

Bodyguard 6301

Chapter 6301 Buy Buy Buy

Zhaoming was dumbfounded-he was just about to see the heavenly pill Chamber of Commerce make a fool out of themselves, how did they get so many now? Could it be that his previous guesses were all wrong, and there was no problem with the heavenly pill Chamber of Commerce's supply of goods?

The answer was obvious. If there was a problem, where did the thing he got come from?

"Buy! Continue buying! We'll buy as much as they have. We need to fill up at least one warehouse!" Kang Zhaoming clenched his teeth and made the decision. He didn't believe that the heavenly pill Chamber of Commerce could supply an unlimited amount of goods. If even the headquarters couldn't do it, how could they do it?

Then, a strange phenomenon occurred in the heavenly pill Chamber of Commerce. No matter how many products they put on the shelves, they were all sold out in a very short time. There were a few people who were buying them, and their faces looked a little unfamiliar. They basically stayed in their own areas and did not interact with each other. However, anyone with eyes could tell that they were probably working together.

When the higher-ups of the heavenly elixir Chamber of Commerce heard this news, they just smiled and didn't pay much attention to it. Han Jing Jing had told them long ago that there would be a problem with the central Chamber of Commerce's supply of goods, and it was very likely that the other party would purchase in secret from the heavenly elixir Chamber of Commerce and sell them as their own goods again.

Han Jingjing welcomed such an act. The items in the secular world did not cost much at all. Since the central Chamber of Commerce was willing to send spiritual Jade to her doorstep, there was no reason for her to reject it.

In any case, it didn't matter who they sold it to. With such a forthright purchase, the heavenly pill Pavilion Chamber of Commerce would save a lot of trouble.

Zhaoming's face was pale as he looked for pinliang again. He finally realized that something was wrong.

"Brother Liang, brother Liang, how come the heavenly pill Chamber of Commerce has an endless supply of goods? No matter how many we buy, they always put new products on the shelves. This is so weird!" Kang Zhaoming felt the pressure as high as a mountain. He bought a lot of things, but his business didn't recover much.

The popularity of the heavenly elixir Chamber of Commerce had already been established, and the central Chamber of Commerce could not easily shake them off. Moreover, their own purchases had also caused the atmosphere there to become more and more lively, causing more people to go to the heavenly elixir Chamber of Commerce to shop. No one even wanted to go to the central Chamber of Commerce.

This point was similar to the popular and non-popular products in the secular world. In fact, there was not much difference between the items. However, the more popular an item was, the more people would pursue it. There was no reason at all.

Kang Zhaoming was worried that the central Chamber of Commerce would have to close down if they didn't have enough stock. Now that they had the stock, they didn't have any customers. There were too many things that they bought from the heavenly pill house. Almost all of the Chamber of Commerce's liquid funds were invested into it. If they couldn't cash them out, it wouldn't be a problem of closing down, they would have to close down.

"It's been confirmed that there's a problem with the headquarters 'wormhole. If it can't be repaired, I'm afraid this business can't continue in the future. Had the heavenly elixir Chamber of Commerce stopped their purchase? There's no point in continuing. If you haven't stopped, then quickly stop. " Pinliang was secretly happy, but he put on a worried face-his acting was amazing.

"It's already been stopped because there's not enough funds!" Zhaoming's mind was in a mess as he mumbled to himself, his brain racing to think of a way to end this.

Sell off the goods he bought from the heavenly pill Pavilion Chamber of Commerce at a discounted price? Although there would be losses, it was better than not being able to recover any money, right?

Or transport this batch of things to other islands to sell? The heavenly elixir Chamber of Commerce didn't seem to have opened branches on other islands at the moment, so they wouldn't encounter any competitors if they transported the goods out. The problem was that the prices on other islands were lower than those on Middle Island, which was not much different from a discount sale. Moreover, the transportation cost was not a small expense, so losses were inevitable.

With that thought, Zhaoming felt that his future at central was dark beyond comparison! It wasn't easy for them to have a little hope, but now, all that was left was despair!

"Kang Zhaoming, you don't have to worry too much about this. After all, your intentions were good. I've explained to the headquarters that there wasn't a big problem with how you handled the situation, so the headquarters won't punish you. After all, the headquarters is also responsible for the mistake of the supply, and it has little to do with you. " Pinliang stood up and patted Zhaoming's shoulder, comforting him.

But this didn't make Kang Zhaoming feel grateful at all. Instead, he was secretly resenting Zhong Pingliang, thinking that this guy was just hitting him when he was down. At the same time, he tried to

draw a clear line between him and the headquarters. It went without saying that the credit was Zhong Pingliang 's, and all the responsibility was on Kang Zhaoming!

Alright, there was nothing wrong with that-Zhaoming would've made the same choice if he were in his position. After all, it was only right for him to take the blame since he was of a lower status than the others.

In fact, Zhaoming's worries were unnecessary. Central had been in Sky Class Island for a long time, and they'd already earned a huge amount of spiritual Jade. The higher-ups wouldn't even care about the spiritual Jade he spent on the heavenly pill Pavilion's goods.

On the contrary, it was because of Kang Zhaoming's sudden idea that the higher ups in central noticed something strange about the heavenly elixir Chamber of Commerce. They would naturally have a clear record of how many of the goods that came out of the central wormhole belonged to the heavenly elixir Chamber of Commerce. Since the central Chamber of Commerce in Middle Island was out of stock, the heavenly elixir Chamber of Commerce shouldn't have been able to hold on for so long.

All the clues pointed to the fact that the heavenly elixir Chamber of Commerce had another channel for their goods, and these goods only existed in the secular world. The result was clear-Lin Yi had found a new wormhole entrance!

With such a deduction, it was basically clear why the wormhole exit at the center had been destroyed!

Pinliang sat back in his chair and smiled at the anxious Zhaoming, but his heart was a little complicated.

The central Chamber of Commerce discovered that Lin Yi's side might have a clue to the wormhole exit, and not only were they not punished, they were even rewarded. Of course, the reward was all on Zhong pinliang's head. Kang Zhaoming didn't know about this, and that's why he felt that his future was dark.

Thinking about how Lin Yi not only had the entrance and exit of the wormhole, but also destroyed the exit in the center, pinliang felt that he'd made a wise decision. He'd never had a good time when he went against Lin Yi before, but now that he'd followed Lin Yi, he was doing very well! The difference was obvious!

Pinliang wasn't sure if Lin Yi was the one who destroyed Central's wormhole, but he was 80% sure that it was Lin Yi. The one-year truce between Lin Yi and central was coming to an end soon, and he was looking forward to what would happen next.

Chapter 6302 Cultivation In The Secret Realm

Lin Yi didn't know about the wormhole at all-he was busy training in the southern island's Secret realm.

After the wood-element space, he went through the fire, water, and metal-element space. In just a few days, Lin Yi felt like he was reborn, and his strength increased by leaps and bounds. He still hadn't broken through to the mountain opening stage, but his combat strength was several times stronger than before.

"Senior ghost, this Mystic realm seems to be tailor-made for me. Hurry up and think if there's such a place. Let's go and take a look. It's rare to come here!" The metal element trial was over, and Lin Yi sighed in his heart. If there were a few more secret realms like this, he might not be able to fight against sea-shattering cultivators, but he wouldn't need to use too many trump cards Against earth-opening cultivators.

His five-element killing intent had also undergone a tremendous change after absorbing the spiritual Qi from the five secret realms. It was stronger and more condensed, and even with Lin Yi's previous

strength, the power would increase by several times. Not to mention now, even Lin Yi himself couldn't be sure how terrifying the five-element killing intent was.

"You brat, do you really think that Mystic realms are like cabbages on the side of the road that you can find one or two at will? It's even rarer for you to be able to enter one that's suitable for you to cultivate the heaven seizing fortune. It's already a great opportunity for you, don't be too greedy. " The demonic thing laughed evilly as it lectured Lin Yi.

