Chapter 6421 Horned Thundercloud Beast's Horn

Shangguan LAN 'er happily pulled Zhang jinmiao upstairs, naturally not forgetting to pull Lin Yi along.

The female Xiu was also very happy. When she heard the words "return with a full load," she seemed to see her own money bag returning with a full load!

She was in charge of Lin Yi and the other two, so she'd get a cut for all the transactions. Just these golden core items alone were enough for her to earn a small profit!

If Shangguan LAN 'er continued to buy things without any reason just for the sake of looking good, she would definitely make a lot of money!

"LAN 'er, you shouldn't just focus on the good-looking ones. Forget about the low-level items of the Golden core stage and the original infant stage, but you can't just buy materials and items of the xuansheng stage and above. Some of them will only do you more harm than good!"

Zhang jinmiao reminded him with a serious expression. If he really bought something that conflicted with his attributes, it would not be good for his cultivation at all!

Low-level items didn't have much of an impact, so it didn't matter. However, when it came to the same level, he couldn't mess around.

"I know. Master is here, so I'm not worried."

Shangguan LAN 'er held Zhang jinmiao's arm and acted coquettishly, but Zhang jinmiao could not resist it at all.

Seeing this scene, the female cultivator at the side instantly felt a little envious. How good would it be if she could have such a powerful master who doted on her? Unfortunately, she could only think about it.

"Three seniors, the second floor has a lot less goods. Most of them are for those at the original infant stage. There are also a few for those at the mysterious Ascension stage. The third floor is for the honored guests. All the goods are for those at the mountain opening stage and above. Should we take a look at the goods on the second floor first?"

The female Xiu didn't forget her duty. She led the way while respectfully asking for instructions.

"Hmm, let's take a look at the one on the second floor first!"

Shangguan LAN 'er nodded her head vigorously. She was only interested in the second floor.

She didn't need the VIP room yet. Didn't she hear her master say that even if it was good stuff, it would be more harmful than beneficial if she didn't buy the right thing!

She was still far away from the mountain-opening period, so she naturally didn't need to consider the things on the third floor.

There were far fewer people on the second floor. After all, nascent soul cultivators were considered quite powerful experts in torrent city, so they wouldn't come to the Chamber of Commerce often.

"Eh, there's a concentration Pearl here. It's quite a good thing! LAN 'er, this Pearl is very useful for your current level. Master will buy it for you!"

Zhang jinmiao saw a small silver-gray bead at first glance. It was slightly bigger than a pigeon egg in the secular world, and she immediately bought it with a happy expression.

Lin Yi nodded to himself-Zhang jinmiao had good taste!

The focus orb was indeed a good item, but it was only effective for cultivators at the xuansheng stage and below.

What was more embarrassing was that the function of the mind concentration Pearl was to help stabilize the primordial spirit when cultivating the primordial spirit and divine sense. In other words, if one did not cultivate the divine sense, the mind concentration Pearl would be useless.

It was common knowledge that the Sky Class Island, the yellow Class Sea area, and other islands would only come into contact with this area of cultivation after the mountain-opening period.

However, at that time, the mind calming Pearl would not be of much use.

Other than those who specialized in spirit sense, only Lin Yi and a few people around him would need it.

However, from Zhang jinmiao's expression, it seemed like the mystic Sea region's Academies also had this aspect of cultivation!

There was a course to cultivate spiritual sense before the mountain-opening period. The mystic Sea region was indeed qualified to be above the Golden sea region!

"Thank you, master. This Pearl is so beautiful!"

Shangguan LAN 'er's judgment of value seemed to be based on whether she was beautiful or not ...

Lin Yi really wanted to ask Shangguan Tianhua how the old man trained his successor.

"Senior, you really have good eyes. The quality of this mind calming Pearl is quite good. It's definitely top quality. It's an honor to have a master like miss LAN 'er!"

The female cultivator was overjoyed and said a few words of flattery at the right time. Everyone was happy.

After looking around, there were a few more accessories for Shangguan LAN 'er, all of which were nascent soul items, but Zhang jinmiao and Lin Yi didn't pay much attention to them.

In the VIP room on the third floor, Lin Yi found something he was interested in!

It was the most precious horn of a single-horned thundercloud beast in the earth formation stage. The three-foot-long silver-white horn was surrounded by lightning and exuded a faint power.

This horn was the best material for refining weapons!

If it was handed over to a weapon forging master, it would be enough to forge an extraordinary lightning weapon!

But to Lin Yi, it would be a waste if it was made into a weapon!

He was deducing the third level of the Thunder escape technique. The lightning eel had given him a lot of inspiration, but he was still a little slow in his progress of combining his body with the Thunder.

Now that he saw the horn, Lin Yi was overjoyed.

Spirit beasts and sea beasts were two different races. The body of the lightning eel and the horn of the horned thundercloud beast were completely different, but the lightning was the same!

With this horn, Lin Yi had hope of verifying his deduction in another way and making huge progress!

"I want this horn. How many spirit jade pieces?"

Lin Yi said as he pointed at the horn. He didn't care about the price at all.

The Lin Yi of today had long passed the period of worrying about spiritual jades. He didn't even know how many spiritual jades he had with him.

If it wasn't enough, he could just sell a few pills. It didn't matter if it was pills from human cultivators, spirit beasts, or sea beasts. There was no problem!

To an alchemy Grandmaster, spiritual Jade was really just a number!

"Senior, the horn of this earth-formation stage horned thundercloud beast is quite complete, so it's quite precious. Our price is five million spirit Jade."

The female Xiu was full of joy. Things at the earth opening stage couldn't be sold normally because no one needed them. She didn't expect that someone would actually want them today.

Although the horn of the single-horned thundercloud beast was a precious tool refining material, it was normal that no one cared about it.

The first reason was that the Horn's grade was relatively high, and it was made from earth-opening materials. It was not something that ordinary blacksmiths could do!

The second reason was that there were very few people who could use it. Apart from the level, there were also very few lightning element cultivators. Since torrent city was not a major city in the Golden sea region, it was normal that it could not be sold.

Just like the focus orb on the second floor, it was indeed a good item. If it fell into the hands of the person who used it, it would not be a problem no matter how expensive it was. The problem was that for most people, it was of little value!

It was truly a waste to have the flower spiritual Jade on display. The four Seas Pavilion did not have any hopes of selling these items, and merely wanted to use them as products to raise their grade.

We are just showing our guests that the four Seas Pavilion has good stuff. The concentration Pearl and the horn of the horned thundercloud beast are both really good stuff!

It's just that you guys don't need it. If you guys don't need it, are you guys going to blame me?

Chapter 6422 No More Chances

"I'm taking it!"

Lin Yi took out a Blue Spirit Jade card and handed it to the female cultivator without a second word, exuding the aura of a rich man!

"Senior, our price is 5 million, but I can give you a 10% discount!"

The female cultivator's heart was trembling. She had already said that she would only give a discount. If she pretended not to know, she would be offending him.

Thinking about how she could take 1% of the transaction amount for every transaction, five million would be 50000 spiritual Jade!

After the 10% discount, he would lose 5000 spiritual jade pieces. How long would he have to work to earn that amount?

"You can go with the discount, but you don't have to give me the change. Give me the spiritual Jade as well as all the scattered items from before. I'll give you the extra as a tip."

Lin Yi was in a good mood-buying the horn would greatly increase his speed of learning the third level of lightning escape.

Even if the horn was worth 50 million spirit Jade, he would not hesitate to buy it, let alone five million spirit Jade!

Therefore, a discount of a few hundred thousand spiritual jades was really a drop in the bucket.

This time, the female cultivator was really excited. The things that Shangguan LAN 'er bought were not worth much at all. The most expensive one was the mind calming Pearl!

