### Chapter 6331 Meet Again At The Conference

"Eh, that's not right! Ao Tianba didn't want to attack us, but came to help us?" Gu Yunhao realized that something was wrong as soon as he finished cursing. If ao Tianba really wanted to hit him while he was down, an ancient warship would be enough.

But now, he was leading the entire fleet Forward. This was certainly not aimed at Gu Yunhao, but to attack the sea beast tide!

"Hahahaha, ao Tianba, that idiot, he actually walked right into the trap. It's rare to see such a good person these days. I saw such a good person last year, but the grass on his grave is three feet long this year! Hahahaha!" Gu Yunhao laughed wildly in his heart, but he did not dare to shout out loud, for fear that ao Tianba would turn around and leave.

It was rare that someone was willing to share the pressure of the sea beast tide, so how could he let it go so easily?

"Relay my orders. After that idiot ao Tianba's fleet has attracted the attention of the sea beast tide, all ships are to advance at full speed and leave this Sea area!" Seeing that ao Tianba's fleet was approaching, Gu Yunhao quickly ordered his trusted aide beside him in a low voice.

"Yes, Captain! I'll immediately pass down the order!" One of Gu Yunhao's trusted aides trotted off to deliver the message, while Gu Yunhao turned around and gave an order to another.

"Quick, get the flagship and the other three warships to move to the side. Do your best to make way for them and invite ao Tianba's fleet over. Do not block their path. This is an important matter that concerns whether we can escape this danger!"

"Yes! Captain!" Another trusted aide hurriedly passed down the order, and Gu Yunhao finally relaxed.

He was already in a desperate situation, but he didn't expect things to take a turn for the better. He didn't know what ao Tianba was thinking, but he actually came to help him! This is really great! He wondered where ao Tianba would die. If she had the chance next year, she could go to his grave and help him pull out some grass.

On the other side, ao Tianba started laughing as well. "Lil bro Lin, your prediction was right! If that idiot Gu Yunhao really made way for us and wants us to die, I wonder what his expression will be when he sees that we can pass through the sea beast tide safely?"

"Ha ... When we pass by his flagship, brother ao Tian, if you're interested, you can take a good look. This kind of opportunity doesn't come often!" Lin Yi smiled faintly, thinking that Gu Yunhao's expression would be interesting this time.

In the blink of an eye, ao Tianba's fleet successfully arrived next to Gu Yunhao's flagship and began to pass through the passage.

Although Gu Yunhao had already dodged, it was a pity that the time was too short and he had not completely moved over, leaving a slightly narrow passage for ao Tianba.

In the past, Gu Yunhao would have definitely made the passage narrower to force ao Tianba into the hidden reef area. Now, he was secretly regretting and even praying for ao Tianba not to be sunk by the hidden reef. The ancient battleship was the most important combat force to stop the sea beast tide. If it was lost, their escape time would be greatly reduced.

Fortunately, what Gu Yunhao was worried about didn't happen. Ao Tianba's ancient battleship did enter the hidden reef area a little, but it was completely unharmed.

Not only that, but what Gu Yunhao had hoped for did not happen either. What did he mean by ao Tianba's fleet attracting the attention of the sea beast tide? Bullshit! Ao Tianba's fleet entered the sea beast tide's range, but the sea beast tide automatically split into two sides. None of them attacked the ship. It was as if all the sea beasts had gone blind and deaf at this moment, completely ignoring ao Tianba's fleet!

"How could this be? Am I dreaming?" Gu Yunhao was so shocked that his eyes were about to fall out. His hope had been completely dashed and he had to watch his opponent swagger past him. Those who had a slightly weaker mental capacity might vomit blood on the spot.

"Hahahaha, Gu Yunhao, thank you for lining up to send me off! Don't be discouraged. You will definitely be able to walk out of the sea beast tide. All the best!" Ao Tianba turned around and looked at Gu Yunhao, who had a dazed look in his eyes. He felt extremely comfortable, as if he was soaking in cold water on a hot summer day. Of course, he did not forget to mock him.

At this time, if Gu Yunhao still didn't understand the relationship between the sea beast tide and ao Tianba, then he was really stupid and not worthy of making such a big family business at sea.

Although he didn't understand how ao Tianba had done it, Gu Yunhao deduced that ao Tianba couldn't control the sea beast tide. Otherwise, his fleet would be completely destroyed if he cooperated with the sea beast tide to attack from the front and back!

As for whether ao Tianba had shown mercy? Hmph, Hmph. Gu Yunhao did not even think about this. If it were him, he would not have shown mercy even if he was beaten to death!

"Captain, should we attack ao Tianba's fleet?" One of Gu Yunhao's confidants asked in a low voice.

At such a close distance, as long as they attacked, there was no reason for them to miss. Moreover, it was very easy to hit the other party's ship into the hidden reef.

"Are you stupid? If you want to die, jump into the sea. There are so many sea beasts waiting for you!" Gu Yunhao slapped the back of his confidant's head, venting all his anger on this unlucky fellow.

"You want me to attack at such a close distance? Didn't you see that he was in cahoots with the sea beast tide? Can't you see that the hidden reefs can be driven away by the sea beast tide? Don't you know that we can't f \* cking stop hidden reefs?" The more Gu Yunhao spoke, the angrier he became. He slapped her again and again.

That unlucky fellow really wanted to cry but had no tears. Didn't he just want to suck up to her? even if he had hit the horse's leg, he didn't have to be beaten to death like this, right?

"Ao Tianba, don't be so smug. If I don't die today, I'll definitely get back at you for this! You better remember this!" After venting his anger, Gu Yunhao's anger subsided a little and he began to shout at ao Tianba again.

"Gu Yunhao, all the best! I have faith in you! We'll meet again at the conference, you must come back alive!" Ao Tianba laughed in response to Gu Yunhao. The entire fleet gradually drifted away in the sea beast tide. Then, the sea beasts that had separated gathered again and eagerly rushed toward Gu Yunhao's fleet.

"See you at the conference? Hahahaha, ao Tianba, you're really a soft-hearted idiot. You didn't even know how to use such a good opportunity today. You deserve to be suppressed by me for the rest of your life! Since you won't kill me today, I'll definitely kill you myself in the future as repayment!" Gu Yunhao understood the meaning behind ao Tianba's words and knew that he wouldn't die today. He suddenly looked up at the sky and laughed wildly.

There was a basis for this judgment. If ao Tianba wanted to kill Gu Yunhao, just now would have been the best opportunity. In addition, the powerful sea beasts in the sea beast tide had all disappeared without a trace. If the sea beast tide had attacked with all its might, his fleet would have been destroyed a long time ago. Why would he wait until now?

#### Chapter 6332 Requesting Help

Sure enough, after ao Tianba's fleet left, the sea beast tide gradually dissipated, leaving only the corpses of some weak sea beasts floating in the sea. Gu Yunhao's fleet had lost three treasured ships and a large warship, which was considered a heavy loss. However, the basic structure of the fleet was still there, and it was not really damaged. It was indeed a great fortune in misfortune.

Gu Yunhao, who had been beating his subordinates in a rage earlier, had now regained his calm. He looked in the direction of the AO Tianba fleet and sneered coldly. He was determined to exact revenge at this conference.

"Brother ao Tian, how long until the Grand meeting you mentioned?" Lin Yi didn't know when he'd be going to Mystic class sea, but if he could make it in time, he'd go help.

"Soon, there's probably less than a month's time. If younger brother Lin is free, come and help me. If you really don't have time, then forget it. Gu Yunhao's fleet has suffered a heavy blow, and with one less competitor, my brother's new route shouldn't be worse than this year." Ao Tianba smiled as he patted Lin Yi's shoulder, acting as if he didn't care.

He wanted Lin Yi's help, but Lin Yi was going to Mystic class now. He didn't want to delay Lin Yi, so he acted like he didn't care.

