### Chapter 6471 Individual Competition

"If only the following matches were as simple as this. Then, the chances of everyone successfully entering the Academy would be very high. No matter what, let's work hard together!"

Seeing that all the square formations had finished their battles, Lin Yi and the others stopped chatting and looked at the platform, waiting for the rules of the third round to be announced.

"Very good. Everyone's performance was not bad. Of course, the amount of points obtained is regulated. Some people obtained high points while others obtained low points. However, this doesn't matter. There will still be opportunities to chase up points for everyone. As long as you have the strength, it is very easy to overtake your opponents."

On the high platform, the old man from before smiled and encouraged everyone. Then, he began to announce the rules of the third round.

"The third round will be a pure individual battle. It will test everyone's individual strength! There's no way to take advantage of this. Everything depends on your own strength. Perhaps you need a little luck, but I've always believed that luck is also a part of strength, so everyone should show your strength to the fullest!"

As the old man spoke up to this point, he suddenly opened his arms and an invisible wave instantly swept across the entire scene.

All of the students felt their vision blur, and they found themselves on a huge platform floating in the air.

The people around them had also disappeared. On this huge platform in the void, only the students were left.

"There's no need to panic. This is a teleportation array hidden in the square. It will teleport everyone to the honeycomb space that is specially used for combat. You will now be in an independent space and prepare for the individual battle assessment ..."

Every student could hear the old man's voice. However, the voice seemed to come from the void. It was faint and they couldn't find the direction it came from.

The third round of the individual battle would require a total of five rounds of battle!

In the first round, the space would arrange spirit beasts of the same level as their respective opponents, and the winner would get one point.

In the second round, each Academy would become each other's opponent. Each time they chose a light door that appeared on the platform and walked through it, they would randomly encounter another examinee, and if they won, they would get one point.

And so on for the remaining three rounds, they were all battles between each other.

"Senior ghost, did you discover a teleportation formation in the Plaza just now? This kind of teleportation array that can directly teleport us to another space is quite powerful!"

Lin Yi looked around and didn't see any spirit beasts, so he decided to ask the ghostly thing first.

"I didn't notice. I was studying the space formation flags. Wait, let this old man take a look first."

The ghost became interested when he heard about space and teleportation.

He wanted to study more formations in this area and then cross-check with the half of the space Array flag to sort out a clue.

Unfortunately, after a moment of observation, the damn thing spat and said, ""What honeycomb space? It's just a top-grade illusionary array, and it's above level nine, so you don't even know that you've been tricked. Don't think that it looks real, it's actually similar to the virtual trade in the illusionary array last time. Don't take it too seriously, no one will die Here. "

The demonic being said with disdain and went back to studying his space formation flags.

Although the illusory formation was beyond the scope of a level nine formation technique, he was not interested in it at all. Compared to a space formation technique, it was just a small path.

"An illusory formation? I was wondering why there wasn't any fluctuation during the teleportation. "

Lin Yi smiled and shook his head. His array skills were still too weak. It seemed like he needed to find some time to learn from this thing.

In this aspect, Lin Yi's talent was still very impressive, not to mention in alchemy. The difference was like the difference between heaven and earth, cloud and mud. It would be a pity if he didn't put it to good use.

Most of the time, the array Dao could bring great help, and the role of the array Dao should not be ignored.

Just as he was thinking about formations, the space on the platform started to twist. About a hundred feet in front of Lin Yi, a circular door of light appeared, and a Wolf King at the peak of the mystic Ascension realm walked out.

"This is my opponent in the first round?"

Lin Yi's lips curled up as he thought about playing with the wolf King for a while. It wasn't easy for the wolf King to come out, so he had to have a chance to play a supporting role.

Lin Yi's vision had already exceeded the level of the xuansheng stage. What kind of spirit beasts did he encounter in the South continent?

Earth-splitting stage, or even sea-splitting stage!

This xuansheng stage spirit beast was not even qualified to be his opponent!

Although it was a Wolf King and was much more powerful than ordinary snow wolves, it was only at the beginning stage of the mountain, which was still useless.

The moment the wolf King came out, it lowered its body and slightly bent its limbs, letting out a low growl at Lin Yi.

The temperature of the entire platform began to drop sharply, and a thin layer of frost began to form on the Rocky ground. There were also fine snow particles slowly falling from the air.

"Oh, this move is somewhat similar to Leng rufeng and yang qianxue's style. I wonder if they will encounter your companions? Ice against ice, snow against snow, that was quite interesting, alright! I'll play with you for a while. "

Lin Yi mumbled to himself and started to simulate Leng rufeng and yang qianxue's ice and snow abilities.

With the battle tactics of heaven's fortune, Lin Yi could copy most of the skills.

Other than lightning escape technique and wind escape technique, he could copy the others. It was just a matter of whether he was comfortable with it and whether he was willing to use it.

The snow Wolf King was a little stunned. It suddenly found that the temperature around it had dropped even more, and the speed at which ice and snow appeared had greatly increased!

However, this wasn't the effect it brought. Although this environment was more beneficial to it, if this continued, it seemed that something bad would happen.

Although it was in an illusion formation, the wolf King's intelligence and combat ability were the same as the real Wolf King. It instinctively felt that something was wrong and immediately attacked Lin Yi.

The low growl turned into a high-pitched howl, and a whirlwind brought up the snow and ice in the sky, forming more than ten snow wolves, charging at Lin Yi.

"This move is not bad. It's similar to the forest's thousand changes. In the future, I can use it to scare people in a World of Ice and snow."

Lin Yi smiled and commented on the wolf King's move. He then pointed his fingers like a knife and drew in the air.

The sharp blade Qi crisscrossed, and Lin Yi copied Leng rufeng's blade Force!

But the way Lin Yi used it was different from Leng rufeng 's, at least in terms of aura

Chapter 6472 Are You Talking To Me?

Leng rufeng's saber momentum became even more overbearing. It was as if he was going to split the heaven and earth.

However, Lin Yi's copied Blade Force was full of spirit, and the blade Qi was circling back and forth.

Although they were of the same strength, their attack power might not be comparable to Leng rufeng 's, but they were better in other aspects. It could be said that each had their own advantages.

Before the snow wolves could even get close, they were already riddled with holes. Lin Yi didn't even move an inch, and the dozens of snow wolves shattered into ice cubes, splattering everywhere.

"The snow Wolf King's strength is still too weak. You're underestimating me by using this giant Snow Wolf Against Me!"

Lin Yi shook his head slightly. In terms of strength, these snow wolves couldn't even beat his clones. It was a joke if they wanted to attack Lin Yi himself.

In fact, he couldn't say that these snow wolves were a joke, because the snow Wolf King's strength was a joke to Lin Yi, not to mention these fake ones.

However, the wolf King's movements were still extremely fast. The moment Lin Yi took care of the imitations, the wolf King had already arrived behind Lin Yi.

It opened its huge mouth and shot out countless sharp icicles! They were all focused on Lin Yi.

Lin Yi smiled faintly. The wolf King's speed was fast, but his eyes were sharp.

He didn't even need to use his divine sense to lock on to the ice Snow Wolf King. He could see through all of its movements with his eyes. The so-called sneak attack naturally didn't pose any threat.

The ice cones exploded into dust in the air as the ice Wolf King's Blade moved. The ice cones were unable to break through the blade's blockade. The ice Wolf King shifted its feet and continued to circle around Lin Yi, looking for an opening.

Lin Yi was addicted to using his blade aura, and under his control, more and more blade Qi appeared on the platform.

