

## Bodyguard 6311

### Chapter 6311 Kang Zhaoming Is Here

The three of them had become very close after saving Lin Yi in the common world. Although han Jingjing had been asleep for a long time and was busy with the wormhole after waking up, it didn't stop the three of them from becoming good sisters. It was normal to go to the wormhole and chat with han Jingjing when they had nothing to do.

Since the three of them were probably together, Lin Yi could just go over and find them. There weren't any other people around, and it was quiet.

"Hao Zili, the three of you can move freely here. I have something to do, so I'll go out for a while." Lin Yi turned around and said something to Hao Zili and the other two. He was ready to go to the wormhole.

He didn't expect to see that idiot Kang Zhaoming rushing towards him the moment he stepped out of the door. It looked like he was here for him. How did he know that he was back in such a short time?

"Lin Yi! Come, come, come, we're looking for you. Come with me!" Kang Zhaoming looked at Lin Yi with disdain, but he realized that Lin Yi's disdain was even more than his own. This was F \* cking ...

"Kang Zhaoming, don't you know that you need an appointment if you want to see me? I'm a big Boss who earns millions of spiritual jades every minute. Why would I have the time to talk nonsense with a small fry like you?" Lin Yi didn't have any reason to be polite with Zhaoming, but it felt great talking to this idiot-he didn't have to worry about anything. If Lin Yi were to talk to the people of Tianjie Island about making an appointment, they might not even understand.

"Come on, do you really think you're some Big Shot? To tell you the truth, I don't want to argue with you. Otherwise, I'll beat you up in minutes. Do you believe me?" Kang Zhaoming pointed at Lin Yi, his mouth was full of nonsense. He didn't know what triggered this kid to say something like that. He didn't have to be so impatient to die.

Lin Yi raised his hand and twisted Kang Zhaoming's finger in the opposite direction. With a clear cracking sound, the finger turned 120 degrees and pointed at Kang Zhaoming himself.

"Kang Zhaoming's body twisted as he screamed. He was still the same idiot from back then, still the same smell ...

"You're lucky, kid. If I wasn't afraid of affecting the business of my heavenly elixir Pavilion, I wouldn't have let you off so easily today. If you dare to point your finger at me again, I'll make sure you don't have to keep it anymore!" Lin Yi laughed mockingly as he shook off Zhaoming's fingers.

Zhaoming's forehead was covered in sweat, but he stopped after a few screams. It was just a finger, after all. It wasn't a big deal in front of Lin Yi.

He couldn't be bothered to argue with Lin Yi anymore and quickly put his finger back in place. He took out a pill and put it in his mouth. The broken part of his finger started to heal and he could move it within a breath's time.

"Lin Yi, your business is so good, and you're even taking advantage of my help. It's fine if you don't thank me properly, but you're hitting me?" Zhaoming sounded like he was wronged, but he wouldn't dare point at Lin Yi again.

"Oh, you're such a good person. You're actually helping me with my business? Tell me what happened, I'll see if I should really thank you. " Lin Yi smiled faintly, emphasizing the words of thanks so that Zhaoming could experience it himself.

Zhaoming paused. He was just saying it casually. The central Chamber of Commerce was out of stock, and then they came to the heavenly elixir Chamber of Commerce to sweep up their stock and sell it back, causing business to boom. How could he say that? Don't you think you've done enough embarrassing things?

"Ahem, well, I've always done good deeds without leaving my name behind. Unlike you, you're the pretentious leader and you're pretentious wherever you go. Let's not talk about this first. Hurry up and follow me to the central Chamber of Commerce. Don't forget that we're still in the ceasefire period. You shouldn't have attacked me just now!" Zhaoming's words started to get incoherent.

"I almost forgot about it if you didn't mention it. We're still in the ceasefire agreement. But it should be expired soon, right? Are you looking for me to sign a new contract?" Lin Yi didn't want to waste time with Zhaoming in front of the heavenly elixir Chamber's entrance, so he dragged him along as he asked.

"Yes, yes, yes, you're smart, okay? Hey, you're going in the wrong direction. Our central Chamber of Commerce is over there!" Zhaoming couldn't fight back at all as he was dragged along by Lin Yi. He thought that he'd be able to improve quickly under Central's guidance, but Lin Yi was still able to suppress him.

"Did I say I was going to the central Chamber of Commerce? I'll find a place with no one around and torture you. " Lin Yi gave him a cunning smile on purpose, and it really scared him.

"You can't hurt me during the truce, or you'll be breaking the agreement. Lin Yi, you can't be a person who goes back on his word! Brother, brother Lin! If you have anything to say, just ask me directly. I will

tell you without torture. What kind of friendship do we have? there's no need to be so distant, don't you think?" Kang Zhaoming's stubbornness didn't last more than a second. He immediately changed his face and admitted defeat. It wasn't the first time he admitted defeat in front of Lin Yi anyway. He got used to it after a while.

Lin Yi didn't bother with him. He found a secluded corner and let go of Kang Zhaoming's arm.

"Alright, then tell me. Let me see if I need to interrogate you." Lin Yi crossed his arms in front of his chest and smiled at Kang Zhaoming.

Zhaoming's hair stood on end, but he forced a smile. "What are you saying? What do you want to know?"

"You don't know what to say? It's okay, I think you're just itching for a beating. You'll know after I help you loosen your muscles and bones. " Lin Yi clenched his fist, making a clear cracking sound as he did so. His face looked as if he really wanted to beat the hell out of Lin Yi, asking Lin Yi not to reject him.

Kang Zhaoming wanted to cry but no tears came out. He knew that Lin Yi was just toying with him, but he had no choice. He came to his door, what else could he do?

"Alright, alright, alright. I know, I know. Let's talk about how I contributed to the heavenly elixir Pavilion's booming business!" Kang Zhaoming stretched out his hands and shook them. Compared to getting beaten up by Lin Yi, he didn't care about what he did. Who knows, maybe the boss will be happy and let him go.

Sigh, I should stay away from this pretentious boss in the future. Nothing good happens when I get close to him. I don't know when the next stage of strengthening will begin. One day, I'll come back and trample you under my feet and make you kowtow and beg for mercy!

Zhaoming steeled his heart and adjusted his mood, thinking of a way to tell the head of the show-off team what would benefit him.

Chapter 6312 You Can Go Back First

Lin Yi's lips curled up into a smile. This idiot, Kang Zhaoming. Sometimes, he really wanted to slap him to death, but teasing him like this once in a while was pretty good. It felt great!

"Why did you stop? Just how much credit did you make? tell me!" Lin Yi laughed mockingly as he watched Zhaoming's bullshit.

"I'm just saying. There's a problem with our central Chamber of Commerce's supply of goods, so I sent someone to your heavenly elixir Chamber of Commerce to buy and sell the goods. Because we've been sweeping up the goods on a large scale, it caused the heavenly elixir Chamber of Commerce's products to become a trend of explosive sales, which led to a rush to buy them. That's why you saw such a hot scene just now. Don't you think my contribution is great?" Kang Zhaoming was also a talent. It was a shameful thing, but he said it so confidently as if Lin Yi really did owe him a big favor.

"You said that there's a problem with the central Chamber of Commerce's supply? What's the problem?" Lin Yi didn't care about the useless stuff, but his sharp senses caught the main point.

"That's confidential, I can't tell you!" Zhaoming's face was serious as he shook his head in rejection. He didn't even know that the wormhole was destroyed.

One thing Kang Zhaoming was right about was that the destruction of the wormhole was a top secret. However, he wasn't stupid. Lin Yi was the only one who agreed to share the wormhole with central. He would find out about it sooner or later. He only said that to show that he was important in central.

