

Bodyguard 6191

Chapter 6191 Bring Me Along

"Elder Vermilion Bird, the plan is going quite smoothly. White Tiger and black Tortoise foolishly jumped in this time. It's a joke. Do they really think that they'll be able to put all the power in the king's hands and support a new emperor peerless?" Azure Dragon laughed complacently. His words were full of disdain for the two elders.

"Azure Dragon, you've done well this time. In the future, the spirit beast clan will need to rely on your ability for many things. Don't find it hard!" The Vermilion Bird smiled and patted the Azure Dragon's shoulder.

"For elder Vermilion bird's sake, I'm willing to go through fire and water. If there's anything you need my help with, please let me know!" Azure Dragon patted his chest and guaranteed loudly.

After a short pause, the Azure Dragon lowered his voice and said, "Elder Vermilion Bird, the entire spirit beast clan will be under your control after the coronation ceremony. Moreover, you'll have powerful external help. Why don't you just use your power to pressure The White Tiger and the Black Tortoise to surrender and then let the great King abdicate to you? wouldn't that be more convenient?"

"You're worried that the king will change his mind and side with White Tiger and black Tortoise, so that he can keep us in check?" The Vermilion Bird saw through the Azure Dragon's thoughts with a single glance. She smiled and waved her hand. "You're worrying too much. I know that those two guys have contacted the king in private. That's why they dared to make such a proposal. Don't worry, everything is under my control."

"As for becoming the new king of the spirit beasts, it's not the time yet. What I need now is stability. Only when the spirit beast clan is as stable as Mount Tai can we cooperate with the two equally ambitious allies without worry. If we're too anxious to take the position, it will lead to the division of the

spirit beast clan. We may become the first fat meat that the Allies will snatch." Vermilion bird's fingers began to tap on the table again. He knew very well what kind of ally he had found. It could be said that he was more wary of his allies than his enemies. After all, it was the hardest to avoid a knife that was stabbed in the back.

"I understand!" The Azure Dragon nodded and took out a big Jade box. After opening the lid, there were small Jade bottles neatly arranged inside. "These are the elixirs Lin Yi and the others made. We don't know if the recipe is from the ancient times, but it's indeed suitable for us spirit beasts. With these, we can create a strong elite team in the short term."

"Well done! This Lin Yi really was a genius-it didn't matter if he got the heritage from the ruins or not, just the fact that he could make this kind of pill was enough to make him a hero! I know that ordinary alchemists can't refine those ancient pill recipes!" The Vermilion Bird received the jade box, and his mood became even more cheerful.

"Yes, I think so too. According to the people below, he also wants to come to see the coronation ceremony, so I arranged for a team of Masters to bring them over. I guarantee that nothing will happen." Qinglong also valued Lin Yi a lot. The big fire Lion didn't know that his intention to bring Lin Yi over had already been noticed by Qinglong.

Among the spirit beasts escorting Lin Yi this time, there were three masters of the earth-splitting stage. One of them was extremely close to the great completion of the sea splitting stage. In the entire South continent, he was one of the top masters. Plus, they were in the territory of the spirit beasts, so it was impossible for Lin Yi to get into any trouble.

Azure Dragon thought that his plan was perfect, but he didn't expect that something unexpected would happen when Lin Yi and the others were being escorted to the core area of the southern island.

Lin Yi and the other two, as well as the two from the Zheng family, were also on the move. There were five people in total, but twenty spirit beast Masters were arranged to escort them. Other than the three earth opening Masters, there were five mountain opening Masters and twelve xuansheng Masters, including the fire Lion and lang Qi.

Hu Ling had completely disappeared. The Great Fire Lion thought he was dead. Otherwise, Hu Ling would have a place in the escort team.

In order to speed up, the spirit beast Masters had all returned to their original forms, and were extremely agile in the forest. Lin Yi and the other four were each carried on a spirit beast, and after half a day, they were almost out of Lufeng forest and entered the forest in the core area of the southern island.

This was only the outer area. The group of spirit beast experts would need about two days to reach the location where the coronation ceremony would begin.

"There are indeed many experts in the spirit beast clan. Not to mention the earth formation stage experts in this small team, we can already feel the existence of many powerful spirit beasts in the vicinity just as we entered the periphery of the forest in the core area." Lin Yi said to LAN Guzha and Li Zao Yi, bored. Normally, their team wouldn't encounter any danger in the forest because this was the territory of the spirit beasts. Who would be stupid enough to ambush them here?

As for the powerful auras that appeared in the divine sense, they were all scattered soldiers of the spirit beast clan. Everyone was here to attend the coronation ceremony, so it was not surprising to encounter them by chance. After all, they were the Masters of the entire spirit beast clan. No one was willing to miss any spirit beast that could return.

LAN Guzha's lips twitched, not thinking much of Lin Yi's words. The spirit beasts did have a lot of Masters, but they couldn't compare to the sea beasts. The southern island was big, but could it be bigger than the ocean?

The sea beasts didn't like to go ashore, or else the entire sky-class Island would be easily destroyed. Although the northernmost Island had defended against the sea beasts' attacks, it was only a small fight. In the eyes of the sea beasts' higher-ups, it was probably not even on the level of a small conflict.

As soon as Lin Yi finished speaking, a figure appeared in his divine sense, blocking the entire team. Before the figure appeared, Lin Yi didn't even feel a trace of it. He didn't need to ask to know that this person wasn't simple.

"Who's there? What are you trying to do by blocking the way?" Lang Qi was arranged to be at the front of the team. He didn't even notice that he was stopped. He suddenly felt a little embarrassed. He cursed coldly and was already in an attacking posture.

"So many spirit beasts are going to attend the coronation ceremony of your King of spirit beasts, right? Just in time, just in time, bring this young master over!" The person was a young man who looked to be in his twenties. He wasn't very handsome, but he looked extremely bright and friendly.

"Kid, I'm asking you a question! Who are you?" Lang Qi couldn't see the depth of the other party's strength, so he didn't dare to attack him for the time being. However, he still had three earth-splitting stage Masters behind him, one of whom was an expert at the consummate level of earth-splitting, so he was still very confident.

Chapter 6192 Powerful People

"Me? I'm Wang Shiyang, and I'm curious about the coronation ceremony of the king of spirit beasts, so I came to watch the fun. It should be fine, right?" Wang Shiyang didn't mind Lang Qi's bad attitude. He grinned.

Lin Yi squinted his eyes. He could usually tell the strength of people who were one level higher than him when he wasn't in a fight, but this Wang Shiyang didn't give off any aura at all-he was no different from a normal person.

Unfortunately, this was not the main road of the city. If an ordinary person were to walk in here, he would have long been devoured until not even his bones were left. How could he stand in front of an entire team of spirit beast experts and act tough so casually?

"Go away! The southern island does not welcome uninvited guests. Go back now, or you will never be able to go back!" Lang Qi grinned hideously and raised his palm. No matter what purpose this Wang Shiyang had, since his backup was strong enough, he would teach him a lesson first!

"Hey, hey, hey, what are you doing? A gentleman uses his mouth and not his fists. If you were to use your fists, do you believe that I would slap you to death?" Wang Shiyang took a small step back, pointed at Lang Qi, and shouted. He looked like a child who couldn't beat his opponent in a fight, so he threatened his opponent with words.

Lin Yi couldn't help but roll his eyes. He couldn't tell Wang Shiyang's strength level, but he was pretty sure that this guy's real age wasn't as young as he appeared to be. He was either acting like he was young or he was trying to hurt Lang Qi.

"Since you're so powerful, let's see who will kill who with a slap!" Lang Qi laughed and waved his palm. Wang Shiyang's action had made him mistakenly think that Wang Shiyang's strength was far inferior to his, so he subconsciously showed weakness.

