

Bodyguard 6061

Chapter 6061 Forceful Intervention

"From today onwards, brother Shang will be the president of the heavenly pill Chamber of Commerce. President Shang, let's go back and discuss our future development. As for those clowns, don't waste your time on them!" Lin Yi smiled and cupped his hands at Shang Wanyi before signaling for Wei shenjin and Shang Yuhua to get ready to leave.

Zhu Dadi had always prided himself on being calm, but now, he was suddenly hot-headed and couldn't help but rush towards Shang Yuhua, his eyes revealing a trace of malevolence.

"Bitch! This young master gave you so much face, but you don't know what's good for you. Today, I'll let you know that this young master is not to be trifled with!" Before Zhu Dadi could finish his sentence, he had already attacked Shang Yuhua.

The old man beside him paled-he'd been so focused on Lin Yi that he'd let the kid get away.

Lin Yi didn't care about the idiot at all-with Wei shenjin by his side, a young master like him shouldn't be able to threaten Shang Yuhua. He only needed to make sure that the old man wouldn't interfere.

Zhu Dadi's attack was swift, but Wei shenjin had been paying attention to this guy. How could he let him hurt his sweetheart?

With a low shout, Wei shenjin directly stood in front of Shang Yuhua and punched out. The surrounding temperature instantly dropped, and in the space where the fist passed through, small ice crystals even appeared.

Zhu Dadi's expression changed slightly. Although he was only in the original infant stage, his strength was mostly increased by the accumulation of medicinal pills. In terms of talent, he was really not as good as the snow sword sect's genius disciple Wei shenjin. Therefore, when he threw out this punch, he immediately had the intention to retreat.

However, the cold Qi formed by Wei shenjin's genuine Qi made him feel that his movements were a little sluggish. In addition, he had rushed forward too fiercely just now, so he couldn't retreat even if he wanted to. He could only fight back.

Their fists collided with each other. Zhu Dadi was at a disadvantage, and he had the thought of retreating and hesitating. The result of a head-on collision was a collapse.

The old man protecting Zhu Dadi was about to help his young master even before the fight started, but Lin Yi only moved his feet slightly without any intention of helping. The invisible pressure made the old man's hair stand on end, and he subconsciously focused all his attention on Lin Yi.

The next moment, the old man reacted. He had neglected Zhu Dadi again. Just a moment of distraction caused his young master to Scream And Fly back. The arm that Wei shenjin had used to exchange blows with him was covered in a thin layer of frost.

"How dare you!" The old man was shocked and furious. He couldn't care about Lin Yi anymore. He flashed and appeared behind Zhu Dadi, defusing the impact and wiping the cold off his arm. He put a recover pill into Zhu Dadi's mouth.

After doing all of this in the blink of an eye, the old man did not stop. Instead, he flashed again and appeared in front of Wei shenjin. He raised his hand, wanting to slap his face and send him flying.

He wasn't trying to kill Wei shenjin-after all, Lin Yi was there, and the old man didn't want to offend a local tyrant with unknown strength.

If Zhu Dadi wasn't injured and the elder didn't get back at him, he would be punished. He didn't even want to slap Zhu Dadi.

It was a pity that this old man didn't understand Lin Yi at all. Slapping his follower in front of him was no different from slapping him. Lin Yi was always protective. Even if Wei shenjin attacked first, he wouldn't hesitate to support him, not to mention that it was just self-defense. He was already being kind by not killing Zhu Dadi, and he still dared to look for trouble?

Lin Yi used his super limit butterfly micro step at full force. He left an afterimage on the spot and appeared in the old man's path. He also sent out a slap, but it hit Wei shenjin's face before the old man could hit him.

The old man thought that he was on guard against Lin Yi, but he didn't expect Lin Yi's speed to be so terrifying. He didn't even have the chance to react.

It was definitely too late to block, so the old man could only move his head instinctively and make a slight Dodge.

Lin Yi's palm missed, but he didn't care. Four fingers were enough to send the old man flying.

With a not-so-clear sound of a slap, the old man's forward direction suddenly made a 90-degree turn. His entire body somersaulted twice in the air before falling to the ground in a slightly sorry state.

Zhu Dadi couldn't help but shiver. First, the cold wasn't gone yet. Second, he was scared by Lin Yi's strength. The old man beside him was an early stage mountain split master, and he was sent flying by Lin Yi with one slap? Then what was Lin Yi's strength level?

Hiraishi's heart also trembled, but Hongwu Academy was an important partner of the Wantong Chamber of Commerce in opening up the East Province. He absolutely couldn't sit by and watch these two people being bullied without saying a word.

"Lin Yi, don't go too far. This is an important guest from the East continent. Even the AO Tian state's acting Island master wouldn't dare to offend him. Do you really not want to stay in the middle Island anymore?" Hirakazu yelled as he quickly stood in front of Lin Yi, acting as if he was protecting Zhu Dadi and Zhu Yunfei.

Lin Yi smiled faintly, not paying attention to the hidden hint in ping jianshen's words. The guy thought that he still needed okutayoshi's protection to survive in the central island, and so he specifically pointed out that okutayoshi was only the acting Island master. He didn't know that Lin Yi had already passed the stage of needing support.

In fact, when Hirata first saw the six unconscious East continent people on the ground, he already knew that Lin Yi wasn't easy to deal with. However, he was confident that with him, the Vice President of the Wantong Chamber of Commerce, Lin Yi would restrain himself no matter what. He didn't expect that the truth was completely different.

"Whether I want to stay in Nakajima or not is not up to you. If you must interfere, don't blame me for being impolite." Lin Yi glanced at Hiraikaze coldly-this guy didn't look like a good person at all. He'd be fine with teaching him a lesson if he didn't know what was good for him.

After all, after Shang Wanyi followed Lin Yi, he'd already made an enemy of the Wantong Chamber of Commerce. It wouldn't be a big deal if he had another crime like teaching the Vice President a lesson.

Hiraikaze was a little apprehensive. However, under such circumstances, he definitely could not back down. Otherwise, the cooperation with Hongwu Academy would end here.

"Lin Yi, Zhu Gongzi and the others are our distinguished guests. As long as I'm here, don't even think about hurting them!" Shinobu Hiraishi opened his arms and spoke righteously. However, he was severely lacking in confidence. No matter how one looked at it, he was just being stubborn.

Chapter 6062 A Quiet Message

"I was going to let it go, but since you're here to mess things up, I'll fulfill your wish!" Lin Yi sneered as he lifted his leg and kicked the Hiraikaze, but the latter didn't react at all. He only felt a sharp pain in his abdomen before he was sent flying.

After Lin Yi kicked Hiraikaze away, he immediately followed up with a thousand changes of wood and forest. He created a hundred clones and surrounded Zhu Dadi and the old man, beating them up.

Although the power of the thousand forest transformation was not great, there were many of them. It was the best way to beat people up, especially for people who were not as strong as him. It was definitely refreshing!

As for the other two elders from Wantong, they weren't in the early stages yet. They wisely turned and backed off when they saw the thousand changes of wood forest, pretending to check on ping jianshen's injuries and staying far away from Lin Yi's attack range.

Lin Yi didn't bother with the two-their presence didn't affect him at all. He just needed to enjoy the beating.

Poor Zhu Dadi and the old man-they were facing hundreds of Lin Yi's clones, and no matter how hard they tried to defend, they were still hit by fists and legs from all directions. Within a breath's time, their bodies were swollen.

