

## Bodyguard 6391

### Chapter 6391 The Dangerous Hidden Reef Passage

"Brother ao Tian is right. This is a great opportunity for us. As long as we can get a good result in the second round, the possibility of getting the final spot will be greater! If we can get first place in a row, we'll have a bigger advantage in points!"

Lin Yi smiled. There was no doubt about ao Tianba's sailing ability, and with his support, he had a high chance of getting first place.

If there were only three rounds of competition, as long as there weren't any major mistakes in the end, it was basically equivalent to locking in a navigation quota in the Xuan class Sea area.

Even if there were more than three rounds of competition, they would still have a great advantage of being the first to strike. Compared to other opponents, they would definitely have a much higher chance of obtaining a spot.

As he spoke, the small rapid-speed ship had already charged into the sea fog.

Lin Yi's worry wasn't without reason. The sea fog's effect on spirit sense was terrifying!

With his current divine sense, he could only extend about a hundred feet into the sea fog. If he entered the sea, he couldn't even guarantee a depth of thirty feet!

It was no wonder that it was an unknown Sea area that no one knew about. He had no idea how he Hao's Association had found this place and even found a safe sea route in this Sea area. They would not be able to do this without a few years of exploration!

"The sea fog here is very strange. Everyone, be careful."

Zhang jinmiao's face was serious. She was a master of earth creation completion, after all, and was the Dean of the mystic division's Feiyang school. She had her own specialty in the area of spirit sense training, and although she wasn't as good as Lin Yi, she was confident.

After feeling the sea fog's powerful suppression on her divine sense, Zhang jinmiao understood that this test would not be so easy to complete.

She still didn't know that Lin Yi's spirit and consciousness were stronger than hers, but it didn't matter. A few meters more detection range was meaningless to a small speed ship.

"Master, we can't see anything in front. How do we find the right direction?"

Shangguan LAN 'er was a little dumbfounded. She had seen Sea Fog before, but she had never seen such a thick Sea Fog!

The body of the small rapid-speed ship was not very big, with a width of only two feet. However, standing in the middle of the deck, one could not see the sides of the ship at all.

Zhang jinmiao smiled bitterly and shook her head. She didn't have much experience in sailing, so how would she know how to find the right direction?

"Maintain the lowest speed, find the right course, and then measure the distance at the first bend!"

At the critical moment, ao Tianba ordered his Deputy, Lao Wu, in an extremely calm tone.

"Yes! Captain!"

"Yes," the fifth brother replied in a deep voice. He then controlled the small rapid-speed ship to move forward slowly.

The most important thing about a small rapid-speed ship was its speed. Even if it was reduced to its lowest speed, it was still too fast for the current situation!

Before they could figure out what dangers lay in this sea, such a speed was quite dangerous.

Ao Tianba was also well aware of this, so he quickly paced back and forth on the ship. Because of the sea fog, his figure was like a ghost.

Shangguan LAN 'er knew that the situation was not very good, but she could not help but laugh when she saw this.

"Fortunately, there are devices on the ship to detect the situation of the surrounding sea. If anything is wrong, we can give an early warning."

Ao Tianba was busy for a while before he returned to the group and explained what he was doing with a relaxed smile.

The small rapid-speed Starship itself had the function of a Scout. Other than its slightly faster speed, it was actually more suitable for the current situation.

"Captain, there's a reaction of hidden reefs!"

The fifth brother's eyes lit up. It was good that they found something. Moreover, it was a hidden reef. This was the best comfort.

If they accidentally entered the hidden reefs, the ship would definitely be destroyed. However, as long as they could find the passage in the middle of the hidden reefs, they would be absolutely safe!

No wonder the passage on the map was winding. Now he understood that it was indeed one of the characteristics of a hidden reef passage.

"Very good! Pay attention to the entrance of the passage!" Ao Tianba waved his fist and was in a good mood.

This was a good sign! Once they entered the hidden reef passage, there was hope for them to complete this mission!

In the time it took for an incense stick to burn, the small rapid-speed ship that was scouting along the edge of the hidden reef finally found the entrance to the passage!

If he still couldn't find it, Ao Tianba almost suspected that he had chosen the wrong direction and should have gone the other way.

"Good! I think we're still the first ones to find the tunnel. Fifth brother, don't worry, let's see how wide the tunnel is!"

Ao Tianba was not in a hurry to enter the passage. The distance between the hidden reefs was basically the same, so the width of the middle and the exit was the same as the width of the entrance. Measuring the width first was extremely important for the possible encounters during the voyage and return.

The reef passage where Gu Yunhao had a conflict with could barely accommodate two ancient warships passing by each other. However, not all reef passages were the same. There were also passages that could only accommodate one small rapid-speed ship. He hoped that this was not the case.

"Captain, the measurement results are out. The width of this passage is not large, only about 80 feet. It is enough for a small rapid-speed ship, but because of the fog, if something goes wrong, there is probably no room for adjustment."

Old fifth quickly told everyone the results. It wasn't bad, but it wasn't good either.

"I know! After entering the passage, because of the opposing attributes of the hidden reefs on both sides, the detection equipment will lose its effect. If we are even a little careless, we will lose!"

Ao Tianba wasn't telling Wu what to do, but he was explaining to Lin Yi and the others what was going to happen next.

"Captain, don't worry. I'll do it without any problems!"

The fifth brother patted his thick chest and agreed with a smile.

The small rapid-speed Starship adjusted its direction slightly and slid into the hidden reef passage nimbly. Without the support of the props, old fifth began to rely entirely on his experience to control the small rapid-speed Starship.

Lin Yi, on the other hand, walked to the bow of the ship and extended his spirit sense to the limit.

"Lin Yi, can you see?"

Shangguan LAN 'er came to Lin Yi's side and looked up at him curiously.

"Well, I can see a little. Good eyesight, right?"

Lin Yi smiled and started chatting with her.

Fifth brother's ability was amazing-Lin Yi's spirit sense could clearly see that under his control, the small speedboat was moving ten feet along the right side of the reef as if he could see the edge as well.

"Really? How come I can't see anything? Quick, tell me, what did you see?"

Shangguan LAN 'er really believed Lin Yi's words, and started shaking his arm.

Chapter 6392 Continuously Surpassed

Following Lin Yi out this time was the right decision!

The previous experience in the illusory formation was very interesting, and now it was a treasure hunting game on a deserted island. It was just that the sea fog was a little annoying, and he couldn't see anything, which made him feel bored.

"Actually, it's nothing. It's just seawater. Even if there's no sea Fog, it's usually hard to see hidden reefs. There's only sea in the illusory formation for a year. Close your eyes and imagine it. If there's no sea Fog, it'll be the same as the sea in the illusory formation."

Lin Yi was telling the truth-the ocean was pretty much the same without the fog.

Shangguan LAN 'er lost interest as soon as she heard this. If it was all seawater, there was indeed nothing to see.

Zhang jinmiao also came to the bow of the ship. She also fully spread out her divine sense and paid close attention to the position of the hidden reefs. She couldn't see those that were too far away, but there was no problem with those at the edge.

"Old fifth's control is indeed excellent. If it was someone else, they might have lost their way in this situation and crashed into the hidden reefs."

After Zhang jinmiao observed for a while, she couldn't help but praise.

"That's because he had hidden reefs as a reference. Without a reference, do you think he wouldn't have lost his way?"

Ao Tianba laughed heartily, but he didn't brag to his subordinates.

"The captain is right. Although I can't see the hidden reefs, two hidden reefs with opposite attributes will have a strange fluctuation. People who often pass through the hidden reef passage will feel a faint fluctuation. However, you can't go too fast. If you go too fast, you might have already rushed into the hidden reefs by the time you feel something is wrong. "

The fifth brother had long become familiar with these people. After all, in the one year he had spent in the illusory formation, there were only a few acquaintances, and their relationship was not bad.

