

## Bodyguard 6401

### Chapter 6401 Ye Daxi's Support

"Get lost!"

Ao Tianba had already brought his fifth brother to the beach after receiving Lin Yi's message, and he just happened to see someone attacking Lin Yi. He roared and punched out.

The sharp blade-like true energy instantly broke through his opponent's attack and easily rolled back. If his opponent dared to continue charging forward, it would be equivalent to him crashing into ao Tianba's fist.

When it came to commanding fleets, ao Tianba was indeed at the bottom of the twenty fleets.

However, in terms of the captain's personal strength, he could definitely be ranked in the top five of the twenty fleets.

Faced with such a violent attack, the people who wanted to deal with Lin Yi immediately gave up and retreated with all their might, barely avoiding ao Tianba's counterattack.

Ao Tianba didn't want to kill Lin Yi right now, and Lin Yi seemed to be planning something. He had to hold back before he could figure out what Lin Yi was thinking.

"I killed them, and I robbed the ship. If you have any problems, come to me, ao Tianba! If you're not convinced, you can continue!"

Ao Tianba stood beside Lin Yi, glaring at the men coldly, as if he was ready to start a fight at any moment.

Zhang Jinmiao stood on Lin Yi's other side as well, her complete earth creation aura quietly rising. It wasn't as violent as ao Tianba's, but it still had a strong pressure!

The faces of those people from before turned even paler. They knew that they would not be able to get back at this place unless they could unite everyone and attack together.

However, without enough benefits, who would provoke such an expert for no reason? For a mission item? There was no way to leave the deserted island now, so what was the use of having the quest item?

"Ao Tianba, you're really arrogant! Why? Do you think that no one here can stop you? Do you think you're the best here?"

Gu Yunhao wasn't afraid of ao Tianba. He had killed more than one or two people in the first round, so if he took the lead, there would naturally be people who would support him.

If he could get Ye Daxi and Su Lu to join him, he would be even more confident! In fact, Gu Yunhao had wanted to push Ye Daxi and Su Lu out.

It was a pity that these two people were not people he could offend. If he directly talked about them, it would most likely be self-defeating, so he could only vaguely mention it and hope that they would understand.

"Gu Yunhao, if you're not convinced, you can come out and fight me one-on-one. Don't say such weird things. I thought you were a great person, but now it seems that you're just so-so!"

Ao Tianba shook his head disdainfully. His words had caused 10000 critical damage, which made Gu Yunhao's face turn red.

"Enough with the useless nonsense. What's your name, the kid with the dead leaf and the sea Map?"

Su Lu suddenly spoke, and everyone fell silent.

Other than ye da Xi, no one else present had the right to challenge su Lu!

The first and second ranked squadrons were on the same level. After the third, they were at least one level lower than them.

In su Lu's eyes, his only opponent was ye da Xi. Now, there might be Lin Yi as well, but that was only in a single-ship battle.

When they were fighting the electric eel, su Lu was too focused on challenging Lin Yi to a fight. The two of them were talking to each other, and they didn't have time to talk, so he didn't know Lin Yi's name.

Now that he had the chance, su Lu would ask around. He did not care about the dead leaves at all.

As long as su Lu wanted it, there was no way he would not have the quest item.

"Dead leaves and Sea Map are not important. What's important is that we find a way to leave the deserted island. I think the previous earthquake might be the key. So if you are interested, you should go find the cause of the earthquake and look for various quest items. My suggestion is that everyone disclose the items they need. Perhaps you can't find what you want, but it's the same if you can find others. At that time, you can also exchange them for items."

Lin Yi ignored su Lu and said everything he wanted to say in one breath.

It was rare that su Lu's aura was so strong that everyone could calm down. If he did not take this opportunity to speak, when else could he?

The corners of su Lu's mouth twitched. 'This kid really doesn't understand human language!' Should I beat him up now?

"Well said! I personally support you. By the way, may I know how to address this little brother?"

Ye Daxi waited for Lin Yi to finish and clapped his hands with a smile, stepping forward to show his kindness.

He'd seen Lin Yi's performance in the sea fog with his own eyes. Lin Yi didn't seem to be at a high level, and he relied heavily on his skills, but that didn't erase his talent.

Ye Daxi was also guessing that the person controlling the ten thousand miles formation and Starfall formation to take out his flagship was Lin Yi.

This kid's fighting style was the same as the ancient battleship 's, and with ao Tianba and the other master of earth creation subconsciously standing on both sides to protect Lin Yi, ye Daxi was more confident.

This young man was suitable to befriend! It was best not to offend him. If he did, he would have to be ruthless and kill him before he grew up.

All the thoughts flashed through his mind, but he still maintained his composure and waited for Lin Yi's answer.

"Thank you for your support, Captain ye. I'm Lin Yi. We need to work together. With Captain ye's support, I believe we all have a chance to complete the mission."

Lin Yi smiled and cupped his fists to ye Daxi.

No matter what, since they had expressed their support, they had to show a better attitude. As for people like su Lu, he could just let him continue to be anxious.

Su Lu's mouth twitched again, wondering if he should beat up Lin Yi first or big ye first, or both at the same time.

With ye Daxi's support, the others stopped talking.

Offending ao Tianba and offending ye Daxi were two completely different things. Those who could come here were no fools. How could they not understand the key point?

"Lin Yi, not a bad name. Tell me your plan."

Ye da Xi nodded, a faint smile on his face as he looked at the crowd, expressing his absolute support for Lin Yi.

"Then I'll embarrass myself. If there's anything wrong, Captain ye, please correct me at any time."

Lin Yi's attitude was good, and ye da Xi was satisfied with it. No one else could do anything about it. Gu Yunhao could only sulk at the side.

Su Lu looked like he was constipated.

He felt uncomfortable with the way Lin Yi and ye da Xi were chatting-they should be beating the two up together!

Chapter 6402 Don't You Understand Human Language?

"Before we solve the invisible barrier between the island and the sea fog, we can all be mixed together and search for the mission items and clues with people from different fleets!"

"It's forbidden to kill each other. It belongs to whoever finds it first. If you don't need it, you can use it to exchange for what you need! As for the beach, the people from each fleet will form teams to guard the ships and monitor each other. No one is allowed to approach the ships without permission. "

Lin Yi explained his plan, mainly to borrow everyone's strength to find a way to leave the island.

Ye da Xi and su Lu didn't object to Lin Yi's suggestion. The others all had their own thoughts, but they didn't jump out immediately. They all wanted to find what they wanted first and then leave.

Since no one was able to leave, there was no need to rush to fight for the quest item that had appeared. When everyone left together, it would not matter whether it was a fair race or a covert one.

"Alright, everyone, please describe what you need. It will be easier if we all search together."

Lin Yi added some more ideas and described the black egg he needed.

The rest of the guilds also spoke up one by one. Some guilds had the same items, some had the same items at three guilds, and at most, four guilds had the same items. Therefore, the items that they really needed were not that many. After listening to the story, everyone had an idea of what to do.

It'd been around 16 hours since the competition started, and after deducting the time they spent on the way back, there wasn't much time left for Lin Yi and the others.

If they went back after 24 hours, then there was basically no possibility of pulling apart the points. Everyone going back after 24 hours or after 24 hours was actually about the same.

