

Bodyguard 5981

Chapter 5981 The Guardian Convention

In the face of absolute strength, this advantage in numbers was almost useless. If one had to find one point, it would be that it could greatly consume Li Lin's physical strength and true Qi. Since it couldn't hurt him, it seemed to be a good strategy!

Lin Yi stood on the bridge of the ancient battleship, looking at the battle scene with his spirit sense, dumbfounded. After the restriction in the West was completely broken, the North was also gradually collapsing. The sea beasts that were confronting the ancient battleship noticed this situation and didn't attack the defense line formed by the ancient battleship and the eight medium-sized battleships. Instead, they turned to the West and gathered the other sea beasts, launching the final attack.

"So powerful! This was the strength of the sea splitting stage! He's really too powerful!" Lin Yi couldn't help but feel emotional. In front of a real sea-shattering cultivator, he was a "genius" who could fight above his realm, but he was still as weak as an ant.

However, Lin Yi wasn't disheartened by this. On the contrary, his fighting spirit was ignited. He believed that one day, he would be even stronger than this sea split realm cultivator!

"This is the patriarch of the Li family of the extreme north, Li Lin! Because of The Guardian contract, he hasn't appeared for a long time. Those guys who plotted against the northernmost Island probably didn't expect Li Lin to still be here, right?" Ao Tianba laughed gloatingly, obviously mocking those who had colluded with the sea beasts for overestimating themselves.

There was a super expert at the sea splitting stage guarding the place, yet someone still dared to provoke him. He really didn't know how to spell the word "death"! However, a person with such ability should know about the ancient family. Since that was the case, it was somewhat intriguing that he still chose to take action.

Lin Yi guessed that central was the mastermind behind this, but aotian state didn't know. Only a new force like central wouldn't know about the rules.

"Brother ao Tian, what is The Guardian Convention?" Lin Yi took the chance to ask some questions before the ancient warships entered the battlefield.

"The Guardian contract is actually an agreement between the Super families. All the Super experts above the sea shattering stage are forbidden to participate in all kinds of Affairs. They can only take action when the family is in a life-and-death situation. This is to prevent the battle between the experts of the sea splitting stage from causing too many losses. After all, their destructive power is really too powerful. " Ao Tianba didn't hide anything and explained everything to Lin Yi in detail. He even pointed in the direction of Li Lin's battle, using facts to prove how destructive the sea Rift realm was.

"If someone violates The Guardian contract, the others can join forces to deal with him. We must use thunderous means to suppress the battle to the minimum in order to reduce the destructive power of the sea splitting stage! In addition, if you encounter a life and death situation, you can also send out a distress signal, and the participants of The Guardian contract will definitely come to your rescue!" Ao Tianba was a young master from a super-family, so he was naturally quite clear about these things.

"What if we can't save him in time?" Lin Yi looked at the battle in the distance and felt that it was almost impossible to wait for the other families "sea shattering realm Masters to come to help.

"If we can't save him in time, then we'll have to take revenge for him!" Ao Tianba revealed a cold smile and the sneer on his face became more obvious,""If Li Lin, the patriarch of the Li family, dies, the other participants of the convention will definitely join hands to find the real murderer behind this matter. No matter who the other party is, they will have to face the pursuit of a group of old sea splitting stage cultivators. I think they'd better pray that Li Lin is fine. Otherwise, no one can save them!"

Lin Yi took in a cold breath-one Li Lin was already powerful enough, if there was a group of people like that, wouldn't central be destroyed in a matter of minutes?

A Black-bellied guy might want Li Lin to die as soon as possible so that a group of sea shattering realm old monsters would come to central. However, Lin Yi wasn't that kind of person. He only wanted to become stronger, far stronger than Li Lin, and then sweep central. This was the attitude that a real master should have!

In the end, the effectiveness of the agreement was still unknown. Lin Yi didn't believe that these sea shattering realm old monsters didn't have any conflicts with each other. They would really work together to investigate the murderer. If one of them slacked off, the end result would probably be nothing.

While the two of them were talking, an aura no weaker than Li Lin's suddenly erupted from the sea beast tide. As expected, there was a seahorse at the sea splitting stage among them, and it suddenly launched an attack while Li Lin was in the midst of a fierce battle.

The sea beast tide had temporarily stopped advancing because of this earth-shattering battle. Those sea beasts below the mountain opening stage had fled one after another. The aftershock of this level of battle, even if it was just a little, was enough to tear their powerful bodies apart. Even the sea beasts at the mountain opening stage didn't dare to get too close, let alone interfere.

Only those sea beasts at the earth opening stage could surround Li Lin and launch some disruptive attacks, with great difficulty. As long as they could disrupt him, they could create enough opportunities for the seahorses at the sea splitting stage.

"Brother ao Tian, how's the energy of the ancient warship now?" Lin Yi's eyes narrowed. He had decided to help Li Lin. At this time, the only thing that could help in the battle on the entire northernmost Island was this ancient warship!

"Not bad. On the way here, I collected the spiritual Jade from the medium-sized warships. They can't help much anyway, so it's better to leave them all to us to fight. The energy reserve now is about 80% of its peak!" Ao Tianba understood what Lin Yi meant-they'd already taken so many risks already, one more wouldn't matter.

Lin Yi nodded-80% should be enough. The problem now was how to get into the fight quickly.

"Senior ghost, are you confident in controlling the ten thousand mile formation to change into the falling star formation?" Lin Yi had already made up his mind. He'd use the ten thousand mile formation to break in at top speed, and then use the falling stars formation to attack the sea beast. If he succeeded, he'd definitely be able to catch the sea beast off guard and kill it. Even if he couldn't kill it, he'd be able to severely injure it. Li Lin was still there, and as long as the sea beast was seriously injured, it was basically dead.

"Kid, remove the last" you "!" It's just controlling the conversion between two formations, what's so difficult about it? But do you really have to risk your life like this? Such a crazy plan, you might just kill yourself if you don't handle it well!" The demonic thing laughed, his tone full of confidence. He was still a little unhappy with Lin Yi's messed up plan.

Chapter 5982 The Combination Of The Ten Thousand Mile Formation And The Falling Star Formation

The ten thousand mile formation was the ultimate trump card of the ancient battleship. It could travel ten thousand miles in an instant. It was a waste to use it to launch a surprise attack on a distance of only a few dozen miles. Moreover, forcibly ending the formation after activation would have a certain impact and impact on the ancient battleship.

To switch to the Starfall array in an instant, not only did it require a high level of control, but it also required a high level of control from the ancient warship itself. If it were the heavy warships on the middle Island, they would break themselves if they dared to do so. As for the medium warships on the northernmost Island, they were not qualified to use the ten thousand mile array at all.

"Wealth is found in danger! Senior ghost, do you think that the inner core of a sea beast at the sea split stage will be of any help to you?" Lin Yi smiled faintly. He believed that the ghost would do his best to help him. If he could get the body of the sea beast, it would be very beneficial to the ghost.

"I don't eat the inner cores of sea beasts, unless you can refine a pill that is useful to me! Moreover, there were not many chances of having an inner core left after being hit by the falling star formation! Alright, enough nonsense, let's fight!" The damn thing was already prepared to control the formation. Victory and defeat were only a matter of an instant!

In the distance, Li Lin was also having a hard time holding on. His strength was almost the same as the seahorse at the sea splitting stage. However, under the same level, sea beasts were slightly stronger than human cultivators. This was a publicly acknowledged fact! There would only be exceptions if there were extremely powerful geniuses, and Li Lin was clearly not such a genius.

In addition to the seahorse, there were many other sea beasts of the earth opening stage who were attacking Li Lin. In a short time, he was already in a dangerous situation. If there were no new changes, it would not be long before this sea splitting stage expert of the northernmost Island fell here!

Fortunately, the change happened immediately. Lin Yi put his hands on the control panel of the ancient warship and ordered calmly, "Ten thousand li formation, activate!"