"Then, fifth brother, you better slow down. Don't drag us into the ditch!"

Zhang jinmiao made a rare joke and couldn't help but laugh.

With fifth brother's outstanding skills and Lin Yi and Zhang jinmiao's spiritual sense monitoring them, no one was too worried about the journey. It didn't take long for them to reach the first turn.

Because the turn was a little rushed, fifth brother's senses didn't come into effect in time.

Lin Yi wanted to let him get used to it first, but he'd give him a reminder at the last moment. It wasn't too fast, anyway, and there was enough time to react.

However, Zhang jinmiao was one step ahead and warned,"

"There's a curve up ahead. The angle is a Little Big. Be careful not to bump into it!"

"Thank you, Dean Zhang!"

The fifth brother smiled and thanked him, then stopped the small rapid-speed ship completely.

"Have you calculated the distance?"

Ao Tianba turned around and walked back to Lao Wu. He was asking about the proportion of this sea route and the route on the map.

"Yes, I've calculated it. As for whether the ratio is exactly the same, we still need to do the next section of the calculation to verify it."

Fifth brother handed the map with the marked proportion to ao Tianba, then started the small rapid-speed ship again and slowly turned around the corner.

"According to your calculation, the next curve is not far away. Be careful."

Ao Tianba signaled for fifth brother to continue at the lowest speed, and they soon reached the second bend.

"Captain, the scale is correct. The map is very accurate!"

Fifth brother stopped at the next turn with extreme accuracy. This time, he didn't even need Zhang jinmiao to remind him.

"Very good! If the ratio is correct, we can start to speed up. The most important task of this competition is time, and it must be within 24 hours! After 24 hours, the points will be much lower and it will be difficult to pull away from the opponent. "

Ao Tianba laughed heartily. He could almost see the dawn of victory in the second round.

"Understood!" The fifth brother agreed and began to speed up the small rapid-speed Starship.

Of course, he didn't dare to increase his speed too much. After all, if he wanted to sense the hidden reef passages on his left and right, speed was also very important.

Fortunately, Lin Yi and Zhang jinmiao were watching him at the front, so it wasn't a big problem for him to speed up a little. If he deviated from the right track, he could quickly correct it.

Lin Yi had thought that they were the fastest, too-the advantage of being the first to start, their teamwork, and fifth brother's experience and skills were more than enough to maintain that advantage!

However, just halfway through the voyage, a small rapid-speed ship caught up with their ship and then rushed over like a gust of wind.

"Wind! Wind! Gale!"

When they rushed past them, a wave of unified shouts suddenly erupted, giving the highly focused old fifth a shock!

And this was when there were only five people on the other side. If there were more of them, old fifth might really jump into the hidden reef because of the shock.

"Su Lu? This lunatic!"

Ao Tianba could not help but curse under his breath. If it was anyone else who was moving at this speed, he would think that they were looking for death. However, su Lu's speed did not seem to be that difficult to imagine.

Not long after, another small rapid-speed ship passed ao Tianba's fleet. This time, it was ye Daxi's fleet!

After all, he was ranked first. He did have some capable people under him. Although he was slower than su Lu, he had an obvious advantage over the others.

"Captain ao Tian! It was really a small world! I don't have time for you right now. I hope you don't disappoint me too much! Hurry up and catch up!"

Ye Daxi didn't know if he had really seen through the aotian dam, or if he had come to a conclusion after some calculations.

However, since he had already spoken, he must still be very confident. It was just that he didn't make any moves to cause trouble. He was still very gentlemanly.

Although it was dangerous for everyone to fight here, Okita was obviously at a disadvantage as she was closer to the edge.

A small rapid-speed ship was not a ship that could be stabilized. If the fluctuations were too large, it would be pushed away. Whether it was su Lu or ye da Xi, if they had any ill intentions, they could have done something to them when they passed them.

From this, it could be seen that these two guys still had their own pride. Using such a small trick to defeat their opponent was something they disdained.

"Captain ye, don't worry. I, ao Tianba, will definitely take back the advantage of being the first to attack!"

Ao Tianba did not want to be outdone. After he replied, he watched ye Daxi's small rapid-speed ship rush into the thick Sea Fog and disappear.

"These two people really live up to their names. I didn't expect that their speed through the hidden reef passage in the sea fog could reach such a level!"

Lin Yi couldn't help but praise.

Even though he had defeated both of them in the first round, he knew that it was just a fluke! It was impossible to replicate, so he really admired ye da Xi and su Lu.

"Captain, let's accelerate as well!"

The fifth brother's face was red as he shouted loudly.

Chapter 6393 Helping You Speed Up

Although no one could see him in the sea fog, old fifth still felt his face burning, and his voice became somewhat muffled.

He clearly had the advantage of starting first, but in the end, he was continuously surpassed by others. Old fifth's heart immediately felt a little uncomfortable!

Lin Yi and ao Tianba didn't say anything, but was he really going to give up the first place like this?

In order to get this position, he had seen how much effort everyone had put in in the illusory formation and had participated in the entire process. How could old fifth be willing!

"Good! I, ao Tianba, am not a coward. Do they really think that they can beat us just because they are fast? Fifth brother, full speed ahead!"

Ao Tianba was equally heroic. What was there to be afraid of?

Choosing the sea meant that he was destined to be accompanied by danger. If he wanted to be safe, he had to stay at home!

"Yes, sir!"

"Go!" The fifth brother shouted excitedly. He immediately increased the speed of the small rapid-speed battleship to its maximum. The entire battleship suddenly trembled and shot out like an arrow.

Lin Yi smiled and extended his spirit sense out.

At this speed, old fifth felt that it was useless. If he dared to play like this, he most likely wanted to rely on the map's proportion and experience to control the ship. This was no different from closing his eyes!

In order to guarantee victory, Lin Yi used his spirit sense to observe the environment first, in case the fifth brother made a mistake that couldn't be salvaged.

But what surprised Lin Yi was that fifth brother did it perfectly-he just relied on the map to make a reasonable response at every curve!

This was definitely an over-stimulation and then exceeded his level. If he were to do it again later, he probably wouldn't be able to do it even if he was beaten to death.

With such an extreme speed, he soon caught up with ye Daxi, who had just left not long ago!

However, old fifth didn't know this. He completely relied on the sea Map to calculate the route and distance. What appeared on the course was not in his consideration at all.

In order to have more room to maneuver, the fifth brother naturally did not dare to be as close to the edge as before. Instead, he chose a more central position!

It was the same for ye Daxi's small rapid speed ship. If there were no changes, the two small rapid speed ships would have a tragic rear-end collision.

Lin Yi's spirit sense only had a range of ten feet, and he hesitated to warn fifth brother.

After all, ye Daxi's ship wasn't stationary, but was moving at a slower speed. However, fifth brother wasn't in his normal state, and if he broke the ship, the consequences would be hard to predict. Lin Yi didn't want to lose their advantage again.

He didn't greet anyone, and in a flash, he used his lightning escape technique to get onto ye Daxi's small speedboat.

"Who's there? What do you want to do?"

Feeling that someone had boarded the ship, ye Daxi was overjoyed. The people on the ship immediately acted as if they were facing a great enemy and were shocked! Only ye Daxi himself was calm as usual.

"Don't panic. I'll help you increase your speed!"

Lin Yi grinned, but there was probably no one in the sea who could appreciate his big white teeth.

The Super alchemy fire bomb he'd prepared earlier was now in his palm, and using the principle of directional blast, he detonated it in his palm!

However, the direction was not ye Daxi's ship. The other party had not attacked him before, so he was naturally embarrassed to do so.

