

Bodyguard 5991

Chapter 5991 Firephoenix And LAN Guzha

Li Zeyu carefully received it with both hands and bowed once again to express his thanks. He then impatiently opened the Jade bottle and poured the recovery pill into his palm.

A rich pill fragrance instantly spread out, and everyone had a kind of feeling of being invigorated. It could be seen that this medicinal pill was indeed very impressive.

"A top grade recovery pill! It's a top grade recovery pill!" Li Zeyu shouted ecstatically. He knew that only a top grade recovery pill could save li zaixiang. Even if it was a top grade pill, it would not be able to cure li zaixiang.

Even if they still had the materials, they didn't have enough time to make another batch of pills for Lin Yi and Li Zao Yi. This was their only chance. The heavens had mercy on them, and they made a Supreme-grade recovery pill in one go!

"Old man, quickly eat the pill! Don't even think about it if you want to quit so quickly!" Li Zeyu couldn't care about anything else. He quickly put the pill in li zaixiang's mouth and urged him to eat it quickly.

"You brat, you only know how to be lazy. You don't understand my old bones at all!" Li zaixiang scolded jokingly and cupped his fists to Fang Zao Yi and Lin Yi to thank them, "I will remember your kindness. If you need my help in the future, I will not hesitate to help you!" Li zaixiang said.

"Uncle Li, you don't have to be so polite. Quickly take the recovery pill, and then let Master Li Zao examine the condition of your injuries!" Lin Yi also wanted to know if this top grade recovery pill could cure li zaixiang. If it still couldn't, he would have to try using his own pure Qi.

Li zaixiang nodded his head and reached out to pick up the recovery pill in li Zeyu's hand. He threw it directly into his mouth. A cool breath instantly spread out, flowing down his throat and into his stomach. Then, like a Silent Spring rain, it quickly moistened all his meridians and withdrew the fire spiritual power that had gone out of control. The surface of his body was also recovering at a speed that was visible to the naked eye.

The originally dry and cracked skin slowly closed up and healed, not even leaving a scar. Moreover, it quickly recovered its elasticity and luster. This kind of effect was beyond imagination, and it really made people who saw it gasp in admiration.

After a short while, li zaixiang exhaled a mouthful of turbid air and looked at his hands in surprise. "It's really unbelievable. He's actually completely healed. Not only the injuries he just suffered, but even the old and hidden injuries from before have completely healed. Master lizao, nephew Lin, I, li zaixiang, will never forget the kindness of saving my life!"

"Uncle Li, you don't have to be so polite. We only did what we were supposed to do. Do you feel uncomfortable now?" Seeing that li zaixiang wanted to recover, Lin Yi let out a sigh of relief. He then gave Fang Zao Yi a look, signaling her to check on li zaixiang.

"Island Master Li, Lin Yi's medical skills are above mine. It should be safer for you if he can help you check!" Lizao Yi pointed at Lin Yi indifferently. He didn't know if it was a compliment or sarcasm, but Lin Yi felt that this weird girl was still very unhappy and wanted to embarrass him this way.

Luckily, the people here weren't familiar with Fang Zao Yi. Zheng dongjue knew that Lin Yi didn't welcome him, so he didn't follow them in. Only Lin Yi knew about Fang Zao Yi's abnormal behavior.

"Brother Lin, you're also a medical Sage? aren't you hiding your skills too well? Furthermore, he was also so powerful in the field of alchemy. In time, he would definitely become a legendary figure like alchemy God Zhang! Amazing!" Li Zeyu patted Lin Yi's shoulder in surprise, his expression saying, "you're not a good friend. You've been hiding it from me for so long."

"I can't be compared to the pill God and medical Saint. Brother Li is too kind!" Lin Yi shook his head with a smile. He was confident that he'd be able to reach the level of the cheapskate master in the future, or even surpass him, but he couldn't say that now. Who knew what Yi would think if he did?

"Brother Lin, you're too humble. If pill God Zhang knew about a genius like you, he might even take the initiative to accept you as his disciple. Do you think I'm right, Master Li Zao?" After Li Zeyu let go of his worries, he instantly returned to his usual cheerful and forthright self. He smiled as he spoke, subtly hinting for Li Yi to connect Lin Yi and get him to join Zhang Liju's sect.

From Li Zeyu's point of view, as long as Lin Yi could get Zhang Liju's guidance, his future achievements would be limitless. He would have no problem becoming the next Divine Doctor or dan God. What he didn't know was that Lin Yi was already Zhang Liju's disciple, and he didn't need to worry about him.

Li Zao Yi's expression was calm and unruffled. She didn't know what he meant by that. After all, it was only the second time she and Li Zeyu had officially met. It wasn't appropriate for her to say much, so she could only skip the topic.

Li zaixiang cupped his hands and smiled at Lin Yi, "since you're a Medical Master, come and check me out." Even though I'd rather have a beautiful girl like Master Li Zao examine me, I'll reluctantly do it on account of you being my nephew. "

"Old man, can you not be so embarrassing? I still want to go out and meet people in the future!" Li Zeyu covered his face with one hand, and his expression that he couldn't bear to look at immediately made Li Zao Yi laugh.

After Li Zaixiang's injury recovered, the two weird father and son began to complain to each other again.

"If you can inherit half of this old man's handsomeness, you will be able to meet people with ease wherever you go. You will feel embarrassed because you are not as handsome as this old man, and I will steal the limelight! Son, listen to your father, don't compare your handsomeness with your father, it will only make you doubt your life!" Li Zaixiang pointed at Li Zeyu and lectured him with sincere words.

The corner of Fire Phoenix's mouth twitched twice. She was completely speechless towards this father and son pair. She turned around and saw LAN Guzha's smiling expression as he watched the show. She suddenly reached out and flicked this fellow's forehead. "Little guy, you have good potential, but your strength is still a little lacking. Are you interested in undergoing special training with me to improve your strength a little?"

"Me?" LAN Guzha had a dumbfounded look on his face. He pointed at his own nose with his finger, not understanding why the Fire Phoenix would suddenly want to give him special training.

The Fire Phoenix was a spirit beast, and LAN Guzha was a sea beast. There was no interaction between them, right? What's the point of special training? He might as well eat and drink with his boss and level up easily without having to worry about anything.

"LAN Guzha, it's your good fortune that senior firephoenix wants to guide you. Hurry up and thank senior, then go and cultivate properly. Don't forget that you haven't fulfilled our conditions yet!" Lin Yi was talking about his agreement with LAN Guzha-he'd let him follow him after the mountain-opening period. The guy was only at the peak of the xuansheng stage, still a bit away.

Chapter 5992 News Of Liju

The fire Phoenix was willing to share her knowledge with LAN Guzha, most likely because Lin Yi made the recovery pill. This was a rare opportunity, and LAN Guzha had no one to guide him along the way. Although Lin Yi could use the high-level sea beast meat in the Jade space to help LAN Guzha level up, it wouldn't be as beneficial as the fire Phoenix 's.

"Alright then, I'll have to trouble senior Fire Phoenix!" LAN Guzha had always obeyed his boss's words. He immediately expressed his gratitude to the fire Phoenix.

"Li zaixiang, you're in good shape now. I'll take this little guy to cultivate. You guys can continue chatting!" The fire Phoenix was also a straightforward person. She beckoned to LAN Guzha and left.

Lin Yi took the opportunity to check on li zaixiang. This was just a small matter and it wasn't a problem for him. The recovery pill was indeed powerful. Li zaixiang's injuries were completely healed and he was in a much better state than before.

