### Chapter 6041 Myriad Amplification Array Diagram

This trip was not in vain if he obtained the follow-up Scripture of the creation battle technique. The other three Jade boxes on the bookshelf were definitely a surprise. He could only hope that Wang BA's array Dao ancient book was in it.

Lin Yi didn't have the time to read through it. He put it into his storage bag and broke another restriction before opening the box carefully.

Inside was another book made of the same material. There was no indication on the cover. After opening it, he found that it was Wang BA's cultivation experience on the creation battle technique.

"The ten thousand year turtle is indeed a great genius. He is definitely a master in the research of the creation battle technique! It's a pity that he was still stuck at the earth splitting stage. If he had the chant for the cultivation method after the sea splitting stage, his achievements would be limitless!" Lin Yi couldn't help but exclaim as he flipped through it.

Lin Yi was hesitating whether he should give this to Tianxing or not. Everyone had their own understanding of the creation battle technique. It wasn't completely different, but it was definitely not the same. It was just like how Lin Yi used the art of Dragon mastery and the creation battle technique-it was only suitable for himself, and Tianxing had almost no use for it.

Wang BA's cultivation experience was indeed exquisite, but it was precisely because of this that it was likely to affect the heavenly path's own understanding of the creation battle technique. In the beginning, it might advance very quickly, but it was hard to say when it reached the later stages.

"Senior ghost, do you think this cultivation experience will be of any use to the heavenly path?" Lin Yi wasn't sure, so he asked for the damn thing's opinion.

"You can give him some reference. He'll be able to distinguish what's useful and what's useless. In fact, it doesn't matter if you don't give it to him. In any case, it's just the experience of a loser. No matter what, he will still be unable to break through to the sea splitting stage. " The demonic thing looked indifferent, even a little disdainful.

Lin Yi didn't know what to say-this thing was basically talking nonsense, but it did make sense ...

In the end, Lin Yi decided to keep it and give it to Tian xingdao to decide if he wanted to use it or not. He still had to open the other two Jade boxes.

The third box's restriction was broken, and Lin Yi was starting to look forward to the formation path manual again. It didn't matter if it wasn't, as long as it wasn't Wangba's notes on cultivation ...

"Basic forging?" Lin Yi didn't know what to say-was there a need to keep a book like this for ten thousand years?

Even the king of junk would probably be disgusted if he were to give this thing to him, right?

"Kid, don't look down on the foundation of weapon forging from ten thousand years ago. The current weapon forging techniques are only as rare as Phoenix Feathers and Qilin horns that have been passed down from the past. If this book is put up for auction, it will definitely fetch a sky-high price. Although your friend, the king of junk, has other inheritances, this book will definitely be of help to him." The ghostly thing kindly reminded him and then urged,""Alright, hurry up and open the last Jade box!"

Lin Yi thought about it and agreed. It was worth it if he could give it to the king of junk.

Before opening the last Jade box, Lin Yi suddenly thought of the nursery in the cave. This last hope, could it be the books on growing spiritual herbs?

One of the caves contained a forging pool, and the third Jade box contained the foundation of forging, so this guess was really possible ...

Spiritual Herb Planting Guide!

It was really F \* cking used for planting grass!

Lin Yi almost threw the jade box and the book away. This bastard! What the hell is this? it's actually been preserved for ten thousand years!

"Wait, there's something under this book. Take it out and take a look!" The demonic thing was also a little disappointed, but he was obviously more careful. His spiritual sense found that there was a thin folded drawing under the book.

Lin Yi blinked and quickly took the book out of the jade box. He saw the blueprint at the bottom. If the damn thing was in closed door cultivation, he would've used his spirit sense to check first, but he almost didn't notice the blueprint.

It seemed that he couldn't rely too much on these damn things in the future. He had to do everything himself!

"Ten thousand amplification formation!" Lin Yi read out the words softly and opened the drawing.

It was a little small, but at least it seemed to be something related to formations. Lin Yi was looking forward to it.

However, after unfolding it, this A4-sized diagram of the ten thousand amplification array was actually blank. There was no content inside!

"What's going on? Could it be that too much time has passed, and the content on it has already disappeared?" Lin Yi was a little surprised. He turned it around and saw nothing but the words "myriad amplification formation."

If the content had disappeared due to the passage of time, then the four words should not have been left behind! Lin Yi flipped the blueprint over again and studied the blank space.

Maybe he needed to get some water on it? Or should he use fire to roast it? Or should he use water before fire? Lin Yi's mind kept replaying the scenes he'd seen before-he'd have to give it a try if it didn't work.

Just as he was thinking about it, a black dot appeared in the center of the formation. Lin Yi perked up-it was a rare discovery! It seemed like water and fire weren't needed to display the contents!

After that black dot appeared, another black dot appeared not far from it. Then, in a breath's time, more than a dozen black dots appeared in succession. These black dots were arranged in order and surrounded the black dot in the center. Soon, they formed a simple array map.

"This is ... A level one formation?" Lin Yi blinked as he looked at the formation in surprise.

Without waiting for him to finish, these black dots changed their positions slightly and formed another level 1 array diagram. After a few breaths, the third array diagram appeared.

He'd be an idiot if he still didn't know what the formation was!

"So this is where Wang Ba learned his array Dao! With such a treasure, it's not difficult to become a formation master!" Lin Yi sighed and put the thousand amplification formation into the Jade space, giving it to the damn thing to study. He needed to meet up with Tian Xing Dao as soon as possible, in case they worried about him.

"Kid, you're underestimating the array Dao too much! This ten thousand amplification array diagram is indeed a treasure, but if you don't have the talent in this area, you definitely can't become a formation master!" The ghastly thing was in a good mood. He laughed strangely and said,""The number of changes you can see in the myriad amplification array diagram depends on your array formation strength and array formation talent. For example, if you're only a level 1 array formation master, you definitely can't see the changes in Level 2 array formations. Your talent, on the other hand, determines how many Level 1 array formations you can see. Only by mastering more array formations can you quickly upgrade and see the changes in the next level!

Chapter 6042 Perfecting The Heaven Seizing Fortune Battle Technique

"So that's how it is! This meant that the ten-thousand-year turtle was very talented in arrays. Otherwise, it wouldn't have been able to set up an array that even you couldn't see through! By the way, senior ghost, how are we going to leave this place? Can that miniature teleportation formation still be used?" Lin Yi searched the room as he spoke, but didn't find any exit. It seemed like Wangba used a teleportation to get in and out of this place.

"The teleportation array is already broken, and it won't be repaired in a short time. You should stay here quietly." The demonic thing was so focused on studying the myriad amplification array that it didn't have the time to repair the teleportation formation. Moreover, it was true that it couldn't repair it, at least not before it finished studying the myriad amplification array.

Lin Yi didn't know what to say-what the hell was this? Don't you know that Tian Xing Dao is in a hurry outside?

"Don't even think about destroying this stone room. Wang Ba has set up a formation outside. If you touch this place, you might cause the entire Island to collapse. Hmm, just wait for me for a day or two! I'll think of a way when the time comes!" The demonic thing continued studying the thousand amplification formation after that, not caring what Lin Yi was thinking.

Lin Yi was planning to force his way through, but he didn't do it after hearing the warning. He didn't mind, but it'd be troublesome if he buried Tian Xing path here.

Lin Yi had no choice but to take out the latter part of the creation battle technique and study it himself.

After combining the art of Dragon mastery with the art of Dragon mastery, there were no subsequent problems with the battle art of heaven's stolen fortune. As long as Lin Yi continued to deduce it, he could continue to cultivate it.

But with the original creation battle tactics as a reference, this kind of deduction would be even more perfect. At first, Lin Yi just wanted to kill time and wait for the damn things, but after studying the creation battle tactics, he was completely immersed in it.

