

## Bodyguard 6091

### Chapter 6091 The Troublemaker Is Here

"I understand. It's not a big deal." Lin Yi smiled faintly-he understood what the heads of the houses were thinking. They'd send someone with enough power to congratulate them, so they wouldn't offend Lin Yi and the heavenly elixir Chamber of Commerce too much. If they didn't show up, the ancient houses wouldn't have anything to say either. It was a safe way to avoid offending either side.

After thinking about it, there was nothing to criticize about it-Lin Yi wasn't that petty. Even if they were angry, their target would be the ancient aristocratic families.

What was the saying again? Today you ignore me, tomorrow I'll make you out of your league! One day, they would regret their underestimation of the heavenly elixir Chamber of Commerce!

This matter was over, and ao Tianba did not say anything more. After today, he would leave Nakajima. It was rare for him to meet his second brother, so it was good to take this opportunity to say a few more words.

A while later, Wei shenjin came up to report that most of the guests had arrived and invited Lin Yi and the AO Tianzhou brothers down for the ceremony. The three of them went down together.

The so-called opening ceremony didn't have too many red tape. It was even simpler than the opening of a company in the secular world. However, it was still lively. In any case, it was just a gathering of people to have fun and announce the establishment of the Chamber of Commerce. It was enough to let everyone know that there was such a thing.

"Wow, what a lively scene. I didn't expect that a traitor of our Wantong Chamber of Commerce could become the president of the heavenly elixir Pavilion Chamber of Commerce. It's obvious that the heavenly elixir Pavilion Chamber of Commerce isn't that great!" As soon as the opening ceremony ended, hirakazu came in with a few people from the Chamber of Commerce. He had a sneer on his face and his words were sarcastic and mean.

Lin Yi's face darkened as he narrowed his eyes. It seemed like he didn't give him enough of a lesson-this guy had forgotten about the pain and was provoking him again, and at the opening of the heavenly elixir chamber!

Who gave him the courage? Liang jingru? Alright, no one would understand this, Lin Yi thought to himself. It was just a small character anyway, and he didn't want to show his face. He'd leave it to Shang Wanyi.

Since Shang Wanyi was in charge of the heavenly elixir Chamber of Commerce, it would seem too useless for Lin Yi to step in for such a small problem.

"Hiraishi Amakusa, are you here on behalf of the Wantong Chamber of Commerce or on your own?" Shang Wanyi was not angry at all. He took two steps forward with a calm expression and asked hirakazu indifferently.

From Shang Wanyi's personal point of view, he was not willing to send an invitation to the Wantong Chamber of Commerce. However, from the heavenly elixir Pavilion Chamber of Commerce's standpoint, the invitation had to be sent. As for whether the Wantong Chamber of Commerce would send anyone, it did not matter.

Shang Wanyi did not mind that no one from the Wantong Chamber of Commerce had come earlier. He did not expect that they had held it in until now to jump out and cause a scene, right?

If Hirata Shen said that he was here on behalf of the Wantong Chamber of Commerce, it would be equivalent to him declaring war with the heavenly elixir Chamber of Commerce. If it was just his personal behavior, Shang Wanyi would not hesitate to get people to throw him out.

On an occasion where Nakajima's celebrities gathered, it was not a place for a clown like Hiraishi to jump around at will. Kicking him out was already giving him face. If he met someone with a bad temper, it was not strange to kill him directly.

"I'm here to represent the Wantong Chamber of Commerce to congratulate the heavenly elixir Chamber of Commerce on its establishment. Master Lin, here's a small congratulatory gift. I hope you don't mind!" Shinobu's face changed all of a sudden as he cupped his hands at Lin Yi with a smile. It wasn't a respectful one, but it was still polite.

One shouldn't hit a smiling face. Since hirakazu had changed his attitude, Shang Wanyi could only smile and order his men to accept the gift. As for hirakazu intentionally ignoring him and greeting Lin Yi, he didn't care.

Lin Yi's face was calm as he looked at Hiroshi-he didn't want to talk to the guy at all. He'd be a bastard if he were nice to someone who was obviously here to cause trouble.

Shinobu didn't think that Lin Yi would be so rude to him in a place like this, but he didn't dare act up after remembering how terrifying Lin Yi was. He could only smile awkwardly and rub his nose as he turned around.

"Eh, aren't these all the things sold by the central Chamber of Commerce? Why is the heavenly elixir Chamber of Commerce selling the same products as the central Chamber of Commerce?" Shinobu pretended to have just noticed something and shouted in surprise, as if everyone else here was blind.

"Hiraishi Amakusa, what do you want to say?" Shang Wanyi's expression was already a little unkind. It was the heavenly elixir Chamber of Commerce's first day of business, and he didn't want any unpleasant things to happen. However, if they kept provoking him, he might have to use force. Otherwise, if he swallowed his pride in front of so many clans and sects, they would think that the heavenly elixir Chamber of Commerce could be bullied as they pleased!

"I just want to ask, is your heavenly pill Chamber of Commerce a subsidiary of the central Chamber of Commerce? It shouldn't be, right? With Master Lin's status, how could he be the underling of the central Chamber of Commerce? In that case, could it be that you are imitating the goods of the central Chamber of Commerce?" Shinobu's expression was as if he had found out the truth. His eyes darted around, trying to stir up the suspicion of the people present.

When a Chamber of Commerce imitated another's products, it was basically the same as destroying their reputation. Not to mention doing business, even survival would be a problem.

Of course, this situation would only appear in certain monopolized products, such as the technology products of the secular world of the central Chamber of Commerce. If it was just pills, props, and so on that everyone had, it could not be called an imitation.

Shang Wanyi looked at him as if he was an idiot. He drew a circle with his finger and sneered, ""Hiraishi Amami, do you think everyone here is a fool? Or are you the only smart person in the world who can see things that others can 't?"

His words were a little harsh, and cold sweat immediately broke out on Hiramasa's back. After offending so many important figures in Nakajima, not to mention that he was only the Executive Vice President of the Wantong Chamber of Commerce, even the entire Wantong Chamber of Commerce might be uprooted. After all, compared to the forces of the entire Nakajima, the Wantong Chamber of Commerce was nothing.

"Shang Wanyi, don't change the topic! Did I mean that? We're all smart people, don't think that you can deceive everyone with just a few words of provocation!" Shinobu didn't dare to neglect this and quickly raised his voice to distinguish the two.

"I think that's what you meant! Why? Are you trying to show off your superiority in front of me, ao Tianba?" As Lin Yi's good brother, ao Tianba naturally had to stand up for the heavenly elixir Chamber of Commerce at a time like this. This simple statement made Shen Ping's face redden.

Ao Tianba's identity as the captain and commander of an ancient warship was enough to crush Jian Shen and even the Wantong Chamber of Commerce. Not to mention, he had the ancient family, the AO Tian family, behind him. Even if Ping Jian was beaten to death, he would not dare to oppose ao Tianba!

Chapter 6092 Remembering Early To Congratulate

"Captain ao Tian, you've misunderstood. What I mean is that the central Chamber of Commerce might express dissatisfaction with the heavenly elixir Chamber of Commerce selling these items. After all, only their family has these items. If the heavenly elixir Chamber of Commerce can't explain the source of the goods, I'm afraid there will be some problems. I'm just being kind, really just kind!" In front of ao Tianba, hirakazu's imposing manner plummeted, and his words became more cautious. However, the meaning of his words was still trying to smear the reputation of the heavenly elixir Chamber of Commerce.

After he finished speaking, many people in the hall looked at the representative Deacon of the central Chamber of Commerce. In fact, many people felt that it was strange, but it was not appropriate to mention it. Since Hidekazu Hidekazu had stood up for them, everyone was happy to find out the truth.

The manager from the central Chamber of Commerce was just a small figure, and he didn't know the connection between Lin Yi and central. He couldn't help but feel nervous with so many people watching him.

Thinking about it, the higher-ups didn't seem to place much importance on the heavenly elixir Chamber of Commerce, or they wouldn't have sent a small fry like him here. But they also told them not to offend Lin Yi-this was a little awkward, and it was better to handle it carefully.

