

Bodyguard 6131

Chapter 6131 Information About The Ruins

He brought it up this time mainly because he was afraid that Lizao Yi wouldn't be able to redeem them. Now that they were going to be thick-skinned and follow Lin Yi, there was no need to hide it anymore.

"Information on the ruins? Are you referring to the exact location or something else?" Li Zao Yi asked indifferently and didn't show any unhappiness.

In any case, they had already found the place and the way to enter was also completely clear, so Li Zao Yi naturally wouldn't be angry over these small things.

"More or less. The location of this ruin is in Lufeng forest of the zhenduan Sea area. As long as we get there, the Jade plate will show the location." Zheng dongjue nodded and threw out a piece of information that he did not think was that important.

What he didn't know was that Lin Yi and Lizao Yi were stunned when they heard the name of Lufeng forest in the zhenduan Sea region. They were sure that the fog formation wasn't in the zhenduan Sea region, and the platform and stone gate were all in the sea, so they had nothing to do with Lufeng forest.

What was going on? The previous experience was definitely not fake, and that place was also guided by the location Jade plate. So, was Zheng dongjue lying?

"Are you sure it's the Lufeng forest in the zhenduan Sea area? Where did it come from? let me see!" Lizao Yi knew that Lin Yi was confused, so he asked Zheng dongjue for the item.

"Master Li Zao, I didn't bring the records with me because they're important books from the hall of alchemy. I left them on Nakajima, but I've memorized them all. I won't make a mistake." Zheng dongjue definitely wouldn't let Li Zao Yi see the record, and he really didn't bring this thing with him. He didn't lie about this.

"Are we going to Lufeng forest in the zhenduan Sea area now?" Lin Yi asked calmly. He was sure that the stone door was real, but Zheng dongjue seemed to be telling the truth. Perhaps there was something he didn't understand.

"No, the records say that before going to Lufeng forest, we must first pass through a special Sea area. If we don't go there, even if we reach Lufeng forest, we can't enter the remains." Zheng dongjue's lips curled into a smug smile. He thought that he had the upper hand now, and without his guidance, Lin Yi and the others wouldn't be able to find the ruins.

The South continent's sea was so vast that it was no different from looking for a needle in a haystack with a Jade plate. Even if they were lucky enough to find the ruins in Lufeng forest, they could not enter the ruins without passing through a special Sea area.

It was because of this that Zheng dongjue didn't mind letting Li Zao Yi and the others come to the South continent first. He didn't know that Lin Yi and Li Zao Yi had already found the special Sea area he was talking about by accident.

Lin Yi and Li Zhaoyi looked at each other, understanding that there might be a teleportation formation behind the stone door. They could only enter the ruins in Lufeng forest through this stone door.

In this case, Zheng dongjue's words were very credible. However, this old man probably didn't know that if he wanted to enter the stone door, two positioning Jade plates were necessary. Otherwise, he wouldn't have let Li Zao Yi take one.

"Any other information? There should be some records of the dangers or treasures in the ruins, right?" Li Zao didn't mention anything about the stone gate, but continued to inquire about the remains.

Unfortunately, how could Zheng dongjue, the cunning old man, reveal the truth so easily? he only shook his head and said, "It's not mentioned in this regard. There are also some records that I don't understand. Perhaps we can only figure it out when we reach the place and combine it with the actual situation, so I won't mention it now."

"Do you know where the special Sea area is?" Lin Yi pretended not to know anything-he wanted to see if Zheng dongjue was hiding anything from him.

"I still know the general direction. When the time comes, just follow me." Zheng dongjue finally found something to be proud of. 'So what if the positioning Jade plate is in your hands? you still have to rely on me to guide you.'

Lin Yi laughed to himself, but didn't expose Zheng dongjue. He could let him be proud for a while.

After arriving at the dock, Lin Yi and Li Zao Yi naturally rode on the pill Hall's special flying spirit beast while feiyi carried LAN Guzha and the other two. Zheng dongjue and the others didn't have flying spirit beasts, so they could only rent a large flying spirit beast from the dock. It was slow, but it could at least carry eight people.

They had no choice. Who asked them to be poor now? without spirit Jade, how could they think of a good flying spirit beast? Lin Yi was the one who'd given them all of this. Just thinking about that expression made Zheng dongjue and Zheng Tianqing want to die from embarrassment.

After taking off, Lin Yi let Zheng dongjue fly in front while they followed behind and chatted. The place was there anyway, and he had the key to open the stone door. There was no need to rush.

After spending double the time before, the group finally reached the outer area of the formation. Zheng dongjue waited for Lin Yi's flying spirit beast to get close before smiling, "This is the approximate location. We'll need the positioning Jade plate to guide the way. I don't know why we have to pass through here."

Lin Yi didn't want to waste any more time and pointed at the mist, "I don't need the Jade plate's guidance. We're going this way. Follow me closely and don't get lost!"

Zheng dongjue and the others were all stunned, not understanding why Lin Yi seemed to be even more certain than them.

LAN Guzha, who was on Fei Yi's back, chuckled. He pointed at Zheng dongjue and Zheng Tianqing and said, "Did you hear what the boss said? This is a very powerful maze formation. If you don't follow closely and get lost inside, you can't blame us!"

Lin Yi chuckled. He never thought that way. Since he brought the people from the pill Hall here, there was no need to shake them off after arriving here. However, he found Zheng dongjue and Zheng Tianqing's ugly expressions interesting. If LAN Guzha wanted to continue scaring them, he would let him.

"Master Li Zao, you're riding on the pill Hall's special flying spirit beast. I think it's necessary to share the burden of one or two people from the pill Hall. This way, we'll be able to relax a little here, and our speed will also be increased a lot so that we won't delay the journey." Zheng Tianqing looked at Li Zao Yi and said seriously. He was really worried that Lin Yi would lose them all in the maze. If he could ride on the same flying spirit beast with Lin Yi, he would be completely at ease.

The flying spirit beast used by the pill Hall was more than enough to accommodate four people. However, Lin Yi was with Li Zhaoyi, and LAN Guzha and the others were very sensible and didn't want to come over. Zheng dongjue and the others didn't dare to say that they wanted to come over because they were afraid of Lin Yi.

Now, in order not to be left behind, Zheng Tianqing had to force himself to come over.

Chapter 6132 Is There Anyone Who Wants To Challenge

"You mean you want to come over to our side?" Lin Yi looked at Zheng Tianqing with a half-smile, a strange expression in his eyes.

Zheng Tianqing shivered and hesitated. He was Lin Yi's enemy, and if he went over like this, would he be killed silently in the sea fog formation?

Zheng dongjue also had this concern. Without waiting for Zheng Tianqing to speak, he quickly said, "No, Tian Qing didn't mean it that way. He just wanted to say that you should fly a little slower and take care of the speed of our flying spirit beasts."

"So that's how it is. It's fine then. You guys follow me carefully." Lin Yi smiled faintly and turned his head back, ignoring them. He controlled the flying spirit beast and flew towards the stone steps.

This time, he didn't need the ghostly thing's help anymore. Lin Yi could easily follow the maze path himself. The temporary spirit sense mark he left behind was still there, so he didn't even need the Jade plate to find the direction.

When they were almost there, Lin Yi took out a Jade compass. The stone steps wouldn't show unless he held it in his hand.

"Lin Yi, you've been here before?" Zheng dongjue wasn't an idiot-he'd have lived his life in vain if he couldn't guess the truth, seeing how Lin Yi was so familiar with the place.

