

Bodyguard 6341

Chapter 6341 Still Have To Help Others

He was just thinking that there might be some blind idiots who would take the initiative to snatch his things, but he didn't expect to encounter them. These five Guys were too blind, weren't they?

In fact, they couldn't be blamed for this. When Lin Yi was hiding his aura, even mountain opening or earth splitting cultivators wouldn't be able to see through his strength level, let alone xuansheng cultivators.

Even if he saw through it, he would be deceived in the end and suffer a lot of bad luck. He was at the peak of the xuansheng stage and his combat ability was comparable to that of the earth opening stage. He might not be unprecedented, but he was at least an extremely rare and abnormal figure!

"Oh, you're quite bold and have a big temper! If I don't teach you a lesson, you won't know why the flowers are so red, right?" The guy's face changed as he flipped his arm, trying to control Lin Yi.

They wanted to make a move on Lin Yi because he was the first one to complete his mission and return. Also, his appearance wasn't well known in the East continent, and no one would pay attention to him except for those who knew him. So the five men thought that Lin Yi didn't have any background and his strength was unknown. At least, it wouldn't be a problem to test him.

Who would've thought that this test would lead to a problem? the guy who attacked Lin Yi didn't even see how Lin Yi did it before he felt a sharp pain in his stomach and was sent flying.

The other four were all shocked, thinking that they'd hit an iron wall when their bodies flew out involuntarily. Lin Yi didn't favor one or the other-since they were a team, they should go through thick and thin together. He'd kick each of them!

"If you want to Rob me, you should at least improve your robbery skills, right?" Lin Yi chuckled, shook his head, and left the valley.

He didn't have the intention to kill them-he only wanted to give them a light punishment and make them suffer a little. This test was meant to compete with each other, and Lin Yi wasn't a bloodthirsty person. He didn't want to kill unimportant people.

The five of them all hit the rocks and walls of the valley entrance. The pain in their abdomens was like a burning fire, and the bones in their bodies seemed to be falling apart from the impact.

However, they were clear in their hearts that they had managed to keep their lives. The other party had definitely shown mercy. Although they looked quite miserable, they were not seriously injured. They could recover after taking a little rest and eating a medicinal pill. It was just that they had lost their fighting ability for a very short time.

"Quick ... Recover ... Your injuries. Don't let anyone seize the opportunity!" The strongest one had cold sweat all over his forehead. He took out a pill and threw it into his mouth. At the same time, he gave orders to his companions in a low voice.

Lin Yi did let the five of them go, but they were in the middle of a test. They only dared to Rob people because of their team's strength. The others could see that too.

But now that they had temporarily lost their combat power, in order to not be robbed by the five of them after they recovered, it was hard to guarantee that no one would come over to fish in troubled waters. Not to mention that only 60 out of 100 people would pass. If five strong opponents were eliminated at once, it would be beneficial to any participant.

The rest of them naturally understood the key point, so they all took out medicinal pills to consume and began to race against time to recover from their injuries.

The facts had proven that those who could participate in the assessment were not easy to deal with. The five of them had just swallowed the medicinal pills and were barely supporting themselves to sit cross-legged when two figures flew over like ghosts.

"Huang ... We have no grudges ... And we won't do anything to you ... You ..." The strongest of the five tried to stand up and resist, but his chest was pierced by a bright sword light.

Before he could finish his sentence, the man's longsword shook, and his genuine Qi suddenly exploded, blowing his chest apart.

"The quota is limited, who asked you to have the advantage in numbers?" The man sneered, and the sword in his hand flashed, instantly slashing the necks of the other two.

The other person who had rushed over also took care of the two people and looked vigilantly at the person with the long sword.

"Brother Chen, great minds think alike. If these five people make it into the quota, they'll be strong opponents in the second round. Now that they're gone, there's no need for us to continue fighting. After

all, there are sixty spots in the first round. Why don't the two of us join forces and go to the mystic division sea together?" The man with the sword put away his sword and suggested with a smile. It was obvious that the two had known each other before.

Both of them were at the peak of the mid-stage of the mysterious Ascension realm. If they joined forces, they could indeed achieve an effect that was greater than one plus one. The other person rolled his eyes and immediately stretched out his hand with a smile, ""That's good! Brother Huang's strength is extraordinary. If you and I join hands, it shouldn't be difficult to pass the second round of the exam!"

After a simple high-five, a temporary Alliance was formed. The man with the sword suddenly lowered his voice and said, ""Brother Chen, do you think we should find more people to form an alliance, and then directly reduce the number of people who can pass the first round to 40?"

He had to get rid of the five of them earlier to get rid of potential strong opponents, but the Alliance agreement he proposed now was to unite the strong to suppress the others.

If 40 people joined forces, the remaining 50 or so candidates, who were obviously much weaker, would not be able to resist.

Surnamed Chen was greatly moved and felt that this was a good plan. After the two of them discussed it in a low voice, they returned to the spirit stream and began to secretly look for possible partners.

Lin Yi didn't know that his casual move had directly stirred up the situation in the spirit stream valley. Of course, even if he knew, he wouldn't have cared, because this was how things would develop in the end. The first round of the assessment was basically the survival of the fittest, and the best strategy was to reduce the number of people who passed the first round to ensure the chance of passing the second round. Those ambitious people would definitely not miss this.

After receiving the test items, Lin Yi didn't care about anything else in the spirit stream valley anymore. What he needed to care about now was the situation of the third group. Although Jiang He and the other two were considered a small group, their strength was still too weak. As long as three of the five-man Group sent out, they would be able to suppress them.

"I'm afraid that I'm the only one who has to go help out in another group after completing my own assessment. " Lin Yi shook his head with a smile and used his super butterfly micro steps.

It took about the same amount of time to get from the Academy to the third group's test site, but it would take more time to get there from the spirit Valley. If Lin Yi wasn't worried that he wouldn't be able to come out after returning to the Academy, he could've gone back to hand in his mission first. It would've been a shorter journey.

Chapter 6342 I'll Give You Half

However, with his speed, this distance was not a big deal. Judging from the difficulty of obtaining the spiritual Spring Dew essence, it would not be easy for Team 3 either. Before the three of them obtained enough of the quest items, no one would target them.

A moment later, Lin Yi arrived at the location of the third group's mission, the misty forest of lost spirits!

It was said that cultivators who entered the bewitching God forest at night would become muddleheaded if their primordial spirit was not strong enough. Only when there was sufficient sunlight during the day would this effect be reduced.

The reason for this situation was because of the mission target of Group Three, the misty soul bewildering grass! This kind of spiritual herb had a weak effect on the primordial spirit. When lit alone, it could calm the mind and help with sleep. If there were too many, it could easily create illusions. Of

course, these were only effective for cultivators below the Yuanying stage. It had almost no effect on cultivators above the xuansheng stage.

As the medicinal value was not high, not many people would come to pick it. Moreover, it was very difficult to find the mind-confusing grass during the day. It appeared most at night. Now that the sun was so bright, it was estimated that the third group would not be able to find a few stalks.

Lin Yi spread out his divine sense the moment he arrived at the forest. It was a place that could affect divine sense, but he wasn't affected at all. He found the three in an instant.

"As expected, they haven't found many spirit confusion grass. It seems like we'll have to wait a little longer." Lin Yi stood on a big tree outside the forest, looking at the students from afar.

He was here to ensure the safety of the three of them, so he wouldn't show himself unless it was necessary. After all, it wouldn't be nice for a member of cluster 2 to come to cluster 3.

"Eh, so Ren Zhongyuan, that idiot, is in the third group as well. There's also Yi Xiaotian. These two villains are quite lucky." Lin Yi scanned the other students as he watched the three, and found that quite a number of people from soaring Cloud School were in Group Three.

