

Bodyguard 6381

Chapter 6381 You First Or Me First?

"Ha ... We're the weakest side, but we can be disruptors at any time! Although I'm not sure if they'll be swayed, they'll at least consider it!"

Lin Yi smiled faintly. Normally, his rumors would be enough to solve the crisis, but ye Daxi and su Lu weren't normal people. Or rather, they weren't normal people either. Normal methods might not work.

Ye Daxi and su Lu received Lin Yi's message at the same time as the two were talking. Their first reaction was to laugh!

"You dare to threaten us? If we launch an attack, we'll immediately join SU Lu (ye Xi). What a joke. Do you think we'll have a good ending if we join SU Lu (ye Xi)?"

The two's reactions were pretty much the same-they tossed Lin Yi's message aside and continued to command the fleet!

You want to join another side? That would only work if you had the chance! Before you decide to join us, wouldn't it be better to just kill you all?

Gale Sulu and needle in cotton were overjoyed and chose to speed up at the same time!

They wanted to take down otian Harbor before the other side arrived, but they had a tacit understanding not to use the ten thousand mile formation because they could not control it precisely.

However, if the other party was the one who beat him to it, that would be the will of the heavens! What they were thinking was, if they were to go first, would ao Tianba surrender because he was no match for them?

Even though the two of them were hurrying along, they could not help but have such a thought in their minds. If they could really take in ao Tianba's fleet, the situation would be completely clear, and there would be no suspense in overpowering the other party!

What they didn't know was that Lin Yi was just saying it. He wanted to show his weakness, lure the enemy in, benefit from both sides, and watch the Tigers fight ... These weren't his real goals!

All the large warships were gathered at the port to assist in defense, and the three ancient warships were ready to set off!

As long as su Lu and ye da arrived and didn't start fighting, Lin Yi would activate the ten thousand mile formation with the three ancient battleships and leave ao Tian port. Where was his target?

Ha ... Was there a need to ask?

Gu Yunhao's two ancient battleships were making a scene in ao Tianba's territory, and this was under the circumstances that the other party did not have any logistics supplies and could not plunder any resources to supplement them.

Lin Yi's three ancient warships had enough resources. What would happen if they appeared behind su Lu and ye da Xi?

A fleet made up of large warships was nothing to Lin Yi!

Without the escort of the ancient warships, the treasure ships that were happily trading in the safe sea area were no different from the meat on the anvil and the vegetables in the rice bowls.

"Lil bro Lin, if we really reach the last step, I'll leave everything to you. You must be careful!"

Ao Tianba lowered his voice as he ordered Lin Yi. He had to stay behind as the defense commander of the port and coordinate the fleet with the port's defense facilities. He couldn't attack with Lin Yi.

"Don't worry, brother ao Tian. I don't dare to say much about other things, but I'm good at escaping! Right now, we're not as strong as them, so we'll just focus on being disruptors. If they don't even care about their own backyard being on fire, then we'll all be doomed together!"

Lin Yi smiled. The plan wasn't perfect, but it was well-planned.

It might not have a decisive effect on the overall outcome of the battle, but no one could deny that it would be quite disgusting.

As the two of them spoke, ye Daxi and su Lu's fleet appeared on the surface of the sea almost at the same time!

Lin Yi and ao Tianba's expressions turned serious-these two houses weren't simple people, and Lin Yi wasn't sure if they had other plans.

The two fleets stopped outside the port's defense range and faced each other. Ye Daxi and su Lu appeared at the bow of the ships at the same time, ready to chat before the battle.

"Su Lu, you're too slow this time, and you've let down the name of Gale! Are you ready to change your nickname?"

Ye Daxi waved at su Lu with a smile as a form of greeting.

"Ye Daxi, you still like to pretend to be a good person! You know very well how fast I, Gale Sulu, am. You've tricked all those guys into coming on board. I feel that if I don't let you make use of them, it would be a waste of your reputation as a cotton needle!"

"So, I'll give you the chance to attack first. You have a lot of ships anyway. After we take them down in one go, we'll start the decisive battle. How about it?"

Su Lu smirked coldly and retorted. Among the leaders of the 20 fleets, su Lu was probably the only one who would talk to ye da Xi like that, with the exception of ao Tianba!

"Alright, let's not talk about names and nicknames. You know what kind of person I am. I originally wanted to persuade ao Tianba to surrender! After all, up until now, we've been holding the flag of peace high. Other than a port, there has been no real battle!"

"But since you're here, peace is impossible. In that case, let me see Gale Sulu's combat power first! I can promise you that as long as you attack, regardless of the outcome, I will use the same number of fleets to fight you in the final battle. How about it?"

Ye Daxi maintained his smile and spoke unhurriedly. He did not seem to be interested in attacking the aotian port first.

"What a joke. Do I, su Lu, need you to give me up? Even if you have twice as many ancient warships as me, I won't even bat an eye!"

Su Lu had his own pride. He had never thought that his combat ability was weaker than ye Daxi 's. The reason he had been suppressed by ye Daxi was mostly because his fleet was not strong enough.

Even though he was at a disadvantage, this did not affect su Lu's confidence. He hoped that he could complete his challenge to ye Daxi through this battle.

Ye da Xi might have seven ancient warships, but su Lu still had an advantage!

For example, in the five ancient warships under his command, except for the flagship, the sub-captains were all his trusted subordinates who had fought side by side with him all year round. During a battle, whether it was cooperation or command, they could achieve the most perfect state.

And ye da Xi?

His seven ancient warships belonged to seven families!

Although he had the title of Alliance leader, it was still a question whether he could command the other six families with ease!

A fleet that could not work together perfectly might not be able to gain the upper hand in battle even if they had the advantage in numbers. Ye Daxi had also said that they had not fought a good battle since the formation of this fleet!

Su Lu's fleet had fought all the way here and developed all the way. It was hard to tell who would win in a battle between elites and recruits!

Chapter 6382 Waiting Is The Safest

"Su Lu, there's no point in us continuing this conversation. Let's be more straightforward! How about we fight a battle first, and after we determine the winner, we'll deal with ao Tianba! Why don't we join forces and take care of ao Tianba first, then we'll decide the winner. What do you think?"

Ye da Xi smiled warmly as if he was not discussing the fate of the three fleets but asking su Lu if he liked buns or noodles.

"Join hands with you? Are you trying to disgust me to death? Since we've met, let's determine the winner!"

Su Lu sneered, and his eyes began to flash with madness. He had always wanted to defeat ye Daxi in a head-on battle and take the first place!

If ye Daxi had not said that they would work together to deal with ao Tianba, su Lu might have destroyed ao Tianba's port first and come back to fight ye Daxi!

Now that he had been provoked by ye Daxi, he could not wait any longer. Dealing with ye Daxi in his best condition was the best form of respect for this opponent!

"Hey, hey, hey, can you not be so willful? Did the two of us come all the way here just to let people watch a show?"

Ye Daxi shrugged his shoulders. Although he said so, he didn't care too much in his heart, because this result was already within his expectations.

"Let them see what a real battle between experts is like! Perhaps they don't even have the courage to resist anymore. After we're done fighting, they'll just surrender to the winner. Isn't that great?"

Su Lu gave a perfunctory reply. He extended his arm and pointed at ye Daxi's fleet. "Boys, victory or defeat will be decided in this battle. Full speed, storm assault!"

"Wind! Wind! Gale!"

The five ancient warships roared. After some simple adjustments, they formed an arrow formation and shot towards ye Daxi's fleet with an unstoppable momentum.