"What are you talking about? follow my boss! I'll beat you up if you keep talking!" LAN Guzha's eyes widened. He could not wait to fight anytime and anywhere. It would be best if Zheng dongjue dared to talk back.

Zheng dongjian felt aggrieved, but he still gritted his teeth and endured it. He was not as strong as the other party, so he would be courting death if he did not endure it. If it were not for the fact that he had more information about the remains, he would have given up on this operation because he would not be able to get any benefits.

Everyone jumped down from the flying spirit beasts, and their wings transformed into their human forms. The other two flying spirit beasts continued to hover at a low altitude.

Lin Yi and lizao walked forward, and the stone steps were still only ten steps away.

Zheng dongjue and Zheng Tianqing, who were at the back, were very confused. They didn't know how Lin Yi and the others found this place. It was such a hidden place that even with the support of information, it was hard to find it immediately.

Could it be that Lin Yi and Li Zao Yi had more detailed information than them? Zheng dongjue thought of this possibility and felt even more uneasy. The only thing he could rely on now was the information he had. If he was not as good as Lin Yi and the others in this aspect, then this trip to the ruins was bound to be a fruitless one.

After a while, everyone came to the platform. Lin Yi placed the positioning Jade plate in the groove that was revealed in the center, and the huge stone door appeared again. The people from the pill Hall who had never seen it before were all dumbfounded. Standing under such a huge stone door and feeling the ancient aura coming from the door, they felt extremely small.

"Kid, you're back so soon. Did you find the second key?" The golden-haired monkey saw Lin Yi and asked.

He had only left for a short time, and he had already found the second key. Was this a joke?

"Yeah, do you have any objections?" Lin Yi smiled and took out another Jade plate.

"It really is! Master Monkey seems to have underestimated you. Since you've found the second key, you can go in! But there's one thing you need to know, a qualification token can only allow five people to enter at the same time. If you want to bring so many people in, your qualification token is not enough!" The golden-haired monkey giggled as he stretched out his huge palm and pointed at the rest of the people.

Lin Yi blinked-he didn't even have enough space for five people!

As for the people from the pill Hall, it didn't matter. If it wasn't for Li Zao Yi's face, he wouldn't even have brought them here. Whether they could enter or not was none of his business.

"If I want to obtain the qualification token, do I still have to challenge you?" Lin Yi's reaction was fast, he understood the meaning behind it.

"That's right. As long as you can defeat Master Monkey, you will be able to get a qualification token every time." The golden-haired monkey nodded and grabbed at the air. The black stone staff appeared in his hand and he slammed it on the ground.

Lin Yi's mouth twitched-the sight of the black staff gave him a headache. He may have won against the golden-haired monkey last time, but it was really just luck.

The golden-haired monkey was too much of a nemesis to Lin Yi-his strongest moves, like the soul snatching hand, the consciousness vortex, and the lightning burial, were all completely immune to the monkey. Only a super alchemy bomb could pose a threat to him.

But after that one time, the golden-haired monkey wouldn't give Lin Yi the chance to make a super alchemy bomb again. Without enough time, even if he could use it, it wouldn't be enough to cause much damage to the golden-haired monkey.

"It's a pity that you've already defeated Master Monkey once. Therefore, you're not qualified to continue challenging Master Monkey. Otherwise, I could teach you a good lesson and let you know that Master Monkey was just not serious before!" The golden-haired monkey raised the stone stick and pointed it at Lin Yi, his face full of pity.

Lin Yi didn't have to worry anymore-he'd lost the right to challenge again, so what was there to think about?

"Boss, I'm going to teach this monkey a lesson. He's too arrogant!" LAN Guzha had an eager expression on his face. He did not care whether his opponent was powerful or not, as long as he could fight.

Even if this guy was facing an opponent who wasn't at the foundation establishment stage, he could still fight with great interest, let alone an existence stronger than him. It would be even more interesting to fight.

"There's no need to lower yourself to this monkey's level. It's just a puppet. My qualification token is enough, so we don't need too many people to enter the ruins. " Lin Yi waved his hand, not agreeing to LAN Guzha's request.

Even though letting LAN Guzha and the golden-haired Monkey Fight would be beneficial to this fellow's strength, the golden-haired monkey was simply too powerful. Moreover, that body could be said to be undying. Even though LAN Guzha was powerful, he was definitely not its match.

He didn't care if he was injured, but he wouldn't be able to take it if LAN Guzha died because of an accident.

"Alright, whatever you say, boss." LAN Guzha looked at the golden-haired monkey with regret. He shook his head and retreated to the side.

He really wanted to fight the golden-haired monkey, but since Lin Yi didn't allow it, LAN Guzha wouldn't force it. He had to listen to his boss.

The golden-haired monkey glanced at LAN Guzha in disdain. Lin Yi's aura might not be as strong as LAN Guzha's, but in the eyes of the golden-haired monkey, Lin Yi was the only person who could threaten it.

"How is it? Is there anyone who wants to challenge me? You can't enter without the qualification token!" The golden-haired monkey spoke in a casual manner while waving the jet-black stone staff in his hand. The overflowing Zhen Qi was incomparably powerful. This kind of blatant threat was more effective than anything else. At least, no one from Zheng dongjue's group dared to jump out and challenge him.

Chapter 6133 Two More Spots

"Master lizao, this ruin is our pill Hall's information after all, and it's also an Alchemist's ruin. Do you think ..." Zheng dongjue would rather die than challenge the golden-haired monkey, so the only way now was to squeeze into Lin Yi's five spots.

They'd be asking for trouble if they went straight to Lin Yi, so they had to go around and ask lizao Yi for help. Only then would they have a chance to get the spots they wanted.

Li Zao Yi frowned slightly. She didn't want to bring Zheng dongjue and the others. If only the token only had two spots, then she could enter the ruins with Lin Yi alone and didn't need to consider the pill Hall's benefits.

Now that Zheng dongjue had brought it up, lizao Yi couldn't reject him. She looked at Lin Yi. If Lin Yi rejected, then she had nothing to do with it. After all, Lin Yi risked his life to get the token. It didn't matter who he brought or not.

"What's wrong? You want a spot to enter the ruins? However, I've risked my life to obtain this quota. Don't you think it's a little unreasonable for you to obtain it just like that?" Lin Yi smiled faintly as he held the medallion in his hand, his four fingers moving back and forth as he waited for Zheng dongjue's response.

"Lin Yi, what's your condition? Don't forget, I still have information on the ruins. " Zheng dongjue gritted his teeth and prepared himself to be ripped off by Lin Yi. He had no confidence in the value of the information he had.

"It doesn't matter whether you tell me your information or not. I'm not expecting you to tell me the truth anyway." Lin Yi shrugged as if he didn't care. He then turned to Hao Zili and the others, "There are only five spots, so the three of you might as well stay outside. LAN Guzha will follow me into the ruins. Is that alright?"

"No problem, don't worry, boss!" Hao Zili, min huichen, and the others quickly cupped their fists and agreed. They knew that the three of them were left outside to monitor the people left behind by the pill Hall in case these guys played any tricks.

It was a pity that they couldn't enter the ruins, but it was good to be able to work for Lin Yi. At least he had a good impression of him, and maybe he could cure the poison.

With three people left, Lin Yi's side would have two more spots. Zheng dongjue and Zheng Tianqing looked at Lin Yi eagerly, not knowing what kind of conditions he would propose.

"There are two more slots. One slot for 75 million spirit Jade, so two slots for 150 million spirit Jade. No bargaining! Do you want it?" Lin Yi retracted his gaze and smiled at Zheng dongjue. This was a good opportunity, of course, to take advantage of it.