The battle tactics of heaven's fortune was a practitioner's art that Lin Yi had derived when he was in the Foundation Stage, and he never modified it since. In fact, he should've derived it again after reaching the nascent stage-after all, the practitioner's Arts and comprehension of the two stages were completely different.

This time, with the original creation battle tactics as a reference, Lin Yi instantly discovered some shortcomings in the heaven seizing creation battle tactics. In fact, it wasn't really a shortcoming, but after the level was different, he could find a more perfect plan.

Unknowingly, Lin Yi's heaven's stolen fortune started to run on its own and was being perfected in the process. The spiritual Qi nearby was being drawn and slowly gathered around Lin Yi.

Lin Yi, who'd entered a practicing state by accident, felt the lack of Qi around him. He waved his hand and took out a huge pile of spiritual jades from the Jade space, piling them up in the stone room. The Qi from the Jade space itself was also transferred into Lin Yi's body.

The place Lin Yi was in was the second place where Wangba used to go into seclusion. With the appearance of the large pile of spirit jades, a hidden spirit gathering formation was activated, and all the Qi was gathered in the stone room. It even formed a Qi Whirlpool, and Lin Yi was absorbing it crazily.

Everything was as natural as water flowing down a canal. Lin Yi didn't spend much effort and broke through the barrier of the peak of the late stage of mysterious Ascension, officially stepping into the peak of mysterious Ascension!

At the same time, his Spirit's strength increased as well. The two broke through at the same time, or rather, they complemented each other. Lin Yi's future advancement would probably be like this, completely different from the Sky Class island's practitioners. It was similar to the ancient martial world's way of using the spirit to increase strength, but not completely the same.

Lin Yi didn't stop training after reaching the peak of xuansheng realm. While he was perfecting the heaven's stolen fortune, his strength increased rapidly. In a short time, he had completely stabilized his strength and kept accumulating energy.

As time went on, Lin Yi could feel that he was more than twice as strong as before, but he still hadn't reached the mountain split stage yet. It seemed that he needed more accumulation if he wanted to break through to the mountain split stage in one go.

The spiritual jades in the stone room had all turned to dust, and the spiritual Qi Whirlpool had calmed down. Lin Yi let out a breath and slowly opened his eyes.

"Why don't you use the mountain gaze pill and break through in one go?" The ghostly being had already stopped studying the myriad amplification formation and asked in a strange manner.

Lin Yi had the peak grade mountain gaze pill with him, and there was a high chance of breaking through if he took it just now.

"I feel that my accumulation is not enough. It's not the time to advance to the mountain opening stage yet. Let me cultivate for a while more!" Lin Yi smiled as he stood up and moved his body slightly. He liked the feeling of being strong.

The demonic thing didn't say anything. It was good that Lin Yi could recognize him clearly. When the time came, he would break through again, and it would be much stronger than now.

"Senior ghost, how long did I take to break through? Can we go out now?" Lin Yi didn't continue his training, but he wanted to leave this place and meet up with the sky path sect as soon as possible.

"It's only been a day. I've already studied this teleportation array. It seems that there's no way to repair it. We can only start from the array here. Let me tell you how to crack it!" The demonic thing was a formation master, and he studied the myriad amplification formation at an extremely fast speed. He also had a clear direction, so he found a way to break the formation in a day.

Lin Yi replied and prepared to help the ghost break the formation, but the ghost suddenly changed his mind. "Lin Yi, I think we shouldn't go out for now."

"Why?" Lin Yi asked, confused. The ghostly thing then shared its divine sense with Lin Yi, making him speechless.

The stone room was actually very close to the top of the island, and it was probably built by Wang Ba to feel the Qi and practice the creation battle tactics. The problem was that it was high tide now, and the entire Island had sunk into the sea. Lin Yi could clearly see that there were dozens of sea beasts surrounding the island with his spirit sense, one of them was at the ground opening stage, and two were at the mountain opening stage.

Although this Sea area was still within the middle Island Sea area, it was definitely not the safe sea area of the middle Island. It was not strange for these sea beasts to appear here. The strange thing was, why did they gather here? Was it attracted by Lin Yi's breakthrough?

It wasn't a big deal if Lin Yi was training, but that last breakthrough was a bit too loud. The spiritual Qi was too intense, and it attracted all the sea beasts nearby.

These sea beasts usually moved alone, and when they met each other, they might even fight each other. But after sensing Lin Yi's aura, the atmosphere immediately became harmonious and they gathered together, ready to fight him.

#### Chapter 6043 Meeting

If it was just these sea beasts, Lin Yi was confident that he could escape, but there seemed to be more sea beasts gathering in the distance. If he broke out of the formation now, he would be in a very bad situation if he was delayed for a few breaths.

Unfortunately, it wasn't a matter of whether Lin Yi wanted to get out or not. The sea beasts attacked the island after circling it for a few rounds!

A few sea beasts at the xuansheng stage could easily destroy this small island. However, even with so many sea beasts, including those at the mountain opening stage and the earth opening stage, attacking at the same time, the small island was not immediately damaged. This was because when they attacked, a layer of defensive light film emerged from the entire Island, which temporarily blocked all the attacks.

"Is this the defensive formation that Wang Ba set up before?!" Lin Yi was surprised and happy at the same time. He didn't think that the b\*stard's defensive formation would still work ten thousand years later. He and the damn thing didn't even notice the formation before.

The invisibility formation on the island had indeed been deliberately made by Wang Ba to look like it was naturally damaged. Otherwise, no one would have been able to discover this place.

"This formation won't last long. Let's leave quickly!" The damned thing had studied the myriad amplification formation, so he naturally knew the weakness of this defensive formation.

It might take a lot of time for a sea beast of the earth opening stage to break through this defensive formation. However, with two sea beasts of the mountain opening stage and so many sea beasts of the Xuan Sheng stage and the nascent Soul Stage, they could only hold on for about half an incense stick's time at most.

While the defensive formation was still working, they should get out of here immediately and fly out of the sea with the flying saucer. Their safety would be guaranteed.

"Senior ghost, is the heavenly path still here?" Lin Yi wanted to leave this place as well, but he needed to confirm the location first.

Without the help of the ghostly thing, his spirit sense could not get out of the formation outside the stone chamber. Naturally, he could not search for the Tian Xing Dao smoothly.

"...He's still in the stone room you were teleported to. He probably thought you would return there!" The demonic thing said helplessly. It wasn't a short distance from here to there, but Lin Yi had the lightning escape technique. As long as they could get out of this formation, they would be able to get there very quickly.

The only problem was that it would not be easy to get out of this formation.

"Let's find Tian Xing Dao first. We can't leave him here. Once the island's defensive formation collapses, he'll be buried alive at the bottom of the sea!" Lin Yi made a quick decision to meet up with Tianxing path.

The damn thing knew that there was no objection, so it cut to the chase and started teaching Lin Yi how to break out of the formation.

At this time, Lin Yi especially wanted a batch of good formation flags-it'd be much easier to break the formation. Without proper formation flags, he could only use the stupid way to cooperate with the damn thing's explanation, which was less efficient.

The entire Island trembled slightly. It seemed like the defensive formation that Wang Ba had set up could not completely block the attacks of the sea beasts. It was unknown who would break the formation faster, the one on the outside or the one on the inside.

Tian xingdao felt that something was wrong as well. He left the stone room and retreated back the way he came from. This way, Lin Yi would have a shorter time to meet up with him.

After a few seconds, Tian Xing returned to the entrance of the island. Because of the seal, the sea did not flood in, but he could still see the situation outside. There were so many sea beasts, and more than sixty to seventy percent of them were stronger than him. Not to mention that he was under the sea, even if he was on the land, he would not be able to escape from the siege of these sea beasts.

"Lin Yi, it looks like I won't be able to wait for you to come back! I hope I don't meet you on my way to Samsara!" Tian xingdao laughed carefreely. He was not too concerned about the dangerous situation in front of him. Since ancient times, everyone had died. He just had to kill a few more sea beasts to make up for it.