In fact, with the old man's strength, the thousand changes of wood forest wouldn't be of much use, but when Lin Yi first came, the old man was already a little guilty. Then, he was slapped away, which caused him to be even more afraid of Lin Yi. He was completely suppressed by the thousand changes of wood forest, and his performance wasn't much better than Zhu Dadi, a nascent soul cultivator.

Fortunately, Lin Yi didn't have the intention to kill them, so Zhu Dadi and Zhu Yunyang were able to keep their lives. The thousand changes of wood and forest wasn't that powerful, but it was still relatively weak. It might be hard to kill a mountain split stage cultivator, but it was enough to kill a nascent soul cultivator like Zhu Dadi.

Seeing that the two were pretty much swollen, Lin Yi waved his hand and dispersed all his clones. He looked at the two unrecognizable bodies on the ground and said, ""Remember, the one who beat you up is Lin Yi from the heavenly elixir Pavilion. If you have any grudges, come and find me, I'll take you on anytime. Don't get the wrong person!"

After he finished speaking, he glanced indifferently at the three people of Wantong Chamber of Commerce not far away. He said this for them to hear, in case these guys were unhappy and took revenge on the people around him.

Zhu Dadi and the others couldn't even tell the difference between eyes and nose anymore-they couldn't answer Lin Yi, naturally. As for Hidekazu, he was angry, but he knew that a wise man knew when to retreat. He snorted and didn't say anything.

"Let's go!" Lin Yi turned around and beckoned to Shang Wanyi, his daughter, and Wei shenjin before leaving. He had to think about the heavenly elixir Chamber of Commerce.

He already had this idea, but now that he had Shang Wanyi, he had to think about how to operate it. The current Sky pill Pavilion had no market for low-level pills because of the famous medicine sect's automatic alchemy furnace. High-level pills were expensive, and there was a limited number of them. They couldn't be sold as regular goods, so it was necessary to transform.

As for the goods after the Chamber of Commerce was established, Lin Yi had some ideas. Other than his pills, Central's wormhole could be used as well. Since they could sell common goods, Lin Yi could sell them too. The wormhole was shared by both sides, and the market was huge. He thought central wouldn't mind too much.

As for the specifics, he would have to contact the secular world when he got back. He had already mentioned this to Lai Changyi and brother Dafeng, so it would be easier to do it now. The only problem was han Jingjing's whereabouts. If she could return in time, it would be perfect!

When they returned to the heavenly elixir Pavilion, Tian Gang was the first to welcome them. Her pretty face was filled with joy, and she was holding a letter in her hand.

"Lin Yi, this is a reply from the common world. They have news of Jingjing! Jing Jing was fine! She's still in the secular world and said she'll be back in a few days. " Tianshuo passed the letter to Lin Yi, breathing a huge sigh of relief. Although han Jingjing didn't wake up immediately, this news was enough to put Lin Yi at ease.

Lin Yi was overjoyed. He quickly opened the letter and started reading it. As expected, Han Jing Jing contacted the villa and told them to tell Sky Class Island that she was safe. However, she still had things to do, so she would only be back in a few days.

He didn't know when the letter was sent out, but Lin Yi thought that since he'd just received the letter, han Jingjing might wake up at any moment. He didn't have time to settle Shang Wanyi and the others down-he only told them to get familiar with the heavenly pill Pavilion before going upstairs to visit han Jingjing.

Unfortunately, han Jingjing was still in the mortal world and couldn't immediately return to Sky Class Island.

That day, when she and the Hunter Bow in black had gone to evil spirit town, they had successfully destroyed the many evil spirits that were entrenched there. With Han Jing Jing's primordial soul strength and the help of her consciousness pill fire, dealing with these small things was as easy as turning her hand.

Every time she killed an evil spirit, han Jingjing would consume the soul power she had collected and convert it to repair the injuries on her primordial spirit until she was completely healed. When all the evil spirits in the town were destroyed by her, not only was her primordial spirit completely healed, but her strength had also been greatly improved.

It was a pity that this was only a one-time improvement. Consuming soul power later would not be of much use. On the contrary, it made her feel that her primordial spirit was a little impure, so she did not dare to continue using soul power to cultivate her primordial spirit.

It was precisely because of this that black shirt and hunting bow had gained a lot of advantages. Not only were their two soul gathering bottles filled with soul power, but their strength had also improved to a certain extent under Han Jing Jing's guidance. At the same time, they had also collected some very useful soul tools in evil spirit town.

For black shirt and the hunting bow, this was definitely a great harvest. Two full bottles of soul power could make at least ten to twenty million euros if sold. As for the increase in strength and the items they had obtained, they could not be measured with money. Therefore, the two of them respected han Jingjing from the bottom of their hearts and even had the intention of becoming her master.

Of course, han Jingjing wouldn't take two foreign Spirit Hunters as her disciples. She didn't have the time for that. After leaving evil spirit town, she was ready to try returning to Sky Class Island.

Although her soul had been healed, the connection between her and her body had not yet been reestablished. The feeling from before was much clearer, but she did not dare to return. She had come to the mortal world with the disguise of her armor, and now that the armor was damaged and the connection was cut off, who knew what would happen if she tried to return? for safety's sake, she could only choose to find a wormhole and use it to return to Sky Class Island.

Chapter 6063 Essence Soul Fusion

Wormholes were actually quite fast. Last time, han Jingjing had been wandering around in the wormholes and out of the range of the teleportation channel, which was why her speed had been slow. This time, as long as she focused on the teleportation, she would be able to return to Sky Class Island very quickly.

The only problem now was where the entrance to the wormhole was. Finding the entrance to the wormholes in Europe was like finding a needle in a haystack. Han Jingjing had no choice but to return to China first. The safest way was to enter from the main entrance controlled by the central control Center.

Han Jingjing did not need to use her primordial spirit state to slowly cross the sea. She could just hide on the plane and take a ride back to the country. Once she reached a nearby city, it would be very simple.

She'd said she'd go straight back to Sky Class Island last time, so she didn't plan on going back to the villa this time. Lin Yi must've been worried about her after staying in the common world for so long, so she went straight to the wormhole entrance.

The primordial spirit state was so convenient. It was effortless to sneak into a place without being discovered. Han Jingjing easily found the entrance of the wormhole and saw brother Dafeng directing people to transport many goods from the secular world to the sky-class Island.

"Looks like Lin Yi bro's prepared to give them a taste of their own medicine, using the common world's products to fight against the central Chamber of Commerce and break their monopoly." Han Jingjing chuckled. She thought that this was a good idea. Unfortunately, the agreement with central was only a year's time. In this time, she had to find a way to study the wormhole thoroughly and find an independent tunnel to avoid being too dependent on the wormhole in the center in the future.

Originally, han Jingjing wanted to show herself and say hello to brother Dafeng, but there were many people around the wormhole. Although most of them were people she had found, some of them were placed here to monitor brother Dafeng. In order to avoid any complications, han Jingjing finally suppressed her thoughts and took advantage of the gap to enter the wormhole quietly.

As soon as she entered the wormhole, her incorporeal primordial spirit was also disintegrated into particles and flew to the other end at high speed. It was more than a hundred times faster than han Jingjing's previous wandering speed.

However, as soon as she entered the tunnel, han Jingjing realized that something was wrong. She was not the only one with her soul particles. All the particles in the tunnel were moving rapidly without interfering with each other, and they did not touch her soul particles. However, one of the particles was motionless in the tunnel, just blocking her path.

