

## Bodyguard 5971

### Chapter 5971 The Sea Beasts Attack

This was a real battle between a Dragon and a Tiger, and it was definitely exciting and intense. Wind Tiger saw that Lin Yi didn't intend to fight, and he relaxed. He decided to kill LAN Guzha first.

At this moment, there was a loud explosion from the distant North Sea, followed by a huge wave that rushed towards the northernmost Island. Although he could only see a thin line of water, Lin Yi's spirit sense could completely feel the huge wave's power!

The alarm on the northernmost Island went off, and Lin Yi's face darkened. He knew he'd been careless! Although the array base on the northern beach had not been destroyed, the previous damage had greatly loosened the restrictive spell in that direction. If there were no accidents, these small loosened parts could be repaired very quickly. However, he had neglected that since the center was behind this, how could there be no contingency plans?

Previously, there had already been sea beasts above the xuansheng stage swimming in the restricted safe zone. Now that the base of the array was unstable, the sea beasts in the distant sea had probably already gathered and were waiting for the restriction to be destroyed to attack the northernmost Island.

Because of Lin Yi's appearance, the destruction of the base stopped after only a small part. The explosion just now should be the sea beasts who realized that the restriction was no longer changing, so they focused their attacks on the loosened part!

Looking at the scale of the giant wave, they had at least partially achieved their goal!

"Hell! LAN Guzha, I don't have time for you to play!" Lin Yi couldn't help but curse under his breath. He appeared in the middle of the battle between Wind Tiger and LAN Guzha as if he had teleported and sent out a raging fire Bagua Palm.

As the violent flames swept over, the wind Tiger was not shocked. Instead, it was overjoyed and actually borrowed the force to fly out. Although it was inevitable that it would suffer some light injuries, it was much more worthwhile than resisting the attack of that lunatic LAN Guzha.

The wind Tiger naturally noticed the changes in the northern Sea as well. He knew that this was the best time for him to escape. Lin Yi probably wouldn't have the time to chase him at a time like this, so he just needed to get out of the battle here and there was a high chance of getting rid of these two troublesome guys.

Wind escape technique!

The wind Tiger tried its best to activate its escape technique, but there was no reaction. Lin Yi didn't know when, but a small flag appeared in his hand. The light formed a faint net of light, covering a large area.

The space sealing no-escape flag!

This was something Lin Yi took from OBO. They used it to guard against the lightning escape technique, but now Lin Yi was using it to restrict the wind Tiger's wind escape technique.

Even if Wind Tiger were to run, Lin Yi could still catch up to him with his fastest speed, but the situation was exactly as Wind Tiger had predicted. Lin Yi didn't have time to waste on him, so the best way was to make sure he didn't have the chance to escape!

Within the range of the flag, Lin Yi's lightning escape was also restricted, but he still had super limit butterfly steps. His body flickered and he was already beside the wind Tiger.

Because of the sudden loss of his wind escape technique, the wind Tiger was stunned for a moment. In that instant, Lin Yi appeared behind him, and the five elements killing intent was easily injected into the wind Tiger's body, destroying his meridians. The next moment, this guy was completely paralyzed on the ground, unable to move.

"LAN Guzha, hand this guy over to li Zeyu. I'll go to the ancient warship first!" Lin Yi didn't even have time to say anything. He only gave a simple instruction and disappeared into the distance in a flash of lightning.

LAN Guzha opened his mouth to say something, but Lin Yi was nowhere to be seen. She could only unwillingly pick up the heavily injured Wind Tiger and go to li Zeyu to hand it over.

On the dock, the ancient warship was setting sail. Lin Yi's message to ao Tianba was for him to be ready for battle, ready to enter the battlefield at any time. Now that something had happened in the northern Sea, he had to help according to the agreement with the northernmost Island.

Lin Yi used his lightning escape technique to travel, and it was almost as fast as teleportation. In just two breaths, he was at the dock, and with another flash, he was on the ancient warship.

If it was someone else, they wouldn't even be able to get on the ship after it set sail, because the defense layer would block everyone who tried to board. But Lin Yi was the honorary vice-captain, the defense layer was useless against him, he could pass through it easily.

"Vice-captain Lin!" Seeing Lin Yi suddenly appear on the deck, many of the crew members bowed and went back to their work, clearly very well-trained.

Lin Yi couldn't reply to them one by one, so he only nodded and continued running towards the bridge-ao Tianba should be there.

"Brother ao Tian, increase our speed to the maximum. The restriction on the northern waters has loosened. I'm afraid that a large number of sea beasts will rush in. We must buy time for the northernmost Island to repair the array base!" Lin Yi saw ao Tianba as expected, and he finished his sentence in one breath before taking a breath.

"Lil bro Lin, I'm already starting to speed up, but the situation is a bit tricky this time! I'm afraid that our ancient warship alone can't stop the sea beasts for long!" Ao Tianba's face was cold, but he forced a smile when he saw Lin Yi.

"Brother ao Tian, we've even seen a sea beast tide controlled by a Sea Dragon. What else can be difficult for us?" Lin Yi smiled faintly, showing his confidence.

He had no other choice. If ao Tian BA lost his confidence, the restriction on the northernmost Island might really not be able to hold on. A situation where one broke through the surface with a single point was suitable for war and also suitable for restrictions.

No matter what, Lin Yi's positive attitude had infected the people on the ancient warship.

"Brother Lin is right. I, ao Tianba, am a man who will dominate all the seas. How can I be scared by these sea beasts?" Ao Tianba laughed out loud. His previous solemn expression was swept away, and his brows revealed his previous self-conceited charm.

"Brother ao Tian, let us brothers join hands once again and have a good battle with those damn sea beasts!" Lin Yi said heroically as he high-fived ao Tianba. Both of them knew that this battle was going to be tougher than the last one.

In the previous sea beast tide, there were only a few sea beasts at the beginning stage of the mountain opening stage. However, this time, there were already close to ten sea beasts at the beginning stage of the mountain opening stage. It was conceivable how many powerful sea beasts would appear when the real attack was launched.

The ancient warship was powerful, but no matter how powerful it was, there was still a limit. If it was besieged by many sea beasts above the mountain opening stage, the defense of the ancient warship might not be able to withstand it.

#### Chapter 5972 Counter Attack

Other than defense, there was also the problem of offensive power. The powerful offensive power of the descending star formation was enough to kill sea beasts in the mountain opening stage in an instant. However, this was built under the condition of consuming a large amount of resources. Once the defense was tight and the damage to the attack was too great, would the ancient warship be able to retreat in one piece?

"Lil bro Lin, I'll leave the control of the attack to you!" Ao Tianba's confidence was mostly due to Lin Yi's arrival. His perfect control of the Starfall formation shocked everyone on the ancient warship.

Lin Yi didn't want to pass the responsibility to anyone else, but the reason why he could control the Starfall formation was because of that thing. He needed to get that thing out first.

"Senior ghost, stop your seclusion. Come out and help!" Lin Yi called out to the thing in his mind-it'd be a big problem if the guy didn't come out of his isolation ...

Fortunately, the ghostly thing was quite reliable, and there was a response very quickly.

"What's wrong? You're thinking of me again at this time?" The ghostly thing laughed strangely. It seemed to be very clear about the current situation. "Those sea beast Cubs are making a lot of noise. But kid, do you really want to use this ancient warship to resist the sea beast tide?"

"Of course not. There are also battleships on the northernmost Island. In addition, the restriction here has only loosened, but it has not collapsed. Even if the sea beasts can open an entrance, the suppression of their strength still exists. So, although we are facing a stronger sea beast tide than the last time, it is not certain how much combat power they can display." Lin Yi knew that he wouldn't drag ao Tianba down with him if there really was no hope.

