

Bodyguard 6441

Chapter 6441 It's Not That I Don't Want To, But I Can't

This was nothing to the sea beasts in this area!

"Brother Lin, leave this Sea region as soon as possible. I know that you are on an ancient battleship. Use the ten thousand mile formation immediately to avoid being surrounded! The scale of the sea beast tide this time was huge. If they didn't leave, they would be in great danger! My communication Pearl is useless now. Our communication will be cut off when the sea beast tide approaches ..."

Just as Xiao Yi said that the communication would be cut off, the communication between the two sides was really cut off!

Lin Yi took a deep breath, knowing that he was in real trouble this time.

The Royal sea beasts that were Xiao Yan's enemies couldn't do anything to him, so they vented all their anger on Lin Yi who had Xiao Yan's aura. These sea beasts probably didn't even send a message to the Royal sea beasts when they went there, and now that the Royal sea beasts knew about the situation, they would immediately turn hostile.

After putting away Xiao Yan's communication bead, Lin Yi returned to the bridge with a flash of lightning, ready to control the ten thousand mile formation to leave the sea beast tide.

"Brother ao Tian, have you given ye da Xi and su Lu any news? The situation isn't good. Let him use the ten thousand mile formation to leave!"

Lin Yi said as he prepared to activate the ten thousand mile formation.

Even though the communication Pearl was kept, the target of the sea beast tide was clear. It would not stop just because Xiao Yan's aura disappeared. It continued to charge straight for the Alliance fleet.

When they first saw it, it was just a boundless water line. Now, they could clearly see the sea beasts at the forefront.

"Lil bro Lin, what's going on?"

Ao Tianba asked Lin Yi. He'd been through a lot with Lin Yi, but this was a bit too big.

He had never seen a sea beast tide of this scale!

At that time, the northernmost Island had already felt that there was an overwhelming sea beast tide. However, compared to this time, the frontline was enough to completely destroy the sea beast tide on the northernmost Island.

"There's a problem. I don't have time to talk about it. Tell ye Daxi and the others to run for their lives. We can't take care of them anymore!"

Lin Yi's mouth moved quickly as he finished preparing the ten thousand mile formation.

At this time, how could they still care about the rules of the third round that forbade the use of the ten thousand li formation? if they were going to lose their lives, what was the competition?

"I know. I've already sent them the signal. We don't care what they do."

Ao Tianba was also very straightforward. He was glad that he only had one ancient warship. At least it would be much easier for him to escape.

Ye da Xi and su Lu's fleet was a mix of ancient warships and larger warships. The ancient warships could escape using the ten thousand mile formation, but the larger warships could not.

Just as Lin Yi was about to activate the ten thousand mile formation, ye da Xi and su Lu's fleet attacked the sea beast tide at the same time, both of them choosing a cluster attack mode.

Not only did it have a powerful attack, but it also had a penetrating power!

The sea beasts were not like warships, so they did not have the protection of shields. Therefore, a cluster of attacks could penetrate several sea beasts.

Although this loss was not even a drop in the ocean for the sea beast tide, it was barely enough to open up a small gap, causing the sea beast tide's minion line to be less complete.

"Why aren't they running?"

Lin Yi was stunned. They were still attacking the sea beast tide at this time? did they think their fleet could withstand the attack?

However, he immediately realized that the two fleets could not run, not that they did not want to!

"Hell, their large warships don't have the ten thousand mile formation!"

Lin Yi couldn't help but curse under his breath. He wasn't familiar with large battleships-he'd only seen them for a while in the illusion formation. Otherwise, he'd never have seen one before.

Therefore, he forgot about the escape ability of the large warships, which were completely incomparable to the ancient warships.

He was used to controlling ancient ships, and he thought that all the ships in the fleet could use the ten thousand mile formation.

"Brother ao Tian, we're going to fight alongside su Luye. We can't leave them behind and run away unless it's the most dangerous time!"

Lin Yi stopped what he was doing and looked at ao Tianba with a serious face.

The two fleets were here for a ride, but after spending time with them, Lin Yi already treated them as his friends. He wouldn't let these annoying guys follow his fleet otherwise.

Since the two fleets didn't want to abandon their ships, Lin Yi naturally couldn't abandon them.

However, the ancient warship still belonged to ao Tianba. If ao Tianba didn't agree, he would have to leave!

However, his close relationship with ao Tianba would probably crack.

"Good! Brother Lin, if you don't want to escape on your own, then I, ao Tianba, will definitely risk my life to accompany you. We'll just charge into this terrifying sea beast tide together, what's the big deal?"

Ao Tianba laughed heartily, choosing to stand beside Lin Yi without hesitation.

The two had been through life and death together, and ao Tianba trusted Lin Yi more than he trusted himself. If Lin Yi said he wanted to stay, then he would stay!

"Many thanks, brother ao Tian!"

Lin Yi was touched-this was his own stubbornness, but ao Tianba supported him without holding back. He didn't make a brother like this in vain!

"Tell su Lu and ye da Xi to have their fleet follow our warships. When they attack, they will be under our command!"

Lin Yi switched from the ten thousand miles formation to the falling star formation. This was the ancient warship's strongest attack method, and it was what he was best at.

Ye da Xi and su Lu were both better than Lin Yi in terms of commanding fleets, but the two of them didn't match each other-there was no way they could work together!

If they fought on their own, they would only be completely destroyed by the sea beast tide. Instead of that, it was better to take over the command and form a joint force, which would give them a greater chance of escaping.

"Senior ghost, this is a serious matter. Quickly come out and help!"

Lin Yi really needed the ghostly thing's help at this time. Everything else aside, he needed the combined strength of the two in terms of divine sense.

Lin Yi's own spirit sense couldn't cover the entire sea beast tide, so he didn't know how many there were or how wide the area was.

That was why he wanted the ghost to help him!

Ever since the two of them found the spatial scale in the cave during the second round, Lin Yi realized that when their senses were combined, they could unleash an effect greater than one plus one!

Perhaps he could use this to find the location where the sea beast tide was relatively weak.

Chapter 6442 Obtaining Command

"You're really troublesome, kid. Trouble follows you everywhere you go! Can't you just let this old man have some peace!"

The ghastly thing's tone was unfriendly as it muttered.

She'd just been studying the broken Space Array flag for a couple of days, and Lin Yi called her out before she could even figure out anything.

However, when it saw the massive sea beast tide in front of it, it couldn't help but be shocked!

The commotion was truly too shocking.

"Why aren't you guys dead yet? What else do you want?"

The damn thing couldn't help but complain. It was already something to be proud of to be able to hold on for a few breaths under such a sea beast tide. As for not dying? Don't think too much ...

"Senior ghost, stop joking. We still have two fleets behind us! Hurry up, let's look for the weaker parts of the sea beast tide! I don't believe that such a huge sea beast tide is formed by powerful sea beasts. "

Lin Yi said a few simple words and extended his spirit sense out with the thing.

Under the two's joint efforts, the range of their divine senses had indeed multiplied, and their insight into detection had also become stronger.

"The sea beasts in that position are very weak. They are all of the original infant stage and the Golden core stage. There are a few sea beasts of the xuansheng stage who are taking orders and giving them orders as leaders. That should be our only chance to break through!"

The demonic thing knew that the situation was urgent, so it wasn't in the mood to joke around. It quickly found the weak point with Lin Yi.

The two didn't need much time to communicate in their mentalities, so Lin Yi could continue the conversation without any obstacles."Brother ao Tian, did they reply? The opportunity is fleeting, and if they don't agree, we can only do our best and leave!"

Lin Yi understood that if the two didn't believe him, there was no point in him staying. He might as well leave.