"I want it!" Zheng dongjue gritted his teeth and spat out the word fiercely. His heart was bleeding continuously!

With the 50 million from before, they now owed Lin Yi 200 million spiritual jades. They were already short on spiritual jades after the huge loss on the northernmost Island, and now it was even worse. They had no choice but to enter the ruins.

"Straightforward! Then it's a deal. Write an IOU. " Lin Yi smiled slightly. It was very pleasant to be able to extort a sum of spiritual Jade from Zheng dongjue and the others. In fact, even if they didn't have spiritual Jade, he would still give the pill Hall two spots. After all, he still had to give Li Zao Yi face.

Zheng dongjue swallowed his anger. After writing the IOU, he called Zheng Tianqing over. They would take the two spots, and the rest of the guest guards would stay.

They thought that it would be dangerous without guards, but after thinking about it, the six guest Masters and guards combined were no match for Lin Yi or LAN Guzha. It didn't make much of a difference whether they brought them or not.

"Kid, you can do this? Even master Monkey has to say that he admires you!" The golden-haired monkey saw that he didn't have a chance to attack, so he put the stone stick away and started chit-chatting with Lin Yi.

"If you're impressed, why don't you follow me? I'll guarantee you a good life in the future." Lin Yi was in a good mood, so he started talking to the monkey.

To be honest, the strength of this golden-haired monkey puppet was quite good, especially its body. If he could get his hands on it, it would definitely be a very good helper. Unfortunately, the puppet did not have a control token, so it could not recognize an owner.

"There will be a chance, there will be a chance. After you enter the ruins, work hard!" The golden-haired monkey smiled, his attitude towards Lin Yi a lot better.

Lin Yi's heart moved-from this tone, the ruins might really have something that could control the golden-haired monkeys. If he could find it, he'd have one more powerful helper.

"Do you have any suggestions? Why don't you tell me?" Lin Yi was about to open the stone door, but he wasn't in a hurry. He wanted to get some more information.

It was impossible to count on Zheng dongjue and the others to share information-the two were the ones who were good at hiding behind the scenes, and they'd be laughing to themselves if they didn't provide some fake information to frame Lin Yi.

"I don't have any suggestions, and I can't tell you even if I do. You'd better explore it on your own!" The golden-haired monkey laughed and waved to the side, signaling Lin Yi to open the door.

Lin Yi smiled faintly and didn't mind. After putting the token into the groove, he put the second positioning Jade plate into the circular groove.

The Jade plate slowly emitted a soft light and started to spin. The huge stone door started to shake, and the mysterious patterns on the stone door also lit up.

"The door is open!" Lin Yi retreated to the side and protected Li Zao Yi behind him. His eyes were fixed on the huge stone door that was slowly opening.

On the other hand, Li Zao Yi's eyes weren't looking at the stone door at all—they were on Lin Yi from the start to the end, and a blush appeared on her pretty face.

Fortunately, everyone else's attention was also on the huge stone door. No one noticed Li Yi's strange behavior. LAN Guzha was even more excited. The stone door had only opened a small gap and he could not wait to rush in and take a look.

"Boss, the spiritual Qi inside is so dense. It's at least twice as strong as here!" LAN Guzha was the closest to the stone door, so he was the most sensitive to the aura leaking out from the stone door.

"It's indeed very rich. It seems that this Alchemist's remains is really a good place, there should be a lot of good things inside." Lin Yi nodded, satisfied. He had to find a valuable place to explore, otherwise it would be a waste of time.

As he spoke, the stone door opened a lot faster. It was almost completely open. Lin Yi walked towards the stone door first, but LAN Guzha rushed in before Lin Yi.

Lin Yi shook his head with a smile. He knew that the guy was worried about some kind of danger, which was why he was the first to rush in. With Lin Yi's strength, he wasn't much weaker than LAN Guzha.

There shouldn't be any danger behind the stone door. Since the golden-haired monkey's test allowed them to open the stone door, the master of the ruins didn't have any intention of making things difficult for the latecomers. This was also why Lin Yi didn't stop LAN Guzha.

Chapter 6134 Two Blade Lights!

Just as Lin Yi was about to follow them in, the positioning Jade plates in the middle of the platform and the stone door both left the grooves and flew into Lin Yi's hands.

"These two keys are still useful later on, you can keep them for yourself! I wish you all the best!" The golden-haired monkey waved at Lin Yi with a smile.

Lin Yi had just put away the Jade plate and didn't have time to say anything when he felt the stone door slowly closing. There was a force pulling him, Lizao Yi, and the two people from the Zheng family inside.

The force was strong, but not violent. Lin Yi didn't resist it and was pulled in with the three.

Lin Yi's vision blurred, and he subconsciously sent out his spirit sense to find himself and the other four standing in an empty Stone Hall.

"Boss, there's nothing here. It's completely empty. Did someone else get here before us?" LAN Guzha, who was the first to enter, looked around and strolled around, but he did not find anything of value.

To be exact, they didn't find anything. If this was a house, it would definitely be described as a house with only four walls.

"It should also be the existence of a formation, which is why this situation occurred, right?" Lin Yi replied casually and took out a Jade plate.

Since these two Jade plates were still useful, they might be used for the same purpose. Just like the platform from before, if the Jade plates were not embedded in the center, the huge stone door would not appear.

The Jade plate didn't show any white or green dots, and there wasn't any light to guide him. Lin Yi's spirit sense didn't react to it either, as if it wasn't very useful.

"Vice clan master Zheng, is there any record of this place in the information you have?" Lin Yi raised his head to look at Zheng dongjue. It was good to bring the two of them along and make use of them.

Zheng dongjue might've hidden something when there were benefits, but now that there was nothing and they were just moving forward, Lin Yi didn't have to worry about him. He probably wouldn't do anything behind his back.

Zheng dongjue made a sound of agreement. After careful consideration, he pointed to a place and said, "The records seem to have mentioned a similar situation. If I'm not wrong, there should be some mechanism in that direction. You can go and take a look."

"This place?" Lin Yi followed his finger to the place and stomped on the ground.

"That's right. Is there anything special about it?" Zheng dongjue saw that there wasn't any danger and slowly followed, helping Lin Yi.

Unfortunately, neither of them found anything. This location was exactly the same as the other places, and they couldn't see anything special.

Lin Yi shook his head and held the two Jade plates in his hands, pointing them over and over again, but there was still no reaction.

"Don't tell me we don't need the location Jade plate here, but the qualification token?" Lin Yi guessed that when opening the stone door, they had to use the token first to reveal the slot for the Jade plate, so it was very likely that this was the same trick.

He didn't collect the tokens before he came in, though-the two Jade plates came out on their own, so the tokens should still be on the door.

However, the entrance was already closed, and Lin Yi couldn't get the token out even if he wanted to. Zheng dongjue was also scratching his head. If his information didn't match the actual situation in the ruins, then it would be a big problem. What if the information said that it was a safe place to hide the treasure, but it turned out to be the most dangerous place? wouldn't he die an unjust death?

Everyone was deep in thought. Only LAN Guzha was still loitering around, feeling around. At this moment, a cold blade light suddenly appeared beside Lin Yi, accurately slashing towards his neck.

Lin Yi was shocked and activated his lightning escape subconsciously. He left his original spot in a flash of lightning and dodged the blade light by a hair's breadth.

"LAN Guzha, protect Li Zao Yi!" Lin Yi yelled and used his spirit sense to find the source of the blade light.

It wasn't that he didn't want to personally protect Li Zao Yi, but the main target of the attack was him. If he ran to Li Zao Yi's side, he most likely wouldn't be protecting her, but rather leading the disaster to her. It was very likely that she would be implicated.

