

Bodyguard 6461

Chapter 6461 I'm Here For Some Exercise Too

A huge ice blade appeared out of thin air!

As soon as it appeared, the blade was already three inches away from the sinister middle-aged man's head!

In such a sudden situation, if it was someone with a weaker strength, they would have been directly cut in two.

However, the middle-aged man was indeed powerful. At the critical moment, he dodged to the side and punched the side of the ice blade!

The huge ice blade shattered instantly, not causing any damage.

"Not bad! Windswept has improved!"

Lin Yi's eyes brightened as he couldn't help but praise.

"It's all thanks to boss's advice that he has gained a lot of insight. "

Yang qianxue's beautiful lips curled up as she thanked Lin Yi sincerely.

"It's his own credit. Fortunately, he didn't listen to me. My advice may be good for others, but it's not suitable for Ru Feng. Fortunately, he thought it through himself, otherwise, it would have really delayed him!"

Lin Yi smiled-he meant what he said.

Leng Rufeng's blade Force was within the range of Lin Yi's ability to copy. However, Lin Yi didn't use a blade, so he had never used it.

If Lin Yi were to use Leng Rufeng's knife momentum, he wouldn't use it in a straightforward manner. He would use the combination of spiritual changes and sharp knife momentum.

However, the one that was suitable for Lin Yi was not suitable for Leng Rufeng!

Hence, Lin Yi told Leng Rufeng what he thought was the best, but he almost misled her.

Lin Yi was a little scared at the thought-everyone had their own path to take.

He wasn't strong enough to see through everything, so he wasn't suitable for people of the same level. On the other hand, Lin Yi was the best mentor for those Foundation, golden core, and even nascent Soul Stage cultivators.

While Lin Yi was still lamenting, Leng rufeng's blade was getting more and more powerful.

Ren Zhongyuan and the rest took the opportunity to sneak out. No one said that they would help Leng rufeng deal with the middle-aged man.

Even though Leng rufeng's saber momentum was powerful, the sinister middle-aged man was indeed powerful!

The difference in strength between the two of them was too big. He looked completely at ease, as if he was taking a stroll in the sword.

Lin Yi could tell that Leng rufeng wasn't a match for him. He was just toying with him.

Although the saber momentum was more perfect, it was a pity that the level of strength was still a major weakness.

If Leng rufeng was at the great circle of the black Ascension realm or even the peak of the late stage of the black Ascension realm, he would be able to fight against the middle-aged man.

As for now, he was still far from it.

"Rufeng is at a disadvantage!"

Yang qianxue's strength was the lowest among the group, but she had a good eye.

Lin Yi could see it, and so could she. Although she supported Leng rufeng, she was still worried about him.

"It's okay. The other party wants to play with ru Feng, but he doesn't know that he's just being ru Feng's Whetstone. His comprehension of Saber Force has recently improved and he lacks a battle to his heart's content. You should thank that guy on behalf of ru Feng."

Lin Yi smiled as he consoled yang qianxue.

As for Leng rufeng's disadvantage, Lin Yi didn't care at all. If he wanted to help, he could block the middle-aged man's attack at any time.

Now that he was going to help Leng rufeng, it had nothing to do with Ren Zhongyuan, so Lin Yi was actually quite eager to try.

"Hmph, that idiot Leng rufeng, he's overestimating himself and trying to act like a hero. Look, he's about to lose. If you don't have enough strength, why do you have to go out and act like a hero? you'll definitely beg for mercy later. "

Ren Zhongyuan had embarrassed himself and naturally did not want Leng rufeng to be in the limelight. Hence, he started to make strange remarks after he was out of the battle range.

Yang qianxue, who had been worried, was enraged when she heard this.

Although Leng rufeng had attacked them because he could not stand the sinister middle-aged man's actions, he had actually helped Ren Zhongyuan and the rest out of their predicament. It was fine if these guys did not know how to be grateful, but they were even slandering them. She almost wanted to argue with them.

Lin Yi raised his hand to stop her, telling her to ignore the idiots.

"It's just the barking of a defeated dog. The more you say this, the more embarrassed they will be. If you go and argue with them, they will have the capital to be proud. "

Lin Yi glanced at Ren Zhongyuan and the others in disdain. He felt that these clowns were no different from rabid dogs, and paying any attention to them would only ruin his mood.

Yang qianxue naturally wouldn't refute Lin Yi's words. She could only glare at Ren Zhongyuan and the others before returning to her seat and continued to watch Leng rufeng's battle. However, the worry in her eyes deepened.

Yang qianxue had lost her cool because she was too concerned about Leng rufeng.

Lin Yi watched for a while more, thinking that it was time to end the battle.

Leng rufeng's saber had already displayed its full power. Unfortunately, it still did not pose any threat to the middle-aged man.

No matter how strong the attack was, it would be easily blocked by the middle-aged man. Lin Yi could tell that the man was about to counterattack.

Once Leng rufeng was completely suppressed, Lin Yi's attack might have an unnecessary impact on his confidence. Perhaps Lin Yi was overthinking, but he didn't want Leng rufeng to take the risk.

So Lin Yi decided to attack when Leng rufeng's blade reached its peak!

A lightning arc flashed and Lin Yi appeared in the area where the two were fighting.

First, he dodged Leng rufeng's blade. Then, he used the ordinary thousand-kick technique to kick the middle-aged man's body a hundred times. The middle-aged man was sent flying.

"Ru Feng, you don't mind if I come and move around, right?"

After kicking the middle-aged man away, Lin Yi turned around and waved at Leng rufeng with a smile.

"Of course I don't mind. Boss, if you want to loosen your muscles and bones, this sandbag is quite suitable."

Leng rufeng smiled as he put away his blade. He would be unhappy if someone else interfered in his battle, but Lin Yi was different. He knew that he would be defeated soon if this continued.

"Where did this little bastard come from? how dare you sneak attack me? how can I vent my anger if I don't kill you today?"

The middle-aged man steadied himself and looked at Lin Yi with a dark face.

Just now, he felt that he was too careless. He was actually caught off guard when someone approached him and attacked him.

Lin Yi's thousand kick wasn't that strong, which made him misjudge Lin Yi's strength. He thought that Lin Yi was at the same level as Leng rufeng at most.

"Such a coincidence? I'm not in a good mood today, so I want to kill a Mad Dog or something to vent my anger. If you're willing, you can be this lucky Mad Dog. "

Lin Yi smiled and walked towards the middle-aged man.

Chapter 6462 Taking The Initiative To Court Death

"Brat, you only know how to talk fast. You'll regret it sooner or later!"

The middle-aged man smiled coldly and charged towards Lin Yi like a cannonball.

At the same time, he threw out a punch, the violent pure Qi forming a spinning Nebula that smashed towards Lin Yi's face.

The attack went straight through Lin Yi's body without any resistance, as if it had hit air.

In fact, the middle-aged man really did hit thin air. Lin Yi only left an afterimage behind.

Three appearances of the cloud Dragon!

"It's my turn!"

Lin Yi's calm voice sounded in the middle-aged man's ear, and a slap appeared on his face without any warning, causing his head to turn 90 degrees and his body to fly to the side.

Lin Yi's slap was nothing special-it was nothing compared to the middle-aged man's punch. It was like a normal wave of a hand.

However, the powerful punch had completely missed, and this ordinary slap had sent the person flying. The difference between the two was so great that anyone with eyes could understand it with a single look.

This time, the middle-aged man didn't even have the chance to stabilize himself. He fell heavily to the ground and got up, looking at Lin Yi with a guarded expression.

