

## Bodyguard 6031

### Chapter 6031 The Conflict Between Hong Zhong And Wei Jiading

Hao Zili and the others had seen flying devices before. Most of them were in the shape of spaceships or flying cars, and the interior was very ordinary. It couldn't be compared to Lin Yi's flying saucer with a 360-degree panoramic monitor.

After seeing the flying saucer, Hao Zili and the others respected Lin Yi even more. They even felt that following Lin Yi might not be a bad thing.

When Lin Yi left the North Island, ao Tianba's fleet was on its way. If Lin Yi could wait for a day or two, he might be able to go to the middle Island with them.

Without Lin Yi on the ship, people like Cai Zhongyang and hou guanqi rarely left the house. On the other hand, those who didn't get along with Lin Yi were very active, like the Zheng family, Wei Jiading, and so on.

On the deck of the ancient warship, Wei Jia, who had just finished a small trade fair, saw Hong Zhong alone. He immediately went up and said arrogantly, ""Hong Zhong, you didn't find anything useful on the northernmost Island this time. I really don't know how you became the shopkeeper of the northern island. You're a waste of the Chamber of Commerce's resources. When I return to the middle Island, I'll definitely impeach you!"

"You can do whatever you want, but get lost now. I don't want to see people like you!" Hong Zhong didn't give him any face, and his eyes showed undisguised contempt.

Previously, Wei Jiading had opposed Hong Zhong in public and damaged the reputation of the Hong Chamber of Commerce. After being slapped in the face by Hong Zhong and forced to retreat, the two had basically fallen out. There was no need to be hypocritical and polite when speaking.

Wei Jiading was slightly stunned. Hong Zhong's strength made him a little afraid. If a conflict really broke out, although he still had two guards on his side, he had no confidence in dealing with Hong Zhong.

"Hongzhong, don't be too arrogant. Do you own the ancient warship? I like being here, what can you do to me?" In fact, anyone with a discerning eye could see that this guy was just putting up a strong front. He would probably immediately shrink back if Hong Zhong glared at him.

Hong Zhong shot a disdainful glance at Wei Jiading. It would be a disgrace to lower himself to such a person's level. Therefore, he only snorted coldly and turned his head to look at the sea, no longer paying any attention to Wei Jiading.

Veigar heaved a sigh of relief in his heart, but he didn't dare to continue provoking him. He laughed out loud and casually said that he would wait for him in Nakagama. Then, he turned around and left with his guards.

Zheng Tianqing, who was not far away, saw this scene and revealed a thoughtful expression. He chuckled and followed Wei Jiading into the cabin area. Then, he took a few steps forward and caught up with Wei Jiading. He whispered something in his ear.

Wei Jia was surprised at first, but then he smiled and pulled Zheng Tian Qing into his room to talk. As for what they talked about, whether it was Lin Yi or Hong Zhong, or both of them at the same time, no one knew.

Lin Yi, who was controlling the flying saucer, naturally didn't know what was happening on the ancient battleship. All his attention was on Han Jing Jing, and he didn't know if the spirit gathering branch he'd worked so hard for would work.

The closer he got to the middle island, the more nervous he got. If the concentration branch couldn't save Han Jingjing, what should he do?

"This flying device is so powerful. It's at least two to three times faster than me. If I use it to travel to and from the East continent, I can get there in a few days." Fei Yi's expression was extremely excited. Those that were faster than him were definitely extremely rare treasures, so he even began to take the initiative to speak and forgot his shyness.

"Rarely seen, often strange! You guys don't know how powerful boss is. If you follow boss and do well, you'll have benefits in the future!" LAN Guzha shot a disdainful glance at Fei Yi, but he was secretly pleased. It seemed that it was not bad to be a younger brother's big brother. It seemed that he would have to ask boss Xuanji to take in more younger brothers in the future.

Fei Yi immediately revealed a bashful expression. He bowed slightly to LAN Guzha and fell into silence once again.

"Brother LAN, you're very knowledgeable. Please take care of us in the future. Where did you buy this flying device? If it's possible, I would like to buy one too." Hao Zili quickly smiled and asked about the origins of the flying saucer.

He really wanted to buy it, but he didn't know how many spiritual jade pieces would be needed for such a high-grade flying tool.

"Where did you buy it? Don't joke around! This was personally made by boss! It was the only one in the world! You can't buy it even if you have a spirit jade mine!" LAN Guzha raised his head in pride. In order to create a glorious image for Lin Yi's boss, he gave all the credit to Lin Yi. Boss and sis-in-law were one family, after all.

As expected, Hao Zili and the others were all shocked. The way they looked at Lin Yi had completely changed. A Mystic second level Alchemist who was also a forger who could make such a high-level flying device, and he was so strong too-this was heaven-defying!

Lin Yi didn't bother explaining. He didn't care if he had one or two extra layers of light on him, but it was safer for han Jingjing to be hidden in the dark, in case anyone did something dangerous for her.

"All of you, be quiet. LAN Guzha, if you have the time, why don't you cultivate instead? could it be that you think that you're already invincible now?" Lin Yi said without turning his head. His tone was calm, but the people in the cabin immediately shut up.

LAN Guzha chuckled and took out a large piece of meat from his storage bag. He cooked it in the flying saucer's small kitchen and generously gave a little to his three little brothers. Then, he began to eat heartily.

At this time, the one LAN Guzha was most grateful to was han Jingjing. Only she would think of building a kitchen in the flying saucer. If it was really Lin Yi who was making the flying saucer, he wouldn't have made such a useless thing. For a foodie, han Jingjing's flying saucer was more than enough to destroy all other flying devices, even if it was of a higher level and faster speed.

Hao Zili and the others were confused at first. Lin Yi asked LAN Guzha to cultivate, so why did he ask for food? Moreover, the crude cooking method made them very resistant. They were afraid that this guy would suddenly turn against them, so they did not dare to refuse. When they took the first bite, they basically opened their mouths with the intention of eating poison. However, after they really ate it, they finally understood why LAN Guzha would make food!

How was this ordinary meat? A small piece contained a huge amount of energy, which made them feel as if their cultivation had loosened. Eating this thing was much better than ordinary closed-door cultivation!

Chapter 6032 Is The God-Gathering Branch Useful?

This was especially so for feiyi. He was transformed from a flying spirit beast. Although the effects of eating the meat of sea beasts were not as good as LAN Guzha 's, it was not much worse. On the other hand, it was not a waste for Hao Zhili and min huichen, but the amount of energy that the human race could absorb in this way was too little. It might not even be one percent of LAN Guzha' s.

Even so, the two of them still felt that a bite of the meat was enough to match their two hours of cultivation. After all, LAN Guzha had used the meat of a sea beast of the earth formation stage.

At first, they thought that it might be similar to eating poison, but the three of them immediately swallowed their portion at the same time. Then, they looked at LAN Guzha with eager eyes, hoping that this fellow would be able to share more.

It was a pity that the person in front of them was the glutton LAN Guzha. Just a little bit of it was enough to make his heart ache for half a day. Hmph Hmph, dream on!

Under the gazes of the three people, LAN Guzha finished off the large piece of meat in an instant with a speed that was ten times as fast as a tornado. He did not give them any chance to speak at all. In terms of eating speed, Hao Zili's group of three and the blue ancient Zaby's combat power was still only five.

After he finished eating, LAN Guzha even glanced at the three people who were dumbfounded with pride. Then, he sat down and began to refine the meat. He was only eating ordinary food for fun and to satisfy his appetite. It did not matter how much he ate. However, the meat of the sea beast of the earth formation stage must be refined and absorbed well.

Hao Zili and the other two looked at each other. They could only sit down. No matter what, the food they had just eaten was still very beneficial to their cultivation.

