

Bodyguard 6001

Chapter 6001 More Pursuers?

"To advance to heaven rank, the minimum requirement is the earth-opening stage. Then, you have to complete enough missions and have a high success rate. The guy you killed, Master Lin, didn't advance to heaven rank because he didn't complete enough missions." Thinking about how Lin Yi had just killed a mid-stage earth creation master, the guy couldn't even think of fighting back.

"Where is hidden death sect in the East Province? Draw me a map!" Lin Yi didn't have the strength to deal with hidden death sect now, but he didn't know what would happen in the future. If these guys were still haunting him, he'd go to their nest and solve the problem once he got stronger.

Master Lin, I don't know the exact location of hidden death sect ... "The guy was on the verge of tears. He wanted to cooperate with Lin Yi but he really didn't know how to answer these questions." "We all used the teleportation array to return to the headquarters. The teleportation array is located in a small town in the East continent. You need to prove that you are a member of hidden death sect before you can pass through. I can draw a map of this place for Master Lin."

He didn't want to piss Lin Yi off, so the guy started drawing on the ground, drawing out the cities around the town. He knew where the town was, and he explained how to get to the teleportation formation and how to get in there.

Lin Yi took one look and remembered it. This hidden death sect seemed to be quite mysterious. If they didn't come to provoke him again, he wouldn't bother making such a strong enemy.

But if they were still around and had a clue to the map, Lin Yi would definitely uproot hidden death sect when he became stronger.

"Master Lin, I've already told you everything I know. If you're satisfied, why don't you let me go?" The assassin raised his head carefully and looked at Lin Yi, hoping that his cooperation would move him.

Although he knew that he didn't reveal much information, he still hoped that Lin Yi would let him go.

"When did I say I'll let you go? You took the initiative to tell me, so that you can avoid the pain of soul searching. Now, you can die in peace!" Lin Yi glanced at the assassin indifferently. He wasn't going to let this guy go and get more assassins to deal with him.

Lin Yi had been an assassin before, and he knew that failing a mission would only send more and more powerful assassins to continue the mission. If these two assassins disappeared, Lin Yi would have some time to prepare before hidden death sect confirmed the situation.

The assassin was slightly stunned, but he did not continue to beg for mercy. He did not care about his life and death. As long as he did not have to suffer the pain of soul searching, he would not care if he died.

Lin Yi lifted his hand and sent the guy's spirit into the Jade space, taking his storage bag as well.

He scanned it with his spiritual awareness. Other than some spiritual Jade cards and some spiritual Jade that were worth millions, there were only some healing and recovery pills. There was nothing particularly precious.

"LAN Guzha, this storage bag is for you. It's your spoils of war. It'll be more convenient for you to bring food in the future." Lin Yi put in some spirit Jade cards and some earth-opening meat before throwing the storage bag to LAN Guzha.

LAN Guzha wasn't going to stand on ceremony with Lin Yi. He thanked Lin Yi with a smile and kept the storage bag close to him.

"Boss, what do we do now? Do you want to rest here or continue on your way?" LAN Guzha looked around. The small island had become dilapidated after being ravaged by the lightning burial. However, it would not be a problem to use it as a place to rest.

It was mainly because of the few aerial spirit beasts. Due to the previous battle, they did not know where they had flown to. If they wanted to continue their journey, they could only let LAN Guzha transform back to his true form and walk through the sea. In this way, it was necessary for them to rest for a while.

"Stabilize your strength first, then we'll leave!" Lin Yi didn't want to stay for long, but LAN Guzha had just broken through. It would be too rushed to leave now.

Of course, LAN Guzha did not have any objections. He immediately sat down cross-legged and began to cultivate. After less than an hour, he had completely stabilized his strength after the breakthrough and leaped up from the ground.

"Boss, let's go!" LAN Guzha transformed back to his true form after he finished speaking and fell into the sea.

Lin Yi jumped onto LAN Guzha's back, got his bearings, and finally set off on his way back.

"Boss, I wasn't wrong, right? I'm much faster than those two stupid birds. If I had carried you back earlier, we might not have met those two assassins!" After LAN Guzha had advanced, his speed had increased by a large margin once again. He was at least two times faster than the previous two flying spirit beasts. It was no wonder that this fellow started to boast.

"Just don't attract the attention of any earth-creation stage sea beasts. We have many more enemies in the sea than on land." Lin Yi didn't dare to be careless at all, extending his spirit sense to the limit.

Lin Yi had killed many powerful sea beasts in the battle on the northernmost Island, but if he were to encounter a land opening sea beast here, the danger would definitely be higher than the two hidden death sect assassins.

After another thousand miles, Lin Yi's spirit sense found another flying spirit beast chasing after him. Its speed was even faster than LAN Guzha's, and it was obviously of a higher level than the two on the northernmost Island.

"LAN Guzha, we seem to be in trouble again!" Lin Yi looked back indifferently. He had a feeling that the flying spirit beast was coming for him, but he didn't know who it was.

"Boss, who's so blind to actually come and find trouble with us?" LAN Guzha was already getting excited. If someone was looking for trouble, it meant that they could fight again!

The battle with the assassin from hidden death sect had given LAN Guzha a taste of the sweetness. This fellow was now hoping that someone would come looking for trouble and give him a chance to practice his skills.

It was not easy to find such a free sparring partner. Hence, although LAN Guzha appeared to be angry, he was actually very welcoming of trouble.

"Maybe it's in the same direction. Slow down and wait for them to catch up!" Lin Yi smiled faintly as he continued to lock his spirit sense onto the flying spirit beast.

There were two people riding on it, and Lin Yi found one of them familiar. He remembered that it was the master who followed him after the auction of the spirit gathering branch.

Lin Yi had used the red dust manifestation to disguise himself as Shuang mu and got the spirit gathering branch in the auction hall. After the auction, four mountain opening Masters left their spirit sense marks on him, and two of them, uncle li and Ober, were already killed. Dachang Lu was familiar with him, but he didn't know this guy.

Chapter 6002 The Blissful Valley's Trade Request

When the guy realized that something was wrong, he immediately left, so Lin Yi didn't pay much attention to it. He didn't expect to be among the pursuers this time. The other one on the flying spirit beast was someone Lin Yi had never seen before, but he seemed to be around the peak of the mountain opening realm.

"Two cultivators at the beginning stage of the mountain opening stage, they really look down on people! Boss, can you give them to me?" LAN Guzha's spirit wasn't any weaker than Lin Yi 's, so he could see through their strength. He wanted to pull both of them into his hands-it'd only feel good beating them up like this.

"The flying spirit beasts they're riding on are also at the mountain opening stage. Don't underestimate your opponents!" After witnessing the power of a mid-stage earth splitter, Lin Yi didn't have much respect for an opening mountain practitioner anymore, especially since LAN Guzha was strong enough to take on a peak opening mountain.

"I wonder if the flying spirit beast will be delicious. Boss, do you want to try roasting the flying spirit beast?" LAN Guzha laughed and did not care about the pursuers behind him. It was just three mountain-opening periods, what was the big deal? A fight would only be meaningful if there were many opponents!

After Lin Yi and LAN Guzha slowed down, the flying spirit beast caught up very quickly and blocked their way. Lin Yi's premonition was right-it was coming for him.

"Good dogs don't block the way! Who are you two, how dare you stop me and my boss?" LAN Guzha roared loudly. He was already eager to make a move at the first sign of disagreement.

"Master Lin, I'm sorry for disturbing you!" The flying spirit beast hovered half a meter above the sea, its wings causing waves. The peak-stage mountain splitter smiled and cupped his fists at Lin Yi, not seeming to have any bad intentions.

LAN Guzha was secretly unhappy. Was he not here to fight? Isn't that a waste of my feelings! He really needed a beating!

"Who are you two? Why are you looking for me?" As the saying went, "don't hit a smiling person." The other party was being very polite, so Lin Yi could only smile and cup his fist.