If there was a place like this, the thing wouldn't be stingy. The stronger Lin Yi was, the more benefits he would get. Unfortunately, this kind of secret realm was hard to come by. If it wasn't for the fact that it wasn't useful to the spirit beast clan, Lin Yi wouldn't be able to come in as he pleased.

Other than Lin Yi, the others didn't get much benefits. They only got a certain level of improvement in the space of their own primary spirit roots. Even so, it made them very happy. If it wasn't for the extreme danger of entering this secret realm by Lin Yi's side, and the high chance of death from the White-clothed spirit beasts that appeared from time to time, how could they get any benefits?

"You're right, I was indeed a little greedy. " Lin Yi smiled and didn't continue to hope. The ghost's spirit hadn't recovered yet, and even if there were other similar realms, he might not remember them clearly, ""I've already experienced the five elements of metal, wood, water, fire, and earth. Will there be more elemental spaces like wind, Thunder, and ice?"

The five elements killing intent had been greatly improved-Lin Yi would be laughing in his dreams if he could strengthen his lightning escape technique as well.

"You'll know when you go over! However, according to my speculation, this trip to the mystery Land is most likely coming to an end. You'd better be prepared to be hunted down by the experts of the sea splitting stage as soon as you go out!" The demonic thing laughed strangely again. He didn't know how

many levels this secret realm had, but the chances of leaving right away after the five elements space were high. His warning to Lin Yi wasn't just for show.

"Many of the spirit beasts in white at the earth formation stage have been killed in this Mystery Land. Even if we leave, they may not be able to come out in time. It's not too difficult to deal with one or two Spirit beast experts at the sea splitting stage." Lin Yi smiled faintly, full of confidence.

His strength was no longer what it used to be. In a normal battle, he could already exchange blows with ordinary earth splitting stage experts. If he used many of his unique skills, even if he still wasn't a match for a sea splitting stage expert, he should have no problem holding on for a while.

Especially after the five elements killing intent was strengthened, its power was definitely worth looking forward to. With the Black Pearl in his hand, Lin Yi had enough confidence to say something like that.

While the two were communicating through their divine senses, Lin Yi had already brought LAN Guzha and the others to the exit of this space. They didn't know if the other end was another level of the secret realm or if they had left the secret realm directly.

But Lin Yi didn't dare to be careless after getting the warning from the ghostly thing. He flipped his hand and took out a Black Pearl, ready to activate it at any time.

When the four of them passed through the door, Lin Yi felt the pressure on him disappear completely. His strength returned to the peak of the mystic Ascension realm. Of course, there was probably no one in the past or in the future who could reach this level.

Although Lin Yi had already reached the state of splitting the mountain with a thought, he wasn't in a hurry to break through after this secret realm training. The potential of the battle tactics of heaven's stolen fortune hadn't been fully explored yet. Lin Yi felt that if he broke through now, even if he could perfectly split the mountain, it was only perfect on the surface. When his pure Qi, spirit, and body all reached their peak state, then he would break through, which was true perfection!

"Boss, we've left the secret realm?!" LAN Guzha exclaimed softly. He immediately got into a fighting stance and prepared to receive a possible enemy's surprise attack.

This guy had improved a lot. He was now at the late-stage of mountain-opening, but because of his mutated physique, his combat power could still easily challenge those of a higher level.

"Brother Lin, be careful. The spirit beast clan's pursuit will not end with a weak start. We still need to be more vigilant!" Xiao Yan's strength had also fully recovered, even rising a little, but after this incident, he was completely convinced by Lin Yi.

"Brother Xiao's words are reasonable! LAN Guzha, Li Zao, both of you be careful. " Lin Yi turned to the two men and extended his spirit sense.

Now that Lin Yi's spirit sense had been trained in the secret realm, it was much stronger than before he entered the secret realm a few days ago. The range and concealment of his senses had improved.

When he had encountered a cultivator at the sea split realm, he had been a little afraid and didn't dare to use his Holy awareness to check. Now he was confident that as long as it wasn't the four great elders of the spirit beasts, he could use his Holy awareness without worrying about being detected.

"There are indeed Two Spirit beast experts at the sea split realm! It seems like they won't be willing to go back until they see me killed with their own eyes!" Lin Yi's lips curled up into a cold smile. He didn't know who sent these Masters in white, but as long as he could kill them, he could weaken the strength of the spirit beast clan.

"Lin Yi, they're two sea shattering realm Masters. Let's leave this place quietly!" Li Zao Yi didn't really care about her own safety, she was worried that Lin Yi would be too strong and do something dangerous.

After all, they were experts at the sea splitting stage, and there were two of them! Li Zao Yi didn't think that Lin Yi would be a match for the enemy. The best plan was to run.

I heard that when the new personal expert web-based game was released yesterday morning, the server instantly exploded! The energy that the new and old book friends released as they worked together was too terrifying!

The new personal expert was completely different from the past! In this unique game world, everyone was a martial arts expert. Not only could they experience the absolute beauty of the school beauties, but they could also experience the erotic plot that was not in the original work. They could even meet the baby fish in a picturesque scene and receive special gifts.

In the end, baby fish applied for a batch of luxury gift bags for everyone. Remember to collect them from the WeChat official account!

Chapter 6303 Power Test

"Don't worry, I know what I'm doing. I can test its power. " Lin Yi smiled and consoled her.

Other than the strengthened killing intent, he also wanted to test the black bead in his hand! He had two of these black pearls, and each of them could attack three times. Although the big Frog said that it could instantly kill normal sea Rift realm cultivators, Lin Yi's judgment might be wrong if he didn't try it. It was necessary to confirm the power of the black pearls first.

Worry flashed across Lizao Yi's eyes. She knew that once Lin Yi decided on something, he wouldn't change his mind. Plus, the situation wasn't good for a proper discussion, so she could only keep silent.

Before Lin Yi could make a move, the two Spirit beasts in white had already noticed them. One of them blocked the surroundings to prevent Lin Yi and the others from escaping, while the other charged at Lin Yi without a word.

"You guys be careful!" A cold light flashed in Lin Yi's eyes-the two were a bit too arrogant, and didn't come at him in pairs, which was to his advantage.

He didn't know how powerful the Black Pearl was, but it would be more troublesome to deal with two sea split realm spirit beasts at the same time. Lin Yi wanted them to split up and attack.

He activated his lightning escape technique instantly. With a flash of lightning, Lin Yi appeared in front of the attacking sea Rift spirit beast. In terms of speed alone, Lin Yi's lightning escape technique wasn't inferior to this guy at all.

"Your courage is commendable. I will give you a quick death as a form of appreciation!" The spirit beast in white sneered as it raised its hand and formed a giant palm with pure Qi, slamming it down at Lin Yi.

With the huge difference in their levels, Lin Yi's actions were like an egg hitting a Rock-It was normal for the spirit beast to look down on him.

Even the speed that Lin Yi was so proud of was only a little faster in the eyes of the opponent. After all, it was only the second level of the lightning escape technique. The difference between the sea shattering stage and the xuansheng stage was enough to cancel out the advantage of the lightning escape technique.

Just as Lin Yi got close to the target, he felt like the whole space was frozen. The huge palm covered all the places he could Dodge to. It was the first time he faced a master of the sea shattering realm alone, and Lin Yi realized that the difference in strength between the two was like the difference between heaven and earth!

He couldn't even think about counterattacking right now. Even a little space to move around was a dream. Fortunately, Lin Yi had already activated the Black Pearl when he came over. Otherwise, he might have been killed by the spirit beast in white in an instant!

A thin black line shot out from Lin Yi's palm, and the space that was frozen by the white spirit beast's palm started to loosen. Lin Yi felt like the mountain on his body was split in half, and all the pressure was pushed to the sides.

It wasn't just the spirit beast's genuine Qi palm that was split in half. The black line cut through his body from head to toe and split into two equal halves. The shock in his eyes had just appeared when he felt the whole world was split into two halves, collapsing to the left and right.

It was not the world that collapsed, but the body of the spirit beast in white. There was no blood on the wound, only black mist. Before the body fell to the ground, the black mist had completely destroyed the two halves of the body. Under the gentle breeze, not a trace was left.