"Brother ao Tian, can you give me the location and time of the conference? I'll try my best to find you when the time comes." Lin Yi really wanted to help ao Tian BA-he didn't say it out loud, but he'd still go help if there was a conflict with the recruitment schedule.

After all, ao Tianba was a brother who had gone through life and death with him. He did say that Gu Yunhao's strength was damaged and that he would have an advantage in the competition, but Lin Yi felt that he needed to make ao Tianba's advantage bigger.

He was only going to the mystic class Sea area to accompany Shangguan LAN 'er, after all, and he didn't really care if he could get into the school or not.

"That's good. If you're in a hurry, you don't have to make a special trip. " Ao Tianba nodded with a smile and handed Lin Yi a letter he'd prepared.

He'd already prepared everything, and there was no need for formalities ... Lin Yi laughed to himself as he put the letter into his bag.

In any case, he had to make this trip no matter what, so it didn't matter what he said now.

As the captain, ao Tianba had many things to take care of. After chatting with Lin Yi for a bit more, he went back to the bridge.

The people on the deck had left in twos and threes after the sea beast tide. Now, other than Hao Zili and the other two who were with Lin Yi, only Zhang jinmiao and Shangguan LAN 'er were left.

"Deputy Dean Zhang, I forgot to ask. What's the trip to the East Province this time? Are we going directly to the mystic class sea?" Lin Yi couldn't forget about the AO Tian dam-he might as well ask since Zhang jinmiao was there.

If he set off directly to the Xuan class Sea area, he might not be able to go with him. He could only wait until he finished helping ao Tianba before looking for Shangguan LAN 'er.

"We'll go to the Yellow Sea area first and stay there for a while. We'll leave for the mystic Sea area after we complete the entrance examination. It'll take about one to two months. As long as you pass the examination, you'll be free to move around. We'll meet up when it's time to gather and set off together." Zhang jinmiao's expression was extremely gentle-Lin Yi was a genius she had high hopes for, so she had to be friendly.

"Lin Yi, Lil" bro, let me tell you-my master is the representative of the schools in the mystic division Sea area this time, and she's here to test if the students have the right to enter the Mystic division Sea area. So don't worry, with me here, you'll definitely be able to go!" Shangguan LAN 'er acted like a Senior Sister and patted Lin Yi's shoulder, as if saying, "you've found a good backer."

Zhang jinmiao couldn't help but smile. A genius like Lin Yi would be fought over by all the houses after entering the mystic division Sea area-did he even need to go through the back door for a mere spot? If it weren't for the fact that he had to follow the proper procedure, Lin Yi wouldn't even need to take the test.

Lin Yi knew that Shangguan LAN 'er was trying to pull a fast one, so he played along with her.

"Lin Yi, I'm here to represent all the academies to enroll in the Golden sea, and I can only provide a quota for those who enter the Mystic Sea. Not everyone can stay there, and there'll be a new test there. Only those who pass can enter the academies, and those who don't will be sent back to the Golden sea. In order to ensure fairness, I can't take in students on my own, and there's only one quota at most. As my disciple, LAN 'er also needs to take the test in the mystic division Sea area. If she can't pass, she can only be my disciple in name and can't become an official student. " Zhang jinmiao explained for Lin Yi. If it was possible, she really wanted to take Lin Yi into the school immediately.

Unfortunately, this kind of behavior would be jointly attacked by the major Academies. Every time the representatives of the major Academies came out to recruit students, in order to put an end to this phenomenon, they would set quite strict restrictions and the punishment would be very severe.

"So that's how it is. It seems like it's not that easy to become a student of a Mystic division sea Academy!" Lin Yi pretended to sigh, but he didn't really care.

With his strength, if he couldn't get into the mystic Sea region's Academy, then no one in the entire golden sea region would be able to succeed, right?

"Lin Yi, my master is the Vice Dean of the Feiyang school. You have to get in there. I won't let you go to some other school!" Shangguan LAN 'er was afraid that Lin Yi wouldn't want to be with her, so she decided to strike while the iron was hot.

Zhang jinmiao was overjoyed. She thought to herself that she had not doted on this disciple for nothing. He was very reliable at the critical moment! As long as Lin Yi decided to come to Feiyang school, the other schools wouldn't be able to fight for it.

"Of course, I will follow little Senior sister's footsteps and move forward bravely. Don't worry, unless Feiyang college doesn't want me, I will definitely get in!" Lin Yi said with a confident smile. It didn't matter which school he went to, all he needed to do was to keep accumulating and break through to the peak.

Shangguan LAN 'er naturally cheered for joy, and Zhang jinmiao was also happy in her heart, but she could not show it on her face, and it was very hard for her to hold it in.

"LAN 'er, you haven't finished your homework yet, have you? Hurry up and go cultivate. If you don't pass the assessment and can only be a nominal student, then master's face will be completely lost by you!" Zhang jinmiao was in a good mood, but she did not forget to urge Shangguan LAN 'er to cultivate.  
Chapter 6333 I Hope We Can Go Together

This little girl was talented, but she was a little too lazy. Her strength had barely reached the qualification line. If she didn't work hard, there was a possibility that an accident would happen.

"Oh, I know, master!" Shangguan LAN 'er made a face at Lin Yi before waving her hand and skipping back to her training.

Zhang jinmiao greeted Lin Yi and the others with a warm smile before following Shangguan LAN 'er back to her room, leaving the four of them on the deck.

"Hao Zili, min huichen, feiyi, what are your plans after we reach the yellow-class Sea area? Are you going back to your sect?" Lin Yi had already removed the poison from the three of them, giving them freedom. They were All Together Now, and they were getting closer and closer to the yellow Class Sea area, so he decided to ask them.

Hao Zili and the other two looked at each other. They had been thinking about this question for a long time. To be honest, when they were forced to follow Lin Yi, they wanted to go back to the valley.

But after a while, they found that following Lin Yi was very comfortable, and there were no benefits to it. Lin Yi, LAN Guzha, and the others didn't forget them either, treating them equally. It was hard for them to make a choice.

"Boss Lin Yi, it doesn't really matter if we're in the blissful Valley or not. If you don't mind, we hope to go with you to the mystic class Sea area." Hao Zili expressed his thoughts on behalf of the three. He wanted to follow Lin Yi the most out of the three because he was already at the peak of the mountain-opening realm and was about to break through to the earth-opening realm. What could be more secure than having a master alchemist by his side?

More importantly, those who were at least in the beginning stage could go to the mystic division Sea area freely, but those who weren't native to the mystic division Sea area could only stay there for four months at most. There would be serious consequences if they exceeded the time limit.

However, if they were the guards of the good Academy students, they could stay for another two months, which was extremely beneficial to their development.

"If you want to go with me, I'm fine with it. But, you have to make some arrangements for the blissful Valley. After all, it's your own sect, and you can't just disappear without a word, right?" Lin Yi nodded, not disagreeing with their decision.

With these few suitable subordinates by his side, he did not need to do many things himself.

"Thank you, boss Lin Yi!" Hao Zili and the other two were overjoyed. They cupped their fists and bowed to thank Lin Yi. As long as Lin Yi was willing to accept them, their future would be bright.

To be honest, when the poison was removed, the three of them didn't know if they should be happy or sad. If they couldn't continue to follow Lin Yi, their cultivation speed would be greatly reduced. It wasn't something to be happy about, but now it was great. It was the best of both worlds!

"Boss Lin Yi, don't worry. We won't forget about the valley of bliss either. The mystic division Sea area has restrictions on us, so the three of us will enter in groups." Min huichen smiled and explained in a good mood.

"That's right. If we follow boss Lin Yi into the mystic class sea, the three of us can stay there for half a year each year. I'll go with boss Lin Yi first, and after half a year, I'll come back and take min huichen and feiyi's place," Hao Zili continued after min huichen. It was obvious that the three of them had already discussed this beforehand.