Although he didn't want to leave the two of them, if they didn't trust him, he could only give up.

There was no reason for anyone to put the person who trusted them in danger just to protect someone who didn't trust them.

Ao Tianba didn't think that Lin Yi's request was too much. As far as he was concerned, if Lin Yi was willing to stay and help ye Daxi and su Lu, it was only right for them to listen to Lin Yi's orders.

Only after a breath's time, the other two fleets had also sent back messages.

"They've all agreed. Lil bro Lin, you can give the order now!"

Ao Tianba was not surprised at all. He thought that it was only natural. He did not think about how difficult it was for ye da Xi and su Lu to make such a quick decision with their status.

Lin Yi really wasn't that good at commanding a fleet, but it was a good thing that he'd called that thing out. As an elder of the spirit beast clan, that thing knew a lot of things.

Although there were some problems with his memory due to his primordial spirit, there was not much difference between commanding a fleet and commanding an Army. The damn thing took over the command without hesitation.

"Let's head in this direction. Let su Lu's fleet form an arrow formation to attack. Ye Daxi's fleet will form a defensive formation to protect the two wings from the sea beast tide. Our ancient warships will cover the rear!"

Lin Yi ordered quickly. Of course, this was all done through the ghost's mouth.

Su Lu and ye da Xi's fleet immediately responded without any hesitation!

This was also because they saw ao Tianba's ancient battleship formation light up and then go out. They knew that Lin Yi was taking the risk to stay and help them, and they owed him a big favor.

Moreover, the two of them weren't stupid. They knew that neither of them would be convinced by the other. If they were to cooperate, they would have to distinguish between the primary and secondary, and it was impossible for the two of them to cooperate!

Only Lin Yi and ao Tianba, as the third party, could act as a buffer between the two, or at least lie to him that he was working with ao Tianba, not ye da Xi or su Lu.

Gale Sulu quickly displayed his strength and formed into an arrow formation, charging in the direction Lin Yi pointed.

Ye Daxi's fleet spread out slightly to protect the two wings of the Alliance fleet. They did not aim to kill or injure the sea beasts, but to defend against the sea beast tide.

Ao Tianba followed ye Daxi's instructions and covered their backs. Lin Yi's hands left a trail of afterimages as he activated the Starfall formation to its maximum. Starlight rained down from the sky, not only stopping the sea beasts from chasing them, but also helping ye Daxi's fleet clear out the sea beast hordes on both sides.

"Lin Yi's control of the falling star formation is really perfect, I can't compare to him no matter what!"

Su Lu didn't forget to pay attention to the situation of the Alliance fleet when he attacked. He couldn't help but exclaim when he saw Lin Yi's performance. "If I can escape this time, I'll have to fight him no matter what. I have to experience such a godly skill for myself to find a direction to learn."

"Wind! Wind! Gale!"

The gale fleet in the arrow Battle formation let out a deafening roar and began to attack without any hesitation.

Lin Yi, or rather, the thing, chose the weakest part of the sea beast tide, so the storm fleet was like a piece of rotten wood as they charged in with an unstoppable force!

Those weak sea beasts simply didn't have the slightest power to resist!

Originally, if the arrow formation advanced at this speed, ye Daxi's fleet might not be able to keep up, causing the two fleets to fall apart.

However, due to the density of the sea beasts in front of the gale fleet, although the arrow formation was not stopped, the speed of the impact was inevitably reduced.

On the other hand, ye Daxi's fleet and ao Tianba's fleet did not face the same pressure from the front, so they were not slower than su Lu. They were just enough to ensure the safety of the mixed fleet.

At this time, Lin Yi and the damn thing's senses had already discovered that the sea beast tide had completed the roundabout from both sides, completely surrounding their mixed fleet in the middle!

If he wanted to escape now, he could only break through again and again and break through this sea beast tide!

"The sea beasts of the sea beast tide are making slight adjustments to their positions. They want to disperse the weak sea beasts here, and then add in the stronger sea beasts to completely surround and kill us!"

The demonic thing and Lin Yi's spirit sense were strong, and the advantage they had was that they could see the sea beast tide in a large area. After discovering this change, Lin Yi immediately ordered,"

"Shift su Lu's fleet ten degrees to the right and continue the assault!"

Ao Tianba didn't ask any questions. He gave an order to su Lu, and the arrow formation in front of him began to change its angle slightly, continuing to charge forward with no signs of retreat.

Ye da Xi didn't wait for Lin Yi's instructions and followed the wind fleet, maintaining the unity of the Alliance fleet.

Ye da Xi was indeed much better at commanding the fleet than su Lu.

Su Lu had always been a person who liked to charge and kill directly!

Chapter 6443 Fighting For A Day And Night

After this adjustment, the damn thing could immediately confirm that there was a guy with good tactical literacy commanding the sea beast tide!

The changes in the sea beast tide would change according to the fleet's changes. This was one of the most annoying situations!

This was because you had no idea how your opponent would play, and your change in formation would be detected by them in time and they would change accordingly.

"Tell su Lu to go faster!"

The thing roared through Lin Yi's mouth.

The speed of the entire fleet had been reduced because the sea beast tide had become more concentrated. Even Su Lu found it difficult to maintain the piercing power of the arrow formation.

The sea beast tide came in waves as if there was no end to it. Su Lu's fleet was like an arrow that was shot out. After penetrating layer after layer of obstacles, the impact of the attack was inevitably reduced. It was like an arrow at the end of its flight, and its power was naturally reduced.

"Su Lu's done his best. His fleet needs space to make full use of its speed advantage to form a force of impact. There's no space now, so this is all the arrow formation can do."

Ao Tianba was like a middleman, connecting the three fleets.

"You need space? Alright, I'll give him some space! Stop all the fleets and prepare for battle!"

Lin Yi yelled and started controlling the ten thousand mile formation again.

Ao Tianba had never seen Lin Yi in this state before, but he didn't suspect anything. After all, the situation wasn't looking good for him, and he was in the same state himself.

Su Lu and Ye Da Xi's fleets were all elites who had gone through hundreds of battles. They stopped as they were told!

Although staying still in the middle of the sea beast tide was the same as looking for death, since they chose to believe in Lin Yi, they would support every decision Lin Yi made unconditionally. If they were half-hearted, they would only put everyone in a dead end.

The demonic thing and Lin Yi's divine senses covered the entire area, and they ordered su Lu to attack from both sides when there was a gap in su Lu's fleet's attack!

At the same time, he activated the ten thousand mile formation and appeared directly in front of su Lu's fleet. The Starfall formation descended at full power without stopping, instantly clearing a space in front of su Lu's fleet that was free of sea beasts.

"Let's go!"

"Go!" Lin Yi gave the order in a simple and direct way. He continued to move the ten thousand mile formation for a short distance, clearing out another space in front of him and leaving the previous space for su Lu to attack.

The entire Alliance fleet was immediately activated, and the arrow Battle formation once again showed its indomitable momentum. At this time, neither su Lu nor ye da Xi noticed that the two of them had actually joined forces.

As ao Tianba's ancient battleship had separated from the Alliance fleet and was creating a gap in the front to guide the fleet behind them, it was actually ye da Xi and su Lu's fleets that were working together.

After Lin Yi's preparation, su Lu's Arrow Battle formation was no longer blocked. It was like tearing a piece of cloth that was still intact before, but now he only needed to tear a piece of cloth with holes all over it. It didn't take much effort at all!

When su Lu's fleet reached its peak again, Lin Yi returned to the rear of the fleet with the ten thousand mile formation, continuing to cover the retreat.

This assault had consumed a large amount of resources, and the ancient warship was almost at its limit.