Lin Yi almost threw the black bead away. The big Frog didn't lie to him. It said it could instantly kill sea Rift cultivators, and it really could. The effect was shocking!

As an expert in the area of primordial spirit, Lin Yi knew very well that the spirit beast in white, a Grand Master of the sea shattering realm, was completely annihilated. Whether it was its body or primordial spirit, it didn't even have the chance to escape!

Overbearing! It was too overbearing!

Even if the four elders were here, they'd have a headache facing the Black Pearl's attack. If Lin Yi faced it himself, he'd end up just like the Dead Sea Rift realm cultivator.

"What did you do?!" The White-clothed spirit beast at the sea split stage who was watching the battle didn't even know how his companion had died. It was precisely because of this that he was even more terrified.

If he attacked Lin Yi at the same time his friend died, Lin Yi might not be able to react in time, and it would be difficult to activate the black bead a second time. However, this guy's hesitation gave Lin Yi the most precious breathing space.

Activating his lightning escape technique again, Lin Yi instantly appeared beside the spirit beast, but the Black Pearl didn't activate. It wasn't that Lin Yi didn't want to activate it, but the spirit beast was too afraid to fight Lin Yi head-on. Seeing the lightning arc coming at him, it dodged as fast as it could.

Lin Yi wasn't sure if he could lock on to his opponent, so he wouldn't use the Black Pearl. After seeing its power, he wouldn't waste any chance to attack.

He didn't even have the chance to attack before, but now he had the chance to test out the new five elements killing intent.

The spirit beast's face was extremely ugly. The Dragon-shaped killing intent of the five elements circled in the air, moving as if it had a life of its own. With Lin Yi's lightning escape technique flashing continuously, it blocked the spirit beast within a certain range.

The spirit beast was confident that it could take the Dragon's killing intent head-on and break it. At most, it would only suffer some superficial wounds, which would heal in a breath's time. However, if it did that, it would have to stop for a while. It didn't know what Lin Yi did to kill its companion, and it didn't want to take the risk.

Xiao Xiao was dumbfounded as he watched from a distance. He'd been overestimating Lin Yi, but he'd still underestimated him too much. He killed a sea Rift realm cultivator in one move and then suppressed the other one. Such a powerful person hadn't even cracked his mountain yet? Was Lin Yi too insane, or was the world too crazy?

In fact, Lin Yi's own strength obviously couldn't do this. The current situation was completely due to the shock of the black bead's terrifying destructive power, and the speed of his Thunder escape technique, which barely held back the spirit beast in white. If it wasn't for the threat of the black bead, the other party could kill Lin Yi with one slap.

Li Zao Yi only let out a big breath of relief after seeing the first spirit beast in white get killed. Of course, she knew what Lin Yi was using, but this kind of terrifying power really surprised her. The big Frog wasn't a simple person indeed, even the tools it made were so powerful!

"Boss is so powerful, beat that bastard to death! Come on, come on!" LAN Guzha applauded for Lin Yi heartlessly. This guy really wanted to give him a kick, but both of them were too fast and couldn't keep up with the rhythm. He'd only be a burden if he went.

Chapter 6304 Aren't You Afraid Of Being Struck To Death?

There was clearly an earth-shattering fight to be fought, but he couldn't get involved. LAN Guzha was very anxious in his heart. He could only hold back his strength and shout, imagining that he was dealing with the sea Rift stage spirit beast expert with his boss.

"Is this all? Then prepare to end it!" The spirit beast in white suddenly laughed coldly. He thought that he had seen through Lin Yi's plan. No matter what killed his companion, he would only do it when he was facing the opponent. This human ant kept chasing him because he wanted this opportunity.

As for the five-colored Dragon killing intent, it was powerful, but not enough to seriously injure him. So, other than killing Lin Yi directly, the only way to get out was to break through the Dragon-shaped killing intent without any obstacles!

Now that it knew what it could do, the spirit beast had a plan in mind. It was too dangerous to kill Lin Yi in a direct confrontation-he might be killed by him instead. The safest way was to break the Dragon-shaped killing intent, even if it only needed to delay it for a while.

Countless tiny threads of pure Qi were released by the spirit beast, and if one didn't pay attention, they'd think that it was the residual Qi left behind by its extreme speed. There were already threads of pure Qi floating in the air from the very beginning, and Lin Yi didn't really care.

It wasn't until the spirit beast finished speaking that Lin Yi realized that something was wrong. The Qi threads floating in the air were all tangled together, forming a huge Qi net that covered Lin Yi and the Dragon killing intent.

An inescapable net!

Lin Yi's heart sank. Unfortunately, it was too late to leave the range of the Qi net. He could only continue to pursue the white spirit beast. The power of the black bead had been proven. As long as he could lock on to the beast, everything would be solved!

The moment the giant net was formed, the originally agile Dragon-shaped killing intent of five elements began to slow down. Although it could tear some of the true energy grid, it was not of much use as a whole. After all, this was a martial technique formed by the true energy of a spirit beast Master at the sea splitting stage. It was by no means easy to get out of it.

The white spirit beast's body was constantly changing as it moved around in the net, not giving Lin Yi a chance to lock on to it. At the same time, it kept on launching fast attacks to exhaust the Dragon's five elements killing intent.

If it wasn't for the strengthening in the secret realm, the Dragon's killing intent would've been destroyed by the white spirit beast. It could still maintain its shape, but it was constantly weakening and retreating. Lin Yi's problem of cooperating with it was gone.

"This guy wants to get out of my attack range first?!" Lin Yi suddenly realized that the Black Pearl was much more powerful than he thought. The spirit beast was trying to get away from Lin Yi instead of killing him.

Understanding this point, Lin Yi immediately controlled the Dragon to retreat. The spirit beast in white was very effective in weakening the Dragon's killing intent, so he didn't doubt it at all.

The opening was big enough, and Lin Yi quietly used his spirit sense whirlpools to spread out at the places where the white spirit beast might appear. He gritted his teeth and activated the black bead, launching a desperate attack at the opening left by the Dragon-shaped killing intent.

Lin Yi's spirit sense was already very strong. Even if the spirit sense Whirlpool couldn't directly tear the spirit of the spirit beast, it was enough to alert it and make him afraid. As a result, the only choice the spirit beast had was the opening that he created!

If it wasn't for the consciousness vortex, the spirit beast might've thought of killing Lin Yi after repelling the Dragon-shaped five elements killing intent. After all, the situation was to its advantage now. Lin Yi was in the giant net, and as long as he avoided any direct attacks, the chances of success were quite high. However, after suddenly encountering the consciousness vortex, the spirit beast didn't have any other thoughts. It just wanted to open up a distance and attack Lin Yi from a long distance.

And so, this spirit beast in white was in trouble. His speed was extremely fast, and as soon as he touched the vortex, he felt the threat to his soul, so he immediately chose to break through the opening. It had to be said that sometimes, being too fast was also a tragedy. If he was any slower, Lin Yi's gamble-like attack would've passed him first. However, he was fast enough, and as soon as he reached the opening, he was greeted by that tiny black line!

"How did this happen?" Before the primordial spirit of this sea split stage spirit beast in white was destroyed, he was still puzzled. He had been extremely careful, but in the end, he was still killed by a human ant at the xuansheng stage. He really did not die in peace!

Lin Yi let out a long breath as his back was covered in cold sweat. He seemed to have killed the two sea Rift realm spirit beasts easily, but in fact, it was the big frog's Black bead that had done the best. Without it, Lin Yi's moves would only cause minor injuries to the sea Rift realm spirit beasts at most, and he would be the one who would die in the end.

When he had free time, he'd go into closed-door cultivation and complete his xuansheng stage's consciousness, Qi, and body. Then, he'd immediately break through to the mountain split stage. As more and more powerful enemies appeared, Lin Yi's desire for strength grew.

He could split open a mountain with a single thought, but he knew that there was still potential to be discovered. He wouldn't kill the goose that laid the golden eggs-he still had room to turn things around before he used up his trump card.