So powerful?

What kind of person was he?

If a mere preparatory student was already so powerful, wouldn't he be even more terrifying in the future?

To be honest, the middle-aged man was a little hesitant at this time. Offending such a genius was equivalent to attracting a strong opponent in the future.

However, it seemed like he couldn't just swallow his anger.

With just a thought, the murderous intent in his heart took the upper hand!

Since they had already met, he could not give him the time and opportunity to grow!

He had to kill this genius now!

"Hahahaha, you're really a young hero! I'm impressed!"

The middle-aged man suddenly laughed out loud and let down his guard. He straightened his back and walked towards Lin Yi, trying to show that he meant no harm.

Lin Yi's eyebrows twitched slightly as he looked at the middle-aged man in surprise.

Judging from the arrogance that the other party had shown before, he shouldn't give up so easily, right?

Could it be that he felt that Lin Yi was too strong, and so he admitted defeat?

"I'm Xue Keyan, from the mystic division sea. How should I address this little brother?"

The middle-aged man squeezed out a smile and introduced himself, as if he wanted to shake hands with Lin Yi.

Lin Yi didn't want to shake hands with someone like this, but he had a feeling that this Xue Keyan was planning something. He didn't refuse and reached out his hand.

"Lin Yi,"

Lin Yi said his name casually with a smile on his face, waiting to see what Xue Keyan was up to.

If the guy really wanted to stop, Lin Yi could only let him be. He'd already kicked and hit him, and he'd learned his lesson.

"Lin Yi, right? Good name, good name, I'll remember to carve it on your tombstone for you!"

The smile on Xue Keyan's face changed, and he went back to his sinister look as he swung his other hand at Lin Yi's chest.

Lin Yi used the cloud Dragon's three appearances to leave a shadow behind and dodged Xue Keyan's attack, so this time, in order to attack Lin Yi, he had to hold Lin Yi's palm first!

In this case, there was no way to avoid it, right?

A sneak attack at such a close distance-even a Peak Mountain-splitting expert would be heavily injured or even killed, let alone a peak xuansheng!

Xue Keyan wanted to take Lin Yi's life, so he didn't hold back at all.

Lin Yi's lips curled up into a cold smile. He knew that this guy wouldn't admit defeat easily. He was up to something, after all. But he came over to shake hands, thinking that he could restrain Lin Yi. What a joke!

Facing Xue Keyan's fist, Lin Yi didn't even try to Dodge or block it. He was holding that Idiot's hand, was there a need to do that kind of extra action?

Lin Yi wanted to say that he'd welcome anyone who came to his door to die!

The killing intent of the five elements burst out and rushed from Lin Yi's palm into Xue Keyan's palm, following his meridians and destroying his body!

If the two didn't make contact, Lin Yi would have to think of a way to hit him first to achieve this effect. Whether it was the Dragon killing intent or the five elements killing intent, they couldn't be used if they couldn't hit the person.

But it was different now. The five elements killing intent entered Xue Keyan's body and wreaked havoc. If Lin Yi wanted to, he could take his life at any time.

"Stop! What are you guys doing?"

Zhang jinmiao's angry and shocked voice suddenly sounded. She finished the procedures and came out to see Lin Yi being held down by someone. The other party's fist was about to hit Lin Yi with violent pure energy, and she panicked.

He didn't expect Lin Yi to have the absolute upper hand, and he almost couldn't even stand on his feet, let alone continue his punch. It was only with Lin Yi's palm that he managed to keep himself from falling on his butt.

Hearing Zhang jinmiao's shout, Xue Keyan was so touched that he wanted to cry. If this continued, he felt like he was going to die.

"Aunt Zhang, don't worry. We're just having a friendly match. It'll be fine."

Lin Yi turned back and smiled, calming down Zhang jinmiao who was about to go berserk. He then slowly retracted the five elements killing intent from Xue Keyan's body.

Not all of it-there was still a bit of killing intent hidden in the guy's body. If he still didn't behave, Lin Yi could make him know what pain was.

"Lin Yi, you're fine? That's good. What's going on?"

Zhang jinmiao let out a breath of relief when she saw Lin Yi's reaction, but she realized that she had overreacted.

Who was Lin Yi?

He was a peerless genius that he had high hopes for, a rare monster!

There was no pressure at all to deal with cultivators in the mountain opening stage, so what was there to worry about? They should be worried about the guy who was going against Lin Yi.

Looking at the gloomy face of the idiot who was now pale, Zhang jinmiao suddenly felt that she had been a little confused because of her concern.

Lin Yi explained the situation simply, not adding any details or adding fuel to the fire. He only told her the story objectively and fairly, and Zhang jinmiao understood everything in just a few sentences.

"Xue Keyan, you're from the Xue family, right? Who are you showing off for? The people here are all reserve students of the Alliance of Academies. If you hurt any one of them, the Xue family will not be able to protect you. "

Zhang jinmiao's face was cold, but there was no warmth in her eyes, which made Xue Keyan a little scared.

Chapter 6463 Enrollment Guide

"Deputy Dean Zhang really has a lot of authority! The Feiyang school is strong and we can't afford to offend you, but do you really think they're worthy of the Alliance of schools and our noble houses?"

Xue Keyan was a little afraid of Zhang jinmiao. Not only was there a huge difference in status between the two of them, but there was also a world of difference in strength. So, although he said it with a tough tone, he was actually showing weakness.

"Call someone who has power in your family to tell me, you're not qualified! Lin Yi already taught you a lesson today, so I won't make things difficult for you anymore. Get lost!"

Zhang jinmiao's face was full of contempt, but Xue Keyan didn't dare to say anything. He could only Mutter to himself as he walked towards the teleportation array, preparing to return to the mystic division Sea area.

But when he passed Lin Yi, he still glared at Lin Yi unwillingly and laughed in a low voice, ""Lin Yi kid, don't get too cocky. When we reach Mystic division, it'll be my territory. Don't think that the Feiyang school can protect you. Just you wait and see. You'll pay back double for today's humiliation!"

"In that case, should I keep you here today so that you won't suffer losses in your territory?"

Lin Yi looked at Xue Keyan with a smile that wasn't a smile. He felt that he had miscalculated not to kill this idiot right away!

Xue Keyan shivered-the Qi Lin Yi had just injected into his body was extremely destructive. If it wasn't for the fact that it was only for a short period of time, and Lin Yi didn't take it back, Xue Keyan didn't know how long he could've lasted.

This Lin Yi, he couldn't be allowed to live!

Now wasn't the time to deal with him. When they reached the mystic division, they had to find a chance to kill him!

Xue Keyan glared at Lin Yi coldly and didn't dare to say anything more. He turned and walked into the teleportation formation.

As a disciple of an aristocratic family in the mystic division, Xue Keyan could use the teleportation array without any restrictions when he was in his mountain-opening period, so the guards did not stop him.

Lin Yi didn't think too much of it as he watched Xue Keyan leave. He had a lot of enemies anyway, and one or two more wouldn't make much difference. Plus, the opponent's strength was average, so he wasn't much of a threat.

After entering the school at Mystic division sea, Lin Yi would be able to enter the mountain opening stage with a little bit of practice and accumulation. At that time, he would have a huge leap in strength, and a clown like Xue Keyan wouldn't be worth mentioning.

"Alright, everyone get ready and enter the teleportation array in order. Pay attention to the formation and don't mess up."

Zhang jinmiao didn't take Xue Keyan's threat to Lin Yi to heart, and started ordering the people to bring the candidates into the formation in groups.