Now, the people in central who knew the situation were all suspecting that Lin Yi controlled the entrance to another wormhole, which was why there was an endless supply of goods. Even central guessed that the destroyed wormhole entrance was Lin Yi's doing.

If Lin Yi hadn't been in the South continent when the wormhole collapsed, he would've been in trouble. Now, Lin Yi wasn't involved, and central wasn't sure if han Jingjing could do it alone.

Lin Yi squinted his eyes and smiled coldly. He clenched his fist and made a few cracking sounds. Kang Zhaoming's serious expression immediately fell apart. A wise man knows when to retreat. When it's time to retreat, he should retreat ...

"Haha...Haha...I almost forgot that we have a truce. This kind of secret has to be kept from others, but not from you. It's like this, the wormhole in our Center has collapsed, so the connection to the secular world is cut off. Now, only your heavenly elixir Chamber of Commerce still has goods for sale. Lin Yi, you're amazing, you found a new wormhole exit without anyone knowing!" Kang Zhaoming didn't hesitate to reveal the secret. He also tested Lin Yi to see if there was another wormhole exit.

"Ah ... So that's what happened." Lin Yi understood that it was han Jingjing who did it. He didn't blame her, but he was worried about her. After all, central might do something to her.

Kang Zhaoming was about to go crazy. They would have to know if there were any new wormholes!

Lin Yi didn't want to keep the wormhole entrance a secret anymore-it wasn't like he could hide it from them anyway. The higher-ups weren't stupid, and even Zhaoming could see through it.

Besides, the new wormhole entrance had become an important bargaining chip for Lin Yi. If central wanted to connect to the secular world in the future, they would have to ask him for help. This was a great opportunity!

The three-way Alliance in the southern island had been destroyed, and the sea beast clan had completely withdrawn from the Alliance. However, the spirit beast clan was still close comrades with the central island. Perhaps the matter of the wormhole entrance could cause a crack in the Alliance between the two clans?

Lin Yi touched his chin subconsciously and started organizing his thoughts. It seemed like there was a good chance-it was worth a try!

"Kang Zhaoming, you're saying that central wants me to go over because they want to renew the truce agreement, right?" Lin Yi asked casually.

Zhaoming pouted, thinking that it wasn't him who said it-it was the one who said it! However, it was true that she had asked Lin Yi to go over. There was nothing to hide.

"That's right, the peaceful coexistence between us is still considered perfect, so I want to continue signing the contract for a year. If you have no objections, come with me!" Kang Zhaoming just wanted to bring Lin Yi back to the central Chamber of Commerce as soon as possible. He didn't want to see Lin Yi again until he became stronger!

"Why wouldn't I have any objections? If you want to sign the armistice agreement with me, shouldn't you show some sincerity and come to me personally to sign it? you actually want me to go over, this is preposterous!" Lin Yi pretended to be displeased. Since central was begging him now, he had to make things difficult for them!

Not to mention, the man didn't kill Lin Yi in the South continent, but he was an accomplice in the spirit beasts 'imprisonment. Lin Yi couldn't find any reason to argue with him, because stopping the war didn't mean that the man would help him.

"Isn't your heavenly pill Chamber of Commerce doing very well? since we've signed an agreement, of course we have to keep it a secret, right? Moreover, the higher-ups who have the right to make decisions are not in the middle Island, and can only be contacted through communication. Can your heavenly pill Chamber of Commerce contact our higher-ups?" Kang Zhaoming mumbled softly, afraid that Lin Yi would clench his fist if he didn't agree.

"You're right. Forget it. I'm a busy person. I don't have time to waste on such small details, especially with you. Let's go!" Lin Yi waved his hand impatiently and turned to walk towards the central Chamber of Commerce.

Kang Zhaoming gritted his teeth as he stared at Lin Yi's back. He was secretly annoyed. I told you to go over a long time ago, but you just had to stay here and talk. Now you're saying that it's a waste of time? You're blaming me?

However, no matter how unhappy he was, Zhaoming didn't dare to say anything. He just needed to go over, and he could talk about the rest when he had the ability!

As he was thinking, Lin Yi suddenly stopped in front of him. Kang Zhaoming, who was cursing in his heart, almost bumped his head into Lin Yi's back. He was so scared that he broke out in cold sweat.

If they really did bump into each other, Kang Zhaoming didn't know if Lin Yi would take the chance to beat him up. He only broke a finger today, and it seemed to be too light. Did the acting tough boss think that he didn't meet the standard?

Zhaoming felt a chill down his spine as he thought about it. He took a few more steps back, not giving Lin Yi an excuse to make a move.

"Why are you running? I'm not going to do anything to you." Lin Yi turned around and saw Kang Zhaoming's cautious face. He found it funny and shook his head, "I just remembered something. You should go back first. I'll go to the central Chamber of Commerce before dark."

Chapter 6313 Luckily It Was Destroyed

"What could be more important than signing the agreement? You don't need this little bit of time, do you?" Kang Zhaoming subconsciously mumbled again. He saw Lin Yi's unfriendly eyes and immediately changed his tone, "That's right, it doesn't matter. If you have something to do, go ahead. I'll be waiting for you at the Chamber of Commerce."

With that, Kang Zhaoming didn't wait for Lin Yi to say anything else. He quickly walked past Lin Yi and increased his speed as he ran towards the central Chamber of Commerce.

Lin Yi found it funny. Kang Zhaoming had never been this scared of him before. What was up with him today? He only broke one of his fingers. Did he have to be so scared?

Lin Yi wasn't the only one who didn't understand-even Zhaoming himself didn't understand. It seemed like the natural fear he felt after seeing Lin Yi was especially obvious. To put it bluntly, it was like a mouse seeing a cat. It wasn't an exaggeration to describe it as meeting its natural enemy.

Of course, Lin Yi didn't have the concept of natural enemies. Zhaoming wasn't even qualified to be his natural enemy-the difference in strength was too big. They weren't even on the same level.

Shaking his head, Lin Yi didn't pursue the matter further. After Zhaoming left, he flew towards the beach. He had to go and ask about the collapse of the wormhole at the center. Han Jingjing must have some reason to attack him before he returned. Otherwise, she would have waited for him to come back.

Before negotiating with central, Lin Yi needed to know the reason for the destruction of the wormhole. Only then would he be able to take the initiative. Plus, he really did miss the three girls, so it was even more necessary to go there first.

After making sure there was no one around with his spirit sense, Lin Yi didn't bother using the flying saucer anymore. He spread his ghost speed wings and soared into the sky, disappearing into the distance.

"Jingjing, I'm back!" Before Lin Yi went in, he used his spirit sense to scan the area. To his surprise, Tian Gang and Xue Li weren't here either. He didn't know where they went.

"Lin Yi bro!" Han Jing Jing heard Lin Yi's voice and jumped up in surprise. She turned around and ran over, "Did you just come back, Lin Yi bro?"

"Yeah, I heard that you did something big as soon as I came back." Lin Yi smiled faintly and opened his arms to catch han Jingjing, ruffling her hair as he spoke.

"You knew?" Han Jingjing raised her head and stuck out her lilac tongue. She then lowered her head slightly and said, ""I'm sorry, Lin Yi bro, I didn't ask for your opinion first. "

"What are you saying? Jingjing, you're much more professional than me. If you ask for my opinion, it'll be too late. " Lin Yi shook his head with a smile. He really didn't mind. Han Jingjing was much better at this than him, and her judgment was definitely more accurate than Lin Yi 's.

"Thank you, Lin Yi bro!" Han Jingjing raised her head and smiled sweetly before burying her head into Lin Yi's arms again, refusing to get up.

"Aiyaya, if it isn't boss Lin Yi! Sorry, sorry! I didn't see anything, you guys continue!" Wangba's voice came at the wrong time-Lin Yi wouldn't believe it if he said he didn't do it on purpose.

