

Bodyguard 6481

Chapter 6481 Waiting For Iron To Fall From The Sky?

He flipped his hand and took out a bottle of healing pills for Qin Yue. Lin Yi was already thinking about what kind of pills he should give them when they returned to the Golden class sea.

This failure wasn't a big deal. There were many people who failed every year. As long as he could improve his strength as soon as possible, he would still have a chance to return to the mystic Sea.

"Many Thanks, boss!"

Qin Yue didn't stand on ceremony with Lin Yi and accepted the Jade bottle respectfully before swallowing the pill.

Even the top elixir master in the Golden class Sea area, Qing Danzi, was Lin Yi's disciple. She didn't need to worry about Lin Yi not having enough elixirs for himself.

"Boss Lin Yi, I'll head back first. Hehai's injuries are making me worried, you guys have to be careful. Don't get ambushed by those despicable people."

Qin Yue bowed to Lin Yi and reminded him again before taking out her own teleportation talisman.

"I know. Take good care of Jiang He and hai when you get back. Tell him that I'll avenge him."

Lin Yi solemnly promised Qin Yue that he would take revenge for Jiang He on Xue Peng.

Qin Yue smiled gratefully and activated the teleportation talisman. She waved goodbye to Lin Yi and disappeared in a flash of light.

"Qin Yue is quite a loyal person. Jiang He and hai did not waste their time and effort."

Lin Yi nodded and activated the lightning in his cells, turning into a bolt of lightning and shooting towards the entrance.

By this time, the number of people who had been eliminated was not small. There were probably more than three to four hundred people.

But if there wasn't any danger, Qin Yue was probably the only one who activated the teleportation talisman. Lin Yi put the blame on Xue Peng too.

When Lin Yi returned to the entrance, Leng rufeng and the other two had just arrived as well. The spirit beasts that were scattered out had also arrived.

"Boss, did you find them?"

Leng rufeng had a bad feeling when he saw Lin Yi coming back alone with a dark expression.

"I've found them, but they've already used the teleportation talismans to return!"

Lin Yi repeated what happened to Qin Yue with a dark face. Leng rufeng and yang qianxue's faces turned frosty as well.

"Xue Peng! I'll remember this person!"

Leng rufeng's whole body was emitting a cold aura, like a long blade unsheathed. If Xue Peng appeared now, Lin Yi had no doubt that Leng rufeng would immediately pull out his blade and kill him.

Because of Lin Yi, Jiang He hai was one of Leng rufeng's best friends in the soaring Cloud School. It was no wonder he was furious when he heard that his best friend couldn't even get a chance to join the school.

"Let's go. We'll go in and collect the iron first. We'll also see if that guy is in there. It'll be better if he has some of the iron. It'll save us some time."

Lin Yi smiled faintly as he led the way into the valley.

Lin Yi didn't put away the spirit beasts, either. He had them spread out to protect Shangguan LAN 'er and yang qianxue. Jiang He and yang qianxue had already been eliminated, and Lin Yi didn't want any more accidents to happen.

At this moment, there were already quite a number of people gathering the iron within the valley, and there had yet to be any incidents of snatching.

Because the cloud trapping fine iron was not easy to obtain, everyone was still looking for it on their own.

"Let's split up and collect the cloud trapping fine iron. At the same time, pay attention to Xue Peng's traces. Be careful not to be ambushed. "

Lin Yi waved his hand, signaling the four to split up.

He was not worried about Shangguan LAN 'er and the others being in danger because he had the little spirit beast with him. It would be easier to find them if they split up.

"Lin Yi, Lil" bro, I want to be with you. "

Shangguan LAN 'er looked at Lin Yi pitifully. She wasn't afraid of danger, but she just didn't want to be separated from Lin Yi.

"Boss, it's a little less efficient if we work together, but wouldn't it be safer? Why don't we work in pairs?"

Leng rufeng chimed in as well. He did not want to be separated from yang qianxue either, in case she was in danger and could not be rescued in time.

Although Leng rufeng knew that Lin Yi had the Thunder escape technique and could help anywhere at any time, yang qianxue was his woman. It was more appropriate for him to protect her.

"That's good, then let's work in pairs. "

Lin Yi didn't force it-there was no need to tell them about the spirit beast, and everyone thought it was better to pair up. He had no reason to object.

Lin Yi and Shangguan LAN 'er were in one group, while Leng rufeng and yang qianxue were in another. They split up in two different directions to search for the iron.

However, they maintained a certain distance from each other, and Lin Yi could arrive at any time if he needed help.

"Lin Yi, Junior Brother, the map says that the iron isn't an ore, but can only be found in Xi n Valley. What should we do?"

Shangguan LAN 'er flipped the map over and over again. Although there was a method to collect the iron, it did not state where to collect it, or rather, it only mentioned the general area of the Xi n Valley.

"Let's look around first, it seems like the others have no clue. "

Lin Yi smiled faintly, not thinking much of it.

The people who had entered the valley didn't get anything, and were just wandering around. Some of them looked up at the sky from time to time, too. Lin Yi wondered if the iron had come from the sky.

After all, these were the natives of the mystic division Sea area, so they would know more information.

After wandering around for a while, he saw quite a few people stopping at a place, sitting and waiting. Lin Yi called the two over and found a place to sit.

"It seems that the gathering of the cloud trapping fine iron is not as simple as we thought. The time given by the Alliance of Academies is most likely for us to wait! In that case, let's wait together. "

Lin Yi's judgment shouldn't be wrong-the people from before were looking for a suitable waiting spot rather than the iron.

Other than that, Xue Peng was nowhere to be seen!

The valley wasn't that big, and spirit sense couldn't cover a large area. It wasn't that Lin Yi couldn't use his lightning escape to find him, but it'd cause unnecessary panic.

In the absence of the cloud trapping fine iron, there was no need to do that.

Lin Yi had already planned it out. After he had collected enough cloud-trapping iron essence to pass the cut-off point, he would bring Leng rufeng and the others back to the teleportation point!

Waiting wasn't a bad idea-he'd have to go to the teleportation point if he wanted to go back and get more points. Lin Yi could take some more from him then, and he'd be able to get into Feiyang school.