"We're sorry for being impolite. We're from the bliss Valley of the East continent. I'm Hao Zili, and this is min huichen!" Hao Zili smiled as he introduced himself and min huichen, who had been following Lin Yi.

The two didn't show any hostility at all, as if they were old friends who came to see Lin Yi off. In fact, Lin Yi had never met them face to face, only under the identity of mu Shuang.

"When we were at the northernmost Island, we wanted to visit Master Lin. Unfortunately, you've been in closed-door cultivation at Master Li Zao's place. When you finally came out, we heard that you'd left the northernmost Island, so we could only catch up to you. Fortunately, we didn't miss Master Lin." Seeing that Lin Yi didn't say anything, Hao Zili explained why he came, but he didn't tell Lin Yi what he wanted to do.

"Cut the crap! Can't you see that boss and I are on our way?" LAN Guzha raised his body impatiently and overtook the flying spirit beast that was hovering above the sea. He was not used to being looked down upon by others.

Hao Zili did not mind. He maintained his polite but distant smile and nodded slightly to LAN Guzha. He then continued, "I'm looking for master Lin to discuss something. Although it's not too formal to discuss it here, I have no choice but to make do with it."

"Mr. Jin, please speak your mind. We don't have much time." Lin Yi smiled, wondering if they were looking for him to make elixirs.

If it was just refining pills, it was not impossible to discuss. Seeing that their flying spirit beasts were extremely fast, they could go to the North Island together first. It would not be a problem to save time and refine a furnace of medicinal pills.

"Then I won't stand on ceremony. We're here today to ask Master Lin to part with the soul-gathering branch that you've obtained. As for the price, I definitely won't let you suffer a loss!" Hao Zili smiled as he looked at Lin Yi, but there was a hint of killing intent in his words.

Lin Yi's face turned cold. The branch was what he used to save han Jingjing. How dare these two B * stars touch the branch?

But the question was, how did they know that the branch was in Lin Yi's hands? With the uniqueness of the world of mortals, mu Shuang's identity would never be seen through by two people in the beginning stage!

"You two seem to have made a mistake, right? Although I also wanted the soul-gathering branch, I didn't manage to bid for it. It seems that you've found the wrong person to trade with!" Lin Yi's face was calm, but his heart was already prepared to fight.

Since these two from the blissful Valley came to him directly, they must be sure that mu Shuang was Lin Yi. Otherwise, they wouldn't offend a Mystic second level master so easily.

"Master Lin, we don't lie in front of the real person. We all have a tacit understanding whether the soul-gathering branch is in your hands or not. We're willing to pay a higher price than the auction price. That's already enough to show our sincerity!" Hao Zili still maintained his fake smile, but his tone was not as polite as before.

"Master Lin, are you wondering how we knew that you were mu Shuang?" Min huichen, who had been silent all this while, suddenly interrupted, ""It's actually very simple. The day before, you won the bid for

the red dust manifestation, and the next day, an unknown Shuang mu appeared. Shuang MU's mayfly forest. Other than that, even though you removed my spirit sense mark, there are still records of the spirit tempering pills you put up for auction. In the entire northernmost Island, other than you and Li Zao Yi, who else can make the spirit tempering pill?"

Lin Yi was speechless. This was a loophole indeed. When he left the northernmost Island, he didn't go to the auction house to settle the payment for the soul quenching pill. For one thing, he didn't need the spirit Jade now, and for another, he didn't want to expose his relationship with mu Shuang.

He didn't expect that in the eyes of people with ulterior motives, that seemingly rigorous plan was actually full of loopholes.

But it didn't matter-as long as he got the spirit gathering branch, so what if others knew that mu Shuang was Lin Yi? It's only two mountain-opening stages, and LAN Guzha still thinks that it's not enough to have too few opponents!

"I don't know what you're talking about. Get out of the way and don't get in my way!" Lin Yi wasn't afraid of these two, but he didn't need to make enemies. Plus, they didn't even make a move yet.

"Master Lin, we are very sincere in making this deal with you. Other than getting sufficient compensation, you will also gain the friendship of the East continent's blissful Valley. This is a once-in-a-lifetime opportunity. Is there anything that Master Lin is not satisfied with?" Hao Zili put away his smile and pretended to be surprised, as if he thought that it was already a great honor for Lin Yi to be able to trade with the valley.

Chapter 6003 Fight Over A Word

"Boss, what is the blissful Valley? A high-level toilet? This was very vivid. Every time I ate too much and had a stomach ache, I would feel extremely happy after excreting everything. This was simply known as bliss! That's what you mean, right?" LAN Guzha was deliberately spouting nonsense to humiliate the

blissful Valley. Other than disliking Hao Zili's pretense, he wanted to annoy the other party so that they could start a fight.

Lin Yi chuckled to himself. LAN Guzha had a time when he ate too much? There was never enough time!

"You're looking for death!" Hao Zili's face darkened, and his fake smile disappeared completely. He raised his hand and threw a punch at LAN Guzha.

It was just a sea serpent Dragon at the early stage of the mountain opening realm. Did it think that it was invincible in the sea? With the two of them and an aerial spirit beast, none of them were weaker than LAN Guzha!

If Hao Zili had known that Lin Yi and LAN Guzha had just killed two earth-rank killers from hidden death sect, he would not have even thought about doing it.

"LAN Guzha, I'll leave it to you! Old rules, end the battle quickly!" Lin Yi smiled faintly, his eyes cold. Since the other party had made a move, there was no need to be polite.

"Don't worry, boss. I'll do the right thing!" LAN Guzha roared excitedly. His wish had finally been fulfilled and he could finally show off his skills!

Lin Yi tapped his feet and leaped into the air, allowing LAN Guzha to use his strength to his heart's content. All he needed to do was to support LAN Guzha from the side.

Hao Zili's fist was blocked by a condensed ball of water in the air. With a loud explosion, LAN Guzha's big head passed through the scattered water and appeared in front of Hao Zili in an instant.

The flying spirit beast shrieked and flapped its wings. It instantly rose a few feet and barely dodged LAN Guzha's sudden attack. If it were not for its speed advantage, the flying spirit beast and Hao Zili would have been slapped into the sea by LAN Guzha.

"How is that possible? It's actually so powerful!" Hao Zili was shocked. Even though his fist had destroyed LAN Guzha's water ball, it was still slightly numb. It was clear that LAN Guzha's combat power was not inferior to his.

Min huichen originally wanted to attack Lin Yi in mid-air, but seeing that the situation was not good, she could only team up with Hao Zili to deal with LAN Guzha first!

As the Dragon roared, countless water pillars rose into the sky and formed a huge cage. It constantly suppressed the space that Hao Zili and the others could move in.

In just a breath's time, the flying spirit beast began to look a little miserable. If it were not for Hao Zili and min huichen's joint efforts to block the numerous water pillars, it might have been hit by LAN Guzha's water pillar cage.

"When did LAN Guzha learn this move? He's really powerful!" Lin Yi was secretly overjoyed. He used his Qi to fly far away and threw a box into the sea from the Jade space, landing lightly on the surface.

The situation in the water pillar cage was no longer visible to the naked eye. Fortunately, Lin Yi's divine sense could still clearly feel all the changes. With LAN Guzha's strength, although he had the advantage now, it was not an immediate victory.

In fact, LAN Guzha was able to gain a slight upper hand mostly because of the ocean's home ground and this unexpected move. In terms of actual combat power, he was still far from being able to suppress three mountain opening stage experts at the same time.

"Hahahaha! Do you know how powerful your Grandpa LAN is now? There are even more powerful ones coming soon, take this!" Lin Yi could hear LAN Guzha's gleeful laughter from a distance. It seemed that this guy was having a good time fighting, and LAN Guzha's aura was clearly increasing during the battle.

Previously on the island, LAN Guzha had only stabilized his cultivation base after advancing a little. He did not seem to have fully digested the insights that the fire Phoenix had imparted to him. Now, through the intense battle, he was further improving LAN Guzha's strength.