Ao Tianba turned to Lin Yi, surprised. Ten thousand li formation? Was he trying to escape? No way?

Once the ten thousand mile formation was used, the ancient warship would be able to travel at a speed of ten thousand miles per second. Furthermore, all the spiritual jades would be used up, and it would be troublesome if it were to stop in the deep sea.

In ao Tianba's mind, there was no such thing as stopping the ten thousand mile formation right after it was activated. He didn't have the same strategy as Lin Yi.

In fact, he was the real expert when it came to naval combat. If Lin Yi didn't have the help of that thing, he wouldn't even be qualified to carry ao Tianba's shoes.

Out of their trust in Lin Yi, the crew carried out every order he gave without a doubt. Ao Tianba didn't even have time to ask questions before the formation was activated.

Lin Yi's eyes were extremely serious as his hands quickly slid on the control board of the ten thousand mile formation. The entire ancient warship was instantly surrounded by a layer of grey gas, and after a flash, it disappeared.

In the blink of an eye, the huge ancient warship crossed a distance of more than a hundred miles and appeared directly in the area between Li Lin and the sea Merman. The grayish-white gas disappeared, but the defensive layer of the warship was constantly flashing with ripples from the aftermath of the attack.

"Ten thousand li formation is closed. Falling star formation, activate!" Lin Yi shouted, waking up the crew members who were dazed. They subconsciously followed Lin Yi's orders.

Ao Tianba was dumbfounded as well. He never thought that the ten thousand mile formation could be used like this. Lin Yi's control of the formation made him sweat. The ancient warship could actually be this powerful. He thought about it and felt that it was a waste of the ancient warship's capabilities in his hands.

If one were to describe it in the words of the secular world, it would be as wasteful as having a fully loaded AK-47 in one's hand when facing a group of enemies and using the gun as a fire Stick to split them.

But Lin Yi didn't have time to care about what ao Tianba was thinking. When the ten thousand miles formation switched to the falling stars formation, there was a short pause. When the sea beasts noticed the sudden appearance of the ancient battleship, they immediately changed their target and attacked the ancient battleship.

The energy of the ancient warship's defensive shield was quickly drained. In just a breath's time, it was already on the verge of collapse. It was estimated that in another breath's time, it would be completely broken.

The sky was filled with Starlight once again, and the endless starry sky covered the entire world. It was a suffocating beauty, but it hid the most dangerous killing intent.

"Falling star formation, kill!" Lin Yi didn't care about the defense at all. He controlled the Starfall formation calmly and released the first attack.

The Galaxy seemed to have changed its course all of a sudden. Endless Starlight poured down and killed at least two earth-splitting stage sea beasts around the ancient warship. Some were even badly injured.

Lin Yi's original intention was to attack the seahorse directly, but he didn't have the time to aim in such a hurry. He could only shoot casually to get the ancient warship out of danger.

His luck was pretty good this time-he'd accidentally injured so many, but Lin Yi didn't care about the result-he was already preparing for his second attack.

The Starfall formation was terrifying, but the sea beasts didn't back down. They continued to attack the ancient ship, and before Lin Yi could activate the second Starfall formation, the defensive layer was completely destroyed.

The sea split sea seahorse also saw the ancient warship that was on the verge of collapse. In order to avoid any trouble, he tried his best to fight Li Lin. His combat power was already above Li Lin 's, and this way of fighting completely locked Li Lin down. He would never let this guy go to the ancient warship to help.

Moreover, the distance between the two of them was too close. The sea beast of the sea Rift stage did not think that the Starfall array of the ancient warship would fall under such circumstances, unless it did not care about Li Lin's life at all.

The sudden appearance of the ancient warship attracted the attention of all the earth-opening stage sea beasts, and the pressure on Li Lin was immediately reduced by more than half. Although he was still suppressed, he at least had some breathing space.

Li Lin put a pill into his mouth, and his aura began to soar wildly. When the defensive layer of the ancient warship was torn apart, he actually suppressed the seahorse at the sea splitting stage!

The Burning Sea pill!

Mystic third level pill, a special explosive pill for cultivators at the sea shattering stage. It could increase the strength of the user by a small level to a large level in a short period of time according to the needs of the user. The more the increase, the shorter the duration! If it was only a small level, it might be able to last for the time it takes for an incense stick to burn, but if it was a large level, it might only last for one or two breaths.

Chapter 5983 Heaven And Earth Reverse, Sea Settling With A Thought!

When the berserk skill's duration ended, the user would enter a period of weakness and completely lose the ability to fight. Even after recovery, it would lead to a decline in strength!

Li Lin didn't take the sea burning pill at the beginning because he was worried that he would waste the pill if the sea beast didn't show up. He would also be in a situation beyond redemption. However, after the seahorse appeared, he didn't even have the chance to take the Burning Sea pill.

If not for the sudden appearance of the ancient warship, Li Lin might have died in such a sullen way!

"Heaven and earth reverse, one thought calms the sea!" Li Lin let out a roar and suddenly flew into the air, maintaining a posture of head down and feet up. He pointed his right index finger at the sea, and a surge of true Qi gushed out from his fingertip, enveloping the entire battle area. In an instant, the entire sea actually stopped.

From a distance, it looked as if Li Lin was stepping on the starry sky, the blue sea above his head, and a certain storm!

The seahorse at the sea splitting stage twisted its huge body with all its might in an attempt to break Li Lin's restraint, but it couldn't move at all except for the loud cracking sounds.

As for the sea beasts at the earth formation stage, they were even worse off. Just as they were about to attack the ancient warship, they broke apart silently at the last moment and merged with the still waves to form a strange picture.

Li Lin spat out a mouthful of blood. The burden of this move was even greater than Li Zaixiang's and the Fire Phoenix's indefinite flame tide. However, he had no other choice. The increase in strength from the Burning Sea pill could not last long. If he wanted to slowly deal with these sea beasts, the final result would only be his own death.

The only chance was to rely on the explosive power of the Burning Sea pill to release the most powerful attack. As long as he could kill this seahorse at the sea splitting stage and the other sea beasts at the earth splitting stage in one fell swoop, the northernmost Island would be safe!

No matter how many sea beasts there were left, as long as the restrictive spell on the coastline of the northernmost Island was not destroyed, there was no need to worry at all!

By the time the old fogies of the other families mentioned in The Guardian contract came to support them, all the sea beasts that had not left would be annihilated!

The seahorse roared madly. It could also feel the threat of death. Li Lin's aura was still rising, and it was faintly showing signs of breaking through to the sea shattering stage. This kind of terrifying pressure made the seahorse feel a sense of despair.

Li Lin really wanted to improve his strength to above the sea splitting stage. However, he had consumed too much of the Burning Sea pill's medicinal efficacy and it was no longer enough to achieve such a huge improvement!

Fortunately, he was in a good condition now. He could last for at least two more breaths. He had dealt with the earth opening realm sea beasts. As long as he killed this sea beast at the sea splitting realm, Li Lin would be considered to have completed his merit. At that time, he would be able to die in peace!

However, Li Lin immediately realized that something was wrong. He had underestimated the toughness of the sea beast's body. Although this seahorse at the sea splitting stage couldn't break free from its restraints, it could still resist the damage caused by sea calming with a thought. Only a tiny crack had appeared on its skin. As long as it left the attack range, it could heal itself at any time.

In the air, Li Lin's body trembled violently. He was about to reach his limit, and the efficacy of the Burning Sea pill was rapidly fading. As his strength decreased, the restraint on the seahorse at the sea splitting stage would only become weaker and weaker. If this thing broke free, it would be enough to cause a destructive blow to the northernmost Island even if there were no other sea beasts!

Could it be that it still didn't work in the end? Even if he, Li Lin, had already given up his life, it still wouldn't work? The northernmost Island, the Li family, was it over just like this?