What if Lin Yi rejected their offer? what if he rejected their offer to follow him to Mystic class sea?

"Very good. This way, we can take care of both sides. It's decided then. When we reach the Yellow Sea area, you can go back together and have a look. If your sect has no objections, we will proceed according to your plan." Lin Yi smiled faintly and decided with a wave of his hand.

Hao Zili and the other two were very happy. Although they were high-level figures in the blissful Valley, no one in the blissful Valley would reject such a good opportunity. The stronger they were, the more help they would be to the sect. Not to mention, they could also bring a friend like Lin Yi to the sect.

Not to mention Lin Yi's fighting ability, just his status as the number one Alchemist in the Golden class Sea area was enough for the valley to take him seriously.

After the discussion, the three left. Lin Yi chatted with Xiao Yi for a while more through his communication bead, thanking him again for his help before putting it away.

The voyage after that was smooth sailing. With Xiao Yan's aura around, there were still no sea beasts that came to harass the fleet. After leaving the sea area that was densely covered with hidden reefs, they did not encounter any other fleets. Everyone had their own course. Other than the previous places, it was almost impossible to encounter them at sea.

After reaching the Golden class Sea area, everyone got off the boat. Lin Yi, Zhang Jinmiao, and the others went to recruit students. Hao Zili and the other two returned to the valley of bliss first and met up with them later. Ao Tianba also had to take care of the fleet matters before going to the conference.

Lin Yi calculated the time-it'd be best to go help Ao Tianba after the test was over, and so they set a time and place to meet up before going their separate ways at the dock.

As for Zheng Dongsheng, he didn't have the face to be with Lin Yi and the others after he made a fool of himself on the ancient battleship that day. He left after getting off the ship, saying that he would wait for Lin Yi in the middle Island and go to the South continent to save them.

Lin Yi couldn't be bothered with Zheng Dongsheng. After saying goodbye to everyone, he followed Zhang jinmiao to the school for golden class girls. The entrance test for the mystic division Sea area was going to take place here, and most of the people who came with Zhang jinmiao were already waiting there.

"Vice Principal Zhang, isn't it a bit inappropriate for the examination to be held at the Golden class Women's Academy? After all, there are a lot of male cultivators here, so it's not convenient for the Women's College to receive them, right?" Lin Yi didn't have anything to say-if he had a choice, he'd rather go to a golden class Morning Star School. He knew more people there, and Xinyan and xiaotao were there too. It'd been a long time since he'd seen them, and he didn't know how they were doing.

"It won't. The Golden class Women's Academy doesn't only allow women to enter. Moreover, they're also divided into the inner and outer courts. The outer court is a place to receive guests and doesn't have too many restrictions. We're only borrowing the outer court of the morning Pride students for the test, so it shouldn't be a big problem. " Zhang jinmiao was very patient with Lin Yi, and she introduced him in detail with a smile.

"I see. Speaking of which, I have a friend in proud women's college. I wonder how she's doing." Lin Yi was talking about Huo yudie. The two of them had participated in the test together on the Western Island and got the Thunder mystical vine. They were considered to have a special relationship.

Chapter 6334 Do You Miss Huo Yudie?

"Lin Yi, are you thinking about Huo yudie? We'll see each other soon, have you thought of what to say?" Shangguan LAN 'er smiled mischievously. She knew who Huo yudie was, so she could guess who Lin Yi was talking about.

Lin Yi smiled faintly. He didn't need to hide his relationship with Huo yudie, and it was normal for Shangguan LAN 'er to be able to guess it. However, when he left last time, Huo yudie went to the Flying Cloud School to accompany ning Xuefei as an exchange student. He didn't know if she came back after that.

"I know about Huo yudie, but it's a pity that you won't be able to see her this time. She went to the mystic division sea last year and joined the morning glory Mystic Division Women's Academy. If you want to catch up with her, you'll have to wait until you're all at the mystic division." Zhang jinmiao said with a smile. She was a student from last year. Although she wasn't from Feiyang college, she still had an impression of her.

Moreover, the two schools had a good relationship, so everyone would pay more attention to any outstanding freshmen. This was also why Zhang jinmiao chose the School for Girls at morning's pride to stay in when she came to the yellow Class sea.

"Morning Glory Mystic class Women's Academy? Is it related to the Golden class girls "Academy here?" Lin Yi was a little surprised-this was the first time he'd heard of it. It seemed like the legacy of the school of Chen Jiao was quite extensive.

"You're right. That's why most of the students who go to the mystic division Sea area will still join the Morning Star Academy over there. Of course, some people will choose to join a better Academy. As long as they have the strength, the better Academies will be happy to fight for them." Zhang jinmiao nodded. This kind of ladder-like method could guarantee that there would be the most basic students every time they recruited students, unless there was a shortage of talents in the Golden sea area and they couldn't send outstanding talents.

Lin Yi understood immediately. It was easy to understand-it was like a famous university in the common world, with high schools, middle schools, and elementary schools attached to it. Students who were trained this way would naturally have a strong sense of belonging to the University they were in, and would choose schools with the same system first.

"Does this mean that the Morning Star golden class academy also has a Mystic class academy in the mystic class sea?" Lin Yi's ability to draw inferences made from one situation made him think of the Morning Star Academy immediately.

It couldn't be helped-he was just thinking about Wang Xinyan and Huang Xiaotao. Besides, Chen Xing had the prefix "golden class," so it was very likely that he was the same as Chen Jiao.

"Yes, Morning Star Mystic class academy is a pretty good school too. Last year, they accepted a few very talented students, and two of them were pretty outstanding. At that time, the higher-ups of our Feiyang school were discussing whether it was necessary to open a Feiyang golden class academy in a golden class Sea area. Otherwise, all the good seedlings would be taken away by them." Zhang Jinmiao laughed and teased. In fact, with the status of Feiyang college in the mystic division Sea area, it was slightly higher than Chen Xing and Chen Jiao, so it wasn't too difficult to recruit students.

However, those who were born at the Morning Star or Morning Pride level would naturally have a sense of belonging to these two academies. No one could be envious of this.

Fortunately, such situations were rare, so the schools in the mystic division Sea area could only bear with it. If Feiyang school did the same, the other schools in the mystic division Sea area would follow suit and rush over like a swarm of bees, then there would be no way to deal with it.

Morning Star and Morning Pride Academy were special. They were two academies that developed from the Yellow Division Sea area. Originally, these two academies didn't exist in the mystic division Sea area. They were only established later, so their foundations were slightly weaker. It was precisely because of this that the other Academies would tolerate students from their Yellow Division directly going there. Of course, those with real talent should be fought over, and whether they could get it or not was another matter.

"Vice Principal Zhang, what are the names of the two girls at the Morning Star? I have more acquaintances there, so maybe it's someone I know. " Lin Yi's heart skipped a beat at Zhang jinmiao's words-Xinyan and xiaotao were definitely at the top of the talented girls at Chen Xing. Did they go to Mystic class last year?

"Hmm, let me think, one of them is called Wang Xinyan, and the other is called Huang xiaotao. They're both young, but they're both very talented. Do you know them?" Zhang jinmiao thought for a moment and accurately said the two women's names. It was indeed them!

"Wang Xinyan and Huang xiaotao? I know, I know!" At the side, Shangguan LAN 'er jumped and raised her hands excitedly, as if she was playing a game of answering.

Lin Yi smiled. Huang Xiao Tao was from the North Island, so it wasn't strange for Shangguan LAN 'er to know her. As for Wang Xinyan, she probably hadn't seen her before, so he didn't know who told her.

Han Jingjing, tianshuo, and Xue Li were all Shangguan LAN 'er's best friends. She probably knew who followed Lin Yi from the secular world, and that was why she was so happy to hear Xinyan's name.