Perhaps, if he wanted to advance another level, the chances of breaking through to the peak of the initial stage of the mountain split realm would not be high. However, at the very least, he could completely stabilize his strength at the initial stage of the mountain split realm and have the opportunity to advance at any time.

Lin Yi didn't pay much attention to the intense battle in the water pillar cage. After making sure that LAN Guzha could handle it, he released most of his divine sense to monitor the movements in the surrounding sea. After all, they were in the territory of the sea beasts. The fluctuations of the battle might attract the attention of the sea beasts.

It turned out that Lin Yi's worry wasn't unnecessary. It had only been a short while, and there was already a sea beast rapidly approaching them. It wasn't weak, either-it was at the peak of the middle stage of mountain split.

If the sea beast discovered Lin Yi and LAN Guzha, their journey would be in big trouble. Unless they killed the sea beast as soon as possible, Lin Yi wasn't sure if there were other sea beasts coming. After all, there was nothing in the sea except for sea beasts.

No matter what, Lin Yi didn't want the appearance of this sea beast to disturb LAN Guzha's rapid increase in strength. So he jumped lightly and put away the box in the water, shooting out a lightning arc to meet the sea beast.

After a few flashes, Lin Yi and the sea beast collided head on, and the flames of the raging fire Bagua Palm exploded!

The eyes of the sea beast at the peak of the middle stage of the mountain split realm revealed a faint look of disdain. 'Using a fire attribute martial technique in the sea ... Is this guy's brain damaged?' Don't you know that most sea beasts are Water-type?

Lin Yi's Thunder escape technique had made the sea beast a little afraid, but he didn't expect Lin Yi to use a fire element martial skill in the fight, and it was a simple and low-level martial skill at that. He looked down on Lin Yi a little. He probably didn't hear about Li Zaixiang and fire Phoenix destroying the sea beast tide with one move, or he wouldn't underestimate Lin Yi.

Initially, the raging fire Bagua Palm wasn't too high level, but it was a new skill that Lin Yi created after combining two skills. He had to figure out the rest of the tricks himself, and as his strength increased, so would its power. It was easy for him to be invincible among the same level, and it was very useful for fighting against those of a higher level.

The reason why he chose to use the palm in the sea was to test his theory. When he was fighting with Feng Hu, he realized that the power of the palm was stronger than before after merging the two refinement fires. It was true that water could suppress fire, but in a situation where it was just a drop in the ocean, fire could still burn the water dry!

The sea beast was a little sneer, so its attack was a little casual. There was no need for it to be on guard against a human cultivator at the peak of the late stage of the mysterious Ascension realm who used fire-type martial arts techniques.

A ten-meter tall wave suddenly rose up, enveloping the space around Lin Yi. Unless he used his lightning escape technique to retreat immediately, he would have to face the waves of attacks, each stronger than the last.

Chapter 6004 Taking In Two Followers

"Ants of the human race, there's no space for you to live in the ocean!" The sea beast sneered, but in the next moment, he couldn't continue!

The endless flames spread across the ten-meter tall wave like a Prairie Fire. The closer it got to Lin Yi's body, the weaker the wave became. In the end, it completely dissipated, leaving only a large cloud of mist.

Lin Yi's momentum didn't change, and the sea beast's attack didn't stop him at all. The power of the wild fire Bagua Palm rose to its peak.

There wasn't a loud explosion-the sea beast didn't even have time to react due to its miscalculation of Lin Yi's strength. It watched as Lin Yi's palm landed on its forehead, and the violent flames didn't burst out immediately, but surged into its body.

If it was a normal fire element martial arts, it would be extinguished as soon as it touched the surface of the sea beast's body, let alone entering its body. However, Lin Yi's raging fire Eight Trigram palm was not as simple as it looked. When the sea beast realized that it was too careless, everything was already over.

The brutal fire burned all the meridians in the sea beast's body. It was a powerful existence at the peak of the middle stage of mountain split realm, but it was like an ant in front of Lin Yi. It couldn't even block one move and died!

Lin Yi let out a breath of air, feeling quite satisfied. The wild fire Bagua Palm was one of the skills he was very comfortable with. He thought it was useless against higher level opponents before, but now it didn't feel like it was a waste to throw it away anymore.

Lin Yi didn't let the body of the mid-stage peak-stage sea beast go, either-he put it into the Jade space. After all, leaving it alone would only attract more sea beasts.

Lin Yi's divine sense swept back to LAN Guzha's side. The water pillar cage was still trapping Hao Zili and the others, but the two of them and the flying spirit beast were Masters after all. After a short moment of panic, they had stabilized their position and were on par with LAN Guzha.

"It seems like there's no way to determine the victor in a short period of time. LAN Guzha's strength has also reached its limit!" Lin Yi calculated in his heart-staying here would obviously do more harm than good. It was time to break the balance between the two sides!

"LAN Guzha, we have to leave immediately. Let's work harder to get rid of them!" Lightning arcs flickered and Lin Yi returned to the outside of the battle. He raised his hand and sent ten arm-thick lightning arcs into the water pillar cage.

These lightning arcs were not enough to cause fatal damage, but as long as they touched it, they would definitely paralyze the other party and delay their movements. It was the most suitable for breaking the stalemate.

"Boss! I'm sorry, I didn't finish the battle quickly!" LAN Guzha was a little embarrassed when he saw Lin Yi fighting. He said he could take care of it quickly by himself, but he still needed his boss's help. How could he ask for a fight in the future?

LAN Guzha exploded with his full strength and took control of the situation with the help of Lin Yi's lightning arc. Hao Zili and min huichen were flustered and embarrassed.

"Stop! Master Lin, please stop! It's our fault this time, please forgive us for our offense!" Hao Zili was scared witless. He quickly opened his mouth and asked for peace. He had completely forgotten how arrogant he had been before.

"Master Lin, the blissful Valley is willing to be friends with you. We don't have any deep grudges between us. It's really just a misunderstanding!" Once Hao Zili admitted defeat, min huichen quickly followed suit. It was not easy to cultivate to the mountain-opening stage. There was no need to lose her life for some meaningless small matter and face.

The spirit-gathering branch was good, but he had to be alive to use it!

LAN Guzha did not care about the conceding of these two fellows. As long as their boss did not say anything, they would continue to fight until they were finished off!

"Give up resisting immediately, or we'll kill you!" Lin Yi appeared beside LAN Guzha like a ghost and looked at Hao Zili and min huichen coldly.

Lin Yi wouldn't have stopped if he didn't sense two more sea monsters approaching at high speed. Since more and more sea monsters were paying attention to the battle, it wasn't a good time to stay.

Hao Zili and min huichen felt a chill in their hearts. They looked at each other and stopped resisting obediently. LAN Guzha alone was enough to fight them. With Lin Yi, they would only be able to hold on for a few breaths if they did not surrender.

Lin Yi flipped his hand and took out three black pills. This was a poison he made when he was practicing, and it was perfect for controlling people who were afraid of death.

"Eat this poison. As long as your performance is satisfactory, I will naturally give you the antidote!" Lin Yi told them directly that it was poison, and they had no choice if they wanted to live.

Hao Zili and min huichen looked at each other again and saw the helplessness in each other's eyes. They had no choice but to lower their heads. If they wanted to live, they had to hand over their lives first!

The two of them were decisive people. Knowing that they could not resist, they simply took the poison pill and swallowed it. The flying spirit beast also ate one.

"LAN Guzha, get on the aerial spirit beast!" Lin Yi called out and jumped on the flying spirit beast first. LAN Guzha immediately transformed into his human form and jumped on as well.

The back of this flying spirit beast was quite spacious, more than enough for four people to ride on without feeling crowded at all. This was also one of the reasons why Lin Yi didn't continue to kill. With a flying spirit beast, it would be more convenient to get rid of the sea beasts.

"Let's go!" With Lin Yi's spirit sense, there weren't just two sea beasts approaching-there were more than ten of them! If he didn't leave now, he would be completely exposed!

Hao Zili was frustrated, but he didn't dare to say anything. He quickly signaled the flying spirit beast to follow Lin Yi's instructions. The poison was no joke. He could feel the power of the poison as soon as he took it.