"Uncle li, there's no problem now. You're so healthy that you can go kill another sea beast." Lin Yi smiled as he pulled his hand back-the whole thing was over now, with no regrets.

When li Zeyu heard that his father was fine, his heart completely relaxed. There was no need to mention his gratitude towards Lin Yi and Li Zao Yi.

"Oh right, how could I have forgotten about this!" Li Zeyu suddenly slapped his forehead and took out a small Jade box for Lin Yi, ""Brother Lin, I heard that you wanted this item, so I thought of buying it for you. I'll leave it to you now. "

"Has the auction ended?" Lin Yi paused for a second, then understood. The last day of the auction should be the day after the sea beast tide ended. He and Li Zao Yi were busy making elixirs then, so they couldn't attend the auction.

That was the essence! It would be a pity to miss it, but Lin Yi could guess what Li Zeyu was giving him, so he didn't beat his chest in regret.

He didn't know how many spiritual jades he'd spent on the last five soul quenching pills, but he'd gotten the spirit gathering branch anyway, and the soul nurturing wood was probably in this Jade box. Lin Yi didn't plan on counting the spiritual jades for the soul quenching pills.

Opening the jade box, there was indeed a long and thin piece of black wood inside. There was a faint light flowing on it. Just holding it in his hand made his primordial spirit feel extremely comfortable. There was no need to ask to know that this was definitely the soul raising wood!

"Brother Li, you're too kind. This is a gift that I can't refuse, so it would be impolite to refuse!" Lin Yi was glad that the news of him wanting the soul raising tree had spread, or he would've missed it.

"It's just a little thing. What brother Lin has done for the northernmost Island and our Li family is thousands of times more than this little thing. So, you don't have to be polite with me. Alright, I'll take my leave for today. Old man, hurry up and leave. Don't be an eyesore here. " Li Zeyu pulled Li Zaixiang with a look of disdain. The old man just didn't have good eyes. Couldn't he tell that he didn't need someone to disturb him?

As far as he was concerned, Lin Yi was just going with the flow and bringing up the matter of Zhang Liqiang as his master.

Li zaixiang laughed dryly. For the first time, he did not refute his son and quickly left.

After everyone had left, the atmosphere in the room suddenly became a little strange. Li Yi didn't know if it was because she remembered the previous situation, but her cold face also slowly showed a trace of red.

Lin Yi felt a little awkward. He wanted to leave with Li Zeyu and the others, but he couldn't just leave before he found out where Zhang Liju was. It was related to whether Chu Mengyao and the others could wake up or not.

"Well, Little Junior Sister, do you think you can tell me master's whereabouts?" After a while, Lin Yi forced himself to break the awkward atmosphere.

"You won't be able to find him even if I tell you!" Li Zao Yi's face turned cold and he hmped, not answering Lin Yi's question.

"You have to tell me first before I know if you really can't find it!" Lin Yi was ready to risk everything-he had to get news from Zhang Liju today, no matter where he was. He had to find him and ask him how to save Chu Mengyao and the others.

"He went to another plane. If you think you can find him, go ahead!" Li Zao Yi's expression returned to normal. She sat down, poured herself a cup of tea, and slowly sipped it elegantly.

"Why did master go to another plane? Little Junior Sister, you're not trying to fool me, right?" Lin Yi looked at Li Zao Yi suspiciously. He didn't believe that things could be so coincidental.

Li Zao Yi clearly understood what he meant by "dupe." He put down the teacup in his hand and said indifferently, "It doesn't matter if you believe me or not. I've already told you."

"Then what plane did he go to? Is it the secular world or the small Jianghu of the ancient times?" These were the only two places Lin Yi knew of at the moment-he didn't know of any other planes.

"I don't really understand it either, but it's definitely not some small ancient Jianghu. It seems to be a place called a transfer station. I don't know where it is, have you heard of it?" Li Zao Yi was curious about the place as well, and couldn't help but ask Lin Yi.

Lin Yi could only smile bitterly, speechless. He'd heard of transit stations before-they were all over the common world, but that didn't seem to have anything to do with the other planes ...

"Little Junior Sister, do you know what master is going there for?" Lin Yi wanted to look for more clues from this, but he didn't seem to realize that he was calling Li Zao Yi Little Junior Sister more and more easily.

And Li Zao Yi seemed to be used to Lin Yi calling her that-she didn't have any objections.

"I vaguely heard that it should be a friend of master who asked him to help with something. Right, the name of his friend is Yang Ming!" Li Zao Yi nodded his head with certainty, indicating that he definitely wasn't mistaken.

Lin Yi's eyes were wide open in disbelief-he didn't expect to hear news of his master here! Her master seemed to have a good relationship with her cheap master, too. That meant that it shouldn't be a problem to wake up Chu Mengyao and the others.

The only problem was that they didn't know how long it'd take them to return from the transit station. From Lin Yi's experience, it was impossible for them to return any time soon.

"I've told you everything I know. Whether you can find it or not is up to you, but I still advise you not to think too much. The right way is to wait for master to come back. Alright, if there's nothing else, you can go back! I need to rest!" Li Zao Yi stood up and pointed outside, unceremoniously ordering the guest to leave.

"You don't have to do this, right? I'm still your senior brother ... Forget it, you should rest. I'll go find someone to inquire about the transit station. " Lin Yi waved his hand and decided not to provoke her. The girl looked calm, but she was actually quite worried.

Chapter 5993 Only Heard Of

After casually waving his hand at Li Zao Yi, Lin Yi quickly left the room. After he left, Li Zao Yi's calm face suddenly changed into a complicated expression. She forcefully stomped her foot and closed the door, putting on a restriction.

Lin Yi thought of Ao Tianba as he left the area. He didn't know if the guy left after the auction, but there would be some spontaneous trading events after the auction, just like before. It was a special case this time, though, and not many people were in the mood to stay.

After extending his spirit sense out, Lin Yi quickly discovered the huge body of the ancient warship. It hadn't left the northernmost Island yet!

With ao Tianba's knowledge, he might be able to solve Lin Yi's problem and bring him to the transit station!

"Lil bro Lin, I haven't seen you these past two days. I heard you were in closed door cultivation?" Ao Tian BA was supervising the repair of the ancient ship on the deck, and he immediately greeted Lin Yi with enthusiasm.

"Yes, li Zao Yi and I worked together to refine the recovery pill, and we finally successfully cured uncle li." Lin Yi greeted ao Tianba with a smile. The two had gotten closer after the recent beast tide."Brother ao Tian, there's something I'd like to ask you. I wonder if it's convenient for you to do it now?"

"What are you saying? This is your home, you can come and find me anytime, how is it inconvenient?" Ao Tianba put on a displeased face before pulling Lin Yi's arm with a laugh."Come on, my little brother Lin, let's go have a drink and have a good chat."

"Good! By the way, what's the situation with this warship?" Lin Yi replied and asked after seeing how busy the crew was.

"Not bad. I'll be able to finish the repairs and maintenance today. Although there were some losses in the battle this time, it wasn't a big problem. After all, this is an ancient warship!" Ao Tianba waved his hand casually with a proud expression on his face.

As a man who was determined to roam the seas, it was his proudest thing to own such a top-class warship!

Lin Yi was relieved to hear that. After all, he was the one who made many crazy decisions in this battle. He would feel sorry for ao Tianba if the ancient warship was damaged beyond repair.

"Brother Lin, after we're done recuperating today, we can set sail back to Nakajima tomorrow. Are you coming with us?" Ao Tianba seemed to be in a good mood as he started chatting with Lin Yi.

Although it was a little dangerous this time, his fleet did not suffer any losses, and he even received the friendship of the northernmost Island and a generous gift of thanks. In addition to his own profits, he had made a lot of money!