"I know them. They're my friends." Lin Yi didn't bother with Shangguan LAN 'er and nodded to Zhang jinmiao.

"As expected, birds of a feather flock together! Lin Yi, you're a genius, and you've got geniuses by your side as well. The most outstanding people from last year, Wang Xinyan, Huang xiaotao, and Huo yudie, are all your friends, how amazing. " Zhang jinmiao sighed from the bottom of her heart. She looked at

her proud disciple. Although she was a little lazy in cultivation, she could not deny that she was indeed a little genius!

It was a pity that Lin Yi didn't attend the test last year. If they had gotten him into the school last year, Wang Xinyan, Huang Xiaotao, and even Huo Yudie might have followed him.

The thought appeared in Zhang Jinmiao's mind, and she couldn't control it anymore. Lin Yi was a super genius himself, and what was even more valuable was that he seemed to have a special quality that could attract geniuses like him to surround him. With Lin Yi, she believed that Feiyang school would be able to rise to a higher level.

"En, en, en, master's absolutely right. I feel that Lin Yi Lil' bro is like a very, very beautiful flower, giving off an alluring scent, and then those outstanding girls are attracted to him like butterflies, flying to his side. Hahaha, I'm one of the butterflies among them!" As Shangguan LAN 'er spoke, she began to giggle, her bell-like laughter drifting all the way.

"What kind of metaphors are you using? It's really a mess!" Lin Yi didn't know whether to laugh or cry as he looked at Shangguan LAN 'er. He felt that Shangguan Tianhua really didn't teach her well. Look at her literary Foundation. Sigh, let's not talk about it!

Chapter 6335 They're Not As Good As Me Anyway

Zhang Jinmiao almost couldn't help but laugh at her disciple's teasing. However, after thinking about it carefully, it really made sense. Although the metaphor wasn't very appropriate, the meaning was right.

As far as he knew, most of the people Lin Yi knew were talented girls. As for boys, he'd never heard of them.

If Lin Yi knew what Zhang jinmiao was thinking, he'd definitely bring LAN Guzha with him. It was a sea beast, but this guy's talent wasn't any worse than Lin Yi 's.

Other than LAN Guzha, he should have brought a few of his decent underlings as well ...

"Am I wrong? Why do I feel that my description is very appropriate?" Shangguan LAN 'er blinked innocently, as if saying that it was wrong of Lin Yi to not admit it.

Lin Yi backed off instantly. Fine, as long as you're happy ...

"Oh right, master, have you heard of ning Xuefei? Did she go to the mystic division Sea area?" Speaking of the girls around Lin Yi, Shangguan LAN 'er would naturally think of her best friend, ning Xuefei. She was thinking that she would be able to see her long-lost good friend this time, but when she heard that the other girls had gone to the mystic division sea, she suddenly felt that she might not be able to see ning Xuefei this time.

Lin Yi had the same thought. Huo yudie had gone to the mystic class sea, so ning Xuefei must have gone too. After all, the little princess of the West Island was extremely talented and wasn't inferior to the others.

"I know ning Xuefei, she's the little princess of the West Island. She did go to the mystic division last year, and she's pretty talented. Is she Lin Yi's friend?" Zhang jinmiao remembered the girl as soon as she heard her disciple mention ning Xuefei. She looked at Lin Yi with a faint smile.

Judging from his expression, ning Xuefei was obviously his "friend", just like the other girls!

"Master, you're wrong. Feifei isn't Lin Yi Junior's friend, she's his fiancée! Lin Yi is the Fuma of the Western part of the island!" Shangguan LAN 'er giggled as she teased Lin Yi. She was quite proud of herself, since she had put in a lot of effort back then.

Zhang jinmiao looked at Lin Yi and then at Shangguan LAN 'er in surprise. This was the first time she had heard of this, and it was really an eye-opener for Lin Yi's dissolute nature. At the same time, it was also an eye-opener for her own disciple's generosity. Young people these days were really amazing!

Even a blind person could tell that Shangguan LAN 'er liked Lin Yi, and Zhang jinmiao naturally knew that as well. However, there was no marriage law on Sky Class Island, and polygamy was normal-as long as you were strong enough, it was no problem at all. Plus, it was natural for the strong to attract the attention of beautiful women, and it wasn't strange for a super genius like Lin Yi to have a few more female friends.

What a pity! If they could get Lin Yi into Feiyang school last year, they'd be able to attract all those genius girls! What a pity ... Zhang jinmiao couldn't help but sigh. She didn't know if there would be as many genius girls this year, but if there were, she hoped that they were related to Lin Yi ...

Lin Yi was relieved to hear that ning Xuefei had gone to the mystic division as well. He just didn't know if she was with Huo yudie. Zhang jinmiao didn't mention ning Xuefei when she mentioned Huo yudie, so it seemed like the two weren't in the same school.

However, Lin Yi wasn't worried about ning Xuefei. With her personality, she wouldn't offend anyone no matter where she went, unless Ren Zhongyuan and the other idiots followed her. Besides, with Leng rufeng and yang qianxue around, ning Xuefei probably wouldn't be at a disadvantage.

Knowing that these people in the Golden sea area were all doing well, and that most of the people Lin Yi cared about had gone to the mystic Sea area, he was relieved. After going to the mystic Sea area, he would be able to see everyone, and he was looking forward to it!

Lin Yi was in a good mood, so he talked a lot more. The group talked and laughed along the way, and it wasn't lonely at all. Zhang jinmiao felt a lot younger with the two juniors.

A few days later, they arrived at the Golden class Women's Academy, and there were already people who'd been notified to come and welcome them. Zhang jinmiao's status was noble, and naturally, the people who came were the higher-ups of the school. The Vice-Dean, Liu Ziyu, however, wasn't among them, and Lin Yi didn't want to add to the mess after seeing that he didn't know anyone.

Shangguan LAN 'er didn't have the patience to greet him, either-seeing Lin Yi's lack of interest, she pulled him along and sneaked away, wandering around the outer court of the School for Girls, calling it a spot-checking!

"What have you taken a fancy to? you're waiting for the moon to be dark and the wind to blow? He even went around to check out the place, he's quite professional!" Lin Yi didn't know whether to laugh or cry as he looked at the new female cat burglar, Shangguan LAN 'er. He didn't know what to say.

"Who said that you'd have to take a fancy to their stuff to be able to come here? Isn't that assessment held here? we should familiarize ourselves with the terrain first, right? Shouldn't you be checking the place properly?" Shangguan LAN 'er looked at Lin Yi with a "you're stupider than a Curly Bear" expression, before bursting into laughter.

"Senior Sister LAN 'er, you're Vice Principal Zhang's disciple, so you don't need a place to go to the East continent to participate in the examination of the major Academies. You can go directly. Are you

worried that I won't get a place?" Lin Yi pointed at his own nose, not believing that Shangguan LAN 'er had so little confidence in him.

"You're right, you don't need to worry about not having a slot! Aiya, why isn't your Little Junior Brother cooperating at all? If Senior Sister says to Scout the place, then Scout the place, why are you talking so much nonsense!" Even Shangguan LAN 'er found it funny herself, but she didn't want to let Lin Yi off.

Alright, I'll do as you say. Even if you dragged me out to steal things in the middle of the night, I'll admit it! Lin Yi smiled and curled his lips, raising his hands in surrender. He started to Scout the area with Shangguan LAN 'er ... Fine, they were just wandering around aimlessly, and the outer house disciples would kindly come up and show the two who seemed lost.

"I heard that the assessment to go to the mystic division Sea area is the day after tomorrow. Our journey here was quite smooth, and it was two days early. I don't know if the participants have arrived yet. Why don't we go and spy on the enemy first?" Shangguan LAN 'er was a little bored, so she rolled her eyes and came up with another idea.

