

Bodyguard 6291

Chapter 6291 The Only Good News

Zheng Dongsheng was indeed a burden, and Lin Yi wanted to leave him for the spirit beast clan as well, but their whereabouts shouldn't be exposed yet. If he kept this old man, it would be the same as giving the spirit beast clan directions. Helping others was helping himself, and Zheng Dongsheng was lucky!

Not long after Lin Yi and the others left, the group of spirit beasts in white arrived at the place where the battle had taken place. Seeing the corpses all over the ground, the sea Rift realm spirit beast in the lead frowned.

"This is the place where my divine sense couldn't detect just now. Sure enough, there's something strange here. Take a look at who these dead people are." The spirit beast at the sea split stage ordered his subordinates to do what they had to do while he extended his spiritual awareness to search for clues.

He couldn't detect this small area from the outside, but it didn't affect the release of his spirit sense here, which was why Lin Yi could detect him before.

He scanned the area but didn't find anything. It was obvious that this spirit beast wasn't good at using its divine sense, at least a little weaker than Lin Yi.

Lin Yi was indeed lucky. If he left Zheng Dongsheng behind, he would definitely be discovered by the other party. With the speed of these spirit beasts in white, it would be difficult for the other few to beat them except Lin Yi.

It was clearly not worth it to waste a ten thousand mile teleportation talisman for such a reason.

"Sir, there's no identification mark, so I can't tell where he came from. One of them was seriously injured but eventually died from poisoning. It seems like he's a death warrior secretly trained by a family." A spirit beast expert of the earth formation stage quickly came to the leader's side and reported in a low voice. His efficiency was quite high.

"Death warrior? Which family is actually willing to spend so much capital? it seems that there are quite a few people who want their lives. We have to hurry up so that others don't beat us to it, and we'll lose face if this gets out. " The leading spirit beast at the sea Rift stage squinted his eyes slightly, and a playful smile appeared on the corner of his mouth.

"Milord, there are hidden traces of movement in this direction. It seems to have just appeared, and it definitely hasn't been more than the time it takes half an incense stick to burn!" Another spirit beast came to report, pointing in the direction Lin Yi and the others had left in.

"That's it. The time of death of the corpses here is definitely not more than half an incense stick's time. The few of you move to the two wings. If there are any traces, immediately report it. Be careful, they were able to easily kill this group of death Warriors, their strength is quite extraordinary!" The spirit beast in the lead ordered the four earth formation spirit beasts to form groups of two and fan out to the left and right, while he led his own group to chase after Lin Yi and the others.

"Yes, my Lord!" All the spirit beasts in white responded in unison and rushed forward at full speed. They didn't notice the dark illusionary barrier, so they naturally didn't know that most of the Masters around Lin Yi and the others were trapped in the barrier.

Lin Yi was still paying attention to the white spirit beasts "movements as he ran, and he was relieved to see that they didn't come out after entering the boundary.

This meant that the other party didn't notice them, or they wouldn't have stayed there for even a second. From this small detail, Lin Yi could also deduce that although the other party had a sea-shattering expert, their spirit sense wasn't stronger than his. It might even be weaker.

It seemed like he didn't need to use the ten thousand mile teleportation formation talisman in his hand for the time being-this was a backup plan for the safety of Xiao Yan and the others. If it were just lizao, Yilan, and Guzha, they wouldn't have to worry about the pursuers at all.

In times of danger, LAN Guzha could hide in the Jade space, but Lin Yi had brought lizao Yi alone. Whether it was ghost speed wings or lightning escape, they could guarantee enough speed. It was not possible with Xiao Yan and the others. In order to hide in the Jade space, not only could they not enter, but even LAN Guzha had to stay outside.

As for Zheng Dongsheng, Lin Yi didn't want to bring him along, but it wasn't a good time to abandon him. It would be great if he could trap him in the dark illusory barrier ...

"Brother Lin, did you manage to shake off the pursuers?" Xiao Yan's face was serious as he communicated to Lin Yi carefully. He understood that Lin Yi's soul and consciousness were much stronger than his. He didn't know why, but he was grateful for that.

"I haven't found them yet, but we can't be careless!" Lin Yi didn't hide anything and spoke to Xiao Yan as he ran.

"My people ... Can they still be saved?" Xiao Yan could not let go of the guards. Regardless of whether it was for his own safety or for other reasons, finding them would only bring him benefits and no harm.

"The [Dark Illusion barrier] is a variant of a trap array. Normally, it won't kill people, but the illusions within are still very threatening to those with weak will. It's more or less dangerous to sink in, so I can't say if they can escape. I'm afraid we won't be able to see them for a while. " Lin Yi shook his head-these were all the things that the thing told him, and he'd just repeated them to Xiao Yi.

Lin Yi didn't really care much about the sea beast Masters. After all, he wasn't familiar with them, and they couldn't compare to yang Shaowen. Yang Tianwen and yang wenshao, who he was slightly more familiar with, were by his side, so he didn't care about a group of strangers.

On the other hand, Lin Yi really wanted the man to die in the dark illusory barrier. This guy's strength was unfathomable, and if he died here, it would be a huge blow to central.

Xiao Yi sighed and accepted his fate. It was impossible for him to risk his life to go back and think of a way to break the barrier. He could only follow Lin Yi and see what happened.

"Not good! They've found our tracks and are now chasing after us!" Lin Yi's face changed-he didn't think those guys would move so fast.

The only fortunate thing was that they didn't seem to be relying on their spirit sense to find them, but judging the direction Lin Yi and the others fled in from the traces in the forest.

After all, this was the spirit beast forest. No matter how careful Lin Yi and the others were, they couldn't leave no traces behind. For the spirit beasts who lived here, it wasn't too difficult to track them.

"How fast are they? Do we have a chance to escape?" Xiao Yan's heart skipped a beat as he asked in a low voice.

"In terms of overall speed, they're slightly faster than us, so they'll definitely be able to catch up to us in the end. The only good news right now is that they haven't been able to lock onto us with their consciousness. Their speed will be affected to some extent if they keep searching for our traces while chasing us." Lin Yi said as he tightened his grip on the talisman, hesitating if he should use it again.

Chapter 6292 Entering The Secret Land

Before Lin Yi could think it through, Xiao Yan ordered the two, "Yang Tianwen, take elder Zheng and run in this direction. Leave some traces to lure away some of the pursuers. Yang wenshao, run in that direction and pay attention to covering your tracks. Take a detour and look back to see if there's a chance to break the dark phantom barrier. If it doesn't work, go and receive our reinforcements. Bring them to my location, understand?"

"Yes, Your Highness!" The two of them bowed and agreed at the same time. Yang Tianwen's eyes even flashed with a hint of interest.

Although Xiao Xiao didn't say it clearly, Yang Tianwen knew very well that he was asking him to take away Zheng Dongsheng, a burden. If the situation was bad, he could abandon Zheng Dongsheng directly. With his strength of the consummate level of earth splitting realm, it would not be difficult for him to escape as long as he was not hunted down by a spirit beast Master at the sea splitting stage.

It was the same for Yang Wenshao. His mission was to look for reinforcements. Those who were trapped were his first choice. If he really could not find them, there were still reinforcements from the sea beast tribe who were nowhere to be found. Both of their missions were very important. Hence, they could only ignore the fact that Xiao Yan did not have any guards by his side.

"Your Highness, please take care of yourself. Elder Lin, please help us take care of our Prince!" Yang wenshao cupped his fists and bowed to Lin Yi and Xiao Yan, turning and leaving without waiting for their reply.

Time was tight, and they could not talk nonsense. Yang Tianwen was the same. After a simple farewell, he left with Zheng Dongsheng from the other side.

