

Bodyguard 6431

Chapter 6431 You Still Have To Be Terrified

Ao Tianba sneered at Gu Yunhao with a disdainful expression.

Ao Tianba didn't know what to say about controlling the sea beast tide before Lin Yi said anything, so he could only follow he Hao and trample on Gu Yunhao a few times. Who asked this annoying guy to come out and talk nonsense?

"Ao Tianba, are you still a man? Dare to do but dare not admit it? I, Gu Yunhao, am looking down on you!"

Gu Yunhao's face was red with anger, but if ao Tianba refused to admit it, he had no choice.

A witness? No! You want evidence? Also nothing! What could he do?

Seeing that the two were about to start a fight, Lin Yi stepped forward and waved his hand. He looked at Gu Yunhao and smiled faintly.

"So what if you can control the sea beast tide? Who said that controlling the sea beast tide was cheating? If you have the ability to control the sea beast tide, you should go too! You have the ability to fart. Did anyone say anything about you?"

Lin Yi's words made everyone snicker, but they were still skeptical about whether Lin Yi could control the sea beast tide. After all, the timing of his words seemed to be used to trick Gu Yunhao.

"President he, Lin Yi admitted it himself-he can control the sea beast tide, isn't that cheating? Aren't you going to do anything? are you just going to watch?"

Gu Yunhao didn't care how Lin Yi ridiculed him. He seized the opportunity and started to attack he Hao.

"Gu Yunhao, who told you that controlling the sea beast tide is cheating? Your battleship has the descending star formation, which can kill powerful sea beasts in seconds. Other battleships don't have the descending star formation, so they can only fight hard to survive. I usually pay attention to maintaining the relationship with my friends, and it took a long time for us to develop a little friendship. You and I went to trade with him at the same time, and at the same price, he traded to me instead of you. If someone else could do what you couldn't do, that was cheating, right? To be honest, it's embarrassing for our Association to have a member like you. "

He Hao's face was extremely cold. He was really angry this time.

It was a good thing for the Association to have someone who could communicate with the sea beasts!

No matter what, this could only be considered a skill and had nothing to do with cheating.

Negotiation ability was actually one of the tests of this competition. Being able to engage in the sea was originally a test of the process.

If someone else did well and completed it well was considered cheating, then who would do their own thing well?

Gu Yunhao's face turned extremely pale. He suddenly felt that he had made a mistake again. He didn't know why, but he always took the wrong steps whenever he met ao Tianba and Lin Yi. It wasn't like this usually!

"However, their actions are too unfair to the other fleets! Even if we don't punish them, we can change the event!"

Gu Yunhao spoke mechanically, not even knowing what he was saying.

"Ridiculous! Do you know how much time and preparation it took for the tournament's regulations to be formed? Just because of your nonsense, the Association has to listen to you and change the competition. Is this Association going to invite you to be the president?"

He Hao shouted loudly. This Gu Yunhao was simply ignorant!

"President he, you don't have to be angry. Let this kind of clown do what he wants. Don't delay the time of the competition."

Zhang jinmiao advised he Hao from behind, but she was also belittling Gu Yunhao.

"Dean Zhang is right, I was too obsessed with the looks!"

He Hao laughed, and the frost on his face instantly melted. Zhang Jinmiao had spoken, so of course he had to give her face. Besides, they had indeed been delayed for a long time. It would be better for everyone to start as soon as possible.

Gu Yunhao didn't dare to say anything else. He glared at Ao Tianba and Lin Yi with hatred and gritted his teeth, "Don't be too proud. When we get into the sea, I'll let you know that it's useless to cheat. In front of absolute strength, everything is just floating clouds."

He dared to say that because his fleet was much stronger than Ao Tianba's. Although Lin Yi's control in the illusion formation was amazing, Gu Yunhao still thought that the illusion formation and reality were different.

Moreover, Gu Yunhao still had a trump card. He had already contacted one of the three fleets that had withdrawn from the competition and spent a huge price to rent their warship!

He had originally planned to ambush Ao Tianba after the end of the competition, but he didn't expect to lead the fleet to the territory of the deep sea beasts in the third round. Now, he was even more confident in dealing with Ao Tianba.

"Are you sure you still want to participate in the competition? Don't tell me you've forgotten that we can control the sea beast tide? In the deep sea region, even if all the fleets here were to join forces, they wouldn't be able to withstand a huge wave of sea beast tide. If I were you, I wouldn't dare to enter the sea so casually to participate in the competition!"

Lin Yi glanced at Gu Yunhao from the corner of his eyes and looked at the guy with a half-smile.

Gu Yunhao broke out in a cold sweat. How could he have forgotten about this?

He exposed ao Tianba and Lin Yi's ability to control the sea beast tide, and he still wanted to go into the sea to deal with them? did he think he didn't have enough time?

"Gu Yunhao, if you're a man, don't shrink back. Come to the sea. Let's have a fair fight in the sea!"

Ao Tianba also followed suit, making it clear that he wanted to deal with him.

This time, Gu Yunhao was in even more trouble. Originally, after combining the combat power of the two fleets, there was still a high chance of trading at the sea beast Island.

But if Lin Yi and ao Tianba could really control the sea beast tide and were targeted by it, even twenty fleets wouldn't be enough, let alone two!

"Hmph Hmph! You want to trick me? I, Gu Yunhao, am not a fool. The Green Mountains will never change, and the green water will always flow. We will have plenty of opportunities to settle scores in the future. I won't stoop to your level today. The next time we meet, we will settle our scores together!"

Gu Yunhao's attitude was still unyielding, but the meaning of his words was that he still had to be scared. When there was a chance in the future ... He would still be scared!

"President he, my fleet will forfeit the third round of the competition. We have no chance of winning against people who can cheat. We might even fall into their trap. So I give up!"

Gu Yunhao turned his head and requested to forfeit the match, while trying to make the others view Lin Yi as an enemy.

It would be even better if they could drag a few fleets to give up the competition!

When the time came, he could contact them in private to see if there was a chance to form an alliance and secretly hunt down ao Taba's fleet. Perhaps he could directly get rid of this annoying fellow.

Chapter 6432 Five Points Will Be Deducted If You Give Up

Needless to say, Gu Yunhao's words did have some bewitching effect. A few fleets that obviously had no hope of winning the championship were already considering whether to withdraw from the competition.

If they were targeted by the AO Tianba fleet, they would have no place to cry.

It had been said before that only those with similar strength could make money peacefully. If there was a clear difference between the strong and the weak, it would definitely be a situation where the strong preyed on the weak!

The aotian BA fleet, which could control the sea beast tide, was simply an invincible King in the sea!
Who could compete with them?

If it wasn't for the fact that there were only two spots for navigation in the mystic region, those fleets with 16 or 17 points would have wanted to quit.

"You're giving up on the competition? Yes! But I've already announced that no one will quit, and the competition has begun. If you quit now, you'll lose five points!"

He Hao glanced at Gu Yunhao and suddenly smiled.

Gu Yunhao was dumbfounded. Five points? He only had ten points, alright?

After five points were deducted, they would really be in last place among the twenty fleets!

"How is it? Do you still want to give up the game?"

He Hao looked at Gu Yunhao playfully and finally felt a little better.

"President he, isn't this against the rules? I didn't mention it before!"

Gu Yunhao's heart was at a loss, and he asked subconsciously.

The others all looked at him with disdain, thinking that this guy was really stupid.

