Chapter 6071 Soul Extraction And Soul Lock

"Shining, as long as you can help, this bottle of soul power will be yours no matter if you succeed or fail!" Hunter Bow was even more straightforward. He immediately took out his soul gathering bottle. The soul power inside was the soul power that they had collected with Han Jingjing in evil spirit town. It was definitely high-quality soul power.

The flash was immediately moved. Not to mention the favor Black Shirt and the hunting bow had given him, just this bottle of soul power alone was worth more than ten million euros. Regardless of whether he succeeded or failed, there seemed to be no reason to refuse.

There wasn't much danger even if he failed, so Shining immediately nodded and smiled. "We're all old friends, why are you being so polite! Alright! Then it's a deal!"

This fellow wasn't polite at all. He immediately took out his soul gathering bottle and transferred the entire bottle of soul power over. After carefully putting it away, he patted his chest in satisfaction. "Alright, when do we start?"

Black Shirt and Hunter Bow both looked at Han Jingjing—this was for her to decide, of course. With Sun Jingyi and Yang Qiqi, these two masters, they could use the soul lock anytime they wanted.

"There's no time to waste, let's start now! Do you have any other taboos?" Han Jingjing did not want to wait any longer. If it was possible, she would do it here.

"There's no such thing as a taboo. This place is fine too!" Black shirt answered quickly and ordered the three ghost warlocks to stand in position. The hunting bow and the shining spirit were already prepared without him asking.

Black shirt was the last to land, and the six of them surrounded Han Jing Jing in the middle. Then, they focused their attention and calmed their breathing. A faint white light slowly lit up on their bodies, and a faint soul power fluctuation extended from the feet of the six people. First, it formed a circle, and the six of them were on a point in the circle.

After the circle formed by soul power stabilized, a straight line extended out from under each person's feet, connecting the person separated by their right hand. Thus, two inverted equilateral triangles overlapped each other to form a perfect hexagram.

Han Jing Jing was in the middle of the six-pointed star, and her primordial spirit body was a little unstable, as if it would turn into a primordial spirit state at any time. This had never happened before, and it was obviously caused by the six people's soul extraction and soul lock.

"The Tiger continent is indeed a place with a few talents. These Spirit Hunters should only be low-level cultivators. I wonder if the high-level cultivators here are even more powerful. If there's a chance, I should ask around." Han Jingjing's lips curled into a smile. She did not forcefully control the condensation of her primordial spirit body. Instead, she directly transformed into a primordial spirit.

In this state, it was easier for Wang Ba to fuse with it. However, it was precisely because of this that it was easier to strip Wang BA's primordial spirit away.

Sensing that Han Jing Jing had transformed into a primordial spirit, the six of them opened their eyes wide and let out a low shout in unison. The fluctuations of their soul power suddenly increased sharply.

"Hahaha, little girl, you finally can't suppress me anymore, right? Obediently let this great master fuse with you, and you'll have a share of your glory in the future when you run amuck in the world!" Wang Ba noticed the change in han Jingjing's state and immediately started the fusion again with a wild laugh. Although he was no longer in the form of particles, he could still maintain his primordial spirit form. After all, a part of it had already been completely fused together.

However, Wang Ba soon felt that something was wrong. His primordial spirit was being pulled by a strange force. Not only was he unable to continue fusing with han Jingjing's primordial spirit, but he was also being pulled away. Not only that, but the small part of his primordial spirit that had fused with han Jingjing was also going through the same process.

"What's going on? What did you do?" Wang Ba, who had been suppressed all this while, did not know what was happening in the outside world. Hence, he did not notice the six-pointed star formed by black shirt and the others, as well as the soul extraction and soul lock technique.

Han Jing breathed a sigh of relief. Black shirt and the others' soul lock was indeed effective. No matter what, Wang Ba's primordial spirit had begun to separate from her primordial spirit. Although it was a little slow, she was satisfied as long as there was progress.

Black shirt and the other five all had extremely grave expressions. Although they knew how to extract and lock the soul, no one would usually use it, so no one was confident that it would succeed.

It seemed to have worked, but black shirt and the others knew that the spirit that tried to take han Jingjing's soul was more powerful than they had imagined. They had almost reached their limit in the beginning, and they did not know how long they could last.

Han Jing Jing's consciousness had been paying close attention to their situation. After the soul power fluctuation of the six-pointed star reached its peak, it immediately began to struggle and slowly decline. Although black shirt and the others tried their best to pull it up, their soul power fluctuations were still firmly declining.

"It seems like black shirt and Hunter bow's strength is limited. They can't maintain this soul extracting and locking hexagram. I can't rely on them completely!" Han Jingjing was a smart person. She knew what she had to do in an instant.

A consciousness pill fire started burning in han Jingjing's essence spirit and mercilessly landed on the small part of the essence spirit that Wang Ba and han Jingjing had completely fused.

"Are you crazy? Are you looking for death?" "No!" Wang Ba shrieked. The damage of the conflagrated knowledge pill fire to the primordial spirit was second only to that of lightning, and it was only slightly worse at most. This kind of attack would be fatal to han Jingjing, let alone Wang Ba.

Because this was a primordial spirit that had already been fused, han Jingjing was not immune to her own consciousness pill fire. If she wanted to hurt Wang Ba, she had to hurt herself!

Such a sudden self-destructive attack caught Wang Ba off guard. He was focused on resisting the soul extraction and soul lock, so he subconsciously wanted to distance himself from the conflagration. Therefore, the soul extraction and soul lock easily stripped off more than half of him. The six people, who were already at their limits, suddenly recovered and felt that they could continue.

Han Jing Jing's primordial spirit was also injured by his own consciousness pill fire, and it became much more transparent.

However, these were all valuable! Even though the conflagrated consciousness pill fire did not completely incinerate their fused primordial spirits, it was still around 70 - 80% of them. Wang BA's escape in a moment of desperation had completely severed the last thread of connection. In other words, Han Jing Jing had complete control over the remaining portion of their fused primordial spirits. After a period of time, they would become Han Jing Jing's primordial spirit and have nothing to do with Wang Ba anymore.

Han Jingjing's self-destructive attack was actually at a great advantage. Originally, the two of them had each taken 50% of the fused primordial spirit, and the destroyed 70% to 80% should have been split equally. However, after han Jingjing obtained the control of the remaining primordial spirit, it was equivalent to Wang Ba losing 50% of his primordial spirit, while han Jingjing only had 20 to 30% at most.

Chapter 6072 Primordial Soul Puppet

Wang BA's heart ached at the loss. He was already severely injured. Otherwise, he would not have tried to devour Han Jing's essence soul. Now that he was injured again, his broken essence soul would not last long if he could not possess another body. It would soon dissipate.

However, this was not the most shocking thing. When his primordial spirit was forcibly extracted from Han Jing Jing's primordial spirit, he found that he could not leave the center of the hexagram formed by soul power!

If he could move, even if his strength dropped greatly, he would seize a physical body first. It was much better than his primordial spirit dissipating. Moreover, with the creation battle technique, no matter how weak the physical body was, there was always a chance to return to the peak.

Not to mention Wang BA's predicament, han Jingjing felt that her primordial spirit was weak, but at the same time, she felt an indescribable sense of relief. This adventure could be said to be a great success. At least, she had driven that annoying bastard out of her primordial spirit.

Black shirt and the other five heaved a huge sigh of relief. The most difficult part of soul extraction and soul lock was soul extraction. However, the soul lock would definitely be much easier after it was completed. At least, the pressure on the six of them from imprisoning Wang Ba was almost non-existent.