Jiang He hai and yang qianxue were from the soaring Cloud School to begin with. In addition, Qin Yue was an exchange student from the soaring Cloud School. Now, there was also Ren chongyuan and Yi Xiaotian. If the schools were to join forces, they would be considered a strong force in Group Three, which only had 63 people.

"It's a pity that Ren Zhongyuan and Yi Xiaotian, these two idiots, can't change their habit of eating shit! He doesn't want to help his own Academy's people, but wants to ally with outsiders. He's really hopeless!" Lin Yi shook his head disdainfully.

The confounding God forest was different from the spirit stream valley. One could enter and exit from anywhere, unlike the spirit stream valley, which only had a single entrance. Therefore, it wasn't quite possible to block and rob anyone here.

Ren Zhongyuan and Yi Xiaotian were definitely top notch in their evil ways. In a short period of time, they had actually gathered a small group of more than ten people. They specifically wandered around the bewilderment forest, looking for the bewilderment grass while monitoring those who were not strong and had no support or companions. When they found out that they had found the bewilderment grass, they swarmed up and robbed them of their job.

Lin Yi looked at them for a while and felt a little admiration for Ren Zhongyuan and Yi Xiaotian. These two guys were indeed capable, but it was a pity that they didn't use it in the right way.

After all, there were more than 60 people in the bewitching forest. It was impossible to suppress all of them with just a dozen of them. Therefore, Ren Zhongyuan and Yi Xiaotian adopted the strategy of suppressing and roping them in. When there were signs of resistance, they would immediately suppress them mercilessly and even kill them to intimidate them. After that, they even came to an agreement with another group of about a dozen people on a large scale. They divided their territories and formed an alliance.

With these two groups of people, the quota basically couldn't escape from their hands. The rest of the people couldn't give up even if they wanted to and were soon forced to find the spirit confusion grass to hand it over.

From the start of the assessment to the current situation, it only took slightly more than two hours. Lin Yi really had to look at Ren Zhongyuan and the others in a new light. These two were Born to Be Bad guys! If they were given some soil, they would be able to take root and germinate.

"Yang qianxue, Jiang He hai, since we're from the same Academy, how about you hand over half of the bewilderment grass you've found? At the very least, we've left you with some hope of passing the assessment. We're quite loyal, aren't we?" In the bewitching forest, Ren Zhongyuan and Yi Xiaotian led four of their companions and surrounded yang qianxue and the others.

Judging from the number of people, it was already a two-to-one ratio. Moreover, yang qianxue and the others were not strong enough.

"Ren Zhongyuan, you won't have your father's protection once you leave the soaring Cloud School. Aren't you afraid that ru Feng will teach you a lesson by treating us like this?" Yang qianxue looked at Ren Zhongyuan coldly.

If it was in the past, she would have been able to deal with Ren Zhongyuan and Yi Xiaotian easily. Unfortunately, although she had recovered her strength after being injured, she suffered from Qi deviation again. As a result, she was not as powerful as Ren Zhongyuan and the others.

Having a father who was a seventh-grade Alchemist was indeed a great advantage in cultivation! However, yang qianxue did not think much of this guy who had accumulated his strength through the use of elixirs. The consequence of such a rapid success would be that his future development would be limited.

"Oh, you're still using Leng rufeng to scare us now? He's alone in another group, and we don't even know if he can survive!" Yi Xiaotian sneered. In fact, he and Ren Zhongyuan were a little afraid when they heard Leng rufeng's name.

All these years, Leng rufeng had been suppressing them in the soaring Cloud School. They were not strong enough and could not even test Leng rufeng's limits.

"Alright, don't bring Leng rufeng up. You're right here, we're right here. Where's Leng rufeng? If you don't know what's good for you, we'll rape you and kill you. Then, Leng rufeng won't even know how you died! Besides, Xiaotian is right. It's hard to say if Leng rufeng can survive. " Ren Zhongyuan smiled sinisterly. He was afraid of Leng rufeng, but it did not mean that he did not dare to make a move.

As long as he passed the first round, Leng rufeng would not be able to do anything to him before the second round. According to his and Yi Xiaotian's estimation, there might not be a second round of assessment after the first round. By then, he would be able to get a place in the mystic division Sea area and become a protected preparatory student. Leng rufeng would not have the chance to do anything.

Looking at yang qianxue's beautiful face, Ren Zhongyuan suddenly felt an itch in his heart. He felt that it was not a bad idea to win over Leng rufeng, the woman of his enemy.

"Alright, we'll give you half!" Jiang He Hai's sharp senses noticed the change in Ren Zhongyuan's expression and knew that he was no match for Ren Zhongyuan. He immediately took out Two Spirit confusion herbs and handed them to Ren Zhongyuan."The three of us have searched for so long and only found four stalks of spirit confusion grass. We'll give you half, you can leave!"

Chapter 6343 Insta-Killing Four Players

"Who the hell are you! How dare you speak to me like this!" Ren Zhongyuan's expression changed. He suddenly raised his hand and slapped Jiang He Hai's face. However, the two Spirit confusion grass were caught by his companion behind him and kept away.

Jiang He hai could have dodged the slap, but he took it head on, and half of his face swelled up.

"Young master Ren, we've already collected the spirit confusion grass and beaten up the students. Seeing that we're all from the soaring Cloud School, should we just let it go?" Anger flashed across Jiang He Hai's eyes as he turned around and spoke to Ren Zhongyuan in a neutral tone.

He knew that the three of them were not Ren Zhongyuan's match, so he could only bear with it. If he was alone, he would not mind dying, but he would still bite Ren Zhongyuan before he died.

However, with yang qianxue and Qin Yue here, Jiang He hai had no choice but to endure it. It did not matter if he died, but the two girls might suffer a fate worse than death!

"Forget it? Who Do You Think You Are to dare to tell this young master to forget it?" Ren Zhongyuan laughed coldly and gave Jiang He hai another slap. "You're just a grass-root with no background. Who Do You Think You Are? But your ex-girlfriend looks okay. How about this, let her accompany us for three nights, and we'll forget about today's matter!"

"Hahahaha, young master Ren is so loyal. You can still think of your brothers!" The few guys behind Ren Zhongyuan laughed out loud in unison. They felt that this was a good idea.

Qin Yue's pretty face was pale, and her delicate body was swaying. What she couldn't stand the most was being said like this. It was a nightmare that she would never be able to erase, but now, it was being ruthlessly exposed.

Jiang He hai lifted his head abruptly, his eyes wide with rage!

Ren Zhongyuan could beat him up and humiliate him, but he could not hurt Qin Yue. Everyone had a bottom line that could not be crossed, and Qin Yue was his bottom line.

Ren Zhongyuan's maniacal laughter came to an abrupt end as Jiang He hai had punched him in the stomach. A violent true energy instantly gushed into Ren Zhongyuan's body, causing him continuous damage.

How did he dare to attack? Did he really dare to make a move? Ren Zhongyuan's mind was a little muddled. Initially, he was certain that Jiang He and hai would not dare to make a move because this fellow had never had a record of being hot-blooded and impulsive. Instead, he was rather cowardly.

He didn't expect that he would be so decisive when he attacked, not even saying a word. Really, a barking dog doesn't bite! Ren Zhongyuan's mind was still occupied with these thoughts, but his body had already involuntarily flown a few steps back.

Caught off guard, Ren Zhongyuan did suffer a minor injury, but it was not fatal. His father was a seventh-grade Alchemist. He might not have many things around him, but he definitely had enough pills. Otherwise, he would not have been able to rope in so many people.