Chapter 6482 Find Someone To Ask

"Boss, I have just studied the method of collection. It is indeed a bit strange. It seems to be a method of extraction and condensation, not mining. So, I speculate that this cloud-trapping refined iron might really have fallen from the sky."

Leng rufeng also came to the same conclusion. In fact, he could basically infer it from the other people's behavior.

"That's right. I'm free anyway. I'll go and find out the specific situation."

Lin Yi looked left and right, picking a student who was around twenty Zhang away and walking over slowly.

The man tensed up when he saw Lin Yi-he had a few friends with him, but they didn't give him any sense of security.

Lin Yi's name was slowly spreading among the students, especially after someone leaked the fact that he'd defeated Xue Peng in a one-on-one battle. Most people were on guard against him.

Xue Peng was a famous genius in the mystic division, and if Lin Yi could beat him easily, it meant that he could beat 99% of them easily!

Lin Yi's friends weren't normal people either, so it was normal for them to be on guard when they saw Lin Yi walking straight towards them.

This was under the condition that he had not obtained the cloud trapping fine iron. If this fellow had more of it, he might have turned around and fled.

"Hello, I want to ask you about something. I wonder if it's convenient?"

Lin Yi raised his hand to greet them even before he got close, a kind smile on his face, indicating that he wasn't here to cause trouble.

The student breathed a sigh of relief-he didn't want to have anything to do with Lin Yi, and that was why he said it wasn't convenient.

But she quickly realized that she was asking for death by offending Lin Yi like that. She quickly shut her mouth and almost bit her own tongue.

"It's convenient, it's convenient. If you have anything, just ask. I'll definitely tell you everything I know!"

The guy couldn't care less about the embarrassment he was about to face-he quickly stood up and smacked his tongue as he spoke politely to Lin Yi.

He suddenly realized that it wasn't a bad thing to be on good terms with Lin Yi!

At the very least, Lin Yi wouldn't come and steal his iron anymore. He might even be able to help out at a critical moment.

"Thank you!"

Lin Yi cupped his hands and thanked the student. He smiled and asked about the cloud-trapping iron,"I would like to ask about the mining of the cloud-trapping fine iron. Where is it found?"

"So that's what happened. Brother Lin came from the Yellow Sea region, so it's normal that you don't know. Actually, most of us here know how to collect the cloud-trapping refined iron! Because this item can only be found in the fallen Cloud Valley, the method to harvest it is not a secret. "

The smile on the student's face became even more obvious-using information that everyone knew to get on Lin Yi's good side was clearly a good deal. He didn't lose anything, and it was a great deal.

"I'd like to hear the details!"

Lin Yi was pleased as well-getting the information he wanted right away was much better than waiting around like a headless fly.

"Within the fallen Cloud Valley, every once in a while, a natural suction force will appear, drawing in the clouds in the sky. From a distance, it would look as if the clouds had collapsed and fallen into the valley, and that's why this place is called the fallen Cloud Valley! As for the cloud trapping fine iron, it can only be harvested when the clouds are being extracted from the valley. "

As the student spoke, he looked around and picked up a black stone the size of a fist. He tossed it up and down in his hand.

"Brother Lin, please take a look. This type of Black Rock can be found anywhere in the Xi n Valley, and it contains a lot of iron. If you smelt it, you can obtain some refined iron! In order to collect the [cloud trapping fine iron], you need to use the black stones in the valley. When the cloud energy flows down, you can use a special technique to extract the cloud energy and absorb it into the black stone. After that, you can use your Zhen Qi to refine it and you will be able to obtain the [cloud trapping fine iron]."

The explanation was clear, and Lin Yi understood immediately.

So this was how the cloud trapping fine iron came about. No wonder the map said to use Blackstone to collect the cloud trapping fine iron. With such a vague description, it would be strange if someone who didn't understand it could figure it out!

"Thank you for your explanation! In that case, the cloud-trapping fine iron was actually very easy to collect? Wouldn't the number be quite high?"

Lin Yi thanked him with a smile and asked two more questions.

"Brother Lin, you are wrong. The cloud trapping fine iron is not as easy to collect as you think. The time it takes for the clouds to flow back varies. It is very difficult to extract enough clouds in a short period of time and send them into the black stone. The chances of failure are extremely high!"

"If it takes a long time, it's easier to extract, but it's also a very difficult step to condense. Even if there's enough cloud Qi, it's easy to fail if you're unlucky!"

"It's not an exaggeration to say that two or three out of ten people in the valley can succeed in one cloud reversal. That's already a very high ratio."

The trainee saw that Lin Yi was an easy person to talk to, and so he spoke without holding back.

"So there was such a situation. If you didn't tell me, I really wouldn't know."

Lin Yi was surprised, but he was actually thinking that this was how fights happened, right?

It was foreseeable that after the first round of gathering, those who thought they were strong would start to fight for the cloud trapping fine iron!

Even though it was only one round of harvesting, according to this person's success rate, there should be at least one or two hundred units of cloud trapping fine iron. As long as they could snatch some and reach the cut-off point, there would probably be people who would choose to leave the valley.

"This is just a small matter, brother Lin can just ask anyone and they'll tell you."

The trainee waved his hand and lowered his voice. "However, there's something I have to remind brother Lin. Even though I've only heard of it, there's no harm in being careful. It's always good to be more cautious."

Lin Yi chuckled to himself at the guy's "I'm only telling you because of you" face. He gave him an "I appreciate it" look, signaling him to continue.

"It's like this, I've heard that the greatest danger in the Xi n Valley is when the cloud Qi flows backwards into the valley, so one must be extremely careful when collecting the Xi n essence iron. Many people have fallen in the Xi n Valley because of this reason! It's also because of this that the production of the cloud-trapping fine iron is not considered high. With the time and strength to do so, it's better to do other things, and the harvest will only be more. "

The guy received Lin Yi's gaze and was in a good mood. As long as Lin Yi appreciated it, he felt that he didn't waste his breath.

Chapter 6483 Failed Attempt At Instigating A Rebellion

"What kind of danger is it? are there any signs?"