In particular, after a private conversation with the old man Li Lin, he got a promise from him that he could do one thing for ao Tianba as long as it did not violate The Guardian contract!

Ao Tianba even felt that the promise of a super expert at the sea split stage was his greatest gain. According to Li Lin, that old man, he had once fought with the old monster of the AO Tian family and was the winner. Although this made ao Tianba a little embarrassed, it didn't matter.

"I still have something urgent to deal with, so I'll probably leave first. I won't be going back with everyone. We'll meet again in the North Island or the middle Island!" Lin Yi couldn't wait to return slowly with the fleet-he had to go back to the North Island to deal with some things first, and visit Shangguan Tianhua.

Then, he would rush back to Nakajima as soon as possible to check on han Jingjing's condition. He didn't know if the spirit-gathering branch would be effective.

Luckily, the soul raising tree gave him some confidence-this was a well-deserved item. After Lin Yi sent it into the Jade space, the damn thing was overjoyed. He attached his spirit to the tree immediately, and the feeling of his spirit being nourished was indescribable.

"That's a pity. I was thinking of having a good chat with you on the way back. " Ao Tianba said with a look of regret as he pushed the door open.

Ao Tianba poured Lin Yi a cup of spirit fruit wine before sitting down comfortably in front of him. "Let's try this new spiritual fruit wine first. It's absolutely delicious!"

"It's really good. It seems that I should go buy some and bring it with me!" Lin Yi took a sip and nodded.

"If you like it, just take it from the warehouse of the Starship. If you're being polite to me, you're making me angry! Don't forget that you're the vice-captain of this ship!" Ao Tianba laughed and put down his glass."Well, tell me why you're here for this elder brother!"

"Brother ao Tian, I wonder if you've ever heard of the transfer station?" Lin Yi put down his glass as well, his serious face showing how important this was to him.

"I think I've heard of it before, but it's not on Sky Class Island, is it?" Ao Tianba thought about it carefully and was not too sure.

Lin Yi was overjoyed-ao Tianba did know something, and even if it wasn't clear, it was good as long as there was a lead.

"Brother ao Tian, think about it carefully. Where did you hear it from? This transfer station might not be in the sky rank island's territory, but it's said to be in another plane. Do you remember?" Lin Yi subconsciously leaned forward and told ao Tianba everything he knew.

"If you put it that way, I do have an impression of it, but I don't seem to have much information about it. I've only heard of this place, but I can't remember where exactly I heard it from!" Ao Tianba was a little annoyed-it was rare for Lin Yi to ask him something, but he couldn't help.

"Then forget it, I'll go ask someone else. Brother ao Tian, please help me keep an eye on this information." Lin Yi was a little disappointed-he'd have to ask ao Tianba for information.

"Don't worry, lil bro Lin. I'll definitely find a way to find out more about this transit station. Perhaps I'll have some news for you when I return to Nakajima!" Ao Tianba patted his chest. In his opinion, it should not be too difficult to collect information about a place. Since he had heard of it before, he would definitely be able to find it now.

"Then I'll leave it to you, brother ao Tian. I'll be leaving first, I still have to say goodbye to the others!" Lin Yi finished the wine in his glass and stood up to leave.

Ao Tianba knew that he had things to do, and didn't ask him to stay. He gave Lin Yi two barrels of spirit fruit wine and left with him.

Ao Tianba knew that Lin Yi had a storage bag, so he only gave him two barrels. The storage bag wasn't big, and it wasn't easy to carry more. If he knew that Lin Yi had Qian Xiaodong's ring, he might've given him more barrels.

Chapter 5994 Using The Starry Sky Flowing Flame Gold

Since ao Tianba didn't know about the transit station, Lin Yi could only go to the Li family in the extreme north and ask about it. After all, they were a powerful family, and the northernmost Island was the most well-informed place. They might know something about this.

But before going to the northernmost Island, Lin Yi decided to go back to the five elements Chamber of Commerce first. He'd say hello to Cai Zhongyang, Wei shenjin, and the others before flying back to the central island, telling them to go back with ao Tianba.

What he didn't expect was that Cai Zhongyang and Wei shenjin weren't in the encampment. The waiter who stayed behind said that he had gone to participate in some trade fair. Because they would return soon, they wanted to make more deals now.

"I'm in my room. Let me know if they come back." Lin Yi decided to wait for them here for a while and check on the flying saucer that han Jingjing had made. He'd use the gold to upgrade it.

After returning to his room, Lin Yi took out the flying saucer from the Jade space. Because he used spatial technology, the flying saucer looked like a model, very delicate.

"I wonder what kind of improvement I'll get after using the starry sky flowing flame gold. I'm looking forward to it!" Lin Yi mumbled as he took out the gold. It was rare for Dachang Lu to be so generous, giving all the gold he got to Lin Yi. Upgrading the flying saucer didn't require that much.

He carefully cut out half of the metal and kept the rest. He then used his Qi to control the liquid metal to wrap around the flying saucer. The most precious thing about this material was that it didn't need to be refined, and there was no possibility of failure. It wouldn't damage the item, which was why he could use it with ease.

It was a pity that the starry sky flowing flame gold could only be used once. If it could be fused repeatedly, it would be heaven-defying! But if that was the case, no one would be stupid enough to auction such a good thing. It was probably the extra starry sky flowing flame gold from the auctioneer, just like Lin Yi's spirit tempering pill. It was a peerless treasure to others, but to Lin Yi, it was no different from a normal great recovery pill.

Under Lin Yi's spirit sense, the metal covered the surface of the flying saucer evenly and slowly seeped in. It started to merge with the original metal, and there was a thin layer of fire dancing.

Lin Yi was a little excited as he waited for the fusion to be complete, but after an incense's time, he realized that he'd miscalculated. The speed of the fusion was too slow-it wasn't that there was no progress, but it was just better than nothing.

One didn't need to know how to forge to use the gold, but an expert would know more about the details. Lin Yi was still lacking in this area.

At this rate, it would take at least a few days for the flying saucer to completely fuse with the starry sky flowing flame gold. His plan to fly back to Nakajima with the flying saucer would have to be delayed because the flying saucer would not be able to be used during the fusion process!

"Damn it, I should have started fusing with the flying saucer as soon as I got the starry sky flame gold. Now I can only borrow a flying spirit beast from the Li family!" Lin Yi didn't know whether to laugh or

cry. He'd wanted to upgrade the flying saucer to make it faster, but he didn't expect things to turn out like this ...

Since the fusion wasn't going to end so quickly, Lin Yi didn't want to waste any more time. He put it away in his storage bag and let the process take its time.

He didn't know when Cai Zhongyang and Wei shenjin would be back, but Lin Yi went to li zaixiang after leaving the message.

"Master Lin! The island master and young Island master are both here, do you need me to lead the way for you?" The Li's doorman greeted Lin Yi with a warm welcome, his face full of respect.

As a hero who saved the northernmost Island, Lin Yi's reputation in house li was no laughing matter. It wasn't wrong to say that he was half the owner of this place. Like now, he didn't even need to notify anyone, and he had someone to lead the way. He could see whoever he wanted.

"No need. Where is Island Master Li? I have some matters to discuss with him!" Lin Yi smiled and nodded. He was going to bid farewell to li Zeyu after meeting li zaixiang.

"The island master is cultivating in the cultivation room. Master Lin, you can just go there!" The guy was a little disappointed when he heard that Lin Yi didn't need him to lead the way, like a fan who'd missed out on getting close to his idol.

Lin Yi chuckled to himself and didn't think too much about it. He went in to find li zaixiang after thanking him.