"What a boorish fellow! Alright, I'll let you know why you can only be the second in command forever!"

Ye Daxi still maintained his elegant smile, but his eyes began to light up with excitement.

He had never fought in a naval battle before, but that did not mean that he did not like it. Needles in cotton, needles in cotton. First, he had to show people cotton, then he would reveal his hidden needle!

Now was the time to reveal the tip of the needle!

Gale su Lu, come!

The seven warships were also slightly adjusted to face su Lu's fleet, but they did not seem to be charging at each other!

Under ye Daxi's command, the seven ancient warships scattered. At first glance, there seemed to be no order at all.

In just a breath's time, a faint light flashed between the seven warships at the same time, completely connecting them together.

Seven stars Battle formation?

So powerful!

Lin Yi, who was watching from the port, couldn't help but exclaim in admiration before he could celebrate the unexpected fight.

Letting them fight first was one of the possibilities in Lin Yi's plan, but he and ao Tianba never expected this to happen!

Now that it had really happened, they truly felt that it was a little strange.

Ye da Xi's Seven Star formation and su Lu's arrow formation were completely beyond Lin Yi and ao Tian BA's imagination!

It was not an easy task to command the ancient warships to form a battle formation. Due to the waves on the sea and the size of the ancient warships, it was impossible to form a battle formation if there was a slight mistake.

It did not mean that a battle formation would be formed just by placing it in a similar position. A completed battle formation would resonate with each node of the formation, and thus increase the attack or defense power of all the nodes!

It was absolutely impossible to have any improvement in appearance!

"No wonder they can occupy the first and second place of all the fleets. They really live up to their reputation! Lil bro Lin, is it possible for you to do the same?"

Ao Tianba knew that he didn't have the ability to do so. Although the vanguard and seven-star weren't complicated battle formations, it required too much of a commander's commanding ability. At least, he couldn't do that at the moment.

"I can control the formation, but I'm afraid I can't command the fleet!"

Lin Yi shook his head with a bitter smile. He didn't have much confidence in his own leadership abilities!

Using a fleet to form a battle formation didn't mean that one had to be skilled in formations. Lin Yi was confident that he could take on su Lu's five ancient battleships with his three ancient battleships, but now he realized that it was just an optimistic mentality of the ignorant.

If ye da Xi and su Lu's assistant could form a battle formation, it wouldn't be easy for Lin Yi to set fire to their backyard!

It was true that the large ships couldn't stop Lin Yi's three ancient warships, but as long as their formation could hold them off for a while, the ancient warships could quickly come back to help. No matter how abundant Lin Yi's fleet was, if they were killed by the enemy, they wouldn't be able to win in terms of consumption.

"It seems like it's really not that easy to get into the top two!"

Ao Tianba couldn't help but sigh. Even Lin Yi said he couldn't do it, what else could he say?

He could only hope that ye da Xi and su Lu would fight each other and die together!

With Lin Yi's abilities, he would still be unrivaled if he fought a single ship instead of a fleet!

"Brother ao Tian, don't be dejected. We just need to play the role of disruptors. The war between the two families is our best chance!"

Lin Yi smiled as he consoled ao Tianba.

The situation wasn't too bad yet-if the two houses attacked ao Tian Harbor first, it wouldn't last long at all. Lin Yi's plan might not even work in front of two fleets that could form a battle formation.

"Lil bro Lin, do you want to change the plan? We'll see how the situation develops and send the ancient warships into the battlefield. As long as the situation where they are evenly matched is broken, we'll go and help the weaker side. We must make sure that they won't be able to decide the winner so quickly!"

Ao Tian BA suddenly had an idea and felt that this might be a good opportunity.

"Brother ao Tian! Don't you think that if we interfere in their battle, they'll just kill us first? In a battle between two experts, victory and defeat are determined by their own pride. If someone wants to interfere, even if he wants to help, he won't get the gratitude of the weaker party, and at the same time, it will anger the stronger party!"

Lin Yi shook his head, rejecting ao Tianba's suggestion without hesitation.

"You're right, I'm being silly!"

Ao Tianba was slightly stunned, then he sighed dejectedly. This was indeed a desperate situation!

"Brother ao Tian, there's nothing we can do now. Let's just wait and see! It's not impossible to join the ancient warship, but we must find the right time and kill them with one strike. At least, we must kill one side so that they don't have the chance to join forces!"

Lin Yi waved his hand, his face calm. Any decision he made now would have unpredictable consequences!

Waiting was the safest way!

Chapter 6383 This Trip Was Worth It

As the two of them spoke, su Lu's ancient warship fleet crashed into ye Daxi's seven-star Battle formation!

A dazzling light burst out between the two fleets!

Lin Yi's heart skipped a beat. Normally, ancient battleships were used for long-range attacks. He had used close combat to get some results, but Gu Yunhao had seized the opportunity and almost eliminated him.

He did not expect su Lu to be a guy who liked to fight after getting close to him. He was quite similar to him!

Ye Daxi's Seven Star Battle formation retreated at the same time, blocking the arrow Battle formation's attacks while wearing down the powerful impact!

As long as the arrow Battle formation's attack was unable to break the seven Star Battle formation, then when he counterattacked, the situation would be reversed, and it would not be an exaggeration to say that victory was certain.

Su Lu understood this as well. He had never underestimated ye da Xi, but this time, he still felt that ye da Xi was a bigger threat.

He had thought that ye Daxi would make mistakes when commanding the other six fleets, but he did not expect them to be so compatible that they were not inferior to his own fleet!

"Ye Daxi, you're indeed a formidable opponent of mine! That's more interesting. I'll be disappointed if it crumbles in one hit!"

Su Lu subconsciously licked his lips, and the bloodlust in his eyes grew stronger. ""My sons! Bat wing formation! Gale!"

"Wind! Wind! Gale!"

The same roars were heard again, and the arrow formation suddenly changed. The positions of the five ancient warships changed subtly, and the faint light between the warships formed a pair of vague bat wings.

The arrow Battle formation that had been advancing forward with indomitable will trembled slightly and immediately broke away from the defensive layer of the seven stars Battle formation. It lightly drew an arc in the air and arrived at the other side of the seven stars Battle formation like a ghost.

"Amazing!"

Lin Yi was shocked again. He didn't think that a fleet on the sea could change the formation so easily. Whether it was the commander or the executor, they were all amazing!

This made him feel that this trip was worth it!

On the other side, ye Daxi smiled and nodded. ""As expected of Gale su Lu! He was indeed good at it! Stellar transposition!"

The seven stars Battle formation was not a pure defensive formation, but if one wanted to attack its weakness from the outside, unless they surrounded it with superior forces and attacked it fiercely, there was no chance to face its weakness at all!

Su Lu's bat wing formation was already extremely fast, but ye da Xi's change of formation was even faster. When he arrived at the predetermined position, he was still facing a point that he could not penetrate.

"Interesting! Ye Daxi, do you really think I can't penetrate this point of yours? Aren't you underestimating me too much?" Su Lu was getting more and more excited.

The five battleships were in an orderly "wind! Wind! Wind!" Su Lu's fleet changed their formation again!

All the battleships were like saw teeth, taking turns to attack that point. This was an attack that was more powerful than the assault of an arrow!

The only drawback was that it could only be used on the spot, and it was impossible to use it to advance.

Su Lu had also used the Starfall formation. The five ancient warships did not launch their attacks at the same time. Instead, they attacked the same spot one after another!

They weren't as fast as Lin Yi in terms of speed, but they had the advantage in quantity. Five ships were activated in a row, and Starlight fell one after another, similar to Lin Yi's style.

