

Bodyguard 6141

Chapter 6141 One Wrong Step, One Wrong Step, One Wrong Step

With her talent, it wasn't hard for her to learn the fire. After Lin Yi finished, she just pondered for a while and quickly formed it.

A genius was a genius. If he couldn't figure it out, it meant that he didn't have a direction. With a little guidance, he could see the light.

Making this recipe didn't require much of the spirit sense fire-it was enough as long as it could be formed. Li Zao Yi's confidence increased-she might not be able to make Mystic level three with her own strength, but with Lin Yi's help, her chances of success were at least 50%.

Once the pill was formed, it would be of great help to Li Zao Yi in alchemy. When her strength increased, it would be easy for her to refine Mystic level third grade alone.

"There's still time. I'll study the pill recipe and the use of the consciousness pill fire." Li Zao Yi was very excited. She knew that it wasn't a good time to start concocting pills, so she suggested to study the pill recipe again to calm her mood.

Naturally, Lin Yi didn't have any problems with that and let Li Zao Yi do her research. He and Lan Guzha searched around the space.

Compared to the previous floor, the space here was much smaller. If the five blade lights appeared in this space, Lin Yi's ghost speed wings and lightning escape would be restricted. The area of movement was too small.

On the other side, Zheng dongjue and Zheng Tianqing had already been expelled from the steps. They had tried a few times, but they could not stand firm at the eighth step at most. Looking at the high 18 steps, the two of them had almost fallen into despair.

"Second Grandpa, are we just going to go back like this? There were precious treasures in the ruins! Even if we can't get it, we can't let that Lin Yi get it!" Zheng Tianqing said through gritted teeth. If it wasn't for his lack of strength, he would've attacked Lin Yi with the blade light.

As for whether or not Lin Yi saved their lives, that wasn't important at all!

"Tian Qing, wait, don't be anxious. Let me think!" Zheng dongjue raised his hand and gently waved it twice. Then, he paced back and forth below the steps with his hands behind his back.

After a short while, Zheng dongjue's eyes lit up as if he had thought of something. He clapped his hands and said, ""There it is! I didn't understand the meaning of these words before. Maybe they're used in this place!"

"Second Grandpa, what did you remember? Hurry up and tell me!" Zheng Tianqing couldn't wait any longer. Lin Yi and the others had been up there for a while. If they didn't follow, who knew if they would be able to find them?

"Do you remember that there were 18 short incantations in the record? It seems inexplicable?" Zheng dongjue smiled smugly. The eighteen pithy formulas corresponded to eighteen steps! Although he had not tried it yet, he was at least 90% sure that it would not be wrong!

"Eighteen short pithy formulas?" Zheng Tianqing was slightly stunned. He immediately searched his memory. At their level, their memory was extremely powerful, and having a photographic memory was only the most basic ability. So, he quickly recalled what Zheng dongjue had said, "One on the right, three, two on the left, four, three on the left, three?"

"That's right. If I'm not wrong, there's a point on these steps that doesn't have any repulsive force. And this point is the short incantations mentioned in the records!"

"That makes sense! Then how do we determine the position of one on the right, three on the right, two on the left, four on the left, and so on?" Zheng Tianqing's eyes were getting brighter and brighter. He felt that this deduction was very likely to be true. In this case, it would be much easier to go up.

"It doesn't matter. Even if we try one by one, we can still test it out!" Zheng dongjue laughed out loud, full of energy. However, this stupid method obviously wouldn't satisfy Zheng Tianqing, who was in a hurry to catch up with Lin Yi.

"Second Grandpa, did you notice? In other words, each step is divided into ten parts, five on the left and five on the right. One on the right is the third part on the right of the first step, and two on the left is the fourth part on the left of the second step!" Zheng Tianqing pondered for a moment before a smile appeared on his face.

Zheng Tianqing was quite smart, or he wouldn't have planned to deal with Lin Yi on the northernmost Island. Compared to Zheng dongjue's suggestion of trying it out bit by bit, his idea was more practical.

"That makes sense! Tian Qing, you're really smart, let's quickly try it!" Zheng dongjue nodded heavily and looked at Zheng Tianqing with eyes full of admiration.

One to the right and three to the right were very easy to identify. After dividing the steps in the middle, the right side once again divided into three points. Zheng dongjue took a step forward, and as expected, he did not feel the slightest force of rejection!

"Success! It really is like this!" Zheng dongjue laughed out loud. There was no force of rejection at all. Wasn't it possible to climb up the 18 steps in the blink of an eye? He couldn't help but feel proud when he thought about Lin Yi and the others working so hard.

Unfortunately, he didn't know that these steps were specially used by the master of the monument as a trial. Using this kind of opportunistic method and relying on their own strength to climb up, how could they end up with the same treatment?

"Second Grandpa, quickly try the position of the second step! As long as we can confirm the second level, we can't be wrong about the rest!" Zheng Tianqing did not follow because the steps were divided into ten parts, and each part was only enough for one person to stand on. If he went any further, he would have to go to the other part.

"No problem!" Zheng dongjue jumped lightly and stepped toward the two to the left and the four he had determined. However, there was a slight deviation in the air and he could not completely stand in the predetermined position.

A repulsive force even stronger than that of the second stage emerged out of thin air. Although it was not enough to push Zheng dongjue away, it still surprised him. It seemed that he could not make any mistakes with each step, or else the exemption from the previous steps would be multiplied and explode at the end. It did not matter for the first few steps, but if such a mistake occurred in the last dozen steps, Zheng dongjue doubted whether he would be able to survive.

After resisting the repulsive force, Zheng dongjue slowly moved his position, looking for the point where there was no repulsive force. However, no matter how he moved inch by inch, he could not find the point where the second was left and the fourth was left.

"Second Grandpa, I understand now. The first wrong step will cause the safe spot to disappear. That's why you can't find it!" Zheng Tianqing saw Zheng dongjue moving around on the second step and knew that his attempt had failed.

He deliberately walked the wrong way on the first level and then returned to the three positions on the right. He immediately understood what was going on, so he called Zheng dongjue back.

As long as he took the wrong path, there was no need to continue!

Chapter 6142 Secretly Happy

When Zheng dongjue heard his words, he came to a sudden realization. He returned to the ground with a bitter smile and said, "I was careless. Let's try again!"

"Second Grandpa, you don't have to worry about it. It's better to be able to find the mistake now than to be unlucky later, right? We still have a chance to start all over again at the beginning, but once we reach the top of the stairs, we might not have the chance anymore. " It was rare for Zheng Tianqing to show his magnanimity, not only because Zheng dongjue was his second grandfather, but also because he was thinking about his own life.

After the two of them exchanged their thoughts, they were ready to try a second time. This time, Zheng Tianqing would be the one to carry out the plan. However, when he stepped on the first three steps on the right, his face immediately turned ugly.

"Tian Qing, what's wrong?" Zheng dongjue was shocked. He looked at the position where Zheng Tianqing had landed. It was exactly the same as where he had been standing. There should not have been any problems.

Zheng Tianqing shook his head and stepped back. "There's also a rejection force at this spot! Could it be that the incantation could only be used once? You can't use it again after making a mistake?"

It was not easy to find a way to pass. If there was only one chance, Zheng Tianqing would hate Zheng Dong to death.

He had said that he would be magnanimous just now because he could keep trying. The more experience and lessons he learned, the safer way to pass through. However, if he only had one chance, who would care about the experience and lessons? Wouldn't it be better to just go over carefully?

"Why would I? I'll try!" Zheng Dong refused to believe it. Once again, he stepped onto the first three positions on the right. There was indeed a repelling force, which was completely different from the first time.