However, that was a gift from Zhang Yingluo, and the bill had already been settled. The rest of the money that was prepared to be paid for together would not exceed two hundred thousand spirit Jade.

That was equivalent to Lin Yi giving her three hundred thousand spiritual jades. How generous was that?

Coupled with the Commission from this transaction, the female cultivator felt that she could take a leave of absence and go back to cultivate in seclusion. With so many spiritual jades, she might be able to break through a major realm and then come back to wait for such a generous customer to tip her ...

"I'm not selling the horn of this one-horned thundercloud beast!"

Just as the female cultivator reached out with a trembling hand to take the Blue Spirit Jade card, a deep man's voice suddenly rang out. She immediately retracted her hand as if it had been bitten by a venomous snake.

Lin Yi's face darkened immediately. The horn was one of the important materials for him to learn the lightning integration technique. He was confident that he could succeed without the horn, but it would be faster and more confident with the horn!

At the crucial moment, this could save their lives. Who was so insensible to interrupt when the transaction was about to be completed?

"City Lord!"

The female cultivator's face was pale, but she still respectfully stepped aside and bowed to greet a middle-aged man with a full beard.

"The city Lord? The city Lord of torrent city? What right do you have to interfere with my business?"

A dangerous light flashed in Lin Yi's eyes. From the looks of the bearded man, he looked a bit like the dead Qian Xiaodong. It must be his old man.

She didn't know where this guy got the news from, but it seemed like he recognized Lin Yi as Qian Xiaodong's killer. Was that why he came?

"Senior, our Four Seas court is the property of the city Lord's mansion. This is the city Lord of our torrent city, and also the pavilion master of the four Seas Pavilion. "

The receptionist had a good impression of Lin Yi, and quickly introduced him to the man.

Although she was heartbroken to lose the hundreds of thousands of spiritual jades as a reward, she did not dare to have any objections when she was facing the city Lord.

"Do you understand? Everything here is mine. If I say I'm selling, I'm selling. If I say I'm not selling, I'm not selling!"

The bearded man glanced at Lin Yi coldly before looking at Zhang Jinmiao with extreme fear. He then spoke to Lin Yi in a tough tone.

"You're open to do business now, and the goods are on the shelves with clear prices. I'm trading according to the rules, and you can't sell them just because you want to? Don't you think you should give me an explanation?"

Lin Yi was already suspecting that this guy was here for Qian Xiaodong's incident-if he wasn't wrong, the hidden death sect assassins were probably connected to him.

He just didn't know how this guy knew that he was the one who killed Qian Xiaodong, and how he recognized him.

"Rules? In torrent city, I, Qian henduo, am the rule! Why? Just because you're strong, you want to force us to buy and sell?"

Qian henduo looked at Lin Yi with disdain and hatred-Lin Yi was certain now.

'This guy really knows about me and Qian Xiaodong!

"Forcing a deal? What a joke! I'll bid however much you've set. What's there to force a deal? If you're not selling it today, I'm going to buy it!"

Lin Yi laughed coldly, his anger rising!

If the assassins from hidden death sect were really hired by Qian henduo, so what if they destroyed the entire flowing current city?

A mere city Lord at the consummate level of mountain split really thought that he was very impressive?

Lin Yi didn't even need to do it himself-he could just order a spirit beast to do it, and the idiot would be dead.

With a crisp cracking sound, Lin Yi lifted his hand and broke the restriction on the beast. He put the horn back into his storage bag and threw the blue jade card back where the horn was.

"How audacious! How dare you Rob the four Seas Pavilion in my torrent city? Do you really think I can't do anything to you?"

Qian henduo was furious, but his eyes were filled with pride.

As the city Lord of torrent city, as well as the pavilion master of the four Seas Pavilion, he had to be careful when he did things. For example, he couldn't attack Lin Yi without a reason!

Lin Yi was here to attend the Association's meeting-there was no reason for him to start a fight. It'd be the same as falling out with the Association, and he couldn't afford that.

In order to make the flowing city transportation portal the venue, Qian henduo had invested a lot of money. Of course, he wouldn't destroy it himself, but it was different if Lin Yi took it first-it was an excuse that came right to his door!

As the city Lord of torrent city, if he did not dare to fight back after being robbed, how could he survive in the future? He could directly get off the stage.

"Robbery? You call a normal transaction a robbery? In the future, will there still be people from your Four Seas court coming to buy things?"

Lin Yi smiled in disdain-he wanted to see what other hidden cards Qian henduo had up his sleeve. It couldn't be that he was still an assassin from hidden death sect, could it?

Unless he hired six or seven sky rank killers from hidden death sect, Lin Yi really didn't care about them!

After all, most of the heaven-ranked killers were still in the earth-opening stage. With nine little spirit beasts, if three or four heaven-ranked killers dared to show up, they might not be able to withstand the outbreak of the little spirit beasts!

Moreover, there was Zhang jinmiao, an expert of the great circle of earth splitting, here!

"You don't have to worry about whether there's anyone here to buy anything, but you won't have the chance to come again!"

Chapter 6423 Breaking The Array In The Blink Of An Eye

Qian henduo's full-bearded face revealed a sinister smile. He raised his hand and threw out an array flag, causing the entire Four Seas Pavilion to change.

Lin Yi almost laughed out loud-so Qian henduo's trump card was this trap and kill array?

He had to admit that this deathtrap array was indeed of a certain standard. It was barely at the edge of a grade 8 deathtrap array!

With Lin Yi's array skills, it was already very difficult to break out of this level 8 trap and kill array without getting hurt, not to mention bringing Zhang jinmiao and Shangguan LAN 'er along.

But if Lin Yi couldn't break it, there was still something else!

Recently, the damn thing had been very depressed in the array Dao. He couldn't find any trace of the deserted island's Space Array. He finally had half a Space Array flag, but he still couldn't figure out anything!

Right now, Qian henduo had activated a grade 8 deathtrap array, just in time for that damned thing to come out and relieve its boredom.

"Brat, learn well. Your talent in the array Dao is not bad. If you practice a few more times like this, you might be able to advance to a rank 8 array master very quickly."

The ghost didn't forget to give Lin Yi some encouragement as he guided him.

If Lin Yi's array skills could catch up to the ghost's, then the two could study half a Space Array flag together, which was the most ideal for the ghost.

The damn thing used to think that Lin Yi's progress in formations was really fast, but now it was complaining that he was progressing slowly!

At the end of the day, it was Lin Yi who couldn't help him and kept asking him to help, delaying his study of the space Array flags ...

"I know, I know. I'll work hard!"

Lin Yi replied nonchalantly as he waved his formation flags around.

Of course, he would put in the effort to study array Dao, but all his thoughts were on the third level of the lightning escape technique!

If everything went well, he might even be able to deduce the fourth level as well. This was much more important than studying the array Dao. After all, if there was a problem with the array, there would be damned things coming out to help!

However, if he couldn't defeat an expert, that damn thing wouldn't be able to help him escape! You can't possess me every time, right?

Qian henduo's smug smile froze on his face, and he couldn't even close his mouth!

He had never imagined that this grade 8 deathtrap array, which he had paid a huge price to hire a formation master to set up, would actually go completely out of control in just a few short breaths.

To be more precise, the control had been transferred to Lin Yi!

This was simply unimaginable. Why did it turn out like this?

Wasn't this kid an alchemy Grandmaster? Could it be that the information was wrong, and he was actually not an alchemy master, but an array master?

Zhang jinmiao was just as shocked-the more she spent time with Lin Yi, the more she felt that he was unfathomable!

She didn't know much about arrays, but she could clearly feel that Qian henduo had activated a very powerful and high level trap & kill array, but Lin Yi had easily taken control of it!