"What you said makes sense, but I have to warn you that if we lose the battle, this ancient warship will not be able to escape. If we go over now, there will only be two outcomes. Either we win or we die!" After a slight pause, the ghostly thing laughed strangely again. "I'm sorry, but there's another ending. You'll win, but you'll die at the same time!"

"You won't be any better if I die. Hurry up and think of a way to make sure we can all survive!" Lin Yi knew that if ao Tianba led the fleet to break out of the encirclement, there was at least an 80% chance that they'd be able to escape the whirlpool.

There would certainly be sea beast tides in other directions, but since the main direction was the North, with the combat power of the ancient warship and the other treasured ships, there was still a good chance to escape from the dock. Moreover, since the northernmost Island attracted the attention of the sea beasts, they would not be pursued much. However, once they went to the northern Sea area and fought with the sea beasts head-on, it was equivalent to being trapped in a quagmire. Even if they could pull out their legs, they would be surrounded by the sea beasts from other directions.

To put it bluntly, ao Tianba was putting all his assets and his life on the line this time, but he had no choice. He had promised the northernmost Island in advance that he would go even if there was danger! This was related to the credibility and honor of the men of the sea, so he would rather die than submit!

"You know the way to ensure your survival. Just turn around and break out of the encirclement!" The demonic thing laughed weirdly and then fell silent. It was unknown if it was thinking about the battle, or it simply didn't want to talk.

"A large number of sea beasts have been discovered twenty miles ahead. They are all at least at the nascent Soul Stage. I estimate that there are at least thirty of them at the mountain opening stage!" Lin Yi and ao Tianba's faces turned serious when they heard the news. This was only the first wave of sea beasts, and there were already more than thirty of them. How many more would there be?

"Why are there so many high-level existences gathered in this sea beast tide? In this Sea region, those who were at the beginning of their cultivation were definitely considered overlords. But now, they've all become pawns to clear the way?" Ao Tianba muttered to himself. If there were only so many sea beasts, he wouldn't have to worry. However, these were only the vanguard, and he immediately felt a huge pressure!

"Brother ao Tian, advance at full speed. We must block the gap in the formation restriction of the northernmost Island that has loosened. We can't let the sea beasts continue to enter!" Lin Yi was a little nervous, but he kept his face calm as he ordered the normal cannons to fire.

"Brothers, this is a battle for us to show off our might to the world. All the sea beasts that enter the restriction on the northernmost Island will be suppressed and weakened. The actual combat power of thirty sea beasts at the mountain opening stage may only be at the xuansheng stage or even the Yuanying stage. After this battle, the sea beasts will flee at the sight of us! Kill!" After preparing the cannons, Lin Yi raised his voice to boost the morale. It was just a guess, but it was basically the truth, so it was very convincing.

"Kill!" When Lin Yi's voice reached every corner of the ancient warship through the sound amplification formation, all the crew members' blood boiled as they responded with a murderous aura!

The energy of countless spiritual jades was drained, and they were transformed into dazzling light from the muzzles of the Naval cannons. The light tore through the space of the sea area, and in an instant, they appeared at the spot where the sea beast tide was the densest. They bloomed like flowers of death, mercilessly harvesting the lives of the sea beasts.

Lin Yi's strategy was very successful. He adjusted most of the muzzles of the cannons to the front, forming a small area of attack. Although the area of attack was smaller, the power was greatly increased. Just the first round of attack had killed eight sea beasts of the mountain opening realm, and the number of deaths of the sea beasts of the xuansheng and Yuanying realms was multiplied.

This solid and magnificent battle record immediately boosted the morale of the crew members on the ancient warship. No matter how well they said it, it was not as good as seeing this spectacular scene with their own eyes. Everyone was suddenly full of confidence in their own mission!

"Well done! Brother Lin is indeed a genius in naval warfare!" Ao Tianba slapped the bridge's control panel in excitement, wishing he could go and fire a few shots himself.

"The guess that the sea beasts have been weakened by the formation is correct, so it's not surprising that the first volley could produce such results. Everyone, prepare for the second volley!" Lin Yi wasn't happy at all-this was just the appetizer, the real battle had just begun!

The sea beast tide that was attacked instantly dispersed, especially the sea beasts that were in the mountain-opening stage. Although their strength was suppressed, their reactions were still extremely fast. They swam among the sea beasts, making it impossible for the ancient warship to focus its fire on them.

And those Yuanying stage sea beasts were usually quite powerful, but here they were completely used as cannon fodder to block the cannon fire.

The three warships of the northernmost Island that were patrolling in the safe sea area also appeared in the distance and launched a continuous attack. Although the power was not as strong as the ancient warship, the speed of harvesting sea beasts was only slightly inferior.

Chapter 5973 The Balance Has Been Broken!

"Don't stop! Charge straight into the sea beast tide! We need to pass through these sea beasts to guard the gap in the restrictive spell! Charge!" Lin Yi was completely in character as he roared out his orders.

This seemingly crazy order was carried out without hesitation. Under normal circumstances, the ancient warship would, of course, pull away from the sea beasts and use its superior firepower to gradually devour the strength of the other party. Once it got close to the sea beasts, the warship cannons would be of little use.

"Prepare the side fire! Fire indiscriminately, and leave the undefeatable sea monsters to the warships of the northernmost Island. We don't need to waste time on these fish that have escaped the net!" After the ancient warship charged into the sea beast tide, it became extremely difficult for it to move, and the attacks it received multiplied. After Lin Yi gave the order, he quickly rushed out of the bridge.

"Brother ao Tian, you'll be in charge of the rest. I'll be back immediately when the Starfall array is needed!" Lin Yi left with that and disappeared out the door.

In an instant, Lin Yi was on the deck, standing at the front of the ship. He reached out and waved at the sea beasts around him, and countless lightning bolts fell from the sky!

Lightning thousand explosion!

The power of this technique might not be as great as lightning burial, but it had an advantage in its wide range. It was definitely a great weapon in group battles, especially against sea beasts. When the lightning arcs fell into the water, their power would be multiplied. Even if the sea beasts were not directly hit, they would not be able to escape the fate of being electrocuted.

If it was before he learned the lightning escape technique, he might accidentally hurt the ancient ship with lightning explosion, but now that his control of lightning had improved, he could barely avoid the ancient ship even though he couldn't fully control lightning explosion.

The ancient battleship wasn't good at close-range combat, so Lin Yi had to go into battle himself as a supplement to the close-range combat weapon. The effect of the lightning explosion was surprisingly good. Perhaps it was because of the restriction, but it took out hundreds of sea beasts in one go. There was no lack of xuansheng stage sea beasts, and there was even a mountain split stage sea beast.

Cheers erupted on the deck. Although no sound could be heard from the bridge, it was probably the same situation. Fortunately, although the cheers were cheers, everyone did not put down their work and continued to operate in an orderly manner.

Lin Yi's confidence was boosted as well-the duration of the lightning explosion wasn't short, and it was enough for him to recover some of his stamina. He couldn't keep using it like this forever, but he could still maintain the strength of the attack for a short period of time.

For a moment, the entire sea area was filled with blue lightning arcs that were jumping and exploding violently. Even if the sea beasts did not die, they would be paralyzed and trembling. It was impossible for them to attack the ancient warship. The originally dangerous voyage was unexpectedly safe and smooth.

Lin Yi's coordination with the cannons was flawless. The ancient warship managed to cut a bloody path through the sea beast tide and arrived at the outermost gap of the seal. Sea beasts were still pouring in endlessly. The concentrated fire of the cannons could only slow down the speed of their entry slightly.

Fortunately, five more warships from the northernmost Island had arrived, forming a small fleet and stabilizing the situation. Even if the ancient warships could not stop all the sea beasts, they did not have to worry about causing any harm to the northernmost Island.

Before he knew it, there weren't many sea beasts around the ancient battleship anymore. Lin Yi let out a breath of relief. He didn't know how long he could last if this continued.