"Don't worry, boss. I'll definitely protect her!" LAN Guzha shouted as he quickly appeared beside Li Zao Yi, his powerful aura on full display. Just from the surface, this guy was much stronger than Lin Yi.

Zheng Dongjue was also scared out of his wits. Although the target of the blade light was Lin Yi, he could clearly feel the horror from standing so close to it. If the blade was aimed at him, he would probably be cut in half before he could even react.

After rolling and crawling out of their position, Zheng Dongjue and Zheng Tianqing chose to run to Li Zao Yi's side at the same time. With LAN Guzha protecting Li Zao Yi, they could at least get some light.

"Lin Yi, be careful," Li Zao Yi's face reddened, and she couldn't be bothered with LAN Guzha's nonsense. She looked at Lin Yi with concern.

The blade light missed and drew a beautiful arc in the air before disappearing. Before Li Zao Yi could finish speaking, it suddenly appeared behind Lin Yi and silently slashed down.

Lin Yi activated his Thunder escape technique again and dodged the blade light by a hair's breadth. He was shocked-his spirit sense didn't notice the blade light at all. If it wasn't for the Jade space's warning and his instinct to save his life, he might not have been able to escape this time.

"What the hell is this thing? If this thing was not attacking me but was opposing Zao Yi and LAN Guzha, I reckon that it would be very difficult for them to resist!" Lin Yi didn't dare to stay in the same place for too long-he dodged again and again, thinking about how to deal with it.

Although the knife light was still staring at him, who could guarantee that it wouldn't suddenly go crazy and attack Li Zao?

"Lin Yi, be careful!" Li Zao Yi suddenly screamed loudly. Even LAN Gu Zha was not faster than her.

Because when the blade light came down, another blade light appeared out of thin air and slashed at where the lightning arc landed.

Two blade lights!

Lin Yi's heart was beating fast as well. He used his body to control the lightning, changing the direction of the lightning arc in the nick of time. He barely dodged the second sinister blade light, but another one that had disappeared suddenly reappeared, chasing after Lin Yi.

"Boss, I'll help you!" LAN Guzha's heart was burning with anxiety. Without waiting for Lin Yi's reply, he roared and shot out. His fist was wrapped in violent pure Qi as he attacked one of the blade lights with all his might.

Chapter 6135 You're The One I Was Waiting For

"Don't come over, protect Li Zao Yi!" Lin Yi took the time to shout as ghost speed wings appeared on his back. As the connection between the two lightning escape techniques, his movement speed increased by several times.

LAN Guzha threw a punch, and the blade light disappeared. He felt very uncomfortable after hitting an empty spot with all his strength. After hearing Lin Yi's shout, he could only step back obediently even though he was unwilling to do so. He didn't want to affect Lin Yi's movements.

Unfortunately, it was already too late for him to retreat. The blade light that had disappeared began to target LAN Guzha. It continuously flashed around his body. Each attack was enough to kill an early stage mountain split expert in an instant.

LAN Guzha roared repeatedly. A rapidly spinning blue water current appeared around his body. It did not affect his punch in the slightest, but when the saber radiance slashed down, it was deflected by the spinning force of the water current. It was precisely because of this that this fellow was able to avoid the attack without any mishaps.

Lin Yi let out a breath of relief. LAN Guzha being able to block one light was within his expectations. He could only hope that Lizao Yi would be fine.

Soon, Lin Yi didn't have time to worry about the others anymore. After LAN Guzha took away one of the blade lights, he didn't relax much. The third blade light appeared around him after a breath.

If it wasn't for the lightning movement and ghost speed wings, Lin Yi really wouldn't be able to block these two well-coordinated blade lights. His body wasn't particularly strong, and if he was hit, he'd be heavily injured, if not dead.

Zheng dongjue and Zheng Tianqing didn't even dare to breathe loudly. They carefully hid behind Li Zao Yi and looked around with fear in their eyes. They were afraid that a fatal knife light would suddenly appear. With their small bodies, they were no different from tofu under that level of knife light. They probably didn't even have the qualifications to make the knife light stop.

Li Zao Yi was very anxious, but she couldn't help Lin Yi. For the first time, she hated herself for not cultivating properly and focusing on making elixirs. If her strength was similar to Lin Yi, she would be able to stand by his side and fight!

With Zhang Liju's strength, if lizao Yi really wanted to train, he wouldn't be too weak. Even if he couldn't be compared to Lin Yi, he would be able to surpass those at the peak of xuansheng realm.

Lin Yi was flying around in the air, and it was thanks to the stone Hall that he had enough space. There were already three blade lights attacking him, and each time they missed, they would disappear and reappear at another angle.

Under the three sinister and strange blade lights, even Lin Yi felt a little flustered. However, he was also a little confused. What was going on? If the goal was to kill Lin Yi, Lin Yi wouldn't even have time to react to the Jade space's signal if he was caught off guard.

Once Lin Yi was killed, LAN Guzha wouldn't be able to defend against the four blade lights, and Yi Zheng dongjue and the others wouldn't be able to either.

Could it be that these blade lights were some kind of test? Just like the golden-haired monkey?

Lin Yi had some understanding now. He pushed the Dragon killing intent and lightning to the extreme and actively attacked the three blade lights. Although he missed every time, he gradually found some patterns.

"Kid, you've finally opened your mind!" Lin Yi blinked at the sudden question.

"Senior ghost, you've already seen through the formation here, right?" Lin Yi only managed to figure out something after being attacked, dodged, and counterattacked all the time, but the damn thing's eyes were sharp. Even if it was a formation he had never seen before, he could figure it out very quickly.

"It's not too early. Before the second Saber Light appeared!" The damn thing lazily smiled, as if it was trying to piss Lin Yi off.

Before the second blade light appeared, wasn't that after the first one? Lin Yi couldn't help but roll his eyes-this thing was just watching him get nervous while worrying about the others "safety, not even giving him a warning! Could they still have fun together?

"Don't blame me for not reminding you. This level of attack is not enough to kill you. This is a rare opportunity to sharpen your skills. I can't just destroy it!" The ghostly thing laughed, and Lin Yi was speechless.

"In that case, I should really thank you, old man!" Lin Yi didn't know whether to laugh or cry as he replied in his heart. He suddenly used thousand changes of wood forest.

Hundreds of Lin Yi's appeared in the stone Hall at the same time. The four blade lights paused for a moment, then flashed wildly, attacking Lin Yi's clones continuously. Even LAN Guzha was abandoned.

Lin Yi retracted his spirit sense into a small area and used his clone to guide the blade light into this area to search for traces.

The four blade lights were attracted over as expected, and the fluctuations became more and more obvious every time they disappeared and reappeared. Other than the fact that Lin Yi's spirit sense was concentrated in this area, the dense blade lights made it easier for him to capture traces.

Just as Lin Yi was about to grasp the trajectory of the blade light, the fifth blade light silently appeared behind his real body. It was like a cold and merciless poisonous snake, instantly baring its fangs.

"I've been waiting for you!" Lin Yi smiled as the blade was about to hit him. He prepared a super alchemy fire bomb in his palm to meet the fifth blade.

He'd expected that there would be a fifth blade light since there were five people who entered, so there should be five blade lights. From the formation marks he'd learned, he could confirm this, and it was just

as he'd expected. The Last Blade light took advantage of Lin Yi's attention on the other four and launched a final sneak attack.

This time, the Super alchemy bomb didn't gather too much power, so Lin Yi could completely control the power, direction, and range of the explosion. The fifth blade light wanted to disappear again, but the small ball of super alchemy bomb completely wrapped it up. The destructive power of the explosion completely isolated the space around the blade light, making its attempt to escape completely fail.