She really wanted to know how Lin Yi did it. Even if he knew about arrays, he shouldn't be this strong, right?

"Qian henduo, city Lord Qian, you're saying that I won't have the chance to come and buy things, right? Then I'll have to buy more things. "

Lin Yi removed the trap and kill array and looked at Qian henduo with a mocking expression. He looked around to see if there was anything else that could attract him.

On closer look, there really was one!

There was a box sealed in one of the displays. Lin Yi didn't notice it before, but now that he looked closely, he realized that it was a box of high-level array flags!

It's really like someone giving you a pillow when you're dozing off!

Lin Yi was still thinking that the formation flags he had were all normal stuff, and that they were getting insufficient!

For example, the grade 8 deathtrap array just now. Because of the array flags, he wasn't able to control it completely. All he did was to cut off Qian henduo's control.

It was because of this that Lin Yi dispelled the formation. It was more accurate to say that he broke the formation than saying that the thing was controlling it.

If he had the high-level array flag just now, he would have been able to control it.

"This box of high-grade array flags is not bad. I want it too!"

Lin Yi broke the seal and put the box into his storage bag. He flicked a spirit Jade card over and completed the deal.

Qian henduo's face was red from anger, but he could only swallow his anger. He thought that a level 8 trap and kill array would be enough to kill Lin Yi, but who knew that this would happen?

Lin Yi's arrival was simply too sudden, and Qian henduo didn't expect this to happen at all. If he knew this would happen, he would've prepared a lot of backup plans!

But it was too late to think about it now. She could only swallow her anger and watch Lin Yi's arrogance.

"City Lord Qian, do you have any more tricks to use? If you don 't, I'm going to make you the former city Lord!"

Lin Yi's lips curled into a cold smile as he decided to make his move here.

Since this guy didn't want to let it go, then he would directly kill him!

It'd be too hard to keep being plotted against behind the scenes-Lin Yi had had enough of that assassin these days.

He wasn't a bloodthirsty person, but he didn't feel any burden dealing with someone as evil as Qian henduo.

Zhang jinmiao didn't know what grudges Lin Yi had with Qian henduo, but it was clear that Qian henduo was targeting Lin Yi!

If it weren't for Lin Yi's array skills, the trap and kill array just now would've been enough to threaten the three of them. So she fully supported Lin Yi's statement. Even if Lin Yi didn't make a move, she wouldn't give up so easily.

The vice-principal of Feiyang college in the mystic division Sea area, the chief representative of the recruitment in the Yellow Division Sea area, was almost tricked by a Castellan of the Yellow Division Sea area?

The most important thing was that she had a beloved disciple and a genius she had high hopes for by her side. This was simply intolerable!

"Lin Yi, step aside, let me see how strong this city Lord Qian henduo is, to actually dare to attack us! I don't know who gave him the courage!"

Zhang Jinyue stepped forward expressionlessly, blocking Lin Yi behind her as her aura exploded!

Qian henduo's expression changed drastically. He had been afraid of Zhang jinmiao before and felt that she was a very strong opponent. As for how strong she was, he had no idea.

However, when Zhang jinmiao's aura exploded, he realized that she was a whole level stronger than him!

A master of Grand completion of earth-splitting realm was a top figure in the Yellow Sea region. Qian henduo didn't think he had the qualifications to challenge the other party, so he was already terrified.

Without waiting for Zhang jinmiao to launch an attack, Qian henduo was suddenly sent flying backward, directly crashing into the wall!

When he activated the array earlier, the defense array that was usually activated was already shut down. After Lin Yi took control of the array, he didn't activate it again, so Qian henduo's full-powered strike created a huge hole in the wall.

Chapter 6424 What Kind Of Explanation Do You Want?

Zhang jinmiao was slightly stunned. After all, she had been in the Academy for a long time. She was indeed very strong, but she lacked the experience to face an enemy. She didn't make a move to stop Qian henduo.

"Help! Someone is robbing the four Seas Pavilion and even wants to kill me!"

Qian henduo used all the true energy in his body and let out the strongest roar he had ever made. Every corner of the city could hear his roar.

If it was any other time, the most powerful person in torrent city would be Qian henduo. No matter how much he shouted, at most, there would only be some soldiers and guards from torrent city.

But it was different now-the Golden class sea route management Association's meeting was here, and there were many masters in the city. As long as someone came, Lin Yi and the others wouldn't dare to do anything to him.

Moreover, the people of the yellow-class sea route management Association would never allow someone to kill the host city's city Lord during the conference. It was equivalent to slapping the Association's face!

Lin Yi smiled coldly. Did Qian henduo think he could save his life just like that?

It was simply laughable!

Since he wanted to kill him, Lin Yi would finish him off before anyone interfered!

However, before Lin Yi could make a move, Zhang jinmiao had already chased after him after a moment of shock!

She was really angry. This Qian henduo actually dared to distort the truth and make up lies about robbery and murder. She was the vice principal of Feiyang college. If she was involved in a robbery and murder scandal, how could she continue to educate people in the future?

This bastard deserved to die!

Although Zhang jinmiao had attacked many times in the illusory formation, she had obviously not used her full strength at that time. However, it was completely different this time!

Qian henduo wanted to hurt Lin Yi and Shangguan LAN 'er, and at the same time, he wanted to throw the blame on them. Zhang jinmiao couldn't tolerate this!

And so, she'd finally used her full strength, letting Lin Yi see the Vice Dean's true strength.

Without using any special martial arts techniques, Zhang jinmiao simply used her speed to catch up to Qian henduo. Then, she circulated all her true energy and struck down with her palm.

Qian henduo's face was filled with disbelief and his eyes were filled with extreme fear!

He didn't think that this woman would dare to chase after him to kill him in such a situation. Wasn't she afraid of being surrounded and killed by the people from the yellow Class sea route management Association?

He didn't know that it was because of his stupid actions that Zhang jinmiao, who had always been kind, was now filled with killing intent!

If he didn't die, who would?

"Pfft, pfft, pfft."

With a muffled explosion, Qian henduo was blown up in the air by the extremely powerful true Qi, turning into a dense rain of blood.

Meanwhile, Zhang jinmiao's face was as cold as frost. She used the force of the impact to retreat and stood on the roof of the four Seas Pavilion.

Killing the city Lord of torrent city wasn't a big deal, but it wasn't a small one either. Thus, Zhang jinmiao had to wait for a while for the people Qian henduo had called over before he died to settle the matter in front of everyone.

In just a few breaths, many experts flew over. The one at the front was naturally he Hao, the Vice President of the yellow Class sea route management Association.

Although the old man liked to nag, he was not weak. He was only on par with Zhang jinmiao, and his weakness was limited.

Further back were the captains and elite crew members of the various fleets, including ao Tianba. He wondered if his captain's private meeting had ended.

When he saw Zhang jinmiao standing proudly on the roof of the four Seas Pavilion, ao Tianba was rather shocked!

However, he didn't hesitate at all. He immediately surpassed the other captains and flew to Zhang jinmiao's side, standing beside her.

"Director Zhang, what's going on? Did that person just now say you guys?"

Although ao Tianba stood on his side without hesitation, he still had to ask what he needed to know.

"It's a long story, you'll know soon!"

Zhang jinmiao didn't have time to explain to him, but she still admired ao Tianba's attitude of standing up and facing everyone without asking for the reason.

Lin Yi and Shangguan LAN 'er also jumped out from the broken wall and went to the roof to stand with the two, leaving the shocked female practitioner inside.

"Captain ao Tian, what's happening? Can you give this old man an explanation? The one who died, was it the city Lord of torrent city, Qian henduo?"

He Hao's expression was a little unhappy.

Things were just as Qian henduo had thought. The people from the yellow Class sea route management Association were naturally on his side. The only surprise was that Zhang jinmiao actually chased after him and killed him with a slap!