Lin Yi was at the back of the ship, so ye Daxi's men couldn't attack him immediately. He controlled the explosion of the Super alchemy bomb to move slightly, brushing the sea surface and flying backward!

His feet were firmly nailed to the deck, and with the explosive thrust, he guided ye Daxi's small rapid ship to the side but did not rush into the hidden reefs.

With such a small change, the small rapid-speed Starship controlled by Lao Wu could just rush past the position where ye Daxi's Starship had made way for him without any pause.

"Captain ye, we'll be leaving now. Don't fall too far behind!" Lin Yi waved his hand with a smile. Others might not be able to see it in the sea fog, but ye Daxi's divine sense was locked onto Lin Yi. Naturally, he could see his movements.

"Thank you for your acceleration. I'll pay you back next time!"

Ye Daxi turned around and waved back at Lin Yi with a smile.

The lightning flashed again, but Lin Yi didn't reply. He returned to his boat and continued chasing su Lu.

"Ao Tianba has a lot of talents! That person's strength level just now wasn't high, but he was able to do such an incredible thing. Fortunately, we didn't attack blindly before, otherwise, I'm afraid that both sides would have been injured!"

Ye Daxi said casually with a smile on his face. When he mentioned that both sides had suffered losses, he thought about the battle with su Lu. His biggest mistake had been that battle. Otherwise, he would not have been so passive.

The fifth brother had fallen into a state of absolute calm-he had no idea what Lin Yi had just done, and he didn't know that he almost died with ye Daxi's ship!

The collision of two small rapid-speed ships would definitely end with both of them being destroyed. There was no other possibility.

Zhang jinmiao's spirit sense clearly saw what Lin Yi did, and what surprised her was that Lin Yi had clearly noticed ye Daxi's small rapid speed ship before her!

She only found ye Daxi's ship after Lin Yi had completely deviated from the course of the other party. Could it be that Lin Yi's spirit sense was above hers?

Zhang jinmiao was suspicious, but she was smart enough not to ask Lin Yi. No matter what, the stronger Lin Yi was, the better it was for the school!

Everyone had their own secrets, and she didn't want to pry into Lin Yi's secrets. However, when the time was right, she had to remind him not to be too flamboyant.

Mystic class Sea area was different from golden class Sea area-they paid more attention to the cultivation of spirit sense. With Lin Yi's current strength, it would definitely cause a huge commotion if he had a spirit stronger than hers!

By then, the entire Feiyang college might not be able to fight against those who had their eyes on him. Before he became truly powerful, he had to hide his strength well.

Lin Yi, on the other hand, didn't think too much about it. He'd been keeping a low profile all this while, and those who knew about his spirit were basically people he trusted. Ao Tianba and Zhang Jinmiao were considered people he could trust as well.

Besides, no one would find it strange if they did not pay attention to such a small detail. It was only when Zhang Jinmiao was using her divine sense to observe the surroundings that she noticed something was wrong.

"Brother Ao Tian, is Lao Wu alright? There's something wrong with this situation!"

Lin Yi whispered to Ao Tianba after returning.

"It's fine. Lao Wu's skills have always been good. He's considered a first-class master. As long as he can catch up to Su Lu and pass through the hidden reef passage successfully, his abilities will be upgraded to another level. He'll be a top-tier master!"

Chapter 6394 Being Attacked By An Electric Eel

"If you can't pass, then just keep it the same. There's no possibility of improvement in the future."

Ao Tianba shrugged his shoulders and looked unconcerned. No one knew if he really didn't care about his fifth brother's promotion.

After the two of them chatted for a while, they stopped because there were violent battle fluctuations in front of them. Even through the thick Sea Fog, they could easily feel the intensity of the battle.

"Su Lu?"

Ao Tianba was a little confused. Su Lu's family was the only one ahead of them. If they had not surpassed ye Daxi, they might have thought that the two of them were fighting again. However, ye Daxi was clearly behind them. Who was su Lu fighting?

A sea beast?

"Fifth brother! Quickly slow down!"

He didn't care if he would have another chance to improve after interrupting his fifth brother. Ao Tianba decisively went up and slapped his fifth brother awake.

"Captain, what's wrong?"

Old fifth was obviously still a little dazed, his mind still focused on calculating the route and distance on the map. However, it was clear that old fifth's psychological quality was still very strong. He was suddenly awakened, but he did not rush into the hidden reefs because of a mistake.

"There's a battle up ahead. It's very intense!"

Ao Tianba said a few simple words and hurried to the bow to check the situation.

The fifth brother trembled slightly. Of course he understood what this meant!

A fierce battle could easily cause chaos on the hidden reefs. The originally stable passage might become chaotic because those waves would affect the magnetic field between the two hidden reefs.

Even if it returned to peace in the end, the previous passage would change because of it. In other words, the route on the map would lose its reference value. The more serious possibility was that the passage would be cut off here and become two new passages that were completely unrelated.

"Fifth brother, move slowly at the lowest speed. Let's go ahead and see what's going on. If we find something wrong, we'll turn around and leave immediately!"

Lin Yi raised his voice and ordered. At this stage, his own safety was the most important. If he lost the small rapid speed ship, it would mean that he would lose the possibility of getting points this round.

"Understood!" The fifth brother agreed and quickly lowered his speed to the lowest, slowly moving forward.

During this process, Lin Yi tried to send the Pearl Xiao Yan gave him into the sea to ask if Xiao Yan knew where he was. If there really were sea beasts in front of him, he might be able to get rid of them without a fight.

He didn't think that there would be no reaction after Xiao Yan's Pearl was sent into the sea. Lin Yi was shocked. Was this sea not connected to the outside world?

Or was there some kind of restriction in this Sea area that caused it to be sealed?

No matter what the reason was, Lin Yi could only rely on himself now that he couldn't borrow Xiao Yi's strength!

He had scattered the little spirit beasts around the venue in torrent city, so he didn't bring them with him. Otherwise, he could have sent one over to take a look. These little things could move on land and on the sea, except for the fact that they couldn't fly.

"It's right in front! Everyone, be careful!"

The shockwaves from the battle were getting more and more obvious-Lin Yi's warning wasn't necessary, since everyone could feel it.

A small rapid-speed ship shot back from the front. Fortunately, the fifth brother had returned to the state of moving close to the side. Otherwise, it was hard to say whether he could have avoided the impact.

"It's Su Lu's ship!" Ao Tianba was slightly surprised, and he immediately shouted, ""Captain su LUSU? What's happening up ahead?"

"Hmph! Ao Tian BA? I didn't expect you guys to be so fast and catch up to me. I thought that ye Daxi, that hypocrite, would come first. "

Su Lu didn't answer. Instead, he harrumphed coldly and said some irrelevant things. It was clear that he didn't like ao Tianba.

"Captain su, do you like to see Captain ye Daxi? No problem, he's not far behind. I'll pass on your message to him!"

Lin Yi smiled-he couldn't be too polite to people like this.

As expected, su Lu was slightly stunned. He wanted to say,"who the hell likes to see ye da Xi?" However, he felt that this seemed to weaken his momentum!

"I don't have time to talk nonsense with you. There's a groundbreaking lightning eel in front of us, which is very difficult to deal with. If we had a warship, it would be easy to deal with. Unfortunately, we have a small fast ship behind us, so it will be a little difficult to deal with the lightning eel in the sea." Don't get in the way and get as far away as you can to avoid being accidentally injured!" Su Lu would never say anything like "we'll work together". That was ye da Xi's style. His style was to charge forward, charge forward, charge forward!

"Wind! Wind! Wind!"

Although there were only a few of them, their aura was not weak at all. They were indeed a group of lunatics!

The small Swift ship stopped for a moment before it charged forward again. Although it was just a small ship, su Lu managed to make it look like a battleship charging forward.

