Chapter 6201 Illusionary Mist's Legend

"Brother Lin, don't worry. I will be careful!" Wang Shiyang patted his chest confidently.

With the few of them gathered together, it was very easy for them to protect each other. The defensive talisman could be activated instantly, so Wang Shiyang was not worried that he would not be able to react in time.

"Everyone, pay attention. The smell is becoming clearer. However, it seems to be mixed with a faint smell of blood. There might be some danger!" The spirit beast expert lowered his voice and turned around to give a warning before carefully moving forward.

Lin Yi and the others felt a chill in their hearts. They had been in the illusionary mist space for so long, but they had not encountered any real danger. The only strange thing was the disappearance of Zheng Tianqing, Zheng dongjue, and two other spirit beast Masters. Now, there was the smell of blood. Had they finally come to the dangerous area of the illusionary mist space?

Because of this situation, everyone subconsciously kept silent, afraid of disturbing the feeling of the spirit beast Master. Lin Yi also tried to extend his own spirit sense, but the further he went, the more his spirit sense started to shrink. Although it was small, it really happened!

Lin Yi wasn't surprised, he was happy. His spirit sense was compressed again, which meant that they were moving in the right direction. He wasn't afraid of danger now, but he was trapped in that endless grey mist. It didn't look like there was any danger, but this situation was like boiling a frog in warm water. When you finally reacted, the situation might already be beyond saving.

A variable! Although it was uncontrollable, it might not be a bad thing! Lin Yi was looking forward to the change-no matter what the result was, he had to rely on hope and danger to break out of this.

"Danger and opportunity coexist! Everyone, keep your spirits up. Perhaps we'll be able to leave this damned illusionary mist space very soon!" Lin Yi didn't encourage everyone loudly, only using his voice to boost the morale of his comrades.

"Don't worry, boss. I've always been very energetic!" LAN Guzha answered frankly. Generally, danger meant that there was a fight to be fought. It would be strange if he was not in high spirits!

Li Zao Yi only smiled and didn't say anything. As long as Lin Yi was by her side, she would naturally feel at ease, so she didn't need his encouragement.

Lin Yi gave LAN Guzha a big thumbs up to show his appreciation before turning to the fire Lion, "Do you have any understanding of this illusionary fog space?"

Lin Yi had already asked this question when they were in the fog, but the spirit beast Masters didn't give him any useful information. Seeing that they were about to meet with danger, he could only place his hope on the big fire Lion.

"I really haven't heard of this illusionary mist space. Otherwise, I'd definitely tell you, benefactor!" The fire Lion lowered his head in shame, thinking that he couldn't even help Lin Yi with such a small thing. How could he repay him? He was really ashamed to death!

"You can secretly inquire about this information from the experts of the spirit beast clan. Perhaps they are afraid of my identity as a human, so they are not willing to say it out loud. If you ask them, it will be

completely different." Lin Yi sent a message to the fire Lion, hoping that it could gather some information for him.

It didn't matter what kind of information it was, even if it was just a rumor. It was better than not knowing anything at all. Lin Yi couldn't even prepare himself when facing unknown danger.

The fire Lion agreed. He was the happiest to be able to help Lin Yi. The other spirit beast Masters didn't have a good relationship with him, but that was in the past. After this life and death experience, everyone naturally felt close to him.

The Great Fire Lion felt that no one would refuse to give him face if he asked for some non-confidential information.

After choosing the spirit beast closest to it, the Great Fire Lion started asking around for information about the illusion fog space. After a while, it changed to another spirit beast and repeated its actions and words. After a comprehensive selection, it told Lin Yi the results.

"Benefactor, they don't know much about the illusionary mist space either. After all, none of those who entered have ever come out. Their so-called knowledge is mostly just their own conjectures." The fire Lion was a little regretful. This was obviously not the result he wanted. It was rare for Lin Yi to ask him to do something, but there was no progress. Instead, he was in trouble.

"It doesn't matter. Whether it's true or false, whether it's a speculation or a lie, as long as it's information, just give it to me. I'll be responsible for distinguishing the truth from the lies!" Lin Yi was secretly happy. He was most afraid of no news at all. If there was News Now, the result would be good no matter if it was good or bad.

"Yes! According to the legends of the spirit beast clan, this illusionary mist space is actually a place where a giant beast is suppressed. This giant beast is extremely powerful. Although it's imprisoned, it can turn the cage into an independent space. Other than protecting itself, I'm afraid it's also trying to seize the opportunity to plunder life energy. " At this point, the Great Fire Lion couldn't help but pause for a moment. He thought of the spirit beasts that had been trapped in it for countless years. Most likely, they had all become the energy of that giant beast!

"You mean, that ancient beast relied on killing to maintain its life? Or is he directly using the method of devouring life to obtain energy?" Lin Yi didn't know if the rumor was true or not, but if it was, then they were in grave danger.

"That's probably what it means. After all, it's just a legend, and there are many details that can't be verified. They can't even give us a general idea, so we can only rely on our own imagination to make up for it." The Great Fire Lion shrugged helplessly. What he was worried about now was whether the smell of blood was left behind by the ancient giant beasts.

If they followed the smell, they might end up as food for themselves. Being swallowed by the ancient beast in one gulp was too aggrieving a death.

"You said that the illusionary mist space is just a cage that imprisons ancient beasts. That's a little believable. Zheng Tianqing and the others were brought away from us as soon as they entered the mist. But I don't think it's realistic for the ancient beast to change the cage into its own space. If it could do that, it would've left the illusion fog long ago and returned to the Sky Class Island. " Lin Yi pinched his chin and thought for a moment before shaking his head and explaining his analysis.

"You're right, brother Lin. If that ancient beast really does control the illusion fog space, it'll be easy for it to return to Sky Class Island. This kind of existence was extremely powerful in ancient times, and if it appears in this era, no one on Sky Class Island will be its opponent. If it wants to use slaughter, devour,

or some other means to achieve its goal, it should be easy. There's no need to continue staying here. " Wang Shiyang nodded in agreement.

Chapter 6202 He Was Poisoned!

"Lin Yi, can you tell the team to stop first? if the smell is coming from the ancient beast, it'll be dangerous for us to continue our search." It was rare for Li Zao Yi to open her mouth, but the opinions she raised were very pertinent.

"There's no need for that. We don't have any other methods at the moment. We can only take the risk and see if there's any turning point. Even if we encounter a legendary beast, we might not necessarily die!" Lin Yi smiled and waved his hand, telling her not to worry.

The spirit beasts who knew about the legends didn't stop, so Lin Yi didn't have to worry. Legends were just legends, and not many people in the spirit beast clan would believe in the truth. It was because of this that these spirit beasts were very brave.

Lizao Yi nodded slightly and didn't say anything else. She would support Lin Yi's decision unconditionally. Plus, what he said made sense. Staying in the same place wouldn't change the situation at all. They'd just be trapped here. It was better to find some changes. It didn't matter if it was good or bad, it was better than this.

"Great Fire Lion, have you found out what that ancient giant beast is? If I knew its true form, I would be able to prepare myself even if I were to encounter it. " Lin Yi was still worried about the legend of the ancient beast and hoped to get more information.

"I'm sorry, that's all I can find out. There's nothing else. " The Great Fire Lion was a little ashamed, even though it was not his fault.

"No need to apologize. It's already good that you've asked so much. At least we have a direction of suspicion and know that we might be facing an ancient giant beast." Lin Yi smiled and patted the lion's shoulder.