The aerial spirit beast let out a low cry, flapped its wings, and quickly flew towards the South. Although there were two more people, their speed was not affected at all.

After a while, the sea beasts that gathered around were all out of Lin Yi's spirit Sense range. The sea beasts he met on the way weren't interested in flying spirit beasts, so the journey to the North Island was calm and peaceful.

Lin Yi was in a hurry to get back to the central island, but since he was on the way to the northern island, he had to stay for a while to visit Shangguan Tianhua, find the king of junk to make ghost speed wings, and see if he could speed up the fusion speed of the flying saucer with the starry sky flowing flame gold.

"You can go now. I will go to the East Province within a year. I will consider giving you the antidote after seeing your performance." Lin Yi and LAN Guzha landed on a quiet beach on the North Island and waved Hao Zili and the others away.

Chapter 6005 All The Materials Are Here

"Master Lin, do you think we can follow you around so that we can listen to your teachings at any time? anyway, we're not in a hurry to return to the East Province. Since you have this plan, you can just bring us along when you return!" Hao Zili smiled carefully, hoping that Lin Yi would allow them to stay.

The poison was so potent that if Lin Yi didn't go to the East continent within a year and caused the three of them to die, who would they go to? Even if Lin Yi really went to the East continent, who knew if he could find them? So the safest thing to do was to follow Lin Yi closely.

"Senior brother Hao is right. We are willing to follow Master Lin around. If you have any errands to run, you can leave them to us. We will definitely do our best for Master Lin!" Min huichen also expressed his opinion. He had the same idea as Hao Zili-they had to follow Lin Yi no matter what. They had to hang around in front of Lin Yi every day. Perhaps it wouldn't be long before he could help them detoxify when he was in a good mood. He couldn't even find anyone to perform on!

Lin Yi scratched his head. He didn't want to take these two as followers. He spared them because he wanted a fast flying spirit beast to leave the place quickly.

However, after thinking about it, he felt that it was not bad to have these two mountain opening experts as his followers. There were many things that he did not need to worry about, and he also had enough manpower and ability to complete them.

"Alright, since you want to follow me, then follow me. But for now, you'll have to wait here obediently. You're not allowed to step into the territory of the North Island! Do you understand what I'm saying?"

Lin Yi didn't hesitate. He arranged for the two to wait for him on the beach before returning to the island.

"Don't worry, Master Lin. We won't run around. We'll just wait here!" Hao Zili and Min Huichen bowed respectfully. They were already satisfied that they could stay. As for the antidote, they would get it eventually.

Since Lin Yi didn't want them to follow Beidao, then they could just stay here! In any case, there was nothing much to visit in a poor and remote place like the North Island. That's right, in the eyes of the people of the East continent, the North Island was a poor and remote place. Whether it was the density of the spiritual energy or the average level of strength, it was not worth mentioning.

Only the pavilion master of the rising Sky Pavilion, Shangguan Tianhua, could be considered an impressive figure!

Lin Yi went back to the North Island, and the first person he wanted to visit was Shangguan Tianhua, as well as asking when Shangguan Lan'er would be leaving for the East continent.

"Senior brother Lin, I'm very sorry. The pavilion master and the young lady are currently receiving a guest. It's not convenient for them to see you at the moment. If you have time tonight, the pavilion master would like to invite you over for a chat." A young disciple said respectfully as he stood beside Lin Yi in the reception room.

Although Lin Yi was a disciple of the GreenCloud Pavilion, he was still a legend among the younger generation on the North Island. His reputation was almost on par with Gongyang Jie's, so this disciple didn't dare to treat Lin Yi lightly.

"Since the pavilion master is too busy, I'll visit you again tonight. Thank you for the information, Junior Brother." Lin Yi stood up and cupped his fists at the disciple before leaving with LAN Guzha.

"Boss, is this so-called Pavilion master very awesome? I didn't even get to see him. " LAN Guzha mumbled unhappily. In his heart, no one in the world was as powerful as his boss. Now that his boss had come to visit him personally, he was given the cold shoulder. This was simply preposterous.

"Don't talk nonsense. Pavilion master Shangguan is an elder I respect. He's busy every day, so it's normal that he can't get away. Didn't you hear that he's free at night?" Lin Yi glared at LAN Guzha. This guy was a Blabbermouth. It was fine if he offended irrelevant people, but it was bad if he offended someone he respected.

LAN Guzha retracted his head and chuckled drily. He immediately admitted his mistake.

"So you're boss's elder. Then you're my, LAN Guzha 's, elder. We'll visit you again tonight. I wonder if you'll treat us to dinner or something." Earlier in the guest room, LAN Guzha had some tea and snacks from the soaring Pavilion. He felt that the taste was not bad, so he was already planning for dinner ...

Lin Yi chose to ignore the glutton and went straight to the cave where the king of junk was forging-the guy was most likely at the forge.

The two of them were extremely fast and arrived at the cave in a short while. Lin Yi brought LAN Guzha through the restriction easily and scanned with his spirit sense. He found the king of junk staring at the pool.

"Brother Lin! You're back?" The king of junk would sense it when someone passed through the restriction, and he was overjoyed to see Lin Yi.

"It's only been a few days, do you need to be so enthusiastic?" Lin Yi smiled and pointed at LAN Guzha, "This is my new little brother, LAN Guzha."

"Nice to meet you, I'm Wang lanpo. Brother LAN can call me King of junk, everyone calls me that." The king of junk quickly greeted LAN Guzha with a fist salute. Those who could follow Lin Yi were all on the same side, so there was no need to be too polite.

"You look like a good person. You can just call me LAN Guzha. If anyone dares to bully you in the future, come to me directly. I'll help you beat them up!" LAN Guzha patted his chest hard, not forgetting to find some potential fighting opportunities for himself.

"Uh, okay ..." The king of junk didn't know how to answer for a moment, so he could only vaguely agree.

In fact, after Lin Yi's rise, there were very few people who dared to bully him. With Shangguan LAN 'er and Hong Zhong's care, the king of junk had been Living a Good Life for the past two years, and he was never bullied.

After all, he didn't have some positions like Xiao ran and the miserable man, so no one would find trouble with him for no reason.

No matter what, LAN Guzha had good intentions, and the king of junk was grateful for that. If he knew that LAN Guzha was just looking for a chance to fight, what would he think?

"Brother Wang, you don't have to worry about this guy. I came to find you because I have the ghost cicada wings." Lin Yi didn't beat around the bush and went straight to the point, taking out the jade box with the ghost cicada wings.

The king of junk's eyes brightened. He was also very interested in making ghost speed wings, but he had all the other materials except for the ghost cicada wings, which was the most important one. This made him feel very tempted. Now that he finally got the ghost cicada wings, he could start making ghost speed wings. He was in a great mood!

"It really is the ghost cicada wings! It's perfect!" The king of junk took the jade box and carefully opened the lid. He could not help but praise in a low voice.

"Brother Wang, the materials for the ghost speed wings are all here. I wonder how long it will take to make them?" Lin Yi was very concerned about this. Once he got the ghost speed wings, his mobility would increase by a lot. Whether it was fighting or escaping, it would definitely increase his efficiency by several times.

The lightning escape technique was powerful, and it allowed Lin Yi to use the lightning bolts to travel in the air at an extreme speed for a short period of time. However, using the lightning bolts consumed stamina and pure Qi, and he couldn't use it indefinitely.

Chapter 6006 Fusing The Masks

Although he had the space in the jade pendant as a supplement, it would take some time to convert it into physical strength and true Qi, and there would be a cooldown period in between. With the ghost speed wings, he could perfectly replenish and connect it. The effect was not as simple as one plus one equals two!

"The ghost speed wings will only take a few days. To be precise, it should take about five days. If you're in a hurry, brother Lin, I can speed up and try to finish it within three days." The king of junk calculated in his mind and gave Lin Yi a time that he was satisfied with.