The giant net in the air disappeared along with the white spirit beast as it turned into black smoke. Xiao Yan suppressed the shock in his heart and suddenly felt that even if he didn't have any guards or reinforcements, as long as he followed Lin Yi, he would be able to return to the sea beasts "territory.

"Boss, you did a great job. Next time, if there's a chance like this, can you let me have a try?" LAN Guzha ran over, his eyes on the black bead in Lin Yi's hand.

LAN Guzha had been kept in the Jade space in the illusion fog space, so he'd never seen the big Frog before. Naturally, he didn't know how powerful the black bead was, but after seeing it with his own eyes, it was impossible not to be envious.

"When you can keep up with the speed of my lightning escape technique, I'll let you have some fun!" Lin Yi smiled and put the Black Pearl away.

It was not a big deal to give this Pearl that only had one more chance to attack to LAN Guzha. However, this fellow did not hold back when he attacked. It would not be good if he wasted it. Even if he had to give it to LAN Guzha, he would only use it when the situation was critical.

"The lightning movement technique! Boss, can you think of a way for me to learn the lightning evasion technique?" LAN Guzha's eyes darted around as he leaned in to Lin Yi with a sneaky smile.

Lin Yi couldn't help but smile-he didn't have lightning spiritual roots, but he wanted to learn the lightning escape technique. Wasn't he afraid of being struck to death before he could even master it?

Chapter 6305 An Extremely Grateful Promise

"Do you really think that I'm omnipotent?!" Lin Yi shook his head and glared at LAN Guzha before turning to Xiao Yan and Lizao Yi,"We can't stay here for long. This group of people doesn't seem to be the same as the previous ones. It seems like our lives are in great demand. After they fail, they will definitely send more powerful enemies to hunt us down."

"Brother Lin is right. Then which direction should we go in?" Xiao Yi was completely convinced by Lin Yi's power-he nodded in agreement and asked for Lin Yi's opinion.

"Lin Yi, if we go back, won't we be out of their expectations?" It was rare for Li Zao Yi to open her mouth, but her suggestions were very useful.

"A surprise attack? The enemy would not expect that we would turn back after being chased. However, if more people come after us, I'm afraid there will be more experts at the sea splitting stage. The enemy's spiritual awareness will probably discover us. Instead of that, it's better to speed up and reach the seaside as soon as possible. " Lin Yi didn't object to going back since the pig was still searching for

forbidden areas around the palace. It was just that there were a lot of things that were inconvenient with Xiao Yan by his side.

Lizao Yi was very smart. Although Lin Yi didn't say it clearly, she understood it instantly, especially when she thought about the Black Pearl in Lin Yi's hand. It had already used up two attacks. If they really angered the spirit beasts, the remaining four attacks might not be enough to protect everyone.

In fact, they were almost at the point of falling out with each other. The experts of the sea splitting stage were not cabbages. Even among the spirit beast clan, they were extremely precious and rare high-end combat forces. It was impossible for them to settle this peacefully after losing two of them at once.

"Brother Lin's words are reasonable, and miss lizao's idea is also very good. However, it's more secure to advance faster, so let's hurry!" Xiao Yan naturally supported Lin Yi unconditionally. After confirming it with Fang Zao Yi, he urged them to leave immediately.

So many days had passed, and he didn't know what yang Tianwen and yang wenshao's situation was like. In any case, Xiao Yan couldn't count on them right now, and it was safer to follow Lin Yi.

As long as he reached the seaside, he would be able to call for reinforcements through the sea beast clan's communication means. Even if the reinforcements had not arrived, after the Dragon entered the sea, the safety would be increased many times.

Everyone reached an agreement. After slightly identifying the direction, they immediately set off.

Not long after, Lin Yi's spirit sense suddenly found a small spatial crack in the forest. Calculating the location, it was near the area where he entered the illusion fog space last time.

"It seems that the big Frog is a little anxious. From time to time, it will create some inconspicuous space rifts here to get information. It's better to inform him." Lin Yi thought to himself and used the thread of consciousness left by the big Frog to communicate with a little spirit beast in the bag.

Xiao Yan was not familiar with spatial rifts and his attention was completely focused on defending against the spirit beast clan's pursuit. Thus, he did not notice that the illusionary fog space's spatial Rift was looming not far away.

"I've already found two forbidden places of the void essence chain. If I want to remove your seal, I still need to find the other three forbidden places. However, I'm being chased by the Masters of the spirit beast clan, so I can't do this myself for the time being. I can only send someone I trust to help. As long as I find all the forbidden areas, I'll immediately break the seal for you!" Lin Yi's spirit sense kept leaving messages on the little spirit beast.

This was a puppet made by the big Frog, so it could read Lin Yi's message. As long as the little spirit beast was sent back to the illusion fog space, it could at least calm the big Frog down.

"Please take good care of my friend, Wang Shiyang. I hope to see him in perfect condition after I break the seal in the future! In addition, if you find the two human cultivators with the surname Zheng in the illusion fog space, please help me capture them and lock them up so that I can use them in the future!" Lin Yi's current enemies were all earth formation and even sea splitting stage cultivators. Those two shameless villains from the Zheng family were no longer worthy of his attention.

They were just two small ants at his feet. Killing or not killing them was just a thought. Now, he kept them mainly because he promised Zheng Dongsheng.

After he was done, Lin Yi let the spirit beast out of the bag and let it go on its own. The spatial crack in the illusion fog space was not far away, so he didn't have to worry about the little thing not finding its way home.

Xiao Xiao and LAN Guzha didn't notice Lin Yi's movements, except for Li Zao Yi. Li Zao Yi only noticed the little spirit beast's departure because he had a wisp of the big frog's consciousness in his body. It was clear that this little thing's concealment technique was quite impressive.

After getting rid of the connection with the frog, Lin Yi could finally escape with Xiao Xiao without any distractions. He didn't know if the spirit beast clan felt that the lineup they sent out was enough to get rid of them, or if they didn't react in time after receiving the news of failure, but they didn't encounter any more spirit beast Masters on their way.

Xiao Yan heaved a sigh of relief after he made it to the seaside. Even if the Vermilion Bird was here, he would still have a chance to escape. The home ground advantage was just that great!

"Brother Lin, it's all thanks to you this time. Otherwise, I would have been in danger!" Xiao Yi held Lin Yi's hand, expressing his gratitude sincerely.

"Brother Xiao is too polite. We're just helping each other. We're all in the same boat, so we were able to escape successfully. Moreover, we're all brothers, so there's no need to be so polite!" Lin Yi smiled, naturally not taking credit for it.

Xiao Yan may seem arrogant and cold at first, but he's actually a good person after getting to know him. Moreover, with him around, the spirit beast clan and Central's plan to form an alliance with the sea beasts will be completely destroyed. They will turn the enemy's ally into their own ally, and the strength of both sides will be infinitely closer.

"Well said! Brother Lin and LAN Guzha, both of you are my brothers. If you need my help in the future, just let me know. If I, Xiao Yan, can do it, I will do it without hesitation!" Xiao Yi laughed as he made his promise, and Lin Yi was overjoyed.

With Xiao Yan's words, the islands would be much safer in the future, and the dangerous sea routes would become peaceful. Of course, this was only to Lin Yi-Xiao Yan wouldn't acknowledge anyone else.

As for the sea Expedition between the spirit beasts and the center, Lin Yi believed that the sea beasts wouldn't just stand by and watch, no matter if they had other plans or not. Some small damage would be inevitable.

On the side, Li Zao Yi had a smile on her face and didn't join in. After all, she didn't have a deep relationship with Xiao Yi, and with Lin Yi and LAN Gu Zha here, she didn't need to have a deep relationship with Xiao Yi.

Chapter 6306 Heading To The Platform In The Sea

"Brother Lin, where are you and Miss Li Zao going? LAN Guzha and I will send you there. Once you're in this endless ocean, you can go anywhere you want!" Xiao Yi patted his chest, determined to repay Lin Yi.

He wasn't bragging. As the Prince of the sea beast clan, he could travel through the sea area that was extremely dangerous to others as if it was flat ground. No matter how powerful the sea beast was, it wouldn't dare to show the slightest disrespect to His Highness.

