

## Bodyguard 6051

### Chapter 6051 Kang Zhaoming Visits

The dignified Vice President of the Hong Chamber of Commerce had been thrown on the street like a dead dog. It was extremely embarrassing. Weijia covered his face and lay on the ground, looking at the main door of the central Chamber of Commerce closing slowly with resentment. He swore in his heart that he would get back at them. Whether it was the central Chamber of Commerce or that bastard surnamed Kang, he would kill them all!

Because of this incident, Weijia went back to his backer in the Hong Chamber of Commerce and complained tearfully. He raised Kang Zhaoming's actions to the level of the central Chamber of Commerce's hostility and contempt towards the Hong Chamber of Commerce. Then, the Hong Chamber of Commerce really started to target the central Chamber of Commerce, and both sides entered a hostile state.

But these were all things that happened later on-Lin Yi didn't know that his small action back then would have such serious consequences. If he'd known, he would've suggested to Vega to buy a few truckloads of stuff from the central Chamber of Commerce at most ...

Lin Yi was setting up formations in the heavenly elixir Pavilion. In order to ensure his safety when he left the central island, Lin Yi put in a lot of effort. With the help of the ghost, he set up a few level six defense formations, trap formations, illusion formations, killing formations, and so on. If it wasn't for the fact that he could only buy Mystic level formation flags, he would even ask the ghost to set up earth level formations.

Fortunately, level six formations were more than enough in the middle Island, especially since these level six formations were formed by GUI Dongxi's own formation Dao and the ten thousand amplification formation. Even an earth-grade formation master would find it difficult to break through these formations. It was definitely more than enough to protect the heavenly pill Pavilion.

After these few days of studying and helping with formations, Lin Yi's skills in formations had improved by leaps and bounds. Even without the weird stuff, he was already a genuine Mystic class formation master-it was quite impressive to say it out loud.

"Lin Yi, when do you plan to go to the South continent?" Tian Gang took the formation flag from Lin Yi and asked casually.

LAN Guzha and the others had been gone for a few days. Lin Yi's formation was obviously to ensure the safety of the heavenly elixir Pavilion, which meant that he already had the thought of leaving.

Lin Yi shook his head after a while,"In a few days. There might be new news from the secular world."

Lin Yi sent another letter to the mortal world the day he received the reply. He thought that they might get a reply within a few days. They didn't get any news from Han Jing last time, so maybe they would get one this time?

Other than Han Jing's matter, Lin Yi didn't stay idle these past few days either. He was asking around for information about the transit station, as well as where Bing Tang, Song Lingrui, and the others were. They had been on Sky Class Island for a few years now, but they hadn't appeared. Lin Yi had wandered around the islands, but he hadn't heard anything.

There was an organization in Nakajima that specialized in collecting and selling information. Lin Yi hadn't noticed it before, but he'd heard of it when he visited the AO Tian state this time. He immediately went to put up all kinds of missions.

The thing Lin Yi didn't lack the least right now was spiritual jades-after spending a lot of them, all of the missions he issued became the most important and urgent state. No matter which news he got, it was a happy situation for both sides.

Tian Gang nodded, a faint smile on her face. She was happy that Lin Yi could stay for a few days.

When Lin Yi finished setting up the heaven elixir Pavilion's formation, the famous medicine sect was discussing how to deal with Lin Yi. Zheng Dongsheng, Zheng dongjue, and Zheng Tianqing were all there.

The Zheng family didn't suffer heavy losses on the northernmost Island, but they didn't gain anything good either. The only consolation was that the pills Lin Yi made were pretty good, and they'd recovered some of their losses.

"Lin Yi's already a man who can soar to the sky. I think it's better not to provoke him for the time being. With the sea acceptance pill, we should also shift our focus to the East continent. When we return to the East continent, a mere heavenly elixir Pavilion is nothing to worry about!" Zheng Dongsheng had obviously shifted his attention to Zhuang Yifan, and he didn't want to go against Lin Yi anymore.

"Cousin, you're wrong. Have you forgotten what Zhuang Yifan wrote in his letter? He and Lin Yi were obviously connected, how could a mere hyna pill compare to Lin Yi 's? If you don't solve the problem, you won't be able to escape from Lin Yi's shadow even if you go back to the East continent!" Zheng dongjue smiled coldly. He didn't dare to mess with Lin Yi now, but Zheng Dongsheng couldn't just leave.

Zheng Dongsheng's face suddenly turned ugly. How could he not remember Zhuang Yifan's reply? there was only one sentence in total, and it was extremely simple: F \* ck off!

Zheng dongjue's words made him feel uncertain-did he really have to get rid of Lin Yi first?

"Grandpas, Lin Yi isn't much. We can't fight him on the surface, so we'll move in the dark. I don't believe that this kid has no flaws!" Of the three, Zheng Tianqing hated Lin Yi the most, so he was the most determined to deal with Lin Yi.

Especially since this guy had a powerful organization behind him, and even the extreme north Island was almost destroyed by it. What was a mere Lin Yi to him?

After knowing that he would be heavily trained by the organization, Zheng Tianqing's self-confidence exploded. The so-called covert actions and so on were just because he could not say it directly, so he pretended to be modest.

"Let's think about this in the long run, or we should stick to our old plan and slowly cut off Lin Yi's wings!" Zheng Dongsheng waved his hand and put forward a safe plan. This time, they didn't look for Tong wuhui to discuss it with them. In fact, they felt that there was nothing to discuss. After all, it was just a few words.

Zheng dongjue could not come up with any good ideas at the moment, so he could only nod in agreement.

At that moment, someone touched the restriction of the secret room, as if there was something urgent.

Zheng Tianqing opened the restriction and walked out. When he saw a disciple of the famous medicine sect standing respectfully outside, he asked impatiently, "What is it? Don't you know we're discussing important matters here?"

"Greetings, young master. This subordinate knows his crime! "But the central Chamber of Commerce's manager Kang Zhaoming has come to visit you, and he said that it's an urgent matter, so ..." The medicine sect disciple cupped his fists and bowed, speaking a little nervously.

"Kang Zhaoming from the central Chamber of Commerce? I don't even know him, what urgent matter could there be? Besides, it's so late now. If he has something to do, he can come back tomorrow!" Zheng Tianqing frowned and didn't want to talk to Kang Zhaoming.

"Tian Qing, you'd better go. The central Chamber of Commerce is quite strong. Although its Foundation is relatively shallow, it's already showing signs of competing with the older Chambers of Commerce. There's no harm in being on good terms with them!" Zheng dongjue walked out and said. For the famous medicine sect, it was the best thing to have a few more allies now.

Chapter 6052 A Divine Artifact?

The pill Hall had no hope left-the medicine sect wouldn't be able to do anything to Lin Yi if they didn't make new allies.

Zheng Tianqing thought that it was true. Anyway, he would not lose a piece of meat by seeing it, so he would go and have a look first!

"Alright, second Grandpa, I'll go take a look. We'll talk about what happened earlier later." Zheng Tianqing cupped his fists and strode toward the front hall.

Zhaoming was in a good mood after beating up Wei Jiading, so he was drinking tea and waiting in the hall of the sect, not showing any impatience.

He came to find Zheng Tianqing because he had a mission to complete, of course. To Zhaoming, the more missions he had, the better. This way, he'd be able to accumulate more merits, and maybe surpass pinliang one day.

Zheng Tianqing walked into the living room and saw that Kang Zhaoming seemed to be younger than him. He suddenly felt a sense of contempt towards him and nodded indifferently at him as a greeting.

"Manager Kang, right? May I know why you've come to find me?" Zheng Tianqing sat down arrogantly. As for the idea of finding an ally, he had temporarily put it to the back of his mind.

Even if he wanted to find an ally, he had to first gain the upper hand in terms of momentum. Only then would he be in an advantageous position in the Alliance.

"You're Zheng Tianqing? It doesn't look like much!" Zhaoming wasn't very pleased with Zheng Tianqing's attitude-who did this guy think he was? She dared to be so arrogant in front of him.