It wasn't his first time here, so he didn't have to worry about getting lost. Lin Yi quickly reached li zaixiang's training room and activated the restriction.

Lin Yi wouldn't interrupt him if he was in isolated practicing, but he knew that li zaixiang had just taken the recovery pill. He was recovering at most, and it wasn't a big deal to ask him a few questions.

"Nephew Lin, I'm so happy that you're here. Come in and have a seat!" Li zaixiang was a little surprised to see Lin Yi, but he was more happy than surprised. His enthusiasm was similar to the guard earlier.

"Sorry for disturbing uncle's cultivation!" Lin Yi said politely before getting straight to the point, "I've come to find uncle li this time to inquire about a place. I don't know if you know. "

"You child, I already told you not to be so polite. This is your home, so why are you disturbing me in your own home? If there's anything you want to say, just say it. As long as it's something I know, I'll definitely tell you!" Li zaixiang wanted to let Lin Yi in and make tea for him personally, giving him a lot of face.

"It's a place called the transfer station. It's said to be another plane. Have you heard of it, uncle li?" Lin Yi looked at li zaixiang expectantly-he'd heard of ao Tianba before, perhaps li zaixiang would know more?

"I know. To be exact, a transit station is the literal meaning. It is a place that connects several other planes. But I don't know how to get to this transit station. Do you want to go to the transfer station? I'm afraid I won't be of much help then. " Li zaixiang was direct, and he smiled as he crushed Lin Yi's expectations.

"Uncle li, do you know anyone who knows how to get to the transfer station?" Lin Yi shook his head with a bitter smile, unwilling to give up.

"I'm not sure. I've only heard of that place. If you need it, I can get someone to keep an eye out for information in this area." Li zaixiang shrugged. With the channels of the northernmost Island, it was much more convenient to get information about the transit station than Lin Yi.

Chapter 5995 Leaving The Northernmost Island

"Thank you for your concern, uncle li. I'll leave it to you then!" Lin Yi thanked him. He felt that he shouldn't think about going to the transfer station for the time being. Right now, he mainly needed to improve his strength as soon as possible, so that he wouldn't be a burden to Yang Ming and the others when he could go to the transfer station.

"Nephew Lin, you don't have to be so polite. Asking for information about the transit station is a small matter, it can't be compared to what you've done for us. Don't worry, I'll let you know as soon as I have any news." Li zaixiang laughed and patted Lin Yi's shoulder intimately.

"Then I'll wait for uncle Li's news with peace of mind!" Lin Yi nodded with a smile and cupped his fist at li zaixiang.

"Uncle Li, I came here to say goodbye to you and also to borrow a flying spirit beast. The auction on the northernmost Island has ended, and I have other matters to attend to, so I have to leave first. I won't be taking brother ao Tian's battleship anymore." With Lin Yi's relationship with house li, it was a piece of cake for him to borrow flying spirit beasts. As long as he wanted them, he could even give him a few hundred.

"Are you in such a hurry? However, in the current situation, it would be very dangerous to return to the North Island or the middle Island using an aerial spirit beast! You've just made a huge enemy of the sea

beast clan, so I think you'd better take the ancient warship back. " Li zaixiang was a little surprised. It wasn't that he didn't want to leave his aerial spirit beast, but he was really worried for Lin Yi.

"Brother Lin, are you going back? What's so urgent? I was hoping you could stay for a while longer so that I could take you around the northernmost Island!" Before Lin Yi could say anything, li Zeyu walked in from outside. He must have heard that Lin Yi was here, so he rushed over to meet him.

"You little brat, you have no manners at all!" Li zaixiang scolded jokingly, but he was obviously not really angry.

"Brother Lin isn't an outsider, so what's the point of doing all that!" Li Zeyu's lips twitched as he turned to Lin Yi, ""Brother Lin, now that you've come to my house, you're actually looking for this old man instead of me. Could it be that you think that chatting with this old man is more interesting than talking to me?"

"Brother Li, you must be joking. I have something to ask uncle li. I was planning to look for you later, but I didn't expect you to come so soon." Lin Yi shook his head with a smile. He'd gotten used to the way the father and son talked after spending so much time with them. It was interesting.

"Brother Lin, what's the matter that you're in such a hurry to leave? Can't you stay a little longer?" Li Zeyu didn't continue with his nonsense, but rather, he was reluctant to let Lin Yi stay.

Not to mention how much help Lin Yi had given him after coming to the northernmost Island, at least li Zeyu felt that he and Lin Yi were compatible. It was rare for him to meet such a friend and brother, so it was normal that he didn't want Lin Yi to leave.

"That's right, nephew Lin. If it's not an urgent matter, you should stay for a while!" Li zaixiang tried to persuade Lin Yi to stay, but he knew that Lin Yi would not agree to it.

If it wasn't something urgent, why would Lin Yi need to borrow an aerial spirit beast to fly back? Wasn't it better to be with ao Tianba, who was both comfortable and safe?

"I really can't do it this time. I have a very important matter to attend to in Nakajima as soon as possible. I also have to go to the North Island to deal with some things on the way. In any case, I'll have plenty of opportunities to come here in the future. Brother Li's arrangements can be left for the next time I come." As expected, Lin Yi rejected their invitation and brought up the flying spirit beast again.

"Of course, there's no problem with flying spirit beasts. You can choose any of the flying spirit beasts on the northernmost Island. However, I'll still say that it's really dangerous to do so. It's best to set off with ao Tianba's fleet. " Li zaixiang's smile disappeared as he tried to persuade Lin Yi.

"Don't worry, uncle li. I can handle it. Even the sea beast tide couldn't stop me. What can other small troubles do?" Lin Yi had already made up his mind. He said a few more words of farewell before leaving with li Zeyu to pick out a flying spirit beast.

At this moment, LAN Guzha, who had followed the fire Phoenix to learn cultivation insights, had also followed the fire Phoenix over. By the looks of it, he must have gained quite a lot.

"Boss, I'm here!" LAN Guzha ran over excitedly and whispered to Lin Yi,""Boss, that Firebird is really powerful. It only gave me a few pointers and I felt like I was enlightened. Now I feel like I'm going to break through to the mountain opening stage very soon,"

Not far away, Fire Phoenix's ears twitched twice, and blue veins seemed to be throbbing on her forehead.

"No rules, call me senior firephoenix!" Lin Yi quickly scolded. No matter what the Phoenix's intentions were, he was the one who taught LAN Guzha. He had to show respect to a senior like this.

LAN Guzha retracted his head and quickly nodded in agreement, admitting his mistake.

"Senior firephoenix, thank you very much this time. LAN Guzha is insensible and doesn't know how lucky he is!" Lin Yi thanked him politely, thinking that it would be faster if the fire Phoenix sent him back to Nakajima.

But Lin Yi only dared to think about it-he'd be embarrassed if he asked a Super Earth opening master to send him there, even if the guy agreed.

"It's just a small matter, no big deal. I heard that you're about to leave, be careful on the road and take care of yourself! I wish you all the best!" The fire Phoenix respected Lin Yi a lot. After all, he was the one who saved the northernmost Island, so he said goodbye to Lin Yi formally.

As for LAN Guzha, the fire Phoenix didn't even want to talk to him anymore. If it weren't for Lin Yi, he would've roasted LAN Guzha for calling the fire Phoenix a fire Bird!

"Thank you for your guidance, senior Fire Phoenix. I'll come again if I have the chance!" LAN Guzha grinned widely and waved his hand. It seemed that he had tasted the sweetness of it and still wanted to come back and learn from the fire Phoenix.