Talking about the rules with he Hao? He was the one who set the rules of the competition, alright? If he said there was, then there was. If there wasn't, then wouldn't it be there if he added one more?

"Oh, that's because I didn't make it clear. Come, come, come, I'll explain it to everyone in detail!"

As soon as he Hao said this, everyone was shocked. The competition was finally about to start, and he still had to explain in detail? Is that enough?

"President he, you don't have to say anything. It's Gu Yunhao who didn't understand, but we all do. That's right, that's right. Gu Yunhao, if you can't bear to part with those five points, then hurry up and prepare to participate in the competition. Don't always come up with some tricks!"

Some people could not stand Gu Yunhao's behavior, which implicated the others, and immediately stood up to stop he Hao from explaining.

"I'll still give up the competition!"

Gu Yunhao gritted his teeth as he spat out these words. He felt as if all the strength in his body had been sucked out, and he suddenly looked dejected.

Compared to the danger of losing his life, losing five points and ranking at the bottom was not a big deal!

It was still the same saying, where there is life, there is hope! As long as they were alive, there would be a time for them to make a comeback!

Hearing that withdrawing from the match would result in points being deducted, the others immediately gave up on the idea and began to prepare for the match. Then, each and every one of them wondered if their relationship with ao Tianba was considered good.

If he did well, would he be able to get a good result if he followed ao Tianba?

He didn't want to get first place, he needed to get second place. As long as he got second place, he had a good chance of getting a sailing quota in the mystic Sea area.

"Alright, Gu Yunhao has given up on the competition. Five points will be deducted. Very well, none of you are cowards, so go back to your battleships and prepare to set off. If you need to trade anything, someone will send it to you. "

He Hao waved his hand, signaling the start of the match.

Gu Yunhao lowered his head and walked away with a long face. No one was a coward, so wasn't it obvious that he, Gu Yunhao, was the only coward?

He had no choice. He was going to suffer in silence today. Other than ao Tianba and Lin Yi, Gu Yunhao hated he Hao as well. He was going to take revenge for what happened today!

In the future, he Hao would really make these people suffer a big loss, but that would be a matter for the future.

When he returned to the ancient warship, there was indeed someone from the yellow-class sea route management Association who sent him a piece of paper with the mission item written on it.

In fact, it wasn't anything precious. It was just a common material of the sea beast clan. However, it needed the seal of the sea beast shop on that Island to prevent people from using materials from elsewhere to fake the task item.

"Alright, this doesn't seem to be a difficult mission. Let's go!"

Ao Tianba kept the paper and ordered his men to set sail.

The other fleets also set off. Their strength varied, but there were not many like ao Tianba who only had one ancient warship.

"It's a pity that the competition doesn't allow us to use the ten thousand li formation to travel. Otherwise, we could have saved a lot of time. "

Lin Yi stood at the bow of the ship, shaking his head as he looked at the sea with ao Tianba.

"Haha, if I can use the ten thousand mile array, at most I'll just have to spend a lot of spiritual Jade. Compared to the navigation quota in the Xuan class Sea area, that little spiritual Jade is nothing! If everyone uses the ten thousand li formation, it'll be a mess. If there's a conflict, it'll be easy for accidents to happen!"

Ao Tianba was also open-minded. Since no one could use it, there was no advantage or disadvantage to speak of.

"If we sail normally like this, su Lu will have a great advantage. He's not just bluffing about his Gale." Lin Yi smiled and turned to look at the fleet not far away.

Judging from their speed, su Lu was indeed the fastest among all the fleets. If there were no sea monsters in his way, he would have won the competition without a doubt. However, it would be hard to say when they passed by the sea monsters' territory.

In terms of speed, ao Tianba's ancient warship was above average at best, and that was because some of the fleets had large warships, which slowed down the overall speed. If Lin Yi wasn't here, they would've lost for sure.

Seeing that su Lu had gone over, ye Daxi followed closely behind. Lin Yi then wrapped Xiao Yan's communication bead with pure Qi and sent it into the water.

"Brother Lin, how are you doing in the East Province? Did he go to the mystic division Sea area?"

Xiao Yan's bright voice resounded in Lin Yi's mind-the guy's cold and arrogant face when he first met him was a world of difference.

"Not yet, it's still a few days to the mystic division Sea area, are you all right there? How's LAN Guzha?"

Lin Yi smiled, but didn't tell them the situation. With the Pearl in the sea, the sea beasts wouldn't attack them.

"The situation on my side is pretty good. The spirit beast clan is more well-behaved! However, there are still people in our clan who want to cooperate with the spirit beast clan. It's too absurd. I don't know what they're thinking! LAN Guzha's condition is very stable and he's receiving the inheritance. You don't have to worry. "

Xiao Yi said it casually, but it could be heard that his situation was not very good.

This was especially true for the royal families of the sea beasts. There were actually people who wanted to cooperate with the spirit beasts. This was a little troublesome.

The flying saucer plan was over, but the situation would be completely different if the sea beast clan and the spirit beast clan continued to cooperate.

Chapter 6433 Let's Follow

Fortunately, Lin Yi had taken care of central. For the sake of the wormhole, they were forced to sign an agreement that they had to help when the islands were attacked.

"Cooperating with the spirit beast clan is like asking a Tiger for its skin. You understand this principle, and you must also let your clan understand it."

Lin Yi couldn't do anything about the sea beast clan's affairs now, so he could only rely on Xiao Yan's own efforts.

"I understand. I'll definitely try my best to stop the spirit beast clan from cooperating with me. I'll have to pay them back for trying to kill me!"

When Xiao Yi mentioned this, he still gritted his teeth.

"You'll have to work hard on this matter. Anyway, there's no benefit in cooperating with the spirit beast clan."

Lin Yi said casually, changing the topic. "Let's keep in touch if there's anything. Help me look after LAN Guzha! I'm going to use your bead to pass through an area where sea beasts gather. You don't have to worry about me. "

"Alright, don't worry, brother Lin. With me around, LAN Guzha will be fine."

Xiao Yan's guarantee was full of confidence. Even if his own situation was more difficult, he would definitely protect LAN Guzha.

As long as LAN Guzha was able to grow, he would become his right-hand man. His authority in the sea beast clan would then be greatly increased.

The two of them chatted for a while before ending the call. By placing Xiao Yan's communication Pearl in the sea, it could represent Xiao Yan to a certain extent.

As long as they were not the direct descendants of the royal family of the sea beasts, most of them would take the initiative to avoid them. There were a few extremely powerful sea beasts that dared not to give face to the royal family. As long as there were not many of them, the ancient warship could deal with them easily.

"Brother ao Tian, you go to the bridge and ask fifth brother to speed up. We can't fall behind too much."

Lin Yi turned to ao Tianba with a smile.

After the fifth brother's ability was improved, his speed in controlling the ancient warship had also improved. Although he was still not as fast as su Lu and ye da Xi, he was much stronger than before.

"No problem. Let's show them how fast ao Tianba's ancient warship can move!"

Ao Tianba laughed and returned to the bridge. He personally commanded his men to quickly advance.

Half a day later, the fleet had already entered the deep sea where the sea beasts were more active.

At this point, many sea beasts could be seen swimming on the surface of the sea at any time. However, most of these sea beasts were not very strong, and they had not formed a large-scale sea beast tide.

The other fleets would not take the initiative to provoke them. They would basically avoid them carefully and pass through quickly.