How would Zheng Dongsheng be willing to be the bait? He opened his mouth, wanting to ask Lin Yi for help, but Yang Tianwen attacked him secretly and took away his ability to speak. He could only watch Lin Yi and the others disappear into the distance with tears in his eyes.

"Brother Xiao, don't worry. With my boss here, we'll be fine! Your diversion tactic is very good. It has greatly reduced our pressure!" LAN Guzha grinned and gave Xiao Xiao a big thumbs up. While he was consoling Xiao Xiao, he also expressed his confidence in his boss.

"LAN Guzha, you've made some progress recently. You can even see through the diversion tactic." Lin Yi smiled, pleased that the guy wasn't just eating and fighting-he was learning how to use his brain too.

"I've been following the boss for so long, how can I not understand such a small thing? Then wouldn't I, LAN Guzha, be too useless?" LAN Guzha laughed out loud, expressing that all the credit was due to boss's good leadership!

Lin Yi could only smile as they were running for their lives. He really didn't have time to chat with LAN Guzha. After the number of people decreased, their speed increased, and they were almost on the same level as the pursuers. At least they wouldn't be caught if they kept going.

"Senior ghost, are we running in the wrong direction? Do you know any shortcuts? Just like the first time we came to the southern island, the kind that can quickly shake off the pursuers. " Lin Yi didn't want to waste a teleportation talisman, so he asked the damn thing if he could get out of the spirit beast forest quickly.

Since the spirit beast clan was determined to kill them, it wasn't wise to stay here. Even if he had to come back to destroy the void chain, Lin Yi had to make sure li Zao Yi was settled first.

He would leave the spirit beast forest first and find Hao Zili, min huichen, and the others. They would escort li Zao Yi back to the Middle Island, and Lin Yi would be able to cause a scene here without restraint.

"There are no shortcuts in the direction you're running in, but there's a secret realm. I don't know if there's any changes after so many years. Why don't you hide in that secret realm first?" ye mo said. The damn thing was quite reliable this time, and it immediately gave a useful suggestion.

"Senior ghost, if only you could find the forbidden areas near the Imperial City so quickly ..." Lin Yi was secretly happy, and couldn't help but tease the ghost,""By the way, is there any explanation for this mystical realm? After we enter, will there be any danger? If you know, then hurry up and explain it clearly. "

"There's nothing special about it. Those at the sea splitting stage and above can't enter. At most, they can only enter those at the earth opening stage. As for the rest, go in and see for yourself!" The ghostly thing laughed strangely and even deliberately kept him in suspense. It was unknown if he had forgotten to say that.

Lin Yi chuckled to himself. Since the thing said so, he didn't ask anymore. It shouldn't be too dangerous inside.

Following the directions, the four of them quickly got close to the secret realm. The pursuers were confused by Xiao Yan's arrangement, not only wasting a little time, but also splitting up.

"The entrance to the secret realm is right in front. We can just rush in directly!" A small waterfall appeared not far away, and the entrance that the ghost was talking about was behind the waterfall.

"So casually? Don't tell me that no one is keeping watch?" Lin Yi was shocked-did the spirit beasts just let people explore their secret realms like this? It seemed that there would not be anything good left inside.

The reason why the void essence chain was placed in a forbidden area was because there was a restriction that prevented spirit beasts from entering, so it was reasonable that no one was guarding it. However, this kind of secret realm generally contained all kinds of opportunities. How could the spirit beast clan not care about the existence of secret realms? If this wasn't the center of the spirit beast forest, there would have been countless human explorers who would have taken the risk.

"Hehe, the spirit beast clan really doesn't care much about this kind of secret realm. It's a rare and good thing for the human clan, but spirit beasts are not rare. Therefore, most of the secret realms are open. Of course, those who know about the existence of secret realms are not ordinary spirit beasts." Lin Yi only understood after the ghost explained.

Sure enough, the resources were in the hands of a few people. Even if these secret realms were not valued by the higher-ups of the spirit beast clan, they were not easily understood by ordinary spirit beasts.

"Brother Lin, what is this place?" Xiao Yan had been following Lin Yi the whole time, and seeing that they were about to rush into the waterfall without stopping, he suddenly felt a little uncertain.

"Don't worry, brother Xiao. This is a secret realm of the spirit beasts. Only those below the earth formation stage can enter. Those at the sea splitting stage will be blocked outside. Let's go in and hide for a while." Lin Yi said simply, not mentioning where he got the location from.

Xiao Yan was overjoyed. If he could hide in the secret realm, he could at least stall for time. When the reinforcements from the sea beast clan arrived, the four inner sect elders would not attack him easily unless they really wanted to go to war with the sea beast clan.

"Brother Lin is indeed knowledgeable. You even know that there's a secret realm here!" Xiao Yan couldn't help but praise. The more he spent time with Lin Yi, the more he felt that this human practitioner was strong. As the sea beast Prince, Xiao Yan had his own pride, but when compared to Lin Yi, he had to admit that there was a gap between them.

Chapter 6293 Plans Always Change

Lin Yi smiled faintly and didn't say anything. The four of them had just entered the waterfall, but they hit hard rock instead. There wasn't an entrance like they had expected.

Xiao Yan, LAN Guzha, and the others were not bothered. The physical bodies of the sea beasts were extremely tough, so they would not be injured even if they hit a rock. Only Li Zao Yi grunted and revealed a pained expression on her face.

This genius Alchemist had never thought of tempering his own body, so he was caught off guard and really felt some pain.

Lin Yi was embarrassed-was this thing getting old? Or was his memory wrong, and he remembered the location of the secret realm wrong? Or could it be that after so many years, some unknown changes had occurred in the secret plane?

These thoughts flashed through Lin Yi's mind as the four of them bounced back from the impact. When they touched the curtain of water, a faint light flashed and the four disappeared into the waterfall.

"Senior ghost, why didn't you say so earlier? the entrance to the secret realm will only appear after we pass through the waterfall in the opposite direction at a fast speed. We've crashed into the wall for nothing!" When Lin Yi passed through the entrance, he instantly understood the secret and couldn't help but complain to the ghost.

"Don't talk nonsense if you don't know. If you don't hit it hard and bounce back, you can forget about entering the secret realm. Otherwise, how can it be called a secret realm if anyone can enter the waterfall?" The bastard didn't mention anything about him hiding the truth, and started lecturing Lin Yi instead.

Lin Yi didn't know what to say-he didn't know which one was true and which one was false, after all.

After a short moment of weightlessness, Lin Yi suddenly realized that his spirit sense was extremely compressed. He could only leave his body for two to three meters at most. Not only that, but his strength was also suppressed to the early stage of mysterious Ascension.

Looking up, the endless yellow sand extended to the end of the world. The high and low sand dunes rose and fell continuously, and the hot air rose. As far as the eye could see, there was a faint sense of distortion.

"Brother Lin, what's up with this secret realm? My strength has been suppressed to the early stage of the mysterious Ascension realm! Didn't you say that anyone below the earth-splitting stage can come in?" Xiao Yan's face was a little pale. Out of the four of them, he was the most powerful on the surface. To be suddenly suppressed to the early stage of the mysterious Ascension realm, he had dropped by two large levels. Anyone would be flustered.

What made Xiao Yan even more desperate was that this desert was filled with earth-type spiritual power. There was even a sense of overthrowing all schools of thought and supremacy. Other than earth-type spiritual power, he could not feel anything else.

As a sea beast, regardless of whether it had any other spiritual roots, water spiritual roots were its natural foundation. In the desert, there was no space for water spiritual power. To Xiao Yan, the severity of this was almost the same as losing all his strength.

For someone like Lin Yi, although his strength was suppressed to the early stage of mysterious Ascension, he wouldn't be affected a second time. Xiao Yan was different. After he was suppressed, he couldn't replenish his spiritual power. As long as there was a fight, his strength would continue to decline. This was what he was most afraid of.