"A gentleman uses his mouth and not his fists. If you want to make a move, then make a move. At most, you'll gain the upper hand if you make a move first, but you'll suffer later!" Wang Shiyang chuckled and mumbled to himself as he waved his hand.

Although Wang Shiyang's movements looked slow, his palm was actually more than twice as fast as Lang Qi's. He moved later but reached first, and his palm landed on Lang Qi's face just like that.

After the crisp slap, there was a clear explosion. Lang Qi's face was still filled with shock, and his eyes were full of disbelief and unwillingness. However, his head had already turned into a rain of blood after the slap!

Lin Yi's eyes were wide open, his pupils contracting as his hair stood on end. This guy was strong! Most importantly, Lin Yi still couldn't see through his strength when he attacked!

That slap was like Wang Shiyang smacking a fly away—he didn't use much strength at all, and his aura didn't fluctuate at all. Even Lin Yi himself wouldn't be able to take care of Lang Qi so easily without using the hand.

"How audacious! How dare you kill our people in our spirit beast clan's territory! You're looking for death!" The three earth formation stage experts in the team were also a little surprised. They didn't even have the thought of saving Lang Qi just now, and that guy's head was blown up with a single slap. It could be seen that Wang Shiyang's strength was quite terrifying.

Therefore, they didn't need to call out to Wang Shiyang. They immediately attacked Wang Shiyang at the same time and prepared to kill him in one strike. As long as he wasn't at the sea splitting stage, they believed that their attack would definitely succeed.

"F * ck! Truly shameless, to actually bully a few with numbers! Fortunately, this young master was prepared!" Wang Shiyang still had a smile on his face. He was shouting and yelling, but he didn't seem to be flustered at all.

Facing the joint attack of the three masters of the earth-splitting stage, he didn't Dodge or evade. He just stuck out his chest and waited for the attack to come.

The three earth-splitting stage experts felt somewhat uneasy. However, since the attack had already been launched, there was no turning back. Even if they wanted to withdraw it now, they couldn't.

With a loud bang, the joint attack of the three masters landed on Wang Shiyang's chest. However, a transparent defensive light shield appeared about half a foot in front of him. Countless ripples flashed on it rapidly. It was obvious that it was neutralizing the power of the joint attack.

"What the fuck! It's quite powerful, almost breaking through this young master's defense! The few of you are too dangerous, you must die!" Wang Shiyang finally stopped smiling and disappeared from where he was.

Lin Yi's eyes twitched. In that instant, he lost track of Wang Shiyang. Under normal circumstances, this couldn't happen no matter how fast one was. For example, when the Green Dragon attacked, even if Lin Yi couldn't catch his movements, there would always be a trace of him in his spirit sense. Wang Shiyang, however, didn't disappear completely.

"Teleportation?" In the next moment, Lin Yi's spirit sense found Wang Shiyang again. He was already behind the strongest spirit beast, and a golden light shot out from his palm, directly penetrating the vital point on the back of the spirit beast. The body of the spirit beast, which was infinitely close to the sea

shattering realm, began to crack, and a golden light came out from the inside. It turned into pieces in an instant, and was blown away by the wind.

The other two earth formation stage spirit beasts didn't have time to be shocked as Wang Shiyang's attacks landed on their bodies. Within a breath's time, the three earth formation stage spirit beasts were easily killed by Wang Shiyang alone without leaving any traces behind. Such a terrifying attack immediately created a great shock to the remaining spirit beasts.

If he could instantly kill a spirit beast in the consummate stage of earth creation realm, wouldn't they, who were only at the mountain opening stage, be no match for him? No one would choose to court their own death, so the remaining spirit beasts all stood in place, silent and not daring to move.

In the eyes of the remaining spirit beasts, anyone who could kill a cultivator in the consummate level of earth splitting realm in an instant was definitely a Super Master in the sea shattering realm. However, Lin Yi didn't think so. He felt that there was something strange about this Wang Shiyang. No matter how strong a master was, there should be some fluctuations in his aura when he fought. Take the Green Dragon for example. Lin Yi couldn't see through the green Dragon's exact strength level, but there was always a trace of his aura when he moved, unlike Wang Shiyang, who was like a ghost.

"Boss, this guy is so powerful! Who do you think is more powerful, him or that old fellow Azure Dragon?" LAN Guzha whispered to Lin Yi. This guy didn't care if they'd be in danger, but was interested in who was stronger. After all, they were all people who could become opponents!

Chapter 6193 Free?

"Use voice transmission. Don't cause any trouble." Lin Yi whispered to LAN Guzha. He'd already taught this trick to the people around him, but the guy always liked to mumble.

"Lin Yi, don't you think that this Wang Shiyang is a little weird? His attack doesn't seem to be a manifestation of his own strength, but rather the use of some external object." Li Zao Yi's spirit sense

wasn't weak, and her mind was extremely sensitive. Lin Yi's problems naturally didn't escape her attention.

"You noticed it too? That golden light doesn't seem like Wang Shiyang's martial arts technique or weapon. It's more like a tool. His teleportation is also very strange. There's no aura fluctuation at all. Or does he have some top-notch treasure to hide his aura?" Lin Yi nodded slightly and told Li Zao Yi his guess. The two of them could confirm it and have more ideas.

At the same time, he didn't forget to send a message to the Great Fire Lion, telling him not to step out. Against this strange Wang Shiyang, Lin Yi might not even have the chance to save him.

The lightning movement was fast indeed, but it wasn't teleportation yet. It was the first time Lin Yi lost confidence in his speed ever since he got the technique. More importantly, he suspected that the guy had some top-tier equipment on him, so his spirit sense attacks might not be of much use.

"Alright, after the threat is eliminated, everyone can relax. Let's have a good talk!" Wang Shiyang dusted his hands and put on a harmless smile again. He looked at the scared spirit beast Masters around him and turned his eyes to Lin Yi and the others.

"You guys are human cultivators, right? With so many spirit beast Masters escorting them, could it be that an important figure from some great power has come to participate in the coronation ceremony of the king of spirit beasts?" Wang Shiyang looked at the three of them, interested. They were the only ones who were calm and composed. As for the other two humans, they were no different from the other spirit beasts, with fear and respect on their faces.

Lin Yi smiled faintly, his suspicion of Wang Shiyang's true strength growing. LAN Guzha wasn't human, and this guy obviously didn't recognize the aura of the mutated Sea Dragon. Normally, people stronger

than LAN Guzha would be able to vaguely identify this guy's identity, and only when they were about the same strength would they lose their judgment because of the mutation.

"We're not important figures of the human race, and they're not escorting us. To be more precise, they're escorting us." Lin Yi didn't hide anything and admitted his identity.

In fact, after Wang Shiyang killed the three earth formation stage spirit beasts, the remaining ones weren't much of a threat to Lin Yi anymore. He could leave with Lizao Yi and LAN Guzha anytime he wanted to.

But Lin Yi had made up his mind to go see the king of spirit beasts "coronation ceremony, so he couldn't get rid of his captive status yet.

"You were caught?" Wang Shiyang was slightly surprised, but he immediately smiled and said, "It seems that you are still very important. Otherwise, why would the spirit beast clan send so many masters to escort you? How was it? Take me with you and I'll help you escape. I'm not bragging, but even if the Vermillion Bird and the others were in front of me, I could protect you from harm!"

"Hey, hey, hey, don't you think it's a little inappropriate to say such things in their presence? Do you want to kill them all?" LAN Guzha's eyes darted around and he immediately revealed an evil smile. He pointed at the remaining spirit beasts in the circle, including the two people from the Zheng family.