Tian xingdao's only regret was that he couldn't confirm Lin Yi's safety. If he didn't go to Lin Yi for help, Lin Yi wouldn't be in this situation.

Now, the Tian Xing sect was only waiting for the defensive formation to be broken. Then, they would go all out and kill as many sea beasts as they could. As for running away, they had never even thought about it.

With the strength of the Tian Xing Dao, they would only die faster and more miserably if they tried to escape from the sea beasts of the mountain opening and earth splitting stages!

Time passed slowly under Tian xingdao's watchful eyes. Seeing that the defensive formation was on the verge of collapse, he became more and more focused. He did not notice a figure silently appearing behind him.

"Brother Tian!" Lin Yi patted Tian xingdao's shoulder, scaring him so much that he almost jumped.

"Lin Yi! You're fine! That's great!" Tian xingdao almost threw the attack behind him, but Lin Yi's voice stopped him in time.

Lin Yi didn't think too much about it-he was quite touched by Tian xingdao's surprise. If the Tian Xing Dao had not waited for him, he would not have been trapped here.

"I've made brother Tian worry! Let's get ready to leave!" Lin Yi smiled and looked at the sea beasts outside the formation.

After this period of time, many more sea beasts had joined in. Fortunately, there weren't any new earth formation stage sea beasts, which was good news for Lin Yi.

"Lin Yi, there are too many sea beasts out there, don't worry about me, just walk if you can! Don't hesitate, or none of us will be able to leave!" Tian xingdao retracted his smile and looked at Lin Yi seriously.

Lin Yi blinked, understanding that Tianxing didn't want to drag him down, but there was still a chance of getting rid of it if it was just a sea beast of the earth formation stage.

"Brother Tian, don't worry. I'm confident that I can leave this place with you!" Lin Yi waved his hand and didn't explain further, but his confidence had infected the Tian Xing Dao.

"If that's the case, then we brothers will take a gamble together!" Tian xingdao smiled again and clenched his fist to meet Lin Yi 'S. He had made up his mind that if the situation turned bad, he would stay and buy time for Lin Yi to escape from this Island.

Speaking of which, Tian xingdao didn't know that Lin Yi had a flying saucer. He thought that Lin Yi brought him out of the sea and found a nearby Island to settle down. As long as they weren't under the sea, the sea beasts wouldn't bother them.

If it wasn't for the fact that the defensive formation couldn't hold on any longer and Luo Chao still needed at least two hours, the Tian Xing Dao wouldn't let Lin Yi take the risk.

"Now! Let's go!" Lin Yi's spirit sense was paying close attention to the attacks outside. He took advantage of the time when one of the attacks landed on the defensive formation and before the next wave arrived, he shouted and rushed out with Tian xingdao!

#### Chapter 6044 Escaped

At the same time, the strongest earth formation stage beast was swimming in another direction, which was further away. As far as Lin Yi was concerned, this was the best chance!

The defensive formation was only for the outside, not the inside. Lin Yi and Tian xingdao rushed out of the formation without any obstacles and were about to face the next wave of attacks.

Lin Yi circulated his Qi and released the lightning bolts that he had prepared beforehand. More than ten lightning bolts spread in the water instantly, and the dark water surface was suddenly as bright as day. Some of the sea beasts around were affected by the lightning bolts and fell into a temporary state of paralysis.

Lin Yi, on the other hand, activated his Thunder escape technique and brought Tian Xing Dao away from the sea beast's attack range in the nick of time.

He'd always been using his lightning escape alone-he wasn't sure if he could bring people with him. Luckily, he didn't make the wrong bet this time-he had Tian Xing Dao with him, which shortened the distance, but at least he didn't fail!

The defensive array was finally torn apart by the wave of attacks Lin Yi and the others dodged. If the two hesitated for a moment, they would be surrounded by all the sea beasts now!

The sea monsters that weren't affected by the lightning started chasing after them the moment they saw them. All sorts of attacks exploded in the water, causing huge waves to rise.

Lin Yi brought Tian Xing with him and should be able to escape the sea with one lightning escape. After all, the tide wouldn't rise too much, and the highest point of the island was only one meter above the sea.

But because of the beast's violent attack, Lin Yi's estimation of the force of the attack didn't happen. He flew up a dozen meters and was still in the middle of a huge wave. He then fell back down with the wave.

Lin Yi spread out his spirit sense and shot out another lightning arc after finding the direction. He brought Tian xingdao tens of meters away and wanted to take out the flying saucer, but he still didn't have the chance. There were too many sea beasts in this area, and they were all very smart. After realizing that Lin Yi was using the lightning escape technique, they started to attack the entire area.

No matter how fast lightning escape was, as long as he wasn't out of the area, he wouldn't be able to avoid the concentrated attacks. If Lin Yi took out the flying saucer now, he'd become a target for the sea beasts.

The metal's defense had increased, but Lin Yi didn't want to use it against the sea beasts. One or two was fine, but there were hundreds of them. The metal wouldn't do anything!

Lin Yi's eyes turned cold. If he was alone, he could use the Thunder escape technique to move continuously and quickly get out of the sea beast's attack zone, but bringing Tian xingdao along was a big hindrance to the Thunder escape technique. He had to protect Tian xingdao from the lightning, which consumed a lot of pure Qi and mental strength.

Since he couldn't leave, then he wouldn't leave!

Lightning thousand explosion!

This was one of Lin Yi's most powerful killing moves, the number one when it came to group attacks!

Countless dark blue lightning bolts poured down on the surface of the sea, and the small arcs exploded and jumped on the surface of the water. The sea beasts in the area screamed in pain, and many of them died under Lin Yi's attack.

Under Lin Yi's protection, Tian xingdao wasn't affected by the lightning explosion, but he was still shocked by the destructive power of the move.

He'd always known that Lin Yi was strong, and now he had a first-hand experience!

Lin Yi didn't want to waste any more time. He took advantage of the fact that the lightning explosion had cleared out an area of sea monsters and intimidated the sea monsters outside of the area. He took out the flying saucer and activated it. He then entered the area with Tianxing.

If he was alone, he might've killed all the sea beasts here and collected their cores, but now, he didn't even touch the dead Sea beasts. After entering the flying saucer, he immediately flew away.

Compared to his gains this time, a few sea beast inner cores were not worth mentioning. The most important thing now was to ensure the safety of Tian Xing Dao and let him continue to practice the latter part of the creation battle technique.

"Lin Yi, it's all thanks to you that we were able to escape unscathed!" Tian xingdao came to Lin Yi's side and expressed his gratitude sincerely. Although he couldn't find the latter part of the creation battle technique, he was satisfied that he could escape with Lin Yi.

"Brother Tian, there's no need to be so polite. If you hadn't been waiting for me, you would've been able to leave that Island unscathed!" Lin Yi smiled and waved at Tian xingdao.

From the flying saucer's surveillance screen, they could see many sea beasts gathering in the direction they came from. If Lin Yi and the others didn't leave in time, they might have to face a new wave of sea beasts.

Remembering the stuff he got from Wangba, Lin Yi took out two Jade boxes and handed them to Tian Xing. "Brother Tian, this is the latter part of the creation battle technique. I've already seen it and there are no problems with it. It's a pity that it can only be cultivated to the earth splitting stage. If I want to break through to the sea splitting stage, I still need to continue looking for the latter part of the technique. The other Jade box contains Wang BA's cultivation experience. See if it has any reference value. "

"You've found the subsequent mental cultivation method of the creation battle technique?!" Tian xingdao was both surprised and happy. He quickly took the Jade boxes with both hands. He thought that

he wouldn't be able to find the creation battle art this time and would have to come back next time. He didn't expect Lin Yi to take it out directly.