"Hahahaha, su Lu, you're using the Starfall formation against the seven stars formation. Do you really think it's just for show?"

Ye Daxi laughed out loud, and the light on the seven warships suddenly brightened. The Starlight in the sky was drawn, and more than half of it was actually drawn.

"Fight for the Starlight of the falling star formation?"

Lin Yi and ao Tianba couldn't help but exclaim at the same time. The Starfall formation could be used this way?

For a moment, Lin Yi wanted to go out and try! With his control over the falling star formation, could he fight against the seven Star Battle formation?

This time's competition had not been in vain. Regardless of whether he could help ao Tianba obtain the spot he wanted, at least the way the Naval battles were fought made him feel that this trip was not in vain.

The seven stars formation under ye da Xi's control activated the Starfall formation at the same time. They took up at least 80% of the Starlight in the sky, and the remaining 20% was left to su Lu to use. They did not pose much of a threat.

"Scatter!"

Su Lu ordered the formation to break up without any hesitation. The five ancient battleships spread out quickly and surrounded the seven-star Battle formation.

The seven ancient battleships activated the falling star formation at the same time. The power of the formation was unquestionable. As long as they were hit, su Lu's fleet might lose more than half of its forces instantly!

However, after they spread out, although they did not have the support of the battle formation, the targets were scattered and smaller. It was much more difficult to control the descending star formation that was jointly launched. If one wanted to hit any ancient warship, they could only rely on luck.

Perhaps if Lin Yi attacked, they might have a chance to hit him, but Lin Yi wasn't in ye Daxi's fleet. Even if they were better at controlling the Starfall formation than normal people, they couldn't be compared to Lin Yi.

The extremely thick Starlight fell, but it only set off a huge wave. It did not even touch the side of an ancient warship. Su Lu naturally laughed at its accuracy.

After all, su Lu's falling star formation had always been able to land on the seven stars Battle formation. He had never missed. This was why he was much better than ye da Xi!

A faint smile suddenly appeared on su Lu's murderous face. 'This is something that I'm better at than ye da Xi, right?' Continue!

The seven stars formation activated the Starlight, but after using the Starfall formation at the same time, there was an inevitable turbulence!

After all, these seven warships were made up of the flagships of seven fleets. Ye da Xi could rely on his own ability to integrate them into a whole, but he had never been able to make them completely cooperate in such a short time.

"I've underestimated this guy. It turns out that he used the falling star formation just for this opportunity! As expected of Gale su Lu! His battle instinct is terrifying!"

Ye Daxi didn't seem to care too much. He even had the leisure to smile and shake his head in admiration.

The five ancient battleships cruising around the seven stars formation were waiting for the flaw that would be brought by the turbulence. Wind! Wind!" The five ancient warships were like sharks that smelled blood. They instantly rushed forward to tear at the wounds of their prey, completely destroying the fragile connection of the seven-star Battle formation!

The biggest weakness of the loose seven stars Battle formation was revealed. The distance between them became a fatal flaw. How could Gale Sulu let go of such an opportunity?

He had long aimed at the ancient warship at the edge of the Alkaid. Taking advantage of the moment when the battle formation disintegrated, the five ancient warships pounced on it and used the most standard storm battle technique to release the strongest attack in the shortest time.

Chapter 6384 War Of Attrition Begins

"Focus your attacks on one ancient warship!"

Ye Daxi knew that the ancient battleships at the Alkaid were done for. It was not scary to be attacked by five ancient battleships. What was scary was that the five ancient battleships were su Lu's fleet!

Gale Sulu was famous for his powerful attacks. Would he let go of the meat in his mouth if he seized the opportunity? The only thing he could do now was to bite off a piece of his opponent's flesh!

It was too late to reorganize the battle formation. Ye Daxi could only do the same as the other party and focus his attacks on attrition. Anyway, he had more ancient battleships, so who was afraid of who?

After receiving ye da Xi's order, the remaining six ancient warships attacked the last ancient warship from the SU LU Fleet!

However, ye da Xi's fleet was scattered and had not been rehearsed. They could not be compared to su Lu's fleet at all!

The ancient battleships on the Alkaid only managed to withstand the first wave of concentrated attacks. When the second wave of attacks arrived, the shield was completely shattered. At the same time, the side of the deck was penetrated by the concentrated attacks that penetrated the shield!

Unfortunately, this position was not only the power device of the ancient warship, but also close to the sea.

After losing the ability to move, the seawater was still pouring in. The ancient warship had completely lost its combat ability!

Although they could still attack, it would take a lot of luck to hit the swift Sulu fleet in their current state. If he had such good luck, how could he have fallen into such a miserable state?

The last ancient warship of the sus' fleet was attacked, but it was not destroyed. Ye da was overjoyed that his command was rushed. Although there were six ancient warships attacking at the same time, they could not achieve the concentrated single-target attack of the sus' fleet.

Breaking the surface with a single point was the most skilled attack method of the sus!

With their speed, any enemy would suffer a storm of fatal blows at the first moment, and most of them would be killed before they could even fight back, becoming a stepping stone for Gale su Lu.

The five ancient warships didn't continue to destroy their opponents. Instead, they spread out and sailed in a strange arc!

They dodged the attacks of ye Daxi's fleet while adjusting their direction of attack. When they finished adjusting, it would be time to show their fangs again!

"Gather together. Don't let su Lu break through them one by one. Keep an eye on the ancient warship. The enemy's shield is already worn out. Don't give them time to recover!"

The smile on ye Daxi's face had already disappeared. Although the situation was not too bad, his calm command was enough to prove that he was starting to take things seriously.

Even though they were not as quick as su Lu's fleet, ye da Xi's fleet was not slow either. After all, they were the flagships of the various fleets, and their individual ships were definitely not weak.

When su Lu's fleet finished adjusting, ye Daxi's fleet also gathered from the seven stars Battle formation.

The next round of concentrated attacks would be more precise. Even if they could not reach the level of the sus' fleet, their attack power would be much higher. Furthermore, it would not be easy for the sus' fleet to sink a second ancient warship.

"Wind! Wind! Wind!"

Su Lu's fleet was like a group of lunatics, shouting and shouting non-stop!

After some adjustments, they once again launched a concentrated attack.

Perhaps it would be more appropriate to call it a cluster attack. With just one blow, it caused violent turbulence at the point of attack!

The shield of the ancient battleship could even withstand the falling star formation a few times, but it was crumbling under su Lu's attack!

Lin Yi, who was watching from afar, had a serious expression on his face as well! If su Lu's fleet had locked onto him, he would probably have to activate the ten thousand mile formation to escape.

"Protect!"

Ye Daxi didn't waste any words and directly gave the order.

The ancient warship that was attacked slowed down and entered the center of the group. The ancient warships at the side swayed slightly and protected it behind them.

As long as the shield was not completely broken, it could be replenished with resources. However, once it was broken, it had to be repaired before it could be used again.

"Not a bad response! But is this enough to face me, Gale su Lu? I'd like to see if you'll be able to repair it faster, or if my attack will be faster!"

Su Lu smirked coldly. His eyes were filled with confidence. He had the upper hand in this battle!

Not only did they destroy ye Daxi's battle formation, but they also forced one of the ancient warships to withdraw from the battle, further reducing the number of people on both sides.

As long as he continued, ye Daxi's fleet would be slowly devoured by him!

To be honest, as long as he could defeat the guy who had been suppressing him, even if he lost the first round, it would be worth it!

Su Lu's fleet could no longer pursue their previous target, but they did not care. It would be the same if they were to attack another target. They would only need to attack one more round!