The wolf King's light and Swift steps suddenly became a little messy. It was accidentally injured by the blade Qi, and soon, it was covered in wounds.

"Forget it, you're still too weak. You can't even withstand the blade Force of my Fort. I'd better help you get rid of it as soon as possible."

Lin Yi shook his head. He wanted to test the power of his blade for a bit longer, but he didn't expect the wolf King to be so weak. He lost interest in continuing.

An ice blade suddenly appeared on the wolf King's neck. It nimbly circled around and cut the wolf King's neck. The wolf King let out a mournful cry and fell to the ground.

The first round ended just like that, and three light doors appeared in front of Lin Yi-they should be his next opponent.

Lin Yi looked left and right before walking through the light door in the middle.

His only hope now was not to meet his own people. It would be really unlucky to meet them at this time!

However, with 1300 people, the chances of meeting one of the five people on his side were still very small.

When they entered the new platform, someone walked out from another light door opposite them. It was one of the candidates for the assessment.

But he wasn't from the Golden sea, but a native Mystic. Lin Yi didn't know his name, and didn't pay much attention to him, but he remembered that this guy got eight points in the first round.

"My battle just now should be considered to have ended rather quickly, right? As soon as he came out of the door of light, someone happened to come out from the other side. It couldn't be such a coincidence, right? Could it be that the flow of time in this illusory formation is different? no matter how much time is used in the first round, it will actually be adjusted to the same ending time in the end?"

Compared to his opponent, Lin Yi was more interested in this question.

If it was just an illusion formation, Lin Yi wouldn't care even if it was a formation that was above level nine. He wasn't strong enough yet, so there was no point in worrying about it. But when it came to time, it was a different story!

Space and time would always be the most profound research topics in the field of formations!

The time flow in the illusory formation that he entered when he helped ao Tianba participate in the sea route distribution meeting of the yellow rank sea route management Association was different from the real time, but the time inside was the same.

However, the illusory formation they encountered now might have used a different flow of time, which was worth studying.

Lin Yi told this discovery to the ghost, thinking that the ghost would be very interested. He didn't expect the ghost to tell him off.

"So what if there are many changes in the flow of time in the illusory formation? It wasn't of much help in setting up a formation that could truly change the flow of time! If you have the time to care about this, you should study some solid array Dao knowledge and improve your array Dao level as soon as possible. Then, you can help me study this half of the space Array flag! Only by finding the mystery of space could one use the change in the flow of time in an independent space. Otherwise, everything would be meaningless! Do you understand? You have to be down-to-earth!"

After the ghastly thing lectured him earnestly, it continued to study the space Array flags with a strange laugh.

Lin Yi was speechless-this thing just didn't want to waste time!

It's fine if you're engrossed in the study of space Array flags, but why do you have to say so much ... Fine, what you said makes sense, you're a master of array Dao, so what you say makes sense!

"Lin Yi! I didn't expect my luck to be so good, to meet the nine-point genius who made a name for himself in the first round. Then let me see how powerful a nine-point genius is!"

The guy didn't know that Lin Yi was talking to the ghost, and was a little excited when he saw Lin Yi.

The test of talent could only show how high a person's potential was, but it did not mean how strong they were!

The guy was an 80% genius, but he was confident in his own strength. He was secretly happy to see Lin Yi.

To be able to defeat a genius with nine points would be beneficial to his hidden score.

The so-called hidden score referred to the performance score in the assessment. Although it would not be openly added to the points obtained, in the case of the final points being the same, the Academy's admission would give priority to the students with such hidden points.

It didn't even matter if they scored a little lower during admission because of their good performance. Those with high points but poor performance might also be eliminated.

"Ah? Are you talking to me?"

Lin Yi was still grumbling in his heart when he heard the guy opposite him mumbling something.

Lin Yi wasn't looking down on this opponent, but he really couldn't bring himself to be too interested.

In his eyes, this guy didn't seem as powerful as the ice Snow Wolf King.

Chapter 6473 Nine Points Against Nine Points

So Lin Yi didn't even bother to use force this time since he wouldn't be able to test its power anyway. He was thinking about what skill to use to deal with the opponent so that he could show more respect?

"Preposterous! Accept your death!"

Lin Yi's opponent seemed to feel that Lin Yi's question had hurt his pride, especially that arrogant attitude. It was enough to drive him crazy. He waved his hand and took out a pair of iron hooks, charging at Lin Yi at full speed.

In fact, this guy really wronged Lin Yi. Lin Yi really wasn't arrogant, he just didn't think that the guy was worth his time.

The 80% genius was still in mid-air, and his iron hooks split into two strange arcs, one aiming at Lin Yi's throat and the other at his crotch ...

This was a bit sinister-if one was hooked, there would definitely be some indescribable negative effects. Even Lin Yi's face changed when he saw this move.

This idiot!

What kind of grudge did he have against her for her to be so ruthless?

Lin Yi wasn't happy!

Although this was an illusionary array and he wouldn't die or be injured, this kind of move, no matter how one looked at it, was looking for a beating!

Since that's the case, I'll fulfill your wish!

Wild fire thousand legs!

Lin Yi was still thinking about what to do, but he stopped thinking about it now. What was better to vent his anger than stomping on someone a thousand times?

If there was, it would definitely be a thousand and one stomps!

Initially, the wild fire thousand legs had the purpose of attacking. After breaking the two legs of the 80% genius and making him fall to the ground, it became a complete Stomp!

Within a breath's time, the dense shadows of the legs all landed on the unlucky man's body, not a single one missing.

By the time Lin Yi had vented his anger, the guy was almost swollen!

If Lin Yi didn't go easy on him, he would've been turned into meat paste already. He was lucky to be in this state.

Three more light doors appeared in front of Lin Yi.

Letting out a long breath, Lin Yi walked into the light door in the middle, feeling refreshed. He didn't pay any more attention to the twitching 80% genius on the ground.

Anyway, it was an illusory formation. It would probably recover in a while, and then he would continue with his third round of the competition.

He didn't know if he'd run into someone he'd already fought before, but he didn't mind stepping on him again if he could.

After passing through the light door, Lin Yi's eyes landed on the light door opposite him. His opponent was walking out of that light door.

"Eh, two nine-point geniuses actually met each other. The probability isn't high. You guys didn't play any tricks, right?"

The higher-ups of the Alliance, who were watching the matches on the stage, noticed Lin Yi and his opponent immediately. The other was a nine-point genius who applied to one of the top three schools.

There weren't any ten-point geniuses this year, but there were six nine-point geniuses-the chances of them meeting in individual battles were low, and Lin Yi had one.

"How could they have tampered with it? this is completely random. It's their own choice! However, it's good to meet them. I can see how big the gap is between these two geniuses with nine points. "

The person in charge of the illusion array quickly explained and then changed the topic. It was meaningless to say such things, and it would only cause trouble.

Controlling the competition was a huge taboo. Don't even talk about doing it.

The people on the stage understood this as well, and so they only joked about it. They didn't go any deeper, but focused on Lin Yi's battle.

"Lin Yi, one of the nine-point geniuses who applied to Feiyang school. This time, Feiyang school is in the limelight, with three nine-point geniuses appearing all of a sudden. But you guys don't even dare to apply to a top school, so I think you're just some good-for-nothing, what do you think? Should I admit defeat? You're not my match. "

The young man had a cold and arrogant look on his face, as if he didn't care about Lin Yi and the others "application to Feiyang school.

In his opinion, those who could get nine points in talent should apply to the three top schools!

Although the Feiyang school was one of the top schools, it was still one of the top schools. If they didn't even dare to apply to a top school, it was obvious that they lacked confidence.