After all, the continuous use of the ten thousand miles formation and the falling star formation was a huge burden on the ancient warship. The continuous output of the falling star formation made su Lu and ye dumbfounded.

Su Lu almost gave up on the idea of challenging Lin Yi. Of course, it was only a slight difference, but he became more and more determined to challenge Lin Yi, or make Lin Yi teach him this method!

"Captain ao Tian, I, ye Daxi, will bear the losses of your fleet. Without you, our fleet would have been completely annihilated!"

When the situation stabilized, ye was overjoyed and immediately sent a message, requesting to bear the losses of ao Tianba and the others.

They were all experts in naval battles, and the ancient warship Lin Yi just controlled must have consumed a huge amount of resources. He left it behind to save them, and it did play a very important role!

If he didn't even give them these supplies, it would be too disappointing!

From this, it could be seen that ye Daxi was indeed a very meticulous person. He was also very thoughtful when considering problems.

"Captain ye, let's not talk about this now. Let's go out first!"

Ao Tianba did not care about the spiritual Jade. As long as he could make it back alive, ye da Xi and su Lu's friendship was more than enough to compensate for the loss.

Moreover, it was impossible for these two families not to compensate him, so the most important thing was that everyone could get out of here alive!

After a short period of repair, the ancient warships once again launched a full-force attack to open a path for the fleet to advance!

During this period of time, it could be said that the ghostly thing was fighting with the commander of the sea beast clan in a battle of wits and strength. Both sides were going back and forth, not giving in to each other.

The advantage of these things was that when they worked together with Lin Yi's spirit sense, their detection range was greatly increased.

Basically, he could detect any movement of the SH beasts beforehand. Then, he would specifically find the weakest spot of the sea beasts and let su Lu tear open the space.

On the other hand, the commander of the sea beast clan could control the overall development of the situation through the sea beast tide, and make changes at any time according to the changes of the opponent.

This was like two experts in a game of chess. One side would continuously place pieces to lay out a plan, while the other side would continuously attack the weak points of the other side's plan, looking for an opportunity to break out of the situation.

In the beginning, it was basically difficult to determine who was stronger. However, as time passed, the situation began to get out of control.

On the damn thing's side, it was inevitable that their warships would suffer damage due to the continuous fierce battles.

Moreover, it was impossible to have an unlimited supply of resources on the warship. Once there was a shortage of resources, the attack power would be greatly reduced, and it would be almost impossible to escape.

As for the sea beast clan, it was not an easy task to command them as the sea beast tide this time was simply too massive.

On the other hand, the sea beast tide itself would be a little chaotic. Although the commanders of the sea beast clan were powerful, it was inevitable that they would not be able to take care of such a massive sea beast tide for a long time.

However, under the command of the ghostly insight, the joint fleet was always able to jump out of the gaps in the encirclement and jump around in a large area.

The intense battle had already lasted for a day and a night, and the entire Alliance fleet's consumption was almost at its limit!

This was also because of the orderly command of the damned thing. They had not encountered the true main force of the sea beast tide. All the sea beasts they had faced were all low-level sea beasts below the xuansheng stage.

If they had encountered a sea beast tide composed of sea beasts above the mountain opening stage, perhaps this fleet would have been annihilated several times.

Chapter 6444 Everything Was Planned

In addition to the consumption of resources, everyone's nerves had become numb from the high-intensity continuous battle. If this continued, the entire fleet might collapse at any time.

"Lin Yi, you've tried your best. Let their ancient battleships use the ten thousand mile formation to escape, or they'll all be wiped out."

The demonic thing tried to persuade him. He had already tried his best, but the opponent was too strong. The scale of the sea beast tide this time was unprecedentedly large. It was already a miracle that they had been able to hold on until now.

Su Lu's fleet had lost two large warships so far, and ye da Xi's fleet had also lost two large warships.

This kind of battle loss ratio was simply too low. The number of Dead Sea beasts had already exceeded 30000. Although only a single-digit number of them were at the beginning stage of their cultivation, the result was still quite shocking.

"Senior ghost, we've already fought to this point, how can we give up so easily? The sea beast tide in that direction is relatively weak. After we break through, we might be able to ..."

Lin Yi said unwillingly.

Other than su Lu, ye Daxi, and a few other crew members whom he had met before, he was a complete stranger to the rest of the fleet. However, they had all been fighting side by side for so long, and they had all gone through thick and thin together. He would feel terrible if he gave up on any one of them.

"Can we break through the sea beast tide? So what? As long as you don't use the ten thousand li formation, do you think you can escape the sea beast tide? Perhaps that guy is waiting for us to break through, and then mobilize the powerful main force of the sea beasts to pursue us! These low-level sea beast tides are just to waste our pawns! With our exhausted Army, can we resist a sea beast tide formed by high-level sea beasts?"

The demonic thing interrupted Lin Yi. It wasn't that he didn't see the weak points of the sea beast tide, but after one day and one night of fighting, he more or less had some understanding of the style of the commander. It was very likely that it was a flaw that was intentionally revealed, just waiting for you to jump in!

"Even if it's a trap, I have to jump in! Whether or not we can escape is something we need to consider later. "

Lin Yi ordered calmly, unmoved.

The long period of command from the ghostly thing had also given him a lot of inspiration, so it was not impossible to continue the commanding style of the ghostly thing.

Lin Yi's combat instincts were already extraordinary, and there was nothing wrong with this order.

The demonic thing sighed and stopped trying to persuade Lin Yi. That weak spot was very likely a trap, but at the same time, it might be an opportunity!

Most importantly, the Alliance fleet had no other choice. That was the only way out. If they didn't go, they would be waiting for death!

Su Lu carried out his orders as quickly as before, but the attack power and impact of his fleet had clearly decreased. If there was no turning point this time, they might really fail!

No matter how unwilling they were to admit it, they could only helplessly accept this fact.

Even though they had persisted for so long and only lost four large warships, once they started to collapse, it would be a complete collapse!

It was possible that they would be completely torn apart by the sea beast tide in a short moment.

"Wind! Wind! Gale!"

The slogan of the gale fleet was still majestic; however, it was full of tragedy.

Lin Yi heard the name from the back and immediately thought of it.

[The wind blows, and the water turns cold. The warrior leaves, and never returns!]

It didn't seem to be a good sign. He hoped that he was just overthinking.

The storm fleet started to attack with all their might!

Assault! Assault!

Even ye da Xi's fleet seemed to have gone crazy, desperately attacking the sea beast tide around the fleet!

After sprinting for a long distance, Lin Yi's eyes lit up. His spirit sense finally saw the edge of the sea beast tide!

If they continued in this direction, they would rush out of the sea beast tide!

And that direction was the East Province!

"Charge! Charge! Charge! The victory is ours!"

Lin Yi started to shout like crazy as well, and this seemingly encouraging shout received even more support.

As for whether or not he could escape the pursuit of the sea beasts after he made it out, that wasn't within Lin Yi's consideration for now.

Goals had to be achieved one by one, and once one was achieved, the next one wasn't far away, right?

Perhaps it was really as the damn thing said, the commander of the sea beast tide purposely left a hole and dug a hole for Lin Yi and the others to jump in.

However, this was at least an opportunity. It was much better than being trapped in the sea beast tide without any hope!

After advancing for a long distance, Lin Yi's spirit sense discovered that there were a large number of high-level sea beasts gathering at the edge of the sea beast tide!

Just as the ghost had expected, this was a trap set up by the other party. However, it was not a conspiracy, but an open and aboveboard scheme.

Lin Yi and the others had no other choice. Other than this direction, the other directions were the territory of the sea beasts. They would only die faster if they went in another direction.

"They're giving us a chance to escape. Then, they'll try to see which is faster, the fleet or the sea beast tide."