Those who were pointed at by LAN Guzha, whether they were spirit beasts or humans, were all shocked. If there was a chance to fight back, even if it was only one in a thousand, they would definitely fight for it with all their might. Unfortunately, in the face of Wang Shiyang's strange and powerful attack, none of the spirit beasts could even muster the thought of fighting back. If LAN Guzha really wanted to silence them, it would be more satisfying to stretch out their necks and wait to be killed.

"What you said makes sense. Should we just kill them all? That's not right. If you kill them all, won't you have no one to escort you? Isn't it a little weird to go over like this?" Wang Shiyang was a little tempted, but he immediately realized that it didn't seem very reliable.

"That's right, that's right. Senior Wang is truly wise. With senior's strength, there's no need for you to care about minor characters like us. Not to mention, the two of us are also captives. I hope senior can help us when the time comes!" Zheng Tianqing took the opportunity to cup his fists and bow. He put on a flattering smile, trying to get on Wang Shiyang's good side.

"If you want to watch the show, you don't have to come with us. If you don't know the way, you can just find a spirit beast to lead the way." Lin Yi didn't care about Wang Shiyang's offer, but asked curiously.

With the strength he had displayed, he could have easily found a spirit beast to threaten and done this, right? For example, any one of the spirit beasts that Wang Shiyang chose would be willing to lead him to the coronation ceremony.

It was not to say that these spirit beasts were afraid of death or not loyal enough. On the contrary, it was precisely because they did not have the strength to deal with Wang Shiyang that they had to bring him along. All the Masters of the spirit beast clan had gathered at the coronation ceremony. If even they could not do anything to Wang Shiyang, there was no need for the spirit beast clan to continue existing.

"What's the point of being with spirit beasts? This young master only wants to travel with human cultivators. What, are you not willing?" Wang Shiyang was very direct and did not care about the feelings of the dozen or so spirit beast experts.

LAN Guzha could not help but mock inwardly, 'since you look down on the spirit beast clan so much, why did you rush over to attend the coronation ceremony of the king of the spirit beasts? Are you so bored that your balls hurt?

The guy didn't mind telling Wang Shiyang the whole thing, but Lin Yi was talking to him. As a follower, he didn't want to interrupt his boss. He had no choice but to keep it to himself.

Zheng Tianqing's face turned ugly. Wang Shiyang didn't even pay attention to him, only talking to Lin Yi. It was obvious that he didn't like the two of them. He said that he wanted to travel with a human practitioner, but were they not human?

If Wang Shiyang's strength was not so strong, Zheng Tianqing would have lost his temper on the spot. As for now, he still had to face Wang Shiyang with a smile.

"Since we're going to move together, shouldn't you introduce yourself first? I'm Lin Yi, an Alchemist. This is Li Zao Yi, also an Alchemist. The other one is LAN Gu Zha, my brother. " Lin Yi didn't reject Wang Shiyang's offer-having such a powerful guy following him, and the guy's hatred for the spirit beasts, at least, wasn't a bad thing.

Chapter 6194 Talisman Array

He had wanted to tell Wang Shiyang about their origins, but Wang Shiyang's eyes lit up when he heard their names. It seemed like he had heard of them.

"Lin Yi! Immediately remembered! I know you. You've auctioned an alchemy opportunity at the auction on the northernmost Island. So it's you two! Why aren't you refining pills? why did you come to the southern island as prisoners?" Wang Shiyang clapped his hands, the smile on his face even more obvious. He didn't know if it was because of Lin Yi's identity as an Alchemist that gave them an advantage.

Lin Yi couldn't help but smile-what did she mean by being a captive? He said it as if they were the ones who delivered themselves to his door and were willing to be captives.

"Hey, you've heard of my boss and sister-in-law's names, but have you not heard of this great master LAN Guzha? When the sea beast clan attacked the northernmost Island, my reputation was like the sun in the sky!" LAN Guzha raised his thumb and pointed at his own nose as he spoke to Wang Shiyang smugly.

This guy felt that he was being ignored, so he wanted to show his presence. He was completely different from the Zheng family's father and son, who were also ignored. They could only treat themselves as invisible.

Wang Shiyang was really hit by LAN Guzha's question, so he stared at this fellow in confusion for a long time before he shook his head affirmatively and said, ""I've never heard of it!"

LAN Guzha took a huge blow, his face full of despair. Even the usually cold Li Zao Yi couldn't help but want to laugh. Lin Yi rolled his eyes, too lazy to care about this clown.

"Brother Wang has heard of Li Zao and I, so you must be someone with a great background. Otherwise, those who didn't participate in the northernmost Island wouldn't necessarily know these details, right?" Lin Yi smiled and cupped his fist at Shiyang. He didn't think that he wasn't qualified to be on the same level as Shiyang, so he called him "brother" naturally.

As for the seniors, it was better to leave them to Zheng Tianqing and the others. In terms of strength, the father and son of the Zheng family were definitely the juniors here. Any one of them was much stronger than them ...

"Brother Lin is indeed brilliant. To be honest, I'm from the East continent's Mystic division sea. Although you two haven't been there yet, you're already quite famous. After all, such a young Mystic Alchemist has endless potential, and there are many people who want to make friends with you. I didn't expect to meet you here, what good luck!" Wang Shiyang turned to Lin Yi, not trying to hide his desire to befriend Lin Yi at all.

"So brother Wang is from the East continent's Mystic class Sea region. No wonder you're so powerful at such a young age." Lin Yi complimented. He had a good impression of Wang Shiyang-at least he was honest.

"Hehe, brother Lin doesn't look like you're scared of me!" A sly smile appeared on Wang Shiyang's face. Lin Yi's attitude didn't seem like the kind of attitude one should have when facing a sea shattering realm cultivator,""I've already sealed the area around us, so we don't have to worry about being heard. Brother Lin and I feel like we've known each other for a long time, so I won't hide these little tricks from you. "

It had to be said that Wang Shiyang's honest and friendly personality was very suitable for making friends. At least Lin Yi had a good impression of him. A normal practitioner wouldn't tell their background to someone they just met. Wang Shiyang's actions made Lin Yi feel trusted.

"It's best not to reveal brother Wang's methods so as not to cause unnecessary losses to brother Wang. " Lin Yi waved his hand with a smile. He'd guessed that Wang Shiyang didn't rely on his own strength to kill the three earth-opening Masters, and now that he'd confirmed it, it didn't matter what method he used.

Lin Yi didn't want to be Wang Shiyang's enemy anyway, and it didn't matter if he knew his methods or not. If Wang Shiyang really wanted to be his enemy, he wouldn't tell Lin Yi his real methods.

"Of course we have to be wary of others, but brother Lin isn't an outsider, so what's the problem?" Wang Shiyang waved his hand casually, surprising Lin Yi a little. He'd only said a few words, and they were no longer outsiders? If they walked two steps together, wouldn't they become sworn brothers?

Wang Shiyang didn't notice Lin Yi's thoughts and continued, "I'm a direct descendant of the Wang family from the mystic-class Sea region in the East continent. In fact, my family is quite famous in the East continent. As for our methods, we basically know them. We use talismans to fight!"

"Using talismans to fight?" Lin Yi blinked-he'd done a lot of research on formations, but he'd never thought that he could use them in a normal battle.

The damn thing in the Jade space was interested as well, ""Lin Yi, this Wang kid might be from an ancient formation family. I've heard some rumors before, but they were hidden from the world and I didn't get to see it with my own eyes. It seems like the inheritance is well preserved!"

"Senior ghost, you know about the formation battle? Can you tell me more about it?" Lin Yi didn't want to ask Shiyang too much about stuff like this, but he didn't mind if it was something weird. He could ask anything he wanted as long as he knew.