Lin Yi didn't talk to the thing this time, so he heard everything it said.

It was because he had heard it clearly that he felt it was funny. He really didn't understand where this Idiot's confidence came from.

Applying to a top school was considered courage?

Then why didn't you compete with more geniuses during the new year, but secretly come to take the assessment during the new year?

With this guy's strength at the great circle of mysterious Ascension, not to mention that he didn't have the chance to participate previously, that was obviously nonsense!

"You're that 'who'?"

Lin Yi pointed at the young man, frowning as he tried to recall.

He wasn't faking it-Lin Yi knew that this guy was a genius who got nine points in his talent test, but he didn't pay attention to his name.

He remembered that he had only taken a second look because nine boxes had lit up during his test.

Other than the people on Lin Yi's side, there were only three people who had gotten nine points, so Lin Yi was wondering which one of the three this guy was.

But in his eyes, Lin Yi was obviously insulting him!

He called out Lin Yi's name as soon as he came out, obviously because he cared about Lin Yi and thought that he was his opponent. Lin Yi didn't even call out his name, obviously looking down on his performance.

If Lin Yi knew what he was thinking, he would've explained it to him. "It's not that I look down on you, but I look down on everyone who is taking part in the assessment this time!..." Other than my own people. "

"I'm Xue Peng, and I applied for the divine refining college!"

Xue Peng suppressed his anger and told Lin Yi who he was. Lin Yi's expression was enough to make him uncomfortable-he needed to end this torture!

But in this way, Xue Peng felt that his momentum seemed to be weak, which was really annoying!

It seemed that he could only teach this ignorant kid a good lesson to vent his anger!

"Oh, right, you're called Xue Peng, I know! He's the only one with a talent score of nine out of all the applicants to the divine refining Academy!"

Lin Yi pointed at Xue Peng as if he'd just realized something.

"It's good that you know. I'll give you another chance. Do you want to surrender? This way, you won't have to waste your energy. There are still two more rounds, so you should save your energy to get more points. Otherwise, it'll be embarrassing if you can't even get into Feiyang college. "

Xue Peng really wanted to teach Lin Yi a lesson, but he didn't want to miss a chance like this to mock him. He decided to taunt Lin Yi first before making his move.

Chapter 6474 The Higher-Ups Are Shocked

"I don't mind if you want to surrender. In any case, a person like you has limited strength. Let me ask you a question. Did you and the other two guys already discuss this earlier? each of you will apply for a top tier Academy, so as to avoid competition and damage the harmony? And easily eliminated? If each of you has one family, your chances will be much higher, right?"

Lin Yi wasn't afraid of bickering-he'd been dealing with ghosts for a long time, after all, and he was pretty good at these little tricks.

As expected, Xue Peng's face was red with anger after hearing Lin Yi's words. He couldn't take it!

She wanted to mock Lin Yi, but she was the one being mocked instead! Count

It's better to hurry up.

"If I don't teach you a lesson, you won't know how powerful the mystic Sea is. How dare you trash from the Golden sea compare to us? Watch my sword!"

The sword in Xue Peng's hand flashed and transformed into dozens of sword tips, shrouding Lin Yi in them.

"I saw it. Your sneak attack was indeed very despicable!"

Lin Yi smiled. He liked it the most when people used swords, and he didn't have to think of other words to mock them. It saved him energy.

However, many of his friends used swords. Should he persuade them to change to other weapons next time? This was really a problem, and he needed to think about it carefully.

Lin Yi's mind was filled with random thoughts, but he dodged the attack with a slight shift of his body.

However, Xue Peng was indeed worthy of the title of one of the strongest people in this batch. The sword tip he conjured did not dissipate, but continued to divide, one and two, two and four!

In a short time, the entire platform was filled with his sword tips, reducing the space Lin Yi had to Dodge.

"Yi, you're really cheap! It's quite amazing to be able to do this. It seems like you've eaten too many brain-damaged pills!"

Lin Yi smiled faintly, even having the time to compliment him.

After that, ice and snow began to fly around the void platform as saber Qi swept across!

In the previous two rounds, Lin Yi didn't even have the chance to display the strength of Leng rufeng's fake Blade Force. This time, with Xue Peng, Lin Yi's sharp senses felt that he could use this guy to test the power of the fake Blade Force!

It wasn't that Lin Yi liked to use his Blade Force, but he felt that since he had already copied it, he should at least use his full strength once. Otherwise, he would be letting Leng rufeng down!

He probably wouldn't have many chances to use it again after this since Lin Yi wasn't that interested in sword force.

Xue Peng's face changed as he heard the sarcasm in Lin Yi's voice. He didn't know what a retard was, but he knew that it wasn't anything good!

But he didn't have time to think about it-the moment Lin Yi's blade came out, Xue Peng felt his sword slow down a little. It wasn't easy to break this slow down.

Without waiting for him to react, the invisible saber Qi had already begun to counterattack with all its might!

The air was filled with saber Qi and sword shadows, and the crisp sound of metal clashing rang out continuously. Almost in the time it took to breathe, the saber Qi had gained the absolute upper hand.

Xue Peng's face became uglier and uglier. He didn't expect Lin Yi to be this strong, and not just a little bit stronger than him. This was an overwhelming level!

As a genius who could get nine points in talent, Xue Peng indeed had the capital to be proud.

Although he was at the peak of the mystic Ascension realm, he had no problem dealing with a peak of the middle stage of mountain split realm, so he didn't think much of Lin Yi at first.

A kid from the Yellow Sea region would never be his opponent.

However, the facts had proven that no matter what, the one who would not be his opponent was Xue Peng himself!

He didn't even have the chance to lose in a less embarrassing way when Lin Yi was suppressing him from all sides.

Lin Yi didn't care what Xue Peng was thinking, he was happily controlling his blade to attack. Xue Peng was a good opponent, he could just about unleash the full power of his blade!

It was just that Lin Yi's replication of the sword force wasn't perfect enough, so the power he could exert now was only about the same as Leng rufeng 's, and this was because Lin Yi's strength was higher than Leng rufeng' s.

If Lin Yi's strength was similar to Leng rufeng 's, then his Saber Force would be much weaker.

"It seems that Blade Force is not a simple martial technique and can not be perfectly replicated. Ru Feng, this kid, has an amazing martial technique! If you cultivate properly in the future, your power will only be greater!"

Lin Yi nodded in his heart. Leng rufeng was a genius himself, and he had his own unique understanding of the sword Dao. He also had a strong will, so Lin Yi had high expectations of him.

Once Leng rufeng's Saber Force was fully developed, he would become an extremely powerful and unparalleled saber user. His attack power would be so strong that no one in the same realm would be his match.

The experiment was a success, and Lin Yi was in a good mood. But when he wanted to turn his attention back to the fight, he realized that the force had already pushed Xue Peng to a corner of the platform!

The sword shadows that filled the sky had long disappeared without a trace. Xue Peng was only barely holding on now.

"I told you to surrender, but you didn 't. Why are you so persistent?"

Lin Yi shook his head and smiled at Xue Peng, who was still surrounded by the blade aura.

Xue Peng was so angry that he almost vomited blood. This time, he had really lost a lot of face!

They were both geniuses with nine points, so how could the gap be so huge?

She thought about how she wanted Lin Yi to surrender at first, but what happened?

Being suppressed to the point where he didn't even have the strength to fight back, this performance was definitely going to deduct points!

Although he was the only one in the divine refining college who had a talent score of nine, the top schools might not even accept him!