"Kill this brat!" Yi Xiaotian reacted, and his face immediately revealed a ferocious expression. He dared to take the initiative to attack? If he wasn't killed, it would only make more people rise up to resist!

As for the relationship of being from the same Academy? What a joke. When they were in the Academy, they had always wanted to get rid of Leng rufeng and Jiang hehai's small group!

Hearing Yi Xiaotian's low growl, the rest of them immediately circulated their true Qi and began their counterattack. Their first target was naturally Jiang He and hai Shui. Qin Yue and yang qianxue were put aside to prevent them from causing trouble.

These guys were still thinking about what Ren Zhongyuan had just said. It was not a bad idea to stay and have fun with such beautiful female cultivators. It would be a pity if they were injured.

Yi Xiaotian did not join in the attack. In his opinion, the four of them were more than enough to deal with Jiang He and hai Tianqing. Therefore, he went to support Ren Zhongyuan at once to express his concern.

In the next moment, Yi Xiaotian's heart began to race. He was secretly glad that he did not join in the attack. He had just reached Ren Zhongyuan's side, but before he could speak, the muffled sound of bodies falling to the ground came from behind him. Just as he was wondering why the three of them were so weak, he saw Ren Zhongyuan, who was sitting on the ground, looking as if he had seen a ghost. His face was filled with fear as he used his hands and feet to roll and crawl backward.

"What's wrong?" Yi Xiaotian knew that something was amiss. He asked subconsciously as he instinctively rushed forward. After he passed Ren Zhongyuan who was on the ground, he turned around nervously to take a look.

After seeing the scene behind him, Yi Xiaotian's heart turned cold. He transferred his essential Qi to his legs without any reservation and sped up his escape from this place. He was still a loyal friend as he subconsciously pulled Ren Zhongyuan along before he left.

Jiang He and the other two were rather stunned as well. The strength of the four attackers was not any weaker than them, but in the blink of an eye, their heads were sliced off from their necks by an invisible

wind blade before they could even complete their moves. Blood rained down from the sky, turning into rolling balls of blood.

The sight of four headless corpses limply falling to the ground sent chills down Jiang He and the other two's spines, unsure what was going on.

"Search their bodies and see if there's any spirit confusion grass. Leave this place immediately once there's enough!" Lin Yi's voice rang in Jiang He Hai's ears-he wasn't the one killing them, but a spirit beast that had entered the forest.

Lin Yi wanted to save the three of them, but the little spirit beast seemed to be affected by the forest and attacked fiercely.

How could four students at the mysterious Ascension stage withstand an attack that was comparable to an attack at the initial stage of the earth opening realm? They probably didn't even know how they died.

Jiang He Hai's body trembled as he understood that Lin Yi was here to help them. However, he had a good personality and didn't show any signs of abnormality. Instead, he calmly bent down and quickly looted the four corpses.

Other than the four unlucky bastards' personal belongings, there were six more bewilderment grass. Including the two that Jiang He had given to him, he had a total of eight bewilderment grass, one more to complete the mission.

"Xiaojiang, what's going on with them?" Yang qianxue asked Jiang He and hai in a low voice as she swept her cold gaze across the crowd.

Jiang He hai understood at once-Lin Yi had only given him the order, and it was clear that he didn't want too many people to know about it. He didn't say anything, only shaking his head slightly.

Yang qianxue did not know if Jiang He and Hai's shake of his head meant that he was not sure, or if it was not convenient for him to reveal it now. Hence, she did not probe further, since the current situation was in their favor!

Ren Zhongyuan's men quickly gathered around. Although four of them had died, they still had nine people left. However, it was useless. No one dared to step forward and throw their lives away in the face of such a bloody and strange situation.

Chapter 6344 The First To Return

Jiang He hai stood up, his eyes as cold as a blade. He didn't know how Lin Yi did it, and he didn't know if Lin Yi would attack again, but he had to borrow this momentum!

"Bring me another spirit confusion grass!" Jiang He Hai's heart paled, but his face remained unyielding. Not only did no one find the palm marks on his cheeks laughable, they appeared even more menacing in their eyes.

Ren Zhongyuan watched as Jiang He and hai slowly walked towards him and extended their palms towards him. He wanted to teach this ignorant brat a lesson, but his legs were weak and he did not dare to do so.

Yi Xiaotian had his back facing Ren Zhongyuan, but Ren Zhongyuan had personally witnessed how the four of them had died! Well, he didn't even see how the four people died. Their heads were inexplicably beheaded, and now that he thought about it, his back was covered in cold sweat.

"Here you go, this is a spirit confusion grass!" Ren Zhongyuan really wanted to reject Jiang He hai, but in the end, he reluctantly took out a bewildering grass and handed it to him. Although his comrades did not say anything, the team's morale had already dropped to the freezing point.

"You're tactful!" Jiang He hai snorted coldly and kept the last bewildering grass. He then raised his palm and gave Ren Zhongyuan seven to eight consecutive slaps. The crisp sound of slaps rang out continuously and everyone looked at the scene in shock, but no one stepped forward to say anything.

Ren Zhongyuan did not dare to resist at all. Even though he hated Jiang He hai to the core and swore that he would find an opportunity to get rid of this little B * stard, he could only endure it.

"This is my compensation to you. Stay away from us in the future. Otherwise, I can't guarantee that you can live to see the next sunrise!" Jiang He hai let out a breath of resentment and felt great. He was even more grateful to Lin Yi now-he'd go through fire and water for Lin Yi if he had to in the future.

"Jiang hehai's brain is not bad. He can still think calmly in this situation. He's a talent." On a tree outside the forest, Lin Yi used his spirit sense to observe the situation. He was very pleased with the way Jiang He and hai Shui handled the situation.

Jiang He Hai's series of slaps at the end was not just to vent his anger, but more to put on a tough front for everyone to see. If he had turned around and left after taking the spirit confusion grass, everyone would have seen that he was guilty. What was there to be afraid of if he did not even have the courage to take revenge against his enemy?

Even with Lin Yi's support, Jiang He hai wasn't completely reliant on Lin Yi-he'd be a little too useless if Lin Yi had to help him again over something as small as this.

"Let's go!" Jiang He hai walked back to Qin Yue and yang qianxue's side and spoke calmly before turning to leave the forest of lost spirits.

The shock on yang qianxue and Qin Yue's faces had yet to fade as the situation had changed too drastically. They did not know why Jiang He and hai Shui had suddenly become so unyielding, and Ren Zhongyuan and his gang did not even have the courage to resist.

"Are you alright?" Yi Xiaotian asked Ren Zhongyuan softly. He was unwilling to let Jiang He and the other two leave, but he did not have the courage to step forward.

"I'm fine! We don't have much time left, immediately bring some people to snatch the spirit confusion grass, and kill whoever dares to resist!" Ren Zhongyuan gritted his teeth so hard that they were about to shatter. How could he be fine?

After being slapped so many times by Jiang He hai in front of so many people, he had lost all his face! As long as he had the chance, he would definitely hack Jiang hehai into a thousand pieces!

However, their top priority was to ensure that they passed the assessment. Excluding Jiang He and the other two, they had snatched a total of five stalks of bewildering grass. This loss had to be compensated immediately, and at the same time, it was to boost the confidence of this dejected group.

After being humiliated by others, only blood could wash away the humiliation. Furthermore, if they didn't immediately take out their thunderous methods, those loose fellows might very well gather together and form the third faction of the God confusion forest!

"I understand!" Yi Xiaotian nodded his head slightly with a trace of fierceness in his eyes.