"Teacher han, should we directly kill this spirit and collect its soul power or something?" Black shirt's face looked much better now. He could even force out a smile and ask Han Jing Jing respectfully.

Han Jing Jing was slightly stunned. Of course, it was not a problem to kill Wang Ba. However, this bastard's primordial spirit was extremely powerful. At his peak, he was definitely far stronger than an existence at the xuansheng stage or even the earth creation stage. It would be a waste to kill him directly, right?

Such a powerful primordial spirit was not something that those low-level evil spirits could compare to. The soul gathering bottles in hei Yi and the others' hands were almost full, and only the hunting bow had just been emptied. Even if they had a few hundred empty soul gathering bottles, they would not be able to contain the soul power of Wang BA's primordial spirit after it had dissipated.

"Teacher han, if you are willing, we can help you subdue this soul and make him your exclusive soul puppet." After the three evil spirit warlocks looked at each other, one of them spoke.

After seeing how strong Qiqi and Jingyi were, the three of them had lost all courage to fight back. All they wanted now was to perform well, get the antidote, and keep their lives.

Controlling souls and nurturing them into evil spirits as thugs was what evil spirit warlocks were best at. Although they did not know that Wang BA's primordial spirit was different from his soul, han Jingjing was willing to try it out as long as there was such a method!

"What do we do?" Han Jing Jing pondered for a while and was moved. Killing Wang Ba would only make her feel good, but if she could recruit him, she might be able to help Lin Yi a lot.

The evil spirit Warlock was secretly happy. As long as Han Jingjing was satisfied, their lives would be more secure. So, without any hesitation, he immediately explained the method of controlling the spirits in detail.

Actually, if they were to help, it would be easier to control Wang Ba. If Qiqi and Jingyi weren't here, they might have suggested something like this, but to avoid suspicion, they couldn't let anything go wrong, in case they thought they were trying to control Jingjing. After all, she was still a spirit.

After listening to the explanation carefully, Han Jing thought about it for a while and roughly understood how to control the primordial spirit. She was quite lucky. The most crucial step in turning Wang Ba into her primordial spirit puppet was to get a wisp of his primordial spirit. Only then could she completely destroy the puppet with a single thought.

Under normal circumstances, Han Jingjing and Wang Ba's primordial spirit would not have been able to do this. The three evil spirit warlocks' techniques were only used to deal with low-level souls, and they had no effect on Wang Ba's primordial spirit. However, in order to merge with Han Jingjing, Wang Ba had taken the initiative to merge his primordial spirit with her, allowing her to skip the most difficult step.

After Han Jing's conflagrated consciousness pill fire had burned away more than half of the fused primordial spirits, Wang Ba's primordial spirit was still in the remaining fused primordial spirits. It was perfect to be used as the control hub for creating the primordial spirit puppets.

"How audacious! You ants, how dare you control me! Watch how I'll deal with you!" Wang Ba began to panic when he heard the evil spirit Warlock's words. Although he had lost contact with the fused part of his primordial spirit, he could still feel traces of it. This meant that Han Jingjing had a high chance of controlling him.

If he could re-establish a connection with that part of her primordial spirit, or even retrieve the remaining fused primordial spirit, Wang Ba felt that he could make Han Jing Jing his own primordial spirit puppet. It was precisely because of this that he was panicking even more.

"Steady, don't let this Spirit Break free!" Black shirt shouted in a low voice, and the rest of them immediately focused their attention and increased the output of their soul power, once again locking down Wang Ba who was struggling desperately.

A primordial spirit of a quasi-sea splitting stage cultivator had actually fallen to such an end. He was trapped by a few low-level guys. Thinking about it, Wang Ba felt so pitiful. He really wanted to cry but had no tears.

When they were stripping Wang Ba, black clothes and the others were already at their limits. Han Jing Jing's timely use of her consciousness alchemy fire gave them a chance to catch their breath. Now, it was only a soul lock. In Wang BA's weak state, there was no way he could break free.

Han Jingjing quickly mastered the method to control Wang Ba and turn him into her own primordial spirit puppet. As she did not need to extract Wang BA's primordial spirit, she immediately began to refine the part of his primordial spirit that was fused into a control hub.

After a short while, Wang Ba, who had been cursing, suddenly quieted down. He could feel that he had established a connection with the part of his integrated primordial spirit that he had lost. However, this connection was not the one that was dominated by his original body. Instead, it was the complete

opposite. His primordial spirit was completely controlled by this connection, and his life and death were in the hands of the other party.

Han Jing Jing transformed back into her primordial spirit form and looked at Wang Ba with bright eyes. She smiled faintly and said, ""Wangba, from now on, you are my primordial soul puppet. You must be obedient, understand?"

Wang Ba felt extremely aggrieved. He knew that he had no strength to struggle now as his life was controlled by the other party. He could only lower his head for now and think of a way to escape in the future when he had the chance.

"I know, master! In the future, whatever you say, I will definitely do it. I will not disobey you in the slightest!" In a flash, Wang Ba had already figured out the stakes. He immediately put on a smile and bowed to show his loyalty.

Chapter 6073 Want To Follow

Han Jingjing heaved a sigh of relief. She could feel that Wang Ba did not submit to her sincerely. However, it did not matter. She could decide his life and death with a single thought. She was not afraid of him causing any trouble.

Wang BA's mind was racing. He and Han Jing had heard the evil spirit Warlock's words. Although Han Jing had absolute control over the control hub, she had also used her own primordial spirit to create it.

In other words, if Wang Ba had the chance to snatch the primordial spirit control hub that han Jingjing had refined, not only would he be able to escape from her control, but he could also control han Jingjing in an instant!

At the thought of this, Wang Ba sneered to himself. 'You want to control me? Alright, I'll pretend to be a grandson for now. When I have the chance, I'll let you know that I'm not that easy to bully!

Han Jing Jing nodded at black shirt and the hunting bow. "That's enough. This guy is already under my control. You guys can remove this six-pointed star. "

Black shirt and Hunter Bow heaved a sigh of relief. The two of them had definitely contributed greatly to the success of this matter. When they returned, they would suggest that they follow Han Jing Jing to the mysterious East to cultivate. They would probably have a higher chance of success.

After the six-pointed star disappeared, Wang Ba regained the ability to move his primordial spirit. However, he would not take back the primordial spirit control hub rashly at this time. He had to wait until han Jingjing completely trusted him and let her guard down before taking action.

If he were to randomly attack now, he would only be finished immediately! Wang Ba was not that stupid. Everyone knew that han Jingjing was most worried about him at this moment!

"Master, my primordial spirit is seriously injured. If I don't have a body, I'll soon disappear. You see, I'm your personal property now. If I disappear like this, wouldn't it be a waste of time for you, master? Although the bodies of the six guys here are like dregs, they can still allow me to temporarily stay here. Can I choose one to possess?" Wang BA's primordial spirit body had a flattering smile on his face. As he spoke, he glanced at black clothes and the others with ill intentions.

This guy's primordial spirit body was indeed more illusory, and it was a far cry from han Jingjing's corporeal form. If his condition was half as good as han Jingjing 's, his plan to merge primordial spirits would have been realized long ago.

Black shirt and the rest did not quite understand Wang BA's words, but that sinister and cold gaze still sent chills down their spines, and they subconsciously wanted to stay away from this fellow.

Especially the three evil spirit warlocks. Although they had helped han Jingjing control Wang Ba, they were the least important people here. If anything bad happened, it was obvious that they would be the ones to suffer.

"If you put it that way, I'd like to try and turn you into a real puppet after you take over the body." Han Jing Jing looked at Wang Ba from the corner of her eyes and said with a faint smile.

