

## Bodyguard 6081

### Chapter 6081 Wang BA's Disloyalty

If he wanted to get the Black Sea soul condensing liquid back, he would have to go to the island alone. If Lin Yi followed him, wouldn't he be wasting his efforts?

"No, no, boss Lin Yi, you should spend more time with master. You haven't seen each other for a long time, you should spend more time together! It's just a small matter, I can handle it by myself-if boss Lin Yi is interested in formations, we can talk about it when we have time, it'll be much more interesting than this boring repair. " Wangba waved his hand with a big smile, rejecting Lin Yi's good intentions in a roundabout way. He even used han Jingjing as an excuse, as if he was really considerate of Lin Yi.

Lin Yi raised an eyebrow and looked at Wangba. The guy wasn't in a rush, but he was acting weird.

"It's okay, we'll go with you and watch you repair it from the side. This way, we can save time running back and forth. " Han Jingjing had initially wanted Wang Ba to go alone, but she suddenly changed her mind.

Wangba was a smart person, but Lin Yi and han Jingjing weren't stupid either. It was just a slight awkwardness, and they knew something was wrong.

"Haha, that's fine too-I'll be more motivated if boss Lin Yi and master are watching!" Wang Ba had already cursed the two of them thousands of times in his heart, but he could only continue to put on a smile on his face, not daring to show any hesitation.

At most, I won't go and retrieve the hidden Black Sea soul condensing liquid. I don't believe that you two little bastards can keep watching me!

Wang Ba gritted his teeth and started to flatter them again. If I can't kill you now, I'll drown you with flattery first!

Lin Yi couldn't be bothered with this guy. Since he had decided to go back to the island, there was no time to waste. Han Jingjing was back, and he had to go to the South continent after making some arrangements for the middle Island. He wondered how LAN Guzha was doing there.

The sky elixir Pavilion's business had been pretty cold recently, but he could leave it to Han Jing Jing to handle. Tian Gang and Xue Li were free now, so Lin Yi decided to bring them along with Han Jing Jing and Wangba to the island.

Tian Xing Dao had been in seclusion ever since he'd gotten the creation battle tactics, and Lin Yi didn't want to disturb him. They left the central area of the island, got on the flying saucer, and flew towards the small island.

When they arrived at the small island again, it was just in time for the tide to fall. The part of the island that was exposed above the sea surface was clearly in a state of destruction. After all, it was attacked by so many sea beasts at the same time. After the defensive array was broken, it was already good enough that it didn't dissipate.

"Boss Lin Yi, master, I'll go fix the formation now!" "Yes, master," Wang Ba said respectfully. He left the flying saucer after the two nodded in agreement. He landed on the island, but he was secretly thinking, "what the hell is this spiritual artifact? it's so powerful. It seems that master isn't a simple person. I'd better not act rashly."

Lin Yi's spirit sense was locked on Wang Ba, watching him fix the foundations of the formations. He didn't have high-quality formation flags, so he could only buy some normal stuff to replace them. The effect wasn't as good as before, but it could only be used.

"Lin Yi bro, are you suspecting Wangba?" Han Jing Jing asked curiously.

She was Wangba's master, and she knew what he was doing. Lin Yi's spirit sense wasn't as convenient as hers, and if Lin Yi needed it, she didn't mind watching Wangba all the time.

"This guy isn't an ordinary person. He's a true ten-thousand-year turtle! And to be able to set up such a plan, he is indeed not simple. Don't think that just because you can control him, you can let your guard down. " Lin Yi smiled. He couldn't help but think of Yu Yi. He and Wangba were two different people, but they were somehow similar.

"Yes, Jing Jing won't let her guard down!" Han Jing Jing nodded her head solemnly, then stared at Wang Ba with her eyes wide open.

If this fellow wanted to secretly retrieve the Black Sea soul-consolidating liquid, now was definitely not a good time. No matter how secretive he was, he would not be able to escape Han Jing Jing's surveillance.

"Actually, I'm quite interested in this guy's array Dao. The myriad amplification array diagram that I obtained from him will produce different array Dao according to everyone's comprehension. Therefore, it's also beneficial for my array Dao to be able to study his techniques and ideas." Lin Yi didn't really believe it when the thing told him, but after studying it for a while and communicating with the thing, he confirmed that it was real.

Although Lin Yi's formation skills were almost all taught by that damned thing, and could be said to be inherited from the same line, the ten thousand amplification formation could still develop completely different directions of formation skills according to the two's enlightenment. From this perspective, the value of the ten thousand amplification formation far exceeded the subsequent Arts of creation battle tactics!

Tian Gang Xue Li wasn't interested in Wang Ba or array Dao, but she was very interested in flying saucers. She came over and said to Han Jing Jing, ""Jingjing, this flying saucer is very beautiful and comfortable, isn't it a bit inappropriate for Lin Yi to have it alone? Why don't you make one for us? That way, it'll be more convenient to come and go in the future. "

"No problem! When we're done with the wormhole, Jing Jing will make one for everyone, but it won't be easy to find the materials. I'll leave it to Lin Yi-Gege!" Han Jingjing smiled at Lin Yi as she watched Wangba.

"Lin Yi, you heard that? Hurry up and gather all the materials, or else ... Hmph, you know it!" Tianshuo waved his little fist at Lin Yi, his cute face full of threat. As for how much power it had, it was hard to say.

Lin Yi pretended to be surprised and shrugged, "Otherwise, what will happen? I don't know!"

"You don't know? I'm going to kick you!" Tian Gang immediately revealed her true colors. When she remembered that she still had two good sisters by her side, her pretty face couldn't help but turn slightly red.

Xue Li couldn't help but chuckle. She knew that Tian Gang liked to talk like this when he was with Lin Yi in private, but if there were other people around, he wouldn't be like this. He only blurted it out because he was happy, and it was obvious that he didn't treat Xue Li and han Jingjing as outsiders.

"Alright, Lin Yi's so busy, he won't have the time to look for materials for us. He'll just pay more attention when he has the chance." Xue Li shook her head with a smile and said gently.

"Eh, is your little little little little wife feeling bad for him? Or do you just want to stay in Lin Yi's flying saucer and not need your own?" Tian Gang had just been a little embarrassed, but he immediately dragged his good sister into the water. Hmph, Hmph, who asked you to laugh secretly!

"No way! "You ... You ..." Xue Li's face suddenly blushed. She didn't like to talk much, and she couldn't even speak clearly after being teased by Tian Gang.

#### Chapter 6082 The Consequences Of Scheming

Lin Yi couldn't help but smile-he'd been adventuring and fighting everywhere for a long time, and he realized that this kind of laughing scene was the most attractive ...

The three girls didn't take Lin Yi seriously and started chit-chatting and laughing. Lin Yi, who got shot every now and then, enjoyed it too. Before he knew it, the defensive formation was almost done repairing.

There was a slight fluctuation in the air, and Lin Yi knew that the island had some defensive capabilities again!

However, if it were to encounter an attack from a sea beast of the same level as before, it would definitely not be able to withstand it. A third of the attack would be enough to easily break this defensive array.

"Lin Yi bro, Wangba's starting to clear the way in, should we go down?" Han Jing Jing had been paying attention to Wang BA's actions, and she was quite satisfied with the efficiency of the primordial soul puppet.

"Hmm, let's go down and take a look!" Lin Yi nodded. Clearing the tunnel wasn't a problem. He used his spirit sense to check and found that the island didn't collapse on a large scale, so it was much easier to enter than expected.

The four got out of the flying saucer, and Lin Yi put it away before following the path Wang Ba had made.

If Wang Ba was alone, he wouldn't even need to clean up in his spirit state. He could go inside and retrieve the hidden Black Sea soul concentrating liquid with ease, but with Lin Yi and Han Jing following him, Wang Ba didn't dare to make any moves. He even wanted to hide in the hidden location and make sure that the hidden formation wasn't damaged.