"Aunt Zhang, you, LAN 'er, and Lao Wu will stay here. Brother ao Tian and I will go and find clues."

After everyone had left, Lin Yi turned to Zhang jinmiao and the others.

"Why? I want to go with you!"

Shangguan LAN 'er wasn't too willing-staying on the beach wasn't as interesting as following Lin Yi.

"Lin Yi, didn't you say that one person would stay in each fleet? If it's just the three of us, wouldn't that be a bad idea?"

Zhang jinmiao didn't care about her disciple, but asked Lin Yi.

"Aunt Zhang, Senior Sister LAN 'er, you two will wander around the junction of the beach and the forest. Fifth brother will stay on the beach. I feel that this Island is a bit strange, especially those caves, so I'll go and study them again. I'll be more at ease if you stay here."

Lin Yi switched to a voice transmission as he glanced at the small speedboat parked by the beach.

The few of them understood tacitly. Now that they were short of a small rapid-speed ship, no matter how it developed in the end, at least one team would be trapped on the deserted island. The most important thing for Zhang jinmiao to stay here was to ensure the team's retreat.

When Shangguan LAN 'er heard that Lin Yi wanted to go to the dusty caves, she wanted to go with him, but it was obviously impossible. She comforted herself in her heart that those caves were dirty and there was nothing fun to play with.

After the discussion, they split up and went to do their own things. As for the mixed teams, they all left after Lin Yi's group finished talking, leaving ye Daxi and su Lu staring at each other.

"Captain ye, Captain su, are you two going to be partners?"

Lin Yi wanted to go alone, but he was the one who suggested it. He couldn't just ignore the two of them, so he greeted them.

"Lin Yi, I'll team up with you, let's go!"

Su Lu hmped at ye Daxi and turned to Lin Yi, suggesting to team up with him.

"In that case, I'll be in the same team as Captain ao Tian!"

Ye Daxi shrugged his shoulders. He had his usual smile on his face and looked very easy-going.

Lin Yi scratched his head. The two were used to giving orders, so no one thought of asking for his opinion first.

Forget it, it's the same for everyone. Time is precious and can't be wasted!

"Well, Captain su, let's go up the mountain!"

Lin Yi nodded and cupped his hands at ye da Xi and ao Tian BA before calling su Lu up the mountain.

"Why do you want to go up the mountain? I think we should go there!"

Su Lu pointed at an area in the distance where the trees were obviously more lush. He was so close to saying something like "we're going to rush forward."

It had always been su Lu who controlled the overall situation and directed the direction. When was it this kid's turn to give orders? It was really baffling! No respect for elders!

Su Lu sneered in his heart. He felt that he had saved some face. He would first get rid of this kid's arrogance and provoke his anger. Then, he would suggest a one-on-one battle with the ancient warship. Perhaps he would agree to it.

Lin Yi didn't know what su Lu was thinking about, but he knew that he couldn't communicate with this mad man normally. He wasn't surprised at all that something went wrong.

"Captain ye, are you interested in going up the mountain to take a look? I think the mountain ..."

Lin Yi ignored su Lu and turned to ye Daxi.

"Up the mountain!"

Su Lu did not wait for ye Daxi's reply. He immediately turned around and left with a sullen expression. It was not easy to be in this kid's team. How could he give up to the hypocrite ye Daxi?

Lin Yi smiled. This su Lu was quite an interesting guy. He might not understand human language sometimes, but it was nice to talk back.

The four split into two groups, one going up the mountain and the other into the forest. Ye da Xi wanted to follow Lin Yi as well, but he felt that Lin Yi wasn't ordinary. Unfortunately, su Lu was here, and he would probably draw his sword after a few steps.

"Hey, you haven't agreed to the one-on-one challenge with me on the ancient warship."

After flying for a while, su Lu couldn't help but talk to Lin Yi first. Of course, it was the same thing that he'd said so many times.

"Let's deal with this matter first before we talk about anything else, okay? Aren't you worried about the second round at all? If I remember correctly, your fleet only got three points in the first round, right?"

Lin Yi didn't want to play ancient battleship with su Lu-what was he doing?

"Accept my challenge first!"

Su Lu was unmoved. He still persisted.

This person really couldn't continue the conversation!

Lin Yi didn't know what to say-the guy was number two, and he only had three points-why wasn't he worried at all?

Do you still want the navigation quota for the mystic class Sea area? Do you still have the self-esteem of a strong person?

"Also, my fleet only has three points, and that's all thanks to you. You still don't agree to fight me on the ancient warship. Do you want to fight me in person now?"

Chapter 6403 Killing Intent!

Su Lu looked at Lin Yi from the corner of his eyes. He was threatening Lin Yi in such an obvious way.

If he knew Lin Yi's true strength, he might have attacked him right away. Although Lin Yi's lightning escape technique was exquisite and he could control lightning well, he was only at the peak of the black Ascension realm. Su Lu had no interest in a weakling like him.

"Eh, there's a cave up ahead. We can go in and take a look!"

Lin Yi decided to ignore su Lu-he couldn't communicate with him!

Su Lu's mouth twitched. 'This kid is beating around the bush again. Does he even understand human language?'

Can't we continue to chat happily?

Well, this was a common question for both of them, and they both felt that the other had a problem ...

The cave in front was the one that Lin Yi and Shangguan LAN 'er had been to before. In order to divert su Lu's attention, Lin Yi checked every inch of the cave carefully, as if a flower would suddenly grow on the wall of the cave.

To Lin Yi's surprise, su Lu didn't object. His face turned serious after entering the cave. His squinted eyes flashed with a dangerous light, and he subconsciously licked his lips. It was his habit before he attacked.

Lin Yi raised his guard, thinking that this guy wasn't crazy enough to force him to agree to a battleship duel, was he? He didn't feel any killing intent, but Lin Yi didn't dare to underestimate su Lu.

"This cave is indeed strange. You have a good eye, kid!"

Su Lu didn't even look at Lin Yi. He arched his body as he spoke and slowly walked towards the cave.

"What Do You See?"

Lin Yi blinked. Su Lu didn't notice anything wrong when the damn thing didn't.

"I can't tell, I just think it's strange!"

Su Lu didn't even turn his head. Lin Yi immediately retracted his evaluation of su Lu.

So it was just intuition! He was really blind to compare this guy with senior ghost!

However, Lin Yi was still impressed by su Lu's battle instinct. He and the damn thing could notice that something was wrong here because of the restriction on their divine senses. There were no signs of any restrictions or formations!

Su Lu didn't use his divine consciousness, but he could feel that something was wrong as soon as he came in. This was an impressive talent.

"There's killing intent!"

Su Lu's body froze for a moment. As he spoke, he pointed his right hand at the ground, and the long saber that was as thin as a cicada's wing appeared in his palm. He circulated his genuine Qi, and the blade glowed with a faint light. "Be careful. If you're afraid, you can leave first!"

Lin Yi smiled and didn't answer. He focused on the killing intent su Lu was talking about.

If the killing intent was directed at him, the Jade space would have alerted him. Now that there was no reaction, it could only mean that the killing intent was not directed at him. But even so, he should have noticed it at all.

Could it be that the killing intent su Lu felt was only directed at him? In that case, things had become interesting!