Wang Ba immediately retracted his gaze and continued to nod and bow with an apologetic smile. "It was just a joke, just a joke. I know that master has made very good arrangements for my soon-to-be dissipating soul. This one will definitely follow master's instructions to the letter!"

Stinky girl! You refuse to give me the body of a few dregs. When I regain control of my primordial spirit, I'll let you know what it means to be unable to live or die!

Wang Ba grumbled in his heart, but his expression became more and more respectful. At this moment, he did not dare to offend han Jingjing at all.

Han Jing ignored Wang Ba and turned to wave at the three evil spirit warlocks.

The three of them did not know what han Jingjing wanted to do, but they did not dare to reject her. They could only look at each other nervously and slowly walk to her.

"Take out the soul gathering bottle." Han Jing Jing calmly extended her hand. She didn't have any good feelings towards these people who raised evil spirits. It was good enough that they were spared. She didn't feel any pressure at all for taking a few soul gathering bottles.

The three evil spirit warlocks secretly heaved a sigh of relief. Although the soul gathering bottle was precious, it was nothing compared to their lives. They would at least feel some pain, but they took out the soul gathering bottle faster than the last.

Han Jingjing grabbed three soul gathering bottles. They were only half-filled with soul power, which was not enough to heal Wang BA's primordial spirit. It was better than nothing.

"Take this soul power. It can control the injuries to your primordial spirit." Since han Jingjing had already subdued Wang Ba, she would not just watch him die like that. Initially, she had wanted to return to Huaxia immediately. However, it seemed like she would have to stay here for a while longer to kill the evil spirit King. She should be able to collect a lot of soul power.

Wang Ba did not know what soul power was, but since han Jingjing had asked him to eat it, he did not dare to object. He could only smile and thank her. He carefully took the three soul gathering bottles, opened them, and poured them into his mouth.

As soon as the soul power entered his mouth, it was immediately converted into healing power for his primordial spirit. Although it did not have much effect because of the small amount, the feeling still made Wang BA's eyes light up.

Good stuff! If he had enough of it, it would be possible for him to return to his peak state, let alone recover from the damage to his primordial spirit!

"Master, What is this? It's indeed helpful to my primordial spirit, but there's too little of it. I wonder where I can find more?" Wang Ba respectfully returned the three soul gathering bottles to Han Jingjing, but his eyes subconsciously glanced at the shining and black shirt.

After all, they were powerful primordial spirit bodies. Although they were weak, at such a close distance, it was easy to confirm that these two scums had more soul power than the three bottles combined.

"This is the pure soul power that remains after the soul has dissipated. I will find a way to collect more and use it to treat your injuries." Han Jingjing smiled faintly and put away the three soul gathering bottles.

Last time, she made a device that could actively collect the wandering soul energy in the world, but Lin Yi put it in the Jade space. Now that she had these three soul gathering bottles, she could make another device.

If they could find the evil spirit King, it wouldn't be so troublesome-it would be enough to stabilize Wangba's soul. After returning to Sky Class Island, they'd hand him over to Lin Yi-there'd be a better plan, right?

"Thank you, master. Shall we go now?" Wang Ba glanced at the flash and black shirt with a look of regret. He knew that Han Jingjing would not touch the soul gathering bottle in their hands, so he could only sigh in his heart.

In order to follow han Jingjing, black shirt was willing to pay any price. Now was the time to show off. Seeing that Wang Ba needed soul power, he immediately took out his soul gathering bottle and handed it to han Jingjing with both hands.

"Teacher han, you were the one who collected this soul power. If you need it, feel free to use it, it's fine!" Black shirt knew that as long as he followed han Jingjing, it would be easy to obtain soul power. Furthermore, this soul power could very likely give him and the hunting bow the opportunity to follow han Jingjing to Huaxia to cultivate.

Chapter 6074 Discovering The Evil Spirit King

Hunting bow turned to look at shining. If he had known that han Jingjing would need soul power later, he would have changed his condition just now.

"Flash, can you sell me your soul power? How about 10% higher than the market price?" The Hunter bow's mind whirled, and he had already laid out a sufficiently tempting condition.

When Spirit Hunters borrowed soul power, it was usually around eighty percent of the market price. Situations like the hunting bow, where the price was ten percent higher than the market price, were almost impossible to encounter.

Shining hesitated for a moment. He could tell that this was a good opportunity to raise the price. However, han Jingjing and the others were all so powerful. Only a fool would offend such powerful people for a little money.

"No need. I'll give you my soul power according to the rules! We're all friends, who hasn't had a difficult time before!" The shining waved his hand and took out two soul gathering bottles from his waist bag. One bottle was full of soul power transferred from the hunting bow, and the other bottle also had about 70% of soul power.

"Many thanks, black shirt and I owe you a favor!" Hunter Bow smiled and took the two soul gathering bottles. He gave them to Han Jingjing respectfully before he went to discuss the transfer with Shining.

Han Jingjing would not stand on ceremony with the black-shirted hunting bow. If they did not take it out, she would not take the initiative to ask for it. Since they were willing to take it out, she would take it out with a peace of mind.

Wang Ba joyfully consumed the soul power in the three soul gathering bottles. The amount this time was almost twice as much as the last time, so the effect was more obvious. It indeed temporarily stopped the dissipation of his primordial spirit.

Han Jingjing returned the three empty soul gathering bottles to them. After a moment of thought, she asked Black Shirt, "What's the situation with the evil spirit King? Do you know where you are now?"

"Teacher Han, are you going to hunt down the evil spirit King?" Black Shirt was secretly excited. With Han Jingjing's strength, dealing with the evil spirit King was as easy as turning her hand over. If they followed behind, they might get more benefits than going to evil spirit town.

"Teacher Han, the few evil spirit warlocks know more about the evil spirit King than we do." Hunter Bow glared at Black Shirt in dissatisfaction. What was wrong with this guy? He did not answer Teacher Han's question. This had already happened once, and now he was doing it again. Did he really want to squander the good impression that he had worked so hard to obtain?

Black Shirt immediately understood and smiled awkwardly. He quickly nodded in agreement. Fortunately, Han Jingjing did not mind. She smiled and turned to the three evil spirit warlocks.

"Tell me everything you know. As long as it's confirmed, I'll ask her to detoxify you!" Han Jingjing pointed at Qiqi, who was standing beside her, making a promise.

The eyes of the leading evil spirit Warlock lit up, and he hurriedly bowed to express his thanks along with the other two. Then, he organized his words and told them everything he knew.

"This evil spirit King wasn't born naturally. It was artificially raised. However, there were some problems during the raising process. After it escaped, it became an evil spirit King without an owner. So, when we, the evil spirit warlocks, heard the news, we wanted to tame this evil spirit King. If we succeeded, we would be able to obtain a large increase in strength."

"In addition to us, the spirit Hunters have also received the news that they are enemies with us, so they want to destroy the evil spirit King before we tame it. In addition to a huge amount of soul power, they can also use the death of the evil spirit King to increase their strength. Besides that, I heard that the evil spirit King's previous owner has also tracked him down and wants to take back the evil spirit King. " The evil spirit Warlock was quite clear, but han Jingjing was not very interested in these things.

"Who was the original breeder? Where is the evil spirit King now?" Han Jing Jing interrupted the evil spirit Warlock and threw the question she needed to know to him.

"I heard that the breeder organization is a very mysterious organization. The specific information is not clear, but according to rumors, it should be a very powerful organization. Whether it is Europe, Asia, or even North and South America, there are traces of this mysterious organization. As for the evil spirit King, I'm not too sure about its current location, but we can sense that it hasn't left this area yet!" The evil spirit Warlock maintained a respectful smile and answered han Jingjing without any hesitation.