Unfortunately, life was not always a happy one. The last attack from the sea beasts had caused serious damage to the island. Although it did not cause a large-scale collapse, some non-defensive formations arranged inside were inevitably abnormal.

This included the invisibility formation that Wang Ba had been thinking about!

Not long after he entered the tunnel, Wang BA's divine senses discovered that his treasure, the Jade bottle of the Black Sea soul-consolidating liquid, was completely exposed outside the concealment array. Although it did not have a very obvious aura, it would be discovered as long as he scanned it with his divine senses!

If Wang BA's spirit sense could detect the Jade bottle, Lin Yi's would naturally be able to as well. There was no way he could continue hiding.

"Hahaha! He was so lucky! Boss Lin Yi, master, I suddenly remembered that I left a bottle of Black Sea soul-gathering liquid here. I only need half of it to heal my injuries and be able to serve boss Lin Yi and master better. Of course, this Black Sea soul-gathering liquid belongs to boss and master now, so it's up to you to decide how you want to use it! Please wait a moment, I'll go get it immediately!" Wang Ba knew that he couldn't hide the Black Sea soul condensing liquid in front of Lin Yi, so he decided to make it clear first. Lin Yi and Han Jing Jing probably wouldn't want to take the Jade bottle if he said that.

Han Jing Jing didn't know what the black Sea soul condensing liquid was and turned to Lin Yi with an inquiring look in her eyes. With him around, she didn't need to worry or make any decisions.

Lin Yi nodded slightly to Han Jing Jing, a smile on his face. So Wang Ba was hiding it all for this bottle of Black Sea soul concentrating liquid!

To be honest, Lin Yi already had a lot of Black Sea soul condensing liquid-it didn't really matter how much he had, but since Wangba wanted to play, Lin Yi decided that it wasn't a bad idea to play along.

"That's good. At least you're a little filial. Go and get that small bottle." Lin Yi waved his hand nonchalantly, not mentioning anything about healing him. He just went along with Wangba's words and treated the Black Sea soul concentrating liquid as his.

That little bastard! This is my Black Sea soul-consolidating liquid!' Are you addicted to snatching other people's things? Just you wait, don't let me find an opportunity. I'll definitely take all your things away!

Wang Ba cursed in his heart. The smile on his face froze for a moment, but he soon returned to normal and continued to nod and bow.

"Boss Lin Yi, master, please wait a moment, I'll go get it right away!" Wangba's heart was bleeding, but he had to put on a look of willingness. With a whoosh, he passed through the stone wall and flew to the place where the Jade bottle was hidden.

With Han Jing Jing watching him, Lin Yi wasn't worried that this guy would hide it. It was the truth-it wasn't that Wang Ba didn't think of using a portion of the Jade bottle as soon as he got it, but no matter how much he wanted to use it to recover his spirit, he didn't dare to open the bottle secretly. After all, Lin Yi and Han Jing Jing's senses were watching him. If he wanted to die, he wouldn't have waited until now.

A while later, Wangba returned to Lin Yi's side with the Jade bottle in his hand, offering it to Lin Yi with both hands.

Although han Jingjing was his master, it was obvious that all her Masters listened to Lin Yi. Wang Ba understood this very well-he'd rather please Lin Yi to make han Jingjing happy than please han Jingjing.

"Boss Lin Yi, this is the Black Sea soul condensing liquid I was hiding, please accept it!" Wangba put on a pained face-Lin Yi would only suspect him if he were to be happy right now.

In fact, Wang Ba didn't even need to act-he was acting. He really did feel the pain, and he just hoped that Lin Yi would be kind enough to give him some Black Sea soul condensing liquid.

"Very good, you've done well. As a reward, I'll give you a drop of Black Sea soul-consolidating liquid first. Continue to perform well in the future and we won't treat you badly!" Lin Yi took the bottle and flicked a drop for Wangba.

He wanted to tease the guy a little, but Lin Yi's time was really tight-there was no need to waste it on something as boring as this. He decided to give Wangba a drop of Black Sea soul-freezing liquid to keep him in suspense.

Lin Yi wouldn't be so stingy if it weren't for Wang BA's scheme. He'd at least let Wang Ba heal his spirit first, but as for now, it was just as he said-it all depended on his performance.

"Thank you, boss Lin Yi! I will definitely perform well and not let you and master down!" Wang Ba quickly used up the drop, afraid that Lin Yi would change his mind.

Although it was only one drop, it was still meat no matter how small it was. Besides, the effect of this drop of Black Sea soul condensing liquid on Wang Ba was not inferior to that of the evil spirit King in the secular world, except for the fact that it did not have any new skills.

Feeling that his injuries were getting better, Wang BA's mood improved a little. He looked at the Jade bottle in Lin Yi's hand and thought,"I'm leaving it with you for now, kid. I'll take it back with interest!"

"Boss Lin Yi, master, let's continue?" Wangba adjusted his mood and smiled as he invited Lin Yi and the others to follow.

Chapter 6083 Refining The Array Flags

They soon arrived at the triangular stone room, and Wangba started reenacting the mini-teleportation formation without Lin Yi's orders.

However, the mini teleportation formation had been completely destroyed. Time and materials were both important for building a new one. Fortunately, Wang BA's previous teleportation distance was very short, so he did not need a teleportation formation.

With their combined efforts, a passage to the independent stone room was opened. According to Han Jing Jing's estimation, if the wormhole crack was still here and had not moved, it was most likely in this passage.

"Could this be the wormhole crack?" Lin Yi brought everyone to the isolated stone room and used his spirit sense to scan around. He finally found some clues.

At the edge of the passage leading into the stone room, there was indeed a tiny space crack. It was not even as big as the most ordinary dust, let alone the wormhole exit in the center!

If he didn't have his spiritual sense and only looked with his eyes, he would probably have to use a microscope to see it.

It was no wonder Lin Yi didn't notice the crack at all. Strictly speaking, it wasn't even a crack. After all, even a needle would make a bigger hole.

If it wasn't for the fact that the formation had been overloaded and caused the space to crack, this small crack would probably never have been discovered.

"It should be. I didn't expect it to be so small." Han Jingjing stepped forward and carefully observed it with her spiritual sense. She then added, ""Fortunately, the location did not move to another place. It seems to be a stable wormhole exit."

"It's stable, but what's the use of such a small wormhole exit? Don't tell me that we have to make an overloaded mini teleportation formation to open the rift every time?" Lin Yi said as he turned to Wang Ba, wondering if the guy had the ability to make a formation that could expand the wormhole.

The damn thing could not do that for the time being. He did not have much knowledge about spatial teleportation formations. On the other hand, since Wang Ba could create a miniature teleportation formation, he must have done a lot of research.

Wangba was a sharp-witted man, and he knew what to say with one look from Lin Yi.

"Boss Lin Yi, I can think of a way to make this wormhole crack bigger. As for the stability, don't worry, it won't be any worse than this!" Ba Wang patted his chest, showing his confidence.

If he did not have the experience of wandering in the wormhole, Wang Ba might not have been so confident. However, he was quite confident now.

"You're confident? What materials do you need?" Lin Yi smiled faintly-if Wangba could really do that, then Jingjing would really be lucky.

A satisfied smile appeared on Wang BA's face. How could he miss such a good opportunity to raise the price? It was just to gain Lin Yi and Han Jingjing's trust and lower their guard-the request couldn't be too outrageous.

"Since boss Lin Yi mentioned it, then I'll tell you what I need! The ordinary array flags we used before can be used, but they will be damaged very quickly. They are far from enough to maintain the stability of the wormhole exit. If you don't have high level array flags, then gather some materials for refining array flags. I can make them myself. " Wangba knew that Lin Yi didn't have any high-level formation flags, and so he started listing out the materials before Lin Yi could even answer.