"What's there to pry about? actually, even if you think about it, you know that the people participating in the assessment this time won't be too powerful. In any case, they're not as powerful as me!" Lin Yi smiled, not interested in her suggestion at all.

"Why do you think that the people this time are not powerful? And they're not as good as you?" Shangguan LAN 'er tilted her head as she looked at Lin Yi, clapping her hands as realization dawned on her, "Oh, I understand! Did you think that the people who were strong went to the mystic division last year, so the participants this year are all people who didn't qualify last year? What he said did make sense! I told you, you don't seem like someone who's so arrogant. "

Chapter 6336 Condensing Qi Into Arrows

"Actually, I'm such an arrogant person!" Lin Yi laughed out loud. In his eyes, anyone below the mountain split stage posed no threat to him at all. After training in the secret realm, his body had become extremely strong. Even if he didn't make a move, it would be very difficult for those students at the xuansheng stage to hurt him.

However, Lin Yi wouldn't look down on others just because of this. What he meant was just as Shangguan LAN 'er said-those who didn't make it last year would only get a limited promotion this year, and it was unlikely that any strong people would appear.

Even Wang Xinyan and Huang xiaotao had gone to the mystic division sea, so Lin Yi probably wouldn't see any familiar faces this time. He forgot to ask Zhang jinmiao if she had heard of Leng rufeng before. With his talent, he shouldn't be much worse than Wang Xinyan and the others. If nothing unexpected happened, he should be in the mystic division sea.

Just as they were talking and laughing, Lin Yi's body suddenly trembled, and the Jade space sent out a strong warning signal. This was enough to kill him!

There were enemies!

In an instant, Lin Yi had already made a judgment and instinctively activated his lightning escape technique. With a flash of lightning, he brought Shangguan LAN 'er out of the place and reappeared a few hundred feet away.

A small hole the thickness of two fingers appeared where he had been standing. With a sweep of his spiritual sense, he found that this hole was nearly thirty meters deep, which showed its power.

The hole was created by an arrow made of pure energy, and it was quickly dissipating. If Lin Yi's spirit sense had been a little later, he wouldn't have been able to see anything.

"What a powerful arrow condensed from Qi! With the strength of my physical body, if I take an arrow head on, I'll be seriously injured if not dead. If it hits a vital point, there's a 70 - 80% chance that I won't be able to withstand it. " Lin Yi's heart trembled as he wrapped his arm around Shangguan LAN 'er's waist and changed their position again.

However, this time, he didn't use the lightning movement technique. Instead, he used the three appearances of the cloud Dragon, leaving behind an illusory image to confuse the opponent. At the same time, he spread out his divine sense to search for traces of the enemy in the direction of the arrow.

Lin Yi was confident that he would be able to lock onto the man's position as long as he shot the second arrow. In terms of speed, Lin Yi was invincible under the sea shattering realm. Judging from the power of the arrow, the man should still be in the realm of earth formation.

Although bows and arrows were long-range weapons, Lin Yi believed that the range of the enemy wouldn't be further than the range of his spirit sense. As long as the enemy exposed his whereabouts, he wouldn't be able to escape from Lin Yi!

However, Lin Yi had miscalculated this time. The opponent didn't fire a second arrow after missing his first arrow. He had disappeared without a trace. Lin Yi's plan had failed.

Although his spiritual sense search was fast, he still couldn't find any trace of the other party. From this, it could be seen how powerful this guy who secretly attacked was. After missing his attack, he escaped thousands of miles away. He was definitely a top-class assassin!

"Lin Yi, what's going on?" Shangguan LAN 'er's pretty face was slightly pale. Although she did not notice that someone had launched a sneak attack on her, she could still clearly feel the power of the arrow that had suddenly exploded when it was close to the target, even from a few hundred feet away.

What a sinister archery skill! It was silent and undetectable, only erupting when they were about to make contact. If Lin Yi didn't have the Jade space to alert him, he wouldn't have been able to react until he noticed it.

"Someone is trying to kill me! However, he has already escaped!" Lin Yi lowered his head and smiled at Shangguan LAN 'er, indicating that he was fine.

He didn't know who sent this assassin. He had just arrived at proud of dawn Academy and someone had already come to assassinate him. It seemed like he couldn't even have a moment of peace!

Lin Yi couldn't figure out who the mastermind was, but this killer reminded him of the hidden death sect in the East continent. Could it be their people again?

When he was leaving the northernmost Island, Lin Yi was chased by two assassins from hidden death sect. They were only earth-rank, but they almost took his and LAN Guzha's lives. It was easy, but only Lin Yi knew how dangerous it was.

Could the killer this time be a follow-up to the previous pursuit? Or maybe the spirit beasts from the South continent were chasing after them, such as the Golden Dragon or other assassins?

Lin Yi shook his head. It was impossible to deduce anything useful from a random arrow. He had to be more careful in the future. He didn't care about himself, as long as he didn't drag Shangguan LAN 'er into this.

"Let's go. This place is too close to the edge of the outer court. The enemy's attack will be easy to succeed. It won't be so easy to go in after a certain distance. " Lin Yi let go of Shangguan LAN 'er's hand on her waist and patted her shoulder lightly, walking in with his guard up.

"We're just going to let him go? Shouldn't we chase after that bastard and drag him out?" Shangguan LAN 'er was only shocked for a moment, and then she returned to normal. It was rare to have such an exciting thing, how could she let it go?

"Uh, I can't find his position, how am I supposed to find him?" Lin Yi looked at the expression on Shangguan LAN 'er's face, and felt a little depressed.

He was being assassinated! Young miss, you're really big-hearted!

"Let's go out and look for it! Maybe he's just hiding outside and we'll find him soon?" Shangguan LAN 'er stopped in her tracks and pulled Lin Yi away.

If Lin Yi was alone, he'd give chase, but with Shangguan LAN 'er, he really didn't dare!

The speed and power of the arrow, as well as its ability to hide, made him extremely cautious. If the arrow was aimed at him, he could alert the Jade space in advance. If the target was Shangguan LAN 'er, Lin Yi was not sure if he could save her.

"The terrain outside is complex, and it's suitable for an expert with a bow to launch a sneak attack. If we go out, we'll only become their hunting targets. Don't worry, I won't let this go. This guy didn't succeed today, but he'll definitely come back next time. Just wait and see, I'll definitely catch him next time." Lin Yi told her the truth and even patted his chest as a guarantee. Only then did Shangguan LAN 'er give up on the idea of going out to find assassins.

There wasn't anyone else other than the two of them when it happened, and Lin Yi didn't plan on making it public. There wasn't anyone in the Academy who was as skilled as the assassin, and it'd only add to the panic. No matter how many guards there were, they wouldn't be able to stop an assassin of this level from sneaking in, so Lin Yi had to rely on himself.

Zhang jinmiao's strength was decent, but she was still a bit lacking when it came to dealing with assassins who used sneak attacks as their main method. Lin Yi didn't even want to tell her, so he told Shangguan LAN 'er not to let it slip.

Chapter 6337 Mystic Division Sea Trial

"This is the secret between us? Alright! I won't tell my master, but you can't leave me to find that killer alone!" Shangguan LAN 'er nodded seriously, but she still glared at Lin Yi and warned him.

"Okay, I definitely won't go to find that killer alone!" Lin Yi smiled, but he wasn't going to take her risk.

Just now, Lin Yi had already sent out eight of his little spirit beasts to search the large area outside. He left one behind not to protect himself, but to keep an eye on the surroundings, in case anything happened and affected Shangguan LAN 'er.

It was a brilliant idea to use a spirit beast from a master of stealth to find an assassin who was also good at stealth. Lin Yi believed that these little guys would bring him a surprise.

As long as they were within a certain range, the frog's divine sense in Lin Yi's dantian could contact these little guys. Once he found their whereabouts, Lin Yi could rush over and deal with them immediately!