Although the royal family of the sea beasts did not care much about the sea beast underlings, if a human cultivator really dared to take the initiative to hunt sea beasts in the territory of the sea beasts, he would basically attract the revenge of the powerful sea beasts!

If they continued, they would be besieged by the sea beast tide. Therefore, these fleets that were determined to trade would not be stupid enough to take the initiative to attack the sea beasts.

At this moment, the power of ao Tianba's ancient warship was finally revealed!

The other fleets had to avoid the sea monsters. Even su Lu's speed inevitably slowed down because he had to Dodge the sea monsters.

Only ao Tianba's ancient warship would cause the sea beasts to retreat. They didn't need to do anything!

The others were moving forward in a winding snake-like manner, but he was moving forward in a straight line. The difference in speed was very obvious.

"Gu Yunhao is right! Ao Tianba and Lin Yi's ability to control sea beasts was true-even if they didn't control them, they could make the sea beasts avoid them. With such an ability, ao Tianba would have a great advantage when sailing! We have to befriend this person in the future, his rise is unstoppable!"

Ye Daxi had already landed behind ao Tianba and the others. He looked at the ancient warship with a complicated expression.

Originally, he was the strongest among all the fleets. As a King, he could watch the people below him constantly work hard to challenge him. This was also quite an interesting thing.

However, when an opponent that could threaten his position appeared, ye Daxi's joy was not as good as before.

If he could, he would definitely want to kill this opponent while he was still in his budding stage. Unfortunately, okutaba's background was not without foundation!

Not to mention the Super house aotian, just the mystic division's Feiyang school's Vice Principal Zhang jinmiao, the mysterious Lin Yi, his ability to control sea beasts, and the Yellow Division's Vice President he Hao's Green eyes were enough to make ye Daxi feel extreme fear.

So, after some consideration, ye Daxi gave up on the idea of dealing with ao Tianba. Instead, he decided to make friends with him. Having such a powerful ally might not be a bad thing.

"The fleet will follow behind ao Tianba. Don't go too far!"

Ye Daxi was a smart man. When he saw that the sea beasts were keeping a respectful distance from ao Tianba's ancient warship, he followed behind them, making it seem like they were in the same fleet as ao Tianba. This way, the sea beasts would not come to bother them immediately.

This method was indeed effective. Even though he would always be behind ao Tianba and the others, so what?

Ye Daxi's fleet only had seventeen points, two points behind ao Tianba and one point behind su Lu and the other two fleets. If they could not get into the top two in the last round, they would lose their chance to get a spot in the mystic division Sea area!

Following ao Tianba might have been a little tricky, but ye Daxi could easily overtake ao Tianba at the last minute. If he wanted to build a good relationship with him, it was not impossible for them to tie for first place.

As a result, the two spots were shared between ao Tianba and ye da, and it was a happy ending for both of them.

"That hypocrite ye Daxi is really shameless! He's actually following behind ao Tianba's ancient warship. No one can be so opportunistic!"

When su Lu noticed this, he immediately expressed his disdain for ye da Xi and ordered, ""Immediately follow behind the AO Tianba warship. Ye Daxi is trying to use trickery, but we have to be more cunning than him! We can't lose to him in any way!"

“.....”

“.....”

Su Lu's subordinates were all speechless. 'You were just scolding ye Daxi for being shameless. Can you say that you're super shameless now?'

However, no one dared to say such things to su Lu. He was simply tired of living!

"Gale assault! We'll take the position behind ao Tianba's warship. We can't let ye da Xi be so comfortable!"

Su Lu smiled evilly and pointed at ao Tianba's battleship ... Then, he issued a battle cry.

"Wind! Wind! Gale!"

Chapter 6434 They Wouldn't Dare!

Everyone in the bridge followed suit and shouted the slogan out of habit, but this time, there was no momentum at all, and it was not as shocking as before.

His weak appearance made him look like he was moaning. Su Lu's high-spirited face was immediately filled with a few black lines.

Well, the goal that had just been set was indeed not worth being excited about. The many proud soldiers and valiant generals who had followed su Lu on his expeditions to the four Seas and made the name of the gale fleet were simply too low-class to compete with ye Daxi for a position.

"Didn't you eat? Be more spirited! Ye Daxi is over there, and he's our biggest enemy. Do you want to lose to his good-for-nothing subordinates? They had seized ye Daxi's route, leaving him with no route to take! Again! Swift Wind advance!"

"Kill!" Su Lu shouted to boost the morale of his subordinates.

"Wind! Wind! Gale!"

This time, everyone finally regained their usual momentum. The boss was right! They had seized ye Daxi's route, leaving him with no route to take!

This was the best battle cry!

After competing with ye Daxi's fleet for so many years, su Lu knew how to control his men's fighting spirit. That was because he was like that. When he was competing with ye Daxi, he would be more imposing.

"If ye da Xi dares to be unconvinced, I'll beat him up until he's convinced!"

Su Lu added fuel to the fire, and the crowd immediately cheered as if they had been injected with chicken blood.

"Wind! Wind! Gale! If ye Daxi dares to be unconvinced, then beat him up until he is convinced!"

With so many people repeating the same sentence at the same time, even su Lu felt like he was on fire.

As su Lu's fleet followed ao Tianba's ancient warship, more and more fleets wanted to follow suit. Unfortunately, ye da Xi and su Lu had a tacit understanding in this regard. They did not allow other fleets to get close to their own fleet at all. The reason they gave was to prevent other fleets from attacking them.

There was no rule in this competition that forbade naval combat, so it was not wrong to say so!

For example, ye Daxi and su Lu's fleets were traveling together, but they were extremely wary of each other. If they were not worried that ao Tianba would distance himself from them if they started fighting, they might have already started fighting.

With ye Daxi and su Lu's fleets as a deterrent, the other fleets naturally did not dare to get too close.

As such, the sea beasts would no longer give them any face and would return to the empty Sea region one after another, leaving them with no choice but to continue dodging and detouring.

Seeing that ao Tianba's three fleets were getting further and further away, and that there was no longer any possibility of them basking in the glory, they could only give up and follow their own path.

Even if they couldn't get a navigation quota to the mystic class Sea area, they should at least get some good golden sea routes!

He couldn't get involved in the first group's competition, but it would be an excellent result to stand out from the second group!

Anyway, this was the main purpose of coming to the conference. The navigation quota in the mystic division Sea area was just a beautiful dream, and now that the dream was shattered, it was time to take care of the reality!

"Brother Lin, aren't you worried about the two fleets following us?"

Ao Tianba came to the front of the ship and discussed the two fleets with Lin Yi, a little worried.

In the illusory formation, ao Tianba had personally witnessed the Grand battle between the two families. It was a shocking scene!

Su Lu's cluster attacks were especially terrifying!

Now that both of them were following behind his ancient warship, if they had any ill intentions and attacked him at the same time, how many times could the ancient warship withstand the attacks?

"Brother ao Tian, don't worry. They won't dare to make a move!"

Lin Yi smiled faintly, not taking it to heart. "These two guys were born to be enemies. If they were to cooperate, we would have been killed by them in the illusory formation. At that time, if we were eliminated, we would be completely eliminated, and we wouldn't be able to get any points. But in the end, because of the resentment between them, we got a big bargain."