It was possible that they would not accept any students this year. This was also the confidence of a top school!

"By the way, I have a question for you. Are you a member of the Xue family?"

Lin Yi suddenly remembered the Xue Keyan he met before he came to Mystic division sea. He seemed to have mentioned that he was from some Noble House, the Xue family. This Xue Peng's surname was also Xue, could they be from the same family?

Xue Peng couldn't care less about Lin Yi-he was having a hard time blocking the attacks, and he didn't have the energy to waste on words. He could only glare at Lin Yi, expressing his dissatisfaction!

That Xue guy, if he wasn't from the Xue family, could he be from the Lin family?

Lin Yi didn't get an answer, so he didn't ask anymore. It didn't matter if it was house Xue or not, it was all the same anyway.

Lin Yi waved his hand and put in more effort, killing Xue Peng off. Three more light doors appeared in front of him.

He still walked to the one in the middle, then looked up at the opponent opposite him.

"This Lin Yi, he's strong! He had actually defeated Xue Peng of the Xue family so easily! Xue Peng was a little careless, not even using his strongest skill, but Lin Yi didn't seem to be using his full strength either. That was a little scary! Director Zhang, you guys have really picked up a treasure!"

The higher-ups of the Alliance, who had been watching the battle, were deeply shocked by Lin Yi's strength.

Chapter 6475 Self-Confidence Or Mercy?

Everyone thought that Lin Yi and Xue Peng would be evenly matched, but who would've thought that the result would be a one-sided crushing?

Xue Peng was considered a famous genius among the mystic division's younger generation, but he couldn't even fight back against Lin Yi.

Everyone here was a master with sharp eyes. They could tell that Lin Yi wasn't using a martial arts technique that he was good at. He learned it from the other genius, Leng rufeng!

However, it didn't look like it. He was still a little rusty at the beginning and couldn't fully display its power.

But even so, Xue Peng was ruthlessly crushed. If Lin Yi were to use a skill he was good at, it would be a terrifying thing!

"Don't flatter Lin Yi too much, are you guys trying to kill him with that? It's rare for our Feiyang college to have one or two students with nine points. Please show mercy! Didn't he see that Xue Peng's skill was completely countered by Lin Yi's blade? This doesn't mean anything. "

Zhang jinmiao quickly explained to Lin Yi, hoping to cool down the heat of attention on him and avoid any unnecessary trouble.

"Whether he's really good or not, we don't have the final say. Let's see his performance in the next round! Lin Yi's luck was indescribable-he'd picked a genius with a talent score of nine with just a casual pick. Did he have a skill that could counter his opponent this time? Let's just wait and see. "

Another person on the stage laughed, and Zhang jinmiao quickly looked at Lin Yi's screen. As expected, he'd picked another genius with a talent of nine.

Zhang jinmiao wanted to facepalm at the scene-Lin Yi didn't do it on purpose, did he?

Did it have to be like this every time? What should she say this time?

Lin Yi didn't know that Zhang jinmiao was worried about him on the stage. He looked at the person who walked out and was a little stunned. His opponent this time was a young girl, a little loli to be exact!

Looking at her appearance, she was at most 12 or 13 years old. Her eyes were big, and she had some baby fat on her face. She looked quite cute!

She was only at the peak of the mid-stage of the mysterious Ascension realm, but Lin Yi knew that this little girl's combat ability couldn't be measured by her level.

"Aiya, what bad luck, meeting Lin Yi big brother here. Big brother, you're not thinking of doing something to shiqing, are you? Can you just admit defeat? Aiya, no, I can't admit defeat. If I do, I won't be able to pass the test!"

The little girl blinked her innocent eyes as she looked at Lin Yi, talking to herself.

Lin Yi scratched his forehead, not sure if he should laugh or cry.

He might not know the names of others, but this little loli's characteristics were too obvious. Moreover, she was one of the few geniuses with nine points of talent, so of course he could recognize her with one look.

It was because he recognized her that Lin Yi was in a difficult position. It wasn't that he couldn't do it to her, but he really couldn't!

This little loli named shiqing, her surname is Wang Qianqian, Wang shiqing!

He had an older brother, Wang Shiyang. Lin Yi had heard about him when he was chatting with Zhang jinmiao, and he knew that Wang Shiyang was a student at the peerless school, one of the top three schools. He was also a famous genius in the mystic division Sea area, but he left the school often to travel after reaching the opening stage.

Lin Yi was too embarrassed to say that Wang Shiyang was traveling, so he went straight to the giant frog's place ...

"Lin Yi bro, come! Let us begin the battle! Shiqing must enter the unparalleled Academy, so we can't avoid a battle!"

Wang shiqing clenched her fists, ready to fight.

Lin Yi's mouth twitched-the girl was pretty good at acting. He'd be fooled if he didn't know Wang Shiyang! Fight with fists? When had the direct descendants of the Wang clan ever used their fists? Do you really think that no one knows that you have countless talismans in your pockets?

"Little girl, you're so cute, how could big brother do anything to you? Alright, alright, we don't have to fight anymore. Big brother admits defeat, how about it?"

Lin Yi couldn't do anything to Wang Shiyang's sister, but Wang shiqing didn't know this, so he had to find another excuse.

But why did it feel like he was a weird uncle who was trying to trick a little girl?

Lin Yi didn't know what others were like, but he felt goosebumps all over his body.

"Really? Big brother is such a good person!"

Wang shiqing's eyes flashed with a hint of surprise, but she quickly concealed it and cheered like an innocent and cute loli.

Lin Yi caught the flash of surprise in her eyes.

This girl didn't think that Lin Yi would really give up on the fight. She said and did all that just to numb Lin Yi, so that she could have the upper hand.

Of course, getting Lin Yi to admit defeat was a pleasant surprise-one point was in his hands, what was there to be unhappy about?

"I can't be considered a good person, but I just can't bully little girls."

Lin Yi smiled faintly, adding a mental note that he couldn't bully Wang Shiyang's sister.

Wang shiqing frowned slightly, she wasn't happy with Lin Yi's words!

Although she was young, she was a true genius. She was very proud and especially hated it when people called her a little girl.

If it weren't for the fact that getting into Wushuang school was a big deal, she wouldn't want Lin Yi to give it to her. She could only suppress the thought of fighting Lin Yi now and think about it later.

"He actually admitted defeat? Wasn't this Lin Yi a little too soft-hearted? Or did he not even care about the assessment? In the second round of the individual and team battles, we already gave way once, and you're giving way again?"

Some of the people on the stage weren't too happy with Lin Yi's actions, thinking that he was too kind. A competition was like a war, it was a life-or-death thing, how could he treat it like child's play?

"I think Lin Yi's doing isn't bad. It's natural for a girl like Wang shiqing to give in. People with that kind of attitude will have higher achievements in the future! Plus, from this incident, we can see Lin Yi's strong confidence-he doesn't care about a few points at all because he thinks he can take back that little difference at any time. In other words, he has absolute confidence in himself, and no test will be able to stop him. "

Some people praised Lin Yi's actions and deduced that Lin Yi's strength was much stronger than what he showed-strong enough to handle the rest of the tests and get high scores!

Neither Xue Peng nor Wang shiqing had this kind of confidence!

Chapter 6476 An Absolute Genius!

Zhang jinmiao smiled bitterly to herself. After Lin Yi was noticed, no matter what decision he made, people would probably take it for granted.

However, she couldn't refute the man's words. Lin Yi must have had full confidence in himself to make such a concession.