The slightly exhausted Lin Yi decided to head back to the bridge and discuss the next step with ao Tianba.

Brother ao Tian, how long can the ancient warship last?" Lin Yi didn't beat around the bush and asked the most important question.

"If I don't use the Starfall array, I can fight for more than six hours. But once I use the Starfall array, I can't say for sure. I might use up all my energy after ten attacks!" Ao Tianba did not know what he was feeling right now. He was worried that a big guy would come and force the descending star formation out, which would deplete the ancient battleship's reserves. At the same time, he wanted to take advantage of the restriction to weaken the enemy's strength and kill them one by one with the descending star formation.

If it was a Sea Dragon that entered the restriction, it would probably be difficult for it to escape like last time. Moreover, if the leader of the sea beasts was defeated, the sea beast tide might end just like that.

"I hope the Li clan can repair the damaged array base as soon as possible!" Lin Yi sighed as he thought of another important question. "Brother ao Tian, have you ever thought about how long you can last?"

It was a quiet question, almost like a voice transmission. This concerned the survival of the entire ancient warship, so Lin Yi had to confirm it.

Resources and energy were limited. If the ancient warship fought until it ran out of ammunition and food, it could only wait for its death. However, if it kept a part of the resources to escape, it would be better to give up resistance in the beginning if the defense of the northernmost Island was in vain, let alone whether it could escape successfully.

Ao Tianba must have thought about this problem, as he immediately smiled and said, ""To be able to fight side by side with lil bro Lin till the very end, this old bro has nothing to regret. We've already come this far, how can we back down now?"

"My sons, are you willing to turn around and run away, letting these damn sea beasts chase after you? Or are you willing to fight to your heart's content at the front line? Tell me loudly!" Ao Tianba suddenly turned on the sound amplification array and laughed as he transmitted his voice to everyone's ears!

"Kill! Kill! Kill!" All of the crew members' blood was boiling as they roared with passion. All of them were iron-blooded Warriors, and none of them were willing to show their backs to the sea beasts.

"I know the answer! It is my honor to be able to fight alongside brother ao Tian!" Lin Yi smiled faintly and shook ao Tianba's hand.

The situation on this side was slowly under control. After the warships of the northernmost Island had eliminated the sea beast tide that had entered, they also came to help seal the gap. For a while, there was a subtle balance.

It just so happened that at this time, there was a shocking explosion on the northernmost Island. Even from a hundred miles away on the battlefield, Lin Yi and the others could hear some of it. It was clear how shocking the incident was.

At the same time, the restriction that had already loosened cracked a little more, and more sea beasts rushed in. The balance that had just been formed was instantly broken.

Chapter 5974 Using Fire To Burn Water

"Not good! The array base on the northernmost Island seems to be attacked again. I just don't know which one it is!" Lin Yi's face changed. He wanted to go back and see what was going on, but if he left now, what if a big guy came in? without the Starfall formation, he could destroy the ancient warship with one slap.

Ao Tianba was also depressed. After the gap became bigger, it would be more difficult to seal it. Moreover, if the spies on the northernmost Island were not eliminated, it would be meaningless no matter how hard they worked here.

More importantly, as the restriction loosened, the suppression effect on the sea beasts 'strength also weakened. Especially in the outermost edge of the area, there was almost no difference.

"What are the Li family of the extreme north doing? At this time, you still haven't come to clean up the mess!" Ao Tianba grumbled, but he was certain that the Li family had already taken action. Not only Island Master Li zaixiang, but perhaps even more powerful hidden masters had also come out. After all, the destruction of the array base was a major event that concerned the life and death of the northernmost Island.

Ao Tianba's guess was right. Li zaixiang had already made his move again. It was true that he wanted to train Li Zeyu, but the current situation was already beyond control. If the island master still did not come out, the northernmost Island would not need an Island master anymore.

"You traitor! Who gave you the courage to do this?" Li zaixiang appeared on the beach in the West. There were more than 20 North Garrison guards gathered there. However, they were not protecting the array base. Instead, they had destroyed the array and attacked the base brazenly. The shocking explosion earlier was caused by them detonating the array outside the array base and causing some damage to the base.

Li zaixiang arrived at the first moment and saw the North Battlefront guards attacking the array base. He roared and slapped all the traitors away. At the same time, he broke their meridians and turned them into ordinary people.

"Tell me, who ordered you to do this? I'll give you a quick death. Otherwise, you'll know what it means to be better off dead!" Li zaixiang could hardly suppress the anger in his heart. If it were not for the confession, he would have killed all these traitors in one go!

To li zaixiang's surprise, these 20-odd North Garrison guards did not say a word. They bit the poison in their mouths and died in a few breaths. He did not even have the chance to stop them.

Li zaixiang was dumbfounded. He did not expect these traitors to commit suicide so decisively. What kind of benefits could make them betray the northernmost Island and even become suicide soldiers? What was the background of the enemy on the northernmost Island?

"Island Lord, two of the array bases have been damaged. The sea beasts have invaded the restricted area of the Inland Sea and formed a sea beast tide. The northern Sea area is being held back by the ancient warships, so it is not too dangerous for the time being. However, the restriction in the West has just been loosened, so we can't take care of it." One of the northern Garrison guards quickly rushed over and told li zaixiang the information he had gathered, hoping that li zaixiang could deal with these problems as soon as possible.

"You don't have to worry about the West. I will go there. Pass on my order. Send more people to guard the other two directions. The barrier of the northernmost Island can't withstand any more damage!" Li zaixiang was really angry. After giving the order, he was ready to kill!

On the northernmost Island, Li Zeyu and his men were guarding it. Li zaixiang could barely be at ease. Therefore, he had to rush to the place where the restriction in the West had loosened and intercept the sea beasts that entered the sea.

Li zaixiang let out a clear and long cry. A fire Phoenix rose from the Li family and responded to Li zaixiang with a clear cry. In an instant, it flew above his head.

The fire Phoenix was one of the top flying spirit beasts. Not only was its speed shocking, but its strength was also extraordinary. In terms of bloodline inheritance, it was probably second only to the Vermilion Bird, a divine beast. If Li zaixiang did not have a fortuitous encounter in his early years, it would be impossible to tame such a spirit beast. In fact, this fire Phoenix was not tamed by him, but it was similar to Lin Yi and LAN Guzha.

Li zaixiang leaped and landed on the back of the fire Phoenix that was flying at a low altitude with great precision. He instantly rushed to the Western sea region. The distance of a hundred miles was covered in just a few breaths' time. By the time they appeared in the sea region, thousands of sea beasts had already entered the restriction.

"Brother Huo, it's rare that we can work together to fight against an enemy. Don't be lazy!" Li zaixiang laughed and put his hands together. The aura on his body seemed to be boiling, causing the surrounding space to distort slightly.

The fire Phoenix also laughed and flapped its huge wings, looking down at the sea below like a king, "They're just some inferior sea beasts. You don't have to be so serious, right?"

Before he finished speaking, a huge pillar of fire shot out of the fire Phoenix's mouth towards the sea. Normally, when fire-type users fought on the sea, they would definitely have their own weakening Halo.

It would be considered good if they could exert 60% of their power. However, the fire Phoenix's flames were different. The sea water in this Sea area couldn't have any effect on it.

In particular, there was also li zaixiang, who was an expert in the opening stage of the mountain, who cultivated both water and fire. He was best at combining water and fire to exert a power that was far beyond normal.

The tacit understanding between li zaixiang and the fire Phoenix was not much different from when he used his own martial skills. When the fire Phoenix launched an attack, li zaixiang's aura wrapped around the pillar of fire and doubled the explosive power in an instant.

Before the pillar of fire fell on the sea, it turned into a rain of fire. To be exact, it was a rain of fire arrows that covered the sky. It covered an area of hundreds of meters and directly killed many sea beasts in it. The flames did not extinguish after they were done. Instead, they burned more and more violently when they came into contact with the sea. In just a breath's time, they formed a sea of fire that continued to burn!