"That's true. One step to heaven, one step to hell! "If they attack us first, we'll get zero points in the first round. Even if we do well in the second round, we'll basically be out of the competition. Because their strength is similar, their final points will be more or less the same. After the second round, we'll both be around twenty points. It's really a close call!"

Ao Tian BA was also very emotional. His luck at this conference was really good!

Or perhaps, her luck got better because she invited Lin Yi?

"So, brother ao Tian, you don't have to worry about them making a move. If anyone dares to make a move, the other family will definitely take the opportunity to deal with him. Then, we will turn around and attack him. It will become two families fighting one family. Who can stand that?"

Lin Yi smiled. Ao Tianba and Lin Yi weren't the only ones who were afraid of ye Daxi and su Lu in the illusory formation. The other way around was the same!

Lin Yi's insane level of control over formations had destroyed ye Daxi and su Lu's flagship. If they really attacked ao Tianba's ancient warship first, the other family would definitely make their move!

But that wasn't the point-the point was that if Lin Yi joined in, the outcome would basically be the same.

Su Lu kept saying that he wanted to fight Lin Yi one-on-one on ancient battleships, but he wasn't stupid enough to force Lin Yi to do it. Ye Daxi would only take the chance to destroy his fleet.

"I'm relieved to hear that. It makes sense. As long as ye da Xi and su Lu don't join forces, our ancient warship can at least hold on for a while. As long as the defensive shield is not damaged, we won't lose the initiative."

Ao Tianba smiled and nodded in agreement.

Ao Tianba was not worried about the defensive shield. Even if su Lu launched a cluster attack, the ancient warship would be able to hold on for a while.

After all, they were not in an illusory formation, and their fleet was not luxurious enough to use ancient warships.

Although they had never seen it before, they knew that su Lu's fleet was not as powerful as it was in the illusionary formation, even if they were in a battle formation.

"There's one more thing. Brother ao Tian, don't forget that we're the people who can control the sea beast tide. Without seeing it with their own eyes, they'll keep guessing. The more they guess, the more they won't dare to make a move. Otherwise, if we really attract the sea beast tide and attack them, their fleet will be useless even if they're ten times stronger!"

Lin Yi smiled as he pointed out the most important factor.

And most importantly, what Gu Yunhao had said at that time was a little scary!

Ye da Xi and su Lu had also seen the sea monsters retreating from ao Tian BA's fleet. If the sea monsters were allowed to join the battle, ye da Xi and su Lu would probably be dead.

Chapter 6435 Landing On An Island

What mutual restraint, what unable to cooperate, none of that was important. What was important was the sea beast tide!

Ao Tianba and Lin Yi had a strategic weapon that could decide the fate of the entire fleet-who would dare to make a move!

So what if he could sink the ancient battleship that was ao Tianba?

Facing the endless sea beast tide, who could escape unscathed?

Ye da Xi and su Lu were friends with Lin Yi and ao Tian BA, so they didn't need to do something like this.

The only person who could do such a thing was Gu Yunhao, who had a deep hatred for ao Tianba.

"Hahahaha, I wouldn't have thought about it if you didn't mention it, lil bro Lin. It's easy to ignore the truth that's right in front of you! So we'll just let them follow us?"

Ao Tianba laughed and shook his head. As expected, concern made one confused!

It was funny that he couldn't see the most obvious truth when it concerned his fleet.

"Let them follow us. Now is the time to form a good relationship with them."

Lin Yi turned back to look at the two fleets that were on guard against each other, but they didn't seem to be on guard against ao Tianba's ancient warship at all.

"They are the two most powerful fleets, but they don't get along well, but we can all become friends with them! This is an excellent capital. In the future, when brother ao Tian makes a living on the sea, with these two friends, you will be able to cooperate with each other on the Golden sea route. It will be more advantageous than them. "

"That makes sense! I've actually wanted to make friends with them before, but they didn't even care about my small fleet. If it wasn't for you, I don't know when I'd be able to talk to them. "

Ao Tianba sighed with emotion. The difference between the 19th ranked fleet and the first and second ranked fleets was like the difference between heaven and earth. It was indeed not easy to become friends with them.

Only a super genius like Lin Yi could make proud people like ye da Xi and su Lu want to make friends with him.

Ao Tianba was a practitioner genius himself, and was extremely talented in navigation as well, but he was just a normal person when compared to Lin Yi!

"Brother ao Tian, don't be so modest. The fact that you can contact the captains of those fleets is enough to prove your ability. I don't have the ability to deal with so many big shots."

Lin Yi laughed as he spoke-it was a little hard for him to use his connections to get along with others.

He had always been a cold person who didn't like to socialize!

"Brother ao Tian, we still have an advantage right now. We have one point more than su Lu and two points more than ye Daxi, so if they follow us, it won't affect us at all. In the end, we'll definitely have one of the two navigation spots in the mystic division."

Lin Yi was full of confidence. Passing through the sea beast area was extremely beneficial to them, and the only people who could benefit from it were ye Daxi and su Lu's families.

In other words, the top three of this competition would definitely be the three of them, and there would be no other fleets that would come out to mess things up. Therefore, the AO Tianba fleet, which had the advantage in points, was already in an invincible position!

"Eh, I really didn't notice. Let me calculate!"

Ao Tianba did not think about the benefits of having an advantage in points. If his points had not been deducted, he would definitely be in first place. However, after the points were deducted, he still needed to calculate.

"We have one point more than su Lu and two points more than ye Daxi. If they surpass us at the last minute and we get third place, we'll have two points less than the first place!"

"If su Lu gets first, he'll have one more point than us in total. However, ye Daxi, who's in second place, will still have one point less than us. So, we'll get a sailing quota for the mystic division Sea area as the second place in total!"

"If ye da Xi gets first place and su Lu gets second, then our three families will share the points equally! If we get second place, then needless to say, we'll definitely get the sailing quota in the mystic class Sea area!"

Ao Tianba's eyes brightened. Although he had already expected to obtain a spot, he still couldn't help but feel excited when he was certain that he would obtain it.

"That's right. For us, the worst case scenario is that all three teams will get the same points. We might even have to compete in other competitions. However, I can say with certainty that if the three teams split the points equally, vice guild leader Hao will definitely favor us in secret. There won't be any problems obtaining the spots."

Lin Yi smiled faintly. He believed that he Hao wouldn't let him down.

It wasn't that he Hao was biased towards ao Tianba, but he felt guilty because of the penalty points.

In addition, with Zhang jinmiao's reputation, he Hao would definitely compensate her in some way. Therefore, ao Tianba would definitely gain a great advantage if the three families split the loot equally.

"If that's the case, then we have nothing to worry about. We just need to prepare for the final sprint!"

Ao Tianba was in a good mood, but he didn't want to fall just because he got third place. He still had to fight for a good result!

If they shared the same points, there would always be a feeling of leaving their fate in the hands of others, which was not a pleasant experience.

The next three days passed in such a peaceful atmosphere.

Lin Yi and ao Tianba's ancient warship sailed in a straight line without any danger, and they found the island under the control of the sea beasts in half a day less than the estimated four days.

Ye da Xi and su Lu, who had benefited from this, even came over to greet him when they arrived at their destination.

After all, they had followed him all the way here, so it was still necessary to express their gratitude. As for the competition, it would be up to everyone's ability at the last moment, and this would not affect their relationship at all.

"This sea beast Island is quite big. Where can we find the quest items we need?"

Lin Yi said emotionally as he jumped down from the speedboat.