Training time was the least valuable. When they opened their eyes again, Lin Yi had already flown the flying saucer to the middle Island.

The black dot in the distance was Nakajima. With the flying saucer's speed, it would only take one to two minutes to reach Nakajima.

"We're almost there. Everyone, get ready. " "I'll put the flying saucer away later," Lin Yi turned to feiyi, "you can transform back into your original form and take us to Nakajima, is that okay?"

"No problem! Boss Lin, don't worry!" Fei Yi quickly stood up and nodded shyly in agreement.

He felt that following Lin Yi wasn't bad at all. He could even eat the meat of a groundbreaking sea beast- this showed how strong Lin Yi was.

Therefore, feiyi was quite happy to have the opportunity to perform.

Hao Zili and the others understood that Lin Yi didn't want to expose the flying saucer's existence. In their opinion, Lin Yi was being too careful. The middle Island wasn't like the East continent. Other than those old monsters who didn't show themselves, no one else was strong enough to take Lin Yi away.

But since Lin Yi had already made up his mind, they naturally wouldn't say anything. They didn't want to make Lin Yi unhappy, and the day of detoxification would be even further away.

Nakajima's outline was now visible, and Lin Yi stopped the flying saucer in the air. He opened the hatch and let feiyi out first, flying below the flying saucer after transforming into his Mountain Eagle form.

The rest of the people landed on feiyi's back one by one. Lin Yi was the last one to come out, and he put the flying saucer away. After he sat down, feiyi spread its wings and flew towards Nakajima at high speed.

After a short while, Fei Yi landed on the outer area of the middle Island. There were no restrictions on other races except for sea beasts, so no one would bother them.

Only when they entered the central area would they be subjected to a strict inspection, and there would be people secretly monitoring unfamiliar outsiders. However, Lin Yi was considered a person with status in the middle Island, so naturally, he wouldn't have this problem. Since he was the one who brought them here, LAN Guzha and the others weren't inspected. However, if they caused trouble in the middle Island in the future, the people of the middle Island would still come to Lin Yi.

As soon as he arrived at the heavenly pill Pavilion, Tian Gang and Xue Li had already come out to welcome him. He didn't know where they got the news from, but it seemed that they had made some progress in the past few years in Nakajima.

"Lin Yi, you're back! Did you manage to buy the spirit gathering branch?" Tian Gang didn't bother with small talk and directly asked.

"Of course. Why else would I come back first?" Lin Yi smiled faintly and nodded to the two as a greeting.

"Good day, sisters-in-law!" LAN Guzha greeted Lin Yi with a fist salute. He was used to Lin Yi's female friends popping out from time to time, and calling her sister-in-law whenever he saw one was never wrong.

Lin Yi didn't let LAN Guzha out the last time he went back to the central island, and he put him in the sea. This was his first time seeing the two.

Hao Zili and the others followed suit and quickly stepped forward to greet him with cupped fists. Tian Gang and Xue Li's faces were slightly red, but no one had the intention to deny it.

"These are my new underlings. You'll get to know them later. How's Jingjing's situation? Are there any changes?" Lin Yi wasn't in the mood to introduce them one by one-he was more concerned about han Jingjing's condition right now. It'd be troublesome if her condition worsened.

"No, Jing Jing is still the same, just like when you went to the secular world. It looks like she really hasn't returned from the secular world, and she hasn't encountered any danger for the time being." Tian Gang

nodded at LAN Guzha and the others before quickly answering Lin Yi's question. He turned around and led Lin Yi to the second floor.

"That's good!" Lin Yi let out a breath of relief and turned to LAN Guzha, "LAN Guzha, take them around the area. I'll come and find you when I'm done."

"Alright, boss!" "Yes," LAN Guzha agreed readily. He wanted to see han Jingjing. After all, they had already known each other in the secular world. However, it seemed that his boss did not want Hao Zili and the others to see han Jingjing. As his boss's number one underling, he could understand his boss's thoughts.

Hao Zili and the other two had no objections. They greeted Lin Yi and the others before following LAN Guzha.

Lin Yi brought Tian Gang and Xue Li up to han Jingjing's room on the second floor. She looked exactly the same as before.

It wasn't a good thing, but it wasn't a bad thing either. Lin Yi walked up quickly and placed the spirit gathering branch in her hand, praying that it would work.

After placing the soul-gathering branch in han Jingjing's hand, a faint light began to flow. Gradually, the light spread to her body and enveloped her entire body.

Lin Yi's anticipation grew-the spirit gathering branch seemed to be working, but he didn't know if Han Jing Jing's spirit would return to her body.

Tian Gang and Xue Li stood behind Lin Yi with their eyes wide open, not daring to move. They were afraid that any extra movement would disturb han Jingjing's recovery. The three of them looked at han Jingjing quietly, waiting for a miracle to happen.

#### Chapter 6033 Tian Xing Dao's Request

Lin Yi and the other two stared at her for two hours, not moving an inch. Other than that faint layer of light, there was no change at all.

"It seems like the soul-gathering branch can't bring Jing Jing back!" Lin Yi sighed, unable to hide the disappointment on his face. It wasn't easy to get the spirit gathering branch this time, and he had high hopes for it.

"Lin Yi, don't be too anxious-it's only been a while, and the spirit gathering branch might have taken effect already. It'll only take a few days or even months to bring Jing Jing back-it's too early to make a conclusion!" Tianshuo felt a little regretful, but he quickly gathered his thoughts and started consoling Lin Yi.

"Yeah, Lin Yi, Jingjing will be fine. The soul gathering branch has already taken effect on her, but it'll take a longer time. Let's wait patiently, maybe she'll wake up tomorrow?" Xue Li also followed up with a gentle comfort. She was the same as Tian Gang-she was grateful that han Jingjing could go to the mortal world to save Lin Yi, and so she really hoped that the spirit gathering branch could bring han Jingjing back.

But in order not to disappoint Lin Yi, they had to hide their regrets.

"You're right. Maybe it's not time yet. Let's wait a few more days and see." Lin Yi smiled. This was the only reason he could use to convince himself.

He had planned to go to the South continent as soon as possible after waking up han Jingjing with the spirit-gathering branch, but he was worried now and had to wait a few more days to see what the situation was like.

Back on the northernmost Island, the spirit gathering branch had caused a lot of fighting. Hao Zili and the others had chased after Lin Yi to get the branch, but Lin Yi had countered them. If people knew that Lin Yi had left the spirit gathering branch in the heavenly elixir Pavilion, he couldn't guarantee that no one would attack the heavenly elixir Pavilion when he wasn't there.

For the next few days, Lin Yi didn't step out of the house at all. He stayed in Han Jing Jing's room to observe if there were any changes to her. He also made some pills for the sky elixir Pavilion to sell.

As for LAN Guzha and the others, they were already familiar with Tian Gang Xue Li and helped them with everything, but other than LAN Guzha, no one else was allowed to go up to the second floor to find Lin Yi.

A few days had passed, and han Jingjing didn't seem to have changed at all. Lin Yi couldn't help but feel anxious. The spirit gathering branch was precious, but it didn't seem to have any effect on han Jingjing's condition. There was little hope if he kept waiting.

Lin Yi blamed himself a lot-he shouldn't have let Jingjing return to Tianjie Island on her own. He knew that she used some underhanded method to come to the common world, and he should've just let her enter the Jade space when she returned.

Although there might be problems with the fusion when they returned to Sky Class Island, it was still much safer than this situation.

"Tian Gang, is there any reply from the secular world from the central Chamber of Commerce?" Lin Yi was frustrated, and he couldn't help but ask again when he saw Tian Gang. He'd asked this question four or five times already.