Zheng Tianqing's face darkened and he snorted."What do you mean? Are you here to make fun of this young master? Is being a shopkeeper of the central Chamber of Commerce that amazing?"

"Alright, I won't talk nonsense with you. The higher-ups said that you're worth training, so they asked me to give you a hand or two. But looking at you, it seems like you don't think much of my help!" Zhaoming chuckled as he took a sip of the tea. It felt good to be acting cool.

"The higher-ups? "Could it be that you are ..." Zheng Tianqing's face changed slightly, and there was a faint surprise in his eyes. He had mostly contacted the organization through long-distance means. Even when they met, he had never really seen the other party's face.

If Kang Zhaoming was really someone sent by the organization, then it would be Zheng Tianqing's first time seeing him in person.

"It's good that you know! Your performance on the northernmost Island was excellent, so the organization asked me to focus on training you after you return. " Zhaoming waved his hand, his face calm and collected as if he was the leader, but he was secretly pleased with himself.

"I didn't know that shopkeeper Kang had arrived and didn't welcome you, please forgive me!" Zheng Tianqing's butt was like a spring. He jumped up and bowed with his fists cupped. He came up to Zhaoming with a big smile.

It was just a few words, but Zheng Tianqing was sure that Kang Zhaoming was a member of the mysterious organization. No matter how high or low his position was, he was still much stronger than a new member like him. He didn't dare to show any neglect.

Zhaoming wasn't surprised by the sudden change in attitude. He put down his cup and gave a soft "en" before waving his hand casually, "You're welcome. Sit down and talk!"

"Manager Kang is an honored guest, please take a seat!" Zheng Tianqing smiled awkwardly as he bent down to ask Kang Zhaoming to change seats, trying his best to erase the bad impression he had when he first entered.

"No need, no need. After all, this is your sect's territory. It's not my place to overshadow the host. Quickly sit down and let's talk business." Kang Zhaoming was very pleased with the change in Zheng Tianqing's attitude. He acted like he was very generous and continued to act cool.

Zheng Tianqing didn't dare to disobey, but he couldn't sit back down either. He sat down on the chair below Kang Zhaoming and asked respectfully, "I wonder what you've come back for this time, manager Kang?"

"It's like this. We're quite clear about the situation of the famous medicine sect in Middle Island. Originally, it had nothing to do with us what happened to you, but since we're all on the same side now, we should help you more or less!" Zhaoming said with a big smile, as if he really was here to give the sect something good.

Zheng Tianqing didn't know how to respond, so he could only nod in agreement and say some empty words of thanks.

Kang Zhaoming didn't waste any more time. He opened the bag on the side and revealed an exquisite pill furnace with a tablet as a display.

"Did you see that? This is the divine weapon that can change the situation of your famous medicine sect!" Zhaoming smiled mysteriously as he tapped on the furnace with his index finger, making a crisp sound.

"Shopkeeper Kang, may I know what kind of divine artifact this is?" Zheng Tianqing quickly cooperated and asked, but he was a little disdainful in his heart.

Wasn't it just an ordinary pill furnace and a central Chamber of Commerce's tablet? how could this be considered an innovative divine artifact?

"Hehe, if this young master didn't tell you, you wouldn't be able to guess what kind of divine artifact this is even if you were beaten to death! Come, come, come, I'll demonstrate it directly and let you broaden your horizons!" Zhaoming's pride exploded as he took out the ingredients for a Grade 5 Grand recovery pill, ready to make it on the spot.

Zheng Tianqing was a refiner himself, and naturally knew the use of these ingredients. He didn't say anything, only smiled as he watched Zhaoming work. He didn't know what to say before he figured out the mystery of the furnace.

Zhaoming's movements were quick as he turned on the flat panel on the furnace and selected the recipe for the Tier 5 recover pill from the list of names. He then used his pure Qi to convert it into a pill fire and started making the pill.

The tablet showed the outline of the pill, and a notification would sound with every change. The heat of the pill would also be adjusted automatically, and Zhaoming didn't have to worry at all. All he needed to do was to send his Qi steadily into the pill.

During the process, Zhaoming even had the time to chat with Zheng Tianqing. After two hours, the tablet made a clear ring-the pill was complete.

"Did you see that? This is the divine tool for alchemy that I'm going to give you! All elixirs under golden class level five can be made with this automatic refining God tool. The only thing you need is a practitioner who can convert Qi into the refinement fire, and continuously send Qi to maintain the refinement fire!" Zhaoming opened the cauldron and took out a Tier 5 great recovery pill, presenting it to Zheng Tianqing with a smug smile.

Zheng Tianqing's heart was like a stormy sea. His entire person was somewhat sluggish. This had completely overturned his previous common sense of alchemy. In just over two hours, he had easily refined a high grade grade fifth grade great recovery pill. This was really unacceptable to him.

More importantly, Zhaoming didn't care about the process at all-no refiner had ever been distracted while making a pill before, and it was true that Zhaoming wasn't distracted at all just now-he was just using his Qi to create the pill fire.

Chapter 6053 Rush To Buy

"Manager Kang, I wonder how many of these automatic pill refining divine tools are there? Are there any other restrictions?" Zheng Tianqing felt that his throat was a little dry. He swallowed with difficulty and asked,"

"Don't worry, you can have as many of these as you want, as long as you can sell it. As for the restrictions, you saw it yourself-anyone who can form a core fire can use it. The only difference is the amount of Qi you have. To make a golden class fifth level pill, the amount of Qi you need to maintain isn't something a practitioner who hasn't even reached the Foundation Stage can do. " Zhaoming was enjoying the respect in Zheng Tianqing's eyes. He was in a good mood and spoke more politely.

"That's great! With this automatic pill refining divine tool, the heavenly pill Pavilion's business will immediately collapse by half!" Zheng Tianqing waved his fist excitedly. He had always wanted to deal with Lin Yi, and now that he had the help of this treasure, he could deal a fatal blow to the heavenly elixir Pavilion.

Although the heavenly elixir Pavilion sold a lot of high-grade elixirs, the real deal was always the low-grade elixirs. With this automatic elixir refining divine tool that could refine all fifth-grade elixirs, who would still go to the heavenly elixir Pavilion to buy elixirs below fifth-grade?

In fact, just refining fifth-grade pills was definitely not worthy of the title of a divine weapon. Even with the prefix of automatic pill refining, it was not qualified. However, such a rare treasure, if it was slightly exaggerated, would probably not be taken seriously if it was crowned as a divine weapon.

Zhaoming laughed out loud. He was very happy with what Zheng Tianqing said. In fact, the central Chamber of Commerce could sell this kind of good stuff themselves, but the agreement between Lin Yi and central was still valid. Suppressing the heavenly pill Pavilion so blatantly was the same as tearing up the agreement.

But selling it to the medicine sect was different. He could target Lin Yi and train Zheng Tianqing at the same time-it was killing two birds with one stone, especially when Zheng Tianqing clearly stated that he wanted to target the heavenly pill Pavilion.

"Manager Kang, should I inform my two grandfathers about this? If it's convenient for you, why don't you ask them to come over and pay their respects?" Zheng Tianqing's heart was very willing, but he was not in charge of the famous medicine sect, after all, so he still had to go through the necessary formalities.

Zhaoming's demonstration had taken over two hours, and Zheng Dongsheng and Zheng dongjue were probably getting impatient. If Zhaoming didn't mind, he could let them meet and discuss the details.

"No problem, you can find someone to invite them over!" Kang Zhaoming was very satisfied with the word 'greet'. He waved his hand generously and decided to give them a chance to greet him.

Zheng Tianqing didn't dare to neglect. He quickly apologized and ran out to find someone to invite Zheng Dongsheng and the others. He also arranged for people to prepare food. It was already late, so it was better to eat and chat.

Zheng Dongsheng and Zheng dongjue were getting impatient, but they couldn't just go over and take a look. They didn't want to offend the central Chamber of Commerce, so they ran over when they heard that Kang Zhaoming was here.