The other four blade lights flickered crazily, trying to surround and kill Lin Yi. Dozens of forest clones immediately blocked the blade lights with all their might, making the scene extremely tragic.

Lin Yi's lips curled up as he channeled his Qi and sent out a huge Dragon-shaped killing intent of the five elements, which whistled into the void tunnel where the fifth blade light was going to escape. From Li Zao Yi's point of view, it looked like the Dragon-shaped killing intent of the five elements had disappeared.

Chapter 6136 Discovered Something Wrong

The entire Hall rumbled, and the entire space seemed to be shaking. The ghost couldn't help but praise, "Although this move of yours is simple and crude, it's also a method of using force to break the technique. Unfortunately, such an exquisite formation was destroyed by you."

"If you think it's a pity, wouldn't it be better to guide me in breaking the formation earlier?" Lin Yi replied with a smile. He knew that this was the ghost's way of using this opportunity to train him. How could he improve if he always had the ghost's help?

"Why do you need me to do everything? are you preparing to be my puppet? I don't really mind." The ghostly thing laughed strangely again. The two of them chatted for a while more, and the entire Hall had completely changed.

The originally empty Stone Hall was now filled with many shelves, and there was even a flight of stairs at the position Zheng dongjue had previously mentioned. It seemed that this fellow's information was not completely wrong. It was just that it was too simple and crude, and it was the same as if it did not exist.

In addition to the shelves and stairs, there was a pyramid in the center of the hall. Five short knives were stuck in it. One of them was broken, and the other four were slightly better, but they were not in good condition. Including the pyramid, they were all damaged to a certain extent.

"That Golden Pagoda-shaped thing is the array base of the previous array. It is also a prop to control the five blades to attack you. It was originally a good thing, but it was completely destroyed by you. It can be considered a junk. Do you like to pick up junk?" The bastard's words were full of sarcasm-with his help, Lin Yi would definitely be able to get this pretty good formation item, but it was still an external item. Compared to Lin Yi's growth in this battle, this thing was not worth mentioning.

"Hmph, I'm also a billionaire now. How could I like picking up trash?" Lin Yi said, but he really did want to keep it for research.

Since the ghostly thing said that it was junk, there was no need for him to study it. He'd better see if there were any other good things.

Zheng dongjue and Zheng Tianqing had already started searching for treasures. The two of them hid far away when there was danger, but ran faster than anyone else when there was something good. Lin Yi didn't bother to pay attention to them. His spirit sense covered the entire Hall anyway. Even if they found something good, they couldn't hide it.

"Boss, you're awesome! It seems that I still need to strengthen my cultivation, otherwise it will be very difficult to catch up with boss "footsteps!" LAN Guzha greeted Lin Yi with a smile as soon as he landed. He'd always thought that Lin Yi was first and he was second. He wouldn't accept anyone else no matter how strong they were, so his words were genuine and without a hint of flattery.

"It's good that you can think this way. Don't think about eating, eating, and fighting all day. " Lin Yi smiled and teased LAN Guzha before turning to Fang Zao Yi, "How is it? Are you alright?"

"I'm fine!" Li Zao Yi was extremely nervous towards Lin Yi before, but she was back to her cold and distant self now. She nodded slightly and pointed at the shelves, "There should have been many items stored on these shelves, but now there's nothing left. If the owner of the monument didn't take them away, then someone must have come to this monument before us. If it's the latter, I'm afraid our harvest this time won't be too great."

"You're right. This is, after all, the ruins of an ancient Alchemist. No one knows if someone has been here for so long. Perhaps the formation just now was set up by someone who came later. " Lin Yi smiled faintly, not too concerned.

He'd already scanned the hall with his spirit sense a few times, making sure that there wasn't anything valuable in the hall. The most valuable thing was probably the Golden Pagoda-shaped formation base, but it was already considered trash by that damn thing. Lin Yi could only call Li Zao Yi and LAN Gu Zha and walk towards the stairs.

As for Zheng dongjue and Zheng Tianqing, Lin Yi couldn't be bothered with them. If they wanted to come, they could come. If they wanted to continue shopping, that was fine too. He was already giving Li Zao Yi face by not killing them. It was impossible for him to take the initiative to greet them.

The two had been looking for something, but they quickly followed Lin Yi and the other two when they saw them leaving.

One reason was that the information they had didn't say that there was any treasure here, and the other was that they knew that it was too dangerous to move alone without Lin Yi. Only by following Lin Yi could they be safe.

"There doesn't seem to be anything wrong with these steps. I wonder where I'll end up if I go up directly? Do you think it's Lufeng forest?" Lin Yi studied the steps and turned to Li Zao Yi with a smile.

"This place looks like a Pavilion or something like a tower. I don't think it's only one or two levels. Perhaps we can only be teleported to Lufeng forest on the last level." Li Zao Yi muttered to herself for a moment before slowly explaining her speculations.

"That makes sense. Let's go up and take a look first!" Lin Yi's spirit sense couldn't see through the stairs to see what was going on, so he decided to just walk up.

Lin Yi paused when he reached the first step—he felt a force pushing him away, but it was so weak that he'd miss it if he didn't pay attention.

"Eh, it seems a little strange!" Li Zao Yi stood beside Lin Yi and also noticed the problem.

Only LAN Guzha didn't feel anything and went up three steps, standing on the third step. He turned back and asked, surprised that Lin Yi and Li Zhaoyi weren't up, "Boss, why aren't you guys moving?"

"LAN Guzha, didn't you notice anything wrong?" Lin Yi found it strange. Could it be that this force only affected human practitioners and LAN Guzha was a sea beast?

"Wrong? Something did not seem right. Were the steps a little too steep? Why do I feel like it's going to fall backwards?" LAN Guzha thought for a moment and nodded seriously.

Lin Yi didn't know what to say-the rejection and the steepness of the stairs weren't the same thing. This guy came here on purpose to be funny, right?

Zheng dongjue and Zheng Tianqing didn't go up the stairs yet. The two guys didn't say anything, only paying attention to Lin Yi's movements. Since it wasn't right now, they didn't rush to follow. They'd wait until the situation was clear.

Lin Yi and Li Zhaoyi looked at each other and nodded. They took a step forward together, and their chemistry became deeper and deeper, but they didn't realize it yet.

Chapter 6137 Ancient Test

Lin Yi stood on the second step and felt it carefully-the force was getting stronger, about twice as strong as the first step. It was still weak, but the trend made his expression change.

If the repulsive force would double with every step he took, it would be difficult to finish the flight of steps.

Lin Yi's spirit sense couldn't see the situation on the next level, but he could see the number of steps. There weren't many steps, only 18!

But if it was really as he guessed, the rejection force would be 130000 times stronger than the first stage at the last stage. The first stage was weak, but if Lin Yi could feel it, it was a force he couldn't ignore.

How terrifyingly powerful would it be after being strengthened by 130000 times? Lin Yi knew that he wouldn't be able to resist this level of rejection.

Li Zao Yi's face didn't look too good either. Her thoughts were the same as Lin Yi 's. If Lin Yi couldn't resist it, then there was no need to talk about her. The best way to test her hypothesis was to continue moving forward!

The two didn't need to say anything and stepped onto the third step at almost the same time. LAN Guzha was waiting for them on the top. He was the first one to come up, but he didn't even think about what Lin Yi and the others were thinking, looking at the two of them calmly.

"As expected!" Lin Yi looked at Li Zao Yi with a serious face.