This 10,000-year turtle had long become an old fox. How could he have such poor eyesight? She was definitely ruining Lin Yi's plans!

Han Jingjing wanted to kill Wangba right now. Lin Yi bro was finally back, and he came out to mess things up!

He should have been sent to the secular world to deal with central. He was not allowed to return until Central's power in the secular world was uprooted!

"Wang Ba, long time no see. It seems like your primordial spirit has been condensed a lot!" Lin Yi let go of Jingjing as if nothing had happened, and looked at Wangba.

Feeling the hostility in Lin Yi's eyes, Wangba shivered, although he didn't understand why he would shiver in his soul state ...

Thinking back to the way Lin Yi dealt with him, Wang Ba realized that he'd made a mistake. Why did he have to mess with Lin Yi? Do you think you're not going to die fast enough?

"Haha...Haha...Long time no see indeed! I'm going to take a look at the situation in the wormhole first. After I destroyed the entrance to the center, the wormhole has been very unstable. You guys chat, I'm going to get busy!" Wangba felt that it was best for him to run away before Lin Yi went crazy. It wasn't even safe enough, and he even told Lin Yi that he'd done a lot for destroying the wormhole's entrance and exit, hinting that Lin Yi shouldn't burn the bridge after he'd outlived his usefulness.

Before Lin Yi could say anything, Wang Ba had already turned around and rushed into the wormhole. He almost treated the wormhole as his own territory now, spending more than half of his day in there, euphemistically saying that he was observing the situation. As for what he was doing, only he knew.

"Lin Yi bro, Wangba's been a good boy these days. Without his help, it wouldn't have been so easy to destroy the wormhole entrance in the center." Han Jingjing was trying to kill Wangba just now, but she put in a good word for him in front of Lin Yi after he left. She was a good girl after all.

"Right, I was just about to ask you. Why did you destroy the wormhole entrance in the center in such a hurry this time? did you find anything?" Lin Yi asked as he pulled Jingjing to sit down.

"Lin Yi bro's so smart, you guessed right away that I found something!" Han Jingjing smiled sweetly, not forgetting to praise Lin Yi before getting to the point, "I've discovered that central brought along a large

number of disc core components when they were transporting the ordinary goods. These things are definitely not for sale. I think central might be building a flying disc combat unit in the air. Once they form a large scale, this Air Force will be able to easily threaten the entire Sky Class Island. That's why they made a prompt decision to destroy the wormhole entrance in the center. "

"Well done! Fortunately, Jing Jing's judgment was accurate. Otherwise, if it had been delayed for a few more days, the matter would have fallen into a state of irredeemable!" Lin Yi praised loudly, his back drenched in cold sweat.

He didn't need to think much to understand why central was building a flying saucer unit!

The sea beast clan had withdrawn from the three-party alliance. If the spirit beast clan wanted to attack the other large islands, the sea route would be basically cut off. The only possibility was to take the air route.

Naturally, there were many flying spirit beasts in the spirit beast clan. However, the wild flying spirit beasts in the southern island were also rejected by the restrictions of the major islands. They could not attack the island and could not obtain supplies from the sea. The possibility of the spirit beast clan's Expeditionary Army being completely annihilated was very high.

Therefore, the flying saucer Army was the greatest support for the spirit beasts!

Chapter 6314 The Trump Card For Han Jingjing

With a large number of flying saucers, they could attack and retreat as they pleased. They could also carry large amounts of supplies. Even the restrictions on the islands might not be able to repel the flying saucers.

Lin Yi's heart palpitated at the thought-it was all thanks to han Jingjing's decisiveness. If he didn't do anything, the consequences would've been too terrifying!

"Lin Yi bro, after Central's wormhole entrance was destroyed, they'll be able to guess that we have a new one in our hands. They might even be able to guess that we destroyed their entrance, so you have to be careful. Don't give central a chance to deal with you." Han Jingjing's face turned serious as she reminded Lin Yi.

Central had suffered such a huge loss, and it would be weird if they didn't want to kill Lin Yi. Plus, the truce was about to end, so there was no problem for central to make a move.

"Don't worry, I know. On the contrary, you should be more careful. There is no wall in the world that is impervious to wind. The location of the wormhole will be discovered by the center sooner or later. Although there are formations protecting this place, we can't be careless. " Lin Yi smiled and nodded. He was more worried about han Jingjing's safety than his own. After all, it was much easier to deal with han Jingjing than Lin Yi.

"En, don't worry, Lin Yi bro. Jing Jing is prepared. If central wants to take this entrance, there's no hope. At most, no one will get it!" Han Jingjing raised her head smugly. It was obvious that she had gone further and further on the path of destroying the wormhole's entrance and exit without looking back ...

"It's fine if there's no wormhole entrance. I'm worried about your safety. The entire wormhole can't even compare to a strand of your hair." Lin Yi said naturally, as he thought so.

Han Jingjing felt like she had just drunk honey water when she heard that. The sweetness spread to the bottom of her heart. So my hair is more important than the entire wormhole in Lin Yi bro's heart? That's great!

"Lin Yi bro, I've been studying how to transport living beings through wormholes. I haven't found anything yet, but I believe that if I go in at the critical moment, I'll at least be able to keep my spirit. As long as I have my spirit, I'll have the chance to rebuild my body, so you don't have to worry about my safety. At most, I'll just stay in the mortal world for a while!" Han Jingjing made it sound easy, but Lin Yi didn't think that it would be easy.

He was an expert in the primordial spirit. After entering the wormhole, there was no problem with the state of the primordial spirit. However, if his physical body entered, the pain of the collapse and tearing was enough to kill him. If his will was not strong enough, it was possible for his primordial spirit to collapse directly. How could he have the opportunity to pass through the wormhole and leave the secular world?

Moreover, when the entrance was destroyed, it would definitely cause turbulence in the wormhole. Wang Ba had vaguely mentioned this earlier. In an unstable wormhole space, the chances of the primordial spirit surviving after suffering the pain of the collapse of the physical body were too low!

"Jing Jing, I've said that the wormhole isn't important. You're the most important person. If central really comes here, you must first ensure your safety! How about this, I'll set up a few more one-way teleportation arrays for you here. If something goes wrong, you can escape from the teleportation array. If you have time, activate all the teleportation arrays, if you don't have time, don't bother with anything else. " It wasn't Lin Yi's first time setting up a short-distance teleportation formation, so he was very familiar with it.

Wang Ba was an expert in this area as well-in order to prevent the ten-thousand-year-old turtle from sabotaging the plan, Lin Yi asked the ghost to set up a stealth and defensive formation after setting up three short-distance one-way teleportation formations. With Wang BA's skills in formations, it wouldn't be easy to break the formation-han Jingjing would definitely be able to notice it.

After that, Lin Yi thought about it and gave all the talismans Wang Shiyang gave him to han Jingjing.

"This is a ten thousand mile teleportation talisman. When you leave through a short distance teleportation array, you can directly activate the talisman and leave the place the moment you appear. And this is an attack talisman of the earth-splitting stage. After being activated, it can release an attack equivalent to that of a normal earth-splitting stage expert. As long as he doesn't encounter a real expert, this attack talisman is enough to deal with all situations. And this Pearl contains an attack that can instantly kill an expert at the sea splitting stage. It can be your life-saving trump card. " Lin Yi explained everything to her, even giving her the Black Pearl that only had one more chance to attack.

In fact, he had wanted to give the black bead that he had never used to han Jingjing. However, considering that the center of the attack was not the spirit beast clan, there were not many sea Rift stage experts. Therefore, he only gave her the black bead that could only be used once.

With han Jingjing's strength, it would be very good if she had one chance to attack when facing masters of the sea splitting stage, whether it was one or two or three. It would be useless if she had more. It would only benefit the enemy.