"I'll go help. You guys stay here and don't move!"

Lin Yi used his lightning escape and flashed onto su Lu's ship, leaving ao Tianba and the others behind. They didn't know if they should go forward to help or just stay put.

"Does Lin Yi think that he's stronger than the two of us?"

Zhang jinmiao did admire Lin Yi, but the kid's actions made it seem like he thought that she was the strongest here. Did he make a mistake?

Lin Yi's spirit sense was indeed stronger than Zhang jinmiao 's, but that was all! In terms of true strength, was there any comparison between the great circle of black Ascension and the great circle of earth splitting? How should the middle consummate level of the mountain-splitting realm deal with himself?

"Haha ... That, younger brother Lin has a lightning spiritual root, and his lightning-type martial arts are quite powerful. Perhaps he thinks that he's more suitable to deal with a sea beast like the lightning eel. If we go over, we'll be easily restrained by the lightning eel. After all, this is in the sea, and the strength of sea beasts will be enhanced."

It wasn't easy at all for ao Tianba to find an excuse for Lin Yi.

While they were talking, there was an uproar on su Lu's ship. Someone who was not on their side had suddenly appeared on their ship, and he was behind them. It would be strange if he did not have any thoughts about it!

"Who are you? how did you get up here?"

One of su Lu's men yelled and was about to attack Lin Yi.

Focus, let's deal with the electric eel first!"

Su Lu didn't care about Lin Yi at all and scolded his underling. Compared to dealing with the electric eel, Lin Yi's arrival was nothing.

"Yes! Boss!"

The guy replied immediately and turned around, ignoring Lin Yi as if he didn't care if Lin Yi stabbed him with a knife.

A slender silver-gray lightning eel suddenly shot out of the sea. Countless tiny lightning arcs were wrapped around its smooth body. When it saw su Lu's ship coming at it again, it immediately opened its mouth and let out a sharp hiss. What followed was a thick lightning arc.

Chapter 6395 Attracting Lightning

"Wind! Wind! Wind!"

Under su Lu's lead, the five of them roared in unison again, and a faint light lit up on their bodies at the same time. Lin Yi knew that it was the way the battle formations were connected.

He could even command the ancient warship flawlessly. A battle formation of five people was as simple and natural as eating and drinking to su Lu.

When the lightning arc flashed, su Lu raised his hands above his head. A long saber as thin as a cicada's wing suddenly appeared in his hands. With a faint glow, he gathered all the power of the battle formation and slashed down!

What kind of sharp blade was this!

The thick lightning arc was directly cut in half when it met the blade light, but the blade light's power did not decrease. It continued to cut toward the source of the lightning arc, the silver-white Lightning eel.

"So powerful! Compared to su Lu, Leng rufeng's saber technique paled in comparison! Perhaps when windswept grows to su Lu's level, his Saber Force will be even more powerful. "

Lin Yi exclaimed in his heart. He had a new understanding of su Lu's strength.

This guy's strength was probably around the peak of the late stage of earth creation. With the addition of the battle formation, it would be greatly improved!

This was related to the strength and number of people in the battle formation. It was difficult to judge the details. For example, the battle formation of five people had increased su Lu's strength by about 50%. It should be enough to deal with the electric eel.

The silver-gray electric eel twisted its body nimbly. After it dodged su Lu's blade, it released another lightning arc. The lightning arc that had been split apart did not disappear. Although it fell to the sides, the waves from the explosion still disturbed the calm of the sea. The hidden reefs on both sides seemed to be stirring.

"Captain su, you can't do this. After you kill the electric eel, we can forget about passing through this passage. Do you want everyone to fail the second round? We're fine with it, but are you sure you're fine?"

Lin Yi could tell that su Lu had the upper hand, so he didn't rush to attack. Instead, he made sarcastic remarks.

The small rapid-speed Starship was affected and was once again pushed back by the lightning!

However, while Gale Sulu's men formed a battle formation, they could also split their attention to control the small rapid-speed battleships. It was an extremely powerful ability, and it was no wonder that Gale Sulu was one of Gale Sulu's four most trusted subordinates.

"You're the one controlling the ten thousand mile formation and the falling star formation, right?"

The long saber in su Lu's hand disappeared again. He would probably only use it when he was about to attack. He wondered if it would be more powerful.

"Hey, aren't you in the middle of a battle? Is it okay to be so distracted?"

After the electric eel fell into the sea, it turned into a bolt of lightning and swam quickly, reaching the bottom of the small frigate in an instant. Lin Yi was worried for su Lu, but the eel didn't seem to be worried.

"It seems that it's you! Don't worry, I won't do anything to you now. You're so weak, and I'll only bring shame to my name if I do anything to you. When this is over, I want you to fight me again with the ancient warship!"

Su Lu didn't care about the electric eel at all and asked Lin Yi for a fight with great enthusiasm.

Lin Yi didn't want to continue the conversation anymore-it was like a chicken talking to a duck. Everyone was talking their own things, and it was best to just ignore this lunatic.

"I'll help you draw the lightning away. You pay attention to the timing and kill the lightning eel as soon as possible so that we can continue our competition. Otherwise, the people behind us will catch up!"

Lin Yi didn't expect su Lu to listen to him much-he just wanted to get rid of the electric eel as soon as possible.

The time that old fifth had fought so hard to get could not be wasted just like that. If su Lu wanted to go crazy, he could just let him continue!

"You're right, it's better to continue the competition as soon as possible!"

Su Lu nodded in agreement with Lin Yi, which surprised him. Why didn't he go crazy?

"Let's end this as soon as possible," su Lu continued. "We can use the ancient warship to fight earlier!"

Alright, he was still crazy. What kind of medicine did he take that he would think that su Lu would be normal? Quickly finish up and stay away from him!

The electric eel didn't care if the people on top were chatting or bickering. It keenly grasped the weakness of the small rapid-speed ship and suddenly released a super high lightning attack under the hull.

Not only could it attack su Lu and the others directly, but it could also destroy the hull of the ship. Once the human cultivators fell into the sea, they would only end up as its food.

Countless lightning arcs shot up into the sky, enveloping the entire ship. If Lin Yi didn't come, su Lu and the others might not be able to withstand it, but the ship probably wouldn't be able to.

Fortunately, Lin Yi was here, and his lightning escape technique was at the second level. If he was only at the first level, he wouldn't be able to do anything.

The moment the lightning arc exploded, Lin Yi's body suddenly disappeared in the lightning!

All the lightning arcs were flashing continuously. Although they still covered the entire small rapid-speed ship, one could see that not a single lightning arc had actually landed on the small rapid-speed ship.

In the end, countless lightning bolts were concentrated on the top of the small rapid speed ship, and he took it straight into the sky!

The strong power of the lightning even pierced a gap in the thick Sea Fog. Just as it was about to close up again, another lightning arc descended from the sky and landed on su Lu's small rapid-speed ship.

Everything happened in the blink of an eye. It was not a problem to describe it as a flash. Even su Lu was a little stunned, let alone the other four.

"The electric eel released all its lightning reserves in an instant. Shouldn't you take the opportunity to kill it?"

Lin Yi looked at su Lu, speechless.

It was Gale su Lu! Where's Gale? This was driving him crazy!

"Ah? That's right, kill the lightning eel! Wind! Gale!"

Su Lu came back to his senses and felt a little ashamed. He had embarrassed himself today. He actually needed someone to remind him what to do.

The other four also woke up and hurriedly echoed, "wind, wind, Gale!" However, it didn't sound as imposing as before, and it sounded very perfunctory.

Su Lu felt that he hadn't reached the limit of his embarrassment yet. How was he going to fight Lin Yi on the ancient battleship if his subordinates were helping him?