"Boss, this place is really strange! "I feel very uncomfortable ..." LAN Guzha muttered as well. He was also a royal member of the sea beast clan and his situation was similar to Xiao Yan's.

Even with his mutated body, LAN Guzha did not like this kind of waterless space. The only one who was affected the least was Li Zao Yi, who was the weakest. Her strength did not change much.

"Brother Xiao, please calm down. The secret realm is fair to everyone. The spirit beast experts who are chasing us will also be suppressed after they enter. In comparison, we will have an advantage. No

matter what, let's look for other clues first." Lin Yi consoled Xiao Yi and made a hand gesture to LAN Guzha and Li Zao Yi.

His spirit sense was suppressed, but it didn't affect Lin Yi's connection with the Jade space.

"Senior ghost, is this a desert? Nothing else? Where is the exit?" Lin Yi had already tried, but there wasn't any way out.

"This secret realm has several levels. After entering, if you want to leave, you have to find the passage to the next level. Only then can you choose to continue forward or directly leave. You can take them and walk around. Find a way to find the passage entrance to the next level before we talk about other things." The ghastly thing laughed a few times and gave its own suggestion very irresponsibly.

Lin Yi rolled his eyes to himself, but there was nothing he could do. It seemed like this thing didn't know the exact location of the tunnel. He could only try his luck.

The moment Lin Yi and the others entered the secret realm, a black light flashed where the dark illusionary barrier was. The man in the black bamboo hat appeared out of thin air, clearly breaking out of the barrier.

"Eh, Lin Yi's group actually escaped, their luck is pretty good! I hope the spirit beasts that are chasing them will work hard and not disappoint us!" The man in the black bamboo hat chuckled and muttered a few words. Then, his figure flickered and he flew in the direction of the capital.

Two to three breaths after he left, the spirit beast clan's experts who were trapped in the barrier also broke out. However, judging from their slightly confused expressions, they did not rely on their own strength to come out.

As for the experts of the sea beast clan, they had disappeared without a trace and never appeared again ...

The man in the black bamboo hat easily met the Vermilion Bird and the Azure Dragon after he returned to the capital. The three of them casually drank tea and chatted in a Pavilion. With their strength, they were not afraid of anyone eavesdropping on them.

"You're saying that the dark illusionary barrier wasn't set up by the people you sent? Forget it, it's not important. Let's talk about the plan to cross the sea. " The man didn't really care who was after Lin Yi-as long as it wasn't someone from central, he didn't mind whoever killed Lin Yi.

"How are the casualties on the sea beasts" side? It's not in our interest to completely fall out with the sea beast clan now. " The Vermilion Bird put down the teacup in her hand and said indifferently.

"Xiao Yan should still be alive, right? all of his guards have been annihilated. No matter what, the spirit beast clan will be held responsible for this. I advise you to give up on cooperating with the sea beast clan as soon as possible." The man in the black bamboo hat chuckled. He spoke to the Vermilion Bird without any hesitation, showing his great confidence.

"Wasn't the plan to cooperate with the sea beast clan proposed by you? Furthermore, I'm afraid that you're the one who killed the guards of the sea beast clan, right? Is this really a good idea?" The Vermilion Bird looked at the man in the black bamboo hat. Even though she seemed to be blaming him, she still had a smile on her face.

"Plans always change! There are pros and cons to working with the sea beast clan, and the pros outweigh the cons. It's just that Xiao Yan's variable has made cooperation almost impossible. In that case, it's not a problem for me to collect some experimental materials from the sea beasts! Perhaps we won't even need the cooperation of the sea beast clan in the future and we'll be able to have a place in the sea. " The man with the black bamboo hat did not try to hide anything. He generously admitted that he was the one who killed the sea monster guards within the

Chapter 6294 Secret Land's Trial

After a slight pause, the man with the black bamboo hat continued, "That's right, I think you should send some people to look for Xiao Yan and the others. Regardless of whether they are Dead or Alive, it's best if you can get me some samples and return them to the sea beast clan. That way, you can complete your mission. "

"Let's not talk about this for now. Tell me how we're going to cross the sea and attack the islands without the cooperation of the sea beast clan!" The Vermilion Bird waved her hand gently, but she was now a little wary of the man with the black bamboo hat.

The people from central could use the bloodlines of the masters of the sea beast clan as research materials. He did not believe that the spirit beast clan would be let go. If central secretly did the same thing to the spirit beast clan, wouldn't it be an extremely terrifying thing?

However, even though he understood, the Vermilion Bird could only be more vigilant for the time being. He still needed Central's cooperation. As long as the other party did not go overboard, he would not pursue the matter too much.

"Crossing the sea has never been a problem. We have our own aircraft in the center that can transport a large number of soldiers to the major islands. Moreover, these aircraft come with powerful technological weapons that are enough to withstand the first wave of large-scale indiscriminate attacks. At the same time, it can isolate the aura of your spirit beast clan. It won't be a problem to land directly

on the major islands. You definitely won't be rejected by the defense arrays of the major islands." The man with the black bamboo hat clearly had a plan, and he threw out enough chips with confidence.

The eyes of the Vermilion Bird and the Azure Dragon lit up slightly. If what the man with the black bamboo hat said was true, then it would be much better than cooperating with the sea beast clan. Then, the two of them thought at the same time that Central's main purpose in proposing to cooperate with the sea beast clan was most likely to attract the Royal clan and elites of the sea beast clan, and then take the opportunity to obtain the experimental material that he had mentioned.

Even though the two of them were experienced schemers, they couldn't help but shiver in their hearts. They were afraid that they had unknowingly fallen into the trap of this mysterious man in the black bamboo hat.

"However, the only problem with this plan is that we don't have many flying devices. We need some time to produce them. The development of the cage sea realm can provide some of the materials, but many of the core parts will have to be obtained from the secular world. So, we might have to delay the attack by a few months." The man with the black bamboo hat seemed to have seen through the knot in the Vermilion Bird and the Green Dragon's hearts, and he explained himself and central without batting an eyelid.

The general meaning was, "it's not that we didn't use this plan in the beginning, but because the conditions for carrying out this plan are not yet ripe. Now that there's no other way, we can only use this backup plan."

"So that's how it is! A few months 'time was not a problem at all. What was a few months to plan such a huge plan? It's worth it to wait a few more years to increase the success rate of the plan!" Azure Dragon laughed out loud and appeared to be overjoyed.

The three of them didn't show any change on the surface, but they knew what they were thinking like the back of their hands. Without a doubt, the black bamboo hat man had always taken the initiative to speak.

From an outsider's point of view, the three of them were having a good conversation, but the infighting and scheming among them far surpassed the glints and shadows of blades that could be seen with the naked eye.

Lin Yi and Xiao Yan, who were in the secret realm, naturally didn't know that the man in the black bamboo hat and the spirit beast clan had already discussed and decided to use flying devices to replace the sea beasts' transportation role in the sea attack. They were in an extremely disadvantageous situation in the secret realm that was filled with yellow sand.

In fact, after the four of them entered this world of yellow sand, they had not walked too far before they encountered a terrifying sandstorm. If it was a sandstorm from the secular world, they would not have to worry about it with their strength as xuansheng stage cultivators. However, the things here were obviously not ordinary.

Every grain of sand contained a powerful earth spiritual force. The countless grains of sand were like countless small knives in the hurricane, crazily grinding and cutting everyone's skin. If they didn't constantly circulate their energy to protect their bodies, there was a possibility that they would be torn apart at any time.

Xiao Yan was originally the strongest of the four, but in this secret realm, he was the one who was the most exhausted. The Qi in his body decreased with every use, and as his strength dropped, he had to bear more damage and pay more Qi. After falling into this vicious cycle, there was almost no possibility of escape.