On top of that, Lin Yi wanted to leave a few of the little spirit beasts to protect han Jingjing, but they didn't listen to Lin Yi's command at all. The giant frog's divine sense in his dantian didn't agree, so he couldn't do anything.

The ten spirit beasts didn't reject Lin Yi's request because the pig was helping them find the forbidden area of the void chains. This was related to whether or not the frog could get out of this place, so they couldn't neglect it.

Han Jingjing? What does it have to do with the big Frog? It would be strange if the little spirit beast agreed!

Looking at the precious items in her hands, han Jingjing smiled with her eyes curved. In her eyes, Lin Yi's gifts were not life-saving treasures, they were all Lin Yi's kind intentions, so han Jingjing didn't reject them and accepted them all.

Lin Yi only relaxed after giving out so many of his trump cards. He believed that even if central found this place, it wouldn't be that easy to deal with han Jingjing. If they could catch han Jingjing even with this, then Lin Yi would have nothing to say.

"Alright, keep these things well. Don't let others know. Once your trump card is exposed, it can't be considered a trump card anymore!" Lin Yi reminded her a few more times. Han Jingjing's IQ was extremely high, and she was an absolute genius, but Lin Yi still couldn't completely relax.

"Okay, don't worry, Lin Yi bro. I'll remember everything. I won't let Lin Yi bro worry." Han Jingjing sweetly smiled and carefully placed the items in her hands into her storage pouch.

"By the way, have you seen Tian Gang and Xue Li? I didn't see them at the heavenly elixir Pavilion Chamber of Commerce. I thought they were here for you, but they're not here!"

Chapter 6315 Same To You

Lin Yi asked about the two's whereabouts after he was done with the business.

The two of them had never left Nakajima before, so how come they were nowhere to be seen this time?

"Oh, the two of them went out to cultivate with big brother Tian Xing Dao. The last time they came to say goodbye to me, they said that they would be back soon. They've been gone for almost 15 or 16 days now. If there are no accidents, they should be back in two days."

Han Jingjing tilted her head and thought for a moment before telling Lin Yi not to worry.

"Go out to cultivate? What can you achieve in just a dozen days?"

Lin Yi blinked.

It was extremely rare for him to use the heaven seizing fortune to do a three-in-one cultivation in a secret realm and increase his strength in a short time. Could it be that the heavenly path had also discovered such a good place?

After thinking about it carefully, it was not impossible. The heavenly path sect could even find the follow-up cultivation techniques of the creation battle technique. It was not impossible for them to find a few secret realms!

He only hoped that he wouldn't bring Tian Huan and the others to some strange place. If they met another ten-thousand-year-old monster like Wang Ba, it would be hard to say what the consequences would be.

"Do you know which direction they are heading to?"

Lin Yi thought of Wangba and started to feel a little uncertain-what if Tianxing was really that unreliable? wouldn't he be digging a hole for tianshuo and Xue Li?

"They didn't say anything about this Tian Huan. Are you worried that something will happen to them? In fact, big brother Tian's strength has increased a lot, so you don't have to worry. With big brother Tian here, our safety can still be guaranteed. "

Han Jingjing was smart and immediately saw the uneasiness in Lin Yi's heart.

However, she didn't know that the source of Lin Yi's uneasiness was the Tian Xing Dao, so there was no point in comforting him.

"I hope so. Big brother Tian Xing Dao has obtained the latter part of the creation battle technique. I thought he would be in closed-door cultivation for a long time. I didn't expect him to come out so soon. It seems like his strength has improved very quickly."

Lin Yi smiled bitterly, thinking that Tianxing Dao's luck shouldn't be that bad. The chances of meeting a ten-thousand-year turtle in a row weren't high.

After a slight pause, Lin Yi continued,"Before we came here, Kang Zhaoming came looking for me on behalf of central. He wanted me to go to central for a business meeting about continuing the ceasefire agreement. What's your opinion on this?"

"Lin Yi bro, do you think central will set an ambush for you?"

The first thing she thought about was Lin Yi's safety. She even wanted to return everything Lin Yi gave her just now to increase her sense of security.

"I don't think so. The central Chamber of Commerce on the island doesn't have any experts. Even if an expert comes, with my escaping skills, I should have a chance to escape."

Lin Yi said with a wave of his hand, not worried at all.

If central wanted to deal with him, pinliang would've notified him first. Aside from Masters like the man in the black bamboo hat, there was almost no threat to Lin Yi.

"Yeah, Lin Yi bro's right. If central doesn't want to have a feast at Hongmen, then they really want to continue signing the truce agreement. It's probably because of the wormhole incident that prompted them to make this decision. If I'm not wrong, they'll definitely propose to share the wormhole's exit with us. "

Han Jingjing's thoughts were clear, and she directly pointed out the possible thoughts of the central higher-ups.

"Ha ... I don't think the central government wants to continue signing the truce agreement after it expires. We have to cooperate with the spirit beast clan's attack, and we'll become one of the targets when the agreement is completed. However, with a huge variable like you, central can't complete its goal of forming a flying saucer Army. They've also lost the means to connect with the secular world and a large amount of income. So, the most important thing now is to find a new wormhole entrance. "

Lin Yi nodded. He already had a plan for the negotiation with central.

"Central chose to negotiate and sign the peace treaty right away. It seems like they know that they won't be able to get the wormhole's entrance by force. Lin Yi bro, this means that I should be safe here."

A smile appeared on her face-she could give it to Lin Yi bro now, and there was nothing inappropriate about it.

"Even so, we still have to be prepared."

Lin Yi's one sentence made han Jingjing give up on the idea. He continued,"Jing Jing, do you think we should agree to continue the ceasefire? How do we allocate the authority to use the wormhole?"

Lin Yi already had a plan in mind, but he still wanted to hear han Jingjing's thoughts. This Genius Beauty was very thoughtful, she wasn't as simple as she looked.

"Mm, it's better to agree to a ceasefire. Right now, we're not strong enough to go against the central government. We'll need more time to uproot them. If he didn't kill the snake, he would be harmed instead. He either didn't make a move, or once he made a move, he had to hit the vital point! If we refuse, I'm worried that central will counterattack madly. We have the advantage now, and as long as we have time, our advantage will definitely expand into victory, so there's no need to fight them to the death. "

Han Jingjing made it clear, and Lin Yi agreed with her.

"As for access to the wormhole, it has to be in our hands. We can agree to transport supplies to central and contact the mortal world, but all of this has to be under our control. We can't give the core components of the spaceship to central."

At this point, han Jingjing suddenly grinned and said,""Speaking of which, the central forces of the mortal world have suffered a destructive blow. Even if the central forces use wormholes, they may not be able to do anything."

"The central power of the secular world has been attacked? Wouldn't the central government be desperate?"

Lin Yi blinked. He didn't know about this yet, and he didn't think that han Jingjing would do more than he expected.

"It's okay, Lin Yi bro, you can talk. I've already asked Dafeng bro to plant a lot of our people in the center of the secular world, so it's fine even if we keep in touch! As for the teleportation, we have the power to decide what to give them. "

Han Jingjing was confident, and Lin Yi nodded.

"Okay, I understand. We have a rough idea of how to negotiate with central now, but we have to be careful of the secular world. If there's a central member that's escaped, we can't let them get in touch with Sky Class Island."

Lin Yi didn't feel any guilt for destroying the central power of the common world.

The agreement hadn't expired yet, but Lin Yi wasn't the one at the center of the conflict-it didn't count as breaking the agreement.

Besides, the man in the black bamboo hat from the southern island didn't do anything to Lin Yi, not because of the deal, but because of the elders behind him. He wanted to use the spirit beast clan to deal with Lin Yi.

The two sides could only be considered as each other.