From that ball of particles, han Jingjing could vaguely feel the fluctuation of her primordial spirit. This fluctuation was very powerful, but it also revealed a sense of weakness, which was a little strange.

The particles of the item passed through the particles without any effect, but as soon as han Jingjing's essence soul particle got close, the motionless particle suddenly exploded and entangled with han Jingjing.

The two primordial spirits broke free of the wormhole's teleportation tunnel and rolled around in the wormhole space at the side, revealing Han Jing Jing's primordial spirit body.

"The strength of this little girl's soul isn't bad. I can't believe I'm able to find such a great tonic here. Be good and let me fuse with it so that I don't have to suffer." Another head appeared on the shoulder of Han Jing Jing's primordial spirit. It was Wang Ba, who had disappeared at the mini teleportation formation on the Sky Class Island.

Lin Yi thought that he'd been killed by the teleportation formation, but this ten-thousand-year turtle was really tough. He didn't die from that, and appeared in the wormhole tunnel.

In fact, Wang Ba was confused as to why he was here as well, but it was already a blessing to be able to escape from Lin Yi. He didn't care where he was at all.

He had been in the wormhole for some time now, but he did not want to leave immediately. He had indeed been severely injured when he was teleported by the mini teleportation array. He did not dare to run around without knowing the situation.

More importantly, Wang Ba discovered that his primordial spirit could slowly recover after turning into a particle. Although it would take at least a thousand years for it to recover, it was still a method that could continue to exist without the Black Sea soul-consolidating liquid. Therefore, he decided to hide here and recuperate.

If han Jingjing had not suddenly teleported through the tunnel, Wang Ba might have slept for a thousand years. It was because he sensed the primordial spirit fluctuation that he gave up on his cultivation and turned to attack han Jingjing's primordial spirit.

If Wang Ba knew how to devour Lin Yi's essence spirit, Han Jing Jing would've been swallowed in one bite. Fortunately, he didn't have such skills, so Han Jing Jing escaped.

However, Wang Ba did not attack han Jingjing without any confidence. He realized that after he turned into a particle, there was a high chance that he could merge with han Jingjing's essence spirit in the same state. For example, if he could merge with han Jingjing, her injuries would recover greatly. Then, she would not need to stay here anymore. He could find a body to possess first.

"Who are you? get lost!" Although han Jingjing was shocked, she did not panic. She tried her best to maintain control of her primordial spirit body and at the same time, she tried her best to drive Wang Ba out.

"Yi, you're really quite tenacious!" Wang Ba was surprised as well. He had thought that the attack would be a piece of cake, but the fusion process was not as easy as he had imagined.

Wang Ba had only come up with this method of fusion in the form of particles. He had never actually put it into practice. In other words, Han Jingjing was Wang Ba's first experimental subject, and he had fallen into his own trap.

In terms of the strength of his primordial spirit, Wang Ba was extremely close to the sea shattering realm at his peak. However, his strength dropped a lot later on. In addition to his previous serious injuries, it was already not bad for him to be able to maintain the strength of a peak late-stage xuansheng. Although Han Jing Jing had improved, her primordial spirit strength had barely entered the xuansheng realm. She could not be compared to Wang Ba at all.

One had to look at the condition of both parties to find the reason for the current situation. Wang Ba had yet to recover from his serious injuries, so his soul was very weak despite being strong. On the other hand, Han Jingjing's soul was extremely solid due to the accumulation of a large amount of soul power. Even if it was slightly impure, it was still extremely solid. Even if it had turned into a particle, the connection between them was still extremely close. If Wang Ba wanted to fuse with Han Jingjing, he would most likely be kicking an iron plate.

That was indeed the case. Wang Ba seemed to have some advantage in the beginning, but Han Jingjing slowly took control of the initiative. When she used her conflagrated knowledge pill fire, Wang Ba suddenly screamed and completely hid himself, not daring to show his face.

"Hey, come out! Hurry up and come out!" Han Jingjing was a little dumbfounded. Wang Ba's primordial spirit had more or less fused with her. As her strength was too low, she could not separate Wang Ba's primordial spirit and could only barely maintain this state.

Chapter 6064 Returning To The Secular World

If she used the consciousness pill fire, it was likely to burn her primordial spirit as well because of the fusion. Han Jingjing wasn't sure what would happen to her if she did that.

"Little girl, I admit that I've underestimated you. But it's okay. I don't lack patience. Let's wait and see!"
Ba Wang was a little scared, but he still spoke firmly.

Although he seemed to be at a disadvantage now, Wang Ba believed that as long as han Jingjing's primordial spirit turned back into particles, he would have a chance to continue fusing with her primordial spirit. As time passed, Wang BA's condition would get better and better, and the fusion speed would naturally become faster.

Han Jingjing suddenly quieted down. She couldn't separate this annoying B * stard for a while, so the only way was to stop him from continuing to merge with her primordial spirit. Thus, she could only choose to maintain the primordial spirit state.

It seemed like it was too late to go back to Sky Class Island, and if she went back like this, this bastard might take over her body. Han Jing Jing thought about it for a while, and then turned around and flew back. She couldn't take that risk, so she decided to return to the mortal world and stay there for a while.

The movement speed of the primordial spirit body in the wormhole space was even slower, but han Jingjing had no choice. She would definitely not return to her particle form now. Fortunately, the teleportation only lasted for a moment. The primordial spirit body took more than ten minutes before she finally returned to the entrance.

There were still many cracks surrounding the most stable exit. This time, han Jingjing had no choice but to exit from the central exit. If she passed through the other cracks in her primordial spirit form, she might cause a lot of unnecessary damage. If the bastard took the opportunity to attack, han Jingjing would be in big trouble.

"Sister-in-law Jing Jing?!" Han Jingjing's primordial spirit had just come out of the wormhole when she heard brother Dafeng's exclamation. She could not help but smile bitterly.

Fortunately, he had entered quietly just now. Otherwise, it would be hard to explain why he had just entered and then come out.

"Brother Dafeng, are we the ones to use the wormhole today?" Han Jingjing smiled and greeted him, casually making up some meaningless gossip.

"Yeah, How did you come out of the wormhole? "Boss Lin Yi's been really worried these days ... I just heard that you were here a while ago ..." Dafeng bro couldn't help but ask softly. He then remembered that this wasn't a good place to talk, so he quickly looked around and bowed to han Jingjing. "Let's leave this place first. Do you think it's okay to go back to the villa?"

"Yes, I'll go back to the villa first. Please send someone to send me back." Han Jing Jing did not stand on ceremony. She still had to suppress Wang Ba in her primordial spirit and could not be distracted.

"Who are you sending? I'll go back with you immediately." Brother Dafeng did not dare to delay. After he finished speaking in a low voice, he led Han Jing Jing away from this place.

Although central and Lin Yi had signed a truce agreement, han Jingjing's identity was too special. Lin Yi had gone back to Sky Class Island, and Dafeng bro didn't dare to let her stay here. If something happened, central could shirk all responsibility.

Soon, he took han Jingjing to a helicopter and left. Although the people in the center received the news of han Jingjing's appearance, they did not stop her.

After returning to the villa, they were notified by brother Dafeng in advance, so everyone was more present. Everyone was overjoyed to see han Jingjing. They were as anxious as Lin Yi was. Although they had already received the news that she was fine, it was better to see her in person.