"It's better for you to ask this Wang kid yourself. He seems willing to tell you anyway. He'll definitely be more detailed than me. " The thing seemed to have limited knowledge as well, so it sent Lin Yi to talk to Wang Shiyang.

"Brother Lin might not be too clear. Look, this is a formation talisman used for battle!" Wang Shiyang flipped his hand over, revealing a two-fingers-wide, pale-Golden Jade talisman on his palm. There was a

faint golden light flowing on it, and the surface was covered in mysterious formation patterns. Even with Lin Yi's eyesight, he felt dizzy just looking at it-he couldn't see it clearly at all.

"This is a combat formation talisman. Anyone under the sea splitting stage can't withstand a single blow. I used this formation talisman to kill three spirit beast experts of the earth splitting stage just now. Unfortunately, this formation talisman can only be used for eight strikes in total. I still have three more chances now. I have to use it sparingly. After all, there is only one combat formation talisman at the sea splitting stage this time." Wang Shiyang let out a rare sigh and put away the battle formation talisman in his palm.

Lin Yi and the other two were speechless. Why did you use it so casually just now when you only had one sea Rift battle formation? What's the point of instantly killing three earth formation stage spirit beasts? Killing one should be enough to shock them, right?

Other than the sea-shattering talismans, Lin Yi guessed that Wang Shiyang had quite a few earth-shattering battle talismans. These were the mainstream equipment, and as long as they didn't run into sea-shattering realm spirit beasts, they could basically guarantee Wang Shiyang's safety.

"Since there are battle talismans, there should be defense talismans, movement talismans and some other special talismans, right?" Lin Yi finally understood why Wang Shiyang had so many special features. It was all because of the talismans.

Chapter 6195 Arrival Of Sea Beasts

"Brother Lin is so smart, I can't hide anything from you!" Wang Shiyang clapped his hands and laughed. He then took out a few talismans of different colors and explained, "This is a defensive talisman. I used this just now. It can resist eight attacks from cultivators below the consummate level of earth splitting realm. If they are attacked by cultivators at the sea splitting realm, they can only wait for death! Although the level isn't high, it's very practical. There are also movement talismans, but very few. I only have two direction-oriented ten thousand mile talismans. As for the teleportation just now, I didn't use a talisman, but my own ability!"

Speaking of teleportation, Wang Shiyang couldn't hide the smugness on his face. This ability was quite practical and terrifying. In terms of movement speed, it was even better than the Thunder escape technique. To master this ability, one must first have a deep understanding of space. Anyone below the sea splitting stage was not qualified to understand it.

Needless to say, Wang Shiyang's teleportation should be a special inborn talent and not acquired through cultivation.

"Brother Wang is really amazing. I thought that your teleportation was also completed through a talisman, but I didn't expect it to be completely your own ability!" Lin Yi couldn't help but praise. No wonder this guy dared to come to the southern island's spirit beast forest alone. Other than talismans, teleportation was his biggest trump card, right?

After all, there was a limit to the number of times talismans could be used, but teleportation only required enough pure Qi to support it. In terms of escaping speed, this was without a doubt the world's number one ability. Lin Yi had the Thunder escape technique and ghost speed wings, but he might not be able to catch up to him.

"I was born with it, I can't help it!" Wang Shiyang chuckled and waved his hand. After keeping the talismans, he continued, "Shall we continue? I'm here to watch the coronation ceremony of the king of spirit beasts. If you want to leave, you can come with me. "

Wang Shiyang glanced at the spirit beast experts around him. It was not a problem for him to take a few people away. Even if the four great elders of the spirit beast clan were present, he could activate the talisman to escape as long as they did not restrict him at the first moment.

In order to restrict a person who had the ability to teleport, one had to set up a space-sealing formation in advance, or one's research in the Dao of space could firmly suppress the person.

"Then I'll have to thank brother Wang!" Lin Yi smiled faintly and cupped his fists to Wang Shiyang. He was confident that he could bring his people away, but it wouldn't be easier than Wang Shiyang.

Lin Yi was sure that Wang Shiyang didn't reveal all of his talismans. Other than the directional talisman, he should have a better movement talisman, but that wasn't important. Lin Yi couldn't tell others all his cards.

"No need to be so polite. We're all brothers, not outsiders!" Wang Shiyang laughed out loud. He was very happy.

Wang Shiyang thought that it was a huge profit to be able to get on Lin Yi's good side with this useless information. As long as he could get some real help, Lin Yi would remember these two genius alchemists immediately, and his house would have an extremely close relationship with them.

"Hey, Wang Shiyang, tell me the truth. Without these talismans, what kind of strength would you have?" LAN Guzha watched for a long time before he finally seized the opportunity to ask the question that he was most concerned about.

"My strength? In fact, he's about the same as you, at the peak of the early mountain-opening stage. " Wang Shiyang turned to LAN Guzha and smiled. Since he was Lin Yi's brother, he had to give him some face. He stopped the stealth talisman as he spoke, revealing his aura. He was indeed at the peak of the early mountain opening stage.

"That's good. Next time, when we spar, don't use talismans!" LAN Guzha chuckled as well. He was already planning to find himself an opponent.

If Wang Shiyang agreed, LAN Guzha would not show any mercy. Without using the talisman, this fellow felt that he could definitely defeat Wang Shiyang. As for whether the other party would use the talisman to defeat him again, did it matter? Yes, it was also very important! He could fight another fight!

"Sure! Actually, I like to find people to spar with!" Wang Shiyang's smile was bright and clear, but Lin Yi immediately felt that the guy's eyes were full of perverseness.

Sparring with someone who was born with the ability to teleport? Are you sure you're not just going to be a sandbag? Lin Yi looked at LAN Guzha, amused. The guy was thinking about the wrong thing, but he had thick skin and it didn't matter if he got beaten up. He enjoyed it anyway, so Lin Yi didn't want to interfere.

The few of them chatted for a while more before Wang Shiyang removed the seal around them. He waved his hand at the spirit beast experts around him and said, ""Let's go. We'll continue to attend the coronation ceremony. We'll pretend that what happened just now never happened. Whoever is unconvinced, stand out and speak!"

All the spirit beast Masters immediately turned around and continued to move in the same direction as before. Who was the one with a mental problem? Even if he was not convinced, he couldn't stand out and speak immediately. He had to wait until he found a super expert at the sea splitting stage to support him.

A few spirit beasts who wanted to carry people had no choice but to obediently wait for everyone to sit down before carefully setting off with the large group. They did not dare to make any jolts, for fear that this would become an excuse for them to be killed. That would be too tragic.

The Zheng parents were treated like air the whole time-they were standing right next to Lin Yi, but they didn't hear a single word or see anything useful. Wang Shiyang's seal was basically distorting the space around them. It was a simple technique, but only experts in space could break it.

Now, the two of them wanted to get close to him and make friends, but they didn't dare to act rashly. They could only continue to remain transparent and wait for an opportunity to make their presence known.

On the other side, after the four great elders had reached a preliminary agreement, the preparations for the coronation ceremony had also begun to enter the final stage in an orderly manner. Countless spirit beast experts had already poured into the spirit beast clan's Royal City. At the same time, the representatives of some forces that were on good terms with them had also arrived in the royal city one after another.

"Elder Vermilion Bird, the emissaries of the sea beast clan have entered the royal city. The leader is a Prince of the Royal sea beast clan. Do you want to meet him first?" The Vermilion bird's confidant had come in to report the news of the sea beast race's emissary. This was something he had paid special attention to, so he had to know as soon as possible.

"You're finally here? Immediately go and invite that sea beast Prince over, and tell him that this Lord wants to see him!" The Vermilion bird's divine sense swept over the emissaries and locked onto them. Then, he waved his hand and asked his confidant to invite them over.