Chapter 6316 The Continuation Of The Armistice Agreement

A truce was just a truce-both sides didn't take it seriously. The only thing that could keep the peace was their own concerns. This time, the wormhole pathway on the Sky Class Island was destroyed, causing them to lose contact with the center. That was why they took the opportunity to fight to the death.

Setting up the formation and talking had taken up a lot of time, and it was getting late. Lin Yi still had to go to the central Chamber of Commerce, so he bade farewell to Han Jing Jing and flew to Nakajima with his ghost speed wings.

Before dark, Lin Yi strolled into the cold central Chamber of Commerce. Kang Zhaoming was already impatient. He didn't want to see Lin Yi again, but he couldn't not wait for Lin Yi. He was very angry.

Seeing Lin Yi walk in, Kang Zhaoming couldn't help but put on a smile and quickly walked up to him, "They're here! Please come upstairs, Liang bro is waiting for you. "

"MMH," Lin Yi replied faintly, shaking off Zhaoming's lead as he walked up. He knew where pinliang was, and didn't need Zhaoming to lead the way.

Zhaoming's face darkened as he hmphed quietly and followed behind Lin Yi. This negotiation seemed to be very important-he needed more information if he wanted to get into the higher-ups, so he decided to get in first.

He felt like he was on good terms with pinliang, and as long as pinliang didn't kick him out, he'd be able to see what was going on. Maybe he'd be able to grab a chance to climb up the ranks.

"Zhong pinliang, I'm here. How do we sign the new truce agreement?" Lin Yi knew that Kang Zhaoming was following him, so he didn't show any signs of intimacy when he pushed the door open.

"Lin Yi, come and sit down first. Our higher-ups will discuss the truce with you." Pinliang glanced at Zhaoming, who had followed them in. He didn't want Zhaoming to leave because he felt guilty about his relationship with Lin Yi.

As a result, Zhaoming was secretly praising pinliang for his good intentions. As expected, he went to a corner and stood there quietly.

Pinliang turned on the projection on his computer, and the person in charge of Sky Class Island, miss nie, appeared on the screen. Lin Yi couldn't tell if this was the real miss nie or if it was just a clone.

"Lin Yi, I'm glad you're here. We can start talking about the truce agreement now." Miss NIE's face was cold and didn't seem to be too enthusiastic, as if Lin Yi had asked to come.

"Miss Ling, we haven't seen each other for such a long time, and we haven't even greeted each other. Isn't it a little too quick to get to the point? Why don't we have a casual chat first?" Lin Yi smiled faintly and sat down on the sofa casually, looking at miss nie on the screen. He knew that he would be able to gain something today!

The more desperate the opponent was, the calmer he had to be. Negotiation was also a game full of swords and blades. From the first words of the two, they had already entered this rhythm.

Miss Ling suddenly smiled, and her cold temperament was swept away.

"Of course. I heard that you recently participated in the spirit beast clan's coronation ceremony on the southern island and became an external clan elder? You really are the center of attention wherever you go. It would be great if our Center had a young genius like you!" Miss nie wasn't stingy with her praise for Lin Yi at all, not caring about how pinliang and the others were feeling.

People who didn't know better would think that miss nie was trying to recruit Lin Yi, but only they knew that it was impossible. Ever since Lin Yi's elders, they had been in a situation where they would fight to the death.

"Miss Ling's news seems to be not timely enough. Didn't the people you sent to the southern island report to you that I was being hunted down and ran back? By the way, I haven't thanked the black bamboo hat guy from your Center in the South continent for taking care of me!" Lin Yi smiled faintly, emphasizing on the word "care." He wasn't really thanking her.

"Oh? Was it like this? I'm not too sure. You know that the southern island is too far away and we can't establish an effective communication method, so there are many things I don't know. I'll ask about it later. " Miss Ling gave a perfunctory reply, but no one knew if she was telling the truth.

Lin Yi laughed it off and only got to the point after a bit more nonsense.

"Miss Ling, let's get back to the main topic. I didn't think that there was a need to renew the truce agreement after it expired, but I wonder why you've asked me to come here?" Lin Yi smiled faintly, his face relaxed as he leaned back against the chair.

"Is there really no need? If it's really not necessary, a busy man like you wouldn't have come here. I heard that you're in a hurry to the North Island to meet with the Shangguan family's eldest miss, right? Is it appropriate to waste time here?" Miss Ling didn't show any weakness and retorted in a light tone.

"I'm only here to listen to what you have to say on account of my two old classmates. Plus, I haven't chatted with you for a long time, so I can at least take some time off. " There was nothing wrong with Lin Yi bringing up pinliang and Zhaoming without any pressure.

However, Lin Yi was on his guard when miss nie mentioned meeting up with Shangguan LAN 'er in the North Island. It seemed that Central's spies were everywhere. Although the fact that he went to the East continent with Shangguan LAN' er was not a secret, only a few people knew about it. If Central's intelligence network found out about it, the consequences would be serious if they really pissed central off.

Lin Yi didn't need to worry about his own safety, but the people he cared about would be in grave danger when they faced Central's revenge.

"I'm really flattered. Should I thank you properly?" Although miss Ling said that she was flattered, there was no expression on her face.

Lin Yi knew that miss nie was trying to threaten him. It seemed that the destruction of the wormhole entrance was a huge blow to central, to the point that they had to resort to such a method.

"We're already so familiar with each other, it's too polite to say thank you. Alright, since miss Ling knows that I'm busy, let's not waste any more time. Just follow last year's terms, change the date, and re-sign it!" Lin Yi laughed coldly in his heart. He decided to stop beating around the bush and use his trump card.

Using last year's agreement, the wormhole entrance to the center had been destroyed. How could they use last year's agreement? Besides, central was in such a hurry to sign the contract with Lin Yi, all for the sake of the wormhole's entrance.

That's right, although they couldn't find the entrance to the wormhole in Lin Yi's hands yet, they could basically confirm that Lin Yi had a new one!

Chapter 6317 If You Want To Use It, Follow The Rules

It didn't matter if it was Lin Yi's side who destroyed the wormhole anymore-the important thing was that the center needed to have the right to use a new one.

"Hahaha, the times are changing, and everything is changing. Of course, our agreement can't be the same as before. Lin Yi, there are some things that we don't have to say out loud, and we can just keep it to ourselves. Let's not beat around the bush and get straight to the point!" Lady ni laughed a few times, but there was not even a trace of a smile on her face, which was quite strange.

"Are you going straight to the point? Sure, miss Ling, please speak your mind!" Lin Yi smiled faintly. He wanted to see what the other party would say.

"Then I'll be direct. Our wormhole entrance has already collapsed. Let's not talk about the reason for that first. Now, I need you to open up the wormhole entrance in your hands and share it with us. Is there a problem?" Luan xiaoru didn't ask if Lin Yi had the wormhole entrance and exit, but directly asked for a shared exit, to create the illusion that she had everything under control.

"Of course there's a problem. The reason for the collapse of your wormhole is none of my business. I just want to know why you think I'll hand over the wormhole in my hands for you to use?" Lin Yi didn't deny it-there was no need to. Anyone could see it, so he might as well admit it.

"If we didn't open the wormhole for you to study, how could you have found a new wormhole entrance? Don't you think that my proposal is very reasonable?" Luan xiaoru shrugged her shoulders, looking like it was a matter of course.

"I don't think it's reasonable at all! You opened the wormhole for us to use, but did you give it to us without any benefits? Do we need to go back to the time when we signed the truce agreement?" Lin Yi looked at Luan xiaoru with a mocking smile.

Luan xiaoru was silent for a moment. She also understood that it was impossible to get the right to use the wormhole from Lin Yi without paying anything.

"Tell me, what do you want?" Luan xiaoru was also a decisive person, and she immediately made a decision.