"Yes, the heavenly pill Pavilion's supply of goods also comes from our central Chamber of Commerce. As for whether or not they have their own imitations, I will go back and report it to the higher-ups, and then investigate it. We're all here today to congratulate the heavenly pill Pavilion on their grand opening, so let's not waste time on these minor details, alright?" The deacon from the central Chamber of Commerce said a few ambiguous words and then changed the topic.

Everyone who came to the ceremony was more distinguished than him, so he shouldn't be the one to say this. However, considering the identity of the central Chamber of Commerce's representative, no one stood up to object.

Hirata was a little dumbfounded. If even the central Chamber of Commerce did not support his statement, then he would be courting death if he continued to jump around. The Wantong Chamber of Commerce planned to use this incident to form an alliance with the central Chamber of Commerce and suppress the heavenly pill Pavilion Chamber of Commerce together.

According to the estimation of the Wantong Chamber of Commerce, the central Chamber of Commerce was currently locked in a fierce battle with the Hong Chamber of Commerce. With them taking the initiative to send an olive branch, at least they wouldn't refuse. Both sides would benefit from it, so what reason did they have to not cooperate?

Ping jianshen glanced at the deacon and thought hatefully, "It must be that this small figure sent by the central Chamber of Commerce didn't have the authority to make decisions. He should have informed the higher-ups first! The current situation was a little awkward. He could only give up on dealing with the heavenly elixir Chamber of Commerce for the time being and look for another opportunity in the future!

Using the words of the central Chamber of Commerce's Deacon, Shang Wanyi calmly invited everyone to tour the heavenly elixir Chamber of Commerce, as if nothing had happened. Ping Jian Shen was treated like air, not even glancing at him when they walked past.

Lin Yi smiled. Although Shang Wanyi didn't show much of his ability to control the situation, it was still a piece of cake for him. From his performance, he was more than qualified to be the president of the heavenly pill Pavilion.

The opening ceremony was almost over. The place where the guests were invited to was a restaurant near the heaven elixir Pavilion. After Shang Wanyi showed the crowd around for a while, he courteously led most of them to the restaurant.

Except for the forces such as the Wantong Chamber of Commerce and the central Chamber of Commerce, the rest of the guests all went to the restaurant to attend the banquet. Eating was not the most important thing. It was more important to take the opportunity to connect with each other and expand the network.

As the owner of the heavenly elixir Chamber of Commerce, Lin Yi naturally had to attend, but he and the AO Tian brothers, as well as a few close friends, stayed behind. It wouldn't be too late to go later.

Just as they were talking, a stunning beauty appeared at the entrance of the heavenly elixir Pavilion. Whether it was her looks or aura, she wasn't inferior to the lady boss of the heavenly elixir Pavilion, Tian Gang or Xue Li. She walked straight towards Lin Yi without even waiting for the receptionist to greet her.

"Eh, why is she here?" Lin Yi blinked and turned to look at Hou Guanqi, who was also looking confused. He didn't expect to see her here either.

"Grandmaster Li Zao, you're also here to congratulate the heavenly elixir Chamber of Commerce's opening?" The Otian brothers cupped their fists from afar and took the initiative to greet him.

There was no need to ask. The only young woman who could make them take the initiative to greet was the chief Alchemist of the pill Hall, Li Zao Yi!

Lin Yi's acquaintance, Li Zao Yi, was included in the invitation list, but he didn't manage to send the invitation to her yesterday. He thought she wouldn't come since she didn't show up.

"Island master Ao Tian, Captain Ao Tian." Li Zao Yi bowed with a calm expression and nodded to Hou Guanqi, Cai Zhongyang, and the others who followed her. Then, she asked, "The heavenly pill Pavilion is opening? Did Lin Yi build it?"

Everyone was stunned. After all this time, weren't you just here to congratulate the opening of the Chamber of Commerce? You didn't even know about this?

After Li Zao Yi finished speaking, he felt that his question seemed to be a bit inappropriate, so he revealed a smile and nodded perfunctorily. "En, I'm here to congratulate the opening of the Chamber of Commerce. Lin Yi, I wish you a prosperous business!"

Lin Yi didn't know what to say-there wasn't a single bit of sincerity in that at all, and no one here would believe that ...

"Thank you! Is there anything else you want to talk to me about?" Lin Yi didn't beat around the bush-he didn't know what this weird girl was up to this time, but he'd like to help her out if it wasn't something too troublesome.

"Lil bro Lin, let's go over there and have some tea and chat. You can come by yourself later!" Ao Tianba signaled for the others to leave quickly, but there was a certain flirtatious look in their eyes. Lin Yi found it funny.

It was obviously wrong to say that there was no relationship between him and Li Zao Yi, but it didn't seem appropriate to say that there was any relationship ... It was quite difficult to define it.

Li Zao Yi's pretty face was slightly red. Her personality was a bit cold, but she could still understand the gazes of these guys. It was just that she couldn't tell what they were thinking, so she could only pretend to be calm and maintain that indifferent appearance.

Lin Yi only smiled after ao Tianba and the others left."You don't need to care about them. If you have anything to say, just say it!"

Li Zao Yi glared at Lin Yi. Ao Tian BA and the others didn't say anything. What did he mean by 'ignore them'? She really touched on a sore spot!

Lin Yi coughed dryly-he felt that he'd been a little off-guard against this weird girl, and it was best not to say too much!

The atmosphere between the two of them was a little awkward, so they didn't speak anymore. They quietly went to the guest room on the second floor and sat down. Tian Gang and Xue Li also followed them to the restaurant. Han Jing Jing had not returned from the island, so no one else in the heavenly pill Pavilion would come to the second floor.

Chapter 6093 Let's Go To The South Continent Together

After sitting down, it was Lin Yi who broke the awkwardness first. He'd be starting to feel awkward if the silence continued.

"Well, Little Junior Sister, what brings you here today? Don't tell me you're going to refine pills again?" Lin Yi regretted it as soon as he said it-would Li Zao Yi think he was flirting with her?

The last time the two of them cooperated in pill refining, what kind of situation had happened? everyone was well aware of it, so saying this was equivalent to bringing up an old matter!

Sure enough, when Li Zao Yi heard this, her pretty face instantly turned red at a speed that was visible to the naked eye. In an instant, it was about to drip blood. However, there wasn't much shame in her two big eyes. Instead, there was more anger!

"Ah ... Right, Little Junior Sister, do you have any news of master recently? Is it possible that he'll be back soon?" Lin Yi smiled bitterly to himself and quickly changed the topic, although it was a little stiff ...

"No, I didn't!" Li Zao Yi replied coldly. She paused for a moment before she continued, "I came to find you this time because I need your help."

Lin Yi let out a breath of relief-it seemed like the weird girl had calmed down, perhaps because she needed his help. But it didn't matter-he'd just let go of the mistake.

"Little Junior Sister, if there's anything you need my help with, just let me know. I'll definitely help if I can!" Lin Yi didn't dare to guarantee anything, leaving some leeway in his words. It was because Lizao Yi could always find something he couldn't do, so it was safer to be more conservative.

"Do you have time recently? I would like to invite you to go with me to a place. It might take about one or two months." Li Zao Yi didn't stand on ceremony with Lin Yi and directly stated his request.

She'd probably thought this through before coming to Lin Yi, so she spoke very naturally as if she'd only wait for Lin Yi to agree before leaving.

Lin Yi frowned. One or two months was too long. If it was three or five days, he could delay it, but one or two months later, he would be ready to leave for the East continent. What about the South continent?

He did not dare to place all his hopes on LAN Guzha. This guy was definitely good at eating, fighting, acting cool, and acting cool. Hao Zili and the other two were more reliable when it came to spying and gathering information.

It was a pity that the leader this time was LAN Guzha. Even a reliable person would become unreliable if he followed him, so Lin Yi had to make a trip down to the South continent himself.

"Is it very difficult?" Lin Yi didn't reply and frowned instead, displeased. It's just a month or two, is there a need to make it so difficult?

"Junior Sister, it's not that I don't want to help, but I have to go to the South continent after finishing today's business. It's quite urgent. One or two months is too long. If it's only three or five days, it'll be fine!" Lin Yi waved his hand and decided to tell the truth. This was what he promised Shangguan Tianhua, and he had to do it no matter what. If Yi had made an appointment with Lin Yi on the northernmost Island earlier, he'd definitely consider re-arranging his time and schedule.