"Why is it like this? There's no reason for that!" Zheng dongjue was a little dazed. He knew that if he took one wrong step, it would be useless to continue walking. Therefore, he could only return to his original spot with a dumbfounded look on his face.

"Maybe there's a time limit? If I fail, I'll have to wait for a while before I can try again?" Zheng Tianqing thought for a long time and finally came up with a reason to comfort himself.

"Yes, yes, yes! That must be it. Let's wait and try again!" Zheng dongjue nodded his head repeatedly. He could only count on this reason now!

Therefore, after a short period of time, the two of them would go up, one on the right, and three on the right to try. They didn't dare to try the other positions, for fear that they would continue to make mistakes and waste more time.

It was not until more than two hours later, when Zheng Tianqing had stepped on it for the umpteenth time, that he finally felt the repulsive force disappear completely.

At this moment, his eyes were brimming with tears. Even though it had only been two hours, the torment in his heart was as if it had been decades.

"Second Grandpa, it's done!" Zheng Tianqing did not dare to move. He turned his head slightly and made a gesture to Zheng dongjue.

Zheng dongjue finally heaved a sigh of relief. If this trip to the remains ended because of him, he would not be able to forgive himself. Fortunately, the situation was not too bad. It was only two hours, and they could afford to delay.

"Tianqing, be careful. If you make another mistake, it might take even longer. We can't take the risk. If Lin Yi's group gets too far away, we might not even get the soup." Zheng dongjue warned. If there was no time limit, it would not matter if he tried a few more times. However, he could only pursue success once now.

"I understand!" Zheng Tianqing nodded and took a deep breath. He then stepped onto the second step with a solemn expression.

There were no unexpected deviations this time. Zheng Tianqing stood firmly on the predetermined position. Fortunately, his guess of the position division was correct. As long as he continued to walk carefully, he would be able to pass the eighteen steps.

"Second Grandpa, you can come up now. Follow my position and don't take any wrong steps." Zheng Tianqing relaxed a lot and turned around to ask Zheng dongjue to follow.

Zheng dongjue nodded solemnly and carefully stood on the first step. Zheng Tianqing then looked at the third step and carefully determined the landing point for the next step.

At this moment, the repulsive force that had disappeared reappeared. Although it didn't push him down the steps, it almost made him go crazy! Because this meant that he had failed again!

"Why? I didn't even move, so why did it fail?" "No!" Zheng Tianqing roared unwillingly, but it was useless. A failure was a failure. If he wanted to continue, he could only wait for time to pass.

This time, the waiting time was increased again. He could only try it after four hours. After summarizing his experience, Zheng Tianqing believed that he could not stay too long at the safe point of each step. At most, he had to move on to the next step after about a breath.

" Zheng Tianqing's roar was heard again. It seemed that if the two of them wanted to pass the 18th step smoothly, they would have to continue to sum up a lot of experience.

Three days passed by in a flash, and Li Zao Yi finally completely understood the pill recipe. In fact, she could have started refining the pill on the first day, but since the master of the monument gave her three days, she didn't need to waste it.

It turned out that these three days were not wasted. Not only did he understand every step and detail of the pill recipe, but his understanding and control of the consciousness pill fire had also improved a lot.

If it wasn't for the fact that Li Zao Yi's strength wasn't enough to make a Mystic third level pill, she might've been able to complete this test without Lin Yi's help.

"Lin Yi, get ready to start!" Li Zao Yi placed the prepared herbs next to the furnace and cleaned it before speaking to Lin Yi.

But remembering the embarrassing incident with Lin Yi last time, she felt a little weird. This time, LAN Guzha was here. What should she do if that happened again?

Lin Yi coughed dryly, remembering the incident as well. He was confident that he could control it, but it'd be hard to explain himself if something went wrong.

"LAN Guzha, Li Zao and I are working together to refine the elixir. We can't be disturbed. Please protect us and don't let anyone disturb us." Lin Yi said, putting on an act. Other than the two of them, LAN Guzha was the only one here. As for the two idiots from the Zheng family, they probably wouldn't be coming up after three days.

LAN Guzha blinked twice and thought to himself, "these words don't sound right. Are you telling me to watch over myself and not disturb boss and the rest?" Was it that difficult?

"Boss, don't worry. I won't let you down. I promise that no one will disturb you and sister-in-law!" LAN Guzha nodded vigorously and patted his chest in all seriousness.

Li Zao Yi's pretty face was slightly red. She thought, "we're concocting pills, not doing anything else. What do you mean by" guarantee that no one will disturb you and ... Sister-in-law "?"

Unconsciously, Li Zao Yi did not reject LAN Guzha's title of sister-in-law. Instead, she was secretly happy.

Chapter 6143 Fighting For Fun

"Okay, then I'll leave it to you!" Lin Yi grinned. Why was LAN Guzha always so unreliable? Can't you be more unreliable?

With that, Lin Yi took out the invisibility formation disk and activated it to hide him, Li Zao Yi, and the cauldron inside. This way, even if something happened, it wouldn't be exposed.

"Boss is indeed boss. He's already prepared a concealment array disc. This kind of good thing is indeed a must-have item for home travel!" LAN Guzha clicked his tongue in admiration. He felt that it was the right decision to follow his boss. He could learn new things at any time.

Speaking of what he was learning, LAN Guzha felt that it was too boring to stay here alone, so he decided to use the thousand changes of wood and forest he learned from Lin Yi.

Back in the common world, he'd been envious of this move, thinking that it was the best choice for fighting, but he'd felt that fighting with clones wasn't as fun as fighting himself, so he didn't put much effort into learning it. It was only when Lin Yi used it again that LAN Guzha suddenly had an idea-this move was definitely tailor-made for him!

It was a fight! So what if he didn't have an opponent? he could find himself an opponent!

After transfiguring ten LAN guzzas, this fellow grinned foolishly. The ten clones followed suit and laughed foolishly too. In the future, if he wanted to fight, he could do it anytime and anywhere!

"Please enlighten me!" LAN Guzha coughed once and put on an act as he cupped his hands towards the ten clones, exuding the air of an expert.

The ten avatars also cupped their hands and said in unison, ""Please enlighten me!"

After he finished speaking, the scene suddenly changed. The eleven LAN guzzas each screamed and rushed forward. If anyone had seen the scene just now, they would definitely think that it was a battle of one against ten. However, it was not! This was a F * cking chaotic battle without rules!

A moment ago, it was two against one. The next second, it was two cooperating players tearing at each other. The one who had been attacked earlier turned around and fought with the other person ...

Only LAN Guzha could pull off such a peculiar battle when he was bored ...

Luckily, the invisibility formation could block out sounds from the outside world, or Lin Yi would've run out and slap this guy to death! Didn't you say not to disturb me? Did they have to tear down the entire place to be considered noisy and disturbing?

Lin Yi had already started using spring rain to help lizao Yi in the invisibility formation. He had three days to make the pills, and it didn't matter if he failed the first time-there was still a second chance, but it was hard to say if lizao Yi could make a second batch of Mystic third level pills in three days.

Even with the support of Lin Yi's Qi, it wasn't that easy to recover from mental exhaustion. Plus, the spirit sense refinement fire wasn't the main method, but the consumption of spirit sense was inevitable.

The best result, of course, was to succeed on the first try to avoid any accidents. They were about to enter the real remains, and neither Lin Yi nor lizao Yi wanted to fail at the last moment.

It was quiet and quiet inside, refining pills step by step. Outside, LAN Guzha was having fun alone. At this time, Zheng dongjue and Zheng Tianqing, the two unlucky guys, finally passed the eighteenth step and arrived at Lin Yi's level.