The teleportation lasted for a while before everyone arrived at the mystic Sea.

The density of the spiritual energy here was indeed much higher than that of the Yellow Sea area. It was no wonder that the people of the Xuan Sea area had set up restrictions to prevent the two sides from coming and going without limit.

If there was no restriction, the spiritual energy in the mystic Sea area would inevitably flow into the Yellow Sea area. The final result would be that the concentration of the mystic Sea area would decrease greatly, while the increase in the Yellow Sea area might not be much.

In comparison, the current model was better. Outstanding talents could be sent to the mystic division Sea area to be trained, and their advancement and growth would not be delayed.

Those who already had a certain level of strength could also come to the mystic Sea area for training regularly. Although they couldn't be compared to the locals of the mystic Sea area, it was still not bad.

After passing through the teleportation array, everyone gathered together and headed to the place where the entrance examination was held.

As they had returned two days earlier, the people from the various Academies had not arrived yet. After the people from the recruitment team had arranged everyone's accommodation, they distributed some rules and other things to everyone, then let everyone have their own free time.

Although it was free time, there was a limit to the area. They couldn't leave the test area, or it would be considered a abandonment of power and they would be sent back to the Yellow Sea.

No one would easily try such a severe punishment.

"Lin Yi, LAN 'er, you guys rest here with your friends. I'm going to report to my superiors. I'll come back to you guys after I'm done."

Zhang jinmiao said a few more words to Lin Yi and Shangguan LAN 'er before leaving the camp in a hurry.

At this point, Lin Yi's group's safety was pretty much guaranteed. The people from hidden death sect definitely wouldn't follow them.

During the transfer, Zhang jinmiao had told the guards on both sides to strictly check the identity of everyone who entered the mystic division Sea area to prevent people from hidden death sect from sneaking in.

The guards on both sides had no objection. The vice principal of the Feiyang college had a certain status in the college Alliance. Anyone would be happy to help with such a small matter.

"Let's see what's being distributed first. "

After sending Zhang Jinmiao off, Lin Yi gathered everyone to study the information in their hands.

Everyone had a booklet, so they didn't have to squeeze together. Lin Yi and his group found their seats in his room and started reading.

"The first part is all about the situation of the various Academies. There are a total of forty-seven Academies recruiting students this time, which is not a small number. Although it's not all the academies in the mystic region, it still takes up more than half of the total."

As someone who had been here once, Leng Rufeng took the initiative to be the commentator.

"First, there are the three top schools in the mystic region. Many people call them super schools, but their official names are still top schools. These three schools are the peerless school, the divine refining school, and the pride school! They only had one to three spots for this recruitment. One was the basic number, while the other two spots were floating. It depends on whether there is a suitable one. Sometimes, it means that quality is better than quantity. "

Leng Rufeng briefly introduced the top three schools and turned the page over.

Everyone here treated Lin Yi as their leader, and Lin Yi had to accompany Shangguan Lan'er to the Feiyang school, so these three top tier schools didn't mean much to them. They just needed to know.

"Other than the top three, there are a few other top schools. Feiyang school is one of them. In terms of strength, it is in the top five among all the schools, including the top three! Therefore, it's a rare opportunity to get into Feiyang college. "

Leng rufeng pointed at the booklet. He was quite satisfied with the place they were going.

"Feiyang college has a lot of admission slots. There are eight of them, and the cut-off point is 25 points. The cut-off point for the three top schools is 28 points. It seems that it will be very difficult for Qin Yue and I to get into Feiyang college."

Jiang He hai looked at the admission line in his booklet and felt a little dejected.

Out of the eight spots, Lin Yi's group already had four, and there were even more students in the mystic division. They were born in a good environment, and naturally, they weren't weak. Their chances of getting into the school were naturally high.

That was why Jiang He hai felt that the chances of him and Qin Yue getting into Feiyang college were not high.

"Think about it. We don't know how the test will go, so it's hard to say how many points you'll get in the end, so we can't say much. It doesn't matter if you're not in the same Academy, as long as you can stay in the mystic division."

Lin Yi patted Jiang hehai's shoulder. He admired Jiang hehai, but as he said, staying was the most important thing.

Chapter 6464 Unspoken Rules For Enrollment

Jiang He hai nodded and did not say anything else. His and Qin Yue's abilities could only be considered average and not outstanding, which was why they could only choose an ordinary Academy.

In fact, yang qianxue's current strength was not strong enough. She might not be able to pass the minimum score of the Feiyang college.

However, Leng rufeng was very confident. Yang qianxue did not think that she would fail either. She was weak, not because she was not talented, but because of objective reasons.

"Let's take a look at the introduction of the other Academies. "

Lin Yi called for everyone to continue, giving Jiang He and hai some ideas on which school would be suitable for them.

Other than the introduction of each Academy, the admission score, and the admission quota, there was nothing else of value in this booklet.

The few of them quickly finished flipping through the pages and circled three Academies for Jiang He and hai Tianqing. It was up to them to decide which one they would choose.

They didn't have much to do in the next few days, so Lin Yi decided to organize a group to exchange their practicing experiences.

After the lesson from Leng rufeng's knife force, Lin Yi didn't go out of his way to give specific advice anymore. He told everyone his thoughts and let them consider whether it was appropriate or not according to the actual situation. He also put forward a few possible assumptions.

This way, it could stimulate everyone's cultivation inspiration to the maximum.

It wasn't a long time, and it was hard to say how much they'd improve, but Lin Yi believed that this exchange would be beneficial for everyone's future training. Perhaps they'd be able to use it in the test.

"It's almost time. Everyone, prepare to take part in the Academy's assessment!"

Time always passed very quickly during cultivation. When Zhang jinmiao came to inform them, they were still immersed in their own comprehensions, unable to extricate themselves.

In fact, Zhang jinmiao had already been here a few times, but she didn't disturb them when she saw them having a good time.

There was no other way today. If they didn't go, their spots would be canceled, so Zhang jinmiao came to call them personally.

"Auntie Zhang!"

"Master!"

"Director Zhang!"

Everyone greeted Zhang jinmiao one after another. After a few days of communication and cultivation, they felt that they had gained a lot, so they were all in a good mood.

Zhang jinmiao smiled in response to each and every one of them, then led them to the venue.

In her opinion, the six of them were all good seedlings. Jiang He hai and Qin Yue were slightly worse off, but they could be considered average.

If possible, she would be willing to accept them all. Unfortunately, the other higher-ups in the Academy would definitely want to leave the spots for more outstanding students.

"Have you all decided which Academy to apply to?"

Zhang jinmiao was worried that Jiang He hai and Qin Yue would apply for Feiyang college as well, and they might be eliminated in the end, so she asked.

If Jiang He and the others really did that, Zhang jinmiao felt that she had to remind them. They were Lin Yi's friends, after all, and it was more important for them to stay in Mystic class sea.

"It's all decided. Ru Feng, qianxue, and I will apply for Feiyang Academy, while hehai and Qin Yue will go to liuyun Academy."

Lin Yi smiled and spoke on behalf of the group.

"Liuyun school is not bad either. It's one of the top schools and it's close to our Feiyang school. When you have a holiday, you can go and take a look."

Zhang jinmiao heaved a sigh of relief and nodded at Jiang He hai and Qin Yue with a smile.

Mystic Ocean Academies were divided into top, second, first, and second class.

There were only three top-grade ones, ten sub-top-grade ones, and twenty first-class ones. The second and third-grade ones were not fixed, and basically changed frequently.