Within the sea of fire, the sea beasts that weren't pierced by the flame Arrows all screamed miserably and dove down desperately. However, no matter how they ran, the flames on their bodies wouldn't be extinguished. Even if they entered the deep sea, they would still be turned into ashes in the end.

Such a terrifying flame attack was only a joint attack by li zaixiang and the fire Phoenix!

"Brother Huo, there is an ancient battleship in the North and eight medium-sized battleships in our northernmost Island. Do you think we are more powerful than them?" The degree of loosening of the restrictive spell was much better than expected, so li zaixiang looked relaxed and was in the mood to joke.

"That's for sure! How can an ancient warship be compared to me? Sit tight, the seafood barbeque party is about to start!" The fire Phoenix flapped its wings and circled around the sea near the gap like a meteor. It spat out fire pillars again and again, and Li zaixiang amplified and spread the attack.

#### Chapter 5975 The Indefinite Flame Tide!

A man and a Phoenix had actually used their flames to forcefully seal up the gap. The sea beasts below the mountain opening stage simply didn't dare to take even half a step into the lightning Pool.

"Old Li, do you want to fly out and beat them? We don't want these sea brats to say that we're bullying them!" The fire Phoenix was excited and began to encourage li zaixiang to take the initiative to leave the restriction and attack the sea beasts outside.

Because the main attack direction was the sea area in the North, although there were also a large number of sea beasts in the West, their strength would definitely be reduced. For example, the sea beasts in the mountain opening stage here only had a little more than 200 points, and with two sea beasts in the land opening stage, it was not a big deal.

Li zaixiang looked at the situation outside. It was a sea beast tide without the restriction to weaken it. Although the two of them looked impressive inside, it would not be so easy once they went out.

"Haha, forget it. We're reasonable people. Since they haven't entered the Forbidden Zone, it's not good to take the initiative to attack them. Besides, our main purpose is to guard this gap. There's no need to cause more trouble." Li zaixiang laughed dryly and rejected the fire Phoenix's suggestion.

If there were only 17 or 18 sea beasts of the mountain opening stage and one sea beast of the earth opening stage outside, he and the fire Phoenix could still go out and act tyrannically. However, there were two sea beasts of the earth opening stage, over 200 sea beasts of the mountain opening stage, and a large number of sea beasts of the xuansheng stage and the Yuanying stage. Were they going to court

death by going out? Did they really think that they were super experts at the sea splitting stage when they joined forces?

"You, why are you so wishy-washy after getting injured in seclusion? do you think we can't beat them?" The fire Phoenix grumbled in dissatisfaction as it attacked. It was rare for them to come out and fight, couldn't they just fight to their hearts 'content?

To a certain extent, the fire Phoenix and LAN Guzha's characters seemed to be a little similar. They were both guys who liked to get beaten up for no reason. Of course, the ones they beat up were all other people.

"Don't be silly. How can we not defeat those trashy sea beasts? don't I always say that we should win people over with virtue? if they don't attack us, even if we know that they have this idea, we can't judge that they are wrong before they have even carried it out and attack them based on it. Don't you think so?" Li zaixiang mumbled in between his attacks. He would not go out no matter what.

Although the fire Phoenix was there, they could always escape if they couldn't win. However, this concerned the safety of the northernmost Island, so li zaixiang didn't dare to make any mistakes. If they were entangled by the sea beasts and other sea beasts attacked the northernmost Island through the gap, it would be impossible to remedy it. It was no joke.

"I don't know if it's right or not, but those two earth-opening stage guys actually came in by themselves. This is a good deal. Hurry up!" The fire Phoenix let out an excited cry and quickly swooped down toward the two sea beasts of the earth formation stage at the gap.

These two guys were quite cunning. They didn't enter the barrier completely. Half of their huge bodies were left outside the barrier. If the array base wasn't damaged, this situation would definitely not happen. But now that it had loosened, they had a chance to take advantage of it.

As only a part of their bodies were in the restrictive spell, the suppression had almost no effect on them. As long as their strength was not damaged, the two sea beasts of the earth opening stage were not afraid of Li Zaixiang and the Fire Phoenix's joint attack.

A huge Whirlpool appeared on the surface of the sea. The invisible restriction did not affect the formation of the whirlpool, so the inside and outside of the restriction were affected. The violent Hurricane rolled up a towering water column, which was a great threat to his flight while resisting the Fire Phoenix's flames.

"Interesting! These two guys are finally decent!" The Fire Phoenix laughed as it flapped its wings, nimbly avoiding the continuous attacks of the water pillars. The flames in its mouth were no longer scattered, but condensed to the extreme, and fell directly into the center of the vortex.

With a loud bang, the vortex completely collapsed, and the sea of fire that had been somewhat extinguished began to burn again. The two sea beasts of the earth formation stage turned around and fled, barely avoiding the attack of the flames. Although their attacks were broken, they didn't suffer any losses.

"Fire Phoenix! You're helping the sea beast, right?" Li Zaixiang shouted. Even Brother Huo had turned into a Fire Phoenix. He was flustered and exasperated because the attack was so violent that it had affected the gap in the restriction. It was equivalent to attacking the restriction together with the two sea beasts of the earth formation stage.

"A mistake, a mistake! I already told you to beat them up, but you didn't believe me! Have we fallen into a trap?" The Fire Phoenix was a little embarrassed at first, but it immediately retorted with conviction.

Li zaixiang was instantly infuriated. 'You're blaming me for this? If we weren't old friends for so many years, anyone would think that you're an undercover agent, right?

Fortunately, these two guys had long been used to this way of getting along. Quarreling did not delay their cooperation at all. No wonder li zaixiang and Li Zeyu were so strange between father and son. It turned out that this was the style of the family.

The sea beasts outside could see that they had gained an advantage. Since they couldn't enter, they might as well attack the restriction from the outside!

For this kind of ancient formation, if the foundation of the formation was not damaged, the edge of the restrictive barrier would not be afraid of this kind of attack. But now it was different. With the cracks and gaps, even the sea beasts of the original infant stage could form an effective attack.

"F \* ck! Are you satisfied now? We can't not go out!" Li zaixiang cursed under his breath and separated his hands. A ball of fire and a ball of water appeared in his palms, similar to how Lin Yi used a super bomb.

"I told you I was going out, but you didn't believe me. But it's not too late now. Let's go beat them up!" The fire Phoenix laughed nonchalantly and instantly passed through the restriction, appearing in the sea outside.

If they were too close to the edge of the restrictive spell, the ripples of the battle at the earth-opening stage would affect the gap. It was obviously impossible to hide in the restrictive spell. They could only take the initiative to attack and move the battlefield to the sea outside.

"Beat up my ass! Hurry up and use your big moves! We'll run away after we're done!" Li zaixiang put his hands together in a bad mood and sent the ball of fire into the ball of water. The burning light became brighter and brighter. The fire Phoenix let out a clear cry and a dazzling white flame formed in its mouth.

Li zaixiang's expression was extremely pained. The small ball of fire and water in his hand seemed to weigh more than a thousand pounds. He felt that he could not control it. The fire Phoenix raised its head slightly and the White flames rose slowly but quickly. In an instant, it integrated into the Phoenix. Li zaixiang roared and raised his hands high above his head. It was as if he was holding a small sun in his palms, illuminating the entire night sky.

Indefinite flame tide!

As li zaixiang pressed down with both hands, the blazing white sun burst with a terrifyingly high temperature. Waves of irregular flames spread out, evaporating hundreds of miles of the sea surface outside the restriction!

Chapter 5976 Li Zaixiang's Injury

Looking down from the sky, one could clearly see that the sea level in this area was at least seven or eight meters lower than the surrounding area. All the sea beasts in this area, except for two land opening stage sea beasts and two or three defensive mountain opening stage sea beasts, had all evaporated with the seawater without a trace.