Lin Yi was very interested in this-he always wanted to get as much information as possible on unknown risks like this to avoid any losses.

Especially now that he had Shangguan LAN 'er and yang qianxue, two girls who were not very strong, he had to be even more careful.

"I really don't know about that. Those who really experienced that kind of danger are already dead. Those who can escape unscathed are basically the lucky ones who didn't see the details of the matter! That's why there's a legend saying that anyone who knows of the dangers of the valley is a dead man!"

This guy had a talent for telling horror stories. With just two sentences, he had rendered the atmosphere very gloomy.

"Haha, then it's better if we don't know this secret!"

Lin Yi's mouth twitched as he replied casually. He then said goodbye and went back to his place.

He wouldn't get any more useful information even if he continued to ask. Those rumors were useless.

"Boss Lin Yi, do you really think he's telling the truth?"

Leng rufeng asked Lin Yi telepathically.

They weren't far from each other, and Lin Yi and the others didn't hide their conversation, so they could hear what they were saying.

"I don't think it's fake. It's just that it's hard to determine whether it's true or not when it comes to danger! Perhaps when the cloud Qi recedes, some unknown danger will really appear. All of you should be careful when the time comes. "

Lin Yi smiled as he looked at the three.

"We'll be careful. "

Leng rufeng and the others looked at each other and nodded in agreement.

"Now that we know how to collect the iron, let's go to a place with fewer people and find Xue Peng. We don't want him to run away with enough iron before we can collect enough."

Lin Yi said this because he felt that there was a problem with his plan. On the other hand, the spirit beasts that were sent out had already found Xue Peng's traces.

Since they had found Xue Peng, they had to guard him in case he ran away!

In any case, as long as he was in the Xi n Valley, he would be able to collect the iron. Perhaps Xue Peng's current location was more suitable.

"Good! We'll find Xue Peng!"

Leng rufeng nodded immediately. He was quite supportive of this suggestion. As long as Lin Yi agreed, he would kill Xue Peng immediately.

Yang qianxue and Shangguan LAN 'er naturally had no objections to this, as they were both following the lead of their beloved.

The four of them easily passed through most of the area in the valley, directly arriving at the core of the valley.

There was a bottomless crack here, about a thousand feet long, narrow on both ends, wide in the middle, shaped like a spindle, the widest part reaching about three hundred feet.

Lin Yi realized that the stronger candidates were all gathered in this area!

In addition to Xue Peng, there was also Wang shiqing, a girl with nine points, and more than 20 students with eight points.

The spirit beast would only send back information about Xue Peng, so Lin Yi didn't know that there were so many people gathered here!

Xue Peng, in particular, was with Wang shiqing and the other guy with nine points of talent. It was obvious that they had formed an alliance.

As for the remaining twenty or so students with eight points in talent, they were basically all surrounding the three of them, like stars surrounding the moon.

There was no need to ask to know that this group of people was preparing to work together to collect the cloud trapping fine iron first, then go out and snatch the other people's cloud trapping fine iron.

With their strength, other than Lin Yi's small group, they could really sweep away all the other teams!

"Boss, these people seem to be in cahoots. If they want to help Xue Peng, should we kill them all?"

Leng rufeng glanced at the so-called geniuses coldly and asked Lin Yi.

To be honest, he really didn't take these people seriously!

If his Saber Force reached large success, it could form a world of its own. Although it wasn't that powerful now, it could still envelop an area without a problem. In other words, he wasn't afraid of a group battle at all. His Saber Force could attack a group!

Since Xue Peng dared to lay his hands on Jiang He hai, Leng rufeng would never let him off. If anyone wanted to help Xue Peng, Leng rufeng would not mind sending them back!

"I'm afraid not. That little girl is my friend's sister. I can't bully her for his sake!"

Lin Yi shook his head with a bitter smile. He was unlucky to have met Wang shiqing this time. "But other than Wang shiqing, I don't care about the others. If they want to help Xue Peng, then they'll have to die with him."

Leng rufeng's eyes lit up when he received Lin Yi's message.

It was fine to let Wang shiqing go. To be honest, he couldn't bear to deal with this little girl, but this was the best.

"Let's wait for the first round of cloud Qi to reverse before we make our move. At least let them help us collect some of the cloud trapping refined iron first. "

Lin Yi didn't make a move, he just continued talking.

Leng rufeng agreed with him. It would be too easy on him to kill Xue Peng just like that. It would be better to let him do the hard work first.

"Big brother Lin Yi, you guys are here to collect the iron too? Do you want us to go together?"

Wang shiqing skipped over, looking at Lin Yi with an innocent face.

Lin Yi's eyebrows twitched. He knew that the girl wasn't as innocent as she looked, but he couldn't say anything for Wang Shiyang's sake.

"No need, we're used to working with our own people. But if you're willing, you can join us, and it won't be a problem for us to bring you along."

Lin Yi smiled faintly. While rejecting Wang shiqing's offer, he wanted to get her on his side as well-that way, he'd have less resistance against Xue Peng.

"If only big brother had come earlier, then I would have been able to join big brother's team. It's a pity that we've already completed the team formation, I can't go back on my word."

Wang shiqing blinked her big eyes as if she really was in a difficult position. Lin Yi didn't know what she was thinking.

"Little girl, you're so cute. What's the point of hanging out with those people? Why don't you come over to our side? the big Sisters will play with you!"

Shangguan LAN 'er had a good impression of this little girl. A few years ago, she was also a cute little girl. Now that she had grown up, she naturally liked Wang shiqing, who had the same attribute as her.

Chapter 6484 Refining Refined Iron

Yang qianxue, who had never seen Wang shiqing's power before, joined Shangguan LAN 'er in teasing her.

Lin Yi laughed to himself. Wang shiqing might be young, but she was definitely mature. At least, she was much more powerful than Shangguan LAN 'er. She must be very unhappy to be teased by the two girls.

Perhaps this little girl was roaring in her heart, 'I'm just pretending to be innocent and stupid, not really silly and sweet. You two silly women, get off me ...'

Lin Yi guessed mischievously, and his sharp eyes noticed that Wang shiqing's pretty eyebrows twitched a few times, as if she had reached the limit of her patience!