"Yes! Elder!" The Vermilion bird's confidant immediately bowed and left, disappearing in a flash.

Chapter 6196 The Prince Of Sea Beasts

After a short while, the Prince of the sea beast clan followed the Vermilion bird's confidant to this place, while the rest of the emissary delegation was arranged to stay in the dormitories.

At this time, the Azure Dragon had also heard the news and rushed over. Together with the Vermilion Bird, they stood up at the door to welcome the Prince of the sea beast.

"Xiao Yan greets elder Vermilion Bird and elder Azure Dragon!" The sea beast Prince's human form looked gentle and elegant. He was handsome and extraordinary. When he saw the two elders of the spirit beast clan waiting for him, he quickly stepped forward and cupped his fists to greet them. His attitude was neither humble nor arrogant. He had an excellent demeanor.

In terms of strength, Xiao Yan was indeed much weaker than the two elders. However, in terms of status, the Prince of the sea beast clan could be on equal footing with the elders of the spiritual beast clan. In addition to his identity as an envoy, he did not need to be too respectful to the Vermilion Bird and the Azure Dragon.

"Prince, you must be tired from the journey. Quickly sit down and talk!" The Vermilion Bird smiled and gestured for Xiao Yan to take a seat.

The three of them took their seats and after exchanging a few more words, they immediately moved on to the main topic.

"This time, I've come on behalf of the sea beast clan to discuss the cooperation between our two clans. The two elders should have a perfect plan, right? Can you first explain in detail how we should cooperate?" Xiao Yan did not waste any words and went straight to the point.

This cooperation was actually proposed by the spiritual beasts, so Xiao Yan was very confident. If the conditions could not be negotiated, he would not cooperate at all. Thus, he did not need to beat around the bush and just spoke simply.

"Prince Xiao Yan, you should have heard of it, right? In fact, we've worked together before. Although the northernmost Island didn't succeed in the end, it was only a small trial. Next time, we'll be more prepared, and there won't be a problem. " Azure Dragon didn't directly answer Xiao Yi's question, but instead brought up the matter of the northernmost Island.

"I know about the operation on the northernmost Island. It was indeed a probing operation, but it can't be considered a cooperation between our two races, right? At most, your spirit beast clan will act as a middleman and introduce another ally of yours to us. Let's not talk about this kind of fun stuff and directly talk about our future plans!" The corner of Xiao Yan's mouth curled up, and he appeared to be somewhat disdainful of the actions of the northernmost Island.

"Your Highness, please calm down. Although the northernmost Island is just a test, it is also an attempt. Our spirit beast clan did not participate too much in it. It is only because the distance is too far that the next target of the operation will be the closest one." The Vermilion Bird said with a smile. He had more or less decided on his target.

"The most recent one? Nakajima?" Xiao Yan was slightly stunned and subconsciously raised his hand to scratch his chin. The middle Island might not seem strong on the surface, but as the central area of the Sky Class Island, it was definitely not that simple.

The sea beast clan was very clear about the major islands. Not to mention the defensive capabilities of the middle Island, once it was attacked, the reinforcements from the other major islands would soon arrive. This was also an extremely troublesome matter.

"Your Highness, you've misunderstood. The closest Island to our South continent is not the middle Island, but the West Island!" The Azure Dragon smiled and took out a Sea Map. He opened it and pointed at it.

Going from the edge of the South continent to the West Island was actually about the same distance as going to the middle Island. It was hard to say which was closer and which was further, including going to the East continent. However, the middle Island was located in the center, so it seemed to be closer.

As for the target, the East continent was the strongest on the sky-class islands. Before the spirit beast clan conquered the other big islands, they would not dare to target the East continent. The middle Island had the advantage of support from all sides and was not so easy to gnaw down. Therefore, the West Island was the most suitable target for the Vermillion Bird.

"So it's the West Island! This is indeed a good target. If we attack the West Island, the East continent's Rescue range will be stretched to the maximum, which will buy us time to attack. The rescue of the middle and North Islands will not be as important." Xiao Yan nodded his head, thinking that this was the best choice.

The sea beast clan had a large number of people. So many sea beasts had died on the northernmost Island, but it was just a drop in the ocean. As long as the plan was well-thought out, it would not be a problem to divide the main force to attack the Western Island while harassing the middle and Northern islands. It would even be possible for all three islands to attack at the same time.

Of course, Xiao Yan would not say such words out loud. They were just cooperating. There was no reason for the sea beast clan to take the initiative to do such troublesome things. Unless there were sufficient benefits to be presented, then there was still room for discussion.

"In terms of strength, the Western part of the island is perhaps the weakest. However, the defensive barrier of the Western part of the island is far more powerful than the northernmost part of the island. This time, the sea beast clan will need to put in a large amount of combat power. It is the same for our spirit beast clan." The Azure Dragon had been to the Western part of the island before and had some understanding of the situation there. Hence, he was the one to explain the situation to Xiao Yan.

"Our sea beast clan can provide some combat strength, but you'll need to find a way to destroy the defensive barrier on the Western part of the island. Otherwise, it'll be useless no matter how much we invest!" Xiao Yan shook his head. The defensive barriers on the various islands were most effective against the sea beasts. Unless there were special circumstances, the sea beasts could not even dream of landing on the large islands.

As for the spirit beast clan, it was slightly better. Although there were restrictions, it was not impossible for them to land. In this cooperation, the sea beast clan was the main force of the outer perimeter, and the main force of the landing was the spirit beast clan.

"That's for sure. We will make arrangements for these matters. Prince Xiao Yan, please rest assured. " The Vermilion Bird nodded with a smile. As long as the sea beast clan participated, the plan to attack the Western part of the island would have a 90% chance of success.

The next step was to negotiate the conditions. The sea beast clan would only be willing to join in if they could offer a price that satisfied them. This was also what Xiao Yan wanted to hear. As for the target of the attack, it did not matter where it was.

The sea beast clan didn't have much desire for the benefits on the major islands. After all, their living area was still in the ocean. Although they could also transform and come ashore, there weren't many things that were suitable for them on land.

Because of this, the negotiations between the two sides did not make much progress. There were too few things that the Vermilion Bird could use as a bargaining chip. In the end, they could only put it on hold for the time being and continue the discussion after the ceremony.

The cooperation this time was not only between the spirit beast clan and the sea beast clan. Central was also involved. The two men in bamboo hats who were in charge of the South continent's Affairs had not arrived at Yunwu city yet. The discussion between the Vermilion Bird and Xiao Yan was destined to be fruitless. Only after the three parties had confirmed it together could an effective agreement be formed.

Vermilion Bird and Xiao Yan didn't come to a conclusion, but Lin Yi and Wang Shiyang were having a great time. They both wanted to make friends with each other, so they naturally showed their sincerity.

Chapter 6197 Strange Ahead

"Brother Lin, it turns out that the spirit beast clan is so despicable. They actually captured you and forced you to refine pills. This is too despicable. If you want to leave now, you can do so at any time. Are you sure you don't need to leave?" Wang Shiyang heard Lin Yi talk about how Green Dragon captured him to make elixirs, and he immediately started fighting for justice.

"Thank you, brother Wang. I'm also very interested in the coronation ceremony of the king of the spirit beasts. I want to go and take a look. There's no danger anyway, so it doesn't matter when I leave." Lin Yi waved his hand with a smile. Wang Shiyang could take them away at any time, and he was confident that he could get Lizao, Yilan, and Guzha out of here as well. The Azure Dragon wouldn't really do anything to them for the sake of making the elixir, so he wasn't in a hurry to leave.