Lin Yi nodded. These weren't anything special-he had a lot of crafting materials in his loot, and they were more than enough.

Other than that, Wangba would probably ask for something special, and Lin Yi knew that. He was just waiting for him to ask.

"Hehe, boss Lin Yi, you see, making formation flags and setting up formations consume a lot of mental energy. My spirit is heavily damaged right now, and I'm afraid I can't hold on for much longer. If I can heal my spirit first, then there'll be no problem!" Wangba's eyes flickered-he was testing Lin Yi's bottom line. If Lin Yi was afraid of him, he wouldn't let him recover completely.

However, it was not bad to recover part of his primordial Spirit's injuries. Wang BA's mentality was still quite upright. As long as there was progress, he would not mind it.

Once he had enough strength and confidence, he could kill Han Jing Jing and take back control. Then, he could kill Lin Yi and everything would be perfect!

"What you said makes sense. Take this Black Sea soul condensing liquid and use it to heal your injuries. As long as you are sincere in your work, I will not let you suffer a loss!" Lin Yi waved his hand, and twelve drops of Black Sea soul gathering liquid wrapped in pure Qi were sent to Wangba.

According to his calculations, this was enough for Wang Ba to recover his spirit. As for bargaining, he was too lazy to do that. Even if Wang Ba returned to his peak state, he was still a spirit, and Lin Yi still had enough means to suppress him.

Wang Ba was surprised and overjoyed. He didn't think that Lin Yi would give him the Black Sea soul gathering liquid so easily, but he thought that Lin Yi was looking down on him.

You little brat! You dare to look down on me? I'll let you know what the consequences are for looking down on me!

"Thank you, boss Lin Yi. There's no problem now!" Wang Ba grumbled in his heart, but a bright smile appeared on his face. Then, he began to absorb the Black Sea soul-consolidating liquid. Strength was the only thing that mattered now. When his primordial spirit recovered, he would have more room to do anything.

Wang Ba refined the Black Sea soul-consolidating liquid very quickly, and the recovery of his primordial spirit was almost completed at a speed visible to the naked eye. In just a moment, his aura had increased by several times.

"Boss Lin Yi, master, I'll go make the formation flags now, please wait a moment!" After recovering, Ba Wang laughed as he picked up the storage bag Lin Yi gave him. There were all kinds of formation materials he could use. After he finished speaking, he went back to the stone room and went to another stone room with a forging pool to start making formation flags.

He didn't expect this fellow to be a high-level blacksmith. However, it was understandable that most array Masters would know how to make array flags.

There wasn't any point in them waiting here, so Lin Yi took out the flying saucer and had Han Jing Jing send Tiangang Xue Li back to the heavenly elixir Pavilion to help Shang Wanyi set up the Chamber of Commerce. He, on the other hand, kept an eye on Wang Ba. Formation flags were something he'd need in the future, and there was no harm in learning more.

Han Jingjing nodded. Nakajima was not too far from here. She could sense the progress at any time through the contact with Wang Ba. It would be fine to come back when it was almost time, so it was more appropriate to return to Nakajima to help.

#### Chapter 6084 The Second Exit Of The Wormhole

The Golden class level five automatic alchemy furnaces of the medicine sect were nothing in her eyes. As long as she wanted to, she could make golden class level Seven or even Mystic class level one automatic alchemy furnaces at any time. However, the materials were a problem. Even if she could make a few, it wouldn't make much sense. So she decided to ignore it for now and upgrade Lin Yi's Shennong cauldron.

She had never heard of a compound elixir like the recovery pill before. Of course, there was no corresponding procedure to support it. Now that she had the elixir recipe and knew the principle, it would not be a problem in the future as long as she updated it.

Even if there were higher grade compound pills, as long as they did not leave the path of the recovery pill, they could be perfectly refined after a few attempts.

Two days later, Wang Ba was done with the formation flag and the basic layout of the formation. Lin Yi didn't interfere, but he watched the whole process from the side. The two were enlightened.

It did not mean that Wang BA's array Dao was better than the ghost 's. If they were to really talk about it, the ghost was still better. It was just that Wang BA's research in the field of using arrays to affect space was more in-depth.

After the formation was set up and activated successfully, the dust-like wormhole crack suddenly became a human-sized circular light hole. Milky-white light swirled slowly in it like a vortex. He hadn't tried it yet, but Lin Yi believed that he had succeeded!

Han Jingjing had long sensed it and happened to arrive here at this time. Seeing that the wormhole's exit had been opened, her face also revealed a look of joy.

"Lin Yi bro, we did it! The exit is very stable, and there's no sign of it moving at all-it's perfect for us to use!" Han Jingjing said as she took out many devices and started assembling them. She was the true genius in this area, and neither Lin Yi nor Wangba could help.

A few minutes later, a bunch of high-end technological products filled up the space around the wormhole. Han Jingjing couldn't be bothered to talk to Lin Yi anymore as she focused on the computer.

Wang Ba looked at han Jingjing, and then at Lin Yi. He had recovered his strength, and if he had the chance, he could try to fight han Jingjing, but Lin Yi was here, and he didn't have full confidence. He could only endure it.

"Um, I can't help much here. Boss Lin Yi, how about I go and set up some new formations on the island? it's important to strengthen the defense here, right?" Wangba smiled awkwardly, thinking that it would be great if he could get Lin Yi away-even if it was just for a few breaths, he'd still have a chance to kill Han Jingjing.

The reason why he suggested setting up formations was because he wanted to retreat in order to advance. Lin Yi's obsession with formations was no less than Wang Ba's, so he thought that there was a good chance that Lin Yi would go out with him. As long as he found a chance to slip back in the middle, Han Jing Jing, who was busy with the technology, wouldn't even have the thought to resist before she was devoured by him.

Lin Yi looked at Jingjing's computer screen. He really didn't understand what was on it. He couldn't help even if he wanted to, so he might as well go up there and set up a defense formation.

After all, with the exit of the wormhole, this place would become an extremely important stronghold. The defense could not be sloppy!

"Let's go, I'll go with you. In addition to the defensive array, we need to set up some killing arrays, illusionary arrays, and so on. We must make this place as solid as an iron wall. " Lin Yi smiled faintly and walked out first.

Wang Ba was overjoyed-this was the effect he wanted. As long as Lin Yi left this place, he'd have a chance to come back and kill Han Jingjing without anyone knowing!

"No problem, boss Lin Yi, don't worry. This is a piece of cake. If we work together, this Island will be impregnable. Even a wave of sea beasts won't be able to break through our formation!" Wangba patted his chest, full of confidence. It didn't matter if it was true or not, as long as Lin Yi was satisfied.

After setting up the formation, Wang Ba had been looking for an opportunity to sneak back, but he noticed that Lin Yi's spirit sense didn't relax at all. It was monitoring his movements the whole time. It didn't seem as easy as he thought to find Han Jingjing.

"Forget it, let's wait a little longer. I heard that this brat is going to the South continent soon. As long as he leaves the middle Island, there will be plenty of opportunities to deal with that little girl. There's no need to be in a hurry!" Wang Ba did not realize that it was getting easier for him to compromise with himself. Unknowingly, he had lost his drive and became overcautious. He wanted to wait for a certain opportunity before making a move. Unfortunately, there was nothing in this world that was 100% successful.

By the time the two of them had set up the formation on the island again, Han Jingjing's test was almost done.

"Lin Yi bro, come quickly! Jing Jing fixed the coordinates for this exit, and now we can use the real wormhole tunnel. From now on, the central wormhole exit won't be the only one that can be used on Sky Class Island!" Han Jing Jing let out a small cheer when she saw Lin Yi. She jogged over and held Lin Yi's hand, her face full of praise.