Lin Yi smiled bitterly. An open scheme was called an open scheme because it was useless even if you knew!

You can't crack it at all, you have to follow the other party's settings.

In the beginning, Lin Yi thought that the commander was too stupid. If they used the high-level sea beasts to deal with them, the fleet wouldn't have lasted until now.

However, it was only at this moment that he realized that he might have been too naive. The other party might have deliberately used the low-level sea beast tide to exhaust their combat strength.

This was because if they had used the high-level sea beasts from the beginning, they could have sped up the process of the battle, but the sea beast clan would have suffered a great loss!

Even if a large number of sea beast Masters fought with the fleet, they might not be able to kill Lin Yi and the others in the end. After all, the ancient battleship's life-saving ability was very strong.

However, it was different now. The tens of thousands of low-level sea beasts that had died were originally cannon fodder. No matter how many of them were lost, he would not feel any heartache!

The combined fleet, on the other hand, was a different story. It was a consumption that couldn't be replenished, and when the high-level sea beast tide appeared at the last moment, Lin Yi and the others had almost no power to fight back.

"Senior ghost, did they plan all this in advance?"

Lin Yi felt a chill down his spine as beads of cold sweat formed on his forehead.

He didn't think much of it if he didn't think about it, but after thinking about it carefully, he realized how terrifying his opponent was.

"That's right. The other party's strategic and tactical abilities are quite strong, and we can only follow their rhythm! There's no other way, the general situation is on their side. "

The ghastly thing said with a helpless expression.

It was rare for him to use such a tone, which showed how strong his opponent was. The gap between the two sides was indeed not something that could be made up for by human strength.

Chapter 6445 Reinforcements Are Here!

"You already knew?"

Lin Yi blinked, understanding that the question was meaningless. So what if the thing could tell?

So what if he didn't say it?

Still, they had no other choice!

The damn thing had already done all he could!

If it wasn't for the devilish things, the other party's strategy wouldn't have needed to go this far. A feint attack of a low-level sea beast tide was enough to cause them to suffer heavy losses.

"It's useless even if you can see it. You'd better inform them to prepare to escape!"

The ghastly thing sighed softly. It did not think that they would be able to escape the pursuit of the sea beast tide.

One spurt of energy, one decline, three exhaustion!

Just as the fleet's momentum was about to hit rock bottom, su Lu's eyes suddenly brightened. They had finally pierced through the sea beast tide and were facing the east continent again!

"He's out! We're out!"

Everyone couldn't help but cheer, but Lin Yi's order followed.

"Escape at full speed!"

There were no unnecessary words, just these four words!

Everyone immediately reacted. Now was not the time to be happy. The sea beast tide was still behind the fleet. If they did not run, they would be surrounded again!

What they didn't know was that Lin Yi wasn't referring to the low-tier sea beast tide at the back, but the high-tier sea beast tide that had been waiting for them for a long time!

The reason they did not attack immediately was to follow behind the fleet and slowly take care of them.

This kind of pursuit would cause the least damage to the sea beast clan, and there was almost no danger to speak of.

If they were to besiege the joint fleet like the low-level sea beast tide, they would have to consider the combat power that would burst out when they were trapped.

But Lin Yi still didn't have a choice.

That would be a dead end. If he ran, he might still have a chance to live.

Just as one side was fleeing with all their might and the other side was calmly preparing to give chase, another sea beast tide appeared in another direction, rapidly approaching.

"What's going on?"

Lin Yi was surprised. Reinforcements?

There was no need for that-with their current strength, they could easily take down Lin Yi and the others. There was no point in having more sea beasts.

Everyone in the fleet fell into despair. No matter how unwilling ye da Xi and su Lu were, they could only be prepared to cut their losses.

They had almost used all of their combat abilities and no longer had the strength to continue fighting. If they really couldn 't, they could only give up on the large warships and let the ancient warships open the ten thousand mile formation to escape.

In order to buy time, they ordered the people on the large warships to move to the ancient warship. At the same time, they surrounded the large warships that were ready to give up and used them to resist the attacks of the sea beasts.

Only the crew members with the lowest requirements were left on all the large warships. They were all truly loyal. Losing even one of them would be enough to make ye da Xi and su Lu's heart ache for a long time, but now, they had no choice but to give up all of them.

Just when everyone thought that the sea beast wave was their reinforcements, Lin Yi and the ghost felt that something was wrong.

This was because the commander of the sea beasts had always displayed extremely strong tactical ability. All his plans were closely linked, and there were almost no unnecessary actions.

But now, another wave of sea monsters would be unnecessary. It didn't seem like something the other party's commander would do.

Could it be? This wasn't the other party?

Lin Yi couldn't help but look forward to it!

If it was not the other party, then it must be a helper that Xiao Yan had recruited!

Xiao Yan couldn't make it here himself, but he could use his connections to get help from the nearby seas.

On a smaller scale, this was Xiao Yi's way of repaying Lin Yi for saving his life, but on a larger scale, it was Xiao Yi protecting his dignity as the Prince of the sea beasts!

The sea beast tide actually dared to attack a fleet that had his aura. It was obvious that they did not respect him, a Prince!

If there was no reaction, wouldn't his side's momentum be suppressed even more?

The situation developed as Lin Yi expected. The new wave of sea beasts didn't even bother with Lin Yi's fleet. They cut off the Alliance fleet's direct confrontation with the original wave of sea beasts.

"Full speed ahead! Don't stop!"

Lin Yi made up his mind and ordered the other two fleets to stop moving people and run as fast as they could.

The scale of the sea beast tide later was far smaller than the pursuers. After all, it was hurriedly organized, and they had to travel a long distance to provide reinforcements. It was understandable that they lacked numbers.

If a conflict broke out between the two sides, the new wave of sea monsters might not be able to stop the opponent, so it was better to run away now.

Ye Daxi and Su Lu returned to their senses and immediately ordered their fleet to move forward at full speed.

They didn't think it was strange. After all, there were rumors that Lin Yi could control the sea beast tide. They thought it was nonsense when they were attacked, but now they felt that it was true. Otherwise, where did the sea beast tide come from?

"I don't think Lin Yi can control all the sea beasts, or he'd be too powerful! But even so, the strength he's shown this time is already ridiculously strong. You can say that without Lin Yi, we'd all be dead!"

Ye Daxi looked at the two waves of sea beast tides that were getting further and further away, but he still had a lingering fear. He sat on the captain's chair in the bridge and let out a long breath.

On the other side, su Lu was in a similar state. However, he was still standing as straight as a blade. However, no one noticed that his legs were trembling slightly as well.

Such a high-intensity battle and command, coupled with the continuous ups and downs of his mood, even he felt a little overwhelmed.

Finally, the sea beast tide completely disappeared into the distance. However, everyone's nerves were still tense!

However, they were already slightly relieved. At this time, everyone felt as if they had just escaped from death and were in a dream.

No one had expected that what they had thought to be an easy competition journey would end up encountering a tide of sea beasts that was enough to wipe them out several times. And they had actually survived!

This was simply a glorious achievement that could be bragged about for a lifetime!

"Back then, my grandfather fought his way in and out of the boundless sea beast tide. The number of sea beasts that died by my hands was at least eight to ten thousand ..."

"That was the largest sea beast tide in history. You can't imagine it. Almost every moment, there were dozens of sea beasts attacking the area I was defending, but was I afraid? No! I can withstand the simultaneous attacks of several dozen sea beasts by myself, and I still have the strength to counterattack ..."

Such an exaggerated boast might become a legend in the future. Everyone who survived the sea beast tide would feel honored!

Chapter 6446 I'll Gift You First Place!