If it wasn't for the fact that his body was extremely strong, he wouldn't have been able to hold on at all. Otherwise, he would have been the first one to die.

"Brother Xiao, there are some pills here that can help you recover your true Qi. You should hold on for a while." Lin Yi saw that he couldn't hold on any longer and handed him a bottle of pills made from the cores of sea beasts. It could be used to recover some of his pure Qi.

This kind of thing was useless to Lin Yi himself. There was an endless supply of Qi in the Jade space for him to supply himself. This was completely for practice and for LAN Guzha. It was just right to give it to Xiao Yan.

"Many thanks, brother Lin!" Xiao Yan was extremely grateful-it was always easier to win a good impression than to add flowers to a brocade. He really wanted to be friends with Lin Yi.

Xiao Yan took out a pill and put it in his mouth, not even suspecting if it was poisonous or not. Then, he felt a warm flow spreading from his dantian, instantly turning into a majestic true Qi that circulated throughout his body. The true Qi that he had expended previously was completely recovered in a breath's time.

"Good pill! No wonder the king of spirit beasts wanted brother Lin to be his personal Alchemist! I didn't think that pills would have such a huge effect on our sea beast race. If brother Lin is interested, I'm willing to recommend you to our King of sea beasts!" Xiao Yan's spirits were lifted and he could not help but click his tongue in wonder.

Lin Yi waved his hand with a smile, indicating that he wasn't interested in the suggestion. The problem now was how to leave the sandstorm-there wasn't enough pills for them to use!

"Senior ghost, does the sandstorm here always exist or appear intermittently? Is there any way to resist it?" Lin Yi tried to use array flags to set up a defensive array to get a safe space, but the quality of the array flags in his hand wasn't high enough. They were torn apart by the sand as soon as they left his hand, and the formation didn't even have time to form.

"Don't even think about it. This is one of the trials of the secret plane. As long as someone triggers it, there will only be two results. One is to pass, and the other is to die. Do you still want to stay and try?" The thing didn't seem to care, probably thinking that the sandstorm wasn't enough of a threat to Lin Yi.

Lin Yi's lips twitched. Even if he had the support of the endless spiritual Qi in the Jade space, he was not in the mood to wait to be buried in the sand.

What was the point of this trial? Was it just to torture people? It was no wonder that the spirit beast clan did not send anyone to guard the entrance. Anyone could come in.

Chapter 6295 Strength Compression

"Silly boy, you're usually quite smart, but you screw up at the critical moment. Don't you think that such an environment is actually very good for you?" The damn thing suddenly spoke up, lecturing Lin Yi in a tone that said he expected better from him.

"What benefits?" Lin Yi asked dumbly. He was trying his best to get the three of them to get their bearings so they wouldn't get lost in the sandstorm. It would be over if they just went around in circles, so he didn't pay much attention to what the ghost was saying.

"Don't you think that the range of your divine sense is almost negligible? It's a good opportunity to hone yourself. Don't you think that the crazy grinding of the gravel is a way to improve your physical strength? Don't you think that the suppression of your strength will allow you to have a smooth cultivation path?"

If that thing could come out, it would want to poke Lin Yi's forehead with its finger. There were so many benefits, why couldn't it see any of them?

Can you be any dumber? Can you be any stupider?

"Ah? It can even be done like this?" Lin Yi's eyes brightened as everything cleared up. It wasn't that he didn't think of it before, but he was too focused on taking care of the others that he didn't think about practicing at first.

Lin Yi didn't need the ghostly thing to urge him anymore. He extended his spirit sense out and carefully touched the terrifying sand around him. In an instant, that part of his spirit sense was torn apart, causing his vision to go black. Fortunately, this part of his spirit sense was very small and didn't affect him much.

The heaven's stolen fortune started circulating on its own, protecting Lin Yi's spirit as it slowly endured the sandstorm's baptism. This way, it also ensured that he wouldn't fall into the awkward situation of losing consciousness.

"Boy, you are really a lucky guy. I just thought that this secret realm is the most suitable place for you to cultivate at the moment. The battle technique for seizing heaven's fortune can not only improve your strength, but also cultivate your spiritual sense and physical body. You have to seize the opportunity!" The damn thing mumbled to himself, not telling Lin Yi about it in case he interrupted his training.

To the spirit beasts, their bodies were strong to begin with, and only a small portion of them had outstanding spirit sense. This secret realm was basically useless, and if they had time to waste here, they'd rather go find resources elsewhere. To Lin Yi, however, this was a unique Holy Land for cultivation.

As the former Green Dragon, the ghost knew about this place, but he didn't think much of it. It wasn't too late for him to realize what it meant to Lin Yi.

After the heaven's stolen fortune was activated, the sandstorm started to change. More than 70% of the sand started to gather around Lin Yi, almost turning him into a walking cocoon. Xiao Xiao, LAN Guzha, and the others couldn't stay close to Lin Yi at all. They could only maintain a certain distance.

After leaving Lin Yi's side, the pressure they had to bear instantly decreased by a few times. It was now within the range that they could bear easily. Although they didn't know what happened to Lin Yi, all they could do was follow behind Lin Yi and slowly move forward.

Lin Yi had entered a mysterious state. He could feel his spirit and Qi being refined, and his body was getting stronger. He would occasionally throw a spirit pill into his mouth, making his spirit feel as comfortable as if he was in a hot spring.

No matter who it was, training in this kind of situation would be extremely painful, but Lin Yi turned this pain into a huge amount of energy, pushing himself to run faster on the road.

It was the first time he'd trained all three at the same time, and it was as if he'd opened the door to a whole new world, the starry sky within reach!

Countless impurities were ground away by the sand and gravel of the sandstorm, causing Lin Yi's strength to rise steadily. His body was getting stronger and stronger. The total amount of spirit sense and Qi didn't change, but the degree of refinement was like the difference between 18k gold and 24k gold-there was no comparison at all.

Lin Yi was so immersed in the pleasure of training that he almost forgot the passage of time. It was only when the sandstorm stopped without warning that he opened his eyes, slightly confused.

"Boss, are you okay?" LAN Guzha was the first to rush over. He could not care less about his dusty and dirty appearance.

Li Zao Yi and Xiao Yan also immediately followed over. The two people's situation was similar. Other than their faces being a little pale and their breathing being a little weak, there was no problem.

"I'm fine. Are you all okay?" Lin Yi smiled faintly and nodded to the three, still reminiscing about the training.

In terms of strength, Lin Yi still hadn't broken through to the mountain opening stage, but the suppression on him had returned from the early stage of the mysterious Ascension realm to the peak of the early stage. In terms of actual combat strength, he had at least doubled from before he entered the secret realm.

"We're all fine. This sandstorm has been going on for a few days. I don't know if it's a good thing or a bad thing that it suddenly stopped." Li Zao Yi shook her head with a bitter smile. She didn't have the heaven seizing fortune battle technique. Being in the yellow sand of the secret realm was a kind of torture, and she really didn't want to experience it a second time.

"It should be because we've already passed this level's trial, that's why it stopped? The entrance to the next level might be nearby. Everyone, pay attention and look for it. " Lin Yi felt that it was a pity that he didn't train for long enough. He'd passed through the sandstorm and arrived at the exit.

If he had time in the future, he could come back and practice again, but the effect of practicing in this environment was decreasing. Before the end, it was far from the beginning, and if he continued, his improvement wouldn't be so fast.

"Brother Lin, someone's coming! Are there pursuers?" Xiao Yi suddenly pointed behind Lin Yi, surprised.

Lin Yi's spirit sense was a lot more condensed now, but the range he could extend was only a dozen meters. It was fine for close combat, but detection was far from as good as the naked eye.

Lin Yi turned around after Xiao Yi's warning-there were a dozen masked men in white flying over, and they didn't look like reinforcements. There was a 90% chance that they were pursuers.