The food was just starting to arrive, and the four of them chatted as they ate, going over the details of the partnership. There wasn't much to discuss-the central Chamber of Commerce was willing to sell this kind of good stuff to the medicine sect, and before they knew about the agreement between Lin Yi and central, the Zheng family was already very grateful. They felt like they'd been hit by a meat pie that fell from the sky, and didn't raise any objections at all. It was as if they'd just nod and agree to whatever Kang Zhaoming said.

If it wasn't for the fact that he wanted to support Zheng Tianqing, Zhaoming would've ripped the Zheng family off. He might not have done it, but he would've still given most of the profits to the central Chamber of Commerce.

At dawn the next day, the famous medicine sect, who had obtained enough automatic alchemy furnaces from the central Chamber of Commerce as agreed, began their sales preparations. Their approach was very simple. They arranged for more than a dozen alchemy apprentices, each with an automatic alchemy furnace and a few bodyguards, and began to demonstrate the magic of the automatic alchemy furnace at the bustling intersections of the middle Island under the banner of the famous medicine sect.

Sometimes, sales were just that simple. No matter how much you talked about it, it was definitely not as good as seeing it with your own eyes. In just one morning, the name of the divine weapon for automatic alchemy had ignited public opinion in Nakajima. No matter where you were, you could hear keywords such as famous medicine sect, divine weapon for automatic alchemy, and so on being constantly mentioned.

As for the headquarters of the famous medicine sect, it was completely surrounded by people who wanted to buy automatic alchemy furnaces. Who knew how many of these good things there were? Wouldn't it be a huge loss if they were a step too late and couldn't get it?

Zheng Dongsheng and Zheng dongjue stood on the second floor of the famous medicine sect and looked at the crowd below. They were all smiling so widely that their eyes could not be seen. The heavenly pill Pavilion, which was opposite them, had been attacked by the automatic alchemy furnace. Today, it had finally returned to its state of being deserted and sparsely populated. Although the street was full of people, not a single person went to the heavenly pill Pavilion to buy pills.

"Tian Qing, this child, has really grown up! Our Zheng family's future will depend on him. Before today, we wouldn't even dare to think about him being able to form a relationship with the central Chamber of Commerce and suppress the heavenly pill Pavilion to this extent. " Zheng dongjue laughed and praised Zheng Tianqing's performance.

"Don't praise him too much, this kid can't take it! He would become proud in the future! Besides, the heavenly elixir Pavilion may not be able to be suppressed forever. After all, everyone is just trying to find something new today. In the future, when they need pills above the fifth realm, there will still be people who will go to the heavenly elixir Pavilion to buy them. " Zheng Dongsheng seemed to be modest, but he was actually very proud in his heart. Zheng Tianqing was his grandson. If he was not proud, who would be?

Zheng Dongsheng was not worried about the sales of pills above grade five in the heavenly pill Pavilion. With the huge popularity brought by the automatic alchemy furnace, if someone wanted to buy pills above grade five, the first person they would think of would definitely be the famous medicine sect. There was no doubt about this.

As long as the sect could produce a pill of the same quality as the sky elixir Pavilion, they could take away most of the customers. Unfortunately, Zheng Dongsheng knew that he had no chance of winning if he wanted to compete with Lin Yi.

"Don't worry about the future. I'll be happy for a long time to see them in a sorry state!" Zheng dongjue smiled and waved his hand. Then, he listened for a while. Many people were talking about Zheng Tianqing and the automatic alchemy furnace.

The sect of medicine had announced that Zheng Tianqing was the one who invented the automatic alchemy furnace, and so the kid's reputation had risen to a terrifying level in just half a day. This was also one of Kang Zhaoming's requests. The purpose was obvious-he wanted to hide the fact that central was up to no good, and at the same time, he wanted to train Zheng Tianqing.

Chapter 6054 Exit

In fact, this kind of method was useless to Lin Yi. How could Zheng Tianqing make an automatic alchemy furnace? But as long as they didn't have something on them, central wasn't afraid of Lin Yi.

"Cousin, did you hear that? the people below are saying that Tian Qing is the most outstanding son of our Zheng family, and even one of the most outstanding geniuses of the middle Island. I also think that he is the Savior of our Zheng family. In my opinion, it is a waste to let Tian Qing stay in the middle Island. We really need to find a way to send him back to the East Province, where he can display his talent. " No one knew what Zheng dongjue was thinking, but he suddenly mentioned the East Province.

Originally, he didn't want Zheng Dongsheng and Zheng Tianqing to return to the East continent immediately, leaving him to face Lin Yi's heavenly elixir Pavilion alone. But now, he clearly changed his mind.

"Oh? Dongjue, do you have any ideas? Why don't you tell me?" Zheng Dongsheng smiled slightly. With the excellent situation created by the automatic alchemy furnace, he was not in a hurry to return to the East continent.

If he could make a name for himself in Nakajima, he would have more confidence when he returned to the East continent. His future development would certainly be easier.

"Here's what I'm thinking. After a few days, when the situation of the famous medicine sect has stabilized, we'll let Tian Qing take the henna pill and go to the East continent with ao Tianba's fleet. With Tian Qing's intelligence and the henna pill as a door-breaking brick, he'll definitely be able to get Zhuang Yifan's favor. It'll be easy for him to gain a firm foothold. When the time comes, you can go back and help, and our Zheng family will be able to rise again in the East continent's Dongshan mountain." Zheng dongjue explained his plan in a soft voice. In fact, it was still the same after all was said and done, and there was nothing new about it.

However, their original plan was for Zheng Dongsheng and Zheng Tianqing to go to Zhuang Yifan together, with Zheng Dongsheng as the leader. Now, Zheng Tianqing went alone, which might be more effective than two people.

Zheng Dongsheng nodded slightly, as if he was a little moved by this proposal. Seeing the prosperity of the famous medicine sect, he did not want to give up so easily. It was indeed a good suggestion to let Zheng Tianqing go to the East continent alone while he stayed for a while to take care of the famous medicine sect.

"There's no rush for this. Anyway, there's still some time before ao Tianba's fleet reaches the East continent. Tian Qing doesn't have to board the ship immediately. The most important thing is to stabilize the current advantageous situation." Zheng Dongsheng had already agreed with Zheng dongjue's opinion in his heart, but there was no need to make a decision immediately. There was still more than enough time.

While the Zheng family members were feeling smug, Lin Yi, who was in the heavenly elixir Pavilion opposite them, was a little surprised. He could see the medicine sect disciples demonstrating on the streets with his spirit sense, so he had a good understanding of the automatic alchemy furnace.

"It's an automatic pill furnace. How did the Zheng family get this? And it's a furnace that can make any pill below golden class level five-it's much stronger than the one in the common world. It's probably someone from central. " Lin Yi retracted his spirit sense and saw who was behind this. He didn't care about the crowd at all.

"The sale of these automatic pill furnaces by the famous medicine sect has greatly affected the business of our heavenly pill Pavilion! I didn't even complete a single order today!" She wasn't complaining. After all, the heavenly pill Pavilion didn't really rely on selling elixirs to make a living, so a period of depression wouldn't be a problem.

"Ha ... It's just a pill below the fifth level of the Golden class, no big deal. Those rats in the center don't dare to attack me directly, so they can only play these little tricks. They think they can attack the heavenly pill Pavilion through the famous medicine sect. They've really underestimated us. Don't they understand that any Mystic first or second level pill is enough to last the heavenly elixir Pavilion for a year or two?" Lin Yi smiled faintly. A truly high-end elixir could really sustain the heavenly elixir Pavilion for a year or two, even a decade or two. So a golden class level five automatic alchemy furnace really wasn't a threat.

"You're right. We can take this opportunity to end those low-end pill business and focus on the high-quality route. You have to work hard in alchemy and not be lazy!" Tian Gang gave Lin Yi a big smile, but no matter how you looked at it, it was the expression of a landlady looking at a long-term worker.

"Shouldn't you be the one working hard to become a Mystic?" Lin Yi said, not knowing whether to laugh or cry.

"With you around, what's the point of working so hard? If you dare to slack off, I'll kick you!" Tian Gang chuckled, revealing his small white canine teeth.