However, Zhang jinmiao felt that there were other reasons behind this. For example, Lin Yi knew Wang shiqing's brother, Wang Shiyang. Otherwise, why would he ask about Wang Shiyang's situation?

"Although Lin Yi didn't fight this time, compared to fighting, what he's shown is more worthy of our attention. A student with talent, strength, and character like this is worthy of our full cultivation! If the Feiyang college feels that it's beyond their power, we are willing to help. "

This was clearly a blatant attempt to snatch her away. Before snatching her away, I'll tell you, I'm going to snatch her away, don't stop me!

It wasn't just this house-the other houses who thought they were stronger were starting to get restless as well. The test wasn't over yet, but Lin Yi's performance was enough to get their attention!

"There's no need for that. Our Feiyang school isn't a top school, but we have the ability to teach Lin Yi. Thank you for your kindness, but we won't hesitate to help you when you need it. "

Zhang jinmiao laughed and rejected the suggestion tactfully. She quickly pulled everyone's attention back to the competition, ending the topic of Lin Yi.

He just hoped that the last opponent wouldn't be some genius with nine points, and that Lin Yi would meet some weakling so he could end the third round quickly!

It was as if Lin Yi had heard Zhang jinmiao's prayers-he really did meet an extremely ordinary opponent this time!

His talent was only six points, and his strength was only at the peak of the early stage of mysterious Ascension. When he saw Lin Yi, he immediately admitted defeat, much more directly than Lin Yi did before!

And so, Lin Yi's last two opponents ended in two concedes. The only difference was that Lin Yi admitted defeat once, and then accepted the other one's defeat.

After the five rounds of competition, everyone returned to the square almost at the same time. On their Jade tokens, there were new points.

Lin Yi got four points this time. In his small team of six, only Leng rufeng got a full five.

"Seriously, meeting an opponent at the peak of Mystic Ascension ... Lin Yi, if you meet this person next time, you have to take revenge for me!"

Shangguan LAN 'er got four points. Although she was talented, her strength was really average. She was extremely lucky to be able to get four points.

As for the mystic Ascension full cultivation that she pointed out, Lin Yi smiled and agreed to it after seeing it, but it was probably going to be very difficult to meet him in the competition.

Yang qianxue's situation was similar to Shangguan LAN 'er' s. Both of them were talented but weak.

However, their luck was pretty good as well, scoring four points in the end. On the other hand, Jiang He hai and Qin Yue's luck could only be said to be average, or even a little bad!

Jiang He hai had only won two matches, while Qin Yue had obtained three points. If the two of them wanted to enter liuyun Academy, they would have to perform above average in the later assessments.

"Very good, everyone's performance in the individual battles was not bad, and you've also obtained enough points to match your own. After two rounds of intense battles, the fourth round should be a relaxed and happy assessment! Everyone, you don't need to use any physical strength or true Qi. You just need to show your wisdom!"

The smiling old man spoke again, ready to announce the fourth round of the competition.

From what he said, the fourth round seemed to be easier and would display wisdom. Could it be some kind of puzzle-solving test?

Lin Yi pinched his chin, thinking that if it was a test like puzzle-solving, it could be considered his strength, right? If that really didn't work, there was still the jade pendant and senior ghost. This shouldn't be considered cheating, right?

Without waiting for him to finish thinking, the old man on the stage had already continued, "This fourth round is still five points out of ten. Each of you will stick your Jade plate on your forehead and concentrate on sensing the Jade plate. You will find some questions about cultivation inside the Jade plate. Use your own understanding of cultivation to answer these questions. Then, according to your answers, the final score will be determined."

Lin Yi blinked-this test was new and interesting. Everyone's understanding of practicing was different, and there was no way to fake it. After all, one would still be practicing on their own after entering the school-it'd be a big problem if people found out that they didn't answer the questions the same way.

However, Lin Yi wasn't afraid of this test at all. His practicing was solid, and there was something guiding him from the side. He believed that he had more than enough to answer the questions.

After the old man announced the start of the test, Lin Yi and the others put their Jade cards on their foreheads, ready to answer the questions.

Lin Yi could clearly see the questions in the Jade, and it was indeed theories on cultivation. He quickly answered them, and it was a piece of cake for him.

It was just that Lin Yi didn't notice that this test actually had a test for the strength of one's spiritual sense. The strength of a xuansheng stage practitioner's spiritual sense was extremely weak!

Although the mystic division attached great importance to this, very few cultivators could come into contact with the cultivation of the divine sense before entering the highest-grade schools, even those aristocratic families.

That was why the Alliance of schools required the jade pendant to be placed on one's forehead. This was to make it convenient for people without divine sense to concentrate on sensing the questions in the jade pendant and then use their mental conception to answer them.

During this process, one could basically test the potential of a person's spiritual sense.

Lin Yi didn't notice that-he'd already used his spirit sense as naturally as eating and drinking, so he finished all the questions easily ...

Then, everyone on the stage was shocked!

Zhang jinmiao regretted it-she should've reminded Lin Yi not to use his divine sense so easily in the test!

She knew that Lin Yi's spirit sense was strong, even stronger than hers, but she didn't want others to know about this!

It was just that the test was a secret, and she didn't tell Lin Yi about it. She even forgot to hint at it, but it was too late to regret it now!

"He's actually already cultivated his spiritual sense. Although I don't know how strong his spiritual sense is, this is already quite amazing! Genius, this was a true genius! It seems like the talent test needs to be improved-I think Lin Yi's talent is definitely worthy of ten points! The testing platform must be improved as soon as possible. Otherwise, such a genius might be buried here!"

Lin Yi's performance had already shocked everyone, and there was no point in Zhang jinmiao worrying anymore. There were already people who wanted to improve the testing stage because of Lin Yi, what else could she say?

Chapter 6477 The Fifth Round Is The Main Point!

It was a good thing that Zhang jinmiao knew that Lin Yi wouldn't go to another school, but that would make more people jealous of Feiyang school, right?

Lin Yi's score appeared after he finished the question-it was a full five!

After four rounds, this was the first time he had gotten a perfect score!

After careful calculation, his total score was already twenty-two points. He only needed three more points to reach the admission mark of Feiyang college.

Satisfied with the score, Lin Yi put the Jade card away and wanted to see how many points Leng rufeng and the others had.

This time, he realized that everyone except him was still deep in thought, focusing on the Jade tablet's questions. Of course, it wasn't that their questions were harder than Lin Yi 's, but that their ability to answer questions was far from Lin Yi' s!

"Terrible! I seem to have been careless!"

Lin Yi blinked as he grumbled in his heart!

He also realized that everyone on the stage was looking at him. Under such circumstances, it was definitely not because he had obtained five points, but because he had answered the questions too quickly!

However, Lin Yi had no other choice but to act as if nothing had happened, lowering his head and spacing out.

Geniuses were bound to shine wherever they went, and Lin Yi felt helpless and desperate!

It took a while-about six to eight times Lin Yi's time-before people started to finish.

Shangguan LAN 'er was one of the best among them. Zhang jinmiao had already begun to consciously train her, and with the help of the calming Pearl, coupled with her outstanding talent, her growth was considered rapid.

Leng rufeng, yang qianxue, and the others were also among the first few to complete the test. They had basically gotten five points from the marks on the stone tablet.

Jiang He hai and Qin Yue were the only two who did not manage to get full marks due to their weaker foundations. In the end, they both got four points, which was not a bad score.

In fact, this round's score wasn't too low. Most people could still get three points, and only a very small number of people got two points. So it wasn't inappropriate to say that this round was a free-for-all assessment.