Lin Yi's spirit sense started spreading out slowly, like water flowing through the ground, softly covering everything. This way, he could find the most unusual places.

If what su Lu said was true, the source of the killing intent must be in this cave. Lin Yi didn't believe that he couldn't find a trace of it.

However, the cave had a very strong restriction on spirit sense. Lin Yi felt a lot of stagnancy, as if there were many small ravines in the cave. When the spirit sense slowly passed through, it would be delayed.

"What's going on? A spatial tear? Isn't that a little too small?"

Lin Yi frowned, not sure why.

Meanwhile, su Lu had already swung his saber fiercely. The dazzling saber radiance shone and lit up the entire cave. Then, it sank about ten meters in front of him and disappeared!

Lin Yi's pupils shrank. There was nothing where the blade light disappeared, and his spirit sense couldn't detect anything unusual, but su Lu's blade light was gone just like that!

He was sure that the saber flare did not dissipate on its own. Su Lu had exerted the power of his saber flare at that distance. It could not have dissipated on its own!

"There's another space here?"

Lin Yi was shocked. If he didn't see it with his own eyes, he wouldn't believe it. How did the blade light pass through the spatial crack? Why couldn't he see any traces of it around him?

It would be fine if Lin Yi was the only one who couldn't tell, but he couldn't even tell what was going on!

One had to know that this damned thing's array Dao was already beyond level nine. In the entire Sky Class Island and below the yellow Class Sea region, there was probably no one who could compare to him in terms of array Dao!

Could it be that there was a formation over level nine here? So you can't even see the ghost?

These thoughts flashed through Lin Yi's mind like lightning. Su Lu was already flying back. A tiny light was right in front of him. If he stopped for even a second, it would hit him.

Lin Yi didn't have time to think. He raised his hand and sent a lightning arc to the tiny light. No matter what, su Lu was his partner now. He had to at least help block the enemy's attack.

The reason why he chose the lightning bolts was because they were fast enough! The rest of his methods probably wouldn't be able to stop the light.

"Swish!"

With a slight explosion, the lightning arc and the light spot collided, immediately producing a powerful reaction!

The space in front of su Lu was torn into many pieces like a rag. The dark space crack twisted and turned like a demon's tentacle, giving off a terrifying aura.

Lin Yi's hair stood on end as the sense of danger washed over him like a tidal wave, drowning him in an instant!

He knew he was in danger even without the warning from the Jade space. He immediately activated the Thunder escape technique and flew out of the cave with su Lu.

The whole island shook again, and Lin Yi didn't have the time to think about the connection between the two. He just wanted to get as far away from the cave as possible, even if the spatial crack was starting to close.

"Stop, stop! What are you running for!"

Su Lu yelled as Lin Yi pulled him. He didn't want to accept Lin Yi's kindness. Besides, the appearance of the space crack might be the key to leaving the island.

"Captain su, if I hadn't run, you would have been dead by now! Let alone those spatial rifts, do you think you can withstand them?"

Lin Yi stopped about a thousand feet away from the cave and let su Lu go.

There seemed to be an invisible force at the entrance of the cave \* which completely blocked the fluctuations in the cave, so there was no danger even if they stopped.

Chapter 6404 An Unfathomable Formation

"I think you're just a gutless rat. You don't even dare to accept my challenge and only know how to run all day!"

Su Lu didn't want to give up-he wanted to challenge Lin Yi the moment he had the chance.

Lin Yi didn't want to bother with him, but he could ask su Lu how he found out about it.

"Don't change the subject. Do you know what that light that attacked you was? They didn't know anything and only knew how to fight! How did you get into the top two fleets? It's too strange!"

Lin Yi said with a look of disdain-this guy probably wouldn't give a proper answer if he'd asked him nicely. He might as well provoke him a little-he might get an answer.

"Don't change the subject. I, Gale Sulu, have humbled myself to challenge a nobody like you, and you're still acting so cocky? tell me, do you dare to accept my challenge?"

Su Lu was still sticking to his own style, talking to himself and ignoring Lin Yi's words.

They really couldn't continue the conversation! Lin Yi felt like his head was going to hurt if he kept talking to su Lu. Forget it, he'd better talk to the ghost.

"Senior ghost, what do you think of the spatial tear just now?"

The ghost was spending most of his time in the soul raising tree, cultivating and nourishing his spirit, but Lin Yi believed that he'd notice something as exciting as this.

Plus, even if the thing didn't pay attention, he could learn the details from Lin Yi's shared memories.

"Su Lu is being attacked by a force that can shatter space. Xiao Budian might look weak, but su Lu's body will definitely not be able to withstand it!"

The ghastly thing was obviously very interested in this kind of spatial power and already had some ideas of its own.

"There might really be a restriction that surpasses level nine here, but our level is not high enough to not even see a trace of it! This is a real space formation. The short-distance teleportation formation that we've studied in the South continent is nothing compared to the formation here. "

"A spatial formation? Does this mean that the invisible power that blocks off the sea mist around the island is also a part of the spatial formation?"

Lin Yi didn't doubt the ghost's words at all. He had the same guess, but the ghost was more specific and detailed.

"That should be the case. I don't know where this place is to have such a terrifying spatial formation. With our current strength, it's impossible to crack it. Perhaps we can find some clues after studying it for a hundred years."

The demonic thing laughed evilly. He didn't mind staying here for a hundred years, but Lin Yi was out of the question.

If he knew the principle of the space formation, he would be able to figure it out in a few months or even a few years with his knowledge. But now, he knew nothing, and he couldn't find any trace of it. If he wanted to study this formation, he would need at least a hundred years. If he could make some progress in a thousand years, he would be very powerful.

"Then what should we do? Is there no way to leave this place?"

Lin Yi frowned. He didn't know how they found this place and how they were able to leave. Could it be that after a period of time, the restriction on the outside would disappear?

"You have two choices. One is to go to those caves to find the answer, but I don't think you'll find any clues. The other is to wait. Since those people allowed you to come here to compete and gave you twenty-four hours, perhaps they wanted to tell you that you'll definitely be able to leave this place within twenty-four hours!"

Lin Yi couldn't help but be impressed by this damned thing's analysis-the older the wiser.

Thinking about it carefully, from the beach to the island, Lin Yi and the others only used less than six hours!

Since they had already taken the route once, the return journey would be even faster. The time taken to return would not exceed twelve hours!

The difficulty of finding the quest item did not seem to be too high either. Because the dead leaves appeared very quickly, it caused others to give up on their own search quest. Otherwise, there might be more quest items appearing now.

The problem was that everyone could finish the competition within 24 hours, so there was more than enough time. Why was there a 24-hour time limit?

It was because he Hao and the others had anticipated such a situation, and they had even taken into account the time they could pass through again.

"Hey, Lin Yi, what are you doing? Don't you dare to give me a straightforward answer!"

Su Lu asked again after seeing Lin Yi's blank expression.

"I'll go in and take a look!"

Lin Yi didn't bother with him and rushed into the cave.

Even if he knew that he wouldn't be able to find any useful clues, Lin Yi still wanted to go in and take a look. A spatial formation of this level wasn't something he could come across so easily. It would be a waste if he didn't take a look!

"You want to run again? Lin Yi, you're not making fun of me!"

Su Lu mumbled to himself and followed him into the cave.