However, su Lu had forgotten that his fleet would not be able to maintain its top speed when he was pursuing accurate attacks. This gave ye da an opportunity to attack!

Although the shield of the ancient warship that su Lu was hit on did not break and less than a quarter of its energy was consumed, it was still exhausted!

Ye Daxi seized this opportunity and once again focused all his attacks on it!

Although it did not form a cluster attack, its power was not weak!

One attack had already depleted half of the ancient warship's defensive shield. If it was hit again, it would be completely destroyed!

At the same time, the ancient warship that was attacked by su Lu's fleet retreated again and began to repair its shield with all its might. Another ancient warship blocked its way!

"Eh, these two guys are actually starting to compete with each other. Aren't they afraid that the Sandpiper and clam will fight and the third party will benefit?"

Outside, he Hao's mouth had not stopped talking. He was shocked to see that ye da Xi and su Lu's battle had turned into a melee battle.

When he Hao saw the two fleets meet at ao Tian Harbor, he was almost certain that they would join forces to destroy ao Tian BA's fleet first!

He didn't expect that this was not the case at all. These two crazy guys would actually fight in front of a third party and even enter a war of attrition.

Was this a situation where both sides would suffer losses, and then ao Tianba would take advantage of it?

Or did they think that even if their fleet was destroyed, they could still easily suppress ao Tianba?

If they really thought so, they would be shocked!

He Hao, who had been watching the entire battle from the outside, knew what the advantage of ao Tianba's side was!

When it came to group combat, coordination, and battle formations, ao Tianba was nothing. So far, in the real world, ao Tianba only had one ancient warship and several treasured ships. How could he know those things?

Even if he knew a little, he would not know how to use it!

Chapter 6385 Suddenly Stopped

However, when it came to individual battleships, he Hao did not think that ye da Xi or su Lu, or even the two of them together, could defeat the AO Tian BA fleet!

"Proud Boys, you're all courting death! Don't you know that you won't die if you don't act arrogantly? After we're done with our fleet, we'll see how ao Tianba deals with you!"

"Aiyaya, I thought that the competition would last for a year. I didn't expect it to end so quickly. It's not satisfying at all."

He Hao mumbled to himself, shaking his head. He felt that it was a pity that no one was listening to his analysis.

If ye da Xi and su Lu had not fought first, the battle would most likely have ended in a stalemate. It would have been certain if they had dragged it out until the time was up!

He Hao saw ao Tianba and Lin Yi's movements clearly, and he knew what these two were planning. Entering the enemy's rear and causing trouble was not a bad strategy!

Moreover, with the kid who was a genius at controlling two formations leading the way, it would be difficult for ye da Xi or su Lu to catch him. It would not be difficult to delay the battle until the end.

What a pity, two lunatics actually chose to fight a war of attrition! No one knew how he managed to rank first and second among the 20 fleets!

Ye Daxi and su Lu had no idea how angry he Hao had been. They only knew that they had gone all out, and it did not matter whether they won or lost!

After a long battle, the losses on both sides were basically the same!

Ye was overjoyed that he had lost four ancient warships. Although only one had sunk, the other three had basically lost their combat ability and could only be spectators.

Su Lu didn't fare any better. He had lost three ancient warships! Other than the first ship, he and ye Daxi had basically exchanged one ship for another. They were on the same level, and no one had gained an advantage!

However, as their numbers decreased, ye Daxi was slowly gaining the upper hand!

Firstly, they still had the advantage in numbers. Secondly, after losing four ancient warships, ye Daxi's commanding ability could be displayed more accurately!

As time went on, the mistakes caused by poor coordination were gradually disappearing. The advantage between ye da and su Lu was slowly being pulled back, and the situation was naturally in ye DA's favor.

More importantly, su Lu only had two ancient warships left. The power of the cluster attack was decreasing rapidly, and it was getting more and more difficult to break through the shield!

If not for his speed advantage, he would have been suppressed and unable to fight back!

"Su Lu, why don't we stop here today? If this continues, we'll really end up with both sides suffering. Do you think it'll be more glorious to die with me and let a small fry at the bottom of the rankings win?"

Ye Daxi was extremely annoyed. He felt that he was a little crazy after fighting to this extent. Why did he have to provoke a lunatic like su Lu?

If he had not gained the upper hand, ye da Xi would not have been willing to give up. But now that he had the upper hand, it meant that he had the power to make a choice. People would not think that ye da Xi was afraid, but would instead praise him for being aware of the big picture.

"Both sides are injured? It's still not certain who will be defeated and who will be injured. Do you really think you can defeat me?"

Su Lu refused to give up. However, he felt a little weak in the face of such heavy losses, but he still spoke tough.

If they could defeat ye Daxi, it would be fine. It didn't matter if they fought to the death. But the problem was that if they fought to the death, it would only be ye Daxi's victory. Was it worth it to continue?

"Su Lu, it's fine if you want to continue fighting, but we have to decide who's the winner! But the problem is that you and I are of similar strength. No matter who wins in the end, it will definitely be a Pyrrhic victory. Are you willing to make a wedding dress for someone else?"

"If you don't want to, then get rid of that little minion first! It's your choice, do you want to go or do I want to go? Or they could attack together, and no one would be at a disadvantage! Listen, I'm not cooperating with you, I just don't want to take advantage of you, and I don't want to be taken advantage of by you!"

Ye Daxi wanted to get rid of ao Tianba and Lin Yi first because his fleet had the advantage against su Lu. As long as he got rid of ao Tianba, victory would be within his grasp.

It had to be said that ye Daxi's words had moved su Lu. It seemed to be right to kill the guy who might take advantage of him first and then decide the winner.

Moreover, if they stopped now, at least no one would lose or win, so they wouldn't lose too much face.

"Ye Daxi, why didn't you say that earlier? Alright, let's stop the war and deal with ao Tianba together before we fight!"

Su Lu thought about it for a while and agreed to ye Daxi's suggestion. "You guys attack in that direction, and I'll attack in this direction. Don't get in the way of each other. Let's see who can break the otian port first!"

Even now, su Lu did not forget to compete with ye da Xi. No matter what it was, he wanted to be better than ye da Xi.

"No problem, whatever you say!"

Ye was overjoyed, but he did not mind. If su Lu was willing to go all out to attack the port, that was his business. It would be even better if he lost another ancient warship.

If not for the fact that he was afraid that su Lu's remaining two ancient warships would not be able to break through ao Tian Harbor, ye da would have just stood aside and watched the show!

For now, he was just putting on an act and attracting some firepower for su Lu.

"Lil bro Lin, why did these two guys stop fighting? If this continues, we won't even need to do anything, and they'll play themselves to death. "

Ao Tianba's face was filled with regret. It was not easy to see a naval battle of this level, but it was a pity that he did not get to see the final outcome.

If the two of them could fight to the end, not only would it be a feast for the eyes, but it would also give aotian port real benefits.

"Do you even need to ask? they must feel that their losses are a bit big, and if this continues, we'll get a big bargain! In order to put an end to this possibility, they'll have to kill us first!"

Lin Yi smiled faintly, his tone mocking.

"Previously, they felt that no matter what the final result was, they would have enough power to suppress us! It's a pity that their strength is similar, and they each have their own strengths and weaknesses. In the end, they're fighting like this. If we don't fight, we won't have a chance!"

"They still have five ancient warships left. Can we deal with them?"

Ao Tianba would not have had such doubts before he saw ye da Xi and su Lu's battle, but after witnessing a real team battle, he no longer had such confidence.