Ye Daxi and su Lu, who had just greeted them, were on their sides. They were also jumping off the small rapid-speed ship with a few of their men.

As the sea beast's Island did not have a dock, large ships such as the ancient battleships could stop in the deep sea far away. Then, they would board the small Swift ships to reach the island.

The task paper had mentioned that the sea beast Island prohibited the use of spiritual awareness to scan the area to avoid unnecessary trouble. In other people's territory, no one could help you if such a thing happened.

"No wonder they gave us two days to complete the transaction. It's not easy to find the shop where the task item is located!"

Ao Tianba was also scratching his head. If he were to search normally, it would probably take a day or two to walk the entire Island.

Chapter 6436 Wrong Shop

It was true that this Island couldn't be compared to the large islands like the West, North, and middle islands, but it wasn't too inferior to the northernmost Island.

Most importantly, the buildings of the sea beasts were not only rough, but they were also completely irregular.

Unlike human cultivators, they didn't like to group up their shops. Instead, they opened them randomly.

Those who liked the sea opened up a passage in a hidden place that led directly to the bottom of the sea. The shop was half-filled with water and half-empty, and it might be full of water when the tide rose.

There were also sea beasts. They were clearly sea creatures, but they liked to pretend to be spirit beasts in the forest. They would find a big tree and build a treehouse on the branches, which would be considered a shop. People who were not familiar with them would not even know that there was a business above them ...

As for the sea beasts that found caves in the mountains or opened their own caves, they were considered normal.

Therefore, it was really not an ordinary task to find a specific store and trade for the things he wanted, especially in the case where he couldn't use his divine sense. It was possible that he would pass by and miss it.

Two days?

Ao Tianba felt that it was not enough ...

It was a good thing they had saved some time on the voyage, saving a day's time for the round trip. However, if they wanted to get additional points, they really couldn't use up this one day's time. If they used it up, they would only have eight basic points left.

"Brother ao Tian, let's start as soon as possible. Everyone, split up and search. Don't get into a conflict with the sea beast clan."

Lin Yi didn't have a choice-each fleet was limited to six people on the island, and exceeding that number would be seen as a provocation. Splitting up wasn't a big deal.

Lin Yi decided to find a sea beast first and try asking for directions with Xiao Yan's Pearl-it'd save him a lot of trouble if it did.

"Good. The four of you, be careful. If you can find out anything, ask around. If the sea beast clan is not willing to cooperate, don't offend them. It's better to find them by yourselves. If you find anything, contact them immediately."

Ao Tianba turned around and instructed his four subordinates. They were all fast and had good endurance, so they were the most suitable for running errands.

"Yes, Captain!"

The four replied in unison and quickly spread out to look for the shop where the mission item was. As for the communication device, Lin Yi was speechless-it was a mid-long range walkie-talkie from the secular world!

However, it was quite suitable for this place. It seemed that the trade with ao Tianba was not in vain. At least his fleet's equipment was not bad.

Lin Yi beckoned to ao Tianba before heading off alone to find the target.

Although he wanted to find a sea beast to ask for directions, there were not many sea beasts on this Island. Only those who opened a shop and prepared to trade with the human race would appear here.

At other times, they would return to live in the sea.

Lin Yi only realized this after walking for a while-he found a rather obvious shop, but it wasn't open for business, so there weren't any sea beasts!

However, there was a sign placed at the door, which stated when the shop would open and the fixed time when human cultivators came to trade!

Obviously, this competition wasn't a fixed trading time for human cultivators. It was just a temporary treasure-hunting game set up by the yellow-class sea route management Association, so most of the shops didn't have owners.

"They didn't find a few sea beasts that they were close to and come here as guests, did they? That's really painstaking!"

Lin Yi said with a bitter smile as he looked at the sign.

It seemed that the plan of looking for a sea beast to ask for directions would not work. If he guessed correctly, there were basically no other sea beasts on the island these days.

Human cultivators were afraid of having a conflict with the sea beast clan after coming here. In fact, the sea beast clan did not want to have a conflict with human cultivators here.

After all, the fact that there was such a trading place meant that both parties had something they needed to trade!

In this way, maintaining the relationship between the two sides and ensuring the normal operation of the island became a matter that required the efforts of both sides.

"There's no one who can ask for directions, and I can't use my divine sense either. This is really troublesome!"

Lin Yi shrugged and continued to the next location.

In fact, without the sea beasts, using spirit sense shouldn't be a big deal, but Lin Yi found that the shop just now had a restriction that blocked spirit sense, and it was an extremely sensitive restriction!

It was a device that you wouldn't notice if you didn't pay attention, but once the divine sense swept by, it would immediately trigger an alarm to prevent others from using the divine sense.

If anyone used their spiritual sense to scan, they would be immediately discovered when they passed by this place. No wonder he specifically warned them not to use their spiritual sense.

"I can test the speed of the third level of the lightning escape technique!"

Lin Yi felt that walking was too troublesome, so he decided to use his lightning escape technique to search. If he used it, it wouldn't take long to cover the entire Island.

With a thought, the cells in his body rubbed against each other and produced enough lightning. Lin Yi instantly flew out, at least twice as fast as he was on the second floor!

If the previous lightning escape technique could be compared to teleportation, then the current lightning escape technique was even faster than teleportation.

However, in a long distance battle, the lightning movement technique was still inferior to the teleportation ability of space travel.

Other than speed, Lin Yi's control of his lightning escape technique had also increased! In the second level, it was very hard for Lin Yi to make the lightning movement technique change directions continuously.

But now, he could nimbly change directions more than ten times without a problem. This allowed the lightning escape technique to produce greater power in battle.

"I've found a shop that's open for business!"

Lin Yi was extremely happy. He wanted to test the power of the lightning escape technique for a long time, but it wasn't suitable for him to use it on the ancient warship.

On the island, he could finally satisfy his cravings and found the first shop that was open.

He walked into the shop and saw a chunky man smiling behind a simple counter. He nodded and greeted Lin Yi.

"Human friend, are you here to trade? Look carefully, this is the sign of my shop, don't look at the wrong place. "

The man pointed at a big shell hanging on the counter. There was a simple drawing on the shell, and Lin Yi knew that he wasn't that lucky. This wasn't the shop they were looking for.

"Hello, I would like to ask where the shop with this symbol is. I'll have to trouble you!"

Chapter 6437 The Kindness Of The Sea Beasts

Lin Yi took out a piece of paper, and on it was a picture he drew according to the mission paper.

"I'm sorry, human friend. I have an agreement with the yellow Class sea route management Association that I can't reveal the locations of the other shops. You'll have to find them yourself,"

The short and fat man spread his hands and looked apologetic. He was indeed a good businessman, and he didn't feel disgusted when he rejected someone.

Lin Yi blinked-he didn't think that the Association would be so meticulous with their arrangements. They didn't even allow him to ask for directions?

Initially, he wanted to take out Xiao Yan's communication bead and use his identity to ask. However, since that was the rule, he gave up on that idea.

In any case, with the speed of the lightning movement technique, it wouldn't take long to search the entire Island. There was more than enough time, so there was no need to worry at all.

"Alright then, thank you!"

Lin Yi didn't get the information he wanted, but he still thanked him politely.

"You're welcome. I didn't help much. " The short and fat man stood up and bowed slightly."