After han Jingjing greeted everyone, she did not say anything else. With the strength of her primordial spirit, it was still difficult for her to suppress Wang Ba for a long time. Especially because of the fusion problem, she could not use her consciousness pill fire against him.

The reason han Jingjing had rushed to the villa was to make a phone call ... To black shirt and the hunting bow!

Before leaving Europe, han Jingjing did not think of asking for their phone numbers because there was no need to. The spiritual sense marks on the two of them had not been removed. If she wanted to find them, she could sense them as long as she walked around their range of activity.

However, under the current circumstances, han Jingjing really could not afford to be distracted and travel around. Hence, her only hope was that the villa's number that she had used their phone to call the last time was still there.

Jingyi looked at Jingjing, who was flipping through the phone records, and asked softly, "Jing Jing, what's wrong with you? Are you looking for someone?"

"Yes, it's the number I called back last time. It's from a friend in Europe. I have something to talk to him about." Han Jingjing turned her head and smiled. Then, she turned back and started to search.

Fortunately, there were not many records on the phone, so she found the number very quickly. Han Jingjing quickly dialed back, but the call did not go through.

"Why can't I get through? Do I really have to go to Europe personally?" Han Jingjing's small face showed a little disappointment. The two Spirit Hunters, black shirt and hunting bow, might have a solution to the problem of the primordial spirit. This was also her plan.

Although their strength was not worth mentioning, it did feel strange in this aspect. Europe and Huaxia had two completely different cultivation systems. At present, there was no expert in primordial spirit better than Han Jingjing in the secular world. The only people she could ask for help were the two Spirit Hunters, black shirt.

"You're looking for your European friend? Who are they?" Jingyi asked curiously after Jingjing hung up.

Han Jingjing didn't return to Sky Class Island, so what had she been doing all this time? Could it be that he had always been in Europe? Then why did he come out of the wormhole today?

Everyone was curious about these questions, but Han Jingjing seemed to have something on her mind, so they were too embarrassed to ask her directly.

"It's Two Spirit Hunters. The soul gathering bottle we used to wake Lin Yi bro up last time was from them. " Jingjing explained casually as she turned to Chentian's laptop and started typing away.

As a powerful hacker, it was not impossible for her to locate a phone based on a number. Since she could not get through to the phone, han Jingjing could only determine black shirt's current location first.

"If you're looking for someone in Europe, you can call Keman. Buffon, it'll be more convenient to ask him to help find them. Maybe Keman knows a special group of people like the spirit Hunters. " Jingyi said after some thought.

The Buffon family was still very influential in Europe. It was normal for them to know one or two Spirit Hunters. Whether it was through their family intelligence network or through the Spirit Hunters they knew, there would definitely be results in a short time.

Chapter 6065 Yang Qiqi's Whereabouts

Han Jing Jing nodded, but her fingers did not stop. ""En, then I'll have to trouble Jingyi sis to find that Keman. I'll lock down their location and ask his people to help me find them. That's right, brother Dafeng, help me continue to call that number and see if it can be directly connected. "

Sun Jingyi and brother Dafeng both agreed and started making their own phone calls. Although they didn't know why han Jingjing was in such a hurry to find those two Spirit Hunters, since it was her request, no one had any objections, not even any questions.

Black shirt and Hunter bow's phone were still unavailable, but Keman's phone got through immediately. Jingyi said a few words before turning to Jingjing, "Jing Jing, what's the name of your Spirit Hunter friend?"

"There's a white Man in Black clothes with a crossguard sword, called black clothes. There's also a beautiful woman in leather clothes, using a bow-type weapon called a hunting bow. Does Keman know about them?" Han Jingjing's fingers didn't stop moving, and she looked up at sun Jingyi.

Sun Jingyi repeated han Jingjing's words and listened for a few seconds before hanging up with a "thank you."

"Keman said he doesn't know these two Spirit Hunters, but he can ask around and give us a reply later. If you can confirm their location, he can send people to look for them." Jingyi said as she looked at her laptop.

On it was a satellite map of Europe. As han Jingjing quickly typed in, various lines and figures flashed on the satellite map.

"Yes, I'll be able to determine the approximate area very soon." As soon as han Jingjing finished speaking, a red dot appeared on the screen. At the same time, the surrounding area was magnified a lot. It could be seen that they were in a forest.

"Are they in this position? I'll get Keman to send someone over to take a look. " Jingyi didn't know where they were, but she was still suspicious of whether or not Keman could find them.

If it was in a city or town within the Buffon family's sphere of influence, it would be very convenient to find people. However, this forest was not only inaccessible to Europeans, but it was also very far from Keman's home. Even if they sent people there, it would take a long time.

"This is their position more than an hour ago. I can't be sure if they're still there." Han Jing Jing said helplessly. Black shirt and the other man's cell phone signal could only be tracked to this extent. They had lost their signal an hour ago, which was why they could not get through to them.

From the last position, they were not too far from evil spirit town. Did they go back to evil spirit town to explore after han Jingjing left? That shouldn't be the case. The soul gathering bottles in their hands were already filled to the brim with soul power. There was no reason for them to continue with other missions before selling off the soul power.

Jingyi picked up her phone and was about to call Keman. No matter how slim the chances were, she had to get him to send someone to look for her. She just didn't know if han Jingjing could afford to wait.

Seeing how anxious she was, she probably couldn't wait that long.

Xiaobo walked to the back of the sofa and looked at his laptop as well, his fingers under his chin as he spoke uncertainly. "If it's this area, I think it's the place Qiqi mentioned before,"

"Yang Qiqi? Little seven? You managed to contact her?" Jingyi and the others paused-the people in the villa weren't that familiar with Qiqi, but Lin Yi's people were all familiar with her.

Lin Yi was supposed to meet the people he'd left behind in the common world this time, but he couldn't get in touch with Qiqi. Apparently, she was on a mission, and it was quite a pity.

Everyone in the villa knew about this, but since they couldn't find Qiqi, they didn't mention her.

"Yes, I received a call from her two days ago, but I didn't think of telling anyone. "She called because she heard that the boss was back, and she was so excited that she wanted to come back to see her boss, but he's already back on Sky Class Island ..." Xiaobo shook his head, feeling a little sad.

If Qiqi had heard the news earlier, she wouldn't have missed the chance to meet her boss.

"Let's not talk about that useless stuff for now-why did Qiqi mention this area?" Jingyi raised a hand to stop Xiaobo-Jingjing's attention was obviously focused on this area, and it had to be very important to her.

"Qiqi told me that she was on a mission in this area, and she's been in there for over a year. There's almost no signal deep in the forest, so she couldn't contact the outside world. She only found out about boss coming back for her when she came out to restock. Perhaps it would be faster to ask her for help?" Xiaobo wasn't sure if it was a good idea, but he'd just try it.

"What kind of mission is she carrying out in this forest? She's been gone for over a year ..."Jingyi was speechless-she knew that Qiqi wasn't a reliable assassin, but this was way too unreliable!

Could it be that her target had hidden in the deep mountains and forests, so she had to track him? Even if that was the case, after more than a year ... He must have become a Savage? This girl's patience was really not for show.

"Let's call seven first-Lin Yi bro really cares about her, and I'll tell him about this when I get back to Tianjie Island. " Han Jingjing smiled-getting news of Qiqi was a pretty good thing.

As for black shirt and hunting bow, Han Jing Jing decided to go to Europe herself-it'd be faster to find them that way. Qiqi was in that forest, too, and it was dangerous. Evil spirit town was just at the edge of the forest, and there wasn't even a signal deep in the forest. Who knew if there were stronger evil spirits?