It would be best if there was an opportunity to destroy the Alliance between the spirit beast clan and the central area. If there was no other way, he would have to find out the key points. The more information he obtained, the easier it would be to deal with them in the future.

"Alright, brother Lin, just let me know if you want to leave. I can't promise you anything else, but I can definitely bring you guys out of the southern island!" Wang Shiyang thumped his chest, taking all the responsibility. As far as he was concerned, this was the best chance to establish a friendly relationship with Lin Yi. He couldn't miss it.

After a short pause, Wang Shiyang asked casually, ""Brother Lin, you're saying that the spirit beast clan's elder Azure Dragon wants you to refine the spirit beast's inner core as the main pill? As far as I know, this should be a pill refining method that only existed in ancient times, right? Could it be that brother Lin has obtained an ancient pill Dao inheritance?"

A young Mystic Alchemist was rare, but an Alchemist who had mastered the inheritance of ancient alchemy was even more valuable. Even in the mystic Sea of the East continent, this was definitely a person worth fighting for!

If Lin Yi and Lizao Yi really had that kind of ability, then Wang Shiyang would save them even if it cost him his life. Even if he couldn't let them join his family, he had to make them his best friends.

Lin Yi wasn't surprised that Wang Shiyang knew about the ancient Alchemist. After all, this family was from the ancient times, so it wasn't strange at all for them to have a lot of information about the ancient times.

"Brother Wang, you think too highly of me. I didn't receive any ancient alchemy inheritance. I just happened to find a few pill recipes with some ancient alchemy tricks. It was all luck that I was able to successfully refine them!" Lin Yi wasn't lying-he really didn't get the recipe, and Li Zao Yi was the one who'd inherited it. It was a fact that he'd found the recipe-he just didn't say the number was enough.

"Brother Lin, you're indeed a genius. You're able to successfully refine pills even in this state. No wonder the spirit beast clan treats you like a treasure. I would do the same if I were you!" Wang Shiyang laughed

as he teased Lin Yi. It didn't matter to him whether Lin Yi got the inheritance or not-he only needed to know that Lin Yi was a super genius Alchemist who could make ancient recipes!

Wrong, it wasn't one, it was two!

Wang Shiyang had already started to count the number of talismans he had in his hands. No matter what, he had to ensure the safety of these two super genius alchemists.

At first, Wang Shiyang thought that he had enough trump cards in his hands and that there was nothing to be afraid of in the spirit beast clan's Royal City. However, because of his worries, he began to worry about his personal gains and losses. He secretly complained that he had not brought more talismans with him this time.

As the two were talking, the spirit beast Scout ahead suddenly stopped, and so did the entire group. Lin Yi extended his spirit sense out, but didn't find anything unusual.

They were almost at the core area of the spirit beast clan in the southern part of the island. With so many spirit beasts traveling together, there shouldn't be any danger. There were fights and killings within the spirit beast clan, but it was an important time for the king of spirit beasts 'coronation ceremony. Any internal fighting was strictly forbidden. Lin Yi didn't think that the group stopped because of the appearance of other spirit beasts.

Before Lin Yi could think too much about it, the spirit beast rushed over to report, not Lin Yi, but Wang Shiyang.

"Senior Wang, a crack in the illusionary mist space has appeared up ahead. We need to retreat." The spirit beast looked a little nervous. It was unknown whether it was because of the spatial crack in the illusionary fog or because he had to face the terrifying Wang Shiyang directly.

"What's a spatial tear in the illusionary mist? Why should we retreat? How much do we need to retreat?" Wang Shiyang was a little curious. He had never heard of any rumors about the illusionary mist space among the spirit beast clan.

"Senior, the illusionary mist space is a mysterious and dangerous place. It's probably another space that doesn't have any common border with us, but every once in a while, whether it's a few centuries or a few decades, a crack will appear. No matter what cultivation level one has, not a single one of them has come out. We have to retreat at least a day's journey to avoid it safely!" The spirit beast was still a little nervous and spoke very quickly, but at least it had made itself clear.

Now, he could only hope that Wang Shiyang would quickly give the order to turn back. The more time they wasted, the more danger they would be in.

"Even so, you don't have to go back a day, right? Can't we just go around it?" Wang Shiyang didn't think much of it. In his opinion, it was just a crack. What was there to be afraid of? it was fine as long as they didn't want to go in and avoid it. Since they could be discovered and there was no danger, they could just take a slight detour, right?

Lin Yi didn't say anything. His spirit sense didn't find any cracks in the illusionary mist space, and his eyes couldn't see anything because of the trees. He didn't completely believe what the Scout spirit beast said.

"Senior, the cracks in the illusionary mist space do not appear in a fixed place. Once they appear, they will drift around like ghosts. It can appear at any time within a range of ten thousand kilometers. The safest way is to quickly retreat. Once we are enveloped by the cracks, we can only enter the illusionary

mist space." The spirit beast who was scouting the way had cold sweat on his forehead. If he didn't know that Wang Shiyang could teleport, he would have run away by himself. Who would have the patience to waste time here?

Although he would definitely die if he entered the illusionary fog space, he might not necessarily enter it if he stayed. If he ran, he would definitely be killed by Wang Shiyang. He could only force himself to continue explaining and persuading Wang Shiyang.

"Brother Wang, what he said might be true. I feel that there's something strange up ahead." Lin Yi said suddenly, his face serious.

His spirit sense didn't find anything unusual before, so he didn't know how the spirit beast found the spatial crack. After careful inspection, Lin Yi realized that there was indeed something unusual in the area ahead!

Chapter 6198 Death!

Death zone!

The area that his consciousness reached seemed normal, but in fact, there were no signs of life except for plants. It was a completely dead area.

Along the way, although they did not encounter any spirit beasts, there were actually many life forms in the forest. Countless insects were hidden in hidden places, and there were also some ordinary birds and small beasts. It could be said that there were life forms in every inch of the forest. However, because these life forms were too weak, they were usually completely ignored by people.

This was Lin Yi's first time using his spirit sense to scan the area in front of him, and he didn't pay attention to these weak life forms at all. He was only focused on looking for stronger and abnormal existences, and then he found nothing.

It wasn't until after a few times that Lin Yi suddenly realized that there wasn't even a single bug in the entire area-this was the biggest abnormality! The spirit beast who had been scouting the way had probably made a judgment based on this.

The illusionary fog space crack only appeared in the core area of the South Island, and the spirit beast clan usually did not have much contact with the other islands. Although there were human cultivators in the sea around the South continent, they absolutely did not dare to set foot in the core area. Therefore, no one had heard of the illusionary fog space crack except for the spirit beast clan. The spirit beast clan naturally had their own set of methods to judge the crack.

"Brother Lin, do you feel that something is wrong?" Wang Shiyang blinked. He didn't notice anything wrong, but Lin Yi said he did. It was strange.

Not to mention the formation, Wang Shiyang thought that he was much stronger than Lin Yi in terms of pure strength. There was no reason why he couldn't notice Lin Yi's presence when the latter could!

"It's just a feeling! There doesn't seem to be any sound ahead, whether it's the chirping of insects or birds. It's as if it's a completely different world from here. " Lin Yi didn't mention how strong his spirit was, but closed his eyes and pretended to listen.

Wang Shiyang didn't doubt Lin Yi's words. He listened to Lin Yi's voice and his expression changed. At his level, he could easily tell the difference between falling leaves and Flying Flowers within a few thousand meters. It wasn't as convenient as eyes and spirit sense, but it was enough for him to make the right judgment.

The spirit beast looked at Lin Yi with respect as well-he didn't tell them about the signs because he had his own reasons. After all, Lin Yi and the others weren't spirit beasts, but he didn't expect Lin Yi to find the evidence himself with just a few words.