Li Zao Yi nodded and raised his head to look at the remaining 15 steps in front of him. He let out a light sigh and said,"Every time it increases, it's twice as much as the previous step. Looking at my current strength, I'm afraid I can only persist until I reach rank 11 or 12. I can't do anything higher."

"If this is really the case, I'm afraid I can't pass it either. If I'm not wrong, I can only walk up this step. Other methods are ineffective." Lin Yi smiled faintly as he opened his ghost speed wings, trying to fly over, but he couldn't even leave the ground.

The ghost speed wings were ineffective, and so was the lightning escape technique. It was not that he could not use it at all, but after using it, he would only be able to move up one step. He had to stop on that step and withstand the rejection from above before he could continue.

After Lin Yi tried, he stood on the fifth step and turned around, "Let's go. No matter what, we still have to try. The master of this monument will not set up meaningless obstacles. The previous two times were tests, and this time may also be a test. As long as it is a test, there must be a way to pass it. "

"Boss is right. Although I don't know what you mean, if there's anything, just let me go first!" Langu Zha ha ha laughed as he swung his long legs and climbed three steps in a row. His physical body was extremely tough, and the repulsive force on each step did not affect him at all.

Li Zao Yi smiled and walked up as well. Although the force of rejection was increasing, her posture was still as beautiful as a fairy. Lin Yi couldn't help but admire her in his heart.

Zheng dongjue and the other man saw that there did not seem to be any danger, so they followed him up. The steps in front of them were nothing, and they were also very relaxed. This path became more and more terrifying the further they went. It was already very impressive to be able to walk past twelve or thirteen steps.

Lin Yi didn't care about the two annoying guys behind him and walked side by side with Li Zao Yi. They soon arrived at the seventh step. The rule of increasing the rejection force didn't change, but he found that there was a subtle rejection force against the spirit. This was a force that directly affected the spirit, completely different from the previous rejection force.

"There's a change!" Lin Yi and Li Zao Yi said in a low voice almost at the same time. They looked at each other and smiled, not shocked but happy.

If there were no changes, he would definitely not be able to resist the increased rejection force in the end. Now that there were changes, although the situation seemed to be worse, perhaps this was the turning point?

Because of the rejection against their spirits, Lin Yi and Li Zao Yi naturally used their spiritual power to protect their spirits. In an instant, the power against their spirits almost disappeared, and not only that, but the rejection against their bodies was also greatly reduced.

The eyes of the two lit up at the same time. Sure enough, the change brought about a turning point. While using the divine sense to resist the rejection force of the primordial spirit, it could also greatly reduce the rejection force of the physical body. The possibility of passing through this step had greatly increased.

"I understand now. The most important aspect of this test is the primordial spirit. As long as the primordial spirit is strong enough, one can pass this step!" Lin Yi turned to look at Li Zao Yi, a faint smile on his face.

"That's most likely the case. And I'm guessing that this ruin should be the inheritance left behind by the ancient Alchemist. I heard that the alchemy technique of ancient times had a high requirement on the strength of the primordial spirit, so it's normal to have such a test." Lizao Yi let out a rare smile and agreed with Lin Yi's idea.

Zhang Liju's alchemy inheritance had a high requirement for his essence spirit, and Lizao Yi's essence spirit was compatible with her own power level. In the Sky Class Island, her essence spirit was extremely powerful, so it was easy for her to understand what he meant.

As for Lin Yi, he'd seen the other branch of the ancient elixir Arts in the ancient martial world, and he'd also mastered the spirit sense refinement fire. Naturally, he understood how powerful it was to merge the two different elixir Arts into one.

"That's right. Let's continue. Since we understand this, it should be easy to pass the next test. " Lin Yi smiled and continued to walk up with Li Zao Yi. With the help of his spiritual power, the first 16 or 17 steps weren't a problem anymore. The only thing he needed to worry about was whether or not he could take the last step.

As for LAN Guzha, Lin Yi wasn't worried. The guy wasn't an Alchemist, but his body was extremely strong-even Lin Yi himself was no match for him. In terms of consciousness, the Royal sea beasts of the ancient martial world weren't any weaker either. Not to mention, LAN Guzha was a mutated sea serpent Dragon. After all this time of growth, his spirit was only slightly weaker than Lin Yi 's.

Zheng dongjue and Zheng Tianqing were already feeling some pressure from the back, especially after stepping onto the seventh step. The repulsive force against their primordial spirit made it difficult for them to move even an inch. The two of them did not have the habit of cultivating their primordial spirit, so it was already very good that they were able to persist and not be pushed down the seventh step, although the force on this step was actually not very strong.

Lin Yi didn't care about the two at all. He and Li Zao Yi went up the stairs and soon reached the 17th step. Li Zao Yi was at her limit at this point. Her face was pale as she stood on the 17th step, and her body was trembling slightly. She felt like she was going to fall.

Chapter 6138 It's Indeed Useful!

"How are you? There's only one step left, can you go up?" Lin Yi was also under a lot of pressure, but it was much better than standing up to remember. At this time, he was sure that he could pass the eighteenth step.

Even if the force doubled after being weakened, Lin Yi wouldn't be able to leave the stairs. If it wasn't for the fact that he had to wait for the memory to come back, he could've made it to the eighteenth step already.

"I ... I'm persevering! I can definitely do it!" Li Zao Yi's voice trembled slightly, but she wouldn't give up no matter what.

LAN Guzha was the most relaxed of the three. His spirit wasn't as strong as Lin Yi 's, but it was much stronger than li Zao Yi' s. As for the strength of his body, even Lin Yi and Li Zao Yi's combined couldn't compare to him. He was even more relaxed than Lin Yi when he was on the 17th step.

"Boss, do you think this annoying force will weaken a little if I block in front?" LAN Guzha moved a step to the side, trying to block Lin Yi and Li Zao Yi behind him. If he succeeded, he could help li Zao Yi.

Unfortunately, this repulsive force didn't come from the front, but directly acted on everyone's body, and there was no way to resist it.

"It's no use. You can go up first. " Lin Yi waved his hand, frowning as he thought about how he could help li Zao Yi.

He couldn't just leave her behind, no matter what. Since they were here together, they had to explore the ruins together. It was either no one went, or they had to go together!

LAN Guzha scratched his head. Since his boss had asked him to go up first, he would go up first. He could also see if there were any other strange things up there.

"Good! Boss, I'll go up first. Maybe there won't be any more pressure up there. " LAN Guzha grinned and stepped onto the last step.

The invisible force of repulsion doubled instantly. It was a double in both his primordial spirit and physical body. LAN Guzha could still deal with it relatively easily on the seventeenth step, but he was almost flipped over when he stepped on the last step.

"Ah~~!" The muscles all over LAN Guzha's body bulged. He could not help but let out a hoarse roar. The veins on his forehead popped out. It was apparent that he was already in a state where he was going all out.

To be honest, he really didn't expect this kind of pressure. Even though he knew that the last step would be twice as strong as the original and was prepared to withstand it, he still found out that he had underestimated the horror of the last step.

LAN Guzha's body was already bent over. His legs were half-crouched as he supported himself on the ground with all his might. His hands were on the ground as well, and his ten fingers were gripping the ground tightly. Although he could not destroy the steps, he could at least provide some force.

Lin Yi's eyes narrowed. The power of the last stage seemed to be beyond his imagination. He thought that the last stage wouldn't affect LAN Guzha much when he saw how relaxed LAN Guzha was before, but it turned out to be the opposite.