While they were talking, the spirit beast leading the way suddenly froze and fell straight down. In an instant, it lost all signs of life. It had actually died inexplicably!

Lin Yi, who had been using his spirit sense to observe the situation, was shocked. His hair stood on end, but the Jade space didn't give him any warning. Perhaps the danger wasn't directed at Lin Yi himself, so this situation appeared.

"Be careful, everyone!" Lin Yi could only remind him. He didn't know where his opponent was, so he couldn't do anything.

In fact, Lin Yi didn't need to say anything-the spirit beasts at the side felt it immediately when the spirit beast in the lead died. They were in a defensive position before Lin Yi even spoke, but it was all foggy and they didn't know which direction to defend. They could only stay close to each other and back to back to minimize the angle they had to face.

Wang Shiyang's reaction was extremely fast. As soon as he noticed that something was wrong, he immediately expanded the defensive talisman and enveloped everyone in it. The fog in the middle was affected by this and was all expelled out. Everyone's vision became clear, including the body of the dead spirit beast expert.

"Brother Wang, thank you for your hard work!" Lin Yi nodded to Wang Shiyang. It was indeed much safer with him around.

Wang Shiyang waved his hand and didn't say anything else. He followed Lin Yi to the beast's body and started examining it.

There weren't any obvious injuries on the spirit beast's body, and Lin Yi scanned it with his spirit sense, finding nothing unusual.

"Brother Lin, do you see anything? How did he die?" Wang Shiyang furrowed his brows slightly. Fear was born from the unknown. This was an emotion that everyone could not avoid.

An expert had died so inexplicably. If he didn't even know how he had died, who knew if he would be killed in the same way? Even though Wang Shiyang had a defensive talisman to protect him, he wasn't sure if the talisman would be able to defend against such a strange attack.

"It's very strange. There were no wounds on his body, and he died so suddenly, but the people around him were not affected. Before this, we did not find anything unusual. The most reasonable explanation is that something happened to his body, which led to his sudden death!" Lin Yi said as he raised his head to look at the spirit beasts on both sides of the dead spirit beast. He didn't see anything strange.

From the way the body died, Lin Yi thought that it looked like the soul Reaper hand had taken away the body's essence. However, even though the body looked dead, it still had life. As long as the essence returned, it could be revived immediately.

But now, the spirit beast's corpse was really just a corpse. It didn't even have a trace of life. This wasn't what it looked like when the primordial spirit had left the body.

Other than that, there was the possibility of death from poisoning. There were no signs of poisoning on the surface, but Lin Yi knew that there were many poisons that could do that.

Just now, he had observed the spirit beasts on both sides to see if they had any symptoms of being poisoned. If they had been poisoned, there shouldn't have been only one. It was very likely that both of them had been poisoned.

"He died on his own? There should at least be a process, right?" Wang Shiyang shook his head, he knew that Lin Yi was just saying it casually.

Li Zao Yi squatted down. She didn't mind the ugliness of the corpse. She reached out and looked at the eyelids, lips, fingers, etc. As a brilliant doctor, it wasn't difficult to determine the cause of death from the corpse.

After a moment, Li Zao Yi stood up, her pretty face extremely serious. It was unknown what she had discovered.

"It's not that there's something wrong with his body, he died from poisoning! However, this isn't a simple case of poisoning. The cause is a little complicated, and I can't be sure at the moment. I need to sort out my thoughts." Li Zao Yi looked at Lin Yi and explained the situation to him.

The surrounding people and spirit beasts were all shocked. Everyone had been together the whole time, and since this guy was poisoned, then they were most likely poisoned as well. However, they did not notice anything unusual, which showed the horror of this poison.

Looking at the corpses on the ground, the remaining spirit beasts felt a chill run down their spines. The poison that could not be discovered at all could be fatal in an instant once it took effect. It was impossible for them not to be worried!

"If he was poisoned, then it must be the smell he smelled before!" Lin Yi thought about it and came to a conclusion, "Among all of us, only he smelled it. Maybe that's the cause of the poison. Although we're all together and breathe the same air, I think the poison should be transmitted through smell. The better the sense of smell, the higher the probability of being poisoned. So, there's a high chance that the rest of us are not poisoned."

Although Lin Yi's intention to calm people down was obvious, the effect was still very good. At least the spirit beasts' faces looked a lot better. They thought that Lin Yi was right, but they didn't know that he was just saying that he could pass the poison through the smell.

Chapter 6203 A Strange Place

Lin Yi was an expert when it came to using poison, but he'd never heard of this method of poisoning. It was possible to pass the poison through the air, but smell? The smell was also transmitted through the air. There was no reason that those with a good sense of smell would be poisoned, and those with a bad sense of smell would not be poisoned. Could the poison in the air have such intelligence?

"Brother Lin, what should we do next?" Wang Shiyang had started to rely on Lin Yi's judgment unconsciously. After all, he was still inexperienced and his mind would be in a mess when he encountered something strange.

"Continue forward!" Lin Yi pointed in the direction they came from—there was no turning back now, and staying here was just a way to survive. Rather than waiting for death, he'd rather die and live!

The only thing they had to worry about was whether they would be able to find the right place after losing the spirit beast that had led them there.

Without a guide, it was easy for people to get lost in the thick fog and end up going in circles.

No one questioned Lin Yi's words. The remaining spirit beasts also believed that following Lin Yi and the humans was the right thing to do. So, the group quickly set off again, moving forward in the direction they had come from.

As for whether or not they would deviate, it was no longer something they had to consider. At this point, they had to rush forward even if they had to close their eyes.

Fortunately, they didn't walk for long this time. In just a few seconds, they rushed out of the fog. As their vision cleared, dozens of invisible attacks suddenly descended. Wang Shiyang's defensive talisman flickered rapidly and was destroyed in an instant.

If it wasn't for the fact that the backup defensive talismans were also instantly activated, they might have been finished the moment the defensive layer was destroyed.

Wang Shiyang's face turned pale. The speed at which the defensive talismans were being used up had far exceeded his expectations. In just a breath's time, more than half of the reserves had been used up. If this continued, he was sure that everyone would die!

When the danger arrived, Wang Shiyang couldn't care about everyone anymore and reduced the defensive range of the formation by half. At least he still had a conscience. Lin Yi, the other two and the fire Lion were still inside the defensive layer, while the rest of the spirit beasts were completely exposed.

Wang Shiyang chose to abandon these useless spirit beasts as soon as possible. Once he felt that he couldn't hold on any longer, Lin Yi and the others might be abandoned as well.

The power of those invisible attacks was close to that of the initial stage of the earth splitting realm. Therefore, the spirit beasts who were exposed to the attacks couldn't resist at all and were killed on the spot.

Lin Yi's face was extremely serious-he was prepared to be abandoned by Wang Shiyang, and he couldn't blame anyone for this. It was already hard enough for Wang Shiyang to continue protecting them in this life-and-death situation. A more selfish person would've just reduced the defense to the surface of their body-this way, not only would they save on the consumption of talismans, but they could also use the others as a shield.

In fact, Wang Shiyang was hesitating as well. He didn't know if he should abandon Lin Yi and the others. If he had the array talismans, he would be able to last much longer, but if he was the only one left, he didn't have the confidence to escape.

Because of these concerns, Wang Shiyang finally decided that he would live and die with Lin Yi and the others. As long as he could escape this, these two genius alchemists wouldn't just owe him A Simple Favor!