"Don't worry. If they can enter, their strength will be suppressed to the limit. What do we have to be afraid of?" Lin Yi smiled faintly, not taking these people seriously at all.

Chapter 6296 Secret Realm's Exit

Lin Yi's spirit sense told him that the pursuers in white didn't wear masks when they were outside the secret realm, but they did after entering-it was too obvious that they were trying to hide their identities.

"Boss, you don't need to do anything. Just let me deal with all the enemies!" LAN Guzha's face was filled with joy. He felt that he was born for such a Grand occasion! To be able to help Lin Yi while fighting was LAN Guzha's favorite thing to do.

"LAN Guzha, I'll leave them to you then!" Lin Yi smiled faintly and waved his hand, signaling LAN Guzha to fight.

In the secret realm, everyone's strength was suppressed to the early stage of the mystic Ascension realm. Lin Yi only returned to the peak of the early stage of the mystic Ascension realm after training under the guidance of the ghastly thing. With LAN Guzha's combat power, other than Lin Yi, he was invincible among his peers. He had no pressure dealing with a dozen Masters of the spirit beast clan.

LAN Guzha was overjoyed. He burst out laughing as he rushed out. He did not feel the fatigue after experiencing the sandstorm at all.

When the dozen spirit beast experts saw LAN Guzha fighting alone, a trace of surprise and ridicule flashed in their eyes. They were all earth formation stage powerhouses. Even if their strength was suppressed to the early stage of mysterious Ascension, their battle experience and awareness were definitely not something that a mountain split stage junior could compare to.

The one at the very edge accelerated and surpassed the majority of the group. He roared loudly and threw a simple and direct punch at LAN Guzha. His violent true energy swept up the sand that had just calmed down and formed a yellow spiral, attempting to wrap LAN Guzha up.

"Good!" LAN Guzha laughed aloud as he accelerated once again. He was caught off guard and ate a mouthful of yellow sand. He immediately spat out two mouthfuls of sand, but his hands did not stop. He threw out a punch as well to meet the opponent's fist head-on.

Lin Yi's expression was a little strange. He thought that the people in white didn't cover their faces to hide their identity, but to block Huang Sha?

The yellow sand spiralled and collided with LAN Guzha's fist. Air waves surged and shot in all directions. All the sand grains were rolled back. The momentum was three times stronger than before.

The spirit beast in white was shocked. It was too late for it to Dodge and change its move. It could only brace itself and go all out. The two fists pierced through the yellow sand and collided without any fancy moves. With the crisp sound of bones cracking, the spirit beast in white was sent flying.

"What?" The spirit beasts in white were all shocked. The first two caught their companion who was flying back. After dispersing the impact, they found that his fist was a bloody mess, and white bones were exposed.

"How can he be so powerful? Could it be that the secret realm's suppression on him has loosened?" The spirit beast in white was shocked. Originally, they did not care about their strength being suppressed because they were spirit beasts. The strength of their physical bodies was not within the scope of being suppressed.

They did not expect LAN Guzha to not only have powerful true energy, but even the strength of his physical body was above theirs. This was beyond their expectations!

"Now you know how powerful I am? Hahahaha, all of you, come at me together!" LAN Guzha laughed proudly, not forgetting to use his Qi to protect his face from another mouthful of sand. With Lin Yi's pills, it didn't matter if he wasted some Qi.

"Kill him!" The leading spirit beast in White spoke in a frosty tone. Although LAN Guzha's strength was beyond their expectations, it was not enough to intimidate them.

The four spirit beasts in white rushed forward quickly and formed a simple square formation. They surrounded LAN Guzha. They did not need any special martial arts techniques. Their simple punches and kicks formed a powerful attack.

Due to the battle formation, their true energy resonated with each other and amplified their power. On the surface, LAN Guzha's attack was unable to achieve any breakthrough and was already suppressed by them.

"Many against few? I like shameless people like you!" LAN Guzha laughed out loud. It was a fight after all, and it was only interesting when it was like this!

The rest of the spirit beasts in white wanted to go around LAN Guzha and deal with Lin Yi and Xiao Xiao directly, but they didn't expect LAN Guzha to be so excited. Not only did he resist the battle formation of four spirit beasts, but the shockwaves kept spreading and covered the rest of the people.

"How is that possible? He's that strong?" The leader of the spirit beasts in white was shocked. He had already overestimated LAN Guzha's combat power as much as possible when their strength was suppressed to the same level. That was why he sent four of his subordinates to form a battle formation. He did not expect that they could not suppress the other party even with this.

"It's just a small broken formation. Do you think you can deal with me? Hahahaha, you guys are too naïve!" LAN Guzha laughed heartlessly. He intensified his attacks and easily tore apart the four-man battle formation. He also sent two of them flying with a kick!

"Eh, when did LAN Guzha learn about battle formations?" Lin Yi was secretly surprised. He was now considered an expert in formations and could naturally see that LAN Guzha's attacks were all the weak points of the opponent's battle formation, which was why it was so easy to break.

"You call this understanding? Aren't your expectations of him a little too low?" The ghastly thing snorted in disdain. "This glutton has only improved a little under my influence. It's embarrassing to take so long to break such a low-level battle formation."

Lin Yi smiled. LAN Guzha wasn't very talented in formations, but it was good enough that he could face some simple formations alone and not be at a disadvantage. This guy probably learned it so that he could have more fun fighting, and it was time to put it to use.

"Is there anything more interesting? You're so weak, I'm not satisfied with fighting!" After LAN Gu Zha broke the battle formation of the four spirit beasts, he waved his fist and forced them to retreat. His expression was even more proud and arrogant.

The leader of the spirit beasts in white waved his hand, and everyone stopped attacking Lin Yi's group, surrounding LAN Guzha.

"Good! It should have been like this long ago! Let's have a good fight and have some fun!" LAN Guzha was immediately overjoyed. His goal was to keep everyone on his side so that they would not run over and disturb boss.

In fact, it was not a big deal to disturb the boss. The main thing was that this guy knew clearly in his heart that once the boss made a move, there would be no place for him to play anymore. There were originally more than a dozen opponents, but in the end, only a few were left for him. How disappointing!

"Lin Yi, is that the entrance to the next floor?" Li Zao Yi suddenly pulled on Lin Yi's sleeve and sent him a message.

Lin Yi turned his head slightly and looked at the direction she was pointing at. There was a man-sized door of light under a sand dune a few hundred meters away.

"Boy, you're quite lucky to be able to find the exit like this!" The ghastly thing clicked its tongue in admiration and continued,""Let's hurry over. The exits of the secret realm are not fixed. The time they appear varies. The shortest one is only a few breaths. If we miss it, it won't be easy to find it again. It's possible that we'll be stuck in the secret realm for a few years."

Chapter 6297 Keep Walking

"Why didn't you tell me about such an important matter earlier?!" Lin Yi didn't know whether to laugh or cry-this thing wasn't doing this on purpose, was it? Why did he feel more and more unreliable?

Lin Yi had so many things to do, he didn't have time to waste on this. Not to mention a few years, even a few months would drive him crazy!

"LAN Guzha, stop fighting. Let's go!" Lin Yi indicated for Xiao Yan and Li Zao Yi to head to the exit first, while he himself rushed to LAN Guzha in the crowd, ready to support him.

"Ah? Boss, you don't have to be in such a hurry, right? I'll take care of them soon. " LAN Guzha, who was getting ready to fight for 300 rounds, received Lin Yi's message and was a little dumbfounded. He had worked so hard to gather the monsters and was just about to kill them all in one wave, and he was giving up just like that?

"I don't have time to explain. If I don't leave now, I'll have to stay here with the yellow sand!" Lin Yi didn't want to waste time and sent out a Dragon-shaped killing intent. With his current strength, he was invincible in the secret realm.