Xiaobo didn't waste any more time and called Qiqi's number-the call went through immediately. It seemed like she wasn't deep in the forest yet.

Han Jingjing took the phone and said with a smile, ""Yang Qiqi? I'm han Jingjing. "

"Han Jingjing? You haven't returned to Sky Class Island? Is brother onesie here?" Qiqi was excited upon hearing that it was han Jingjing-she knew that Lin Yi and han Jingjing were in the common world together.

But Xiaobo said that Lin Yi had returned to Sky Class Island, and that made her a little nervous.

Han Jingjing knew that the Big Brother Yi she was talking about was Lin Yi. She smiled,"No, Lin Yi bro went back to Sky Class Island. He's calling to ask if you're still in the forest."

"Brother onesie has really gone back? Why didn't he wait for me?" Qiqi sighed in disappointment. "I'm still here. Is there anything you need me for?"

Chapter 6066 Gathering

"Well, here's the thing. I'm looking for two friends. They're also in that area. I don't know if you've seen them before. One of them is a white Man in Black with a crossguard sword as a weapon, and the other is

a beautiful woman in leather clothes with a bow and arrow." Jingjing described the two's outfits briefly- there wasn't much hope, but Qiqi might have seen them before.

"I haven't seen the two people you mentioned before, but there have been more people moving around these two days. Most of them are European. It seems that something has appeared in the forest. It's been more than a year, if I still can't find him, I'm going to suffocate to death!" Qiqi was quite talkative today-perhaps it was because Jingjing and Lin Yi had returned to the common world together.

Han Jingjing chuckled to herself-she'd met Qiqi before, but they weren't actually that close. She'd always thought that she was cool, but she didn't think they'd get along so well this time.

"I'm going to look for my two friends, but I'm not familiar with that area. Can you take me with you to look for them?" Han Jingjing did not actually need anyone to bring her along. As long as she got close to the area where black clothes and the others were, her spiritual sense mark would be sensed.

She only said that so that Qiqi would wait for her-something was happening in that area, and it'd be dangerous for Qiqi to go in alone. It'd be much safer with her, since she could get her black clothes and bow on the way.

"I see. Alright, when are you coming over? where should I meet you?" Qiqi agreed readily, and then she discussed with Jingjing where to meet up.

After reaching an agreement, han Jingjing was ready to leave. Although she did not want to travel long distances, it seemed that she had no choice but to go this time. Other than the spirit Hunters, she really did not know who else to ask for help. The strength of the people in the villa was at the top of the secular world, but in terms of primordial spirit, they were far inferior to her.

"Jing Jing, I'll go with you. If there's anything, I can help." Sun Jingyi was worried about han Jingjing, and offered to go with her.

Han Jingjing thought about it, and didn't reject the offer. She needed to focus all her energy on suppressing Wang BA's Soul Fusion, and sun Jingyi would be of great help.

As for the others, they still had to stay here to guard the villa. Even if they wanted to follow, han Jingjing would not allow it.

After a simple farewell, Jingjing and Jingyi left the villa and headed to the airport, where they booked a small plane to Europe.

At this moment, han Jingjing felt that she should make more flying saucers. If she had more flying saucers, it would be much easier to travel between continents.

The next day, the two arrived at the meeting point-Qiqi was already waiting there. The three girls were all smiling like flowers because of Lin Yi, and they looked very close. The people in the town couldn't help but smile back at them-the charm of beautiful women was just that irresistible.

After preparing some supplies, Qiqi led the two into the forest. She hadn't wasted her time in the past year-she'd explored many parts of the forest, and no one in the nearby towns would dare say they were more familiar than her.

But after coming here, Han Jing Jing could already sense the spirit marks she left on black shirt and Hunter Bow. She didn't need Qiqi to lead the way, and she could easily find the two. It just so happened that Qiqi was heading in the right direction, so she didn't say anything.

It was just as Qiqi had said-there were indeed more people exploring the forest, and they didn't know what they were doing.

Han Jing Jing didn't mind it too much. Her targets were only hei Yi and Hunter Gong. If a Spirit Hunter couldn't help her solve the problem of Wang BA's Soul Fusion, then she'd have to ask Lin Yi for help.

After walking for a while, Han Jing's sense of the two men became clearer. She felt that they were moving in her direction.

"Eh? I've found my target!" Qiqi called out in surprise-it'd been more than a year! She'd been in this damn forest for more than a year, and she'd finally found the person she was looking for!

Han Jing Jing extended her spirit sense out, and followed Qiqi's eyes to the target.

On the surface, it was a black man in his forties. He had a full beard and looked like he hadn't trimmed it for a long time. His hair was long and his clothes weren't tattered but dirty. People would believe that he was a Savage if they saw him.

However, han Jingjing could feel a faint soul power fluctuation from him. Needless to say, this guy should be an existence similar to a Spirit Hunter.

But this spirit energy was only a little stronger than the black hunting bow, and with Qiqi's strength, she could deal with him easily. She didn't have to worry about anything.

Qiqi didn't even turn her head around-she just pressed her hand down lightly, telling the two to wait a moment. Then, she started moving silently, approaching the man like a cat.

Han Jingjing nodded to herself. Yang Qiqi was indeed from an assassin family-her stealth was pretty strong. If she didn't use her spirit sense, she wouldn't even be able to notice her.

One had to know that han Jingjing's strength was far beyond yang Qiqi 's. If she was at han Jingjing's level, she would be able to easily crush her. After all, the two of them specialized in different things.

Just as she was complimenting her, han Jingjing's spirit suddenly found a small trap in the direction Qiqi was heading-it was well hidden, but Qiqi should've been able to notice it.

However, she seemed to be so focused on her stealth that she didn't notice the trap under her feet. She had already stepped into the trap.

It was just as Lin Yi bro said-an unreliable killer ...

Han Jing Jing felt like she was going to have a couple of black lines on her forehead, but she didn't have the time to warn her now. She could only charge forward as fast as she could, sending out a spirit sense pellet fire and destroying the trap before Qiqi's foot could land.

The conflagrated knowledge sea was silent, but Qiqi had accidentally made a huge noise after breaking the trap. Her target was alerted, and went into a defensive stance.

"Aiya! He had discovered it! Don't even think about running!" Qiqi didn't say a word, switching from a sneak attack to a direct one, completely ignoring the fact that it was against the rules of a killer.

An excellent assassin would hide in the dark the entire time and find the best opportunity to kill in one strike!

Chapter 6067 The Spirit Hunter On The Run

If he missed, he would have to run thousands of miles away. It was the worst way to attack head-on after being discovered, unless he was completely confident that he could deal with the target head-on without any trouble.

Qiqi was confident that she could take down this wild man, but more importantly, she'd already wasted more than a year, and even missed the chance to meet Yi's brother. She was filled with resentment, and if she didn't take care of this bastard today, she'd never be able to get over it.

The bearded man looked warily in Qiqi's direction at first, but relaxed a little when he realized it was three young girls.

He'd wanted to run, but he changed his mind-Qiqi had been searching for him in this forest for a year, and he'd been hiding here for the same time. He'd be excited even if he saw a female monkey now, much less three beautiful girls.

This guy had some evil thoughts in his mind, and so he laughed lecherously and pulled out two bone daggers. With a tap of his foot, he charged at Qiqi.