Fortunately, his subordinates were all su Lu's elites. Even though they had not fully recovered from the lightning, they had instinctively completed their tasks.

The small speed ship drew an arc nimbly, revealing the lightning eel below!

This guy was also confused by the sudden change. What happened to destroying the ship and eating the people? Why was it that after releasing all the power of lightning, it was like releasing a fart in the end, and nothing happened?

Chapter 6396 Searching The Island

Before the electric eel could figure it out, su Lu, who was already a little angry from embarrassment, gathered all his anger, resentment, and shame into the long knife that had reappeared, and slashed at the electric eel that had just appeared!

The blade that was as light as the wind streaked across the surface of the sea with a faint blade light. It was like a seabird flitting across the waves, leaving behind only a faint afterimage.

The electric eel, which had overexerted itself and had yet to recover, became su Lu's target to vent his anger. It was easily killed by su Lu's blade.

He died ... In such an unjust way!

Lin Yi's eyes lit up as he picked up the electric eel's body and put it in his storage bag.

"I'm so tired just now. I saved all of your lives. I'll have these eels as dinner to fill my stomach. Captain su, you don't have any objections, right?"

Lin Yi didn't really care about the body of an earth formation stage beast, but it was rare to see a beast with lightning abilities. He decided to take it back and study it-at least the inner core could be used to make elixirs.

Su Lu was the one who killed the electric eel, but it was hard to say who would've been killed if Lin Yi wasn't there. It was only right for him to get some loot.

"I want to fight you with the ancient warship!"

Su Lu's mouth twitched. He decided to ignore the fact that Lin Yi was stealing the loot. It was more important to settle the duel now.

"I knew Captain su was a good man. He wouldn't care about this eel. See you later!"

Lin Yi smiled faintly. Since he couldn't communicate with her normally, he'd just keep talking to her.

I'll see if you can still talk properly in the future!

'But then again, mad su Lu sounds more pleasant. I'll just call him that in the future!'

Su Lu's face darkened. 'Why is this kid so difficult to communicate with?' Don't you understand human language?

The sea mist that had been forced back by the lightning closed up again, and Lin Yi disappeared into the sea mist. He had no choice but to wait until the competition was over.

Lin Yi was in a good mood when he got back to his boat, but he soon realized that ye da Xi was following them, and was within ten feet of them. If they didn't leave now, they would lose their advantage.

From the sea Map, he could see that the destination of the passage was already in front of him. Just a little more and he would be able to reach the island.

"Fifth brother, let's go. The sea beast in front of us has been killed by su Lu, and the chaotic hidden reefs in the tunnel have mostly dispersed. This is our chance."

Lin Yi didn't go into the details about the electric eel, since he didn't have time to do so. He told Wu to leave immediately after seeing ye Daxi.

The remaining distance was not far, and there was no need to let old fifth continue to go at full speed. It was enough to go at a similar speed. Old fifth agreed and immediately started the small rapid-speed ship.

To him, Lin Yi's orders were as effective as ao Tianba 'S. He was the honorary vice-captain of the ancient ship, and the captain himself would listen to the vice-captain a lot of times. Naturally, he wouldn't have any objections.

Lin Yi didn't know that Zhang jinmiao volunteered to use her spirit sense to Scout the way, but he thought that she was doing it to protect him. He didn't try to fight for it since he thought it was a rare opportunity for her to help.

In any case, Zhang jinmiao's divine sense was enough for the fifth brother.

Su Lu didn't get Lin Yi's permission, and he wasn't going to just wait there like an idiot. Gale su Lu was a man of efficiency, and so as soon as Lin Yi left, his mini-frigate set off again.

The remaining hidden reefs in the tunnel were not enough to pose a threat. Su Lu only had to pay a little attention to them before he could pass through the area easily.

Lin Yi and ao Tianba's ship followed closely behind, and ye Daxi followed. The three of them were almost at the same time, so they arrived at the island.

"Eh? The sea fog was gone! There's no sea Fog on this Island, it's amazing!"

Shangguan LAN 'er was the first to cheer. After sailing in the sea fog for two to three hours, she had long been bored. Now that she saw the beautiful scenery on the island, her mood immediately became better.

"This Island is a little strange. The sea fog seems to have been blocked outside. Everyone, pay attention to your safety and don't let any accidents happen."

Ao Tianba turned around and said to the others. Then, he saw ye da Xi and su Lu on the shore.

Without further ado, ao Tianba and Lin Yi jumped onto the shore, and Shangguan LAN 'er followed. Zhang jinmiao, on the other hand, didn't move.

"Lin Yi, you guys go. I'll stay here to guard the ship in case anyone tries to destroy it. This is something we need to go back, we can't lose it. Fifth brother, you should go as well. I'll be fine here. "

Zhang jinmiao saw that su Lu and ye Daxi had left one person behind to look after the small rapid-speed ship, so she volunteered to stay.

No matter who wanted to destroy or snatch the small rapid-speed ship, Zhang jinmiao's presence basically guaranteed the safety of the small rapid-speed ship.

"Alright, then I'll leave this to you, director Zhang!"

Ao Tianba and Lin Yi were both decisive people-they were all strong men, and it wasn't a problem for Zhang jinmiao to follow them. It was safer for them to stay behind to protect the small frigate.

Ye da Xi and su Lu had already entered the forest on the island. The few of them did not dare to waste any more time. After they hurriedly beckoned to Zhang jinmiao, they chased after the two families across the beach and into the forest.

"Fifth brother, tell me about the characteristics of the thing you're looking for on the map."

Ao Tianba searched around as he ran, trying to find a chance to get lucky and find what he needed.

"A black oval-shaped object the size of a human head. It is extremely hard and can not be damaged by a normal original infant stage cultivator's full-force attack. It weighs about 15 kilograms and has a weak spiritual energy fluctuation. That's it!"

Old fifth did not look at the sea Map. He had long since imprinted everything on it in his mind, naturally including these few simple descriptions.

"Why does it sound like an egg of something? Lil bro Lin, don't you think so?"

Ao Tianba turned back to Lin Yi, confused.

Ye da Xi and su Lu had disappeared from their sight, but Lin Yi's spirit sense could still lock onto them.

On this Island, there was almost no suppression of spirit sense, and Lin Yi could easily cover the entire Island. Unfortunately, he didn't find the egg-like thing ...

Obviously, this thing was either hidden in a place that could block divine sense, or it had the function of blocking divine sense itself!

Either way, Lin Yi was pissed off.

"If you say so, it does look like it. Why don't we look in those caves? Perhaps there are some spirit beasts on this Island, and this thing is in its nest. "

Lin Yi couldn't find the item, but he did find a few caves.

#### Chapter 6397 The Fight Begins

"Lin Yi, Lil" bro, are you trying to say that the black oval thing is actually a spirit beast's egg? What you've said does make some sense. Let's go look for the spiritual beast egg then!"

Shangguan LAN 'er was very interested in this explanation, and immediately pulled Lin Yi to find the spirit beast egg.

Perhaps after it hatched, it could even be Curly bear's companion. Of course, that would have to wait until they returned to the North Island.

"Alright, in that case, let's go and look for the caves of the spirit beasts on the island!"

Ao Tian BA was also fine with it. Since they had no direction now, it was the same no matter where they looked. Since Shangguan LAN 'er had asked, he had to give her face.

Moreover, he was the one who mentioned the egg-like thing, so what else was there to say? Let's hurry and find a cave.

"Let's go this way. There's a mountain peak there, and there are more caves for spirit beasts. "

Lin Yi said, pointing at the peak above the tree.

He had already used his spiritual awareness to look around. That mountain peak had the most caves, three in total, but he didn't find any traces of spirit beast activity.

