

Bodyguard 6151

Chapter 6151 Fight

The moment she knew that she might lose this opportunity, she could not bear it anymore!

Lin Yi used his spirit sense to scan the area and found that the Zheng family still needed some time to cross the Plaza. He didn't need to pay attention to them now. "Let's go. We'll stop them immediately and let them put back the things they've taken!"

"Boss, we agreed to leave this to me!" LAN Guzha quickly stepped forward to remind Lin Yi. It wasn't easy to get the chance to attack, he couldn't let it go so easily!

"I know, I know. They're all yours, okay?" Lin Yi didn't know whether to laugh or cry. This guy was really naïve, focusing on the fight the whole time. He was clearly talking about the inheritance with Li Zao Yi, okay? What's the big deal with fighting?

The three stopped their discussion and left the hall immediately, flying towards the back. The entire Palace was huge, and MA Weidong and the others couldn't search too many places in a short time, so Lin Yi wasn't in a hurry. He used his spirit sense to look for suspicious places as he moved.

The real inheritance shouldn't be in the palace, but the passage to the real ruins should be in this Palace. Lin Yi wanted to look around and find the entrance to the passage.

Everything was just a guess, and Lin Yi wasn't sure how he'd pass the test. The tunnel should open by itself after he passed, but if he could find some clues, he'd have a chance to enter even if he didn't pass. It was better than being at his wits "end.

Unfortunately, Lin Yi didn't find anything along the way, mainly because there were too many buildings with spirit sense restrictions. He couldn't scan the entire area, so he could only look into it after he sent MA Weidong and the others away.

After a while, the three finally arrived at where MA Weidong's group was. They stood on the roof of a building and looked down.

The seven of them were originally scattered in different rooms, but after LAN Guzha revealed his true nature without restraint, the seven of them immediately dashed out and gathered in the courtyard, raising their heads to look at Lin Yi and the other two.

"How audacious! You actually dare to search for treasures here? immediately put everything back, kowtow and admit your mistake, then immediately leave this place. Otherwise, the seven of you won't be able to leave!" LAN Guzha stood on the roof and roared in high spirits.

Seven! Moreover, their strength didn't seem weak. They could finally fight to their hearts 'content!

Please, please, please don't admit defeat! 'I'm speaking so arrogantly. If you can bear with it and do as I say, then I'll consider you powerful!'

MA Weidong looked at Lin Yi and the other two, confused. He didn't expect to meet other practitioners in the ruins. Could they be the natives?

"Who are you people? As far as I know, this ruin has been passed down from ancient times. Are the three of you also explorers?" MA Weidong regained his composure in an instant, and his mouth once again showed a faint evil smile.

It was definitely impossible for them to be natives of the ruins. These three people looked extremely young, so they should be of the same profession!

After understanding this, MA Weidong was relieved and expressed that he did not care about LAN Guzha's arrogant and rude remarks.

The seven of them were not easily frightened. LAN Guzha's threat was simply a joke to MA Weidong. In terms of strength, the three young guys on the opposite side were definitely not stronger than them. Although he could not be completely sure of their exact strength before they fought, he was very talented in this aspect and could roughly sense the level of strength of the three.

Other than this blue-golden haired big guy, the other two who didn't speak were only at the xuansheng stage. Even LAN Guzha was only at the early stage of the mountain opening stage. MA Weidong naturally didn't care about them.

"Cut the crap, just do what I tell you to do, don't change the subject!" LAN Guzha continued to roar. In fact, this fellow was already overjoyed. He could not wait for the other party to leave him alone. If he really did as he was told, this fellow would only be unhappy.

"Haha, I thought I, MA Weidong, was already very arrogant and domineering. I didn't expect to meet a hooligan like you, who looks even more awesome than me! Very well, since you're so confident, why don't you show us your strength?" MA Weidong waved his right hand, and the strongest of the seven, the peak of the late mountain split stage, flashed out and rushed toward LAN Guzha.

When a Lion fights a rabbit, it should use its full strength. Although MA Weidong looked down on LAN Guzha and Lin Yi, he still sent the strongest of the seven.

From MA Weidong's point of view, this situation was basically a sure win, so he was ready to call the others to continue the treasure hunt and not waste time here.

However, things did not develop as he had expected. LAN Guzha was overjoyed when he saw that the other party had taken the initiative to attack. Moreover, it was the strongest one among them. He laughed and went forward to meet the attack. He even brought out his strongest ability.

The two of them collided in mid-air and each of them threw a punch with all their strength. The peak late mountain split expert on MA Weidong's side had initially looked down on LAN Guzha, but after feeling the power of LAN Guzha's fist, his expression changed instantly!

With a loud explosion, LAN Guzha's figure slowed down slightly. He stopped in the air and could not continue to fall. His opponent, on the other hand, was sent flying backward. Although he did not suffer any serious injuries, it was obvious that LAN Guzha had the absolute upper hand in this exchange!

"Great! Let's try again!" LAN Guzha laughed. His figure paused for a moment before he charged forward again. After fighting with his own clone for so long, he finally found an opponent who was on par with him. There was no need to mention how pleased he was.

"What? How could this be?" Before MA Weidong could say that they should continue with the treasure hunt, he saw LAN Guzha send the strongest of his group flying with a single punch. In his shock, he was suddenly a little confused!

"Help!" The guy who was blown away bent his legs and left two long marks on the ground. He finally stabilized his body and quickly called for his companions to help.

Although he had somewhat underestimated LAN Guzha during the earlier exchange of blows, he had not been the slightest bit careless when he attacked. In the end, he was still sent flying by the other party's punch. The difference between the two had already made his heart feel a little cold.

"Form the formation!" MA Weidong did not hesitate at all and gave the order almost at the same time. The aura that LAN Guzha was displaying was at most at the peak of the early stage of mountain opening, but his combat power was so strong that none of the seven of them could be his match in a one-on-one fight. They had to join forces to deal with him!

Before LAN Guzha could land on the ground, MA Weidong and the rest had already positioned themselves in their respective positions at lightning speed. Seven surging auras intertwined together and formed a brand new powerful aura that directly enveloped LAN Guzha who was landing.

Chapter 6152 Preparing To Use A Killing Move

"Interesting!" Lin Yi smiled faintly, his fingers holding his chin as if he was deep in thought.

This type of formation was considered a simplified one, so naturally, there were differences in power. With Lin Yi's current understanding of formations, the seven of them together could unleash the power of a level five formation. The most important thing was that through this battle formation, the seven of them could link their combat power together, and unleash the effect of one plus one greater than two. If LAN Guzha didn't deal with it properly, it would be very troublesome.

"Hahahaha! Good! That's great!" LAN Guzha landed in the center of the seven people. He immediately felt as if his body had fallen into a quagmire. His ability to move was greatly delayed.

However, this guy was very ambitious. The stronger the opponent, the more excited he was. If it was really a weak opponent, although it would be fun to fight, it was not as satisfying as being unrestrained and unrestrained.

"Kill this person with all your might! The other two are nothing to worry about!" MA Weidong said in a cold voice and immediately commanded the battle formation to launch an attack.

Circles of water appeared out of thin air around LAN Guzha's body. They spun rapidly and forcefully tore a gap in the battle formation of MA Weidong and the other seven, regaining control of his body.

Once the feeling of sinking into a quagmire disappeared, LAN Guzha's aura suddenly soared. With a cross of his palms, MA Weidong and the others' battle formation seemed to be swallowed by endless waves. Although it had not disintegrated, its power was much less than before.