Jingjing and Jingyi looked at each other-they'd think of central when they heard something about a mysterious organization, and the evil spirit King was something that central would be interested in.

However, the underwater base in the center had been destroyed. Were there other bases in Europe? Perhaps it was a different branch? After all, no matter how powerful the evil spirit King was, he could not compare to the biochemical cultivators that they had mass produced.

Han Jing Jing shook her head slightly. Regardless of whether the mysterious organization was the center or not, it had no effect on them. They didn't need to worry about it for the time being. People like the evil spirit King could be easily defeated by ordinary pill fires or consciousness pill fires. The alchemists of Huaxia were definitely the natural nemesis of such existences.

Are you confident in finding this evil spirit King?" Han Jing Jing turned around and looked at the three evil spirit warlocks calmly. What she needed was the huge soul power of the evil spirit King. As for the rest, she did not care.

"I'm not sure, but I can try. " The leading evil spirit Warlock was very cautious. He didn't dare to make any guarantees, but he also didn't dare to completely deny it. Who knew what would happen to the three of them if they lost their value?

"Then let's go. I need you to help me find the evil spirit King!" Han Jing Jing didn't want to waste any more time, and after a brief discussion with sun Jingyi and yang Qiqi, she urged the spirit Warlock to lead the way.

In terms of tracking evil spirits, Spirit Hunters were also very powerful, but they were still inferior to evil spirit warlocks. Therefore, black shirt, Hunter Bow, and the others had no objections. They allowed the three evil spirit warlocks to walk in front while they followed behind Han Jing Jing.

The group was divided into three clear teams. The three evil spirit warlocks were in the lead, with Han Jing, the three girls, and Wang Ba in the middle, and black shirt and the other two Spirit Hunters behind them. They were about two meters apart from each other. This combination was enough to deter other Spirit Hunters and evil spirit warlocks in the forest. It was enough to ensure that no one would dare to provoke this team easily, and it also saved them a lot of trouble.

After moving forward for more than an hour, the ghost Warlock seemed to have found the feeling. Its speed increased, and it no longer adjusted its direction often. Instead, it moved forward in a straight line after locking on to the target.

"Did you sense the evil spirit King?" Han Jing increased her speed and caught up with the three evil spirit warlocks. At the same time, she released her divine sense to explore, but she found nothing within the range.

Chapter 6075 Tyrant King VS Evil Spirit King

"If I'm not mistaken, it should be in this direction!" The leading evil spirit Warlock turned around and nodded respectfully. He had an ancient compass-like tool in his hand. There were faint soul power fluctuations on it, and he was probably using it to track the evil spirit King.

Han Jingjing glanced at the compass indifferently and did not have any intention of coming over to take a look. As long as she knew the principle behind this thing, she could make more and better ones at any time.

"Sister Jingyi, Qiqi, we have to speed up and bring them along. It'll be a waste of time if the evil spirit King runs away!" Han Jingjing was really impatient to waste time in this forest. Although these Spirit Hunters and evil spirit warlocks were much faster and had better endurance than ordinary people, they were still very slow. If they continued to run like this, who knew how long it would take?

Jingyi and Qiqi didn't have anything to say, and so they started assigning the people.

The evil spirit Warlock in the lead had to lead the way, and so he and shining were carried by sun Jingyi at the front, while han Jingjing followed in the middle with her black shirt and hunting bow, and yang Qiqi was the last to lead the other two evil spirit warlocks.

To be honest, Qiqi really didn't like these two evil spirit warlocks-if they weren't useful to Jingjing, she'd really throw them away.

As han Jingjing's immortal soul Stage puppet, Wang Ba had to fight for an opportunity to perform. Hence, he followed han Jingjing obediently and took black shirt from her.

It was not a burden for him to bring along black shirt. Moreover, black shirt had taken the initiative to give him soul power to consume earlier, so Wang Ba had a good impression of him.

After the adjustments, the group's speed was at least ten times faster than before. Yang Qiqi was the only one who seemed to be struggling, and in the end, Han Jing Jing ordered Wang Ba to bring the two evil spirit warlocks with him. The weight of three people was a little too much for the heavily injured Wang Ba, and he had a bitter look on his face. Unfortunately, Han Jing Jing had a clear idea of his limits, and pretended not to see it.

After another three minutes or so, Han Jing's divine sense finally found traces of the evil spirit King. At this time, it was being attacked by five people. These five people were not Spirit Hunters or evil spirit warlocks. Looking at their uniform, they were most likely the people who raised the evil spirit King in the mysterious organization.

Normally, breeders would always have a way to control an artificially cultivated evil spirit King, just like a backdoor program. As long as they found it, they could easily take it back. However, this evil spirit King that had lost control was obviously not one of them. Those Five Guys could not affect the evil spirit King at all. Although they seemed to be fighting ferociously, they were already in danger. They could be killed at any time.

Just as Han Jing Jing was thinking about this, one of them trembled and fell to the ground. He was dead. The five-man formation was already unstable, but now that one of them was gone, it was riddled with holes. It was torn apart by the evil spirit King in an instant. In just a breath's time, the remaining four were killed one after another.

The soul power of these five Guys did not dissipate. It was directly absorbed by the evil spirit King. The sinister aura on its body became thicker. Han Jing Jing's expression was calm, but her heart was shocked.

Originally, she had not taken the evil spirit King seriously. Now that she had seen it, in terms of strength, it was still not enough for her to take it seriously. However, the growth of the evil spirit King made Han Jingjing a little worried.

The evil spirits in the evil spirit town were at best similar to Huaxia's earth-rank Warriors, so Han Jingjing estimated that the evil spirit King and the like were at most on par with heaven-rank Warriors.

It was only now that Han Jingjing realized how wrong she had been. Perhaps the evil spirit King's strength was indeed at this level in the beginning, but the most terrifying thing about it was its growth, not its initial power.

For example, the evil spirit King, who had absorbed the power of five souls, had stepped into the early-stage golden core realm from the perfected Foundation establishment realm right under Han Jingjing's

eyes. The mortal world had no lack of people, and they had as much soul power as they wanted. If they left the evil spirit King alone, it was hard to estimate what kind of monster it would grow into.

If that mysterious organization was really the center, then the evil spirit King that they had developed would indeed not be inferior to the biochemical cultivators. In fact, it might even be more powerful in the later stages!

When the evil spirit King had completely absorbed the power of the five souls, Han Jing Jing and the others finally came face to face with it, including the spirit Hunters and evil spirit warlocks in black, who were ready to attack as soon as they landed.

The evil spirit King was not afraid at all despite the sudden appearance of so many people. Instead, it looked very happy. It probably felt that it would become stronger with the food that had been delivered to its door.

"Master, leave this small character to me! I'll definitely be straightforward and won't drag things out!" Ba Wang's eyes lit up. The evil spirit King's strength was not enough to pose a threat to him at the moment, but absorbing and fusing with such an evil spirit King would definitely make his injuries better.

Although he didn't have the ability to devour spirits like Lin Yi, he could still use the fusion method he learned in the wormhole. It was just an early gold core realm evil spirit King, after all, it couldn't resist at all.

"Oh, then go!" Han Jing Jing waved her hand nonchalantly. The evil spirit King was here to treat Wang BA's injuries. Since he had volunteered, she would see how her primordial soul puppet would perform.

Wang Ba was overjoyed to hear han Jingjing's agreement. He could not miss any opportunity to recover his strength. He would kill han Jingjing in one blow and take the control hub from her when she was careless!