As long as he could get a reply from the common world, he might be able to find out about han Jingjing. If she really was stuck in the common world and couldn't come back, Lin Yi would have to find time to go back and use the Jade space to bring her to Sky Class Island.

"No. I've asked min huichen to go to the central Chamber of Commerce three times a day to get a reply from the secular world, but they never received it. Perhaps Lai Changyi and the others are still investigating, so they can't give us any concrete information." Tian Gang tried to calm Lin Yi down, but she wasn't sure herself. The people from the common world needed time to investigate, which meant that Han Jing Jing wasn't in the villa. This wasn't good news.

Lin Yi was getting more and more frustrated. He was supposed to leave for the South continent, but he couldn't go there without any news about han Jingjing.

"That bastard Kang Zhaoming isn't trying to drag things out on purpose, is he? No, I have to go to the central Chamber of Commerce personally!" Lin Yi decided to go and pressure Kang Zhaoming himself, but he knew that the possibility wasn't high. Zhong pinliang was watching from above, and it wouldn't be easy for Kang Zhaoming to take away the letters from the common world.

Lin Yi's main purpose of going to the central Chamber of Commerce was to get pinliang to find out more about the secular world. He might have more detailed information.

Tian Gang didn't have any objections to this and nodded in agreement. "You go! We'll take care of Jingjing and she'll be fine. "

"Lin Yi, I need your help!" As they were talking, Tian xingdao came up the stairs and waved at Lin Yi as he saw him.

The heavenly elixir Pavilion had always been under the care of the Tian Xing Dao, so he had no restrictions here and could come here at any time.

"Brother Tian, if there's anything you need, just say it. As long as I can help, I will definitely not refuse!" Lin Yi had a lot of respect for Tian xingdao, so he agreed without a second thought.

As for going to the central Chamber of Commerce, he'd have to put that matter on hold for now. Pinliang would contact him as soon as he got any news, anyway.

"How's Jing Jing's situation? Are you getting better?" Tian xingdao did not directly state his purpose of visit. Instead, he asked about han Jingjing's condition. In fact, he had come to visit han Jingjing whenever he had the time. He had more or less understood that the effect of the spirit gathering branch was not as good as he had imagined.

"Nothing has changed!" Lin Yi sighed and walked to Tian xingdao's side, "Brother Tian, what do you need my help with?"

"Yes, I shouldn't have come to find you at this time, but only you can help me with this. It's about the creation battle technique!" Tian Xing Dao didn't try to hide anything and directly stated their intentions.

"What's wrong with the creation battle technique?" Lin Yi found it strange. Did something happen to Tian Xing Dao's creation battle tactics again?

"I've found a clue to the creation battle technique's subsequent mental cultivation method. However, that place requires at least two people who have cultivated the creation battle technique to enter! So I can only ask you for help-you're the only one I can find on the entire Sky Class Island!" Tian xingdao was also helpless. He had spent his entire life searching for the follow-up cultivation method of the creation battle technique. He had finally found a clue, but he found that he could not enter alone. This kind of depression could not be easily described.

Although Lin Yi used the art of Dragon mastery to combine the heaven-seizing chapter with the battle tactics of creation, it was only suitable for Lin Yi to practice. After Tianxing tried it out, he realized that he couldn't practice the battle tactics of heaven's creation like Lin Yi. It wasn't that he couldn't practice it, but the effect was just better than nothing.

#### Chapter 6034 The Subsequent Mental Cultivation Method Of The Creation Battle Technique

In other words, if he couldn't find the subsequent mental cultivation method of the creation battle technique, he would only be able to reach this height in his life and would not be able to make any further progress.

"The subsequent mental cultivation method of the creation battle technique? Where is he?" Lin Yi blinked. This really couldn't be delayed. Although he had the battle tactics of heaven's stolen fortune and the latter part of the original wasn't of much use to him, it had a completely different meaning to heaven's will.

"It's on a nameless deserted island in the sea near the middle Island. If everything goes well, I'll be back in one or two days!" Tian xingdao knew that Lin Yi was willing to help, and he was a little excited.

Lin Yi didn't know why the latter part of the creation battle tactics would be on an unknown island, but it didn't matter as long as it was real.

With the follow-up of the creation battle tactics, Lin Yi could use the heaven seizing creation battle tactics to test it out and perhaps discover more.

"Since that's the case, then let's not delay any further. The earlier we go, the earlier we return!" Lin Yi decided-it was only a day or two, so it shouldn't affect him much.

He left LAN Guzha and the other three sect opening Masters to guard the heavenly elixir Pavilion. Nothing would happen in the short term. Lin Yi was even thinking of leaving the four of them here to protect han Jingjing and the spirit gathering branch when he went to the South continent.

"LAN Guzha, brother Tian and I will be away for a day or two. Take the three of them and protect the heavenly elixir Pavilion. If anyone dares to cause trouble, don't hold back!" Lin Yi saw LAN Guzha coming down the stairs and called him over.

LAN Guzha nodded and patted his chest, "Boss, don't worry. Leave this place to me. There won't be any problems! But boss, where are you going this time? Do you need to fight? Do you want me to go with you?"

"No need, you just need to do what I say." Lin Yi smiled-the guy had been idle for a few days, and was probably itching to fight again. Too bad there really wasn't much of a chance this time-he just needed to go to the island and find the stuff.

After a few more instructions, Lin Yi told Tian Xing about the sky elixir Pavilion. As one of the Vice Island Masters of Nakajima, Tian Xing had the privilege of using flying spirit beasts at any location. There were two flying spirit beasts raised by the Nakajima authorities waiting at the entrance, saving Lin Yi the trouble of using a flying saucer.

The two of them rode on their aerial spirit beasts and soared into the sky, flying toward the deserted island in the mouth of the heavenly path.

The middle Island Sea area was extremely vast. With the speed of the flying spirit beast, after half a day, they were still in the core position of the middle Island Sea area. There were countless big and small deserted islands scattered on the sea surface. When the tide rose, at least half of them would sink into the sea and become hidden reefs. Only when the tide fell would the island's appearance be visible.

"It's there!" Tian xingdao, who was on a flying spirit beast, pointed to a deserted island in the distance. It was currently the low tide, and the deserted island he was talking about was only about one square kilometer in size. The slope was very low, and it was very likely that it would sink into the sea when the tide rose.

Lin Yi nodded and extended his spirit sense out first, carefully searching every inch of the island. Without Tian Xing Dao's guidance, he wouldn't have paid attention to an Island like this.

"Brother Tian, how did you discover this place?" Lin Yi didn't ask about this on the way here-he'd been thinking about how to get Han Jingjing back to Sky Class Island, and only now did he think of asking.

"It's a coincidence. Recently, I randomly strolled around in the market and actually found an incomplete ancient book. It mentioned that about 10000 years ago, there was a genius who also became famous by cultivating the creation battle technique. Then, in order to advance to the earth opening stage, he came to a deserted island in this Sea area to cultivate in seclusion. He might have left behind the follow-up cultivation method of the creation battle technique." Tian xingdao didn't hide anything and told Lin Yi everything.

Lin Yi was speechless. Tian Xing Dao was treating these vague records as real, which showed how desperate he was for the creation battle technique. He didn't want to let go of any possibility.

This time, he really did find the exact location. This sea was vast, and there were at least 800 islands, if not 1000, in it, not including the small islands that had not surfaced for 10000 years. Lin Yi could imagine how much effort Tianxing Dao had spent to find this deserted island.

"In that case, brother Tian, you can't be sure that this Island definitely has the subsequent heart technique of the creation battle technique?" Lin Yi sighed. The Tian Xing Dao might have found the place where the genius from ten thousand years ago went into seclusion, but they might not have left the practitioner's Arts behind!