If Qian henduo had been more prepared and called he Hao over, he might still have had a chance!

It was a pity that he was not prepared at all this time. The result of going into battle with his bare hands was that he died directly.

"Captain ao Tian came after you. What could he know? What explanation can he give you?" Zhang jinmiao smiled faintly and tidied up her appearance. She then looked at he Hao and said,"

"Vice President he, let me formally introduce myself! I'm Zhang jinmiao, the Vice President of the mystic class Ocean Academy, and the head of the mystic class Ocean Academy's admission delegation. I'm here with Captain ao Tian to witness your conference!"

"I didn't expect that we would be attacked and killed when we were shopping in a small shop. They threatened us with a trap and kill array and accused us of robbery!"

"I just want to know, who exactly gave this Qian henduo so much courage? Or is it because the Golden sea division thinks they can develop well, so they're ready to break off relations with the mystic Sea division?"

Zhang jinmiao's words were a little harsh, and he Hao's expression changed several times!

He knew that Zhang jinmiao was very strong, but he didn't expect her to be the main representative of the mystic division sea Academy's recruitment team!

Even though he was just a Vice President, and in terms of actual power, he might not be able to compare to him, the Vice President, but that also depended on where he came from!

It was like a small official from the imperial capital of an ancient empire. He represented the Emperor, and when he came to his place, even the governor had to welcome him with a smile.

"So it's principal Zhang. I didn't know about this before. I've really neglected you!"

He Hao's thoughts turned several times, and he immediately put on a smile and cupped his hands politely to Zhang jinmiao.

He was representing the mystic division to recruit disciples from the Yellow Division. He Hao couldn't afford to offend him!

Otherwise, if she went back to the mystic division in a fit of anger, he wouldn't just offend Zhang jinmiao alone-he'd offend all the big forces in the entire Golden Division!

As for the robbery Qian henduo was talking about? That was simply bullsh * t!

Why would the vice-principal of the mystic division and the head of the recruitment team come to this small place to Rob?

This B * stard had died quickly. If he hadn't died, he Hao would have taught him how to write the word 'death'.

Chapter 6425 Their Points Should Be Deducted

"You're too polite, President he! This time, I'm here in my personal capacity. The recruitment has already ended, so I'm just taking a break from my busy schedule and bringing my disciple here to watch captain ao Tian's competition. I've caused trouble for President he. "

Zhang jinmiao's expression softened, and she nodded at he Hao with a smile.

Since he Hao had given her face, Zhang jinmiao naturally had to be polite as well. She had the ability to show respect to others.

"Dean Zhang, it's rare for you to come to the Yellow Sea area. I wonder if I can have the honor to invite you and your disciple for a meal and tea. I can also ask you for some advice."

He Hao's attitude was extremely humble. After all, Zhang jinmiao was also here to participate in the conference. If anything happened, he, as the Vice president of the Association, would definitely be held responsible.

As for the damage to the four Seas Pavilion and Qian henduo's death, he Hao just pretended not to see it!

He deserved to die, and in the future, he would just have to find a new city Lord to take over the city.

With Zhang jinmiao's reputation, he Hao didn't even ask about the cause of the incident, because it was completely unnecessary.

He didn't know what had gotten into Qian henduo to actually provoke Zhang jinmiao. In any case, it was a sad story of him kicking an iron plate and digging a hole for himself. Hence, he only needed to stand firmly on Zhang jinmiao's side.

"It's my honor to be invited by President he, so I'll accept your invitation. "

Zhang jinmiao nodded with a smile and agreed.

However, she smiled bitterly in her heart. She hoped that this President he wouldn't be so talkative when the time came. That would be too much of a torture!

Thinking about the previous rule commentary, Zhang jinmiao shuddered ... She had never seen someone who could speak so well!

"Hahahaha, it's my honor that principal Zhang is willing to do me this honor! This way, please. "

He Hao laughed and turned to the side. He extended his hand to give Zhang jinmiao face.

"President he, principal Zhang, please hold on! I'd like to ask, is the General Assembly allowed to invite external help? I remember that the rules mentioned that all participants must be fleet members, right? Even though principal Zhang is of noble status, rules are rules. Don't you think this is a little inappropriate?"

It took a lot of courage for someone to come out and provoke he Hao at this time!

Apart from those dorks, only Gu Yunhao, who had a deep hatred for ao Tianba, could do this.

He Hao's face darkened. This was really touching a sore spot!

He could treat Qian henduo's matter as though it had never happened. After all, Qian henduo didn't have much to do with the convention. He had only provided a venue.

However, he could not ignore Gu Yunhao's request.

This was related to the reputation of the Association. He could play dumb, but he had to deal with it decisively.

However, Gu Yunhao, who had exposed this matter in front of him, was remembered by him.

"Dean Zhang, what Captain Gu Yunhao said is true. Why don't you and your disciple watch the competition from the outside?"

He Hao glanced at Gu Yunhao indifferently, then turned to Zhang jinmiao with a smile.

"There's such a rule? I really don't know, sorry for causing trouble for President he! Then we'll do as President he says. "

Zhang jinmiao was shocked, but she also sincerely apologized to he Hao.

"It's no trouble at all. Dean Zhang's presence has added a lot of color to our conference! Moreover, it's not a big deal to not be guilty of ignorance. "

He Hao smiled and waved his hand. As long as Zhang jinmiao wasn't unhappy, everything would be fine.

It was a happy ending for everyone to be able to resolve the matter so smoothly. He Hao was still very grateful to Zhang jinmiao. She was willing to give him face, so at least she was a friend worth making.

"President he, principal Zhang, forgive me for saying something disrespectful, but isn't this way of handling things a little unfair? Dean Zhang's strength is top-notch, so he'll naturally be of great help to the aotian BA fleet!"

"I believe that without Dean Zhang and the others, ao Tianba's fleet would definitely be at the bottom of the rankings! "Therefore, I think that we should deduct the benefits that Dean Zhang has brought from the AO Tianba fleet's points!"

Gu Yunhao was also going all out. He was not targeting Zhang jinmiao, but ao Tianba!

In any case, he only had ten points in total from the two rounds of competition, and he was still at the bottom of the rankings. He might as well go all out and drag Okita soba down.

"Captain Gu, I think you've misunderstood. I didn't help Captain ao Tian as much as you think. LAN 'er is my disciple, and her help to Captain ao Tian is minimal! It would be unfair if Captain ao Tian was punished just because I was here to watch the show. Don't you think so, President he?"

After Zhang jinmiao killed Qian henduo with a slap, her anger had subsided a lot, so she was able to reason with Gu Yunhao calmly and didn't forget to drag he Hao down with her.

"Dean Zhang is right. I've been watching the competition closely. Dean Zhang's strength is undeniable, but he didn't play a decisive role in helping Captain ao Tian."

He Hao immediately nodded and continued Zhang jinmiao's words.

In fact, this was indeed the case. Zhang jinmiao had definitely helped ao Tianba, but it was not unimaginable.

The one who played a decisive role was Lin Yi!

Whether it was the first or second round, Lin Yi was the one who dominated everything!

Without Lin Yi, ao Tianba would've been at the bottom, just as Gu Yunhao had said.

Everything else aside, ao Tianba's fleet would've been the first to die in the first round if Lin Yi hadn't been there.

"President he, from what I know, Lin Yi wasn't in ao Tianba's fleet. He came with Dean Zhang, so he should be excluded!"

Gu Yunhao laughed coldly. He didn't argue about Zhang jinmiao's contribution. Instead, he pointed his finger at Lin Yi.

"Hahahaha, Gu Yunhao, you're the one who's ignorant and ill-informed, who can you blame? Lin Yi was our vice-captain a long time ago, and there's evidence for that. If he's not from the aotian BA fleet, then Who are you?"