"I can sense a faint royal aura of the sea beasts on your body. I think you must be a good friend of our sea beast clan! To tell you the truth, the marks of our shops are all made at the last moment, so no one knows what kind of marks other shops have except for us. Even if I want to tell you, I can 't. "

Lin Yi didn't think that this man's senses would be this sharp, to be able to detect Xiao Yan's presence!

However, after thinking about it, he felt relieved. He had just put away the communication bead not long ago, so it was not strange that he could feel a little aura.

It was the man's information that made Lin Yi speechless-the competition was pretty strict, and not only were they not allowed to ask for directions, they wouldn't get anything out of it even if they did.

"It's fine. I still have to thank you for telling me this. "

Lin Yi smiled and nodded at the man, ready to leave.

"Human friend, I'll tell you one last piece of news. Although I don't know the specific location, I'm sure of one thing. If you want to complete the transaction, you must find an item on this Island that is used for the transaction. So when you look for a shop, you can first observe if there are any special items on the road and record them! Otherwise, it would be too late for you to go back and find something to trade after you find a shop. "

The short and chubby man seemed to think that Lin Yi was a friend of the king of the sea beasts, and felt a little embarrassed that he didn't tell him anything. He thought about it and decided to reveal some information about the deal.

"There's such a thing? Thank you, my friend! You've been a great help to me. "

Lin Yi was surprised-this was timely information!

Otherwise, he would have focused all his attention on looking for shops. Who would care about what was on this Island?

Anything that could be seen was probably nothing of value, just like how you wouldn't pay attention to a stone by your feet when you walked.

After getting the reminder, Lin Yi could save a lot of repeating time.

"Although we can't trade, these things are for you! I'm indeed a friend of one of the princes of your sea beasts!"

Lin Yi gratefully took out a few pills for sea beasts and placed them on the counter.

"How can I accept this?"

The short and fat man's eyes lit up. Although he really wanted it, he still declined.

"I'll go look for it first. You don't want to waste my time by avoiding me, right?"

Lin Yi said before leaving the shop.

The man thanked Lin Yi profusely and sent him off in a friendly manner. If all sea beasts were this friendly, then everyone would be rich in peace.

But Lin Yi knew that this man only treated him this way. If it was someone else, they wouldn't even be nice no matter how much benefits they were given.

With the reminder, Lin Yi started to pay attention to the things that looked different when he was looking for a shop.

For example, a flower that he had never seen before on the side of the road, a special grass on a mountain rock, a strange-shaped tree in the forest, and so on. Anyway, he just had to remember it so that he could come and collect it at any time when he needed it.

After four hours, Lin Yi had finished the preliminary search of the island.

Because he had to pay attention to whether there was anything special on the road, and these shops were really not easy to find, he still spent a lot of time.

He didn't know how the human practitioners found them, but he only found three open shops, and none of them were the ones he was looking for!

"Are you kidding me? are these sea beasts opening this shop to play with people? They can't even find the place, how did they make the deal?"

Lin Yi stood on a mountain peak, speechless as he looked down at the island.

He had met other people in the process of searching, not just ao Tianba's crew, but also ye Daxi and su Lu's men. After realizing the difficulty of the search, everyone was willing to share information, but unfortunately, no one had made much progress.

To ye da Xi and su Lu, it was good to share information with Lin Yi. After all, they still wanted to follow Lin Yi and the others when they returned!

After sharing the information, they could even shamelessly ask for them to leave together, in case Lin Yi and the others finished first and left alone.

"Since I couldn't find it the first time, I'll have to look for it a second time! I don't know how many shops are open. If there are seventeen or eighteen, then I'm really looking for death!"

Lin Yi sighed softly. It was already so hard for him to find the shop with his lightning escape. It didn't seem realistic for the others to find the shop in two days and complete the exchange mission!

Lin Yi's body flashed with lightning as he prepared to start a second search. At this time, his eyes accidentally glanced at a huge rock on the side of the road and suddenly felt that something was wrong!

If it weren't for his habit of paying attention to special items, he might've missed it!

However, since he realized that something was amiss, he canceled the lightning escape technique and went forward to check on the huge rock.

Lin Yi was speechless when he reached the other side of the rock. Was this a rock?

It was indeed a huge rock!

However, this huge rock had been hollowed out by someone, and there was an extremely hidden door here. If one didn't pay attention, it was impossible to discover that this was actually a shop!

Especially since this Boulder was located at the highest point of the entire Island, and the door was facing the cliff facing the sea, it definitely required a lot of luck to find this place.

"Is this a shop opened by a sea beast? It's so strange to run up to the top of the mountain!"

Lin Yi shook his head speechlessly and pushed open the stone door. If he didn't find the crack in the door, even he would've been fooled.

Chapter 6438 I Really Want To Slap Him To Death!

"Welcome, human friend. You're here to trade, right? Look carefully, this is the sign of my shop, don't look for the wrong place. "

The owner of the shop was a sea beast Master in the form of a bright young man. He was at the peak of the late mountain opening stage, and he smiled brightly as he saw Lin Yi.

"Hello!"

Lin Yi smiled and nodded at him. Because of Xiao Yan, he was more polite to these sea beasts.

He lifted his head and looked at the hanging shell-the mark on it made his eyes light up. He found it!

It seemed that his luck was really not bad!

He had thought that he would have to search a second or even a third time, but he had found the right store at the last moment.

But Lin Yi was still a little scared-if he hadn't found the crack in the door and just left, he wouldn't be able to find this shop again!

This was because there was really nothing on the top of the mountain except for the Boulder. He might not come again after coming here once.

"Human friend, are you looking for my shop?"

The bright young man said with a bright smile, as if he was happy that Lin Yi found this place.

"That's right, this is the place. I need to trade for a rainbow coral worm egg. Do you have it here?"

Lin Yi knew that they had something up their sleeves, but he couldn't help but ask. Who knew if they had anything else up their sleeves?

The eggs of the seven-colored coral worms were not precious. After all, there were many seven-colored coral worms in the sea. Their only use was to produce seven-colored coral!

This thing was a good material and was very popular as an ornament. The eggs of the seven-colored coral worm could breed seven-colored coral worms after hatching.

As long as one was willing to spend time, an egg could produce a large number of seven-colored coral insects after a hundred years.

However, no one would have the patience to spend a hundred years to cultivate such a thing.

"The eggs of the seven-colored coral worm? I do, I do, but this thing is in short supply recently, so I can only exchange it with something. If you don't have anything, I can't sell it to you. "

The warm boy smiled brightly again, his words as expected.

"There's such a rule? Then what would he need in exchange? I'll see if I have any suitable ones. "

Lin Yi thought to himself,"so it's here." He pretended to be surprised as if it was the first time he'd heard it, thinking that he'd grasped the situation pretty well.

"It's very simple. There's a type of parasitic worm grass on this Island that can speed up the cultivation of the seven-colored coral worms. If you want an egg, you can find me a strain of parasitic worm grass. Don't you think it's a good deal? You don't need to spend anything, just find a grass on the island and you can take away what you want!"

This young man said such annoying words with a smile, without any burden at all.

Lin Yi shrugged. What did he mean by "no need to spend"?

How much time did he have to waste for a piece of grass?

If he had the time to casually refine a furnace of elixirs, how many spiritual jades would that be? Could this be called not spending anything?

Of course, he couldn't tell this to the young sea beast. After asking about the appearance of the parasite worm grass, he began to recall the special things he had noticed before.

"Can I ask which area on the island is the parasitic worm grass in?"