"Jing Jing is amazing! If central knows about this, they'll probably vomit blood in anger!" Lin Yi smiled, naturally not stingy with his praise, but he immediately remembered the tunnel exit in the common world and quickly asked, "What about the secular world? If we share the same exit with central, we can't hide the situation here, right? Also, how can we make sure that we're transported here and not to the center?"

"Don't worry, Lin Yi bro-I've thought about this before. If we want to get to the exit, we'll have to leave a spirit mark here, and use it as a target when we teleport to the secular world," Han Jingjing had a smug look on her face. It was clear that Lin Yi's problem was within her expectations and she had already thought of a solution.

"From what you're saying, there's a second stage?" Lin Yi was very confident in her abilities-the target was fine, and the whole thing was settled. He was more interested in the other information.

"The second stage is still a bit difficult-we'll need to try a lot more. My goal is to destroy the Center's exit on Sky Class Island, so everything from the mortal world will have to go through it. That way, it won't be that easy for the center to connect the mortal world to Sky Class Island!" Han Jingjing's eyes shone with excitement!

Chapter 6085 Wang Ba Who Runs Errands

The more difficult the research was, the more interested Han Jingjing was. Destroying the wormhole exit in the center was exciting just thinking about it!

"Is it possible to achieve this?" Lin Yi couldn't help but be surprised. If he could do that, Central's development speed would be slowed down by half. This was much more impressive than destroying one or two bases!

"In theory, it's possible. Lin Yi bro, just do what you need to do. Jingjing will think of a way!" Han Jingjing clenched her fist and cheered herself on, showing Lin Yi that she was confident.

"Master is so powerful! You will definitely succeed! Boss Lin Yi, you should believe in my master. Don't worry, with me here to help master, everything will be done properly. If you need anything, just go!" Wang Ba flattered Han Jing Jing at the right time and started urging Lin Yi to leave the place.

Only when Lin Yi left and Han Jingjing was alone would he have the chance to take back the soul Control hub and devour Han Jingjing!

Wang BA's initial desire to take revenge had turned into a purposeful desire to fuse with han Jingjing! The evil spirit King had given him the devouring ability, but han Jingjing was now displaying another talent that he had never known about! To be honest, Wang Ba was very interested in han Jingjing's ability, so he wanted to try fusing with her! Perhaps he could obtain han Jingjing's heaven! Defying wisdom and dominate the world with it.

Lin Yi ignored Wangba and turned to the wormhole tunnel. He pondered for a moment. "Should I get someone to personally inform the secular world? At the very least, we need to let them know how to teleport here. "

"Just let Wangba go. Lin Yi bro, do you have Dafeng bro's photos? Let Wangba see and tell him to contact Lai Changyi and the others. I've already set up the spirit sense mark here, it's easy for them to operate. " Han Jingjing waved her hand nonchalantly. These were all small matters. Anyway, it was not the first time that Wang BA's primordial spirit had entered the wormhole transmission. He would definitely have no problem being a Messenger.

Ba Wang's face darkened. He had no interest in being teleported back and forth in the wormhole. It was too time-consuming! However, since han Jingjing had spoken, it was set in stone. No matter how unwilling he was, he did not dare to object.

"That makes sense! I think Wang Ba is very suitable, so let's do that!" Lin Yi nodded with a smile and pulled out a phone from the space in his Jade. He opened the gallery and showed Wangba the photos of the people from the common world.

Wang Ba forced out a fake smile and looked at the photo respectfully. He patted his chest and said, ""Boss Lin Yi, master, don't worry, leave this to me, I'll do it perfectly! It's just going back and forth to the secular world, no big deal. Wait for me, I'll be back soon!"

After saying that, Wang Ba turned his head and floated towards the wormhole. These two little B \* stars didn't even have the time to discuss. They really had no rules. I won't argue with you for now. I'll deal with you when I come back!

Knowing that he could not refuse, Wang Ba did not bother to waste his time. He rushed into the wormhole and began a new teleportation. This time, Han Jing could observe carefully and estimate the time needed for the teleportation.

"Jing Jing, this ten-thousand-year turtle is very cunning. Are you sure you can control him?" Lin Yi asked as he watched Wangba disappear into the wormhole.

On the surface, Wang Ba seemed to be cooperating, but Lin Yi was still worried about him. He felt that this guy wasn't someone who would give up so easily, just like Yu Yi in the ancient martial world.

This kind of person was different from the rest of his followers. They used to stand at the top of the Sky Class Island, and they wouldn't easily surrender. After all, they used to be glorious, so how could they compromise so easily?

However, it didn't matter to Lin Yi if he could control Wangba or not. After all, killing Wangba was as easy as lifting a finger-the key was han Jingjing's safety!

If he could not be 100% sure that han Jingjing could suppress Wang Ba, he would rather not have this primordial soul puppet.

"Lin Yi bro, don't worry. I know that Wangba isn't honest, but it's not that easy for him to deal with me. As long as I have the slightest bit of time to react, I can kill him!" Han Jingjing was very happy with Lin Yi's concern. As for Wang BA's threat, she didn't think much of it.

"What if he doesn't even give you a moment to react?" Lin Yi frowned-this was a huge loophole. With Wang BA's spirit strength, he might not even have time to react if he launched a sneak attack on Han Jing when she wasn't prepared.

"Actually, the soul hub that controls Wangba has merged with Jing Jing's own soul as well, so it can't be separated from me. If something happens to me, he'll die with me, and if he's killed by someone else, my soul will suffer a certain level of backlash. If it weren't for that, Jing Jing would've given Wangba's control to Lin Yi bro long ago." Han Jingjing's expression turned serious. The method she used to control Wang Ba was from the evil spirit Warlock in Europe. It was impossible for her to not have any restrictions. However, as the controller, she still had an advantage.

For example, the three evil spirit warlocks from before. After the evil spirits they raised were destroyed, their own souls would also suffer a backlash. However, because their strength was too low, the effects were not too obvious.

If han Jingjing had ignored the evil spirit and killed the three evil spirit warlocks, the evil spirits they had raised would have disappeared with the death of their owners.

Han Jingjing had only just found out about the situation, but Wang Ba did not know anything about it. Even if he did, he would not let it go easily.

After a short pause, han Jingjing added, ""When Wang Ba returns, I'll explain the situation to him. He'll know that if something happens to me, he'll die. I don't think he'll have any other thoughts."

"You're underestimating Wang Ba! This guy won't believe what you say. He might even think that you're trying to scare him and make up his mind to attack. To play it safe, if there's anything wrong with him, kill him directly without the slightest hesitation!" In Lin Yi's heart, even a hundred Wangba's wouldn't be worth a single strand of Han Jing Jing's hair. If something really happened, he wouldn't be soft-hearted at all.

"Jing Jing knows! Lin Yi bro, don't worry!" Han Jingjing smiled sweetly, patted her body, and said, ""There's one more thing I forgot to mention. Didn't the armor shoot out with my primordial spirit last time? after it was broken down and reassembled in the wormhole, although it was slightly damaged, it has already become a protective layer on the surface of my primordial spirit. Ordinary deified soul attacks can't do anything to me at all, so if Wang Ba wants to ambush me, he'll definitely be the one to die in the end!"

Chapter 6086 Wormhole Activation Successful!

"That good? It actually turned into a primordial spirit defensive item?" Lin Yi was finally able to relax. As long as han Jingjing had time to react, Wangba wouldn't be able to do anything to her. Wait for the next life!

As for the armor, Lin Yi was quite interested in it. Could it be that the wormhole had the ability to create items like that? If he could replicate this process, the safety of the people around him would be greatly improved in the future.