Qiqi was overjoyed-she'd been worried that this guy would turn around and run away. It wasn't easy to catch up to someone in this forest, and while she was confident in her speed, she didn't think she'd have to spend another year here if the man really did get away.

Han Jingjing stopped not too far away, not planning on getting involved. The black man with the full beard looked like he had some strength, but he was no match for yang Qiqi. So, she just needed to stay on the side. After all, it was yang Qiqi's problem, and it would be better for her to handle it.

Jingyi thought the same as well, standing beside Jingjing with a smile on her face.

The two were moving at an incredible speed, and just as they were about to clash, Qiqi's petite body came to a sudden stop. She flashed like a ghost, and appeared behind the black man.

The guy's bone knife was already in motion-he even held back a third of his strength because he was being nice to her, but the two blades only hit air-they didn't even touch Qiqi's clothes.

Knowing that something was wrong, the black man with a full beard immediately changed his move. With his left foot as the axis, he violently threw his body out and actually completed a 180-degree turn in an instant. The two bone daggers were also fiercely swung out.

Unfortunately, the blades didn't even make it halfway through before falling to the ground-Qiqi's dagger was already at his neck, and when he tried to twist his body, it was like putting his neck against the blade-the blade would spin on its own, allowing the still blade to slice across his neck.

Qiqi blinked-she was going to force two questions out of him, but this was ... Suicide? What a man with a backbone!

"He's dead?" Qiqi was a little taken aback-she'd been looking for this bearded man for over a year, and he'd been killed in a single move! Compared to the process, the ending was way too simple.

Jingjing and Jingyi hadn't been on the trail for the past year, and so they didn't really understand how Qiqi felt. The bearded man was dead anyway, and there was no reason for her to stay here-they could leave this place together once they found black shirt and the bow.

Qiqi shook her head-this was a target she'd been chasing for over a year, after all, and killing him made her feel a little empty. Of course, that feeling was quickly replaced by the joy of completing the mission-she was elated at the thought of leaving this place.

He took out his phone and snapped a few photos of the bearded man's body as proof of his mission completion. He also took an earring from the man's ear, which was also a kind of evidence.

Han Jing's divine sense swept across the bearded man, and as expected, she found a soul gathering bottle. Even if he was not a Spirit Hunter, he was definitely someone who had a lot to do with them.

"Yang Qiqi, this guy has a small bottle in his pocket. It's good stuff, you can keep it." Han Jing Jing couldn't help but remind Qiqi after seeing that she wasn't going to keep collecting the loot.

The soul gathering bottle was definitely a good item. If he didn't take it with him, it would only benefit others. Moreover, this bearded man's soul gathering bottle actually contained almost 90% of his soul power.

Qiqi raised her head to look at Jingjing-she knew that she was the one who had killed the man, and so Jingjing wasn't planning on sharing the loot. She was just giving her a friendly reminder.

Since Jingjing said it was something good, Qiqi didn't argue. She flipped through the bag and found the bottle, putting it in her little bag.

Other than the soul gathering bottle, the bearded man didn't have anything else of value. The only thing that was decent was probably the two bone daggers, but even an assassin like Qiqi wouldn't be interested in them, let alone Jingyi and Jingjing.

Initially, they did not want the white bone dagger. It did not matter if they left it there. However, Han Jingjing remembered that they were about to meet Black Shirt and the Hunting Bow. Although they were good at using crossbows and crossbows, the white bone dagger had a weak spiritual power fluctuation. It would be good to use as a secondary weapon.

"Yang Qiqi, if you don't want these two daggers, then give them to me. I'll give them to my friends later." Han Jingjing did not stand on ceremony. They were all on the same side, so there was no need to be distant.

Qiqi nodded generously, "you can have it, I don't need it." If there's anyone else you like, feel free to do as you please, don't stand on ceremony with me. "

"I won't be polite with you." Han Jingjing smiled sweetly and kept the two bone daggers. She then turned to look at black shirt and the others. "Let's go this way?"

"Alright, let's go then." Qiqi shrugged. She didn't really care where she went-she was pretty familiar with this area, after all, and looking for someone was just walking around.

Qiqi was in a great mood after completing her mission-she'd even turn back to chat with the two as they walked, a complete change from that cool girl she was before.

The three's relationship quickly heated up, and they were like sisters now. Everyone knew that it was all because of Lin Yi, or the three wouldn't be together at all.

After moving forward quickly for a while, Han Jing Jing's expression changed slightly. Her divine sense could already find black clothes and the hunting bow. What she did not expect was that the two of them were actually being chased by someone.

Chapter 6068 Soul-Devouring

If it were not for the fact that the jungle environment was very suitable for the use of a hunting bow, the two of them would not have been able to hold on until now.

"My two friends are being hunted down, let's hurry!" Han Jingjing's face was solemn. If not for Wang Ba, she would have rushed over to save the two of them.

Sun Jingyi knew about han Jingjing's situation, and without a second word, she reached out and grabbed the two's arms, "Jingjing, you guide the way, I'll move!"

Other than Jingjing, the strongest of them all was sun Jingyi. She wasn't a fighter, and wasn't as agile as Qiqi, but she was still much faster than the two of them.

Qiqi didn't even have time to object before her body shot forward like an arrow-this speed was indeed much faster than hers, and she was quite surprised.

"Just keep walking!" Han Jingjing was originally heading toward black shirt and the hunting bow, so she naturally did not need to adjust her direction.

Her spirit sense couldn't compare to Lin Yi's range, and so it only took a few breaths for her to bring the two to where black clothes and the hunting bow were.

The people chasing them were three Caucasians, and two of them were obviously souls. These souls sounded similar to han Jingjing's primordial spirit body, but they were in two completely different states. Primordial spirit bodies were much more superior than souls.

"Sister Jingyi, little seven, you two help me deal with those three guys. I'll deal with the remaining two spirits!" Han Jingjing quickly divided the work, and without waiting for the two to answer, she rushed to the two spirits first.

Even if she was not in a good condition to take action to prevent Wang Ba from taking advantage of the situation, it would not take much effort for her to deal with these two souls.

Black shirt and Hunter Bow were filled with despair when they first realized that there were people coming. However, when they realized that it was Han Jingjing, whom they wanted to be their master, their despair immediately turned into hope.

I definitely won't die this time!

"Hunting bow, counterattack!" Black shirt roared as his cross blade glowed with a faint white light. He was about to charge back.

Along the way, he and Hunter Bow were suppressed by the other party. If it were not for the bountiful harvest in evil spirit town this time and the many new trump cards they had, in addition to Hunter bow's ease of control here, the two of them would have been killed a few times.

Now that Han Jing Jing had come to his aid, black shirt felt that he had to vent his anger. However, he had only taken a step forward before he stopped in a daze. The faint white light on the cross sword disappeared immediately.

Hunter Bow was slightly better. When he saw Han Jing Jing, he knew that the battle would end soon, but he didn't expect it to be so fast.

No matter how bad Sun Jingyi was at fighting, she could easily take down these European shrimps with a flip of her hand. With the addition of Yang Qiqi who was a dual assassin, the three Caucasians were down in the blink of an eye.

As for the two souls, Han Jingjing didn't hold back. She directly used two consciousness pill fire and didn't even give them time to scream, turning them into nothingness.

Han Jingjing let out a sigh of relief. This level of movement was not enough to affect Wang BA's suppression. If it happened a few more times, it would be hard to say.

"Black clothes, hunting bow, why are you still here? And who are the people who are chasing you?" Han Jing Jing walked up to the dazed black clothes and asked with a frown.