Li Lin, who was in mid-air, sighed softly. An endless sense of weakness instantly engulfed his body, and all his aura dissipated. He turned back into that ordinary old man and fell softly from the sky.

He had tried his best, but he could not protect the northernmost Island. There was nothing he could do!

Just as Li Lin was in despair, an extremely dazzling galaxy of stars descended from the sky. The vast and pure power of the stars rolled down on the head of the sea beast at the sea split stage.

The seahorse, which had just broken free from Li Lin's attack, didn't have time to celebrate for long before it was hit by an even stronger Starfall formation. This time, Lin Yi, or rather, the damn thing, had been charging for a long time, aiming for the most powerful blow. There was no room for resistance or escape, and it was drowned by the endless Starlight!

Li Lin, who hadn't fallen into the sea yet, laughed and spat out a few more mouthfuls of blood, but he didn't care at all. He felt that he had already made a big profit by seeing the death of this seahorse at the sea splitting stage! Even if he was going to drown in the sea the next moment, he would have no regrets.

"Brother ao Tian, you'll be in charge of defending against the other sea beasts. I'll go and save the others!" Lin Yi let out a breath of relief and quickly left the bridge.

He didn't want Li Lin to really drown in the sea. Because of the battle just now, this area was considered a vacuum zone for sea beasts. As long as they were careful, they could still ensure that the ancient warship wouldn't be attacked. Moreover, the strongest sea beasts around them were only in the mountain opening stage. For a warship that had experienced the baptism of so many sea beasts in the earth opening stage and even a sea splitting stage, these sea beasts in the mountain opening stage were really nothing.

However, Lin Yi didn't dare to waste time. After all, the ancient warship's energy was almost depleted, but there were still so many sea beasts around. He used his Thunder escape and teleported to the sea where Li Lin fell. He picked up the unconscious Li Lin and ran back.

However, Lin Yi also kept a lot of the cores and meat of the sea beasts. These were all very valuable things. The cores could be used to make elixirs in the future, and the corpses of the sea beasts were the best food for LAN Guzha to level up. If this glutton could eat a few more pieces, not to mention the mountain opening stage, he might even be able to level up to the earth opening stage.

In the distance, the sea beast tide only saw a lightning arc crazily flashing around the ancient warship, and then the scattered bodies of the sea beasts were mostly gone. When they reacted, Lin Yi was already back on the ancient warship.

Of course, even if they reacted, they didn't dare to go over casually. After all, this scene was too strange. How did the corpses of the sea beasts disappear into thin air?

After entering the bridge, Lin Yi handed Li Lin to one of the crew members and returned to the control board.

"Ten thousand li formation, get ready!" Lin Yi decided to distance himself from them before the sea beast horde reached him.

The ancient battleship's energy was enough to activate the ten thousand mile formation again, and it could only move a thousand miles at most, but that was enough for Lin Yi. It was only a few dozen miles from here to the northernmost Island, and as long as he could get back to the coastline of the northernmost Island and rely on the last restriction defense, it would be fine.

Chapter 5984 Five Days

It would not be too late to deal with these sea beasts after the ancient warship had replenished enough spirit Jade on the shore.

All the crew members obeyed Lin Yi's order and carried it out without hesitation. The grey gas appeared around the ancient warship again, and when the sea beast tide started attacking, the ancient warship disappeared. When it reappeared, it was inside the restriction of the northernmost Island.

"Well done! Everyone, continue to work hard and quickly replenish your supplies. The war is not over yet!" Lin Yi encouraged loudly before taking Li Lin and walking out.

"Lil bro Lin, how's senior Li's condition?" Ao Tian BA quickly followed and asked in a low voice.

The matter Li Lin was involved in was too serious. If something happened to him, according to The Guardian contract, the ancestors of the otian family would probably have to come out of the mountain. Although he, ao Tianba, had already left the otian family, he was still very concerned about this matter.

"Not very good, but not too bad either!" Lin Yi replied casually. He'd already given Li Lin a few special grade class-seven great recovery pills when he'd saved him, but this level of pill wasn't very effective for Li Lin, who was at the sea Rift stage. The side effects of the Burning Sea pill, in particular, weren't something that a few class-seven great recovery pills could offset.

Right now, Lin Yi was transferring his Qi into Li Lin's body to help him repair his damaged meridians. Li Lin was in a deep coma anyway, so he wouldn't notice the difference in Lin Yi's Qi.

Ao Tianba let out a breath of relief. With Lin Yi's words, Li Lin's life was no longer a problem. This was a blessing in a misfortune, a good news for both the northern island and the other super houses.

The two of them got off the ancient battleship one after another. From a distance, they saw li Zeyu rushing over with a few North Garrison guards. In another direction, Fire Phoenix, who was carrying li zaixiang, also ran over.

They had seen the battle earlier. Although they couldn't see the exact situation, at least they knew that the sea beasts had suffered a great loss.

When the ancient battleship suddenly left the battlefield and returned to the northernmost Island, they naturally ran over to see what was going on. Li zaixiang, in particular, was extremely concerned about his patriarch. His patriarch's sudden fall in the battle really made him a little worried.

"Brother Lin, senior ao Tian, are you guys alright? It's all thanks to you this time, or our Thule Island would have been in danger!" Li Zeyu was the first to rush over, his face full of gratitude. He really wasn't spouting nonsense-if it weren't for Lin Yi and ao Tianba, the fleet of medium-sized ships from the northernmost Island would've been destroyed long ago.

"Forefather! How's the old ancestor?" Li zaixiang shouted before the fire Phoenix arrived. He felt that it didn't matter if he, the island master, died, but Li Lin must be fine. He was the pillar of the Li family in the extreme north!

"It's patriarch Li Lin?" Li Zeyu was shocked. He didn't realize that the old man Lin Yi was carrying was Li Lin. After all, this old man had been in closed door cultivation for too long. Li Zeyu was young and had never seen him before. He only knew that there was such a person in his family.

Furthermore, li Zeyu was previously busy with the matter of eliminating the traitor and did not know the situation of the battle. Now that he knew that the old man was his own family's patriarch, he quickly went forward and carefully supported Li Lin. At the same time, he called the doctor he brought to the side to quickly treat his injuries.

Lin Yi had done everything he could and didn't continue sending Qi to heal him. He just let the people from the northernmost island treat him.

In the blink of an eye, Fire Phoenix and Li zaixiang arrived. Seeing that Li Lin was still in one piece, the two of them were relieved.

"Old man, are you hurt? How come you can't even walk on your own?" Li Zeyu was extremely worried in his heart. It was fine if an old ancestor was unconscious, but his own old man actually had to be carried by the fire Phoenix to move?

"I'm fine. I just used up too much energy. " Li zaixiang waved his hand nonchalantly. He didn't want Li Zeyu to worry about him. Although this brat always spoke carelessly, he was very clear about what he was thinking. He couldn't hide it from others.

Li Zeyu naturally didn't believe it. If it was just too much consumption, would his old man be as ugly as a burnt tree trunk? This was clearly a very serious injury!

"Cough, cough, cough. I'm the one who's exhausted. You're really good at lying with your eyes open, little guy!" Li Lin, who was being treated by a few doctors, suddenly coughed a few times. He opened his eyes and glared at Li zaixiang.

If it wasn't for Lin Yi's pure energy, it would be impossible for Li Lin to wake up so quickly. However, waking up didn't mean that his weakened state would be reduced at all, and the decrease in his strength was irreversible! Fortunately, Li Lin had only dropped a small level and was still at the peak of the early stage of the sea splitting stage. He did not drop out of the sea splitting stage directly.

"Greetings, ancestor!" Li Zeyu didn't dare to be neglectful. He quickly went forward to greet Li Lin. This was a legendary figure of the Li family in the extreme north. He had never seen him since he was born. He originally thought that he had died long ago. He didn't expect that he was actually still alive.