"Yes, that B \* stard Wang Ba hid it in another cultivation room. If he didn't want to escape, it would be hard to find! You can take a look at that cultivation experience, but don't take it too seriously. We're not on the same path as a ten-thousand-year turtle!" Lin Yi smiled faintly and explained his thoughts. He believed that Tian xingdao would understand what he meant.

"That's right. We cultivate the creation battle technique in an upright manner, but Wang Ba is more sinister. His cultivation experience has no reference value!" After Tian xingdao confirmed which book was Wang BA's cultivation experience, he clasped his palms together. With a surge of true energy, he turned the book into dust.

For Tian xingdao, he had to find his own path. A mere Wang Ba was not qualified to guide him.

This kind of pride that came from the depths of his heart moved Lin Yi. He believed that with the follow-up, Tian Xing Dao's strength would increase quickly!

"Speaking of which, did that guy escape?" Tian Xing Dao kept the creation battle technique and asked about Wang BA's whereabouts.

Chapter 6045 Volunteer

"No. The miniature teleportation formation he set up can only teleport one person, so when he was teleporting, his soul was torn apart." Lin Yi replied calmly, but he was still a little scared inside. If it wasn't for the damn thing's help with the Black Sea soul-freezing liquid, he and Wangba would've been dead by now.

"That's good too. If he escapes, he'll be a disaster in the future. " Tian xingdao nodded slightly. Knowing that Wang Ba had died, he was relieved.

Wangba's plans were enough to tell that he was a scheming man-he'd definitely come for Lin Yi's group for revenge if he escaped, and there was a high chance that it'd affect Tian Gang and the others.

As they spoke, the two were getting closer to the island, but Lin Yi still didn't reach the center. He kept the disc at the edge of the island.

Tian xingdao already knew that this was a flying device made by han Jingjing for Lin Yi. He was amazed at Jingjing's genius and wondered if he should ask her for a flying device when she woke up. It would be much more convenient for her to go out in the future.

The two of them returned to the heavenly elixir Pavilion. In the time that they had left, nothing major had happened on the island. Everything was calm, and han Jingjing did not show any signs of improvement. Tianxing was in a hurry to cultivate the creation battle technique, so after visiting han Jingjing, he quickly left.

Lin Yi stayed in Han Jing Jing's room and frowned. He turned to Tian Gang and said,"Is there any reply from the secular world?"

"No, and the higher-ups of the central Chamber of Commerce in Nakajima are not here these two days. I can't even ask anyone." Tianshuo shook his head helplessly. He didn't know if it was because of min huichen's non-stop questioning that Kang Zhaoming and the others disappeared.

Lin Yi blinked. He wouldn't suspect that the central Chamber of Commerce was avoiding him on purpose. If Kang Zhaoming could do something like that, Zhong pinliang definitely wouldn't. It must be something new from central, and they gathered all of them.

It was a pity that pinliang didn't give him any news, too. Lin Yi couldn't make any conclusions, but he could only hope that it wasn't related to the South continent's plan.

"Did the people from the central Chamber of Commerce say when they would be back?" Lin Yi asked casually, but he was thinking if he should leave for the South continent immediately.

Shangguan Tianhua didn't set a time limit for Lin Yi to investigate the South continent, but it was better to finish it as soon as possible. Besides, Lin Yi was going to the East continent with Shangguan LAN 'er, and there was a time limit.

"Min huichen said that they'll be back within the next two days. I don't think they're going somewhere too far away. They're just leaving for a while." Tian Gang did not think that the return of the upper echelons of the central Chamber of Commerce would be any different. The key to this matter was to see if the secular world had any news of han Jingjing.

"Lin Yi, maybe we should talk to Island master ao Tian and go back to the common world. It's better than waiting here, right?" Tian Gang hesitated for a moment, but he still brought up his idea.

She didn't want Lin Yi to go back to the common world-the last time he left, he was gone for two to three years, who knew how long he'd be gone this time? But if han Jingjing couldn't come back, it was necessary for Lin Yi to go back to the common world.

"You're right. I'll go ask Island master ao Tian in a while." Lin Yi nodded, but didn't have much hope.

Primordial spirit projection could not be used anytime and anywhere. He had just returned not long ago. Even if the AO Tian state wanted to help, it was hard to say that he could definitely use primordial spirit projection.

As the two of them were conversing, LAN Guzha ran up and stuck his head out of the door to take a look. He then called out softly, "Boss, can I tell you something?"

Lin Yi blinked-what was this guy doing? He had always been a straightforward person. Why did he change his style today?

"Say it!" Lin Yi beckoned for him to come in. Tianshuo wasn't an outsider, and there was no need to hide anything.

"Boss, it's like this. Sister-in-law Jing Jing still needs you to accompany her for the time being, so I'm thinking if I should take feiyi and the others to the South continent to have a look and collect information for you. When you get there, you can do things easily!" LAN Guzha ran in and said with a face full of smiles.

"You want to go to the South continent?" Lin Yi looked at LAN Guzha, surprised. Since when did this guy become interested in things other than eating and fighting?

"Hehe, I'm just trying to share the boss's burden! Besides, those guys have nothing to do in the middle Island, and they might cause trouble. Let me take them to the South continent, maybe they can play some role. " LAN Guzha laughed shamelessly, but Lin Yi felt that the suggestion was feasible.

Tianshuo could not help but want to laugh. He had nothing to do all day. The one who could have caused trouble was obviously LAN Guzha himself, but this guy could still rely on others with a straight face.

Hao Zili and the others were under Lin Yi's control. They were cautious in everything they did, afraid of angering Lin Yi. They were on the opposite end of the spectrum from LAN Guzha.

"You're right. In that case, you can take the three of them to the South continent and collect intelligence for me!" Lin Yi smiled. He guessed that LAN Guzha was bored in the middle Island and wanted to find something to do in the South continent.

Lin Yi didn't expect the guy to be of much help if he was going alone, but he should be able to help with Hao Zili, min huichen, and the others.

They were all new faces in the South continent, and feiyi was a flying spirit beast, which made it easy for them to move around. They might have already gathered enough information when Lin Yi went there.

"Haha, don't worry, boss. With me, LAN Guzha, taking action, I'll definitely be able to settle this properly!" LAN Guzha was overjoyed when he heard Lin Yi's answer, patting his chest and promising loudly.

In fact, LAN Guzha really wanted to do something for Lin Yi this time. Of course, going to the southern continent to mess around was also one of his goals.

More importantly, LAN Guzha could bring along three followers. When the boss was not around, he was the boss. It would be interesting to go out and show off.

"Remember, when you go to the South continent, don't expose your purpose. Don't act rashly and don't alert the enemy. Just collect information in secret, understand?" Lin Yi said with a serious face. These things weren't difficult at all, so he didn't have to worry about LAN Guzha and the others.

"I understand, don't worry, boss!" LAN Guzha agreed without hesitation. No one in the South continent knew about his relationship with Lin Yi, so even if something went wrong, no one would link it to Lin Yi.

Chapter 6046 Wormhole Space

"Let's go. I'll go and inform Hao Zili and the others. " Lin Yi waved his hand and brought LAN Guzha downstairs. He gathered Hao Zili and the other two and repeated what he said.

Hao Zili and the others were overjoyed. It was a rare opportunity to work for Lin Yi. If they did it well, they might be able to get the antidote and get out of their misery. So, all of them looked as if they were willing to go through fire and water.

Lin Yi chuckled inside. LAN Guzha's sudden mention of going to the southern island probably meant that these guys were one of the masterminds. They must've heard from LAN Guzha that Lin Yi was going to the southern continent for some business, and incited him to come out and ask for the mission.

He knew that they wanted to do a few beautiful things and then ask Lin Yi to detoxify them, so it was perfect for them to help Lin Yi.

It was so convenient to have capable subordinates-he didn't have to do everything himself, and Lin Yi was even more determined to train more of his men.

LAN Guzha and the others left the central island after bidding Lin Yi farewell. They had already bought enough food before they came to ask for Lin Yi's permission, so they left quickly. The heavenly pill Pavilion became quiet again.