It was just that when they entered, there was a layer of black light that flashed briefly on their bodies. Whether it was them or LAN Guzha, they were not able to discover the existence of this layer of black light.

"Yo, you two trash can actually come up here. You've really made this great master look at you in a new light!" LAN Guzha's eyes lit up and he burst out laughing.

Although it was interesting for him to fight with his clone, it was always the same routine. After playing for a long time, he would get bored. Now that he suddenly saw the two people from the Zheng family, didn't that mean that he had new opponents?

If it were any other expert in the mountain split stage, they would not be interested in fighting against cultivators who were much weaker than themselves. However, LAN Guzha was different. He did not pick his opponents. As long as he could fight, it did not matter whether they were in the foundation building stage or the sea splitting stage!

Zheng dongjue and LAN Guzha were confused when they saw LAN Guzha fighting with his clones. They felt that something was wrong. Lin Yi and lizao Yi weren't here. Did they leave?

Did he leave LAN Guzha alone just to deal with the two of them? If Li Zao Yi was here, Lin Yi might still be concerned about her face. Leaving LAN Guzha alone was obviously a bad move!

"Where's Lin Yi?" Zheng dongjue asked carefully. He actually wanted to ask where lizao Yi was, but he was too scared to ask Lin Yi directly.

Zheng Tianqing was already prepared to run away. If he knew that Lin Yi and Li Zao Yi weren't here, leaving only LAN Guzha, this lunatic, he wouldn't have come up even if he was beaten to death.

"You're looking for my boss? He's not free now. If you want to see my boss, you have to fight with me first. " LAN Guzha chuckled as he waved his hand and dispersed the clones. He then beckoned to the two men from the Zheng family with his finger.

"We're not your match. We admit defeat!" Zheng dongjue was a carefree man. The difference in strength was too great, so it was not unacceptable to admit defeat.

"Why did you admit defeat? can't you have some backbone?" LAN Guzha glared at them in dissatisfaction. A fight needed someone to fight. If the opponent did not even have the intention to fight back, it was not a fight but a punching bag!

Zheng Tianqing's heart skipped a beat. He understood a little of LAN Guzha's character. He immediately sneered, "We're not as strong as you. If we admit defeat, it means we have a backbone. If you want to kill us, come and kill us. We won't resist!"

Only a fool would resist. As long as LAN Guzha came over, it was more important to run for their lives.

"How about I suppress my strength to the same level as you guys?" LAN Guzha did not give up. He had nothing to do anyway. It would be great if he could have a fight and beat them up at the same time.

"Come and kill us, we won't fight back even if you kill us!" Zheng Tianqing's face was full of righteous indignation, generous and tragic. He was actually sure that LAN Guzha wouldn't attack people who didn't fight back, except for Lin Yi's orders.

The guy was pretty smart at times, but it was like he'd met his natural nemesis when he met Lin Yi-he always ended up with dust all over his face, making him look like an idiot.

"Boring! The two of you stay there and don't move. If you dare come over, this Lord won't be polite and will directly kill you!" LAN Guzha glared at them and threatened them. He then turned around and ignored the two of them.

LAN Guzha had no choice but to continue fighting with himself ... He created another ten clones and began to fight chaotically. Because the two guys from the Zheng family were there, he even left one clone to monitor them. If they dared to move, there was nothing more to say.

Chapter 6144 Servants Are Not Qualified To Walk Through The Main Door

Zheng dongjue and Zheng Tianqing looked at each other. For a moment, they did not know what to do. They did not dare to go over, but they were unwilling to turn back. They could only wait and see.

Another day passed, and the same low rumbling sound came from this level, revealing a circular door of light. Lin Yi put away the invisibility formation disk and revealed himself with Li Zao Yi. The mystic level three elixir was successfully made under the two's cooperation. Although it was only of medium quality, it was considered a pass by the cauldron.

However, a failure would allow the cauldron to be taken away, but a success would allow the cauldron to disappear, including the mystic third level pill. Perhaps this was the price to pay for passing the test to enter the next place.

Lin Yi didn't mind, but Li Zao Yi just felt a little regretful. She really did like that cauldron, but they weren't in the ruins yet. She'd find better treasures when she went in.

"Boss, you and sis-in-law have opened the passage!" LAN Guzha ran over and patted his chest. "Boss, I didn't let anyone disturb you and sister-in-law, did I? Those two sneaky guys wanted to cause trouble, but I stopped them. I don't like them, so can I go and beat them up?"

Zheng dongjue and Zheng Tianqing couldn't help but roll their eyes. What the hell is this B * stard talking about? The two of them had been restricted from moving ever since they came up, so why were they sneaking around and trying to cause trouble?

Lin Yi looked at the two from the side and smiled faintly. "Don't worry about them, we just need to take care of ourselves. "

"Oh," LAN Guzha replied, but he was slightly disappointed. It was true that he did not fight with people who did not resist, but if his boss agreed for him to beat people up, he could still do so.

Unfortunately, Lin Yi didn't like LAN Guzha to do anything as he pleased, and so he had to restrain himself. It couldn't be helped-this was what they agreed on before they came to Sky Class Island.

"Let's go. This door of light should be the passage to the real remains!" Lin Yi and Li Zao Yi looked at each other and smiled, and the two walked side by side towards the light door.

After working together to concoct pills again, the relationship between the two of them had become more harmonious and intimate. This time, the embarrassing incident from last time didn't happen, so it could be considered relatively smooth. This made Li Zao Yi's mood extremely good.

LAN Guzha glared at Zheng dongjue and the others after Lin Yi and Lin Yi entered the light door before following them.

"Go! Let's follow them!" Zheng Tianqing waited for LAN Guzha to leave and immediately called Zheng dongjue over. As long as Yi was there, Lin Yi wouldn't kill them. In that case, of course they had to follow.

Even if they couldn't get the meat, they'd still have to get some soup, or Lin Yi wouldn't get the meat either.

Zheng dongjue did not waste any time and immediately rushed toward the light door with Zheng Tianqing. However, as they approached, a layer of black light emerged from their bodies. They were immediately separated from the light door by an invisible force. No matter how hard they tried, they could not get close.

"What's going on? Why is it like this?" Zheng dongjue was a little dumbfounded. Where did the black light on his and Zheng Tianqing's bodies come from?

Why didn't Lin Yi and the others experience the same thing?

"Servants are not qualified to enter through the main entrance. If you want to follow your master, enter through the side door!" A mechanical voice echoed in the space, probably some device left behind by the master of the monument.

Zheng Tianqing almost went crazy with anger. "You're the F * cking servant. I'm the genius of the East Province. How can I be a servant?" That bastard Lin Yi's servant? See your big head!

There was indeed a small rectangular light door beside the light door, but it was only half the height of a person, and its width was only enough for one person to pass.

If one wanted to enter from here, one had to bend down and maintain a very respectful posture. Only a child could walk through it normally.

Seeing this light door, Zheng Tianqing had the urge to vomit blood. On the other hand, Zheng dongjue was calmer. He pulled Zheng Tianqing's arm and said, "Tian Qing, let's go over immediately. Don't worry about those things. We know what's going on in our hearts."

"I'm going to kill that bastard! I will!" Zheng Tianqing gritted his teeth and made a vow. He suppressed the shame and anger in his heart as he prepared to pass through the small light gate.

He understood that this had something to do with the eighteenth step-the three of them had all relied on their own abilities to get here, and only the two of them had gotten here by chance.

Hence, the owner of the ruins judged that Lin Yi and the others were the ones who had the right to enter the ruins, and Zheng Tianqing and the other man could only enter as their servants or followers at most.

