destroy him when he left, wouldn't it be bad?

From the start of the battle until the wind Tiger escaped from Yu Ziqing's death, it was only less than half an incense's time. Even if Lin Yi's lightning bolts that were comparable to lightning tribulation could attract the attention of li Zeyu and the others, it wasn't enough time for them to rush over and protect the array base.

That damn Wind Tiger obviously calculated all these factors, and that was why he ran so decisively. He also knew that Lin Yi would wait for reinforcements before he could chase him without worry!

Before that, it was still a chance to escape, but once Lin Yi really started chasing, he'd be dead!

Lin Yi wanted to lock onto the wind Tiger with his spirit sense and go after it later, but he didn't expect that after the wind escape technique was used, his spirit sense couldn't lock onto the wind Tiger at all. In the blink of an eye, he had lost all traces of the wind Tiger.

At this point, Lin Yi had no choice but to give up on the cunning Wind Tiger. He turned to aunty LAN, who was still vomiting blood.

Chapter 5969 Behind The Scenes

"Answer my question properly and I might consider letting you Live!" Lin Yi looked down at aunty LAN, his tone as cold as ice.

Aunty LAN smiled sadly, looking as if she had nothing to live for. "Kill me if you want. You've killed the young city Lord, so I won't be able to escape death. For someone who is determined to die, what's there to be afraid of?"

"You don't have to cooperate, but if you think death is the scariest thing, then you're too naive! Don't tell me you don't know that there's a soul-searching technique in this world?" Lin Yi smiled sarcastically. He didn't believe that a sect opening master like aunty LAN wouldn't know about soul-searching.

It was precisely because the cultivation of primordial spirit and divine sense was more important during the mountain opening stage that the soul-searching technique was more powerful. Once one's soul was searched, the pain that was worse than death was not something that ordinary people could bear. So when aunt LAN heard it, her eyes also showed extreme fear.

"If you doubt my words, I don't mind giving you a demonstration. Of course, once I start, I won't be able to control it. I'll most likely mess up your Yuan Shen!" Lin Yi smiled faintly, but to the terrified aunty LAN, it was the smile of a demon.

She didn't know why, but she was sure that Lin Yi wasn't joking. He really would use a cruel method like soul-searching.

In fact, Lin Yi really did know how to do it, but he didn't want to use soul search because it was similar to devouring his soul. There would be a lot of memories and information that didn't belong to him, and it would be messy. It would take a lot of effort to clear them out, so soul search was mostly used as a threat.

Aunty LAN would kill herself if she could, but Lin Yi was in control of her life and death. She didn't have a choice, and soul search didn't need her body. As long as she had her spirit, she could do it.

"Ask whatever you want to ask, and I'll kill you after you're done!" Auntie LAN sighed softly. She knew that she couldn't do it, so she didn't continue to be tough.

"Very good. As long as your answer is satisfactory, I can agree to your request!" Lin Yi agreed to auntie Lan's request-it wasn't a big deal."First, tell me why you want to destroy the array base of the northernmost Island!"

"We have an agreement with the southern island Auction Association to introduce them to the Restless elements of the northernmost Island. As long as we can accomplish this, we will attract the sea beasts to besiege the northernmost Island and ruin its reputation. In the future, no one will dare to come to the northernmost Island." Since she had agreed, Auntie LAN had no intention of hiding anything. She simply poured out the beans from a bamboo tube."The southern island Auction Association communicated with the sea beasts through the Spirit beast clan and reached an agreement to attack the northernmost Island. It is said that they were also preparing to hold a top-notch auction, but the northernmost island's auction had stolen their limelight. That's why they made such a decision. Once it's done, there will be no northernmost Island from now on."

"Just for an auction? That's not possible, is it?" Lin Yi was suspicious. The southern and northernmost islands were thousands of miles apart. Was there a need to go to such a big extent for an auction?

He had established a relationship with the spirit beast clan, communicated with the sea beast clan, and even found yeyue city in the East Province, just for an auction? Were they stupid or sick in the head?

"I'm not sure about that. That's all I know!" Auntie LAN shrugged her shoulders expressionlessly, but it affected her wound and she couldn't help but spit out some blood."Because of that damn Wind Tiger, the tunnels of the city guards institution were exposed, and the spy we recommended to them was also monitored. So those guys forced the young city Lord to personally destroy the array base, and then you came!"