The fire Phoenix glared at LAN Guzha. It really wanted to tell him to get lost and not see him ever again!

After a while, Lin Yi and LAN Guzha picked two of the fastest flying spirit beasts. After saying goodbye to the Li family, they rose into the sky and flew South.

As for hou guanqi, Shang Wanyi, and the rest, he could only ask li Zeyu to help pass on a message and see them later.

After a few hundred miles away from the island, langu Zha flew to Lin Yi's side and said loudly, "Boss, why do we have to ride such a slow flying spirit beast? This speed isn't even as fast as me. Why don't we go into the sea? it'll definitely be much faster than now!"

"Didn't you say that you felt like you were about to break through? then cultivate properly and stop talking nonsense!" Lin Yi ignored LAN Guzha's words and urged him to think of a way to breakthrough.

Chapter 5996 Being Hunted

According to Lin Yi's estimation, if LAN Guzha was given a piece of sea beast meat, he should be able to break through, but with the fire Phoenix's guidance, Lin Yi hoped that LAN Guzha could break through to the mountain opening stage on his own. This would be a world of difference for his future development.

One had to know that from the great circle of Mystic Ascension to the early stage of mountain split was not just a relationship between a level and a major realm. It was also the essential difference between the heavenly Dao realm and the Titan realm! How to break through, there were too many details!

"Boss, isn't this too difficult? Wouldn't it be easy for one to go berserk while cultivating and breaking through in the sky? Let's wait until we find a quiet place to talk!" LAN Guzha also wished to break through to the mountain-opening stage as soon as possible, but this matter could not be rushed. Even if it was just a tiny bit away, it would not work if it was not mature enough.

Lin Yi frowned. He wasn't unhappy with LAN Guzha, but he felt that something was wrong. He extended his divine sense to the limit and didn't find anything wrong.

The Jade space didn't give him any warning, either, and this made Lin Yi wonder if he was being too sensitive.

"Boss, what's wrong? Alright, alright, I know. I'll start cultivating now. If I go crazy, you must remember to save me!" LAN Guzha did not notice anything amiss at all. He was still mumbling to himself.

"No, LAN Guzha, you're right. Let's find a quiet place to stay for a while!" Lin Yi waved his hand and directed the flying spirit beast to an isolated island he found with his spirit sense.

LAN Guzha scratched the back of his head, not knowing what Lin Yi was up to. He followed.

They were already a thousand miles away from the northernmost Island, out of the Li family's safe range. Lin Yi couldn't count on anyone to come to his rescue if something happened.

When the two landed on the island, Lin Yi's spirit sense suddenly detected a flying spirit beast. On top of it stood two practitioners in black clothes and masks. They were very strong, and the pressure they deliberately released might make it impossible for a normal peak late stage or peak stage of the mysterious Ascension realm to even stand.

The two men in Black floated down from the flying spirit beast and stood firmly in front of Lin Yi. At this time, Lin Yi finally understood that his feeling was right. He just didn't know what method they used to hide from his spirit sense.

"Lin Yi, Master Lin! You really live up to your reputation, to be able to discover our tracks and even deliberately land on this small island to wait for us. Your courage is also very admirable!" The masked man in Black clapped his hands with a chuckle, not sure if he was really admiring Lin Yi or mocking him.

"Who are you people? What do you want to do by following me?" Lin Yi, naturally, wouldn't tell them that he didn't even notice the two following him. He only looked at the two calmly, as if he had everything planned out.

"You don't need to know who we are. I just heard that Master Lin had a great harvest on the northernmost Island. Why don't you take it out and let us brothers have a look?" The masked man said as he slowly walked forward, stopping two steps away from Lin Yi.

"A robbery? A dignified mid-stage earth-splitting expert had actually fallen to the point where he had to rely on robbery for a living? Even that follower of yours at the consummate level of the mountain split realm would be an extraordinary Big Shot on any Island, right?" Lin Yi smiled faintly, his eyes sweeping over the two, but he didn't step back.

At this time, his strength was already at a complete disadvantage, and he couldn't show weakness in his aura. Otherwise, he would be suppressed to the point where he wouldn't even have the chance to attack.

"Eh? Your eyesight is quite good, you actually saw through our strength and you don't seem to be afraid at all. It seems that you are very confident in defeating us!" The masked man looked surprised, but it was all an act. Lin Yi would be blind if he couldn't see the aura they were giving off.

"Lin Yi, seeing that you're a high-tier refiner, we can give you a chance to surrender. As long as you swear an oath to join us and cooperate with us to cast the restriction on you, you can live. Otherwise, today will be the day you die!" The peak-stage mountain-splitting masked man spoke coldly. His powerful aura was revealed, completely enveloping Lin Yi and LAN Guzha.

The masked man at the middle stage of earth-splitting turned around and waved his hand. "Aiya, you're really boring. Why do you have to say such things? isn't it good to have a good chat with her? Remember, I'm the one in charge this time!"

"I just don't want to waste time. After all, this place is not too far from the northernmost Island. If the Li family of the northernmost Island noticed something, it would not take long for them to rush over. You know the speed of the fire Phoenix very well, unless you think you can deal with Li Zaixiang and the fire Phoenix working together." Although the guy at the consummate level of the mountain splitting realm was speaking rather respectfully, he did not seem to be afraid. It was unknown what the relationship between these two guys was.

"What a long-winded fellow! I won't bring you out next time!" The mid-stage earth-splitting masked man muttered before turning to Lin Yi with a light smile. "You heard what he said, right? There are only two choices now. Are you going to surrender to us? Please say no!"

Lin Yi didn't know what to say—he wasn't going to surrender to these two, of course, but wouldn't it be like he was being led by the nose if he did?

"Boss, these two guys are really annoying. Can I beat them up?" LAN Guzha rolled up his sleeves with a displeased expression. He was already prepared to take action.

As for the fact that his opponent's strength was far beyond his own, he didn't care at all. As long as there was a fight, it didn't matter whether the opponent was a weak golden class chicken or a super god-level opponent from the sea Rift. He would fight first and then talk!

"As long as you don't get beaten up instead!" Lin Yi smiled faintly, ready to make his move.

"Very good, I'll take it that you're saying no!" The mid-stage earth-splitting masked man chuckled and grabbed at the air. An invisible pressure bound Lin Yi and LAN Guzha, and it was getting stronger.

LAN Guzha roared as his body let out a series of cracking sounds. He managed to break free, and Lin Yi took the opportunity to move away from the restraint.

"Eh? To be able to break free, have you really not reached the mountain opening stage? It's so unbelievable. It should be very interesting today!" The mid-stage earth-opening masked man looked very excited-he didn't care about the fact that Lin Yi had broken free from his grasp at all. He caught up to Lin Yi in a flash.

The other guy at the consummate level of the mountain-splitting realm moved as well. He went straight for LAN Guzha and threw a punch at his face.

Chapter 5997 The Cat Toying With The Mouse

LAN Guzha roared once again. He did not Dodge but threw out a punch as well. It collided with the masked man's fist. The terrifying explosion formed a circle of invisible waves that spread into the sea, setting off a huge wave that was several meters high.

The result of this exchange was that LAN Guzha was at a slight disadvantage. He was forced to retreat three steps while his opponent's figure only swayed slightly. However, considering that LAN Guzha was only at the great fulfilment of the mysterious Ascension realm, which was a whole level lower than the masked man, the one who was truly shocked was the masked man.

Lin Yi couldn't care about LAN Guzha right now. He was facing a mid-stage earth creation master, who was two levels stronger than him. Under normal circumstances, this kind of difference was enough to kill the weaker side easily without any chance to fight back.