"No, I think it's 90% true, because that ancient book mentioned that since the genius came here for closed-door training, he has never appeared again. It's very likely that he failed to advance and died in the place where he was in closed-door training, so his mental cultivation method must have been left there!" Tian xingdao said with certainty. At the same time, he had already controlled his aerial spirit beast to descend.

In that short while, the two were already above the island. Lin Yi's spirit sense found that there were indeed traces of a hidden formation on the island, and it wasn't low level either-it was set up by at least a level Seven earth grade master.

Normally, Lin Yi wouldn't have noticed it if he didn't pay attention, and this was only because the formation was damaged. If it was intact, it wouldn't be exposed unless the ghostly thing used its spirit sense to check it.

"In that case, the possibility of the subsequent part of the creation battle technique existing is very high. Since that person was able to cultivate to the earth creation stage, it is at least more complete than the one you and I have. However, if he failed to advance and died, this mental cultivation technique might still have flaws." Lin Yi jumped off the flying spirit beast and stood beside Tian Xing Dao.

Lin Yi didn't care about the flaws in the creation battle tactics, but he had to be careful when cultivating the heavenly path. If something happened next time, he might not be able to stay alive.

"Let's not talk about this first. As long as I can find the next part of the cultivation technique, what's a mere flaw?" Tian xingdao laughed heartily, not caring about this at all.

Lin Yi smiled, relieved. If Tian Xing Dao was really afraid of the creation battle technique's flaws, he wouldn't have chosen to practice it in the first place. It was because of this bold personality that it was extremely compatible with the creation battle technique. If it was someone else, they wouldn't be able to practice it at all.

"The formations here are already damaged. Otherwise, I would've gone in circles in the nearby seas and continued to search Island by Island." Tianxing led Lin Yi through the broken formation and to another layer, his face full of "I'm so lucky. "

Chapter 6035 There's Nothing Unusual

Lin Yi smiled and nodded in agreement. The Tianxing path was indeed lucky. If the invisibility formation wasn't damaged, he wouldn't be able to find this place even after a hundred years of searching.

The level of the formation in front of them had also reached the standard of a level Seven formation, and it was a very rare technique. Just as Tianxing had said, it required two people who cultivated the creation battle technique to activate their true Qi at the same time in two directions to open the entrance.

"Brother Tian, don't you think it's a little strange? Why did that person need to set up such a formation when he was in seclusion to advance? He's alone, so is there a need for two creation battle technique users to join forces to enter?" Lin Yi walked back and forth a few steps, pinching his chin as he looked at Tian Xing.

Tian Xing was slightly taken aback. He had never thought about this before. In fact, he had not done much research on formations. He only knew that this layer of restriction required two creation battle technique cultivators to work together because he had received a hint after trying it out.

"Could there be something strange here?" Tian xingdao felt that the setting was weird after Lin Yi's reminder. He thought about it and said, ""Lin Yi, let's go back! We haven't settled sister Jing Jing's matter yet, so we'll talk about it later. "

"Brother Tian, you want to send me back and then take the risk yourself, right? It's said that two people are needed to open this place, you can't go in alone. " Lin Yi looked at Tian Xing speechlessly. This man wasn't a scheming person. He could tell what he was thinking with one look.

He didn't want Lin Yi to take the risk after hearing that this place was weird. He wanted to continue the research alone, but the excuse he came up with was terrible.

"How about this, you help me open the restrictive spell first, then you can go back. I want to explore by myself and don't want to share everything inside with you!" Tian xingdao looked at Lin Yi seriously, as if he was speaking the truth.

Lin Yi couldn't help but laugh. Since when did Tian xingdao become so fussy?

"That's enough, my big brother. Don't play with me. Let's quickly break the restrictive spell and see what's going on inside!" Lin Yi shook his head and started studying the structure of the formation.

"Hahahaha, forget it, forget it. I, Tianxing, am not suitable for saying such empty words. As expected, you saw through it immediately! So what if it was strange? If you and I brothers join hands, any demon or monster will be annihilated!" Tian xingdao threw his head back and laughed. He had regained some of his previous heroic bearing.

"This formation is quite advanced. Other than two creation battle technique cultivators joining hands, the only way to enter is to break through the formation by force. However, that would require the attack power of at least the late stage of earth creation to the great circle of earth creation. It seems like we can only obediently choose the first path!" Lin Yi smiled and walked to one of the gates.

In fact, if Lin Yi came alone, there was still a chance for him to go in. For example, he could use the thousand changes of wood forest and create a doppelganger, using the heaven's stolen fortune to open the restriction. Another way was to use the speed of lightning escape to move between two places, creating the illusion that he was transferring Qi at the same time, but it was much more difficult.

Tianxing Dao didn't have any martial arts in this area, so he'd never thought about it before. Lin Yi, on the other hand, had thought of countless ways to break it, but only a few of them worked.

"Didn't I ask you to come here to show that you've obediently chosen the first path?" Tian xingdao laughed and walked to the other side, facing Lin Yi.

The two of them looked at each other and smiled. They stretched out their palms at the same time and pressed on the position of the array door that had been revealed by the formation. They began to inject the genuine Qi of the creation battle technique.

Although Lin Yi's heaven seizing fortune battle tactics had been mutated, his Qi was an all-purpose Qi. It wasn't difficult for him to return to the original battle tactics of heaven seizing fortune. In just a breath, the restriction in front of him made a light cracking sound and revealed a passage that was large enough for one person to walk through.

"Alright, let's go in! This entrance can only be maintained for three breaths!" Lin Yi said to Tian xingdao, ready to enter first.

"I'll go first!" Tian xingdao shot forward like an arrow, entering the tunnel before Lin Yi.

If it were someone else, they would think that Tian xingdao was being very rude, as if he was worried that someone would steal his things, but Lin Yi knew that he was walking in front because he was afraid of danger. He was clearing a landmine for Lin Yi.

In terms of strength, Lin Yi was far stronger than Tian xingdao, but since he was the one who asked for Lin Yi's help, he couldn't allow Lin Yi to be injured before he died.

"Be careful!" Lin Yi didn't say much, only reminding him with a faint smile. He followed behind Tian xingdao and used his spirit sense to check for anything unusual.

After entering the formation, the scenery changed. It looked like a huge rock on the outside, but now it was stone steps that went deep underground. Lin Yi's spirit sense could only reach tens of meters out, and he couldn't see the bottom of the steps at all. It was obvious that there was a restriction on spirit sense.

"Lin Yi, you're right. This is weird. Normal people don't go deep into their caves, especially our creation battle tactics. It's a first class practitioner's art, and only when we're close to the sun, moon, and stars can we feel the righteous energy in the world and speed up our cultivation. It seems that there are some mistakes in the ancient records. " Tian xingdao became more and more suspicious of the authenticity of this place. However, with his character, since he was already here, of course he had to find out more.

"Maybe that genius failed his advancement and died here because he went deep into the ground to cultivate?" Lin Yi said with a smile as he used his spirit sense to try and break the restrictions.

The spirit sense Whirlpool was quite effective in tearing the spirit sense restriction apart. In a short time, Lin Yi's spirit sense expanded several times and he could finally see the end of the stone steps. There were at least two to three thousand more steps, and in terms of distance, it was about a thousand meters deep into the sea.

Tian xingdao activated the Zhen Qi in his body to maintain a defensive state. He did not dare to be careless. However, nothing happened along the way. It was as if this long stone step was just an ordinary stone step and there was no trap.

Lin Yi used his spirit sense to check back and forth, and didn't find anything unusual. After removing the spirit sense restriction, they didn't encounter any other restrictions on the way.