With LAN Guzha and the others going to the South continent to gather information, Lin Yi could stay in Nakagama with more peace of mind to take care of han Jingjing. He could also study the ten thousand amplification formation at the same time. With this damn thing guiding him, his understanding of formations improved by leaps and bounds.

A few more days passed, and the central Chamber of Commerce finally sent a reply from the common world. Lin Yi quickly opened it, but found no trace of Han Jing Jing.

"Not in the mortal world? Then where did Jing Jing go?" Lin Yi's brows were locked together, extremely frustrated.

Tian Gang and Xue Li looked at each other. They didn't know how to comfort Lin Yi, so they kept silent.

Lin Yi let out a long sigh. He went to ao Tianzhou two days ago to ask if he could use another spirit projection in the near future, but ao Tianzhou told him that it was impossible within half a year. This made Lin Yi give up on the idea of going back to the common world to find han Jingjing.

Where did han Jingjing go? This question, other than herself, probably no one else would be able to guess.

When she returned to Sky Class Island, han Jingjing's mind was filled with information about wormholes, so her mind was completely attracted to wormholes. Before she knew it, she had actually come to a wonderful space.

Everything in this space was illusionary. Han Jingjing was a primordial spirit, but in this space, she was further reduced to countless tiny particles. There were countless other particles shuttling back and forth around her. Fortunately, they did not clash with han Jingjing.

Under the control of han Jingjing's consciousness, every particle of her primordial spirit seemed to carry a trace of her own will. Unlike the other particles, which were straightforward, han Jingjing's particles began to wander around as if they were exploring a new world.

In the beginning, han Jingjing was worried that the other particles would collide with her essence soul particles and cause some uncontrollable changes. Thus, she was very careful when moving.

However, she slowly discovered that there seemed to be a special connection between all the particles. Just like her primordial spirit particles, although they were scattered, they would not leave a certain range no matter how they moved.

Even when han Jingjing's essence soul particle cluster passed through other particle clusters on purpose, nothing bad happened.

Han Jingjing did not know how much time had passed as she wandered around in this wonderful illusory space. Gradually, she grew tired of being in a particle state. When she had such a thought, the scattered particles began to gather quickly and soon returned to her primordial spirit body.

"What a wonderful place. This should be the wormhole, right?" Han Jing Jing raised her palm and smiled as she muttered to herself.

She had never thought that she would appear in a wormhole. After her previous wandering, Han Jingjing's research on wormholes had made a qualitative leap. If her physical body entered the wormhole, it would probably disintegrate instantly. Even if it could be reassembled, it would at most be a broken corpse.

However, there was no danger in the primordial spirit state. At least, there was no danger so far. It seemed that using the wormhole to travel between the sky Island and the secular world was safer than projecting the primordial spirit. However, whether there were any requirements for the strength of the primordial spirit, he still needed to study it.

"This is strange. Why am I suddenly in a wormhole?" Han Jingjing, who had just woken up from her research, suddenly realized why she was here.

After casually floating around for a while, Han Jing Jing nodded and muttered to herself, "That should be the case! When I returned to the sky Island, I could've gone back smoothly if I had only thought about my main body, but I was thinking about the wormhole, so I entered it. Could it be that the way for the primordial spirit to enter the wormhole is to focus on the wormhole?"

"That's not right! He could only enter through the wormhole when he returned to the Sky Class Island! Aiya! Lin Yi bro must be very worried that I can't go back, right? I need to go back as soon as possible!" Han Jing Jing suddenly stopped in the endless void and slapped her forehead.

The problem was, how could he get out of this wormhole?

Han Jingjing tried to use the method of returning to Sky Class Island to get out, but no matter how much she thought about her main body, it didn't work.

"It seems that this method won't work in the wormhole. I can only do this!" Han Jing Jing snapped her fingers, and her primordial spirit instantly dissipated, turning back into countless particles, forming an almost invisible ball of particles.

It was impossible to sense time in the illusory space, and there was no direction at all. However, han Jingjing judged from the flow of the particles around her that the exit of the wormhole must be in the path of many particles.

The only problem now was which direction should she choose?

A moment later, han Jingjing tossed that question aside and randomly chose a direction to move in. Since this wormhole connected the Sky Class Island to the secular world, it didn't matter. It didn't matter which way they went out. Even if they returned to the secular world, it would be easy to return to Sky Class Island.

He just didn't know how long it would take this time. Lin Yi bro, don't worry, Jing Jing will be able to find you soon!

Lin Yi didn't know about Han Jing Jing's current condition. He could only continue to wait in the heavenly elixir Pavilion helplessly. Before he knew it, ao Tianba's fleet had already returned to the middle Island.

## Chapter 6047 Vega Rising In Revolt

The Nakajima dock became lively in an instant. Countless goods were unloaded from the treasure ships and then sent to their respective owners' homes. For a time, the central area also became crowded with vehicles and people.

Lin Yi felt the changes in the outside world and spread out his spirit sense. He found that Wei shenjin, hou guanqi, Cai Zhongyang, and the others had already gotten off the boat and were saying goodbye to ao Tianba. He didn't go over to join in the fun and waited for it to be quiet.

Other than these people, Lin Yi also saw Hong Zhong. This time, he didn't stay on the North Island, but followed them directly to the middle Island. Perhaps he was going to the Hong Chamber of Commerce headquarters to do something?

The group left the dock and went their separate ways. Cai Zhongyang and the others had a lot of goods to deal with, but Wei shenjin wasn't in a hurry to return to the snow sword sect, so he walked straight to the heavenly elixir Pavilion, probably wanting to meet Lin Yi first before going back.

Shang Yuhua was originally by his side, but Wantong Chamber of Commerce had many things. In order to help her father, she could only separate from Wei shenjin for the time being. Fortunately, they had already returned to Nakajima, and there would be plenty of opportunities for them to meet in the future. There was no rush.

After a while, Wei shenjin arrived at the sky elixir Pavilion, and Tian Gang told him to meet Lin Yi directly. They were all on the same side, so there was nothing to worry about.

"Boss, I'm back!" Seeing Lin Yi, Wei shenjin smiled and quickly walked up to him with a fist salute.

"That's enough, why are you being so polite with me? look at how happy you are. You must be doing well with Shang Yuhua, right?" Lin Yi smiled and gestured for Wei shenjin to sit down.

"I'm alright, thanks to boss!" Wei shenjin's face was slightly red. He thanked her sincerely before turning around and sitting down.

After his failed relationship, Wei shenjin cherished Shang Yuhua from the bottom of his heart. He was even more grateful for Lin Yi's help.

"It has nothing to do with me. It's your own fate. Shang Yuhua is a good girl. Treat her well in the future and don't let her down!" Lin Yi smiled as he reminded him. Wei shenjin was a completely different person now, and he believed that he and Shang Yuhua would have a bright future.

Wei shenjin nodded seriously and asked about han Jingjing's situation. Lin Yi wasn't interested in this topic and didn't continue.

Knowing that the spirit gathering branch couldn't wake han Jingjing, Wei shenjin felt a little uncomfortable. He knew how much effort Lin Yi put in to get the spirit gathering branch.

"Did everything go smoothly on the way back? Did anything happen?" Lin Yi didn't want the atmosphere to be heavy, so he changed the topic.

Wei shenjin thought for a moment before saying, ""Nothing major happened. It was a peaceful journey, but I heard that manager Hong and Wei Jiading had some small verbal conflicts again. This time, manager Hong came to the middle Island, and Wei Jiading might target him."

"Wei Jiading is just a jumping clown, there's nothing special about him. After all, brother Hong is from the Hong family, so he should be fine." Lin Yi smiled faintly, not too concerned.

Lin Yi didn't even put a mere Wei Jiading in his eyes. He was only the honorary Vice President of the Hong Chamber of Commerce, but in terms of influence, Lin Yi was more influential than ten Wei Jiading combined.