In just three to five days, he could get the ghost speed wings. What was there to be dissatisfied about? Didn't he see that the lump in the forging pool had already been there for two to three years?

"Don't worry, take your time. We're after perfection!" Lin Yi waved his hand with a smile. It didn't matter if it was three or five days, it didn't matter to him. He had to get back to the central island, so it wasn't realistic to wait here for a few days.

The ghost speed wings would be complete by the time Lin Yi returned from Nakajima, and he'd be able to use it when he went to the East continent.

"Haha, brother Lin is right. What we are after is perfection!" The king of junk laughed. Lin Yi's words hit the nail on the head.

If not for the pursuit of perfection, how could Wang lanpo get the title of the king of junk with his forging ability?

To have a friend like Lin Yi, even if it was just one, was a great blessing in life!

"Brother Lin, I'm going to start cultivating the ghost speed wings now. Come and find me in a few days. I'll give you a perfect pair of wings!" The king of junk was about to start work.

"Wait, there's no need to rush. I've just arrived, and brother Wang is already preparing to ask me to leave?" Lin Yi laughed as he looked at the king of junk. The word "crazy about forging" was right.

"No, no. If brother Lin wants to stay, it's fine. With your help, it might speed up the progress." The king of junk waved his hand to show that he had no intention of chasing him away, but he still had to start refining the ghost speed wings immediately.

"Hey, King of junk, you asked the boss to stay and help. Are you trying to drive me away?" LAN Guzha was not stupid. He immediately caught the main point that he thought was the case.

The king of junk looked at LAN Guzha and grinned, but he did not say anything.

"Hey, hey, hey, King of junk, I thought you were a good guy just now. Did I see wrong?" LAN Guzha pretended to be displeased, but he immediately winked at the king of junk. The two of them looked at each other and laughed.

In terms of familiarity, Lin Yi really couldn't compare to LAN Guzha ...

"Alright, LAN Guzha, stop messing around. I still have something to talk about with brother Wang!" Lin Yi scolded with a smile as he took out the flying saucer wrapped in starry sky flame gold and handed it to King of junk.

"Eh? This is the starry sky flowing flame gold!" The king of junk's eyes lit up. He took the flying saucer and flipped through it fondly.

"Brother Wang has a good eye. I want to know how long it will take for the starry sky flowing flame gold to fuse. Can you increase the speed?" Lin Yi pointed at the flying saucer and looked at the king of junk with anticipation.

As long as the flying saucer finished fusing with the gold, Lin Yi's speed would be much faster.

"Was this flying device made by miss han? It's really her style, what a wonderful work! In terms of forging, miss Han's talent is probably even above mine!" Worn-out King sighed and nodded at Lin Yi, "Brother Lin, you've used a little too much starry sky flowing flame gold. As the saying goes, going too far is as bad as not going too far. That's why it's slowing down the fusion process. Otherwise, judging from the current situation, the fusion should have been completed."

"Too many?" Lin Yi blinked. He didn't think that it would be for this reason. Luckily, he didn't use up the whole ball of starry sky flowing flame gold-half was too much. God knew how long it would take for him to use it all.

"It's not difficult to finish the fusion as soon as possible. Give me some time. I'll just need to extract the extra starry sky flowing flame gold. I think it'll take two hours. But I hope brother Lin can give me the extracted starry sky flowing flame gold. I can add a little to the ghost speed wings. It'll be faster!" The king of junk couldn't take his eyes off the flying saucer-he didn't even look at Lin Yi.

"No problem. If you don't have enough starry sky flowing flame gold, I still have more here!" Lin Yi, of course, agreed right away-what reason did he have to reject something this good?

Thinking about how he'd be able to use the upgraded flying saucer in two hours, Lin Yi was very excited. From now on, he wouldn't need to use flying spirit beasts or battleships to travel between the islands. He could just use the flying saucer-it was so convenient!

"It's enough. I've calculated that there's more than enough. If I need more, I'll ask you." Trash King waved his hand. He didn't need to be polite with Lin Yi. As long as he needed it for forging, he wouldn't hesitate to give it to Lin Yi, no matter how precious it was.

"Brother Wang, let's see if these two masks can be fused together." Lin Yi took out red dust manifestation and the thousand-thread mask and gave them to wads.

The thousand-thread mask was a mask that Lin Yi used to use, but as he got stronger and faced stronger opponents, the weakness of the mask's low level became more and more obvious. It basically lost its purpose for disguising to xuansheng mountain opening stage cultivators, and that was why he bought the red dust manifestation mask.

But Lin Yi didn't want to throw the mask away after getting red dust manifestation-it'd be nice to add another familiar face to red dust manifestation if he could combine them.

"This mask is quite exquisite. It's a good quality. Brother Lin, it should be enough for you, right? There might not be a good result from the fusion, so why bother to fuse the two masks together?" Worn-out King put down the flying saucer carefully and compared the two masks before looking at Lin Yi strangely.

With red dust manifestation's abilities, it was enough for Lin Yi to use it until earth formation stage. The thousand silk mask wouldn't necessarily improve it, but failure might lead to some bad results.

"Ha ... I'm just used to using the thousand thread mask, so I don't really want to throw it away. It's fine if it doesn't work." Lin Yi shrugged. He'd rather keep the mask as a memento than use it.

"I didn't say no. It's just two masks. Don't worry, leave them to me!" The king of junk laughed and patted his chest confidently. He kept the two masks and said, ""I can give you the mask and the flying device tonight. If you have other good things, take them all out!"

Lin Yi smiled, "that's all for now. We'll talk about it after you're done. If you need anything, let me know. I might be able to find it for you."

Chapter 6007 Greetings To Shangguan Tianhua

Lin Yi did have quite a lot of materials for making weapons-they were all spoils of war. He didn't have anything he wanted to make yet, so he kept them in the Jade space for storage. If the king of junk needed them, he could take them out anytime.

"Alright, since there's nothing else, are you going to stay and help me or wait until tonight to come back and get it?" The king of junk shrugged his shoulders. In fact, he could not wait to start forging with so many good items. He did not care if there were other items.

"I'll come back at night. I'll take this time to take a look at my brothers in the GreenCloud Pavilion. " Lin Yi wanted to get the flying saucer and mask as soon as possible, but he had to visit Shangguan Tianhua at night. He'd have to wait half a day anyway, so he might as well visit Xiao ran and the others at the GreenCloud Pavilion.

"Alright, then I won't send you off. You guys go on your own!" The king of junk waved at them and picked up Lin Yi's flying saucer, starting to strip off the extra gold. This was the easiest job, and he'd only waste more if he delayed it. To the king of junk, wasting high-level materials was the most shameful thing!

Lin Yi smiled faintly and left with LAN Guzha. He'd known the king of junk for so many years, and he knew his personality very well-he didn't mind.

"Boss, shouldn't we go find a place to eat? My stomach hasn't been too good recently, so I'm always hungry. " After they left the cave, LAN Guzha began to cry out in hunger.

Lin Yi couldn't help but chuckle-he got hungry easily with a weak stomach? Was this because his appetite was too good? This guy really didn't stop talking about food. It was fine when they were at sea, but when they arrived at a lively place with people, he immediately revealed his true colors.

"If you're gluttonous, just say that you're gluttonous. Who do you think will believe you if you say that you have a bad stomach?" Lin Yi laughed as he pointed in the direction of the pavilion. "I'll bring you to my place and then I'll find something for you to eat. I don't know if it'll taste good, but you'll be full. "

"Boss is still the best to me! Then what are we waiting for? let's go!" LAN Guzha laughed out loud. He did not feel ashamed at all for having his lie exposed.

The two soon arrived at the pavilion, but they didn't see anyone familiar this time. According to the disciples, Lu bianren took Xiao ran and the others to the nearby Sea area for a short mission. They left for less than three days and would probably be back in two days. He probably calculated the time Lin Yi would take the ancient battleship to the North Island, but didn't expect Lin Yi to leave the northernmost Island on his flying spirit beast.