The evil spirit King itself had a high level of intelligence. Unfortunately, it was artificially raised, so it always had some inherent defects. Even though it felt that these people in front of it were very dangerous, it did not think of running away quickly. Instead, it was thinking about how much benefits and improvement it would gain after killing these people.

Wang Ba cackled as he pounced forward. The evil spirit King was instantly excited. If these people had all swarmed up, its simple intelligence might have hesitated to avoid them for the time being. However, since there was only Wang Ba, there was nothing to worry about. One word was to fight!

The two of them collided in a flash. Then, the evil spirit King immediately realized that something was wrong. Although Wang Ba was severely injured and looked very weak, he was still a primordial spirit at the quasi-sea split stage after all. The pressure that suddenly burst out was enough to make the evil spirit King tremble with fear. Coupled with his deified soul techniques that were far beyond this world, he instantly gained the upper hand.

Chapter 6076 Super Skill

Han Jing Jing nodded. This Wang Ba had some tricks up his sleeve. Once he recovered, he would be able to help Lin Yi bro a lot. She felt that her stay in the common world wasn't in vain.

At first, black shirt, Hunter Bow, and the rest were still a little nervous and on guard. However, in the blink of an eye, Wang Ba had already suppressed the evil spirit King, and they could not react in time.

This was a powerful evil spirit King, and judging from its aura, it was definitely a Super Evil spirit King that had evolved many times. Yet, it couldn't even withstand a single blow from Wang Ba?

They felt a chill run down their spines when they thought about how they had used Soul extraction and soul lock on such a powerful being. Then, they thought about how Han Jingjing, who was able to fight and even control Wang Ba, must be even more powerful.

Putting aside the fact that Black Shirt and the others were even more blind to Han Jingjing's worship, Wang Ba had already completely released his primordial spirit, turning it into a layer of faint light mist that completely enveloped the evil spirit King. He began the powerful fusion.

The evil spirit King, who had been beaten to the point where it could not put up any resistance, let out a shrill cry. However, it was unable to break free from the restraints of Wang Ba's primordial spirit. It could only watch as its soul power was assimilated by the other party.

In essence, there was a difference between fusion and devouring. However, during the process of fusion, Wang Ba gradually discovered that his primordial spirit had gained a trace of devouring ability. This was an ability he had obtained from the evil spirit King. Although its level was very low, it was a skill with excellent growth potential.

After careful comparison, Wang Ba thought that his ability to merge and devour might be more powerful than that kid's primordial spirit devouring ability. This made his heart race. If he had the chance to meet that kid again in the future, he would definitely let him have a taste of merging and devouring!

Wang Ba was in a great mood after he had obtained the Super skill. In order to keep it a secret, he continued to cackle as he fused with the evil spirit King's soul power. He talked nonsense to distract everyone's attention so that Han Jingjing would not find any clues. This was his trump card when he regained control of the evil spirit King in the future. He could not expose it.

Han Jingjing did not notice Wang BA's thoughts. She only saw that Wang BA's injuries were getting better. Although it was impossible for him to recover immediately, at least his condition was stable. His primordial spirit would not collapse in a short period of time. That was enough.

"Black clothes, hunting bow, take out the soul gathering bottle and collect soul power. Although that guy is wrapped up tightly, there is still a lot of soul power leaking out. Don't waste it." Han Jingjing turned around and called out to the others. She also took out the three soul gathering bottles that she had obtained from the evil spirit Warlock and began to collect soul power.

The evil spirit King's soul power base was indeed shocking. To be able to level up to this level, it had definitely devoured thousands of souls to achieve this. Therefore, although the soul power that dissipated was not much, it was more than enough to fill these soul gathering bottles.

Naturally, Hunter Bow in black did not hold back. After a moment's hesitation, shining also took out his soul gathering bottle and joined in the collection of soul power. Only the three evil spirit warlocks had bitter expressions on their faces. They had lost their soul gathering bottles, so they could only watch from the side.

Wang Ba did not care about the soul power that had dissipated. Compared to the evil spirit King's total soul power, this was just a drop in the ocean. Previously, when he did not have any soul power, he still cared about it. Now, whoever wanted it could just take it.

When the soul gathering bottles were full, Wang BA's fusion with the evil spirit King was almost complete. The powerful evil spirit King had disappeared completely, and Wang BA's primordial spirit did look much better. His strength had also recovered.

"Master, thank you for giving me this chance. I feel much better now! In the future, if there's anything you need, just let me know. I'll definitely get it done properly for you!" Wang Ba flew to Han Jing Jing's side and expressed his gratitude respectfully.

In fact, at this time, he was thinking about whether he should suddenly attack. Although his strength had not recovered, the devour skill he had just obtained made him a little restless.

However, after much consideration, Wang Ba suppressed his desire. Just as he had thought, Han Jing Jing would definitely be very vigilant against him at this stage. Any slight movement could directly kill his primordial spirit.

If he wanted to escape, now was definitely not a good time. He had to continue to endure and regain his strength while gaining han Jingjing's trust. Finally, he could kill han Jingjing in one fell swoop!

In a flash, Wang Ba had already figured out the stakes of this matter, so he continued to put on a flattering smile and said, ""Master, I think there are some good things in this forest. Do you want me to help you search for them? maybe there will be a good harvest!"

Wang Ba was just trying to show his loyalty and divert han Jingjing's attention. If he were to really search for them, he might be able to find a few evil spirits to replenish his essence spirit, but he did not believe that he would be able to find any treasures.

"Not interested. You won't have any problems for the time being. Come back to China with me. We'll talk about other things when we get there." Han Jingjing rejected immediately. She had already achieved her goal of coming here, and she even got herself a follower. Right now, she just wanted to get back to Sky Class Island and meet her Lin Yi bro. She didn't have time to play treasure hunting with Wangba. If she had time, she'd rather spend it on studying wormholes.

"Teacher han, we want to go to Huaxia with you. I hope you can give us a chance!" Black shirt and Hunter Bow exchanged a look and bowed at the same time.

This might be her last chance. If han Jingjing did not agree, they felt that they might not be able to see her again in the future. They could only hope that she would not continue to reject them on account of their help this time.

Han Jingjing was indeed hesitant. She was going back to Sky Class Island soon, and she couldn't let them follow her. However, she did owe them a big favor this time, and if she didn't return it, she'd feel a little embarrassed.

Sun Jingyi saw through the two's thoughts and understood han Jingjing's difficulty, so she smiled and walked up, "Do you two want to cultivate in peace? If that's the case, then you've found the wrong person. Jing Jing is very powerful, but she's definitely not good at fighting. If you just want to become stronger, I can think of a way for you. "

Black shirt and Hunter bow's eyes brightened-they'd seen how strong sun Jingyi was, and if han Jingjing didn't want to take her, it'd be the same if they followed sun Jingyi.

Chapter 6077 Han Jingjing's Return

"Teacher Jingyi, are you going to take us in on behalf of teacher han?" Hunter Bow looked at sun Jingyi with anticipation. He had to admit that these Europeans were quite direct. They were just thinking of taking han Jingjing as their master, and now they were looking for sun Jingyi.

This was a taboo in China, but in Europe, it wasn't too much of a problem. Han Jing Jing didn't mind, and was happy that sun Jingyi could help her return the favor.

"I'm not a combat practitioner, so I'd be blind to ask me to teach you guys how to get stronger. Yang Qiqi is a fighter, but her path isn't suitable for you guys. If you trust me, I'll recommend you a place. " Jingyi said slowly, and black shirt and Hunter Bow nodded, not sure if they really agreed with her.

"Is teacher Jingyi taking us to Huaxia?" Black shirt could not help but ask. The mysterious Huaxia had now become the Holy Land in the eyes of him and the Hunter Bow. It was as if they would immediately be reborn if they went to Huaxia.