He shook his head at the remaining people and looked at each other with a tacit understanding. The final fight in the forest was about to begin, and the outcome was none of Lin Yi's concern.

"Jiang hehai, the three of you can go back on your own. I'll see you at the Academy." Lin Yi didn't reveal himself, but left after sending a message to Jiang He hai.

After leaving the forest, Lin Yi didn't have to worry about the three's safety anymore. Plus, his spirit sense would be watching the three, so he didn't have to worry about any accidents.

Actually, Lin Yi had thought of killing off Ren chongyuan and Yi Xiaotian just now, but considering their identities, they were rather eye-catching. If their deaths were unknown, it would easily arouse the suspicion of the recruitment team. Lin Yi didn't care about it himself, but he didn't want to cause trouble for Jiang He and his gang.

The four people who were killed by the little spirit beast did not seem to have a strong background. Otherwise, they would not have been roped in by Ren Zhongyuan as his thugs. They could still have some excuse for their deaths, such as Jiang He and hai having a one-time use attack tool. After all, no one else saw what happened clearly except Ren Zhongyuan.

After a while, Lin Yi returned to the outer court first, took out three drops of the dew essence, and handed in his mission.

"Lin Yi junior, you didn't let me down. You're the first one to return!" Seeing Lin Yi return, Shangguan LAN 'er bounced over and patted his shoulder, a bright smile on her face.

"Hehe ... I was just lucky!" Lin Yi only smiled, not saying anything.

In fact, he had wasted so much time. There must have been others who had collected enough task items. However, collecting them was one thing, and bringing them back was another. Before those who had formed groups to snatch enough task items, it would be difficult for anyone to break out of the siege.

Except for Leng rufeng!

"Boss, you're back!" Not long after Lin Yi's arrival, Leng rufeng followed him back. The moment he saw Lin Yi, he instantly relaxed.

He wanted to see if Lin Yi and the others were back. If they weren 't, he would have to go to Team 3 to help them, but seeing Lin Yi here, he knew that he didn't have to worry anymore.

With Lin Yi's personality, why would he stay here and chat with Shangguan LAN 'er when Jiang He and the others were in trouble?

"Ru Feng, it seems that you didn't encounter too many difficulties. It's been quite smooth?" Lin Yi smiled and nodded at Leng rufeng. At the same time, he gave a subtle look to signal that things were going well on the other side.

Chapter 6345 Deciding The Top Ten

Leng rufeng understood tacitly. He already had a guess and now he was even more at ease.

The two of them chatted for a while before Jiang He and the other two rushed in. Naturally, it was livelier now that they were all gathered together.

After four hours, the participants started coming back in groups of three to five. Lin Yi and the others knew that most of them were small groups that obtained the items through fighting. Some of them even had blood stains on their bodies, making no effort to hide the cruelty.

Ren Zhongyuan, Yi Xiaotian, and the others had also rushed back at the last moment. However, there were only five of them left in the end. It was clear that after Jiang He and the other two left, they had to go through a rather intense battle before they could gather the spirit confusion grass that the five of them needed.

"Time's Up! The students who don't return in time will automatically lose their advancement slots!" When the last wisp of sand fell from the hourglass, the middle-aged man from before immediately announced the result. In the distance, there was a student who was less than three hundred meters away from submitting his mission, but he was directly stopped by the people guarding the outer perimeter.

So close yet worlds apart, it was nothing more than this!

Looking at that guy's dejected figure, those who had passed the test either pitied, laughed, or gloated. They all had different expressions. The one who returned at this time could only be the guy who had been exploited before but had saved his life and found the materials through his own efforts.

It was a pity that he was so close! One step to heaven, one step to hell!

"The first round was originally planned to pass one hundred and sixty places, but unfortunately, the standards of the students taking part in this year's assessment are generally a bit low. In total, only one hundred and nine people have passed the first round of assessment. This is good news for you, but of course, it may also be bad news. The good news is that you only need to eliminate nine people to obtain a place to go to the mystic Sea region, but the bad news is that you're likely to become one of those nine people. Where you go, you'll have to grasp it well!" The middle-aged man had a smile on his face, but it was not a smile at all. Anyone who saw it would feel an indescribable awkwardness.

Those who had formed groups were all secretly regretful. They thought that if they had been more ruthless at that time and killed a few more people, they would not have needed to go through the second round of assessment!

Everyone felt that they would be the one to obtain a spot, but they were also afraid that they would be one of the unlucky nine. At this time, they were all waiting for the news of the second round of assessment. What exactly would it take to eliminate others and keep them?

"Alright, let's cut to the chase. The second round of assessment is a test of everyone's combat strength. It's survival of the fittest, and it's very fair. Everyone will be divided into ten groups, and the people in each group will have to go through one-on-one battles with all the other members. Each battle will last for one incense's time. The winner will get two points, a draw will get one point, and the loser will not get any points. In the end, the person with the least points in each group will form a new group, and the winner will get the last spot. The loser will be eliminated. Is there anything you don't understand?" The middle-aged man didn't make them wait too long. He quickly announced the plan for the second round of assessment.

It had to be said that this assessment model was quite fair. Although it was possible to enter a group full of experts, and it was also possible for someone to enter a group full of chicken, there was still one loser who would advance. After all, there was still hope. Everyone had nothing to say after listening to it.

The small teams in the Alliance had now begun to think about what would be the most beneficial. If they could be placed in the same group and go through the motions with each other, not only could they preserve their strength, but they could also ensure that they would not be last. This was actually very beneficial.

"Oh, right, I forgot to mention a few things." The middle-aged man squinted his eyes and smiled, as if he had really forgotten to tell her. After looking around, he slowly continued, "The top rankers of each group will form a new group to determine the top ten of this assessment. The top ten will have an advantage when they enter the Mystic division sea and take part in the entrance examinations of the various Academies. You'll know whether it's bonus points or something else when the time comes. Therefore, I advise everyone to fight for what you should!"

The audience immediately burst into a noisy exchange. Once the top ten was set up, the ambitious people immediately had a lot of ideas. Originally, they only needed to enter the top 100 and get a place, but now they had to go all out. Some of the competitions that could be modestly declined must not be given up.

No one would ignore something that the middle-aged man had brought up on purpose. Besides, it was a great honor to be in the top ten. When they reached the mystic division Sea area, the top ten would definitely receive more attention from the academies. No one could deny this hidden benefit.

"Alright, now everyone be quiet. We'll start drawing lots at random. Pay attention to the number plate in your hand and don't go to the wrong area for the assessment Group. If you do that, you won't get any

points." The middle-aged man made a boring joke with a fake smile before signaling for the drawing of lots to begin.

Anyone who completed the first round to submit the task would have their number made into a new card and thrown into a box. Now the card in the box was put into the drawing box with a spiritual awareness restriction. After enough confusion, the number of each group was drawn.

The drawing this time was also very interesting. Other than the first number drawn by the middle-aged man, the rest were all drawn by the participants themselves.

For example, after the first person in the first group was drawn by the middle-aged man, he would draw his opponent in the same group. Then, the second person would draw the third person, and so on. All the opponents would be drawn by them. Whether they entered the group of death or paradise, they could not blame anyone else.

Of course, the 11th person from the first group would draw the 1st person from the second group. This was the only person who was not drawn from their group. There was no other way. The 109 people were divided into ten groups, with a maximum of 11 people in each group. The 10th Group only had ten people. If the 160 people were full, each group would have 16 people.

"First person of Group Seven, No. 106, come up to the stage to draw the second person!" A person who specially looked at the card records looked at the last number drawn from group six and immediately announced loudly.