Lin Yi came to the bow and put Xiao Yan's communication Pearl into the water. He didn't need to worry about Xiao Yan's aura attracting the sea beasts anymore. If the sea beasts wanted to chase them, they would have done so long ago.

"Brother Lin, it's great that you're fine! I've been so worried!"

As soon as the communication bead entered the water, Xiao Yan's excited voice sounded in Lin Yi's mind.

It could be seen that Xiao Yi was really anxious after the connection was cut off.

"I'm fine, brother Xiao, did you go and find reinforcements to help us?"

Lin Yi's heart warmed. Xiao Yi was a bit arrogant at first, but he was a cold-faced but warm-hearted guy. It was good to have a friend like this.

"Yes, after my contact with you was cut off, I immediately found the nearest Royal brother to help. His territory is close to your Sea area, but it will take some time to get there. Now that I've received your message, I can finally relax. "

Xiao Yan did not deny it. He was indeed the one who helped to find the sea beast tide. If not for the fact that he was too far away from this Sea region, he might have brought his troops here personally.

"Help me thank your brothers. They came at the right time. If they had come any later, our fleet would have suffered heavy losses."

Lin Yi smiled. The wave of sea beasts came at the right time. If the high-tier sea beasts on the other side started chasing, it would be hard to stop them even if they came again.

But if they came a little earlier, and Lin Yi and the others still hadn't broken through the sea beast tide, the sea beast commander might change their strategy according to the situation and let the high-level sea beasts surround Lin Yi, making it impossible for Lin Yi to break through.

The timing was perfect, and Lin Yi's fleet would suffer a huge blow any time now.

"There's no need to thank me. My brother is your brother too! If there's an opportunity in the future, let's sit down and have a meal together. I'll introduce you to him. He's also a brave and good fighter among our Sea Race. He's a forthright person, so you'll definitely become friends. "

Xiao Yi really wasn't treating him as an outsider-he was going to introduce Lin Yi to his brother.

"Alright, then it's settled!"

Lin Yi smiled and didn't reject Xiao Yan's good intentions. Getting to know a few higher-ups in the sea beasts would be helpful in the future.

He still had to rely on these Royal sea beast disciples to stop the cooperation between the sea beast clan and the spirit beast clan.

The two of them chatted for a while more before they cut off the connection.

Xiao Yi obviously wasn't in a state where he was idle all day. It was already rare for him to rush over to contact Lin Yi, and since the problem was solved, he naturally had to deal with his own things.

Lin Yi put away the communication bead and looked at the two fleets. At this moment, they still maintained their previous battle formation. One led the way, one guarded the two wings, and ao Tianba's ancient warship brought up the rear.

From their current position, they were about a day's journey away from torrent city in the East continent. The sea beast tide had caused them to deviate from the route a little, but it was still fine. The deviation was not too far. If there was no sea beast tide, they would have entered the coastal waters of the Golden class Sea area.

They didn't waste too much time. Their lead was big enough. Even if they were delayed for so long, the fleet behind them wouldn't be able to catch up.

Moreover, with the presence of the sea beast tide, if the fleet behind caught up now, they would probably be caught in the crossfire. On the other hand, the slower fleet might be able to return safely after the sea beast tide dispersed.

The three fleets still maintained their formation and moved forward quickly. After they were out of danger, they still did not dare to relax. Only the crew members who were not at necessary positions could rest first and then rotate their positions.

When they entered the coastal waters, everyone finally heaved a sigh of relief!

Reaching this place was equivalent to entering a safe zone, and they did not have to worry about the sea beast tide chasing after them. Even if they did, the fleet would be able to enter the East continent's protected area by the time they arrived.

"Brother Lin, ye Daxi and su Lu sent us a message saying that the danger is over. They're going to start the race. To thank us, they're willing to let us leave for an hour."

Ao Tianba informed Lin Yi with a smile on his face. The fact that ye da Xi and su Lu had made such a decision showed how important he and Lin Yi were to them.

This kind of thing, if it was spread out, it would be twice the face! An hour was such a short distance. An hour's gap was impossible to close. The two families had come to a tacit understanding to send ao Tianba and the others to the first place!

"There's no need. A competition is a competition, and friendship is friendship. Let's go together. We're already in an undefeatable position, so it doesn't matter if we get first place or not."

Lin Yi smiled faintly, not thinking there was any point in doing so.

At most, he just felt that he had some face. Compared to the friendship between ye da Xi and su Lu, this little face was not worth mentioning. The key was that there were no practical benefits. The reward for first place was not that great either!

"I think so too. I'll reply to them and tell them to get ready. We'll set off together and fight for the final victory!"

Ao Tianba laughed, agreeing with Lin Yi's words.

Ye Daxi and su Lu were overjoyed when they received ao Tianba's reply.

Although they sincerely wanted to send otaba to be the champion, they would feel more comfortable if the competition could be more pure.

The three fleets began to split up. They were originally in columns, but now they were in horizontal lines. After they were in the same position, ye da Xi and su Lu signaled ao Tian BA to go first, just like before the sea beast tide.

This time, ao Tianba didn't decline and immediately rushed out!

When ao Tianba's ancient warship completely surpassed the two fleets, they also started to move.

In terms of speed, su Lu was indeed superior. His flagship quickly overtook ao Tianba's ancient warship, and ye Daxi was not to be outdone either. He advanced on the other side of ao Tianba.

The other warships under the two were left behind and could not care about them now. The flagships of the three families were all advancing at full speed. After all, the requirement of the competition was only to bring back the items. It did not say that all the fleets had to return.

Without the fleet holding them back, ye da Xi and su Lu were able to unleash their full speed. Ao Tian BA was still slightly weaker in this aspect.

"To be able to rank first and second, it really isn't an exaggeration! Su Lu is famous for his speed. Ye Daxi is not famous for his speed, but he is only slightly slower than su Lu. There is still a gap between us!"

Although ao Tianba was sighing, he was smiling. He was obviously in a good mood.

Chapter 6447 Still Number Two

Even though su Lu might only get third place in the third round, judging from the current situation, su Lu would definitely get first place and overtake ao Tianba to take first place in the total score!

However, ye da Xi, who was second, still had one point less than ao Tian BA. He was third in the total score and lost the Xuan class Sea area navigation quota.

Ao Tianba was already very satisfied with getting second place. If he hadn't been penalized, he would have been first place!

Besides, su Lu and ye da were able to get such good results in the third round because of ao Tianba, so he didn't mind at all. It was not impossible to say that it was a glorious defeat.

Su Lu was extremely excited. He could finally defeat ye da Xi in an official match!

Although he was best at speed, and it was a bit unfair to compete at the same starting line, so what?

A victory was a victory. He was finally going to be number one!

He would no longer have to be called the second place for ten thousand years!

The three ancient battleships kept a slight distance between them as they sped toward the dock outside of torrent city. Although ao Tianba had no chance of overtaking them, he was not completely shaken off either. He was still tightly following the two of them.

"Brother ao Tian, do you want to get first place?" Lin Yi pinched his chin as he asked ao Tianba the question.

"Of course it's good to be first, but how are we going to surpass them now? Although the ten thousand li formation can be used in battle, it's forbidden to be used during a voyage!"

Ao Tianba scratched his head, looking at Lin Yi in confusion.

In any case, whether ao Tianba took first or third place did not have much of an impact on su Lu and ye Daxi. Su Lu would still get the navigation quota, and ye Daxi would still not get the navigation quota.

"Who said that we have to surpass them in terms of warships to get first place?"

Lin Yi asked with a faint smile.

Ao Tian BA was slightly stunned, then he came to a realization.

That's right! Who said that the first warship to arrive would be the first?

The rules stated that they would return to the sequence of the event!