"You don't need to go to China to cultivate. Do you know the Buffon family in Europe? Their young master, Keman Buffon, is receiving combat training in our cultivation system. If you are willing, you can go and cultivate with him. It will definitely be much better than following us. After you have completed the basic cultivation, you can follow him to China to find us. How about it?" Sun Jingyi really did come up with a pretty good solution, and now it was up to black shirt and the others to decide.

Black shirt and Hunter Bow looked at each other and communicated with their eyes for a moment. They nodded at the same time and said solemnly, ""Good! We'll first train our foundations in Europe, and when we've achieved some success, we'll look for you two for the next step of training. I just hope that by then, you two can personally guide us in our training. "

"When you really get into contact with cultivation, you'll know that what I said is true. The two of us are really not good at fighting. At that time, if we let you follow us, you might dislike it!" Jingyi said with a smile. The deal was settled, and she'd contact Keman later to settle the two.

Shining wanted to interject. After seeing how powerful han Jingjing and the others were, he had become similar to Hunter Bow in black. However, their relationship was not good enough, and he did not take the initiative to help just now, so he was a little embarrassed.

Jingjing and Jingyi naturally wouldn't rush to ask him if he wanted to come along-if he did, then perhaps he'd be able to benefit a little out of respect for black shirt and the hunting bow, but since he didn't want to, they'd just have to let it go.

Qiqi took out a few pills and gave them to the three evil spirit warlocks, saying that they were antidotes. After they thanked her profusely and took the pills, she sent them away. In fact, the pills she gave them weren't poison in the first place-they were just some insect repellant trinkets. They just had to crush one and sprinkle it around them every time they rested. They'd be in the forest for over a year, and it was a lot more convenient to have these things.

It was a little poisonous, but it definitely wouldn't kill anyone. Even the chances of having diarrhea were very small-the three evil spirit warlocks were completely scared by Qiqi.

He told black shirt and Hunter Bow to meet up with Keman, and the two went their separate ways. Han Jing, sun Jingyi, yang Qiqi, and Wang Ba were running at full speed, leaving black shirt and the others far behind in a breath's time. It didn't take long for them to leave the forest.

After returning to China, han Jingjing was in a hurry to get back to Sky Class Island, and so she didn't go back to the villa. She said goodbye to sun Jingyi and yang Qiqi at the airport.

"Jingyi sis, seven, last time I said I'd be going back soon, but it took me a few days. Lin Yi bro must be worried about Sky Class Island, so I have to go back immediately. Thank you for your help this time. Once we're done with the wormhole transportation, it'll be much easier for us to go to the Sky Class island's secular world. We'll have a lot of chances to meet then," Jingjing took Jingyi and Qiqi's hands, a gentle smile on her face. The three's relationship had grown after this Europe trip.

"Jing Jing, there's no need for thanks between us. It's true that it's not convenient for us to go through the wormhole in the center, but with Da Feng there, I'm sure they won't dare to make things difficult for

you. You have to return to Sky Class Island safely this time, and write us a letter immediately to tell us that you're safe, okay?" Jingyi still didn't feel at ease-this wasn't the first time Jingjing had returned to Sky Class Island, but it hadn't gone smoothly. She hoped that she wouldn't cause any trouble this time.

As long as han Jingjing didn't go back to Sky Class Island, Lin Yi would be worried, and they would be worried too.

"I know. Don't worry, sister Jingyi. There won't be any problems this time!" Han Jingjing smiled. It was actually very safe to teleport through the wormhole, as long as they did not encounter an essence soul like Wang Ba.

"When you see brother ah Yi, you must tell him that Xiao Qi misses him very much. Tell him to come back and see me when he has the chance!" Yang Qiqi shook han Jingjing's arm, not forgetting to tell her to pass a message to Lin Yi.

Lin Yi was back this time, and she was playing hide-and-seek with that black man in the forest. She was pissed just thinking about it. What Dark Demon? this bastard should be used to sharpen knives!

"No problem, Lin Yi bro's spirit is very strong, he'll have more chances to go back and forth through wormholes in the future. Don't worry, he'll definitely come back to see you, and I know that he misses you a lot. You don't know how regretful he was for not being able to see you this time." Han Jing Jing patted the back of Qiqi's hand and waved goodbye.

"Have a safe journey! Say hello to everyone on Sky Class Island!" Sun Jingyi and yang Qiqi suppressed the reluctance in their hearts and sent han Jingjing off with a smile.

"I'm leaving. You guys take care. I believe we'll meet again soon!" With that, Han Jing turned into her primordial spirit with Wang Ba and flew toward the entrance of the wormhole.

Today, the right to use the wormhole was in Central's hands. However, this was not an obstacle for han Jingjing and Wang Ba. She did not even contact Brother Dafeng and directly entered the wormhole with Wang Ba.

The teleportation went very smoothly this time. Although she did not know how long it took, han Jingjing was certain that it would not take too long.

"Origin soul teleportation! Hehe, I didn't expect such a thing to really happen. I didn't believe the news from the secular world at first, but now I've finally seen it with my own eyes!" Han Jingjing and Wang Ba heard a deep male voice chuckling as soon as they came out of the wormhole.

Chapter 6078 We're All In The Same Boat

The next moment, han Jingjing finally had the time to observe her surroundings. Without a doubt, this was definitely the central control area. Brother Dafeng was still in the secular world, but the wormhole of the Sky Class Island was completely in the central control.

Lin Yi didn't have time to talk to central about the wormhole after he came back. Central's attitude was clear-they could let you use the wormhole, but they couldn't give you control of the wormhole.

This wormhole was one of Central's bases, and it was the most important one at that. If Lin Yi wanted to get involved, there was no way central would agree.

"Is everyone here to welcome me with such a big formation? That would be such an honor!" Han Jing Jing smiled slightly, her expression extremely calm.

Although there were dozens of powerful cultivators pointing all kinds of weapons at her, and the man who had just spoken had a shocking aura, Han Jingjing believed that they would definitely not attack!

"It's a must to welcome Miss Han, but more importantly, I want to make sure you don't run around. After all, this is a very important base. If any secrets are leaked, it will be very troublesome." The man with the deep voice was wearing a cloak that could block out spiritual sense peeking. Not a single piece of skin was exposed. Han Jingjing could not see what he looked like, but he sounded a little old. Of course, this could be faked.

In addition, Han Jingjing's divine sense was also restricted to the small area around the wormhole exit. If she wanted to extend it further, she would be hindered. Wang Ba probably did the same.

"We're already here, what are you going to do? Are you not letting us leave or are you secretly sending us out?" Han Jingjing pursed her lips and looked at the cloaked man with a faint smile.

If he wanted to send her out, the location of this place would definitely be exposed. A primordial spirit body was completely different from an ordinary physical body. One did not need to observe with one's eyes unless there was a way to limit Han Jingjing's divine sense within the primordial spirit and not let it out at all.

Even so, Han Jingjing's primordial spirit could still roughly determine the location of this place based on the time of return, the direction of the route, and so on. It might be difficult for others, but she was the genius Han Jingjing. How could such a small matter be difficult for her?

"You must be joking, miss han. We don't know who your friend is, but you're definitely not someone we can keep. Even if you can't return to Sky Class Island from the mortal world because of the broken connection with your main body, you can return to your main body with a single thought within Sky Class island's territory. We can't stop you from returning." The cloaked man shrugged his shoulders and admitted it without a care. Moreover, his words revealed that he knew a lot about Han Jing Jing. As for Wang Ba, he did not say much.