"Alright, let's go to this place first!" Lin Yi didn't argue-he wanted to go to the platform in the middle of the sea before he entered the ruins. It'd been a while since he left the ruins, but Min Huichen and the others might still be waiting for him there.

"No problem, I'll definitely bring you to your destination safely!" Xiao Yan wanted to reveal his true form after he finished speaking but was stopped by LAN Guzha.

"Leave the matter of travelling in the sea to me, LAN Guzha! It just so happens that I want to practice my speed and try to meet boss's requirements as soon as possible. " LAN Guzha still couldn't forget Lin Yi's promise to let him deal with the sea Rift expert as soon as he could catch up with the speed of the lightning movement technique.

Xiao Xiao was slightly startled. He originally wanted to repay Lin Yi, but since LAN Guzha said so, it wasn't appropriate for him to reject. In fact, he didn't really want to bring everyone. After all, he was the Prince of the sea beasts. It didn't matter if he had to carry Lin Yi as his benefactor, but if he brought LAN Guzha and Li Zao Yi as well, it would be a little unpleasant.

LAN Guzha, on the other hand, was not that particular. Lin Yi was the boss, Lizao Yi was the boss's woman, and Xiao Yi was his distant cousin. They were not outsiders, and it was good to train his speed at the same time!

LAN Guzha, who had revealed his true form, had grown a little bigger. It was obvious that this was the effect of an increase in strength. Xiao Yan could not help but praise him when he saw this.

"LAN Guzha, even though you've suffered a lot in Central's hands, you've also gained great benefits! This mutated sea serpent dragon body is no worse than my original body. You should know that your level is an entire realm lower than mine!" Xiao Yan could not help but feel envious of LAN Guzha. If his body was as strong as LAN Guzha's, he would be able to fight even an expert at the sea Rift stage head-on.

Especially in the sea, as a member of the royal family, he was born with the pressure of a King. When facing ordinary sea beasts at the sea Rift stage, he might be able to kill them in seconds. Just thinking about it made him feel awe-inspiring!

"If boss didn't save me, my body would have been destroyed by the center. How could I have mutated? Although I don't know anything about genes or whatever, I can feel my cells being destroyed. I don't want to experience that kind of fear a second time!" LAN Guzha, on the other hand, was very clear-headed and did not feel proud of his physical body at all. He still had a look of lingering fear when he spoke of what had happened earlier.

Lin Yi jumped on LAN Guzha's back with Li Zao Yi. After he beckoned Xiao Yan to follow, he smiled at LAN Guzha, "Alright, let's talk about the past slowly. Show us your current fastest speed so that the spirit beast clan won't catch up to you."

"Hahaha, boss, just wait and see. In the sea, even an aerial spirit beast may not be able to catch up to me!" LAN Guzha laughed aloud. He leaped forward with a whoosh. A white line of water ten meters high was immediately stirred up on the calm sea surface. It disappeared into the distance in the blink of an eye.

Lin Yi was experienced. Before LAN Guzha even set off, he had already set up a barrier to block out the strong sea wind and water, keeping the quiet space.

"Brother Xiao, just now you contacted the clan, is the reinforcement coming?" Lin Yi asked casually. If the sea beasts could get here as soon as possible, it would be a good thing to take Xiao Yan away.

Without him by his side, Lin Yi could do a lot of things, such as sneaking back to the forbidden area of the void chain, or looking for a chance to check on the Dragon of five evils.

"They're on their way. I'll let them meet up with us on the way. If the bastards from the spirit beast clan still dare to chase us, we'll make sure they won't be able to return!" Xiao Yan gritted his teeth as he spoke. He was the Prince of the sea beast clan. When had he ever suffered such a loss?

At this time, he wanted to launch a sea beast tide to attack the southern island. Unfortunately, the southern island also had a formation that repelled sea beasts. Without the permission of the higher-ups of the spirit beast clan, it was difficult for the sea beast clan to come ashore. If the spirit beast clan really dared to go into the sea to kill him, they would be courting death.

Lin Yi smiled faintly. He knew that Xiao Yi was angry, so he didn't add oil to the fire. He had already achieved the effect he wanted.

"By the way, that Zheng Dongsheng has escaped safely. Yang Tianwen and yang wenshao are both fine. It seems that the main force of the pursuers is concentrated on our side, so the two of them have escaped successfully. Even elder Zheng has benefited from it. He will meet us on the way." When Xiao Yan mentioned Zheng Dongsheng, there was an obvious look of disdain on his face.

They were both human alchemists, but Zheng Dongsheng couldn't compare to Lin Yi at all. If Lin Yi was the bright moon in the sky, Zheng Dongsheng couldn't even compare to the fireflies on the ground. How could they compare?

"Is that so? that's really good news. The two of them were able to escape successfully, and strength is also a very important factor." Lin Yi nodded with a smile, not surprised by the result. After all, the two were Masters of earth creation realm in completion. It would be more surprising if they didn't manage to escape without the main force chasing them.

The only surprise was that Zheng Dongsheng actually survived. It seemed that the pressure of the pursuers was not big. Otherwise, this old man would most likely be left behind halfway.

He thought about the few people from the Zheng family. Indeed, each of them had the attribute of a cockroach. So many experts who were much stronger than them had died, but they didn't die no matter how much they struggled. This was really a miracle.

Three roaches in one house-Lin Yi didn't even know if he should try killing one of them to see if they were really that good at escaping.

"Brother Lin, you're flattering me. We all know that it's all thanks to you that the two of them were able to survive. If it weren't for us attracting most of the spirit beast experts, even if they were at the sea split realm, it would be very difficult for them to escape." Xiao Yi continued to pin the credit on Lin Yi-he didn't think that he'd be able to escape alone.

It was obvious that he, Xiao Yan, was one of the spirit beast clan's targets. Therefore, if he were to go alone, he would at least attract a spirit beast expert at the sea Rift stage. Yang Tianwen and the others were just insignificant guards. That was why they had the opportunity to escape under the contempt of the spirit beast clan.

Lin Yi understood this and didn't try to be humble anymore. He started to talk to Xiao Yan about the sea beasts.

Chapter 6307 I Should Call You Boss

As long as it didn't involve the secrets of the sea beast clan, Xiao Yan was naturally happy to talk to Lin Yi about things he was familiar with. Thus, he told Lin Yi all kinds of strange stories about the sea beast clan. Lin Yi and Li Zao Yi listened with great interest, and even LAN Guzha subconsciously slowed down, attracted by Xiao Yan's words.

There were many interesting things in the sea of the immemorial little Jianghu, but it was completely different from the heaven rank Island. LAN Guzha had not been able to move around freely in the sea of the heaven rank Island for long. Hearing Xiao Yan's story, he felt like his horizons had been broadened.

After sensing LAN Guzha's interest, Xiao Yan took the chance to change the topic and said to Lin Yi, "Brother Lin, LAN Guzha and I hit it off like old friends the moment we met. He's my blood-related brother. Why don't you let him come with me when I return this time?"

"Let LAN Guzha follow you to the sea beast clan?" Lin Yi blinked, a little moved by Xiao Yi's suggestion.

If LAN Guzha returned to the sea beast clan, his strength would definitely rise rapidly, just like when the Great Fire Lion and big spider first came to the Sky Class Island.

Even if he did not have the opportunity to increase his strength quickly, with a representative by Xiao Yan's side, his relationship with the sea beast tribe would definitely be closer. Their cooperation would be much smoother in the future.

These thoughts flashed through Lin Yi's mind like lightning, but he didn't agree to Xiao Yan immediately. This was LAN Guzha's own business, and Lin Yi had to respect his opinion.

"LAN Guzha, do you have any thoughts about brother Xiao's invitation?" Lin Yi lowered his head to look at LAN Guzha, leaving the decision to him.

"Boss, I want to follow you and explore the world," LAN Guzha yearned for the things Xiao Yan said, but he still chose to follow Lin Yi in the end.