Wormholes were a must, otherwise, after losing contact with the secular world, the development of the center of Sky Class Island would plummet. Lin Yi was too scary-he had already shown shocking speed of improvement even before getting the wormhole. It wouldn't be long before the center of Sky Class Island was completely suppressed by Lin Yi.

If it wasn't for the fact that she didn't want to kill Lin Yi, Luan xiaoru would have already killed him. However, since Lin Yi's growth couldn't be stopped, she had to find ways to gain benefits from it. She knew that this was a future big problem, but if she didn't have any countermeasures, she, Luan xiaoru, was not worthy to lead the entire central!

Thinking about her future plans against Lin Yi, Luan xiaoru's mood suddenly became a lot better. She felt that no matter what conditions this kid put forward, she might agree to them.

"Miss Ling, you know that I'm not a greedy person. What I want is very simple, and it's as easy as lifting a finger for your Center." Lin Yi smiled faintly. From the change in Luan xiaoru's attitude, it could be seen that his conditions would most likely be agreed.

"Cut the crap and get straight to the point!" Luan xiaoru deliberately had a gloomy face to show that she was very unhappy.

"It's very simple. Apart from the southern island, if all the big islands, including the northernmost Island, are under attack, your Center must do its best to rescue them. You can't let them resist on their own. I'm sure you understand what I mean, miss nie?" Lin Yi's condition was simple indeed-he just wanted central to help protect the islands.

The problem was that central was the spirit beast clan's partner. They wanted to form a flying saucer Army to help the spirit beast clan cross the sea and attack. Asking central to protect the major islands now was equivalent to publicly tearing up the Alliance with the spirit beast clan.

Since the Alliance had been broken, would the spirit beast clan's sea-crossing expedition still happen?

After hearing Lin Yi's conditions, Luan xiaoru wasn't surprised. This kid forced the sea beast clan out of the three-party alliance in the southern island. He was obviously preventing the spirit beast clan from going on a Sea Expedition. Although she didn't know how he did it, Luan xiaoru did admire him.

Lin Yi was able to do this in such a difficult situation and destroy Central's plan for the sea beast clan. The future aside, Lin Yi was already a big problem for central. If it wasn't for the plan for the future, they would've killed this kid as soon as possible even if it meant breaking the balance of that place.

"Yes! Our Center is also a part of the human race, and it is our unshirkable responsibility to protect the base of the human race cultivators. You can rest assured that no matter who dares to attack the major islands, the center will definitely do our best to help the major islands resist the enemy!" Luan xiaoru nodded and agreed to Lin Yi's request. Since she had already expected it, she had already thought about how to answer.

Lin Yi didn't believe a single word that this woman said. She said it so righteously, and if it wasn't for the wormhole, she might've brought the spirit beast Army to kill them in the next moment.

"Miss Ling is indeed straightforward! It's a pleasure to negotiate with someone as straightforward as you!" Lin Yi smiled faintly, a hint of sarcasm hidden within.

"If you have any other conditions, just state them!" Luan xiaoru snorted coldly, thinking that this kid had better not go too far!

"That's all. I, Lin Yi, am not an insatiable person. I just hope that you guys can fulfill this condition. " Lin Yi didn't ask for too much-they were enemies, after all, and asking for too much wouldn't necessarily get him anything.

As long as he could destroy the cooperation between central and the spirit beast clan, it was already the biggest gain. Not to mention, Lin Yi only intended to give central a small part of the wormhole access. If he made another request, Luan xiaoru might really turn against him.

"The things that I, Luan xiaoru, promised, of course, will be completely carried out! Since you don't have any more conditions, let's talk about the use of the new wormhole. " Luan xiaoru was not polite. Her main purpose was this, so of course, she had to talk about it.

"There's nothing much to say. The new wormhole entrance is ours and has nothing to do with central. If you want to use it, no problem! However, you must follow my rules!" Lin Yi's lips curled up, his eyes shining with confidence.

He now had the absolute advantage in the wormhole. He wasn't afraid that Luan xiaoru wouldn't cooperate. At worst, they would just break up. Without the core components of the secular world, the sky Island couldn't make flying saucers. Without flying saucers, what could the spirit beast clan do?

Chapter 6318 Accept Or Not?

If they were to attack the islands by force, they would be attacked by the sea beast clan regardless of whether they used flying spirit beasts or ships. The situation might have been better if they didn't go to the sea beast clan at first, but now that they had completely offended the Royal sea beast clan, there was no better way to go on an expedition across the sea except for the flying saucer in the center.

Of course, if the spirit beast clan could build an ultra-long-distance teleportation formation, it would be a different story. Unfortunately, even with the ghost's array Dao level, he could only set up a very short-distance teleportation formation. He couldn't even set up a long-distance teleportation formation, let alone an ultra-long-distance teleportation formation between the two big islands. No one on the southern island was more powerful than the ghost.

Luan xiaoru didn't ask Lin Yi what the rules were. She just looked at him quietly, waiting for him to explain.

"I'll say the ugly words first. My rules are very simple: I can send you messages to and from the secular world for free, and I promise that I won't peek at the contents, but if you want to send supplies, you'll have to charge a certain amount of spirit Jade as a reward, and the supplies you're sending must go through our inspection. Only those that are allowed can be sent in, and if you're not allowed to send anything, don't even think about it. " Lin Yi wasn't naïve enough to think that Luan xiaoru's promise would come true. The Alliance between central and the spirit beast clan was broken because of the wormhole.

Only by controlling Central's supply line could he make them cooperate. Otherwise, if they continued sending the core parts of the flying saucer Army, who would Lin Yi be able to reason with when central finished building the flying saucer Army and brought the spirit beasts to the islands?

"This is impossible! Are there such restrictions when you use our wormholes? Isn't it a little too cold to turn hostile now?" Luan xiaoru's face was a bit gloomy. She expected that Lin Yi wouldn't agree to let central use the wormhole so easily, but she didn't expect the restriction to be so big.

Giving some spiritual jades as the teleportation fee was a small matter, but the inspection and restrictions on the teleportation items were unacceptable to Luan xiaoru. This way, whatever central wanted, Lin Yi just had to refuse to teleport. What difference would there be if there was no wormhole?

"Don't say such useless things. The rules are that simple. You see for yourself if you want to accept it!" Lin Yi smiled faintly. He wouldn't back down in this area.

Otherwise, Luan xiaoru would be asking for trouble if she asked the people stationed at the center to receive goods at the entrance and exit of the wormhole. Lin Yi wasn't going to let central have a chance to interfere with the wormhole transportation.

"What if you don't accept? Do you want an all-out war?" Luan xiaoru's heart was burning with anger, and a cold light flashed in her slightly narrowed eyes.

"So you're not accepting it? If it's an all-out war then so be it! You colluded with the spirit beast clan in the South continent and tried to travel across the sea to attack the big islands. I don't believe that the hidden old monsters of the ancient families will sit by and do nothing!" Lin Yi smiled coldly. It wasn't the best choice to start a war with central now, but it didn't mean that he was afraid of central.

The central forces of the secular world had been wiped out. Although it was impossible to completely exterminate them, and there would be some fish that escaped the net, they were no longer a big threat.

As long as the people in the common world weren't in danger, Lin Yi was more or less at ease. On Sky Class Island, after Central's collusion with the spirit beast clan was exposed, it would be difficult to do anything openly on the big islands. Lin Yi didn't think it was a big deal if both sides really fell out.

The only thing to worry about was that the center had too many strange research projects, and he didn't know what trump cards they had yet to show.

Lin Yi had concerns, and so did Luan xiaoru. As Lin Yi said, once central provoked the ancient families of all the islands to join forces, the situation would become extremely bad. If it really came to that, all the forces in the Sky Class Island would have to retreat to the South Island.