Xue Li covered her mouth and laughed. She was gentle and didn't interrupt. Since Lin Yi and Tian Gang didn't care about the automatic alchemy furnace, she didn't have to worry about it.

Lin Yi chatted with the two girls for a bit before turning to Han Jingjing. He couldn't help but sigh, "It's a pity that Jing Jing didn't come back. If she was here, a grade five automatic alchemy furnace wouldn't be worth mentioning. She could even create higher grade alchemy furnaces and instantly suppress the famous medicine sect. Unlike now, we can only stare at it because we know nothing about the technology to make this thing!"

"Didn't I just say that it's not a big deal? why do I need to step out quietly? You don't know how to feel sorry for Jingjing at all. I'll tell on you when she comes back!" Tian Gang's expression froze for a moment, then he changed the topic with a joke.

Lin Yi knew that she didn't want him to be sad about Han Jingjing, so he smiled and shrugged, "Jing Jing is very gentle. It's useless even if you complain!"

"You mean I'm very fierce? Do you believe I'll kick you!" Tian Gang snorted and finally successfully changed the topic.

Lin Yi and the others were talking about Han Jing Jing, who was still moving in the wormhole. Because she was moving around consciously before, her speed became quite slow when she turned back into a particle, but this slow was compared to other particles. In fact, this speed was already very fast in the outside world.

However, the wormhole space was different from the outside world. The distance and time inside were very vague. Han Jing Jing did not know how long she had moved or how far she had moved. In any case, the exit that she had been waiting for did not appear very soon.

Until today, there were finally dozens of white light spots of various sizes in front of the wormhole space. To be exact, it was a relatively large light spot and dozens of small light spots.

From han Jingjing's point of view, the big one was about the size of a plate, while the small one was only the size of a sesame seed. The dozens of small dots added together might not even be half the size of the big one.

#### Chapter 6055 Damaged Primordial Spirit

These white spots of light should be the exit of the wormhole, but han Jingjing did not expect there to be so many wormholes.

The largest light spot was undoubtedly the location of the central control wormhole. As for the smaller ones, Han Jing guessed that they were the small cracks that had dissipated in the secular world. They would not affect the outside world at all and would only be effective under certain circumstances.

For example, when han Jingjing was returning to the Sky Class Island, she had entered the wormhole space because she was thinking about the wormhole. Although her own will played a large part in this, it was undeniable that these small cracks scattered in various places in the secular world were also crucial. Otherwise, no matter how much han Jingjing thought about the wormhole, she would not have been able to enter it.

After all, returning to the sky-class Island was due to the connection between her primordial spirit and her body, but Han Jing Jing had no connection with the wormhole. It could only be said that there was a small gap near the villa.

"I don't know if this is the common world or the Sky Class Island. If it's the common world, we can try to see which one is near the mansion." Han Jingjing was still in the form of a particle, but this did not stop her from thinking.

After a while, han Jingjing's particle cluster arrived in front of the light spots in the void. The largest one was now a stable circle about two meters in diameter. Particles kept coming in and out, proving that her previous guess was correct. This was where the central control was.

In addition, the big spots of light were like watermelons, while the small ones were slightly bigger than goose eggs. From the shape, none of them were regular and could not be compared with the largest exit.

Some of them were even a crooked thin line that could be closed and opened at any time. It was quite risky to enter and exit through such cracks.

Han Jing Jing's particle group stopped not far from the light spots. She was not in a hurry to leave. Instead, she continued to observe the space behind the light spots. She thought that this should be the end, but now she realized that this was not the case. After the light spots, there was an endless space extending out. It seemed that this wormhole could lead to other places.

Through these white spots of light, Han Jing Jing's consciousness could confirm that the outside was not the Sky Class Island, but the secular world. Then the question was, where did the wormhole lead to after crossing the secular world? Could it be the ancient martial world Lin Yi bro was talking about?

Han Jing Jing hesitated. She didn't know if she should continue exploring. Maybe she could find the location of the wormhole that she didn't even know the center of. She didn't know how long she had been here, but Lin Yi bro must be worried about her.

After much consideration, han Jingjing decided to go over and take a look at the situation before returning to the secular world. It was just a short while. It was not a big deal, right?

With that in mind, the particle cluster began to circle around the white light spots and float to the other side of the space. However, after a short distance, han Jingjing suddenly felt an extreme sense of danger. Without hesitation, she immediately controlled the particle cluster to retreat.

Countless invisible spatial blades suddenly appeared in front of Han Jing Jing. These spatial blades could annihilate all matter, including all the particle forms in the wormhole.

If Han Jing hadn't reacted in time and retreated, she would've been completely annihilated by the chaotic spatial blades. Even so, a small number of particles were unable to escape and were twisted into nothingness by the chaotic spatial blades.

Han Jingjing felt a pain that went deep into her soul, and her consciousness almost collapsed. These particles were all formed from her essence spirit, and losing a small part of it was as painful as being swallowed by Lin Yi's essence spirit.

Fortunately, she did not go too far and immediately returned to the area of light spots. Here, the sense of danger disappeared completely. It seemed that the wormhole on the other side was not suitable for teleportation at all. No wonder there was no information left in the research materials of the central.

However, it was impossible for the researchers at the center to be like han Jingjing, wandering around in the wormhole space to study, so they might not know about the dangerous wormhole here.

"There's no other way. We can only leave first. If there's an opportunity in the future, we'll come back to study that unstable and dangerous wormhole. I hope it'll be of value in the end!" Han Jingjing sighed softly in her consciousness. Although the loss of her primordial spirit was painful, she was still in the form of a particle, so the connection was not as strong as that of her primordial spirit. After a while, she recovered.

As for how serious the damage was, he would only know after he returned to his soul form. Hopefully, it wouldn't affect his return to Sky Class Island!

Han Jingjing, who was controlled by the central government, would definitely not use the exits. Regardless of whether there was anything outside that could threaten her, she could not let the people in the central government know that primordial spirits could appear in wormholes.

Therefore, after some comparison, han Jingjing chose an exit that looked more stable. Although it was not the largest of the remaining exits, it was about the size of a pomelo. Under the observation of her divine sense, there should be no one outside, so it would not cause chaos. Most importantly, a stable exit was safer. After the danger just now, han Jingjing had become much more cautious.

As for the crack near the villa, han Jingjing did not notice it. Perhaps she had encountered an unstable crack at that time. This was not impossible, but she did not know if she was lucky or not.

The mass of particles passed through the exit smoothly and reformed han Jingjing's primordial spirit. It was only then that she realized how serious the consequences of her dangerous attempt were.

The pain in her soul was still there, and han Jingjing realized that her connection with the Sky Class Island had become extremely weak.

If the connection with her main body was cut off, she would have to go through a wormhole to return to the sky Island. She couldn't delay for too long, or her primordial spirit and main body would suffer irreversible damage.

"That was close. I thought it was just a small injury, I didn't expect it to be so serious! But it's very weak right now, so it'll be very difficult to return to Sky Class Island. " Han Jingjing was secretly afraid. She strengthened her senses and observed the surrounding environment.

In theory, the attack just now should have cut off the connection between her primordial spirit and her body. This was because han Jingjing's armor was already somewhat damaged. Her primordial spirit projection was very dependent on the armor, and the connection between the two was also mostly achieved through the armor.

#### Chapter 6056 Meeting A Spirit Hunter Again

Now, han Jingjing felt that faint connection. It completely bypassed the armor and was similar to a normal primordial spirit projection. Although she did not know what was going on, the weak restraint that pulled her primordial spirit made her feel at ease.

At this time, han Jingjing naturally didn't know that this weak connection was the effect of the spirit gathering branch that Lin Yi had spent so much effort to get. When her spirit was in the wormhole space, the spirit gathering branch was useless, but after coming out, it immediately protected the connection between han Jingjing's body and spirit, giving her enough time to think of a way to return to Tianjie Island.

"Huh? the exit of the crack just now disappeared?!" Han Jing Jing's spiritual sense could no longer find any trace of the wormhole's exit, and she immediately turned her head and murmured to herself in surprise.