On the way back with Shangguan LAN 'er, a female student from the Academy came to inform Lin Yi and Shangguan LAN' er that Zhang jinmiao was discussing something with the higher-ups of the Academy and the other members of the mystic division, and asked them to go back to their assigned rooms to rest.

Lin Yi was quite satisfied with the fact that their room was in the same courtyard-at least he could take care of Shangguan LAN 'er whenever there was a situation.

"Junior Sister, may I ask if the other students who are taking the test in the Yellow Sea area also live here?" Lin Yi thought about it and decided to ask the female disciple who led the way.

If there were too many people living around here, it would be easier for the killer to sneak in. Not only would he hurt innocent people, but Lin Yi's defense would also be more passive.

"It's not like that. The outer court only welcomes the seniors who came from the mystic division sea. You're only allowed to stay here because you came with Vice Principal Zhang. As for the rest of the people who came for the test, unless they're students of our Academy, they'll find a place to stay nearby and come here for the test when it's time. " The female disciple smiled and answered Lin Yi's question patiently.

"Many thanks, Junior Sister. I understand now." Lin Yi nodded in thanks with a smile, and the female disciple bowed and left after seeing that Lin Yi had no more questions.

There was no one else living around, and Lin Yi was much more at ease. His spirit sense could cover the entire area, and if he noticed anyone approaching, he would be able to react immediately.

Of course, in order to make sure nothing went wrong, Lin Yi set up a new formation in the yard, especially in Shangguan LAN 'er's room. There were all kinds of defensive formations stacked on top of each other, making sure that no one could break it in a short time.

Fortunately, the killer had no intention of sneaking into the Golden class Women's Academy. The past two days passed by peacefully, and many of the candidates had already gathered at the entrance of the outer court, waiting for the assessment to begin.

"Everyone, thank you for taking the trouble to participate in the mystic Sea area test. I'm honored to see so many young talents here-you're all the future of Sky Class Island, so don't be discouraged even if you can't go to the mystic Sea area. You'll be able to use all your strength in the future and contribute to the development of Sky Class Island!" As the representative of the mystic division, Zhang jinmiao naturally had to say a few words first.

Although it was all conventional words, there were still many people who were willing to listen. Under the temporary high platform built in the outer court, those who participated in the assessment were all listening quietly, not making the slightest sound.

Lin Yi lowered his eyes and looked like he was listening to Zhang jinmiao, but his spirit sense was already searching for suspicious people. The assassin was definitely a master, and the timing he chose to attack would be very precise. For example, this was a good opportunity.

If he attacked now, not only would he have a chance to kill Lin Yi, but he could also create chaos and make it easier for him to escape. So Lin Yi thought that the possibility of this guy attacking was quite high.

Unfortunately, Lin Yi didn't find anything wrong within the range of his spirit sense. Perhaps the opponent felt that the time wasn't right yet? The eight little spirit beasts that had scattered out had not discovered anything after such a long time. That fellow had really hidden himself well! If it wasn't for the arrow holes on the ground, it would really look like it had never appeared.

He didn't find any killers, but he did find some people he knew, such as Leng rufeng. Lin Yi thought that he had gone to the mystic division sea, but he was still in the Golden Division. Seeing yang qianxue beside him, Lin Yi could guess what Leng rufeng was thinking. He probably thought that his strength wasn't enough to go back to the mystic division sea for revenge, so he stayed here to accumulate strength.

Other than these two, Lin Yi also saw Jiang He hai and Qin Yue-both of them were at the xuansheng stage as well. It seemed like they had some sort of miraculous encounter, or their cultivation speed wouldn't be this fast.

After going through so many nightmarish days, Qin Yue was still able to be with the person she loved-her aura was completely different. Lin Yi didn't know if Jiang He and hai knew what Qin Yue had been through, but it didn't stop him from wishing them well.

These were all considered Lin Yi's friends, but there were also a few who weren't. For example, Ren Zhongyuan, Yi Xiaotian, Yao Jiali, and so on. Not only were they not Lin Yi's friends, but he also didn't get along with them. However, with Lin Yi's strength and vision, he didn't even consider them as his enemies.

"This year isn't the recruitment year for the mystic Sea region, so only one hundred people can enter the Mystic Sea region to take the test. Among these one hundred people, after the test, sixty students will be admitted. If there are outstanding results, there may be the possibility of an exception, but under such circumstances, there will definitely be no more than three. It doesn't mean that you'll be able to stay just because you've gone to the mystic class Sea area. If anyone isn't confident, you can leave now." Zhang jinmiao said unhurriedly from the high platform. When they heard the admission ratio, no one showed any strange expression. Obviously, they had known about it long ago.

It was Lin Yi's first time hearing about it, but he wasn't worried at all. No matter what, he would be one of the sixty people. There was no doubt about it.

"I'll say it one last time-you'll have the right to take the test if you reach the early stage of the mystic Ascension realm, but only when you reach the mid stage of the mystic Ascension realm will you have the capital to establish yourself in the mystic Sea region's Academies. If you don't have confidence in your own strength, I advise you not to waste your time. Who knows, he might have enough strength next year?" Rather than saying that Zhang jinmiao was trying to persuade them, it would be better to say that she was trying to encourage them with her contempt.

#### Chapter 6338 Meeting Leng Rufeng Again

Regardless of whether they felt weak or not, no one would back down at this time. If everyone was so weak, who said that they had no chance? If everyone withdrew from the exam and he was the only one left to win, wouldn't that be great?

"Alright, since no one has any questions, then the test will officially begin! There were a total of two hundred and sixty-three students present to register today. Only one hundred and sixty-three people would be eliminated! Come on, everyone!" After Zhang jinmiao was done fishing for information, she announced the start of the assessment with a smile!

Everyone had to draw a random number plate, and Lin Yi drew number 106, which was in the middle. After Zhang jinmiao announced the start of the test, three people on the stage raised their plates.

The first plate had numbers 1 to 100, the second plate had numbers 101 to 200, and the third plate had numbers 200 and another to 263. They were obviously used to correspond to the number plates in their hands.

"The first round of assessment will be carried out simultaneously in three groups. The first and second groups have a full 100 people, so 60 people can pass each. The third group does not have enough people, so only 40 people can pass. A total of 160 people can enter the second round of assessment." A middle-aged man stood up to explain the rules. From his appearance, he should be one of the members of the recruitment team.

One hundred and three people were eliminated in the first round, which was almost half of the elimination rate. This speed was also extremely fast. The only thing was that they did not know what event the first round would be competing in.

"Everyone, please look at the area where your number plate is located. There is a mission prompt on it. The time limit is six hours. Exceeding the time limit means defeat. It doesn't matter if you don't reach the highest passing quota. In other words, more than half of the people will be eliminated in the first round. It is possible that less than a hundred people will be left. Please pay attention to the time." The middle-aged man casually pointed at the three signs, and a meaningful smile appeared at the corner of his mouth.

Lin Yi narrowed his eyes-the last sentence was clearly a trap! This was to induce the students to fight with each other, so that they could get rid of their potential opponents in the first round.

If it was a peaceful development, there would be 160 people in the second round after the first one, and it was hard to say who would be able to make it into the top 100. Only people like Lin Yi had full confidence-those who thought they weren't strong enough would probably have some weird ideas in the first round.

If the first and second groups only had about thirty people who passed the first round, and the third group was not full, then the second round of assessment would lose its meaning. Could this be the true meaning of the first round of assessment?

Lin Yi pondered as he raised his head to look at the three tags.

Under the large number area, there were many small words and a painted map. The second group he was in had found three drops of spirit Spring Dew essence from a place called the spirit stream valley. This kind of spirit Spring Dew essence had a strong water spiritual force and was very good for refining recovery medicinal pills. Even if it was not refined into medicinal pills, it could have a certain recovery effect if taken directly.