Lin Yi thought about it, but there wasn't anything similar. He could only ask the youngster.

"The Cordyceps are on this Island. There's no special area. They're everywhere. Because they don't have high requirements for the environment, they can be found everywhere!"

The sunny teenager drew a circle with his hand, indicating that he could find the parasitic worm grass everywhere.

"Oh, really? Then why haven't I seen him before?"

Lin Yi looked at the young man suspiciously, his eyes full of disbelief. Could it be that there were too many of them, so he didn't notice?

But it couldn't be that he had no impression of it at all, right?

"If that's the case, there should be some on the mountaintop, right?"

It was everywhere, there was no way it wasn't on the top of the mountain. Lin Yi was sure that it wasn't there, and he wanted to see what the young man would say.

"Yup! Of course, there's some at the top of the mountain. I used to pick some when I had nothing to do."
"

The warm youth had a bright smile on his face as he spoke in a certain and confident tone while nodding.

Lin Yi raised an eyebrow-what was this nonsense?

This was it!

What did he mean by pointing at a deer as a horse and making irresponsible remarks?

This was it!

What did he mean by raising his hand to slap him?

This was it!

"Oh, by the way, most of the parasite Queen grass has withered in this season, so it's not easy to find them. Otherwise, I wouldn't have asked you to pick the parasite Queen grass to exchange for my seven-colored coral worm eggs with so many of them on the mountaintop! If you want to go out on your own, you can, don't you think so?"

The young man acted like he just remembered something, innocently asking Lin Yi if he was right.

"Right!"

Lin Yi smiled faintly-if he'd wanted to raise his hand to slap the guy a moment ago, he'd want to kick him a couple more times now ...

The Cordyceps have already withered. Are you sure you can find them?

"It's good that you think it's right. Let me tell you, there are Cordyceps everywhere, but the season is not right, so I can't see them anywhere. That's why I asked you to help me find one." Don't worry, there must be some Cordyceps on the island. At this time, there will always be one or two, or even two or three more tenacious ones that are still alive. You only need to find one of them. It's simple, right?"

The warm boy smiled sincerely, but Lin Yi didn't want to talk to him anymore.

What a waste of time!

"Brother ao Tian, I've found a shop. I need a type of parasitic worm grass from the island to exchange for the quest item, the rainbow coral worm eggs. Let's gather first. I'll show you the appearance of the parasitic worm grass."

Lin Yi left the shop and told ao Tianba and the others to gather.

"Hahaha, you're the best, lil bro Lin. We're at a loss here, and you've already found a shop. Alright, come over, we'll meet at the appointed place."

Ao Tianba was in a good mood-he'd been prepared to spend two days searching, but Lin Yi found the place in four hours.

"Alright, I'll wait for you there."

With that, Lin Yi took out a pen and paper and started drawing the parasite worm grass.

His painting skills were extremely high. After all, his divine sense was powerful, and his control over the details had become very abnormal. Moreover, the array patterns that he had to draw to learn the array Dao were extremely complicated. Drawing a mere worm grass was no big deal.

Chapter 6439 Completed One After Another

After finishing, Lin Yi calmly packed up his pen and paper, activated his lightning escape, and rushed to the meeting point.

His speed was naturally the fastest. After waiting for a long time, the others arrived one after another!

Lin Yi had already told them to pay attention to special things, so he gathered everyone to see if anyone had seen the parasite grass before.

"Come, take a look at this. This is the parasite worm grass that brother Lin drew. Once we find this, we can exchange for the item needed for the mission."

Ao Tianba was the second to arrive, so he saw Lin Yi's pictures first. He only gave them out after everyone was here.

"Captain, vice-captain, I've never seen this grass before! Do they have any habits? For example, did they like to grow in dry or damp environments? Do you like it warm or cold? do you like the light or the dark?"

None of the crew members had seen the Cordyceps before, so they had asked very carefully. The answers to these questions would greatly narrow the scope of search.

But Lin Yi didn't know the answers to any of these questions. If he did, it would be much easier for him to find them.

"All we know is that the parasite worm grass doesn't have high requirements for the environment. The entire Island is suitable for its growth. However, this grass is seasonal. It just so happens that it's withering at this time. It's already good enough that a small number of parasite worm grass can survive!"

"Therefore, it's not easy to find the parasite worm grass. We must be mentally prepared. We can't miss any corner. The more secretive a place is, the more we must search!"

Lin Yi didn't have much of a choice.

Parasite grass was suitable to grow in every corner of the island, which meant that it could appear in any corner. It was much harder to find than plants that had high requirements for the environment. After all, such plants would have a much smaller area.

"I understand! We'll find it inch by inch!"

The four crew members replied in unison before scattering.

"Lil bro Lin, it's a good thing you found the shop earlier. Otherwise, it wouldn't be easy for us to complete the mission in two days."

Ao Tianba couldn't help but sigh-his luck had indeed improved a lot because of Lin Yi!

Otherwise, this mission of finding the parasite worm grass might take him two to three days, not to mention finding a store first.

"Alright, brother ao Tian, let's stop sighing here. Let's hurry and find the Cordyceps!"

Lin Yi smiled and waved at ao Tianba, creating a lightning arc and flying away.

Ao Tianba and his four subordinates divided their respective areas and slowly looked for the Cordyceps.

Lin Yi, on the other hand, relied on his speed to move back and forth in the various areas, making sure that no one was missing.

During this time, they found two more hidden shops, but they were no longer useful to them.

At most, they would exclaim that these sea beasts were really abnormal. They didn't pay attention to the location at all when doing business. What were they trying to do by hiding the shop so tightly? Was he afraid of being robbed or what?

Ye Daxi and su Lu were quite lucky. They found their own mission Store and started searching for the items they needed.

The three fleets had made similar progress, which was the best for them. Otherwise, the AO Tianba fleet would leave first, and their return journey would be much more troublesome.

Time slowly passed as they continued their boring search. Some of the fleets behind them had also arrived at the island. However, they still had to find the shops they needed. They were far behind in their progress, and there was basically no possibility of them threatening the three fleets.

A day later, the three fleets, which had almost turned the entire Island upside down, finally found what they wanted and successfully exchanged for the mission items. This speed could be said to be quite fast.

"Captain ye, Captain su, you're so fast. We've just finished the mission, and you've already done it!"

Lin Yi and ao Tianba had just boarded the ship when ye Daxi and su Lu arrived. Lin Yi and ao Tianba naturally had to greet them.

"Haha, Captain ao Tian, you guys were a little faster than us. We'll have many opportunities to work together in the future. Let's have a good chat later!"

Ye smiled and cupped his hands at Lin Yi and ao Tianba, expressing his goodwill first.

"Of course, of course. When Captain ye is free, let's meet up for tea and a chat."

Ao Tian BA also cupped his hands. If Lin Yi wasn't around, it would be good for his fleet to build a good relationship with ye da Xi.

"This time, Captain ao Tian will definitely get one of the two sailing quotas in the Xuan class Sea area. I'll congratulate you in advance. Let's meet again later!"

Ye was overjoyed. He boarded his small rapid-speed ship and said goodbye to everyone. He then set off in the direction of the fleet.

"Hypocrite!" Su Lu snorted and turned to ao Tianba."

"Captain ao Tian, don't trust a hypocrite like ye Daxi too much. He likes to play tricks, and he's always smiling. You can tell he's not a good person at first glance!"