To be exact, Lin Yi didn't find any signs of spirit beasts on the entire Island. There were only some normal small animals, and he didn't know what was going on.

In terms of spiritual energy, the spiritual energy on this deserted island was quite abundant. At least, it was not worse than the ordinary places in the yellow-class Sea area of the East continent. It should be very suitable for the survival of spirit beasts.

Lin Yi pointed out the direction, and the group naturally didn't have any objections. The group quickly flew towards the peak.

"Brother Lin, I don't think it's right for us to search like this. If the four of us act together, the area and scope of the search will be much smaller. Why don't we split up? you and miss Shangguan will go to the mountain to find the cave of the spirit beast, and I will continue to search in the forest with fifth brother. Maybe that thing is in some tree hole?"

After a few steps, ao Tianba suddenly stopped.

"Yes, yes, yes. The captain is right. It's too much of a waste of time for us to act together. It's better to search separately. It will be more efficient!" Old

Five immediately nodded in agreement. The captain had good eyes. The couple was on a treasure hunt, and it was indeed inappropriate for the two of them to follow them!

Shangguan LAN 'er did not think of this. Hearing that Ao Tianba's words made sense, she immediately nodded and smiled,

"Alright, then leave the cave on the mountain to us! Let's see who finds the item first!"

Lin Yi smiled and didn't say anything. It didn't seem dangerous here, so it didn't matter if they separated.

Most importantly, his divine sense could cover the entire Island. Even if there was an emergency, the Thunder escape technique and ghost speed wings could ensure that he could provide support at the first moment.

With that, the four split up. Ao Tianba and Wu were in charge of one direction, while Lin Yi and Shangguan LAN 'er moved together. After splitting into three, their efficiency naturally increased.

At this time, the fleet members behind had also arrived at the deserted island one after another. Everyone was a member of the 20 elite fleets, so it was not too difficult to pass through the hidden reef passage. The real competition had officially begun at this time.

"No, there's nothing in this cave. Let's go to the next cave."

Shangguan LAN 'er pulled Lin Yi and ran out of the first cave. There were no signs of spirit beasts inside, but there was a lot of dust. Although the two could use their Qi to block out the dust, Shangguan LAN' er still felt that she was covered in dust.

"Hmm, let's continue searching. I don't think it's that easy. Otherwise, why would we need 24 hours? If we find it now and rush back, six or seven hours should be enough. "

Lin Yi smiled faintly-he didn't really mind that he didn't find anything.

What he was concerned about was why this cave, which had nothing in it, could block his spiritual sense detection.

He could discover this cave, but his spiritual sense couldn't penetrate it. It was really strange.

Lin Yi had observed the place carefully before, and there weren't any restrictions or formations here. A natural cave that could block his spirit sense was all the more mysterious.

Nothing changed even after Lin Yi asked the ghostly thing to come out. The ghostly thing also said that there were no formations or restrictions here.

"Lin Yi, Lil" bro, hurry up! We're in a hurry, be serious!"

Shangguan LAN 'er saw that Lin Yi was a little distracted, and immediately pouted as she glared at him.

"Oh, that's right, little Senior Sister is right, let's hurry up and find something!"

Lin Yi admitted his mistake with a smile. He decided to put the cave aside for now since he couldn't tell anything about it. He'd better finish the mission and leave as soon as possible.

If he had the opportunity to come to this place again in the future, he would study the mysteries of these immortal's caves.

When Lin Yi and Shangguan LAN 'er arrived at the second cave, they found that the situation was the same as the first one. But that wasn't important, the second round of the competition had officially begun.

In the forest at the foot of the mountain, people from different fleets had started fighting. Lin Yi's divine sense had been watching everyone's movements, so he knew exactly what happened. Someone had found the mission item!

To Lin Yi's surprise, the thing they were fighting for wasn't the black oval-shaped object he was looking for, or simply called black egg!

It seemed that not all ships had the same mission goal, but were divided into many types!

He didn't know the exact number. After all, there were still a few teams that hadn't arrived on the island. But he was sure that it shouldn't be 20!

After all, there were already people fighting for it, which meant that they needed the same thing.

"A glazed leaf, the size of an adult man's palm, shaped like a Pentagon, with golden veins. The texture is like warm Jade, and it is difficult for an Aurous core stage cultivator to damage it."

This was the information Lin Yi got from the people who were fighting over it! They had actually found such a rare dead leaf. Their luck was quite amazing!

However, it was not entirely true that they were lucky!

If he was really lucky, he should have found it secretly and left the forest as soon as possible without anyone noticing. Then, he might have been able to get first place in the competition.

In the current situation, they were discovered by luck, but not taken away by luck. The result of the intense competition between the two sides was that it attracted everyone's attention.

Regardless of whether they needed the dead leaf or not, they would come and interfere first.

Even if it wasn't what he wanted, he couldn't let them take it away so easily! This was because everyone wanted to get the first place, but they were unwilling to let their opponents get it. This meant that the gap between everyone would be widened.

He would rather not find his own things first than delay the person who found it for 24 hours!

When the time came, it would be useless even if you were first. After the time was up, everyone would get eight points. As long as you made sure that the last few would not be penalized, it would be fine.

Chapter 6398 Hidden Rules

"Eh, Lin Yi, the forest down there is so lively, is there a fight?"

Shangguan LAN 'er was also attracted by the battle at the foot of the mountain. She immediately stretched her neck and looked down,""Let's hurry down. Otherwise, ao Tianba and Lao Wu will be at a disadvantage if they're alone!"

"Alright, let's go down then!"

Lin Yi couldn't argue with that-it was the truth.

Although ao Tianba and Lao Wu had not found anything yet, those people would still be a little afraid of ao Tianba. However, when they saw Lao Wu alone, they had nothing to say. They would just kill him.

There were already people with bad intentions who had their eyes on the lone fifth brother, so Lin Yi decided to bring Shangguan LAN 'er down the mountain immediately.

"Lin Yi, Lil" bro, why do you think they're fighting? Did you find black egg?"

Shangguan LAN 'er didn't like the black oval-shaped object and the long list of names, directly using black egg to represent their mission goal. Lin Yi thought that it was very appropriate.

It was a pity that these people were not fighting for black egg, but for the glazed leaves. He did not know what they were for.

"It's not the black egg, it's another type of mission item. It seems that if we want to get the black egg, there will be a lot of resistance. Because no one will watch others succeed and they will fail, so their counterattack will be very fierce."

Lin Yi explained simply, but he immediately thought of another possibility.

"Another mission item? If we manage to get it, can we use it to complete the mission?"

Shangguan LAN 'er was simple-minded and asked casually when she thought of this possibility.

Lin Yi thought of the same possibility, but it was more complicated. If there were different mission items, how did the committee decide if the person who returned got the right one?

What would happen if he took the wrong quest item? No points!

He Hao talked for a long time and didn't seem to have mentioned it explicitly, but he had hinted at it, but no one cared.

In everyone's hearts, if they couldn't get the quest item, how could they return? When he returned, it would definitely be because he had not completed the quest, not because he had not obtained the quest item.

But now, there was a possibility that if he took the wrong one, it would be equivalent to not getting the task item he needed!

"I'm afraid it's not that simple! How did everyone know what he needed? Sea Map! Every map has a description of the quest item, so after obtaining the item, there must be a corresponding map to prove that the item is correct!"

Lin Yi's mind was suddenly enlightened-this wasn't something that was hard to guess, and he could get the answer with just a little Association.

"In that case, if we want to snatch something, we'll have to snatch the sea Map from them as well?"

Shangguan LAN 'er's interest was immediately piqued. This trip with Lin Yi was an adventure, and of course, the more chaotic it was, the more exciting it would be. As long as it didn't cost anyone's life, it was an extremely interesting game to her.