"Who's the mole? Is there only one or several of them?" Lin Yi placed great importance on this point. With this opportunity, helping li Zeyu get rid of the traitor wasn't a bad idea.

Aunty LAN said a name to Lin Yi. It was someone he didn't know anyway, so he'd just get li Zeyu to look for him later.

"This is the person we're recommending. As for whether he has an accomplice, I'm not sure. You'll have to investigate this matter yourself!" Aunty LAN was determined to reveal everything. If they were to die, they would die together. Since Wind Tiger betrayed them, no one would have an easy time."In addition, I can also tell you that there is a powerful organization behind the southern island Auction Association. It is said that this organization is very powerful. In their eyes, our yeyue city is nothing!"

It was like a flash of lightning in Lin Yi's mind. He really didn't know much about the southern island Auction Association, but if there was an organization behind them, he would have a rough idea of what it was!

The center!

Only central had the ability to control such a huge plan, and the southern island Plan of central might have started from the southern island Auction Association!

If they were able to form a partnership with the spirit beasts now, then the South Island Plan was going quite smoothly. Lin Yi was having a headache over this-he couldn't handle so many things on his own. It seemed that he had to train his underlings while increasing his strength, so that they could grow up as soon as possible and be able to hold their own.

Otherwise, he would be exhausted to death from running around all day. How could he deal with the center?

In that instant, Lin Yi felt as if everything had cleared up, as if the fog that had been covering his eyes had been lifted. Everything now had a reasonable explanation, and all the clues were connected!

Aunty LAN opened her mouth. She had wanted to mention Zheng Tianqing, but she changed her mind.

The kid wasn't a good person, and aunty LAN didn't need to protect him, but Yu Ziqing was killed by Lin Yi, and Zheng Tianqing was obviously Lin Yi's enemy. Perhaps he could help them get revenge if he stayed.

It was just a small character, after all, and Lin Yi didn't really care. He'd just keep it a secret for now, and it wouldn't be too late to tell him if someone asked.

"I've already told you everything I know. Now, can you give me a quick death?" Aunty LAN looked at Lin Yi expressionlessly-she'd already decided to die, not even bothering to beg for mercy.

Lin Yi suddenly thought of central and was a little careless. He didn't think about asking who did the hallucinogenic drugs, only thinking that it was Yu Ziqing and the others, which let Zheng Tianqing escape.

Chapter 5970 Fierce Battle

"Since you are so cooperative, I can consider sparing your life. It would be even better if you could work for me!" Lin Yi had learned a lot about dealing with central, and getting the other side to betray him was one of the better methods.

For example, Dafeng bro in the early days, Chen Dongcheng later on, and so on were all very successful examples, and they really did help a lot. If aunty LAN, this mountain opening master, could switch sides, it would undoubtedly be more useful to Lin Yi.

However, aunty LAN was already determined to die. She only smiled faintly at Lin Yi's offer and rejected it without hesitation, "I don't need you to spare my life, and I won't help you. Since I can't protect the young city governor, the best choice is to die with him. As long as you keep your promise and give me a quick death, it'll be fine!"

"You must have gone through a lot of hardships to reach the mountain-opening stage. Is it really worth it to give up your life for someone else?" Lin Yi couldn't help but find it strange. This aunty LAN was different from the rest. A normal practitioner would treasure their life more the stronger they were, but she was willing to die for Yu Ziqing. Should he call her loyal or stupid?

"Whether it's worth it or not is up to me. It has nothing to do with you. If you don't want to do it yourself, then let me kill myself!" Aunty LAN also felt a little sad. A sect-opening Big Shot couldn't even die even if he wanted to. There was no point in continuing to live.

"I didn't expect you to be such a loyal person. Since you want to die so badly, I can only fulfill your wish!" Lin Yi sighed and sent out a stream of pure Qi, killing the defenseless aunty LAN on the spot. He watched as her spirit slowly disappeared.

Lin Yi sighed. If it wasn't for the complicated situation on the northernmost Island, and the fact that she wanted to die so badly, he could've let her live. Now, he could only fulfill her last wish.

There were troops of the North Battlefront Army rushing over from a distance, and Lin Yi was relieved. The base of the formation was damaged, but at least it wasn't completely destroyed. The restrictions of the northernmost Island wouldn't collapse just like that, either. From the results, it shouldn't be too bad.