"Hey, I'm talking to you, why are you running! You were so afraid of death just now, and now you're not afraid of death anymore?"

After catching up to Lin Yi, su Lu started goading him again. As long as Lin Yi spoke up, he would say, "accept my challenge!"

"I'm afraid you'll die!"

Lin Yi's one sentence made su Lu choke. They never had a smooth conversation, but the way Lin Yi continued made su Lu unhappy.

What do you mean you're afraid I'll die? I won't die even if you die!

Before su Lu could reply, Lin Yi continued,

"Are you possessed by Vice President he Hao? Why didn't I realize that you're such a Chatterbox before?"

A Chatterbox? Su Lu was furious. When had he ever been called a Chatterbox?

He had always appeared in a cold and aloof manner, so how could he be described as a Chatterbox?

"Forget it. It's really unlucky to be your partner. It's useless and you even have to rely on me to save you. Not only are you not grateful to me, but you also blame me. If I had known earlier, I would have been better off alone!"

"I came in alone and nothing happened, but you came in with a spatial crack, spatial light spots, and so on. Are you born to be beaten?"

Su Lu didn't know what to say, but Lin Yi was in his Chatterbox mode. Why can't I talk? If everyone were to say it together, who wouldn't be able to learn a few words of nonsense from Vice President he Hao's long demonstration?

As they spoke, the two came back to where they were before. Lin Yi's spirit sense still didn't find anything wrong, but he was still on guard. If anything went wrong, he'd run at full speed.

Chapter 6405 Who Was Right And Who Was Wrong?

"Su Lu, tell me the truth. Did you just guess that slash? Don't say no. If not, tell me, why did you slash that way? Could it be that you've noticed something wrong?"

Lin Yi looked at su Lu from the corner of his eyes. He still didn't give up on the idea of getting something out of this guy's mouth.

"I'll be honest with you, that was a wild guess!"

Su Lu snorted and tried his best to keep his cool.

Lin Yi was speechless. How did su Lu's people live their lives? Are you sure you won't have a short life talking to this kind of person?

"Mad su Lu, try to deceive me again!"

Lin Yi decided to continue egging him on-he didn't know if the guy would listen.

Su Lu didn't know the difference between Gale and mad su Lu, or he would've stabbed Lin Yi in the head to see who would be mad!

Lin Yi looked up at su Lu-the guy had his arms crossed and was looking up at the ceiling at a forty-five degree angle. He looked like he was studying something, but his face was full of pride and didn't look cold at all.

At that moment, the entire Island started shaking again. Lin Yi was a little confused-could it be that the shaking was caused by entering the cave?

Lin Yi didn't know what kind of reaction would be produced from the continuous shaking, so he didn't bother to study the Secret of the Cave anymore. Su Lu didn't seem to have found anything wrong either.

When he first entered, su Lu was on full alert as if he was his prey. However, he was not bothered at all now. He probably could not sense any danger from the murderous aura.

It'd be great if he could figure out why Su Lu was being attacked, but since he couldn't attract any attacks now, Lin Yi thought that he wouldn't be able to make any progress in a short time. He should go out and see how the others were doing.

"I'm going out to take a look. Do you want to continue staying here?"

Lin Yi walked past su Lu, who was still in the same position.

Lin Yi couldn't help but ask. He immediately felt that he was being a busybody and that it was good to let him stay!

'I'll turn into a statue!'

Su Lu did not answer. Instead, he made a 180-degree turn and continued to look forward with his nostrils as he walked away.

"Using your nose to look at the road, aren't you afraid that your nose will be crooked?"

Lin Yi didn't forget to mock him as he walked out of the cave.

After a series of tremors, the teams that were searching for the quest item had already started to move towards the beach.

"Eh? Isn't this black egg?"

Just as he was about to walk out of the cave, Lin Yi noticed a black oval-shaped object at the edge of the cave!

It was the quest item they needed!

One thing was for sure, when he entered and exited the place, there was definitely no such thing here. In other words, this black egg had just appeared!

Because of the tremors? It was indeed very strange!

If su Lu didn't use his nose to see the way, he would've seen the black egg before Lin Yi did. He didn't expect something like this to appear in the empty space, and it was Lin Yi's mission item?

She wouldn't have just let Lin Yi have it even if she broke it!

Seeing that su Lu didn't notice it, Lin Yi quickly put the black egg into the Jade space, and he couldn't help but feel lucky!

It seemed like it was beneficial to provoke mad su Lu from time to time. He had to continue!

Now, he only needed to wait for the invisible barrier to disappear, and he could immediately return! As for the dead leaves and Sea Map that he had snatched earlier, it was better to throw them out to attract the attention of others!

"What's going on? There seems to be a conflict over there!"

After su Lu walked out of the cave, he finally lowered his head. He had no choice. They were halfway up the mountain. If he looked down, he could not even see a bird.

"I'll go take a look. "

Lin Yi flashed and used lightning escape to get down the mountain. As for su Lu, he would probably catch up soon. After all, Gale wasn't just for show.

"Captain ye, what happened?"

Lin Yi found both ye da Xi and ao Tian BA there when he came back-the two parties were separated.

"Lin Yi's here as well. Their houses got into a conflict over a mission item, and they got into a conflict with the joint guards on the beach. It's a big deal. You suggested it, so how should we deal with it?"

Ye da Xi smiled and nodded at Lin Yi as if the conflict wasn't a big deal.

"Didn't we say that we can't have conflicts because of the mission items? Why didn't you follow the rules?"

Lin Yi's face darkened-he wasn't going to be nice to the two parties anymore.

The rules had to be followed. If everyone didn't follow the rules, it would only cause chaos!

"Who Do You Think You Are? If not for Captain ye, who would listen to your nonsense?"

One of the mountain opening disciples was yelling at Lin Yi without mercy, and that made people question his intelligence.

He knew that ye da Xi was supporting Lin Yi, yet he still dared to be so arrogant. Who gave him the courage? Besides, even without ye da Xi, there was still ao Tian BA!

He was just a small fry in the beginning stage. He might be a Big Shot outside, but in front of these elite captains, he was just an elite minion!

"Pa!"

The crisp sound of a slap was heard, and the guy who had spoken so rudely was immediately sent flying. A mouthful of blood mixed with a few teeth sprayed into the air.

"My brother Lin doesn't need you to give Captain ye face. If you have any dissatisfaction, come at me, ao Tianba!"

Ao Tianba appeared at Lin Yi's side at the right time, his cold eyes sweeping over the man and his comrades, including the captain.

That guy's Captain was also a groundbreaking cultivator, but he wasn't as strong as ao Tianba. Not to mention, Lin Yi had Zhang jinmiao on his side-there wasn't much to gain from offending them.

As for the other party, after seeing this scene, they wisely did not express their dissatisfaction. Instead, they cooperated and sent out a representative to speak honestly.

"Captain ao Tian, you don't know this! Our people and their group found a mission item, which happened to be what they needed, but our people found it first!"

"According to the rules, it should belong to us. If they need it, they can exchange it with something. However, these guys think that they are stronger than us, so they want to distort the truth and insist that their people found it first!"

This representative spoke clearly and explained the whole situation clearly in a few sentences.

It was just one side of the story, but Lin Yi felt that it was true. The guy was so arrogant that he was probably used to doing whatever he wanted, and it was understandable.