"Amazing!" MA Weidong's expression changed. He knew that something was wrong, but his hands did not stop. He immediately concentrated the power of the seven people in one place and pierced through LAN Guzha's attack like a sharp arrow.

In an instant, the two sides had exchanged a few moves, and each time was a close call. Even Lin Yi, who was watching from the side, nodded in agreement.

"Lin Yi, you're not going to help? The seven of them against one LAN Guzha seems to be gaining the upper hand!" Li Zhaoyi turned to ask Lin Yi. She knew that Lin Yi's strength was above LAN Guzha's. If the two of them worked together, it would be easy for them to deal with the seven-man team.

"It's fine. LAN Guzha will be able to hold on. He just needs this kind of high-intensity battle to temper himself so that he can grow quickly. " Lin Yi smiled faintly. He knew very well that LAN Guzha was having a good time. He wouldn't be happy if he interfered.

Lin Yi was right, what LAN Guzha lacked the most right now was an evenly matched battle to train himself. There was no point in fighting the golden-haired monkey, it was just asking for it! Seven MA Weidong was just right. They were a little more powerful than LAN Guzha but could not completely suppress him. They were the best whetstones.

Although he said that, Lin Yi couldn't just watch LAN Guzha get suppressed by MA Weidong and the others. The best training was to maintain a similar balance between the two sides.

The seven of them were able to suppress LAN Guzha completely because of the connection between the battle formations. Lin Yi secretly transmitted his voice to LAN Guzha so that he could maintain the maximum freedom in the battle formation and attack the weak points of the battle formation at the same time, allowing both sides to fight fairly.

LAN Guzha did not reject the offer. He liked to fight to his heart's content. The more restrictions he faced, the more unpleasant it would be to fight. The best state was to have the guidance of his boss.

The two sides leaped like rabbits and descended like Falcons. They exchanged more than a dozen moves, and the momentum was extremely great. If it were not for the protection of the array formation, it was estimated that the entire Lufeng forest might have been alarmed.

Even though LAN Guzha was at a disadvantage, he would not be in any immediate danger. Hence, MA Weidong and the rest were getting anxious.

"This guy is actually so powerful, far beyond the level of strength he showed. Then, are the other two the same? If they also had the fighting strength of a mountain-opening cultivator, we would be in trouble today!" MA Weidong was calculating in his mind as he commanded the battle formation to attack LAN Guzha.

He wasn't the strongest among the seven, but he was able to become the leader of the seven. Naturally, he had his own outstanding qualities. In a flash, he had already come up with a new speculation.

Especially after seeing Lin Yi and Yi's calm expressions, MA Weidong was even more certain of this. How could a normal xuansheng stage cultivator be so relaxed when they saw their own expert at a disadvantage? Even if he wasn't scared, he should at least be a little nervous, right?

"We can't delay any longer. Everyone, prepare to use your killer moves!" MA Weidong contacted his companions through the battle formation. He believed that they had to kill LAN Guzha so that they would be invincible.

It didn't matter if Lin Yi and Li Zao Yi were hiding their strength or not. As long as they could kill LAN Guzha, they were confident in dealing with two mysterious Ascension stage cultivators!

The other six's expressions changed at the same time. The reason why they couldn't use their killing moves lightly was because the price they had to pay was extremely high. If they used it casually, they wouldn't be able to bear it. Now that they had the upper hand, was there really a need to use it?

"Boss Ma, although this big guy is powerful, we can still kill him if we spend more time. Why don't we wait a little longer?" The rest of them didn't raise any objections. Only the master at the peak of the late stage of mountain split, who was the first to attack, couldn't help but ask MA Weidong.

"We can't wait any longer. We have to use it now. Otherwise, we'll be in danger!" MA Weidong was very determined. Although the seven of them could use a secret method to communicate through the battle formation, he still looked at Lin Yi and Li Zao Yi with vigilance.

The more MA Weidong thought about it, the more he felt that the calm young man on the roof might be more powerful than the blue-golden haired big guy.

"Eh? that guy called MA Weidong seems to be on guard Against Me!" Lin Yi's lips curved up as he turned his head and whispered to Fang Zao Yi.

"And you still have the leisure to talk here? if he's on guard against you, he'll definitely kill LAN Guzha to avoid being defeated by your Joint Forces. Aren't you going to help LAN Guzha?" Li Zao Yi was a quick-witted person. With just one look from MA Weidong, she could almost guess what the other party might do.

"Don't worry, I can help LAN Guzha at any time from here!" Lin Yi smiled slightly. He wasn't bragging. From where he was standing on the roof to where Lan Guzha and the others were fighting, it was only a mere twenty meters. Even without using Thunder escape and ghost speed wings, Lin Yi could appear in the middle of the battle in an instant with just his super limit butterfly micro steps.

While they were talking, a blazing ball of fire suddenly appeared above MA Weidong's seven-man battle formation. It was about ten meters in diameter, absolutely a giant!

The temperature of the fireball's surface had already evaporated all the water in the air. It was needless to say how terrifying the inside was.

Chapter 6153 Then I'll Fulfill His Wish

LAN Guzha's expression turned solemn. The water flow that surrounded his body was affected by the fireball in the sky. Although it had not disappeared, it was still emitting steam. The moment the steam appeared, it was evaporated by the terrifying heat again and completely dissipated.

"What a powerful flame!" Lin Yi couldn't help but exclaim. This temperature was even beyond the strongest refinement fire he could release. LAN Guzha was a Water-type sea beast, but he was quite passive in the fire.

As for MA Weidong and the other seven people, after forming the flame ball, each of their faces showed a painful expression. Obviously, the seven of them were under a lot of pressure to perform this move.

"Go to hell!" "Fire!" MA Weidong shouted and waved his hands. The fireball in the air instantly shot out hundreds and thousands of Flame Arrows. The dense flames completely surrounded LAN Guzha. The rolling heat waves had even affected the surrounding buildings.

In the previous battle, not many buildings were damaged under the protection of the array. However, the flames were melting the buildings nearby. Even the array disappeared.

The flow of water around LAN Guzha's body suddenly increased exponentially and continuously consumed the flaming arrows. Unfortunately, the opponent's quantity and quality were far above his. LAN Guzha was beaten into a sorry state almost within a breath's time.

"Little Junior Sister, step back! Be careful not to hurt you!" Lin Yi knew that he had to make a move or LAN Guzha wouldn't be able to hold on. After reminding Li Zao Yi, he immediately shot out a lightning arc and entered the center of MA Weidong and the others.

A vortex of divine sense!

The moment Lin Yi appeared, he didn't help LAN Guzha block the fire arrows, nor did he care about the fireballs in the air. Instead, he activated his divine sense vortex and enveloped the seven of them.

The three consciousness vortexes suddenly exploded, tearing the primordial spirits of the seven people back and forth. MA Weidong was shocked. They had already paid all their attention to maintain the fireballs in the air, and at the same time, they had to bear great pressure. If there was any mistake, the backlash was likely to kill them.

"This guy is indeed more powerful than the blue-golden haired big guy! Just the lightning escape technique and the current divine sense attack are not something we can resist. We must retreat!" As a veteran Explorer, MA Weidong had some good stuff on him, so Lin Yi's vortex didn't affect him at first.

Unfortunately, not all of his friends had the same kind of defensive items. Even though MA Weidong made the decision in an instant, it was too late to stop Lin Yi's attack.