As for the few sea beasts that had survived, they were already seriously injured and were only a breath away from death. They had basically lost the ability to fight again!

Li zaixiang spat out a mouthful of blood. However, the blood in the air did not even have time to fall before it evaporated without leaving a trace.

"Still not running? are you waiting for death?" Li zaixiang collapsed on the fire Phoenix and smiled weakly.

The fire Phoenix also looked dispirited. The ocean surface and sea beasts within a hundred miles had evaporated in an instant. It had almost completely eliminated the sea beast tide. He and Li zaixiang had paid an unimaginable price. They would probably not be able to recover without a few years of closed-door cultivation.

This joint move of the indefinite flame tide was practically a forbidden move to the both of them. If they were to use it once, they might have to pay for it. If it were not for the fact that the situation was truly urgent, they would not have taken such a risk.

"I won't wait for death, but I'm going to be killed by you! I wanted to have a good fight, but you bastard used such a big move as soon as you came up. If I can't fly, won't I become the first fire Phoenix to drown in the sea? This is too humiliating!" The fire Phoenix's body had already sunk to a position less than two meters above the sea. In fact, when the surrounding seawater poured in, he was indeed considered to have sunk under the sea.

Flapping its wings with great effort, the fire Phoenix managed to raise its altitude with great difficulty. Its original speed was like a meteor, but now it was completely gone. From a distance, it looked like someone was flying a kite, swaying and floating, and the kind of kite that would fall head first at any time.

The severely injured sea monsters were not in a better state than li zaixiang and fire Phoenix. They could easily end their condition. Unfortunately, li zaixiang and fire Phoenix were afraid that they would come and attack them, so they had to run away.

Li zaixiang fell on the fire Phoenix's body and spat out another mouthful of blood, which was also immediately evaporated. His condition was really bad. He thought that the influence of his Qi deviation had completely disappeared under the effect of the yin and yang pill and that he could completely withstand the use of the indefinite flame tide. However, it was obvious that he had been too optimistic this time.

The backlash from the indefinite flame tide was secondary. The old and hidden injuries that were not too serious had also erupted at the same time. This was li zaixiang's greatest danger.

In addition to vomiting blood, his skin was also rapidly becoming dry and chapped as if he was severely dehydrated. Such symptoms would appear when the water-Fire series martial arts technique backfired uncontrollably. If li zaixiang did not treat his injuries as soon as possible, these symptoms alone would be enough to kill him.

"Hey, li zaixiang, are you alright? Don't f \* cking scare me!" The fire Phoenix also felt that something was wrong with li zaixiang and immediately panicked. "Where are your healing pills? Hurry up and eat a few more!"

"I can still hold on. You should worry about yourself. Don't really drown in the sea!" Li zaixiang forced a laugh, not forgetting to mock the Phoenix's state.

"I'm relieved to see you in such high spirits. To be honest, I really can't fly. Why don't you go into the sea and swim back by yourself? This way, I can save some energy and avoid drowning!" The fire Phoenix suppressed the worry in her heart and spoke nonsense.

Now, the fire Phoenix could only talk to li zaixiang to keep him awake and prevent him from fainting completely. If that happened, he would be in real danger. Only by keeping his mind clear could he try to control his injuries.

As for the healing elixir, Fire Phoenix did not mention it anymore. He had already noticed that when Li Zaixiang took out a grade seven great recovery pill, the pill had already turned into liquid and evaporated before he could swallow it.

In other words, Li Zaixiang didn't even have the chance to take a recovery pill to heal his injuries. He could only rely on the remaining true Qi in his body to barely control his injuries and recover bit by bit. If he lost consciousness, he would be dead without a doubt.

"That's good, you can throw me down. I might even be able to swim back before you! I've never seen a Phoenix flying so slowly. Any butterfly would be faster than you!" Li Zaixiang said with a smile as he coughed up blood. He was well aware of his current state. He might not be able to hold on this time. It was good to be able to talk and joke with the Fire Phoenix.

The Fire Phoenix's heart was stifled. He didn't know what to say. He wanted Li Zaixiang to stay awake, but he coughed out two mouthfuls of blood with every sentence he said. Could he really hold on like this?

"Fire Phoenix, my brother, if I really can't make it this time, please take good care of my little brat for a while, at least until he has really grown up ..." Li Zaixiang saw that Fire Phoenix did not speak, so he sighed and stopped smiling. His words were full of weakness that could not be hidden.

"Bullshit! I won't help you take care of your son. You better pull yourself together and then pass the island master position to your son after a hundred years, understand?" The Fire Phoenix ruthlessly interrupted Li Zaixiang's words. It flapped its wings with all its might as it cursed, trying to speed up and return to the northernmost island.

If li zaixiang couldn't take the seventh-grade recover pill, what about the first-grade Mystic-class pill? If it didn't work, then what about Mystic second level pills? The higher the grade of the pill, the more terrifying the temperature of the pill fire was. He didn't believe that the heat in his body could melt this kind of profound grade pill! There were Mystic first and Mystic second level alchemists on the northernmost Island!

What the fire Phoenix didn't know was that the mystic second level Alchemist he'd heard of was also in trouble. Not long ago, the fleet led by the ancient warship had sealed the gap in the northern seal, but the sea beasts in the outer sea had attacked the seal at the same time as they attacked the gap.

It was the same problem as li zaixiang. If he just hid in the restriction to defend, the gap in the restriction would get bigger and bigger, and eventually, it would completely collapse. Lin Yi had to make up his mind. Should he rush out and attack the leader of the sea beasts, or should he retreat immediately and escape while the ancient warship was still full of energy? perhaps he could escape successfully under the cover of the eight medium-sized warships.

"Brother Lin, there's no need to hesitate. Just do as you say!" Ao Tianba laughed heartily and patted Lin Yi's shoulder, his voice full of trust.

#### Chapter 5977 The Might Of The Starfall Formation

Lin Yi closed his eyes and took a deep breath, asking the ghost in his heart, ""Senior ghost, can you find the leader of the sea beast tide outside? If we can determine his position, we might have a chance!"

"I don't know who the leader is, but there are at least a dozen sea beasts of the earth formation stage and even the sea splitting stage outside. However, if you want to rush out, I don't think you have a good chance of surviving." It was rare for the damn thing to be serious. Even when he was at his peak, he would choose to retreat when facing such a terrifying lineup. So Lin Yi wanted to attack the sea beast tide, and it was in the open sea where there was no restriction. The damn thing didn't think he could come back alive at all.

"Are we going to escape? Even if they wanted to escape, the ancient warship would not be able to!" Lin Yi didn't hesitate any longer. Time didn't allow him to hesitate. He had to stop the sea beasts from attacking the restriction!

"Senior ghost, help me lock onto the strongest sea beast that you can find, and then control the falling star formation to kill it. This is our only chance!" Lin Yi opened his eyes and ordered, "All ships, prepare for assault! Prepare the Starfall formation!"

Under Lin Yi's command, the ancient warship was like a prehistoric beast, showing its most ferocious claws and teeth. It increased its speed to the limit and rushed out of the restriction range. The light of the warship cannons flashed continuously, killing all the sea beasts in the way.

Without the restriction to suppress their strength, the sea beasts were like sharks that smelled blood. They quickly surrounded the ancient warship. Among them, there were many powerful sea beasts of the mountain opening stage and even the earth splitting stage. Countless violent attacks landed on the defensive layer, causing waves of turbulence.

"The defensive layer's energy can't be maintained for too long. I have at most ten breaths of time!" The crew member in charge of defense reported his situation calmly, but the fine beads of sweat on his forehead revealed the nervousness in his heart.

Without the defensive layer, even an ancient warship would be as fragile as a piece of washi in the face of the sea beast tide!