Jiang He hai and Qin Yue were extremely close to the admission threshold, with one being two points short and the other only one point short!

The next round would be completed soon, and the two were in a good mood. At least they had achieved their goal of staying in the mystic division.

Leng rufeng was the one with the highest score. He had quietly gotten three perfect scores in a row. In addition to his talent score of nine points, he had 24 points now. He was definitely the highest among all the participants!

Although most of the people on the stage were paying attention to Lin Yi, there were many people who were paying attention to Leng rufeng.

After all, his performance was also very eye-catching. If it wasn't for Lin Yi's oddness, Leng rufeng would be the genius that people paid the most attention to.

"Everyone did well. We're basically at the threshold of the admission score now. Continue to work hard!"

Lin Yi still felt a little guilty about the gazes from the people on the stage, and could only try to find something to say.

Leng rufeng and the others didn't know Lin Yi's mood and responded enthusiastically.

Everyone's scores were not bad, and almost all of them had reached the admission threshold. As long as their performance in the next round was normal, they would basically be in the bag.

"After the four rounds of assessment, everyone has some understanding of their own results. Whether or not they can enter the academy they like, we can basically have a rough guess! However, I want to

tell you that there will be quite a lot of variables in the last round of the assessment. Those with high scores now may not be able to continue to maintain their high scores, and those with low scores may not necessarily be unable to counterattack! So, nothing is set in stone yet. You don't have to be happy too early, and you don't have to be discouraged too early. "

On the high platform, that smiling old man stood out once again, pouring a basin of cold water on everyone. Of course, for those whose results were not too ideal, the fire of hope was reignited.

"In the fifth round, which is also the last round of this assessment, the points are negative three to positive seven points. Those who are eliminated will have three points deducted, and only those who persist and are not eliminated will have a chance to obtain points! I'll explain the rules of the fifth round in detail!"

The old man said unhurriedly and looked around at everyone in the square.

The hearts of the 1300 people trembled. They knew that the last round was the most important. The first four rounds were just appetizers, so that all the students who applied would have their grades near the passing line.

Other than those who were obviously very powerful but had already met the requirements to apply for the low-level Academies, basically everyone was still a few points away from their target score.

In this way, they could only try their best not to be eliminated in the last round.

If they were eliminated, even those who had already met the standards might lose the opportunity to be admitted, not to mention those who were still a little short of points.

"This is interesting. The final round's score setting is a little strange! It seems like this test is much more brutal than the individual battle!"

Lin Yi's sharp senses picked up the difference.

He had wanted to keep a low profile in the last round and score a few points. As long as he could pass the minimum score of Feiyang college, it would be fine. But looking at the situation now, there was no possibility of keeping a low profile.

If they were accidentally eliminated, they would be finished.

It didn't matter if three points were deducted, because once they were eliminated, they wouldn't be able to reach the standard!

"In the last round, all of you will be teleported to the Buji mountains! Everyone's location is random, but the range will not exceed a hundred miles. You will need to find the Xin Valley in the Buji mountain range and collect the Xin fine iron there. "

"For every unit of cloud-trapping fine iron you get, you get one point! Take note, both the Buji mountain range and the Xin Valley are filled with danger, so you will be given a transfer talisman. If you encounter any danger, you can choose to use the talisman to return here. "

"Of course, once you use the talisman, it means that you will be eliminated. Even if you have enough cloud trapping iron, it will be useless. Only those who are teleported to the designated teleportation point will be qualified to use the cloud trapping iron to exchange for points."

"There's one more thing you have to take note of. After you head to Mount Buji, you only have five days to collect the cloud trapping fine iron. If you don't return to the teleportation point after the time limit, you will be considered eliminated!"

"As for how you get your hands on the cloud-trapping fine iron, we don't care."

In the end, the old man on the high platform added with a profound smile.

Lin Yi raised an eyebrow-was this encouraging them to fight for it?

Because it was a random teleportation, there was a high chance that everyone would not be together. If they could not meet up quickly, some unexpected situations might occur.

Chapter 6478 Search Operation

The people in the square also began to whisper. Some familiar people were already discussing how to join forces as soon as they arrived.

The current situation was very obvious. If they fought alone, they would easily become the prey of others. Only by working together could they ensure their own safety and at the same time, plot to snatch the cloud trapping fine iron from others.

Lin Yi raised his head and looked at the stage. The old man took out a piece of cloud-trapping iron after he finished speaking.

There seemed to be clouds constantly flowing on the grey-white fine iron. This kind of cloud-trapping fine iron was an excellent material for forging weapons.

Although a unit of cloud trapping fine iron was only the size of an egg, it was enough to be used with other materials to forge a decent weapon such as a short knife or a long sword.

"This is a unit of cloud-trapping fine iron. As long as you can get seven portions, you will get a full score of seven points! "In addition, you have all the rights to the cloud trapping refined iron. If you are willing to sell it, the Alliance of schools can also buy it at the market price! Alright, I won't say much. You guys should get ready to set off!"

The old man waved his hand after he finished speaking, and someone activated a teleportation array in the square.

This kind of random teleportation array wouldn't be too far away, so the ghost wasn't very interested. He didn't want to come out and study it, so he continued to study his Space Array flag in the Jade space.

"Everyone, be careful when you get there. I'll find a way to meet up with you first. If you encounter any danger that you can't resist, just teleport back directly. As long as you're alive, there's hope. Don't fight head-on!"

Lin Yi whispered to the others. He wasn't worried about Leng rufeng, but other than him, the others, including Shangguan LAN 'er, weren't that strong.

If they met a stronger opponent, they might be killed immediately, especially in the Buji mountains and Xi n Valley. There might be other dangers, and Lin Yi would rather they lose their qualifications than let anything happen to them.

"We understand, don't worry! As long as we don't go to collect the cloud trapping fine iron, I don't think anyone will come and make things difficult for us. After all, no one would do something that would offend people without any gains. "

Yang qianxue nodded first, consoling Lin Yi.

Lin Yi thought about it and agreed. If they had the iron, it was possible that people would want it, but if there was no benefit, no one would waste their energy on them, unless there was some deep hatred.

Ren Zhongyuan and the others were probably the only ones who held grudges against Lin Yi and Leng rufeng. They probably wouldn't dare to lay a hand on them if Lin Yi and Leng rufeng were to appear at any time.

"Anyway, everyone, be careful. We'll meet up as soon as we get there. Ru Feng, you should also spend more effort to gather everyone together. If we can't find them in the outer regions, we'll gather at the entrance of the xiankong Valley!"

Lin Yi nodded and gave Leng rufeng a few more words of advice.

"No problem. Don't worry, boss. We'll definitely be able to gather together safely."

Leng rufeng nodded hard, swearing to himself that he would complete Lin Yi's task.

At this moment, there were already square formations that had started to move. They entered the teleportation formation and headed towards Mount Buji.

Before everyone entered, they would be given a teleportation talisman, which would be used as a life-saving trump card to escape. In addition, there was also a topographic map of the Buji mountain range, which indicated the location of the Xi n Valley.

The teleportation speed was extremely fast, and it wasn't long before it was Lin Yi's group's turn. After everyone entered the teleportation formation, the slight dizziness disappeared in a flash, and they were already in the Buji mountains in the next moment.

Lin Yi looked left and right-there really was no one around!

Soon, Lin Yi realized that his spirit sense was also blocked.

In the Buji mountain range, his divine sense could only extend for about a thousand meters, which was also within his expectations. Otherwise, it would have been easy to find the others within a range of a hundred miles.

Now that his divine sense was suppressed, he could only rely on his eyes to find.