It seemed a little disrespectful to think this way, but Li Zeyu and Li Zaixiang's way of getting along was already deeply ingrained in their bones, so it was not strange.

"Not bad, kid. You're smarter than Li Zaixiang. Do a good job in the future. The Li family will rely on you to carry forward!" Li Lin raised his hand and patted Li Zeyu's shoulder. It was rare for him to have a serious look.

"Are you alright, forefather? What's the situation with my old man?" Li Zeyu could not help but feel a little nervous. This old ancestor was swaying and looked like he could be blown over by the wind. It was also quite worrying. However, he was more worried about Li Zaixiang's situation, because that guy looked worse.

"I'm fine. It's just a weak period. I'll recover in two days. However, your father is not so good. He forcefully used a move that he couldn't control and suffered a backlash! If we don't take any measures within five days, you'll have to prepare to take over as the island master!" Li Lin's words were casual and even a little venomous, but there was a faint worry in his eyes.

Li Zaixiang could be said to be the mainstay of the northernmost Li family. Due to the existence of The Guardian Convention, he, as the ancestor, could not usually appear and manage things. The only person who could be brought out was Li Zaixiang, an expert of the earth-splitting stage. With the addition of the fire Phoenix, these two little guys could almost reach the level of a half-step sea splitting cultivator.

"Old ancestor, you should have a way to save my old man, right?" When Li Zeyu heard that Li Zaixiang only had five days, he immediately became anxious. He didn't care that Li Lin was still in a weak state, and looked at him with pleading eyes.

If there was one person who could save Li Zaixiang, he believed that it would be Li Lin!

Chapter 5985 Luan Xiaoru's Surprise

"This old man would like to save him, but unfortunately, he's like a clay Bodhisattva crossing the river and can't even protect himself now. Little guy, seeing how filial you are, I'll just say it. Your father's injuries are mainly because of his old and hidden injuries. The backlash is not so important, so if you can give him a Supreme-grade recovery pill within five days, he might be able to recover!" Li Lin looked a little helpless. He also knew that the recovery pill was very difficult to refine, let alone a Supreme-grade recovery pill. It was a joke to find such a pill in five days!

However, if there were no top-grade or even medium-grade recovery pills, it would be useless. Perhaps a high-grade recovery pill could save Li Zaixiang's life, but his cultivation would most likely be crippled. Li Zaixiang would probably feel that it was better to die than to live.

"A Supreme grade recovery pill?" Li Zeyu was dumbfounded, but he immediately grabbed onto Lin Yi's arm as if he was holding onto a life-saving straw, ""Brother Lin, I'm begging you. You have to help me this time. No matter what, you have to try. My old man's life depends on you. Brother Lin, help me!"

"Brat, don't make things difficult for Lin Yi. If he could make the recovery pill, he would've done it for me already. Why would you need to beg him? What you're doing now will only make things even more difficult for Lin Yi!" Li Zaixiang chided. He was quite open-minded about it. Anyway, when he used the indefinite flame tide, he was already prepared to die. He was already very lucky to be able to live for a few more days and make good arrangements for his funeral.

Lin Yi was struggling inside. He really wanted to save li zaixiang, but without han Jingjing, the automatic refining system couldn't refine the recovery pill. It wasn't that he couldn't cooperate with li Zao Yi, and it didn't matter if his secret was exposed. The key was that he couldn't cooperate with li Zao Yi unless li Zao Yi was sure that she could refine the pill on her own.

"Brother Lin, I was too rash. You don't have to be so hard on me." Li Zeyu saw that Lin Yi didn't say anything and couldn't hide the disappointment in his heart. So there was still no way to make the revival pill? More importantly, the two top quality pills to make the top grade recovery pill weren't easy to find. He couldn't even let Lin Yi try it out-even li Zeyu himself felt like he was asking too much.

"Brother Li, you don't have to worry. Let me think of a way to refine the revival pill. Let's first solve the problem of the sea beasts. By the way, where is LAN Guzha?" Lin Yi suddenly remembered where Lan Guzha was-he loved big scenes like that. If he didn't stop him, he'd probably go out to sea to fight.

Li Zeyu took Lin Yi's words to be polite and replied disinterestedly,""I asked him to help guard the array base. Before this matter is over, there can't be any more accidents."

Just as he finished speaking, li Zeyu suddenly shouted,""The sea beasts have retreated! They've all run away!"

Lin Yi and the others immediately turned to look. As expected, the sea beast tide was retreating, probably because the strongest sea beasts had been killed, and the remaining sea beasts didn't dare to continue attacking the northernmost Island.

Although this result was a bit unexpected, it was still reasonable. Li Lin and the others had already lost their fighting strength and had been worried about how long the final restriction would last, but now the rain had finally cleared and everything was fine!

Ao Tianba heaved a sigh of relief. The ancient warship had made a great contribution in this battle, but it was not without damage. If the sea beast tide had not retreated, the ancient warship would still be the main force of the battle. It was hard to say whether it could be preserved. Now that the sea beast tide had retreated, at least it could be repaired.

"Let's go back first. Since these sea beasts are tactful, we don't need to care about them. There are still a lot of things to deal with on the island." Li Lin laughed and went back with Li Zaixiang and the others. He was right. The sea beasts had left, but there were still many things to be cleaned up on the island.

For example, a spy like Zheng Tianqing was still fanning the flames on the island. He wanted to cooperate with the sea beast tide from the inside and outside. He only hid again unwillingly after the sea beast tide had completely left.

Since he always wore a hood and a mask when he moved around, he was not worried that his identity would be seen through.

"Zheng Tianqing, you've done well. The organization is very satisfied with your contribution. The operation failed this time, but it has nothing to do with you. You've done your best. Now, you should settle down and don't show any abnormalities. I'll continue to contact you in the future. By then, your authority will definitely be upgraded." The man's deep voice seemed to be very satisfied with Zheng Tianqing. As he said, although the overall operation had failed, Zheng Tianqing's mission had been completed very well. It could even be considered an over-completion.

"Thank you for the compliment. It's my honor. I'm very willing to contribute to the organization. As long as the organization needs me, I'll do my best to help the organization." Zheng Tianqing said perfunctorily, but he was thinking about when he could really enter the core circle of the organization.

An organization that could form an alliance with the spirit beast clan and communicate with the sea beasts to attack the northernmost Island was undoubtedly powerful. If it was possible, Zheng Tianqing would not mind doing more missions and then quickly improving his position and authority in the organization. With the support of this organization, he believed that when he and his grandfather returned to the East continent, the East Mountain would rise again and surpass the glory of the past.

In a secret room on the northernmost Island, the mysterious man in Black cut off the call with Zheng Tianqing and shook his head with a chuckle.

In this operation, Zheng Tianqing could be said to be the only bright spot. Originally, Yu Ziqing from yeyue city was also a good target to observe. Unfortunately, this guy had died. As a partner of the organization, it was a pity to lose him. Originally, they had hoped to use him to open a gap in the East continent's forces, but now it seemed that they had to find another suitable candidate. If it didn't work, they could also train Zheng Tianqing well.

"Miss nie, the operation on the northernmost Island has failed. The sea beasts suffered heavy losses this time. Not only was the leader of the sea Rift stage killed, but many other sea beasts of the earth formation stage were also killed. The only gain is that we have recruited a good member." The mysterious man in Black turned on a communication device on his wrist, and Luan xiaoru's virtual projection appeared on his wrist. It seemed that central had solved the long-distance communication problem on the Sky Class Island.

"What's going on? Previously, we estimated that it could easily destroy all the defensive forces of the northernmost Island. This time, the sea beast tide is not those low-level sea beasts that deceive people. The main force is the sea beasts at the xuansheng stage and above. With a small number of sea beasts at the earth splitting stage and a sea splitting stage commander, how can the northernmost Island resist it?" Luan xiaoru showed a surprised expression. This operation was definitely a carefully planned plan by central for a long time. It was almost a sure thing before the operation. How could it fail in the end?