The pitch-black night sky was suddenly filled with stars, and the entire starry sky seemed to be upside down. Endless star power was gathering, and the Starfall array was ready!

The sea to the West of the northernmost Island suddenly lit up with a dazzling white light as if it were daytime. At the same time, a terrifying fluctuation came over, but it did not affect the dazzling Starlight in the sky.

The sea beast at the earth formation stage who was closest to the ancient warship tried to escape frantically. Even at his level, he didn't dare to touch the power of the Starfall array, because even the slightest attack could turn him into ashes.

Fortunately, this fellow seemed to know that the attack speed of the descending star formation was extremely slow, and it was difficult to aim and lock on. As long as he could constantly change his position before the attack was launched, he could easily avoid the attack of the descending star formation.

In theory, this statement was correct. If ao Tianba was the one controlling the Starfall array, any sea beast during the mountain opening stage would be able to do it. However, the one controlling the Starfall array was not ao Tianba, but the damn earth-rank array master!

A dazzling stream of stars poured down like a waterfall from the void. It struck the earth-splitting sea beast with ease, killing hundreds of sea beasts nearby.

All the sea beasts under the Starfall formation had no chance to escape. They didn't even have the ability to resist. They were all turned into ashes.

"Brother ao Tian, the might of the falling star array seems to have increased again. It's much more powerful than the last time!" Lin Yi nodded in satisfaction. This wasn't the Starfall formation's strongest attack. It was a good harvest to kill an earth opening stage sea beast and many other sea beasts of other levels. At least, it could weaken the opponent's strength.

Ao Tianba didn't have the time to answer Lin Yi. He was looking at the direction of the sea beast tide in shock. The powerful sea beasts above the earth formation stage were all leaving the battlefield, and the ancient warship was about to give up. Was luck finally on their side?

Although the Starfall formation was powerful, ao Tianba was not naive enough to think that the sea beast tide would change its plan because of this. The more appropriate way for the other party to deal with the Starfall formation was to use a large number of low-level sea beasts to exhaust the attack of the Starfall formation, and then take the opportunity to attack the ancient warship!

As long as they could sink the ancient warship, the eight medium-sized warships behind them would just be toys!

"I understand! Something must have happened in the Western sea, so the powerful sea beasts are all heading there!" Ao Tianba slammed his hand on the control panel and roared.

It wasn't difficult to come to this conclusion when they thought of the direction where it was as bright as day. If the ancient battleship hadn't come out, these sea beasts might still attack the formation. However, the Super powerful and precise destructive power of the Starfall formation had frightened the powerful sea beasts above the earth formation stage. No one was a fool who could cultivate to such a level. Instead of resisting the Starfall formation here, they might as well go to the Western sea to see what was happening. Perhaps there was already a gap in the restriction that was enough to pass through?

Lin Yi wasn't prepared for this, either. All the sea beasts above the earth formation stage had gone to the Western sea, but there were still a lot of mountain opening stage sea beasts here. He couldn't kill many with the Starfall formation, and it consumed too much energy. Without the Starfall formation, he'd only be able to confront these mountain opening stage sea beasts, and he couldn't chase after the high level sea beasts that left.

"Brother ao Tian, what do you think we should do now?" Lin Yi scratched his head. The Starfall formation was like a nuclear weapon in the secular world. It was the most suitable for deterrence, but once used, it would lose its most powerful effect.

It was because of the Starfall array that the sea beasts retreated to a distance away from the edge of the restriction and stopped attacking.

"I don't know what's going on in the West. The sea beasts here are no longer moving. I'm afraid it's because their leader has gone to the West. It seems that we can only hold on like this for now. I hope that the formation base on the northernmost Island can be repaired as soon as possible and the gap in the restriction will be closed." Ao Tianba wanted to check out the situation in the West, but he knew that the ancient warship could not be moved easily. Therefore, he could only continue to face the sea beast tide here.

An ancient warship against tens of thousands of sea beasts was a shocking scene. If not for the fact that he had no other choice, ao Tianba would not have done such a stupid thing. The energy of the Starfall array could only kill one to two thousand sea beasts at most. The remaining ones could devour the ancient warship alive.

#### Chapter 5978 The Fire Phoenix's Helplessness

The northern waters once again entered a state of balance due to the mutual restraint. On the other hand, li Zeyu had indeed organized array Masters to repair the damaged array base. Unfortunately, the northernmost Island was in urgent need of manpower, so the efficiency was naturally not too high.

Among the guests who came to the auction, there were quite a number of talents in the field of arrays, but li Zeyu did not dare to trust them. If there was a spy or something among them who directly destroyed the array when it was being repaired, that would be a real disaster. He would rather be slow than let this kind of situation happen.

LAN Guzha was pacing back and forth anxiously on the northern beach. He really wanted to ask Lin Yi for help, but he didn't dare to leave Li Zeyu so easily. The boss had asked him to send the Wind Tiger to Li Zeyu, with the hidden intention of protecting Li Zeyu at the same time.

Right now, the array base on the beach was exposed to the outside. Protecting Li Zeyu and the array Masters who were working was the most important thing.

More importantly, LAN Guzha did not know if he would be killed by the concentrated fire of the northernmost island's battleships when he returned to the sea in his original form. He could not possibly fight with his own people before he could help, could he? The sea beasts outside would probably die of laughter.

"Young Island master, we've investigated the situation in the western sea. The island master and the fire Phoenix should be working together to suppress the insurrection of the sea beasts. If we can't make any good progress here, they'll probably be in great trouble." A North Garrison guard ran over and reported to Li Zeyu in a low voice. However, he did not know that Li Zaixiang was no longer in a very troublesome situation. Instead, he was in great trouble. If he was not treated as soon as possible, it would become a problem that could break through the sky!

"Brothers, let's hurry up and repair the array base. The life and death of the northernmost Island is in our hands. As long as we can turn the crisis around this time, you will be the greatest heroes of the northernmost Island! He will become everyone's hero!" Li Zeyu encouraged him loudly, but he had a bad feeling in his heart. Finally, he turned his gaze to the West and prayed in his heart that the old man would not come up with any tricks!

The fire Phoenix flapped its wings with all its might, but its speed was too slow. As Li Zaixiang had said, it only had a slight advantage over the butterfly.

Fortunately, after flying for a while, the last two medium-sized warships of the northernmost Island had come to support them. Although these two warships were not even enough to fill the gaps of the sea beast tide before, they could now save lives!

"Return to the island immediately!" The fire Phoenix landed on a battleship and immediately transformed into a handsome man with red hair. His sharp lines revealed a trace of coldness. He carried Li Zaixiang on his back and took over command.

On the northernmost Island, although the fire Phoenix did not appear much, everyone knew that there was such a master who was a life-and-death friend of the island master. Naturally, they would not disobey his orders in the slightest.

Moreover, their Island master was like a withered tree, weakly coughing out blood. No matter how they looked at him, he didn't seem to be in a good state. It was necessary to send him back as soon as possible.

"Lord Fire Phoenix, we can just return to the island. Can we use the other warship to defend the gap in the restriction first?" After the commander of the warship turned around, he hurried over to ask for instructions from the fire Phoenix.

If they didn't put up any defense and just left the gap in the restrictive barrier there, wouldn't they be afraid of the sea beast tide?

"What's the use of a medium-sized warship? It's not even enough to fill the gaps between their teeth, hurry up and get them to come back together!" The fire Phoenix was in an extremely bad mood, so it

was natural for it to speak rudely. The sea beast tide in the outer seas had been severely injured by li zaixiang and him at all costs. However, this direction was not where the main force of the sea beasts was located. According to its estimation, the previous commotion would most likely attract more sea beasts over.

Instead of sending the warship to its death in vain, it was better to preserve its strength and use the restrictions outside the northernmost Island to defend and counterattack.