That was a true life-and-death friendship!

Wang Shiyang was prepared to be torn apart by an invisible attack when the last defensive talisman was used up and the defensive layer shattered. He did not expect that nothing would happen even after he closed his eyes and waited for a few breaths.

"The attacks have stopped!" Lin Yi let out a long breath, feeling like he'd just survived a disaster.

"We survived?" Wang Shiyang still couldn't believe it. He felt so dizzy that he couldn't think normally.

The rapid consumption of the defensive talismans had Wang Shiyang's nerves stretched to the limit, and when the last defense was broken, his nerves snapped. Although Wang Shiyang was much older than Lin Yi, he was still a direct descendant of the Wang family, and he had always been cultivating in the family. He was thousands of miles away from Lin Yi in terms of experience, and this performance was already pretty good.

"It's all thanks to brother Wang this time. If you hadn't blocked the attack, we would all be dead!" Lin Yi thanked him from the bottom of his heart—he might not have been able to survive without Wang Shiyang, but the others all had a 99% chance of dying.

"No, no, it's what I should do. It's good as long as everyone is fine!" Wang Shiyang came back to his senses and waved his hand with a smile. However, he was already on the verge of tears. He had brought so many defensive array talismans with him when he came out, but he had used them all up in one go. What was he going to do after this?

Usually, one could use teleportation to avoid many dangers, but it was obviously not possible here. If one teleported out and avoided danger once, who knew if they would directly fall into an even more dangerous situation when they came out?

"Eh, where are LAN Guzha and the big fire Lion?" After Wang Shiyang finished speaking, he realized that there were two people missing from the scene. The ropes that were tied to them had fallen to the ground.

"I don't know. This place is too strange! We need to be more careful. " Lin Yi shook his head-he was lying through his teeth.

LAN Guzha and the great Fire Lion were, of course, kept into the Jade space. They were a sea beast and a spirit beast, so they would not be rejected by the Jade space. This was the best way to save them.

It was a pity that lizao Yi couldn't get in, or Lin Yi would definitely put her in.

Wang Shiyang was being very honest with Lin Yi, but the Jade space was too important for Lin Yi to tell him.

"It disappeared again? This place was really strange! Brother Lin, what do you think we should do next?" Wang Shiyang did not suspect him. There had been cases of the Zheng family's two men and two Spirit beasts disappearing before, so LAN Guzha and the great Fire lion's disappearance was much more normal.

"There's a huge Lake over there. Let's go and take a look!" Lin Yi pointed to the front-the grey mist was rolling behind them, but it was blocked by an invisible wall. They couldn't cross the line at all, and their vision wasn't affected at all.

Looking at it, the wall of mist was in a circular shape, probably forming a huge circle, and the center of it was the huge Lake in front of him. Unfortunately, Lin Yi's vision couldn't see the boundary, and his spirit sense was suppressed, too. He couldn't extend too far, but it was much better than the mist.

Chapter 6204 Crescent-Shaped Wind Blade Attack

Wang Shiyang turned around and looked at the man with a vigilant expression. He had never lost the protection of the defensive talisman before, so he kept reminding himself to be careful.

The three of them kept their guard up and started moving towards the lake. It wasn't far from the wall of mist to the lakeside, only about two hundred meters. Lin Yi's spirit sense could cover a three hundred meter radius, so he could see the lakeside quite clearly and didn't find anything unusual.

However, after entering the illusionary fog space, even though so many spirit beasts had died, they had not discovered anything unusual. Therefore, this was not an excuse to relax. The two hundred meters distance took the three cultivators, who were at least at the mysterious Ascension stage, seven to eight minutes to cover.

"Brother Lin, don't you feel that this Lake is very strange?" Wang Shiyang stood by the lake and peeked into the water. He still felt uncomfortable.

"Indeed. Look at the lakeshore. There's no vegetation at all. It's just bare soil. Normally, there will always be plants growing near the water source. The current situation can only mean that there's something strange about this Lake!" Lin Yi nodded in agreement and sent his spirit sense into the water.

Unfortunately, this lake water had a stronger restriction on spirit sense. Lin Yi lost his ability to continue after going ten meters deep into the lake. He couldn't see anything at a depth of ten meters, not even how deep the lake was.

"Should we go into the water to take a look or move along the lake? Maybe we'll find some clues. " Li Zao Yi's spirit sense was a lot weaker than Lin Yi 's, and he realized that he couldn't detect the lake water, so he wanted to go into the water.

The current situation was very clear. There was definitely something wrong with this Lake. If the legends of the spirit beast clan about the ancient giant beast were true, this could very well be the place where the giant beast lived. If one wanted to leave the illusionary fog space, they would definitely not be able to avoid it.

Lin Yi looked at the calm surface of the lake and decided to look around on the shore first after some hesitation. Without the fog, they could at least figure out the terrain first, and it would be more confident to go into the water when they had more or less information.

So the three of them started walking along the shore when they were three or four steps away from the shore. This time, the three of them were much faster. They could move dozens of meters in every breath.

Of course, this was not their fastest speed. In order to cope with any possible changes, the three of them had reserved enough strength.

After a few thousand meters, the invisible attacks came again. Lin Yi's spirit sense could barely follow the trajectory of these attacks, and he knew that Wang Shiyang no longer had any defensive talismans. He didn't dare to hold back and sent out a few lightning arcs. Although they couldn't destroy the attacks, they changed the direction of the attacks and brushed past the three men.

"Retreat!" Lin Yi let out a low roar and released a Dragon-shaped five elements killing intent, circling around the three of them at high speed. It could barely be considered a form of defense.

Wang Shiyang and Li Zao Yi didn't dare to slow down and followed Lin Yi closely. They burst out with their full speed and retreated a few hundred meters in an instant. The invisible attack seemed to have an area of effect and didn't follow up.

"Brother Lin, it's all thanks to you this time!" Wang Shiyang couldn't help but feel scared after he stood still. He might be stronger than Lin Yi, and the strength he could unleash with the talismans was far beyond Lin Yi's, but he didn't have much actual combat experience. If it weren't for Lin Yi, he would've been killed already.

Wang Shiyang was glad that he chose to stand with Lin Yi when he still had the defensive talisman. He would've died without a doubt if he used up all the talismans by himself, but at least he had some hope now.

"Brother Wang, you're welcome. You've helped us many times. We're brothers, so there's no need to say more!" Lin Yi waved his hand and narrowed his eyes, extending his spirit sense to where the battle had taken place.

Lin Yi discovered something from the previous attacks-those invisible attacks weren't really invisible. To be more precise, they were shadowless, invisible to the naked eye but able to be caught with spiritual sense.

Lin Yi was sure that those attacks were half-moon shaped wind blades that were about half a meter long. They were formed after the air was compressed to the extreme, and they were extremely sharp. They could easily kill practitioners under the ground creation stage.

Lin Yi didn't find the source of the half-moon wind blade in a rush, so he wanted to use his spirit sense to find it. If he knew where the source was, he'd be much safer and wouldn't have to worry about being ambushed again.

"Brother Wang, Good Morning. You guys wait here for a while, I'll go over and take a look! Pay attention to your surroundings!" Lin Yi couldn't find anything after a while, so he decided to go back and take a look again. He wanted to take a few more attacks and find the source of the attack.

"Lin Yi ... Be careful!" Li Zao Yi called out to Lin Yi, hesitating to say something. In the end, he didn't say anything more.