The masked man was like a ghost, appearing behind Lin Yi in an instant and tearing his shadow apart. The three appearances of Cloud Dragon couldn't fool this guy at all-every time Lin Yi's shadow appeared, it would be torn apart.

Lin Yi even felt that this guy was letting him use the three appearances of Cloud Dragon on purpose-perhaps he'd be able to catch his real body right from the start. It was like a cat toying with a mouse, toying with him.

The scarier thing was that Lin Yi's spirit sense attacks had no effect on this guy at all. Whether it was the vortex or the soul-hooking hand, they were all useless against him. This was the difference in levels!

"He's really strong! It's the first time I've encountered this kind of opponent. This damn guy actually has a divine sense defense skill. Today is really a big problem!" Lin Yi's heart shivered-he was already thinking about how he could escape from this guy.

Lin Yi didn't hold back at all with his Thunder escape technique. He didn't have a choice-the mid-stage earth creation guy could catch him at any time, and only his Thunder escape technique could barely hold him back for a while. But that was all. He couldn't even think about counterattacking for now.

"LAN Guzha, bring your opponent into the sea to fight. Only then will you be able to unleash your full strength. If you're really no match for them, run away quickly. As long as you leave, I'll have the chance to escape!" Lin Yi kept dodging with the help of lightning arcs, even sending a message to LAN Guzha, telling him to get into the sea.

If LAN Guzha could leave first, Lin Yi wouldn't have to worry at all. It was still possible to escape from this mid-stage earth splitter with the help of lightning escape.

LAN Guzha may have looked like a careless person, but he was well aware of the situation. The moment Lin Yi explained it, he understood the crux of the matter. Without hesitation, he revealed his true form and charged at the peak-stage masked man.

In the sea serpent Dragon state, LAN Guzha's strength was even more powerful. He relied on brute force to send the fellow at the consummate level of the mountain splitting realm flying. Although he was also hit a few times, his incomparably strong body could withstand such an attack. At most, he would suffer some minor injuries, which was not a big deal.

Taking advantage of the other party's unstable footing, LAN Guzha desperately entangled himself and rolled into the sea with him. After the Dragon entered the sea, he had an innate advantage. The small gap between the two parties was instantly wiped out.

"Hahaha, it's actually a sea serpent Dragon. This subordinate is so stupid. I didn't come here in vain. It's really interesting!" The masked man who was chasing Lin Yi actually started clapping with a big smile. Lin Yi didn't know what he was thinking, but he seemed to be happy to see his friend in trouble.

Yet Lin Yi's heart was getting heavier and heavier. This masked man had the energy to pay attention to the other battle, laughing and clapping without restraint while giving Lin Yi enough pressure. It was obvious that he wasn't using his full strength yet. This kind of strength was too terrifying! Lin Yi wasn't his match at all at his current stage.

The lightning escape technique was still able to track him in a small area. The second level could indeed change his direction, but that guy didn't need to be faster than Lin Yi. As long as he could grasp one point, he could stop Lin Yi with half the effort.

It was as if Lin Yi was a bird flying in the sky, and the masked man was the Hunter on the ground. He didn't need to run the same distance as Lin Yi-all he needed to do was adjust the angle of his bow.

LAN Guzha and the guy were getting further and further away from each other. They were ready to dive into the deep sea at any time. Lin Yi knew that it was time for him to leave. If he waited for this guy to get serious, he might not be able to leave.

If he used lightning movement to escape in a straight line, Lin Yi estimated that the masked man wouldn't be able to catch up to him.

"Are you thinking of using the lightning escape technique to escape now? This can't do! I haven't had enough fun yet, how can you leave?" The masked man of the middle stage of earth-splitting suddenly said with a smile. At the same time, he threw out a formation plate.

The activated formation disk instantly formed a force field, covering the entire Island. The moment the formation was formed, Lin Yi suddenly realized that his lightning escape technique lost its effect. Not only that, but he couldn't even send out any lightning arcs!

Lin Yi almost lost his balance when he came to a sudden stop. He didn't know what happened, but he knew it was because of the formation disk. It was probably a support item like the space Lock No escape flag.

This wasn't the main point-Lin Yi was more worried that the guy had seen through his thoughts. This guy looked like a lunatic, but not only did he have an overwhelming advantage in strength, but he also had a high IQ!

"Aiyo, I'm so sorry, but all lightning-type martial techniques can't be used within the range of this array disc. If you want to escape with your lightning escape technique, you'll have to get out of this array disc first, but without it, do you still have a chance to escape? Hmm, I'm looking forward to it. How about this, I'll give you a chance. I'll count to three and see if you can escape. " The mid-stage earth creation masked man was indeed playing a game of cat and mouse. As far as he was concerned, Lin Yi could kill him at any time, and it wasn't a bad idea to have some fun before that.

But to Lin Yi, the enemy's carelessness was his chance. If this guy went all out, he would've died many times already. Although he was in a bad state now, at least he was still alive. As long as he was alive, he would have a chance!

"Three!" Lin Yi growled. He couldn't follow the pace the opponent gave him-only an idiot would try to get out of the range of the array within three miles!

The only way to escape was to destroy the lightning restriction array disc!

"Ai ai ai! I didn't count, so why are you so anxious? Are you in a hurry to reincarnate?" The masked man called out unhappily. He decided to teach Lin Yi a lesson first, to let him know that he couldn't go against the rules!

Chapter 5998 Powerful Counterattack

He then saw Lin Yi's palms produce a ball of fire before combining them together and throwing them towards the lightning formation.

Super pill fire bomb!

This was one of Lin Yi's strongest attacks, and the bomb that was formed instantly wasn't as destructive as it seemed. At most, it could be used to destroy the lightning array.

The black-clothed man's figure flashed, and he instantly appeared in the path of the Super pill fire bomb. He extended his right hand, and directly grabbed the Super pill fire bomb!

Lin Yi immediately used his spirit sense to control it, trying to detonate the Super alchemy bomb, but the connection was completely cut off!

This was the first time Lin Yi's ultimate attack was caught by someone's bare hands, without any signs of explosion. This bastard was too strong!

The Man in Black glanced at the Super alchemy bomb in his hand and squeezed it. The bomb that Lin Yi couldn't detonate exploded, but all the power was sealed in the man's palm, not letting out a single bit.

"This move is not bad. It's a little interesting. If you were a little more powerful, I might not have been able to catch this thing!" The masked man in Black chuckled and clapped his hands. The explosion of the Super alchemy bomb was completely under his control, and it didn't cause any damage at all.

Lin Yi's heart went cold-mid-stage earth split was way stronger than he'd expected. He had to keep thinking about ways to break out of this situation.

"You didn't follow the rules just now, so I'm going to give you a little punishment. Are you ready? It'll hurt a little!" Before the man finished his sentence, he appeared beside Lin Yi like a ghost and pointed at his shoulder.

Since he couldn't use his lightning escape, Lin Yi could only use his super butterfly micro steps to Dodge to the side. Fortunately, he had the Jade space to alert him, so he couldn't see the man's movements and direction.

"Not bad, you can even Dodge my finger. This is more interesting! Continue, continue!" The masked man spoke casually as he followed Lin Yi like a leech. He couldn't shake Lin Yi off with his super butterfly microstep.

If they were at the same level, Lin Yi was sure that he could handle this bastard with butterfly microsteps, but the difference in strength made all techniques meaningless.

The five-colored Dragon-shaped killing intent roared as it rushed towards the masked man behind Lin Yi. This was also one of Lin Yi's ultimate moves, but he didn't expect it to cause any damage to the guy behind him at all. He only hoped to buy him a breath or two of time, and maybe he could get out of the island's Lightning zone!