Fortunately, Lin Yi was fast enough, and it wouldn't take long for him to find the others.

With a flash of lightning, Lin Yi disappeared from where he was and started his journey to find Leng rufeng, Shangguan LAN 'er, and the others.

They were in a mountain range, and there weren't any obvious landmarks to look at. Finding the valley wasn't an easy task, especially when Lin Yi's spirit sense was suppressed.

So while Lin Yi was looking for people, he was also looking for places he could refer to on the map.

He didn't know if it was good or bad luck, but Lin Yi found the valley very quickly. He didn't even need any reference objects as he arrived at the entrance of the valley right away. The others, however, didn't find a single one.

This was a little awkward-they'd agreed to meet at the entrance, and if Lin Yi left and continued looking for the others, what if they came here?

Lin Yi wasn't here, and they were all gathered at the entrance-what if they were mistaken for a robbery?

"Forget it, let's find the person first!"

Lin Yi shook his head. A hundred miles wasn't too big or too small, but with his lightning escape technique, he could still walk through it quickly.

In such a short period of time, nothing should happen.

Lin Yi was just about to leave when he suddenly slapped his forehead. How could he forget about the little spirit beast?

With the help of these little fellows, it was naturally much easier. Whether it was their ability to sneak around or their own strength, they could be regarded as a cheating weapon for this assessment.

"Three of you will wait at the entrance of the valley. Six of you will enter the valley to look for the cloud trapping fine iron. I will go and find the person myself. There will be no delay. Just do it!"

Lin Yi mumbled to himself and let the nine little spirit beasts out without making a sound.

He also began to search for Shangguan LAN 'er and the others at full speed.

Those students who had yet to find the valley could only see a flash of lightning shuttling back and forth in the forest of Mount Buji. They could not see what was going on at all!

Only those who came from the Golden class Sea area would understand that Lin Yi was probably looking for his companion!

Truth be told, they were very envious of Jiang He and the others.

If she could follow Lin Yi, she'd be able to get a few more points!

It was a pity that they didn't have this opportunity. Otherwise, they would have a higher chance of entering the school they liked.

"LAN 'er!"

Lin Yi activated his spirit sense to the maximum. In the forest, the effect of the spirit sense was much better than the eyes. Even if it was only a thousand meters away, it could be of great help.

For example, right now, Lin Yi's spirit sense was already at the edge of Shangguan LAN 'er's range. If the range of his spirit sense was a little smaller, perhaps Lin Yi would have just flown past her and missed this little Senior Sister.

Chapter 6479 Meeting With Leng Rufeng

The lightning arc in the sky made a slight turn and appeared directly beside Shangguan LAN 'er, who was a thousand meters away!

At this time, she was nervously staring at the seven shadow Blood Wolves in front of her, hesitating whether to use the teleportation talisman to teleport out.

The strength of each of these Shadow Wolves was above the xuansheng stage. Although they had not yet reached the mountain opening stage, two of them were enough to deal with Shangguan LAN 'er, who was good at dividing and attacking in groups, not to mention seven of them at once.

If Lin Yi had come a little later, Shangguan LAN 'er might really have to leave the Buji mountains.

"Lin Yi junior! What took you so long!"

Shangguan LAN 'er felt a lightning arc flash by her side, and immediately pouted in surprise.

"Isn't that good? Isn't it great to fall from the sky at the critical moment and play the hero to save the beauty?"

Lin Yi smiled as he teased her.

Shangguan LAN 'er blushed, thinking that this was indeed a good thing. Lin Yi being able to appear at a time of danger was indeed more of a surprise than when he was fine!

Facing seven shadow Blood Wolves, Lin Yi just casually threw out a wild fire Eight Trigram palm, and more than half of the seven shadow Blood Wolves were killed or injured. The remaining two, who were

hiding further away, saw that the situation was bad and turned to run, not even caring about their companion on the ground.

"Little Senior Sister LAN 'er, are we going to kill all these shadow Blood Wolves?"

Lin Yi looked at Shangguan LAN 'er with a smile. If she wanted to vent her anger, Lin Yi didn't mind killing all these Blood Wolves, but he was a bit lazy, so he asked.

"Forget it, let's find the others first!"

After all, Shangguan LAN 'er was a kind person. Seeing the bloody shadow Blood Wolves on the ground, all her anger disappeared. Not to mention, Lin Yi was able to save the damsel in distress, so he should be thanking these shadow Blood Wolves, so she didn't mind.

"Alright, let's continue to look for them. There are still some dangers in the Buji mountains. Other than Leng rufeng, I'm afraid that it will be more difficult for the others to deal with this situation."

Lin Yi nodded and put his arm around her waist naturally.

Shangguan LAN 'er's face immediately turned red. She had not prepared for this!

She felt her body go soft as Lin Yi held her in his arms, the strong scent of a man hitting her face.

"Hold on tight, I'm flying!"

Lin Yi didn't think much of it-he just wanted to bring Shangguan LAN 'er along.

With one more person, the lightning escape technique was no longer suitable for him to use. First of all, he didn't know if the third level of the lightning escape technique would affect the person he was carrying!

After all, he didn't have a complete cultivation technique. It wouldn't be good if there was danger.

Secondly, the lightning movement technique would affect one's speed and agility, so it was not as convenient as the ghost speed wings.

Shangguan LAN 'er nodded shyly, not daring to say anything. She wrapped her arms around Lin Yi's neck and buried her head in his chest, feeling her face burning up.

Only then did Lin Yi realize that the two of them were a little too close to each other. The young girl's soft body was in his arms, and it made his heart shake a little.

Fortunately, he thought that the others might be in danger, so it was not the right time to think about these things. He suppressed the charming thoughts in his heart, flapped his ghost-speed wings, and flew up with Shangguan LAN 'er.

Feeling the strong wind passing by Lin Yi's body and turning into a slight breeze, Shangguan LAN 'er felt the temperature on her face drop a little. She raised her head slightly and looked down at the forest.

"Wow, Lin Yi Junior Brother, this is so comfortable and fun! You have to bring me to fly like this more often in the future!"

After saying that, Shangguan LAN 'er felt that her words were a little inappropriate, as if she really wanted Lin Yi to carry her and fly in the sky, and her face started to heat up again.

Lin Yi didn't think too much about it and replied casually, his attention still focused on searching for traces of the group.

The ghost speed wings didn't cause any movement, which was the complete opposite of the lightning movement technique.

His speed wasn't as fast as the third level of the lightning movement, but in terms of hiding his tracks, the ghost speed wings were still better. The other trainees in the forest didn't notice Lin Yi flying over their heads.

During this process, Lin Yi could see the teleportation talismans light up from time to time. It was clear that many people had encountered dangers they couldn't handle and had chosen to give up the test for their own safety.

After giving up, they would lose three points. Under such circumstances, almost no one could successfully enter the school they liked.

"The first four rounds weren't dangerous, and there were still quite a few free points events. It turns out that the most difficult one is waiting in the fifth round. Just the Buji mountain range alone has already eliminated many people. We haven't even entered the Xi n Valley yet, and once we enter the valley, it might be even more dangerous."

Lin Yi sighed. There was nothing he could do with so many people being eliminated-he could only hope that Jiang He and the others could hold on.

Soon, Lin Yi found two more people-Leng rufeng and yang qianxue!

The two of them were quite lucky to have found each other early on. With the two of them working together, ordinary dangers couldn't threaten them at all, so they were able to move forward smoothly and find the others along the way.

"Ru Feng, did anything happen to you?"