Chapter 6406 Come Out And Have A One-On-One Fight If You Have The Guts!

"You're talking nonsense. It was clearly our people who found it first. They were jealous that we found the quest item directly, so they wanted to destroy it. Let me tell you, everyone's eyes are clear. It's not something you can say as you wish!"

Of course, the other side wouldn't admit it and immediately made a countercharge.

Lin Yi's head was starting to hurt-things like this were hard to judge without any witnesses, and he couldn't just soul search their people, could he?

If he didn't handle it well, all the words he had said before would be in vain.

"Let's not talk about what happened between the two of you first. What's with the assault on the joint guards?"

Lin Yi decided to look at it from a different perspective. Fighting for the items was between the two fleets, but attacking the joint guards on the beach was for the benefit of all the fleets.

"They got their mission items and wanted to return to the ship, trying to be the first to leave the deserted island. We had to stop them, and then they attacked the joint guards on the beach! "From this, we can see that they are obviously feeling guilty. Moreover, they had previously agreed that once they obtained the quest item, they would wait for everyone to come and Exchange it."

The previous fleet representative immediately drew a clear line between their own fleet and the enemy, and conveniently stepped on the enemy. It seemed like the resentment was quite great!

"Nonsense, we just want to go back to our small rapid-speed ship and wait for everyone, so that you won't come and pester us. It's ridiculous to say that we want to leave. Your words are obviously a set-up!"

The other party was not to be outdone either. In any case, they had to first gain some reason for themselves.

"In any case, the fact that we're going to attack the beach guards already exists. No matter what you say, you can't change the situation. Since there are rules, everyone has to follow them. If no one follows the rules, what are the rules for?"

Lin Yi laughed coldly as he looked at the fleet that was trying to argue. People like them were used to doing whatever they wanted-they had to be even more unreasonable.

"Lin Yi's right, the rules are something everyone agreed on-we can't just break them! Lin Yi, just tell me how you want to handle it, I'll support you!"

Ye Daxi's smile didn't seem to have any deterrent effect at all, but no one dared to refute what he said.

Of course, he had his own reasons for expressing his support for Lin Yi like this. No matter what, it was beneficial to him, so why not?

"Thank you for your support, Captain ye. In that case, I'll announce the punishment!"

Lin Yi cupped his fist at ye Daxi and turned to the two fleets,

"Let's talk about who's right and who's wrong later. Let's talk about attacking the joint beach guards first. Whoever takes the lead will have their mission items confiscated. At the same time, we'll move the order of exchange to the end. We originally wanted to kill one as a warning to the others, but since it's your first time, we'll let you go and give you a chance to make up for your mistakes."

The men were furious when they heard Lin Yi's decision, but they had to hold it in for fear of offending ye Daxi and ao Tianba.

"The other fleet's people have done a good job in blocking and attacking the beach guards. Naturally, they will be rewarded. The confiscated mission items will be given to you as rewards. This matter ends here!"

Lin Yi decided to get this over with before coming back to the conflict.

"Don't talk for now. We'll deal with your conflict after the attack on the joint beach guards is over, because no one can provide decisive evidence to prove that it's really what they say!"

"But the conflict between you has indeed caused unnecessary riots and interrupted everyone's work. Such behavior must be strictly prohibited. So, both of you are at fault, and each of you will have to take the blame!"

Lin Yi didn't want to waste time investigating and collecting evidence, so he made them take half of the responsibility.

Although it seemed a little irresponsible, it was undeniable that this was the most effective and fastest way to deal with it.

"Your punishment is that the last two of you will board the ship and leave. If you want to fight for it, everyone can kill you together!"

Lin Yi said coldly as he looked at the two fleets. He'd wait for them to jump out and object, and then he'd go with the flow and kill the chicken to warn the monkeys. It'd be a good warning to those who didn't want to listen.

"Well, we don't want our reward. Can we use it to offset the punishment?"

The representative from the victim's fleet moved closer to Lin Yi with a big smile on his face. He didn't beg for mercy, but suggested a plan to make up for his mistake.

"Yes! The mission items you hand in will be shared by the public. When the time comes for the exchange, priority will be given to the fleet that has contributed more!"

"The criteria for this larger contribution is, for example, if a team finds a mission item, but one of the teams gets it, while the other party gets nothing. In this case, they can get the reward first."

Lin Yi returned the favor with a pretty good condition.

At least this person's fleet met Lin Yi's requirements-he'd have a chance to get this reward in the future.

The punishment for boarding the ship at the end was canceled. At least it could guarantee that they wouldn't be at the bottom. Now that they had lost a small express ship, anyone who wasn't stupid knew what it meant. The last-ranked person was likely to be left on a deserted island!

"Fair and just! We have no objections at all!"

The representative cupped his hands at Lin Yi respectfully and stepped to the side.

In any case, the quest item was not in their hands before this. Now that they had no losses and no punishment, it was already the best result.

The captain, on the other hand, wasn't happy with Lin Yi's actions.

"You're deliberately suppressing us! It's fine that they confiscated our things, but they actually want us to be the last to board the ship. Are there any ships left for us? Captain ye, you're a Big Shot with a good reputation all over the world. Are you just going to watch such a despicable man stir up trouble here?"

"I've said it before, I support Lin Yi's decision!"

Ye Daxi was all smiles and didn't seem to be angry at all. However, those who knew him well knew that he didn't like to repeat himself.

Was he trying to see if ye Daxi's cotton-padded needle was sharp enough? He simply didn't know what to do!

"I'm not convinced! Who the hell is this kid? come out and fight me if you have the guts! As long as you can defeat me, I will accept your punishment!"

The captain was still struggling-he didn't dare go head to head with ye Daxi, so he had to go for Lin Yi.

Chapter 6407 Su Lu's Support?

Lin Yi had already revealed his strength before, Mystic peak stage!

He was not bad among the elite crew members, but he could not compare to these captains.

The top 20 captains on Sky Class Island were all at the earth formation stage. Of course, there were differences in strength, but that was basically the level.

An earth formation master against a young man at the peak of the mystic Ascension realm, and he was asking Lin Yi to beat him before he accepted the punishment!

Lin Yi looked at the guy coldly. To be honest, he didn't think much of a mere early stage earth splitter!

The evolved Dragon killing intent, the Super alchemy bomb, the soul snatching hand, and the mystic vortex were all enough to cause fatal damage to this guy, but Lin Yi wasn't interested in doing it here.

Just because he wasn't interested, it didn't mean that others weren't. A bright blade light flashed past like lightning and easily pierced through this guy's body. It extended from his head to his crotch, and the blade light flashed through.

Before anyone could react, this guy was miserably cut into two halves by someone!

There was no need to ask to know who else had such a lightning-fast saber technique other than Gale Sulu.

Su Lu's arm trembled slightly, and the long saber that was as thin as a cicada's wing disappeared without a trace!

All he did was throw a disdainful look at that guy who died with his eyes wide open-that Lin Yi didn't even accept my challenge, what the hell are you? You dare to compete with me?

If Lin Yi said yes, wouldn't it make you look like you're better than me? Where is my face?

These thoughts only existed in su Lu's mind. To others, it seemed like Gale su Lu was declaring his support for Lin Yi!