Two of the primordial spirits of the Group of Seven were caught in the deified soul vortex. In a daze, they screamed and fell limp. The fire ball in the air fluctuated and two out-of-control flames landed on their bodies. Before they could fall to the ground, they were turned into ashes.

The battle formation originally required seven people to form. To maintain the ball of flames in the air, they couldn't do anything less. The two xuansheng stage cultivators died from the backlash, and the entire battle formation fell apart!

"Go! Hurry up and run!" MA Weidong's face was ferocious, and he roared madly as he retreated. At the same time, the flame ball in the sky lost control, and flames fell from the ball like a meteor shower.

Other than MA Weidong, the other four used items to block Lin Yi's Whirlpool, but they were dazed by the backlash of the battle formation. Only MA Weidong was able to retreat immediately because he was the leader of the battle formation and had the best items on him.

"Hell! To hell with it!" MA Weidong almost went crazy. He wanted to save his companion, but the flames fell from the sky. He couldn't even protect himself. If he attacked recklessly, he would only get himself killed.

Lin Yi didn't expect his divine sense vortex to have such an effect. He didn't have to kill MA Weidong's companions as long as LAN Guzha was fine.

The flames falling from the sky covered a wide area and were about to reach Li Zao Yi's position. Lin Yi pulled LAN Guzha and spread his ghost speed wings, leaving the area with the densest flames in an instant.

As for MA Weidong's four companions, they were completely surrounded by the flames in the sky. Even the powerful Masters at the peak of the late stage of mountain split couldn't resist their own killing moves. After a few screams, they disappeared in the flames completely, just like the two companions before.

After bringing LAN Guzha and Li Zhaoyi out of the range of the fire, Lin Yi turned back to look and couldn't help but break out in cold sweat. It was fortunate that he acted early, otherwise it was hard to say whether LAN Guzha could withstand the continuous attack of the fireball.

MA Weidong had also escaped to a safe place. His face was twisted as he watched his companions being burned into nothing in the fire. He couldn't help but cry out to the sky like an injured lone wolf.

"I don't care who you are! I, MA Weidong, swear that I will take revenge in this life! Don't even think about having an easy time! If I don't torture you all to death, I'm not a human!" After MA Weidong let out a long and shrill cry, he glared at Lin Yi, LAN Guzha, and Li Zao Yi from the fire meteor shower area and made a vow through gritted teeth!

The murderous look in his eyes made Lin Yi frown. This guy wasn't a simple person. He had both brains and strength. If he were to keep an eye on them in the dark, it would be a disaster sooner or later.

Although MA Weidong's six companions weren't killed by Lin Yi, their deaths were caused by Lin Yi's actions. It was no problem for this guy to hate Lin Yi.

"Boss, that kid is crazy. Should we kill him?" LAN Guzha was not pleased with MA Weidong's threat. As a king of the sea beasts, the bloodlust in his blood was triggered. If Lin Yi wasn't there, he would've killed MA Weidong already.

Lin Yi's eyes were cold as well. He could understand MA Weidong's feelings, but that didn't mean that he could tolerate MA Weidong's vicious oath. Strictly speaking, those six people died under their own killer moves. If they didn't use such a powerful and easy to backfire killer move, they wouldn't have ended up like this.

"Since he wants to die, I'll grant his wish!" Lin Yi said coldly. He flapped his ghost speed wings and shot into the sky, leaving a shadow behind him. He rushed past the fire ball and appeared in front of MA Weidong with a flash of lightning.

"Don't worry! We will meet again one day! When the time comes, I'll make sure to see you kneel and beg for mercy!" MA Weidong's smile was a bit twisted. A circular light film appeared around him, covering him entirely. Lin Yi's thunderous attack couldn't even shake the light film.

Chapter 6154 Wait For Me To Come Back And Take Revenge

"A teleportation talisman?! " Lin Yi hovered in the air, his face cold as he looked at the Jade talisman in MA Weidong's hand.

Although it was his first time seeing it, he was very clear that it was a teleportation talisman that could randomly teleport tens of thousands of miles away. Although it was a one-time use item, it was enough to exchange for a life if used well.

For example, now!

When the teleportation array rune was activated, it would produce a spatial force field that would envelop the user. The circular light film around MA Weidong's body was the spatial force field of the teleportation array rune.

Before the teleportation was completed, the inside and outside of the force field were like two different spaces. No matter how strong Lin Yi's attack was, it couldn't break through the seal of the force field and hurt Ma Weidong.

As for those attacks that could ignore the barriers of space, it wasn't something Lin Yi could master at his current level ...

"Remember, my name is MA Weidong! Wait for me to come back and take revenge!" MA Weidong pointed at Lin Yi with a finger, a cold and evil smile on his face as he disappeared from the spot with the force field.

Ninety-nine percent of the formation's power was directed at the outside world, and with MA Weidong's high-level teleportation formation, leaving the ruins was a piece of cake. Lin Yi could only watch him disappear on the spot.

He couldn't make MA Weidong stay, and that put Lin Yi on guard. This guy wasn't as weak as Kang Zhaoming or Xue Jianfeng-it didn't matter how much power they used central to raise their strength. Lin Yi didn't care at all, and so it was fine to let them go sometimes-they couldn't do much anyway.

But MA Weidong was different-he was a genius in practicing, and he was able to break through to the sect-opening stage at a young age. He also had the ability to make stronger practitioners follow him willingly, and he was naturally good at scheming. Lin Yi always felt that he'd bring a lot of trouble to himself in the future.

"Boss, that guy is really slippery. He can still escape like this!" LAN Guzha landed beside Lin Yi and looked at the spot where MA Weidong had disappeared to, unwilling to give up.

The fire area behind them had slowly subsided, but all the buildings in the area had disappeared, not even a trace of wreckage was left. The flames condensed by MA Weidong's group were indeed quite terrifying. In terms of power, it was probably not much inferior to the Super alchemy bomb.

"Forget it. If he escapes, so be it. If we meet again in the future, just don't give him a chance." Lin Yi waved his hand and said casually. Since he couldn't make MA Weidong stay, there was no point in worrying now. As long as he was strong enough, MA Weidong was no threat to him.

"Lin Yi, the corpses and the things we collected have all turned to ashes. Do you think it'll affect our next move?" Li Zao Yi also flew to Lin Yi's side and asked helplessly as he watched the fire slowly die out.

The reason why they came to stop MA Weidong and the others from continuing to collect the relics was that they were afraid that they would lose the opportunity to enter the real relics. Unfortunately, they did stop them, but they could not get back anything that they had taken before.

"It's hard to say. We can only do our best and leave it to fate. In any case, let's look for it first!" Lin Yi scratched his head helplessly. It was just a guess from him and Lizao Yi, and it wasn't necessarily the truth, but he believed that it was at least eighty to ninety percent possible.

Now that they had lost a portion of the treasures, there was nothing they could do about it. At least, they did not have any of them on them, and they did not know if they would be counted as the ones who were destroyed.

"Boss, look, there's an iron gate underground here, is there any mechanism?" LAN Guzha saw that Lin Yi had come over to talk to him, so he went to the outer area of the fire field and saw a hole in the middle of the fire field. There was an iron door with a circular handle at the bottom.

Under such a terrifyingly high temperature, all the other building materials had turned into ashes. Only this iron door was not damaged at all! Furthermore, it looked black and shiny, and there was a cold glint on its surface. There was no need to ask to know that it was not ordinary iron!

The most crucial point was that LAN Guzha did not discover the existence of the door when he used his divine consciousness to scan over. However, he could clearly see the iron door with his eyes.