The other groups that had finished drawing their lots gathered together and went to the designated training field to start the competition. Among Lin Yi's group, only Leng rufeng was drawn into group Three, and Lin Yi was the second person to be drawn.

"They're here!" Lin Yi raised his hand and jumped onto the stage easily. The spirit sense restriction on the box was quite simple, it could only block some weak spirit sense from peeking. Among all the people here, other than Lin Yi, no one else knew how to use spirit sense, so it was pretty useless.

Chapter 6346 No Need To Worry

To Lin Yi, this kind of restriction was useless as well. His spirit sense wasn't blocked at all, and he could easily penetrate it.

"It's number two hundred and thirteen!" Lin Yi smiled and showed the number to the person recording.

"Number two hundred and thirteen! Come on stage to draw the next person. " The person took a look and announced formally, leaving Lin Yi alone.

Yang qianxue was a little surprised-she didn't think that Lin Yi would pick her, but she was relieved to be able to compete with Lin Yi.

Of course, Lin Yi did this on purpose. He didn't need to worry about Leng rufeng, but yang qianxue was a little weak. Her talent wasn't bad, but her strength was greatly affected by repeated injuries and Qi deviation. Her Foundation was unstable too, and she needed to recuperate well.

After the test, Lin Yi would give yang qianxue some elixirs so that she could fully recover before going to the mystic division. As for now, Lin Yi, of course, had to take care of her.

In terms of talent, yang qianxue was definitely above Jiang He hai and Qin Yue. Her strength was far beyond the two of them before, but now, yang qianxue's combat power was the weakest among the

three. In order to let Leng rufeng go to the mystic division Sea area with peace of mind, Lin Yi, as the boss, had to help.

Lin Yi had wanted to put Jiang hehai and Qin Yue in the same group, but yang qianxue's hands were too anxious when she reached in, pushing their numbers to the side. Lin Yi was speechless when he saw this with his divine sense. It seemed like some things couldn't be forced, and he could only let her be.

Jiang He hai and Qin Yue weren't in the same group as Lin Yi, but that idiot Ren Zhongyuan was the last person in the seventh group. When he saw that he was in the same group as Lin Yi, his face turned extremely ugly. His swollen face from Jiang He Hai's slap had already recovered, but it didn't look as good as it did before.

Lin Yi touched his chin, thinking that he could teach Ren Zhongyuan a lesson when he fought him. Even if he didn't want his life, he would at least make him suffer.

The drawing of lots was done rather quickly, and it did not take long for all ten groups to be drawn. Jiang He hai and Qin Yue were lucky, as their numbers had slipped to the side, so they were not drawn in the end. When Group Nine was drawn, they automatically became two people in group ten.

Although the second round was a one-on-one test of individual combat power, being able to be together would always give them some extra points. As long as they were not in the last place, they would be considered successful.

The seventh group, led by Lin Yi, saw that the first few groups had already started fighting. The middle-aged woman who had brought them here stood by the ring and turned around to look at the eleven people from Group Seven.

"I'm the judge of your assessment and competition. Now, I'll announce the rules. The principle of the arena competition is to stop when the time is right. No one is allowed to kill or cripple anyone. Those who kill will be disqualified, and those who cripple will have their points deducted according to the severity of the situation. At most, they can be judged as the last place in the group. I hope that everyone can control themselves when they attack." The middle-aged woman explained the rules calmly, surprising Lin Yi.

However, after thinking about it carefully, he realized that the first round was like a big wave washing away the sand. It didn't matter if people died or not. Only those who could survive were the elites. However, after the first round, these people who stayed could be seen as the seedlings needed by the mystic Sea region. Naturally, they had to be protected.

As long as the person wasn't dead and wasn't permanently disabled, it wouldn't affect them in the mystic division. Lin Yi laughed coldly in his heart after thinking it through. The people of the mystic division weren't good people after all, they were too realistic.

When they really went to the mystic class Sea area, there would probably be another brutal process of washing out the sand with big waves. Now that they had retained enough people, they could get more sand to wash out in the future, right?

However, this was good as well. At least Jiang He, Qin Yue, and the others wouldn't be in any life-threatening danger. Although Lin Yi hated Ren Zhongyuan, he didn't have any intention of killing him now.

"The outcome of the battle is very simple. Those who fall to the ground and can't get up within three breaths will lose, those who fall out of the ring will lose, and those who surrender will lose. Those who do not meet the above conditions will be considered a draw. The time limit is one incense's time. Two-on-two battles, and the cycle will repeat. You can use medicinal pills to recover during the intervals of

the battle, but all props and medicinal pills are prohibited from being used in the battle." The middle-aged woman explained in detail, and Lin Yi suddenly thought of Wang Shiyang.

If this fellow were to participate in such an assessment and not be able to use talismans, wouldn't that mean that he would lose 70 - 80% of his combat strength? Of course, he also had the ability to teleport. However, if this rule was applied to his family, there would naturally be a huge restriction. Fortunately, his family was originally from the mystic Sea region, so they did not need to participate in such an assessment.

Lin Yi saw the middle-aged woman waving at him and yang qianxue, signaling for them to fight.

"Boss, we don't need to compete, right?" Yang qianxue whispered as she looked at Lin Yi.

She knew how strong Lin Yi was. Even Leng rufeng might not be his match, let alone her. However, she had never fought with Lin Yi before, so it might be a good experience to try. Perhaps she could learn a lot from it.

"It's fine, let's just spar for a bit. Let's go. " Lin Yi smiled, giving yang qianxue a comforting look.

He'd wanted to just give up on the match and let yang qianxue get two points, but he realized that wouldn't be good for her. He'd rather see how strong she was first.

"Alright," he said. Since Lin Yi said he wanted to fight, yang qianxue didn't reject him. In fact, she was eager to try.

Ren Zhongyuan's expression was serious as he prepared to see Lin Yi's skills. When Lin Yi first went to the soaring Cloud School, he was able to fight Leng rufeng to a draw. How much progress had he made?

Anyway, Ren Zhongyuan knew that he was no match for Lin Yi. In front of Leng rufeng, his strength was nothing but a piece of trash. There was probably no difference when he faced Lin Yi.

"Let's start!" After the two of them went up the ring, the middle-aged woman did not waste any time and immediately announced the start of the match.

"Attack with all your might, there's no need to hold back!" Lin Yi stood on the stage casually, signaling for yang qianxue to make her move.

"Good! Boss, I'm sorry!" Yang qianxue cupped her fists and smiled at Lin Yi, before pulling back her composure and getting into an attacking stance.

Chapter 6347 I Admit Defeat!

After a slight pause, yang qianxue let out a soft cry and turned into a faint cloud of mist. She seemed to be drifting slowly, but she was in front of Lin Yi in an instant.

"This movement technique is not bad!" Lin Yi's eyes lit up as he couldn't help but praise.

Yang qianxue's body was agile and agile. It was better than Lin Yi's butterfly microsteps, but slightly inferior to the Super limit butterfly microsteps. Of course, this was under the premise that they were at the same level of strength. With Lin Yi's strength, even without the butterfly microsteps, yang qianxue was still no match for him.

A thin layer of mist started to form around Lin Yi. Yang qianxue's attacks came at Lin Yi from different angles, but he easily dispelled them all without even moving a step.

The difference in strength between the two sides could be seen clearly! If it were someone with a weak will, they would only lose confidence in such a situation. However, yang qianxue was different. The hardships she had gone through had tempered her heart to be extremely tough. At this moment, her eyes were shining, and she had a deeper understanding and experience of her own martial arts techniques.

Lin Yi's every block wasn't just a simple block. There was a slight fluctuation, guiding yang qianxue's skills to make subtle changes. Outsiders might not be able to notice the changes, but yang qianxue could feel the difference. It was a more perfect attack!