Chapter 5986 Little Junior Sister

"There were some unexpected factors, like that jinx Lin Yi-he's always ruining our plans! The most important thing is that there's a super old monster in the middle stage of the shattered Sea on the

northernmost Island. It was his sudden appearance that turned the tide and killed most of the sea beast experts, saving the northernmost Island from its decline. " The Man in Black gave a simple report, feeling a little unwilling in his heart.

Even if all these factors were brought up, in fact, they still had the advantage on the surface. It could only be said that man proposes and God disposes, and luck was not on their side!

"Lin Yi again! Since it was him, then it was not strange! However, the Li clan actually had an old monster at the sea shattering realm. They had miscalculated this time! Originally, Thule Island was a very suitable place to operate as a base. Since they could not take it down for the time being, it was not a big deal. In any case, our main goal is to form a relationship with the spirit beast clan and the sea beast clan through this cooperation!" LAN xiaoru smiled faintly, apparently having accepted this failure.

"So we'll give up on Thule Island first?" The mysterious man in Black sighed with some regret. He knew that there would be no other outcome.

"Let's put it on hold for now. There will be more opportunities in the future. Continue to arrange spies and buy some spies that can be bought. One day, we will take over the northernmost Island, even if they are in the sea Rift stage!" Luan xiaoru cut off the communication after making the decision. For the northernmost Island, it was good to take it, but it didn't matter if they didn't.

Now, Central's focus was on the southern island, and then the eastern continent. The attack on the northernmost Island was only a test to see how many trump cards these so-called ancient families had! With this experiment, he really got the answer.

On the other side, Lin Yi didn't go back with the Li 'S. He changed his route and went to the pill Hall's base.

The streets were also patrolled by the northern Battlefront Army, and all the outsiders were staying in their residences. Lin Yi saw Li Zao Yi easily.

"Lin Yi, why are you here? If it wasn't for refining the regeneration elixir, I would have gone back to cultivate!" Li Zao Yi was still so direct, and Lin Yi could only smile bitterly to himself.

"Yes and no, I did come to find you about the recovery pill, but I can't concoct it with you." Lin Yi scratched his head, afraid that the girl would turn around and leave.

"What do you mean? If you don't help me, I don't think anyone on this Island can refine the regeneration pill with me." Li Zao Yi frowned slightly. Although she was a little unhappy, she didn't leave on the spot.

"I just wanted to ask you, if you were to refine the recovery pill by yourself, are there any difficulties that you can't overcome? Perhaps we can consider this and let you refine the regeneration elixir on your own!" Lin Yi thought about it for a long time before coming up with this possibility. He and Li Zao Yi were each responsible for half of the fusion, and it was certain to fail. There was no luck to speak of.

"Lin Yi, why do you always refuse to make pills with me? As long as you and I work together, it's easy to refine the pill!" Li Zao Yi's face was frosty. She almost pointed at Lin Yi's nose and asked him if he was looking down on her.

Lin Yi didn't know what to say. If he could, who would refuse to refine elixirs with Li Zao Yi? He knew that he would fail, but he still tried. Wasn't he just looking for a beating? One of the main ingredients of the recovery pill, the Supreme grade truth restoration pill, was not so easy to obtain!

"Are you worried that your sect's alchemy methods will be leaked, so you're not willing to refine pills with me? If that's the case, then you don't have to worry, because I'm also the alchemy God's successor, so we can be considered Senior Sister and Junior Brother! Of course, that's only if you're really the descendant of the alchemy God!" Li Zao Yi very considerately gave Lin Yi a way out, and at the same time, he slightly questioned the sect problem he mentioned before.

"Even if we're from the same sect, we're still senior and junior! I'm obviously older than you, right?" Lin Yi's heart skipped a beat as he replied casually. He was just thinking about how to find Liju-maybe this weird girl knew where to find that cheap master?

"It doesn't matter, you can do whatever you want. So now you agree to cooperate with me in alchemy?" Lizao Yi smiled and didn't care if Lin Yi was the disciple of the alchemy God. She just wanted to know if he could make the revival pill.

"Wait! Let's talk about this later. Little Junior Sister, do you know where master is? I'm looking for him. " Lin Yi was excited at the thought of finding Zhang Liju-Mengyao and the others had been unconscious for so long, was there finally hope for them to wake up?

"So you're looking for ... Master, although I've never heard the old man mention that he has a disciple like you, it doesn't matter. As long as you can help me refine the recovery pill, I'll tell you where he is!" Li Zao Yi's face revealed a rarely seen sly smile. "Since you have a favor to ask of me, I don't think you can refuse, right?"

Lin Yi hesitated-he didn't mind exposing his secret to this weird girl, but what if he failed? would she get angry?

But thinking about the unconscious Mengyao and the others, Lin Yi made up his mind. He gritted his teeth and nodded, "Good! I promise to refine pills with you, but you have to tell me where I can find master first!"

"How is that possible? Of course, you have to refine the pill with me first before I tell you his whereabouts. What if you're a fake? I need to first confirm that your pill refining technique is indeed from our sect!" Li Zao Yi snorted and raised her chin with an unquestionable expression. Obviously, there was no room for discussion on this matter!

In fact, this was all nonsense. What Li Zao Yi was really worried about was what would happen if Lin Yi knew the news and changed his mind? When the time came, she wouldn't be able to beat him or catch up with him. This guy had rejected her time and time again, so it was very likely that he would do such a thing!

Lin Yi didn't know what she was really thinking, or he'd be laughing and crying. This was a Golden Brand that was full of honor, but it wasn't the same in this weird girl's eyes. She just rejected a few times to cooperate, was there a need to?

"Little Junior Sister, I'll tell you the truth. In fact, I got the inheritance left by my master in the secular world, and then I relied on myself to reach where I am today. I really have a very important matter to look for my master. Why don't you tell me where he is first?" Lin Yi didn't hide it anymore and told him about his relationship with Liju.

Chapter 5987 Discussing Cooperation

"So that's how it is! So you're ... The mortal world's disciple master was talking about! I didn't think you'd be on Sky Class Island already! I was wondering why I've never heard of you! This makes sense!" Li Zao Yi was surprised. She didn't really care if Lin Yi was Zhang Liju's disciple, but after confirming it, she was really happy.

Lin Yi, on the other hand, wasn't surprised-Liju had been to the common world before, and he knew that his legacy had been taken by someone else. It wasn't strange at all that he had a successor in the common world, but why was this weird girl so happy? Are you sure you have a senior brother?

"Hey, Lin Yi, there's a difference in who's the first to join the sect-if you're the disciple from the common world, then you'll have to call me little Senior Sister, but why are you hesitating when she's asking for your help?" The smile on Li Zao Yi's face disappeared, and she suddenly put on the air of a Senior Sister. So she was happy just now because she was waiting here!

"You don't have the final say in who enters first. I'm going to find my master first and let him confirm it. Before that, I'll follow what we just said and you have to call me senior brother!" Lin Yi didn't really care if he was a senior or a senior, since he had Shangguan LAN 'er as his little Senior Sister.

But this girl wanted to use her status as a Senior Sister to get Lin Yi to help her refine the pill-this was unacceptable! More importantly, if the refinement failed, would she have to be taught a lesson by this cheap Senior Sister?

"Forget it, these are not important. In any case, you must first refine the pill with me, or else there's no need to say anything!" Li Zao Yi didn't really want to fight for the position of Senior Sister, the important thing was still pill refining!

He didn't know why she was so insistent on working with Lin Yi-was she going crazy?

Lin Yi had no choice but to grit his teeth and stomp his feet as he nodded."Good! But before you start, you must first tell me, if you refine pills by yourself, what difficulties are you unable to overcome? Is he splitting his attention or something else?"