Lin Yi didn't mind it at first, but when he heard LAN Guzha's shout, he used his divine sense to check it out. Even his divine sense couldn't find the iron door. Even a ghost wouldn't believe it if he said there was nothing wrong with it!

"LAN Guzha, you're quite lucky to have been seen by you!" Lin Yi smiled faintly. He wasn't sure what the metal door was, but it was special. It couldn't be simple.

If it weren't for the fire created by MA Weidong and the other seven, the iron door hidden underground might not have been discovered.

Li Zao Yi followed him to the side, stretched out her head to take a look, and slightly nodded. "There's something strange about this iron door. Be careful when you open it!"

"I'll open it and take a look!" LAN Guzha immediately volunteered and raised his hand. He would not let his boss and sister-in-law take the risk for such a small matter.

"I'll go. If there's anything wrong, I'll run faster!" Lin Yi rejected LAN Guzha with a wave of his hand. He had the lightning movement technique and ghost speed wings on him, so his survival ability was indeed much stronger.

Moreover, the master of the monument had never arranged any killing tests, so it may not be dangerous this time. Not letting LAN Guzha go was just a precaution.

LAN Guzha wanted to fight for a bit more, but Lin Yi didn't wait for him to say anything. He flew to the bottom of the pit, his palms covered with pure Qi, holding the black ring on the iron door firmly.

"Open!" Lin Yi gathered his Qi in his dantian and shouted as he raised the door with all his strength. The iron door creaked and slowly opened.

The door's weight exceeded Lin Yi's expectations. He had to use all his strength to open it. If LAN Guzha was doing it, it would be easier. This guy's body was much stronger than Lin Yi's.

As he opened the metal door, Lin Yi had to be ready to use his lightning escape technique to escape at any time. If anything went wrong, he would leave immediately.

Fortunately, after the iron door was completely opened, there was no danger. As expected, the master of the monument would not deliberately create some fatal danger to deal with the people he chose.

"It seems that if we don't go down, we won't know what's inside. You guys wait outside, I'll go take a look first!" Lin Yi saw that behind the metal door was a pitch-black void. His divine sense and eyes couldn't see what was inside, so he could only turn back and smile bitterly at Fang Zao Yi and LAN Gu Zha.

LAN Guzha and Li Zao Yi jumped down together, their expressions determined. They clearly didn't agree with Lin Yi taking the risk alone.

Chapter 6155 Endless Darkness

"Boss, you were the one who opened the door just now, so it should be my turn this time, right? Don't fight, I'll be the first to go down!" LAN Guzha waved his hand in a domineering manner. He didn't wait for Lin Yi's approval or objection before walking down.

Lin Yi opened his mouth but didn't stop him in the end, letting LAN Guzha go in. His guess was that the master wouldn't leave behind any fatal traps and traps, and the Jade space didn't give him any warnings about danger. In that case, letting LAN Guzha go in wasn't a problem.

"Lin Yi, we've come here together, so we're going to move together. Don't ever risk your life alone again!" Lizao Yi waited until LAN Guzha was completely engulfed by the darkness before looking at Lin Yi seriously.

Lizao Yi didn't have time to stop Lin Yi when he opened the door just now, and he wasn't happy that he wanted to go down by himself.

"Alright, I understand. Let's go down together!" Lin Yi smiled faintly and didn't mind it too much. He naturally held Lizao Yi's hand and walked into the dark void.

Lizao Yi was a bit surprised, she didn't expect Lin Yi to hold her hand all of a sudden. Her face blushed, but she didn't struggle. She just lowered her head and let Lin Yi pull her through the iron door.

To prevent any accidents, Lin Yi spread out his ghost speed wings, but he quickly realized that it was useless. There was no gravity in the darkness.

His body just floated in the air, swaying without any support. There was no gravity, and Lin Yi couldn't tell where he was going. He was mentally prepared to fall when he entered the door, but it was hard to tell if he was still falling.

Other than that, what made Lin Yi panic was that Li Zao Yi, who was in his hand, suddenly disappeared as well, as if Lin Yi had never held her hand in the first place.

"Senior ghost, what's going on? Is it some kind of formation?" Lin Yi was very worried about Li Zao Yi, so he could only ask the ghost for help.

"Senior ghost? Senior ghost?" After a while, Lin Yi tried to contact the ghostly thing again, but there was still no response. Even the Jade space lost its connection-this had never happened before.

"Something's wrong! What was going on? Immediately remembered! LAN Guzha!" Lin Yi shouted, trying to get in touch with the two, but no matter how hard he tried, he couldn't make a sound. The dark void around him was still cold and silent.

Lin Yi forced himself to calm down. Before entering the metal door, he had a lot of plans, like falling into a bottomless abyss, or being directly transported to the real ruins, or being surrounded by countless monsters, but this situation was something he never expected.

It was the same darkness whether he opened or closed his eyes, and there was no difference whether he released or retracted his spirit sense. Even if Lin Yi shot out lightning arcs, the light could only light up the lightning arcs themselves and had no effect on the surrounding environment.

In this situation, even ghost speed wings lost their meaning. No matter which direction he flew in, it was the same. Lin Yi couldn't even tell if he was flying up or down. The concept of front, back, left, and right was completely overturned. He even wondered if he had entered an endless space. This was because this situation was exactly the same as the void of the universe.

Fortunately, Lin Yi could still breathe, which confirmed that he wasn't sent into space. However, this didn't help his current situation at all. The most important thing was to leave this place and find Lizao Yi and LAN Guzha.

"Calm down! Calm down! This should also be an array set up by the master of the monument. Li Zao Yi and LAN Gu Zha might be by my side, but I can't see them! Judging from his previous style, there shouldn't be a pure unsolvable test, so there must be a way to leave this place!" Lin Yi stopped moving and thought quickly. He relaxed his body and allowed himself to float in the darkness.

Since his eyes and spiritual sense were useless, Lin Yi decided to just close his eyes and withdraw all his spiritual sense back into his sea of consciousness. He imagined himself as a part of this dark void and slowly merged into it.

He didn't know how much time had passed, but Lin Yi started to feel like he could "see" his surroundings. It wasn't with his eyes or his consciousness, it was purely his feelings!

He was still surrounded by endless darkness, but Lin Yi felt like something was summoning him from a certain direction. It wasn't a strong summoning, but it was clear in this environment.

Lin Yi didn't need to control himself, his body was already floating in that direction. If he used ghost speed wings, he might be able to reach it quickly, but Lin Yi was afraid that the mysterious feeling would disappear if he moved, so he decided not to do anything and just let the situation develop naturally.

Time seemed to have lost its meaning here. When Lin Yi felt a trace of light appear in his surroundings, he opened his eyes again and extended his spirit sense out.

"The exit!" A circle of light half the height of a man appeared in the dark void. Lin Yi whispered, but his heart was calm as if he'd expected this.

Floating in front of the light circle, Lin Yi's face was expressionless. After floating in the air, he felt that his state of mind had improved a lot. Perhaps this was the reason why the master of the ruins set up this dark void?

"I should be able to see Li Zao Yi and LAN Gu Zha after I get out, right? I hope the two of them can leave before me!" Lin Yi smiled faintly before flying into the circle.

The endless light blinded Lin Yi's eyes, and even his spirit sense was filled with white light. After getting used to the darkness, Lin Yi couldn't get used to the sudden strong light.

He even guessed that after the endless darkness, the master of the monument had arranged an endless light as a test. This would be too boring.