Before the northern Battlefront Army arrived, Lin Yi searched Yu Ziqing's body. He was a rich man, and the spoils he got were no less than the money he earned. Lin Yi even felt that making money from alchemy was too weak. He might get more money if he robbed from these guys.

"Master Lin!" The leader of the northern Army saw the destroyed formations and the exposed base, and his face paled instantly. He greeted Lin Yi respectfully and wiped the cold sweat off his forehead.

It was all thanks to Lin Yi's help, or else the northernmost Island would've been in trouble if something had happened to the formation base.

"Immediately inform the higher-ups to send more people to protect the array base here. At the same time, find an array master to repair the array. If any suspicious people try to get close to this place, kill them without mercy!" Lin Yi didn't waste time with them. He gave the order and left the defense to them while he chased after the wind Tiger.

As for Yu Ziqing and aunty Lan's bodies, Lin Yi told them to bury them properly.

Although it was already too late to catch up to the spirit beast, there might still be some clues left if they continued in this direction.

"LAN Guzha?" After chasing for a distance, Lin Yi unexpectedly felt LAN Guzha's aura, as well as the intense fluctuations of battle.

His divine perception swept over in that direction and as expected, he discovered that LAN Guzha was fighting with someone. The opponent was the burly man transformed from the wind Tiger!

"Good boy, well done!" This was a pleasant surprise. Lin Yi couldn't help but praise this guy. He thought that LAN Guzha would stay on the ancient warship. He didn't expect him to appear here and stop the wind Tiger!

As the lightning arcs flashed, Lin Yi changed his direction slightly and rushed towards where Lan Guzha and wind Tiger were fighting. This time, he couldn't let this guy get away!

Wind Tiger noticed Lin Yi's approach as well, but he couldn't get rid of LAN Guzha. This golden-blue haired B * stard was clearly not as strong or as fast as him, but he just had to appear out of nowhere and pester Lin Yi for a while, holding him back for no reason!

"Boss, don't interfere. Let me take care of this damned spirit beast!" LAN Guzha yelled as he blocked Lin Yi's attack. It was a rare opportunity for him to fight, and he didn't want his boss to ruin his fun.

It was a coincidence. LAN Guzha did follow Lin Yi's instructions and went to the ancient battleship to find ao Tianba. He was going to stay on the battleship and help, but his spirit sense suddenly detected the aura of the spirit beast from last time. He couldn't sit still anymore. He immediately retracted his aura and sneaked over.

This guy also knew that his speed wasn't good enough, so he made a surprise attack. As soon as he came up, he engaged in close combat with the wind Tiger. He would rather take one or two hits than give the wind Tiger a chance to open up the distance.

In the beginning, Wind Tiger didn't think much of LAN Guzha. He wanted to use his strength to crush LAN Guzha and leave after ending the battle instantly. However, when Lin Yi caught up, he still couldn't take care of LAN Guzha. Even if he wanted to escape, he didn't have a chance.

It was not impossible to break away from the battle by force, but LAN Guzha's reckless attacks had made the wind Tiger extremely fearful. It was impossible to do so without paying a certain price. Once he was injured, it was hard to say if he could still escape!

Lin Yi wanted to end the battle as soon as possible, but since LAN Guzha was so interested, he might as well treat it as a training for him. He couldn't just rely on himself to deal with central, and it was important to train his lackeys' abilities. He'd start with LAN Guzha.

"Then you can beat him up. If you can't beat him, don't even think about asking me to give you a chance to fight in the future!" Lin Yi smiled faintly and provoked LAN Guzha on purpose. Other than eating, this guy only liked to fight. Once he heard that he wouldn't have a chance to fight if he couldn't beat the wind Tiger, he instantly became a hundred times more energetic.

"Stinky spirit beast, die!" LAN Guzha roared and his aura increased once again. Although his strength was not as high as the wind Tiger, his combat strength was not inferior at all.

As expected, the mutated sea serpent Dragon was not a simple existence. With the wind Tiger as a comparison, LAN Guzha's strength was even more apparent.

In the spirit beast clan, the wind Tiger wasn't a small character. With Gui Long, the former Azure Dragon elder, Lin Yi knew more about the spirit beast clan. The wind Tiger should be a spirit beast with a trace of The White Tiger's bloodline. If LAN Guzha didn't mutate and was just a normal sea serpent Dragon, it wouldn't be able to fight against him. He might've been killed with a single claw.