Wang Shiyang's face was bitter, not knowing what to say. He didn't want Lin Yi to take the risk. It wasn't that they were close, but he didn't think he could do as well as Lin Yi in this illusionary mist space. If something happened to Lin Yi, he would be dead too.

But now that Lin Yi wanted to take the risk, Wang Shiyang couldn't object. Lin Yi must have his reasons for making a decision, and it might be the best decision he could make right now. In the end, he could only tell Lin Yi to be more careful.

It was only a few lightning arcs, but they missed the crescent-shaped shadowless wind blades. Lin Yi was confident that he could escape unscathed. As for finding the source of the attack, it would depend on luck. Other than that, Lin Yi also wanted to test if there was really a limit to the area of attack.

A few hundred meters of distance was crossed in an instant under Lin Yi's intentional acceleration, and he arrived at the location where he was attacked. The invisible wind blades descended again, but what Lin Yi didn't expect was that the number of wind blades this time was far more than before.

The three of them had only suffered seven or eight attacks before, but this time, Lin Yi alone was surrounded by hundreds of attacks. Perhaps it was because the three of them had escaped, but the attacks on Lin Yi were ten to twenty times stronger.

Facing so many wind blades, Lin Yi immediately gave up on the idea of using lightning arcs to miss the attack. No matter how he missed, there would be more attacks coming, and the wind blades might miss a second time after being hit, making it harder to block.

Chapter 6205 Color-Changing Spirit Beast

Lin Yi couldn't release too many lightning arcs at once, unless he used something like lightning explosion to hit hundreds of wind blades off course. Unfortunately, the attacks came too fast, and it was too late to use lightning explosion.

He couldn't block it, so he could only Dodge! With a flash of lightning, Lin Yi slipped through the wind blades "encirclement and temporarily escaped the fate of being cut into pieces. He used this opportunity to scan the entire area with his spirit sense, searching for any suspicious places.

His spirit sense was filled with hundreds of shadowless wind blades, so he didn't have the energy to find where the wind blades came from. Now that he finally found some space, he found something!

Near the shore, there was a small bump in the soil-it looked like a small mound if one didn't pay attention. Lin Yi used his spirit sense to check it out and realized that it was a small spirit beast.

Lin Yi had never heard of this spirit beast before. It lay on the ground, its body color blending into the soil. It didn't look out of place at all. After realizing that Lin Yi had dodged the attack, it moved a little, and the shadowless wind blades suddenly turned back and closed in on Lin Yi again.

Lin Yi guessed that this was its limit, or it would've continued until it covered the entire area.

This also explained why Wang Shiyang and the others were fine after their defensive talismans were used up. It was not because the other party was being merciful, but because their offensive power had also been used up and they needed to recover.

"Little thing! You still dare to be so arrogant after being discovered by me!" Lin Yi smiled and continued to activate his lightning escape. He instantly appeared next to the spirit beast and enveloped it with his spirit sense Whirlpool, followed by the Dragon-shaped killing intent.

Don't blame Lin Yi for making a big move-this was a spirit beast that could release earth formation stage attacks. Although in Lin Yi's eyes, it was only in the mountain opening stage, but that didn't make him relax.

The speed of the Thunder escape technique was comparable to teleportation. The spirit beast didn't expect to be discovered so quickly. Before it could react, the spiritual awareness Whirlpool had already landed on its head. However, the spiritual awareness Whirlpool that was enough to tear the primordial spirit apart had no effect on the spirit beast. It was like a breeze, not leaving a trace.

"Eh? There was no trace of primordial spirit defensive tools, but he took a spiritual awareness Whirlpool head-on. Could it be that there was a cultivation method in this area? Or does this spirit beast not have a primordial spirit at all?" Lin Yi was surprised, but his hands didn't stop. The Dragon-shaped killing intent landed on the spirit beast's body.

The spirit beast, which was motionless under the whirlpool of spiritual awareness, suddenly let out a shrill scream. For a moment, its bones and flesh were separated, and blood splashed. Compared to the powerful attack, its defense was really not worth mentioning ...

Lin Yi thought that the spirit beast's body was extremely strong, so he specifically increased the Dragon's five elements killing intent. He didn't think that one move would turn the spirit beast into ashes.

This was awkward. Lin Yi wanted to capture it alive for questioning, but now it was difficult to even find its mouth in the pile of meat. He should answer his own questions ...

With the death of the spirit beast, the hundreds of menacing shadowless wind blades suddenly lost control and scattered in the air, no longer posing any threat.

Lin Yi didn't dare to let his guard down, his spirit sense still covering the area, afraid that there were other spirit beasts hiding nearby and preparing to attack. Although he guessed that there should only be one Spirit beast like this in this area, it was always good to be careful. There was too little information, and it was normal to make mistakes.

Seeing Lin Yi standing still, Wang Shiyang and Li Zao Yi guessed that the battle was over and ran over.

"Brother Lin, what did you kill?" Wang Shiyang didn't need to teleport-he was fast enough to reach Lin Yi's side in the blink of an eye, examining the pile of minced meat curiously.

"It's a spirit beast. The color of its body is very similar to the soil by the lake, so it's hard to find. Its strength should be around the middle stage of the beginning stage, but its single attack has reached the early stage of the earth splitting realm. However, its defense is very weak. Let alone spirit beasts of the same level, it's much weaker than ordinary human cultivators at the early stage of the mountain splitting realm. " Lin Yi didn't hide anything and told Wang Shiyang what he saw. With Wang Shiyang's strength, he could easily kill this type of spirit beast if he found it.

Even if Wang Shiyang didn't have a defensive talisman, he could still teleport and survive.

"Lin Yi, this thing's body color changes on its own, it's not completely the color of the earth. Don't be careless!" Li Zao Yi followed closely behind and heard Lin Yi's words, but after seeing the pile of meat, he immediately raised a different opinion.

"It can change color? Like the chameleon?" Lin Yi blinked-he hadn't noticed that at all. After listening to what Li Zao Yi said, he looked at the skin tissue in the pile of minced meat-the color had changed, and it wasn't the same as the soil by the lake.

If he focused all his attention on the soil by the lake, he might be attacked again. This kind of spirit beast that could change its skin according to the surrounding environment was indeed difficult to guard against, especially when they could perfectly hide their aura. They were really natural assassins!

"As expected. When we move forward, we must pay more attention to the surrounding protrusions. Don't look down on these small things, their lethality is not small at all!" Lin Yi nodded to Li Zao Yi and scanned with his spirit sense a few more times. After making sure that there were no other spirit beasts here, he told the two to continue their journey.

"When we first came in, we were attacked in the same way. There should be a similar spirit beast there. Then, after several thousand meters, we were attacked by a second spirit beast. In other words, these several thousand meters are the first spirit beast's active area. The second spirit beast should be waiting for us at the edge of its active area. Otherwise, it would not have given up on chasing us when we retreated." Lin Yi analyzed the situation with the two as they walked. If they were right, they should be safe for now. They had to walk at least a few thousand meters before they could enter the next spirit beast's territory.

"Lin Yi, you said that these spirit beasts are all of the same kind, so why do they have to separate into different regions? If they gather together and attack us at the same time, I'm afraid they can kill us in an instant, right?" Li Zao Yi also joined in. There were some things that needed to be discussed with each other to eliminate the blind spots of thinking.

Chapter 6206 The Giant Frog

"Brother Lin, could it be that these things were created by the ancient beast? Each region is actually the guard of this region?" Wang Shiyang also had his own thoughts, and what he said made sense.