Lin Yi's body sank as he was lost in his thoughts. Gravity appeared once more, and he landed on the ground. He missed the feeling of being on solid ground after floating in the air for so long.

"Boss, why did you only come out now? I've already eaten a big piece of roasted meat!" LAN Guzha's voice rang in Lin Yi's ears, and he smelled the aroma of barbeque. This glutton didn't forget to feast wherever he went!

Chapter 6156 The Medicine King Village

Lin Yi smiled and opened his eyes. The White feeling in his spirit sense was gone, and his surroundings were reflected clearly in his mind.

"LAN Guzha, morning memory, are you both alright?" Lin Yi looked at the two people beside him and felt relieved. They didn't seem to be acting weird.

"We're fine. But you, why are you so slow? we've been waiting for you for a while. " Li Zao Yi smiled and shook her head. There was a faint concern in her eyes.

"That's right boss, we're just going through the door. Sister-in-law and I have been waiting for you for a long time and I'm hungry. This meat is really good, boss, do you want some? Sister-in-law said she doesn't like to eat this meat. " LAN Guzha handed a big piece of meat to Lin Yi. He didn't know which sea beast this meat came from, but it was very dense with spirit energy.

"You can eat it yourself, I'm not hungry!" Lin Yi waved his hand and turned to Fang Zao Yi,"Did you guys go through the iron gate directly? Did anything happen in between?"

"No, did something happen to you?" Li Zao Yi asked Lin Yi in surprise. It seemed like the dark void was only targeted at Lin Yi.

"Oh, no. I might be hallucinating. Where are we now?" Lin Yi said, changing the topic. He felt like he'd been floating in the dark for a long time, but he didn't know the details. At least a few years, but it was all an illusion.

How long would LAN Guzha need to finish a large piece of roasted meat? It only took one or two minutes! In addition, he said that he had waited for a long time before eating, so the so-called long time, with a 30% discount and some water removal, should not have taken more than five minutes.

In other words, Lin Yi thought that he'd lived for a few years, but in reality, he'd only lived for six or seven minutes.

The means of this monument's master were really amazing!

Lin Yi sighed in his heart as he looked at his surroundings carefully. He thought that he would enter an underground building, but what he saw was a beautiful place with mountains and rivers.

Looking at the plants around them, they shouldn't be in Lufeng forest. In other words, the three of them had been teleported to another place. It was uncertain if they were still in the South continent.

"I don't know where this is. You didn't come before, so the two of us didn't go around to investigate. We only used our divine senses to search around. There seems to be a mountain village at the foot of the mountain. We can go and ask." Li Zao Yi shook his head, stretched out his finger, and pointed in a direction.

Lin Yi's spirit sense followed Li Zao Yi's finger and scanned over. As expected, there was a mountain village at the foot of the mountain dozens of miles away. There were about twenty families in the

village, but the population was less than a hundred. Judging from their auras, they should all be ordinary people, and there were no practitioners.

It wasn't that there weren't such ordinary people on Sky Class Island, but they were the lowest class of people. Going to a bigger town would just be like being a slave, but in a remote place like this, they could live a good life.

"Let's go and ask for directions. First, we have to make sure we're still in the South continent. " Lin Yi told the two to set off together. An ordinary village like this wouldn't be able to survive in a chaotic place like the South continent, so there was a high chance that they'd already left.

He really didn't know why the master of the monument had sent them here. The positioning Jade plate had also been used to open the palace, so how were they supposed to continue looking for the real monument?

The three determined the direction and flew quickly. A few dozen miles might take a day for a normal person, but with Lin Yi's speed, it only took a few minutes. If he used ghost speed wings, he could cover the distance in a breath.

On the way, Lin Yi tried to contact the ghostly thing again to ask if it had any thoughts on this, but the ghostly thing still didn't respond. The connection to the Jade space wasn't restored either. It seemed like the master's suppression on this aspect wasn't over yet, so he could only give up for now.

After a while, the three of them arrived outside the mountain village. It was noon, so most of the villagers were preparing lunch. Smoke rose from every household, so it was quite easy to ask for directions.

There was an old man smoking under the shade of a tree in the first house, and Lin Yi went up to him and greeted him politely, "Old Sir, the three of us are lost in this area and would like to ask where we are. Are there any larger towns nearby?"

The old man raised his head and looked at Lin Yi and the other two. He saw that they were all extraordinary and didn't dare to be slow. He knocked on the pipe on the ground and stood up with a smile, "This is Yaowang village, the closest city to this place. It's six hundred miles to the East. If you want to go, you can go along this road. But I don't think you brought any food or luggage with you, so you can't just walk there."

After a slight pause, the old man continued, "If you don't mind, I'll ask my wife to prepare some dry food for you to eat on the way. It's not easy to find food on the way."

"Thank you, old Sir, but there's no need for dry food. We have our own ways to solve the problem of food and clothing." Lin Yi waved his hand with a smile. He had a good impression of the old man.

Someone who could help a stranger couldn't be a bad person. It seemed that this mountain village was indeed a simple and honest village. Lin Yi didn't want to disturb their peaceful lives, so he prepared to leave.

It was only a distance of 600 miles, which was not a problem for the three of them at all. If there was anything they needed to know, it would not be too late to ask after they reached the city.

"Old man, you said this place is called the medicine King Village?" Li Zao Yi suddenly pulled on Lin Yi's sleeve and asked the old man with a smile.

Lin Yi's heart moved, and he immediately understood what she meant. They were here to find the ruins of the ancient Alchemist. It wasn't strange for a high-level Alchemist to be called the king of medicine by normal people. This village might have a clue to the ruins.

"Yes, it's called Medicine King Village. Do you have any questions?" The old man replied with a smile, a hint of pride on his face.

"I wonder if there's any story behind this name? I'm very interested in this kind of legend. If you have time, why don't you tell us?" Li Zhaoyi smiled gently. Lin Yi was a little surprised. This weird girl's change was getting bigger and bigger. The cold look from before was almost gone, right?

But the change was clearly for the better, and Lin Yi didn't need to point it out. He'd better listen to what the old man had to say.

Chapter 6157 Discovered Mechanism

"If you're interested, then I'll tell you about it. This Medicine King Village really has a story. It wasn't called Medicine King village in the past. According to the legend, in the generation of my grandfather's grandfather, there was a serious plague in the village. It could be said that nine out of ten houses were empty, and the remaining people were waiting for death. In the end, God didn't spare us. He sent a Divine Doctor with superb medical skills to cure the plague in our village. So from now on, our village was renamed Medicine King Village." The old man's face was full of reminiscence and admiration. Even after several generations, he still respected the king of medicine.

"You're indeed a benevolent and benevolent Divine Doctor!" Lin Yi complimented, but he was wondering if the miracle doctor was an ancient Alchemist. The timing didn't seem to match at all!

This old man's grandfather's grandfather's generation was at most two to three hundred years ago, and the era of ancient alchemists was counted in the tens of thousands of years, so what did two to three hundred years count for? It all happened in the blink of an eye.

Lin Yi didn't really believe that ancient alchemists could live up to this age. They weren't Celestials, after all. They could live up to a thousand or eight hundred years, but ten thousand years was impossible!

However, the iron gate had teleported the three of them here for a reason. Was there any relationship between the medicine King Village and the remains?

Lin Yi scratched his head, but Lizao Yi was still chatting with the old man with a smile, "Old Sir, didn't you build a temple or something for the king pharmacist? Such a living god-like figure should be worshiped!"