It was a pity, but Lin Yi didn't mind. After all, he'd only been here for a few days, and he'd be back soon after returning to the central island. There was no need to worry about not having a chance to meet again.

"Boss, what do we do now? Are we just going to wait here until it gets dark?" LAN Guzha asked in a muffled voice while eating.

Lin Yi scratched his head, thinking that if he knew this would happen, he would've helped the king of junk with the flying saucer and world of nature. It wasn't a good time to go back now, and he might disturb the king of junk.

"Do you want to stay here or go out with me? There are also many delicious things in the market of the North Island. " Lin Yi didn't want to wait here like an idiot. He had some time anyway, and it was good to bring LAN Guzha around.

Upon hearing that there was good food, LAN Guzha immediately stood up. He wiped his mouth and smiled, "Boss, then what are we waiting for? Let's go now, we don't want to delay the time we promised to visit!"

It was as expected! Lin Yi smiled faintly. LAN Guzha's reaction was exactly as he expected. After the two left the pavilion, they went to the North Island's market for a walk. When they saw that the sky was getting dark, they went straight to the sky Tower.

"Senior brother Lin, the pavilion master has instructed that if senior brother Lin comes, please go to the study room to find the pavilion master." The welcoming disciple saw Lin Yi and LAN Guzha and immediately greeted them with a big smile, cupping his fists in respect.

Not to mention Lin Yi's prestige on the North Island, just receiving Shangguan Tianhua in the study alone was enough to make this disciple extremely envious. Other than Gongyang Jie, Lin Yi seemed to be the only one in the younger generation who had this kind of honor.

"Alright, thank you for your trouble, Junior Brother!" Lin Yi thanked him with a smile.

LAN Guzha followed suit and followed Lin Yi in. The disciple opened his mouth, wanting to say that the Shangguan Pavilion master would only be meeting Lin Yi alone, but he didn't seem to want to say that. After a moment of hesitation, the two had already turned around the eaves and were walking into the yard. He didn't say anything more.

If this disciple had stopped LAN Guzha from entering, Lin Yi would have asked him to stay outside out of respect for Shangguan Tianhua. But since no one said so, he'd just follow.

"Senior Shangguan, junior Lin Yi is here to pay his respects!" Lin Yi arrived outside Shangguan Tianhua's study room and greeted him with a fist salute.

"Come in!" Shangguan Tianhua's voice was emotionless, and Lin Yi wasn't sure if he was happy or not.

However, when he entered, he saw Shangguan Tianhua nodding at him with a smile. He seemed to be in a good mood.

"Lin Yi, long time no see, you've gotten a lot stronger! And this friend of yours, his strength and potential are quite good!" Shangguan Tianhua put down his brush and walked around the desk, gesturing for Lin Yi and Lin Yi to sit on the chairs.

"This is my friend, LAN Guzha. LAN Guzha, quickly greet senior Shangguan!" Lin Yi gave a simple introduction and glared at LAN Guzha.

This fellow was usually quite clever, but why was he so silly today? he did not even know how to greet Shangguan Tianhua when he saw him?

"LAN Guzha greets senior Shangguan!" LAN Guzha hastily cupped his fists and bowed. He greeted Shangguan Tianhua with respect. To be honest, he was quite happy with Shangguan Tianhua's praise. Naturally, his impression of Shangguan Tianhua improved.

Shangguan Tianhua looked at LAN Guzha with a profound look, smiled and nodded, "LAN Guzha? You're not bad. Cultivate well and you'll have a great future!"

Lin Yi looked at Shangguan Tianhua suspiciously. Could it be that langu Zha's identity as a Dragon had been exposed? Or was he just being polite?

Even if LAN Guzha's identity was exposed, it wouldn't matter. It wasn't a big deal, and she believed that Shangguan Tianhua wouldn't make things difficult for Lin Yi and Lin Yi.

"Senior Shangguan, I wanted to visit you when I passed by the North Island last time, but I couldn't come. I finally get to see you today!" Lin Yi smiled and started a topic.

"Is there something new you want to tell me so that I can broaden my horizons?" Shangguan Tianhua asked with a smile. He did not have the lofty aura of the pavilion master of the rising Sky Pavilion at all. Instead, he was as friendly as the old man next door.

Chapter 6008 The Discussion About Central

"There are indeed many things I want to discuss with senior Shangguan." Lin Yi pondered for a while. He wanted to talk about the ancient martial world, but he realized that the northernmost Island was more important, "This time, a large-scale sea beast tide occurred on the northernmost Island. There were also spies from both inside and outside, and they almost conquered the northernmost Island. I wonder if senior Shangguan has heard of this news?"

After the sea beast tide had subsided, Lin Yi had spent two to three days making the recovery pill, so it was normal for the North Island to receive the news. As expected, Shangguan Tianhua nodded lightly, indicating that he had heard of it.

"What's the situation? can you tell me in detail?" Shangguan Tianhua didn't say how much he knew- perhaps he wanted to confirm with Lin Yi. After all, even if he did receive the news, he wouldn't know more than Lin Yi, who was involved in it.

"No problem! "It all started with a spirit beast that took human form ..." Lin Yi started with the discovery of the wind Tiger, then the underground passage leading to the beach, the chaos at the center of the northernmost Island, the destroyed formation base, the loosened restrictions, the powerful sea beast tide, and so on. He talked about them in general, but skipped everything about himself.

"So that's how it is. So many things have happened on the northernmost Island, and it almost fell. In the end, even senior Li Lin appeared. No wonder we received the distress signal, which was later canceled." Shangguan Tianhua had a look of realization on his face after he heard the whole story, and he even mumbled to himself.

"Senior Shangguan, did senior Li Lin ask for your help?" Lin Yi was a bit surprised-was there some sort of agreement between the islands? However, even if the North Island sent out reinforcements, they probably wouldn't be able to make it in time.

"You've met senior Li Lin, so you should already know about the Super families and The Guardian Convention, so there's no problem in telling you. " Shangguan Tianhua nodded and then shook his head."It wasn't me who received the distress signal. It was the ancestor of our Shangguan family."

Lin Yi suddenly understood. This was probably an agreement in The Guardian pact-ao Tianba had mentioned this to him before. If Li Lin was in danger, the sea-shattering eccentrics from the other noble houses would naturally help.

In that case, Shangguan Tianhua wasn't the strongest person on the North Island. Although Lin Yi couldn't tell his strength, he shouldn't have reached the sea shattering realm yet. Maybe he was close to Zhuang Yifan?

As for the Shangguan family, Lin Yi didn't find it strange at all. There was a Shangguan family in the ancient martial world, so it was normal for Sky Class Island to have one.

"Senior Shangguan, in fact, I suspect that the incident on the northernmost Island is related to an organization." Lin Yi put the Shangguan family matter aside for now and decided to talk to central.

"Tell me about it." Shangguan Tianhua nodded and did not continue the topic of the ancient aristocratic families.

"As I mentioned earlier, we caught a person who destroyed the array base. According to her confession, the whole incident was caused by the southern island Auction Association. They communicated with the sea beast clan through the Spirit beast clan and finally formed a large-scale invasion of the northernmost Island. It's the true core of the central Chamber of Commerce. " Lin Yi said that he'd gotten the news from aunty LAN, but central was just his own guess.

"I've heard of the central Chamber of Commerce. In fact, we've been paying attention to this organization for a long time!" Not only was Shangguan Tianhua not surprised, but he also seemed to have some understanding of central.

"Senior Shangguan, you've noticed the center? Who are you guys referring to?" Lin Yi blinked before returning to normal. With the rate at which the center was expanding, it was impossible to not attract the attention of the island leaders.

"I'm talking about my friend, the one who's been visiting the North Island recently. We were talking about central before. You two will have dinner with me later and get to know her." Shangguan Tianhua smiled faintly, not treating Lin Yi as an outsider at all.

LAN Guzha's eyes brightened at the mention of food, his impression of Shangguan Tianhua soaring. Lin Yi's focus, however, was not on the food.