Liuyun Academy was one of the top ten first-rate Academies. It was a good choice for Jiang He and hai Yun.

The key point was that this time, there were twenty-five enrollment slots for Liu Yun Academy, and the cut-off point was only twenty points!

In fact, the conditions could be relaxed for students who performed well in a certain aspect. Since it was closer to Feiyang college, Jiang He hai had decisively chosen liuyun college.

"Not all the schools in the mystic region are here to recruit students. Since it's not the recruitment year yet, many schools didn't come. Although the top three schools had all come, they might not necessarily be recruiting, and it was possible that the spots were empty. There are six top tier schools, including our Feiyang school, twelve first-rate schools, and the rest are all second and third-rate schools. It looks like they have a lot of spots, but there are actually more than a thousand local students who are here to take the test. The competition is still very intense. "

Zhang jinmiao revealed some information about the assessment to the crowd so that they wouldn't think that it was easy to pass.

"Master, there are more than a thousand people from the mystic division sea? Why are there only 100 spots in the Golden class Sea area?"

Shangguan LAN 'er was straightforward and did not have any ulterior motives, so she asked this rather embarrassing question directly.

"It's because they're from the mystic division!"

Zhang jinmiao smiled faintly, but there was a hint of sarcasm at the corner of her mouth. She was obviously dissatisfied with this, but in her position, there were some things that were not easy to say.

Lin Yi and the others understood-this was an unspoken rule. It was only natural for a school in the mystic division to take care of people in the mystic division!

But Lin Yi was still surprised that a thousand people came to Mystic class sea!

These people should be younger and more talented. The mystic division's ability to cultivate talents was indeed amazing!

"These people are all disciples of some noble families in the mystic division sea, or some third or fourth-rate schools. When they're strong enough, they'll take the exam and enter a Higher School, so you can't underestimate them."

Zhang jinmiao warned Lin Yi and the others, telling them not to let their guard down.

After a slight pause, Zhang jinmiao seemed to be a little hesitant. In the end, she added softly, ""Don't give them the chance to get the same points as you, because it's a rule to tacitly accept the students from the mystic division first. "

Lin Yi and the others were stunned, but it was understandable. Since there was an unspoken rule on the number of spots, there would naturally be other unspoken rules as well. Unfortunately, they couldn't do anything about it.

"Don't worry, aunt Zhang. We will use our strength to crush them so that they won't have the chance to use this kind of conventional rule. "

Lin Yi smiled faintly, expressing his opinion in a confident tone.

A smile appeared on Leng rufeng's cold face. Lin Yi's words were exactly what he was thinking. With a boss like this, it would not be a disgrace to his blade.

Chapter 6465 Talent Test

"I'm relieved to hear you say that. "

Zhang jinmiao smiled and didn't say anything else. She had full confidence in Lin Yi too. If Lin Yi couldn't get into Feiyang school, who could?

While they were talking, the crowd had already arrived at the assessment venue. This was a huge square, and the students waiting for the assessment were all lined up in small square formations of twenty-five people, the number of people was almost fifty!

Even so, these thousand people were still pitifully small in the square, only occupying a small corner of the square.

"You guys line up here. I still have something to do. I'll see you after the assessment. Be careful."

Zhang jinmiao warned the six of them in a low voice, then left with a normal expression and went directly to the recruitment team of the Alliance of schools.

After waiting for a while, all the small square formations were basically arranged neatly, and no one else came.

Lin Yi took a look-there were around one thousand three hundred students, including those from the Golden class sea. In other words, the spots for Mystic were twelve times more than the Golden class!

"Students, today's assessment is about to begin! First of all, you need to confirm which school you want to apply for. I want to remind you that once you've made your decision, you can't change it! Even if you obtained the points of a top school, you could only go to a first-class school to cultivate, unless a top school was willing to use its recruitment rights for you. If you applied for a sub-top-notch school, but your score did not reach the sub-top-notch, and you still surpassed a first-class school, then I'm sorry, but you can only go back and prepare to come back next year! Because no one would use the recruitment right for such a student, everyone must be careful when choosing. This is a test of your own strength. "

On the high platform of the square, a kind-looking old man was explaining the rules of registration to everyone with a smile. In fact, everyone already knew this, but they still listened very carefully, afraid of missing something.

"I won't say anything else. Now, everyone can first choose your own Academy. Carve your name and your chosen target on this Jade token, and then drip a drop of blood on it."

The old man on the stage waved his hand after he finished speaking. Thousands of streams of light flew out from his hand and bloomed like fireworks in the square. Then, they accurately flew into the hands of everyone.

Lin Yi nodded to himself-this old man's spiritual sense was quite strong!

He wasn't in the sea-shattering realm yet, but Lin Yi could tell that his spirit sense wasn't any weaker than other sea-shattering cultivators. It seemed like the mystic division Sea area's emphasis on spirit sense cultivation was quite effective.

However, compared to Lin Yi, who started training his spirit from the very beginning and developed along with his body, he didn't have any advantages.

Lin Yi didn't have 100% confidence that he could beat the old man, but once he entered the mountain opening stage, he would be able to suppress the old man with his spiritual sense.

He glanced at the Jade token in his hand. It was only half the size of his palm. There were exquisite lines on it, but both sides were blank.

Lin Yi gathered a stream of Qi and wrote the words "Lin Yi, Feiyang school" on the Jade. He dripped a drop of blood on it, and the Jade glowed faintly.

After the light faded, the positions of the six words Lin Yi carved on the Jade changed. Feiyang college moved to the back of the Jade, while Lin Yi's name rooted on the top.

"The students who have completed the carving can see how many competitors there are in the school of your choice. The points you get later will also be displayed on the Jade token and the ranking list of each school in real time."

After the old man finished speaking, forty-seven floating stone tablets appeared behind him. At the top of each stone tablet was the name of the Academy, and below it was a neatly arranged list of applicants.

Lin Yi looked up-there were over sixty names below the school!

Obviously, Feiyang college was still very popular. Moreover, these applicants all thought that they had the hope of entering Feiyang college!

After a rough calculation, it was almost one out of eight. Jiang He hai and Qin Yue were right to not apply for Feiyang college. The competition was too fierce.

On the other hand, only one or two people applied for each of the three top schools. It was obvious that there were not many people who thought that they were top geniuses.

After all, this year was not the enrollment year, so there were not many opportunities for top geniuses to appear. This was because all top geniuses would only be happy after they defeated the geniuses of their generation. They would rarely secretly take part in the assessment during the enrollment year, as that would only be regarded as an opportunistic act.

Such geniuses who entered the top schools would naturally be looked down upon by the true geniuses who had emerged from the top geniuses!

Lin Yi didn't really care about the top tier schools, so he looked at Liu Yun after visiting Feiyang school. The number of people was still within an acceptable range-there were about seventy people, and twenty-five of them. It was basically one out of three, so the chances were still okay.

"Alright, the first round of the assessment is about to begin. This is also the simplest one, which is to test everyone's aptitude. You only need to input your true Qi into the test platform and you will be able to get points. This is also the easiest assessment to get points. The full score is ten points. With formations as units, go to the test platform in your respective areas and begin the assessment! I hope everyone is a genius who can get ten points. "

The old man on the stage said with a smile and pointed to the ten test platforms set up below the high stage.

On average, each test platform could only take in five or six square formations of about a hundred people. It would not take long, and it was indeed the simplest test.

"We're late, and we're the last group. We'll be able to see how great the geniuses in the mystic region are. "

Lin Yi turned around and smiled at the others, as if he felt that being late had its benefits.