"Yes, yes! Young lady, you're absolutely right! Our village isn't an ungrateful person, so we've never stopped offering to the king pharmacist. Do you see that mountain? There was originally a small metal temple on the top of the mountain, and we don't know what kind of God it worships. According to the old man, it has existed for tens of thousands of years and has not decayed. There is no incense there, so we placed a longevity tablet there for Lord Medicine King. Although we borrowed his place, we accepted the incense together, so I think Lord God won't blame us. " The old man pointed at a mountain peak in the distance.

Lin Yi's heart jumped—a metal temple that'd existed for tens of thousands of years? It sounded like it had something to do with the ruins left behind by ancient alchemists!

It seemed that the master of the monument had sent them here for a reason. The real monument was likely to be here!

With that thought, Lin Yi immediately extended his spirit sense out, covering the entire mountain the old man was pointing at. However, the metal temple didn't appear in his range.

"There's something strange! That mountain peak should be the place we're looking for!" Lin Yi didn't find the metal temple, but he was happy to see it.

He recalled that the black metal door was also an existence that could not be discovered by divine sense. This time, he could not find the metal temple that the old man had mentioned. This was equivalent to confirming the connection between the two from another aspect.

Li Zao Yi nodded slightly and chatted with the old man for a bit before leaving the village with Lin Yi and LAN Guzha. They wanted to go to the nearest city, but now that they had a clue, they naturally had to go there directly.

The three of them quickly moved toward the mountain peak and soon arrived at the top. As expected, they saw the metal temple that the old man had mentioned in a place that was facing the sun and Leeward.

From the outside, calling it a temple was too vague. Lin Yi preferred to call it a pyramid, but it was very different from the pyramids in the secular world. The size was the first thing-the pyramid here was only six meters tall, completely incomparable to the pyramids in the secular world. It was also made of dark green metal, and looked natural without any signs of carving.

At the bottom of the pyramid, there was a door that was more than two meters tall and 1.5 meters wide. From the outside, the inside was not dark. Instead, it was very bright. An altar could be clearly seen. On top of it was a Jade pill furnace about two meters in diameter. There was a plaque under the

pill furnace, which should be the medicine King longevity tablet placed by the medicine King Village later.

Perhaps the people of the medicine King Village didn't know what a pill furnace was for, and they didn't think that a pill furnace was the one receiving offerings. Most of them thought that it was just an incense burner.

But Lin Yi was different-he knew that he was looking for the remains of an ancient Alchemist, and he was almost certain of his target the moment he saw the cauldron.

"This should be the place. Let's go in and take a look. The real entrance to the ruins will definitely be inside!" Lin Yi turned and smiled at the two before walking in.

There was no danger this time, and Lin Yi arrived at the altar without a hitch. He started observing the furnace.

Although this was an alchemy furnace made of Jade and shouldn't be able to be used for alchemy, the patterns on it were extremely profound and was no different from a real high-grade alchemy furnace.

If this Jade elixir furnace was just a fake, then the power of the original elixir furnace would probably be several times stronger!

"Lin Yi, did you find any traps? This should be the entrance to the real remains!" It was rare for Li Zao Yi to take the initiative to ask Lin Yi. It seemed like even she was getting impatient before success.

"Not yet. Don't worry, we'll find some clues." Lin Yi smiled and comforted Li Zao Yi before focusing on the Jade furnace again.

If there was a trap, Lin Yi thought it would most likely be on the Jade furnace. The people of the village didn't really care what was enshrined here, but it was something that could be placed together with the medicine King's longevity tablet. The possibility of the Jade furnace being touched was low, and with the safety measures, the possibility of them opening the ruins by accident was close to zero.

Lin Yi's face changed before he could finish his sentence. He spread his spirit sense around, monitoring all the changes in the area. He didn't pay much attention to the monitoring of the medicine King Village before, but he didn't expect to find that the entire village was surrounded by a small army.

Lin Yi hadn't seen this Army when he left the village, but how long had it been? where did these hundreds of practitioners come from? The lowest level of the soldiers was at the Golden core stage, and any one of them could destroy the entire Medicine King Village in an instant.

"Lin Yi, I found the mechanism!" Li Zao Yi suddenly cheered. Her hand touched the bottom of the Jade pill furnace. She didn't know what she touched, but a secret door opened behind the pill furnace.

Chapter 6158 Thousand Fantasy City

Lin Yi was a little stunned. Li Zao Yi just asked him if he found the mechanism, and she found it herself? Wasn't this too fast? It had been tens of thousands of years. How could the people of the medicine King Village not have discovered the secret door that could be found so easily?

It was unbelievable, but Lin Yi didn't have the time to think about it. He saw a line of words floating in the air, saying that the door would only be open for two minutes. If you didn't enter within the time, you'd have to wait for the next time.

As long as the secret door was opened, the next opportunity to open it would have to wait for a hundred years!

"I see. No wonder the people of the medicine King Village didn't discover this mechanism. It's only activated for a short time, and the interval between activation is long. Even if it was discovered, it wouldn't have been spread in time. A hundred years is too long for ordinary people. " Lin Yi sighed to himself before turning his attention back to the village.

The group of cultivator soldiers had already gathered everyone in the village together and were beginning to interrogate them. It seemed to be about the pyramid.

"Lin Yi, let's go in-the real ruins are probably inside, we don't have much time!" Li Zao Yi held Lin Yi's hand and pulled him towards the secret door.

"Boss, I'll go in first, you guys just follow behind me!" LAN Guzha patted his chest and took a step forward, in front of Lin Yi and Li Zao Yi.

"Wait! Something has happened in the medicine King Village!" Lin Yi quickly called out to LAN Guzha and held Li Zao Yi's hand at the same time. This weird girl took the initiative to hold hands, so he should give her some face and follow her in, but what happened in the medicine King Village was right in front of him. It was a little hard for him to completely ignore it.

As soon as he finished speaking, a villager of the medicine King Village was burned to death by the cultivator soldiers as a warning to others.

"Lin Yi, we can't do anything about what's happening in the medicine King Village. Even if we help them this time, there will be people coming for revenge after we leave. In this world, the strong eat the weak. What's happening in the medicine King Village right now, there are at least thousands of similar situations happening everywhere at the same time, can you do anything? And now the ruins are right in front of us, and there's only a minute left before the gate closes. The next time it opens, it'll be a hundred years later. Are you really going to give up this opportunity for the medicine King Village?" Li Zao Yi pulled Lin Yi and quickly expressed his position.

During this time, another villager in the medicine King Village had his limbs cut off by a soldier of the cultivator Army and turned into a human stick to scare the other villagers.

Lin Yi's face was extremely ugly. He knew that this kind of thing happened everywhere. In the eyes of practitioners, ordinary people were just ants who could be killed at will. It was fine if he didn't see it, but now that he saw it, he couldn't pretend not to see it!

"Immediately remember! Although the remains were important, human lives were priceless. If they couldn't enter this time, so what if they had to wait a hundred years? I'm definitely going to meddle in the affairs of the medicine King Village! If you want to go in, then go in yourself!" Lin Yi coldly shook off her hand. He was very unhappy with what she said just now.

He thought that since Li Zao Yi had inherited Zhang Liju's pill and medicine skills, she would be a kind doctor, but he didn't expect her to say those things!

Li Zao Yi wasn't like this before. Could it be that the legacy site was so attractive to her that it was enough to make her heart cold?

"Lin Yi, I didn't mean that!" Li Zao Yi blinked and quickly tried to explain, but Lin Yi didn't have time to listen to her. The practitioner soldiers didn't care about the villagers at all, and one more second of delay could mean one more victim.