"Sure enough, there's a problem. Then let's retreat!" Wang Shiyang opened his eyes and made a decision immediately. If he was alone, he might want to go to the illusionary mist space to take a look, but he had genius alchemists like Lin Yi and Li Zao Yi with him. He felt that it was more important to ensure the safety of the two.

The surrounding spirit beasts immediately heaved a sigh of relief and showed a happy expression. They had all heard of the illusionary fog spatial crack. No one wanted to stay in such a dangerous place and wait for death. It was simply great news to be able to leave this place.

Without Wang Shiyang's order, all the spirit beasts turned around and began to retreat in an orderly manner. However, their speed was much faster than before. As expected, running away stimulated one's potential, and it was the same for both humans and spirit beasts.

He didn't even get a few steps before his surroundings fell into a strange darkness. All the flowers and trees were gone, but the life signs of the animals were magnified. Lin Yi didn't need to use his spirit sense to see the spirit beasts and companions around him, as well as many normal insects and birds.

"A spatial tear in the illusionary mist!" The spirit beast who had come to report the news earlier had a huge change in expression. Although he had never really entered the crack, and no one who had entered it had reported the situation inside the crack, he knew that they had still been enveloped by the ghostly and erratic crack.

"Everyone, stay together!" Lin Yi remained calm and ordered the spirit beasts to get closer.

In the midst of panic, as long as someone stood up, all the spirit beasts would subconsciously obey the order. Moreover, it was much better to be United than to face the unknown danger alone.

However, just as the spirit beasts started to move, an invisible attack fell on them. In the blink of an eye, eight spirit beasts were killed in one blow.

The fire Lion had been following Lin Yi the whole time, so he dodged the first wave of attacks. Because of the warning in the Jade space, Lin Yi responded in advance, at least ensuring the safety of the people around him.

Wang Shiyang's defensive talisman flickered as well before expanding the area of the defense, wrapping Lin Yi and the others in it. He didn't know the relationship between Lin Yi and the Zheng family's two men, so he decided to help them with the defense as well. The two of them were lucky enough to survive.

Lin Yi didn't mind-the two Zheng family members were just small fries, and he could kill them anytime he wanted. There was no need to be so calculative at a time like this.

"Brother Wang, how much longer can your defensive talisman last?" Lin Yi frowned as he looked around, but other than the darkness and the light-like life forms in the darkness, he didn't find anything useful.

"After expanding the range, the original two defensive arrays can only be used once. Fortunately, I brought a lot of defensive talismans with me this time. This level of attack can still last for a long time."

Jiang Chen said. Wang Shiyang could still smile at this moment. He was in a relaxed mood and didn't seem to be too worried.

"What does brother Wang think of the current situation? We seem to be on the move. If we don't leave quickly, we don't know where we're going. " Lin Yi guessed that Wang Shiyang probably had some sort of teleportation talisman as a trump card, so he wasn't too worried about the illusionary mist space crack. He decided to test the waters-it'd be best if they could leave immediately.

"Brother Lin is right. We should still be moving through the illusionary fog space crack, and our destination is that illusionary fog space. I've already tried, but the teleportation talisman can't be activated successfully in the crack. If we want to return to the southern island, we can only wait until we reach the illusionary fog space and try to activate the talisman." Wang Shiyang shrugged, indicating that he couldn't do anything about it.

The spirit beasts outside the range of the defensive formation were all killed by the invisible attack. Only Lin Yi and the others were still moving on their own under Wang Shiyang's protection.

Lin Yi extended his spirit sense out of the talisman, trying to catch the trajectory of the invisible attack. He didn't expect his sea of consciousness to hurt, and that part of his spirit sense was crushed.

"This crack is indeed dangerous. If we don't leave quickly, I'm afraid we'll be in danger." Lin Yi held his forehead and shook his head.

Wang Shiyang's expression turned ugly!

Chapter 6199 Life After Death

After the spirit beasts outside had all died, the invisible attacks began to concentrate on his defensive array talisman. In a short time, he had already replaced three array talismans. Although he had brought a lot of defensive array talismans, he was afraid that he would not be able to hold on for long if this continued.

On the other hand, the weaker lifeforms weren't targeted and killed, other than the ones who were caught in the crossfire. Lin Yi suspected that these invisible attacks had their own consciousness or rules, and they targeted the stronger ones first.

However, the power of these attacks was at most at the earth-splitting stage. If there were experts at the sea splitting stage who had accidentally entered the rift in the past, they shouldn't have died there. Or could it be that the power of the attacks had exceeded that of the sea splitting stage with the passage of time?

Before Lin Yi could think too much, the darkness in front of him receded like the tide, and he couldn't see any living things anymore because of the gray-white fog covering the whole world. There was no fog in the defensive talisman, so he could see people around him. Outside the range of the talisman, Lin Yi and the others couldn't see anything, even with their vision.

"We're out of the crack. This should be the illusionary mist space, right?" The smile on Wang Shiyang's face disappeared. He could feel the pressure as well. After leaving the crack, the teleportation talisman in his hand still could not be activated successfully. In other words, he was really trapped in this strange space.

"Brother Wang, how much energy do you use to maintain the formation? We can't be careless here. We have to be careful. " Lin Yi frowned-he couldn't see what was going on around him, and he didn't know where the crack was. The Jade space didn't alert him, but he still felt that something was wrong.

Under such circumstances, Wang Shiyang's defensive talisman was extremely important. Who knew what kind of danger was hidden in the mist?

"After refining a defensive talisman, it only needs a little true Qi to maintain it. However, if you keep it in a defensive state, the talisman itself will be affected. For example, if you keep it in a defensive state for two hours, even though you won't be attacked, you will still lose one chance to defend. That's about it." Wang Shiyang rubbed his forehead and said helplessly.

Although they had brought a lot of defensive talismans, they would not be able to last for more than a few days if they continued to maintain them like this. If they could not figure out the special features of this space as soon as possible, the few of them would eventually die Here.

Lin Yi understood the severity of the situation, but he couldn't think of a good solution at the moment. He extended his spirit sense out of the talisman again, and this time, it didn't break his spirit sense. However, in the gray mist, his spirit sense and eyes were the same-he couldn't find anything useful.

If he'd met someone who was cruel and merciless, he'd throw the Zheng family's two enemies out first to test the waters, or chase away the spirit beasts he didn't know. But Lin Yi was too soft-hearted, after all, and he couldn't do that.

"Let's move first. Standing here won't be of any help. Let's take one step at a time. Perhaps we'll be able to obtain some other gains. " Lin Yi thought about it and suggested an idea that wasn't really a solution.

No one present raised any objections. They immediately chose a direction and began to move carefully.

In the thick grey-white fog, there were slight fluctuations wherever the group passed. Other than that, there was dead silence everywhere. The weak life forms that had survived the crack had also disappeared after entering the illusionary fog space. It felt as if they were the only life forms left in the entire space.

After walking for an hour, Lin Yi stopped helplessly. They couldn't tell the direction at all due to the thick gray fog, and there was no point in walking like this. It was like a person who thought they were walking in a straight line with their eyes closed, but they'd actually deviate from the direction without knowing it. If the place was wide enough, they'd probably end up in a circle.

"Brother Lin, do you have another idea?" The smile on Wang Shiyang's face had already disappeared. The longer this dragged on, the more disadvantageous it would be for him. Once the defensive talismans ran out, even if he could leave the illusionary mist space, he had to hurry back to the East continent. Otherwise, it would be too dangerous for him to stay in the core region of the spirit beast clan with his own strength.