The Dragon-shaped killing intent of the five elements easily knocked away the two Spirit beasts in front of Lin Yi, revealing LAN Guzha's figure.

In that instant, Lin Yi was surprised to find that the earth element of the Dragon-shaped killing intent was suppressing the other four elements. It was obvious that it was the Supreme one. Although the overall attack power didn't change much, Lin Yi knew that the balance of the Dragon-shaped killing intent was broken. If it wasn't for the earth element's shocking power, the attack would've collapsed on its own.

"Senior ghost, did my five-element killing intent change because of the environment here or because of my cultivation just now?" Lin Yi's consciousness was communicating with the ghostly thing, and his hands didn't stop moving at all. After waving away a few spirit beasts in white blocking his way, he pulled LAN Guzha and ran back.

Lightning escape wasn't suitable in this environment, but Lin Yi still had his ghost speed wings. He caught up to Xiao Yan and Li Zao Yi in an instant.

"It's both. Due to environmental factors, your five elements killing intent began to absorb earth energy to temper itself while cultivating, while the other elements were suppressed to the lowest level, so this situation occurred. If your other elements could also have such a transformation, then the power of your five elements killing intent would increase by several times or even dozens of times." The demonic thing explained casually, and Lin Yi had already brought the three of them into the light door.

The spirit beasts in white reacted quickly as well, giving chase with all their might. Although Lin Yi and LAN Guzha's strength shocked them, they had to follow orders even if they had to die.

It was a pity that when they reached the door, there were only bits of sand falling from the sky. They were only two breaths too late, and they missed the chance to enter the next level with Lin Yi and the others. They didn't know how long it would take to find another exit.

Lin Yi was still digesting the information that the damn thing gave him when his vision blurred and the yellow sand disappeared, replaced by a vibrant green. Everywhere he looked, there was only green!

"Wood-elemental spirit Qi? He wants me to complete and upgrade the killing intent of the five elements!" Lin Yi blinked for a moment before a faint sense of Joy Rose in his heart.

According to the current situation, there were probably a few more floors with fire, water, and metal-type spaces. Such a precious place for cultivation was definitely a good place that could not be bought with money!

Xiao Yan, Li Zao Yi, and the others also heaved a sigh of relief. Wood-type spirit Qi was the source of life, so it was much better than earth-type spirit Qi. Just looking at it would make people feel much more comfortable.

"Boss, the suppression here doesn't seem to be as strong as before. My strength has recovered by a small level." LAN Guzha was most concerned about the details related to a fight. Naturally, he could not miss the change in his own strength.

"As expected, I've also recovered to the peak of the early stage of the mysterious Ascension realm!" Xiao Yan exhaled and a smile appeared on his face.

Lin Yi felt his own strength-he was still at the peak of the early mysterious Ascension stage. He wasn't treated well when he recovered here, and was still suppressed to the same level as the others.

"Senior ghost, this secret realm's suppression of strength level ... It can't be that you'll unlock a level after each level, right?" Lin Yi had a guess and asked the ghost for confirmation.

"You're quite smart, kid! You've even seen through this. " The ghostly thing chuckled, acknowledging Lin Yi's deduction.

"How many levels does this secret plane have?" Lin Yi's lips twitched, speechless at the thought of these things.

If there were enough floors, the pursuers behind them could recover to their peak strength, and they would be a threat to Lin Yi and the others.

"I don't know how many levels it is! I've never been here before!" Lin Yi didn't know if he should laugh or cry at how confident this thing was. So this guy didn't even come in himself, and all the information he had was from rumors?

It was hard on this thing to remember this place ... Lin Yi decided to forgive him for the details he didn't mention ...

"I can't even enter this place. It's good enough that I know so much. What else do you want?" The damn thing laughed dryly, embarrassed at Lin Yi's silence.

Lin Yi patted his forehead-it seemed like he couldn't count on the damn thing anymore. He had to rely on himself for everything. They were in a space filled with wood element spiritual Qi, and he should use this chance to perfect the killing intent.

"Boss, are these trees or vines? Which way should we go?" LAN Guzha was not satisfied with the fight earlier, so he spoke first, thinking that he might be able to encounter those white-robed spirit beasts here.

Lin Yi looked at the trunks of the plants that required two people to wrap their arms around-there were three to four palm-sized green leaves on them. It was fine to call them trees, but these plants were all twisted and intertwined with the neighboring plants-it was hard to tell if they were trees or vines.

"Let's choose a direction and move forward. This secret realm doesn't seem to have any maze attributes. We'll always find the exit if we keep walking. However, we still have to be careful. We might encounter another trial like the sandstorm from before." Lin Yi didn't have a better idea, but he was looking forward to this floor's trial. After experiencing the three-in-one training of pure Qi, spirit, and body, it would be great to experience it again.

Moreover, the perfection of the five elements killing intent also required the assistance of the trial in this space. The only thing he needed to worry about was not to cause any danger to the others.

"Don't worry, boss. This place is much more comfortable than the desert earlier. Even if there's a trial, we'll be able to handle it. " LAN Guzha patted his chest and spoke without a care.

Chapter 6298 Han Jingjing, Who's Causing Trouble

Xiao Yan and Li Zao Yi also nodded lightly. They both felt that this floor was much better than the previous one. If they were in a good state, their survival abilities would naturally be much stronger.

The four of them formed a simple defensive formation under Lin Yi's command and started moving quickly in a certain direction. The test they were expecting came as expected-the branches all over the place started dancing as if they had a life of their own. Not only did they work well with each other, but their power was also shocking.

The most annoying thing was that these branches had the effect of a trap formation. If they weren't careful, they would lock down Lin Yi and the others' mobility, and Lin Yi's array Dao had no effect in this situation.

In addition to the branches, the dense leaves were also extremely insidious killers. They looked ordinary, but no one could tell when a few leaves would suddenly launch a sneak attack from behind, causing them to be flustered for a while.

Xiao Yan and LAN Guzha's Water-type martial skills were not of much use in such an environment, so their situation was even more difficult than the previous floor.

Fortunately, Lin Yi's heaven's fortune activated at full force and absorbed half of the wood element Qi. Not only did he get the other three out of their predicament, but he also had more room for improvement.

At the same time, Han Jingjing, who was far away at the entrance of the wormhole in the middle Island Sea, was looking at the display screen in front of her with a serious expression. She was muttering something to herself.

Wang Ba stood listlessly to the side. He'd tried to take the control hub back from Han Jingjing a few times while Lin Yi was gone, but he'd failed every time. The seemingly harmless Han Jingjing had taken care of him a few times.

Now that he had lost all hope, he obediently became Han Jing Jing's immortal soul puppet. He only hoped that one day, Han Jing Jing would release him. Even if the hope was slim, it was still a glimmer of hope.

"Master, what are you saying? Do you need my help?" Hearing Han Jingjing's soft mumbling, Wang Ba quickly perked up and approached her with a flattering smile.

"There's been a lot of parts being transported from the exit at the center recently, and I've discovered that they're all important parts for assembling the flying saucer. Could it be that they want to form an Air Force on Sky Class Island?" Han Jingjing tilted her head, looking a little confused.

What she didn't know was that a few days ago, the man in the black bamboo hat from the southern island had proposed to the spirit beast clan about the flying saucer plan. Before he had proposed it, central had already begun a large amount of preparation work, such as the transmission of the flying saucer core and so on.

In addition to the development of the caged Sea area, central had the ability to mass produce flying discs. Of course, the premise was that the wormhole could continue to transport parts and the development of the caged Sea area was not affected by the sea beasts.

"So what if they form an Air Force? Is there any use?" Wang Ba didn't have much concept of the Air Force created by Science and Technology. In his opinion, an attack group formed by a large number of aerial spirit beasts was also an Air Force. What was so great about it?