After sensing li zaixiang's condition with her divine sense, the fire Phoenix became more and more worried. She did not know how long this old fellow could last!

"Lord Fire Phoenix, please let the island Lord lie down. The doctors on our warship can treat him!" The commander of the warship quickly conveyed the order and respectfully asked the fire Phoenix to put li zaixiang on a stretcher.

"Let's treat him like this!" The fire Phoenix glanced coldly at the two doctors at the side. These guys could only treat ordinary soldiers. How much help could they be to li zaixiang's injuries?

It wasn't that the fire Phoenix didn't want to put li zaixiang down, it was just that his true energy could flow with li zaixiang to a certain extent. Otherwise, he wouldn't have been able to use a killer move like the indefinite flame tide. As long as li zaixiang was on his back, he could at least rely on the fire Phoenix's true energy to barely hang on.

In addition, li zaixiang's fire-type true Qi, which had gone out of control, was also absorbed by the fire Phoenix bit by bit. It did not affect him much, but it was very important for li zaixiang. Even if only a small amount was absorbed, it could temporarily control his injuries and prevent them from worsening.

The two doctors did not dare to object and had no time to waste. They immediately stepped forward and placed their palms on li zaixiang's back and began to transfer their true Qi.

Although their mental cultivation techniques were far inferior to the art of Dragon mastery, they were still advanced medical mental cultivation techniques. At least, they were better than the ones from the sun family in the secular world. However, most of their treatment was with drugs. Only important people like li zaixiang could enjoy the treatment of being directly transferred with medical true Qi.

However, in just a breath's time, the two doctors' faces were flushed red, and steam was coming out of their heads like a steamer!

In addition, the palms of the two men on li zaixiang's back also gave off a burnt smell. They could not resist the fire in li zaixiang's body and directly hurt themselves.

"Alright! You've already done your best!" The fire Phoenix took a step forward and allowed the two doctors to leave li zaixiang's back. Their healing essential Qi was indeed a little useful, but it was not even a drop in the ocean. There was not much difference whether it was effective or not.

The two doctors' red faces turned pale in an instant. They panted heavily and looked at their palms in horror. The skin and flesh of their palms were completely charred, and there were even some places where the White bones could be seen.

And this was only a breath's time. If it had been any longer, their hands would have been crippled.

The warship commander was also shocked. He didn't expect the island master's injury to be so serious. No wonder the fire Phoenix wanted to carry the island master. If he were to put her on a stretcher, the stretcher would probably burn directly, right? The only person who could withstand such terrifying heat was probably the fire Phoenix!

The fire Phoenix sighed in his heart, but he still maintained an extremely calm expression. Li zaixiang was seriously injured, so he had to help stabilize the situation. However, the problem was that he could not easily stabilize the sea beasts that were rushing through the gap in the restriction!

Chapter 5979 You Know Too Much!

After all this time, the powerful sea beasts of the northern Sea had already moved to this place. When they found that the restrictive barrier was even more loose than the northern Sea, and that there was no defensive power at all, they were overjoyed and immediately rushed into the barrier.

Three sea beasts of the land opening stage quickly chased after the two medium-sized warships, while the rest attacked from the inside and outside to destroy the restrictive spell together. As long as this layer of restrictive spell was broken, the suppression of the Inland Sea on the strength of the sea beasts would disappear. Although it would not be as straightforward as directly destroying the array Foundation on the island, at least it would give them a chance to push forward.

The strength of the three sea beasts at the earth formation stage was suppressed to the mountain split stage by the restrictive spell. If it wasn't for the loosening of the restrictive spell, they might have been suppressed to the xuansheng stage or even the nascent Soul Stage. However, the mountain split stage was already the limit.

It was unrealistic for two medium-sized warships to deal with three sea beasts that looked like they were in the mountain opening stage, but were actually in the earth opening stage. If the fire Phoenix was in good condition, it would be no problem for him to fight three of them alone. However, the problem was that he was not in good condition!

"Don't get entangled. Escape at full speed!" The fire Phoenix felt extremely aggrieved. If he could, he would rather die in battle than run away. However, in order to protect li zaixiang, he could only choose to run away!

The speed of both sides was extremely fast. The coastline was only a dozen miles away, but the sea beasts behind them had already begun to attack!

Another battleship suddenly deviated from its original course. It made a slight arc, turned around, and aimed all its cannons at the sea beasts that were chasing it.

"What are they doing?" The fire Phoenix was extremely furious. Of course, he knew what the battleship was doing. They wanted to sacrifice themselves to stall the sea beasts and buy time for li zaixiang's battleship.

It was precisely because he knew this that Fire Phoenix could not accept it. He had never been a person who liked to sacrifice his companions for his own survival. Li zaixiang was not one of them!

"Lord Fire Phoenix, don't waste their good intentions!" The commander of the warship said calmly, but there was still a faint trace of sadness in his eyes.

No one would like the feeling of watching their fellow soldiers die so generously while they could only run away!

However, although the warship had tried its best, it did not manage to buy much time against the three powerful sea beasts. Compared to the ancient warship, the medium-sized warship was indeed like a toy. It was easily torn to pieces.

"Don't turn back! We will definitely avenge them!" Fire Phoenix clenched his fists so tightly that his nails dug into his palms, but he could only endure it. When he returned to the northernmost Island, he would have a chance to fight back!

They were less than five li away from the coastline. The suppression of the strength of the sea beasts here had reached its peak. The three sea beasts at the earth opening stage had almost fallen to the xuansheng stage. However, because the outer restrictive spell was gradually dissipating, they could still maintain the strength of the initial stage of the mountain opening stage.

"Don't run, you won't be able to escape!" The fastest sea beast leaped out of the sea, staring at the fire Phoenix with a sneer in its huge eyes. Its mouth was full of sharp teeth, and a powerful true energy was gathering in it.

In the next moment, this medium-sized warship might be completely destroyed!

A sense of powerlessness welled up in the fire Phoenix's heart. If it was before, he could easily kill a few of these guys whose strength had been suppressed. But now, he could only watch helplessly, without even the ability to resist.

"Why did they escape?" A lazy and aged voice suddenly sounded in the air. Immediately, the body of the sea beast that was about to fall suddenly stopped and stopped in mid-air.

Not only that, but the other two sea beasts in the sea seemed to have been pulled out of the water by an invisible hand. They were bound in the air and could not move at all.

"Senior Li Lin!" The fire Phoenix bowed slightly in respect. A thin, long-bearded old man suddenly appeared in front of him. On the surface, he looked no different from the old men that could be found everywhere on the street. People would believe that he was about to die of old age, let alone his imposing manner.

However, it was this ordinary old man who had imprisoned three earth formation stage sea beasts so easily! Although the sea beast's strength had been suppressed to the early stage of mountain split, to be able to do this, its strength was at least at the late stage of earth split!

"You two little fellows are really useless. You made it so miserable and still forced me, this old bag of bones, to come out and clean up the mess. Do you have any shame?" The thin and small old man Li Lin had a look of displeasure on his face, but he still checked li zaixiang's injuries at the first moment.

"You're the master of the northernmost Island, but you're in such a sorry state. You're really a piece of trash!" Li Lin cursed in a low voice and slapped li zaixiang's body.

A pure and massive genuine Qi instantly surged into li zaixiang's body, suppressing his injuries. However, this was only a temporary solution. At most, it would delay him for a few days. When the time came, his injuries would be even more violent.

"Greetings, ancestor!" With the help of Li Lin's vital energy, li zaixiang finally caught his breath. Although his injuries would worsen in a few days, he would not die immediately.

One of the three imprisoned sea beasts looked at Li Lin in horror and said with great difficulty, ""Split ... Sea ... Stage ...?"

"Damn it, you saw through me!" Li Lin's expression immediately turned serious. After looking left and right, he said to the sea beast solemnly, ""I'm sorry, you know too much! Therefore, I can only kill you!"