"I'll wait for Jingjing to study it and make one for Lin Yi bro!" Han Jingjing wanted to give her armor to Lin Yi, but it was connected to her spirit and she couldn't take it off.

In other words, the primordial spirit defensive props created in this way would directly recognize its master. It was definitely impossible to mass-produce and sell them. He couldn't possibly let these people go into the wormhole for a day, right?

The two chatted for a while more-Lin Yi was much more relaxed now that Wang Ba wasn't a threat to Jingjing. The Shennong cauldron's upgrade was complete, and he didn't try making elixirs right away. It was rare for him to be alone with Jingjing, and there wasn't anything special going on between them-he couldn't just waste time.

The pleasant conversation lasted for half an hour, and the two felt like time had passed by in a flash. Wang Ba, on the other hand, had returned to Sky Class Island from the secular world within half an hour.

"Boss Lin Yi, master, I'm glad you did! I've already contacted your people over there. It just so happens that Da Feng is at the wormhole's entrance today. After I've had a secret talk with him, we've already arranged a time to try and transport things over. " Wang Ba did not seem to feel uncomfortable with the teleportation. He came to the two of them to claim credit as soon as he came out.

However, there was still a trace of regret in her eyes as she looked at Lin Yi. Why was this stupid kid still here? Didn't he say that he was in a hurry to go to the South continent? You only know how to hang around a little girl all day, useless!

"What time have you decided to try teleporting?" Lin Yi couldn't be bothered with what Wang Ba was thinking-he was focused on the wormhole's ability.

Although Wang Ba had tried to connect this place to the mortal world, primordial spirits and objects were different. Whether Han Jing Jing's settings were successful or not would depend on her subsequent attempts.

"That Dafeng said that it will start ten minutes after I left. First, it will send a mobile phone, second, a laptop, and third, a sniper rifle ... What the hell is this?" Wang Ba was a loyal repeater. Other than the last sentence, Da Feng's meaning was still conveyed very well.

The three designated teleportations were obviously to ensure that there would be no mistakes in the middle. If the three items were not received, or the order of receiving was wrong, it meant that there was a problem. It was not suitable for the teleportation of a large number of items, especially important items.

If the order of the items was correct after three times, then he could basically be sure that this wormhole tunnel could be used, and the heavenly pill Chamber of Commerce's supply of goods would be guaranteed.

"You've done well. You've worked hard this time. Go and rest first. We'll wait for the things to be sent over from the secular world." Lin Yi gestured for Wangba to move to the side before turning back to chat with han Jingjing.

The corner of Wang BA's mouth twitched unnoticeably, and he almost couldn't help but launch an attack. What kind of attitude was this brat showing? 'I've worked so hard and achieved so much, and you're just going to dismiss me with a wave of your hand? Shouldn't he at least give a few drops of the Black Sea soul condensing liquid as a form of consolation? What a stingy bastard! If it wasn't for the fact that I can't beat you two, I would've killed you long ago!

In the end, the indignant Wangba didn't have any objections. He floated to the side and continued cursing Lin Yi and han Jingjing in his heart, but he kept a bright smile on his face. It was really hard on him.

A few minutes later, the light vortex at the exit of the wormhole started spinning faster and faster, and a palm-sized thing flew out. Lin Yi waved his hand and easily changed the thing's trajectory, making it fall into his palm without any damage.

"First time, cell phone! It seems like the chances of success are very high!" Lin Yi and Han Jingjing looked at each other and smiled. If there was no problem on the first try, then they were already halfway to success.

He turned the phone on, and the item function wasn't affected by the teleportation. It entered the user interface quickly, and Lin Yi found the video to play. There was indeed a video Dafeng bro recorded.

"Boss Lin Yi, if you see this video, remember to reply to me too! By the way, we all miss you, so we'll come back to visit you when we're free!" At the end of the video, brother Dafeng even winked with an expression that said, "you know what I mean."

Lin Yi couldn't help but smile. This Dafeng bro was really meticulous, and he didn't leave any room for error. This short video made Lin Yi sure that the phone was part of his plan, and even if he was sent to central, it wouldn't raise their suspicion. No wonder he could be a spy for so long and was getting better and better. If it wasn't for the ancient little Jianghu base incident, his identity might still be hidden.

"Lin Yi bro, Dafeng bro's really a talent. Jing Jing gave him the detailed method, but he was able to complete the teleportation in such a short time. He's pretty good too. If there's a chance in the future, I'll bring him to Sky Class Island—he'll be more useful," Han Jingjing giggled and praised brother Dafeng. As their research on wormholes deepened, it was very likely that they would be able to complete the teleportation of living beings in the future. At that time, it would be more convenient to travel between the sky Island and the secular world.

"You're right, brother Dafeng is a talent. It'd be good to have him come to Sky Class Island to help out." Lin Yi smiled and nodded before deleting the video.

After the third time, Lin Yi would send the phone back to the common world. It wasn't convenient for him to record a reply video as it would expose the wormhole tunnel. With Dafeng bro's intelligence, he could see the missing video and understand Lin Yi's intention immediately.

No reply was actually the best reply!

A few minutes later, the speed of light increased again, and a laptop flew out. This time, Dafeng didn't add any information on it. If Lin Yi didn't get the first phone, it would be a failure, and there was no point in saying anything.

If Lin Yi received the phone, he wouldn't need to say anything for the second time.

There was no problem with the laptop either. Everything was normal. After two teleportations, he could basically confirm that the items would not be damaged during the teleportation process.

Chapter 6087 Probing And Sneak Attack

The last AK47s came in a few minutes later. Lin Yi didn't know what this thing was for, but the practitioners on Sky Class Island wouldn't be afraid of AK47s no matter how weak they were, unless they were normal people who couldn't practice at all. But against normal people, they could kill a bunch with a single slap-who would carry an AK47 around for no reason?

"It's probably used by the guards at the exit over there, and brother Dafeng used it as a test subject. " Han Jingjing guessed with a smile. It didn't matter whether it was true or not. After three tests, it was confirmed that the wormhole tunnel connecting Sky Class Island to the secular world would officially become two from today on!

Perhaps it would return to one not long later, but the one that would disappear would definitely be the one in the center!

"I'll go back to Middle Island immediately and ask Tian Ji to arrange the opening of the heavenly elixir Chamber of Commerce. Although we have our own wormhole exit, we still have to use the central area for a while, in case they suspect where we get our secular world goods from. " After sending his phone back to the common world, Lin Yi was ready to go back to Nakajima.

They needed Han Jing Jing to stay behind for some adjustments, so Lin Yi had to go back by himself. They didn't mention Wangba at all, as if they'd forgotten about him.

Wang Ba was overjoyed, not feeling anything wrong at all. He even prayed that Lin Yi and the others wouldn't suddenly think of him.

After Lin Yi left, it would be the time for him to make his move on han Jingjing! However, Wang Ba did not consider the possibility that this might be a test for him.

Lin Yi and han Jingjing didn't say it out loud, but they understood each other. One look was enough to understand each other's thoughts. Plus, they'd just talked about Wangba, and it was necessary to test Wangba's loyalty.

Han Jing Jing and Lin Yi worked well together, and even if it was just a random thought, she would understand it immediately. Since Lin Yi bro wanted to test Wangba, then so be it. It wasn't a big deal.

"Jing Jing, Da Feng should be sending a large amount of goods over in a while. Take this storage ring first. It'll be easier to load the goods when the time comes." Lin Yi remembered the storage ring he got from the northernmost Island-it was quite suitable for transporting goods, so he gave it to Han Jing Jing.

This added fuel to Wang BA's fire. Even a 10000-year-old tortoise like Wang Ba would rarely see a storage ring. Otherwise, he would have kept his creation battle technique and the myriad amplification array in his storage ring.