"Multitasking is the most basic ability for an Alchemist, what's so difficult about it? The only problem with refining the recovery pill alone is that I don't have enough true Qi. If I was at the mountain opening stage or even the earth splitting stage, do you think I would want to refine pills with you?" Li Zao Yi raised her delicate chin and glanced at Lin Yi arrogantly, even pretending to dislike him.

After knowing that Lin Yi was from the same sect as her, the girl's way of speaking became a lot more casual. At least, Lin Yi had never seen this kind of rich expression before.

To be honest, Lin Yi felt that he'd miscalculated-wasn't it better to keep the girl in her original form?

Forget it, now was not the time to be fussing over this. If it was just a lack of true energy, it did not seem to be a big problem!

"Little Junior Sister, if you can solve the problem of your true energy, will you be able to successfully refine the recovery pill?" Lin Yi already had a plan in mind-as long as he could confirm this, Li Zaixiang would be saved!

"I think so, but how do you want to solve my true Qi problem? Don't try to convince me to use the pill. That unstable method will not only destroy the elixir of recovery, but also me! I don't know how to use it!" Li Zhaoyi stared at Lin Yi unkindly-if this guy really dared to suggest something like that, it didn't matter if he was a senior or a junior-he wouldn't be nice to him!

"Don't worry, how can I let you take a pill to solve your Zhen Qi problem? Do you think I'm an idiot? I've never heard of anyone who can consume refined medicinal pills while refining pills! Actually, I have a martial skill that can replenish Zhen Qi for others, and it can ensure that your Zhen Qi is full at any time, and there will definitely be no mistakes. You just need to focus on refining the recovery pill!" Lin Yi

remembered the time he helped Han Jing Jing with her elixir. The situation now was very similar to that time, and this was the only solution he could think of.

He hadn't used spring rain for a long time, so it was perfect to cooperate with Li Zao Yi now.

"You said you'll use your true Qi to replenish me? How could this be possible? Everyone's Zhen Qi is different. If it was only used for healing, it might be possible, but right now, I need to use my Zhen Qi at all times. As long as the Zhen Qi you send me is slightly different from mine, it can't be used by me at all, even if we cultivate the same heart technique. Do you want me to refine pills while transforming your Zhen Qi?" Although Li Zhaoyi didn't reject him directly, she didn't hide the suspicion in her words at all. As far as she was concerned, this was clearly another excuse for Lin Yi to not want to work with her.

"If I say it's possible, it's possible! If you don't believe me, we can give it a try. First, you have to use up some of your true Qi!" Lin Yi didn't waste any more time-facts spoke louder than words. As long as Li Zao Yi experienced it for herself, she'd understand the power of spring rain.

"Why can't you just cooperate with me in pill refining? If you're really master's successor in the secular world, you should be able to cooperate with me very well. That way, refining the regeneration pill would be very easy!" Li Zao Yi shook her head and looked at Lin Yi suspiciously. As for trying to replenish her pure energy, she completely ignored it.

Lin Yi didn't know what to do and continued to convince her. "Little Junior Sister, you may not know this, but Island Master Li zaixiang used an ultimate move that his body can't bear, causing all his old and hidden injuries to erupt. If he doesn't take a Supreme-grade recovery pill as soon as possible, I'm afraid he won't be able to last more than a few days. Therefore, our pill refinement this time must be absolutely foolproof. If I refine pills with you, it's very likely that there will be some mistakes in coordination that will lead to the pill refinement failure! Only by refining it alone will you be able to control everything. I guarantee that your true Qi will not have any problems!"

"Is Island Lord Li seriously injured?" Li Zao Yi was surprised. Although she knew that the situation on the northernmost Island was critical, she didn't expect that Li Zaixiang would be so seriously injured that he needed a top-grade recovery pill to heal his injuries. "In that case, even if I don't tell you your master's whereabouts, you'll still come to ask me to refine pills, right?"

Lin Yi was speechless—could this girl not focus on something so weird? That's not the main point, okay?

"Alright, alright. Since I've promised you, I won't hide it from you. I'm a man of my word, and I'll definitely keep my word!" Li Zao Yi waved his hand generously, indicating that the agreement just now was still in effect.

"You make it sound like I'm not keeping my word!" Lin Yi didn't know what to say, but he didn't want to argue with the girl. "That's why the cooperation I proposed is the most secure. Do you want to give it a try? If you don't think it's possible, then we can discuss other ways of cooperation. "

Chapter 5988 Starting Pill Refining

Li Zao Yi tilted her head and thought about it carefully. She felt that Lin Yi's words made sense. If this guy could really solve her qi deficiency problem, then there really wasn't a need for two people to make the recovery pill. After all, this wasn't the yin and yang pill, and the conditions weren't that strict. Speaking of which, this guy could make the yin and yang pill by himself! When he returned, he would definitely dig up this matter and talk about it.

"Alright, I'll try. If it doesn't work, don't blame me!" He said. Li Zao Yi had an expression that said "I'm giving you face." She raised her delicate hand, and a ball of alchemy fire appeared in her palm. Then, it continuously strengthened and weakened according to her will, and began to dance happily like a living spirit.

Lin Yi looked at the refinement fire in Li Zao Yi's hand expressionlessly. He was actually very envious. He could create a purer and stronger refinement fire, but he couldn't change the temperature and intensity of the fire. Compared to Li Zao Yi, who was a true genius in refining, he was trash.

A while later, Li Zao Yi nodded at Lin Yi, indicating that he could start replenishing his Qi. The amount of Qi She'd used up during this period was enough for her to judge if Lin Yi's method was effective.

Lin Yi raised his right hand and sent out a ball of pure Qi with [spring rain]. It nourished Li Zao Yi's meridians like spring wind and rain, instantly replenishing all the Qi She had used up without any conflict. It was as if she had cultivated this Qi herself, and it wouldn't be a problem for her to turn it into a fire immediately.

"It's really possible! It's so powerful!" Li Zao Yi opened her mouth and exclaimed in shock, her eyes filled with disbelief. She had heard of techniques that could replenish Qi for others, but she had never seen one that could work so seamlessly with Lin Yi!

"How is it? I said it was okay! This is just a small experiment. When it's time to refine the pill, I'll continue to input true Qi so that you can always maintain your peak condition. As long as there are no problems with the alchemy, I'm sure you'll be able to successfully refine the resurrection pill!" Lin Yi smiled faintly, his confidence spreading through the room.

"What if you run out of true Qi?" However, Li Zao Yi wasn't fooled by this. Lin Yi was stronger than her, but this type of Qi replenishing technique wasn't something that could be absorbed by just the amount of Qi you gave. It was already the best effect if 50 - 60% of the Qi was absorbed.

"Don't worry! I may lack everything, but I don't lack true Qi. It's more than enough to support you in refining a cauldron of rejuvenation pills!" Lin Yi had the Jade space to back him up, and spring rain didn't need to be used for long periods of time. He just needed to replenish the energy used.

"Since you're so confident, let's start refining the pill immediately!" Lizao Yi suddenly remembered Lin Yi's continuous refining of elixirs. Although that idiot Zheng Tianqing said it was because of the elixirs, she was more willing to believe that Lin Yi's pure energy was really thick.

So, Li Zao Yi didn't want to wait any longer and immediately proposed to start refining the pill.

"So fast? Don't you need to prepare?" Lin Yi was planning on spending more time to get rid of all her worries, but the girl was pretty straightforward, starting right away.

"Prepare what? Did refining pills require one to take a bath, change clothes, and fast for three days? I don't mind if you need me, as long as Li Zaixiang can afford to wait." Li Zao Yi shrugged and looked at Lin Yi with a mischievous smile.

Lin Yi didn't know what to say-that weird girl was more pleasing to the eye, after all ...