As soon as he finished speaking, he stretched out his right hand and pointed it in the direction of the sea beast. He gently closed his five fingers, and the huge sea beast's body that was frozen in the air immediately exploded like fireworks. Blood and foam flew in all directions and drifted into the sea. As for the battleship, not a single drop fell on it.

"I'm thinking, why is your family all like this? Looks like you've inherited an extraordinary bloodline!" The fire Phoenix couldn't help but tease his brother in a low voice. Li zaixiang couldn't help but feel embarrassed. Couldn't he, the old ancestor, kill the sea beast coolly? Why must you say such nonsense!

Li Lin suddenly turned his head and chuckled at the fire Phoenix, revealing an unfathomable expression. ""Little fire Phoenix, you seem to know too much!"

The fire Phoenix didn't know whether to laugh or cry. It quickly covered its mouth and shook its head, indicating that it didn't know anything!

A deafening sound came from the distance. The outermost barrier of the northernmost Island had been completely broken by the sea beasts. The strength of the two sea beasts, who had been confined in the air, began to rise rapidly and recover. Peak of the early mountain split realm, Middle Mountain split realm, peak of the middle Mountain split realm ...

"The formation restrictions left by our ancestors have finally been destroyed!" Li Lin put on an act and sighed, then clapped his hands and laughed. "Haha, well done! I should have gotten rid of this broken restriction long ago. If it weren't for this broken thing, how could the Li family of the extreme north fall to this state?"

## Chapter 5980 Li Lin's Appearance

"Do you think senior Li Lin has been greatly stimulated?" The fire Phoenix turned its head slightly and mumbled to li zaixiang in a voice that it could barely hear. It even stretched out its index finger and twirled it around its temple.

Before li zaixiang could answer, a knuckle knocked heavily on the fire Phoenix's forehead. This stir-fried chestnut was definitely sour and refreshing. The fire Phoenix could not help but cry out in pain even though it had a strong body. Tears were about to fall.

"Little fire Phoenix, do you think that this old man's hearing is bad, so I can't hear what you're saying? Let me tell you, even if you're thinking about it, this old man will know everything!" Li Lin retracted his finger and boasted shamelessly.

The fire Phoenix rubbed its forehead and thought to itself, 'it would be weird if you knew what I was thinking!'

As soon as he thought about it, another knuckle knocked on his head. The mighty master Fire Phoenix of the earth opening stage was almost beaten silly. Why the hell did this happen?

"I already said I know what you're thinking, and you still dare to doubt me?" Li Lin blew at his beard and glared at him with an expression that said, 'I've seen through you.' The fire Phoenix really wanted to cry but had no tears. This ancestor was just looking for an excuse to hit him for fun, right? Although he was right, it was definitely a wild guess!

"Old ancestor, now is not the time to talk about this, right?" Li zaixiang couldn't stand it anymore. This brother of his was considered upright. He didn't flare up even after being teased by his ancestor. If it were someone else, he would have turned hostile with his bad temper.

"That's true. Let's settle the matter here first!" Li Lin nodded and raised his head to look at the two sea beasts, who had already recovered their earth opening stage strength.

Although the two of them had recovered their strength, they still couldn't move. They only had a little more strength to struggle, but it was useless! When an ant turned into a bug and was held in the hand of a person, there was no difference.

"I wanted to share my life experiences with you, but I'm in a hurry. I can only skip 10000 words and get to the point. Remember not to be a sea beast in the future!" Li Lin raised and retracted his hands, and the two sea beasts that had recovered their earth creation stage strength exploded at the same time. Whether they recovered their strength or not seemed to have no effect on this skinny old man at all.

"Alright, the matter here has been resolved. Let's continue with the previous topic?" Li Lin clapped his hands. From the looks of it, it wouldn't be difficult for him to kill three earth opening stage sea beasts.

The fire Phoenix's forehead was filled with black lines. He still wanted to talk about the previous topic? You haven't hit my head enough yet!

"Li zaixiang, how do you feel now? Although this injury has been temporarily suppressed and won't take your life in the short term, it's definitely not possible to not treat it quickly. If you delay it for a day or two, you might really be finished. How can I save you? What kind of medicinal pill would be good? "If you need any herbs, just tell me. As your brother, I'll help you find them even if I have to fly into the sky or go into the sea. Don't be polite with me. If you're polite, I'll get angry with you. We're brothers for life

..." Fire Phoenix pretended not to hear Li Lin's words and continued to talk to li zaixiang. He probably had not said as much in the past year as he did in this part.

Li zaixiang also laughed to himself. However, he and the fire Phoenix had long been used to the Li family's strange character, so they naturally did not take it seriously.

When Li Lin arrived at the battleship, it was only a few miles away from the coastline. After killing the three sea beasts, he had closed in more than half of the distance. Since the restriction outside had been destroyed, he did not go out to see the situation again. It would be a waste of time.

"Li zaixiang, do you understand what I just said?" In the distance, a rapidly approaching water line could be seen. It was the sea beast tide that had broken the seal and was charging straight in. Li Lin put away his playful expression, faced the sea with his back to li zaixiang, and asked solemnly.

Li zaixiang also stopped smiling and nodded seriously. "Yes, patriarch! He was born in calamity and died in peace and happiness! The jinshi passed down by our ancestors have protected us for too long, allowing us to enjoy peace, but in fact, we lack enough threats, causing the inheritance of the Li family of the extreme north to deteriorate with each generation. It's not because our talent can't catch up with the seniors, but because our overly comfortable days have worn out our enterprising spirit!"

"It's good that you understand. You should know what to do if we can survive on the northernmost Island this time! Good luck!" After Li Lin finished speaking, a soaring aura emerged from his body. Like a peerless divine weapon, he shed all restraints and displayed his powerful edge in front of the enemy.

The sea beast tide in the distance was also shocked by the powerful aura, but the water line did not seem to have any intention of stopping. Instead, it continued to surge toward the northernmost Island.

Li Lin let out a long roar and stepped out of the warship. In a flash, his figure had already appeared several hundred meters away. A wave rose on the sea surface and supported the bottom of his feet. At the same time, he quickly faced the sea beast tide!

"Forefather!" Li zaixiang roared, but he did not have time to say anything. He could only watch Li Lin fight the sea beast tide alone! From what he had just said, he understood that Li Lin was charging toward the sea beast tide with the intention of dying.

If Li Lin wanted to leave, the sea beast tide wouldn't be able to stop him at all. However, for the northernmost Island and the Li family's inheritance, this powerful old man at the sea shattering stage took that step resolutely!

If it were only some sea beasts at the earth opening stage, Li Lin might be able to come and go as he pleased. However, Li zaixiang had a vague feeling that there would be at least one sea splitting stage sea beast in this sea beast tide!

Not to mention the mysterious South continent and East continent, even within the Sky Class Island, there were many Super Masters at the sea Rift stage. Those ancient families all had their own trump cards!

For example, Li Lin of the Li family, who usually didn't interfere with anything. He would only quietly cultivate in seclusion because there was an ancient guardian Convention of the family. Experts above the sea splitting stage were not allowed to attack unless the family was on the verge of death.

This was also why Li Lin didn't appear at the beginning. He only made his move when the outer restriction was almost broken and Li zaixiang's life was on the line.

However, for the sea beasts, The Guardian Convention didn't have the slightest binding force. The sea beasts in the split sea realm didn't want to attack the big islands because of the ancient restrictive spells. There was no benefit in attacking them! If it weren't for the internal problems of the northernmost Island, even if a few more sea beasts of the sea split stage came, they wouldn't have any effect on the outer barriers.

Li Lin had already turned into a white dot, and he had completely charged into the White water line formed by the sea beast tide. Violent battle fluctuations erupted in the distance, and countless sea beasts that were not strong enough were crushed by the aftershock of the battle, not even having the chance to resist or escape.