In fact, everyone knew that this was a way to take care of the candidates in the mystic division Sea area.

The person at the front had already started the test. He inserted his Jade card into the groove on the test table and then inserted his genuine Qi at the designated position.

The test platform would test the talent of the subject according to the nature of the true energy. The specific test situation would not be disclosed, and would only be converted into a score to show.

Lin Yi looked for a while-most of the people in front were five or six points, seven or eight points were rare, and there wasn't a single one above nine. He started to worry!

He wondered what kind of score they would get.

Talent wasn't a matter of strength. Moreover, there was no way to fake such a test.

Chapter 6466 Nine-Point Genius!

In the later tests, there were finally a few candidates who scored nine points. They were all students who were preparing to apply for the top schools!

It seemed that those who dared to apply for the top schools did have some skills. Unfortunately, a genius with ten full marks had never appeared.

Soon, it was Lin Yi's group's turn. After the people at the front had finished, it was finally Lin Yi's group of six's turn.

Shangguan LAN 'er took the lead and went up to test. She inserted the Jade card into the groove, then inserted her genuine Qi, and the test platform began to light up.

On the other end, there was a small transparent round pillar used to display the score. It was divided into ten small boxes, and each lit up box represented one point.

After Shangguan LAN 'er's genuine Qi was injected into it, the small grid in the small round pillar lit up at a moderate speed, rising steadily.

One, two, three, four, five were the results without any suspense. Basically, no one had scored less than five points. When the sixth grid lit up, people on the high platform began to pay attention to this side.

Of course, Zhang jinmiao had been paying attention to Lin Yi and the others, so she didn't count.

Only those with seven points and above could be considered outstanding. First-rate schools would not be willing to accept those with five or six points. Those with eight points and above would be more valued by the second-rate schools.

"Vice Principal Zhang, are these the disciples you accepted from the North Island? He's quite talented. If you train him well, he'll be a trump card of your Feiyang college!"

Some people who were familiar with Zhang jinmiao congratulated her when they saw that the seventh grid of Shangguan LAN 'er was still rising after it lit up.

As Zhang jinmiao's disciples, those who could get eight points would bring out the best in each other. And when they grew up, they would indeed become the backbone of an Academy.

As for the Ace, in Feiyang college, an eight-point talent was still a bit bad, but nine points was different!

Before the man could finish his words, Shangguan LAN 'er had already lit up the eighth grid, and there was no sign of it stopping.

Seeing this, all the people on the high platform began to be interested in Shangguan LAN 'er!

So far, all the students with nine points of talent had basically applied to the top three schools. There was not a single one in the secondary top schools. Finally, there was one!

Sure enough, Shangguan LAN 'er stopped at the ninth grid and had almost passed 80%, almost reaching the threshold of 10 points!

This kind of talent was absolutely outstanding!

"Congratulations, Dean Zhang. Your disciple is very talented! If you teach him well, he'll have a bright future!"

Seeing the final result, Zhang jinmiao was naturally happy. The others also took the opportunity to congratulate her for accepting a good disciple.

Those from the top schools also congratulated him. Their school also needed a 9-point genius, but they wanted a 10-point genius more!

They would value a genius with nine points, but they would not be jealous of Zhang jinmiao.

The chit-chat on the stage didn't affect the test below, and Shangguan LAN 'er took out her Jade card and turned to Lin Yi with a proud expression, as if saying that she didn't become a little Senior Sister for nothing!

Lin Yi smiled and gave Shangguan LAN 'er a thumbs up to show his appreciation. He then let the others go up first.

Behind Shangguan LAN 'er was yang qianxue, who had also applied to Feiyang college. She had been very confident in herself, but after seeing so many people applying to Feiyang college, she couldn't help but feel less confident.

Especially on the floating stone tablet, the marks behind the names of the students who applied for Feiyang college were basically not lower than seven points!

The only good news was that most of them had seven points, with only a small number of them having eight points. As for the one with nine points, only Shangguan LAN 'er had it.

"It's alright. Believe in yourself. Your talent is definitely not worse than others!"

Leng rufeng whispered a few words of encouragement into yang qianxue's ear and patted her shoulder.

"Mm! I'll definitely be fine!"

Yang qianxue turned to Leng rufeng and flashed him a beautiful smile. Then, she walked up to the test table determinedly, inserted the Jade card into the groove, and began to channel her genuine Qi.

Everyone in Lin Yi's small group started to pay attention to yang qianxue's test results, and Shangguan LAN 'er, who had just appeared on the stage, also paid attention to it when she saw that it was another girl who applied for the Feiyang school after Shangguan LAN' er.

Yang qianxue's test was slightly different from Shangguan LAN 'er' s. The grids on Shangguan LAN 'er's small round pillar lit up at a steady pace, while yang qianxue's speed was extremely fast. It could be said that she was advancing with an irresistible force. In just a breath's time, the first to the seventh grids had all lit up, and then the speed slowed down.

However, the eighth grid didn't stop her. It lit up gently and then she slowly moved to the ninth grid!

The crowd on the high platform couldn't help but become serious. Was Feiyang college going to take in geniuses with nine points in a row?

Even the top schools might not have such students, right?

Especially in the new year, if there were no ten-point geniuses, the number of nine-point geniuses would determine the outcome of the enrollment.

Yang qianxue was also very excited. If she could get nine points, her chances of getting into Feiyang college would be much higher!

Unfortunately, her momentum seemed to have been used up at the beginning. After rushing to the eighth grid, her speed became slower and slower. In the end, she still didn't touch the ninth grid.

Eight points!

"Like I said, it's hard to find a genius with nine points. How can they be found by the Feiyang college in a row? "However, this girl isn't bad either. Her eight points is considered relatively high. If we train her well, she might become a capable general."

The people on the high platform all heaved a sigh of relief. A nine-point genius would be highly regarded even by the top schools, let alone the second-best.

If the Feiyang college got nine points in a row, they would be the most outstanding among the sub-top schools. Although they might not be able to threaten the top schools, with such strength, the other sub-top schools would be in despair!

"We don't expect to get a few geniuses with nine points. Eight points is already not bad!"

Zhang jinmiao smiled very happily. Although she was being humble, only she knew how happy she was.

Yang qianxue was able to get eight points. In her opinion, Leng rufeng was definitely more powerful than yang qianxue. He was likely to be another genius with nine points!

Lin Yi, on the other hand, didn't even need to be mentioned-even yang qianxue felt that it was an insult to Lin Yi to say that he only got nine points.

"I just hope that Lin Yi doesn't stand out too much, otherwise all the top schools will fight for him!"

Zhang jinmiao was still a little worried, but she wasn't worried that Lin Yi would switch to another school. With Shangguan LAN 'er around, he wouldn't go to another school. After spending so much time with her, Zhang jinmiao had the confidence to do that.

Chapter 6467 Lin Yi Got Zero?

However, it wasn't a good thing for Lin Yi and Feiyang school to return empty-handed after the top tier school made their move. They were the target of public criticism, and it was troublesome to get too many talents!

Zhang jinmiao shook her head slightly. This was considered a happy worry, and she didn't mind having more of it.

"Rufeng! I'm really not worse than anyone else!"

Yang qianxue was still a little excited after she came down.

"You're not worse than anyone else! You're the best in my heart!"

The cold Leng rufeng wasn't used to saying such intimate words in public, but luckily he'd learned telepathy from Lin Yi, so he was thick-skinned enough to praise yang qianxue.