"By the way, since you came to me for alchemy, you should have prepared the top quality seventh grade recover pill and truth restoration pill, right? I'm a poor man, I don't have this kind of pill to refine!" Li Zao Yi stretched out her hand, meaning to tell him not to dawdle and to quickly take out the things.

"It was clearly you who wanted to cooperate with me in alchemy, shouldn't you be the one who prepared the main ingredients?" Lin Yi pretended to be angry-if this girl was poor, at least 90% of the people on Sky Class Island would've starved to death by now, right? It seemed like he had to show some of his dignity as a senior brother!

"You don't have any? Then quickly disperse and do what you need to do!" Li Zao Yi waved his hand and was secretly very happy. "Let's see if you still dare to reject me. Hmph, the tables have turned, right?"

Li Zao Yi was the one who wanted to cooperate with Lin Yi, but now, in order to save li zaixiang and get Zhang Liju's whereabouts, Lin Yi could only turn around and beg li Zao Yi to make elixirs. Fortunately, Lin Yi had both of them and didn't want li Zao Yi to take them out at all. He was just putting on an act to make this weird girl happy.

"Alright, you win. These are top quality seventh grade recover pills and truth restoration pills, take them! Be careful, there's only one set, don't mess it up!" Lin Yi took out a Jade box and put on a helpless face as he handed it to li Zao Yi.

Li Zao Yi opened the jade box and saw that it was indeed the two top quality pills, as well as many supplementary ingredients for the recovery pill. Lin Yi had already prepared everything.

"I knew you wouldn't be honest. I didn't tell you to take it out, but you still want me to take it out, right? Forget it, forget it, I can't be bothered to argue with you. Hurry up and start refining the pill!" Li Zao Yi pointed at Lin Yi with her index finger and said a few words before turning around and bringing Lin Yi into her room.

She'd wanted to say a few more words to get back at Lin Yi for rejecting their partnership, but the ingredients for the recovery pill were already here. As someone who'd become an Alchemist soon, she couldn't hold it in anymore.

Lin Yi smiled slightly, thinking that this girl was quite interesting. He followed her into the room and turned on the door, in case someone interrupted the process and caused unnecessary losses.

Li Zao Yi walked to the center of the room, where there was an exquisite pill furnace the size of a basketball. There were complicated patterns on the surface, and from Lin Yi's perspective, it should be some kind of formation that was beneficial for refining pills. He could study it later.

As soon as she entered the room, Li Zao Yi's expression became serious, as if she was going through an extremely solemn ceremony. She gently knelt on the cushion beside the furnace and placed the jade box Lin Yi gave her on the low table. Then, she slowly opened the lid of the furnace.

It was the first time Lin Yi had seen a refiner of this level refining elixir seriously, so he paid close attention to it and didn't dare to make a sound in case he disturbed Li Zao Yi.

Li Zao Yi threw a ball of alchemy fire into the pill furnace, which swept back and forth to burn the remaining dregs inside the pill furnace. For her, this was a necessary step before every pill refinement. Otherwise, the residual aura from the last time might affect the pill refinement this time. The ratio of each type of medicinal pill was different, and any trace of excess could destroy a successful furnace of medicinal pills.

Chapter 5989 Bursting Again

Compared to Li Zao Yi, Lin Yi felt really ashamed. He'd used the Shennong cauldron to make elixirs, but he'd never cleaned it so carefully before. He'd always done things that were convenient. As expected, men and women were different. They couldn't be compared in this aspect.

After carefully cleaning the inside of the pill furnace, Li Zao Yi took back the pill fire and started to refine the pill. The cleaning before was also warming up the pill furnace, so now she could directly put the supplementary medicinal materials in.

"I'm starting! You should also prepare to support me!" Li Zao Yi didn't turn her head and said this indifferently. She then raised the temperature of the pill fire under the pill furnace. The supplementary medicinal ingredients inside were already starting to melt.

Lin Yi didn't dare to slow down and quickly sat behind Li Zao Yi with his legs crossed. He put his arm behind her back, but of course, it only touched her clothes. He didn't want to directly press his arm on her body. It would be embarrassing if Li Zao Yi turned around and gave him a big slap.

The pure Zhen Qi transformed into Zhen Qi that was completely compatible with Li Zao Yi's, and was continuously replenished, allowing her to always be in peak condition. No matter how she used it, she wouldn't show a trace of weakness.

This guy was right. This way, I only need to focus on alchemy. A mere recovery pill won't be a problem for me!

Li Zao Yi's confidence instantly increased, and her control of the pill fire became even more exquisite. It was absolutely precise. After the supplementary ingredients turned into liquid, Li Zao Yi controlled it to form a thin and long water line that slowly moved to the very edge of the pill furnace. Then, the grade seven great recovery pill and the truth restoration pill were thrown into the pill furnace at the same time. She then closed the lid and began the most difficult part of the refinement.

Lin Yi transferred his Qi to her while using his spirit sense to observe her refining process. What surprised him was that this girl's spirit sense wasn't weak at all. At least, it matched her strength completely—they were both peak nascent soul level. She was indeed worthy of being the elixir God's disciple. While everyone on Sky Class Island didn't pay much attention to their spirit sense, her spirit sense didn't fall behind her own strength at all.

But Lin Yi immediately understood why. When Li Zao Yi was refining, she used her spirit sense to pay attention to the situation inside the furnace, and sometimes even interfered with the changes inside. It was like putting her spirit sense inside the furnace to train, and it was impossible for it not to become stronger.

She didn't know how to use the conflagration method, but Lin Yi believed that if she wanted to, she could master it in minutes.

The pill God Zhang Liju's inheritance was indeed unique. Even if Lin Yi didn't have the battle tactics for heaven's fortune, as long as he could learn from Zhang Liju, his spirit sense wouldn't be much weaker.

After the two elixirs were put into the furnace, Li Zao Yi's true Qi consumption instantly increased tenfold. To refine the finished elixirs into liquid without destroying the medicinal properties was no easy task. More importantly, these were two elixirs, so they had to be done simultaneously without any mistakes. The consumption of his mind and true Qi was even more terrifying.

Lin Yi was shocked as well. He almost didn't have time to replenish his Qi with this sudden consumption. He couldn't replenish too much Qi because Li Zao Yi's Qi consumption was very stable before. It would be bad if there was an overflow. If it wasn't for the fact that Li Zao Yi's Qi consumption was so fast that it didn't drain her Qi, something bad would have happened.

After quickly replenishing his energy, Lin Yi paid a little attention to the situation inside the cauldron. Li Zao Yi's spirit sense was controlling it, so he didn't dare to go too deep in to avoid affecting Li Zao Yi.

The melting of the two pills could be considered smooth and had already become smaller by a layer. Although it was fine, it was still very clear under Li Zao Yi's divine sense. The melted medicinal liquid was slowly moving towards the center under her control, fusing bit by bit. The auxiliary medicinal liquid at the edge was also the same. The three aspects maintained absolute synchronization. At this time, no

matter what, no mistake couldn't be made. No matter which side's medicinal liquid, if the amount was slightly wrong, the fusion was likely to fail completely!

The three sides of liquid gathered at the center of the cauldron at an extremely slow speed, and the moment they touched, li Zao Yi's Qi consumption skyrocketed again. If it wasn't for Lin Yi's help, she would've already failed.

Although Lin Yi was prepared this time, the huge consumption still surprised him. He instinctively transferred his Qi over, but because it was too rushed, he couldn't control the amount of Qi. Some of it spilled out and went out of li Zao Yi's body through her skin pores.

Although the true Qi wasn't violent, it still burst li Zao Yi's clothes and silently turned them into pieces.

Lin Yi was embarrassed. It had been a long time since he last saw something like this. He didn't do it on purpose, but he didn't know if lizao Yi would believe him or not. Because his clothes were torn, his palm accidentally touched lizao Yi's back.