As expected, Wangba's eyes lit up when he saw the storage ring. He tried to hide it immediately, but the fire in his heart couldn't be extinguished.

A storage ring! Even 10,000 years ago, it was not something that just anyone could have! It was true that Wangba had his eyes on the storage ring, but Lin Yi giving it away so casually made him feel even more enigmatic.

'This brat is so generous. It seems that there are a lot of good things. Hmm, I can't let go of this big fish!'

Lin Yi scanned Wangba with his spirit sense and laughed coldly inside. Rather than burying this ticking time bomb next to han Jingjing, he'd better detonate it as soon as possible.

Han Jing Jing said that she wasn't afraid of Wang BA's sneak attack, and Lin Yi believed that it was the truth. However, he had to be on guard-what if Wang Ba colluded with outsiders to plot against Han Jing?

Therefore, he had to light a fire in Wang BA's heart first. If he couldn't help but jump out, he would be roasted on the fire directly! Lin Yi would never let this guy go if he dared to hurt han Jingjing!

Han Jingjing took the storage ring and looked at it with interest. She didn't care how precious it was-it was a gift from Lin Yi bro, and it was a ring too! She'd be a fool to reject it!

Of course, what she was more interested in was how to make a storage ring. She'd already done some research in this area. For example, Lin Yi's flying saucer also used spatial technology, but it wasn't at the level of a storage ring.

He would do some research on it later. Perhaps he could mass-produce storage rings. Not only would it be convenient for his own people to carry things around, but it would also be a powerful product of the heavenly elixir Chamber of Commerce. Each one of them could be sold at a sky-high price.

"I'll be leaving first. It won't take long to go back and forth to Nakajima. I'll be back soon after I've made the arrangements." Lin Yi waved his hand with a smile, and Han Jing nodded as she watched him leave.

"Wang Ba, go to the secular world again and tell brother Dafeng that he can start transporting the supplies!" After Lin Yi entered the tunnel and left, Han Jing suddenly called Wangba to go to the wormhole again without warning.

Wang Ba was thinking about how long it would take for Lin Yi to leave the island. He wanted to reject it, but Lin Yi was still in the tunnel. He could turn back at any time. It didn't seem right to reject han Jingjing's order.

"Yes Master, I'll go immediately!" All sorts of thoughts flashed through Wang BA's mind, but he did not show any hesitation on the surface. He simply agreed and entered the wormhole.

As soon as he entered the wormhole, Wang Ba snickered in his heart. Hehe, you little girl, you want to send me away? do you think you'll be fine? Did he forget that entering the wormhole did not necessarily mean that he would be teleported back?

It was not difficult for Wang Ba to leave the teleportation tunnel. He soon left the teleportation and began to wander in the wormhole.

With Lin Yi's speed, it wouldn't take long for him to get away from the island, and Wang Ba thought that he'd be able to catch Han Jingjing off guard if he waited a little longer.

What he didn't know was that Lin Yi had already returned to where he was the moment he entered the wormhole. He looked at Han Jing Jing in admiration and didn't say anything. He took out a level eight invisibility formation disk and placed it in a corner. He concealed his aura and hid himself.

He'd wanted to pretend to leave and sneak back, but Jingjing was smart enough to send Wangba into the wormhole.

He could see what was going on outside from the inside, but he couldn't use his divine sense the moment he entered. Wangba didn't notice Lin Yi coming back at all.

Lin Yi wasn't worried at all about whether a level eight formation disk could hide from Wang Ba-the guy's formation skills weren't the same as this one. He was better at other formations, and Lin Yi had some damn thing on his side that modified the formation disk-it shouldn't be a problem for him to hide from Wang Ba for a while.

After a while, Wang Ba returned to the exit of the wormhole. He did not dare to use his divine sense to check too carefully as he was afraid of alerting han Jingjing. He only took a rough look and made sure that han Jingjing was alone. Then, he rushed out with all his might.

#### Chapter 6088 Defeat Until Convinced

At this time, han Jingjing was fully focused on the storage ring Lin Yi gave her. Her back was facing the exit of the wormhole, and Wang Ba had a smug smile on his face. He activated his fusion and devour ability at full power. As long as he could enter han Jingjing's body, he could control her spirit instantly.

Once he regained control of the essence Soul Control hub, it would be entirely up to Wang Ba to decide whether he would treat han Jingjing as an essence soul puppet or possess her!

Unfortunately, reality was cruel. Wang Ba thought he could enter han Jingjing's body without any effort, but he could not even get close to her skin. A layer of illusionary armor automatically appeared on the surface of han Jingjing's body, blocking Wang BA's way.

He had miscalculated! This little girl actually had this kind of armor that could defend against primordial spirit? 'Isn't this F \* cking cheating me?

Wang Ba was shocked. Although the armor was on the verge of collapsing under the impact, Han Jing Jing could definitely feel it!

As an immortal soul Stage puppet, he knew that his master could turn him into ashes with a single thought. So, should he continue to attack, or should he stop and admit his mistake? To fool this time and find another opportunity?

Before Wang Ba could figure it out, a bolt of lightning appeared out of thin air and struck his primordial spirit directly, causing him to have the illusion that his soul was about to be destroyed!

Lin Yi! This brat is also hiding at the side? The two of you are really working together to trick me! What the hell, is there still justice?

Wang Ba really wanted to cry but had no tears. The lightning that caught him off guard immediately caused him to be seriously injured. His primordial spirit, which had been repaired with the Black Sea soul-consolidating liquid with great difficulty, became illusory again.

"Boss Lin Yi, master! A misunderstanding, this is a huge misunderstanding!" Wang Ba shouted loudly. Although he was only a primordial spirit, his voice sounded like he was exhausted.

Lin Yi had already appeared beside Han Jingjing like a ghost, smiling coldly at Wang Ba. He could have attacked the moment Wang Ba appeared, but Han Jingjing wanted to test the armor's defense. Plus, Wang Ba didn't want to kill her at first, he wanted to enter her body, so he had to wait.

But that was all there was to it-Lin Yi wasn't going to give Wang Ba a second chance. If it weren't for the fact that killing this bastard would cause a backlash to Han Jing Jing's essence spirit, Wang Ba wouldn't even have the chance to speak.

Han Jing Jing slowly turned around and nodded with a smile that was not a smile."Is it a misunderstanding? Then why don't you explain to me what kind of misunderstanding this is?"

Lin Yi bro was right-this ten thousand year old bastard was an ungrateful Wolf, and she had to be careful of him.

Even though she was sure that Wang Ba had the intention to kill her, Han Jing Jing was not prepared to kill him just like that. After all, he was a powerful primordial spirit, and he could still be of some use after she had completely subdued him.

"Thank you, master. I'll explain this misunderstanding immediately!" Wangba bowed gratefully, his mind spinning as he tried to come up with a reasonable explanation, but Lin Yi lost his patience before he could.

Another bolt of lightning flashed by, tearing a small piece of Wang BA's primordial spirit and completely annihilating it. The heart-wrenching pain almost made Wang Ba scream.

"Boss Lin Yi, boss Lin Yi, let's talk this out ... Let's talk this out ..." Ba Wang endured the pain in his soul and forced a smile.

"What else is there to say?" Lin Yi smiled faintly as another bolt of lightning flashed by. He couldn't kill this bastard yet, so he'd make him suffer first.

"Lin Yi bro, don't be too angry. I'm fine anyway, and if he really dies, Jing Jing's spirit will suffer a backlash." Han Jing Jing shook Lin Yi's arm as if she was pleading for Wangba, but she was actually giving Wangba some information.

If I die, this little girl will suffer a backlash? If she died, what would happen to me? Although Wang Ba was in great pain, he did not miss a single piece of information. Han Jing Jing's words only flashed across his mind for a moment before he more or less understood what she meant.