Ao Tianba finally seized the opportunity to mock Gu Yunhao with laughter.

As long as Lin Yi's identity was fine, he could have the reason!

After all, Zhang jinmiao had a high status, and it was obvious that he didn't want to offend her. If Lin Yi was fine, then the previous competition was fine as well.

Gu Yunhao's face turned pale!

He'd wanted to lower ao Tianba's points by attacking Lin Yi, but since he'd said it, it wasn't a lie!

This was because all the important members of the fleet needed to be recorded, and they could be found out with a simple check. There was no point in lying about this.

Chapter 6426 The Punishment For Offending Someone

"President he, in any case, ao Tianba's fleet is suspected of violating the rules. If there is no punishment at all, everyone will follow suit in the future. Everyone, don't you think this makes sense?"

Gu Yunhao knew that Lin Yi wouldn't be able to break through this point, so he immediately changed the topic and wanted to drag everyone in the fleet into this.

However, the captains of those fleets were all smart people.

Even if they agreed with him in their hearts, they would never stand out to support Gu Yunhao now!

Anyway, you're already charging into the enemy lines. They just have to wait for the fruits of their labor. When it comes to offending people, it's enough for one person to step forward.

Therefore, Gu Yunhao looked left, right, up, and down. He only saw that the captains of the fleets were all looking down, as if they were cultivating divine arts and were not to be disturbed, as if they were afraid that they would go crazy.

He Hao was extremely displeased. He really wanted to slap Gu Yunhao to death right now!

Everyone's name had a sun Tianhao in it. Was there a need to force him like this?

If he Hao didn't deal with this, the reputation of the yellow-class sea route management Association would be damaged. His impartial and incorruptible image would collapse.

He really didn't think it was a big deal, and if Zhang jinmiao really did play a decisive role in this, like what Lin Yi did was all Zhang jinmiao's doing, then he'd be happy to punish her, but the problem was that Zhang jinmiao really didn't play any role!

If he was forced to punish the aotaba fleet, even he Hao wouldn't be able to get over it. However, he had no choice but to punish them. This was indeed a dilemma!

"President he, since Captain Gu Yunhao insists that Dean Zhang has broken the rules, then our aotian BA fleet is willing to bear the corresponding punishment. We will definitely not make things difficult for the General Assembly."

Ao Tianba saw he Hao's dilemma and immediately stepped forward to take responsibility.

In this way, not only would he be able to make friends with he Hao, but the dissatisfaction in the hearts of many captains would also be completely wiped out!

For people who made a living on the sea, it was definitely beneficial to make more friends. Even if they were competitors, once there were no overlapping conflicts after the sea routes were divided, the possibility of cooperation and win-win was higher.

As expected, when ao Tianba said that, he Hao and the other captains immediately praised him in their hearts!

The timing was indeed perfect. Not only did he solve he Hao's problem, but he had also taught Gu Yunhao a lesson.

Neither he Hao nor the captains of the other fleets had a good impression of Gu Yunhao, who exposed others 'secrets in front of them.

Moreover, he was still unforgiving. Compared to ao Tianba, the gap between them was immediately revealed!

"Since Captain Okita has said so, in order to maintain the fairness of the conference, I will make the appropriate punishment on behalf of the conference!"

He Hao admired ao Tianba in his heart, but he put on a business-like look.

"In view of Dean Zhang's outstanding strength and help to ao Tianba's fleet, the assembly has decided to deduct the additional points that ao Tianba earned in the second round and only calculate the final points. In addition, one point will be deducted from the first round. After all, the other two fleets that cooperated with ao Tianba's fleet also had eight points, so it is reasonable to get nine points in the first round."

This punishment could be said to be quite heavy, which was equivalent to five points being deducted at once. Moreover, he Hao's reason was very convincing, and there was no way to argue with it.

However, everyone knew in their hearts that he Hao had still been merciful. Since ao Tianba had taken the initiative to ask for responsibility, he Hao had been slightly biased.

After five points were deducted, the aotaba fleet still had a total of nineteen points, leading the pack!

They only had one point left, but an advantage was an advantage. With Lin Yi here, this one point could still be turned into victory!

More importantly, the aotian BA fleet had gained he Hao's favor after this incident!

Who was he Hao? The Vice President of the Yellow Sea route management Association, the host of this conference, and the biggest judge!

Once the situation reached a stalemate with the AO Tianba fleet, it was obvious who he would side with.

"President he handled the matter very fairly! We don't have any objections!"

As soon as the result of the punishment was out, ye Daxi smiled and cupped his hands to he Hao, expressing his support for the decision.

Su Lu and the others also expressed their opinions. They were very satisfied with the result, and no one would jump out to object.

Initially, ao Tianba's lead was so huge that it was enough to make most people despair. However, things were different now. Although he was still in the lead, the people behind him saw hope of turning the tables.

Apart from ao Tianba's fleet, the SU Lu's fleet had 18 points. The two fleets that had worked with ao Tianba in the first round also had 18 points!

Ye da Xi got seventeen points, and there was another fleet with seventeen points. These were all candidates who had the hope to fight for the two Xuan class sea routes.

As long as he performed well in the third round, he could surpass ao Tianba at any time. Therefore, everyone agreed with he Hao's punishment.

"Since no one has any objections, then let's disperse. In the third round tomorrow, everyone perform well! En, we were originally prepared for five rounds of competition, but I saw that some people don't have the confidence to reverse the situation and only know how to grasp some minor details to make an issue of it. Therefore, tomorrow's third round will be the final round of this Grand meeting. I wish everyone in advance to be able to get the results they want. "

He Hao was satisfied with the reaction of all the captains, but his last words were obviously directed at Gu Yunhao.

From his cold and indifferent eyes, everyone knew that Gu Yunhao was now a member of the yellow Class sea route management Association. If he wanted to get out of this blacklist easily, it would not be as easy as he said a few words today.

The people who understood this all quietly moved away from Gu Yunhao, in case he looked at them. If they were not careful, they would be labeled as Gu Yunhao's accomplices.

This was good news for those who still had hope of overtaking the aotian BA fleet. They could finish the battle in one stroke and reduce the number of unforeseen events. If they were lucky, they could turn the tables!

For those who had a huge difference in points, this was bad news.

If there were still five rounds of competition, everything would be possible. Now, one round of competition was enough to fill the huge gap in points? It was better to wash up early and go to bed. Perhaps a dream could come true.

There was no need to mention the hatred these people had for Gu Yunhao!

Gu Yunhao also understood that he Hao was trying to give him a hard time. To be honest, he was already starting to regret it. There was no need to offend he Hao.

Chapter 6427 Gu Yunhao Who Was Unwilling

Even though ao Tianba's points had dropped, so what?

The other party was still ranked first, and he was still at the end. Harming others without benefiting himself was the best explanation right now. In the eyes of others, he was probably a fool, right?

Only the fleets with 16 to 18 points would benefit from this. Unfortunately, they would not appreciate Gu Yunhao's help. The most likely outcome would be that they would secretly laugh at him for being stupid while getting the benefits.

"Director Zhang, miss LAN 'er, this way please. Let's go have some food and chat."

He Hao's mood was much better after tricking Gu Yunhao. He turned around and politely invited Zhang jinmiao and her disciple.

As for ao Tianba and Lin Yi, they were from the fleet, after all, and they had to participate in the competition tomorrow. He couldn't just invite them directly, as it would be suspicious.

"Master, I want to be with Lin Yi,"

Shangguan LAN 'er looked at Zhang jinmiao eagerly. This old man named he Hao was too ... Detailed. Just thinking about it made her feel sleepy!