No matter how interesting the sea beast clan was, how could they be compared to following boss? Ever since he followed boss, his experiences in the small world of martial artists, the secular world, and the sky Class Island were all comparable to the interesting things that Xiao Yan had said.

"Alright, if you want to follow me, then follow me." Lin Yi only smiled, not saying anything.

Although it would be good for both Lin Yi and himself if LAN Guzha went to the sea beast clan, if this guy liked to follow Lin Yi, then so be it.

"Brother Lin, wait a moment. LAN Guzha, I'm not talking nonsense. After you follow me to the sea beast clan, it will be very beneficial for you. You have our royal bloodline and you are a mutant. As long as you accept the awakening of our Royal sea beast clan's inheritance, your strength will definitely increase greatly. It is possible for you to surpass me in one go. You have to consider it carefully!" Xiao Yan cupped his hands at Lin Yi and tried to persuade LAN Guzha.

Xiao Yan did not lie to LAN Guzha about the awakening of the inheritance. The Royal sea beasts of the ancient underworld were too weak, so the inheritance in this aspect had long been cut off. Only the sky rank Island still existed.

It was hard to say how much LAN Guzha's strength would improve if he were to receive the inheritance awakening with his mutated Royal body. The reason why Xiao Yan was giving LAN Guzha so much was that they were connected by blood, and he also wanted to return the favor to Lin Yi.

More importantly, as long as LAN Guzha became stronger, he would naturally become a strong support for Xiao Xiao's lineage. After all, Xiao Xiao was not the only Prince of the sea beasts. It was not an easy task to inherit the throne of the royal family of the sea beasts.

Even though LAN Guzha had the Royal bloodline, he was still a member of the royal family in the ancient martial world. It was impossible for him to threaten Xiao Yan's position, and he would only become a powerful helper. This was a good thing that would benefit both himself and others, killing three birds with one stone. Of course, Xiao Yan would do his best to make it happen.

"That sounds good, but I still want to follow boss ... Xiao Yan, how long do you think the awakening of the inheritance will take? If it's not too much of a delay, I can go with you. " It would be a lie if LAN Guzha said that he was not tempted. This fellow had been looking for a fight all day long. How could he give up the opportunity to improve his strength? How could his boss agree to let him deal with an opponent at the sea splitting stage just because he was powerful?

It was just that LAN Guzha couldn't make up his mind to leave Lin Yi for a long time, which was why he wanted to ask Xiao Yan when the inheritance would awaken.

Xiao Yan rejoiced in his heart and knew that there was hope. Hence, he tried his best to persuade her, "The time is not certain. It depends on your aptitude. The more time you spend, the stronger the inheritance awakening will be. If it's only three to five days, it might be difficult to advance a small level. For those with good aptitude, it's easy to advance a large level in a few months. If you cultivate by yourself, how long will it take to advance a large level?"

As LAN Guzha swam, he stretched out his claws and calculated. He thought to himself, 'it doesn't seem like it took me much time to level up. With boss, leveling up is just that simple.'

But then again, after he ate too much high-level sea beast meat, the effect it had on his strength was becoming smaller and smaller. If he wanted to level up as quickly as before, he would need more powerful sea beast meat. He couldn't just eat the king of the sea beasts, right?

The brain of a foodie was indeed filled with nothing but eating ...

Lin Yi was even more excited than LAN Guzha after hearing this. If this guy could level up by a big level, he could use his mutated body to habitually challenge those of a higher level. Wouldn't he be able to fight normal masters of the sea shattering realm?

With such strength, he would definitely be a powerful helper. Moreover, as a collateral Royal of the sea beasts, LAN Guzha's right to speak among the sea beasts would definitely be strengthened.

"With my aptitude, this inheritance awakening will at least last for two to three years, right? At that time, what if I skip the earth-splitting stage and the sea-splitting stage and directly reach the heaven-breaking stage? what should I do then?" LAN Guzha said worriedly. Xiao Yan was dumbfounded.

The heaven breaking stage? You're really F * cking daring! Why didn't you say that the position of king of the sea beasts should have been given to you directly?

Li Zao Yi covered her mouth and laughed secretly. She was still not used to LAN Gu Zha, this kind of narcissist who would go crazy from time to time.

Lin Yi's face darkened as he smiled awkwardly at Xiao Yan. "Brother Xiao, don't mind him. This guy just likes to talk nonsense."

LAN Guzha blinked his eyes innocently. I'm being very serious, okay?

"You've directly reached the heaven breaking stage, so should I call you boss?" Lin Yi kicked LAN Guzha's back, hinting at him not to say anything.

Lin Yi didn't know how strong the king of the sea beasts was, but once LAN Guzha reached the heaven-breaking stage, he'd definitely be a threat to the king of the sea beasts. At that time, he wouldn't be able to speak, and it'd be weird if he didn't get targeted.

Chapter 6308 The Happy Zheng Dongsheng

"Hahaha, boss, you really know how to joke. No matter what level I, LAN Guzha, am promoted to, you will always be my boss. Furthermore, if I become stronger, you will only be stronger than me. With your aptitude, if you can accept the inheritance and awaken, it will at least last for eight to ten years!" LAN Guzha laughed dumbly. His admiration for Lin Yi was real, and those words were from the bottom of his heart.

Lin Yi shrugged at Xiao Yi, telling him that the guy was already addicted to talking nonsense.

"LAN Guzha, you're really interesting. So, have you decided to go with me? If you can really reach the heaven breaking stage and come back to roam the four Seas with your boss, wouldn't you be even more impressive? Isn't it good to be able to help your boss suppress all his enemies instead of being chased to the end of the road like this time?" Xiao Yan waved his hand at Lin Yi and continued to encourage LAN Guzha.

He could tell that LAN Guzha wouldn't be able to reject him if he brought up Lin Yi.

As expected, LAN Guzha immediately fell into a state of deep thought. However, this state only lasted for a breath's time.

"Alright! In order to help boss, I'll go with you. I hope that the inheritance awakening won't disappoint me!" LAN Guzha nodded seriously and turned to Lin Yi, "Boss, I'll be leaving with Xiao Yi for a while. Take care of yourself. When I come back, I'll be able to help you fight!"

"Your main point is the last sentence. Can it help me fight?" Lin Yi couldn't help but chuckle. This guy couldn't stop thinking about eating and fighting, and there was nothing he could do.

They'd been apart for a short time before, but it'd always been within the range where they could see each other at any time. He didn't know how far away they'd be this time, and how long it'd be before they could meet again-Lin Yi couldn't help but feel sad.

"Boss is indeed boss, you really understand me!" LAN Guzha laughed out loud. He was feeling a little uncomfortable in his heart, but he could only use his loud laughter to cover it up.

Xiao Yi couldn't care less about Lin Yi and LAN Guzha's feelings-he was already all smiles when LAN Guzha agreed to go back with him.

Although he had suffered heavy losses on this trip to the spirit beast clan, with only yang Tianwen and yang wenshao remaining from the elite guards who followed him, and even the sea Rift stage experts missing, he was most likely doomed. However, with LAN Guzha, these losses were nothing.

Regardless of whether it was at the mountain split stage or the xuansheng stage, as long as a sea beast with the Royal bloodline matured, its value would far exceed that of a few sea splitting stage experts with ordinary bloodlines. On the other hand, LAN Guzha's mutated physical body had endless potential. There was no need to doubt the possibility of its growth.

As long as he accepted the awakening of the inheritance, this would be a huge gain that could make up for his losses this time. Xiao Yan was very confident in LAN Guzha, but of course, it was not as serious as this fellow's narcissism.

There was no need to think about the heaven-breaking stage. It was not impossible for him to reach the sea-splitting stage, but the chances were not very high. On the other hand, Xiao Yan felt that LAN Guzha would definitely not have a problem reaching the earth-splitting stage.

The only difference was whether the inheritance was in the early stage or after the late stage of earth creation. The difference was quite big.

LAN Guzha's combat strength was extremely powerful. Once he entered the late-stage earth splitting realm, he would be equivalent to an expert in the sea splitting stage. There were not many experts in the sea beast clan who possessed royal bloodline in the sea splitting stage!