"It's not that I'm looking for trouble, but you'll definitely suffer if you get too close to him. This time, let's work together and push him down to the third place so that he won't be able to get a navigation spot in the mystic division Sea area. What do you think?"

It was rare for su Lu to suggest working together first, and it surprised both Lin Yi and ao Tianba.

"I say, mad su Lu, this doesn't sound like something you would say!"

Lin Yi looked at su Lu in shock, not understanding what he was seeing.

"F * ck, Lin Yi, you coward! You still don't dare to accept my challenge! To deal with ye da Xi, of course, you have to rely on me. As long as my ranking is higher than his, he will be completely eliminated. You guys won't be affected, so I'm just informing you. To put it nicely, it's a cooperation. "

Su Lu was disdainful of Lin Yi, but he wanted Lin Yi to accept his challenge.

The ancient battleship was destroyed by Lin Yi in a one-on-one fight-this was su Lu's nightmare. He wouldn't be able to sleep well if he didn't challenge Lin Yi again.

If the same thing happened again, he would give up, because it meant that the gap between the two sides was so big. Before he tried to catch up, he didn't have to consider continuing the challenge.

"Aren't you worried that you won't have any friends if you speak so frankly?"

Lin Yi smiled, and his eyes softened.

Chapter 6440 Trouble

He had come into contact with su Lu more than once or twice. This guy was generally an interesting person, but he was stubborn sometimes!

Other than that, he was indeed a relatively pure person, a completely different type from ye Daxi.

But to Lin Yi, these two types of people could still be friends. He wouldn't purposely make someone his enemy just for one person. It was better for them to each do their own thing.

"I, Gale Sulu, have friends. Are you telling a joke? I'll be leaving first, see you at the venue!"

Su Lu snorted and did not say anything else. He also boarded a small rapid-speed ship and left quickly.

"These two guys actually found the thing a long time ago. They were just waiting for us to go back together, right?"

Ao Tianba suddenly touched his chin and muttered to himself.

"Eh, brother ao Tian, what you said makes sense! The location of their shop is easier to find than ours, and they need the same things. Maybe they really are deliberately waiting for us to go back together. It seems that these two guys are addicted to freeloading on the sea route. "

Lin Yi said faintly, not really bothered by it-it was on the way anyway, and it didn't really affect them anyway.

When the three fleets started to return, a few fleets that had arrived late had just arrived and had yet to land on the island. The gap between the two sides was unimaginable. Perhaps by the time they found what they wanted, the three fleets would have already returned to torrent city and finished the competition.

The journey back was still calm and peaceful. After more than a day, they did not encounter any obstacles.

Lin Yi, who was using his Qi to wrap the communication bead, was very relaxed.

Speaking of which, the third round was the easiest. All they had to do was to look for something, unlike the first round where they almost got wiped out several times and were completely eliminated!

It was also not like the second round, which involved a lot of competition and snatching. That was also the only round where there were heavy casualties.

Of course, Lin Yi had Xiao Yan's communication Pearl with him this time. Otherwise, he wouldn't have been able to complete it so easily.

Although the fleet behind them was slow, the sea route management Association had already made an agreement with the sea beast clan in advance. At most, they would only make things difficult for them, and there would not be any serious casualties.

"Brother Lin, the return trip this time will be even faster than when we came. We'll be able to return to torrent city very soon and see Dean Zhang and miss LAN 'er. It's only been a few days, so you shouldn't miss them too much, right?"

Ao Tianba was in a good mood as he came to the bow to chat with Lin Yi.

"I didn't think about it at first, but now that you've mentioned it, I really do."

Lin Yi smiled, not hiding his feelings at all. It'd been a few days since they last met, and without Shangguan LAN 'er, it was indeed a little cold.

When Shangguan LAN 'er was by his side and listening to her chatter, he would feel full of vitality. It was a pity that she could not follow him, otherwise, she could have had a good time on the island.

At this time, nearly half of the voyage had already passed. In just a little more than a day, they would be able to leave the area where the sea beasts were active!

At that time, Gale Sulu and ye Daxi's competition would be in full swing. Their final ranking would be crucial for the navigation quota in the mystic division Sea region.

Ao Tianba's fleet, on the other hand, was in an invincible position. They could easily laugh at the battle between the two sides, unless the two sides suddenly had brain damage and secretly joined forces to attack ao Tianba!

That way, they could get the spots together, but they'd also offend the mysterious ao Tianba and Lin Yi. They'd have to worry about a beast tide attack when they set sail in the future, and they wouldn't be so stupid as to do that.

"Eh? brother Lin, is there a sea beast tide gathering in the distance? Did you call them here? Do you want to stop ye da Xi and su Lu so that we can take first place?"

Ao Tianba suddenly pointed to his right, surprised.

Lin Yi blinked. He was focusing on perfecting the third level of his lightning escape when he was free, so he didn't release his spirit sense too far. With Xiao Yan's communication Pearl in the sea, there shouldn't be any danger.

However, when he saw the boundless white water line in the distance, his expression changed!

When he was on his way back, he placed the communication Pearl into the sea and contacted Xiao Yan immediately.

Even though they had only exchanged a few words, Xiao Yan's tone was filled with worry. This was because there were many amongst the Royal aquatic beast clans who supported the continued cooperation with the spiritual beast clan. Although there were not more than half of them, they were not far from it.

As for the matter of chasing after Xiao Yan, they simply said that Xiao Yan was too arrogant and offended the higher-ups of the spiritual beast clan. Moreover, Xiao Yan did not suffer any major injuries!

On the contrary, because of his mistake, the sea beast clan had lost many experts, including two experts at the sea splitting stage.

Because of this matter, the two forces had been quarreling non-stop, but the king of the sea beasts had not expressed his position, so the matter was suspended in mid-air, and there had been no result.

"Brother ao Tian, prepare for battle. Send a signal to ye da Xi and su Lu. Tell them to be careful."

Lin Yi had a bad feeling about this-he had ao Tianba make the preparations while he contacted Xiao Yan.

"Brother Xiao, I'm on the ocean. I've discovered a sea beast tide in the distance. Their target seems to be our fleet. Do you know what's going on?"

Lin Yi used his spirit sense to communicate with Xiao Yan.

"Brother Lin, you said that a sea beast tide is preparing to attack you? Wait a minute, let me see the situation. "

Xiao Yi's tone was full of shock, but Lin Yi didn't think that it was a big deal.

After just two breaths, Xiao Yi had a reply, but his tone had become very bad.

"Brother Lin, I'm afraid I've implicated you this time. I've checked and found that you're now in the deep sea near the Yellow Sea region of the East continent. It's one of the stronger places for our sea beast clan! However, the ruler of this Sea region is another branch of our Royal clan. Unfortunately, he is one of the people who supports the cooperation with the spirit beast clan, which makes him one of my enemies. Ordinary sea beasts will give me, a Prince, some face and will naturally avoid me after sensing my aura. But if he says something, then there's no face to speak of. "

Xiao Yi said guiltily. Lin Yi was indeed implicated by him this time-if he didn't use his communication bead, he would've been safe.

Ordinary sea beasts would respect the royal family of sea beasts. However, their rulers were also the royal family of sea beasts. If their rulers wanted to attack another royal family, as long as they did not directly attack the king of sea beasts, the sea beasts would basically not refuse. Moreover, this time, they were only attacking the human fleet that had the aura of the royal family of sea beasts!