"Of course it's useful. You wouldn't understand even if I told you!" Han Jingjing waved her hand. She had no intention of explaining to Wang Ba. Although she did not know about Central's plan with the spirit beast clan, her intuition told her that it was absolutely right for her to sabotage what central was going to do!

"Master, why don't we go and cause some destruction?" Wang BA's ability to read people's expressions was first-class. Without waiting for Han Jing Jing to speak, he had already taken the initiative to curry favor.

"Alright, how do you think we should destroy it?" Han Jingjing smiled sweetly. She already had a plan in mind, but it was not a bad idea to listen to Wang BA's opinion.

Wang Ba puffed out his chest, thinking that this was a good opportunity to show off. Now that his life was in han Jingjing's hands, if he wanted to be free in the future, he had to make han Jingjing feel his importance at all times.

"Master, I think we can first bring the things here, then find a way to destroy them all, and then teleport to their exit. This way, we can secretly trick them and let them play with the broken things! If central doesn't find out and still creates a large number of flying saucers, then it'll be fun!" As expected of a B * stard with a belly full of bad ideas, Wang Ba thought of such a sinister method in a flash.

Han Jingjing felt a strange sense of joy when she thought about how central had created a large number of flying saucers, but none of them could fly in the end. Unfortunately, she would not agree to this plan.

"You're right, but even if those parts are destroyed, it doesn't mean that they can't be repaired. Although it will be troublesome to repair them, central probably won't be afraid of this trouble. What should I do if I overreach myself?" Han Jing Jing shook her head and rejected Wang BA's suggestion. She

then smiled and said, ""Besides, if you want to teleport to our side, you must open the coordinates of your spiritual sense to the center. Do you really think this is a good idea?"

"Hehe ... Hehe ... It doesn't seem to be as good as I thought!" Wang Ba laughed dryly and seized the opportunity to flatter, ""Master is so thoughtful, you must have a perfect plan! Master, if there's anything you need me to do, please let me know. I'll definitely do it well for you!"

"Have you finished setting up the things I asked you to set up at the central exit? Can you activate it now?" As Han Jingjing spoke, she typed rapidly on the keyboard and entered a series of instructions.

"No problem! Don't worry, master, I, Wang Ba, am the most reliable person!" Wang Ba patted his chest and promised loudly, but he had a bad feeling in his heart.

The only use of the so-called thing that was set up at the central exit was to destroy. It was possible to imagine how powerful it was! The problem was that someone had to go over if they wanted to launch it, because no remote control could be used in the wormhole.

Wang Ba could not think of anyone else other than himself who could do this. Han Jingjing? Even if she was willing, Wang Ba would not dare to! If Han Jingjing was in danger, Wang Ba would be the one to suffer in the end!

"Very good. I'll have to trouble you to destroy that wormhole exit! This way, we won't have to worry about Central's plans!" Han Jingjing had said what Wang Ba was most worried about without even raising her head. It was just as he had expected!

"Master, although we can activate it now, I don't think it's perfect yet. If we fail this time, we might not have another chance in the future. Shouldn't we be more cautious?" Wang BA's expression changed to one of worry, as if he was thinking about Han Jing with all his heart.

Chapter 6299 Plan To Seize The Wormhole

"That makes sense. How about this? you just wait there after you start the operation. If it doesn't work, we'll carry out the second plan!" Han Jing Jing raised her head and looked at Wang Ba with a mocking smile on her face.

Wang Ba cursed in his heart, 'you're really vicious!' After activating the device, even running for his life might not save his little life. Would he not be dying fast enough if he stayed there?

However, this guy's face was filled with a flattering smile, and he nodded and bowed respectfully, ""Master's stratagems can decide victory from thousands of miles away. Everything is calculated without any mishaps. If you think it will succeed, it will succeed. We don't need a second plan at all. Should I immediately activate it?"

Han Jingjing immediately smiled. It was quite interesting to have Wang Ba around. She did not have a second plan in the first place and was just scaring him.

Han Jing Jing had planned to destroy the wormhole in the center a long time ago, so she had been preparing for it. She just hadn't been fully prepared. This time, she had discovered that the center was transporting a large number of spaceship core parts. It had happened too suddenly, so she had planned to attack immediately and completely destroy the wormhole exit in the Paralysis Center.

"Wait a moment! I'll do some more calculations!" Han Jingjing waved her hand and continued to type all sorts of commands on the keyboard.

Destroying the exit of a wormhole was not an easy task. It was not as simple as blowing it up with some explosives. The stability of the entire wormhole had to be considered.

If the wormhole at the center collapsed, it would destabilize the entire wormhole and even affect the connection to the secular world. Han Jingjing would not dare to act rashly. She would choose the plan that Wang Ba had suggested, even if it was more troublesome.

Wang Ba heaved a sigh of relief, but his heart was still in a mess. He did not even have the time to curse Han Jingjing. He could only pray that her calculation would cancel this sabotage operation.

Unfortunately, Wang Ba did not have much faith, and praying at the last minute was of no use. After only an hour, Han Jing Jing came to a conclusion.

"Although I can't be sure, there's a 70% chance that the wormhole won't be affected after we destroy the central wormhole exit. The previous arrangement has an 80% chance of destroying the wormhole exit, which is very good. Wangba, set off immediately and go to the central wormhole exit at full speed to activate the device. I'll monitor it from here. Come back as soon as you're done. If it's not completely destroyed, I'll send a large bomb over. Let's hope we can use a second strike to destroy it!" Han Jing Jing turned around, her pretty face extremely serious.

Wang BA's heart skipped a beat. Han Jing's words meant that this operation would be very dangerous, so he could not afford to waste any time. He did not care what a high-yield bomb was, it was not a fun toy after all.

"Master, don't worry. I won't let you down!" Wang Ba cupped his fists in a solemn manner, but he was cursing Han Jingjing in his heart for not taking his life seriously at all. One day, he would definitely pay Han Jingjing back double.

Of course, he had to be alive to wait for that day to come ...

After Wang Ba entered the wormhole, Han Jing stared at the red dot on the screen that represented the central wormhole exit. At the same time, she started a countdown on the other screen.

Once the countdown ended and the red dot still hadn't disappeared, she would have to take a gamble and teleport the high-yield bombs she had assembled here to bombard the exit in the center.

During teleportation, matter was in a state of decomposition, so it was extremely difficult to hit it directly. Han Jingjing was not confident that she could complete this attack, but she could only try it if she had the opportunity.

Time passed by quietly. When there was about a minute left on the countdown, the exit of the wormhole on this side started to shake violently. It was obvious that Wang Ba was faster than usual. The operation had begun smoothly, and the aftermath had even spread to this side.

Han Jingjing did not know if the exit in the secular world would affect her. She could not care about anything else at the moment. Her beautiful big eyes were fixed on the red dot on the screen. Whether the operation would be successful or not would basically be decided in this instant!

After the red dot flashed a few times, it finally disappeared completely. Han Jingjing could not help but wave her small fist and cheer.

It was impossible for han Jingjing not to be nervous-Lin Yi wasn't here, and she had to make the decision herself. If she failed, she'd be too embarrassed to face her brother Lin Yi. The good thing was that the wormhole in the center was destroyed, and from now on, the only connection between Sky Class Island and the secular world was this one in her hands!

"We must inform the secular world immediately and have them control the exit!" After getting the results she wanted, han Jingjing immediately threw herself into a new plan.

After deciding to destroy the wormhole exit at the center of the sky-class Island, han Jingjing had contacted Da Feng many times through Wang Ba, the poor errand boy. She had him act as the middleman and prepare to take the wormhole exit at the center of the secular world.