"Lin Yi, for this step, the stronger the spirit, the less pressure. The reason why LAN Guzha is suddenly so tired is probably because the rejection force increased at the last step has exceeded the limit of what his

spirit can withstand." Li Zao Yi panted a few times and barely managed to finish the sentence. In fact, this was also her own experience.

On the 16th step, li Zao Yi was still very relaxed, but after stepping on the 17th step, the limit of what her primordial spirit could bear was immediately broken, so she suddenly felt extremely difficult.

More intuitively, li Zao Yi thought that the increase in the repulsive force on the 17th step was more than double that of the 16th step. Of course, this was just an illusion. Because it exceeded the limit that the primordial spirit could bear, the repulsive force weakened by the divine sense was greatly reduced, and it felt like the repulsive force had increased even more.

Lin Yi only needed to think for a moment to understand what she meant. For example, if the rejection force on the seventeenth step was two, LAN Guzha's spirit was fine on this step, so he could weaken the force by 1.5. But on the eighteenth step, the rejection force became four, exceeding the limit of what his spirit could bear, and the weakening force was only 2.5. The step itself only doubled the rejection force, but from LAN Guzha's feeling, it was clear that the rejection force was not as strong as he had expected. It would not just double the force, but double it.

"Do you have any ideas to solve this problem?" Lin Yi frowned. He wasn't at ease and couldn't think of an effective way right now. He could only ask li Zao Yi for his opinion.

"Since this step requires the primordial spirit to use spiritual power to weaken the rejection force, I think some spiritual sense skills might be effective. You should have some experience in this area, right? There's no harm in giving it a try. " Li Zhaoyi didn't hold back. She knew that Lin Yi had some powerful skills in spirit sense attacks, but there was no other way. She could only try it.

"That makes sense. Perhaps this is an effective method!" Lin Yi's eyes brightened. He didn't feel too much pressure before, and he could easily stand on the steps with his spiritual sense, so he didn't use his spiritual sense.

After being reminded by Li Zao Yi, Lin Yi immediately scolded himself for being too stupid. He couldn't even think of such a simple thing.

In terms of consciousness, Lin Yi's best move was the soul snatching hand, but it wasn't suitable for this situation. The vortex might be more effective.

LAN Guzha couldn't hold on any longer on the 18th step, and Lin Yi quickly released three spirit vortexes around LAN Guzha.

LAN Guzha, who was struggling to hold on, suddenly felt his body relax. The huge repulsive force had almost disappeared by half. As he was originally resisting with all his strength, under the push of the counterforce, his body suddenly rushed forward with a whoosh. It was like the instinctive action of a sprinter who was in the preparatory action after hearing the starting gun.

Under Lin Yi's control, the vortex didn't have any negative effects on LAN Guzha. Instead, it was this guy who didn't manage to adjust his posture when he rushed out and tripped on the stairs, rolling and crawling up. At least he had passed the 18th step.

"It's indeed useful!" Lin Yi was overjoyed, and a faint smile appeared on his face. Since he could help LAN Guzha, he could naturally help Li Zao Yi as well!

A smile also appeared on Lizao Yi's face. She thought that her journey in the ruins would end here, and bringing up the idea was just her last struggle. She didn't think that Lin Yi would really do it!

Chapter 6139 The Final Test

From LAN Guzha's appearance, Lin Yi's method could clearly weaken the force of rejection so even if her spirit wasn't as strong as LAN Guzha's, she didn't have to worry about not being able to get up.

"Little Junior Sister, get ready. We're going up!" Lin Yi reminded and released a divine sense vortex beside Li Zao Yi.

Level seventeen wasn't enough to push Li Zao Yi away completely, so Lin Yi only used one divine sense vortex. Li Zao Yi felt his body relax instantly. Although he was prepared, he almost rushed forward like LAN Guzha.

"Let's go!" Lin Yi naturally reached out to hold Li Zao Yi's hand and stepped onto the last 18 steps first. The violent rejection force surged over like a tide, but it didn't affect him much.

Two Spirit sense vortexes appeared again, clearing a small area around Lin Yi. Li Zao Yi, who was being pulled by Lin Yi, took the chance to step onto the 18th step, but she felt that the rejection force wasn't as strong as when she was at the 17th step!

"What a powerful spiritual awareness skill. If you want to, you can help almost anyone pass through this passage!" Li Zao Yi exclaimed in a low voice. She really respected Lin Yi. Although she never called him senior, she already recognized his identity in her heart.

"Don't sigh, hurry up and go up, I can't use spiritual awareness skills without limit." Lin Yi smiled faintly and pulled Li Zao Yi up.

They'd already felt the force of repulsion on the last step, so leaving this place wasn't a problem. With Lin Yi's spirit sense vortex opening the way, they easily made it to the last step. Then, the scene in front of them changed, and the place that even spirit sense couldn't see finally revealed itself.

"Pill furnace? Is this a test of my pill concoction skills?" Li Zao Yi looked at the exquisite pill furnace in front of her with some surprise and muttered to herself in a low voice. If that was really the case, then it was extremely simple. Wasn't she the best at refining pills?

Besides, Lin Yi was also a Mystic class level two refiner, even stronger than her. This would be the easiest test for her.

"Boss, there's nothing else here other than that pill furnace. Is there something hidden in the dark like the previous floor?" LAN Guzha had already observed the environment here. To be honest, he was very disappointed!

In this broken place, there was nothing good to eat, and there was no place to fight with him. It was really boring. If only he had a golden-haired monkey in each place and had a good fight. Wouldn't it be more interesting than this kind of messy test?

Lin Yi ignored LAN Guzha. He felt that his spirit sense seemed to have improved after the 18th step, becoming more condensed. It seemed that it wasn't just a test, but also a kind of training.

After scanning with his spirit sense, Lin Yi didn't find any traces of formation. Of course, with his skills in formations, it was normal that he couldn't find any traces. The only reason he could find some clues was because he used a trick to gather four blade lights and found the formation traces from the fluctuations.

"Let's take a look at that pill furnace first, and see if there are any instructions. " Lin Yi said to Fang Zao Yi in a low voice, indicating for her to wait there. He carefully approached the furnace.

Lin Yi didn't want to let his guard down since the thing didn't say anything.

Li Zhaoyi nodded and waited obediently, her eyes following Lin Yi's every movement. To be honest, she didn't even realize that her care for Lin Yi had completely surpassed her own.

If she wasn't afraid of disturbing Lin Yi, she would've followed him already, even replacing Lin Yi to check the furnace herself.

LAN Guzha blinked and rushed up, blocking in front of Lin Yi loyally. Lin Yi didn't know whether to laugh or cry.

"LAN Guzha, why are you blocking me? I can't see the pill furnace!" Lin Yi patted LAN Guzha's shoulder and pulled him to the side.

He could see the cauldron with his spirit sense, but he still wanted to see it with his own eyes, especially the inside. His spirit sense couldn't penetrate it, so there must be something wrong inside.

"Oh," LAN Guzha replied and quickly moved aside. Lin Yi bent over and got closer to the furnace, squinting his eyes to observe.

This alchemy furnace was rather exquisite, but the patterns on its surface were extremely ancient and profound. From a distance, they seemed to be decorative patterns, but at a close distance, they could clearly see that these patterns were very ancient and definitely not a simple thing.

After a while, Lin Yi reached out to open the lid. He couldn't use his spirit sense to check the interior, so he didn't know what was inside. He hoped it wasn't something fatal.

LAN Guzha inched closer to Lin Yi and assumed a defensive posture, ready to protect Lin Yi at the slightest sign of trouble.

"Don't be nervous, there's no danger!" Lin Yi lifted the lid a little and sent his spirit sense in. He didn't find anything unusual and waved at LAN Guzha with a smile.