No Chamber of Commerce would offend a Mystic second level Alchemist for a Vice President. With Lin Yi's relationship with Hong Zhong, as long as the higher-ups of the Hong Chamber of Commerce weren't stupid, they would know what to do with him.

It was a pity that Wei Jiading didn't seem to recognize this fact. The moment he returned to Middle Island, he began to visit some of the powerful figures of the Hong Chamber of Commerce. The high-tech products he bought from the central Chamber of Commerce in the North Island were to make friends with these people.

While sending out a large number of gifts, Wei Jiading also subtly mentioned his intention to impeach Hong Zhong. As a firm supporter of the Hong family's second branch, it seemed to be logical to deal with the first branch's supporter, Hong Zhong. Therefore, the people of the Hong Chamber of Commerce didn't find it strange at all.

They were originally a neutral party. On the premise that it didn't affect the overall situation, they could support whoever gave more benefits. Since they had received benefits from Wei Jiading, it wasn't a big deal to show a little support.

Although he didn't make a clear statement, Veijia was already satisfied. In his opinion, dealing with Hongzhong this time was already in the bag. Now, he had to strike while the iron was hot and call for a meeting as soon as possible to get rid of Hongzhong to the end, so as to avoid any more trouble.

Before dark, the jumping Wei Jia Ding had completed the Alliance in his mind. He immediately held an emergency meeting as the Vice President of the Hong Chamber of Commerce. The topic of the meeting was to dismiss Hong Zhong from all his duties and launch a thorough investigation of him.

"Everyone! During Hong Zhong's time as the shopkeeper of the North Island, he colluded with outsiders, abused public funds, and usurped the interests of our Hong Chamber of Commerce. If we don't get rid of this black sheep, how can we let our Hong Chamber of Commerce continue to develop?" Edgar stood in the middle of the meeting room, waving his arms with an impassioned expression.

The senior executives of the Hong Chamber of Commerce who attended the meeting all listened and watched expressionlessly. No one expressed their opinions for the time being.

"Not only that, but Hong Zhong also colluded with outsiders and threatened me, the Deputy President of the headquarters, with force. I'm not a vengeful person. If he can bring benefits to our Hong Chamber of Commerce, I won't care about this small matter. But his traitor's behavior not only greatly damages the interests of our Hong Chamber of Commerce, but also destroys our reputation. I think that even if Hong Zhong is removed from all his positions, it can't make up for his mistakes!" Edgar continued with his performance and accused Hong Zhong even more unscrupulously.

In any case, he had already communicated with most of the higher-ups, and as long as more than half of them supported him, he would be able to make Hong Zhong completely unable to make a comeback. Veijia felt that victory was already in his grasp, and he looked at Hong Zhong with eyes full of disdain and pride.

"Hongzhong! Do you still have anything to say?" After finishing his long speech, weijia stared at hongzhong with a sneer. Although he was asking, his tone was no different from a conclusion!

"If you want to condemn someone, why not? I, Hong Zhong, have always been upright and upright, and I have no shame in the way I conduct myself. If you want to dismiss me, there's no need to say so much nonsense. Show me the evidence and I'll leave on my own!" Hong Zhong smiled indifferently and looked at Wei Jiading with disdain. His words were resolute and decisive, and he had an imposing manner.

Wei Jiading was slightly stunned. What evidence did he have? He dared to impeach Hong Zhong in public because he had a deeper network in the Nakajima headquarters than Hong Zhong did. In addition, he had a promise in exchange for a large number of gifts. If he really tried to explain it in detail, he would only make a fool of himself.

#### Chapter 6048 Reversal

"You don't have to say that you're so great. Of course I have the evidence, but there's no need to show it now. I believe that everyone here is quite clear about this matter and has seen through your character, so there's no need for us to discuss any further. We can directly give you a judgment!" Wei Jia Ding snorted coldly and decided to avoid the real thing and attack the weak. With a swift and decisive momentum, he completely knocked Hong Zhong down to the dust.

As long as more than half of the people here agreed to his proposal, the matter of Hong Zhong's dismissal was set in stone. Even the president of the Hong Chamber of Commerce could not reverse this situation.

"You have evidence, but you don't take it out? Do you think the Hong Chamber of Commerce is your Wei family's business?" Hong Zhong sneered at him. It was a simple sentence, but it made Wei Jia feel extremely uncomfortable.

Most of the senior executives of the Hong Chamber of Commerce were from the Hong family, and Hong Zhong's words were extremely harsh. Even if Wei Jia was the one supporting the person behind the scenes, he would inevitably feel some dissatisfaction.

Since when was it the turn of an outsider to point fingers at the Hong Chamber of Commerce's authority? Would he really change his surname one day?

Fine beads of cold sweat immediately appeared on Wei Jiading's back. Hong Zhong's obvious provocation might not be of any use now, but it would plant a seed of suspicion in the hearts of the Hong Chamber of Commerce's higher-ups. If Wei Jiading made any mistakes in the future, he would definitely be targeted by several or even ten times magnified.

"Don't try to drive a wedge between us. The Hong Chamber of Commerce is, of course, the Hong family's property, and will always be the Hong family's property. Although I, Wei Jiading, am not surnamed Hong, I'm dedicated to the Hong Chamber of Commerce, not like you, a traitor! Also, I don't have the final say in your matter. It's a decision made by everyone here!" Wei Jia Ding loudly interrupted Hong Zhong's words, then immediately cupped his hands and bowed in a circle. He said to all the higher-ups of the Hong Chamber of Commerce, "Everyone is clear about Hong Zhong's matter. I propose to remove Hong Zhong from all his positions and expel him from the Hong Chamber of Commerce. He will never be hired again, immediately! I wonder what everyone thinks?"

Wei Jia felt that if he let Hong Zhong continue, the situation would only get worse, so he didn't give him a chance to speak and directly asked the higher-ups of the Hong Chamber of Commerce to express their opinions.

Such a simple and brutal way of getting rid of a branch president, to be honest, even vejia himself felt it was a bit of a joke. However, less than half of the people here were on his side, and a portion of the neutrals had been bribed by him. Hong Zhong's side only made up a small portion, so vejia ding didn't care at all, even if he pointed at a deer as a horse.

In his opinion, once this proposal was made, it would immediately receive a large number of approval and agreement. The resolution would be passed with lightning speed and Hong Zhong would be completely kicked out of the Hong Chamber of Commerce. This would also be a rehearsal for the Hong Chamber of Commerce's change. As long as he could successfully get rid of Hong Zhong, the next step would be to smoothly support the person behind him to the top!

Unfortunately, the expected situation didn't happen. After Vega finished speaking, they waited for a full one to two minutes, but no one spoke.

Not to mention those neutral parties, even the Allies on the same side as Vega had their eyes lowered. They were either drinking tea attentively or seriously studying their fingers. No one actually showed any intention of supporting him.

"It's too hasty to make a decision now. If Vice President Wei Jiading really has any unfavorable evidence against Vice President Hong, then submit it for everyone to see!" The first one to speak was Hong Zhong's faction, the elder of the Hong trading company, Hong Quan. They had thought that victory was in their hands since Wei Jiading had targeted Hong Zhong so aggressively, so they had given up struggling and thought about how to protect Hong Zhong. They would find an opportunity to rise again in Dongshan mountain in the future.

Who knew that this wasn't the case at all? no one actually supported Wei Jiading's suggestion. Hong Quan instantly became spirited, and immediately seized the opportunity to have Wei Jiading produce evidence.

Veijia was dumbfounded. If he had evidence, why would he spend so much effort to send gifts? He had asked everyone to express their opinions in such a hurry to avoid Hong Zhong's people from retorting. As long as more than half of the people agreed with his proposal, it would be useless no matter how much Hong Quan tried to argue.