Yang qianxue's face was slightly red. Fortunately, her face was already flushed from her excitement, so it did not attract any attention.

"I'm going to take the test now. "

Leng rufeng patted the back of yang qianxue's hand and nodded to the others. He then stepped onto the stage calmly.

"Another one applying for Feiyang college. Vice Principal Zhang, you have a lot of applicants this year. There are quite a few good seedlings in there!"

It was unknown if some people were envious or jealous, but Zhang jinmiao didn't mind.

All the benefits had been taken by her, so why couldn't she let him say a few words?

"That makes sense. We might use our authority to recruit more people. It's good to recruit two more."

Zhang jinmiao chuckled and nodded in agreement.

What she said was the truth. So far, including yang qianxue, there were already six geniuses with eight points, but there were only eight spots for admission, including Shangguan LAN 'er, Lin Yi, and Leng rufeng. It was a pity to give up on the other geniuses!

As they were talking, Leng rufeng had already started his test. His speed was even faster, just like his Saber Force, full of an indomitable momentum!

From the moment the first square lit up, it rushed directly to the ninth square. The top was full of sharp momentum and was approaching the bottom line of the tenth square!

There was even a hint of sharpness that had already broken through the bottom line of the 10th square. However, because it was too weak, it couldn't be used as a barrier to enter the 10th square.

The people on the high platform all drew in a cold breath. Another genius with nine points!

Furthermore, this was a genius who was infinitely close to ten points. Even those top schools would be envious.

"Dean Zhang, your Feiyang school is going to explode! How did so many geniuses suddenly appear? this is amazing, he might be the most talented student this year!"

The person who spoke earlier didn't know if he was envious or jealous. Alright, it should be envious, jealous, and hateful!

Why did Feiyang college have such good luck? Why?

Leng rufeng took out his Jade token and was very satisfied.

The last time he came to the mystic division Sea area, although his talent was not bad, he only barely reached nine points in the test. It was not impossible to say that he was at the top of the eight points.

However, after arduous cultivation, he had been Reborn!

And from now on, he would only become stronger and stronger!

I wonder how many points boss will get?

It should be a good 10 points, right?

Leng rufeng looked at Lin Yi. This was the person he admired the most. Other than admiration, there was no other emotion to speak of.

After Leng rufeng came down, Jiang He hai and Qin Yue went up one after the other. Both of them had seven points in talent. It was right that they did not apply to Feiyang college. They had no advantage in talent alone.

Lin Yi was the only one left in the formation, and he was curious as to how one could use pure energy to determine their talent.

He wondered what kind of performance his heaven seizing Fortune's true Qi would have.

"It's another one who applied for Feiyang college. Vice Principal Zhang, is there another genius with nine points? we'll be jealous!"

Seeing that Lin Yi had also come out from Shangguan LAN 'er and Leng rufeng's group, some of the people on the stage immediately felt uneasy, so they spoke to Zhang jinmiao in a half-joking, half-serious tone.

"How can there be so many geniuses with nine points? seriously, you guys can't bear to see us recruit two good seedlings! It's just two geniuses with nine points, what's the big deal?"

Zhang jinmiao chuckled, thinking that Lin Yi wasn't a genius with nine points. With his talent, it was normal to get ten!

Even Zhang jinmiao felt that this test of ten points couldn't determine Lin Yi's true talent!

Lin Yi stood in front of the stage and inserted his Jade card into it. He then injected some of his heaven seizing Fortune's Qi, but the small round pillar didn't react at all.

"Eh? Why isn't there any movement?"

Lin Yi himself was surprised-was this thing not sensitive to the battle tactics of heaven's fortune?

Or could it be that the true Qi of the battle technique for seizing heaven's fortune couldn't be detected at all?

Well, it could also be that he had infused too little true Qi.

Lin Yi guessed as he increased the amount of pure Qi He injected into the pillar, but it still didn't react.

"What's going on? He had already infused his true Qi, right? Why is there no reaction at all?"

The people on the high platform were also a little surprised. This kind of situation had never happened before.

No one on the stage believed that Lin Yi's talent was zero. How could someone with zero talent become a master of the xuansheng stage at such a young age? Cultivation was dependent on talent. Those without talent would forever be ordinary people!

But what was going on? Was the testing table broken?

Zhang jinmiao had some guesses in her heart-could it be that Lin Yi's talent was too strong, and the test table couldn't detect it, so it stopped working?

However, this guess wasn't quite right. Shouldn't it be a full score?

"Little friend, you didn't transfer enough Qi, did you? Try to increase the amount of energy you're transferring. Don't worry, the testing platform won't be damaged. "

Someone on the stage reminded Lin Yi. They wanted to see what kind of score Lin Yi could get. After all, he already had two friends with nine points and one with eight points.

These four who applied for Feiyang college didn't look like simple people!

Especially the last one, the others seemed to regard him as their leader.

"Alright, I'll try!"

Lin Yi didn't know what to say-he really didn't think he'd be in such an awkward situation. Was he supposed to get a zero if he couldn't get a score?

He didn't need anyone to tell him. He knew that if he got zero points in the first round, it would be impossible for him to get enough points to enter the Feiyang college.

He couldn't possibly return with his tail between his legs, right?

Then Shangguan LAN 'er would think that he deliberately did not want to stay with her!

Chapter 6468 Off The Charts

Lin Yi smiled bitterly and shook his head. He continued to increase the amount of pure Qi He was sending in, but the damn little round pillar still had no reaction at all. This was ridiculous!

No, he had to think of a way!

Lin Yi frowned as he thought about what to do. He subconsciously converted the Qi into five elements killing Qi!

At this time, Lin Yi was increasing the amount of energy he was sending in. The heaven seizing fortune battle technique directly turned into five elements killing intent, which even he himself was shocked.

The small round pillar instantly lit up with a dazzling light. Lin Yi was shocked and quickly retracted his Qi. From the start until now, there hadn't been such a dazzling light. It was impossible not to attract attention!

Lin Yi's reaction wasn't slow, but he was still a little too slow.

The five-element killing intent was incomparably overbearing and instantly lit up ten boxes. Not only that, but the light became brighter and brighter. When he retracted the killing intent, the small round pillar directly exploded!

It exploded ... It exploded ...

Lin Yi stood there, dumbfounded. He was a quick-witted person, and he didn't know what reaction he should make.

Who was the one who said that the testing platform would never be damaged?

Stand out! Hurry up and come out!

Please explain to everyone what is going on!

Lin Yi blinked and looked at the stage innocently, laughing awkwardly. "This one seems to be really broken! Do you need to test it again?"

The guy who'd told Lin Yi to increase the amount of pure Qi He'd injected into the testing table and said that it wouldn't break was now staring at the broken pillar with his mouth wide open!

He really couldn't understand how it had shattered.

"Uh, then let's try another test table. This one just happened to malfunction."

The first old man coughed, signaling for Lin Yi to go to the test table.

Lin Yi shrugged and took out his Jade card obediently before walking to the test table.

Zhang jinmiao forced herself to calm down, not showing any weird expressions. In fact, she wanted to cover her face. She wanted Lin Yi to keep a low profile, but was this how he should act?

Now, Zhang jinmiao could only secretly pray that this kid didn't break the testing platform again. The first one was still fine, but if the second one was like this, it really wouldn't make any sense!

Everyone present was a sly old fox, who wouldn't be able to see that something was amiss?

In fact, Lin Yi was nervous himself. The others were showing normal numbers, but he broke the test table!

He had used too much strength just now, and he didn't know how much strength was appropriate.