Hei Yi's body trembled as he came back to his senses. He quickly bowed slightly and said with great respect, ""Teacher han, thank you for saving my life and the hunting bow 's."

"I'm not your teacher. You can just call me han Jingjing. " Han Jingjing was a little helpless. She had already said this a few times, but it did not seem to be of any use.

"Alright, teacher han!" The black-clothed man still agreed respectfully. Han Jingjing really wanted to kick him to death. Did he not understand human language, or did he think that she was a ghost, so he did not want to bother with the nonsense?

"Teacher han, are these two your friends?" Hunter Bow put away his bow and ran over to greet them respectfully, not forgetting to thank sun Jingyi and yang Qiqi as well.

Both black shirt and Qiqi could tell that sun Jingyi and yang Qiqi were Masters as well, but in terms of strength, they might be slightly weaker than han Jingjing. In fact, the two of them couldn't tell, but their first impression was that han Jingjing was the best.

"Yes, this is sun Jingyi, and this is yang Qiqi. They're my sisters." Han Jingjing pointed at the two women and introduced them. As for black shirt and the hunting bow, the two of them could naturally tell who was who, so they were too lazy to say anything else.

After the few of them exchanged a few simple words, han Jingjing immediately got straight to the point and said,""I came back this time to ask if you could help."

"Teacher, if you need anything, just tell us. Whether it's climbing a mountain of daggers or going into a pot of boiling oil, I, black shirt, and the hunting bow will not even frown." Black shirt thumped his chest loudly, looking as if he would do anything for her. It was hard to believe that he could say something so Chinese. It seemed like they had done some research on China in order to understand Han Jing Jing.

"It's like this. There's another powerful primordial spirit that has fused into my primordial spirit. Yes, it's even stronger than me! He wants to erase my consciousness and replace it with his. If he succeeds, I'll disappear completely. Although I'm temporarily suppressing it with some means, it's hard to say what will happen in the long run. " Han Jingjing didn't bother correcting the way they addressed her. She had come here to find out if Spirit Hunters had any methods in this area. After that, she would return to Sky Class Island, and it didn't matter if the two of them treated her as a teacher.

Black shirt and Hunter Bow were both stunned. They did not understand primordial spirit, but they could understand it by replacing it with the soul, so Han Jing Jing's words were easy to understand.

"Teacher han, you mean you're currently being possessed?" The Hunter Bow hesitated for a moment and tried to explain han Jingjing's condition in his own words.

"Soul-devouring? Hmm, you can put it that way. " Han Jingjing nodded slightly. Although she did not know what spirit possession was, from the literal meaning, it was similar to possession. Now, what was

being fought over was the primordial spirit, not the physical body, so spirit possession was a very suitable term.

"Teacher han, you're really amazing. You can even suppress the soul-devouring process!" Black shirt was shocked. He yearned for the mysterious East. No matter what, he wanted to return to China with Han Jing Jing and cultivate before returning.

Chapter 6069 Evil Spirit Warlock

Han Jingjing didn't understand why it was impressive that her soul was suppressed, but thinking about it carefully, if it wasn't for the conflagrated knowledge sea, Wang Ba could really wipe out her consciousness completely and fuse her primordial spirit as a supplement. In that case, it was indeed quite impressive.

"Teacher han, when it comes to a soul-devouring, the result is usually immediate. It's either a success or a failure. There has never been a situation where a powerful soul-Devourer was suppressed and the process was stopped." Hunter Bow explained briefly, then furrowed her beautiful brows and began to think.

"Hunting bow, have you thought of any way to help me?" Han Jing Jing looked at the hunting bow, feeling a little hopeful.

Hunter Bow nodded slightly, then exchanged a look with black shirt before saying, "Teacher han, you're too strong. The two of us might not be able to help a soul that's stronger than you."

"So you have a way? It doesn't matter, just tell me if you can use it or not, I will see to it. " Han Jingjing's heart leaped with joy. As long as she could separate Wang Ba from her, she was willing to accept the fact that her primordial spirit was severely damaged.

As for the difference between a spirit body and a primordial spirit body, there was no need to explain it now. Anyway, they might not understand it even if he explained it, so it was more convenient for them to understand it this way.

"We, Spirit Hunters, have a technique that is specially used to separate two soul bodies. This technique is called soul extraction and soul lock. It requires six Spirit Hunters to form a hexagram and simultaneously attack the soul body in the middle. Only then can it be separated." Hunting bow was still frowning as he slowly explained the method he knew.

As Han Jingjing's strength was too strong, the hunting bow and the others could not even imagine a spirit body stronger than her. Therefore, there was no way to confirm whether the soul extraction and soul lock technique was effective.

"You need six Spirit Hunters?" Han Jingjing was slightly taken aback. When she heard the number of Spirit Hunters required, she immediately felt a little depressed.

Black shirt and Hunter Bow were only two people, so they could not even give it a try. Even though there were many Spirit Hunters in Europe, it was not easy to find all of them in a short time.

"Are those three guys Spirit Hunters?" Qiqi suddenly pointed at the three unconscious Caucasians on the ground. If they were Spirit Hunters as well, then they only needed to find one more.

There seemed to be a lot more people in this area recently, and perhaps it would be easy to find one or two Spirit Hunters.

"They're not Spirit Hunters, but evil spirit warlocks. They're evil people who train evil spirits to attack." Black shirt glanced at the three people on the ground in disgust. If Han Jing Jing and the others were not here, he would have killed them.

"Although they are evil spirit warlocks, if you can control them, you can make them into Spirit Hunters who can extract and lock the soul. After all, the essence of evil spirit warlocks is similar to Spirit Hunters." Hunter Bow hesitated for a moment before he gave a good suggestion.

She was not willing to let the three of them go just like that, but she could ignore it for the sake of helping han Jingjing. As for whether she could control them, Hunter Bow was not worried at all. Other than han Jingjing, the other two beautiful girls were also powerful beyond comprehension. They would have no problem dealing with the three evil spirit warlocks.

Qiqi didn't say anything, and in a flash, she was beside the three. She raised her hand, and with three crisp slaps, the evil spirit warlocks woke up from their comas.

Black shirt and the Hunter Bow broke out in cold sweat. This little beauty was really tough ...

"You three, do you want to live or die?" Qiqi's face was cold as she looked down at the evil spirit Warlock on the ground.

The three evil spirit warlocks didn't know what was going on, and they didn't care about their burning faces. They just subconsciously nodded in unison. "I want to live, I want to live!"

The spirits they had raised were all finished. One had been killed by a hunting bow, and the other two had been burned by Han Jingjing. None of them were fools. In the face of an existence that they could not resist, the smart choice was to bow down early.

"Since you want to live, then be obedient! As long as you do well, I won't mistreat you!" Qiqi smiled in disdain as she pulled out a bottle from her bag and poured out three black pills. "This is a slow-acting poison. It will take effect three days later. Each of you, take one pill. As long as you don't play any tricks, I will give you the antidote later. Otherwise, you will choose to kill yourself three days later."

The three evil spirit warlocks who had sat up looked at each other. To be honest, they didn't doubt at all that Qiqi's poison was fake—they knew how to control people with this kind of poison, and that was why they didn't dare to take it so easily.

The problem was that they didn't have a choice at all. Whether to take the pill for a chance of survival or to die immediately, under normal circumstances, this wasn't even a choice.