At that time, the spirit beast clan and central would no longer be equal allies, but a relationship of protection and protection. How could Luan xiaoru, who was proud and ambitious, tolerate such things?

Time! Lin Yi needed it, and so did Luan xiaoru!

"Lin Yi, you're asking us to help the islands with just the right to use? Aren't you underestimating us? I'm not afraid to tell you that before our wormhole collapsed, a batch of flying saucers was already assembled. I believe you should know this. So what if it's an ancient family? How many top-tier Masters could there be in the ancient families? Any of the spirit beasts are no weaker than the top masters of the ancient families. What do you think I should choose?" Luan xiaoru suddenly smiled, and the gloominess on her face was swept away.

If I'm forced into a corner, so what if I become the enemy of all the human cultivators on Sky Class Island?

Luan xiaoru's hidden meaning was easily understood by Lin Yi. Thinking of the number of Masters in the spirit beast clan, he felt a little helpless. Among the four elders, the weakest, Azure Dragon, was able to match or even suppress the human clan's complete sea splitting realm. Vermillion Bird and the other two were even stronger, and Lin Yi couldn't see through them at all.

Other than that, the two sea split realm Masters who were killed instead of chasing them were unknown. Lin Yi and Xiao Yan had never heard of these two people. Among the famous leaders of spirit beasts, there were at least two digits of them who were stronger than those two, and there were even more unknown ones.

What about the human race? Other places might not know, but Li Lin was the only one on the northernmost Island who had reached the middle stage of the sea Rift realm. He was nothing to the spirit beast clan. Even if the other big islands had more experts, they could not compare to the number of experts in the spirit beast clan.

"Heh ... It's fine if you choose to cooperate with the spirit beast clan, but have you forgotten something? Xiao Yan, the Prince of the sea beast clan, was chased by the spirit beast clan for a long time and almost died on the southern island. Do you think that the sea beast clan will not interfere after the spirit beast clan cooperates with you?" Lin Yi thought it was a little tricky, but he put on a calm and confident face.

With Xiao Yan's relationship, the sea beasts would naturally deal with the spirit beasts. In terms of the number of Masters, the entire spirit beast clan and the human clan combined couldn't compare to the sea beasts. The problem was that Xiao Yan wasn't the king of the sea beasts, and cooperating with the sea beasts might end up as inviting the wolf into the house. It was a double-edged sword, and Lin Yi didn't want to use it easily.

Luan xiaoru fell into silence again. In fact, she could guess Lin Yi's thoughts. The cooperation with the sea beast clan would not be initiated unless it was a life and death situation. It was just like how central had given up the human clan and was determined to cooperate with the spirit beast clan. It was not a choice that was in line with their interests.

Chapter 6319 Who Knows How Long

However, Luan xiaoru was also very sure that as long as central cooperated with the spirit beast clan, Lin Yi would most likely choose the sea beast clan to help because there was no other choice!

The negotiations had basically reached a dead end. If they continued, they would probably really fall out.

Pinliang couldn't interrupt, but he was worried that Lin Yi and xiaoru would really fall apart.

He had some level in the center, so he knew a bit about the high-end forces in the center of Sky Class Island, like the man in the black bamboo hat from the South Island. He was a strong man, and if Lin Yi fell out with the center, it wouldn't be hard for him to kill Lin Yi.

The spirit beast clan's experts would still attract attention when they entered the major islands, but the people in the center were all humans. On the road, it was impossible to tell if the people passing by were ordinary people or assassins from the center. Moreover, the man with the black bamboo hat was not the only powerful one.

On the other side, Kang Zhaoming was secretly pleased. He was hoping that Lin Yi and Luan xiaoru's conversation would fall apart so that central could go all out against him.

He didn't even consider the possibility of Lin Yi killing him to vent his anger after the negotiations fell through.

Pinliang finally broke the silence after a while.

"Um, Lin Yi, come and have a drink. It's a negotiation, of course it has to be discussed. It's only a negotiation when everyone's going back and forth and discussing things. That was an ultimatum, don't you think so?" Zhong pinliang poured Lin Yi a glass of red wine and gave him a look as he smiled and talked to Lin Yi.

At times like this, someone was needed to break the ice. Pinliang didn't talk to Lin Yi about this beforehand, but he could tell that Lin Yi didn't really want to fall out with central.

Lin Yi took the glass and swirled it a few times before smiling. "You're right, miss Ling. I'll take a step back first. I won't charge you for the teleportation fee. I'll let you use it for free. Is that okay?"

"Does our Center still need that little bit of spiritual Jade?" Luan xiaoru was almost amused by Lin Yi. After monopolizing the business for so long, the Central's reserve of spiritual jades was already a huge number. If she could solve this problem with spiritual jades, she wouldn't mind giving Lin Yi a mountain of spiritual jades.

"I've already made a concession. If miss Ling is still not satisfied, then it'll be too difficult for me. Everyone should show some sincerity. I'm not the one begging your Center now!" Lin Yi's face went cold. He could use Zhong pinliang's face to give him a way out, but if Luan xiaoru didn't appreciate it, then they'd just break up.

Luan xiaoru smiled slightly. She wasn't angry with Lin Yi's attitude. Since he had made concessions, he would make more concessions. So, a negotiation that was haggling over every detail began.

In the end, Lin Yi didn't give in too much-he still charged the teleportation fee, but the amount was a little lower. He also changed the rule to not allowing mass teleportation of items, only allowing one research sample at most.

It was originally a technology from the center. Research? Was there still a need for research? Luan xiaoru was also so angry that her chest hurt, but it was already good to have teleportation items and contact with the secular world. In the future, she would find an opportunity to find the location of the wormhole and snatch it again.

Out of such consideration, Luan xiaoru pinched her nose and accepted the armistice agreement. There was a long time in the future, and there would always be a chance to get back this face!

The man in the black bamboo hat, who was far away in the southern island, received the news of the truce agreement. Although he was a little surprised by the content, it was still within his expectations. However, he felt a headache when he thought about explaining this matter to the spirit beast clan.

He'd just suggested the plan of using a flying saucer for an expedition not long ago, and the situation had taken a turn for the worse-even the wormhole entrance he controlled was destroyed.

"I would like to see the Vermilion Bird elder." Despite his headache, the man still had to find the Vermilion Bird and make things clear.

This was the Vermilion bird's private residence. When there was nothing to do, the four elders would not stay in the palace all the time and would most likely return home.

"The elder has invited you!" The guard who went in to report quickly returned and politely extended his hand to invite the man in the black bamboo hat in.

It was not the first time the man with the black bamboo hat had been here, so he did not need anyone to lead the way. He walked to the Vermilion bird's reception room with familiarity, and when he arrived, the Vermilion Bird was already sitting there waiting for him.

"What's the matter today?" The Vermilion bird's Crimson brows raised slightly as she looked at the man in the black bamboo hat with confusion.

Most of the things that needed to be discussed had already been discussed. If there were no special circumstances, he should not have come personally. Even a flying saucer ocean expedition couldn't be carried out so quickly, right?

"Elder Vermilion Bird, there's a change in the situation!" A wry smile appeared under the black bamboo hat's veil. He did not stand on ceremony with the Vermilion Bird and found a chair to sit down on.

"What's the change?" The Vermilion bird's hand that was holding the cup of water paused for a moment. From the tone of the black bamboo hat man, it did not seem to be a good thing.

"The UFO project is going to be delayed. There are some problems with the important parts for assembling the UFO, and we won't be able to supply them in a short time. So, the expedition plan has to be suspended." The man with the black bamboo hat sighed softly, trying his best to lower the severity of the matter.

"How long is the break?" The foreboding in the Vermilion bird's heart grew stronger and stronger. This plan could not be carried out immediately, and now it was being suspended. Could it be suspended indefinitely?