A small exit like this was indeed not stable enough. It probably appeared at a different location every time. Han Jingjing had originally wanted to enter the wormhole from this exit and return to the Sky Class Island, but it seemed like that was no longer possible.

"I understand. Among the exits of the wormholes, the only one that is stable should be the one controlled by the center. The rest of the cracks all appear randomly in various places in the secular world. The time and location will all change. It seems a little difficult to control the use of the wormholes through these cracks." Han Jing Jing floated in mid-air with a look of realization on her face. She did not care about the disappearance of the exit at all.

Although her primordial spirit was severely injured, and the weak connection between her and her body was not enough for her to return to the Sky Class Island, Han Jing Jing still put her heart and soul into the study of wormholes.

After a while, han Jingjing finally woke up from her analysis mode. She looked around in a daze and said, ""What is this place? How should I go back?"

When she was in the wormhole, han Jingjing thought that she could return to Sky Class Island as soon as she came out, so there was no need to observe the surrounding environment. It didn't matter where she appeared, but who would have thought that the accident just now would cause a problem with her connection with her main body?

Now that the wormholes were gone, he would have to find a new one if he wanted to return to Sky Class Island. Where he was was now more important.

In addition to entering the wormhole and leaving from the other end, the other way was to find a way to repair his primordial spirit and see if he could reestablish the connection with his main body.

To do that, han Jingjing felt that it would be easier to find the wormhole ...

"Hmm, this is a forest. As for the direction ... That's not important. Let's find out where this forest is first ..." Han Jing Jing mumbled to herself as her primordial spirit slowly flew into the sky. The view would be clearer from the top of the forest.

It was a pity that even though he could see it clearly, he still couldn't determine its location. If only he could bring along some positioning or communication devices.

Han Jingjing had no choice but to pick a random direction and fly slowly. At the same time, she tried to enter the wormhole again using the same method she had used before.

It turned out that no matter how hard she thought about the wormhole, she couldn't enter it again. The last time was indeed a coincidence. A moving wormhole crack happened to appear near the villa, but she wasn't so lucky now.

"Eh, wait! Is this my spirit sense mark?" Han Jing Jing suddenly stopped and turned to look in another direction. She felt a weak connection with her primordial spirit there.

When she came to the common world, han Jingjing did use spirit sense to mark her, but with her spirit sense's strength, she couldn't sense things too far away. For example, after meeting up with Lin Yi, she didn't sense the two Spirit sense marks anymore.

The sudden fluctuation meant that the two Spirit Hunters had entered Han Jing Jing's sensing range. In that case, when she left the wormhole, she had come to Europe?

Now that she had a lead, she didn't waste any time and sped up towards the spirit sense mark. As long as she found the two Spirit Hunters, she could at least confirm their current location and contact Kang Xiaobo and the others to let them know that she was safe.

As they got closer, Han Jing Jing's primordial spirit could sense the spiritual awareness mark more clearly, and the forest began to become sparse. She was almost at the edge.

Han Jingjing soon found the two Spirit Hunters, black shirt and Hunter Bow. They were fighting two evil spirits, and from the looks of it, they were at a complete disadvantage.

The hunting bow's arrows were quite a threat, but the evil spirit was extremely fast, so it could easily Dodge most of the arrows. On the other hand, the wound on black shirt's leg had not fully recovered, so his advance and retreat were somewhat affected. That was why he was suppressed by the evil spirit.

"The recovery ability of a Spirit Hunter is really bad. Since he's so weak, why didn't he recuperate before coming out?" Han Jingjing shook her head and instantly rushed over.

Han Jingjing was still hoping to get some information from them. Of course, she couldn't just watch the two of them get injured, so she acted quickly.

Although han Jingjing's primordial spirit had been injured, it was not a big deal to deal with two evil spirits from the Tiger continent.

Without waiting for black shirt and hunting bow to react, Han Jing Jing had already destroyed the two evil spirits in one fell swoop. Using her conflagrated knowledge and pill fire to deal with these things was no less powerful than lightning.

Although han Jingjing had only mastered a trace of the consciousness pill fire, the two evil spirits had no power to resist at all. After two screams, they were burned into nothing.

"Aiya! Don't waste your soul power. The soul power of these two evil spirits is very precious!" Black shirt yelled. He did not even bother to thank Han Jing Jing. He quickly took out a soul gathering bottle and began to collect the soul power of the evil spirit that was dissipating in the air.

Han Jingjing's eyes lit up. She did not expect this guy to have a soul gathering bottle. She thought that after snatching their bottles last time, they would not have anything to eat. It seemed that she had been overthinking.

The pure soul power in the soul gathering bottle might be of some help in repairing her primordial spirit. If she could gather enough soul power, she might be able to rebuild the connection with her body.

"Hunting bow greets Sir, thank you for your help!" The Hunter Bow had long recognized han Jingjing. After putting away his bow and arrow, he quickly ran over and bowed respectfully to her.

Only then did black shirt remember that the person in front of him was someone he could not afford to offend. He quickly followed suit and expressed his gratitude, but the soul gathering bottle did not stop working.

"That ... This is my spare soul gathering bottle. You won't take it away, will you?" Black shirt suddenly regretted taking out the soul gathering bottle. The evil spirit's soul power was precious, but if han Jingjing took the soul gathering bottle, he would probably vomit blood.

Hunting bow glared at black shirt, then revealed a charming smile. He said respectfully to Han Jing Jing, ""My Lord, to thank you for saving us, if you still need the soul gathering bottle, we will definitely give it to you. However, we have a mission to submit this time. Can you let us use it first?"

Chapter 6057 Evil Spirit Town

Han Jingjing waved her hand. "I don't care about the soul gathering bottle. However, I need soul power. Do you have any channels to purchase soul power?"

Money in the secular world meant nothing to han Jingjing. Whether it was doctor Guan Medical Group or house Liu, they could provide a large amount of money. If she could buy soul power to recover her essence spirit, that would be great.

Black shirt and Hunter Bow looked at each other. They did not expect han Jingjing to ask such a question. However, it was not surprising. After all, han Jingjing was just a spirit in their eyes. She was just very powerful.

It was normal for such an existence to need soul power, but it was a pity that it wasn't that simple to purchase soul power.

"My Lord, we Spirit Hunters are mainly responsible for collecting soul power in exchange for rewards. However, it's not easy to purchase it. Although we can contact people in the same trade, we are small in number to begin with ..." Hunter Bow explained carefully. She did not want han Jingjing to have any misunderstandings. From the previous situation, this powerful spirit was rather kind. It would be beneficial for them if they could maintain a good relationship.

Black shirt kept the soul gathering bottle. He had already collected the soul power from the two evil spirits, and there was about half a bottle of soul power in the soul gathering bottle, which was a pretty good harvest.

"If you need soul power, then take these. They're a gift of thanks for saving us! Noble spirit Hunters will never be ungrateful!" Black shirt handed the soul gathering bottle to han Jingjing. Even though he felt the pinch, he was still willing to repay han Jingjing for her kindness.

"Thank you! I won't be polite!" Han Jingjing did not hesitate. She took the soul gathering bottle and opened it. She raised her head and drank all the soul power inside. A warm feeling instantly flowed through her primordial spirit. The pain that had not dissipated was reduced by half. Her injuries also began to improve.

Although he still couldn't establish a connection with his main body, that faint feeling was a little clearer. It seemed that this soul power was indeed effective. As long as he collected more, it might not take long for his primordial spirit to recover and he could return to Tian class Island.

"Since you don't have a channel to buy soul power, do you know where I can quickly collect soul power?" Han Jing Jing asked as she returned the soul gathering bottle to black shirt.

It was a pity that Lin Yi had put away the soul power collection device he made in the villa. It would be much easier to collect soul power otherwise.

Hunting bow's eyes lit up, and a sweet smile appeared on her face. If han Jingjing was not a woman, she might have been attracted to her.