" Beautiful, too beautiful, this is a good move, much better than the previous one! "Even I want to change my mind and accept your surrender!" The Man in Black yelled excitedly, but Lin Yi's heart sank. The reason why this guy was acting like this was because the Dragon killing intent didn't pressure him at all.

The divine sense attack was ineffective, the pill fire bomb was ineffective, and the killing intent of the five elements was also ineffective! Lin Yi felt like he'd reached the end of the road, and there was nothing else he could do.

"Silly boy, use lightning burial!" The demonic thing couldn't stand it anymore. He wanted to rest in the soul raising tree, but if Lin Yi died, the Jade space would disappear,""This is only a Grade 5 trash array disc. It can isolate the lightning element in this area. However, your lightning burial is able to connect with the lightning element between heaven and earth. You only need one hit to shatter this trash array disc!"

Lin Yi suddenly realized that he had indeed been too caught up in the situation. It was like an egg-if the chick wanted to break out of the shell, it had to wait until it grew up and had the strength to do so, but if someone were to knock on it from the outside, the egg shell would be shattered.

The field was like the eggshell, and Lin Yi was like the egg yolk of a chicken that hadn't turned into egg white yet. As long as he put enough force on the outside, he could break the formation without even breaking the field!

"Senior ghost, in the future, if you remind me of such things earlier, it'll really kill you!" Lin Yi didn't have time to say anything else-he'd already started casting lightning burial.

Just as the demonic thing had said, the lightning burial was formed by the gathering of the lightning elements in the world. It was not within the range of the lightning restriction array disc, so it would not be affected.

The thunderclouds in the sky covered the island in an instant, with lightning arcs constantly flashing through them. Lightning burial had yet to be activated, but its momentum was already quite shocking.

"Why is there suddenly Thunder? Looks like we can't keep playing anymore. Lin Yi, Master Lin, are you ready to go?" The masked man in Black felt that something was amiss, and the power of his attack instantly increased by several times!

Lin Yi suddenly turned around and pushed out his hands. A new super alchemy bomb appeared in his palms. It was different from the one he condensed in an instant. He used at least ten seconds to make this one, and it was several times more powerful.

"Go to the yellow Springs!" Lin Yi roared. The Super alchemy bomb didn't escape his control at all, and it was detonated in his palm!

If Lin Yi didn't have his consciousness controlling him, he'd be the first one to die if he dared to do something like this. But now that he had the ability to direct the explosion, all the shockwaves were concentrated in the direction of the black masked man. At most, he'd only have a little bit of the aftermath, but it was nothing.

The masked man in Black was slightly surprised. He felt a sense of danger from the explosion, so he was not prepared to face it head-on. However, before he could Dodge, dazzling lightning bolts fell from the sky like a waterfall!

The electric field array disc was not a defensive array disc. The restrictions on the outside could not withstand the violent attacks of the lightning burial. Endless lightning bolts landed on the island without any resistance, leaving no space for the lightning to strike.

This was definitely Lin Yi's full-powered lightning burial, and it was the most powerful one he'd ever used!

The masked man was so shocked that he couldn't even avoid the attack of the Super alchemy fire bomb. He had to bear the baptism of two super powerful attacks at the same time. Even though he was a mid-stage earth splitting expert, he was immediately in a bad shape. He was almost torn to pieces by the violent attack.

Especially with Lei zang's attack-it wasn't Lin Yi's own strength anymore. He had borrowed the power of the lightning in the world, and it wasn't any weaker than a real lightning trial. If the peak-stage mountain-opening realm masked man was here, he would've been dead already.

Chapter 5999 Natural Breakthrough

Lin Yi was surprised as well-this guy was too strong! He was under the combined attack of the Super alchemy bomb and Thunder burial, but he was still standing!

He activated his lightning escape technique again, but this time, he wasn't trying to run away. He continued to attack. If he didn't take this chance to kill such a powerful enemy, he'd be the one in trouble when the enemy finally caught his breath.

Even if he could escape this time, how could he escape with so many people by his side? Because of the rules of the protection contract, even sea split realm old monsters couldn't be born. Mid-stage earth split realm monsters like this were the top existences on Sky Class islands. Who could Lin Yi rely on to protect the people he cared about?

He was the only one!

Thunder burial's endless lightning arcs covered the entire Island, and Lin Yi could go anywhere he wanted with just a thought. The Man in Black didn't have the energy to act cool anymore-he was trying his best to dissolve the lightning energy in his body, and didn't even have the time to care about the countless wounds the Super alchemy fire bombs had left on his body.

Lin Yi appeared behind the guy without a sound and slapped the back of the guy's head with his strongest five-element killing intent. As long as he could hit the guy, even if the guy was a mid-stage earth creation master, he wouldn't be able to block this level of attack.

The Man in Black groaned and his body suddenly moved, dodging the attack at the last second. Although he didn't have the time to deal with Lin Yi, his terrifying fighting instinct still saved his life.

Lin Yi didn't care at all that his palm missed-lightning escape was the fastest skill in the world, so what was the black masked man's effort to Dodge?

The moment the guy dodged, Lin Yi's position changed slightly. He didn't even need to pull back his palm because the effect would be the same if he hit the new place.

This time, the man couldn't Dodge anymore. He tried to avoid a fatal blow, but Lin Yi's palm still hit his shoulder.

Lin Yi didn't really care about the result-the five-element killing intent could still cause a terrifying amount of damage if it entered his opponent's body, and with the lightning from lightning burial, he'd definitely make this mid-stage earth creation realm experience what it meant to be better off dead!

At the same time, Lin Yi also used the fire vortex, tearing and burning the masked man's essence spirit. This move didn't have much effect when he was on guard, but it was completely different now. To deal with three powerful attacks while simultaneously defending the essence spirit was something even this mid stage earth creation master couldn't do!

The soul-snatching hand might not be able to do anything directly, but the deified soul vortex could continue to wear down the other party's deified soul power. It could act directly on the primordial spirit, and then in turn affect the black-clothed masked man's resistance to other attacks.

The masked man in Black was regretting his decision to death. If he could do it all over again, he wouldn't waste his time playing around with Lin Yi and would just kill him with one move!

Who would've thought that a puny ant at the peak of the late stage of mysterious rise realm could force a mid-stage earth creation expert to such a dead end? The endless number of trump cards was simply terrifying!

"Stop! Lin Yi, let's talk! I'll apologize to you, and then I swear I'll never find trouble with you again. No! I swear I can follow you! To be your slave! As long as you stop!" The masked man was really scared now-he was begging Lin Yi for mercy, not even caring about his face as a mid-stage earth splitter.

In the face of death, even the strongest person would be afraid, but Lin Yi didn't believe a single word this guy said!

For an enemy that he couldn't control at all, if he didn't take advantage of the opportunity to kill him directly, would he be stupid enough to give the other party a chance to kill him?

Lin Yi wouldn't make such a low-level mistake-he relied on this guy's carelessness to turn the tables. Even if he wanted to talk, he'd make this idiot lose all ability to fight back first.

"I'm telling the truth, I can swear it!" The masked man in Black roared loudly, but the only result was that his ability to resist was reduced again. Whether it was the lightning arc, the five elements killing Qi, or the divine sense vortex, he had gained an overwhelming advantage. In just a few more breaths, this guy would be completely defeated.

Lin Yi wasn't satisfied with this-for someone who could do multiple things at once, the more powerful the moves, the more power they could unleash in one go, especially when they didn't have to worry about using up their spiritual sense or Qi!