There was no need to ask, after entering the ruins, the benefits would be different. The reason why they were divided into levels here was to be treated differently when entering the ruins.

But even so, Zheng Tianqing and Zheng dongjue could only swallow their anger and go over first. No matter what, they couldn't let Lin Yi be so smug!

After the two of them bent over and passed through the small light door, they realized that LAN Guzha was standing in front of the small light door and looking at them with interest. Initially, this fellow was

curious about the small light door at the side and did not understand what it was used for. He did not expect to see the two people from the Zheng family coming out from inside.

"Yi, why are you two so obedient? you know how to take the initiative to bow when you see me. Not bad, not bad. I'll reward you with some benefits later." LAN Guzha chuckled and pointed at the two of them with a teasing tone.

The two men from the Zheng family were already embarrassed to death. After LAN Guzha said that, their faces turned even redder. However, even if they were to join forces, they would not be able to take on LAN Guzha alone. They could only pretend that they did not hear him and turn their heads to the side.

On the other side was Li Zao Yi. She just looked at the two of them with a strange expression and happened to meet their eyes. This kid and the two people from the Zheng family felt more and more ashamed.

After this, the thickness of their skin would definitely advance by leaps and bounds, and perhaps they would reach the legendary invulnerable state. As for now, no one cared about them anyway, so who cared if they were ashamed or angry?

After the five of them arrived, the two light doors, one large and one small, disappeared. From the surrounding environment of towering ancient trees, it was obvious that they were no longer in the sea fog maze.

"Lin Yi, this should be the Lufeng forest of the zhenduan Sea region, right? Have we entered the real remains?" Lizao Yi didn't realize that she was becoming more and more dependent on Lin Yi. In the past, she would think about these questions herself and never ask them, but now, it was very natural and didn't feel strange at all.

"We should have arrived at Lufeng forest, but we don't know if we're already inside the remains. That ancient Alchemist's array Dao is also very impressive, so we're likely to be in the array he set up. So don't stray too far from me and be on guard at all times. " Lin Yi said as he took out two directional Jade plates, preparing to use his spirit sense to see if there was any reaction.

Chapter 6145 The Test Is Not Over Yet

He didn't expect that the two Jade plates would move before he could do anything. As soon as he took them out, they automatically combined into one, turning into a small flying saucer-shaped object, and flew into the distance with a whoosh.

Lin Yi didn't stop the Jade plate from flying away-there had to be a reason for this to happen. The owner wouldn't do something without a reason, so he just had to let nature take its course.

In a breath's time, the forest in the distance lit up with countless green lights. Lin Yi extended his spirit sense over and could clearly see a Palace-like building slowly emerging in the forest. Everything was filled with an extremely illusionary feeling.

"Does an Alchemist's ruins need to be so gorgeous?!" Lin Yi mumbled with a smile before calling for LAN Guzha to go with him.

In the end, the Jade compass still acted as the key to the real ruins. If they didn't come through the light door, Lin Yi guessed that even if they had two Jade compass, they wouldn't be able to open the ruins.

The records that Zheng dongjue had found should not be nonsense on this point. The master of the monument was quite powerful. In this era, it was difficult to find someone who could break his array.

If he was not wrong, this forest area was covered by the array, so even though the movement of the ruins was not small, there would not be the slightest abnormality outside the array.

"This ancient Alchemist has deliberately planned so many things. I'm afraid it's not to leave behind a relic for future generations to explore and seek treasures, but to leave behind his inheritance. Otherwise, there's no need to arrange so many things." Li Zao Yi had a smile on her face. She had a good impression of the ancient Alchemist that she had never met before.

After all, they were on the same path. Lizao Yi felt that he might also build a place like this in the future and pass down his alchemy skills. As time passed, many things would get better and better, but there were also many things that would gradually be lost.

For example, the consciousness pill fire was already lost on Sky Class Island, but Li Yi believed that there must be some inheritance in this area. After all, everything was complete in ancient times.

"You seem to be very impressed, do you want to become a disciple of this ancient Alchemist? Do you want to ask for your master's opinion first?" Lin Yi joked. There were people following them, so he wouldn't call Lizao Yi lil sis, let alone master.

"It doesn't matter if I accept the inheritance. Even if I acknowledge this new master, with master's magnanimity, he won't be calculative with me!" Li Zao Yi smiled, not taking Lin Yi's words to heart.

Zheng Tianqing saw the two of them talking and laughing so intimately, and he was even more anxious. He could only hope that there were some powerful guards or dangerous traps in the remains that could kill this bastard.

While they were talking, the group had already arrived in front of the revealed Palace. Such a building appearing in the forest should have been very abrupt, but now it seemed very harmonious.

The palace door was already open before Lin Yi and the others arrived. Lin Yi extended his spirit sense in first and saw a square behind the door. It was large enough for thousands of people to perform. Instead of saying that this was the remains of an Alchemist, he felt that it was more like the mansion of an ancient royal family.

"It doesn't seem to be dangerous. It's just that this place is quite big and can't be explored in one or two days." Lin Yi said casually to Fang Zao Yi. LAN Gu Zha didn't wait for instructions and went ahead to Scout the path.

"Boss, this square is not bad. It's definitely suitable for fighting. We can use it to our fullest. Hahahaha!" LAN Guzha could not stop thinking about fighting. When he turned around, his gaze was a little unfriendly when he looked at the two people from the Zheng family.

Zheng dongjue and the other man instantly felt a chill on their backs. They quickly shifted their gazes elsewhere to avoid being dragged into a fight by LAN Guzha.

"Actually, this ancient Alchemist did not set up any deadly tests from the beginning. Whether it was the golden-haired monkey, the five blade lights, or the 18 steps, they might look dangerous on the surface but in reality, they knew their limits. Therefore, I don't think anything too dangerous will happen in this place." Lin Yi smiled and recalled the experience on the way. He didn't feel any killing intent from the master.

The tests were more like training-if there really was killing intent, Lin Yi didn't think he'd be able to escape unscathed if he went all out from the golden-haired monkey or the five blade lights.

Zheng Tianqing, who was following behind them, pursed his lips in disdain. That's because they didn't pay attention to you from the beginning. We haven't even entered the real remains, and we're already in danger. Now that we've entered the remains, the danger will definitely be multiplied. I don't believe that you'll be so lucky!

He forgot that if even Lin Yi felt a life-threatening danger, then it would be even more dangerous for the two of them, the weakest of them. They might die even faster if they didn't wish for the best!

As they were talking, they had all entered the square. The palace gate behind them closed by itself with a loud bang. The two men from the Zheng family, who were walking at the back, couldn't help but jump in shock. They were already like birds startled by the mere twang of a bow. They were afraid that any danger would kill them directly.

"The atmosphere doesn't seem right!" Lin Yi scratched his head. His spirit sense didn't find anything out of the ordinary, but he still felt a little uncomfortable.

The square was empty and had no decorations at all. It was more accurate to call it a training field than a square.

"It seems that the test is not over yet!" Lizao Yi smiled, not feeling nervous at all. With Lin Yi by her side, she felt at ease.

Moreover, the previous analysis was also very correct. The test set by the master of the monument was mostly to sharpen himself. The real fatal danger was almost non-existent, so there was no need to worry too much about any test.

The sky was filled with dark clouds, and the surroundings were slowly turning dark. A cold wind started to blow in the square. Lin Yi and the others didn't feel anything, but Zheng Tianqing and Zheng dongjue shivered.

"Second Grandpa, what's going on?" Zheng Tianqing mumbled to himself as he looked up at the sky.