"What brother Wang said is very reasonable. If these spirit beasts are really guards, then we're in big trouble. I've killed one of the guards, and I'm afraid that more guards will come to support us soon. I hope that things are not like this." Lin Yi said with a smile before his face changed.

Many times, things were like this-the good didn't come true, and the bad came true. Just as he said there would be more spirit beasts coming, Lin Yi's spirit sense detected even more!

Now, the range of his divine sense was less than three hundred meters, so when he found the group of spirit beasts, he was naturally within three hundred meters. For the spirit beasts in the mountain opening stage, this distance could be covered in a breath's time. It was not a problem at all.

The worst thing was that this time, the three of them had been surrounded. Not only were there some in front of them, but there were also some behind and on the sides. They couldn't be seen clearly with the naked eye, but their divine senses could detect their movements. In terms of numbers, there should be more than eight hundred of them. Where did they suddenly come from?

"Get into the water immediately!" Lin Yi made a quick decision and pulled Li Zao Yi to the only opening.

These spirit beasts didn't seem to have strong defenses, and one Thunder explosion could probably kill them all, but Lin Yi didn't dare to take the risk. These little things' attacks were too strong, and one of them could release up to a hundred shadowless wind blades. Eight hundred of them would be around eighty to ninety thousand shadowless wind blades. In such a small area, this number covered almost all of them. No matter how strong the Thunder explosion was, it couldn't break through the dense group of wind blades. After all, every wind blade was a wind blade. They were both at the initial stage of earth splitting!

Lightning escape and teleportation were indeed life-saving skills, but facing such a concentrated attack, as long as they didn't leave the area, they would die without a doubt. Not to mention, Lin Yi had to ensure Lizao Yi's safety, so even though he knew it would be dangerous to go into the water, he had no other choice!

Wang Shiyang wanted to cry but had no tears. He clearly had the teleportation talisman, but he couldn't activate it here. It could only be used as a decoration. If he could go back, he would definitely have a good talk with the old guys in his family. Couldn't they make this kind of life-saving thing more reliable?

As soon as the three of them moved, countless shadowless wind blades flew over. Fortunately, they were only two steps away from the lake. After a series of plops, they were already submerged in the lake and quickly sank.

The shadowless wind blades followed closely behind, breaking the surface of the water and shooting into the lake, but they couldn't do anything to Lin Yi and the other two. These wind blades only went five meters deep into the water and couldn't go any further.

Lin Yi pulled Li Zao Yi and swam horizontally nine meters under the water with Wang Shiyang. Before, his spirit sense could only detect ten meters under the water, so he didn't dare to go any deeper than nine meters. In order to avoid the attacks from behind, moving horizontally was a very wise choice.

When he realized that the shadowless wind blade could not go more than five meters deep, he immediately waved his hand to signal Wang Shiyang to stop. The lake was also filled with a strange atmosphere, so it was better to remain calm for the time being.

Wang Shiyang nodded in the water and tried to control himself to stop. However, his body was suddenly pulled by a huge force, and he could not stop at all. He shot out with a whoosh toward the center of the lake.

Lin Yi and Li Zao Yi were shocked, and they felt the huge pulling force as well, and they couldn't help but follow Wang Shiyang.

If he let go of Fang Zao Yi, Lin Yi might be able to use his lightning movement and ghost speed wings to resist the pulling force, but he obviously wouldn't do that even if he was killed. Moreover, he already considered Wang Shiyang as a friend, and naturally, he couldn't just stand by and watch him get into danger.

Helplessly, Lin Yi could only go with the flow, giving up on resisting and following behind Wang Shiyang with Li Zao Yi. At least the three of them were still within his sight and there was no danger of being separated.

They didn't know how long they had been pulled in the water. When the three of them finally stopped, they felt dizzy and couldn't tell North from South. After a while, they became a little more awake.

"How rare. It's the first time in so many years that I've seen a human brat come to the illusionary mist space!" The three of them had just felt better, but before they could look around, they heard a thunderous voice.

Lin Yi subconsciously released his spirit sense and realized that the three of them seemed to be under the lake. There was a water curtain above their heads, but it was blocked by the restriction, making the bottom of the lake a huge waterless space.

This huge space was mostly filled with a huge frog-like creature. It was the frog that had just spoken.

Lin Yi was speechless as he looked up at the mountain-sized frog. Was this the legendary ancient beast? It was huge, but it didn't seem to fit the standard of a beast.

"Little human, the strength of your soul consciousness is not bad! It's not easy to have such a strong spiritual sense under such strength!" The giant frog continued to roar and speak, causing the eardrums of the three people to buzz.

The frog didn't say whose spiritual sense was strong, and the three thought it was referring to themselves. Lin Yi didn't need to be mentioned, and Li Zao Yi's spiritual sense was also quite strong. Other than Lin Yi, ordinary earth stage cultivators might not have a stronger spiritual sense than her.

Wang Shiyang was a family of ancient talismans, so he was well aware of the importance of the divine sense. Therefore, he had already begun to cultivate the divine sense before he had even entered the mountain-opening stage. Among those of the same rank, the divine sense was definitely extremely powerful. Unfortunately, he thought that his divine sense was the strongest among the three of them, but he didn't know that he had encountered two freaks. Not only was he not the strongest, but he was also the weakest of the three ...

"Senior, can you lower your voice?" Lin Yi raised his head with a bitter face. This kind of Thunder-like voice was hard to accept.

Wang Shiyang was shocked. This was an ancient beast! Was it really appropriate to talk to an existence that could turn them into ashes with a casual breath?

"Hahaha, this little guy is quite courageous. Not bad, not bad!" The giant frog laughed out loud, and the entire space at the bottom of the lake was filled with Thunder. Lin Yi was worried that the restriction at the bottom of the lake would collapse.

The crisp clanking of chains could be heard amidst the giant frog's laughter. Only then did Lin Yi and the others notice that there were two giant black chains piercing through the frog's body. One end was in the ground, and the other end was in the lake. They didn't know where the end was.

Chapter 6207 I'm Looking For You

When it was still, the black chain was not particularly conspicuous due to the lack of light. However, when the giant frog moved, it caused the chain to fluctuate violently. The friction in its body made people's teeth ache, and it was painful to hear it, but it seemed to be used to it.

"It seems like the legend is true. This is the cage that imprisons it!" Lin Yi said to Wang Shiyang and Li Zao Yi, his heart trembling.

The fact that this frog could still cause trouble in such a situation meant that it was definitely not a good person. However, there would always be opportunities in times of crisis. It could open a crack between the illusionary fog space and the sky order Island, so it could naturally send them out. The problem now was how to get the frog to agree to let them leave the illusionary fog space.

"Little guy, if you have something to say, just say it out loud. You don't have to use such a sneaky voice transmission. Do you think that my ears are bad and I can't hear you?" The giant frog continued to speak, and Lin Yi was speechless. This was the first time someone had heard his voice, and it was clear that the frog's voice was extraordinary.

"Senior, can you lower your voice? My ears can't take it!" Lin Yi raised his voice again. The frog didn't kill them right away, so it wouldn't mind this little disrespect.

"Alright, I'll fulfill your wishes." With that, the giant frog's body shrunk rapidly. It was the size of a Hill before, but in a breath's time, it had shrunk to the size of Lin Yi and the others. The two black chains also shrank at the same time, becoming three fingers thick chains.