Xiao Yan, who was happy in his heart, quickly finalized this matter with LAN Guzha, in case a long night brings trouble and he says that he doesn't want to leave boss or something.

As for the time of departure, Xiao Yan naturally hoped that it would be as soon as possible. For example, after meeting up with the reinforcements, he could just send a sea beast Master to take Lin Yi to where he wanted to go, and they could go straight back to the Royal Court of the sea beasts.

However, LAN Guzha did not agree. He had to personally send Lin Yi to find min huichen and Hao Zili. In fact, he knew that Lin Yi had the flying saucer and did not need him or the other sea beasts to send him. However, it was understandable that he wanted to stay with Lin Yi a little longer since they were about to part.

In the end, Xiao Yan gave in. He had no choice. If he did not give in, LAN Guzha might not go again. Anyway, it would not take too much time.

In the sea, Xiao Yan had the ability to contact his tribe. Although the reinforcements had not arrived, the countless sea beasts in the sea could provide protection at any time. As expected, the spiritual beast tribe did not continue to pursue.

After gathering the reinforcements, they continued to head towards the fog-covered area. Lin Yi didn't know if Hao Zili and the others were still there, but his intuition told him that there was a good chance of finding them.

Zheng Dongsheng was brought over by the sea beast clan's reinforcements. On the other hand, yang Tianwen and yang wenshao did not come. It was said that they were summoned back by the sea beast King clan to ask about the specific details of this diplomatic mission. As Xiao Yan did not return, he was temporarily ignored.

"Master Lin! I finally see you again! That's great!" Zheng Dongsheng saw Lin Yi and rushed to him with tears in his eyes.

Lin Yi resisted the urge to kick the old man into the sea and used his pure Qi to block the old man from getting close.

"Elder Zheng, how have you been? I'm very happy to see you again." Lin Yi's lips twitched as he spoke against his heart.

If I don't see you again, I'll probably be even happier ...

"It's great that Prince Xiao Yan is safe and sound!" Zheng Dongsheng didn't dare to neglect Xiao Yi. He didn't bother to chat with Lin Yi and quickly greeted Xiao Yi respectfully.

He was in the middle of the ocean, and he was surrounded by the experts of the sea beast clan. If he still did not know how to curry favor with Xiao Yan, he would be blind!

Xiao Yan rolled his eyes and ignored Zheng Dongsheng. This kind of person was not qualified to make him give him a good face.

Zheng Dongsheng laughed awkwardly and greeted Li Zao Yi. After that, he didn't know what to do.

He thought that he was the one who had the most connections with Lin Yi here, and so he moved over and spoke carefully, "Master Lin, it's great that everyone is safe and sound this time. I wonder if my grandson and cousin's matter has been carried out?"

"Don't worry! You've seen us being chased by enemies all the way. Have I ever had a good rest? Even if there's a lead, I don't have the time to deal with it-but don't worry, once I find a way to save them, I'll

help you! I, Lin Yi, always keep my word!" Lin Yi dismissed Zheng Dongsheng casually. He really didn't have a choice right now. If he could save the big Frog, he wouldn't have waited until now.

The two forbidden areas in the capital were easy to find, but there was still no news of the other three forbidden areas outside of the capital. And that was with the pig. If Lin Yi were to go there himself, he'd probably know nothing.

Chapter 6309 An Extra Runner

Even the pig, who was the best at treasure hunting, couldn't find the forbidden area. Lin Yi could only sigh at the frog's bad luck-it had to stay in the illusionary mist space for a while longer. He wondered how Wang Shiyang was doing, and if the frog was giving him a hard time.

"Yes, yes, yes. Master Lin is a man of his word. I'm just worried and confused, so I asked a few more questions. Please don't take it to heart." Zheng Dongsheng bowed and apologized to Lin Yi.

He knew that he had offended Lin Yi with his double-dealing back in the spirit beast King City. It was Lin Yi's generosity that he was able to make it here alive. Not to mention that Lin Yi was willing to acknowledge this promise, what could he do even if he didn't?

With Lin Yi's current strength, he could easily wipe out Zheng Dongsheng, and he didn't mind wiping out the famous medicine sect in Nakajima as well.

Zheng Dongsheng didn't waste any more time after thinking this through. He only used nice words, hoping to get Lin Yi's favor.

Lin Yi didn't want to talk to Zheng Dongsheng, and Xiao Xiao glared at him. Zheng Dongsheng didn't dare to say anything more, bowed and stepped aside.

LAN Guzha did not have a good impression of Zheng Dongsheng. Seeing that this old man had nothing to say to his boss, he simply shook his body lightly and directly flicked Zheng Dongsheng out. Carrying this old man on his back and hurrying on his journey, he did not want to disgrace his master LAN Guzha's reputation.

Zheng Dongsheng let out a miserable scream. Fortunately, the people of the sea beast clan caught him. Otherwise, he would have drowned in the sea ...

They didn't talk along the way, and when Lin Yi finally returned to the platform from the ruins, he found that Hao Zili and the others were still waiting for them.

The people from the pill Hall who came with the Zheng couple were all gone-they probably left on their own. After Lin Yi and the others entered the ruins, the sea fog no longer had the maze effect, so they could leave the sea fog in one direction.

"Boss Lin Yi, how did you guys come in from the outside? I thought you were still inside. " Hao Zili saw Lin Yi and immediately welcomed him with joy.

It was the same for min huichen and feiyi-they'd been waiting here long enough already. If Lin Yi didn't come out soon, they wouldn't know where to go.

"After we enter this place, there is a teleportation array that will directly teleport us to the zhenduan Sea region. Moreover, it is a one-way teleportation, so we can't get out of here even if we want to." Lin Yi smiled and explained.

"I see!" Realization dawned on Hao Zili. He was smart enough not to ask Lin Yi if he got anything from the ruins. If Lin Yi wanted to say something, he would say it. If he didn't want to say it, there was no point in asking.

Moreover, there were some strangers following behind Lin Yi and the others. Hao Zili's eyes were sharp.

"Alright, let's talk about this later. Come with me, we'll go back to Nakajima." Lin Yi wanted to go home as soon as possible-he'd have to go to the North Island after checking the central island, and inform Shangguan Tianhua about the situation in the South continent.

Although the spirit beast clan's three-way Alliance had been destroyed, central would definitely not let this matter rest. Perhaps they were already launching some new plan. Therefore, he had to ask Shangguan Tianhua to come up with some countermeasures.

Lin Yi's guess was right-after the three-party alliance was broken, central came up with a backup plan, but he didn't know that Han Jing had already destroyed it completely.

Hao Zili and the other two who had been on the platform for a long time felt like puking naturally had no choice. Feiyi revealed its true form and was ready to bring Lin Yi and the others to the middle Island.

After finding Hao Zili and the others, LAN Guzha was about to follow Xiao Yan to the sea beast clan to receive the inheritance and awakening. Seeing that Lin Yi was about to leave, he suddenly revealed a faint reluctance.

"LAN Guzha, good luck! If you can really reach the heaven breaking stage, I can follow you everywhere to show off. Let's not do anything else first, we'll specifically find trouble with central. Wherever central is, we'll go and make trouble. Let's see how they still harm others!" Lin Yi laughed loudly on purpose to cheer LAN Guzha up, trying to wash away the sadness of parting.

"Don't worry boss! I definitely won't let you down. When the time comes, we'll go and find trouble with central!" LAN Guzha replied loudly, nodding hard.

After a slight pause, LAN Guzha suddenly changed the topic, "Boss, did we forget something?"

"What did you forget?" Lin Yi was taken aback as well, not understanding where Lan Guzha's thoughts jumped from. Could it be that he wanted a hug?

"Boss! That golden-haired monkey! Don't waste such a good helper!" LAN Guzha laughed. He had obtained the control hub of the golden-haired monkey. With this puppet, at least he would not have to worry about not having an opponent when he wanted to fight. He would not have to constantly use the thousand changes of wood and forest to fight himself.