## Chapter 6036 So That's How It Is

The two soon came to the end of the steps, where there was a bronze door that was tightly shut. The material was obviously not as simple as bronze, as there was no restriction on it that blocked divine sense, but Lin Yi's divine sense couldn't go in.

Tian xingdao raised his hand to his back, signaling Lin Yi to stop on the stone steps. He then walked to the bronze door, reached out his Qi-covered palm, and gently touched the surface of the door.

The bronze rust on it slowly fell off under Tianxing's pure Qi, slowly revealing the mysterious patterns. Lin Yi didn't follow Tianxing's instructions, but silently came to Tianxing's side and looked at the patterns.

Tian xingdao glanced at Lin Yi, but didn't say anything. He raised his guard again. If there was any danger, he had to make sure Lin Yi was safe. As for the fact that Lin Yi was stronger than him, he completely ignored it.

"Did you see anything?" Tian xingdao's palm continued to stroke the surface of the door slowly and steadily, causing more patterns to appear.

"It looks like a pattern for opening a door. It's not very difficult, similar to what we did just now. We just need to input our true energy in different places. But this time, there are four points, so we need to use both hands separately." Lin Yi smiled and pointed out the four points he needed to put his Qi into, picking two and putting his hand on them.

In fact, Lin Yi was more interested in the material of the door. It could block out divine sense, and if he gave it to the king of junk, he'd be able to make a lot of good things. But now wasn't the time to take down the door.

Tian xingdao stopped his cleaning work and placed his hands on the two points Lin Yi pointed out. The two of them channeled Qi into the creation battle tactics, and the bronze door started to open.

Lin Yi's spirit sense went in through the opening-it was a stone room about a hundred square meters in size, over six meters high. There was nothing special there, and it seemed very empty. On the wall opposite the bronze door, there were three two-meter-high caves arranged in a triangular formation, but there were restrictions at the entrance, and Lin Yi's spirit sense couldn't break through it yet.

The bronze door was half-open, and there was no one in the way. Tian xingdao entered first, scanning the area and making sure there was no danger before letting Lin Yi in.

Lin Yi was speechless-he wasn't really used to Tianxing Dao treating him as someone they had to protect ...

But Lin Yi couldn't say much about Tian xingdao's good intentions.

"Those three caves might be the cultivation places of geniuses recorded in the ancient books. Let's go in and take a look!" Tian Xing strode forward and soon arrived at the bottom of the hole in the stone wall. The seal here only blocked divine sense, but it could not stop people, so he only needed to jump in.

This was what Lin Yi found strange-was there a need to set up this kind of barrier in a solitary place? Even if he wanted to set it up, it would be more appropriate to set up a restriction to prevent people from entering by mistake, right?

"Brother Tian, please wait a moment. There's something strange about these stone caves!" Lin Yi raised his voice to stop Tianxing from entering the cave. He was going to break the restrictions first and check with his spirit sense.

"Is there something wrong?" Tian xingdao turned around to ask Lin Yi, only to see a grey ball of air rising from Lin Yi's feet. He exclaimed, ""Be careful!"

Lin Yi's heart jumped-he'd used his spirit sense to check this open space, and didn't find any danger, so he focused on the three caves with the spirit sense restrictions. He didn't think that there'd be such a hidden mechanism in the center.

The strange thing was that the Jade space didn't alert him at all this time. Lin Yi even wondered if something was wrong, but he immediately understood why-it wasn't dangerous to him at all ...

"Hehe, a young man at the peak of the late stage of the mysterious Ascension realm. There's no better body than this!" The grey gas let out a sharp and weird laugh, enveloping Lin Yi's body in an instant and trying its best to penetrate his sea of consciousness.

Possession?

Lin Yi couldn't help but feel happy-no wonder the Jade space didn't even send out a warning. He could be afraid of anything, but he wasn't afraid of possession!

Just the ghost was an ancestor-level figure in the essence spirit realm, and it was enough to make anyone who wanted to possess Lin Yi's body suffer, not to mention Lin Yi's essence spirit devouring skill. Are you sure she's not here to be his dish? As for the soul snatching hand and the vortex, Lin Yi didn't bother using them.

Of course, Lin Yi didn't want to use the essence spirit devour skill so easily. He hadn't even cleaned up li shuigao's soul search yet, he didn't want to mess up his brain.

A thin layer of lightning appeared on the surface of Lin Yi's body, making a light crackling sound. The spirit that wanted to take over Lin Yi screamed and ran out of Lin Yi's body like it had seen a ghost.

"You're actually a lightning element cultivator!" The grey ball of air had thinned a little, and there was unconcealable fear in his voice.

What was the most terrifying opponent for a primordial spirit? Was there a need to ask? Other than pill fire, it would be lightning element cultivators! It was an existence that could easily turn a primordial spirit into ashes. Even devouring a primordial spirit was ranked behind lightning.

"I'm sorry, I just happen to know a little bit of lightning attacks. Do you want to try again? You might even succeed!" Lin Yi looked at the spirit teasingly, roughly guessing what had happened.

The information that Tian Xing Dao had found out should be true, but it was not complete. This primordial spirit was most likely that genius. He had left behind that record in order to attract those who cultivated the creation battle technique to find him, and then take the opportunity to possess him.

If he didn't guess wrong, this primordial spirit already knew that his physical body was going to be finished, so he set up this trap and set the conditions for the entrance of the array. He also limited the people who entered to those who had cultivated the creation battle technique. This way, after he took over the body, there would be no seamless connection.

Why was there no danger at all? It was easy to explain now. How could he bear to kill or hurt a target that he had gone through so much trouble to get?

As for the spirit sense restriction on the cave, it was probably a trick to divert the attention of the intruder. Lin Yi was unlucky enough to fall for it. If it wasn't for the fact that he wasn't afraid of possession, he would've been possessed by the spirit already.

If it wasn't for the fact that the spirit wanted Lin Yi's body to be younger, stronger, and have more potential, Lin Yi wouldn't even have the chance to stop it. When the two spirits got entangled, even the soul-snatching hand wouldn't be able to separate them.

Chapter 6037 Easily Caught

If that really happened, he could only hook them into the space and let the ghostly thing separate them.

These thoughts only flashed through Lin Yi's mind for a moment, but he already felt enlightened.

After the spirit failed to possess Lin Yi, he didn't say anything and rushed into Tian Xing Dao. He limited two people in so that if one couldn't do it, he'd switch with another one. His arrangements were intricate, but after waiting for 10000 years, he'd met a monster like Lin Yi!

A lightning arc flashed, and Lin Yi appeared in front of the essence spirit. He raised his hand and shot out a lightning arc, using his spirit sense to form a lightning net, completely wrapping the grey gas in it. Any trace of gas that came into contact with the lightning net would be destroyed instantly.

A series of screams came from the Thunder net. After suffering a few losses, the primordial spirit immediately withdrew the Qi ball and no longer dared to touch the outer Thunder net.

"Lin Yi, you're really strong now!" Tian xingdao stood behind Lin Yi, tongue-tied. He wanted to save Lin Yi, but everything was settled in the blink of an eye!

Tian xingdao didn't know what else he could say other than Lin Yi's strength.

"Ha ... Brother Tian, you flatter me. There are countless powerful cultivators out there. My strength is not enough." Lin Yi smiled faintly. He wasn't being humble. He'd seen how strong a sea split realm cultivator was. A peak late stage xuansheng was no different from an ant.

"Junior, you know your own limits. If you weren't a lightning element cultivator, you would have been possessed by me long ago. Quickly let me go, and you'll have your share of the benefits!" The primordial spirit didn't seem to understand the situation it was in and arrogantly shouted.