So she decided that she shouldn't go with her master and join in the fun. It would be better to stay by Lin Yi's side-they'd just come out and buy a lot of nice things, and they'd even have a fight-it was exciting!

Wasn't it much better than listening to he Hao's storytelling?

"LAN 'er, you're not a member of the fleet. It's better for you to follow master. Just keep him company. Otherwise, people will say how much help you've brought to Captain ao Tian."

Zhang jinmiao said to Shangguan LAN 'er in a friendly manner, while casting a sidelong glance at Gu Yunhao, whose face was as dark as water.

This was pure revenge. The competition had not even started, so what help could it be?

Hearing this, Gu Yunhao's face turned red and white, but he could not say a word.

He was able to move unhindered on the sea, so he was also a formidable figure. However, he had lost the whole game just because of one wrong calculation.

Truly, one wrong move and the whole game would fall!

He was unwilling to accept this! He was absolutely unwilling!

He hated ao Tianba and Lin Yi!

However, as an ambitious person, his ability to withstand a blow went without saying. Gu Yunhao admitted that he had miscalculated this time. After learning his lesson, he had already begun to think about what to do next.

He was ranked at the bottom. Was he going to watch ao Tianba rise to the top?

He would never agree to such a thing!

"Alright! Then I'll follow master. "

Shangguan LAN 'er really thought that she'd be causing trouble for Lin Yi and ao Tianba after hearing Zhang jinmiao's words, and so she agreed after some thought.

All the captains came over to say their goodbyes to he Hao and Zhang jinmiao before leaving, as did ao Tianba and Lin Yi.

Lin Yi promised that he'd bring her around the other cities in the Golden class Sea area after the competition was over, and she was happy to see him. She left with Zhang jinmiao and he Hao.

"Brother ao Tian, I've implicated you this time!"

Lin Yi only turned to ao Tianba with an apologetic smile after everyone had left.

He was the one who brought Zhang jinmiao here, so it wasn't wrong to say that. Especially after the Qian henduo incident was exposed, it directly led to the change in the situation!

The originally good situation had turned into a chaotic battle in the chaotic world.

"Haha, what are you saying, lil bro Lin? you're treating me like an outsider, aren't you? Not to mention that we're still in first place, so what if we're in the last place? this is all earned for big brother by you, little brother! Besides, with you here, our brother who is ranked last has the confidence to reverse the situation and win, not to mention that we are in the lead. I don't believe anyone can beat us!"

Ao Tianba patted Lin Yi's shoulder with confidence.

"Ha ... Brother ao Tian has more confidence in himself than I do. That's good. Do you still want to attend the captain's private party?"

Lin Yi remembered that ao Tianba had something to do-how was the conversation going?

"No, we're just trying to get to know each other in private and see if there's any cooperation in the future! Let's go back and have a drink. "

Ao Tianba waved his hand and put it around Lin Yi's shoulder before turning to his fifth brother.

"Laowu, principal Zhang and miss Shangguan can't participate in the competition tomorrow. Go back to the warship and find two more brothers. We may need more people for the last round, so it's better to be prepared."

"Yes, Captain. I'll go back now!"

"Sure!" Fifth brother replied, greeting Lin Yi with a smile before turning and running towards the city gates.

The dock wasn't far, so it wouldn't take long to call two people over. It wouldn't delay tomorrow's game.

Ao Tianba and Lin Yi chatted and laughed, and they really did drink together when they returned to the inn. However, Lin Yi was still thinking about his lightning integration technique, so he only chatted with ao Tianba for a while before returning to his room.

Knowing that Lin Yi wanted to cultivate, ao Tianba didn't ask him to stay. After Lin Yi returned to his room, he spread out his men to guard Lin Yi's room, in case the killer came again.

After Lin Yi went back to his room, he set up a defense array beside him with high level array flags, and then hid it with a stealth array!

With high-level array flags, doing this was simply easy and pleasant!

This way, even if the assassin came again, he wouldn't be able to break Lin Yi's array with one arrow.

The demonic thing continued to protect Lin Yi, and the little spirit beast was still hiding outside the inn, keeping an eye on any suspicious people.

With this setup, Lin Yi could cultivate in peace without having to worry about his safety. His simulations wouldn't be interrupted either.

"Senior ghost, I'll leave the rest to you! Do you want the killer to come or not?"

Lin Yi couldn't help but ask as he understood the complicated feelings of this thing.

"Hmph, of course I hope he'll come. The sooner I get rid of him, the sooner I'll be at ease! You've taken so many measures, are you still afraid that he'll hurt you?"

The ghastly thing snorted coldly. That assassin had seriously affected his study of the space Array flag, so he was extremely unhappy.

Although Qian henduo was dead, even if he was the one who had contacted the assassins from hidden death sect, the mission would not be terminated!

A mission that had been paid with spiritual Jade must be completed. Otherwise, hidden death sect's reputation would be tarnished!

"With senior ghost around, what do I have to be afraid of?"

Lin Yi smiled and didn't say anything else. He sat down cross-legged and took out the horn.

The lightning around the horn gave Lin Yi a very familiar feeling!

Although Lin Yi hadn't completed the third stage yet, his body had already gone through countless cell collisions. He was naturally very sensitive to lightning, and he was touched when he first came into contact with it.

"Well, let me see what's the difference between you and the electric eel!"

Lin Yi smiled and sent his spirit sense into the horn.

Chapter 6428 Third Level Of The Lightning Escape Technique!

Entering the horn was like entering a world of lightning!

Lin Yi felt like he'd opened a whole new door.

Even though the single-horned lightning cloud Beast was already dead, there were still tiny lightning arcs flying around rapidly!

One could imagine that if it was alive, the lightning in the horn would be more than a hundred times more powerful.

The electric eel's body cells were the source of producing lightning! However, the Thunderbolt power of the one-horned thunder cloud Beast came from its horn. Its body could only withstand lightning!

In other words, all the secrets of the single-horned lightning cloud Beast were in its horn.

So, what was the difference between the cells of a horn and the electric eel?

Lin Yi sent his spirit sense deeper and deeper into it, and the small three-foot horn grew bigger and bigger in his sea of consciousness. The material that made up the horn, the arrangement, and the cause of the lightning all appeared before Lin Yi's eyes.

When everything was magnified to the extreme, Lin Yi suddenly had an epiphany!

The unicorn thundercloud beast and the electric eel were two completely different species, and the way they produced lightning was also different, but they had one thing in common-Lin Yi could learn from them.

In terms of cultivation, the human body might not be as strong as the sea beasts and the spirit beasts, and their progress might not be as fast as the two races.

However, in terms of adaptability, the human body was the most perfect!

Although the bodies of sea beasts and spirit beasts were strong, they had a limitation. They were far less flexible than the human body.

Because of this, many spirit beasts and sea beasts would live and cultivate in human form. Only when the battle was difficult would they return to their original forms and use their strong bodies to fight.

The horn of the single-horned thunder cloud Beast was arranged in the most subtle order to form the two polar opposites of the molecules, thus producing the power of Thunder!

As for Lin Yi's cells, as long as they could replicate this arrangement and change the electric eel's impact to friction, he might be able to successfully produce lightning!

At that thought, Lin Yi felt a slight sense of joy. Getting the horn of the beast really did help him break through to the third level.

If Lin Yi didn't know anything about formations, he wouldn't pay much attention to the special arrangement of the horns. He felt that the arrangement had the charm of a formation, and thus deduced the source of the thunder and lightning.

"Take it slow. I'll try it on my palm first to prevent the cells in my body from being unable to take it and causing a large area of my body to collapse."

Lin Yi was very cautious about the fusion of the eel and the Beast. He didn't know if the third level of the original lightning escape was like this, but maybe what he was doing now was an unprecedented feat!