"You're going to the South continent today? Why didn't you tell me beforehand?" Li Zao Yi was stunned, but he didn't show any displeasure after being rejected.

Lin Yi didn't know what to say-why did he have to tell her that he was going to the South continent? "I originally wanted to find out information about central in the South continent. Other than a few of my most trusted people, I didn't even know about hou guanqi and Cai Zhongyang. I didn't want to leak the information and alert Central. Wouldn't I be crazy to go to the pill Hall to tell you?

Li Zao Yi suddenly smiled and waved his hand,"Well, it's not important. In fact, the place I asked you to go with me is in the South continent. The trip to and from the South continent will take about one or two months. Since your original destination is the South continent, this time can be ignored. It won't take up too much of your time when we get there."

"You're going to the South continent too?" Lin Yi shook his head with a bitter smile. This weird girl didn't make it clear earlier, and he even rejected her on purpose. He couldn't reject her now, and even if he agreed, lizao Yi might not appreciate it.

"That's right. I'm going to the South continent. I'm going there on the way. Do you have anything to say?" Li Zao Yi revealed a rare proud expression, as if she was happy to see Lin Yi get beaten up.

"Since it's on the way, let's go together! Is it okay for you to leave tonight?" Lin Yi didn't want to argue with Li Zao Yi and quickly decided on the matter.

"No problem! Aren't you going to ask me why I'm going to the South continent?" Li Zao Yi couldn't help but ask. Was Lin Yi really not curious at all?

"Oh, Little Junior Sister, what are you going to do in the South continent?" Lin Yi asked, following her advice.

Li Zao Yi was instantly furious. Why was this attitude so hateful? If she didn't know that she couldn't beat him, she really wanted to beat him up!

"I have a clue to an ancient ruin here. It is said that it was left behind by an alchemy master. There are many alchemy treasures inside, so I want to take a look. For the sake of master, I've brought you along." She glared at Lin Yi and told him why she was going to the South continent.

"Didn't you come to me for help? How did it become you bringing me along?" Lin Yi smiled, teasing her on purpose. This weird girl was quite proud, and he'd be letting himself down if he didn't tease her.

"It's me who brought you along, and it's for the sake of master!" Li Zao Yi emphasized and widened his eyes, indicating that he wouldn't accept Lin Yi's rebuttal.

"Alright! You can bring mine along, thank you!" Sensing the killing intent in her eyes, Lin Yi decided not to tease the girl any further. He asked about the ruins instead, "You said that the ancient ruins were left behind by an alchemy Grandmaster, is there any evidence? Is there anyone else besides you who knows?"

To be honest, Lin Yi was quite curious about The Alchemist ruins. Not long ago, he went to a creation battle technique practitioner's ruins with Tian Xing Dao, and Han Jing Jing ended up keeping a ten-thousand-year turtle as her soul puppet. Was he going back to the South continent to fish again? There was also a primordial spirit of a 10000-year-old Alchemist who was preparing to possess him?

Of course, even if it was a trap, Lin Yi wasn't afraid. He was the best at dealing with spirits, as long as there was something good in it.

"I don't have any evidence, but the news was obtained by the pill Hall. It's only circulated internally, and only the true higher-ups of the pill Hall are qualified to know about it. As for senior brother hou guanqi, he shouldn't know about this." Li Zao Yi said slowly.

Chapter 6094 The Jealous Tian Huan

Li Zao Yi's status was extremely high-not only was she the head pill master, but she was also Zhang Liju's disciple. In terms of qualifications, she wasn't someone a registered disciple like hou guanqi could compare to.

"Zheng dongjue and the others also know about it?" Lin Yi frowned. This was the disadvantage of the hall of alchemy. Without Zhang Liju's cheap master, even if Zheng dongjue was the most powerful vice head, no matter how much he suffered on the northernmost Island, he couldn't shake the foundations of the hall.

In addition, the automatic alchemy furnaces of the famous medicine sect had been in high demand these days, and Zheng dongjue's reputation had also increased significantly. Therefore, his position in the alchemy Hall had become more and more stable.

"Zheng dongjue knows that the annoying Zheng family will be going to the South continent this time. In addition, there are a few higher-ups of the hall of alchemy who may go, but they have not been decided yet. I don't want to travel with them, so I'm asking for your help. I want to enter the ruins, but I'm really struggling to make ends meet by myself. " Li Zao Yi was very honest. As long as Lin Yi wanted to know, she would tell him everything she knew in detail.

Lin Yi nodded slightly. He didn't want to argue about whether it was li Zao Yi who brought him up or if he was the one who brought her up. The Zheng family was also involved, and he wouldn't feel at ease if he didn't accompany li Zao Yi.

"So many people from the pill Hall went. It looks like they're determined to get this ruin. Is it okay for you to bring me over alone?" Lin Yi asked casually. He was thinking that with li Zao Yi by his side, even if central found out that he went to the South continent, he would have a reasonable excuse.

When he needed to collect information in the South continent, he could put on the red dust manifestation and change his identity to act in secret. Not only would there be no conflict between the two things, but there might also be unexpected gains.

"Don't worry! What could happen to the people I brought? "Moreover, the things in these ruins don't belong to anyone. We're all members of the pill Hall, and we'll depend on our own luck. At most, we'll just contribute a portion to the pill Hall when the time comes." Li Zao Yi raised her chin, looking very proud. She indeed had the confidence to say such words. After all, her status was there, and even Zheng dongjue didn't dare to be presumptuous in front of her.

"Then it's settled. We'll leave at night. Let's go get something to eat first?" Lin Yi stood up and invited Li Zao Yi to eat at the restaurant. After being delayed for so long, they were probably already waiting for the boss to appear.

I didn't expect you to set off for the South continent so soon, so I have to go back and prepare. Come to me at the pill Hall when you're done here." Li Zao Yi shook her head. She wasn't interested in banquets, social interactions, and the like at all, so she didn't need to think about it and directly rejected him.

Naturally, Lin Yi wouldn't force her. He accompanied her out of the heavenly elixir Pavilion and left on their own. The hall of elixirs and the restaurant were in two different directions, and they weren't going the same way this time.

As expected, everyone was waiting for Lin Yi. He didn't say much at the opening, and if he didn't say anything now, they wouldn't be eating.

"Everyone, thank you for taking the time out of your busy schedules to support the heavenly elixir Chamber of Commerce. I'm very grateful, so I'll cut to the chase. In the future, I'll still need all of you to give us face and support the heavenly elixir Chamber of Commerce. On behalf of President Shang Wanyi and all the members of the heavenly elixir Chamber of Commerce, I would like to thank you once again!" Lin Yi said simply-it was all just courtesy, after all. He'd just say it casually, and the others would just listen. It was just a formality, and they'd just be happy.

"Master Lin, you're too kind. It's our honor to receive an invitation from the heavenly pill Chamber's Chamber of Commerce. In the future, we'll have to count on Master Lin and the Chamber of Commerce to take care of us!" An elder from a smaller family stood up to show his support. Lin Yi had never seen him before, but he had a good impression of the first person.

"Well said. Master Lin has been able to build a Chamber of Commerce, which is a blessing to all of us in Nakajima! If I don't support Master Lin, who else can I support?" Some people who didn't want to be left behind quickly stood up and said they were on Lin Yi's side.

This situation started to increase-everyone sitting here wanted to get on Lin Yi's good side, after all!

The heads of the sects and houses weren't here yet, but it was still right to show Lin Yi kindness.

As for the people who were close to Lin Yi, like Cai Zhongyang of the five elements Chamber of Commerce, Hou Guanqi of the Pill Hall, Wei Shenjin and the elders of the Snow Sword sect, they didn't show their support. Everyone knew their relationship with Lin Yi, and it wouldn't be good for them to show their support.

Lin Yi said a few more polite words before the party officially started. He sat down beside Ao Tianzhou and Ao Tianba and started talking in low voices.

"Lil bro Lin, you're growing too fast! You'll have to take care of me from now on!" Ao Tianzhou said half-jokingly as he waited for Lin Yi to sit down. He even raised his glass to Lin Yi.