This was no sparring session at all-it was a tutelage session from her boss, Lin Yi. It might have only been an incense's time, but her gains were definitely more effective than a month of training.

"Lord Judge, the two of them are clearly acting. Is this really okay?" Ren Zhongyuan wasn't an idiot. He could tell that Lin Yi wasn't using his true strength. If he couldn't see Lin Yi's true strength, what was the point of wasting time? Therefore, he simply went to the middle-aged woman's side and whispered a complaint.

The middle-aged woman glanced at Ren Zhongyuan indifferently and said with a blank expression, ""Did I say that the rules don't allow fake fights? If you're willing, you can fake every match. I won't say anything. "

"Uh ... I don't think so." Ren Zhongyuan was at a loss for words. He smiled awkwardly and did not dare to say anything else, lest he offended the middle-aged woman.

"Time's Up, it's a draw! Both sides get one point!" The time for an incense stick to burn was up, and the middle-aged woman announced the end of the battle. Only then did Lin Yi and Yang qianxue stop sparring.

Lin Yi was as calm as ever, but yang qianxue was drenched in sweat. She had really given it her all in the time it took for an incense stick to burn. Other than a few of her life-saving moves, she had used almost all of her skills. Of course, she had gained a lot from it.

"Thank you for your guidance, boss!" Yang qianxue bowed to Lin Yi respectfully. She could feel that Lin Yi's strength was more than enough to be her teacher, so this respect was genuine and not because of the favor he'd done before.

"Let's go down and talk. " Lin Yi smiled and waved his hand, walking down the stage with yang qianxue to let the third and fourth fighters come up.

"Let's take a break and recover our true Qi. We'll do our best in the competition later!" After he came down, Lin Yi took out a bottle of Qi recovery pills and gave it to yang qianxue. She had been attacking with all her might for the time it took for an incense stick to burn, and she had used up a lot of her Qi. She might not be able to recover it just by meditating.

"Thank you," he said. Yang qianxue did not stand on ceremony. After thanking him, she took out an elixir and consumed it. She immediately sat down at the side and began to cultivate to recover.

If each battle could last for the time it takes for an incense stick to burn, there would be enough time for him to recover. Unfortunately, most of the time, the outcome of a battle could be decided in two or three moves.

For example, in the second round, in just a few breaths 'time, the guy in third place was knocked out of the ring, and the fourth person won easily.

In the third round, the fifth and sixth were evenly matched, but they only fought for half an incense's time before the fifth seized an opportunity and secured the victory.

The last seven, eight, and nine battles all had their own wins and losses, and didn't take too much time. If Lin Yi didn't give her the elixir, yang qianxue might not have been able to recover to her best state when she got her turn again.

"Next up are the 11 contestants to fight against the first contestant. Please come up the stage!" After the middle-aged woman finished recording the results, she continued to announce the combatants for the next round.

Ren Zhongyuan was last as he didn't have any opponents after him. Hence, Lin Yi started the rotation again. One was the first round, and the other was the second round.

"Ren Zhongyuan, come on up. It's been a long time since we last met. Are you scared? It can't be that he's even worse than the lady, right?" Lin Yi went up first and turned around to see Ren Zhongyuan standing still. He curled his finger at him with a mocking expression, hoping that this guy wouldn't run away.

Although he couldn't kill Ren Zhongyuan, he couldn't maim him either, but he could still beat him up to vent his anger. Lin Yi was worried that this guy would admit defeat, and then it would be boring.

Ren Zhongyuan's face turned red and white. He knew that he wasn't Lin Yi's match, but he couldn't stand being mocked by Lin Yi!

What the f * ck! So what if I can't beat you? You think you're so great just because you can't beat me? Even if this young master can't beat you, I won't be afraid of you! I'll just hide from you!

"I admit defeat!" Ren Zhongyuan gritted his teeth in anger. However, he admitted his defeat without any hesitation.

He couldn't beat them anyway, and going up would only make him look bad, so he might as well save his strength to deal with the others! I'm going to the mystic division Sea area. There'll be a chance to get back at me in the future! Lin Yi, you bastard, just you wait!

Ren Zhongyuan cursed in his heart, but he didn't dare to look at Lin Yi. He lowered his head and didn't say anything.

Lin Yi shrugged. He was going to beat the guy up, but he really did admit defeat. Should he be complimented for being smart or for being a coward?

"Number 11 admits defeat. Number 1 wins. Next round!" The middle-aged woman was emotionless. For convenience's sake, she didn't call everyone's original number, but simply re-numbered them in the order they were drawn.

"Number 2 and number 3, go up!" Number two was yang qianxue, and number three was the one who had lost quickly.

Yang qianxue nodded at Lin Yi, full of energy after taking the pill. She jumped onto the stage with confidence, while number three had a bitter look on his face.

This guy's strength was not strong to begin with, and he had been defeated so easily in the first round. He no longer had any confidence in winning.

Besides, he had seen the first battle between yang qianxue and Lin Yi. Yang qianxue's attacks couldn't hurt Lin Yi, but it seemed to be no problem for her to deal with him.

Chapter 6348 A Draw ...

One side was full of confidence and fighting spirit, while the other side was dejected and overcautious. The outcome of this match was already decided without even fighting. It would be inexcusable if yang qianxue still could not win.

As expected, the battle did not last long. Or rather, after number three blocked a few attacks, he felt that there was no hope of victory at all. It was difficult to even maintain a draw. So, he took advantage of the opportunity to retreat and simply jumped off the ring, giving up the battle.

Seeing that number three had lost twice in a row, the rest of the people were secretly happy. Out of the eleven people, it would be fine as long as one person was eliminated. Now it seemed that number three was a very good opponent. Most people did not care about the fight for the top spot of the group. They only needed to pass the second round of assessment.

Next up was the battle between number four and number five, the two winners of the first round. Number four wanted to replicate the process of beating number three quickly, but number five was not a weak person. His previous victories were basically achieved by relying on his strong defense. This battle was like a battle between a sharp spear and a strong shield. Both sides had their own advantages. In the end, it was a stalemate for the time it took for an incense stick to burn. No one could do anything to the other. They had to shake hands and draw a draw, each getting a point.

In the following matches, No. 6 and No. 9 also tasted the bitterness of two consecutive defeats. On the other hand, Ren chongyuan won one match against No. 10, who won the first match, and obtained two points.

After two rounds, only number seven had two consecutive wins and was in first place with four points. Including Lin Yi and Yang qianxue, four people had three points and were tied for second place. The three who had lost twice in a row had the possibility of being eliminated, but they also had the hope of escaping. It all depended on how the rest of the battles would go.

In the third round, Lin Yi didn't even have to go up, and number three had already admitted defeat. He knew his place, and if someone like Ren Zhongyuan admitted defeat, he'd only be wasting his pure energy. In order to fight for the last hope of advancing, he had to save all his energy. As long as he could win against number six and nine, he'd have a chance!

In the battle between yang qianxue and number four, both of them had obtained their second draw. Number four and number five had been entangled for too long and had not fully recovered their true Qi. Yang qianxue's movement technique was extremely advantageous. In the end, yang qianxue was satisfied, but number four was so depressed that he almost vomited blood.

Two consecutive draws that lasted for a full time was quite disadvantageous to his subsequent competitions. Unfortunately, he had no choice but to try his best to recover his losses. Originally, he had wanted to fight for the top spot in the group, but now it seemed almost impossible.

Staying undefeated and winning all the matches were two completely different concepts. There would be a huge difference in points between the two. If they only wanted to advance, there was no need to worry. As long as they could beat the three guys who lost in a row, they could basically guarantee their advancement.