"Sir, if you want to collect soul power quickly, there is a place nearby called evil spirit town. There are at least dozens of evil spirits gathered there. If all of them are destroyed, it will not be a problem to fill ten soul gathering bottles. I just don't know how strong you are, and whether you can deal with so many evil spirits?" Hunter bow's plan was to let Han Jing Jing deal with the evil spirits. She and black shirt did not dare to approach evil spirit town because there were too many of them. They could not deal with them.

However, han Jingjing was different. She was a powerful spirit and had a magical flame that was specially used to suppress evil spirits. She might even be able to flatten evil spirit town.

Unfortunately, Hunter Bow and black shirt only had two soul gathering bottles in total. Even if they killed all the evil spirits in evil spirit town, they would not be able to take much soul power with them. It was just right for han Jingjing to absorb.

In addition to soul power, due to the long-term occupation of evil spirit town by evil spirits, it was very likely that there would be some equipment and items that could be used by Spirit Hunters. Hunting bow believed that with this benefit alone, it would not matter even if he gave all his soul power to han Jingjing.

"Evil spirit town? That sounds scary ... Then what are we waiting for? Hurry up and go!" Han Jingjing smiled faintly. In order to get back to Lin Yi bro's side as soon as possible, what were these evil spirits?

"You're going to evil spirit town? Hahaha! I've wanted to go there for a long time!" Black shirt revealed an excited expression.

"Do you have a phone? Let me use it!" Jingjing didn't forget to contact Xiaobo and the others. She didn't know how long she'd been in the wormhole, but Lin Yi bro must be very worried.

Hunter Bow took out a satellite phone and handed it to han Jingjing. As an excellent Spirit Hunter, he would still prepare enough equipment for her.

Jingjing dialed the villa's number, and it was picked up after two rings. It was Chentian.

"Sister-in-law Jing Jing? Where have you been? The boss was worried sick on Sky Class Island! We couldn't find you anywhere in the world! Tell me the place and I'll come pick you up immediately!" Chentian was excited upon hearing Jingjing's voice-he finally found her!

"Wu Chentian? You don't need to come find me-I have some things to do, and I'll go back to Sky Class island after I'm done. Send Lin Yi bro a letter, tell him that I'm fine and that I'll be back in a few days, so don't worry about me. " Han Jingjing did not say much. After giving a few simple instructions, she hung up the phone.

Chentian let out a breath of relief after knowing that Jingjing was fine. He didn't ask further and went to inform the others, writing a letter to Lin Yi as well.

After central signed the agreement, the right to use the wormhole was open to Lin Yi's people. Although letters couldn't be sent in time, it was still a lot better than before when they couldn't be contacted.

After Han Jing Jing hung up, she followed black shirt and the hunting bow to evil spirit town. She estimated that she would need another three to four bottles of soul power to recover from her injuries.

As for whether she could rebuild the connection with her main body, she was not sure yet. She could only say that there was a high chance.

Unfortunately, han Jingjing realized that it was possible to use soul power to repair the spirit, but there was a problem if she wanted to use it to strengthen the spirit. It was like the side effect of Lin Yi consuming the spirit-strengthening and messing up the spirit at the same time was a waste of effort.

If not for the soul gathering bottle's ability to filter and purify soul power, han Jingjing would not even have thought of using her soul power to heal her injuries. The soul power that dissipated in the air was no different from poison to ordinary primordial spirits. Only those evil cultivators would directly consume this soul power.

In this aspect, the soul gathering bottle was really a magical tool. At least, han Jingjing had never heard of it before.

Although the soul gathering bottle was a good item, han Jingjing was too embarrassed to snatch black shirt's and Hunter bow's soul gathering bottles again because she had already snatched them before.

On Sky Class Island, Lin Yi still hadn't received any messages from Chentian regarding han Jingjing, so he was still worried.

For the past two days, the automatic alchemy furnaces of the famous medicine sect had been very popular on Middle Island, and the business of the heavenly pill Pavilion had indeed been greatly affected. On the surface, it looked like the Zheng family had earned a fortune, but most of it was actually transferred to the central Chamber of Commerce. Lin Yi didn't expose this, but he knew it very well.

Chapter 6058 Where Did You Get Your Confidence From?

However, things weren't as smooth as they seemed. After Wei Jia was thrown out of the central Chamber of Commerce by Kang Zhaoming, he successfully provoked the relationship between the Hong Chamber of Commerce and the central Chamber of Commerce. The two directly entered an all-round business war. Under such circumstances, no one even paid attention to Hong Zhong's matter, and in the end, it was just left unsettled.

"Brother Lin, I'm here to bid you farewell today. I can't meddle in the affairs of Nakajima, so I'd better hurry back to the North Island to stabilize the situation, so that the central Chamber of Commerce in the North Island won't shake my Foundation." Hong Zhong had to go back to the North Island immediately, so he came to the heavenly elixir Pavilion to see Lin Yi.

"It's good that brother Hong returns to the North Island first. You don't have to worry about those clowns in the middle Island. Besides, the matter here really doesn't have much to do with you, so try not to care if you can. I'll be returning to the North Island after a while, and we'll have a good chat then. " Lin Yi smiled-he'd expected that Wei Jia wouldn't be able to shake Hong Zhong's position, and it was indeed the case. He just didn't expect the Hong Chamber of Commerce to make such a big deal out of the central Chamber of Commerce.

One more enemy for central meant one more ally for Lin Yi. Plus, he had a close relationship with the Hong Chamber of Commerce, but the conflict between them was started by Wei Jiading, and no one from the Hong Chamber of Commerce informed Lin Yi, the honorary Vice President. He wasn't interested in getting involved for now, so he'd just let the two fight each other for a while.

Hong Zhong was different. As a child of the Hong family, he was worried about the Hong family Chamber of Commerce whether he could interfere with the affairs of the middle Island or not. The only thing he could do now was to stabilize the situation of the Hong family branch and the central Chamber of Commerce when he returned to the North Island.

Lin Yi couldn't go back with Hong Zhong for the time being, but the Hong Chamber of Commerce in the North Island was different from the one in the middle Island. He couldn't just watch Hong Zhong fall into a difficult situation.

"Brother Hong, after you return to the North Island, if you need any help, you can ask my friends for help. They might not be of much help, but they can help you with some small matters." Lin Yi's connections in the North Island were much deeper than those in the middle Island, and his reputation was also useful. If Hong Zhong was in trouble, he could indeed borrow a lot of help.

"Alright, if there's a need, I won't be polite with you. Your name is much better than the signboard of our Hong Chamber of Commerce!" Hong Zhong laughed heartily, and the worry in his heart dissipated a lot.

On the North Island, it wasn't easy for the central Chamber of Commerce to suppress the Hong Chamber of Commerce. With Lin Yi's face, Hong Zhong was already in an invincible position. In fact, if Lin Yi was willing to intervene in the middle island's Affairs, the Hong Chamber of Commerce would have the absolute upper hand. Unfortunately, Wei Jia and his men wouldn't come to Lin Yi even if they were beaten to death, and Hong Zhong couldn't ask Lin Yi for help himself.

The two of them chatted for a while and agreed to meet again on the North Island. Hong Zhong then took his leave. This time, he did not take ao Tianba's ancient battleship. Instead, he rode his flying spirit beast back to the North Island.

After sending Hong Zhong away, Lin Yi used his spirit sense to scan the area. It was an unintentional move, but he found Wei shenjin and Shang Yuhua surrounded by a group of people on the beach.

There were a total of eight people in the group, and most of them were nascent soul practitioners. There were two xuansheng practitioners and an initial mountain opening practitioner. This kind of strength was definitely strong on the surface of the island, but Lin Yi didn't know any of them.

"How dare they surround the people of Wantong Chamber of Commerce and snow sword sect in the middle Island? are these guys from the ancient families?" Lin Yi's face went cold. Wei shenjin was his follower, and even the ancient noble houses couldn't touch his people!

"Tian Gang, Xue Li, I'm going out for a while!" Lin Yi turned to the two girls and left the room.