Originally, they were in Lufeng forest and there were towering trees everywhere. They shouldn't have been able to see the sky. However, when they entered the palace ruins, they found that there were no trees in this area at all. The sky was also infinitely blue. However, in the blink of an eye, everything changed.

"Don't worry. From what we've been through, even if something happens, we'll find Lin Yi and the others first. We shouldn't act rashly, nothing will happen. " Zheng dongjue consoled her in a low voice. In fact, he was also comforting himself.

Chapter 6146 The Formation Transformed

With their strength, if their target wasn't just the three of them, there was a 99% chance that they'd become cannon fodder. To be honest, they were starting to regret coming along.

Of course, this regret was only limited to when they were in danger. Usually, they would think about how to take the benefits from Lin Yi, and if they couldn't, they wouldn't let Lin Yi get the benefits.

Lin Yi looked around calmly, not thinking too much about it. The Jade space didn't alert him, so even if it was dangerous, he didn't need to worry. That level of danger was nothing.

"Continue walking, don't worry." Lin Yi didn't care about the wind at all-his spirit and consciousness were strong enough to look down on all evil things, plus he had the refinement fire and lightning, all the more confident.

Plus, the master's arrangements had always been decent, and Lin Yi believed that this phenomenon wasn't what it seemed.

"Tian Qing, let's follow them. We can't be alone." Zheng dongjue saw Lin Yi's group of three walking forward without any hesitation and quickly followed with Zheng Tianqing.

If they were too close, they might be caught in the crossfire, but if they were too far away and were targeted alone, wouldn't they die even faster? So after weighing the two, Zheng dongjue decided to follow Lin Yi.

He had just taken two steps when the corner of his eyes suddenly twitched. He saw a translucent warrior with a sword crawling up from the ground beside him from the corner of his eye. Green flames flickered in his eyes. He quietly drew the sword at his waist and swept it at Zheng dongjue's waist with all his might!

"Not good!" Zheng dongjue shouted. He quickly stepped back and twisted his waist, dodging the blade by a hair's breadth.

Caught off guard, Zheng Tianqing was also shocked. He quickly put on a defensive posture. Even if he could not save Zheng dongjue, he had to at least protect his own safety first.

However, the next moment, Zheng Tianqing almost screamed as he suddenly realized that more than a dozen Warriors had silently appeared around him. Most of them were armed with swords, but a few of them were armed with spears, bows, and other weapons.

"Second Grandpa, What is this?" Zheng Tianqing broke out in a cold sweat. He did not dare to hesitate. Taking advantage of the fact that the encirclement had not formed, he quickly chose a relatively empty position to break out. Unfortunately, as soon as he moved, a dozen Warriors suddenly appeared in the relatively empty position. Not only did they fill the gap, but they also formed a dense formation, making it too difficult to break through.

For a moment, the two of them felt as if they were on a battlefield, and they were in danger of being cut into pieces at any time. Zheng Tianqing had no choice but to quickly approach Zheng dongjue and defend with his back to his back. This could at least reduce most of the pressure.

The only problem was that Zheng Tianqing did not trust Zheng dongjue. Although Zheng dongjue was his second grandfather, when they were suddenly attacked, Zheng dongjue had directly let him out. With such a teammate, it would be strange to be at ease.

In fact, Zheng dongjue also saw Zheng Tianqing in the same way. Both of them had their own ulterior motives. Although they were blood-related, they would definitely choose to protect themselves when they were truly unable to defend themselves.

"Tian Qing, these things don't seem to be corporeal, they can't be killed!" When Zheng dongjue blocked the saber and counterattacked, he discovered that the Warriors' bodies had no force to exert on, and they passed through directly.

Weapons could block, but the body couldn't be harmed. These Warriors were simply immortal. They were absolute weapons of war. If it wasn't for the fact that each of them was lacking in strength, Zheng dongjue wouldn't even be able to hold on for a breath.

"Ah~~! Second Grandpa, their attacks can harm the soul and directly damage my primordial spirit!" Due to his carelessness, Zheng Tianqing's arm was cut by a knife, and he immediately screamed in pain.

The injury on his arm could be ignored, but his primordial spirit twitched in pain, almost making Zheng Tianqing kneel down.

"Tian Qing, hang in there. We can't relax. We can't be separated, or we'll both die!" Zheng dongdezhi's hair stood on end. The two of them were barely able to block it. If they were to face it alone, needless to say, they would definitely be finished.

Therefore, Zheng dongjue could only encourage Zheng Tianqing loudly and try to make him stand by his side with all his might. Zheng Tianqing quickly agreed. As for whether he really thought so, only God knew.

Lin Yi's group was much more relaxed compared to the Zheng family's two. They were surrounded by a dense group of martial artists, three layers inside and three layers outside.

However, Lin Yi only needed to set up a layer of conflagration around the three of them, and the semi-transparent Warriors didn't dare to cross the line. The consumption of the conflagration was completely negligible because Lin Yi still had a lot of sea beasts and enemies "essence spirits that he caught with his soul-hooking hand. He could use them to maintain the conflagration for a few years without a problem.

"Lin Yi, are they all vengeful spirits? How many brutal killings do you need to carry out to form such a large number of resentful souls?" Li Zao Yi's pretty face was a bit pale. She wasn't afraid, but when she thought of this possibility, her mood became extremely low.

He originally thought that the master of the monument was an admirable ancient Alchemist, but this method was no different from those evil cultivators. Compared to powerful alchemy, Li Zao Yi paid more attention to whether the inheritance he obtained was decent or not!

"You're thinking too much. Although it looks like a vengeful spirit, it's actually just an illusion created by the formation. Although it has some attack power, it's still the same routine. The tempering is more important than the killing intent." Lin Yi smiled faintly. He had already used his spirit sense to check carefully. He wasn't completely sure, but he could at least catch some traces of the formation in the square.

Hearing Lin Yi's words, Li Zao Yi's face looked a lot better. Since it was an image created by the formation, it naturally couldn't be a real vengeful spirit. As long as the master of the ruins wasn't someone who killed innocents, she could rest assured.

"Boss, can my attack hurt them?" LAN Guzha couldn't help but ask Lin Yi after seeing so many enemies.

If his attack was effective, then he'd have a good fight, but if Lin Yi said his attack was ineffective, then he'd have to give up.

"I don't think normal attacks will work. Your attacks must have the power of pill fire or lightning." Lin Yi smiled. LAN Guzha's strength was in the water element, so it wasn't very effective against these Warriors.

LAN Guzha was immediately discouraged when he heard that. If his attacks were ineffective, he would only be getting beaten up if he went out. He liked to fight and was not afraid of getting beaten up, but if he could not hit the enemy, it would be meaningless if he just went out to get beaten.

Chapter 6147 Essence Soul Tempering

"Lin Yi, you said this is training, but what is it?" Li Zao Yi looked at the two Zheng family members who were shouting not far away and asked curiously.

"If I'm not wrong, it should be to toughen one's will and strengthen one's primordial spirit." Lin Yi said as he put away his conflagrated consciousness and let a half-transparent warrior in the circle, letting the warrior cut his arm.

"As expected, physical damage is only about one-twentieth of the actual damage. Even if you hit a vital point, it won't cause a fatal injury. However, the supplementary spiritual sense attack will directly affect the primordial spirit. Although it's painful, it has the effect of tempering the primordial spirit. However, if you do it too many times, your soul will still collapse, especially to those extremely weak souls. " Lin Yi took the knife head on and didn't even flinch. He could even make an accurate assessment with a calm face.

The warrior roared and continued to swing his sword at Lin Yi. Although the physical damage wasn't high, Lin Yi wouldn't really let the warrior hit his vital parts. He moved his body slightly and used his arm to block the attack, continuing to experience the mysteries of the warrior's attacks.