"Brother Ao Tian, you're treating me like an outsider. Let's not talk about how I'm not that capable. Even if I were to really grow up, with our Brotherhood, is there a need for you to say anything?" Lin Yi smiled and raised his cup back.

The Otian state had always respected Lin Yi, but it wasn't as obvious as it was now. It could even be said that they'd lowered their attitude towards Lin Yi, probably because they'd heard about what happened on the northernmost Island.

Putting aside the fact that Lin Yi was valued by the Li family's Li Lin, just his battle record against the sea beast tide was enough for Ao Tianzhou to be willing to put down his status and befriend Lin Yi.

Acting as the acting Island master of Nakajima sounded very impressive, but in the ancient aristocratic families, he was just a spokesperson on the surface. He wasn't even considered a core member of the family. The patriarchs in the sea split stage would hardly pay attention to such a spokesperson.

Lin Yi, on the other hand, had earned far more attention than the old houses in the AO Tian state with his own strength. To be honest, he was envious of Lin Yi from the bottom of his heart.

"That's enough, second brother. I've already said that little brother Lin isn't that pretentious. We've been through life and death together. That's not something that can be said clearly with words. It's fine as long as you know what you're doing." Ao Tianba waved his hand loudly, cutting off Lin Yi and Ao Tianzhou's conversation. He raised his glass, and the three drank it with a smile.

As the President of the Chamber of Commerce, Shang Wanyi was busy with the various tables, so Lin Yi didn't have to show up himself. He sat there and chatted with the others. When it was almost time, he excused himself and left the restaurant with Tian Gang and Xue Li. He took out his flying saucer and flew to the island where the wormhole was.

"I'll go to the South continent after I take a look there. If everything goes well, I'll be back soon. Even if it doesn't, I'll leave the logistics of the Chamber of Commerce to you two." Before they reached the island, Lin Yi said goodbye to Tian Gang Xue Li and told her some things.

Chapter 6095 Golden Class Automatic Furnace

"The Chamber of Commerce is managed by Chairman Shang Wanyi. It doesn't make much of a difference whether we're here or not. How about we go with you to the South continent?" Tian Gang rolled his eyes and suggested that he wanted to go to the South continent with Lin Yi.

"That won't do. Let's not talk about whether you'll affect my operation in the South continent or not, I can't leave you two out for the things here! Jing Jing is currently focused on researching wormholes, so you have to cooperate with her. We can't count on her to transport the goods, so you guys have to put in more effort. " Lin Yi's words weren't unreasonable. The wormhole was the top secret right now, and only Tian Gang and Xue Li were involved. If it was someone else, he wouldn't be able to relax.

If han Jingjing could figure out how to destroy the wormhole exit in the center, then the good days in the center would really come to an end! At that time, the island would be even more important, so the fewer people who knew about it, the safer it would be.

It was a pity that Tian xingdao had been in seclusion all this time. Otherwise, he would have been allowed to concentrate on his cultivation and protect han Jingjing. In addition, Wang Ba was also present. With the personal guidance of a senior who cultivated the creation battle technique, Tian xingdao's cultivation speed might be faster.

Even though the Tian Xing sect wanted to walk their own path and Wang BA's creation battle technique cultivation did not have much reference value, it was definitely better to learn from each other than to work alone behind closed doors. This kind of face-to-face communication was completely different from just looking at cultivation experience.

"Yes, we'll cooperate with Jing Jing. The wormhole exit is the foundation of the Chamber of Commerce. It's more suitable for us to stay." Xue Li nodded gently. She wanted to go to the South continent with Lin Yi, but since he needed her to stay, she would stay.

Tian Gang snorted and wrinkled her nose. ""If you don't want us to go with you, do you have someone else in mind? For example, li Zao Yi from the pill Hall who was looking for you just now. "

Lin Yi sweated-a woman's sixth sense sure was scarily accurate. He didn't even say anything, and she guessed it right away. However, it seemed that he didn't want to go to the South continent with them for the sake of remembering early. If he didn't explain it clearly, they would definitely be unhappy!

"Li Zao Yi is indeed going to the South continent, but she's not going with me. The pill Hall got the news that the ruins of ancient alchemists have appeared in the South continent, so she came to me for help. I'm going to the South continent, and I'm interested in the ruins, so I agreed to go with her. " Lin Yi explained the situation simply without any intention of hiding anything.

"So that's how it is. Alright, since you're honest, I won't argue with you. But if there's a next time, you must come with us!" Tian Gang didn't pester Lin Yi too much-they were already used to Lin Yi having a girlfriend every now and then.

Plus, the Sky Class Island was a place where the strong were respected-as long as you were strong enough, no one would interfere no matter how many women you had.

"Tian Ji, how did you guess that li Zao Yi would go to the South continent with me? Don't tell me it's some sixth sense or a woman's intuition. " Lin Yi nodded with a smile as a sign of agreement.

"That's right, it's just my intuition. Do you think I'm eavesdropping on you two?" Tian Gang rolled his eyes at Lin Yi. Even if she wanted to eavesdrop, she couldn't hide it from Lin Yi's senses. Besides, why would she do something like that?

"I don't think so! I just want to say that your intuition is quite good. By the way, why do you sound like you're jealous?" Lin Yi said jokingly as he landed on the island.

"Jealous of what?" Tian Gang chuckled. I'll kick you if you continue to talk nonsense!"

"What Tian Huan means is that we're all floating in a sea of jealousy, why should we be jealous of such a small thing!" Xue Li covered her mouth and laughed secretly, and also teased him.

Lin Yi decided to let the whole incident slide. After putting away the flying saucer, Lin Yi brought the two to the exit of the wormhole. Han Jingjing was still focused on the wormhole, while Wang Ba was tidying up the goods from the secular world. He could've just taken them away with his storage ring, but Han Jingjing thought he was too free, so she gave him something to do so that he wouldn't overthink things.

"Boss Lin Yi, you're here!" When Wang Ba saw the three of them enter, he quickly went up to them and greeted them with a bow.

Lin Yi had taken care of him twice already, and Wang Ba was traumatized by it. The area of the trauma was so huge that it was almost impossible to calculate.

"Lin Yi bro, are you done over there?" When Han Jing Jing heard Wang BA's words, she raised her head and greeted Tian Gang Xue Li with a smile. She then asked about the opening of the Chamber of Commerce.

"Yes, the Chamber of Commerce has officially opened, and the first day's business was good. Have you made any progress?" Lin Yi smiled and walked to Jingjing's side, looking at her laptop.

It was a pity that Lin Yi didn't understand anything on it at all-it didn't matter if he read it or not ...

"En, as for the wormholes, I can't destroy the exit at the center yet, but I did find a special feature of wormholes. Lin Yi bro, look, this is a small device I just made. As long as it's here, when using wormholes to teleport, it won't be able to return to its original state after breaking down into particles." Han Jingjing swiped the table and pulled out a black disc the size of a fingernail from the pile. She placed it in her palm like she was presenting a treasure to Lin Yi.

Lin Yi blinked, not quite understanding what the black disc was for. Was it meaningful for them to destroy the teleportation items?

Han Jing Jing slapped her forehead and smiled. ""Does Lin Yi bro not understand what this thing is for? I'm sorry, Jingjing didn't make it clear. "

Without waiting for Lin Yi to reply, she turned around and started typing in a series of commands. A 3D drawing appeared on the screen.

Lin Yi could understand this-an automatic alchemy furnace, after all. It seemed that Jing Jing had already designed a new automatic alchemy furnace to fight against the medicine sect.

"Lin Yi bro, while I was researching wormholes, I designed a new automatic alchemy furnace. After it's made, there's no need for an Alchemist-as long as a practitioner sends in Qi, they'll be able to make pills on their own. However, the grade of the pill isn't high either. The upper limit is golden class level five, the same as the ones sold by the famous medicine sect. " Han Jingjing pointed at the 3D image on the laptop and explained it to Lin Yi.

"Golden class level five is enough. Jing Jing, you're amazing. You actually designed an automatic alchemy furnace that doesn't need an Alchemist. It's more than enough to defeat the famous medicine sect." Lin Yi praised Jingjing from the bottom of his heart. She designed something like this while researching the wormhole's opening. It felt like a normal person watching a movie to relax after getting tired from work. Calling her a genius wasn't enough.