Lin Yi focused his divine sense on his left palm, and his cells, under the control of his divine sense, started to adjust and change in an unnoticeable manner.

When that part was done, Lin Yi could feel the difference. There wasn't any lightning, but there was a change. It was different from the surrounding cells.

"Friction!"

The order was perfectly transmitted through the divine sense, and these extremely small cells began to maintain their arrangement structure. They slightly trembled and rubbed against each other. At first, they were still a little out of practice, but they soon made great progress.

Time seemed to have stopped, and there was nothing in Lin Yi's world other than this group of cells.

In the beginning, the synchronization didn't produce the desired result, but Lin Yi wasn't discouraged. He continued to control the cell resonance firmly.

As long as his body could take it, he would not stop!

To be honest, if Lin Yi was attacked by an assassin at this time, he wouldn't be able to react in time even with the warning in the Jade space. The only thing he could rely on and count on was the defense array he set up.

Fortunately, the killer did not choose to make a move at this time. Perhaps he felt that it was not easy to hide in the town during the day, or perhaps he was still waiting for a better opportunity.

No matter what, Lin Yi kept on trying without any interference. After two hours, he finally found the most suitable frequency.

Through this special arrangement, the cells resonated and rubbed against each other, producing the first bolt of lightning!

This was different from the true energy conversion in the past. It was the lightning that was directly produced from the cells of the body. Whether it was speed or power, it was superior to true energy lightning.

Other than that, Lin Yi was worried that the cells wouldn't be able to handle the arrangement and friction, but it didn't happen. Not only that, but the group of cells became stronger after the lightning power was generated!

Without a doubt, Lin Yi's body would be upgraded to another level after he mastered the third level of the Thunder escape technique. This was a true body tempering technique, and it was definitely a top-tier one!

With a successful start, it would be easier later on.

Lin Yi's strong spirit sense started to cover his entire body, and with the original cells as the model, he started to modify them on a large scale.

When the smallest cell group was completed, the cell groups formed a large cell group again and finally spread throughout the whole body.

In an instant, Lin Yi's body was covered in lightning.

The ghostly thing's spirit sense had already returned to the Jade space. Lin Yi's own lightning could easily create sparks and hurt the ghostly thing's spirit when he couldn't control it well.

As for the job of protecting him ... He could only leave it to ao Tianba's subordinates and those little spirit beasts!

This process lasted the entire night, and when the sun rose from the East, Lin Yi finally collapsed in his room.

His cells had completed all the tempering and transformation, but the lightning produced by his body was still very physically exhausting. Now, his whole body was sore and numb, and he felt unbearable pain even when he moved his fingers.

The battle tactics of heaven's stolen Fortune's pure Qi flowed through his body, starting to nourish his cells. Lin Yi didn't use his pure Qi on purpose earlier because he wanted to see what his body's limit was.

Furthermore, without using true Qi, the tempering effect on the body was also quite perfect.

"It's done?"

The ghostly thing appeared at once. It seemed that although he didn't release his spirit sense, he was still watching Lin Yi's movements in the Jade space.

With the third level of the lightning escape technique, combining his body with lightning, Lin Yi's combat strength would increase once again. Those lightning element skills like lightning thousand explosion, lightning burial, and so on would be much stronger too.

Originally, after the five elements killing intent was upgraded in the southern island, its power had far exceeded that of the lightning thousand explosion and lightning burial. However, it was different now.

Lin Yi's improvement in the lightning element would also bring about an increase in the power of his skills. These skills were once again on the same level as the Dragon killing intent.

Chapter 6429 The Third Round Of The Competition

"Just a little bit more, but the general framework is complete. What's left is to continue to deduce and perfect it. When it's completely completed, the power will be released perfectly."

Lin Yi was very happy as well-he hadn't been able to continue training his lightning movement for a long time now, and as his opponents "strength increased, even the second level of lightning movement didn't have much of an advantage anymore.

When he encountered an expert at the sea splitting stage, the speed of the second level of the lightning escape technique would not be much faster than his opponent!

But the third level was completely different. Lin Yi believed that his speed would increase greatly again. Even sea-shattering cultivators wouldn't be able to fight with him as long as they didn't specialize in speed.

"Not bad, not bad! Kid, you're quite talented in this area! You're quite lucky this time too. To be honest, I think your luck is much better than your talent! For example, meeting this old man is your greatest luck!"

The demonic thing was in a good mood, and started joking with Lin Yi.

"That's right, that's right. You're the source of my luck. "

Lin Yi laughed out loud as well-it was his greatest luck to be able to run into something like this.

If it weren't for that thing, Lin Yi wouldn't even know how many times he'd have died. He wasn't joking, he meant it!

"Hahaha, you have a conscience to have this awareness! Alright, hurry up and get up. Don't stay on the ground and play dead. The third round of the competition is about to begin! If you don't get up now, ao Tianba will be worried!"

The ghostly thing didn't continue to joke with Lin Yi, and went back to studying the space formation flags after a few words.

Lin Yi stood up, grimacing in pain. The pain and numbness in his body had been nourished by the battle tactics of heaven's stolen fortune, and was much better.

If it were anyone else, they would not be able to recover without a day or two of rest. Therefore, he was the only one who could use this kind of cultivation technique.

This was because the consumption of physical strength and true Qi was simply too great!

Lin Yi opened the door to see ao Tianba and his eight guards standing around, none of them impatient.

Even ao Tianba didn't think that the third round would be more important than Lin Yi.

"Brother ao Tian, thank you for your hard work. You're actually protecting me. It won't be good if you affect today's competition!"

Lin Yi was touched, and could only express his gratitude verbally.

"Brother Lin, we brothers don't need to say such things. Compared to you, what's a mere competition? How was it? Did you gain anything from yesterday's cultivation? I can see that your spirit is clearly different, but I can't tell what is different. "

Ao Tian BA waved his hand with a smile, but his eyes lit up when he saw Lin Yi.

"I've indeed made some progress in my lightning escape technique. This is all thanks to brother ao Tian!"

Lin Yi wasn't lying-without ao Tian BA, it'd be very difficult for him to get his hands on the lightning escape technique, but he didn't need to say it out loud-he just needed to keep it in mind.

"Alright, I'm going to get angry if you continue to be so polite. It's still early, do you want to eat something first?"

Although it was fine for cultivators to not eat for a long time, eating had become a habit for human cultivators.

"Alright, then let's eat something first before the competition. Everyone, be more spirited!"

Lin Yi smiled, not rejecting the suggestion.

After eating, the group of people slowly walked to the venue.

Although Qian henduo, the city Lord, had been killed yesterday, torrent city did not descend into chaos. It was still operating in an orderly manner. Perhaps that guy was originally a city Lord with a very low sense of existence?

If he focused on making money, there probably wouldn't be many people who would truly love him.

Of course, it was more likely that the people from the yellow-rank sea route management Association had taken control of the city before the new city Lord arrived.

This was also to prevent the city from falling into greater chaos, which would affect the progress of the festival, and it was beneficial to both sides.

In order to avoid suspicion, Zhang jinmiao and Shangguan LAN 'er didn't come back at all yesterday. They stayed at the place he Hao had arranged for them. Lin Yi thought about the old man's nagging nature and wondered if Zhang jinmiao and Shangguan LAN' er were drowned in a lot of nonsense yesterday.

"Captain ao Tian!"

"Vice-captain Lin!"

The captains they met on the way all greeted ao Tianba and the others politely.

Now that ao Tianba and he Hao had established a relationship, everyone knew that his future was bright. Therefore, it was better to make friends with him now.

Especially Lin Yi, his ability to control a warship was already unfathomable, and he had connections with the big shots in the mystic class Sea area. Only Gu Yunhao would be stupid enough to offend such a person!