Ye da Xi and su Lu both supported the same person, which was a rare sight. Everyone had to think twice-was there a need to piss Lin Yi off again?

"Gale! Assault!"

Su Lu did not stop after killing the captain. Although he had kept his saber, it did not mean that he would not attack again.

"Wind! Wind! Gale!"

Su Lu's four elite soldiers shouted in unison. They appeared beside the rest of the fleet like ghosts and formed a small arrow formation. They pierced through the fleet like lightning.

The majestic slogan had yet to fall when the blood on the butcher's knife had already slid down!

Those guys who had lost their Captain were still in a state of panic. They did not expect that they would follow the captain's footsteps and rush to the road to death.

"Su Lu, you've gone too far!"

Ye Daxi glanced at su Lu indifferently, and the smile on his face disappeared.

A bloodthirsty glint flashed across su Lu's eyes, and he coldly said, "hypocrite!" Then, he turned around and left, as if he didn't want to stay in the same place as ye Daxi.

Ye da Xi was the only one who had the right to reprimand su Lu, but he was powerless to restrain him. The other fleets kept quiet out of fear!

It didn't matter if they could get two spots in the mystic region or not. What was important was how they could go back alive.

Everyone made a living on the sea. As long as there was a route, no matter if it was a good route or not, they could at least stay in the top twenty fleets. But if they lost their lives, so what if they got the quota to sail to the mystic Sea?

"Alright, everyone can leave now! I hope that everyone can take this incident as a warning and not commit it again. Otherwise, everyone will be punished!"

Lin Yi's last sentence was extremely cold, and combined with the corpses on the ground, it was even more convincing.

Then, everyone dispersed again to look for the task item. However, to everyone's surprise, the probability of finding it this time was greatly increased!

In a short period of time, he had already found enough task items. As long as the invisible barrier was removed, he could immediately return.

According to the agreement, everyone exchanged the quest items in their hands. As long as they didn't need it, they could exchange it. The atmosphere was rare and harmonious.

"There are still six hours left, which is the twenty-four hour time limit. After the twenty-four hours, all of our points will be equal. Other than the last few who will be penalized, the rest will only get eight points. Everyone, do you have any suggestions about the invisible barrier?"

Lin Yi's spirit sense had been observing the invisible barrier, but he didn't find any changes. It was still impassable.

In terms of time, if they set off now, they would still have more time to return to the starting point. If they delayed for another two hours, they would basically have no choice but to enter the later sequences.

"We've basically searched every corner of this Island, but there's nothing special about it. The only suspicious thing is the cave on the mountain peak. At first, we thought it was the cave of some spirit beast, but in fact, there's nothing inside, and we haven't seen a single spirit beast. Could the invisible barrier be related to this?"

Someone told him what he saw, not knowing that Lin Yi had more information than him.

The only strange place was the cave on the mountain! The barrier around the entire Island was probably because of the spatial formation in the cave.

"That's possible. I've been to those caves before, and there's something strange about them. How about this, I'll continue to investigate and find a way to break out of our current predicament. But I'm worried that you'll leave first after I break out of it ..."

"That's why I want you to drag all the small rapid-speed ships to the shore, and our ships can approach the fog first. Once I succeed, my people can leave first. Do you agree?"

Lin Yi did have the intention of exploring the cave again, but it was more important for ao Tianba and the others to get a good starting position first.

As soon as the invisible barrier disappeared, ao Tianba and the others would be able to rush back. As for Lin Yi, they didn't have to worry at all. With Thunder escape and ghost speed wings, no matter how far they ran, Lin Yi wouldn't be able to catch up.

"Brother ao Tian, if they agree to this, you don't have to be polite. Quickly board the ship and prepare to leave. Don't worry, I'll catch up with you soon."

Lin Yi used a voice transmission to inform ao Tianba, followed by Zhang jinmiao and Shangguan LAN 'er. As for the fifth brother, he didn't need to say anything-with ao Tianba around, there wouldn't be any problems.

"Alright, I understand. Be careful."

Ao Tianba took a storage bag from Lin Yi. Inside were the things and sea maps needed for this mission. As long as they could go back, these were the guarantees for ao Tianba's fleet to get a Mystic class sea navigation quota.

Chapter 6408 Spatial Scale

"No problem, Lin Yi. Your idea is very good. Since you're willing to take the risk, Captain ao Tian should get some special treatment. You're on the island, too. Although you've given Captain ao Tian the advantage of being the first to attack, he won't leave you behind!"

Ye Daxi smiled and nodded, pointing out Lin Yi's weakness for everyone to know.

As for whether it was really a weakness, that would depend on the opinions of the people!

"I'll go with you!"

Su Lu wasn't as good with words as ye da Xi. He said that and left with Lin Yi.

He could still remember what had happened in the cave. To be honest, su Lu was very interested in the cave as well. The situation inside was worth studying!

With a flash of lightning, Lin Yi left the beach with lightning escape. Whether su Lu could catch up to him or not was none of his business.

Lin Yi didn't stop in front of the first cave, but continued to the second cave!

When he and su Lu entered the cave for the second time, there was no spatial anomaly. Therefore, he wanted to try another one this time.

His spirit sense still couldn't reach into the cave, and Lin Yi even wondered if the entrance was actually the edge of another space, which was why his spirit sense couldn't find anything.

With that thought, Lin Yi walked into the cave.

He and Shangguan LAN 'er had been here once, but they had found nothing except for the restriction of the divine sense. This time, because of the concept of the spatial formation, it seemed a little different.

"Senior ghost, can you sense any spatial fluctuations?"

Lin Yi asked the ghost as he used his spirit sense.

That damned thing was a level-nine array master, after all. Even if he could not see through the array here, he would still be more sensitive to the subtle spatial fluctuations.

"There are no fluctuations, but the space here is indeed a bit strange! The seemingly normal space is actually filled with tiny gaps. I don't think it's right to call it a gap. Let me think of a way to describe it!" The ghastly thing pondered for a moment before continuing,

"It should be said that the space here is similar to your human hair. It looks very smooth, but it is actually made up of fine scales. They are usually closed, but when divine sense flows through, these fine spatial scales will open, forming layers of obstacles."

"Senior ghost, if you put it this way, fish scales or dragon scales can also be used to describe it, right? Why did you use such exquisite scales?"

Lin Yi understood the main point, but he couldn't help but comment.

"Because fur scales are softer. Fish scales and dragon scales are too hard, so the effects are completely different, especially dragon scales!"

The ghastly thing laughed strangely, not minding mentioning things like dragon scales that could easily trigger sad memories.

"Well, before, I felt that the extension of my divine sense in this cave was not very smooth. I thought it was caused by the restriction of my divine sense, but now that I think about it, it's because of the space scale! Senior ghost, is the formation of these spatial scales due to a formation?"

Lin Yi changed the topic and continued to ask questions about formations.

Although his current array Dao level was not bad, there was still a long way to go compared to the ghost. Some theoretical things could be analyzed more thoroughly by the ghost.

"It's possible, but I think there's another possibility, and that is that these tiny spatial scales form the space Array in the cave. Unfortunately, my research in this area is too shallow, and I haven't found any clues! Otherwise, I can do some research. "

This time, the demonic thing admitted its own shortcomings. It was the truth. If it couldn't do it, it couldn't do it. There was nothing to be embarrassed about.