However, she still kept an innocent smile on her face and politely exchanged a few words with Shangguan LAN 'er and Shangguan Yunyang before leaving.

"The two sisters are really nice. It's a pity that I've already promised the brother over there, so I can't go back on my word. Mom and dad have always taught me that one must keep one's promise, so I'll have to go first! If there's a chance in the future, you two sisters must bring Xiao Qing along to play!"

Wang shiqing had a regretful expression on her face, and she waved her too arms at them with great force.

Lin Yi was starting to doubt if he'd made a mistake in his understanding of the girl-was this a preconceived bias?

Such a cute little loli, she couldn't be that scheming, right?

At least her brother Wang Shiyang was a very reliable and bright boy!

However, Lin Yi's spirit sense caught a trace of impatience and disdain on Wang shiqing's face when she turned to leave, and his opinion of her was confirmed!

This little girl's schemes were so deep. Unfortunately, she was still a little young and could not completely hide her emotions. Unconsciously, there would always be some small details that revealed what she was thinking.

"She's really a little demon. She's talented, scheming, and has a good family background. She'll definitely be someone not to be underestimated in the future. I don't know if it's a blessing or a curse for Wang Shiyang to have such a sister! We have to find a chance to save that guy as soon as possible, in case this little girl becomes stronger than her brother and then looks down on her brother. "

Lin Yi shook his head and decided to keep his distance from this little girl.

He couldn't hit her, he couldn't scold her, and if he wasn't careful, he might even fall into her trap. If he didn't respect her, he wouldn't be able to go forward and court death.

Xue Peng's men weren't surprised to see Wang shiqing return alone without any gains.

As for Lin Yi's group's arrival, they had already assumed that they were qualified to get a share of the loot, so no one said anything more. After all, strength was everything here.

Of all the people here, only Xue Peng looked at Lin Yi with a hint of madness in his eyes.

He still didn't know that Lin Yi already knew about his plans against Qin Yue and Jiang He hai. Otherwise, he would've already gotten everyone to strike first.

Xue Peng's thoughts were similar to Lin Yi 's-he wanted to wait for the clouds to retreat and collect the iron before making his move.

This way, Lin Yi's group's cloud trapping iron was the bait to lure his companions to attack Lin Yi and the others!

These people wouldn't listen to Xue Peng's orders to attack Lin Yi if there weren't enough benefits. Only with enough cloud-trapping iron would they be able to fight Lin Yi at all costs.

It was a pity that Xue Peng didn't learn from his failure and didn't investigate Lin Yi's group's strength. He thought that the people around him were enough to deal with Lin Yi and his group, which was a big mistake!

The two sides were divided into two distinct groups, each occupying a position on both ends of the crack, temporarily maintaining a posture of not interfering with each other.

When the others saw the situation here from afar, they were also very tactful and did not come over.

No one was stupid. It might be easier to collect the cloud trapping fine iron here, but it was also easier to be robbed by both sides. When one's strength was inferior, it was better to hide away.

After waiting for more than two hours, a strong fluctuation suddenly came from the crack. The wind and clouds in the sky above began to surge, and a huge vortex slowly formed.

"They're here! Prepare to harvest!"

The people on Xue Peng's side stood up, and so did Lin Yi's side.

The fluctuations in the crack became more and more intense, and a powerful suction force soared into the sky. The clouds above suddenly poured down like a waterfall!

However, more than 70% of them had entered the crack, while the remaining 30% had dispersed and covered the entire Xi n Valley!

In this way, people in other parts of the valley could also collect cloud Qi to condense the trapping cloud refined iron.

"Hurry up and collect the clouds!"

In fact, there was no need for anyone to say anything. Everyone had already started to use their true energy to extract the clouds that fell from the sky.

This was completely different from the clouds in the sky. It seemed that due to the suction force of the rift, there were some subtle changes during the descent, which allowed it to combine with the black stones in the valley to form the cloud trapping refined iron.

Lin Yi had already guessed this-if he'd flown into the clouds with the Black Rock, he'd have as much cloud-trapping iron as he wanted!

After grabbing the first cloud, Lin Yi felt a strange fluctuation within it. This fluctuation was given to the cloud by the rift.

Only by producing this fluctuation could the clouds here become the cloud-trapping refined iron!

"What a heavy cloud. It's not something an ordinary person can handle. No wonder the production of the cloud trapping fine iron is so low. It's not easy to fuse such a heavy cloud into the black stone."

Lin Yi sighed to himself before sending the cloud Qi into the black Rock and starting to make his first piece of cloud-trapping fine iron.

This was also thanks to Lin Yi's powerful strength and spiritual sense, allowing him to extract the clouds so easily and happily.

Shangguan LAN 'er and yang qianxue, on the other hand, were having a hard time. Leng rufeng was slightly better off, but he was not as relaxed as Lin Yi.

On the other side, the other trainees were also trying their best to extract the cloud energy. Even if they had made up their minds to snatch other people's cloud energy, they had to at least get some for themselves first!

Otherwise, what if they couldn't get anything since they didn't even have a backup?

"I've finished one! Continue!"

Lin Yi smiled. The first portion of the iron was done.

The fist-sized black stone had become the size of a duck's egg after being refined. Its color had also become grayish-white, and there were faint clouds circulating on it. The quality was quite good.

At this time, most of the people were still extracting the cloud Qi into the black stone and had not started to condense it. Only Leng rufeng, Xue Peng, and a few other geniuses with 90% talent were slightly faster in their progress.

Chapter 6485 All The Work In Vain?

Lin Yi glanced at the situation and started on the second set of iron. It was always good to get more.

At this moment, a change occurred!

Suddenly, several hundred small cloud beasts rushed out of the clouds. It was unknown what species they were, but they were extremely fast.

After choosing their targets, they charged at the students who were extracting the clouds. Twelve cloud beasts, including Lin Yi 's, flew over.

Most of the small cloud beasts scattered to other parts of the valley to deal with the other students who were extracting the cloud energy.

However, in terms of the corresponding number, it was far less than the number of people in the rift!