"Oh, right! If you didn't mention it, I would have forgotten!" Lin Yi smacked his forehead. The enemies he'd met recently were too strong. Earth formation stage wasn't a big deal at all, and he'd even lost two sea shattering stage ones. He really didn't think much of the golden-haired monkey.

It would've been hard to deal with the Golden ape puppet before, and it would be a great helper. But now, Lin Yi didn't care if he had the Golden ape or not. For example, the Golden ape wouldn't be of much help in the pursuit outside of the capital city.

At most, he would be a meat shield to block a few attacks. He didn't know if this guy could play the role of a shield.

LAN Guzha excitedly rushed toward the stone door. Very quickly, the golden-haired monkey appeared and obediently bowed to this fellow. He was overjoyed.

"Although your strength can't be of much help, I don't mind. At least you can be a qualified sandbag. From now on, follow me and be a good sandbag! Also, that's my boss, so his words are my words. You must carry them out to the letter, understand?" LAN Guzha was dancing around as he lectured the golden-haired monkey, introducing Lin Yi to the monkey as well.

The golden-haired monkey wasn't a normal puppet. It listened quietly and nodded from time to time to show that it understood. That obedient look made LAN Guzha very satisfied, even the reluctance to part with Lin Yi was washed away.

"Boss, how about this guy be your errand boy? When I'm not by your side, let him run errands for you in my place. " After LAN Guzha was done, he ran over with the golden-haired monkey excitedly, presenting it to Lin Yi as if he was presenting a treasure.

Chapter 6310 Returning To Nakajima

"You speak as if you've been running errands for me all this time. Do you feel wronged?" Lin Yi couldn't help but chuckle. This guy was a lazy glutton, running errands? Have I?

LAN Guzha laughed dumbly. He did get a lot of benefits from following his boss Lin Yi, but he didn't have to do much stuff.

"Alright, you can keep the golden-haired monkey for yourself. In any case, one more puppet is not much, one less is not much either. You should properly treasure your first puppet." Lin Yi waved his hand. He knew that LAN Guzha liked golden-haired monkeys, so he wasn't planning on taking his love.

Listening to Xiao Yan's tone, the awakening of the inheritance required a lot of time. If LAN Guzha went alone, he would not know what happened. If the golden-haired monkey followed LAN Guzha, at least he could take care of him. No matter how weak the golden-haired monkey was, he was still at the earth formation stage.

LAN Guzha didn't know what Lin Yi was thinking about, but it didn't matter. When he heard Lin Yi telling him to treasure this puppet, he knew that Lin Yi wouldn't accept the golden-haired monkey. He didn't act coy and nodded.

In any case, with boss's strength, this golden-haired monkey at the early stage of earth creation was no longer of much use. At most, he could only do some menial work. It was a pity that this hairy fellow was really unsightly when he ran out. He didn't even have one-ten-thousandth of master LAN Guzha's handsomeness. Following boss would only make boss lose face.

The more LAN Guzha thought about it, the more he felt that it made sense. His previous intention to give it to boss was not mature enough. The safest way was to complete the inheritance awakening as soon as possible and then return to boss's side. After all, with his great talent, he was only slightly inferior to boss in the whole world. Other people's strength would improve faster with time. If it was him who had such great talent, it would definitely not take long, but the effect would be excellent!

"Boss, don't worry. I'll complete the awakening of the inheritance as soon as possible and come to find you as soon as possible. In the future, you don't have to worry about me when I fight. I'll take care of it all!" LAN Guzha grinned. He was happy when it came to fighting. He was even happier when his boss did not have to fight anymore!

"Alright, I'll be waiting for you!" Lin Yi didn't know whether to laugh or cry-this guy always talked about his profession, and it'd save him a lot of trouble in the future if he could really get a huge leap in strength.

"Brother Lin, we'll take our leave first. I'll take care of LAN Guzha, so you don't have to worry about anything. After he awakens his inheritance, I'll get him to look for you. If you need my help in the future, just contact me at any time!" Xiao Yan came over to say goodbye to Lin Yi and gave him a communication Pearl. The method of use was similar to what LAN Guzha gave Lin Yi-as long as he was in the sea, he could contact Xiao Yan.

"Alright, I won't stand on ceremony with brother Xiao if there's anything. I'll leave LAN Guzha in brother Xiao's hands! I wish you all the best!" Lin Yi didn't stand on ceremony and took the communication bead with a smile. He cupped his fists and said goodbye to Xiao Yan.

"Brother Lin, have a safe journey. We'll meet again!" After Xiao Yan finished speaking, he cupped his fists towards Li Zao Yi, Hao Zi Li, and the others as a form of greeting.

The sea beast prince's pride was still deep in his bones. Lin Yi used his own strength to win Xiao Yi's respect, but Li Zao Yi, Hao Zili, and the others weren't here. The fact that Prince Xiao Yi greeted them was already giving Lin Yi face.

LAN Guzha was different. He and Li Zao Yi had gone through thick and thin together. In addition, she was one of his sister-in-law. When they parted, he was naturally much more affectionate and respectful. He was also quite friendly to Hao Zili and the others.

These few people were the boss's underlings, but their rankings were all behind LAN Guzha. Therefore, in the end, this guy even took on the attitude of a boss and underling and gave them a good reminder.

He told them that they must do their boss's work with all their heart and must not drag their boss down. This made Hao Zili and the other two not know whether to laugh or cry. They could only agree to it first.

There was some sadness of parting at first, but it was destroyed by LAN Guzha's jokester-like farewell. After everyone said their goodbyes, they parted ways.

Lin Yi and Li Zhaoyi brought Zheng Dongsheng with them and got on feiyi, heading straight back to the Middle Island. With the addition of Hao Zili and min huichen, feiyi carried five people on its back. The space was a little small, but it wasn't slow. After all, feiyi was pretty strong.

There was no danger along the way. Perhaps the sea beasts along the way had already received Xiao Yan's notice, so none of them dared to attack the wings in the sky. This allowed Lin Yi and the others to fly back to the Middle Island Sea area easily.

Lin Yi was thinking about Han Jing Jing, but he couldn't go to the exit alone with so many people around him. He could only go out by himself after sending them back to the Middle Island.

To Lin Yi's surprise, the heavenly elixir Chamber of Commerce's business was unimaginably good. He almost thought he came to the wrong place when he came back.

"Lin Yi, I'll be going back to the pill Hall. Come find me whenever you're free." Li Zao Yi looked at the sky elixir Chamber of Commerce's crowd and thought that it wasn't convenient to go in, so he lowered his head and said goodbye to Lin Yi.

"Oh, okay! I'll look for you when I have the time. If you have nothing to do, you can come and look for me. However, I'll be going to the North Island soon, so you might not be able to find me. " Lin Yi smiled and whispered in Li Zao Yi's ear.

Li Zao Yi's heart was secretly happy, and a faint blush quietly appeared on her delicate face, adding a bit of charm to the always cold and fairy-like Li Zao Yi.

However, when she heard that Lin Yi was leaving Nakajima soon, an undetectable trace of disappointment flashed across her lowered eyes. She actually wanted to stay by Lin Yi's side forever, but she didn't have any excuse this time. She could only pretend to be calm and leave.

Zheng Dongsheng waited for Yi to leave before carefully saying goodbye to Lin Yi. The famous medicine sect was right across the street from the heavenly elixir Chamber of Commerce, but without the Zheng family's three unyielding experts, and without any good products, it was completely deserted. He felt wronged, but he still had to smile at Lin Yi. It was hard to describe his feelings in words ...

Lin Yi didn't have time to talk nonsense with Zheng Dongsheng. He waved his hand and sent him away. Then, he brought Hao Zili and the others into the heavenly elixir Chamber of Commerce. Shang Wanyi, the president, didn't stay in the shop. He was busy expanding the territory of the Chamber of Commerce, so Lin Yi didn't get to see him.

The two girls who had retreated behind the scenes weren't here either. Lin Yi scratched his head. He spread out his spirit sense in Nakajima, but couldn't find any traces of them. They probably went to find Han Jing Jing, right?