In the ancient martial world, Lin Yi used the spiritual roots to refine his spirit, and the pain was at least a hundred times more painful than the damage to his spirit now. He could even endure that level of pain, but the damage now was no different from scratching an itch.

"If you're not afraid of pain, you can try being cut a few times. It's still very good for your primordial spirit." Lin Yi turned to Li Zao Yi and suggested with a smile.

In any case, after being slashed, it would only be painful and not leave a scar on the body. It was not a problem for the cultivator to endure some pain in exchange for the improvement of his strength.

However, it was a bit strange for him to suggest that a beautiful woman get stabbed. Fortunately, Li Zao Yi didn't mind at all and even seriously considered it.

"Alright, let him in and I'll try!" Li Zao Yi trusted Lin Yi a lot, so he didn't hesitate for long and immediately nodded in agreement.

Lin Yi waved his hand and used his conflagrated consciousness to force the warrior to attack Li Zao Yi. Li Zao Yi mimicked Lin Yi and blocked the two blades with his arms.

Lin Yi thought that she would be in a lot of pain. Even if she could bear it, she would at least groan a few times. He didn't expect her brows to relax after a slight frown.

"It is indeed a form of training. It is indeed effective for the primordial spirit!" Li Zao Yi carefully experienced it and immediately smiled. "Continue!"

Lin Yi smiled and nodded, letting the swordsman continue to attack Li Zhaoyi. She was more than enough to deal with a swordsman anyway.

LAN Guzha found it interesting and asked Lin Yi to let two warriors in as well. They started playing.

While they were having fun and training with the illusory Warriors, the two from the Zheng family were in a miserable state. They didn't feel like their spirits were of any use at all, because compared to Lin Yi and the other two, their spirits were too weak.

On top of that, the hit rate of the Warriors here was higher, so there was no training-the real torture was, especially since they came here as servants. The formation naturally didn't give them much care. If it weren't for the fact that Lin Yi and the others could use their refinement fire to protect themselves, they might've completely collapsed in a short while.

"Second Grandpa, it's impossible for us to use our alchemic fire limitlessly. If we use our true Qi like this, we'll soon run out. Why don't we go and ask Li Zao Yi for help?" Zheng Tianqing felt that he couldn't hold on any longer. He said that he was going to ask Li Zao Yi for help, but he was actually looking for Lin Yi for protection.

However, for the sake of his face, Zheng Tianqing was reluctant to reveal the truth.

Zheng Dongjue understood immediately and nodded in agreement. The two of them took turns to use their alchemic fire to defend and slowly moved towards Lin Yi's direction. However, what made them want to vomit blood was that Lin Yi also started moving forward with Li Zao Yi and LAN Guzha. He was even faster than them, causing the distance between the two sides to not only not decrease, but instead, it was getting further and further!

"That bastard Lin Yi did it on purpose, he did it on purpose!" Zheng Tianqing gritted his teeth and roared. If he could kill Lin Yi, he would do it without hesitation!

"Boss, those two annoying guys seem to be trying to catch up with us. Are they going to die soon?" LAN Guzha and the two swordsmen were having a great time, but he still had time to observe the situation at the back.

To be honest, Lin Yi didn't mean to keep a distance from the Zheng couple-they didn't even exist in his eyes, after all. Who would have the time to pay attention to them?

Lin Yi brought Li Zao Yi and LAN Gu Zha along because he felt that the effect of refining the spirit here was too poor. He didn't want to waste too much time-if he really wanted to refine his spirit, one Spirit refining pill would be a thousand times more effective.

"Don't worry about them. Once we leave this square, the array will naturally stop. And from the looks of it, they won't die for a while. " Lin Yi curled his lips and continued walking forward.

Li Zao Yi didn't say much. She didn't like the two from the Zheng family, and getting Lin Yi to help them was already the limit. She couldn't ask Lin Yi to help them again and again.

Lizao Yi knew very well how to differentiate between close and distant. Compared to the two guys from the pill Hall, she was closer to Lin Yi.

Zheng dongjue watched as Lin Yi and the other two walked further and further away, and more and more translucent Warriors surrounded him. He felt bitter inside, but what could he say if Lin Yi didn't come to help? With the relationship between them, not coming to help was already a great help. Those who were cold-hearted could just hit him when he was down.

If the situation of both sides were reversed, Zheng dongjue was sure that he would definitely come and beat up the drowning dog ... Well, now that he was the drowning dog, he could forget about beating him up ...

The square wasn't big, but it wasn't small either. If they were surrounded and couldn't move, like the Zheng couple, it would be an insurmountable wall. To Lin Yi and the other two, however, it was just a place for them to walk around. It only took them seven or eight minutes to reach the other side of the square from the gate.

"It's another flight of steps. There won't be that kind of test this time, right? He's at rank 66!" Lin Yi waved his hand, and his conflagrated fire extinguished the three warriors. After playing with Li Zao Yi and LAN Gu Zha for so long, their mission was complete.

"I don't think so. From what I see, this is just an ordinary flight of stairs." Li Zao Yi smiled. At the end of the square was a magnificent staircase made of Jade. There were a total of 66 steps. After going up, it was a large hall.

Chapter 6148 Forcefully Opened

He really couldn't understand why that ancient Alchemist would make his ruins like this. Even if he was an Emperor back then, there was no need to build a Palace.

"Let's go up and take a look!" Lin Yi smiled and waved his hand. Even if it was the same steps as last time, he didn't care. The vortex could lower the difficulty, no matter how many steps he had.

The three of them stepped onto the Jade steps together, and the translucent warrior behind them immediately stopped moving forward. It was obvious that the bottom of the steps was the limit of their movement.

"Hehe, boss, we're here. The formation in the square doesn't seem to have stopped. Those two annoying guys are going to be in trouble again!" LAN Guzha had an expression of watching a show. He was delighted to see the tragic state of the two Zheng family members.

"We're only passing through and not destroying the formation, so it's normal that we don't stop. Their alchemic flames are enough to protect themselves, so it shouldn't be a problem for them to get here. " Lin Yi didn't even turn his head and continued to walk up. He said this for Li Zao Yi, in case she couldn't let go of the pill Hall's reputation and had to go back and save the Zheng family's two.

Li Zao Yi's expression was indifferent, and she didn't say anything. She could also see that the lives of these two guys from the Zheng family were not in danger. They looked a little miserable, but this array was mainly for tempering, so they would still get some benefits in the end. She didn't need to worry about them.

"These steps are really just ordinary steps? There's no surprise at all, boss, is the master of this monument ready to completely open it to us?" As LAN Guzha walked on the steps, he did not forget to look around. Along the way, he had already fallen in love with the endless tests. Hence, there was no problem with the sixty-sixth step. On the contrary, it made him feel very uncomfortable.

"Don't always be so anxious for the world to be in chaos. Isn't it good to be able to safely obtain the inheritance and treasures in the ruins?" Lin Yi found it funny and glared at LAN Guzha, but the damage was too weak for this guy.

"Hehe, boss, I don't think it's that simple. Maybe after we go up the steps, a large group of monsters or puppets will appear. When that time comes, don't do anything, let me do it!" LAN Guzha patted his chest and spoke with anticipation.

Li Zao Yi couldn't help but snicker at the side. After spending some time with LAN Gu Zha, she had basically understood his character, but she still felt that this guy was extremely funny.

"Do you want to be a jinx? Wouldn't that be too embarrassing for the Royal sea beasts?" Lin Yi smiled slightly and teased LAN Guzha. His spirit sense could clearly see that there was nothing unusual at the top of the steps, but the master's array skills were too strong. There might be other changes.