Everyone was here to make a living, was there a need to be so stiff? Let's make money together!

In fact, Gu Yunhao did not do anything wrong. Under normal circumstances, amiability would only make one rich when everyone's strength was similar. When facing an extremely weak party, the law of the jungle was the right choice.

He could only say that he was unlucky. He wanted to bite off ao Tianba's flesh, but his teeth broke.

Everyone was talking and laughing as they entered the venue in a harmonious manner. Those who didn't know better would think that they were here for a Tea Party. Where was the intense atmosphere of fighting for the flight route?

And looking at the scene on the stage, the possibility of a Tea Party increased a little.

He Hao, Zhang jinmiao, and Shangguan LAN 'er were sitting on the stage with tea tables in front of them. In addition to tea, the tea tables were also filled with various cakes and preserved fruits.

He Hao spoke with a smile on his face, while Zhang jinmiao nodded with a reserved smile, occasionally responding with a sentence or two. Shangguan LAN 'er, on the other hand, was focused on eating the pastries on the coffee table, just like a Tea Party.

The bored Shangguan LAN 'er's eyes brightened at the sight of Lin Yi and the others, standing up and waving at them. She was holding herself back from talking to them, probably afraid of affecting the aotian BA fleet.

Zhang jinmiao also smiled and nodded at them, but then she revealed a regretful expression of not being able to fight alongside them.

She didn't say a word, but Lin Yi knew what she wanted to say.

He Hao also gave Zhang jinmiao face and smiled at ao Tianba and Lin Yi as a greeting.

Before the match, this was all he could do. If he showed any more intimacy, he would be questioned for his unfairness.

Soon, all the fleet members had arrived. In the second round, three captains of the fleet had been killed or injured. Therefore, they had to give up the third round before a new captain appeared.

Currently, the ranking was calculated based on the current points. As for whether he could obtain it in the future, or whether he could control the sea route, that was unknown.

Disbandment and civil strife were far more likely to happen than a new captain could be successfully elected.

Chapter 6430 They Can Cheat!

"Alright, everyone's here. I won't waste any more words. First, let's talk about the rules of the third round!"

He Hao stood up, cleared his throat, and announced the rules of the third round to the audience in a spirited manner.

Hearing him say "cut the crap," everyone's faces turned green!

If you don't talk so much nonsense and start talking nonsense, do we still need to compete?

As expected, this time, he Hao did not waste any time and spoke for more than an hour ...

After he had finished, everyone would habitually sum it up in their hearts. What exactly had he said in the past hour?

In fact, the rules of the third round were very simple. It was very similar to the rules of the second round:

All captains, lead your own fleet to the deep sea region of the yellow-class Sea area, find an island controlled by the sea beast clan, and then trade a designated item back, and the mission will be completed.

The round trip would take about eight days, so the time limit was ten days. Only those who completed the mission within ten days would get points, and those who exceeded ten days would not be counted.

The specific rules were the same as the second round. Those with additional points would return within nine days, and those without would return within ten days. It was very simple.

The only difficulty of this mission was that when they reached the island controlled by the sea beast clan, they had to pass through a large area where the sea beast clan was active. There was the possibility of facing a sea beast tide at any time!

Usually, the Association had an agreement with the sea beasts that they could send a limited number of ships to trade, but that was only with the permission of the sea beasts.

On the other hand, these fleets had not obtained the permission of the sea beast clan, so they would still be in great danger.

Therefore, the rule was that all captains were allowed to bring their entire fleet. This was a comprehensive test of a fleet's negotiation ability, combat ability, route opening ability, and other aspects.

A fleet that could complete a mission was definitely extremely powerful!

"Does everyone understand? "This mission is dangerous. Those fleets that are not strong enough can give up on participating in the third round. If everyone gives up, the final sailing route will be decided according to the current ranking. Is there anything else you don't understand? If there's anything you don't understand, you can ask me. I'll explain it to you in detail. Don't worry, I'm famous for my patience in this area!"

He Hao glanced at the audience with a smile, waiting for them to ask questions.

Everyone shivered in unison. You've been talking for an hour without any nonsense, so wouldn't it take tomorrow to explain in detail?

You're famous for your patience, but we're all famous for our lack of patience!

In order to avoid unnecessary trouble, everyone present almost subconsciously shook their heads at the same time!

If anyone dared to say anything that they didn't understand, they would be killed by those hundreds of murderous eyes!

"It seems that everyone's ability to understand is very good! That's good. If no one wants to quit, shall we start the competition?"

He Hao looked very regretful, as if he had not had enough.

Fortunately, Zhang jinmiao and Shangguan LAN 'er were still on the stage, so he could continue to chat with them later. It was much better than talking to himself in the first two rounds.

Zhang jinmiao and Shangguan LAN 'er, who were standing behind he Hao, suddenly shivered. They felt that something bad was about to happen ...

"President he! This competition was very unfair! Someone can cheat!"

Gu Yunhao jumped out again. He was ready to risk everything now. Since he had already offended them to this extent, he couldn't go any further. As long as he could get in the way of ao Tianba and Lin Yi, he would win!

The smile on he Hao's face froze. He was furious when he saw Gu Yunhao. Was this guy here to cause trouble?

Even a talkative person like him didn't want to speak when he saw Gu Yunhao. What else did this fellow want?

"What do you mean?"

He Hao suppressed his unhappiness and glanced at Gu Yunhao indifferently. He threw the question to him simply.

Gu Yunhao was probably the only person who could make he Hao treat his words like gold and only say three words at a time.

The other captains also looked at Gu Yunhao with a little admiration.

"Ao Tianba and Lin Yi encountered my fleet when they came to the East continent. They used the sea beast tide to attack my fleet, but they passed through it easily! That's why I think that this competition is simply giving them a chance to cheat! I can't accept this!"

Gu Yunhao didn't care anymore. He turned his attention to ao Tianba and Lin Yi.

He had been brooding over the previous incident. This time, he had to seize the opportunity to expose it. Otherwise, wouldn't ao Tianba and his team be the champion again?

Gu Yunhao's fleet was at the bottom, while ao Tianba was at the top?

How could there be such a good thing? He had to destroy it, he had to destroy it!

The expressions of the other fleets changed as they looked at Lin Yi and ao Tianba.

If what Gu Yunhao said was true, then the first place of the third round would definitely be taken by ao Tianba. Was there any doubt about that?

However, there were still some doubts in everyone's heart. Did ao Tianba really have the ability to control the sea beast tide?

In that case, wouldn't he be invincible in the sea? Which other fleet could be compared to ao Tianba?

Gu Yunhao, are you questioning the fairness of our meeting?"

He Hao's face turned completely cold. He called him by his full name and even omitted the captain.

"President he, what does this have to do with the fairness of the conference? I believe that the conference is fair and just, but the aotian BA fleet clearly cheated in this competition. Are you not going to do something about it?"

Gu Yunhao's heart skipped a beat and he quickly tried to explain.

"Since the competition is fair and just, and there are no problems with the rules of the competition, then why are you talking so much nonsense? Ao Tianba could cheat? Can you tell me how he cheated?"

He Hao didn't give Gu Yunhao any face at all and pressed on.

"This ..."

Gu Yunhao was speechless. How would he know how ao Tianba controlled the sea beast tide?

However, if he couldn't say it now, he Hao probably wouldn't let it go.

After rolling his eyes quickly a few times, Gu Yunhao directly pointed at ao Tianba and said,"

"Ao Tianba, if you're a man, then say it yourself. Can you control the sea beast tide? Would he be able to cheat in this competition? If you have the guts, then tell me the truth! Don't make me look down on you!"

"Who Do You Think You Are? What do I, ao Tianba, need your respect for? It's embarrassing for me to be looked up to by you, you know?"