Lin Yi separated a small lightning arc from the lightning net and landed on his body, blowing up a grey gas, making the essence spirit scream again.

"You still dare to talk about possessing me. It seems like you're really not afraid of my lightning bolts!" Lin Yi looked at the spirit in the lightning net with a half-smile, not understanding where this guy got his confidence from.

"Little brat! Don't be too pleased with yourself. If you continue to treat me like this, we'll die together! I'm not afraid to tell you that I've set up a level-nine confinement killing array here. If it's not suppressed by my primordial spirit, it can erupt at any time. If you don't believe me, you can try it!" The spirit didn't show any signs of softening even after it stopped screaming, and it threatened Lin Yi even more.

Lin Yi's face changed-he really couldn't tell what a level nine formation was, and even if it was a ghostly thing, it wouldn't be easy to break it in a short amount of time.

Lin Yi didn't even need to say anything-the ghostly thing's spirit sense was already out, scanning the entire space repeatedly.

"Brat, this idiot is right. There is indeed a Grade 9 formation here. If I hadn't checked it carefully, I wouldn't have noticed it. The good news is that this Grade 9 deathtrap array is only a formation plate and its power is countless times weaker than the Starfall array. The bad news is that even if it's countless times weaker than the Starfall array, it'll still be very easy to kill you instantly." The damned thing was very efficient, giving a professional suggestion right away, but Lin Yi felt like he was gloating over it ...

Lin Yi didn't bother with the thing and reached out his hand to keep the lightning net. The spirit thought that his threat had worked and wanted to say a few more words arrogantly, but an invisible hand grabbed it completely, immobilizing it.

Without a doubt, this was Lin Yi's ultimate skill, the soul-snatching hand. He didn't want to use it at first, but since there was a level 9 trap and kill array here, he couldn't hold back and had to make sure it was safe.

"I don't think you're going to tell me how to break this trap and kill array, right? That's why I've decided to do as you said and try to find the answer myself. " Lin Yi smiled, thinking about whether he should use his essence spirit to devour or soul search. He didn't like either method, and it was really difficult!

"How do you know that this deathtrap array is an array disc?" The spirit asked Lin Yi subconsciously, startled. It tried to recall what it had just said, but it didn't seem to have mentioned anything about formation disks!

Before he could figure it out, the trapped spirit felt a devouring force pulling at it from Lin Yi's direction.

"Primordial spirit devouring?" This guy was quite knowledgeable-he recognized the skill Lin Yi was using with just a slight feeling, and he screamed.

"Stop! Stop! I admit defeat! I surrender!" Feeling the threat of the essence spirit devour, the essence spirit panicked. Lin Yi's lightning arcs were terrifying, but he had the level nine trap and kill array disc. If he was too injured, he would die with Lin Yi, so he could still be arrogant.

But spirit devouring was different-it was less painful than the lightning, but if Lin Yi devoured his spirit, the level 9 array disc wouldn't be touched. In other words, he'd die for nothing, so why did he have to die?

"Ha ... I thought you were tough, but it turns out you're nothing more than this!" Lin Yi looked at the spirit mockingly, but he didn't continue using the devour skill.

In the end, Lin Yi didn't want to just eat those random spirits-he felt like his sea of consciousness would become a sea of trash if he did ...

"Since you've surrendered, hand over the control of the grade 9 deathtrap array!" Lin Yi wasn't going to hold back-a level nine trap and kill array disc was definitely good stuff. The level eight stealth array disc he stole was already extremely precious, but compared to this, it was nothing.

The primordial spirit did not waste any time. Knowing that he was powerless to resist, he simply removed his binding to the confinement killing array disc and handed over the control of it.

"Why can't I take out this formation disk?" Lin Yi wanted to put away the formation disc, but he realized that he could control it, but he couldn't put it away. His face darkened.

"Because this array disc has been set up for too long and has become one with this place. If you want to take it out, you have to destroy this place, but even if you destroy this place, you can't keep the array disc!" The essence spirit explained carefully, afraid that Lin Yi would start devouring spirits or attacking with lightning web or something.

Lin Yi was speechless-it was a level nine trap and kill formation! He could only look and not take it. He thought he had made a big profit this time, but it turned out to be a waste!

"Tell me who you are, and where is the subsequent mental cultivation method of the creation battle technique?" Lin Yi sighed. So be it if he didn't have a formation disk. His main goal was the creation battle technique. As long as he could get the next part of the technique, it wouldn't be a wasted trip.

Chapter 6038 The Origin Of The Creation Battle Technique

"My name is Wang Ba, and the creation battle technique is in the stone room I'm cultivating in. Actually, the one I have isn't the complete version either. I can only cultivate it to the great circle of earth-splitting stage. Because I don't have the follow-up mental cultivation method, I forcefully broke through to the

sea splitting stage, and my physical body collapsed. Only my primordial spirit survived for ten thousand years." Primordial spirit body Wang Ba sighed. Before Tianxing did his research, it was mentioned that this guy came to cultivate in seclusion in order to advance to the earth-splitting stage. It was obviously a lie left behind on purpose. In fact, he was already at the great circle of earth-splitting.

"A ten-thousand-year turtle ... You two are a good match." Lin Yi's mouth twitched. Was this guy joking?

"It's Wang Ba! A King with the ambition to rule the world, not a turtle!" Wang Ba roared in exasperation. However, he immediately remembered that he was not facing a kind person, so he quickly lowered his voice by 80%. He was extremely nervous, afraid that a few lightning bolts would suddenly appear.

"I don't care if you're a tyrant or a bastard, as long as you hand over the latter part of the creation battle technique!" Lin Yi waved his hand nonchalantly. Suddenly, he had an idea and asked suspiciously, "Ten-thousand-year turtle, the creation battle techniques circulating on Sky Class Island can only be cultivated to the peak of the original level. Don't tell me this is all your doing! Don't lie, you know I can find the truth myself!"

"You can even guess that? He's simply too wise and divine!" Wang Ba didn't dare to hide anything. He quickly flattered her and then carefully explained, "Actually, 10000 years ago, I only had an incomplete version of the creation battle technique. No one else had cultivated it. So, at that time, even if I wanted to possess someone, I didn't have a suitable candidate ..."

"So you made the incomplete creation battle technique even more incomplete and then spread it out in large numbers. You also left behind that kind of obscure information in order to attract those who cultivate the creation battle technique to find the subsequent mental cultivation method so that you could take the opportunity to possess them?" Lin Yi interrupted Wangba with a cold smile. He pretty much understood the whole story now-this Wangba bastard sure was ruthless!

In order to leave a way out for himself if he failed to break through to the sea shattering stage, Wang Ba deliberately spread the creation battle technique. As long as people saw this kind of peerless mental cultivation technique, they would be unable to resist cultivating it. Even if they knew it was a trap, they would jump into it involuntarily.

For example, when Lin Yi first came into contact with the creation battle tactics, the people in his batch didn't even have the courage to look at it and destroyed it immediately. There was a reason for this!

In ten thousand years, who knew how many people had cultivated the creation battle technique and died helplessly when they reached the Yuanying stage. Tian xingdao was lucky to meet Lin Yi, or he would've just been a cripple and died in depression.

Once someone cultivated the first part of the creation battle technique, they would definitely continue to search for the next part, such as the heavenly path! It was a pity that Wang Ba was really unlucky. In the past 10000 years, only the Tian Xing path had found this place.

Lin Yi even suspected that the damage to the formation wasn't caused by the passage of time at all-it was very likely that the bastard Wang Ba had done this on purpose to make people pretend to work hard to find this place, but not completely undetectable at the same time. Otherwise, the entrance to the second level wouldn't have been so obvious.