When there were no changes to the sixty-sixth step, it was still very fast to climb up. In a few words, the three of them had stepped onto the platform in front of the hall.

"Just the materials used to build the steps and platform in front of the palace are worth tens of millions of spiritual jades. Even if this ancient Alchemist wasn't the Emperor of the time, he must be a rich man!" Lin Yi laughed, but it wasn't a surprise that high-level refiners didn't lack money.

"Let's go into the main hall and take a look!" Li Zao Yi had no interest in the value of building materials. What she wanted the most was the inheritance of ancient alchemists. She didn't get the alchemy furnace just now, but there must be a higher grade alchemy furnace here. A good alchemy furnace would be of great help to her success rate in alchemy.

"This Palace covers a wide area. We can search slowly. There's no need to rush." Lin Yi's spirit sense couldn't cover the entire Palace because most of the areas had restrictions that blocked out spirit sense. If he wanted to find the inheritance, he had to search slowly and not miss a single place.

The three entered the hall together-according to the rules, there should be another test here, but there wasn't. Lin Yi really wondered if the test was over. Would there be no more obstacles in this Palace?

If that was the case, it would be safer and more convenient to search for things. As time went by, he would definitely find something.

"Boss, do you think we should keep an eye on those two annoying guys? They have information. If we don't keep an eye on the two of them, wouldn't we be at a disadvantage if they beat us to it?" It was rare for LAN Guzha to be so meticulous. The concern he raised did exist.

Zheng dongjue had information about the ruins, so he had a better chance of getting to the main point than Lin Yi and the others who were searching blindly. Lin Yi didn't mind if it was some unrelated elder from the pill Hall, but he couldn't let these two from the Zheng family get away with it.

After a moment of silence, Lin Yi smiled. "It's good to keep an eye on them. Maybe it can save us a lot of time. In fact, I guess even if they find the most important inheritance, they won't be able to get it. In the end, they'll just lead the way for us."

"That's right. When they passed through the light door, they could only come out from the small door. In fact, it was already destined that they would not be able to obtain the inheritance. It might be because of the eighteen steps. I don't know what method they used to come up. " Li Zao Yi nodded and quickly made his own speculations.

The test of the 18th step was terrifying. Even li Zao Yi almost failed. Only Lin Yi, a practitioner with a powerful spirit sense attack, could help others.

Zheng dongjue and Zheng Tianqing knew very well how strong their primordial spirits were. Not to mention that they did not have a powerful divine sense attack skill like the divine sense vortex, even if they did, it was impossible for them to use it with their poor primordial spirit strength.

"It'll take a while for them to come up. Let's search the main hall and the side halls first. We'll talk about it after they come up. " Lin Yi made up his mind and started searching the hall.

His divine sense had already locked onto Zheng Tianqing and the others, so he was not worried about losing their traces. He would not have any psychological burden if he were to Rob these two guys who had been going against him, let alone if he were to ask them to lead the way.

There were some valuable items in the hall, but they had nothing to do with alchemy. At most, they could be used to exchange for a considerable amount of spiritual Jade.

However, to Lin Yi and Li Zao Yi, spiritual jades were the most useless thing. If they needed it, they could just make a few cauldrons of elixirs and get a lot of spiritual jades. There was no need to take the risk here.

"Eh, the outer formation of the ruins has been forcefully opened!" Lin Yi suddenly raised his head and said in surprise. His spirit sense had already covered the entire palace complex. Although there were many places that were blocked by the restrictions, he could clearly monitor the outer boundaries.

Chapter 6149 Someone Helping Out

Normally, with the array Dao means of the master of the monument, the array he arranged in Lu Feng forest was almost impossible for others to discover. Even if they found some clues, they couldn't break the array and force their way in.

"Boss, what happened?" LAN Guzha raised his head from behind a table and asked curiously.

"Someone has broken the formation from the outside and entered! You're here to keep us company!" Lin Yi laughed coldly. He'd realized that the people who broke the formation didn't do it on their own, but with a one-time use item.

Space rift!

If this item were to be put up for auction, it could be sold for at least ten million spiritual jade pieces. Its most important function was to break space and forcibly open a passage for people to pass through.

As long as there was no one controlling the array, even if it was at the peak of level nine, the space-splitting passage could be forcibly opened. However, the premise was that the location had to be accurate, because the distance of the space-splitting passage was not too long. If the location was not accurate, it would be a waste to pass through the edge of the array.

It was obvious that the positioning was very accurate this time. Those guys who used the space-splitting channel were really generous. A one-time prop of more than ten million spiritual jades was used up just like that. He wondered what the origin was.

"LAN Guzha, you stay here and protect Li Zao. I'll go over and take a look first!" Lin Yi said casually as he flapped his ghost speed wings and flew away without a sound.

The lightning movement technique would always produce lightning arcs, making it harder to hide one's tracks. Ghost speed wings, on the other hand, had no such problem. As long as Lin Yi wanted to, he could hide his tracks.

In a breath's time, Lin Yi appeared in a hidden corner near the tunnel, retracting his wings and hiding.

At this moment, seven men and women came out of the passage one after another. Then, the entrance of the passage closed and disappeared. From the aura on their bodies, they were not weak.

The one standing in the middle was a young man who looked to be in his twenties. He wasn't handsome, but he had a strong aura. His hair was casually tied up behind his head, and two locks of hair fell down in front of his forehead, covering his sharp eyes slightly. The corner of his mouth was always curled up, carrying a faint evil smile. Although his strength wasn't the highest among the seven, Lin Yi's instinct told him that he was the leader of the seven.

He wasn't too strong in the early stages of his sect's creation, but he was definitely a tyrant in the South continent. Lin Yi had never heard of him before. Perhaps he was a master from another place.

In addition to this young man, there were four other men and two women. Their ages varied, and their strength was the same. The strongest was at the peak of the late mountain opening stage, and the weakest was at the peak of the late mysterious Ascension stage. Among the seven, only three were at the mountain opening stage, and the remaining four were at the mysterious Ascension stage. In terms of strength, they were quite powerful and could establish a sect in the South continent.

But Lin Yi didn't really care about them. He could basically beat anyone below earth stage, and the number of people didn't really matter to him. Group attacks were one of his best moves.

"Boss Ma, you're really amazing. You actually found the ruins!" The other early mountain split expert among the seven laughed as he glanced at the palace, then cupped his hands to the young man in the middle.

"It's also luck. I don't know what happened here that caused such a huge fluctuation. If not for that, we wouldn't have been able to find the exact location to enter." Boss Ma said humbly, but his face still showed a little pride.

"Boss Ma, you're too humble. Only you can sense the fluctuations inside. None of us can feel it! That's why you're the boss. Without you, it's useless for us to wander around here for a few more years." Another woman smiled and complimented. Being able to enter these ruins meant that everyone would be able to make a big profit. In a happy mood, it was only right to flatter.

"Alright, let's cut the formalities. We won't suffer any losses if we follow me, MA Weidong. This ancient monument is well preserved. Let alone the treasures hidden inside, even if we tear down this Palace and sell it, we'll still make a lot of money." MA Weidong was in a good mood. He waved his hand to signal the others to follow him and start searching for the treasure.

"Boss Ma is right. Why don't we just start demolishing it? We'll be able to find the hidden items while dismantling them, and then pick out the precious and intact materials to bring out. It's killing two birds with one stone!" A man with a scar on his forehead grinned. The seven of them were people who specialized in searching for ruins and treasures. In the secular world, they would be considered grave robbers. In the world of cultivators, there was no such thing as grave robbers, so they could barely be called explorers.