On the other side, it was probably three people against one, while on this side, it was one person against three.

"Is this the danger of the fallen Cloud Valley? It doesn't seem to be that mysterious!"

Lin Yi was a little surprised. These cloud beasts were fast, but their attacks weren't too strong. They were at most at the peak of xuansheng.

To the students in the outer circle, the cloud beasts were already considered dangerous. However, to the genius students at the edge of the crack, it was not impossible for them to fight against three of them.

The only thing he had to worry about was that after being disturbed by the little cloud Beast, it would not be easy to continue to condense the cloud trapping fine iron.

"Form a defensive formation. The rest of you, continue!"

On Xue Peng's side, the 90% genius who hadn't fought with Lin Yi before started to command the nine people outside to form a battle formation to defend against the cloud beasts.

The rest of the people continued to refine the cloud-trapping fine iron, unaffected.

"This fellow is calm and collected in the face of danger. He does have the air of a general. His name is Liang Ling Chen, right?"

Lin Yi casually waved out a few palm strikes of the raging fire Eight Trigrams palm, scattering the twelve cloud beasts that were charging at him. He also took some time to pay attention to Xue Peng's situation.

As for the last one, Liang Ling Chen, who had a talent score of nine, Lin Yi felt that she did have some real skills!

At this moment, there were more than 70 cloud beasts surrounding them. However, under Liang Ling Chen's command, they were blocked by the battle formation of nine people.

"You're silly! Isn't it better to have more people to refine the cloud sinking fine iron? how could I forget about this?"

Lin Yi smacked his forehead and quickly used the thousand changes of wood and forest.

What were a few hundred little cloud beasts?

I'll make a few hundred Lin Yi clones and get more cloud-trapping iron at once!

The twelve cloud beasts that were scattered by Lin Yi quickly gathered back together, but the reborn cloud beasts seemed to have fallen into a daze after seeing hundreds of identical Lin Yi's picking up stones and absorbing the cloud energy.

This ... This ... Isn't this a little shameless?

Liang Ling Chen was also paying attention to Lin Yi's movements, and when she saw so many Lin Yi's appear, she was a little dumbfounded!

Even when he was commanding, he had a slight pause, almost causing the battle formation formed by nine people to completely collapse. Fortunately, he had realized it earlier and quickly saved it.

However, seeing how Lin Yi's clone was able to extract the cloud Qi and form the iron so easily, Liang Ling Chen's heart couldn't calm down.

Where did this perverted monster come from?

Could the cloud-trapping fine iron be made like this?

His efficiency alone was faster than all the people who came to participate in the assessment put together, right?

Liang Ling Chen couldn't think of anything else for the time being, but she knew that Lin Yi would never run out of spirit Jade!

If he could produce so much cloud trapping fine iron at once, why would he be afraid of not having enough spirit Jade flowers?

This Valley was Lin Yi's money bag!

Not to mention Liang Ling Chen's shock, after the cloud Beast noticed the abnormality on Lin Yi's side, it immediately went crazy and started attacking.

Unfortunately, Lin Yi's clones weren't weak either. They had no problem dealing with a xuansheng stage cultivator, but twelve cloud beasts weren't enough.

Suddenly, more cloud beasts flew out of the pillar of cloud!

Their numbers were two to three times more than before-they were going to completely suppress Lin Yi's clone army!

"Ha ... It seems like I've gone a little too far!"

Lin Yi subconsciously scratched the back of his head. There were almost a thousand cloud beasts here, right? They were all coming for him. Although none of them were stronger than the mysterious Ascension stage, their numbers were still a threat to him.

In contrast, the pillar of cloud Qi that entered the rift instantly shrank a lot, as if a lot of cloud Qi had been consumed in order to separate so many cloud beasts.

To be honest, Lin Yi wondered if there was something wrong with the crack. How could it release the cloud beasts to stop others from stealing the cloud Qi?

The most annoying thing was that these little things couldn't be killed and could immediately recover after being scattered. This was equivalent to facing an undead army that couldn't be killed!

Lin Yi's clones weren't weak, but they still needed pure Qi to maintain themselves. They'd just disappear after being hit.

If he wanted to recover, he'd have to use the thousand forest illusions again, and that put him at a disadvantage.

"Hehe ... It seems like I really have to get serious!"

Lin Yi smiled faintly as the clone continued to absorb the clouds, while his main body used the fake Leng rufeng's blade Force!

The spiritual saber Qi began to move in all directions, shattering the little cloud beasts one by one. It didn't matter if you could reassemble it, I had more saber Qi, so I would just let you shatter it all the time!

In an instant, the situation had reversed!

Without the cloud beast's interference, Lin Yi's clone's speed of cloud extraction increased.

However, at that moment, the cloud pillar suddenly disappeared. The fluctuations in the crack also completely subsided, and the cloud beasts also turned into mist and drifted away.

Without the fluctuation from the crack, the dispersed clouds instantly returned to their normal state and could no longer merge into the black stone.

The clouds in the black stone that had not been completely condensed also began to dissipate, turning into ordinary water vapor and disappearing without a trace.

The hundreds of Lin Yi's clones were all stunned. What was going on?

He was about to get hundreds of pieces of the cloud trapping fine iron, but all his efforts were in vain!

Was it all in vain?

Did he have to be so scamming?

Fortunately, Leng rufeng, Shangguan LAN 'er and yang qianxue had already entered the refining stage and were not affected. They managed to keep the cloud-trapping fine iron in their hands and did not come back empty-handed.

On the other side, Xue Peng's team was in a similar situation.

Those who were in charge of the battle formation didn't have the chance to complete the refining process, while those who were responsible for collecting the cloud Qi had barely completed the refining process. In the end, they got 13 portions of cloud trapping fine iron, which was considered good enough.

As for the trainees outside, there was no need to ask to know that 99% of them had failed. Because the clouds in the outer area were thin to begin with, and with the interference of the little cloud beasts, it was almost impossible to complete in such a short time.

Chapter 6486 If You Don't Have It, Go Rob

Even someone in Xue Peng's team had failed, let alone those outside. There was no cloud-trapping refined iron to Rob!