"Don't worry, the five ancient warships will definitely not cooperate. Do you still remember how we started?"

Lin Yi's eyes lit up as a mocking smile appeared on his face.

Chapter 6386 The Fake Ten Thousand Mile Formation

"Break them one by one?"

Ao Tianba's eyes lit up. As long as ye da Xi and su Lu didn't attack together, taking them down one by one would be Lin Yi's specialty.

One of them only had three ancient warships, while the other only had two. The port's defense could handle three of them. Furthermore, they had three ancient warships and a large warship to support them. Even from the surface, they had the absolute advantage!

"That's right. Although they didn't fight to the end, the current situation is enough for us. As long as we can kill them in one fell swoop, we'll be able to win the competition!"

Lin Yi clenched his fist. He had to admit that ye da Xi and su Lu's fleet were strong, but he had the advantage now.

"Good! Brother Lin, I'll hold ye Daxi back. You take the ancient warship fleet and get rid of su Lu first!"

Ao Tianba immediately made a decision.

From his perspective, su Lu's attack was stronger, but his defense was weaker. With only two ancient warships, Lin Yi should be able to kill su Lu quickly if he attacked with full force.

When they turned around and concentrated their superior forces to kill ye Daxi, it would be a happy ending!

Lin Yi, however, rejected the idea.

"No! "Brother ao Tian, you will lead the large warship fleet to defend the port against su Lu. They only have two ancient warships, and they are strong in attack but weak in defense. You will have an advantage. I will go and deal with ye da Xi first."

"You're going to deal with ye Daxi? Isn't he more difficult to deal with?"

Ao Tianba was slightly taken aback. Compared to su Lu, ye da Xi's fleet was clearly much stronger in terms of defense!

Plus, the enemy had three ancient warships, and so did Lin Yi's side. They didn't have the advantage in numbers, and it wouldn't be easy to defeat them in a short time.

Ao Tianba felt that Lin Yi's plan was a little lacking, but he trusted Lin Yi out of habit. He didn't argue and followed the plan.

"I only need to deal with ye da Xi. Don't worry about the other two ancient warships."

Ao Tianba didn't ask further, but Lin Yi explained anyway,

"Ye Daxi is an Alliance, and the core is him. As long as we can defeat ye Daxi, his forces will fall into chaos, and no one else will have ye Daxi's prestige! We're all about the same, so who's willing to submit to who?"

"So that's how it is! You're so smart, lil bro Lin!"

Ao Tianba's eyes lit up-he finally understood Lin Yi's intentions!

Even if the remaining two ancient warships didn't care about them after ye Daxi was killed, the sea behind them would be in complete chaos. They would enter an era of heroes again, and Lin Yi only needed to go and harvest them one by one.

And what was Lin Yi's strongest point? A one-on-one battle on the ancient warship!

As long as he fought ye Daxi one-on-one, ao Tianba believed that Lin Yi could take care of the number one vicious.

Thinking about how ye Daxi, who was ranked first, was about to be killed by his own fleet, ao Tianba felt extremely proud!

What else could be more proud of than this? That was to get rid of the first and second place at the same time!

After the discussion, the two of them began to make their own preparations.

Ye da Xi and su Lu did not join forces. Instead, they split into two groups and attacked from two different directions at the port.

Ao Tianba's large fleet took the initiative to meet su Lu's fleet. Inspired by ye SU's previous battle, he also began to command his fleet to focus their attacks!

Large warships were easier to command and control than ancient warships, so the success rate was higher.

Unfortunately, it did not seem to be as easy as he imagined!

The scattered attacks of the large warships were not a threat to the shield of the ancient warships at all!

Su Lu sneered as he charged toward the fleet of large warships. If it were not for the port's strong defense facilities, ao Tianba's fleet would have been destroyed in one blow.

On the other hand, ye da Xi was only trying to feign an attack to attract attention. He did not like to gnaw on tough bones like su Lu. Instead of wasting his energy, he might as well save his strength and continue to teach the arrogant su Lu a lesson.

However, Lin Yi's three ancient warships charged at his fleet, and ye Daxi changed his mind.

'These guys actually chose to fight me head-on. Do they think I'm easier to deal with than su Lu? Truly laughable!"

Ye Daxi laughed coldly. Did the other party think that the name 'needle in a cotton' was just cotton candy?

Under his soft appearance, there was a sharp edge hidden. Anyone who dared to underestimate him, ye da Xi, simply didn't know how to spell the word "death"!

"Everyone, pay attention. Focus your fire on the ancient warship in the lead. The other party is a weak fleet. They don't have any battle formation skills or focus fire skills. It's very easy to deal with them!"

Ye da Xi wasn't looking down on Lin Yi and the others-what he said was the truth, and there wasn't anything wrong with his response!

Of course, that was just a guess under normal circumstances, but Lin Yi's existence meant that this was no normal situation!

"Eh? Ten thousand li formation? Are they trying to escape?"

Before they even attacked, ye da Xi saw the familiar light of Lin Yi's battleship. It was the light of the ten thousand mile formation!

Ye Daxi was confused. Could it be that ao Tianba's ancient battleship knew that he had locked onto it, so it abandoned its companions and chose to escape alone?

Unfortunately, ye Daxi only had three ancient warships left, and he could not use the battle formation to affect the ten thousand li formation!

'Forget it, I'll just run away. It won't be too late to find him after I destroy his lair.'

Ye Daxi had just finished thinking when he suddenly realized that something was wrong!

The ancient warship that used the ten thousand mile formation had appeared behind his flagship!

Behind him?

Was his ten thousand mile formation broken at such a short distance? Or was it that he had encountered a fake ten thousand li formation and was actually only a ten li formation?

There was no time to think. Ye Daxi, who had always been calm, suddenly felt a little panicked!

Facing unknown situation, anyone would be dumbfounded. This was understandable!

But Lin Yi wouldn't give him more time to adjust. The moment he appeared, the Starfall formation was activated at full power. The sky lit up with Starlight, and the bright Galaxy fell!

"You guys continue forward and stall the other two ancient warships!"

Ye Daxi spoke quickly and immediately turned around!

Even though he would have to endure more attacks, he was well aware of the speed of the falling star formation. As long as he could change his direction, he would be able to defeat anyone other than su Lu in terms of combat strength!

However, the other party's ten li formation was not bad. It was somewhat unexpected, directly forming a pincer attack from the front and back, making ye Daxi attack from both sides!

Unfortunately, that was all!

Chapter 6387 Instant Kill In One Move

Just as ye Daxi was thinking about this, the smile on his face suddenly froze.

Was this the attack speed of the falling star formation? It was fine to encounter a fake ten thousand li formation, but how could he encounter a fake falling star formation?

As the river of Starlight continued to fall, ye Daxi's ancient battleship's shield was already making cracking sounds. Not to mention completing the turn, it would be a miracle if it could still withstand the damage while turning halfway!

Lin Yi's hands were no longer visible, but the smile on his face was getting clearer!

He hadn't expected things to go so smoothly. Using the ten thousand li formation to attack ye Daxi's back was just a risky gamble.

If ye da Xi had been more careful and ordered the other two warships to stop and pincer Lin Yi while he continued to move forward, dealing with the two ancient warships in front, Lin Yi's situation might have been more difficult.

But this guy was probably overconfident-not only did he turn around, but he also ordered his comrades to go forward and pin down the other ship!

Therefore, in order to avoid colliding with his companions, he had no choice but to slow down the speed of his turning. This was simply courting death!