"You're really amazing! He was definitely extremely smart! It was an absolute plan! "Absolutely ..." Ba Wang was shocked. He kept praising the man. Although he was trying to flatter the man, it really reflected his shock.

Just a few sentences and Lin Yi was able to make such an accurate deduction-just who was this young man? He was too abnormal. Not only was his strength abnormal, but his meticulous thinking was also abnormal!

Lin Yi didn't think that he was that good. He could deduce so much only because he had more clues, but also because he was an onlooker who saw things more clearly. Plus, he had a flash of inspiration just now. It was impossible for him to analyze things like that all the time.

"Lin Yi, you're saying that everything about the creation battle technique was a trap set up by this Wang Ba?" From the beginning, Tian xingdao had been as shocked as Wang Ba. Now that he had finally sorted out his thoughts, he still couldn't believe it.

"That's right. Brother Tian, if you want to beat him up to vent your anger, I can help you. " Lin Yi smiled. No matter who it was, hearing that the practitioner's Arts he was using his life to train was just bait would make him uncomfortable.

Even a bold person like Tian xingdao shouldn't be an exception, and that was why Lin Yi suggested this. Beating up Wangba would help him clear his mind, and it would be good for his future cultivation.

"Hahaha, there's no need. I won't be angry. If he didn't deliberately spread the creation battle technique, I wouldn't have had the chance to cultivate it. Didn't you hear him say that he was the only one who had a creation battle technique ten thousand years ago? Fortunately, he released the first part of the creation battle technique. Otherwise, the creation battle technique would have been lost ten thousand years ago!" Tian xingdao laughed and waved his hand, as if he really didn't mind at all. He wasn't dissatisfied with the fact that the creation battle technique he was cultivating was only an incomplete version. Instead, he was glad.

"Brother Tian, you're so generous!" Lin Yi smiled and continued, "Which cave is the subsequent mental cultivation method of the creation battle technique in? Are there any good things in the other two?"

"The stone chamber I use for cultivation is at the top," Wang Ba said with a bitter smile. "I really don't have anything else. My cultivation level is nothing. How can I get anything good?" Otherwise, I wouldn't have risked my life to advance to the sea splitting stage. Besides, even if there were any good things in the past 10000 years, they would have been mostly destroyed!"

10,000 years ago, the completion of the earth-splitting stage was really not a great strength. Unlike now, except for the East continent, the earth-splitting stage was a big Boss, the strongest existence under the ancient families and old monsters.

But Lin Yi wasn't going to believe Wangba's words.

"Ten-thousand-year turtle, I told you not to lie. Do you really want to try primordial spirit devouring?" Lin Yi raised his hand and looked at Wang Ba with a faint smile. If the guy insisted on not having it, he would use his essence spirit devour without hesitation.

It was because Wang Ba had the control of the level nine array disc that Lin Yi didn't notice the guy hiding in the center of the formation, preparing to take it for himself. Now that the control of the disc had been transferred, Lin Yi could clearly see that there was something under the ground ... A fist-sized ball of light golden liquid!

Chapter 6039 The Black Sea Soul-Consolidating Liquid

Apparently, Wang Ba also recalled this incident. He panicked and begged for mercy, ""I can give you anything, just don't take the black Sea soul-consolidating liquid away. I'm only alive because of this Black Sea soul-consolidating liquid!"

Why would a guy who cultivated a creation battle technique place his closed-door cultivation deep underground? The truth was finally revealed because this was the only place where the Black Sea soul-consolidating liquid that could nourish the primordial spirit could be found!

Lin Yi had been curious about this since the beginning-how could a spirit retain such strength after ten thousand years? One could tell just by looking at the miserable state he had been in when he first encountered that ghostly thing. Later on, when he realized that he could not take the array disc away, he understood that the other function of this Grade 9 deathtrap array fused here was to protect that small ball of Black Sea soul condensing liquid!

Wang Ba was not lying. Without the Black Sea soul-consolidating liquid, it would be good enough for his primordial spirit to remain at the foundation establishment stage after his failure to break through to the sea shattering stage and his physical body collapsed. How could he have the ability to possess others? After 10,000 years, a mere Foundation establishment stage primordial spirit should have dissipated for who knows how many years.

This guy might have been suppressed by Lin Yi, but his spirit was still around the peak of early Earth split realm. It was probably because of the Black Sea soul concentrating liquid that he was able to cultivate to this level in ten thousand years.

"Kid, the Black Sea soul condensing liquid is a good thing. It's not only useful for me, but also for you. Don't let go of such a treasure!" The demonic thing couldn't help but remind Lin Yi that if he could get this Black Sea soul gathering liquid back in the common world, he might've recovered his original strength. Even if it was just a primordial spirit body, he could dominate the world.

As long as it wasn't Lin Yi who specialized in suppressing the yuan spirit body ...

"If you had told me honestly, I might have considered leaving you half of the Black Sea soul-consolidating liquid. It's a pity that you didn't cherish it, so don't say I didn't give you a chance!" Lin Yi smiled faintly and sent out a stream of pure Qi, opening up the center of the ground and revealing a small Jade groove.

With a light wave of his hand, the Golden liquid was wrapped in Lin Yi's Qi and flew into the air. It split into small balls and was put into ten exquisite Jade bottles.

Wang Ba didn't dare to move at all as he watched. Lin Yi's methods were too much of a counter to him. It was painful to lose the Black Sea soul concentrating liquid, but the pain was a hundred times more intense when it came to the lightning bolts and the essence spirit.

There were two drops of Black Sea soul gathering liquid left, but Lin Yi didn't take them away. He put them back into the Jade trough.

"I'll leave these two drops for you. At the very least, it can guarantee that you'll survive for a very long time. If you still don't behave yourself, I won't be polite with you anymore!" Lin Yi looked at Wang Ba indifferently. An essence spirit without a body was different from when he was in the mortal world. It was very difficult to form an essence spirit, and as time passed, it would be harder and harder for him to survive.

"I understand. What else do you want to know? just ask!" Wang Ba said dejectedly. I don't have anything good to give you anyway. "

"Let's open the restrictions in the cave first!" Lin Yi pointed at the three caves-he could tear the restrictions apart as well, but there was Wangba here, so why bother?

Wangba didn't dare to disobey. He floated over obediently and removed the restriction. Lin Yi scanned the cave instantly-the top one did look like a cultivation room. There was a brown jade cushion in the middle, and there was a damaged Level 7 spirit gathering formation around it. Perhaps it was caused by the guy's failure to break through back then, and he didn't fix it after he became a spirit.

The space in the other two caves was relatively large. One had a casting pool, and the other looked like a nursery. Something must have been planted in the past, but now it was barren. It was a miracle that the soil had not turned into stone.

"You also know about forging and nurturing spiritual herbs? Could it be that he's also studied the Dao of crafts and the Dao of alchemy?" Lin Yi glanced at Wang Ba, curious. With all the formations he'd set up earlier, this bastard was an all-rounder?

"I only know a little about it. It's just for fun. Forging is just making some formation flags to set up formations. Spiritual herbs can't be used. In this place, spiritual herbs are basically never grown." Wangba was quite humble-it seemed like he was scared of Lin Yi's tricks, too. He didn't dare show any pride.

"Do you have any more formation flags? Take them out and let me see!" Lin Yi was looking for some formation flags from Wangba-it'd be great if Wangba had more.

To be able to set up a level Seven formation was already high enough for him, and it was a waste of talent at his current stage. But with this damn thing's guidance, Lin Yi felt that his progress in formations would be very fast, and it wouldn't be long before he could make full use of these formation flags.