If he transported too little, there would be no reaction. If he transported too much, he was afraid that it would explode. This matter was really frustrating.

The other students had stopped as well, looking at Lin Yi curiously.

This was the first person who could break the small round pillar of the test platform!

A test like this needed to be observed carefully-even the other platforms had stopped as everyone looked at Lin Yi, waiting for him to take the test.

Lin Yi's expression was calm and collected as if it really was just a malfunction. He walked to the other test table calmly and put his Jade card in the groove, slowly reaching his hand out to the Qi input position.

"A little less first, a little bit at a time. Don't be anxious!"

Lin Yi reminded himself to be careful.

This time, he was prepared to directly inject the killing Qi of the five elements, because there was no reaction no matter how much true Qi He injected into the battle tactics for seizing heaven's fortune. Since the killing Qi of the five elements was useful, he would directly use it.

However, this amount had to be controlled well, and the situation just now must not be repeated!

Otherwise, it would not be a tragedy, but a complete cutlery set!

"A little, a little!"

Lin Yi said in his heart and really did put in a bit of killing intent. The small round pillar lit up in front of everyone. It wasn't as bright as before, but it was a lot brighter than normal.

Lin Yi was shocked, thinking that the tragedy was about to repeat itself. He quickly took back a part of the five elements killing Qi. If it wasn't for the fact that he was afraid of arousing suspicion, he would've just taken it all back.

The light on the small round pillar was a little dimmer, and nine out of the ten small squares had already lit up. However, there was still a certain distance to the tenth square. It was not as bright as Leng rufeng 's, but almost the same as Shangguan LAN' er 's.

Lin Yi let out a breath of relief-this was a pretty good result, and he didn't expect to get a perfect score. It didn't mean anything to him.

"Nine points, another nine-point genius. Feiyang College's luck is really heaven-defying!"

"That's right. To be able to recruit three nine-point geniuses in such a small year, it's even more impressive than the top schools. It's a good thing that this one isn't a ten-point genius. Otherwise, I'm afraid someone would really try to snatch it."

"It's just that the explosion just now was a little strange. Why do I feel that something is wrong? Speaking of which, at the start of the second time, I thought it was going to explode again. I didn't expect it to be weaker. What's going on?"

The people on the high platform whispered to each other, but Zhang jinmiao heaved a sigh of relief!

Lin Yi had covered it up a little, after all-a nine point genius was quite eye-catching, but it couldn't compare to a ten point genius. It was just a one point difference, but it was a difference in essence.

Even during the recruitment year, it was not easy for top schools to recruit geniuses with ten points.

No matter what, Lin Yi finally got over this. A nine points appeared behind his name on the stone tablet, after Shangguan LAN 'er and Leng rufeng, taking the third place of the Feiyang school.

The Feiyang college was in the limelight this time. Three nine-point geniuses and six eight-point geniuses!

Their reputation was stronger than the top three schools. Their fame could be said to be unparalleled.

Lin Yi went back to the group and signaled for everyone to keep quiet-they had to keep a low profile for now. They didn't know what the test was going to be like, and it'd be good to keep their presence low.

Soon, all the tests were over, and other than Lin Yi making a small commotion-or rather, a big one-there was nothing special.

In the end, a genius with ten points did not appear. The one closest to ten points was Leng rufeng.

Lin Yi was also suspected to be someone with ten points in some people's eyes, but for some unknown reason, it dropped to nine points. Hence, Lin Yi had entered the eyes of some people.

There were a total of six geniuses with nine points. Three of them were in the Feiyang school, so there was nothing to say. The other three were scattered in the three top schools, one for each family. It was very fair.

Chapter 6469 Team Battle

"Alright, the first round of assessment has ended smoothly. Everyone is aware of your own results. Next, we will begin the second round of assessment! The total score of the second round is five points. As long as everyone works hard, it's possible to get all of these points. It's not too much to say that you're giving away points. "

The old man looked at all the preparatory students below the stage with a smile and began to explain the items of the second round.

To put it bluntly, it was very simple. The second round was group and individual battles. Each square formation had twenty-five people. These twenty-five people would be divided into five levels of points. The first level of five points, the second level of four points, and so on. The last level would be one point.

The rules of the battle allowed them to team up against their opponents. Every five people would form a group and engage in a free-for-all battle with the other four groups. The one who could last until the end would be the winner. The first one to be eliminated would naturally be the last one.

In a group, if four people eliminated one survivor, it would be considered as the survival of the entire group, so it was called the group and individual battle.

"Boss, what's the test about? Is it individual or team combat?"

Leng rufeng was a little speechless about the assessment this time. He could not grasp the main point at all.

"Both. Maybe they want to see each person's performance in a team situation, and their individual combat ability in a team situation where the team is destroyed. It's a comprehensive consideration, right?"

Lin Yi pinched his chin, thinking that he made sense.

In fact, Lin Yi felt that the big shots were just joking!

What's the point of having this kind of team and individual battle?

The point was that there were six of them here. If they formed a group of five, wouldn't one of them have to leave alone to go to another group?

This was really not a F * cking pockmark, but a trap!

"Boss, I'll go to the other group. You can lead them to form a team."

Leng rufeng also knew that the six of them could not be together, so he took the initiative to suggest that he go to another group.

"No need. Rufeng, you lead the team. Everyone's together. I'll go and form another team."

Lin Yi smiled, thinking that this was actually pretty good.

They were three nine-point geniuses, one eight-point genius, and two seven-point geniuses. It would be strange if they didn't become the target of public criticism!

But Lin Yi believed that if he went out and said he wanted to form a party, people would follow.

This way, out of the twenty-five people, ten of them would be on one side. Against the other fifteen people, there was no need to be serious. They could win by just casually fighting.

After that, Lin Yi's team would end up in the second tier. He'd only get four points, but that didn't really matter.

They were all smart people, and understood Lin Yi's plan.

They all wanted to sacrifice themselves, but Lin Yi had already made up his mind, and they couldn't change it.

The other nineteen people split into their own groups before Lin Yi and the others could say anything.

They could all tell that Lin Yi's group of six was on the same side, so no one expected to join them. The stronger people formed three teams, and the four weakest ones were left to wait and see which of Lin Yi's group would come to be the sacrifice.

"Uh, I need four people to form a team with me. It seems like it's the four of you?"

Lin Yi turned around and nodded at the four.

Lin Yi wouldn't mind if he had a team by himself, but the rules stated that he had to be in a group of five.

"You're forming another team?"

One of the four people was ecstatic. They thought it would be one of the two who scored seven points in talent. They didn't expect it to be the guy who broke the small round pillar on the test table.

In that case, he was definitely not going to give up on himself!

Thinking of this, these four guys who had been abandoned as cannon fodder immediately became happy. They had come to participate in the assessment so that they could enter the school they liked and get more points. Who wanted to be at the bottom?

"Yes, yes, yes, it's the four of us. Lin Yi, big brother Lin, please take care of us!"

The smarter ones quickly went up to Lin Yi and tried to get him to know them!

The second round was like this, but he didn't know what the third round would be like. If he could hug onto Lin Yi's leg, the test after this would be a lot easier.

Plus, Lin Yi was going to enter the Feiyang school, and he had so many powerful friends with him. It would be better to make friends with him now!

Thinking about it and thinking about what the other fifteen said about joining forces to deal with Lin Yi first, they were really stupid!

Such a genius figure, they couldn't wait to curry favor with him! Only a fool would offend him!