"Wei Jia Ding, put this matter aside for now. Go and prepare the materials and evidence to impeach hongzhong. During this time, hongzhong can not leave the island. What does everyone think?" An elder of the independent faction waved his hand and put forward his suggestion with a blank expression.

He didn't specifically target Wei Jiading, nor did he specifically help hongzhong. It felt very fair, but Wei Jiading almost vomited blood. This B \* stard didn't say this when he accepted the gift! Why did he turn his back on her in the blink of an eye?

"Very good, let's do this! Wei Jia Ding, I'll give you three days to prepare, right? We'll hold another meeting to discuss this matter in three days. Let's disperse for today!" This time, it was an elder from Wei Jiading's faction who spoke. He should have unconditionally supported Wei Jiading, but he didn't know why he also spoke like this.

Veijia really wanted to cry but had no tears. He had hurriedly called for an impromptu meeting, but now it had simply become a farce. Everyone had only sat down and said a few words, and then the meeting was dismissed. Were they in a hurry to reincarnate? Even so, there was no need to be in such a hurry!

Hong Zhong was slightly surprised. He did not expect things to turn around so suddenly. Although he did not understand the reason, it did not seem to be a bad thing.

The crowd didn't wait for Wei Jiading's response and had already stood up and started to leave. No one paid any attention to Wei Jiading. Hong Quan and the others even stared at him with disdainful eyes, then pulled Hong Zhong and walked past him with their heads held high.

Wei Jia Ding gritted his teeth. He had no other choice now. He could only figure out what had happened first. Fortunately, this matter wasn't over yet. Three days later, Hong Zhong would still be unable to escape the fate of being dismissed.

After a short while, Veijading quietly came to the elder's house and said with a resentful face, ""What's wrong with you? This is such a good opportunity to attack me, but you're not coming out to support me. Didn't we agree on it just now? And those fence-sitters of the neutral faction, they actually accepted the gift but didn't do anything, this is simply preposterous!"

This elder was the one who had spoken last. He was also a supporter of the Hong clan's second branch, and his name was Hong Qin. After hearing Wei Jiading's complaint, he put down the teacup in his hand with a calm expression and said, "What's going on? Don't you know?"

"What do I know? If I knew, would I still need to find you?" Veijia glared at Hong Qin. They were usually on good terms, so he didn't have much scruples when he spoke.

"What's the point of me supporting you? If the neutral party doesn't support you, everything will be for naught. If we agree first and the neutral party objects, this matter will be completely ruined. It's better to delay it for a few days like now and give you a chance to remedy the situation. " Hong Qin gave Wei Jiading a sidelong glance, his tone carrying a hint of dissatisfaction.

Chapter 6049 Defective Product?

"What is going on? Why don't you tell me what's going on, why are you playing riddles here!" Wei Jia was really going crazy. They had already agreed on something, so why did he have to remedy something?

Hong Qin didn't say anything. Instead, he turned around and waved at the maidservant standing to the side. The maidservant had already received instructions and immediately took out a few high-tech products sent by Veijading and placed them on the coffee table beside him.

"What do you mean? Are you saying that my gift is not good enough?" Veigar was secretly angry. If you're not satisfied, you should have said so earlier! Besides, the two of them are from the same line. Even if they didn't give you anything, you should support them unconditionally!

"I wouldn't dare, I wouldn't dare. Your gift is too good. I don't know how to use it. You should take it back and use it for yourself!" Hong Qin's face turned cold. It was obvious that Veigar's tone made him feel very displeased, so he began to throw a tantrum.

Veka suppressed the resentment in his heart and let out a long breath of turbid air. He cupped his fists slightly and said, ""Hong Qin, it's not the first day we've known each other. This isn't for my own sake. If you continue to speak in such an unclear manner, I really won't be able to communicate with you. If there's anything I've done wrong, just tell me, and I'll change, alright?"

"This is still human!" Hong Qin snorted lightly, his expression easing a little. He pointed at the high-tech products and said, ""The things you gave me were all useless. If we hadn't known each other for so many years, I would've thought you were looking down on me just by giving me these junk! Do you understand what I'm saying?"

"Impossible! It's you who doesn't know how to use it, right?" Veigar was shocked. He grabbed a digital camera and studied it over and over again. There was no reaction."Hong Qin, did you break it?"

"Get lost! Do I need to talk nonsense with you over such a small thing?" "F \* ck!" Hong Qin glared and cursed. He picked up his teacup and sipped on his tea, not wanting to continue paying attention to Wei Jia.

"How could this be? Are you saying that the things I give to others are also bad?" Veigar didn't continue to look at anything else. Cold sweat had already appeared on his forehead.

"I'm not sure about that, but it's most likely correct. Otherwise, that situation wouldn't have happened just now. What did you do? It doesn't matter if it's our own people, but the key is those few neutral ones. If we offend them, wouldn't we be sending help to the other side for no reason?" Hong Qin had a look of disappointment. If the neutral party had agreed to Wei Jiading's suggestion, even if he and the others were unhappy, they would have voiced their support for the sake of the overall situation. However, the neutral party did not agree, so there was clearly a problem.

Wei Jiading secretly wiped off his cold sweat, thinking that it was a close call. Fortunately, Hong Qin was quick to act and agreed to postpone Hong Zhong's matter. Otherwise, he would have really missed this opportunity.

"I understand. They have already given us face by not rejecting my proposal on the spot. I have to deal with this matter immediately. I might have to apologize to them one by one. I'll go first and come back to find you later!" Wei Jia didn't have time to say more. Now that he knew the crux of the problem, he had to quickly remedy it.

"Take all your junk away, don't leave it here as an eyesore!" Hong Qin waved his hand, gesturing for Wei Jia to take back all the things that had been given to him. If it wasn't for the overall situation, he really wouldn't have given Wei Jia any face.

Wei Jia forced a smile and cupped his fists. He kept the items and handed them to his followers who were waiting at the door. Then, he hurried to the houses of the neutral faction to explain.

After a round, it was indeed all because of problems with these high-tech products. Not a single one could be used. It was already very kind of them not to turn hostile on the spot. Vejia could only smile

and apologize to them one by one. He also took the things back and said that he would go to the central Chamber of Commerce to settle the score with them. Then, he gave them gifts such as medicinal pills and spiritual herbs as an apology.

It was already dark by the time they finally got everything back. Veijia didn't stop. He brought a group of people and rushed angrily to the central Chamber of Commerce with two carts of things. Although they bought it in the North Island, it was the same to settle the score with the central Chamber of Commerce in the middle Island!

At this hour, the central Chamber of Commerce wasn't closed yet, but there weren't many customers. Veijia had arrived at the right time.

"Ask your manager to come out and see me!" "Shut up!" Veijia roared at a shop assistant as he entered the central Chamber of Commerce.

The shop assistant shrunk his neck back slightly. He was a native of Nakajima and had been hired by the central Chamber of Commerce to work, so he knew Wei Jiading and knew that he was the Vice President of the Hong Chamber of Commerce. He was definitely an important person. He quickly put on a smile and bowed. "Yo, if it isn't Vice President Wei! What wind blew you here? Please come in, I'll serve you some tea."

Immediately, Veigar felt much more at ease. He nodded slightly and said, ""At least you have a good eye. Alright, don't talk nonsense with me. Hurry up and get your shopkeeper here."

The shop assistant was used to observing people's expressions. He could tell that Wei Jia was in a bad mood and seemed to be looking for trouble. As a small shop assistant, he really couldn't afford to take this responsibility. Thus, he didn't say any more nonsense and quickly went in to report the situation after carefully saying his goodbyes.

Wei Jia waved his hand and had the people who had followed him unload the things and pile them up in the central Chamber of Commerce's lobby. This guy was still a little annoyed. He felt that he should have come during the day. There would be more people then, and it would be more intimidating if he made a scene.

However, since he was already here, there was no reason to go back and wait for tomorrow. He could only do this for now.