As the lightning flashed, Lin Yi didn't even say goodbye and used his lightning escape to leave the pyramid. When he reappeared, his ghost speed wings brought him away as if he had teleported again, and there was another lightning in the distance.

Using the two together, Lin Yi's speed was raised to the maximum, and he was probably only on par with true teleportation.

In a breath's time, Lin Yi arrived at the village from the pyramid. The number of villagers killed had already risen to five, but the attackers didn't seem to have any intention of stopping.

"You all deserve to die!" Lin Yi's killing intent exploded to the maximum as soon as he arrived at the village.

Most of these practitioner soldiers were golden core stage, with seven or eight original infant and one mysterious Ascension stage practitioner. To Lin Yi, there wasn't much difference—they were all people he could kill in seconds.

Wood forest thousand transformation!

Over a hundred Lin Yi's appeared at the same time, all of them using skills like raging fire Eight Trigram palm and raging fire thousand legs. In an instant, half of the practitioner soldiers were down.

The thousand changes of wood and forest wouldn't be of much use against people of Lin Yi's strength level. After all, the clone was too weak. However, it was perfect for killing these low-level practitioners.

If it weren't for the fact that these soldiers were all wearing the same armor, Lin Yi's clone would've been able to kill them all in one move, including the leader of the soldiers!

"Stop! Who are you? How dare you meddle in the affairs of our thousand fantasy city? don't think that you can act recklessly just because you're powerful. Our thousand fantasy city is a big city with a sea splitting stage expert!" The leader of the soldiers was shocked. In the blink of an eye, more than half of his soldiers had been killed. Even he felt very pressured. In a panic, he immediately brought out the support behind him.

But Lin Yi didn't care about him at all. All of his clones were still bombarding the remaining practitioner soldiers. Because more than half of them were killed in one exchange, the victorious clones had no opponents and all changed their targets, joining forces with the other clones to attack the practitioner soldiers.

The practitioner soldiers were barely able to hold on even in a one on one fight, but they didn't even have time to cry before they were surrounded and killed by Lin Yi's clones. In the end, only the primary stage mysterious Ascension rank soldier commander was left.

"Thousand fantasy city, sea splitting stage? Is it that amazing?" Lin Yi said with a cold smile as he dismissed ninety percent of his clones, leaving only four to surround the commander.

Lin Yi definitely couldn't beat a sea-shattering expert, but he was confident that he could escape from them. Even with the combination of lightning escape and ghost speed wings, sea-shattering experts who didn't know how to teleport wouldn't be able to catch him!

"Who are you? What do you want?" The leader of the soldiers roared in anger. He had already laid out his background, but the other party still looked down on him. This was simply preposterous.

Chapter 6159 Illusion!

What he didn't know was that Lin Yi was also thinking about what kind of place thousand fantasy city was. It was definitely not a simple city with a sea Rift realm old monster guarding it.

He had never heard of thousand fantasy city before. It was definitely not a city in the North Island, nor in the middle Island. It was the same in the South continent and the West Island. Could this be the East continent?

"What do you want after killing the villagers of the medicine King Village?" Lin Yi asked with a cold smile. He wanted to figure out what these guys were here for, in case thousand fantasy city sent more soldiers to kill the village after he killed them all.

Otherwise, Lin Yi could've just killed them and returned to the pyramid-it wasn't time to enter the hidden door yet, so he might've made it in time.

"Don't be too proud. My subordinates and I are just vanguards. Our main force is about to arrive. Don't think that you're very powerful. There are many mountain opening stage experts in our main force. Our general has even stepped into the earth opening stage. No matter how powerful you are, you can't escape death!" The commander of the soldiers seemed to be very confident in the main force. He actually calmed himself down as he spoke, and his expression became very arrogant.

Lin Yi frowned-there was still the main force behind them? In that case, they couldn't leave to go to the ruins now, or the medicine King Village would be completely slaughtered.

If he couldn't change this result, why did he rush over just now?

"Are you trying to scare me? Where is the main force you mentioned?" Lin Yi smiled faintly. He didn't find any cultivator Army in the range of his divine sense. Instead, Li Zao Yi and LAN Gu Zha were rushing over.

After all, the two of them didn't leave Lin Yi behind and enter the ruins by themselves. LAN Gu Zha was still fine-he always followed Lin Yi's lead and wasn't interested in the ruins of ancient alchemists, but Li Zao Yi was different. Lin Yi was surprised that she could give up the ruins, and the dissatisfaction he had for her disappeared.

"Don't worry. The main force of thousand fantasy city will arrive soon. By then, it will be too late for you to beg for mercy!" The leader of the soldiers laughed arrogantly. It didn't seem like he was lying.

Lin Yi didn't notice anything out of the ordinary when they appeared in the village. Perhaps the movement of the Army of thousand fantasy city could hide from Lin Yi's spirit sense. In that case, the main force might be here soon.

"Boss! Why did you leave me behind and come back on your own?啊啊啊,原来你是一个人来打架,太不够意思了吧!" The moment LAN Gu Zha arrived, he saw the corpses of the cultivators and soldiers all over the ground and immediately shouted.

Li Zao Yi, on the other hand, maintained a calm expression as he walked up to Lin Yi and whispered, "Lin Yi, we're just passing by-there's no need for us to get involved in this. Unless you bring everyone out of the village and find a safe place to settle them down, they'll all die once we leave!"

"Li Zao Yi, what are you trying to say? Are you trying to persuade me not to care about their lives?" Lin Yi frowned. He thought that Li Zao Yi had changed her mind, but she didn't change at all.

It was fine that this strange girl was usually a little strange, but why was she a little confused on this kind of issue now? People of different paths couldn't make plans together-if Li Zao Yi continued to say things like this, Lin Yi would definitely choose to distance himself from her and keep a certain distance.

"Forget it, I won't try to persuade you. The secret door is closed anyway. You're destined to return empty-handed this time. Since you don't like the strong bullying the weak, let that guy go as well." Li Zao Yi pointed at the leader of the soldiers and added, "We don't know where we are right now. It won't do us any good to offend the local forces."

"We've already killed so many people. One more doesn't matter, one less doesn't matter!" Lin Yi felt a little uncomfortable, and the way he looked at Li Zao Yi became a little unfamiliar.

With a sea split realm old monster in charge of Thousand Illusion City, it was obvious how strong it would be. Even if Lin Yi only killed one golden core soldier, the enemy wouldn't let it go easily. Not to mention, Lin Yi had killed more than a hundred cultivator soldiers. Even if he spared the only Xuansheng commander, it wouldn't reduce the hatred between them.

"I said let him go! Do you want to get us all killed?" Li Zao Yi suddenly became furious, and her pretty face became a little twisted because of this.

Lin Yi squinted his eyes and looked at Li Zao Yi. At the same time, his four clones instantly attacked and killed the remaining soldier.

"Lin Yi! You might as well just kill me!" Lizao Yi was extremely angry. She took out a dagger and pointed it at her own throat. She held Lin Yi's hand and looked up at him.

Lin Yi let her do whatever she wanted and held the dagger without hesitation. He didn't really stab her throat, but he didn't move the blade either.

"Boss, what's going on with you guys? Can't we talk things out?" LAN Guzha tried to persuade Lin Yi, but he didn't seem to be in a hurry.

At that moment, an Army of cultivators appeared out of thin air outside the village. This time, it was not a Vanguard of more than a hundred people, but more than three thousand people, enough to be called a great army!