"In addition to the sea Map, I'm afraid we'll have to Rob the ship they came with! Those guys are really cunning. The hidden rules are clearly telling us. Who are they trying to scam?"

Lin Yi smiled faintly, feeling the satisfaction of having everything under control after seeing through everything.

The sea Map was equipped on every small rapid-speed ship. The assembly had probably already completed the registration of which Sea Map each ship corresponded to and what items they needed to find!

Only if all three items were correct would it be the correct way to complete the mission. The items would correspond to the sea Map, but if the small rapid speed ship was wrong, it would still fail in the end!

They had also considered the possibility of small rapid-speed ships or sea maps being damaged in battle, so they had arranged for ships and fleets that needed the same items. In addition to increasing the competition, they had also given more correct routes!

It didn't matter if one of the small rapid-speed ships was damaged. There was another one or two that were the correct answer. No matter what, it wouldn't cause people to lose hope at once.

After understanding this, Lin Yi immediately made a decision!

It was better not to look for black egg. Since the glazed leaf had appeared, he might as well grab the leaf, the sea Map, and the small rapid-speed ship. After he was done, he would go back and grab the first place. Everyone was competing with each other, and he could not be soft-hearted!

At this rate, Lin Yi was starting to doubt how many teams would be able to complete the test. I'm afraid that at least half of the people will not be able to get a score, right?

Thinking about it carefully, perhaps the convention wanted to use this method to speed up the polarization of points, and then directly eliminate a group of people, simplify the situation, and choose the best among the best in preparation for the next competition.

"Let's go, we'll meet up with brother ao Tian and the fifth brother!"

Lin Yi didn't explain everything to Shangguan LAN 'er. First, he didn't have the time, and second, he didn't need to. The mission was the most important.

As he spoke, Lin Yi realized that five was ambushed, and it was three against one!

He immediately reached out to hold Shangguan LAN 'er, spread his ghost speed wings, and rushed to the position of the fifth brother like a meteor.

Shangguan LAN 'er was still a little embarrassed when Lin Yi suddenly hugged her, and in the next second, she flew up at an unbelievable speed!

Before she could react, the two of them had already appeared beside old fifth, and the three people who ambushed old fifth were attacking from three directions.

These three weren't in their sect-opening stages yet, and their strength was similar to fifth brother 's, as well as Lin Yi's strength level on the surface. However, their combat strength was nothing to Lin Yi!

He didn't even need to release his arm around Shangguan LAN 'er's waist, and just lifted his leg to sweep her.

Wild fire thousand legs!

Countless flaming leg shadows covered the entire area, and the three didn't even have a chance to fight back before they were wiped out by Lin Yi!

Since they wanted to ambush his fifth brother first, Lin Yi didn't hold back and sent them flying with a kick.

"Lin Yi, Lil" bro, you killed them?"

Shangguan LAN 'er's face was pale. She couldn't accept that the game had become a real killing battlefield yet. From the bottom of her heart, she didn't want Lin Yi to kill people.

"I don't know if he's dead or not, but they want to kill fifth brother, so they're our mortal enemies! To hold back against an enemy with such killing intent is to be irresponsible to your own people!"

Lin Yi shook his head. He wasn't a bloodthirsty person, but this wasn't the time for him to hold back.

As for whether they were dead or injured after getting kicked, it wasn't Lin Yi's business! However, even if they didn't die, they would probably be abandoned by their companions. After all, saving people took a lot of time.

Chapter 6399 Snatching The Dead Leaves And Sea Map

"Thank you, vice-captain, for saving my life!"

Fifth brother thanked Lin Yi respectfully-his respect for Lin Yi came from the bottom of his heart!

In his heart, he'd already placed Lin Yi on the same level as ao Tianba, perhaps even higher.

"We're all family, there's no need to say such polite words. "

Lin Yi waved his hand and turned to the battle area."Fifth brother, do you know which fleet those people are from?"

"I know. They're all from the sea, so I can recognize them at a glance."

Old fifth took a few glances and immediately nodded to confirm. This place was quite close to the battle location, so he could see it very clearly with the naked eye.

"Very good. If I ask you to go to the beach and find the small rapid-speed ship that they came from, will you have any problem?"

Lin Yi had made up his mind to get the item-with his speed, the chances of it being stolen from him were low as long as he could get it.

And so, before he attacked, he had to arrange everything, like a small rapid-speed ship for retreat!

Since he did not get black egg, then the original small rapid speed ship was useless. It was necessary to take one of the ships from the other two families.

"No problem! Those who are able to enter the competition this time are the elites of their respective fleets. Even if we're not familiar with them, we can recognize them by looking at their faces. Therefore, it's not difficult at all to find their small rapid-speed ships. "

Fifth immediately patted his chest and promised-it was an honor for him to be able to carry out Lin Yi's mission.

"Very good. We'll go meet up with brother ao Tian first. Then, you guys go back to the beach and see which of their ships is better. Then, take the ship from which one and set off immediately. Wait for me at the edge of the sea fog. Once I come back, leave at full speed. Do you understand?"

Lin Yi patted the guy's shoulder and looked at him with a serious expression.

"I understand! Don't worry, vice-captain, I will complete the mission even if I have to die!"

Fifth brother felt like there was nothing he couldn't do now that Lin Yi valued him so much!

"Good! Then I'll leave it to you!"

Lin Yi let out a breath of relief. Now, the backup plan was ready! His plan could also begin to be implemented!

Ao Tianba was flying over at the same time, and smiled as he saw the three gathered.

"Lil bro Lin, you're so fast! Did you notice some interesting issues?"

The smile on ao Tianba's face seemed to have a deeper meaning. It was obvious that he had also thought of the hidden secrets of the different mission items.

"Ha ... Brother ao Tian, you've also thought of it? The first round may seem like a simple trade competition, but it's actually a competition of naval warfare. It's the same this time, it looks like a competition of seafaring skills and treasure hunting, but it's still a cruel competition mode hidden in the end. The rules of survival of the fittest have not changed!"

Lin Yi smiled faintly, making sure that it wasn't the time to strike yet. He started chatting with ao Tian.

"This is their usual style, and it's also the way of survival that we, people who make a living on the sea, are familiar with! Now that the first quest item has appeared, should we immediately snatch it? Or should we wait for them to fight to their heart's content before we make our move?"

Ao Tianba chuckled as his eyes lit up with excitement.

However, he did trust Lin Yi to the extreme-even at this point, he didn't forget to ask for Lin Yi's opinion.

"I've already made arrangements. Brother ao Tian, you take LAN 'er and Lao Wu back to the beach to meet aunt Zhang. Lao Wu knows exactly what to do. The time has come. I'm going to make my move. You guys should leave quickly!"

Lin Yi's eyes were fixed on the chaotic battle not far away. After speaking softly, he jumped onto the crown of a big tree without making a sound.

Ao Tianba was a straightforward man, too-he immediately retreated to the beach with Shangguan LAN 'er and fifth brother after Lin Yi said that, not saying anything else.

Most of the people were focused on the battle here, while a small portion of them were still determined to find their own items. As long as they could find the mission item without being noticed, they would be able to gain the upper hand in the competition.

Ao Tianba's group of three were not weak, so they naturally did not attract any ill intentions from others. The process of returning to the beach could be said to be safe.

On the other side, Lin Yi stood on top of a tree, his sharp eyes like an eagle watching its prey, looking for the best time to strike.

There were quite a few people like Lin Yi around, all waiting to see who would get it in the end.

"Now!"

Lin Yi's body moved, and he activated his lightning escape technique the moment the leaf flew away from his hands!

The others who wanted to attack had just started to move, but he had already appeared beside the dead leaf, and just like that, he reached out and grabbed the dead leaf.