"Little guys, is this enough? It took a lot of my energy to become like this. Even if I eat the three of you, I won't be able to make up for it. Don't you think you should compensate me?" The giant frog had turned into a Big Frog, and it could finally speak normally. Lin Yi's ears weren't hurt anymore.

"Senior, this is your territory. What can we compensate you for? Or is there something we can do to help senior?" Lin Yi's heart jumped-the frog didn't seem to want to kill the three of them, so they might have a chance of leaving this place.

"It's so fun to talk to smart people. You guys can really help me." The big Frog chuckled, and there was a hint of slyness on its face. The old man who had lived for so many years was indeed not easy to deal with!

"Is there anything we can do for you, senior? As long as it's within our means, we won't refuse!" Lin Yi patted his chest as he promised-he'd be the one to decide if he could or couldn't do it.

"You'll definitely be able to do it. The spirit beast clan's brats may not be able to help, but my friends from the human clan will probably be willing to. What I want you to do is very simple. How was it? It's not difficult at all, right?" The big Frog looked at the three of them and smiled kindly.

Lin Yi was speechless-not difficult at all? Please, this was not just a little difficult, alright?

"Senior, aren't you overestimating us? The spirit beast clan has many experts. The weakest of the four great elders is at the sea Rift stage. I'm afraid that even the most powerful ones have cultivation levels above the sea Rift stage. Let's not talk about whether we can find it or not. Even if we can find it, do you think that we, who are at most in the beginning stage of the mountain, really have the chance to break the seal?" Lin Yi really wanted to get out, but the frog wouldn't just ask for a guarantee for something like this-it didn't want to have some ridiculous restrictions on it.

Plus, Lin Yi valued promises very much. Once he made a promise to the big Frog, even if there were no restrictions, he would do his best to fulfill his promise. He didn't want to make promises that were impossible.

"Don't worry. I'm asking you to do it, so of course I'll give you a chance to succeed. You're human cultivators who rarely come here in thousands of years. I won't let you die in vain. " The frog laughed, seemingly in a good mood. It knew that the three of them wouldn't be able to refuse this condition.

If they agreed, they could still go back. If they did not agree, the three of them would die Here. No matter how dangerous it was to go to the spirit beast clan to destroy the seal, at least they still had a 90% chance of survival. If they stayed, they would definitely die. Was there a need to ask what to choose?

"Senior, why don't you tell us how we can have a chance of success? If we think it's feasible, we might agree to your request. " Lin Yi knew that he couldn't reject it, so he decided to listen to what the frog had to say.

"I don't know what kind of relationship you have with the spirit beast clan, but that's not important. As long as you agree, I'll help you conceal your aura and transform into ordinary spirit beasts. After you find the place of the seal, use the thing I gave you to break the seal. It's simple, right? You don't have to worry about the spirit beast clan sending any experts to deal with you. I'll naturally give you a life-saving trump card. If you encounter one or two experts at the sea splitting stage, you don't have to worry at all. It's even possible to kill them directly. " The big frog's expression was somewhat proud. With its strength, it really looked down on the spirit beast clan's experts at the sea Rift stage.

If it could get out of this predicament, the high-level members of the current spirit beast clan would definitely be swept away. Of course, this was what the big Frog thought. As for whether it was true, it was hard to say.

For example, Lin Yi thought that the frog's strength must've dropped after being trapped for so many years. It might not even be able to win against the Vermilion Bird, let alone a group fight.

"That sounds pretty good. Can you let us see what your so-called trump card is first?" Lin Yi didn't agree right away, and Lizao Yi and Wang Shiyang didn't say anything either. They left everything to Lin Yi.

The big Frog nodded, opened its mouth, and stuck out its long red tongue. The rolled-up tongue tip opened, revealing a black stone box inside.

To be honest, Lin Yi felt disgusted when he saw the liquid dripping down the stone box. If even he was like this, then there was no need to mention Li Zao Yi. None of them even thought of opening the stone box.

The big Frog threw the stone box to the ground, and the lid of the box automatically popped open, revealing two egg-sized black beads.

"These two beads are condensed by my own genuine Qi. Each of them contains the power of three full-force attacks of mine. Of course, these are just ordinary attacks and don't have the addition of martial arts techniques, but they're more than enough to deal with ordinary sea splitting stage cultivators. As long as you have the ability to hit him head-on, even a cultivator at the Great Perfection of the sea splitting stage might be killed by you with one strike. " The big Frog showed a proud expression.

Chapter 6208 You Can Only Trust Me

Lin Yi was curious why the guy didn't just transform into a human-it was weird to use a frog's face to express so many different expressions.

Perhaps transforming into a human would consume more of his energy? Since it was imprisoned here, its energy was very precious to the big Frog. It would save as much energy as it could for unnecessary consumption.

"Three times per pill, isn't that a little too little? I'm only at the great circle of black Ascension. If I were to face a cultivator at the sea splitting stage with such strength, I'm afraid I wouldn't even have the chance to make a move before I'm killed. You should at least give me 10 or 20 pills to protect myself, right?" Lin Yi was overjoyed. He knew that this Black Pearl was definitely a good thing. It could even kill a cultivator at the peak of the sea splitting stage. If he didn't take this opportunity to get more, he would be letting himself down.

"Ten or twenty? Do you think it's eye wax? You can get a little of it out casually? Besides, you've said it yourself. It'll be good enough if you can use it against someone at the sea splitting stage. It'll be a waste to give you more!" The big Frog was so angry that it laughed. It wasn't easy to condense this thing. Less than one out of 100 portions of true Qi could be condensed together. It had to consume a lot of energy and time to launch a full-force attack.

The frog's heart ached at the thought of giving Lin Yi two pills-it'd rather kill Lin Yi as a snack if he wanted ten or twenty pills.

"You're so petty. It's just an attack at the sea splitting stage. My family also has one. Let me out. I'll go home and bring back a few talismans. They're much stronger than your black bead!" Wang Shiyang pouted and mumbled, his eyes full of disdain.

From the sound of it, the effect of the black bead was similar to that of the Wang clan's talisman. It was just that it was of a higher level. Wang Shiyang had said it casually, but it was impossible for him to take out a talisman that could kill a cultivator at the perfected sea splitting stage with one strike.

Even though he was a direct descendant of the Wang clan, a high-grade talisman like this was a strategic resource in the Wang clan. It was too difficult to make, and even the core descendants would not be able to get their hands on it, let alone Wang Shiyang.

"Is this little friend a disciple of a clan of formations? Your identity is not simple. However, with your strength, I'm afraid it won't be that easy for you to obtain a talisman that is comparable to my full-strength attack, right?" The big Frog gave Wang Shiyang a sidelong glance. It had heard of a talisman family before. As expected of an old man from ancient times, he had some knowledge.

Wang Shiyang's face heated up. The big frog's words meant that he was not qualified to get the good things from his family. Although it was the truth, it was still embarrassing to be exposed in front of others.

After comparing the strength of both sides, Wang Shiyang felt that he didn't have a chance to get back at them, so he simply pretended not to hear it and didn't express his opinion.

"Of course the things senior gave us are good, it's just that the quantity is a bit too little. You see, there are three of us and only two beads, who's going to take them? Even if you don't have ten or twenty, you should at least give us three so that we can each have one, right?" Lin Yi lowered his request immediately, thinking that the frog would probably agree if he asked for one more.

"You two are each holding one! We don't need three people to do this, two is enough!" The big Frog smiled sinisterly. It turned out that the old man had never intended to release all three of them. It seemed that he wanted to keep one of them as a hostage!