"What bad luck! I wanted to do something big, but I failed at the last moment!"

Lin Yi canceled his clones and turned to Shangguan LAN 'er and Leng rufeng, shrugging and smiling helplessly.

"Boss, we each have one serving of the cloud-trapping fine iron. It's obviously not enough to meet the cut-off point. However, the other side has quite a lot of it. It should be enough if we can snatch it, right?"

Leng rufeng squinted at Xue Peng and the others. Snatching things was just a side goal. His main goal was to deal with Xue Peng.

"That's right, then let's not be polite!"

Lin Yi smiled faintly and walked towards Xue Peng.

Liang Ling Chen sensed that Lin Yi, Leng rufeng, and the others were not friendly and immediately ordered everyone to form a defensive formation.

Originally, they should have been the ones to find trouble first, but now their momentum had weakened.

Even he himself felt a little strange. Things shouldn't have been like this!

Shouldn't Lin Yi and the others be more afraid?

"Big brother Lin Yi, you guys want to join us? Welcome! If we gather them together, we'll definitely be able to complete the mission quickly. "

Wang shiqing blinked her big eyes, as if she didn't feel Lin Yi and Leng rufeng's murderous intent. She greeted them with a sweet smile.

"Xiao Qing, we want to borrow some of the iron. It's easy for you to collect it, so it shouldn't be a problem, right?"

Lin Yi gave her a warm smile-if the girl wanted to put on an act, then let's do it together.

"But we don't have enough, how can we lend it to big brother? Only half of little Qing's share was for her. The other half had to be distributed to the defending partners! Otherwise, I can lend it to big brother and the sisters. "

Wang shiqing reached out her hand to hold her own cloud-trapping iron, looking at Lin Yi innocently as if she was sure that Lin Yi wouldn't take it from her.

Fine, Lin Yi really wouldn't take her things!

Although he knew that this little girl wasn't naive at all and was even a little Black-bellied, he really couldn't bear to snatch her away.

"Boss, you and Xiao Qing can go and chat. I'll talk to Xue Peng and the others."

Leng rufeng didn't have the patience to listen to Lin Yi and Wang shiqing's nonsense. In order to avoid making things difficult for Lin Yi, he wanted to go around the two and find Xue Peng.

Lin Yi didn't mind, naturally, and pulled Wang shiqing to the side. The girl wanted to fight back, but she couldn't fight Lin Yi without using a formation.

"Xue Peng, hand over your and your companion's cloud sinking fine iron, and I will consider giving you a quick death."

Leng rufeng took a big step forward and slowly drew out his long saber. He pointed it at the ashen-faced Xue Peng.

"Leng rufeng, aren't you being a little too arrogant? Your strength isn't that great, but your tone isn't small!"

Liang Ling Chen was extremely unhappy!

Leng rufeng's words made it sound as if Xue Peng was the leader of the team. However, in reality, this team was formed by three people with nine points of talent.

"It's none of your business, just stand aside!"

Leng rufeng glanced at Liang Ling Chen and said indifferently,"

His original intention was that Liang Ling Chen did not have any cloud trapping refined iron and did not want to cause trouble for him. As long as she did not help Xue Peng, everything would be fine. However, in Liang Ling Chen's ears, it sounded like Leng rufeng was showing his disdain.

"You don't know your place! Kill him!"

Liang Ling Chen snorted coldly. As one of the top students in this batch of students, he had his own pride. Even if Leng rufeng was a genius with a talent score of nine, so what?

The people in the battle formation raised their weapons and charged towards Leng rufeng. Under Liang Ling Chen's command, the power of a casual attack from this battle formation was comparable to the attack of an expert in the mountain split stage.

The long saber in Leng rufeng's hand trembled. His saber momentum was natural, and it enveloped all his opponents.

The flying snowflakes caused the temperature within the range of the blade to drop. The enemy's battle formation was delayed by this cold air.

"So strong! You indeed have the right to be arrogant!"

Liang Ling Chen's heart skipped a beat. As the saying goes, the moment an expert makes a move, one will know if he is an expert or not!

He himself had the ability to fight with an early stage mountain split expert. However, he was still far from Leng rufeng's level.

Leng rufeng's posture was straight and his long saber was simply slashed down. The extremely sharp saber Qi crisscrossed as if it was going to tear the space apart.

The way he used his blade was completely different from Lin Yi 's. It was more powerful and overbearing, as if it could cut through anything that stood in its way.

The battle formation that Liang Ling Chen was commanding, in the face of such a sharp blade, seemed to be unable to withstand a single blow.

As soon as the two sides came into contact, the battle formation was cut open by the sword aura, and then it shook violently. While the operation was delayed, the combat power and defense also dropped sharply.

In the range of Leng rufeng's saber aura, such a situation was equivalent to a failure. Countless sharp saber Qi rushed into the battle formation, opening the flaws and cutting off the connection between everyone in the battle formation, causing their combat effectiveness to further decline!

Once the battle formation was broken, these geniuses with eight points of talent would not be Leng rufeng's match at all!

However, Leng rufeng's knife momentum was a sharp weapon in group battles. It did not matter how many people there were. As long as they were within this range, they would have to bear the same pressure.

"Xue Peng, do it!"

Liang Ling Chen's face turned extremely ugly. He never thought that the battle formation that he was in command of would be so vulnerable in front of Leng rufeng!

It could not even last for two breaths, let alone hit Leng rufeng. It was shattered into pieces.

At this moment, Liang Ling Chen knew that she and Xue Peng had to make a move!

These people had gathered together for the sake of the three of them. If the three of them did not stand up in a critical moment, this team would fall apart.

She couldn't count on Wang shiqing anymore. Her being able to keep Lin Yi busy was already her greatest help, and Liang Ling Chen was very satisfied with this!

Otherwise, if Lin Yi and Leng rufeng worked together, they would be in a worse situation.

After greeting them, Liang Ling Chen made the first move. His strength was not bad, and even though there was a huge gap between him and Leng rufeng, he could at least hold on for a while and not be defeated immediately.

As long as Xue Peng could keep up in time, the situation would not become too bad.