Wei shenjin and Shang Yuhua's lives weren't in danger yet. Although the group had surrounded them, Shang Yuhua was unharmed, while Wei shenjin only suffered some external injuries. Lin Yi didn't know if they didn't mean to kill them or if they were just toying with Wei shenjin, but he used his lightning escape technique and appeared on the beach in a breath's time.

"Boss!" Wei shenjin saw the lightning and knew that it was Lin Yi, but he didn't know if it was anger or shame on his face.

"What's going on?" Lin Yi appeared beside Wei shenjin, his cold eyes sweeping over the eight men.

"Boss Lin Yi!" Shang Yuhua heaved a sigh of relief as she hurried over to greet him. At the same time, she explained, ""I'm sorry. This is all because of me. These people are from the Hongwu Academy in the yellow-class Sea area of the East continent. That's their leader, the son of the Vice President of the Hongwu Academy, Zhu Dadi. "

Lin Yi looked at where she was pointing. The guy called Zhu Dadi looked decent, wearing a brocade robe and looking very imposing. He was looking at them arrogantly, and the only early mountain split elder among them was standing beside him, staring at Lin Yi with a serious expression.

The only one who could tell how scary Lin Yi was was this old man. The others, including the two xuansheng stage cultivators, didn't even notice how Lin Yi appeared because they had their backs to him.

"Boss, that guy called Zhu Dadi wanted to force the all Trades Union to marry Yu Hua to him. Because Yu Hua didn't agree, she directly followed us here!" Wei shenjin was embarrassed because he couldn't protect the people he loved, but after Lin Yi appeared, he couldn't control his anger anymore.

Any man with guts would never allow someone to take his woman by force. Even if he knew he couldn't win, he wouldn't back down. Because of this, Wei shenjin didn't go to Lin Yi for help at the first moment- he had to step up himself!

Lin Yi took out a recover pill and gave it to Wei shenjin. His injuries weren't serious, but there was no harm in treating him. Wei shenjin didn't reject and took the pill and swallowed it.

"Hongwu Academy? I've never heard of it. Why do all kinds of trash dare to come to Nakajima and show off? Do you really think that just because you're from the East Province, you're superior to others?" Lin Yi turned to Zhu Dadi, his face calm and mocking.

Zhu Dadi didn't get angry. Instead, he chuckled and nodded calmly. "Country bumpkin, it's normal to not know about the East province's Academies. Listen to this young master's advice, country bumpkins like you don't have the qualifications to compete with this young master for a woman. While this young master is in a good mood, quickly and obediently get lost, otherwise I can't guarantee that you won't be able to return alive. "

"To be honest, I really don't understand where your confidence comes from. Is it just because of the East Province? Or do you think you have an expert by your side?" Lin Yi smiled faintly and glanced at the

old man. He could deal with this guy with one hand. It was ridiculous that Zhu Dadi thought he could rely on him.

#### Chapter 6059 Local Dragon

"You really don't know how to appreciate my kindness. I'm kind enough to give you a way out, but you don't know how to cherish it. You guys, go and teach this kid a lesson!" Zhu Dadi waved his hand, signaling the two xuansheng stage cultivators to bring the rest of the original infant stage cultivators.

From Zhu Dadi's point of view, this lineup showed how much importance they attached to Lin Yi. He didn't notice the change in the old man's expression. He opened his mouth, but stopped.

"Ha ... There are so many people here. Are you trying to scare me to death?" Lin Yi smirked as he tapped the ground and used his butterfly microsteps. He didn't even need to use any skills to deal with these small fries.

Simple straight punches, swinging punches, hook punches, and so on, coupled with the butterfly microsteps, were enough to suppress the six people. In just a breath's time, the six cultivators, including the two mysterious Ascension stage cultivators, were all knocked to the ground without exception.

It was fortunate that Wei shenjin wasn't seriously injured, otherwise, it wouldn't be as simple as just knocking them out. If Lin Yi really wanted to kill them, he wouldn't be soft-hearted either.

Zhu Dadi was dumbfounded. How did the six masters All Fall Down in the blink of an eye? Didn't they say they were going to beat up country bumpkins?

The old man beside him instantly moved in front of Lin Yi, blocking him. He cupped his fists and said, "Young friend, there is a misunderstanding here. Please stop!"

Lin Yi clapped his hands. He didn't want to continue fighting, and since the old man seemed to know what to do, he decided to listen to what he had to say.

After all, the ins and outs of this matter were not completely clear. It was necessary to stand up for Wei shenjin, but it would be even better if he could also gain the upper hand.

"Just say what you want to say, I don't have much time!" Lin Yi looked at the old man indifferently. He didn't need to pay attention to Zhu Dadi for now.

"Actually, we're here to represent Hongwu Academy and the central island's Wantong Chamber of Commerce to sign a partnership agreement. Young master Zhu did fall in love with miss Shang at first sight, so he mentioned it casually. I didn't expect that the people of Wantong Chamber of Commerce would immediately take advantage of the situation and propose a marriage between miss Shang and our young master. They were the ones who suggested it first, and we're just taking advantage of the situation and agreeing to it!" The sect-opening elder tried to get himself out of this-Lin Yi's strength was enough to make him fear him.

As the saying goes, a strong Dragon can't suppress a local snake. Plus, Lin Yi was a local Dragon now, and it was best for outsiders like them not to offend him too much.

"Nonsense! It was clearly you and the Guild leader who colluded to force my father to agree to the marriage. I've already told you clearly that I already have a fiancé, and I will definitely not agree to the marriage with Hongwu Academy!" Shang Yuhua immediately stood up and retorted loudly. Wei shenjin, on the other hand, was so excited when he heard the word 'fiancé' that his face flushed red, completely unaware that this was not the time to be happy.

After Shang Yuhua finished speaking, she felt a little shy. She had only been dating Wei shenjin for a short time and had never mentioned the word 'fiancée' before. It took a lot of courage for her to say it out of her mouth today.

At this time, Wei shenjin was not stupid. He immediately stood up and held Shang Yuhua's hand, taking advantage of the situation and said, "This is my, Wei shenjin's, fiancée. If you want to force her with your authority, don't even think about getting away with it even if I die!"

Lin Yi couldn't help but roll his eyes. It felt like these two were trying to put on a dramatic, romantic scene. Not only were their words mushy, but the way they looked at each other was also enough to give him goosebumps.

"I already understand this matter. You think you can come to Nakajima and force someone to marry his fiancée just because you're from some bullsh \* t Academy in the East continent? do you really think that you can do whatever you want in Nakajima?" Lin Yi replied-he'd at least get rid of these people before the two continued with their mushy words.

The old man couldn't see through Lin Yi's strength, so he was very polite. Zhu Dadi, on the other hand, regained his arrogance after the shock and because he had an early mountain split practitioner with him.

"Nakajima isn't a place we can run amuck, so do you think you can run amuck? I don't know who you are, but this marriage is one of the foundations for the cooperation between our Hongwu Academy and the Wantong Chamber of Commerce. It was the Wantong Chamber of Commerce that agreed to our conditions, so I am this woman's legal fiancé. Control your little brother well, or else I will let him know the consequences of offending the East continent's Hongwu Academy!" Zhu Dadi sneered. He was still tough, but he wasn't as calm as before.

Lin Yi didn't want to waste time with these two. It seemed like he had to go to Wantong Chamber of Commerce to solve this problem.

Just as he was about to go to Wantong Chamber of Commerce, Lin Yi's spirit sense found Shang Wanyi and three other people flying over. From their clothes, they should be high-level figures of Wantong Chamber of Commerce. They might have received the news that Zhu Dadi was surrounding Wei shenjin and Shang Yuhua, and rushed over to mediate. This saved Lin Yi the trouble of going to Wantong Chamber of Commerce again.

What Lin Yi didn't understand was what was wrong with the higher-ups of Wantong Chamber of Commerce. Why would they choose to offend him, a Mystic class level two refiner, and then befriend the son of the Vice Dean of a school in the yellow Class Sea area? With Lin Yi's status, even if he went to the mystic division Sea area in the east continent, he'd be someone everyone would fight to befriend. What was the son of a Vice Dean of a Yellow Division school?