Because only the first and last place needed to be decided, the people in the middle had no desire. Therefore, after three rounds, the situation began to become clear. Those who had no hope of fighting for the first place and had no worries about advancing to the next round began to show off. Those who could compare notes with each other were free to fight. It did not matter if they lost or won, and it was good to draw. On the other hand, the three, six, and nine were full of energy, trying to step over their fellow brothers in distress.

Among the eleven, Lin Yi was undoubtedly the most eye-catching one. Other than the tie with yang qianxue at the beginning, the two people who had surrendered to him in a row, and the third one who was easily knocked off the stage, no one else was willing to waste their energy on him, except for number seven.

Number seven was a strong guy as well, and his eyes were set on the top of the group from the start. Before meeting Lin Yi, he was the only one who had a straight win record, and Lin Yi even had a draw!

When everyone else had surrendered to Lin Yi, number seven challenged Lin Yi, but it ended with a weak start and a weak finish. He admitted defeat after realizing that he wasn't Lin Yi's match at all.

But after Lin Yi, he still didn't stop. Ten matches, other than losing to Lin Yi, he won all the matches. If Lin Yi made a mistake, he would still be the top of the group.

Would Lin Yi make a mistake? If Jiang He hai and Qin Yue were here, they might have really done so. After all, this guy did not care about the top spot in his group at all. He just did not want to lose to these people he did not know, which was why he had casually dealt with it.

It really was just a few casual moves-there were only two people who actually came up to fight him, not counting yang qianxue. The rest all surrendered, and he'd be first in the group ... Lin Yi really wanted to say, "what am I supposed to do?" I'm also in despair ...

Well, that was no longer important. What was important was that the last place of this group was still occupied by the three brothers in distress, third, sixth and ninth. There were occasional changes, but they would immediately return to normal.

The three of them didn't lose all the way. After all, they still had the chance to fight each other. The problem was that the relationship between the three brothers was really good. It was a draw, a draw, a draw.

Two points per person, at least it wasn't a zero, it was worth watching.

"Boss, who do you think will be eliminated?" Yang qianxue found it interesting as well, and couldn't help but ask Lin Yi in a low voice.

"It's hard to say. The three of them are very close in strength and have similar thoughts. That's why this happened. I wonder what the judges will decide." Lin Yi shrugged. He didn't know if the board had expected this to happen.

Originally, in a situation where they were equally matched, they could still use the relationship of victory and defeat to judge, but none of the three had won before. They were all tied, so how could they break it?

"I think the judges will let them play an extra match, right? Or we can directly eliminate all three of them, and then add two more advancement spots in the loser group. This might be better. " Yang qianxue gave it some thought and felt that her idea was very good.

After Lin Yi's guidance in the first round, yang qianxue's combat strength had clearly improved. Although her level was still the same, her confidence had increased by a lot, and she was more cheerful.

Yang qianxue wanted to give it her all in the match against Ren Zhongyuan, but Lin Yi didn't think it was necessary. There was no point in fighting Ren Zhongyuan to the death as long as it didn't affect the overall situation. He couldn't kill him either, so yang qianxue gave up the match. Even so, she still got twelve points and was ranked fourth in the group.

"The three of you will each have an additional match and eliminate one of you. If the victor can not be determined by then, all three of you will be eliminated! The spots will be given to the eliminated group to fight for. " The middle-aged woman's plan was actually similar to yang qianxue 's, or rather, it was a combination of her ideas. The three of them, who were at the bottom of the barrel, frowned when they heard it.

Chapter 6349 Optimistic About You Winning

Their strengths were close to each other, so it would be difficult to determine a winner no matter how hard they fought. It would only be a waste of energy. If the three of them were eliminated together to fight for the three spots, they would basically be declared defeated.

"Boss, the three of them are really pitiful. Now that they're riding a Tiger, they can't stop. Two out of three can advance, so it's obviously impossible for them to give up. Do you think they'll secretly collude?" Yang qianxue rolled her eyes, thinking that this was a very likely possibility.

"You're saying that the two of us can join forces and fight one of them to the death? Did they hold back their strength when they fought each other? This way, it's very likely that they will have the opportunity to advance together. It just depends on whether they have this idea. " Lin Yi nodded, understanding what yang qianxue meant.

As soon as he finished speaking, he saw number six and number nine secretly making hand signals with their eyes. It was obvious that they had reached an agreement. Poor number three's reaction was a beat slower. He wanted to find an ally, but he found that he had become someone else's prey.

"Brother, it's better for you to give up on your own. Save your strength and go to the elimination group. You still have a chance to fight for the only spot. If you fight to the death with the two of us here, there's really no hope at all!" After number six confirmed his alliance with number nine, he didn't immediately start fighting. Instead, he smiled and persuaded number three to surrender.

His thoughts were also very simple. If he were to fight to the death with number three and number nine turned against him, who would he go to reason with? If he could convince number three to leave, that would be the best.

"That's right. If we work together, you'll have to exhaust your Qi here and lose the chance to go to the mystic division. Why don't you go to the elimination group in your best condition and fight for a chance? How about this, I have two pills here to recover your Qi. Give them to you so you can rest and win the last place. What do you think?" Number nine understood number six's thoughts and also fanned the flames, not caring at all that the judge was right beside her.

Number three hesitated for a while, then gritted his teeth and nodded, ""Good! It's settled then!"

He had no other choice. If he stayed to fight, the chances of him losing were as high as 99%. If he went to the elimination group and fought for the last spot, he would have a higher chance. After weighing the pros and cons, he naturally knew what to choose.

Lin Yi and Yang qianxue looked at each other, a strange look on their faces. They had guessed the beginning of the whole thing, but they didn't expect it to end like this.

"Alright, the seventh group's assessment is over. The group's first place will remain. The rest of you can go back to the front and wait." The middle-aged woman clapped her hands, signaling for Lin Yi to stay. The rest of them left the arena.

"Boss will win! I'll go over and wait for your good news!" Yang qianxue's eyes curved into crescents as she cheered for Lin Yi, not forgetting to look in the direction of Group Three.

As expected, Leng rufeng was the champion of Group Three. He was waiting for the top ten ranking battle, but he couldn't come over to talk because of the judge's restriction. He could only wave at Lin Yi and Yang qianxue from a distance.

Yang qianxue 's' waiting for good news 'naturally included her lover, Leng rufeng.

"Don't worry, ru Feng and I will definitely bring you good news. " Lin Yi smiled. He was not surprised that Leng rufeng could stand out. In this group, Leng rufeng might not be the most outstanding in terms of level, but in terms of actual combat power, there were few people who could be his match other than Lin Yi.

"Mm! You'll definitely be fine. " Yang qianxue nodded and waved at Lin Yi and Leng rufeng. She went back with the others to wait for the news.

The elimination group's competition would be held on another field so as not to affect the rankings of the top ten. Therefore, only the top rankers of each group would be left.

Because there were still a few groups that hadn't finished their battles, Lin Yi and the others could only wait in their own arena area. The sky was already dark, so they lit up the torches around the practice field, making it as bright as day. It didn't affect the competition on the stage.

"Judge, why don't you wait until tomorrow to continue? why do you want to finish today?" Lin Yi was bored from waiting, so he started chatting with the woman.

"First, it's to test your ability to continue fighting, and second, it's for your own good. After you've confirmed your spots, you'll have enough time to go to your respective Academies to deal with some things, and then have a small gathering with your family and friends. Everyone can say goodbye or something. After all, it'll take at least a few years before you can come back from the mystic division seas." The middle-aged woman explained patiently with a rare smile.