"So that's how it is. You put on such a formation to force me to return to my main body, right? This way, you can avoid the trouble of exposing your position. It's a good plan! Alright, in order to see Lin Yi bro as soon as possible, I'll cut to the chase and let you guys have your way this once!" Han Jingjing smiled faintly. She wasn't very interested in Central's base as long as it didn't stop her from going back to see Lin Yi bro.

Wang BA's eyes darted around as he wondered if he could use han Jingjing's enemies to deal with her.

He wasn't a fool. On the contrary, he was a scheming guy. Otherwise, he wouldn't have been able to make such a ten-thousand-year arrangement and wait. The situation in front of him was obvious that the two sides were hostile to each other. If he jumped out and provoked them, it was very likely that the two sides would fight.

However, after hearing that han Jingjing could return to her physical body, Wang Ba temporarily suppressed his intention to provoke her. Otherwise, han Jingjing would just go back and leave him to face the powerful lineup at central. It would be like digging a hole and jumping into it to bury himself!

Moreover, these two groups of people were obviously not good people. If they didn't fight but beat him up, then he would be screwed.

"Master, these guys don't look very friendly. You'd better leave quickly. I'll draw their attention! As long as master can get out of danger safely, that's better than anything else!" Wang Ba lowered his voice and expressed his loyalty. At the same time, he also tried to test han Jingjing to see if she could really escape at any time.

If he could not, he would have to reconsider whether he could take advantage of the situation and find an opportunity to devour han Jingjing's essence soul and take back the control hub in the shortest time possible.

"Alright, I'll be leaving then. You be careful!" Han Jing Jing glanced at Wang Ba and chuckled. She then dispersed her primordial spirit and left the place.

Wang Ba was dumbfounded. This girl was too straightforward. Shouldn't they be touched and say a few words from the bottom of their hearts? then, everyone would shout a few words of 'advance and retreat together', and at the same time, increase their friendliness and trust level before leaving together?

Alright, I'll be leaving then. You be careful! What the hell was this?! Can't we just have fun together?

"It seems like this primordial spirit isn't an important person. Take him down and use him to study the feasibility of wormhole teleportation. Be careful not to kill him!" Although the cloaked man was a little surprised at han Jingjing's decisiveness, he was not too surprised. This was the best choice.

As for Wang Ba, he should be an essence soul friend that han Jingjing found in the mortal world, right? He hadn't heard of this person on Sky Class Island, so it would be good to capture him and study him.

"Do you think you can catch me just because you want to? A group of tiny ants really thought they were that powerful? Watch how I'll deal with you!" Wang Ba felt extremely aggrieved and wanted to vent his anger on the people in the center.

This was also because Wang Ba had never dealt with central before and did not know how powerful they were. Otherwise, he would not have been so arrogant. He might have even surrendered.

Fortunately, Wang Ba did not need to see how powerful central was, nor did he have the chance to surrender to him. Less than two breaths after Han Jing Jing left, he felt a force that broke through the space and pulled him away from the place. After a moment of dizziness, he appeared in an unfamiliar room.

"Ten-thousand-year turtle? You're not dead yet?" As soon as Wang BA's eyes focused, he saw a familiar face looking at him with a strange smile. Wasn't it the little bastard who destroyed his 10000-year plan?

"You're that Lin Yi?!" Wang Ba was an extremely smart guy-he figured out the relationship between Lin Yi and han Jingjing in an instant.

This ... There was no f * cking way to reason with him! It turns out that the two enemies are in the same gang, and they're joining forces to bully me!

Chapter 6079 Two Teary-Eyed

Wangba's eyes were brimming with tears. He wanted to look up at the sky and let out a long sigh, but he couldn't cry in his Yuan spirit form. He didn't dare to look like he was going to be struck by lightning in front of Lin Yi and han Jingjing.

"Oh, isn't this Lin Yi, Master Lin? so you're the one my master has been thinking about all this time. I knew it, in this world, other than a young, handsome, talented, talented, handsome hero like you ... Who else could be a good match for my master? I just want to ask, who else is there? No! There's definitely nothing else!" Wangba maintained a 45-degree pose in his mind, but he was actually bowing and nodding, a standard 45-degree angle on the ground. He was full of flattery, and even Lin Yi found it funny.

Hmph! It was never too late for a gentleman to take revenge! I'm a true hero who can be flexible. I'll let you be proud for a moment, and then I'll wipe you all out!

No wonder you're all so annoying, you're all from the same nest. When I find the opportunity, I'll sweep through the courtyard and completely annihilate you bunch of bad guys!

The more Wang Ba cursed in his heart, the more he started to flatter Lin Yi. Lin Yi and han Jingjing felt goosebumps all over their bodies. They had to stop him to get some peace.

"Alright, alright. You're lucky that you're still alive. However, I'm surprised that you've turned into a quiet primordial soul puppet." Lin Yi waved his hand, telling Wangba to stand aside before turning to Jingjing with a smile. "Jing Jing, what happened? Why did you take so long to come back?"

Lin Yi didn't say how worried he was or how much he did to get back han Jingjing's soul. Since she was back safely, he didn't need to say anything.

Han Jing Jing held Lin Yi's hand and lowered her head, "I'm sorry, Lin Yi bro, it's my fault this time. I was too concerned about the wormhole, that's why I took so long and made everyone worried!"

At this time, Tian Gang and Xue Li heard the commotion and rushed in. Seeing that Han Jing Jing had woken up, they naturally cheered and jumped for joy. The three girls began to chat, which interrupted the conversation.

Wang Ba stood in the corner carefully. He had already figured out what had happened. Han Jing had the primordial spirit control hub, so she knew some things that Wang Ba did not, such as the distance between her and the primordial spirit puppet.

If she was not wrong, han Jingjing knew that no matter how far away they were, as long as the primordial soul Control hub was there, the primordial soul puppet could be summoned to her side in an instant. That was why she was assured to return to her physical body first and used this method to pull Wang Ba back.

The connection between the two of them was similar to the connection between han Jingjing's primordial spirit and her body. As long as she could feel it, she could ignore space and return instantly! Unfortunately, this was a privilege only han Jingjing had. It was a one-sided ability. Other than passively accepting the summoning, Wang Ba did not even have the right to refuse.

Looking at the time when han Jingjing and Wang Ba returned, she probably only had time to say one sentence to Lin Yi before pulling his spirit back. From this point of view, han Jingjing didn't want anything to happen to Wang Ba. Otherwise, she would only need to wait a little longer and she could sense Wang BA's location to determine the location of the base.

Lin Yi didn't join the girls "conversation. Both he and han Jingjing had a lot to say, but they had to hold it in and let them finish.

Wang Ba stole a glance at Lin Yi, and Lin Yi gave him a sidelong glance as well. The guy put on a flattering smile and bowed, "Uncle Lin Yi, I was wrong in the past. We're a family now, so please take care of us in the future."

"Don't call me Grandpa, it sounds weird. Just call me boss Lin Yi like everyone else. I'll let bygones be bygones, but there are some things I'll have to ask you later. " Lin Yi didn't want to get even with him-he was quite unlucky, after all. Not only did he destroy the ten-thousand-year plan, but he also took all the good stuff.

The follow-up cultivation method of the creation battle technique, the Black Sea soul condensing liquid, the ten thousand amplification array, and so on, which one of them wasn't a rare treasure? Even Lin Yi felt that he had gotten a huge advantage, and now that Wangba had been taken in by Han Jingjing as a soul puppet, this guy was really unlucky.

It wasn't very nice of him to continue bickering with the guy, and Lin Yi wasn't that petty. He'd talk to him about the thousand amplification formation later-maybe they'd have something in common.