None of the cultivator soldiers were lower than the Golden core stage. There were also a few small square formations that were completely formed by the original infant stage cultivator soldiers. They could be considered elite teams.

As for those at the xuansheng stage, there were at least 30 of them. They were probably the same as the soldier commanders from before. Each of them could lead a 100-man team.

There was only one Earth-creation stage, and it should be the general that the guy was talking about. Lin Yi didn't think much of it-after the fight with the golden-haired monkey, he didn't have much respect for early Earth-creation Masters.

"Why aren't you making a move? Are you waiting for them to come and kill me?" Li Zhaoyi looked at Lin Yi coldly, her neck slightly leaning forward. The dagger pierced through her white skin, and a drop of red blood flowed out. The contrast was obvious.

"An illusion! So it was all an illusion!" Lin Yi sighed softly. He felt that something was wrong from the start, but he couldn't put his finger on it until Li Zao Yi forced him like this.

Perhaps he had already fallen into an illusion since the dark void. After leaving the dark void, he thought that he had reunited with Yilan Guzha, but in fact, he was still unable to extricate himself from the illusion.

Thinking about it carefully, there were many signs that could've proved this point, but Lin Yi didn't take it to heart and even found a suitable excuse for himself.

Chapter 6160 Killing Intent Of The Five Elements And Eight Trigrams!

For example, he couldn't contact the ghostly thing, the Jade space couldn't sense him, and Li Zao Yi's abnormal behavior. She was holding Lin Yi's hand, talking a lot, her personality changed a lot, and so on. LAN Guzha was more normal, probably because he spent more time with Lin Yi, so his illusion was more complete.

"You said I'm an illusion in an illusion? Then kill me! Kill me and you'll wake up from the illusion!" Li Zao Yi's mouth had a mocking smile as she moved a little closer. This time, Lin Yi pulled back his hand at the same time so that the tip of the dagger and Li Zao Yi's neck remained in the same position.

"Kill everyone here! Not a single one was left! If you dare to attack the soldiers of thousand fantasy city, don't even think about living!" In the Army outside the village, the earth formation general loudly issued the order, spreading his voice through the entire Army with true Qi, and also into the ears of everyone in the medicine King Village.

The three thousand cultivator soldiers agreed and formed a battle formation that was specially used by the Army. They rumbled and crushed the village.

If Lin Yi wasn't here, any one of these soldiers could wipe out the entire village and wipe out the entire Medicine King Village in a flash. But with Lin Yi, they brought three thousand soldiers here and suppressed them with an open Army!

A small mountain village with over three thousand practitioner soldiers was ridiculous, and Lin Yi was sure that he was in an illusion. But even if he knew it was an illusion, he didn't want the villagers of the medicine King Village to be killed!

"I will not kill you! We'll talk about this after I've dealt with the trouble outside!" Lin Yi said coldly as he threw the dagger on the ground. His body flashed and his ghost speed wings brought him to the air outside the village.

In the center of his palms, the two super alchemy bombs had already taken shape. As long as they were fused together, they could be thrown out to attack the Army.

There were over three thousand of them, but Lin Yi was never afraid of a group attack. He wasn't worried when he faced the sea beast tide at the northernmost Island, even though the number and quality were many times stronger than now. Now that he knew that ninety-nine percent of everything was an illusion, he felt even less burdened.

"Whether you're real or not, all of you can die!" Lin Yi put his hands together and threw out the Super alchemy bomb.

It didn't take long to form, so the Super pill fire bomb wouldn't be too powerful this time. Lin Yi didn't expect to kill all the practitioner soldiers at once.

Lin Yi appeared in the center of the Army before the blast even dissipated. Dark clouds were gathering in the sky, with lightning flashing.

Lightning thousand explosion!

Countless lightning bolts fell from the sky, connecting heaven and earth together. This was Lin Yi's strongest area of effect attack, covering an Army of three thousand men.

Under the might of the lightning explosion, a single soldier would be turned into ashes if they were touched by it. However, with the defense of the Army formation, 70% to 80% of the soldiers managed to withstand the attack.

Unfortunately, Lin Yi's lightning explosion wasn't a one-time skill. It had a certain level of continuous attack ability. The soldiers who survived the first wave didn't even have time to breathe before the second or even third wave came.

This time, the defensive capabilities of the Army formation could no longer protect them. When the formation was torn apart, their bodies were also torn into pieces.

"Illusion, everything is an illusion!" Lin Yi mumbled softly. He wasn't someone who liked to kill, or he wouldn't have let Kang Zhaoming and Xue Jianfeng off so easily. There were many reasons, but if he really wanted to kill those enemies, they would've died a long time ago.

This time, Lin Yi killed two to three thousand practitioners on his own initiative. Even if he knew that it was an illusion, he still felt very uncomfortable.

Under the effects of the thousand lightning strikes, only the general and a dozen xuansheng stage commanders were able to hold their ground. They formed a small battle formation and started to attack Lin Yi.

After losing the Jade space, Lin Yi's Qi couldn't be replenished, so he didn't dare to use powerful skills too boldly. He couldn't use it continuously before because the Jade space's replenishment speed couldn't keep up with the consumption, and his stamina wasn't enough to support it. Now, he had no replenishment at all. After the Super alchemy bomb and the Thunder thousand explosion, Lin Yi knew that he couldn't use his old fighting style anymore.

Ghost Speed's wings flapped gently, and Lin Yi's figure in the air was no different from lightning, leaving countless afterimages as he circled above their heads. When he found an opportunity, he'd immediately release a soul-snatching hand.

If he could successfully hook the primordial spirit of the general of thousand fantasy city's Army, he would have nothing to worry about the remaining xuansheng stage cultivators.

Unfortunately, the soul snatching hand did not succeed. The generals and commanders in the formation had a defensive enhancement brought about by the formation. This kind of defense was not only against physical attacks, but also against primordial spirit attacks.

Lin Yi sighed and gave up on using his spirit sense to attack. If he couldn't break through the formation, there was no hope of killing him.

This illusionary realm was really quite troublesome! How could he wake up from the illusion? Would he get any clues if he destroyed the entire Army of thousand fantasy city?

Lin Yi was thinking as he appeared around them. In order to save his pure energy, he didn't make a move.

It wasn't easy for him to find an opening in his opponent's defense, and Lin Yi exploded with power, using his ultimate move that he hadn't used in a long time!

The killing intent of the five elements and Eight Trigrams!

In terms of power, the killing intent was stronger than the normal five-element killing intent, but Lin Yi didn't use it much because the increase in power wasn't enough to make a qualitative change.

However, under the current circumstances, the killing aura of the five elements and Eight Trigrams could play an extremely powerful role. The formation that the thousand Thunderbolts couldn't break through was like ice and snow meeting boiling water. It was easily melted by more than half.

No matter how profound a formation was, the most basic structure was the five elements and Eight Trigrams. Lin Yi's killing intent could counter the defense of any formation, but of course, it was only a battle formation formed by living beings. Those with fixed formation bases or formation flags weren't included.

The generals and commanders of the cultivator Army were all shocked. They didn't expect Lin Yi to break through the impenetrable formation so easily. Before they could react, Lin Yi had already thrown in a few fire vortexes through the gap, crazily wreaking havoc on everyone.

Other than the general, all the other commanders, regardless of whether they were at the xuansheng stage or the mountain split stage, were in the pain of their primordial spirits being torn apart. The already broken military formation collapsed with a loud bang.