To be honest, the feeling was intoxicating, but Lin Yi was worried that li Zao Yi would grab the furnace in front of him and start punching it ...

He wanted to withdraw his palm a little, but that seemed too obvious. It would be bad if li Zao Yi's emotions fluctuated because of this.

He carefully sensed the situation inside the pill furnace. Fortunately, li Zao Yi wasn't affected and still maintained an extremely stable state. Otherwise, this furnace of recovery pills would be finished.

And so, Lin Yi decided to maintain the status quo and not cause any more trouble!

Li Zao Yi's current mood was extremely complicated. A girl's clothes suddenly turned to shreds, and her pure body was completely exposed in front of a man who could almost be considered a stranger. It would be strange if she could still be calm.

It was just that her pursuit of alchemy had already suppressed the shyness in her heart, so she was able to remain calm in this situation. However, her originally white skin slowly began to show a faint pink, which was enough to show her true feelings.

Lin Yi didn't know what to do. The two of them couldn't do anything right now, so they could only pretend that they didn't know anything. He even closed his eyes in case Li Zao Yi felt embarrassed. However, when he used his spirit sense to pay attention to the furnace, he couldn't help but see some scenes that he shouldn't have seen.

To be honest, that could only be described as perfect! Lin Yi still needed to use a strong will to completely shift his attention. He couldn't take advantage of someone when they were down at this critical moment.

Li Zao Yi's body trembled slightly, but it wasn't because of the cold. Lin Yi could clearly feel the heat rising from her skin. Fortunately, although the fusion of the liquid was slow, it was still stable enough.

Chapter 5990 Complete Revival Pill

After a long time, Li Zao Yi finally returned to normal. Although the alluring pink color on her skin still hadn't faded, at least she was no longer trembling. Her pill refining progress also began to gradually increase.

Lin Yi closed his eyes and didn't even pay attention to what was going on in the furnace. He completely cleared his mind and focused on providing Li Zao Yi with pure Qi. He just hoped that this damn refining process would end soon!

This state lasted for two days and two nights. A strong pill fragrance finally wafted out, and the crisp sound of rolling pills came from the pill furnace. It was obvious that the recovery pill had been successfully refined.

Lin Yi was attracted by the scent of the recovery pill and opened his eyes quietly to see a snow-white figure opening the furnace and putting the pills into the Jade bottle.

"Have you seen enough? If you've seen enough, hurry up and give me a set of clothes!" Li Zao Yi's back was facing Lin Yi and her voice was calm, but her skin's bright pink color betrayed her. It was obvious that she wasn't as calm as her voice was.

"Uh, let me make this clear first, I didn't see anything! And I definitely didn't do it on purpose!" Lin Yi guiltily moved his hand away from the warm and smooth back and quickly took out a set of casual women's clothing from the Jade space for Li Zao Yi.

"Did I say you did it on purpose? What was the point of explaining with a guilty conscience? Was this the clothing of the secular world? I don't know what's so nice about it, but you actually carry it around with you, and it's a women's item!" Li Zao Yi took the clothes and put them on, not forgetting to mock Lin Yi.

That tone of his was as if he was calling Lin Yi a pervert ...

Lin Yi didn't know what to say-what was he supposed to explain? The more you say, the more mistakes you'll make!

Li Zao Yi was naked right now, and even though she had clothes on, it wasn't convenient for her to stand up. Lin Yi quickly got up and turned his head, indicating that he wasn't a pervert.

"I'll wait for you outside. Come out when you're done!" Li Zao Yi's mood wasn't very good, and Lin Yi could only do this for now. She'd probably feel better after she put on some clothes, right?

"You've already seen what you shouldn't have seen, so why are you still pretending to be serious?" Li Zao Yi snorted coldly and leisurely got up to put on her clothes as if she had completely let go.

Lin Yi smiled bitterly-the girl was doing this on purpose, but he decided to forget it. It was normal for a girl to be in a bad mood after suffering a loss. He was a man, so he had to endure it!

After he silently left the pill room in a hurry, Li Zao Yi hurriedly sped up. Her face suddenly turned red as if it was about to drip blood. She didn't know what happened just now, but she actually showed that kind of nonchalance. But God knew that she really cared!

Lin Yi only let out a breath of relief after running out of the room. This wasn't the first time he'd been through this, so why was he still so nervous?

Before he could figure this out, Lin Yi realized that there were a lot of people gathered in the courtyard. Other than the people from the pill Hall, Li Zeyu and Lan Guzha were there. Even Fire Phoenix and Li Zaixiang were there.

Li Zaixiang was not in a good state. He looked like a dried-up river bed with wounds all over his skin. However, the Fire Phoenix did not continue to carry him, probably because it was powerless.

"Why did you all come over?" Lin Yi walked out of the room and looked at Li Zaixiang and Fire Phoenix.

Li Zeyu took a few steps forward and looked at Lin Yi nervously, "Brother Lin, we originally wanted to ask Master Li Zao to think of a way to delay the old man's injuries from acting up, but we didn't expect to hear that you'd come over so early to refine the recovery pill with Master Li Zao. You're really a good brother! You've worked hard. "

"How do you know we're refining the recovery pill? I don't think I've told anyone about this!" Lin Yi found it a little strange. Although he and Li Zao Yi decided to make the recovery pill with a plan, they started it on the spot. No one should know about it.

Li Zeyu pointed at Zheng Dongjue, who was at the side. "Someone from the pill Hall told us that after you came to find Grandmaster Li Zao, you entered the pill room to cultivate in seclusion together. I reckon you're refining a recovery pill. Could it be that it's not a recovery pill?"

"It's indeed a recovery pill, and it's been successfully refined!" Lin Yi smiled and didn't hide anything. At the same time, he looked at Zheng Dongjue thoughtfully. Was this guy trying to use this information to please Li Zeyu?

Lin Yi didn't care what the guy wanted to do-he'd already made the pill anyway, but he didn't know what quality it was. He really didn't notice it earlier.

Li Zeyu was overjoyed. He grabbed Lin Yi's arm and said,"Brother Lin, I really don't know what to say. Even though we're brothers, but ..."

"Alright, we've already said that we're brothers, what else is there to say? uncle li, please come in and have a seat first. Master Li Zao will be out soon, she's currently cleaning the pill furnace." Lin Yi didn't know how to explain it, so he came up with a random reason.

They didn't know how close Lin Yi was with li Zao Yi, but since he said they could go in, they went in. It was indeed inconvenient to talk outside.

"Boss, I've heard about what you've done. You actually turned the whole world upside down in the sea beast tide! It's such a fun thing, but you didn't bring me along. You're so mean. Next time, you must bring me along!" LAN Guzha came forward and chuckled to express his dissatisfaction. The way he expressed his dissatisfaction was truly strange.

"I might accidentally kill you if I bring you along!" Lin Yi didn't know what to say.

At the same time as everyone entered the room, li Zao Yi also walked out of the pill room. She was dressed in a casual suit from the secular world and was definitely a bright person. She was completely different from the classical beauty image from before, but that fresh and refined feeling didn't decrease by half.

Although everyone was a little curious as to why Li Zao Yi suddenly wore clothes from the secular world, they were too embarrassed to ask such a question. Li Zeyu quickly stepped forward and cupped his fists to greet her.

"Master Li Zao, I heard from brother Lin that the two of you have already concocted the recovery pill. Li Zeyu is here to thank you! No matter what, you'll always be our northernmost island's honored guest!" Li Zeyu respectfully cupped his fists and bowed. As long as he could save Li Zaixiang, he didn't mind even if he had to kneel.

"It's nothing. This was what I promised at the auction. I'm just fulfilling my promise now! Island Master Li's injuries seem to be quite serious. I hope this recovery pill can help him!" Li Zao Yi said indifferently and returned to her previous expression and posture. At the same time, she handed the Jade bottle containing the recovery pill to Li Zeyu.