The venue was not at the pier, but within torrent city!

Even if su Lu and ye Daxi could leave first after they reached the dock, Lin Yi was there. There was no need to be afraid of them.

Lin Yi's lightning escape technique was the ten thousand li formation of the ancient battleship!

Who would be Lin Yi's match on the shore?

Gale su Lu?

He could only watch as Lin Yi's lightning escape technique went crazy!

"Hahahaha! We are first! Why not? Little ones, charge! Full speed ahead!"

Ao Tianba laughed out loud after he understood.

A competition was a competition. If they could get first place, why would they go for third place?

The crew, who had been slacking off, suddenly became full of energy and once again burst out with all their passion!

His speed, which seemed to have reached its limit, actually increased by a tiny bit. Unfortunately, this tiny increase was of no use.

"Alright, I'll go and make preparations. I'll definitely take first place and make brother ao Tian famous!"

Lin Yi smiled and waved his hand. He went to the bow of the ship and waited for the ship to enter the dock. He could then rush to the venue.

As for mad su Lu, he would continue to be the second place for ten thousand years!

Lin Yi looked at su Lu's flagship and couldn't help but smile. Taking first place from su Lu made him feel like a kid playing a prank. He was actually a little proud of his bad taste.

Who asked this guy to talk about challenging him whenever he had nothing to do? it was driving him crazy!

With the three ancient warships advancing at full speed, the distance between them and the dock was quickly closed.

Seeing the three ancient warships charging into the dock like crazy, the crowd on the dock panicked. If they could not stop, the three ancient warships would cause a huge disaster.

Fortunately, the people controlling the ship were all elites who had survived the sea beast tide. It was not a problem for them to stop the ship, but the waves it brought were not something they could control.

As a result, the entire dock was directly washed three times by three waves!

Each wave was higher than the previous one, and each wave was higher than the previous one!

Without waiting for the ancient warships to stop or for the people at the port to exclaim in shock, three figures shot out from the three ancient warships.

They were su Lu, ye Daxi, and Lin Yi!

At the beginning, Gale su Lu was leading by a wide margin. His speed was unparalleled in both his warship and his own.

Ye Daxi was already lagging behind, and when he got ashore, he was being pulled even further.

However, Lin Yi, who was the last to land, arrived first!

Lightning arcs flashed continuously. Within a breath's time, he had surpassed ye da Xi and su Lu.

Only then did su Lu remember that Lin Yi still had the Thunder escape technique. He thought that he was going to get first place for sure, but now, he was going to lose again!

However, su Lu wasn't someone who would give up easily. Otherwise, he wouldn't have kept on challenging Lin Yi.

After Lin Yi overtook him, he gritted his teeth and continued to give chase, not caring that the distance between them was getting bigger and bigger.

On the other hand, ye was overjoyed. Seeing that he was definitely in third place, he stopped and returned to the port to find a subordinate to send the things to the venue. He then turned back to find ao Tianba to discuss the supply.

Ye da Xi's shrewdness could be seen from this. He would not be able to get the Xuan class sea navigation quota this time, but after repaying ao Tian BA, the relationship between the two would naturally be closer. Cooperation in the future would be a matter of course.

Although ye da Xi's fleet didn't have a quota for the mystic class Sea area, ao Tian BA had one. With ao Tian BA's current fleet size, ye da Xi had a high chance of investing in it. It was possible for everyone to work together and win.

As for the details of the discussion, it was up to ye da Xi and ao Tian BA. Lin Yi didn't care about that at the moment. He returned to the venue with ease and got first place in the third round. He also saw Shangguan LAN 'er and Zhang jinmiao, whom he hadn't seen for a few days.

"Lin Yi, Lil" bro, you're back! The past eight days have been so unbearable. If you hadn't come back, I would have gone to find you!"

As soon as Shangguan LAN 'er saw Lin Yi, she jumped and pulled him to the side, complaining in a low voice.

She did not need to ask to know that it was probably he Hao's endless words that had tortured Shangguan LAN 'er. Because of the hidden death sect's assassin, Zhang jinmiao did not dare to let Shangguan LAN' er go out and walk around.

Therefore, the person she had been in contact with the most these days was naturally he Hao, the Chatterbox.

"Didn't I come back as soon as possible to see you? look, first place! I've even left Gale Sulu behind. "

Lin Yi smiled as he saw su Lu rush in.

Su Lu's ears were good, and he heard what Lin Yi said-his face darkened!

He thought about how he had wanted to be number one on the battleship and get rid of his position as number two for ten thousand years. In the end, he still became number two for ten thousand years, and twice!

Second place in the third round, second place in total points!

They had really seen a ghost!

Chapter 6448 Su Lu Acknowledges His Master

Shangguan LAN 'er covered her mouth and laughed secretly. She didn't have any special feelings for su Lu, so she just laughed along when Lin Yi joked.

Old second of all years, su Lu, glared at Lin Yi. After completing the mission, he walked over and said, "Lin Yi, I want to challenge you. Don't let this pretty girl look down on you!"

"Why would I look down on Lin Yi? Little Junior Brother, just don't accept the challenge. No, no, no, he's going to die of anxiety!"

Shangguan LAN 'er wouldn't fall for it. She didn't even ask su Lu what he wanted to challenge and immediately started defending Lin Yi.

Su Lu was speechless. He wanted to use Shangguan LAN 'er to provoke Lin Yi, but things didn't go as he expected. There was no way to continue the conversation!

Lin Yi chuckled to himself-su Lu was digging his own grave!

"Su Lu, you've seen it for yourself. My little Senior Sister told me not to accept your challenge. Of course, I have to listen to her."

Lin Yi shrugged helplessly, but the cruel smile on his face betrayed his true thoughts.

"Coward, you only know how to find excuses!"

Su Lu had no choice. He snorted and turned to leave.

He didn't understand-Lin Yi's ability to control ancient warships and formations could easily beat him, so why was he hesitating?

They wouldn't die from a contest!

Wait, why did he have to challenge him?

Didn't she want to learn his control skills before?

Su Lu felt that his brain wasn't working well after meeting Lin Yi these few days. Wouldn't it be better to challenge him after learning how to control the two formations?

As he thought about this, su Lu, who had just taken a few steps, turned around and returned.

Lin Yi blinked. Was she still not giving up? Is he here to challenge me again?

This really wasn't the end. It seemed that it was better to go to the mystic Sea area earlier. If he couldn't afford to offend them, he could still hide, right?

"Hey, Lin Yi, you're really good at controlling ancient battleships, can you teach me? What conditions do you have? do you want me to take you as my master?"

Su Lu was as direct as ever, and he made a gesture that he'd accept Lin Yi as his master as soon as he said so.

"No need, no need. Isn't it just the technique of controlling formations? it's not a big deal. I'll teach it to you later. If you want to learn this, you should have said so earlier. Do you need to challenge yourself all day?"

Lin Yi nodded as realization dawned on him. Su Lu had challenged him to learn how to control formations-he could've just told him. It wasn't like he hadn't taught others before.

The people on ao Tianba's ship and the other two fleets had all received Lin Yi's guidance in the illusion formation, but there was a limit to how much they'd improved. After all, they weren't very skilled in formations yet.

Su Lu, on the other hand, was different. He was a speed maniac, and he had a natural advantage in controlling formations. He also had a great understanding of battle formations. He might be able to learn some of Lin Yi's skills.

"You don't need anything?"

Su Su was stunned. Was it really that simple?

You're not planning to use a fake to fool me, are you?

But su Lu was just thinking about it. He still believed in Lin Yi's character.

Facing such a huge sea beast tide, Lin Yi could still stay and fight with them without hesitation. This alone was enough for su Lu to admire Lin Yi.