If su Lu saw ye da Xi make such a stupid move, he would probably laugh his head off.

"What the hell? what kind of pervert is this?!"

Ye da was overjoyed that his calmness had been completely obliterated. He finally understood why ao Tian BA, who was at the bottom of the rankings, had suddenly become one of the three great forces!

With such a genius who could control two great formations, if he still couldn't become one of the three major forces, he could directly jump into the sea to feed the fish.

If ye da Xi had such a genius, he would have wiped out su Lu's fleet and dominated the world. He would not have been in such a predicament.

"No, it's too late. The protective shield can't last until the turn is complete! Activate the ten thousand li formation and immediately leave the battlefield!"

A rare trace of panic appeared on ye Daxi's face, but he had no other choice. He had to immediately get out of the opponent's attack range.

As the alliance leader of the seven fleets, ye Daxi was very clear about his importance. Once his flagship was destroyed, the Alliance would probably fall apart immediately.

As for the trusted aides he left behind, they didn't have enough prestige to replace him. In the end, they would only be destroyed by su Lu, no, they would most likely be destroyed by ao Tianba!

By then, ye da was overjoyed to find that the AO Tianba fleet was far more threatening than su Lu!

Even if ao Tianba's fleet was not good at team combat, with an expert who could execute a decapitation operation at any time, they were definitely better than su Lu!

"Activate the ten thousand mile formation!"

Ye Daxi had always been very satisfied with the fact that someone would execute the order immediately after receiving it!

But now, he felt that it was far from enough. In the future, he would have to train his subordinates to have the ability to judge the situation on their own. When they found something wrong, they would have to prepare all possible countermeasures in advance.

"Not good! The ten thousand li formation has been interrupted!"

Panicked voices were heard. Even ye Daxi's well-trained trusted aides knew that the situation was not good.

The first-ranked fleet was about to be eliminated. Whether they could get points or not depended on whether the people who stayed could survive to the end. This was already a great humiliation!

Lin Yi's ancient battleship was already close to ye Daxi. Since he decided to make ye Daxi his target, stopping the enemy from using the ten thousand li formation was the first step!

Lin Yi was pretty skilled at it now, so skilled that it was enough for ye da to be in despair!

"How is this possible?!"

Ye was overjoyed and his eyes widened. Could it be that his ancient warship was also a fake ten thousand mile formation? Even though this was an illusionary formation, wasn't the organizer being too irresponsible by using such fake products?

"The shield is broken! The battleship's hull is directly under the attack of the Starfall formation ..."

The report could not go on, and there was no need to continue. At this point, there was no turning back.

"Ao Tian BA! I, ye Daxi, will remember you. I didn't expect you guys to be so powerful. I've lost this time! Next time, let's have a good contest!"

Before the ancient warship was destroyed, ye Daxi finally recovered his usual calmness and finished his sentence with a smile as the flames soared to the sky.

Because he knew that the next battle would not be too long away!

"Beautiful! My brother Lin is amazing, he killed ye da Xi so quickly!"

Otaba, who had been paying attention to the battle, couldn't help but cheer!

He had absolute confidence in Lin Yi, but he didn't expect Lin Yi to finish ye Daxi's head in one move.

Alright, it wasn't exactly a face-to-face encounter, since Lin Yi smacked him in the back without even giving him a chance to face him-that was just too brutal!

Su Lu was focused on attacking, but that did not mean that he did not pay attention to ye da Xi. He was initially furious that he was being looked down on, but when he saw ye da Xi being killed in a flash, his heart turned cold.

Even ye Daxi had been killed so easily. Could su Lu withstand such a terrifying high-speed attack?

It can 't!

To be honest, su Lu was not happy at all when he saw ye da Xi being killed. He had regarded ye da Xi as the strongest opponent in his life. Naturally, he had to kill ye da Xi with his own hands!

And now, he was killed by a nobody? The most important thing was that if that nameless person wanted to, he had full confidence that he could kill him!

"Retreat! Immediately use the ten thousand li formation to retreat!"

Su Lu was a decisive man, and he was not called Gale for nothing. He immediately made the decision to retreat when he realized that the enemy's strength had been severely underestimated.

While the other party's terrifying ancient battleship was still surrounding ye da Xi's two ancient battleships, he had to leave this place immediately. Otherwise, when that fellow turned around, it would be impossible for him to leave even if he wanted to!

He had to admit that su Lu had made a quick decision! But Lin Yi was even faster!

After confirming that he had destroyed ye Daxi's ancient warship, he had activated the ten thousand mile formation and teleported directly to su Lu.

He'd kill ye Daxi and make his Alliance collapse, then kill su Lu and destroy his fleet-this was the plan he'd made long ago!

Compared to ye Daxi's loose Alliance, su Lu's faction was much more difficult to deal with!

Although su Lu was the only leader, there was no other voice within his territory. All the leaders were his trusted aides. Even if su Lu was eliminated, his subordinates could still maintain their power!

So after killing ye Daxi, Lin Yi's plan for su Lu was to wipe out the enemy's fleet!

"What? That guy actually gave up on dealing with ye Daxi's fleet and came to attack me?"

Su Lu was in disbelief as he watched the ancient warship in the distance arrive at the rear of his fleet with a flash of light.

Chapter 6388 The Final Victory!

No matter how fast the wind was, it was still not as fast as lightning!

Lin Yi was going to show su Lu what lightning was!

Without a doubt, the ten thousand miles formation that had just been activated was interrupted by both of them. Lin Yi was getting more and more skilled at smacking bricks from the back. The river of Starlight from the Starfall formation continued to fall, and su Lu was starting to doubt his life.

This guy couldn't be cheating, right?

There must be a loophole in this illusion array disk, right?

Otherwise, how could there be such a fast attack frequency of the falling star formation?

Could it be that the falling star formation I encountered was a fake one, or that the one I used was actually a fake one?

No matter how suspicious he was, su Lu could not find an answer here. His ancient battleship followed in ye Daxi's footsteps and was completely destroyed by the other party's falling star formation.

"Wind! Wind! Gale!"

Even at the moment before it was destroyed, the ancient warship still let out a loud and clear slogan!

Even Lin Yi couldn't help but be touched by su Lu's fighting spirit, and a trace of respect grew in his heart.

It seemed that ye Daxi and su Lu would be the most important people in the following matches!

The other ancient warship in su Lu's fleet saw su Lu's flagship being destroyed and gave up on escaping. It attacked Lin Yi's ancient warship with all its might!

Even if they knew that there was no chance of victory, they still wanted to avenge their leader.

Lin Yi was most afraid that this guy would self-destruct like Gu Yunhao, so when he came over, he told ao Tianba's fleet to retreat and use the port's defense to suppress the enemy.

However, the ancient warship did not have any intention of self-destructing, either because it did not expect it or simply did not care to do so. In any case, until it was completely destroyed, it had no intention of surrendering or self-destructing.

On the other side, ye Daxi's two ancient warships took the chance when Lin Yi left to activate the ten thousand li formation!

Lin Yi didn't really care about their departure from aotian port-it was part of his plan anyway, and he'd find them again sooner or later.

"Brother Lin! Beautifully done! We actually won! That was ye Daxi! That was su Lu! F * ck! We actually managed to kill both of them in one go! Holy shit! This is heaven-defying!"

Ao Tianba came to the ship and hugged Lin Yi, laughing and swearing-it was obvious how excited he was.

"Luck! Our luck is so good that nothing can be said! There's no doubt about our victory this time. Brother ao Tian, let's not celebrate yet. Clean up the battlefield, there are still damaged ancient warships there. Kill the people on it, drag the ship back to the port for repair, and then start the expedition trade!"