"Let's look carefully for the source of these spatial scales. Maybe we can find something."

Lin Yi didn't want to give up just like that. He came here to find a way to leave this Island, and he had to try no matter what. What was the point of coming here otherwise?

The ghostly thing did not object to this. The strength of the two's divine senses combined was greatly increased. When they slowly swept through the space of the cave, the rising and falling of the spatial scales became more and more obvious!

They also found that these spatial scales did have a fixed pattern, and the direction of their arrangement all extended from the inside.

"Hey, Lin Yi kid, you think you can get rid of me like this? No one can shake me off wherever I, Gale Sulu, want to go!"

A figure flashed at the entrance of the cave. Su Lu rushed in with a Swoosh. From his tone, he seemed to be quite proud of falling behind by so much.

This guy's brain circuit was indeed different from others! It was better to ignore him ...

Lin Yi looked back at su Lu and continued his investigation. Time was of the essence, and he didn't have the time to waste on this guy.

The corners of su Lu's mouth twitched. He resisted the urge to stab the kid in the head and tried to remind himself to maintain his composure!

What he didn't know was that the lonely master he'd always thought of himself as was nothing but a clown in Lin Yi's eyes ... If he'd known that, he'd probably go up to Lin Yi and chop him into pieces right away.

Lin Yi and the ghost were still scanning the area, but the spatial scale started to fluctuate after su Lu entered.

"What's going on? Was su Lu born with the ability to be rejected by space? Why is there a sudden change as soon as it appeared?"

Lin Yi didn't understand. The first cave was the same. Nothing happened when he and Shangguan LAN'er went in, but su Lu was attacked immediately, almost dying.

And it was still the same now?

Su Lu went into a defensive stance without Lin Yi's reminder. He was like a cat with its hair standing on end. The long blade as thin as a cicada's wing was already in his hand. The blade was glowing, and it was ready for the most powerful attack.

"There's killing intent again! Lin Yi, you're a jinx! Danger lurks everywhere we go!"

Su Lu wasn't pleased, and he didn't forget to mock Lin Yi while being on guard.

Lin Yi didn't know what to say-who was the real jinx? Is there still justice?

"Don't worry about that idiot. Senior ghost, take this opportunity to pay attention to the changes in space!"

Lin Yi didn't want to bother with su Lu. He was observing the spatial scale's movement with the ghostly thing.

Su Lu's arrival was like a stone being thrown into a pool of still water. Ripples were created in the still water, and now was the best time to find the pattern in the ripples.

The spatial scales seemed to have been stimulated by something, and a part of them began to gather together. As a result, a gap immediately appeared in the originally extremely regular arrangement!

Chapter 6409 Attack Attribute

Lin Yi didn't pay much attention to it at first, but he suddenly realized that this was a spatial crack!

Although it was so tiny that it was undetectable by the naked eye, and there was no violent aura inside, it was indeed a spatial Rift!

Lin Yi suddenly thought of Wang Shiyang-he had the ability to teleport, would it be easier for him to determine the situation if he was here?

After all, teleportation was essentially opening a spatial passage, instantly appearing from one spatial node to another.

Wait a minute! Could it be that something was about to teleport out of this newly appeared tiny spatial Rift?

Lin Yi's heart skipped a beat, remembering the small light spot in the first cave. Was su Lu going to trigger that light spot again?

"Su Lu, get out of the cave!" Lin Yi shouted subconsciously. The light was as small as a speck of dust, but the spatial power it contained was enough to tear the space apart and create violent spatial cracks.

It's too dangerous to stay here!

Lin Yi instantly made a judgment. He couldn't be bothered to continue observing the spatial scale's changes. He turned around and left with su Lu.

This time, su Lu did not have the time to attack, and the crack in the spatial scale did not attack them immediately. Therefore, the two of them left the cave successfully. The entire deserted island shook slightly again.

"Hey, why are you pulling me? I still want to see just what kind of thing actually dares to attack us while hiding in the dark!"

Su Lu looked very dissatisfied, and he immediately added, ""You're always such a hindrance. If you don't accept my challenge, it'll be too unreasonable, right?"

"If you want to see it, then go in again! This time, I won't pull you back!"

Lin Yi shrugged, thinking that he'd been a busybody-he should've let the guy hold on."Also, when I pull you, if you don't want to go, can I pull you?"

Su Lu was stunned. There was nothing wrong with that. He was speechless!

The difference in strength between the two was like heaven and earth. If he didn't want to leave, theoretically speaking, Lin Yi couldn't pull him.

Since he had nothing to say, he might as well change the topic!

"Challenge! Do you dare to accept it?"

Su Lu continued to persevere.

"Are you the commander of the second-ranked fleet? Why are you so free?"

Lin Yi was speechless as well. He turned around and left after that.

I really can't communicate with this guy. I'd better hurry to the next cave.

"Senior ghost, was the shaking earlier caused by the displacement of the spatial scales in the cave? If we continue like this, is it possible to open the invisible barrier around the deserted island?"

Lin Yi remembered that every time they entered the cave, there would be a tremor. The first tremor also happened after Lin Yi and Shangguan LAN 'er entered the cave.

Although the two of them had entered two caves, and the tremors only started after a while, it was understandable that the tremors were delayed. Perhaps it was because su Lu and Shangguan LAN 'er's combined strength was not as strong as su Lu's, so it was understandable that the tremors started later.

"It's possible. Let's go to the third cave. If it's still the same, we can be sure! As for whether or not it can open the invisible barrier, I'm not too sure. "

The damn thing also thought that this was the only thing they could do right now, and it was also safer. He didn't want Lin Yi to be in danger.

"I'm more concerned about su Lu. What's up with him? Why would it have such a strong stimulating effect on the spatial scale? Could it be that he has a grudge against the person who set up the space Array, so the array automatically activated after sensing his aura?"

Lin Yi was just making a wild guess-it'd be helpful if he could figure this out.

"I didn't find anything on that brat that could stimulate spatial fluctuations. Perhaps he really has a grudge against the person who set up the formation? Or perhaps his ancestors had a grudge against the person who set up the formation? Looking at that kid's appearance, he's a person who likes to cause trouble everywhere and make enemies with others. I guess his ancestors were the same. "

The ghastly thing laughed strangely, but its words were really meaningless.

Lin Yi stopped for a moment at the third cave entrance, and su Lu followed him.

This guy's speed was indeed something to be proud of. Whether it was his ability to control a warship or his personal ability, he was worthy of the name 'Gale'. Of course, he was also worthy of the name 'mad rush' when talking to him ...

"Don't go in. This time, I'm going in alone. With a jinx like you following me, it'll be much more dangerous!"

Su Lu caught up to Lin Yi and pulled him to the side, glaring at him with disdain.

Lin Yi didn't know what to say-he didn't know what to say to that, but Lin Yi didn't mind since the guy wanted to go in himself. He could use this chance to observe him and see what was so different about him.

"Go, go. But let me remind you first, you jinx is the main reason for the danger in the cave. Be careful when you go in. Don't expect me to save you this time!"

Lin Yi waved his hand disdainfully at su Lu.

Su Lu felt uncomfortable all over, especially the edge of his long sword. He wanted to slash Lin Yi a few times.