"Do you need anything?"

Lin Yi asked, confused. The skill wasn't anything precious-it was just something that the thing taught him casually, and he just passed it on to others. What was wrong with that?

"You don't need it?"

Su Lu's mind was still in a mess as he asked Lin Yi subconsciously.

He just felt that it was too unreal that such a powerful array control technique was so easily obtained!

"Then you do!"

Lin Yi shrugged and decided to follow her advice-it'd be impolite to refuse if she insisted!

"I don't think there's a need!"

Su Lu's reaction was too fast, following Lin Yi's lead.

"Then do you need it or not?"

Lin Yi smiled faintly. He didn't realize that Su Lu had the potential to act in skirts before!

It could be developed. In the future, he would be able to perform on stage at the end of the year meeting of the yellow Class sea route management Association.

If su Lu knew what Lin Yi was thinking, he would've taken out his sword and stabbed Lin Yi in the head.

"It's up to you whether you need it or not. For now, you should teach me the technique!"

Su Lu was so confused by himself that he quickly changed the topic to the most important one.

If ye da Xi heard this and came to interfere, wouldn't it be bad?

It didn't matter if he lost to Lin Yi this time as long as he won against ye Daxi. With this formation control technique, ye Daxi would be even less of a match for him. Su Lu started to get excited at the thought of being able to suppress ye Daxi forever.

"Alright, let's go back to the ancient warship now. I'll teach you immediately!"

Lin Yi shook his head. He didn't have much to do anyway, so he'd just go to the port with su Lu and teach him.

Ye da Xi's men were delivering the mission items at a steady pace, but su Lu ignored them and dragged Lin Yi out.

Naturally, Shangguan LAN 'er was going to follow Lin Yi, so Zhang jinmiao had to follow as well.

The competition was over for ao Tianba, and Zhang jinmiao's identity was no longer a problem. She had had enough of talking to he Hao over the past few days.

Well, she didn't say much, and he Hao was the only one chatting happily.

In any case, it was enough!

While Lin Yi and the others were going back to the ancient battleship, Zhang jinmiao quickly said goodbye to he Hao. She was such a good-tempered person, and if she stayed any longer, she would beat he Hao up.

He Hao was still reluctant to leave, while Zhang jinmiao swore that she would never leave ao Tianba's ancient warship before the end of the conference!

This was not enough, he even banned he Hao from boarding the ship!

No, I don't want to see he Hao anymore. I'll never see him again!

The four of them quickly returned to ao Tianba's ancient warship. To su Lu's surprise, ye Daxi was there as well, and he was having a good conversation with ao Tianba.

"Brother Lin, Dean Zhang, and miss LAN 'er, you're back together?"

When ao Tianba saw them, he immediately greeted them with a smile. He also greeted su Lu warmly.

However, when su Lu saw ye's joy, his expression turned sour.

He was starting to regret dragging Lin Yi back so quickly-ye da Xi saw that he wanted to learn how to control formations, and he'd have to come and interfere!

"Captain su, you're back, too. Congratulations on getting second place again. It's not easy at all!"

Ye Daxi greeted Lin Yi and the others with a smile before turning to su Lu and cupping his hands.

Chapter 6449 Shared By Someone

Su Lu's mouth twitched. What did he mean by 'second' again?

You hypocrite, are you mocking me for being the second place?

That's still better than you!

"Thank you, Captain ye. I won, after all."

"You're courting death!" Su Lu replied coldly. He then turned around and looked at the others, clearly not wanting to talk to them.

"Captain su, it's rare that you can beat me. Why don't you look very happy? Could it be that he disliked the second place? Why don't you give it to me? I don't mind. "

Ye da was overjoyed as he continued to provoke su Lu. They were old enemies, so how could they not be happy with each other? they knew each other well.

"Hypocrite, you're still so shameless! Lin Yi, let's go. It's disgusting to talk to someone like this. "

Su Lu told Lin Yi to leave quickly, in case he spilled the beans later.

Lin Yi didn't even get a chance to speak before ao Tianba asked,"Brother Lin, do you have something to discuss with Captain su?"

Ao Tianba didn't really care what Lin Yi wanted to do-he was just asking out of concern.

"Oh, su Lu wants to learn how I control the Starfall formation and the ten thousand mile formation. I'll teach him now."

Lin Yi replied casually. As far as he was concerned, it was just a small matter. Otherwise, he wouldn't have agreed to teach it to someone else without any conditions.

Su Lu's face turned dark. He knew that he was in trouble!

But he couldn't say anything bad about Lin Yi or ao Tian-they were teaching him out of friendship, after all. What else did he want?

Ye da Xi's eyes lit up-he'd been drooling over Lin Yi's skill in formations for a long time, but he didn't know how to bring it up.

He risked his life to help you get out of danger, and now you're coveting his ultimate skill? Don't you have any shame?

But now, it was different. Since Lin Yi was willing to teach it to su Lu, he might be willing to teach it to ye Daxi too. He would be shameless if he didn't grasp this opportunity!

"Lil bro Lin, I'll also be a bit more boyish and call you lil bro Lin like brother ao Tian, is that alright?"

Ye Daxi came up with a big smile on his face, trying to get on Lin Yi's good side.

"Of course, no problem. Captain ye, you're too kind."

Lin Yi smiled, understanding why.

"Why are you calling me Captain ye? Don't be so polite, we are comrades who have gone through life and death together, and we have a friendship that has gone through life and death together! If you don't mind, you can call me brother ye!"

Ye Daxi pretended to be unhappy, but he kept a smile on his face the whole time. No matter how you looked at it, you couldn't see any unhappiness.

"Then I'll do as you say, brother ye!"

Lin Yi cupped his hands-he'd have to use ao Tianba in the future, after all.

"Brother Lin, brother ye won't beat around the bush with you. Your method of controlling the ancient battleship's formation is really amazing! I was shocked the first time I saw it. Since you're going to teach it to su Lu, why don't you teach brother ye too? Whatever price you need, just say it, brother ye won't even frown. "

Ye da was overjoyed and straightforward. He saw that su Lu's expression was a little off, so he went straight to the point and smiled.

"No problem. If brother ye wants to learn, then let's do it together. We've been through life and death together, so what's the point of talking about price or not? I didn't take anything from su Lu either. Just as brother ye said, we've been through life and death together. We're all brothers. "

Lin Yi shrugged, agreeing to ye da Xi's request without a care.

Ye Daxi was ready to rip Lin Yi off, but he didn't expect Lin Yi to say something like this. It was like a punch full of energy hitting air, almost causing him to break his back!

But looking at su Lu, Lin Yi didn't seem to be lying. He really did give them such a powerful skill without any conditions!

Then this favor would be too great!

No matter what, ye da Xi would never go against ao Tian BA and Lin Yi again.

"Hypocrite, shameless! Who's his comrade or brother!"

Su Lu spat. He felt like he had been taken advantage of by ye da Xi. He was extremely unhappy and really wanted to pull out his saber and chop this guy to death!

Happiness came too suddenly. Ye was overjoyed and did not have the time to care about su Lu's unhappiness. He was busy digesting the great news.

With Lin Yi's skills in controlling formations, his fleet's combat ability would be greatly improved!

The number one fleet wouldn't be shaken in a short time. Although he didn't get the Xuan class Sea area quota, it didn't affect his strength.

Besides, ye Daxi had already reached an agreement with ao Tianba. Before ao Tianba had enough fleets, ye Daxi would lend his fleet to him!

The navigation quota in the mystic class sea was also open to ye Daxi. Although it wasn't all, it was enough.

By the time ao Tianba's fleet was strong enough to go to the mystic division, the next distribution meeting would be about to begin. Ye Daxi would still have the strength to win.