Lin Yi smiled faintly. He was happy to be able to kill ye da Xi and su Lu, but he didn't think that he won with his own strength. He just used a trick.

If the two houses didn't fight first, it would be hard for Lin Yi to ambush them with a complete formation!

After all, they all understood battle formations. Not to mention whether they could use the ten thousand li formation to teleport into a battle formation, even if they really did enter a battle formation, that would be an idiotic act of seeking death.

Su Lu's cluster attacks could kill him in two attacks, and ye Daxi would be the same!

So Lin Yi really felt that he didn't really win. To be more precise, he teamed up with them and killed them both.

"See, I told you, these two crazy kids underestimated ao Tianba. See, I wasn't wrong at all, right? The two of them were directly eliminated! It seems like the situation is clear. The winner of the first round is ao Tianba. Whether the remaining guys can get points will depend on whether ao Tianba is willing to give them a chance!"

He Hao shook his head as he spoke. His eyes fell on ye Daxi and su Lu's seats. The two of them had already woken up from the illusion, but their expressions were not too bad.

"Not bad, they didn't suffer too much of a blow, and their hearts have been tempered quite well. They are indeed talents! If they had not underestimated ao Tianba, the winner of this competition would definitely be between the two of them! It's a pity that the disrupter was crowned as the king, but we don't know if the two of them will get any points. "

As he Hao mumbled, time continued to fly by in the illusion formation. Lin Yi and ao Tianba had organized a new fleet and started to attack everywhere!

Now that they were the strongest and had no more opponents, they easily won all the victories along the way.

Knowing that they were no match for the enemy, most of the remaining fleets chose to cooperate. To put it bluntly, they surrendered. However, everyone wanted face, so cooperation sounded better.

Those who were willing to cooperate would hand over their battleships to ao Tianba, and they would only keep their treasured ships. Then, they would be able to trade freely within ao Tianba's sphere of influence. How much special products and funds they could obtain would depend on their abilities.

As for those who were unwilling to cooperate, they would, of course, eliminate them completely to prevent the emergence of a big problem like Gu Yunhao.

In the end, ye Daxi's team of two ancient battleships had tactfully chosen to join ao Tianba's Alliance!

Although they had lost their battleships, they had exchanged them for more treasured ships, so they could naturally obtain more points.

A year passed quickly in the illusory formation. By the time it ended, ao Tianba had already obtained all the ports and naturally, had collected all the special products.

If he didn't know that this was all fake, ao Tianba would really be reluctant to leave this world!

"Alright, the first round of the competition has officially ended. Although only four hours have passed outside, those who have persevered to the end have all gone through a year's time. You've worked hard!"

"I watched from the beginning to the end and discovered many interesting things. If everyone is interested, I can have a good chat with everyone. Oh, oh, there's not enough time, right? Alright, alright. If anyone is interested, you can come and talk to me in private. I'm happy to share my findings with everyone!"

After being reminded by the staff of the Association, he Hao regretfully stopped his plan to give a long speech.

The people below couldn't help but sigh in relief. If they really let this old man continue, God knew how long he could continue!

Not to mention those who had persisted in the illusory array for a year, those who had been eliminated early had been sitting outside for two to four hours. In addition to listening to he Hao's nonsense, they had been sitting outside for almost a day ...

"Hey, there's not enough time anyway. We don't have enough time for the second round of the competition today. Why don't you all listen to me summarize the gains and losses of the first round? it'll be good for everyone!"

He Hao's sudden change of topic gave everyone a huge scare. Was this old man going to talk for the whole night?

Chapter 6389 The Second Round Of The Competition

Wait, is one night enough? A year had passed in the illusionary formation. If he were to talk about several places at the same time, it wouldn't be a year, right?

Everyone shuddered at the thought of this possibility!

Perhaps it would be better to participate in the route distribution meeting next year?

"Ahem, ahem, ahem, that, Vice-President he, why don't we talk about the first round's score situation first, and then talk about the second round's competition situation? it's almost time to start the second round, what do you think? As for the first round of worship, you can write a book and print it out when you're free. I'm sure everyone will read it. "

The staff at the side couldn't stand it anymore, so they braced themselves and came up to persuade him, which received strong support from everyone.

"That's right, that's right. We must definitely buy old he's work as a collection. This is an experience that can't be bought with money! How can you remember so many points of wisdom after hearing it once?"

When someone started to flatter him, he felt like vomiting! But he had no choice. If he continued to listen to the old man's nagging, he would have to swallow the things he had spat out and spit them out again. It was the lesser of two evils!

"Old he, why don't you write a summary of the gains and losses after the conference? we can learn from the excellent experience and learn from the failure. This is a great thing that will benefit us in the future. No one can do it except old he!"

Some people were already preparing for a rainy day. They were afraid that he Hao wouldn't let go of the second and third rounds even if he didn't tell them in the first round, so they might as well ask him to write everything together!

Upon hearing this suggestion, everyone secretly gave a thumbs up. What a far-sighted person! This time, it would be much more peaceful!

Lin Yi pursed his lips. He was just joking, actually.

"Since everyone is so supportive, I'll reluctantly send a few copies to each of you after it's published. I definitely can't let you buy them, so I'll just use them as study materials."

He Hao nodded in satisfaction after listening to the suggestions.

"That can't be! Old he has worked so hard for our sake, how can we let you contribute money and effort while we sit back and enjoy the fruits of your labor?"

"That's right, that's right. How about this, our fleet will cover all the printing costs ..."

"We're here ..."

For a moment, the crowd was in a frenzy. As for whether they really wanted to contribute money and work, it was up to everyone. Anyway, they just didn't give he Hao a chance to speak!

After a while, the staff member who had persuaded he Hao before finally began to announce the points for the first round.

The full score for the first round was ten points, and ao Tianba was the only one with a full score!

The first two fleets that followed him to conquer the world had obtained the second highest score, eight points!

Other than that, none of them had more than five points. Most of them were between three, four, and five points. There were also a few who were all eliminated, but they all had zero points.

From the looks of it, ao Tian BA still had a greater advantage!

As long as they could perform well in the following competitions, they would have a great chance of obtaining a spot. If they were even more outstanding, their chances would be even greater.

"Alright, next is the second round of the competition. This round is relatively much simpler. Everyone only needs to go to a designated place to retrieve an item!"

"The faster you come back, the higher your score will be. If you come back after the time limit, you won't get any points! The scoring rules are based on the time period, so let me give you a brief explanation!"

He Hao seized the opportunity to appear again, and the audience was in a state of mourning ...

"Time is limited. I'm really just giving a simple explanation! If there's anything you don't understand, you can ask me at any time!"

He Hao didn't forget to explain as if he was telling the truth. The crowd wondered if old master he had really changed. Or was it because he was going to publish a book, so his mind began to turn to that?

Then, they realized that they were still too naive. Playing tricks with such an experienced person? I'd better go back and eat a few more bowls of rice first!

After another half an hour, he Hao asked with a smile,"

"Is there anything you don't understand? If there's anything you don't understand, feel free to ask. Don't be polite, this is related to the distribution of the route, we can't be careless!"

He was greeted by 200 cold faces from the 20 fleets below the stage. Everyone did not even want to show the old man a fake smile, for fear that he would be even more excited when he saw it ...

In fact, the second round was very simple. It could be summarized in a few sentences!

"Each fleet will send five people to control a small Swift ship and head to an uninhabited island. They will find an item hidden on the island and return to the starting point.