#### Chapter 6096 The Eve Before Departure

"It's good that Lin Yi bro thinks it's enough. The only thing I'm worried about is that once the automatic alchemy furnaces start selling, those alchemists who've been studying hard will have no way out. Is this really a good idea?" Han Jing Jing suddenly sighed. The things she created were naturally convenient for the public, but in this way, those originally respected alchemists would likely lose the ability to survive.

Golden class level five elixirs were used by a large number of people on Sky Class Island, and a refiner who could make them, aside from the East continent, was a talent that every sect would fight for.

A normal practitioner could use their Qi to make a golden class level five elixir with an automatic elixir furnace-what was the point of having these elixir Masters?

It was because of this that han Jingjing felt guilty, but she was more worried that it would cause trouble for Lin Yi. The automatic alchemy furnace would affect the giant pill Hall first!

Pill God Zhang Liju wasn't counted, and the head of the pill Hall, li Zao Yi, barely reached Mystic second level. The others weren't even Mystic first level, and a golden fifth level refiner was definitely a pillar of the pill Hall.

Would the heavenly elixir Chamber of Commerce really not be hated by the elixir Hall if they sold their automatic elixir furnaces?

Lin Yi smiled faintly. He understood what Jingjing was thinking, but it wasn't a big deal.

"Jing Jing, you think that automatic furnaces will affect the survival of the alchemists, but I don't think so. Golden class level five alchemists only need to work a little harder to break through this limit, so we're selling automatic furnaces to encourage more alchemists to pursue higher levels, not be satisfied with the current situation," Lin Yi had a point, but there was a condition-han Jingjing had to stop upgrading the automatic alchemy furnace. If there was an upgrade in the future, normal people would be able to make higher level pills, and then there would be no need for alchemists to exist anymore.

Did han Jingjing have the ability to upgrade her automatic alchemy furnace? Just look at Lin Yi's Shennong cauldron and you'll know the answer!

"Lin Yi bro's right. Forget it, Jingjing, you don't have to worry about those refiners." Han Jingjing waved her hand with a smile. As long as Lin Yi said it was fine, she would be at ease,"Moreover, there are some restrictions on our automatic alchemy furnace. The consumables in it need to be changed regularly so that ordinary cultivators can refine pills. This can be considered as increasing the cost for these people to refine pills!"

"Jing Jing, you created this little thing to prevent the automatic pill refining furnace from being transported back to the secular world, right?" Lin Yi picked up the black disc and understood.

Without a doubt, central had given them the automatic pill furnaces of the famous medicine sect. The items from central were definitely derived from the automatic pill furnaces that Han Jing Jing sold in the secular world.

In this aspect, Han Jing Jing had always been imitated and never surpassed. When a new automatic alchemy furnace appeared, central would definitely research it as soon as possible. Even if the central base of Sky Class Island had a Technology Laboratory, it wouldn't be too advanced, and they would probably have to send the samples back to the secular world.

Han Jingjing had made the black disk in preparation for a rainy day. The preventive Center had sent the automatic alchemy furnace back to the secular world. If they could replicate it on Sky Class Island, they would be considered very powerful.

"Lin Yi bro's amazing, you guessed it right away!" Han Jingjing clapped her hands and pointed at the black disc in Lin Yi's hand, "Actually, other than destroying the particle recombination during teleportation, this device also has an anti-cracking function. No matter who it is, if they want to dismantle the automatic alchemy furnace by force, this device will destroy the program inside and completely format the system."

"It seems that it won't be easy for central to create a pirated version this time. Jing Jing, is it troublesome to make an automatic alchemy furnace? Can it be mass produced?" Lin Yi knew that the sect had plenty of automatic alchemy furnaces, and if Han Jing Jing could only make a dozen or two, she wouldn't be able to fight against the sect.

"It's not a big problem. Wang Ba has a forging pool here, and he can help forge the pill furnace outer embryo. Jing Jing would get brother Dafeng to purchase the sophisticated technological components from the secular world and then send them over. In the end, all he had to do was assemble them. We'll be able to mass-produce it very soon after a few days of preparation. " Han Jing Jing explained everything to Lin Yi in an orderly manner.

"It's okay to be late for a few days. Jingjing, you don't have to be too anxious. Take care of your body. Tian Gang and Xue Li will help out with this. After the production is completed, we will hand it over to

Shang Wanyi to arrange the sales. " Lin Yi smiled. He'd decided to go to the South continent today. Otherwise, he'd like to see the automatic alchemy furnace and its resistance.

"Boss Lin Yi, look, I'm going to help master with the furnace. Although it's just a rough shape, it's still very taxing on my essence spirit. With my current state, I'll delay master's work ..." Wang Ba felt that he could be of some use again and quickly came over with a smile.

He didn't say it, but everyone knew that this guy was begging Lin Yi to heal his spirit, or to put it another way, he was begging Lin Yi to give him a few drops of Black Sea soul condensing liquid.

Lin Yi glanced at Wangba, and the guy felt a chill in his heart. He couldn't help but shrink back, the shadow in his heart growing.

"I will leave some Black Sea soul condensing liquid in your master's hands. Perform well." Lin Yi's tone was calm as he knocked on Wang BA's head. With the lesson from last time, he wouldn't waste the Black Sea soul condensing liquid on this guy.

"Yes, yes, yes, I'll do my best. Don't worry, boss Lin Yi." Wang Ba nodded quickly. He was satisfied with this result. Han Jingjing wasn't Lin Yi. She was smart, but that was only for research. It was possible to trick her into giving him a few more drops of Black Sea soul concentrating liquid.

Lin Yi waved his hand, telling Wangba to go to the forge. The materials he needed weren't high level, and he'd have enough for a while.

After chatting with Han Jingjing for a bit more, Lin Yi took out two storage bags for Tian Gang and Xue Li, telling them to pack some of the goods and bring them back. Han Jingjing's storage ring had his spirit sense mark so no one could open it. If she didn't go back to Nakajima, the ring would be useless.

The space in the storage bag was not big, and the goods that could be taken away were limited. However, Tian Gang and Xue Li were still very happy. Han Jingjing felt that she should bring forward the research on the creation of storage rings. By then, everyone would have storage equipment with large space, and it would be more convenient to come and go.

After saying goodbye to Han Jingjing, Lin Yi brought the two girls back to the heavenly elixir Pavilion and went to find Li Zao Yi, preparing to head to the South continent. It had been a long time since he last saw his friends in the South continent, and he wondered how they were doing.

Chapter 6097 I'll Tell You

Lin Yi had just arrived at the entrance of the pill Hall when Yi came out to greet him. She must've been waiting for a long time, and it was obvious how anxious she was.

"Lin Yi, are you done with your stuff? Can we set off now?" Li Zao Yi didn't avoid the disciples at the entrance of the pill Hall. They didn't know what she was talking about anyway.

"Sure, are you ready?" Lin Yi nodded, but he felt that his question was a bit unnecessary. He could tell from Li Zao Yi's expression that she was already ready.

"Of course, I've been waiting for you!" Li Zao Yi smiled.

After she finished speaking, she casually took out an exquisite flute and blew it. The clear sound of the flute rang out and an aerial spirit beast with a wingspan of more than ten meters flew over from the back of the pill Hall and landed steadily on the street in front of the door.

In the central area of the middle Island, flying spirit beasts were basically forbidden. However, this was only for ordinary cultivators and foreign cultivators. The top forces were not included. The pill Hall was naturally one of the top forces.

"Are we going to ride an aerial spirit beast?" Lin Yi wanted to say that his flying saucer would be faster, but Yi had already made the arrangements. The flying saucer was his backup.

"Yes, I heard that you've ridden an aerial spirit beast before, so there shouldn't be any problems this time, right?" Li Zao Yi said as she got on the back of the flying spirit beast and called for Lin Yi to hurry up.

The pill Hall disciples at the entrance were all a little dazed. In the past, Grandmaster Li Zao had given people the feeling that he was extremely aloof and proud. Although it wasn't the kind of appearance that kept people a thousand miles away, it was indeed very difficult to approach him.