"Senior Shangguan, who is the senior you are talking about?" If he was right, it should be the one who was bringing Guan LAN 'er to the East continent, but Lin Yi still didn't know who he was.

"She's Zhang jinmiao, the vice principal of Feiyang Academy in the mystic class Sea area of the East continent. LAN 'er is going to follow her to Feiyang Academy to cultivate. I've spoiled this girl too much. She refused to cultivate in the North Island, so I could only send her to Feiyang college for others to

discipline her. " A dotting expression appeared on Shangguan Tianhua's face at the mention of Shangguan LAN 'er-Lin Yi could tell with one look that she was telling the truth ...

However, this was not the main point. The main point was that Shangguan Tianhua was actually friends with the vice principal of the Academy in the mystic division Sea area! Lin Yi had already tried to overestimate Shangguan Tianhua's influence in the East continent, but he realized that he had still underestimated him too much.

The Vice Dean of a Mystic division sea Academy was not comparable to Zhang jinmiao in the Yellow Division sea. Although Zhuang Yifan could do whatever he wanted in the Yellow Division sea, he might not be able to do as well as Zhang jinmiao in the mystic division sea.

"You mean that central has attracted the attention of the East continent's Mystic class Sea area?" Lin Yi couldn't believe it. If someone from the mystic division were to make a move, even if central had already set up a trap on the other islands, they wouldn't be able to stop it. If they gave central a few more years to develop, the result would be hard to say.

"You can't say that. The mystic division doesn't really care about the other islands, and Zhang jinmiao only brought out her personal experiences to discuss with me. She didn't really care about the main point. However, after you bring the news of Thule Island, things might be a little different. " Shangguan Tianhua waved his hand with a smile and continued,""Let's talk about this later during dinner. Now, let's talk about something else. "

"Alright, I also want senior Zhang jinmiao to take central seriously. This organization is indeed very troublesome." Lin Yi said, changing the topic."Senior Shangguan, I've never heard of the Shangguan family when I was on the North Island. Does that mean that your family is the actual controller of the North Island?"

"Haha, it's not that you can't say that. In fact, every island has more or less an ancient family. The people who control the island on the surface are mostly the executors pushed out by these ancient families. For example, the North Island is controlled by the three great pavilions on the surface, but the ancient family, led by our Shangguan clan, is behind it. It's just that the spiritual energy density on the North Island is the lowest among the other islands, so its overall strength is slightly weaker than the other islands. " Shangguan Tianhua explained with a calm expression, but he did not seem to be discouraged at all by being weaker than the other party.

Chapter 609 Shangguan Tianhua's Commission

"Senior Shangguan, you said that the Shangguan family is the leader. Does that mean that there are more than one ancient family on the northern island?" Lin Yi was really surprised this time-he still didn't know much about Sky Class Island, and he wouldn't know how much strength was hidden under the surface until they showed it.

"You're very smart. You've guessed the truth with just one sentence. There are a total of three ancient families on the North Island, including the Shangguan family. Their overall strength is indeed not as good as the other islands, but they are not inferior in terms of top combat strength." Shangguan Tianhua smiled faintly, a faint pride in his eyes.

Lin Yi was shocked. Other than the Shangguan family, there were two other ancient noble families in the North Island? This strength was absolutely shocking.

"It's not convenient to tell you too much about these things for the time being. When your strength reaches that level, you will naturally come into contact with them. For now, you only need to have a rough idea in your heart." Shangguan Tianhua didn't want to continue, and Lin Yi didn't ask about the ancient houses on the island.

Lin Yi knew that there was an otian family in Nakajima, but judging from what he saw in Beidao, there might be other ancient houses hidden in the dark there as well.

"Senior Shangguan, if that's the case, there should also be ancient families in the west and south Islands, right?" Lin Yi thought about it-the nings were one of them, but he didn't know if they were from the South.

As expected, Shangguan Tianhua smiled and nodded. ""There is indeed one in the West Island, but the South Island is more chaotic, and the current situation is not clear. When The Guardian pact was made, the South Island was also part of it. However, a long time ago, the other islands lost contact with the ancient families of the South Island."

"Could it be because of the spirit beast clan?" Lin Yi felt that the possibility was very high. There were many masters in the spirit beast clan, especially the Azure Dragon and Vermillion Bird, who had the bloodline of a God beast. Their strength was even more terrifying. Being invincible among the same level was a small matter, but fighting above one's level was the norm.

"It's possible. No one knows the real situation, but there's something about the southern island that I want to tell you." At this point, Shangguan Tianhua suddenly hesitated for a moment.

"Senior Shangguan, please tell me what you need. As long as it's within my power, I will definitely do it!" Lin Yi could tell that Shangguan Tianhua wanted to ask him for help, but he didn't know how to voice it out.

"Well, it's not a big deal. I know you'll send LAN 'er to the East continent, but Vice Principal Zhang jinmiao has to wait for ao Tianba's fleet to complete the round trip to the northernmost Island and pick up the other recruits from the other islands in the East continent. The actual departure time is about a few months later. If you don't have anything to do in the meantime, I want you to help me make a trip to the South Island and gather some information. I don't trust others too much." Shangguan Tianhua took a sip of the tea and looked at Lin Yi, waiting for his answer.

"No problem. May I know what kind of information senior Shangguan needs me to find out? However, before that, I need to make a trip back to Nakajima. I don't think it'll take much time. " Lin Yi agreed without hesitation. He was indebted to Shangguan Tianhua, and no matter what request he had, as long as it didn't go against his heart, he wouldn't reject it.

Besides, even without Shangguan Tianhua's request, Lin Yi was planning on making a trip to the southern island. Putting everything aside, just the southern island project alone was like a Fishbone stuck in his throat. He wouldn't be at ease until he settled it.

Since Shangguan LAN 'er's trip to the East continent was still a few months away, there was enough time to investigate the southern island. Lin Yi's mood was quite good this time, especially since he was going to sail with ao Tianba.

"No problem. If you have something to do, go ahead. If you can find time to go to the southern island, then go. If you can 't, it's fine." Shangguan Tianhua nodded with a smile. He really wanted Lin Yi's help, not order him around.

After a short pause, Shangguan Tianhua continued before Lin Yi could say anything, "There are many places in the sea near the South continent that are controlled by the spirit beast clan. They collect high taxes, and it is getting harder and harder for human cultivators to survive in that Sea area. This is quite strange."

"Do you want me to investigate this matter?" Lin Yi's face was serious as well-he was the first to know about this. Something similar had happened when he went to the southern island, and it seemed like the situation was no longer under the control of the human race.

"You can say that, but I don't need you to take the risk. There are many masters in the spirit beast clan. Although your strength is good now, it's not enough in the South Island. In the past, as long as the human cultivators in the South continent sea didn't go to the spirit beast forest, they basically stayed out of the spirit beast clan's way. This time, the spirit beast clan suddenly invaded the living space of the human cultivators on a large scale. There must be something fishy about it." Shangguan Tianhua frowned, not sure how to explain it to Lin Yi.

"You want me to investigate why the spirit beast clan suddenly left the spirit beast forest? Or are you suspecting that someone is colluding with the spirit beast clan from the inside, and that's why they were able to occupy such a large area of human cultivators 'territory so easily?" Lin Yi understood what Shangguan Tianhua was getting at. He thought about central, and realized that even Shangguan Tianhua was suspecting that central was behind the spirit beasts "actions.

"Not bad! Don't go to the spirit beast forest and risk your life. You just need to gather information in the area controlled by the spirit beast clan and find out who is working with the spirit beast clan. I think you already have a guess in your heart, but I need more solid evidence to prove this guess. " Shangguan Tianhua's face was serious-Lin Yi guessed that it might be related to central, and he didn't dare to be slow.

"I understand! I will definitely take care of this matter. If it wasn't for the fact that I have to return to Nakajima, I would even want to set off to the southern island now!" If central was really behind this, then perhaps this was the southern island Plan! Or maybe it was just a part of the plan. No matter what, Lin Yi had to get to the bottom of it.