It was their style to sweep away all the valuable things they saw, so when the knife-scarred man said this, everyone else thought it was normal.

MA Weidong smiled evilly and waved his hand, ""Don't worry, let's go find the most valuable things first. How valuable are the treasures of the person who can build such a luxurious palace? The violent fluctuations we felt before might have been caused by some unforeseen event, so we have to sweep up all the good things as soon as possible to avoid any trouble. "

"Boss Ma is right. Let's not waste time and act quickly!" The man at the initial stage of the mountain split opened his mouth to agree, so everyone nodded in agreement. The Group of Seven people began to quickly fly into the palace.

Lin Yi, who was hiding in the dark, touched his chin and pondered. He didn't know if he should get rid of these seven guys first. They were able to come in because they felt the fluctuations when the palace appeared. Normal people couldn't sense these fluctuations in the outside world, but MA Weidong could. If he didn't have a treasure, then he must have some special ability.

"We've painstakingly passed through many tests to enter these ruins. These guys want to reap without sowing and take a share of it. That's definitely intolerable. However, with their help, it should be much faster to collect the things. Why don't we let them help us collect the things first and then go back to get them when we leave?" Lin Yi mumbled to himself as he shook his head, thinking that it wasn't a bad idea.

If he and Lizao, Yilan, and Guzha were to search by themselves, they would need to spend a lot of time and energy, and they might not be able to find all the good things. However, MA Weidong and the other seven were professionals. Entering the ruins was like a group of locusts flying over a farm. Nothing good could escape their eyes.

He'd wait until they'd collected enough before coming out to receive them-it'd save time and energy!

With that in mind, Lin Yi wasn't in a hurry to deal with them. He turned around and went back to the hall to meet up with Li Zao Yi and the others.

Chapter 6150 Not The Real Ruins

"Boss, what's the background of those seven guys?" LAN Guzha asked Lin Yi as soon as he came back. He could see MA Weidong and the others with his spirit. They were all at the same level, but LAN Guzha's

spirit was much stronger than the Sky Class Island Masters. They couldn't detect him even if he used his spirit to observe them.

"They're our coolies. They saw that we were too slow in collecting things, so they came to help us collect the treasures. We'll go back and get them later." Lin Yi smiled faintly as he replied happily.

LAN Guzha's eyes brightened. He quickly patted his chest and said, "Boss, just leave this small matter to me. Don't worry, I'll definitely take care of it!"

"Since you're so enthusiastic, I'll leave it to you!" Lin Yi knew that this guy was looking for an opportunity to fight, but it didn't matter. The strongest of the seven was only peak late mountain split. With LAN Guzha's strength, it was easy to deal with them.

"Many Thanks, boss!" LAN Guzha grinned and began to rub his hands in anticipation of going over to deal with those seven fellows immediately.

MA Weidong, who was searching for treasures at the back of the palace with his men, suddenly felt a chill on his back. He couldn't find the specific reason, so he could only Mutter to himself and speed up.

These guys were more violent when searching for things, and wherever they went, the spirit sense restrictions would be broken. This way, Lin Yi's spirit sense could monitor them better.

The only strange thing was that the palace didn't have any defensive measures at all-the seven weren't blocked at all. Lin Yi didn't understand why. Was it really because there were too many tests before, so the ruins were the safest?

That shouldn't be the case! The master of the monument had such a powerful array, it would be better to set up a few arrays to defend against such an Explorer than to not defend at all, right? Even if they didn't use the array, leaving a few puppets of the same level as the golden-haired monkey would definitely make MA Weidong and the others suffer.

"Lin Yi, you think it's weird too, right? Perhaps this Palace isn't the real relic?" Lizao Yi suddenly turned to Lin Yi and said. This deduction made Lin Yi suddenly feel enlightened!

"That's right. This Palace might not really be a relic, although there are bound to be many treasures here!" Lin Yi's lips curled up, a smile of understanding on his face.

"You think so too?" Li Zao Yi had an excited expression on her face-she was very happy that she could connect with Lin Yi.

"The master of the monument made us think that we have come to the real monument, and then only arranged a training in the square, and the whole Palace was in an undefended state, what is the purpose? It's to make me lose my guard and get lost in the many treasures, so that it won't matter if I can't find the true inheritance in the end. This is a test of our hearts! It's said that there's no test, but the entire Palace is a test!" Lin Yi couldn't help but exclaim-this ancient Alchemist clearly valued his heritage.

Although he had left behind the ruins to find an inheritor, he had set up ingenious trials to test the inheritor's temperament, will, and aptitude.

If he failed to pass any of the segments, he would miss the chance to obtain the true inheritance. He would rather enter the inheritance and continue to sleep than let anyone take it away!

"That's right! I really admire him more and more. It's our honor to receive the inheritance of such a person!" Li Zao Yi was already completely convinced by that ancient Alchemist. To be able to pass through a series of trials and make the inheritor feel a sense of respect for him even before receiving the inheritance, this person's means were obvious.

Li Zao Yi paused for a while before continuing, "Lin Yi, do you think those people can just take away the things they've taken?"

"If it were us, of course we could take it away, but if it's them, I'm afraid they won't be able to take a single item with them!" Lin Yi chuckled. How could a guy as meticulous as him not prepare anything for this ruin?

Why did the inheritors have to come in from the platform on the sea and accept the trials all the way? It was probably for the final formation to confirm his identity!

The palace might look like it had no defense at all, but Lin Yi guessed that when MA Weidong and the others wanted to leave, the hidden formation would be activated. Unless Lin Yi and the other two were recognized as inheritors, everyone else would be on the attack list.

Even the two from the Zheng family would do the same if they took something that they shouldn't have. After all, they were servants. It was fine if they took some unimportant treasures, but they would be courting death if they took something that was beyond their authority!

"I think so too. In that case, we're actually saving them by snatching their things!" Li Zao Yi, on the other hand, wasn't polite at all. This strange little girl was someone who liked to Rob, but unfortunately, she never had the chance to do so, and she concealed it very well.

Now that she finally had a legitimate reason, her face was already glowing.

Lin Yi laughed to himself. It was fine if Li Zao Yi wanted to Rob Zheng dongjue and the others since they were weak, but MA Weidong and the others were pretty strong. Even the weakest one was at the peak of the late stage of mysterious Ascension. It was impossible for Li Zao Yi to Rob them. At most, he could only follow Lin Yi and cheer.

"You said that everything in the palace has been plundered. Does that mean that the real opportunity to inherit the legacy has completely disappeared?" Lin Yi suddenly thought of this problem and quickly brought it up to discuss with Li Zao Yi.

Based on his previous speculations, the entire Palace was a test. If all the treasures were taken away, then it was very likely that he would lose the chance to inherit.

With the nature of the monument's master, he was likely to take the treasures in the palace as compensation for the trial. After all, it was not easy to come to this step. If he could not get the real inheritance, it was reasonable to take some treasures.

It was just like the previous alchemy trials. If you didn't succeed, you would take the alchemy furnace. If you succeeded, you wouldn't be given the alchemy furnace or the pills. You would only be given the chance to continue the trials.

It was the same now. The treasures in the palace were the trial. If you failed, the treasures would be taken as compensation. If you succeeded, all the treasures would be taken back. What you would get would be the chance for the next trial!

Lizao Yi thought about it and understood what Lin Yi meant. Her face changed.

"What you said is very likely. It seems that we have to stop them immediately. Otherwise, the consequences will be unpredictable. It's not easy to get to this point. It will be a pity if they ruin it!" Li Zao Yi had already developed a feeling of admiration for the master of the monument, so he was very eager to get his inheritance.