The man with the Black Hat was in a difficult position as well-he couldn't tell the Vermilion Bird about the truce agreement with Lin Yi, or he'd be going against the spirit beast clan.

"It's hard to say now. Maybe one or two years, maybe three or five years. Actually, this is good. It will allow us to make more preparations." The man didn't know when he'd fall out with Lin Yi-if he couldn't get the right to use the wormhole, the flying saucer plan would have to be put on hold indefinitely.

"One or two years won't affect our plan, but three or five years is too long. We still have to make preparations. Even without the UFO, we still have to find another way to carry out our plan." The Vermilion Bird frowned slightly. Although she was displeased, she could only accept this.

"Of course, if we can find another way, we can continue with our plan!" The man in the black bamboo hat secretly heaved a sigh of relief, but then he felt a little awkward.

If they really found another way and the spirit beasts went on an expedition across the sea, would the central government really go to war with the spirit beasts to protect the major islands?

Luan xiaoru's worst case scenario was to directly fall out with the spirit beast clan and break the Alliance, but the man with the black bamboo hat felt that it was still possible to fight for it. He didn't want the relationship with the spirit beast clan to drop to a freezing point. When they could deal with Lin Yi in the future, they could still continue to cooperate.

Chapter 6320 Central And The Spirit Beasts Fall Out

"Is this what you wanted to talk about? It's not a big deal, is it?" The Vermilion Bird looked at the man with the black bamboo hat suspiciously. If it was just to delay the time of the plan, there was no need to be so difficult, right?

A sea-crossing expedition was not an easy task. There were only benefits and no disadvantages to spending more time preparing. The Masters of the spirit beast clan grew faster than the human cultivators because the spirit beast clan had inheritance, which could greatly increase the growth speed of the spirit beasts.

Apart from that, the development of the caged Sea region had only just begun. Moreover, after becoming enemies with the sea beast clan, they still had to worry about whether the sea beast clan would destroy the caged Sea region.

"The original plan has changed. Of course, I have to come to tell you in person, in case you are unprepared. Furthermore, we will need you to help us find other ways. This is a big deal!" The man in the black bamboo hat said seriously. He was a little happy that he had managed to fool the Vermilion Bird and lay the foundation for Central's return.

"That makes sense. Alright, I'll take care of this. I hope you can solve your problems smoothly and let our plan proceed smoothly." The Vermilion Bird nodded, and it was clear from his tone that he wanted to see the guest out.

"There's one more thing I need your help with, elder Vermillion Bird. " The man in the black bamboo hat waved his hand, signaling for the Vermilion Bird to calm down.

"If you have anything to say, just say it. I will definitely help if I can." The Vermilion Bird did not hesitate at all. She did not even need to hear what the other party had to say. She immediately agreed.

"It's not difficult. The core of our spaceship was destroyed by the enemy because they wanted to destroy our Alliance. We can't make any more spaceships now, so there's no point in continuing our Alliance. So, elder Vermilion Bird, I hope you can announce that our cooperation is broken after I leave. This will calm the enemy down, and we'll contact each other in secret to prepare for the attack." The man in the black bamboo hat was pleased with himself. He had just thought of this plan.

Not only would he be able to answer to Lin Yi, allowing him to do his own things without any worries, but he could also leave a good impression on the higher-ups of the spirit beast clan, so that when he needed to settle scores with Lin Yi in the future, they could help him.

"Announce the collapse of the Alliance? Or is it really broken?" The Vermillion Bird raised her eyebrows and looked at the man with a profound look. She clearly felt that there was something strange about this.

"Hahahaha, elder Vermillion Bird, you're thinking too much. Of course, it's all a pretense. The announcement was just to numb the enemy. Our Alliance hasn't really changed." The man with the black bamboo hat laughed in response, appearing to be very magnanimous.

In fact, the man in the black bamboo hat was also a little suspicious. The Vermilion Bird was no fool. It was indeed difficult to hide from the old man's eyes as the actual ruler of the spirit beast clan.

The man with the black bamboo hat suggested this not only because he wanted to give Lin Yi an explanation, but also because he wanted to maintain a close relationship with the spirit beast clan. On one hand, he wanted to keep some hope for future cooperation, but on a deeper level, he wanted to control the development of the spirit beast clan in secret. He wanted to avoid the spirit beast clan attacking the islands during the truce agreement with Lin Yi. If that happened, they would be in a really difficult situation.

"Is that so? It sounds reasonable. " The Vermilion Bird looked at the man in the black bamboo hat and nodded slightly, tacitly agreeing to the plan.

If the Vermillion Bird knew about the truce agreement between Lin Yi and central, he would know what the man in the black bamboo hat was planning. Unfortunately, there wasn't enough information, and even the experienced Vermillion Bird could only believe the man's words.

After the matter was settled, the news began to spread rapidly under deliberate push. After the spirit beast clan and the sea beast clan broke off, they had also fallen out with central. However, the two sides did not completely fall out. Central had returned to the territory that the spirit beast clan had originally allocated to them. The spirit beast clan no longer entered that territory. Both sides had fallen into a Cold War.

When the news reached the sea beast clan, Xiao Yan naturally clapped his hands in joy. He then quickly spread the news to all the seas and found a chance to inform Lin Yi. As for the development of the cage Sea area, it also came to a halt because of this.

Xiao Yan originally wanted to bring some people to disrupt the development process of the cage Sea area. He did not expect that he did not even need to do anything. The spiritual beasts and the center had fallen out. The development over there naturally stopped and it would be a waste of time to go there.

Because of this, Xiao Yan did not realize that the development of the Dragonbreath Sea region was not really stagnant. Instead, it had turned from bright to dark and had entered a project that was secretly carried out.

Lin Yi was on his way to the North Island when he got the news that the spirit beast clan and central had fallen out.

After signing a truce agreement with central, or more precisely, an Alliance agreement, he stayed in Nakagama for a few more days. He wanted to wait for Tian Xing to bring Tian Gang and Xue Li back. However, he did not see them. Instead, he received a message from Tian Xing.

The letter was for Han Jing Jing. Tian Xing Dao didn't know that Lin Yi had returned, but it didn't make a difference. Han Jing Jing informed Lin Yi as soon as she received the letter.

According to Tian Xing, he and the two girls had found a very good place for cultivation. The original plan was to cultivate for ten days, but the results were unexpectedly good. The potential of the two girls had also begun to be discovered, so it would be extended for a period of time. The specific time could be two or three months to a year, depending on the situation.

Lin Yi was speechless at Tian xingdao's unreliable estimation of the time. The time he agreed to go to the East continent with Shangguan LAN 'er was approaching, and he couldn't wait any longer. He could only remind Han Jing before he brought Hao Zili and the other two people from the East continent to the North Island.

The news from the southern island came from a sea beast Master who noticed the wings in the sky and stopped to inform Lin Yi.

For the sake of his grandson and cousin, Zheng Dongsheng followed Lin Yi shamelessly. He was shocked by the sea beast that suddenly rushed into the sky. He was too weak, and the flying beast he rode was not a master that could transform like feiyi. Lin Yi was already giving him face by not being shaken off by feiyi.

"The spirit beast clan has fallen out with central? Does the news spread so quickly?" After thanking the sea beast Master, Lin Yi stood on the back of the flying wing, lost in thought.

Xiao Yan was able to inform him because he was a Prince in the sea and could quickly transmit information. How did the spirit beast clan get the news? There seemed to be something fishy about this matter!

Lin Yi pinched his chin and thought about it, putting the matter aside for the time being. It didn't matter to him whether or not the spirit beast clan and central really had a falling out. It was enough as long as the islands weren't attacked by the spirit beast clan.