"We can't do it now. It's almost time for lunch. Let's go have a meal first and get to know Vice Principal Zhang jinmiao. She's an expert. With her backing you up, you'll be able to do whatever you want in the East Province!" Shangguan Tianhua was in a good mood, and even joked about it. He knew that even if Lin Yi wanted to do whatever he wanted, he would always rely on his own strength, not someone supporting him.

"Is it time to eat? Then let's hurry!" The moment he heard the word 'eat', LAN Guzha's spirits were instantly lifted. Just now, Shangguan Tianhua and boss were talking about the spirit beasts of the southern island. It was so boring that it made him feel drowsy. Only when it was time to eat could he wake up.

Chapter 6010 Zhang Jinmiao

"Hahaha, then let's go together!" Shangguan Tianhua laughed as he stood up and walked out.

Lin Yi glared at LAN Guzha. This guy was still the same, not forgetting to eat wherever he went. What an embarrassment ...

The three of them arrived at the dining room-there weren't any round tables, but small, long tables, and everyone was seated. Lin Yi let out a breath of relief when he saw the arrangement.

If it was a big round table where everyone was together, he was very worried that the dishes would be swept clean by LAN Guzha as soon as they were served. Then, he would really be too ashamed to visit the Shangguan family in the future ...

Shangguan Tianhua didn't know what Lin Yi was thinking. He sat down at the head of the table and waved his hand casually. "Sit wherever you like, I don't have so many rules here."

Even if he said that, Lin Yi didn't dare to break the rules. The first seat on the left was reserved for Vice Dean Zhang jinmiao. If no one else came, then it shouldn't be a problem to sit on the first seat on the right.

If he wasn't in front of Shangguan Tianhua, Lin Yi wouldn't have so many concerns. It was natural to feel uncomfortable when facing a respected elder.

Lin Yi had just pulled LAN Guzha to the right and was about to sit down when two beautiful women came in from the door. One of them was Shangguan LAN 'er, and the other was a middle-aged woman. She wasn't as pretty as LAN' er, but she had a graceful and Noble temperament that made people respect her with one look. She was definitely not a simple person.

He didn't need to ask to know that this beautiful woman was Zhang jinmiao, the Vice President of Feiyang college in the mystic division Sea area!

"Lin Yi, you came! Why didn't anyone inform me?" Shangguan LAN 'er was overjoyed to see Lin Yi as soon as she came in, and ran over to him. However, Curly Bear was one step ahead of her. The little guy quickly climbed onto Lin Yi's shoulder and rubbed his face affectionately when he saw him.

However, when LAN Guzha came over, Curly bear's body shook. It probably felt the sea Dragon's aura on that guy and waved its claws at Lin Yi in a hurry. It jumped on the ground and ran away immediately. It didn't even look back when Shangguan LAN 'er called it. There was no choice but to let it go.

"No rules!" Shangguan Tianhua's face turned serious as he shouted.

Even though Shangguan Tianhua had always doted on LAN 'er, Zhang jinmiao was her master now. How could she so casually walk past her master and greet someone else? He should have at least made a report.

"Senior brother Shangguan, LAN 'er is innocent and naive. Don't scare her like this!" Zhang jinmiao smiled and waved her hand, pleading for Shangguan LAN 'er. It seemed that she also liked this girl very much.

"Junior Sister Zhang, I want to find a strict teacher for this girl. If you dote on her so much, aren't you going to repeat my mistakes?" Shangguan Tianhua laughed bitterly, but since Zhang jinmiao had spoken, he could not say anything more.

Shangguan LAN 'er shrunk her head back and stuck out her tongue at Lin Yi before quickly turning back to Zhang Yingluo, "Master, don't listen to my grandfather. He just wants to make me go out and suffer. Master, you have to be my solid backing!"

"You little girl, you need to be taught well. Your grandfather is right!" Zhang jinmiao deliberately put on a cold face, but she could not hide the smile in her eyes. It would be a wonder if it could scare Shangguan LAN 'er.

"Lin Yi, this is Zhang jinmiao, the one I told you about before. She's Lan's master now. Sister Zhang, this is Lin Yi, a genius from the younger generation of the North Island. " Shangguan Tianhua glared at Shangguan LAN 'er, stood up, and briefly introduced the two.

"Lin Yi greets senior!" Lin Yi didn't dare to be slow and greeted with a fist salute. This time, LAN Guzha knew what to do and greeted him without Lin Yi's reminder.

"Lin Yi, I know you! I've been hearing someone mention you these days! He's indeed talented and handsome!" Zhang jinmiao smiled and looked at Shangguan LAN 'er. His meaningful gaze immediately made the girl's pretty face blush slightly, and she stomped her feet in dissatisfaction.

Shangguan Tianhua laughed out loud and beckoned everyone to take a seat. Then, he ordered the food to be served.

"LAN Guzha, have some Easterners or I won't bring you out anymore!" Lin Yi warned LAN Guzha with a voice transmission. This guy's table manners were too shocking. It was fine if it was anywhere else, but he had to save some face in front of Shangguan Tianhua and Zhang jinmiao.

LAN Guzha immediately nodded with a bitter expression. He had always felt that he was very gentle. He wondered what his boss's understanding was. It was really difficult. It should be fine to split it into two, right?

Shangguan Tianhua, as the host, raised a glass of wine and changed the topic to the northernmost Island, asking Lin Yi to describe the situation to Zhang jinmiao in detail.

Zhang jinmiao's expression turned grave after hearing the details of the sea beast tide's attack on the northernmost Island. Sea beast tides were not rare, but it was very rare to see a sea beast tide that was launched in collusion with the human race and the spirit beast clan, especially when it was likely to involve the center.

"Martial brother Shangguan, do you and Lin Yi both think that central has something to do with this?" Zhang jinmiao stopped drinking and looked at Shangguan Tianhua and Lin Yi with a serious expression.

"It's very likely, so I asked Lin Yi to go to the South continent to investigate before going to the East continent. With his strength, he won't attract the attention of the spirit beast clan, and he can also ensure his own safety. He's a very suitable candidate. " Shangguan Tianhua nodded slightly. He already felt that the center would become a major unstable factor on the Sky Class Island, so he wanted to find out more about the other party as soon as possible.

Lin Yi finally understood why Shangguan Tianhua wanted him to go to the southern part of the island. With his strength, normal mountain opening cultivators were no match for him. If he didn't enter the spirit beast forest, he could protect himself.

On the other hand, Lin Yi's strength wasn't even in the sect-opening stage yet, so he wouldn't attract the attention of the other party. The only thing he needed to worry about was Central's attention on him, but after he remade the red dust manifestation, there was nothing to worry about.

"If that's the case, then I'll have to trouble Lin Yi to make a trip to the South continent. As for the final preparations, we'll discuss them after you come back!" Zhang jinmiao smiled, her gaze towards Lin Yi becoming gentler.

"Don't worry, senior, this junior will definitely not let you down!" Lin Yi cupped his hands at Zhang jinmiao and changed the topic, asking about the mystic division Sea area, "Senior Zhang, we'll talk about the South Island later. Is it convenient for you to tell me about the mystic Sea? In fact, I've been to the yellow-class Sea area in the east continent and have always been looking forward to the mystic-class Sea area. This is a rare opportunity, so I want to ask for advice. "

"Of course, the mystic division Sea area isn't as mysterious as you think-it's not that different from the Golden Division Sea area. It's also made up of cities, schools, and sects from all over the world. The only difference might be that the spiritual Qi here is denser, and there are more Masters here." Zhang jinmiao smiled and nodded. She gave a general introduction, but Lin Yi wasn't satisfied with her answer.

"Lin Yi, I know that the entry requirements for Mystic division are very high. If you want to enter a Mystic division school, you'll have to be at least at the xuansheng stage. There are many students in the mountain opening stage, and the teachers are basically at the earth opening and sea splitting stage. They're really powerful!" Shangguan LAN 'er rushed to speak, and Zhang jinmiao just smiled at her, without any intention of interrupting or being unhappy.