However, Xue Peng did not hear Liang Ling Chen's greeting at all. He was currently immersed in the fear in his heart!

This was because Leng rufeng's blade Force was exactly the same as the one Lin Yi had used to defeat him. If there was any difference, it was that Leng rufeng's blade Force was more violent and more powerful.

Seeing Leng rufeng's blade Force, Xue Peng felt as if he had entered a nightmare. His whole body turned cold, and his heart was even colder!

Lin Yi had him under control, and now there was Leng rufeng. This was killing him!

Chapter 6487 If It's So Dangerous, Just Give It To Me

On this side, Xue Peng did not move, but Liang Ling Chen was the one who suffered. After barely blocking a few blades, she could only retreat with all her might. If this continued, she would have to activate the transfer talisman to leave this place.

"Xue Peng, what the hell are you doing?"

Liang Ling Chen cursed at the dazed Xue Peng. This was a true stupid teammate, especially one who would cheat his own people at the most crucial moment! Next time, I won't ask him to form a team.

Leng rufeng's target was Xue Peng from the very beginning. Thus, he didn't chase after Ling Chen when she retreated. He let Ling Chen go and focused his blade energy on Xue Peng.

The other few who were within the range of the saber aura immediately felt their bodies relax. They were originally prepared to activate the teleportation array talisman, but now they could wait.

"Ah? I was a little distracted just now!"

Xue Peng was awoken by Liang Ling Chen's shout and hurriedly explained. He quickly raised his sword and went up to fight Leng rufeng.

He had also thought it through. If he didn't give it his all, he would probably be eliminated immediately. What was the point of going through so much trouble? Wasn't it all for the sake of getting into the divine refinement college?

If he failed at the last step, his family would not listen to his explanation.

Liang Ling Chen forcefully suppressed the anger in her chest. She knew that this wasn't the time to be calculative with Xue Peng. Seeing that he had already stepped forward to fight, she also followed after him, looking at the big picture.

The two of them joined hands and finally gathered the few companions within the range of the saber aura. Everyone helped each other and at least had some ability to protect themselves.

Leng rufeng sneered. He had basically achieved his goal by enveloping Xue Peng in his saber aura. He would not mind if the others wanted to be eliminated with him.

The cold Qi and ice grew colder and colder. Under the cover of the ice and snow, the saber Qi came and went without a trace, and its power increased by a few degrees!

Liang Ling Chen felt that if she were to face Leng rufeng alone, she would probably be dead by now!

However, even with Xue Peng's help, there was no possibility of victory.

"Retreat! Get out of the range of his blade power and reorganize the battle formation!"

At this moment, Liang Ling Chen was still able to maintain her calm, commanding everyone to retreat as they fought. She hoped that there would be a chance for them to regroup, and as long as they had a chance to catch their breath, they might be able to turn the situation around.

Unfortunately, how could Leng rufeng give them a chance to catch their breath?

His blade aura was getting sharper and sharper, and the blade Qi attacks were already starting to hurt Liang Ling Chen's team members. Before they could even leave the range of his blade aura, a few of them would probably fall.

The fear in Xue Peng's heart was getting more and more obvious. Being within the range of the knife momentum, the memory of the terror Lin Yi planted in him was getting clearer and clearer, so he couldn't use his full strength!

Seeing that they were at an absolute disadvantage, he couldn't help but call for Wang shiqing to help, ""Wang shiqing, hurry up and help!"

Liang lingchen couldn't help but roll her eyes. If Wang shiqing could make a move, would she have waited until now?

She and Lin Yi were at a stalemate-if Wang shiqing made a move, would Lin Yi just stand there and watch?

Even though Liang Ling Chen had never seen Lin Yi in action before, anyone with eyes could tell that Leng rufeng had always been like Lin Yi's follower!

To be able to make a genius like Leng rufeng willing to be his follower, Lin Yi must be at least stronger than him.

They couldn't even handle one Leng rufeng, and now they had to deal with Lin Yi.

"Xiao Qing, you're just a child, so you shouldn't interfere in their Affairs, right? Especially since you're such a cute girl, fighting and killing doesn't suit your temperament. It's better to chat with big brother, right?"

Lin Yi smiled faintly and spoke to Wang shiqing as if he was trying to trick a child. She was a child, but she wasn't easy to trick.

"Big brother, fighting and killing isn't good for anyone, right? Why don't you tell them to stop, and we can have a good talk? Can't you be a little gentler in front of a girl like me?"

Wang shiqing blinked innocently at Lin Yi with her big innocent eyes. Any other person with a bigger heart would've been melted by this little girl's cuteness.

Lin Yi, however, had a heart and wouldn't let it overflow. He spread out his hands, "They like to fight and kill, so we shouldn't get involved. It's good to chat like this. Don't you think so?"

Wang shiqing turned to look at Xue Peng and calculated in her mind. If she were to make a move, what would her chances of winning be?

If Lin Yi and Leng rufeng were to succeed, how much loss would they suffer?

To be honest, Wang shiqing was more inclined to give the iron to Lin Yi. These people were too strong, and it might be a good thing if she could use the iron to send them away!

After all, this was only their first day in the valley. As long as they had enough time, it wouldn't be too hard to collect the iron. Besides, without Lin Yi and Leng rufeng, everyone else would be their target.

The problem was that if they didn't do anything, it was unknown whether this temporary team would still exist. Wang shiqing didn't want to take the risk.

The only choice left was to protect the team's integrity. At most, they would hand over the cloud trapping fine iron when they were no match for the other party. At that time, they would be inferior to the other party in terms of skill, and no one would have any strong psychological rejection.

"Lin Yi bro, I think it's nice to talk like this too, but my parents have taught me since I was young that I can't abandon my friends, or I'll be abandoned by them, so ... I had to help, please don't blame me!"

Wang shiqing's big eyes were watery, and she looked like she had been wronged. It was heartbreaking to see her like this.

However, as she was speaking, she had secretly activated an attack talisman in her hand. Five consecutive attacks at the peak of the late stage of mountain split instantly enveloped Leng rufeng in all directions that he could Dodge!

How was this helping them out? He clearly wanted Leng rufeng's life!