This was probably because Lin Yi was the head of the group, so they gave him some face.

"So that's how it is. You're very thoughtful." Lin Yi smiled faintly, but he didn't think much of it. As far as he was concerned, neither of the two points made sense.

The ability to sustain battle? Those who were the top rankers of the groups who had finished had already recovered. For those who had not finished, the longer the time, the more rest they had in between. There was not much difference.

As for dealing with things, what did it matter if one day went by? No matter what, one or two days wouldn't make a difference.

But Lin Yi didn't say anything-it didn't matter to him anyway. He was thinking of finding ao Tianba as soon as possible after the event ended, and help him with the thing.

"Lin Yi, you're very strong. I think you'll win the top ten ranking battle." The middle-aged woman's sudden confidence in Lin Yi surprised him.

"Thank you for your praise, judge. This time, there are many young talents in the East Province. It's not easy to win." Lin Yi cupped his fists and said humbly.

Although what he said was the truth, he couldn't just casually say that he had a good eye and was very accurate, right?

In fact, Lin Yi wasn't too interested in winning or not. He didn't need to rely on this bit of fame to get into the school anyway. It was enough to be able to enter the school with Shangguan LAN 'er.

If it wasn't for Shangguan LAN 'er, Lin Yi might still want to go to Wang Xinyan, Huang xiaotao, or ning Xuefei's school. Huo yudie was out of the question, as that was a women's school ...

Since he promised to accompany Shangguan LAN 'er this time, Lin Yi could only choose to go to Feiyang school. The top ten was enough. As for the championship, he could just let Leng rufeng go.

The middle-aged woman seemed to have a good impression of Lin Yi-she'd already started the conversation, so she decided to just continue chatting with him. The topic wasn't just limited to the test, either-they talked about everything, even mentioning Mystic division sea areas. It was an eye-opening experience for Lin Yi.

Chapter 6350 Don't Cause Trouble

"Alright, the winner of the last group has appeared. We can go and prepare for the ranking battle." The middle-aged woman still wanted more, but seeing that the top ten candidates had been decided, she could only end the topic regretfully.

"It's a pleasure to chat with the judge-I'll have to ask for more advice the next time I go to Mystic class. " Lin Yi thought that it was a good time to talk to her, and he was willing to continue chatting with her when he was free.

"That's good! I'm yang jadeite, a mentor of the lingfei college in the mystic division Sea area. I was selected to join the recruitment team this time, and I'm lucky to know a young genius like you. If you don't mind me being too close to you, you can call me sister yang from now on. " The middle-aged woman, yang jadeite, had completely put down her pride and decided to make friends with Lin Yi.

A genius like him would have great achievements in the future, and it was always good to build a good relationship with him. If it wasn't for the fact that the recruitment team prohibited private recruitment, yang jadeite would've pulled Lin Yi into her lingfei college at all costs.

She didn't know Lin Yi's true strength, either. If she had the same amount of information as Zhang Jinmiao, she might really do everything in her power to get Lin Yi on her side. After all, if she could get a super genius, it would be a huge boost to her status.

"Sister Yang, what are you saying? I still have a lot of things to ask you in the future." Lin Yi smiled slightly. Yang Feicui was being modest, but she was only at the peak of the mountain-opening realm. It was not a lie to say that she wanted to get close to Lin Yi.

Not to mention Lin Yi's huge potential, Yang Feichen was no match for Lin Yi in terms of strength, but she didn't know it herself.

The two didn't talk for long before they arrived at the center of the arena. The top ten teams and judges were gathered together. Lin Yi glanced at the top ten students. They were indeed young heroes, but they might not be as strong as Leng Rufeng.

"You are all the best of the best in this assessment, the top ten most outstanding people. Now, we will begin to arrange your seats. This will affect your bonus advantage and rewards when you enter the Mystic division Sea area. I will let you know the specific situation when the time comes." The judge in charge of the first group looked at the ten people and began to explain the final rules.

"The temporary top ten will be based on the points of each group. Those with the same points will be decided first. The rules of the ranking battle this time are that the lower-ranked person will challenge the higher-ranked person. Starting from the tenth place, the lower-ranked person can challenge anyone in front of him, but he only has three chances. If he fails three times, he will lose the right to challenge again and can only wait for the person behind to challenge him. In the end, the ranking battle ended when either no one challenged or all the chances to challenge were used up. There's one more thing. If the Challenger gives up, no matter how many chances he has left, he will be considered to have given up. Please take note." After the first group's judging, a sign was put up next to the ring. On it was the temporary ranking according to the rules he had explained.

Lin Yi nodded slightly at the arrangement-everyone had a clear understanding of their own strength, and they probably wouldn't just challenge anyone after the first round. The ranking competition should be over soon, right?

Lin Yi looked at his point card and realized that he was in last place. The other groups all got first place with almost all wins, and the only one with the same points as him was ahead of their group. Group ten only had ten people, and although the first place had eighteen points, it was still ahead of the two who tied.

"I'll be the first to challenge?" Lin Yi started hesitating after seeing that. If he were to make a move, it would be no different from bullying a kid. Was that really a good idea?

"Finally, I'll tell you all a piece of news. The student who gets first place in this ranking battle will have a special privilege after entering the mystic division Sea area. I can let you all know about this privilege first, which is that you can bring a person who has been eliminated in the entrance exam into the Academy. Although this spot can't make that person an official student, it can give him a chance. If he passes the Academy's entrance exam within three months, he can become an official student. It doesn't matter if he doesn't pass. You can let him follow you to cultivate in the Academy. Although he won't have an official status, there are practical benefits. " The first group's words immediately aroused the interest of everyone present.

Who didn't have friends and family participating in this assessment? This was a rare opportunity. Even if he couldn't use it himself, he could sell it to someone else and make a lot of money. There were many people who were willing to take out precious items to get into the mystic Sea area.

Lin Yi was moved as well. He wanted to give up the chance since he could get first or tenth place, but this reward was different. Leng rufeng couldn't use it, but yang qianxue might not. If yang qianxue was eliminated, Leng rufeng would probably come back.

Other than yang qianxue, Jiang He hai and Qin Yue were not that strong either, so it was always good to have a guarantee. Of course, Leng rufeng could fight for the first place, but Lin Yi was the one who was ranked tenth.

If he gave up on the challenge, he would not have the chance to challenge anyone if anything happened in the future. For safety's sake, he still had to go up and fight.

"Alright, I've said what I needed to say. The ranking battle is about to begin. The same old rules. You can't kill or maim anyone. The battle time was one joss stick's worth of time, and the ranking would remain unchanged if they were even. Now, let's invite the 10th Lin Yi to come up and challenge the person he wants. " The first judge finished his last sentence quickly and pointed at Lin Yi, signaling him to go up.

"You'll be fine. No one here is your match!" Yang feicui's neck didn't move, and she didn't even look at Lin Yi, but she encouraged him in a voice that only he could hear.

Lin Yi smiled and thanked her in a low voice as well before walking up the stage.

But before he could say who he wanted to challenge, Gong Linzhou, who was temporarily in first place, jumped up and looked at Lin Yi with disdain. He then turned to the other eight participants.

"Don't waste any more time. I know you're all eyeing the number one spot above my head. If you want to challenge me, then come at me. I, Gong Linzhou, will take you on!" Gong Linzhou's words were filled with confidence, and the arrogance on his face was not concealed in the slightest.

"Gong Linzhou, it's time for Lin Yi to pick his opponent, don't mess around!" Yang jadeite frowned slightly. Although she was not responsible for judging the ranking battle, she was still qualified to say something.