Lizao Yi, who had been watching Lin Yi, let out a breath of relief and quickly walked up to study the furnace with him.

"As expected of an Alchemist's furnace from the ancient times. Its quality is really good, much better than mine." Li Zao Yi couldn't help but praise in a low voice. When an Alchemist who was obsessed with alchemy saw a top grade pill furnace, it was like a lecherous man seeing a beautiful woman. They wouldn't drool, but they would still be unable to move.

"If you like it, then take it. We've at least gained something from entering these ruins!" Lin Yi smiled. He didn't care about the cauldron at all. Even if he didn't have the Shennong cauldron, he wouldn't fight with Li Zao Yi for it.

Plus, without Han Jingjing's help, it would be a waste of resources in Lin Yi's hands no matter how good the furnace was.

"Then I won't be polite! After this, if I can take it away, I'll take it with me." Li Zao Yi squinted his eyes and smiled, his expression extremely satisfied.

"It's best if you don't stand on ceremony. I'm just afraid that you'll stand on ceremony with me." Lin Yi waved his hand with a smile and took out a sheepskin scroll from the furnace.

Because the pill furnace was extremely well-sealed, the sheepskin scroll was preserved very well, and there was almost no damage.

Lin Yi unfurled the parchment slowly. There were small words on it, filling the entire parchment.

"... Since you've passed the previous tests, you've met the most basic requirements to become an Alchemist. However, if you want to enter my sect, this is far from enough. Only by passing this last test can you enter ..."

Chapter 6140 Imparting Alchemy Fire

"... Use my pill furnace to refine a batch of pills. As long as you meet the requirements, I'll let you in. Otherwise, take my pill furnace and leave this place. The real ruins won't be discovered by you. Even if you force your way in, you'll only see ruins ..."

"... I've already given you the pill formula. You can stay here for the time being before you study it thoroughly. However, you won't have much free time, so don't think about staying here forever ..."

Lin Yi was speechless at the contents of the scroll-this ancient refiner's words were pretty straightforward, but because of that, he and Lizao Yi had no problem understanding it.

To put it simply, in order to pass through this place, one must use this alchemy furnace to refine the elixir he specified. The elixir formula had already been prepared, but the required spiritual herbs had to be provided by himself.

When the pill was completed, the pill furnace would automatically judge whether it was qualified or not. If it was qualified, the passage to the real ruins would open. If it was not, the pill furnace would be the reward of this expedition. At least it would not let you come for nothing.

From this, it could be seen that the pill furnace that Li Zao Yi had taken a fancy to was probably just a common item that the ancient Alchemist had given to someone casually. After this person left, a new pill furnace would probably appear in this place.

The means of using this kind of array, even the ghost would have to admire the master of this monument!

"Lin Yi, what do you think of this recipe?" After Li Zao Yi finished reading the sheepskin scroll, her clean and delicate eyebrows couldn't help but slightly frown.

The time given by the master of the monument was three days to study the pill recipe and three days to refine the pill. In other words, if they couldn't successfully refine the pill in six days, they would be forcibly teleported out.

There wasn't much free time, and that was what it meant. When Lin Yi first saw it, he was wondering if there were still free time left after the free time was used up. Obviously not ...

"I've never seen this pill recipe before. The materials required aren't too rare or precious, but the refining difficulty isn't low. Perhaps the master of the monument wanted to avoid the people who participated in the test from losing the opportunity because they didn't have enough precious spirit herbs. " Lin Yi sighed softly. If he used his Shennong cauldron and put the recipe in, it would be easy to make the pills. After Han Jing Jing's latest upgrade, he could probably make even black grade level four or five pills. It was a pity that the guy insisted on using his cauldron, so Lin Yi could only watch from the side.

"Yes, this recipe hasn't been circulated yet. It should be something from ancient times. The difficulty of making it is about Mystic level three, which is beyond my ability." Li Zao Yi rubbed her forehead and felt a headache.

It was just an entrance test, and he had to use a Mystic third level pill to make it. Just how powerful were the alchemy skills in ancient times?

If it was just an ordinary Mystic third level pill, Li Zao Yi might still be able to clench her teeth and try it. If she tried her best to break through, it wasn't completely without hope of success. Even if it was only a one in ten thousand chance, it was still much better than being completely hopeless.

However, this recipe also involved the use of spirit sense. Zhang Liju's line had already attached great importance to spirit sense, but Li Zao Yi still didn't know how to do it.

"I can't concoct the pill from this recipe either. It seems like we'll have to work together again." Lin Yi admitted the fact that he couldn't make elixirs without even trying.

With that furnace, he couldn't even make a golden class level three pill, let alone a Mystic class level three pill. He'd better just honestly think of a way to help Li Zao Yi.

As a genius refiner, Li Zao Yi's skills in refining elixirs went without saying-her techniques and skills were way beyond Lin Yi's, who wasn't even a half-baked genius. All she lacked was the support of thick and strong Qi.

Lin Yi didn't lack Qi at all, and if the Qi in the Jade space couldn't be converted into his Qi after using skills like lightning escape, then it wouldn't be a problem if he used supplementary skills like spring rain.

"I'm afraid we won't be able to succeed even if we work together this time. Look here. " Li Zao Yi stretched out her fingers and showed Lin Yi one part of the recipe before pointing at a few other places,""And here, here, and here. The alchemy fire required in these places is not the alchemy fire of the five elements true Qi. Even with your help, I can't refine the elixir."

"It's indeed not the five elements true Qi pill fire, but the consciousness pill fire. This pill recipe can only be refined by combining two types of pill fire, but the use of the consciousness pill fire is extremely shallow, basically not even at the beginner level. As long as you can condense a consciousness pill fire, it won't be a problem at all. " Lin Yi finally understood why the owner of the ruins arranged for this recipe.

Those who had passed the 18th step had a relatively balanced primordial spirit and body, which were both indispensable. Such alchemists could naturally use true Qi, pill fire, spirit sense, and pill fire.

In this elixir recipe, the consciousness elixir fire wasn't even at the beginner level. Obviously, it was just a test to see if the newcomer could really condense a consciousness elixir fire. This was the same logic as

people with strong true Qi might not necessarily be able to condense the five elements true Qi elixir fire. Only those who really mastered the elixir fire of two systems were qualified to enter his ruins.

"Spirit sense pill fire?" Li Zao Yi's eyes brightened. She had vaguely heard of some things in this area, but she had no way to do it. It was too difficult to comprehend it by herself.

Even the pill God Zhang Liju had reached a bottleneck in this area of research, let alone Lizao Yi. Hearing Lin Yi mention the consciousness refinement fire so easily, Liju was pleasantly surprised.

Lin Yi smacked his forehead. He had wanted to tell Li Zao how to condense a conflagrated fire, but he didn't think of it. With the strength of her essence spirit, controlling a conflagrated fire was a piece of cake.

"Look, this is the consciousness pill fire!" Lin Yi reached out his hand and a conflagrated fire appeared in his palm. Lizao Yi's eyes lit up as she saw the fire.

"In fact, the consciousness pill fire is very simple. As long as you master the trick and have a strong enough primordial spirit and consciousness, you can successfully condense the consciousness pill fire. Come, I'll tell you how to do it." Lin Yi closed his palm and extinguished the conflagrated fire. He started explaining to Li Zao Yi how to condense the conflagrated fire.

All kinds of refinement fire methods were extremely precious to a refiner, and Lizao Yi didn't think that Lin Yi would tell him so easily. But since he was his senior brother, there was nothing wrong with that, so he didn't say anything.