Then, his expression became more and more unsightly. It seemed that he had suffered in vain this time. In the future, if he couldn't instantly seize the primordial spirit control hub, he would have to risk his old life to protect this little girl. Otherwise, if she died, he would also be buried with her.

"I'm not angry anymore. It's just that this guy needs to be taught a lesson. Don't worry, he won't die. " Lin Yi raised his hand with a smile, and another bolt of lightning came down before he stopped, satisfied.

At this time, Wang Ba had returned to the state before he fused with the evil spirit King. Han Jing Jing could easily crush him without controlling the hub.

It was a pity that the dozen drops of Black Sea soul concentrating liquid were wasted because of Wang BA's mistake. Fortunately, Lin Yi still had a lot of it, so he didn't feel bad.

"Ten-thousand-year turtle, now you can tell me what the misunderstanding is about!" Lin Yi smiled faintly. If he still didn't want to listen to Lin Yi after this, then ... He'd just have to continue!

"Boss Lin Yi, master, it's my fault, there's no misunderstanding! I deserve to die! I promise there won't be a next time. Please be magnanimous and forgive me this once?" Wang Ba pulled a long face and did not try to quibble. No one was a fool, and they all knew what was going on. If they continued to talk nonsense, they would only be asking for trouble.

"Jing Jing, this is your primordial soul puppet. You can decide how to deal with it, I don't care!" Lin Yi didn't bother with Wangba-the guy might look like he'd been beaten up, but it wouldn't be that easy for him to admit his mistake.

Wangba wasn't a threat anymore, so Lin Yi decided to let Jingjing decide for herself.

Wang Ba squeezed out a flattering smile, but he was still cursing in his heart. 'You little bastard, you know I'm that little girl's primordial soul puppet, but you still hit me so hard. Now you're telling me that you won't interfere, do you have any shame?'

"Lin Yi bro, you go! Jing Jing will continue to take care of him!" Han Jingjing smiled sweetly, telling Lin Yi not to worry. She even waved her little fist at Wangba.

Wangba frowned, as if he'd change for the better. He only hoped that Lin Yi would get out of here as soon as possible-he felt a chill in his heart with him here.

Lin Yi glared at Wangba coldly and said a few more words to han Jingjing before leaving. He did need to make some arrangements at Nakajima-he'd have to see if this ten-thousand-year turtle was honest or not later.

As for whether or not han Jingjing would teach Wangba a lesson, Lin Yi didn't have high hopes. The girl was kind, and she probably wouldn't make things difficult for him even if she didn't need to beg for mercy.

#### Chapter 6089 The Chamber Of Commerce's Plan

Back on the island, the central Chamber of Commerce had just delivered the goods Lin Yi had the secular world prepare. They knew that they were going to use it to fight the central Chamber of Commerce, but they didn't dare to do anything.

Pinliang was in charge of the central Chamber of Commerce in Nakajima, and he wouldn't make things difficult for these things. The higher-ups had already instructed him not to mess with Lin Yi for the time being, so he just had to do as he was told.

"Brother Lin, the preparations for the Chamber of Commerce are almost done. We can open for business at any time. This batch of goods came in time. When do you think we should open?" Shang Wanyi's face was red as he greeted Lin Yi as soon as he saw him.

With the low-end and mid-to-end products of the secular world as the main focus and the high-end pills as the top-class products, the heavenly pill Pavilion Chamber of Commerce had the characteristics of a successful Chamber of Commerce from the very beginning.

As the President of the Chamber of Commerce handpicked by Lin Yi, not only did Shang Wanyi feel proud and elated, but he also had the freedom to display his talents and ambitions at will. From this point, he really should thank the Wantong Chamber of Commerce. If it weren't for their coercion, how could Shang Wanyi have the current him?

The only ones that worried Shang Wanyi were Tian Gang and Xue Li. After all, the heavenly elixir Chamber of Commerce had merged with the original heavenly elixir chamber. Not only were they the original managers, but they were also Lin Yi's women. If they were held back, it would be hard for him to do anything no matter how strong he was.

It wasn't that Shang Wanyi was looking down on Tian Gang Xue Li, but the two of them really didn't have much business talent. The heavenly elixir Pavilion was completely supported by Lin Yi's elixirs, and Tian Gang's alchemy skills weren't bad either, but there were many people around her level. At least the famous medicine sect was enough to suppress Tian Gang.

With the support of Lin Yi's elixirs and the help of the acting Island master, ao Tian Zhou and vice Island master, Tian xingdao, the heavenly pill Pavilion could only barely tie with the famous medicine sect. In terms of business tactics, Shang Wanyi did have the right to look down on the two.

"Brother Shang, you have full authority over the Chamber of Commerce. If you need me to appear, just say it! After you decide on the opening time, use our name to invite the famous people of Nakajima. We must make sure that the heavenly elixir Chamber of Commerce's name is known. As for the various business operations after the opening, I won't interfere. You'll have to take care of it!" Lin Yi smiled, showing his trust in Shang Wanyi and his attitude of not doing anything.

After a slight pause, Lin Yi continued, "There's also Tian Ji and Xue Li. From now on, they won't be in charge of the Chamber of Commerce's External Affairs. I'll let them be in charge of the logistics of the Chamber of Commerce so that they won't have to show up in public. To be honest, these two girls are not very good at doing business, so you'll have a hard time in the future. You'd better be mentally prepared!"

"I understand. Thank you, brother Lin!" Shang Wanyi was silent for a while before nodding hard. He'd been in the business world for so many years, and he naturally knew that Lin Yi was giving him full power-he didn't even have any checks and balances.

As a person in power, this was not something he should do, but as a person, he was grateful for Lin Yi's absolute trust in Him. Putting aside the fact that Lin Yi saved his life, just this heavy trust was enough for him to go through fire and water, even if he had to sacrifice his life for Lin Yi.

"We're all family, you don't have to be so polite in the future," Lin Yi waved his hand casually and continued,"Brother Shang, I have something to do in the South continent, so please arrange the opening of the Chamber of Commerce as soon as possible. Don't worry about the follow-up supplies. I'll leave after these things are arranged."

"Good! The preparations for the opening are almost done, and we can open tomorrow at the earliest. Today, we will send invitations to the important people in Nakajima, and then arrange the display of the goods. I think it will be done before dark. " Shang Wanyi nodded and did not say any more words of thanks. He immediately got into character and took out the fastest plan.

"Then let's do it tomorrow! If there's anything I can do for you, just let me know. " Lin Yi was satisfied with the timing-he'd be able to rush to the South continent after he'd finished his business tomorrow. He wondered if LAN Guzha had made any progress there.

Shang Wanyi hesitated. Although Lin Yi said that he had full authority in the Chamber of Commerce, this was Lin Yi's assets after all. Some decisions should be made by the owner.

"Lil bro Lin, I still want to ask for your opinion on the pricing of the goods! I've looked at the items sent by the central Chamber of Commerce this time. They're basically the same as the ones they're selling. Or is it slightly cheaper?" Actually, Shang Wanyi wanted to ask if he should sell it at a higher price. After all, it was from the central Chamber of Commerce, so wouldn't the cost of purchase be higher?

However, if the price was higher than the central Chamber of Commerce, the heavenly pill Pavilion Chamber of Commerce would not have any advantage at all. The central Chamber of Commerce had already gained the absolute advantage. If the quality was the same, the price would not have an advantage, and they would definitely be defeated.

Lin Yi pinched his chin. He knew that Dafeng's goods were of a higher grade than the central Chamber of Commerce 's. After all, the central Chamber of Commerce's goods were all eliminated. It was cheaper, and they could still be sold on Sky Class Island anyway.