"That's right. Two people doing things, one person is enough. Senior, you're very thoughtful. Then send us out!" Lin Yi pretended that he didn't understand the frog's words and laughed it off, wanting it to send them out.

Originally, he wanted to get more benefits from the giant frog, but now he just wanted to leave as soon as possible. Of course, the three of them had to leave together.

"I can send you off, but you can decide who will stay." The frog, of course, wouldn't let Lin Yi get away with it so easily. It chuckled and threw the question to Lin Yi and the others.

It was quite a vicious move-two peaches killing three warriors wasn't much. The frog didn't want the three to die, but it tried to drive a wedge between the three and see their relationship clearly. It was very effective.

"I refuse. Either you send all of us away, or we all stay!" Lin Yi didn't even think about it as he rejected the frog.

He couldn't let Lizao Yi stay, and Wang Shiyang was a friend who had gone through thick and thin with him-Lin Yi wouldn't give up on him, naturally. It wasn't that he didn't think about it, but with so many responsibilities and matters on his shoulders, he couldn't stay here no matter what!

The only thing they could rely on now was that the big Frog wanted their help. With this as a bargaining chip, there might be some room for bargaining.

"Then all of you can stay. Rather than sending you out and not helping me, it's better to eat you as snacks and fill my stomach." The frog shrugged nonchalantly, making Lin Yi speechless.

He glanced at the two black beads in the stone box and wondered if he could use them against the frog, but it probably wouldn't work. If he dared to put them in front of Lin Yi, he must have a way to keep them in check. After all, he was the one who made them.

"Don't even think about it. I saw that the strength of your spiritual awareness isn't bad, so I wanted your help. Breaking the seal requires a person with a relatively strong spiritual awareness. This thing, ordinary people with weak spiritual awareness can't operate it." The big Frog looked at Lin Yi indifferently and spat out a palm-sized black cone. It was obvious that these were very important to it and were all hidden in its body.

It was just that Lin Yi found it disgusting enough-the thing was still drooling all over the place, and so he put his hands behind his back, making sure he wouldn't take it.

The big Frog didn't care. It threw the black cone next to the stone box and continued, ""This thing can be used to activate the divine sense to break the seal. As long as you do this, no matter who stays here, they can go back safely."

"How can I believe what you say? If we do what we promised you and you go back on your word, we won't be able to stop you!" Lin Yi said casually as he quickly thought of a way to solve the problem.

"You can only trust me! If you don't believe me, then treat it as my dessert. There's no other choice!" The big Frog squinted its eyes in a calm and unruffled manner, but its attitude was extremely strong.

Lin Yi knew that the guy wasn't as tough as he looked-after all, it'd been so many years since he'd met these few suitable candidates, and he wouldn't give up so easily!

Chapter 6209 Leaving In Guilt

The spirit beasts that he had captured could only be used as energy supplements. He had never sent them to do this. Other than worrying that the spirit beasts were unreliable, it was likely that he had not encountered any spirit beasts with powerful divine senses.

There were also spirit beasts with strong divine sense, but they didn't want to betray the spirit beast clan and submit to the frog. So, Lin Yi and the other two were the candidates the frog had been looking forward to.

Unfortunately, it was useless even if Lin Yi knew about it. The big Frog put on a stubborn look. If it really wanted to fall out with them, it didn't need to kill the three of them. It just needed to imprison them. After a long time, Lin Yi would have to agree to it. He had too many things to do, and they couldn't be delayed for too long.

"Lin Yi, I'll stay as a hostage!" Li Zao Yi reached out and held Lin Yi's hand, softly saying his decision.

From Lizao Yi's point of view, it was better for her to stay here instead of everyone being trapped here. She was the weakest among the three of them anyway, and she would have a better chance of completing the frog's mission if she let Lin Yi or Wang Shiyang do it.

Even if she couldn't complete the mission, as long as Lin Yi was safe, it would be worth it. Besides, she might not be in any danger if she stayed here. As long as Lin Yi could find Zhang Liju, with the influence of the divine Doctor and the Dan God, those old monsters from the ancient noble houses would give her some face, and there would be a higher chance of saving her.

"No, I definitely won't allow you to stay here alone. At most, we won't leave. If this senior wants to find someone to break the seal, then he'll have to wait for another few thousand or even ten thousand years!" Lin Yi gritted his teeth and raised his head, staring at the big Frog coldly. It was impossible for him to make Li Zao Yi stay.

Wang Shiyang actually thought that it was best for Li Zao Yi to stay. She was a weak female Alchemist, and she didn't do anything even when she was in danger. She was perfect as a hostage, and she wouldn't be of much use if she went out on a mission. Of course, he couldn't say that, though. Since Lin Yi insisted on the three of them being one, he felt that he had to show off.

"Brother Lin, why don't I stay here? you and Miss Li Zao can go out and finish your business as soon as possible, then I'll be free." Wang Shiyang said sincerely. He wasn't worried that Lin Yi would agree to it. Although they didn't know each other for long, he knew Lin Yi's personality. The more he said it, the more he wouldn't give up.

Lin Yi shook his head firmly, "Brother Wang, you don't have to say anything. None of us will stay here today! Or we can all stay together, and the three of us will advance and retreat together!"

"Well said! You humans are really affectionate and righteous! I'm relieved! Since this little fellow was willing to stay, then he would do it! Don't be so long-winded, say one more word and I'll eat him immediately!" The big Frog pointed at Wang Shiyang and made a decision.

Wang Shiyang was dumbfounded. Why didn't this Big Frog play by the rules? The first one who volunteered to stay was Li Zao Yi, okay? Why did it choose me? If you don't agree, then start eating, who are you trying to scare? I'm really a little scared now ...

Lin Yi didn't know what to say-he didn't know how to react to such a blatant threat.

If the frog said it wanted to eat Lin Yi, he could still fight back, but it was Wang Shiyang now. Lin Yi hesitated, afraid that a wrong decision would kill Wang Shiyang.

"Brother Lin, don't hesitate anymore. I'll stay here. You guys go out and save me as soon as possible!" Wang Shiyang wanted to cry but no tears came out. He could only swallow his anger and continue to ask to stay. He didn't want Lin Yi to force the three of them to stick together in a heat of the moment. He would really become the frog's dessert then.

"Brother Wang! If you stay, you'll have a 90% chance of dying!" Lin Yi didn't bother to avoid the topic-the frog could even listen to messages, so it didn't really matter what it said.

"As long as there's a chance of survival, it's better than dying now! Brother Lin, even if you want to take the risk, it might not be any safer than staying here!" Wang Shiyang waved his hand. The matter had already been decided, so he had already let it go."I still have a few formation talismans here that haven't been refined yet. You might be able to use them if you keep them."

Lin Yi didn't stand on ceremony and took the four Jade talismans. He was touched-Wang Shiyang was a good friend indeed. Not only did he ask to stay, but he even gave him his talismans. He'd repay him for what he did today if he had the chance!

"Brother Lin, this is a directional 10000-mile teleportation talisman. Each time it is activated, it can teleport you 10000 miles away. One talisman can be activated eight times. The other three are offensive talismans of the earth splitting stage. Each time it is activated, it can launch an attack of the earth splitting stage. He left the bead for you to deal with the experts of the sea splitting stage. For ordinary earth splitting stage, you can use my talisman!" Wang Shiyang explained in detail to Lin Yi. He wasn't only helping Lin Yi, but he was also helping himself. He only had a chance to escape if Lin Yi was alive.