Lin Yi descended from the sky with Shangguan LAN 'er, landing in front of the two.

"Boss, you guys are together too? We didn't encounter any major problems. The spirit beasts aren't too dangerous. "

When Leng rufeng and yang qianxue saw the two of them, they came over to greet them happily. Yang qianxue and Shangguan LAN 'er had become very close. They held hands and walked to the side to whisper.

"Now, only Jiang He hai and Qin Yue have yet to be found. They're not strong enough, and I'm worried that they'll run into trouble."

Lin Yi said, worried.

After meeting Shangguan LAN 'er, he found that the others might be in danger, so he had dispatched all the little spirit beasts here, leaving only one at the entrance of the valley to wait for them, while the other eight spread out to look for their traces.

However, there was still no news of Jiang He hai and Qin Yue, while Lin Yi found Leng rufeng and yang qianxue by himself.

"Indeed. Most of the spirit beasts here are at the xuansheng stage. It'll be difficult for Jiang He and Qin Yue to deal with them."

Leng rufeng nodded. If he had not been strong enough, it would have been difficult for him to move safely in the forest.

"How about this? you two take LAN 'er to the entrance of the valley. It'll be faster if I search alone. You two pay more attention on the way. Don't go in when you reach the entrance. Just wait for me there."

Lin Yi pondered for a while and decided to let Leng rufeng and the others go first.

#### Chapter 6480 Qin Yue's Decision

To ensure their safety, Lin Yi even called the two little spirit beasts over and ordered them to protect the three of them in the dark.

With these two earth formation stage spirit beasts, there shouldn't be any problems with their safety.

The little spirit beasts were more cooperative with Lin Yi's orders recently. They wouldn't even care about things like this that had nothing to do with saving the big Frog!

She didn't know if it was because they felt that it was more important to be on good terms with Lin Yi, but they'd been more obedient recently.

"Okay. Boss, don't worry. Miss Shangguan will be fine with us."

Leng rufeng nodded and agreed readily.

It was not that he did not want to look for Jiang He hai and Qin Yue. After all, they were all from the same Academy and had been getting along well over the years.

It was just that compared to Lin Yi, he knew that he couldn't help much in terms of speed or strength, so listening to Lin Yi's orders was the best way to cooperate.

Time was of the essence, and Lin Yi didn't have time to say much. He nodded to Shangguan LAN 'er and activated his Thunder escape, flying away.

Shangguan LAN 'er wanted to go with Lin Yi, but the situation didn't allow him to waste any more time. For the sake of Jiang He and the others, she could only nod in agreement.

Lin Yi searched for Qin Yue and Jiang He hai alone, seeing quite a few students trapped by spirit beasts. As long as it didn't affect his progress, he'd help them if he could.

Everyone was here to get into the Academy, and it was fate that brought them together. He could only hope that the capable ones would be like him and lend a hand when Jiang He hai and Qin Yue were in trouble.

After a while, Lin Yi's spirit sense finally found Qin Yue!

At this time, she had some minor injuries on her body. Fortunately, there was no danger to her life and there were no spirit beasts chasing her around.

"Qin Yue, what's with your injury?"

Lin Yi's lightning arc appeared in front of Qin Yue in an instant. He stopped and took out a healing pill for her.

"Boss Lin Yi! I've finally found you. "

Seeing that it was Lin Yi in front of her, Qin Yue let out a breath of relief, a smile on her face.

"Thank you," Qin Yue took the pill from Lin Yi and thanked him seriously, but she didn't consume it immediately. She said in a low voice, "I'm sorry, I'm sorry. ""Boss Lin Yi, hehai used a formation to go back. He's lost his right to enter the school."

"You've already met? What's happening?"

Lin Yi was a little surprised-he didn't think things would turn out the worst way!

Jiang He hai had already been eliminated-Lin Yi wouldn't be able to help even if he wanted to.

"After we came in, we quickly gathered together. However, we didn't expect that the nine-point genius who applied for the divine refining college, Xue Peng, would also be nearby. When he saw the two of us, he was full of hatred and attacked us without saying anything. Even with the two of us working together, we were still no match for him. Hehai tried his best to protect me, allowing me to escape while he himself was heavily injured and had no choice but to use the teleportation talisman to return to the square. If he didn't leave, that Xue Peng would probably just kill him. "

Qin Yue's pretty face was full of anger when she talked about this!

Originally, she and Jiang He hai had a high chance of getting into liuyun Academy. They only needed three units of the cloud-trapping refined iron to reach the cut-off point.

Now, it was all over!

It was no longer important whether Jiang He hai would deduct his points or not. Even if he maintained his original points, he would not be able to enter Liu Yun Academy.

"Xue Peng? Was it this idiot who attacked you?"

Lin Yi's eyes flashed with killing intent.

He knew that he was the one who dragged Jiang He and hai into this mess, and that Xue Peng was only doing this to the people around Lin Yi.

Jiang He hai and Qin Yue had been by Lin Yi's side since the first round, and even a blind man could tell that they were Lin Yi's partners.

And so, when Xue Peng couldn't do anything to Lin Yi, he decided to vent his anger on Jiang He hai and Qin Yue.

"Right! Boss Lin Yi, I'm staying here because I want to find you and tell you this news. I hope you can be more alert against Xue Peng and avoid a sneak attack!"

Qin Yue looked at Lin Yi seriously. It was impossible to say that she didn't want to take revenge at all, but even if Qin Yue didn't say it, Lin Yi would still take revenge for them!

Xue Peng!

This enmity was really big!

If he'd offended Lin Yi directly, Lin Yi wouldn't be interested in paying him any attention. After all, the difference in their levels was too big. It was like a kid challenging an adult, and the adult would probably just laugh it off. No one would really bother with a kid.

However, Xue Peng shouldn't have laid his hands on Lin Yi's people!

Lin Yi was a very protective person, and touching the people around him was much more serious than offending him directly. As long as Lin Yi saw Xue Peng, it wouldn't end well for him.

"Don't worry, Xue Peng will not be arrogant for long. I will let him know how to write the word regret!"

Lin Yi retracted the killing intent in his eyes and smiled at Qin Yue. "Ru Feng and the others have already gathered together. We'll meet them at the entrance of the valley and then enter the valley. We'll collect the sinking cloud refined iron and settle the score with Xue Peng at the same time."

"No, boss Lin Yi, you can go by yourself. I'm only staying to tell you this-hehai's injuries are serious, and I'm worried. I need to go see him immediately."

Qin Yue shook her head firmly, rejecting Lin Yi's suggestion.

"You also want to give up on this assessment?"

Lin Yi paused for a moment before realization dawned on him-no wonder Qin Yue refused to eat the healing pill he gave her. She was saving it for Jiang He and hai.

Lin Yi could get as many of these pills as he wanted, but they were extremely precious to others!

Sometimes, even if you had spirit Jade, you might not be able to buy it. Qin Yue was also a person who knew what was good for her, so she was naturally unwilling to use it for herself.

"Yes, hehai won't be able to stay in the mystic division this time. It's meaningless even if I pass the test. Ever since we reunited, I've sworn that I'll never be separated from him! If he can't stay in the mystic class sea, I won't stay either. "

When Qin Yue said these words, his tone was firm and decisive. He was definitely not saying it casually.

"Since you've made your decision, I won't stop you. Being with the person you love is indeed much better than staying in the mystic Sea alone. Take this pill and don't delay your injuries. I still have more here. "

Lin Yi sighed softly, not trying to persuade her. He respected her for being able to think and act on the same idea. It was a good thing for the river and sea.