Although it wasn't very precious, it wasn't easy to find it. The spirit Spring Dew essence was a special product of the spirit stream valley, and it would only condense into drops in the spirit stream. It was usually found in the cracks of the rocks in the stream, and it was integrated with the water of the spirit stream. People with poor eyesight wouldn't be able to discover it at all.

If it was peaceful mode, in theory, the second group would need 180 drops of spirit Spring Dew essence, but the eliminated people would more or less get some, so this number would only be more.

No matter how cheap the dew essence was, it was impossible to find more than two hundred drops in one go, and in just six hours. Lin Yi could already foresee that the test would not be peaceful.

The content of the first and third group's assessment was similar to his. They were all going to a place to look for a certain amount of specialty products. There was no need to ask to know that these weren't

things that could be easily found to complete the task. Snatching might be the fastest way to pass the assessment.

"Alright, after you're done reading the mission, you can all leave. If there are more people than the number of people who passed, we'll count those who arrive first! The assessment begins now!" The middle-aged man on the stage had an unfathomable smile on his face as he turned over a hourglass. It had been exactly six hours since the sand inside had flowed out.

Upon hearing this, most of the people participating in the assessment dispersed. Now was the time to race against time. If they were a little late and just happened to be outside the number of people who passed, wouldn't that be too much of a waste?

Lin Yi could only say that they were thinking too much. If everything went as planned, there wouldn't be a full house after the first round. As for how many would be missing, that was hard to say.

"Boss! You're here for the assessment too? I saw you just now, so I didn't come over to say hello. " Lin Yi was about to look for Leng rufeng when he came over with yang qianxue.

"Ru Feng, qianxue, why did you only come for the assessment this year?" Lin Yi smiled and patted Leng rufeng's shoulder when he saw them.

"Boss, I'm really sorry. Last year, we couldn't go to the mystic division due to some personal reasons. I couldn't continue to complete the mission you gave me." Leng rufeng lowered his head guiltily. He had promised Lin Yi that he would protect ning Xuefei. Ning Xuefei had gone to the mystic class Sea area, but he didn't follow her. He had indeed broken his promise.

"Boss, you can't blame Ru Feng. He stayed because of me. Last year, I had some problems with my cultivation and couldn't move because of Qi deviation. Ru Feng didn't go to the mystic Sea area with Xuefei to take care of me. I'm feeling much better this year, so I've decided to go find Xuefei together. " Yang Qianxue followed Leng Rufeng and called Lin Yi "boss." However, she and Ning Xuefei had developed a good relationship after spending so much time together.

"It's okay. Feifei is here because of the threat from Ren Zhongyuan and the others. No one will target her if she goes to the mystic division Sea area. After all, she's so kind and has never made enemies with anyone. You don't have to blame yourself." Lin Yi comforted them, not blaming them at all.

Lin Yi knew very well how important Yang Qianxue was to Leng Rufeng. It was too much for him to leave Yang Qianxue behind and go to the mystic division sea.

If Ning Xuefei was in danger, Leng Rufeng might still follow her to keep his promise. However, if Ning Xuefei was not in danger, he would take care of Yang Qianxue first.

"Boss, I was worried at first, but Vice Principal Chen Xingmo went to the mystic division sea with him. With her around, I think there won't be any problems. Although Vice Principal Chen can only stay for half a year, she and Vice Principal Liu Ziyu of the morning Pride school have discussed it and decided to switch places after half a year. In this case, it doesn't matter if we go a year later." Leng Rufeng was still uneasy and explained to Lin Yi that Ning Xuefei was protected.

Chapter 6339 Meeting Jiang He And Hai Again

Lin Yi suddenly understood why he didn't see Liu Ziyu. She went to the mystic division sea to accompany Ning Xuefei and Huo Yudie. These two masters really didn't have anything to say to their disciples. It wasn't easy for them to do this!

"With the two seniors taking care of them, Feifei and yudie will be fine. You don't have to worry about it. This time, you must pass the test smoothly! By the way, which group are you two in?" Lin Yi asked for their numbers to see if they were with him.

"I'm No. 72 in Group One. Qianxue is No. 213 in Group Three. What about you, boss?" Leng rufeng relaxed after seeing that Lin Yi wasn't going to blame him. He and yang qianxue opened their palms and showed their numbers.

"I'm in group two. It's really unfortunate that the three of us are in three different groups." Lin Yi shook his head with a smile. This was what the random draw was like, but it was good. This way, he could prevent some small groups from ganging up on him.

Leng rufeng was already in the early stage of the mysterious Ascension realm, and his strength was comparable to a late-stage mysterious Ascension realm cultivator. His improvement these days was not slow either. He was already at the peak of the mid-stage mysterious Ascension realm, and could probably fight against an ordinary early stage mountain-opening realm cultivator. Lin Yi was not worried at all that he would be at a disadvantage. It was already good enough that he didn't cause trouble for others.

As for yang qianxue, her strength was slightly weaker. Perhaps it was due to the influence of her Qi deviation last year, she was only at the peak of the early stage of mystical Ascension. Moreover, she had just broken through to the peak of the early stage of mystical Ascension, and her strength had not yet stabilized. Fortunately, there were not many people in the third group. If they were careful, they should be able to protect themselves.

"The two of you should be careful. This test will definitely develop into a snatching battle. Take care to protect yourselves." Jiang Chen said. Lin Yi reminded in a low voice, but from their expressions, he knew that they'd already seen through everything.

Just as the three of them were about to split up to complete the assessment, two more people came over-it was Jiang He hai and Qin Yue.

"Big brother Lin, big brother Leng, big sister qianxue!" Jiang He hai and Qin Yue came over to greet him awkwardly. He had become familiar with Leng rufeng and yang qianxue after staying in the soaring Cloud School for a few days. Qin Yue had also managed to get a spot as an exchange student and had come over to meet him. He was quite familiar with the few of them.

"Jiang hehai, Qin Yue, long time no see. I'm so happy to see you two together! Come on, let's go to the mystic class Sea area together!" Lin Yi was genuinely happy for the two when he saw that they didn't hold any grudges against each other.

Qin Yue lowered her head, her eyes red. Lin Yi knew her best, and she was touched that Lin Yi didn't look down on her because of that.

Time was tight, and they didn't have time for small talk. Lin Yi asked for their numbers-he had people in all three groups, and they could at least look out for each other.

Surprisingly, these two little lovers were probably at the end of their suffering. Their luck was quite good. The randomly drawn numbers were actually consecutive numbers, and they were both in the third group. Relatively speaking, this was the weakest group, which was still very advantageous to them.

Leng rufeng heaved a sigh of relief. He had been worried that yang qianxue would be in danger if she was alone. Now that Jiang He hai and Qin Yue were here, the three of them could at least protect themselves.

"Alright, then let's set off. Everyone, be careful. I hope we can pass the test together!" Lin Yi said one last encouraging word, and the five of them went their separate ways.

Out of the two hundred and sixty three people, the five of them were the last to leave, but Lin Yi didn't mind. The test wasn't a guarantee of passing just because he was the first to leave. His speed was enough to guarantee that he would be faster than everyone in front of him, and he guessed that many people would deliberately fall behind to make it easier for him to plant the tree.

The test was six hours long, and a normal round trip would take at least an hour, but this wasn't a problem for Lin Yi. If he wanted to be fast, be it lightning movement or ghost speed wings, it would take others an hour to travel, but for him, it would only take a few more breaths.

Even the Super limit butterfly micro-step was enough to make him look down on everyone. No, just the ordinary butterfly micro-step was enough.

At this time, Lin Yi was using the butterfly steps to travel. He was probably the only one who could use martial arts to move forward so extravagantly. Who would dare to use their pure energy so recklessly when they knew that there would be a fight in the spirit Creek Valley?