Zhu Dadi thought that he had Lin Yi under his control when Lin Yi didn't say anything. He was pleased with himself and started talking nonsense.

"Shut up! Don't you know that you're very annoying?" Lin Yi frowned and scolded.

He didn't want to bother with the kid, but the guy was getting all fired up, buzzing like a fly-even Lin Yi found it unbearable.

Zhu Dadi paused. Lin Yi's voice wasn't loud, but the sudden shout made him panic.

Fortunately, the people from Wantong Chamber of Commerce had already flown over quickly. They could see them clearly with their naked eyes without using divine sense.

"It's my father, the Executive Vice President of Wantong Chamber of Commerce, Hiraya Ken, and two elders!" Shang Yuhua's eyes were sharp, and she had already informed Lin Yi of the person's identity.

"Let's wait for them to come over first!" Lin Yi nodded, expressing his gratitude.

Zhu Dadi didn't dare to say anything more. He let out a sigh of relief when he saw the people from Wantong Chamber of Commerce. Lin Yi was a local Dragon, and Wantong Chamber of Commerce wasn't weak either. If they could get them to fight, Hongwu college would be able to watch a good show.

#### Chapter 6060 Falling Out

In a moment, Shang Wanyi and the three executives of Wantong Chamber of Commerce landed in front of the crowd. Seeing that Lin Yi was present, Shang Wanyi was relieved. He cupped his fists with a smile and said, ""It's great that Master Lin is here. I'm really sorry. My daughter had some small matters to attend to and had to trouble you to come over. "

Putting aside the fact that Lin Yi had saved his life, just the things that Lin Yi had done on the northernmost Island alone made Shang Wanyi have to be extremely respectful to Lin Yi. They were already quite familiar with each other on the ancient battleship, but Lin Yi's status had risen too quickly, so Shang Wanyi had to be more careful with his words.

In fact, after returning to the central island, Shang Wanyi didn't even have time to report what happened on the northernmost Island before Shang Yuhua was forced into a marriage. So, Wantong Chamber of Commerce didn't notice the change in Lin Yi's identity at all. It was because of this that they didn't care even though they knew that Wei shenjin was Lin Yi's follower.

Lin Yi smiled at Shang Wanyi and greeted him with cupped fists. As for the other three executives of Wantong Chamber of Commerce, they didn't care about him at all. They all rushed to Zhu Dadi's side and asked about his well-being.

"Master Lin, Yu Hua's marriage is a matter between our Wantong Chamber of Commerce and Hongwu Academy. It has nothing to do with the heavenly elixir Pavilion. Please don't interfere." Shinobu turned around and cupped his fists at Lin Yi. He didn't know what Lin Yi was doing on the northernmost Island, but Lin Yi's status wasn't low even on the central island, so he spoke politely.

"Vice President ping, Yuhua is my daughter. What does his marriage have to do with the Chamber of Commerce? If I don't agree to this, no one can try to change Yuhua's life!" Shang Wanyi's face was filled with anger, and he could not help but loudly rebut Hiraishi. After he returned to the middle Island, he had been extremely aggrieved.

Seeing Lin Yi here, Shang Wanyi's heart suddenly calmed down. He knew that his daughter would not be forced to marry far away to the East Province.

Ping jianshen sneered, "Vice President Shang, mind your words. As the Vice President of the Chamber of Commerce, shouldn't you put the Chamber of Commerce's interests first?" Furthermore, young master Zhu is handsome and has outstanding talent. Do you think it's an insult for him to be a good match for your girl? That's the Hongwu Academy that's extremely famous even in the East continent. If Yuhua were to marry there, her future achievements would definitely be much higher than those in Nakajima. It's the best of both worlds, why can't you understand?"

Lin Yi smiled faintly and waved his hand to stop the father and daughter from arguing. He looked at Hiroshi with a hint of mockery, ""Vice President ping, right? Since you've said it so well, why don't you marry your daughter to this young master Zhu? if you don't have a daughter, nieces and nieces are fine too. If you really can 't, your sister or sister is fine too. I believe that young master Zhu won't mind!"

Zhu Dadi's face turned green-he'd never been humiliated like this before. He'd probably attack Lin Yi if the early-stage mountain split elder didn't stop him.

Hirata's eyes also turned cold. He was the Executive Vice President of the Wantong Chamber of Commerce. In terms of status, he was even higher than vice Island Masters like Tian Xing. He was only slightly inferior to the AO Tian state. How could a mere Pavilion master of the heavenly pill Pavilion dare to be so arrogant in front of him?

It was a pity that he didn't get the chance to listen to Shang Wanyi's report on the northernmost Island. Otherwise, he would know that his position as the Executive Vice President of the Wantong Chamber of Commerce was worthless to Lin Yi.

"Vice President Shang, I don't wish for outsiders to interfere with the internal affairs of our Chamber of Commerce. I'll ask you one last time. Do you agree to the marriage with Hongwu Academy? This will be one of the ways the Chamber of Commerce will judge whether you are qualified to be the Vice President. " Hirata wasn't very pleased with Lin Yi, but he didn't choose to confront him directly. Instead, he avoided the main point and threatened Shang Wanyi directly.

As the Executive Vice President, it was not a problem for him to control an ordinary Vice President. As long as Shang Wanyi was not stupid, he should know how to choose.

Shang Wanyi was so angry that he laughed. He tore off the outer robe of the Wantong Chamber of Commerce and threw it on the ground. He pointed at hirasu and cursed,""Hirakazufuru! Do you really think you are something? Are you blind? do you think I would sell my daughter for such a bullsh \* t Vice President position? I'm telling you, I don't care about this bullsh \* t Vice President! If you want to sell it, you can sell it to your family. Don't even think about my daughter!"

Not only was Hiroshi Ken dumbfounded by this scolding, but the other two elders from the all trade association were also stunned. All along, Shang Wanyi had been a very slick and qualified businessman. He did not expect his sudden outburst to be so frightening.

However, this wasn't important. What was important was that the Vice President had quit. This was also a big shock to the Wantong Chamber of Commerce. Even if Higan could suppress it, he would never be able to eliminate the adverse impact.

"Well said! What was a mere Wantong Chamber of Commerce? With brother Shang's talent, you'll be a talent that everyone will fight for no matter where you go! It just so happens that I've been preparing to establish a Chamber of Commerce recently. If brother Shang is willing, please help me take up this responsibility!" Lin Yi smiled faintly and started poaching right in front of Ping Jian.

He did have the idea of building a Chamber of Commerce in mind, mainly because of the medicine sect's automatic alchemy furnace, but he hadn't thought about the details yet. It just so happened that Shang Wanyi was about to leave Wantong Chamber of Commerce, and Lin Yi immediately connected the two together-he felt that it was a good idea.

Actually, from Wei Shenjin's point of view, Lin Yi should be considered Shang Wanyi's junior, but Shang Wanyi probably didn't dare to let him be his junior, so calling him brother Shang was already very polite.

Shang Wanyi was stunned. He didn't know if Lin Yi was just helping him on a whim or if he really wanted to build a Chamber of Commerce. No matter what, this was a great opportunity.

With Lin Yi, a Mystic second level Alchemist, and the good relationship between the managers of Nakajima and the heavenly elixir Pavilion, if they really wanted to form a Chamber of Commerce, their business would definitely exceed that of Wantong Chamber of Commerce. Shang Wanyi made a prompt decision and immediately nodded.

"Master Lin is willing to give me a chance. I will definitely do my best to help you manage the Chamber of Commerce. Also, it won't be long before our Chamber of Commerce will definitely surpass the WAN Tong Chamber of Commerce!" Shang Wanyi puffed out his chest and made a firm statement.

Shinobu Hiraishi's face was as dark as water. He sneered and said, "He really doesn't know the immensity of heaven and earth. He thinks that he can establish a Chamber of Commerce by knowing a few people, and even wants to surpass the Wantong Chamber of Commerce. Even if you can establish a Chamber of Commerce, with trash like you, you probably won't be able to make any waves!"