Sensing that the man's spirit defense had loosened, revealing a lot of gaps and openings, Lin Yi didn't hesitate to use the soul-devouring hand again, finally pulling the man's spirit out, leaving the man's strong body on the ground, completely crushed to pieces by the lightning and five elements killing intent.

Lin Yi relaxed and felt a little weak. It wasn't because he was exhausted, but because the battle was too dangerous. He was suppressed by the masked man almost the entire time. If it wasn't for Thunder burial's surprise, he didn't know how he would've died.

In the sea far away, LAN Guzha was still fighting with the black-clothed masked man. He didn't plan to dive into the deep sea first, probably because he didn't see Lin Yi leave.

Lin Yi picked up the storage bag the guy left behind. He thought that it was rare, but it seemed that it was only for those who weren't strong enough. It wasn't rare for the strong Masters to have storage bags.

The level five field was completely destroyed, and Lin Yi wasn't interested in cleaning it up. He sent a lightning arc towards where Lan Guzha and the others were fighting.

In just a breath's time, Lin Yi had already flickered dozens of times. The speed of the lightning escape technique was unparalleled. When he appeared in the sky above the battle, the masked man couldn't even see him.

"LAN Guzha, you actually leveled up in the middle of the battle!" Lin Yi used his pure energy to stay in the air for a short while, looking at the battle below in shock. LAN Guzha's aura was clearly much stronger, and it was still rising. This was a sign of a breakthrough!

How long had it been? Two minutes? LAN Guzha broke through to the early stage of mountain opening so naturally! Lin Yi had never heard of anyone breaking through like this!

Could the step from the heavenly Dao realm to the Titan realm be crossed naturally and casually like eating and drinking? Or could it be that LAN Guzha's mutated gene had already reached a heaven-defying level?

Chapter 6000 Hidden Death Sect

"Boss, you've already killed that guy? He was really too amazing! As expected of the boss! But you have to leave this to me, don't you dare snatch it from me!" LAN Guzha didn't care about his level at all, and he wasn't surprised at all that Lin Yi killed a mid-stage earth creation master. It was as if it was natural.

The only thing he was concerned about was that Lin Yi wouldn't steal his sparring partner again. It was rare for him to be able to fight so freely, and the more he fought, the more he could understand the practicing knowledge the fire Phoenix was teaching him. It was because of this that he suddenly broke through.

When LAN Guzha was still at the great circle of mysterious Ascension, he was only at a slight disadvantage. Now that he had broken through to the initial stage of mountain split and was in the sea, he could completely suppress this masked man who was at the great circle of mountain split.

"End the battle quickly and leave one alive! I'll be waiting for you on the island. Don't attract the powerful sea beasts!" Lin Yi saw that LAN Guzha was gradually gaining the upper hand and was getting stronger. There was nothing to worry about, so he returned to the island with his lightning escape technique after giving some instructions.

With his boss's instructions, LAN Guzha didn't dare to delay and attacked with all his might. As his strength was still rising, every attack was stronger than the previous one. The black-clothed masked man was crying out in pain. If he could escape, he would definitely choose to escape. Unfortunately, they were in the sea. If he wanted to escape from a sea serpent Dragon, he would have to have the lightning escape technique like Lin Yi.

Under LAN Guzha's bombarding, the masked man only managed to hold on for seven to eight breaths before he was captured alive by an opponent whose level was much lower than his. At the final moment, he was completely powerless to retaliate.

"Boss, I've caught this guy!" LAN Guzha returned to the island and transformed back into his human form. He threw the dying man in front of Lin Yi.

Lin Yi grabbed at the air and pulled off the guy's mask, revealing a normal middle-aged man's face. It was the kind that no one would notice in a crowd.

"Tell me, who are you people, and why are you chasing me?" Lin Yi used his spirit sense to check the guy's mouth carefully, making sure there wasn't any suicide poison or anything.

"Cut the crap. It's my life in your hands. You can do whatever you want to me, but don't think about getting any information from me!" The guy was quite tough-he'd been beaten up pretty badly by LAN Guzha, and yet he was still looking at Lin Yi with disdain.

LAN Gu gave this guy a big slap and sent half of his teeth flying.

"The boss asked you a question and you answered honestly. Who are you acting like a boss to? Do you believe that your Grandpa LAN will directly chop you up, steam you, roast you, and throw you into the sea to feed the small fish?" LAN Guzha cursed and slapped again.

This guy spat out the clotted blood in his mouth, sneered, and turned his head away, no longer speaking.

"A dead pig isn't afraid of boiling water, I don't believe I can't deal with you! Boss, can I beat him up as hard as I can?" LAN Guzha was enraged. He asked for Lin Yi's permission as he raised his arm, ready to beat someone up.

Lin Yi waved his hand, his face cold. "There's no use beating him up. Since he doesn't want to answer, I'll search his soul directly!"

The guy's face went pale-he wasn't afraid of death, but he was afraid of being soul searched. His only hope now was that Lin Yi wasn't really soul-searching, and was just scaring him.

But he immediately knew that Lin Yi wasn't joking-his spirit was being devoured by a strong force, bit by bit. It wasn't fast, but the fear crushed his heart.

"Wait, stop! I'll tell you, I'll tell you everything, stop!" An expert at the great circle of mountain split realm almost peed his pants at this moment. The feeling of his primordial spirit being slowly devoured was worse than death. Those who had never experienced it would definitely not be able to imagine it.

"I'll give you one last chance, speak!" Lin Yi smiled faintly and retracted his spirit sense.

The essence spirit devour was just a scare tactic-it wasn't easy to digest, and soul-searching was something that couldn't be stopped once it started, so it was best not to use it so easily.

"We're from the East continent's hidden death sect. We're here to kill you because we received a mission. Actually, we don't have any grudges with you, Master Lin. If you can let me go, I'll cancel this mission and never come to find trouble with you again. " The guy was sweating all over, panting heavily as he finished his sentence. He didn't even dare to stutter, afraid that Lin Yi would be unhappy.

"Hidden death sect? So your sect is an assassination organization? Who is the one who issued this mission?" Lin Yi frowned. Why did the eastern continent's assassin group look for him? If the people from torrent city and night Moon City had come for revenge, it would not have been so fast. Could it be that they were assassins from Morning Star City?

"I really don't know who the person who posted it was. It was all done by the sect. We're only in charge of carrying out the tasks that were assigned to us. If Master Lin is willing to let me go, I'll definitely go back and find out about this matter for you. I'll definitely find the person who posted it!" This guy calmed his breathing and seized the opportunity to plead for him.

"How many assassins do you have in your sect? What's the level of the strongest? What level of strength do you have?" Lin Yi ignored the guy and continued to ask about the situation in hidden death sect.

"Master Lin, I'm really not too sure about the questions you're asking. The total number of assassins in the sect is kept a secret. My level is not high enough to know. It's the same for the strength of the strongest. But I guess there should be a super expert in the sea splitting stage." The guy smiled bitterly as he looked at Lin Yi-this wasn't a satisfactory answer, and he only hoped that Lin Yi wouldn't start soul-searching or something ...

The guy quickly continued after seeing Lin Yi's frown, "Our hidden death sect's assassin ranks are divided according to strength and the number of missions completed. On the surface, they are divided into four ranks: heaven, earth, black, and yellow. In fact, there is an even higher Saint-ranked assassin, but very few people know about it. The other one and I are both earth grade killers. "

"Earth stage and mountain opening stage are only earth grade killers? Then what are the requirements to become a heaven grade?" Lin Yi's heart grew heavy. This hidden death sect's strength was truly unfathomable. The guy who forced him to almost lose the ability to escape was only an earth grade killer?