"That guy is really patient. He hasn't shown his face until now! Could it be that he's waiting for me to come out of the spirit stream valley? Could it be that he thinks that there's someone in the spirit stream valley who can consume my true Qi?" Lin Yi used his spirit sense to check his surroundings as he moved.

The eight little spirit beasts also spread out around, maintaining a certain distance, quietly following Lin Yi. The other one was forced by Lin Yi to stay with Shangguan LAN 'er. This was originally not allowed, but he threatened the big frog's divine sense in his dantian. If it didn't help with such a small thing, then they would break up!

In the end, at least this little spirit beast obeyed his orders. Fortunately, Shangguan LAN 'er did not need to participate in the assessment to fight for a place. She could be directly taken by Zhang jinmiao to the mystic-class Sea area for the entrance assessment. It was safer for her to stay in the morning Pride Academy.

Lin Yi had been an assassin before, and he thought that the gathering in the square of the Academy of pride was a good opportunity for assassins with long-range attacks, but they let it go. Now, on the way to the spirit stream valley, although the terrain wasn't complicated, the trees on both sides were lush. It was also a good place for an ambush, but they didn't make a move.

To be honest, Lin Yi was starting to wonder if the guy had given up after just one attempt. If the opponent didn't give up, then Lin Yi knew that once this guy made a move, it would be a fatal attack. The more patient an assassin was, the more they would wait for the chance to kill. Thinking of a poisonous snake hiding in the grass, ready to reveal its fangs at any time, Lin Yi felt quite uncomfortable.

It didn't take long for Lin Yi to catch up to the group that set off first. He wasn't in a hurry, so he stopped using the butterfly microsteps and followed the group.

It wasn't that Lin Yi wanted to keep a low profile, but the people here weren't all that good. It didn't matter if he kept a low profile or high profile-he just felt that in this environment where his senses were messed up, the guy hiding in the dark might see it as an opportunity. If he could draw the killer out to attack, it'd be easier for Lin Yi to take care of him.

Chapter 6340 Mission Completed!

It was a pity that the guy's patience was super good, and he didn't care about Lin Yi's intentional flaws, letting him follow the group into the spirit Creek Valley.

The entire spirit stream valley wasn't small, and the spirit stream stretched for dozens of miles. Lin Yi suddenly felt that he was wrong-it might be easy to find the dew essence here.

He'd noticed the obvious signs of a restriction at the entrance-it was clear that this place was usually sealed off, and not just anyone could get in. It was only today that the restriction was opened for people to go in and out, so there should be quite a bit of dew essence here.

"Plop! Plop!" The dozen or so people at the front directly jumped into the spirit stream and began to look for the spirit spring essence dew under the water. Many people behind did the same, but the spirit stream was long enough, so they didn't squeeze together. Each of them found a section of the river and didn't interfere with each other.

Lin Yi glanced at the last five Guys coldly. They were obviously from the same group, and their strength wasn't ordinary either. The weakest one was at the mid-stage of the mysterious Ascension realm, and the strongest was at the peak of the late-stage of the mysterious Ascension realm. They were at the top of the group.

These fellows didn't have any intention of entering the spirit stream. Instead, they were lazily sitting or standing, faintly blocking the entrance of the valley. There was no need to ask to know that they were planning to obtain something without putting in any effort.

With the five of them working together, other than Lin Yi, there really weren't many people in group two who could beat them. As long as they didn't provoke Lin Yi or any other strong practitioners, they could basically get enough of the dew essence.

It wasn't that those people who were looking for the spirit Spring Dew essence in the spirit stream didn't know their thoughts, but everyone felt that they wouldn't be the unlucky ones. As long as the people in

front of them seized enough spirit Spring Dew essence for them, they wouldn't waste time to continue snatching their own.

"From the very beginning, it was clear that they were going to take it by force. These guys are really thick-skinned! I hope Jiang He and the others don't have a small group like this, or the three of them will be at a disadvantage!" Lin Yi didn't bother with the five-he wanted to finish his mission as soon as possible and head over to team three to help out Jiang He and the others.

As for Leng rufeng, Lin Yi wasn't worried at all. Although some of them were stronger than Leng rufeng, he was sure that they wouldn't be able to defeat him if they really fought.

It was still the same sentence. If Leng rufeng did not snatch from others, others should be snickering. Whoever was blind was courting death!

Lin Yi raised his head and looked around. He found a section of the river where no one was around and used his spirit sense to search every inch of the river bottom. Everyone here was at the xuansheng stage, and they didn't have any spirit sense abilities at all. No one could search like Lin Yi.

"Hmm, it's really not easy to find! I haven't found anything that looks like the spirit spring's dew essence in this section of the stream. It seems that it's getting more and more impossible to peacefully pass the first round of assessment." Lin Yi shook his head and mumbled to himself before continuing his search in the stream.

If there was a sufficient amount of spiritual Spring Dew essence, in order to return as soon as possible to complete the task, perhaps the fight for it would not be too intense. But if there was a lack of it, there would definitely be a fierce battle. This was without a doubt.

He followed the stream for a thousand meters, and there wasn't anyone around. He finally found something that looked like the dew essence.

"This thing is a drop of water, and it's really hard to find it hidden in the spirit stream! Fortunately, my spiritual awareness is powerful enough. If it was the first time I came to the East Province, I would definitely not have found this thing. " Lin Yi smiled as he wrapped his Qi around the dew essence in a rock at the bottom of the stream and picked it up easily.

A transparent drop of water wrapped in Zhen Qi was suspended in the air, exuding a faint breath of water spiritual power. When it was deep under the water, it was completely integrated into the other streams, but in terms of quality, it was slightly heavier than ordinary water. If one didn't pay attention, one wouldn't be able to notice any difference.

If there was one more abnormality, it was that the spiritual Spring Dew essence would not move after it was formed. The flow of the stream water could not take away the spiritual Spring Dew essence and would only pass through it. When the water passed through, it left the most essence of the spiritual energy in it. Cultivators with keen spiritual sense could detect that trace of unusual spiritual energy.

"It's a good thing, but it's not of much use to me. " Lin Yi smiled and took out an empty Jade bottle to store the dew essence.

He had an endless supply of genuine Qi in the Jade space, so he didn't need it at all. As for alchemy, there were many things that could replace the spiritual Spring Dew essence, so he didn't want to take the opportunity to search for more and take it away.

Some of the people who came in first had already found the dew essence, but they weren't stupid enough to celebrate-they'd just become targets. Only Lin Yi's spirit sense could monitor the whole scene and find out what they were hiding.

"It seems that these guys are quite good at finding things, or they are extremely lucky. I don't know if they will be able to keep it." Lin Yi mumbled to himself before continuing his search for more drops.

He had no interest in snatching from those who had found it. Of course, if any of them wanted to snatch it from him, then they couldn't blame him for being impolite.

With the powerful search of his spirit sense, Lin Yi didn't spend much time and found the other two drops of dew essence. There wasn't a lot of it, but the stream was long enough. He could find one drop every segment.

"Mission completed. It went quite smoothly!" Lin Yi smiled as he put away the dew essence and prepared to leave the spirit Creek Valley.

With his strength, this assessment was indeed just a formality. The only thing he had to worry about was the assassin hiding in the dark, as well as the situation of Jiang He hai, Qin Yue, and yang qianxue.

The hidden assassins were waiting for an opportunity, and Lin Yi couldn't do anything about it yet. He decided to go to group Three to help Jiang He and the other two, in case anything happened to them.

When they reached the entrance, the weakest of the five stood up and stopped Lin Yi, smiling frivolously. "Oh, you've finished collecting so quickly? What an amazing search for talent! Why don't you stay here and help us find it?"

"Get lost!" Lin Yi didn't want to waste his breath on the guy, so he pushed the guy away with a hand.