He heard that Lin Yi was going to a Mystic class school-ao Tianba's fleet might not be able to threaten his position next time, so he wasn't worried at all.

Ye da Xi expressed his sincere gratitude to Lin Yi immediately after sorting out the pros and cons.

Su Lu was very unhappy about this, but no matter how unhappy he was, he could not do anything about it.

Since Lin Yi had already made a promise, he couldn't go back on it-if he did, he'd probably go back on what he'd promised him as well. What a loss would that be?

The only thing that comforted su Lu was that he felt that he was more talented than ye da Xi!

So if Lin Yi were to teach him the same thing, the one who would get the essence would be su Lu, not the fake ye da Xi!

Lin Yi didn't care what ye Daxi and su Lu thought-he'd be teaching them the technique anyway, and they'd remember ao Tianba for the rest of their lives.

Since he couldn't stay with ao Tianba all the time, it would be better to find him two strong helpers.

When ao Tianba developed himself, it would be easier to survive with these two allies. Lin Yi had a deeper layer of consideration, too-the spirit beasts 'Sea Expedition.

If the spirit beast clan really chose to cross the sea for an expedition in the end, whether they used their own warships to transport the goods or cooperated with the sea beast clan, these fleets that had been cruising on the sea all year round would become a considerable threat!

If that day really came, perhaps Lin Yi's techniques would be able to save the lives of human practitioners and kill more spirit beast Masters. That would be enough.

Chapter 6450 Lin Yi's First Disciple

The teaching of the techniques took a day. During this time, the fleet behind them began to return.

Their luck was pretty good-there weren't any more dangers on the way after the beast tide, so the return trip was relatively smooth, all thanks to Lin Yi and the others.

After that, it was time for the awards ceremony, and the three decided to return to the Academy.

There wasn't much time left in the one-month period. They also had to meet up with the people from the recruitment team and set off for the mystic Sea area together.

After saying their goodbyes to ao Tianba, ye Daxi, and su Lu, the three left the city.

Out of courtesy, they were supposed to bid he Hao goodbye, but Zhang jinmiao and Shangguan LAN 'er refused. Lin Yi had no choice but to obediently leave with them.

The assassin from hidden death sect still had not appeared. It seemed that after the two failed sneak attacks, he had become more cautious. He would not make a move unless he was completely confident.

Lin Yi couldn't be bothered-he wasn't strong enough yet, and when he came back from the mystic class sea, he'd definitely uproot hidden death sect!

This organization was too annoying. They kept pestering him and would launch sneak attacks from time to time. It was really troublesome.

Most importantly, Lin Yi was worried that hidden death sect wouldn't be able to kill him and might attack the people around him in a moment of desperation. This was absolutely intolerable!

Even if it wasn't targeted, it wouldn't affect them either. For example, Shangguan LAN 'er had almost been affected last time.

The flying saucer journey was smooth and uneventful. Most of the students weren't back yet, but Lin Yi did run into some old acquaintances.

"Master! Why didn't you inform me of your return to the East Province? if I hadn't received the news, I would have missed you!"

This old acquaintance was naturally the head refiner of the Morning Star golden class school, Lin Yi's first disciple, Xuanji Qing Danzi!

"Qing Danzi, what are you doing here?"

Lin Yi was quite happy to see Qing Danzi, and greeted him with a smile.

Qing Danzi, on the other hand, was very respectful and didn't show any signs of neglect.

"I heard that you're here to participate in the mystic division sea selection, so I came to visit you and congratulate you for winning first place. I didn't expect you to be so talented in alchemy and so powerful in other aspects. You're a peerless genius!"

Qing Danzi complimented his master with a big smile on his face, not feeling embarrassed at all.

"Lin Yi, Lil" bro, is this your disciple? Isn't that my martial nephew?"

Shangguan LAN 'er came over excitedly. She was very happy to have the opportunity to act like an elder.

In fact, Lin Yi had mentioned Qing Danzi to Shangguan LAN 'er before, but she didn't remember anything about it. Other than the good food and the fun, she only remembered Lin Yi's close female friends. As for the disciples, she'd talk about it when she saw them.

"Qing Danzi greets uncle master!"

Qing Danzi didn't dare to be rude when he heard this little girl calling his master Little Junior Brother. He immediately greeted her with great respect.

It was a little awkward, but with Lin Yi as his master, he'd expected this to happen and was mentally prepared.

"Hehe, I've become a martial uncle. Little Junior Brother, you're amazing! Ah, this is the first time you're meeting me, so you should give me a gift. Wait a minute. "

Shangguan LAN 'er still had the awareness of a martial uncle. She quickly searched her storage bag and finally found a xuansheng stage alchemy material. She had bought it at the four Seas Pavilion because it looked good, but now it was a good gift.

"Come, martial nephew Qing Danzi, your martial uncle LAN 'er doesn't have anything good. This ... I'll give it to you!"

For a moment, Shangguan LAN 'er couldn't remember what she was holding in her hand, so she could only give a vague answer and pass it to Qing Danzi.

"Many thanks, uncle master!"

Qing Danzi quickly thanked him. This material was still very useful to him. Although it wasn't very valuable, it was worth some spiritual Jade. It was very suitable as a meeting gift.

"Master, as an elder, shouldn't you give something to my junior nephew?"

Shangguan LAN 'er still took great care of her first martial nephew, Qing Danzi. Not only did she give him away, but she also dragged her master along.

"You little girl, not only are you on Lin Yi's side, but you're also on his disciple's side!"

Zhang jinmiao laughed and teased her disciple. She wasn't stingy and gave him a gift that suited her status.

After some small talk, Lin Yi brought Qing Danzi to his room, ready to talk in private.

As his master, he didn't give him much advice, but when Qing Danzi heard that he was in the East continent, he came all the way from the Morning Star golden class academy to see him!

It was a good thought, and Lin Yi decided to teach him some alchemy skills.

Although Lin Yi was useless without the Shennong cauldron, his understanding of alchemy was still very unique. Especially after going to the South continent with Li Zao Yi, his theoretical knowledge improved by leaps and bounds!

With the addition of the pill recipe inherited from the ruins, he was more than qualified to be Qing Danzi's master in terms of alchemy theory. He just couldn't demonstrate it to Qing Danzi in person.

"Qing Danzi, how's your alchemy skill now?"

After the two sat down, Lin Yi casually asked about Qing Danzi's alchemy skills, deciding how to teach him according to the situation.

"I'm ashamed. It's been so long and I'm still barely able to make Mystic first level pills. "

Qing Danzi was embarrassed. When Lin Yi took him in as a disciple, he was already a golden class level Seven refiner, but he couldn't break through because of a little doubt.

After Lin Yi's pointers, he'd had an epiphany, and his skills in making elixirs improved by leaps and bounds, breaking through the Golden class and entering the mystic class. It was a pity that he hadn't made much progress after so long.

The news from the northernmost Island said that Lin Yi could even make Mystic third level elixirs now. Naturally, Qing Danzi was ashamed. He felt that the gap between him and his master was too big, and the difference in talent was like heaven and earth.

Of course, Qing Danzi was still being modest when he said that he could barely make Mystic first level!

His success rate in making Mystic first level elixirs was already quite high. In the yellow-class Sea area of the East continent, his alchemy skills were already considered top notch.

However, the person he was comparing himself to was Lin Yi. Naturally, he felt that his skills were no different from trash.

"It's already very good to be able to make a Mystic first level pill! You can try to make some different pills to improve your understanding of alchemy. When you've accumulated enough experience, you'll naturally be able to make higher grade pills. "

Lin Yi encouraged him, but he was thinking about how to help him.