Unfortunately, Lin Yi didn't know that Wang Ba was planning to devour Han Jing Jing's spirit before coming back to Lin Yi. The best way to deal with Lin Yi was to take over Lin Yi's body.

However, Wang Ba didn't dare to do anything to Lin Yi after he'd suffered once. Han Jing Jing's body wasn't suitable either. If possible, he'd better find the other practitioner of the creation Battle Arts, Tian Xing Dao.

"Yes, yes, yes, thank you, boss Lin Yi. If you need anything in the future, just tell me and I'll get it done properly!" Wang Ba cursed Lin Yi in his heart, the smile on his face getting brighter and brighter as he patted his chest as if he was taking care of everything.

Lin Yi didn't want to talk too much about the creation battle tactics and the ten thousand amplification formation yet, so he joined the girls "conversation after a few casual words, leaving Wang Ba alone in the corner cursing Lin Yi and Han Jing Jing.

After a long while, Han Jing Jing and Tian Gang Xue Li told Lin Yi everything that had happened in the past few days. Lin Yi was surprised as well. He didn't expect there to be another world in the wormhole, where even spirits could roam freely. Especially at the exit of the secular world, there was an even deeper tunnel. Maybe it really was connected to the ancient martial world?

"Lin Yi bro, you said that the heavenly elixir Chamber of Commerce has started to form, and they're planning to use the wormhole to purchase and sell products from the secular world, right?" While han Jingjing was explaining her experiences, Lin Yi, Tian Gang, and Xue Li also talked about a lot of things, so they had a general understanding of the situation here.

For example, the heavenly elixir Chamber of Commerce, the auction on the northernmost Island, and the spirit-gathering branch.

It was only after she returned that han Jingjing realized that the reason her primordial spirit could still sense her body after losing contact with it was entirely due to the effects of the spirit-gathering branch. Without the spirit-gathering branch, it would have been difficult for her to return to her body. She might even be trapped in the base in the center.

Chapter 6080 New Wormhole Exit

"That's right. Shang Wanyi is a talent. With him presiding over the Chamber of Commerce, there shouldn't be any problems. The only thing we need to worry about is the supply. You're saying that the wormhole exit is in Central's hands, so it's not very safe for us to purchase goods from the secular world, right?" Lin Yi immediately understood what she meant. This was what he was worried about as well. After all, the agreement with central was only for one year. If he couldn't control the wormhole, the heavenly elixir Chamber of Commerce would only be prosperous for one year at most, and central would still monopolize the business.

"That's right, but as I've said before, in the secular world, other than the stable wormhole in the center, there are also many small wormholes. Although most of them are unstable, the largest can barely be fixed in place. I believe it's the same here on the Sky Class Island-if we can find a fixed wormhole on the island and think of a way to strengthen it a little, it'll become our own unique wormhole exit!" Han Jingjing's face lit up when she talked about this. Lin Yi even felt that she had a plan in mind.

As expected, before Lin Yi could ask, han Jingjing waved at Wang Ba in the corner. The guy had been listening to their conversation the whole time. As the saying goes, know yourself and know your enemy, and you'll never lose a battle. If he wanted to trick Lin Yi and han Jingjing, he had to know more about them. So when he saw han Jingjing waving at him, he immediately came over with a smile.

"Master, do you have any orders?" Wang Ba had already guessed what han Jingjing was thinking, but it was still necessary for him to play dumb. Being too smart would not make him live long.

"How did you enter the wormhole? Do you still remember the location?" Han Jingjing's question was just as Wang Ba had guessed, so he was not surprised at all.

"Boss Lin Yi knows about this as well. I activated the mini teleportation formation that I've prepared, but boss Lin Yi followed me in. The formation that could only teleport one person exceeded its capacity, and an irreversible mistake occurred. I was heavily injured and thrown into the wormhole. If I wasn't lucky, I would've been dead already." Wang Ba pretended to sigh and avoided the main point.

Lin Yi nodded-what Wang Ba said was true. When the formation was damaged, it opened up a wormhole, and that was why Wang Ba was in there.

"In that case, there might be a wormhole Rift on that Island?" Lin Yi pinched his chin, unsure.

At that time, although his divine sense had been greatly restricted, he had still scanned most of the area and did not find any wormhole cracks. So, Han Jingjing's guess was reasonable, but if he really went to look, he would most likely be disappointed.

"Lin Yi bro, we'll know if there's one when we go! With Wangba leading the way, it'll be easier to find. If we can find an exit that can be stabilized, we'll have a chance to suppress the central Chamber of Commerce. " Han Jingjing was very interested in the wormhole, and she was not willing to give up on any possibility.

Naturally, Lin Yi wouldn't reject it. Plus, he was interested in wormholes as well. If he could find a new exit, he'd have more confidence in fighting central in the future.

"It's not impossible to go and take a look, but the defensive formation of the small island has been completely damaged. At that time, there was also the attack of the sea beast tide. If we go there now, we'll probably only see ruins and may not be able to find any useful clues." Lin Yi was helpless. The island was completely supported by the formation, and now that it was broken, he didn't know if it could still be maintained.

Even if there was a wormhole crack, it would definitely be inside the island. It was difficult to enter the island now, let alone find a wormhole.

Wang Ba raised his hand and said, ""Boss Lin Yi, master, I'm the one who set up the island's formation. If it's not too damaged, I can still repair it. As long as I repair the outer defensive and invisibility formations, the sea beasts won't attack us for a while. After the outer formation is repaired, we can go deeper into the island to slowly find what we need. "

"Good! If that's the case, then you should go and finish setting up the island's defensive formation first, and we'll come to find you later. " Han Jing made a decision. With Wang Ba going back to deal with it, the interior of the island would soon be able to see the light of day again.

Lin Yi thought about it and didn't say anything. It'd been so many days, and the sea beasts should be gone by now. It shouldn't be a problem for Wangba to go there himself. The formation was broken, but the base was still there. It could be used again after some fixing.

"Don't worry, master! I'll definitely do it beautifully and properly. It won't take long for me to repair all the formations on the island!" Wang Ba patted his chest out of habit as he started to think about whether he could use this chance to set up a trap for Han Jing and Lin Yi.

'Forget it, forget it. I haven't recovered from my injuries yet. I'm not strong enough. Even with the help of the formation, I might not be able to kill han Jingjing in an instant. As long as I give her a little time to catch her breath, she can turn the tables and kill me.'

Besides, this Lin Yi was quite an expert in formations-it'd be a disaster if he found out something was wrong. He'd better let them live a little longer!

After much consideration, Wang Ba decided to wait for an opportunity. At least his primordial spirit needed to recover more.

There was actually another reason why he had volunteered to go back and repair the formation. Wang Ba had been relying on the Black Sea soul-consolidating liquid to survive for a long time, and it had become a treasure that he could not lack.

Lin Yi had gone there last time and swept away all the Black Sea soul-gathering liquid, leaving only two drops behind. Wang Ba didn't even have time to take them away, and he was eager to go back now for the Black Sea soul-gathering liquid!

It didn't matter if Lin Yi's two drops were there or not-someone as scheming as Wang Ba would definitely leave something for himself. He'd already hidden a bottle of Black Sea soul concentrating liquid somewhere, not much, only about thirty drops.

Because he had set up a concealment array, as long as he did not deliberately search repeatedly with his spiritual sense, he would definitely not be discovered.

Although it was only 30 drops, it was more than enough to heal his injuries. It could also guarantee the use of Wang BA's primordial spirit for the next ten to twenty years.

"Why don't I go with you? I'm quite interested in the array you set up, and I can help you." Lin Yi's sudden words startled Wangba.