"What a joke! You're just a piece of trash in the xuansheng stage, and you have the nerve to say that you're going to save me? Do I need you to save me? Is there a need?"

Su Lu raised his chin and looked down at Lin Yi with disdain. I've already let you off seven or eight times today, and you're still trying to save me?

Lin Yi shrugged as if he didn't want to talk to him. He pointed at the cave, signaling for su Lu to go in.

Su Lu snorted and strode into the cave with his head held high. However, he immediately changed his attitude after he entered. His entire person was filled with a strange tension. The long blade of his saber glowed brightly. He was in his most alert state.

Lin Yi took two steps forward and walked to the edge of the cave. His spirit sense could only be extended inside the cave, and it was completely blocked outside.

This time, Lin Yi and the ghost combined their senses and started to observe the relationship and changes between su Lu and the space scale.

Although su Lu's divine sense wasn't weak compared to his peers, it was incomparable to Lin Yi's combination. He didn't notice Lin Yi's peeping at all.

"This kid's momentum is strong, and his combat power is not weak. When he uses all his strength, he might be able to compete with a cultivator in the early stage of the sea shattering realm for a short time, but he will lose in the end. When he advances to the consummate level of the earth splitting realm, he might be able to fight against ordinary cultivators at the early stage of the sea splitting realm. At the very least, he won't be defeated so easily. "

The damn thing admired su Lu's combat ability. Only geniuses could challenge those of a higher level, let alone those of a higher level.

Chapter 6410 The Strange Saber

"Senior ghost, we don't need to focus on su Lu's combat strength, do we?"

Lin Yi quickly pulled the ghost's attention back to the main topic. He didn't have the time to care about su Lu's strength now. The space scale was already reacting!

"I still can't find anything wrong. Is the change in the spatial scale really just because of su Lu?"

The damn thing didn't know what was going on either-why didn't it react to Lin Yi and Shangguan LAN'er? What was so special about su Lu?

"Wait, senior ghost, did you notice where su Lu took out his long saber?"

Lin Yi suddenly remembered that su Lu never used a long sword before, but it always appeared in his hand when he was about to use it.

Su Lu had a storage bag as well, but it was obvious that he did not take the saber out of his storage bag. Where did he usually hide his saber?

"If you put it that way, I really haven't noticed!"

The damn thing was a little confused too. He had never paid attention to su Lu before. He had only commented on him when he was trying to find out the reason. How would he know where the kid had hidden the saber?

Su Lu did not have a saber in his hand before he entered the cave. However, the saber was already in his hand when he entered the cave!

Lin Yi and the ghost didn't notice this, so they couldn't be sure.

"Su Lu, come out for a moment. I have something to ask you!" He said.

Lin Yi felt like he'd found a clue, and he wanted to call su Lu out.

Lin Yi knew something wasn't right as soon as he said that. Would he still be su Lu if he could call him out with a simple sentence?

The more you call him out, the more he probably won't come out. He won't stop until you're driven crazy!

As expected, su Lu, who was on full alert, raised his head and sped up his pace arrogantly when he heard Lin Yi's call.

"This idiot! He's really trying to make me anxious!"

Lin Yi didn't know whether to laugh or cry. It was too late to say anything now unless he went over and dragged su Lu out. The problem was that if su Lu didn't want to come out, Lin Yi might not be able to drag him out with his strength.

"The spatial scale's fluctuations are getting faster. Lin Yi, pay attention to the formation process of the spatial crack! If you can comprehend it, it'll be very helpful for your mastery of spatial power in the future, whether it's setting up spatial-related formations or directly using spatial-related skills, such as teleportation, spatial tearing, etc., It'll be extremely beneficial. "

The damn thing knew that this was a rare opportunity, so it wanted Lin Yi to observe and learn.

He didn't want to let go of such a good opportunity. To be able to observe the formation of the spatial crack at a close distance was more precious than some bullsh \* t navigation quota in the mystic Sea.

It was the same for Lin Yi-if it weren't for ao Tianba, he would've stayed here for a few more years to study the formation and arrangement of these spatial scales!

As long as he could understand a little bit of it, his ability to set up spatial teleportation arrays would be greatly improved!

"Yes, I know!"

Lin Yi replied and used his spirit sense to see that a small spatial crack had formed, and a dust-like light spot flew out from it.

Su Lu's blade light flashed by first and landed on the crack before disappearing. It was exactly the same as the first time, but the only difference was that he didn't need Lin Yi's lightning arc to help him. He swung out a second blade light and blocked the faint smile's light in the middle. Then, he used the force to fly back at an extremely fast speed.

"Let's get out too!"

The thing reminded Lin Yi that the next wave of spatial fluctuations would be destructive, and Lin Yi's body wouldn't be able to take it.

He didn't need to be reminded-Lin Yi had already taken a step back!

He took a step and stood outside the cave. At the same time, su Lu flew out as well. A deep, muffled rumble was heard in the cave.

Looking inside from the hole, no change could be seen, as if there was an invisible barrier around the hole, not only blocking the prying of the soul consciousness from the outside, but also all the movements inside.

At the same time, the entire deserted island shook again. It seemed that this shaking was indeed directly related to entering the cave.

Lin Yi felt that the inside and outside of the cave were like two different spaces. No matter how big the changes were, the people outside wouldn't be able to see it. However, sound could be transmitted. It was amazing.

"Are you alright?"

Lin Yi asked out of concern after seeing su Lu's sorry state. He wanted to know where the man kept his saber, so he decided to show some kindness.

"What can happen to me? Are you alright? Did you get scared?"

Su Lu puffed out his chest and looked at Lin Yi arrogantly, as if he was too weak and he should take good care of Lin Yi.

Lin Yi suddenly felt that the spatial crack was too stingy-why did only one light spot come out? he should've used a hundred or eighty to kill this idiot!

"Where's your saber? Are you too afraid of falling in?"

Lin Yi knew that there was no point in talking to su Lu normally, so he had to goad him into talking. Only then would he get the answers he wanted.

"What a joke, my saber will fall? Even if you fall in there, my knife won't fall!"

Su Lu looked at Lin Yi with disdain, as if he was saying that a country bumpkin like Lin Yi who had never seen the world was really pitiful. He'd open his eyes today!

The long blade appeared in su Lu's hand out of nowhere and he waved it around Lin Yi's body a few times. The blade light was dazzling.

Lin Yi smiled faintly-he knew that asking him normally wouldn't get him anything, so he pulled out the knife after provoking him a little.

"Senior ghost, can you tell where the saber is?"

Lin Yi's main goal wasn't to see su Lu's sword-he wanted to know where it was.

"I'm getting a rough idea. I didn't expect this guy's saber to be so powerful. If I'm not mistaken, the saber has the ability to mess up space. The saber has always been with su Lu, but it's not with him!"

"To be more precise, the saber is usually hidden in an independent space that it created itself, or in another parallel dimension. Su Lu is connected to the saber through his divine sense. When he needs it, he can swing the saber to kill his enemies with a thought. It's the best way to trick people!"

The ghost seemed to be very interested in the sword. This was the first time he had seen a weapon that contained the laws of space.

Storage bags and rings had spatial rules as well, but they were completely different from su Lu's blade. It was a bit like Lin Yi's Jade space, where he could send and receive things with his mind.