"Let go!"

The two men fighting on the side saw a flash of lightning, and their sharp senses picked up that someone was trying to snatch the leaf away. They shouted in unison and attacked Lin Yi at the same time.

Lin Yi smiled faintly, not taking their attacks seriously at all. Once he used his super butterfly micro steps, his opponents wouldn't even be able to touch his clothes in this small area.

If it weren't for the sea Map, Lin Yi would've already left this place and returned to the beach. With his speed and escape methods, no one here would be able to catch up to him!

"Kill him!"

Those who were one step behind shouted, encouraging the others to attack Lin Yi. Even if they couldn't get it, they couldn't let Lin Yi get first.

Especially after Lin Yi's display of his lightning movement technique-everyone knew that if they let Lin Yi go, the champion's position would fall back into ao Tian BA's hands!

They'd kill Lin Yi first, and then they'd be able to continue fighting each other. Now that Lin Yi had become the target of everyone, he was surrounded by dozens of attacks in a breath.

"I won't be polite with the sea Map! You guys can continue to play!"

Lin Yi dodged between the attacks like a fish swimming in water as he pulled out the map from the person beside him.

He had already observed everything beforehand, so his attack was extremely accurate. When he succeeded, he even had the time to call out to the others!

It might be hard for others to take the map, but it wasn't hard for Lin Yi! Don't forget that he had a martial uncle who was a godly thief!

On his first day in Songshan, he'd stolen the money from a bunch of scammers, and even met Wang Xinyan ...

Chapter 6400 Can't Go Back

Who would have thought that the girl who warned him about the swindler on the train a few years later would grow to this extent and come to the East Province with him?

"Some of you, continue to surround him. Some of you, go to the beach. If he wants to leave, he has to go back to the beach. Stop ao Tianba and the others first. Let's see how he can escape!"

A familiar voice shouted from the periphery. Some people felt that it was reasonable, and a group of people rushed to the beach.

Gu Yunhao!

Lin Yi's face darkened-it seemed like this guy wasn't going to let them off the hook. But it was no wonder-he'd lost so many times already, after all.

With that shout, Lin Yi had to rush back to meet up with ao Tianba and leave the island!

Otherwise, the small rapid-speed ship would be destroyed, and the dead leaves and Sea Map would be useless.

"It seems that I'll have to get rid of Gu Yunhao first next time. With such an enemy watching us, things will get out of hand sooner or later!"

Lin Yi mumbled as he activated his lightning escape and retreated towards the beach.

He didn't have time to deal with Gu Yunhao now. He would wait for the third round of the competition. Once the third round started, he would eliminate him!

There were quite a few people who reached the beach first, but Lin Yi wasn't worried. His lightning escape had a huge advantage in short-distance racing-even if they reached the beach, they wouldn't reach the speedboat before Lin Yi.

At this time, ao Tianba and the others had already obtained the small rapid-speed ship they needed, and under the control of the fifth brother, they were sailing toward the edge of the sea fog. Once they reached the predetermined position, their safety would be basically guaranteed.

At this moment, the entire deserted island suddenly shook violently!

Everyone on the island was caught off guard and their bodies slanted involuntarily. Only Lin Yi wasn't affected too much because of his lightning escape technique.

In just a breath's time, the shaking completely calmed down. The people on the island were somewhat bewildered, not knowing what had happened. They even temporarily put aside their pursuit of Ao Tianba and the others.

Lin Yi used this chance to quickly get on the boat, using his spirit sense to monitor the others as he called out to fifth brother,

"Full speed ahead! We've already succeeded. If we hurry back as soon as possible, we'll be able to get first place!"

"Fifth brother, let's go!"

Ao Tianba was overjoyed. He knew that Lin Yi had a good chance of winning, but it still felt like a dream to him.

He won first place in two consecutive rounds of competition, would the navigation quota in the Xuan class Sea area be far away?

"Understood! Everyone, sit tight!"

The fifth brother also laughed out loud and agreed in high spirits. He immediately increased the speed of the small rapid-speed ship to its maximum and plunged into the thick Sea Fog.

The fifth brother had long since memorized the location of the entrance to the hidden reef passage. He would definitely not make a mistake. As long as he rushed into the sea fog, the people chasing him would probably immediately give up!

After all, it was too difficult and dangerous to catch up to ao Tianba in the sea fog, especially since it would waste their own time.

Since there was no hope for the first place, at the very least, the second place could not be taken by anyone else. Instead of wasting time chasing after ao Tianba, it was better to continue the fight for the next place!

That was what ao Tianba and Lin Yi thought, but what they didn't expect was for the ship to be blocked by an invisible barrier as it charged into the sea fog!

It wasn't accurate to say that it was blocked. It should be that when the small rapid-speed Starship hit the membrane, it was too fast and half of the hull was destroyed.

If Lin Yi hadn't reacted quickly and pulled Shangguan LAN 'er back, they might have been injured as well.

Zhang jinmiao and ao Tianba didn't need Lin Yi's help-they retreated to the middle of the ship as soon as they could, but their faces were dark.

"What's going on? Why can't I leave?"

Ao Tianba was the one who couldn't accept this the most. He had already gotten everything, and as long as he rushed back, he would be the first place. Now, he couldn't leave? What the hell was this?

"Captain, this small frigate is not going to make it. It's sinking. We have to go back and find another ship!"

The fifth brother was stunned for a moment, but he immediately reacted. Now was not the time to be in a daze. There was still one small rapid-speed ship that met the conditions, and he had to go and control it immediately.

"Let's go!"

Ao Tianba gritted his teeth and jumped to another small rapid-speed ship with his fifth brother. The edge of the sea fog was not too far from the beach. With his strength, he could reach it in one jump.

Zhang jinmiao followed with Shangguan LAN 'er, but Lin Yi didn't leave immediately. He stood on the small rapid speed ship that was slowly sinking, focusing his divine sense on the sea fog in front of him. If he didn't solve the invisible barrier, it was useless no matter how many small rapid speed ships he had.

It was a pity that no matter how Lin Yi observed it, even using his consciousness Whirlpool to test it, he couldn't find anything. The invisible barrier was natural, as if it had always been there since ancient times. There was no trace of man-made arrangement, and it wasn't damaged by any force.

"What's going on? Could it be related to the previous tremors?"

Lin Yi frowned as he mumbled. He was sure that this invisible barrier didn't exist when he first came here, and it only appeared later.

The only suspicious thing was the sudden shaking. It seemed that if they wanted to leave, they had to find the reason for the shaking.

At the same time, the contestants who had already reacted to the situation began to quickly gather on the beach!

Just like what ao Tianba and the others had thought, as long as they could enter the sea fog, the rest of the people would not continue to pursue them. However, since they could not enter the sea fog, ao Tianba and the others, who had the first mission item, were still the target of everyone!

With a flash, Lin Yi landed on the beach, sending a message to ao Tianba and the others to stop fighting for the ships.

In the current situation, even if they managed to get it, it would probably be destroyed by everyone. Even if they couldn't destroy it, they still couldn't get out. There was no need to waste this small rapid ship.

"All of you, stop! The dead leaves and the map are all here, but it's useless for you to get them. You all saw the situation just now, the entire Island has been imprisoned by an invisible force, making it impossible to leave. Rather than pointlessly fighting here, it's better to think about how to leave. "

Lin Yi calmly held the leaf and map in his hands as he looked at the people surrounding him. He wasn't afraid at all as he spoke.

"You stole our things and killed the people on our ship, and you still dare to act like a master here! Go to hell!"

The one who had been fighting roared and rushed up. It might seem reckless, but his intention was to not give Lin Yi a chance to speak. If he could get the others to follow him, it would be best to kill Lin Yi and his group first.