"Brother Wang, you should put down your defenses first. I feel like we won't be able to find a way out under your protection. Only if we're forced into a corner will we have the chance to study the oddities of the illusionary mist space." Lin Yi felt that his decision from the start was wrong. Although it was right to ensure his own safety, it was the same as cutting off contact with this illusion fog space. If he wanted to leave this place, cutting off contact was clearly not right.

Wang Shiyang was a smart person and understood what Lin Yi meant immediately. He didn't waste any time and immediately reduced the range of the defensive formation.

However, he wasn't Lin Yi. Compared to his own life, the others were nothing. The range of the defense talisman didn't disappear all of a sudden, but it was decreasing bit by bit. The first to be exposed was the two Spirit beasts and the two Zheng family members.

Wang Shiyang did this to let these people he didn't care about test whether there was any danger in coming into direct contact with the mist. If there was danger, he would stop shrinking the defensive circle and continue protecting Lin Yi and the others. If there was no danger, he would completely withdraw the defensive circle as Lin Yi said.

Lin Yi didn't notice Wang Shiyang's small movements. After all, he had never touched a defensive talisman before. How could he tell if it took a moment to withdraw it or a little bit? Even if he did, he might not say anything.

Compared to Zhou Zao Yi, LAN Guzha, the big fire Lion, what were Zheng Tianqing and Zheng dongjian? If he was dead, then so be it. He was soft-hearted, but that didn't mean he had the nature of a Saint. He didn't need anyone to teach him how to choose between friends and family and enemies.

As Wang Shiyang retracted the defensive layer, he paid close attention to the two men from the Zheng family and the two Spirit beasts. The gray fog rolled and silently drowned them. Once they were trapped in the fog, Wang Shiyang could no longer see anything. The visibility in the fog was so low that he could not even see his fingers in front of him.

"Hey, are you guys okay?" Since they couldn't see, they could only ask with their mouths. Wang Shiyang wouldn't take the initiative to speak, so it was the remaining spirit beast Masters who spoke.

Chapter 6200 Illusion Fog Space

Unlike the two from the Zheng family, the spirit beast that was trapped in the grayish-white fog still had friends here.

"We're fine, but we can't see anything. It feels like you're far away from us!" The voice of a spirit beast expert came from the mist. It was faint and seemed to be speaking from a very far place.

"Stick together, don't split up!" Lin Yi took out a bunch of ropes and tied Li Zao Yi, LAN Gu Zha, Wang Shiyang, and the fire Lion to them.

Lin Yi didn't know where he got the rope from, but it was made of a good material. Lin Yi couldn't break it even if he pulled at it with all his strength. They were all connected together, and even if they were trapped in the fog, they wouldn't be separated.

He didn't know if the two people and two Spirit beasts really moved away on their own, or if it was because of the thick fog that caused the sound to travel in the wrong direction, but Lin Yi just wanted to make sure that he and the others were safe first.

They weren't weaklings, and they quickly tied the rope around themselves. Lin Yi ran towards the Zheng couple, evidently to make sure they were still there.

Even though they were all connected by a rope, Li Zao Yi was still worried. As soon as Lin Yi moved, she followed him, and then LAN Gu Zha and Wang Shiyang moved as well. They were all in the same boat now, and even if they didn't want to, they had to move as a group.

He didn't even run two steps before he felt his spirit sense loosen up a bit, the range was a few times bigger than before. He could only feel half a meter around him before, but now he could feel three meters around him, the improvement was obvious ...

With the help of his spirit sense, Lin Yi finally confirmed that the Zheng family's two punks and the other two Spirit beast Masters were no longer where they were. They were indeed a little far away when they were talking.

"Be careful not to leave the sight of the people around you. There's something strange about this mist!" Lin Yi turned around and reminded them loudly. Fortunately, his spirit sense was now wide enough to cover most of his comrades. At least they wouldn't disappear for no reason.

After Wang Shiyang removed the layer of defense, the so-called field of vision was a state where one couldn't even see their own fingers when they stretched out their hands. Those who didn't have the ability to use their spirit sense could only stay close to each other. Lizao Yi and LAN Guzha's spirit sense, on the other hand, had recovered a little, but they were more willing to stay around Lin Yi.

"Brother Lin, could this be a huge formation? I wonder if brother Lin has done any research on the array Dao? If there is, let's look for the array base together. " Wang Shiyang was a direct descendant of a talisman clan, so he had some experience in the Dao of formations. He immediately thought of this possibility.

"It's very possible. I've dabbled in array Dao, so I'll need brother Wang's help." Lin Yi said humbly. He really didn't know if this was a formation or not.

Lin Yi had already talked to the ghost before, but the ghost didn't have much of an idea. When it came to formations, the ghost was definitely a master, especially after getting the ten thousand amplification formation. He was starting to walk out of his own path of formations, and there weren't many people in the entire Sky Class Island who Lin Yi thought were better than the ghost.

Lin Yi didn't think that he'd make any progress with Wang Shiyang since he couldn't even figure out what was going on. He could only hope that he'd be lucky enough to find some key clues.

Wang Shiyang got closer to Lin Yi and ordered the rest of the spirit beasts to form a circle around the four of them. This would protect them from the outside world and also reduce the area covered by the fog. This formation was much better than moving in a long line.

After taking a few steps, one of the spirit beast Masters suddenly said, ""Do you guys smell something?"

"What's that smell?" LAN Guzha sniffled hard. He thought that something delicious had appeared nearby. As a foodie, it was absolutely intolerable that he could not smell the delicious food that had appeared at the first moment. To put it more seriously, it was a disgrace!

Unfortunately, the grayish-white fog did not only affect everyone's vision, but also their sense of smell. No matter how hard LAN Guzha twitched his nose, he could only feel a moist feeling filling his nose. Other than that, he found nothing else.

The spirit beast expert sniffed a few more times with uncertainty. "I don't know, but I'm sure that there's a different smell in the mist. It's very faint, and if you don't pay attention, you won't be able to notice it."

"He has the best sense of smell in our team, so it shouldn't be fake." The fire Lion leaned in and reminded Lin Yi.

Lin Yi raised an eyebrow. Since the fire Lion said so, it meant that this spirit beast master's nose was trustworthy. The illusion fog space was the same everywhere, and any clue was precious. He couldn't let it go.

"Can you find the source of the smell? Perhaps this is our chance to escape!" Lin Yi didn't think they'd be able to leave the illusion fog space that easily, but it was better to have some changes than to just walk around without any clue.

"I can't be sure, but I can try my best!" The spirit beast Master also understood the current situation. Even without Wang Shiyang's threat, he would try his best to find a way to leave.

For so many years, no one from the spirit beast clan had ever been able to leave the illusionary fog space. If he could leave, it would definitely be a great achievement!

However, it wasn't easy to find that faint smell in the fog. The spirit beast Master sniffed at the same place for the time it took for an incense stick to burn before he finally chose a direction and began to slowly move.

"Brother Lin, you're the best. If we had stayed in the defensive layer, we would never have been discovered by this smell!" Wang Shiyang whispered to Lin Yi. At first, he thought highly of Lin Yi and lizao Yi's skills in refining, but now he felt that even if Lin Yi wasn't a genius, he was still worth the effort to make friends with.

With the right opportunity, someone like Lin Yi would definitely soar to the top. It wouldn't be easy to become Lin Yi's friend then.

"Brother Wang, we can't be careless. We have to be more careful. I still feel that this fog is not that simple. Please prepare your defensive talisman at any time. If there are any abnormalities, immediately activate it." Lin Yi said seriously, still worried about lizao Yi.

LAN Guzha and the great Fire lion's physical bodies were extremely tough. If any accident were to happen, they could at least resist for a while. They could only remember it immediately. If there were any changes, they would not be able to resist it for a while.