Wang Shiyang really wanted Lin Yi to inform his family, but it wasn't convenient to say anything in front of the frog. He could only sigh and say what he needed to say.

However, Wang Shiyang immediately thought of another way. If it worked, he might be able to get out of here!

"Brother Wang, don't worry. I'll definitely come back to save you as soon as possible!" Lin Yi kept the Jade talisman, shaking Wang Shiyang's hand a few times out of guilt.

He didn't expect Wang Shiyang to take this opportunity to write the word "instant" on Lin Yi's palm as he continued to say some impassioned words.

Lin Yi was a little surprised, but he didn't show it on his face. He continued to act like a good brother to Wang Shiyang, and he understood what Wang Shiyang meant.

Wang Shiyang had not used his teleportation ability ever since he entered the illusion fog space. In theory, it was impossible for the big Frog to know about this.

So when the big Frog opened the crack and sent Lin Yi and Li Zao Yi away, Wang Shiyang could use the chance to teleport away. The success rate was very high.

He didn't want Lin Yi to cooperate with him, but he wanted to let him know about the situation so that he wouldn't misunderstand and think that Wang Shiyang wanted to leave Lin Yi here because of him.

Lin Yi nodded slightly to Wang Shiyang after understanding the situation, telling him not to worry.

In order to avoid any more trouble, Lin Yi didn't want any more benefits. He wanted the big Frog to open up a path as soon as possible.

"Senior, then the two of us will be preparing to leave. Please open the passage!" Lin Yi put on a show of reluctance to part with Wang Shiyang, and only spoke to the frog seriously after he couldn't stand it anymore.

Chapter 6210 Consuming Poison

The Black Pearl and black cone on the ground were already in Lin Yi's storage bag. Everything was ready, and Lin Yi could leave this place.

"Alright, take these two pills, and I'll send you away immediately." The big Frog threw two blue-purple pills at him. This time, they were not spat out from its mouth. At least they were not as disgusting.

"Poison? Senior, you're leaving our companions behind and even poisoning us?" Lin Yi's face went cold as he sent the pills back to the man.

However, as soon as the two pills showed signs of turning around, they were fixed in the air. Obviously, the big Frog was not going to take back the things it had taken out.

"Don't be ungrateful. This is not an ordinary poison. It's also one of the life-saving cards I gave you. After you take it, when you encounter danger, it will automatically activate a defense to resist the attack of a sea splitting stage expert. It's equivalent to having an extra life!" Weren't you afraid that you wouldn't have a chance to use the attack I gave you? there won't be any problems now, right?" The frog laughed as it looked at Lin Yi with confidence.

Whether it was poison or not, Lin Yi believed that this chance to save his life was enough to move him. Plus, it was not up to him to choose whether he would take the medicine or not.

Lin Yi's eyebrows twitched. He knew that he didn't have a choice. He believed that the big Frog wouldn't lie to him. A chance to block an attack from a sea Rift realm master was indeed worth the threat of poison.

They didn't know how powerful the poison was, but Lin Yi and Lizao Yi were both Masters in Medicine and alchemy. They might be able to remove the poison from the frog. On the surface, it didn't seem like they lost anything.

"Actually, you don't have to worry. This pill isn't poisonous. I'll tell you the truth. As long as I don't want to kill you, the poison in the pill will never be released. It's because there's a trace of my divine sense in

it. It's not just for show." The big Frog felt like everything was under control and didn't hide anything from Lin Yi and Lizao Yi. It told them the secret of the pill.

"There's a wisp of your divine sense inside. You can't be using it to seize a body at a critical moment, right?" Lin Yi smiled coldly. He'd seen too many cases of possession. If the frog really wanted to do that, it'd be asking for death.

But the big frog's original body was still there, and it wouldn't go for a low-level human practitioner. Lin Yi was just putting on an act.

"You're thinking too much. You have such weak bodies. I wouldn't even want to take over your bodies! It's more important to protect you at critical moments, and only with a wisp of my divine sense can you control the good things I give you!" The big Frog wasn't referring to the black bead and black cone that it had just taken out, but to another cloth bag.

Lin Yi thought that the frog was quite generous. He didn't have any conditions, but the frog was willing to take out items one by one. Who knew what it would come up with if he had some conditions?

"What is this?" Lin Yi took the bag and scanned it with his spirit sense. He found that there were twenty little spirit beasts inside. They were The Chameleons that he encountered by the lake!

Although these spirit beasts were small in size, their offensive power was quite strong. If more than 20 of them attacked together, it was enough to cause a qualitative change in quantity. They could even deal with an expert at the sea splitting stage.

The three of them were lucky to have run fast and entered the lake in time when they were on the shore. Otherwise, they would've been turned into ashes in a second if they were surrounded by eight hundred spirit beasts!

"This is a little thing I made when I was bored. I'll give you a few to protect yourself. After taking these two pills, you'll have a wisp of my divine sense in your body, and it will be much easier to control these little things. I'm good enough to you, right?" The big Frog grinned. It was investing so that Lin Yi and the others could complete the mission successfully.

"Did you make all these spirit beasts?" Lin Yi raised his head, stunned. He thought that these little spirit beasts were all natural life forms in the illusion fog space. He didn't expect that they were puppets made by the big Frog.

Thinking about it carefully, it was true. If they were really life forms from the illusionary fog space, they would have long been eaten up by the big Frog as food or energy. How could there be so many of them wandering around the lake?

Lin Yi finally understood why the spirit beast wasn't afraid of his consciousness vortex-it didn't have a spirit at all! No matter how strong the vortex was, it wouldn't work without a spirit!

"I just made it for fun when I was bored. It's not a big deal, but it's barely enough for you to use for self-defense. I've said so much not to force you to take the pills of your own free will, but to let you know what I've given you. As for the pills, whether you're willing or not, you have to take them unless you want to see this kid die in front of you. " The frog didn't force Lin Yi to eat the pill, but threatening him with Wang Shiyang was no different from strangling him.

Wang Shiyang looked up at the sky at an angle of 45 degrees, speechless and tearful. 'Why did you drag me out to talk when I was just quietly being a handsome man without saying anything?' Did handsome guys deserve to be discriminated against? Can we still have fun together in the future?

Lin Yi didn't hesitate and threw one of the pills into his mouth. No matter how strong the frog's spirit sense was, it was just a part of it. Lin Yi wasn't afraid of spirit sense at all. He couldn't beat the frog, but it was fine with this bit of spirit sense.

As for the poison, if the frog wanted to rely on them to break the seal, the poison wouldn't take effect quickly. No matter what, Lin Yi had to eat it.

After seeing Lin Yi take it, Lizao Yi also took the other pill without hesitation. Soon, the two felt a trace of unusual spirit sense in their bodies. Fortunately, this spirit sense didn't try to enter their sea of consciousness, but stayed quietly in their Dan Tian with the poison.

"You've eaten the poison, and I see that you have a lot of it outside. Why don't you give us more to protect ourselves? It'll be more convenient for us to help you break the seal. How about it?" Lin Yi raised his right hand and shook the bag, trying to get more spirit beasts.

Their single-target attack could reach the initial stage of earth creation, and they could release hundreds of attacks at once. Their overall power was comparable to that of the late stage of earth creation. If he could get two or three hundred of them, even the elite army of the spirit beast clan might not be a match for them!