What was going on today? Not only were they talking and laughing, they even took the initiative to invite someone to ride an aerial spirit beast with them. Just who was that guy? To actually be able to gain such favor from Master Li Zao!

Alright, actually, some of them knew Lin Yi. They knew that he was one of the top alchemy Masters in the central island. He was similar to Li Zao Yi, and they were both geniuses in alchemy. That was probably why they could be friends!

Lin Yi, naturally, didn't know what the disciple was thinking. He nodded and got on his flying spirit beast. After they took off, he asked casually, Little Junior Sister, how did you know that I've been to the South continent on an aerial spirit beast before?"

"Your heroic deeds have spread far and wide. I'll know if I ask around." Lizao Yi smiled faintly, but Lin Yi felt that this weird girl was obviously talking nonsense.

Many people might know that he had gone to the South continent, but not many people knew that he had gone to the South continent by riding an aerial spirit beast. However, it didn't matter. It wasn't a secret, so it didn't matter if she knew.

Lin Yi couldn't help but think of Huang xiaotao as he flew to the South continent with Li Zao Yi. He wondered how she was doing. The last time they flew to the South continent like this, they had just broken through to the early stage of the Golden core realm and their spiritual awareness was not very strong. Now that they thought about it, they were really lucky to have arrived safely.

"Lin Yi, you have the map and compass to the South continent, right? If you don't, I have something prepared. Do you want to take a look?" Looking at the boundless ocean in front of her, Li Zao Yi suddenly started to worry. This was her first time flying far away, so she couldn't help but ask Lin Yi, trying to find some sense of security from his words.

"No need, the map and compass are still here. With the speed of this flying spirit beast, if everything goes smoothly, we can reach the Yu Luo Sea area in about six to seven days." Lin Yi snapped out of his reverie and replied casually with a smile. "Little Junior Sister, shouldn't you call me senior brother? It's fine when there's an outsider, but isn't it inappropriate for us to address each other by name?"

"Whether it's senior brother or not, we'll talk about it after we meet master!" Li Zao Yi snorted and turned her head away, not paying attention to Lin Yi anymore. However, she felt a lot more relaxed after talking to him.

"When are the other people from the pill Hall leaving?" Lin Yi smiled faintly and didn't bother arguing with her. He turned to ask about the competition.

The main problem was the Zheng family-they'd be exploring the ruins in peace, and it'd be fine if it was a fair competition, but messing with Lin Yi all day would be suicide-even the pill Hall wouldn't be able to save them.

"They will leave tomorrow or the day after tomorrow. These cowards are afraid of getting lost in the sea fog, so they are going to take the treasure ship to the South continent. If we are fast, we may be able to explore the ruins before they arrive." Li Zao Yi's face was full of disdain. The reason why she didn't want to work with the people from the pill Hall was because of this, apart from the fact that she hated the Zheng family.

Going out for an adventure but being afraid of danger, wouldn't it be better to seclude himself at home? Running out and embarrassing himself!

Whether it was cultivation or alchemy, opportunities were extremely important. There was nothing to say if there was no opportunity, but if you didn't try hard to grasp it, then you deserved it for not being able to improve yourself!

"If it's really that fast, why didn't you say ten to twenty days when you came to find me? What do you mean one or two months!" Lin Yi shook his head and mumbled. He didn't wait for Li Zao Yi's reply and continued, "Where is the ancient Alchemist's ruin? Don't tell me it's on the southern island!"

Lizao Yi turned around and looked at Lin Yi as if he was an idiot. After a while, she said faintly, "The southern part of the island has been ruled by the spirit beasts since ancient times, and the spirit beasts have the lowest demand for elixirs. Which Alchemist do you think would be so stupid as to open up their own cave in the territory of the spirit beasts?"

Lin Yi didn't know what to say-the words made sense, and he didn't know what to say ... But could you at least tell me the exact location?

After Li Zao Yi paused for a moment, a trace of embarrassment flashed through her eyes, but her pretty face still maintained an expressionless look. "Well, it's not convenient to tell you the specific location now. You'll know when we arrive in the South continent."

"If you put it that way, can I assume that you don't even know where the remains are?" Lin Yi looked at Li Zao Yi suspiciously. This weird girl was really weird. Did she really not know and planned to look for clues when they reached the South continent?

"How is that possible? Do you think I'm free? Of course I'm only going because I know the exact location!" Li Zao Yi raised her voice, but Lin Yi thought that she was acting tough.

"If you know, then say it. Otherwise, I don't even know the location. I don't want to take unnecessary risks!" Lin Yi smiled-it was a little shameless to scare her like that, but he'd have to use a different method to deal with this weird girl.

As expected, a flash of panic appeared in Lizao Yi's eyes when he heard that Lin Yi wanted to disband. He hesitated for a while before opening his mouth angrily, "Alright, alright, I'll tell you!"

Chapter 6098 Heavenly Elixir Pavilion's New Product

Lin Yi perked up his ears, making a face that he was all ears.

"I don't know the exact location yet, but it will be displayed when we arrive in the South continent!" Li Zao Yi felt a little guilty. She said that, but she didn't dare to guarantee that it would really show when the time came.

"Where is it displayed?" Lin Yi's face was full of anticipation as he extended his hand in front of Li Zao Yi, indicating for her to take out the item.

Li Zao Yi pouted slightly and unwillingly took out a palm-sized Jade plate. It was completely blank and had nothing on it.

"What is this?" Lin Yi took it and flipped through it, even using his spirit sense to check inside, but he didn't find anything useful.

Li Zao Yi's eyes were wandering, looking left and right but not looking at Lin Yi. In the end, he was really uncomfortable being stared at by Lin Yi, so he finally opened his mouth, "This is the compass of the ruins. As long as you reach the South continent's Sea area, it will show the specific location of the ruins. Don't think that there is nothing now, but when the time comes, it will naturally show the sea Map of the South continent!"

"Then how can you be so sure that the relic is not on the southern island?" Lin Yi was speechless. He thought that this weird girl would be weird at most, but she wasn't that reliable!

"Didn't I tell you? who would go to the spirit beast clan's territory to build a cave abode for no reason?" Lizao Yi argued, looking quite confident and confident, and Lin Yi didn't bother arguing with her anymore. He just waved his hand.

"What is the effective range of this location disk? The entire South continent sea? Or was it only a small Sea area, like the Xiao Luo Sea area, Zhen Duan Sea area, and so on? Or maybe it's smaller, only the size of a city?" Lin Yi didn't think that Li Zhaoyi was reliable enough, so he had to figure out this important thing first.

Li Zao Yi let out an "uh" for a moment, and her eyes began to wander again.

Lin Yi sighed. He didn't need to ask to know that this weird girl didn't even know the area. Was she planning to take out the compass and fly around the entire area until it showed up?

"Little Junior Sister! I only know now that you've given me a month or two. If there's something wrong with the disk, we won't be able to find it in a year or two, let alone a month or two! Do the other people in the pill Hall also have this kind of location disk?" Lin Yi patted his forehead, wondering if a couple of these disks needed to be placed together to be effective.

If that was the case, he would have to get the Zheng family to come along. It was quite annoying just thinking about it.

"Yes, they also have one, but according to the records, these two are exactly the same, so there's no difference between having one and having two." Li Zao Yi finally heard a question that she could answer, and she couldn't help but feel a little happy.

Lin Yi let out a breath of relief, glad that they didn't have to work with the Zheng family. He'd really be worried that he'd Rob them if he couldn't take it anymore, and that'd be too embarrassing for the hall.

"I'll believe you this time. Take the compass. We'll talk about it when we get to the South continent!" Lin Yi passed the Jade plate back to Lizao Yi. He didn't have much hope for this ruins search anymore, and decided to do what Shangguan Tianhua asked him to do first before accompanying her.

Li Zao Yi probably felt that she was in the wrong, so she put away the location disk in embarrassment. For a moment, she didn't know what to say, so the two fell into a long silence.

In the first two days, there wouldn't be too much fog, and the flying spirit beasts could tell the direction by themselves. When they reached the fog-filled area, they'd have to rely on Lin Yi to guide them.