The other 15 people were dumbfounded. They looked at each other and felt that they had miscalculated. They should have chosen to go to the group with the four people!

"Alright, after you've divided yourself into groups, you can begin the competition. Everyone, choose a field to enter. No one is allowed to kill or injure anyone. Violators will be severely punished. You can surrender and admit defeat. If you leave the designated area, you'll be considered to have lost!"

The old man on the high platform stretched out his hand and drew a line, and more than 50 circles appeared in the entire square, which was enough to accommodate a square-shaped melee.

"Let's go!"

Lin Yi waved at the four companions he'd just recruited and followed Leng rufeng's group into a circle.

"Big brother Lin, do we have any strategy? Should we first concentrate our strength on one group, then split up and attack together to defeat the other two groups?"

One of the four was smarter, and started giving Lin Yi advice as soon as he entered the circle. He wanted Lin Yi to have a better impression of him.

"We're gathering our strength to deal with one team? That's fine too, if you don't like the look of any group, then go up and fight them!"

Lin Yi scratched his chin and nodded with a mysterious look on his face, agreeing to the suggestion.

As far as Lin Yi was concerned, there wasn't any need for strategy to deal with fifteen of them.

Leng rufeng alone was enough!

These elite students from the mystic division were not very strong. They did not have the ability to challenge those who were stronger than them. No one could withstand Leng rufeng's attack.

However, Lin Yi didn't want to dampen the enthusiasm of his team members. He decided to let them use their abilities first.

"Boss, do we need to end the battle quickly?"

Leng rufeng asked Lin Yi. If he said he needed it, he would use his full strength to finish off all his opponents.

"No need. Just play as you like. Treat it as practice!"

Lin Yi smiled faintly and sent a message to Leng rufeng. After a slight pause, he added, ""You can't be too casual either. You'd better fight in a more organized way to show that you have team combat ability."

Chapter 6470 Taking The Initiative To Concede

Lin Yi felt that the score wasn't the final condition yet, and that the performance in the middle should be taken into consideration as well. He wanted Leng rufeng to do his best.

"I understand! Don't worry, boss, I know what to do!"

Leng rufeng nodded. After confirming with the others through telepathy, he began to discuss the battle strategy with the others.

Before they could finish their discussion, the other three teams had finished their discussion and charged at Lin Yi's team. Everyone used their strongest attacks, hoping to destroy Lin Yi's team in one hit.

Who asked this group to be the weakest apart from Lin Yi?

As far as they were concerned, there was no point for Lin Yi to be strong alone. As long as they surrounded Lin Yi, they would be able to kill him!

"Ha, quite decisive, and not slow at all. Everyone, be careful! Don't get killed. "

Lin Yi smiled slightly. As soon as he finished reminding them, Leng rufeng's group spread out and formed a simple battle formation, dealing with the attacks from the other three groups with ease.

Because these guys 'main target was Lin Yi's group, Leng rufeng and the others didn't feel too much pressure. On the other hand, Lin Yi was almost hit by the other side's attacks because he was too relaxed.

He dodged it easily, but the members of his team were given special attention and were forced to retreat. Two of them accidentally stepped out of the boundary and were unfortunately eliminated.

The other two didn't last long either-they felt like they couldn't hold on any longer, and decided to leave the area. They didn't forget to call out to Lin Yi as they eliminated themselves,"Big brother Lin, our group is counting on you. Don't let us down!"

This was how capricious an expert was. He could die as he pleased. In any case, there was an expert who could easily turn the tables. What was there to worry about?

"You're bullying me with numbers! It was almost four against one, and my people were all knocked out of bounds. Do you really think I'm easy to bully?"

Lin Yi pretended to be unhappy, but the smile on his face didn't fade at all.

The three groups didn't want to waste any more time with Lin Yi-they wanted to get him out in one go, so at least someone would be at the bottom and wouldn't lose too badly.

Then, they realized that they seemed to be wrong, and they were very wrong!

They thought that Lin Yi's group only had one person left, but in fact, they were already in a sea of Lin Yi's. Hundreds of Lin Yi's suddenly appeared in the circle, taking up almost all the room for maneuver. The only empty space was around Leng rufeng's group.

Wood forest thousand transformation!

"You see, I won't lose to you in numbers! You can have fun now. "

The hundreds of Lin Yis all laughed and shrugged at the same time, signaling for the three groups to continue.

If Lin Yi were to make a move, he'd be able to take care of all three groups in an instant. They might just be clones, but when it came to dealing with a xuansheng student, almost every clone could have the upper hand in a one-on-one battle.

However, Lin Yi didn't use the thousand changes of wood and forest to deal with these guys. He just didn't want the three groups to bother him. With so many clones, they could do whatever they wanted. After all, the final attack would be left to Leng rufeng and the others.

On the other side, Leng rufeng understood Lin Yi's intention and led the group to deal with the three groups.

In the beginning, the five of them didn't have any tacit understanding. The battle formation they formed was the simplest and most basic kind, and it was only a superficial one. However, as the battle progressed, the five of them slowly began to cooperate.

There was no need for any big moves, nor was there any gorgeous martial arts technique. Just a simple cooperation like this easily tore through those people's defenses, and then they were forced out of the circle one by one.

Hundreds of Lin Yi's had become cheerleaders, cheering for the others while fighting back and forth with the people who wanted to attack him. It didn't take long for the three groups to be eliminated by Leng rufeng's group.

"Everyone has done well. Our scores in the first two rounds were already considered very good. It seems like there shouldn't be too much of a problem for us to enter the academy."

Lin Yi canceled the thousand changes of wood and forest and stepped out of the circle. He smiled and started talking to everyone.

It was a decision they'd made before, so no one felt that it was wrong. With Lin Yi's strength, he could get more points in the future without a problem, and getting one point less in the second round wouldn't make a difference.

The four people in Lin Yi's group were the happiest-they were prepared to get one point at the bottom, but they got four points!

Although Lin Yi was the one who gave up in the end, they would only thank him. Without him, they would be the first to be eliminated, and they would only get one point.

"Principal Zhang, it seems like your disciple and her friends have been hiding their true strength this round. Although they still managed to get into the first and second ranks, their performance was a little too ordinary."

Most of the people on the stage were paying attention to Lin Yi's formation-there was nothing they could do about it, after all, they had so many talented people.

"It's already good enough that they can use their full strength to win. Do you want to see how amazing their performance is?"

Zhang jinmiao smiled noncommittally and didn't say anything.

"Dean Zhang, you're saying that these geniuses don't need to go all out when they're all gathered together. They can win the championship with just a casual fight."

Another person laughed and interjected to comment on Zhang jinmiao's words.

"That's reasonable. They are already very strong, and when they work together, they are invincible. It's not easy to see their performance. But it doesn't matter. There should be some clues in the third round, right?"

The first person nodded with a smile, looking forward to the performance of the next assessment.

Lin Yi and the others gathered together and chatted casually, summarizing their gains and losses before waiting for the other square formations to finish.

To them, the second round wasn't difficult at all. It was as easy as the first round.

After two rounds, Leng rufeng and Shangguan LAN 'er had the highest scores of 14 points. The highest score in the entire square was 14 points. The others were all in the top three schools.

Lin Yi and Yang qianxue both got thirteen points, and the four of them had gotten more than half of their total points. Naturally, they were happy and relaxed.

It was the same for Jiang He hai and Qin Yue. They only needed 20 points to pass the admission requirement to apply to liuyun Academy, but they had both obtained 12 points. Their ranking on liuyun Academy's stone monument was very high, and their future was bright.