As soon as the items were unloaded, the worker ran out with a young man. If Lin Yi was here, he would recognize Kang Zhaoming, who was second only to Zhong pinliang. However, Wei Jia didn't know who Kang Zhaoming was. He only felt that the central Chamber of Commerce sent a young kid here. They didn't care about him at all, the Vice-President of the Hong Chamber of Commerce. He was getting more and more annoyed.

"Vice President Wei? I wonder why you've come to our central Chamber of Commerce?" Kang Zhaoming saw that the main hall was filled with goods from the central Chamber of Commerce. He could guess what Wei Jia was trying to do, so he proudly cupped his hands as a greeting.

This kid always wanted to show off. Now that he had something to do, he naturally couldn't miss the opportunity. As for the Hong Chamber of Commerce, he really didn't care about it.

"What do you sell in the central Chamber of Commerce? I'm the Vice President of the Hong Chamber of Commerce, and you're trying to fool me with a bunch of defective goods? Do you think that the central Chamber of Commerce is big enough to bully our customers?" Veigar's face sank. He was too lazy to ask who this arrogant kid was, and directly pointed at the pile of things and scolded.

"Defective product? Our central Chamber of Commerce never sells defective goods. You didn't break something and want to extort us, did you?" Kang Zhaoming lazily picked his ear with his right pinky finger, his face calm and composed.

Chapter 6050 Throw Them All Out

The shop assistant was shocked and quickly smiled apologetically, "'Vice President Wei, our manager Kang is asking if there's a misunderstanding? As far as we know, we haven't been selling you a large number of goods recently. I wonder if you can provide us with your purchase receipt for us to check?"

In fact, Kang Zhaoming wasn't the actual manager of the central Chamber of Commerce. He was only holding the position for a while. That was why the assistant was talking to him first. After all, they were the ones running the business. Kang Zhaoming could just leave if he offended a big customer, but they couldn't do that. They had to take precautions.

Kang Zhaoming glared at the guy unhappily, but he thought that what the guy said made sense. Let's see if there's anything wrong with the vice president's receipt. If they dare to blackmail the central Chamber of Commerce, we'll teach them a lesson and let them know why flowers are so red!

Wei Jia Ding was already prepared. He took out the receipt issued by the Chamber of Commerce in the center of the North Island and shook it. He pointed at the date on it and said, "'Look carefully, it's your Chamber of Commerce, right? Although I bought it on the North Island, you promised that it would be the same for all the branches!"

Kang Zhaoming grabbed the documents and flipped through them before throwing them back to Wei Jiading. "Well, now that I have the receipt, I will help you check the problem!"

Veijia's face darkened. This bastard was too arrogant. How could he be a shopkeeper with such an attitude? Why hasn't the central Chamber of Commerce closed down yet?

If the Hong Chamber of Commerce had such a manager, he would have caught and killed him a hundred times. Unless the arrogant one was his man, then it was a different story.

Kang Zhaoming ordered the shop assistant to find a maintenance staff. Since the central Chamber of Commerce only sold common goods, they had many talents in this field.

Most of these people couldn't cultivate or had very low levels of cultivation. Getting a decent job in the central Chamber of Commerce was naturally something they cherished. They were much more professional than Kang Zhaoming, who came from the secular world.

Soon, the worker hurried over with a middle-aged man. He put down the toolbox in his hand and began to repair it.

Wei Jiading had originally wanted to flare up the moment he arrived, but with the current situation, he couldn't say anything for the time being and could only wait patiently.

After the time for one incense stick to burn, the results were out.

"Manager Kang, Vice President Wei, this batch of products has the same problem. All the chips were struck by static electricity, causing the products to be damaged. It will be more troublesome to repair them. This is not the responsibility of our Chamber of Commerce, so you don't have to bear any costs." The middle-aged man put away his tools and cupped his fists at Zhaoming and Wei Jiading, his face calm.

Kang Zhaoming was pleased with himself as he laughed and looked at Wei Jiading, "Vice President Wei, did you hear that? You broke something and now you want to extort us? Do you really think that our central Chamber of Commerce is easy to bully?"

"Bullshit! Do you think I'd blackmail you for such a small thing? It's obvious that your central Chamber of Commerce sold defective goods to me, but you refuse to admit it! No matter what he says, of course, he'll side with your central Chamber of Commerce. Do you really think I'm stupid?" Wei Jia exploded, jumping up and pointing at Kang Zhaoming.

Wei Jiading didn't know what static electricity was at all. In any case, he was sure that the central Chamber of Commerce had sold him defective goods. He had to get back at them no matter what. Otherwise, how could he, the Vice President of the Hong Chamber of Commerce, have the face to stay in Nakajima?

"You stupid thing, do you think you're that smart? You want to use this kind of small trick to ruin the reputation of our central Chamber of Commerce, this is simply ridiculous!" Zhaoming wasn't going to back down-he jumped three feet high and started scolding as well.

Kang Zhaoming suddenly felt that Wei Jiading was jealous of the central Chamber of Commerce's business and wanted to use this method to destroy it. If Kang Zhaoming could settle this, it would be a great achievement. The higher-ups might even be happy and let him lead Zhong Pingliang.

Kang Zhaoming had always wanted to cause some trouble, but now that he had this idea, he couldn't stop himself. He was hoping that Wei Jiading would make a move quickly so he could make a name for himself.

Wei Jia didn't know what Kang Zhaoming was thinking. He was so angry that he started laughing. He waved his hand and ordered his men to surround Kang Zhaoming and the others.

"Kang, if you don't give me an explanation today, don't blame me for being impolite! What was the central Chamber of Commerce? Why don't you find out what kind of status the Hong Chamber of Commerce in Nakajima has? they dare to scam us, they simply don't know how the word "death" is written!" Wei Jiading laughed coldly as he stared at Zhaoming.

The central Chamber of Commerce's business in Nakajima was good, but it had never shown any outstanding strength. The other Chambers of Commerce had tolerated them because there was no conflict of interest with the central Chamber of Commerce's products. Otherwise, they would have joined forces to suppress the central Chamber of Commerce a long time ago.

Now, Veiga felt that he should represent the established Chamber of Commerce in Nakajima and teach the central Chamber of Commerce how to behave. They shouldn't think that they could bully the established Chamber of Commerce just because they had good business!

Zhaoming, on the other hand, wasn't surprised at all-it was exactly what he wanted! He was just thinking of an excuse to make a name for himself, and now it came right to his doorstep!

"Wei Jia Ding, since you dare to come to our central Chamber of Commerce and behave atrociously, it seems like you know how the word 'death' is written. That's good, I'll make a deeper impression on you today!" Zhaoming laughed as he clapped three times.

In the blink of an eye, ten figures suddenly rushed out from every corner of the central Chamber of Commerce and surrounded veijia ding's group. Without waiting for them to react, they directly launched an attack.

Veigar was shocked. Just as he took a defensive stance, the followers he had brought with him fell to the ground without any resistance.

"You with the surname Kang, you dare attack me? All the Chambers of Commerce in the middle Island will not let your central Chamber of Commerce go!" Weiding's hollering had no effect on Zhaoming.

With power in hand, if he was unhappy, he would beat him up! Kang Zhaoming laughed as he joined the group, taking advantage of the fact that the elites from the central Chamber of Commerce were surrounding Vega to give him a few punches and kicks. His mood instantly became indescribably comfortable.

Wei Jia Ding was already speechless, and could only roll on the ground with his head in his hands. He really didn't expect that the people from the central Chamber of Commerce would dare to attack him so openly. Was there still any law in this world?

"Alright, don't beat them to death. After all, we still have to open our doors and do business. Throw them out!" Zhaoming waved his hand in a good mood-he felt like he'd done something great, so he didn't have the intention to kill them all. He ordered his men to throw them out of the Chamber of Commerce, along with the broken items.