Lin Yi's trip back to the common world dealt a heavy blow to Central's strength in the common world. More than one base was destroyed, and central had to sign a truce agreement. Now that the agreement was almost up, with Lin Yi's strength in the common world, it wasn't a problem to take an exit.

Other than the power of the common world, Han Jing Jing also heard that Lin Yi's people in the ancient world could help too, so she was more at ease with the operation there.

Losing the Sky Class island's wormhole meant that the two sides would completely lose contact, and this was a good opportunity to further attack the central power of the secular world.

Wang Ba rushed out of the wormhole with a dejected face. Before he could show off his achievements, Han Jing Jing flicked a drop of Black Sea soul-consolidating liquid to him and ordered, ""Wang Ba, go to the secular world immediately and ask Da Feng to start his plan to seize the wormhole's entrance. If necessary, you should stay there and help him."

"Yes, Master. You can rest assured and leave this small matter to me!" Wang Ba accepted the Black Sea soul-consolidating liquid joyfully and immediately rushed back into the wormhole.

Of course, this guy was not as happy as he appeared on the surface. The wormhole was still unstable because one of its exits had collapsed. Wang Ba was not willing to go in now, but Han Jingjing had even taken out the Black Sea soul-consolidating liquid. If he dared to refuse, he would definitely not have a good ending.

Chapter 6300 Re-Sale

As smart as Wang Ba was, he would not do such a stupid thing. Now, he just wanted to perform well and hope that he could regain his freedom one day. However, he would definitely curse in his heart ...

A few days later, at the central Chamber of Commerce in Nakajima, Zhaoming was just waiting to receive a new batch of goods when he was told that they were out of stock.

"Liang bro, what's going on? Would we still be lacking those who have already been eliminated from the secular world? Is there a problem with the transportation?" The Chamber of Commerce's goods were all sold out, and they were going to close if they didn't have enough stock. As the temporary manager, Zhaoming was still very responsible. He came to Pinliang to discuss the matter.

The kid wanted to achieve something and step on Pinliang, so he didn't want anything to go wrong with what he was doing. It was understandable that he was in a hurry.

"It's not a problem with the transportation. I heard that there was a problem with the supply of goods from the headquarters. It's being handled as soon as possible. You don't have to worry." Pinliang waved his hand calmly, as if he were a general who wouldn't flinch even if Mount Tai collapsed.

Zhaoming was quite impressed, but what he didn't know was that pinliang's heart was elsewhere. It was already a miracle that pinliang didn't jump up and clap for the Center's trouble.

"But Liang bro, business has been good these days, and we don't have much to sell. If we don't get any new goods, we'll have to close down for now-that'll damage the central Chamber of Commerce's reputation!" Zhaoming shook his head with a bitter smile. He wasn't to be blamed, but the closing happened when he was in charge-it was a stain that couldn't be erased. It wasn't good for his future development in central.

"There's nothing we can do about closing the shop. It's better than having nothing to sell to the customers, right?" Pinliang sighed on purpose, trying to hold back his laughter and put on a worried look.

"You're right ... Right, Liang bro! I heard that the heavenly elixir Chamber of Commerce's supply of goods is very normal. Why don't we go to the heavenly elixir Chamber of Commerce first to secretly purchase goods, and then sell them in the central Chamber of Commerce? although we can't make much money, at least we can maintain our daily business. If we can cause problems in the supply of the heavenly elixir Chamber of Commerce, then it'll be killing two birds with one stone!" Kang Zhaoming suddenly thought of this idea and he felt proud.

This genius's mind was really extremely intelligent! Too bad the higher-ups were blind to let this idiot Zhong pinliang be my leader, Hmph! One day, this young master will step on this fool's head to climb up the ranks!

Kang Zhaoming glanced at Zhong pinliang disdainfully and smiled as he waited for Zhong pinliang to judge his idea.

"That's a good idea, but if people find out that we're purchasing goods from the heavenly elixir Chamber of Commerce, won't our reputation be ruined? it'll be hard for us to make a comeback in the future. Do you really want to take this risk?" Pinliang pondered for a while before looking at Zhaoming with uncertainty.

In fact, Zhong pinliang wouldn't object to this plan. Kang Zhaoming's visit to the heavenly elixir Chamber of Commerce was the same as giving Lin Yi money. Why would he reject such a good deal? However, in his position, he had to show some attitude so that he would not be implicated in the future.

"Liang bro, how is this a risk? no one will know that we bought it anyway. The heavenly pill Pavilion doesn't put a label on the common world's goods, so it's our own stuff!" It was rare for Kang Zhaoming to come up with such a brilliant idea. Of course, he wouldn't give it up so easily. He immediately thought of a way to fight for it.

Pinliang didn't plan on stopping him in the first place, and went with the flow."Alright, since you insist, then let's do it!"

"Many thanks, Liang bro! I'll arrange for someone to make a secret purchase. No one will find out that we're buying from the heavenly pill Chamber of Commerce!" Zhaoming was overjoyed, patting his chest as he promised that he could handle it.

Pinliang said a few fake words of encouragement before sending the excited Kang Zhaoming off to work.

Because the central Chamber of Commerce had a problem with their supply, the heavenly elixir Chamber of Commerce's business was booming all of a sudden. Kang Zhaoming's men bought a batch of goods with great difficulty, and they immediately removed all traces of the heavenly elixir Chamber of Commerce and put them on sale.

Although the shelves were still a little empty, it was enough to keep up the facade. In addition, most of the customers had gone to the heavenly elixir Chamber of Commerce, so this place could still be maintained for the time being.

"Shopkeeper, the people I found said that the heavenly pill Chamber of Commerce has sold out all their goods today. Besides elixirs and automatic alchemy furnaces, there's nothing else for sale." One of the workers from the central Chamber of Commerce whispered into Zhaoming's ear when he saw no one around.

"Well done. Have your men continue to keep an eye on the heavenly elixir Chamber of Commerce. Other than elixirs and automatic alchemy furnaces, as long as the heavenly elixir Chamber of Commerce has new goods on the shelves, buy them immediately and send them back!" Zhaoming nodded approvingly at the guy, even patting his shoulder as if saying "you have a bright future ahead."

"Yes, don't worry, shopkeeper. I'll definitely do it well. There won't be any problems!" The waiter smiled and flattered Kang Zhaoming a little more before bowing and leaving.

"Hehe, it seems like the heavenly pill Chamber of Commerce's supply of goods is also very tight. How could there be so many people buying it? Hmph, tomorrow I'll arrange for someone to secretly spread the news that there's a problem with the heavenly pill Pavilion's supply of goods, and our central Chamber of Commerce's lost customers and reputation will be back. I just don't know when the headquarters will be able to restore their supply. No, no, before the headquarters settle the matter, we can't use this killer move for the time being, or else we'll break our own feet." Kang Zhaoming muttered to himself, shaking his head and giggling from time to time. Those who didn't know better would think that he had met someone with mental problems ...

In fact, Zhaoming was completely wrong. The heavenly pill Chamber of Commerce's sudden shortage wasn't only because of the central Chamber of Commerce's concentrated flow of customers, but also

because of Zhaoming's own secret purchases. All the goods they prepared were taken away in an instant.

However, han Jingjing's wormhole exit was in the middle Island Sea. How much time would it take to go back and forth? Very quickly, new goods were delivered to the heavenly elixir Chamber of Commerce. The process of transferring the goods and re-opening the sales process was completed in a short time.

It didn't take long before the employee came running over to Zhaoming with joy, "Shopkeeper, the heavenly pill Chamber of Commerce has started selling again. My men have used up all their funds this time and have purchased a large number of goods, enough for us to sell for a few days. If it's not enough, we can continue to purchase more. The people from the heavenly pill Pavilion said that for a big customer like us, we will definitely prioritize the supply of goods. "