The time limit was 24 hours, which was two days and two nights. Those who returned in the first 24 hours would get 10 basic points, 1 to 5 additional points. The first place would get 5 points, the second place four points, the third three points, the fourth to fifth two points, the sixth to tenth one point, and no additional points.

Those who returned in the last 24 hours would have a basic score of eight points without any additional points. Two points would be deducted from the last three, and one point would be deducted from the last four to ten. The points were only deducted for those who came back in the last 24 hours. If all of them came back in the first 24 hours, there would be nothing to do after that.

It seemed like there were quite a lot of rules, but was it really necessary to talk about it for an hour?

"It's getting late now. Why don't we continue the second round of the competition after dawn ..."

He Hao looked up at the sky. He felt that it was not appropriate to start the competition at night, so he wanted to come back tomorrow.

The originally cold and indifferent faces of the many participants were immediately stirred up. The public's opinion was boiling, saying that the competition should have started under such harsh conditions, so as to show their strength, and so on.

There were also people who said that the dark night gave them black eyes, so they should use them to find the light and so on. Of course, the person who said this had already been kicked from behind!

There were also people who said that everyone was a person who could earn millions of spiritual jades in a minute, and that the earlier they ended, the earlier they could earn spiritual jades. Those who said this did not escape the fate of being hit in the back.

In any case, everyone's desire to start the competition was the same. The sky had only turned dark not long ago. Wait until tomorrow?

Are you going to listen to old master he's storytelling until dawn?

Please, spare this big guy ...

"Alright, since everyone feels that it's appropriate to start now, let's begin! You're going to an unexplored Sea region. Everyone will receive a limited Sea Map that will guide you to that uninhabited island. "

"There will definitely be Sea Fog along the way, and sea beasts may appear. We may not be able to find an island, and the things on the island are very difficult to find, so everyone must be careful!"

Chapter 6390 The True Purpose Of The Competition

"If you don't come back in twenty-four hours, we'll find your location using the positioning array on the small rapid-speed ship. As long as you're alive, you'll definitely be able to come back. If you're dead, as long as your bodies are still on the ship, we'll definitely bring them back ..."

He Hao seemed to think that the explanation was too simple, so he began to explain more!

The crowd only wanted to turn he Hao into a corpse and send him to the deserted island with a small rapid-speed ship so that they could dig three feet, no, three hundred feet into the ground! Then, he would bury him deep under the ground!

He Hao didn't care what the others were thinking. He continued to blabber unhurriedly, deliberately driving them crazy!

When he finally finished, everyone had a look of despair on their faces!

He felt that the unknown Sea area, the heavy sea Fog, the endless sea beasts, and the missing deserted islands were nothing! Let's hurry up and set off for a wonderful adventure!

"Uh! Everyone, come over here. This dimensional gateway will send you to a beach. There are 20 small fast-speed ships on the beach, and you can just choose one each. The sea Map is on the ship, everyone can see it once they get on board. "

The staff members from before couldn't stand it anymore. They quietly opened the transmission channel that had been set up long ago, indicating that everyone could set off from here.

Everyone couldn't help but secretly give him a thumbs up. Some people even said that if this honest young man was fired by he Hao because of this, they would take him in!

Just because he had risked his life to save them time and time again, he would have to support them for the rest of their lives!

"Please enter the transmission channel according to the order of the first round's results. Don't crowd and fight. Those who fight will be recorded and will be penalized after the second round!"

The honest young man stood in front of the portal with a smile and asked everyone to line up before leaving.

The man who had just wanted to take him in and support him for the rest of his life suddenly changed his mind. This kind of honest young man would better be by he Hao's side. As for other places, he'd better forget it!

Ao Tianba was overjoyed. He did not expect that the results of the first round would give him such a benefit. The first to enter the portal would be the first to choose a ship!

At the very least, he could guarantee that he wouldn't get any defective products, which was very important.

There were five people, and other than Lin Yi and him, Zhang jinmiao and her disciple naturally had to take up a spot as well. Shangguan LAN 'er wouldn't agree otherwise, so ao Tianba could only choose one of his trusted aides who was the most familiar with small express ships.

Seeing ao Tianba's smug look, ye Daxi, su Lu, Gu Yunhao, and the others all stared at him fiercely!

Of course, most of them were staring at Lin Yi and Zhang jinmiao's group. They were probably all wondering who the person playing with the Starfall formation like lightning was.

Lin Yi didn't care about their gazes as he followed ao Tianba into the tunnel.

Light and shadow flickered before their eyes, and the group appeared on a secluded beach.

This beach was not very big, and it was very hidden. It was surrounded by mountain walls, and there was no way to enter or exit. If one wanted to come here, they could only go through the current teleportation array if they wanted to cross the mountains and descend in the valley.

"Fifth brother, go and pick the best small-scale rapid-speed ship. We're relying on this to fight for time!"

As soon as ao Tianba came out, he immediately ordered his trusted aide. After that, he pushed the fifth brother directly to the ships on the beach.

Lin Yi and the others didn't waste any time either-they quickly followed him to the beach, and when they arrived, fifth brother was already checking a small speedboat.

"Captain, let's take this one. It's in good condition. Even if we have a good estimate, there's a limit to it. There's no need to waste time!" Fifth brother was very professional and quickly gave his opinion.

At this moment, the second and third place had already passed through the teleportation. These two were the ones who had followed ao Tianba before. When they saw that ao Tianba was about to board the ship, they greeted him from a distance and quickly found the ship they needed.

After ao Tianba and the others set off quickly, more members of the fleet entered the beach and began to fight for the small rapid-speed ships that they had their eyes on.

There were some conflicts, but everyone knew that time was precious and they didn't want to waste it here. The conflicts were suppressed in a very short time.

Although there was a sequence to entering, there was not much difference.

Some of them had planned to destroy a few of the small rapid-speed ships on the beach to reduce the number of competitors!

However, when he thought about how destroying the small rapid-speed ship would not only waste time, but also cause the last few people who came in to surround and intercept him, which would be a problem whether it was on the way back or on the way out, he gave up the idea.

Ao Tianba and Lin Yi's group were the first to set off, naturally, leaving everyone else behind and gaining the initial lead.

"Brother Lin, take a look at this Sea Map! It seems like it won't be easy to find that Nameless Island!"

Ao Tianba picked up the map and gave it a cursory look before handing it to Lin Yi.

"The route marked on the sea Map isn't a straight line, but a winding snake-like advance. In other words, the area outside of this sea route has danger!"

Lin Yi took the map and saw the problem with one look.

He raised his head and looked at the sea mist floating in front of him. "This kind of danger is mostly caused by the sea fog. It's not easy to find this safe sea route."

In the sea fog, Lin Yi could use his spirit sense to find the direction, but he didn't know if the sea fog would affect his spirit sense. If it was just a small influence, he wouldn't worry, but it would be troublesome if it blocked his spirit sense.

Once they couldn't find the right direction, getting lost in the sea fog wasn't a big deal. The most important thing was that they didn't know what kind of risks there were outside the sea route.

"The first round can be said to be testing the quality of the fleet's trade, combat, cooperation, and other aspects. This second round is testing the sailing ability of each fleet, right? Finding the right route in the harsh sailing environment, surviving steadily, and finally completing the sailing goal is a very important ability for a Fleet Captain. It seems that we still have hope of getting a good result this time!"

Ao Tianba laughed, as if he had seen through the true purpose of the competition!

He knew that he wouldn't be Lin Yi's match even if he was ten times stronger in terms of controlling the ancient warship, but he was confident in his sailing skills.