Since they had no choice, they could only obey. The three evil spirit warlocks didn't hesitate and took the pills. After swallowing one each, they stood to the side with ugly expressions.

Qiqi was still a little worried—her body flickered, and she slashed at four trees in four different directions before returning to her original spot. It didn't even take two seconds.

The three of them only felt a blur in front of their eyes. Then, they saw the four big trees around them break at the same time and fall back with a rumble. The cuts were as smooth as a mirror. They were definitely cut in two!

"Try to run if you want, unless you can detoxify yourselves and think you can run faster than us." Qiqi warned coldly as she twirled the dagger in her hand and disappeared. Who knew where she'd put it?

"We wouldn't dare ... No, we won't, we definitely won't run!" The three evil spirit warlocks broke out in cold sweat, bowing and smiling as they did so-not to mention the poison that was going to take effect in three days, even with Qiqi's speed and destructive power, they wouldn't dare run away.

As for the few spirits that had been killed, they did not have any thoughts about it at all. If they were dead, so be it. If they were to nurture them later, if they wanted to take revenge, they would simply be buried with the spirits.

Qiqi snorted, a satisfied look on her face. With these three evil spirit warlocks, she just needed to find another spirit Hunter to help.

"Black clothes, hunting bow, what are you two doing here? Are there any other Spirit Hunters nearby?" Han Jingjing repeated the same question. She had asked them just now, but the two of them were too shocked and did not answer.

Chapter 6070 Shining

"I'm sorry, I forgot to tell you. " Black shirt also thought of this and quickly bowed slightly to apologize to Han Jingjing. Then, he continued, ""We were planning to go back, but after we left, we received a notice that an evil spirit King had appeared in this area. This kind of evil spirit King is a treasure to us in our line of work. It just so happens that it's not far from us, so hunting bow and I came back to take a look. I think there will be quite a number of Spirit Hunters nearby who have received the news. It shouldn't be a problem to find someone to help."

If it was before they had gone to evil spirit town, black shirt and Hunter Bow might not have bothered to get involved. However, after going through evil spirit town, both their strength and equipment had greatly improved. That was why they had the confidence to come and look for an opportunity.

Han Jingjing had no interest in the mysterious evil spirit King at all. Right now, she only wanted to gather six Spirit Hunters as soon as possible to complete the so-called soul extraction and soul lock, so that she could extract Wang Ba from her primordial spirit.

Within the range of Han Jing Jing's divine sense, there were no other Spirit Hunters for the time being. She was able to find black shirt and the hunting bow completely by relying on the divine sense mark she had left on them, so she did not have any good ideas for the time being.

If only Qiqi had captured that bearded man alive-he had soul power fluctuations, whether or not he was a Spirit Hunter, and he should be able to make up the numbers.

Thinking of the bearded man, han Jingjing then remembered the two bone daggers that she had specially brought with her. They were originally meant for black shirt and the hunting bow, so she took them out and handed one to each of them.

"These are the spoils of war. I'll give them to you two to play with." Han Jing Jing handed over the white bone short knife nonchalantly. However, when black shirt and hunting bow saw it, they were slightly shocked.

"White bone dagger! Teacher han, how did you get it? Did he kill the dark Demon?" Black shirt asked as he received a white bone dagger respectfully.

What the hell was a Dark Demon? Han Jingjing expressed that she did not know.

"I got these two daggers from a black man with a full beard. Just now, little seven killed that guy in one move. I don't know if he's the dark Demon you mentioned." Han Jing Jing pointed at yang Qiqi, and the three evil spirit warlocks looked at her with even more respect. From the description and the appearance of the white bone dagger, they were pretty sure that the dark Demon was finished.

In their circle, the dark Demon dweller was quite notorious for being able to kill this dweller in one move. Under the situation where they did not have a spirit body, the three of them together would probably only be able to take one strike from the dweller.

"It should be him. This guy disappeared for one or two years. I didn't expect him to be hiding here. I don't know if the new evil spirit King has anything to do with him." Hunter Bow solemnly received one of the white bone dagger spirit blades. After bowing to express his thanks, he could not help but guess.

As they were talking, a person appeared in han Jingjing's divine sense. Judging from his style of action and the equipment he was wearing, he should be a Spirit Hunter or something. Anyway, nine out of ten people who would come to this area at this time were Spirit Hunters or evil spirit warlocks.

"Sister Jingyi, there's someone in that direction. Can you ask him if you can help?" Han Jingjing pointed in that direction. There was no need to be polite between her and sun Jingyi.

Sun Jingyi didn't say anything more, and with a slight nod, she exerted strength in her legs and disappeared in a flash.

The three evil spirit warlocks were as silent as cicadas in winter. They thought that Qiqi's speed was terrifying enough, but this sister Jingyi was even faster! They had no chance of escaping at all.

Black shirt and Hunter bow's eyes lit up as well. They felt that the mysterious Huaxia was indeed extraordinary. Even a random girl who walked out of it was so powerful. Therefore, the two of them were even more determined to follow Han Jing Jing to Huaxia and cultivate well.

Before the two could finish their thoughts, sun Jingyi had already run back with a person in her arms. With her strength, she could easily take him down when he wasn't prepared.

"Shining, why is it you? did you come here alone?" he asked. Both black shirt and the hunting bow looked surprised. It was obvious that the person who was being carried over was someone they knew.

"Uh, hunting bow in black, who is this beauty? Can you ask her to let me down first?" This shining guy was a white man in his 30s. He had curly brown hair and a clean beard. He looked quite handsome.

However, it was a funny and embarrassing scene for a 1.9-meter tall man to be carried by a 1.7-meter beauty.

"So it's an acquaintance, then it's even easier to talk to!" Sun Jingyi smiled and put flash down, returning to han Jingjing's side.

"Alright, let's talk about the old days later. For now, let's talk about the soul extraction and soul lock." Han Jingjing did not want to wait any longer. As long as she could get Wang Ba out as soon as possible, anything could be discussed.

"Soul extraction and soul lock? Black shirt, what are you two doing? And weren't those three guys evil spirit warlocks? Can you guys have fun together now?" The flash went to black shirt and the hunting bow and asked black shirt in a low voice. At the same time, he kept glancing at Han Jing Jing and the others.

"It's a long story. This is our teacher han. She's a spirit, but an even stronger spirit is currently trying to steal her soul. It's only temporarily suppressed by some mysterious Eastern secret technique, so we have to use soul extraction and soul lock to extract that powerful spirit." Black shirt also lowered his voice and explained to shining.

"Black clothes, are you done? Can your friend help?" Han Jingjing glanced at black shirt indifferently. If the shining spirit was not willing to help, she could not force him to help for the sake of the two of them. Anyway, there should be another spirit Hunter nearby. She would just find one as soon as possible.

"Don't worry, teacher han. There won't be a problem with the spirit illumination. We'll get ready to start immediately. " Black shirt was determined to follow Han Jing Jing to China, so he had to take care of everything first. After promising Han Jing Jing, he quickly turned back to shining."Shining, listen up. There must be no accidents during this soul extraction and soul lock. Help us this time, and we'll definitely return this favor in double."

The flash hesitated-he'd personally experienced sun Jingyi's power, so han Jingjing, who was standing by her side, couldn't be any worse.

For such a powerful spirit to have its soul taken away, it was a little too much for them, a few Spirit Hunters and evil spirit warlocks, to use soul extraction and soul lock to strip away that powerful spirit. If they failed, would they be angry?