"I'm sorry, I've used up all the array flags I made ..." Wang Ba wanted to cry but had no tears. How did he meet such a guy who would pluck at the feathers of a goose when it came to it and want everything? Yet, he couldn't beat him!

At that time, in order to be able to successfully possess the body, he had deliberately limited the creation battle technique that was circulated to the Yuanying stage. Was this really the original level?

"Why do you say you don't have anything?" Lin Yi frowned in dissatisfaction, but he didn't mind. It didn't matter if there weren't any formation flags. The important thing was the subsequent part of the creation battle technique.

Tian xingdao had already jumped into the cave and started looking for the next part of the creation battle tactics, but Lin Yi's spirit sense didn't find it. Tian xingdao probably wouldn't find anything either.

"Ten-thousand-year turtle, where is the subsequent mental cultivation method of the creation battle technique? There was none in the cave! My patience is limited, and you know the consequences of playing tricks!" Lin Yi grabbed at the air and pulled Wang BA's spirit in front of him, activating the devouring power.

"No, no! If you don't believe me, let's go up together. I'll find it for you to see because I've set up a concealment array under the spirit gathering array, so your spirit sense won't be able to find it. " Wangba explained quickly, in case he got devoured by Lin Yi.

"Your array Dao is really brilliant. Even I couldn't detect the concealment array you set up!" Lin Yi was speaking on behalf of the ghostly thing, because even with the ghostly thing's skill, it couldn't detect the invisibility formation.

Wangba laughed awkwardly, but he was looking down on Lin Yi in his heart-he was the one to blame for his own lack of skill?

Chapter 6040 Miniature Teleportation Array

As he spoke, Lin Yi and Wangba flew into the cave above. Tianxing Road had already been searched thoroughly, and there was nothing.

The place was empty to begin with. There was only a brown jade futon that stood out. Tian xingdao held the Jade futon in his hand and flipped it over. He did not find anything unusual.

"Where is it?" Lin Yi looked at Wangba and asked calmly.

"Loosen up a little, I'll go remove the formation. Are you afraid that I can escape from your palm?" Lin Yi had restricted Wangba's movements-he couldn't do anything but talk.

Lin Yi didn't suspect anything-the room wasn't big, and there was no need to worry about Wangba running away. He relaxed his control a little.

"Thank you, thank you!" Wang Ba laughed as he floated towards the Jade futon. At the same time, he released his divine senses. The entire Jade futon suddenly lit up with a ball of light that instantly enveloped Wang Ba.

"It's a miniature teleportation formation!" The demonic thing cried out in alarm. This miniature teleportation formation was hidden in the Jade futon, and even he was unable to discover it. It seemed that the level of the formation was not high, and it was probably because the method of setting up the formation was completely different from what he knew.

Lin Yi didn't say anything and activated his hand, but Wang Ba was already in the light. The light blocked the hand completely, not affecting him at all.

"Quickly follow them in! Otherwise, we won't be able to activate the second teleportation in a short time!" The demonic thing was communicating with Lin Yi through its spirit sense at an extremely fast speed. To the outside world, it was like time had stopped.

Because of that, before the teleportation formation could send Wang Ba away, Lin Yi and the hand had already touched the light.

The hand was stopped, but Lin Yi made it into the light-Wang BA's pride turned into fear!

"Don't come in! "This formation can only teleport one person ..." Wang Ba only managed to say half of the sentence before disappearing with Lin Yi in a flash of light. Only the Jade futon returned to its original brown color, as if nothing had happened.

"Lin Yi!" Tian xingdao turned pale with fright. Everything had happened so quickly that he had no time to react. Although he knew that he should stop Wang Ba, his body could not keep up.

Before he came in, Tian xingdao wanted to protect Lin Yi, even if it meant sacrificing his life. But in the end, he watched Lin Yi disappear. That kind of anger towards himself almost made him lose his mind!

If he didn't hear Wang BA's words and knew that this was a teleportation formation, Lin Yi might not be in any danger. The Tian Xing sect might even kill him.

On the other side, Lin Yi's vision went dark as he entered the teleportation formation. He felt a tearing pain all over his body. The heaven's stolen fortune activated automatically and suppressed it with great difficulty. His head was dizzy again, and even his Yuan Shen was showing signs of instability.

The ten-thousand-year turtle wasn't lying. This miniature teleportation formation couldn't withstand the teleportation of two people! Even if one of them was only a primordial spirit!

He didn't know how long it took, maybe a few days, or maybe just an instant, but when he felt that his spirit was about to collapse, a drop of pale gold Black Sea soul concentrating liquid was sent into his sea of consciousness, instantly stabilizing his turbulent spirit.

In the next moment, Lin Yi found himself in a stone room that was very similar to the one before. If it weren't for the small stone bookshelf, he would've thought that he wasn't teleported away.

"Senior ghost, where's that ten-thousand-year turtle?" Lin Yi shook his head-he knew that it was the bastard who saved him with the Black Sea soul-freezing liquid, but he didn't know if the bastard was still alive.

"There's no need to worry about him. The miniature teleportation formation can indeed only support the teleportation of one person. During the teleportation process, that unlucky fellow was already torn to pieces. If it wasn't for the Black Sea soul-consolidating liquid you just obtained, your soul would've been greatly damaged as well. " The demonic thing was still a little scared-if Lin Yi died, the Jade space might collapse as well, and it would be the same for the demonic thing.

Even though he had the soul nurturing wood and the Black Sea soul condensing liquid, he would definitely not be able to survive the spatial collapse of the jade pendant and the tearing force of the teleportation formation.

"He got off easy!" Lin Yi sighed softly. He had underestimated this ten-thousand-year-old monster-one mistake and he'd found the chance to escape. The guy was finished in the end, but he couldn't even use devour or soul search to find any information.

Fortunately, this stone room should be another place where Wang Ba cultivated. The teleportation formation was set up to leave a way out. If he guessed correctly, the subsequent mental cultivation method of the creation battle technique should be here.

"Senior ghost, is the teleportation distance of that miniature teleportation formation far? Where are we now?" Lin Yi had completely lost track of time during the teleportation process. He didn't even know how long it had been, so he could only ask the damn thing.

"I'm still on the island. The teleportation took less than a second. However, this stone room was hidden by Wang Ba with an array, so I didn't notice this place before. Speaking of which, this guy's array Dao is indeed good. I've never seen such an array formation technique before. If I have the time, I'd like to study it here. " It was rare for the ghost to be so serious, and Lin Yi took it seriously.

Even this ghostly thing, an earth-rank formation master, was full of praise for it. If he could find Wang BA's Formation Manual, it would not be inferior to the latter part of the creation battle technique.

The most eye-catching thing in the stone room was the stone bookshelf. There were four rectangular Jade boxes on it. The Jade boxes were protected by a restriction to prevent the items in the Jade boxes from being damaged.

Lin Yi's spirit remained alert as he walked to the stone bookshelf and broke the restrictions on one of the Jade boxes. The restrictions were only used to protect the box and weren't complicated, so it was easy to break.

Before opening them, Lin Yi sent his spirit sense in to check carefully. That bastard Wang Ba was very cunning-who knew if he'd set up a trap in the boxes?

The demonic thing didn't dare to waste any time and checked with Lin Yi. After making sure that there were no problems, he let Lin Yi open the jade box.

There was a thin book in the box, made of some kind of silk. If it wasn't for the restriction, it would've rotted away after ten thousand years. Lin Yi was very careful, afraid that he would cause irreparable damage to the book.

"As expected, it's the follow-up heart technique of the creation battle technique. With this part of the heart technique, big brother Tianxing Dao won't have any problems cultivating to the earth-splitting stage!" Lin Yi only flipped through it a bit and smiled in satisfaction.