Having experienced this before, Lin Yi wasn't worried at all. His strength was no longer the same as that little early golden core. Even without the compass, he could rely on his strong spirit sense to ensure that he wouldn't get lost!

Lin Yi sat cross-legged on the flying spirit beast's back and started cultivating. He hadn't used the Black Sea soul-gathering liquid properly since he got it, so he decided to use a drop of it to strengthen his spirit since he still had one or two days before entering the sea fog.

If his primordial spirit could break through, his strength would naturally rise. Once he entered the mountain-opening stage, he would be more confident in his trip to the South continent.

On the other side, on the third day after Lin Yi left, Han Jing Jing successfully created the first batch of automatic alchemy furnaces. After sending them to the heavenly elixir Chamber of Commerce in Middle Island, they started selling them in a high-profile manner.

If the appearance of the famous medicine sect's automatic alchemy furnace had caused a stir on Middle Island, then the heavenly pill Chamber of Commerce's automatic alchemy furnace had ignited the enthusiasm of the entire Island.

You want to refine pills, but you're not an Alchemist? As long as you are a cultivator and have enough true Qi, you can fulfill your dream of becoming an Alchemist! Elixirs below golden class level five didn't need an Alchemist. They only needed the automatic alchemy furnace of the heavenly elixir Chamber of Commerce.

This news spread like wildfire across the entire Middle Island. In the blink of an eye, the heavenly pill Pavilion Chamber of Commerce was surrounded by a crazy crowd, especially after seeing the live demonstration. No one could remain calm.

"What? The price of the automatic alchemy furnace of the heavenly pill Chamber of Commerce was the same as that of the famous medicine sect? Are you kidding me? I'll pay double the price, give me one!" A late-stage golden core cultivator outside the heavenly elixir Pavilion shouted in indignation. Unfortunately, he couldn't squeeze in at all. It was useless even if he shouted until he broke his throat.

In front of him, there were many cultivators at the peak of the Golden core realm and the original infant realm.

"You want to buy such a divine artifact even if you pay double? Get lost, poor ghost! I'll pay five times the price!" A cultivator in the great circle of the Golden core realm pushed him away from behind and shouted loudly towards the heavenly elixir Chamber of Commerce.

In an instant, this place seemed to have become an auction. In fact, it was the craziest kind of auction. As long as Shang Wanyi wanted to, this batch of automatic alchemy furnaces could definitely be sold for a sky-high price.

The heavenly elixir Chamber of Commerce and the famous medicine sect seemed to have the same things, with only a slight difference. One needed an Alchemist, and the other didn't, but it was this difference that made the two different.

"Everyone! I'm the president of the heavenly elixir Chamber of Commerce, Shang Wanyi. Thank you all for coming! However, there's something that I have to make clear to everyone in order to avoid unnecessary trouble. So, please be quiet for a while. Thank you for your cooperation!" Shang Wanyi stood on a stage that had been temporarily built at the entrance and cupped his fists at the crowd outside. As he had expected this, he had temporarily suspended the sale of the automatic alchemy furnaces after selling two.

Chapter 6099 Hunger Marketing

The cultivators who were blocked outside the door saw Shang Wanyi come out to speak. Those who could not squeeze into the heavenly elixir Chamber of Commerce slowly quieted down. However, the eagerness in their eyes could not be extinguished no matter what!

"Thank you, everyone! I'll keep it short and try not to waste everyone's precious time!" Shang Wanyi smiled and felt extremely satisfied. When he was the Vice President of the Wantong Chamber of Commerce, he had never had such a Grand scene.

As expected, leaving the Wantong Chamber of Commerce and following Lin Yi was the right choice!

"First of all, I'd like to say that the automatic alchemy furnace is a product that our heavenly elixir Pavilion developed on our own. There will be enough supply in the future, so there's no need for everyone to fight over it! It's only a matter of buying it one day earlier or one day later!" Shang Wanyi collected his thoughts and gave everyone a calming pill to prevent a vicious incident of fighting for the automatic alchemy furnace.

There was a slight commotion in the crowd, but it immediately quieted down and did not affect Shang Wanyi's speech.

Even though the heavenly elixir Chamber of Commerce promised to supply them with automatic elixir furnaces, everyone wanted to buy them first!

Everything was meaningless if he didn't get it. Only when he got it was real! What if something unexpected happened and the heavenly elixir Chamber of Commerce was unable to supply on time? Therefore, he still had to snatch. Being polite to others was being cruel to himself.

"What we're selling today are the first batch of twenty automatic pill furnaces that we've produced! Two of them had already been sold, so there were only 18 left. In other words, only 18 of the friends here today could buy them. Those who couldn't can only wait for the second batch! I would like to apologize to everyone here. I'm really sorry, because the production is only this large. After the technological innovation, there may be a substantial increase. " Shang Wanyi's face was full of regret, but he was actually laughing like a peach blossom in his heart. Unfortunately, he could not show it and could only secretly celebrate.

The first batch of alchemy furnaces that Han Jing Jing had sent over was indeed only 20. At first, Shang Wanyi felt that it was too little, but later on, he felt that these 20 alchemy furnaces might cause a greater rush than directly putting in 200 alchemy furnaces.

It was because it was rare that it was more precious! Even if they couldn't buy it in a short time, it didn't matter if they had to wait in line! Shang Wanyi had never heard of hunger marketing, but what he was doing now was the essence of hunger marketing.

"In terms of price, we will firmly maintain the original price and will definitely not increase the price! Also, we must make it clear that the automatic pill furnaces we sell will record the buyer's information. For the next 30 days, no reselling is allowed. During these 30 days, only the buyer can use them! If you want to resell it, you have to wait for 30 days. At that time, the restriction will be lifted and anyone can use it. " Shang Wanyi was truly impressed by Han Jingjing's talent. She could even take such a small detail into consideration. This way, it would completely prevent people from bidding up the price to buy the items.

The 30-day restriction wasn't a hindrance to those who actually bought it for use, but it was a disaster for those who wanted to resell it for profit.

Since the heavenly elixir Chamber of Commerce had automatic elixir furnaces for sale every day, who would wait 30 days to buy one from you? At most, he would have to wait for two more days.

"Finally, our automatic alchemy furnace will need to be replaced with internal consumable components after being used for a period of time. The cost is not high, and buyers with registered information can enjoy a free replacement opportunity. Unregistered customers who bought it from others will not have a free opportunity and will have to pay the cost themselves. Shang Wanyi had spared no effort in cracking down on scalpers. With such a measure in place, those who wanted to sell would probably consider it carefully.

After all, there were restrictions on the reselling of elixirs on Sky Class Island, but not for furnaces. No matter how powerful Lin Yi's background was, he couldn't just have the AO Tian state set a rule for him.

"Guild leader Shang, that's not important. I just want to know how we're going to sell the eighteen automatic pill furnaces today. Don't tell me you're saying that we can buy the ones that are in the front?" A cultivator who was closer to the middle asked loudly. His position was about the 20th place. The rounds had started from the front, and it just so happened that it was not his turn today.

"Of course the first to buy it, first come, first served, it's only right! If you want it, please come early tomorrow!" The two cultivators in front of him shouted. According to the order, he could buy it today, so he had to firmly support this method. Otherwise, wouldn't this advantage be wasted?

However, the majority of the people were at the back. If they were to follow the order, who knew when it would be their turn? For a moment, the people behind him began to clamor, trying to fight for a chance for themselves.

Shang Wanyi raised his hands and gestured for the crowd to quieten down. He then smiled and said, ""The friends who are ranked at the front have some advantages, but the friends at the back can't be at a disadvantage either, so we thought of a solution. It can't be said to be perfect, but it can take care of most of our friends."

"What is it? President Shang, just say it, I've been waiting for you!" Someone shouted from below, and a large number of people actually agreed. Only the first 18 were very dissatisfied, but there were too many people behind them, so it was useless no matter how dissatisfied they were.

"It's very simple. We'll draw lots to decide who will be able to purchase the slots today. Whether you'll be able to purchase it or not will depend on your luck. Of course, the higher the front of the queue, the higher the chances of you getting it. As for the specific method, please look at the rules and explanations over here!" Shang Wanyi stood slightly to the side. Two of the heavenly pill Pavilion's shop assistants immediately unrolled a large cotton cloth and flattened it.