It was the same the other way around-the spiritual herbs that the central Chamber of Commerce sent to the secular world were also the lowest quality goods on the Sky Class Island, but they became extremely precious spiritual herbs in the secular world.

It was through this method that the central Chamber of Commerce was able to maintain its rapid development in both worlds. If Lin Yi wanted to beat the central Chamber of Commerce, he first had to have better quality than their junk.

Lin Yi understood this, but Shang Wanyi didn't. In the eyes of the people on Sky Class Island, the mainstream goods and the eliminated goods weren't that different-it all depended on the price.

"As for the pricing, let's refer to the central Chamber of Commerce's similar products. In the first few days of opening, we can offer a discount on this price. You can control the specific operations yourself." Lin Yi didn't give too many instructions-as long as they could distribute the goods, people would quickly realize that the heavenly elixir Chamber's goods were of better quality, and their reputation would naturally improve.

Lin Yi's goal would be more or less achieved by the time both sides started the quality war. He'd increase the central Chamber of Commerce's purchasing costs and reduce their development funds, and then he'd start the price war. It didn't matter if they didn't make money, since he didn't need money as urgently as central. At most, he'd just take out some high-tier pills to auction.

If Han Jing Jing could destroy the wormhole exit, Central's development would stop, and Lin Yi's advantage would be even more obvious.

Chapter 6090 Behind The Guests

These plans weren't complete yet, and Lin Yi didn't plan on telling Shang Wanyi about it. He just needed the heavenly elixir chamber to develop as usual.

"I understand! Then I'll go arrange the opening and the guest list. " Shang Wanyi nodded, beckoned to Lin Yi with a smile, and left.

With Lin Yi setting the tone, Shang Wanyi only needed to follow this direction and he believed that he wouldn't let Lin Yi down.

Shang Wanyi was extremely efficient. Before the sky turned dark, the bottom level of the heavenly pill Pavilion had been redecorated. The originally empty Hall was now filled with various secular goods. They were all arranged in an orderly manner, without any sense of disorder.

Other than that, the list of people who needed to be invited was sent out immediately after Lin Yi had a look. It basically covered all the famous people on the island, and more than half of them replied on the spot, saying that they would definitely come to the opening ceremony tomorrow.

Lin Yi was very satisfied with Shang Wanyi. Seeing that there was nothing much to do, he returned to the island and accompanied han Jingjing to research the wormhole and receive the goods from brother Dafeng.

Wangba was finally obedient after being beaten back to his original form. He didn't dare to go left or right this time. He didn't dare to stand up when Lin Yi told him to. Lin Yi was afraid that he would die just like that. At least he gave him a drop of Black Sea soul condensing liquid to stabilize his condition.

The next morning, Lin Yi returned to central island to attend the opening ceremony of the heavenly elixir Chamber of Commerce. Although it was stated that the chairman of the Chamber of Commerce was Shang Wanyi, the higher-ups of central island all knew who the master behind this was, so he had to appear.

"Master Lin, congratulations! The business was booming! Please take care of me in the future!"

"Brother Lin, you're really fast. You're already starting a trade association. Congratulations ..."

"Lil bro Lin, with you joining us, the competition will be even more intense in the future! But I still have to congratulate you. I wish you a prosperous business and a lot of money ..."

"Congratulations, Master Lin ..."

People from all walks of life came to congratulate him, and those who were on good terms with him called him "lil bro Lin," while those who called him "Master Lin" were the ones who didn't. People didn't even call him "young hero Lin," and it was clear that Lin Yi's status in Nakajima was different from before.

Ao Tian Zhou and ao Tian BA had come. Hou guanqi was the representative of the pill Hall, and Cai Zhongyang had also come to congratulate them on behalf of the five elements Chamber of Commerce. Just this small detail showed that the higher-ups of the five elements Chamber of Commerce had the intention of forming an alliance with the heavenly pill Pavilion Chamber of Commerce.

Other than these friendly forces, the central Chamber of Commerce sent someone as well, but it wasn't convenient for Zhong pinliang to come directly, and Zhaoming didn't want to see Lin Yi gloat, either. They only sent a normal executive representative.

The Hong Chamber of Commerce, which had been busy with the central Chamber of Commerce recently, also sent someone to congratulate Lin Yi. After all, Lin Yi was the honorary Vice President of the Hong Chamber of Commerce. However, Lin Yi didn't know who this person was and didn't know which Department he was from. He just greeted him.

Wei shenjin's status in the snow sword sect could be used as a representative, but as Lin Yi's follower, he had been running around to help out. In order to show the importance of the heavenly pill Pavilion, the snow sword sect sent another elder to congratulate.

"Boss, the sect leader of snow sword sect asked me to tell you that we really can't get away this time, so we can't come here personally. We're very sorry." Wei shenjin suddenly remembered something and quickly explained to Lin Yi in a low voice.

"It's okay, it's a small matter. " Lin Yi smiled faintly and waved his hand, telling him to go back to serving the guests.

Shang Wanyi's name list was definitely filled with the heads of the various families. However, the people who came today were all his deputies or even his deputies 'deputies. It looked like they were giving him face, but they actually didn't think much of it!

The news on the northernmost Island should've spread all over the middle Island in these two days, and with Lin Yi's status, even if he didn't send an invitation, the big shots would find an opportunity to get on his good side. After all, a Mystic class level two refiner was hard to get on his good side, not even in the East continent. Now that the invitation was in their hands, none of them came?

Thinking about it carefully, this situation was a little weird. Lin Yi said it was fine, but he was very confused.

With Shang Wanyi taking care of the guests, Lin Yi didn't have to worry about it. He decided to take the opportunity to talk with the AO Tianzhou and ao Tianba brothers.

"Ao Tian brothers, did something happen today?" Lin Yi didn't stand on ceremony as he asked the two directly after they sat down.

Speaking of which, ao Tian Zhou seemed to be the leader of the only faction here today. He was the acting Island owner, but Lin Yi appreciated it.

Other people might not know about this, but the AO Tian state definitely knew. Not to mention the identity of the acting Island master, just the AO Tian family's representative on the surface was enough for him to know anything that happened on the island.

"Lil bro Lin, you don't have to worry about that. They're not targeting you." Ao Tian Zhou smiled and waved his hand. He had no intention of hiding anything.

Ao Tian BA snorted with a look of disdain. It seemed like he knew the reason behind this.

"Lil bro Lin, you don't have to worry about them. It's just that the old guys behind them haven't decided what to do with you yet, so the people below don't dare to pick sides. Actually, with your identity and ability, which of those old guys wouldn't want to rope you in? It's because of the uneven distribution that we're in a temporary stalemate. " Ao Tianba didn't make it clear or obscure, but Lin Yi understood instantly.

It turned out that the ancient families of Nakajima didn't show a clear attitude, so those families and sects on the surface didn't dare to send their leaders. It was like everyone eating at the same table. When a dish was served, the boss didn't touch his chopsticks, but who dared to reach out first? Do you want to die after eating?

Right now, Lin Yi and the heavenly elixir Chamber of Commerce were like the dishes that had just been served, waiting for the bosses to start eating!

To be honest, Lin Yi didn't like this feeling at all-he wasn't strong enough! If his strength was enough to crush the old monsters of the sea crushing stage, he didn't need to send any invitations, and the Masters of these ancient families would rush to curry favor with him.

At the end of the day, a Mystic second level Alchemist was a noble status, but to truly gain everyone's respect, one needed absolute strength!

"Third brother, don't say such useless things. I've already said that this isn't directed at Lil 'bro Lin!" Ao Tianzhou laughed as he diverted ao Tianba's topic before turning to Lin Yi."This isn't the first time this has happened. It should be said that every time a new force is about to rise, a similar situation will happen. The main reason why the leaders of the various sects and families don't come personally is to leave a way out for themselves. Don't bother with them."