Someone with sharp eyes and a quick mouth had already read the rules out loud, " " In the first round of drawing lots, the first three will draw first. The first three will get one out of the three, and the two who don't get it will proceed to the second round. In the second round, the fourth, fifth, and sixth will draw together with the two who didn't get it in the first round. The first five will get one out of the five, and the four who didn't get it in the first round will proceed to the third round and draw together with the seventh, eighth, and ninth. The seventh will get one out of the five, and so on. In every round, two more people will be drawn, and the probability of winning will decrease. However, each person only has three chances to draw. If they exceed three times, they will have to come back tomorrow. "

This method was very simple, and it was indeed relatively fair. The higher the ranking, the higher the chance of getting it. No matter how unlucky the top three were, they could still get three chances to get one, one chance to get one, one chance to get one, one chance to get one, one chance to get one, and one chance to get one chance to get one. It was much better than getting one chance to get one chance from thirty-three, one chance to get one chance from thirty-five, and one chance to get one chance from thirty-seven. If they still couldn't get it, they could only say that their luck was too bad. They couldn't blame anyone else. It was better for them to go home and wash their hands, and try again tomorrow.

#### Chapter 6100 The Tragic Famous Medicine Sect

The only regret was that the number of people who could draw in a day was only 70 or 80 at most. Those who were ranked after this number could only come early tomorrow.

After the rules were announced, the voices of dissatisfaction immediately decreased. After all, there were indeed opportunities. It was better than going by order directly. If you said that those who were ranked after the 70th or 80th had any objections, they would probably feel embarrassed. After all, they were ranked so far back, and normally, they would not have the right to bid.

It was foreseeable that for a long time in the future, even if the heavenly elixir Chamber of Commerce was closed, there would still be many people waiting in line in front of the door. There would even be people who specialized in queuing up to exchange for benefits. Everyone was a cultivator anyway, so it didn't matter if they meditated on the street for a few days. In the central area of the middle Island, safety could be guaranteed.

After everyone was clear about the rules, Shang Wanyi announced the start of the drawing of lots. Regardless of whether these people had any objections, the heavenly elixir Pavilion and the Chamber of Commerce's decisions would not be changed. Take care!

The cultivators who were lucky enough to buy an automatic alchemy furnace were naturally ecstatic, while the people behind them were full of envy, jealousy, and hatred, regardless of whether they had the chance or not!

Those who had the chance to draw lots were all rubbing their fists and wiping their palms, hoping that they could win. Those who didn't have the chance to draw were already planning to line up overnight to get a good seat tomorrow and find a few more people to help line up. If everyone in the first round was their own people, wouldn't they definitely win?

It had to be said that when these people had any ideas, they were really strong ...

In the famous medicine sect opposite the heavenly elixir Chamber of Commerce, Zheng Dongsheng's face was livid. Every two steps he took in the room, he couldn't help but drop something.

Zheng Tianqing and Zheng dongjue had already set off for the South continent. The heavenly pill Pavilion had suddenly launched a new type of automatic alchemy furnace, and the famous medicine sect's entrance had instantly turned from a bustling crowd to a deserted one. In fact, this was not correct. There were still many people in front of the door, but the direction had completely changed.

There were still some automatic alchemy furnaces in the famous medicine sect. After all, the price and functions were the same. Most alchemists who could form an alchemy fire would choose the automatic alchemy furnace of the famous medicine sect.

The problem was, how many alchemists were there in Nakagama? How many ordinary cultivators were there? One to a hundred was definitely not the only ratio, even one to a thousand was a minimum.

The famed medicine sect had already sold quite a number of automatic alchemy furnaces, and The Alchemist market was close to saturation. With the impact of the heavenly elixir Chamber of Commerce, their business naturally plummeted.

"No! Central has to think of a way to deal with this. They take most of the profits, so they can't just stand by and do nothing when something happens. I'll go to them personally!" Zheng Dongsheng couldn't take it anymore and decided to look for Kang Zhaoming for a plan.

Although Zhaoming had mainly been in contact with Zheng Tianqing, Zheng Dongsheng had talked to him before. It was reasonable for him to discuss it with him.

But before Zheng Dongsheng could leave, Kang Zhaoming came looking for him in a cloak.

"Manager Kang, you came at the right time, I was just about to go look for you!" Zheng Dongsheng was overjoyed when he saw Kang Zhaoming. This meant that the automatic pill furnaces of the heavenly pill Chamber of Commerce had caught Kang Zhaoming's attention.

"I knew you would come to me, so I came to you first!" Kang Zhaoming waved his hand and sat down as if he was the owner of the place. He even motioned for Zheng Dongsheng to sit down.

Zheng Dongsheng didn't care about these small things. He quickly sat down and asked, ""The automatic alchemy furnaces of the heavenly elixir Chamber of Commerce have nothing to do with you, right?"

In terms of function, the two sides were basically the same. It was absolutely no problem to say that they were of the same line, so Zheng Dongsheng asked this.

If he didn't know that Kang Zhaoming wanted to mess with Lin Yi, he would've guessed that the central Chamber of Commerce provided the automatic furnaces as well. After all, other than the automatic furnaces, the heavenly elixir Chamber of Commerce also sold many other items similar to the central Chamber of Commerce.

Zhaoming coughed lightly. Zheng Dongsheng's guess was pretty accurate-the automatic furnaces of the heavenly pill Chamber of Commerce were indeed related to the ones they sold, but it wasn't what Zheng Dongsheng was thinking!

Strictly speaking, the central Chamber of Commerce was the one who copied other people's things. Now that the genuine one had appeared, it directly destroyed the pirated one. Thinking about it carefully, it seemed very normal and there was nothing wrong with it!

"What are you thinking? Of course, it doesn't matter. Even if it does, it's because they imitated us!" Zhaoming boasted shamelessly as he rapped his fingers on the table.

Zheng Dongsheng didn't know what Kang Zhaoming wanted to say. He could only put on a serious listening posture, signaling for him to continue.

"Let's not worry about that for now. I want you to find a way to get one or two of the automatic alchemy furnaces of the heavenly pill Chamber of Commerce. I want to take them back and study them. As the genuine ones, we will definitely be able to figure out the principles behind them very quickly, then we can deal with them specifically." Zhaoming's words were high-sounding, but only he knew the truth.

Zheng Dongsheng didn't doubt him. After all, on Sky Class Island, it was the central Chamber of Commerce's automatic alchemy furnace that first appeared. It was normal for him to think that the heavenly elixir Chamber of Commerce was imitating the central Chamber of Commerce.

"My men came to report that the other side doesn't have many things in stock. The first batch only has twenty, so it's not easy to get them! Look, they're already drawing lots to decide the buyer. It's useless for me to line up now!" Zheng Dongsheng frowned slightly and looked in the direction of the heavenly elixir Pavilion with difficulty.

"That's why I'm asking you to think of a way! Could it be that all you could think of was to line up obediently to buy it? Swindling, stealing, robbing, anything is fine, just hurry up and find the thing for me!" Kang Zhaoming was very confident as if this was Zheng Dongsheng's job.

There was even a trace of contempt in this guy's eyes, as if he thought that Zheng Dongsheng should have done these things a long time ago, and not wait for his orders. They were clearly opposite the heavenly pill Pavilion, but he didn't know how to do such a basic thing. Didn't he know what it meant to know yourself and your enemy, and never lose a hundred battles?

Zheng Dongsheng was very depressed, but he had to admit that Kang Zhaoming's words were a little twisted. It was too difficult to get an automatic alchemy furnace through proper means, and he didn't want to support the sales of the heavenly pill house. It was just cheating, stealing, and robbing, as if everyone knew how to do it.

"I understand. I'll make the necessary arrangements!" Zheng Dongsheng nodded and immediately went to the door. He called a disciple of medicine sect and whispered to him to keep an eye on the gate and record down the people who drew lots. As long as they were not from a big family or force, they could be potential targets.

The heavenly elixir Chamber of Commerce's rules of drawing lots did not depend on one's background. Therefore, some small forces and even individual cultivators could get the opportunity to buy.