Why was this little girl not like her brother, Wang Shiyang, at all?

Not only was he Black-bellied, but his attacks were also extremely ruthless!

However, when Wang Shiyang appeared, he had also killed many spirit beast experts. It seemed that his methods were not gentle either!

Thinking about it like that, Lin Yi felt that these two were indeed brother and sister, biological!

There was no need to suspect anything.

Lin Yi's body flashed as he activated his super butterfly micro steps, appearing before the five mountain-opening attacks!

The wild fire Eight Trigram palm was casually thrown out. With a loud boom, it completely annihilated the five attacks that were at the peak of the late stage of mountain split.

"It's not appropriate for a little girl to play with such a dangerous thing. Let big brother keep it for you. "

Lin Yi dispelled the five attacks and reappeared beside Wang shiqing like a ghost, snatching the attack talisman from her hand!

If he was right, this talisman could be used three more times, although it was useless against Lin Yi.

Chapter 6488 You Won't Even Know How You Died

"Lin Yi big bro, why are you taking my things? You even want to snatch a child's things!"

Wang shiqing blinked her big eyes, and her eyes were filled with tears.

Even Lin Yi felt a little guilty when he saw that pitiful look.

If it was Shangguan LAN 'er, she would've given it back to Wang shiqing without a second thought. Luckily, Lin Yi wasn't Shangguan LAN' er, and he wasn't fooled by the little girl's tears.

However, it still felt a little weird. It was like a strange uncle snatching a lollipop from a little girl ...

"This thing is too dangerous for a little girl. I'll keep it for you. If you have any more, take them out."

Lin Yi decided to play his weird uncle role to the end-not just this talisman, but also the other talismans the girl had.

Wang shiqing quickly wiped her tears away and covered her storage bag with her chubby hands. She looked at Lin Yi with a face full of vigilance and shook her head, "There's nothing else, there's really nothing else!"

It would be a wonder if he didn't!

Lin Yi looked at Wang shiqing's acting, amused. Did she think that he wouldn't try to rob her just because she was acting like a kid?

Fine, Lin Yi wasn't thick-skinned enough to steal it!

Now that Wang shiqing was stopped by Lin Yi, Liang Ling Chen and Xue Peng were in an even more difficult situation.

However, after seeing Lin Yi instantly disperse five peak late mountain split-stage attacks, they all hoped that Wang shiqing could hold Lin Yi back and not let him affect the battle again!

Other than those who were enveloped by Leng rufeng's saber aura, there were a few people with 80% talent who did not join the battle.

Seeing that the situation was not in their favor, two of them decided to get up to no good. They sneaked around the area and prepared to take Shangguan LAN 'er and yang qianxue hostage.

They could already tell that although Shangguan LAN 'er was talented, she was very weak, and yang qianxue was about the same!

These two girls were Lin Yi and Leng rufeng's weakness. If he could catch them, he might be able to turn the situation around.

These two had a good eye for things, but they were underestimating Lin Yi a little too much!

In the valley, Lin Yi's spirit sense's range was severely restricted, but it was more than enough to cover everyone's position.

Lin Yi knew what the two were up to the moment they moved.

But Lin Yi didn't stop them, a cold glint in his eyes.

They wanted to lay a hand on Shangguan LAN 'er and yang qianxue? They should have prepared a coffin for themselves first!

Wang shiqing had been paying close attention to Lin Yi, and she understood what was going on when she saw the strange look in Lin Yi's eyes.

As a teammate, she should stop the two from acting rashly, but the girl was really Black-bellied, and the two of them might be able to distract Lin Yi.

If Lin Yi kept staring at her, she wouldn't be able to use the formation even if she had it!

At such a close distance, Lin Yi would take it away before she could activate it, so she needed someone to attract Lin Yi's attention.

The two idiots would do a good job at this, so Wang shiqing didn't stop them. She was looking forward to it, hoping that they could make a big scene to attract Lin Yi's attention.

"Little Qing, your eyes are rolling around. Are you thinking of some bad idea? Big brother is telling you, children shouldn't have such complicated thoughts, just obediently do what children should do!"

Lin Yi didn't pay attention to the two idiots who wanted to touch Shangguan LAN 'er, and continued to talk to Wang shiqing.

"Ah? No, I didn't! Xiaoqing was such an obedient girl, how could she have bad ideas? it must be Lin Yi bro who was always thinking of bad ideas. And you even want to snatch other people's things. "

Wang shiqing's eyes were wide open as she pouted her lips to show Lin Yi that she was angry.

But she still found it weird-why wasn't Lin Yi worried about the two girls at all? Or were the two of them actually hidden experts?

No matter what it was, the answer would be revealed soon.

The two guys who wanted to sneak attack were already close, and they both suddenly burst out, trying to capture Shangguan LAN 'er and Shangguan Yunyang.

Then, there was no then ...

Lin Yi didn't even need to move-two thick lightning bolts came at them, and the two fell to the ground, smoking.

After his lightning escape technique entered the third level of combining his body with lightning, Lin Yi's lightning bolts were much stronger!

Plus, Lin Yi's self-generated lightning and pure Qi could completely merge together to form new, stronger lightning arcs!

It was like a mixed pill fire bomb.

Those two unlucky bastards were sent to Lin Yi's door as practice.

"You killed them?"

Wang shiqing covered her mouth with a shocked expression, as if she had never seen anyone killed.

"Yeah, can't I kill him?"

Lin Yi's smile had a hint of coldness. Killing someone who dared to touch someone close to him was already a light punishment. He was already being merciful by not extracting their essence spirit and torturing them!

Ever since the assassin from hidden death sect announced that he was going to lay his hands on the people around Lin Yi, this had become Lin Yi's bottom line-anyone who touched it would die!

Wang shiqing suddenly went silent. She knew that it was useless to play any tricks in front of a cold and hard Lin Yi.

She didn't know why Lin Yi was being so nice to her, even giving her a handicap in the individual match, but she didn't want to bet that this situation would continue.

If it was during the individual battle, Wang shiqing wouldn't be convinced and wanted to prove that she wasn't any weaker than Lin Yi, but now she completely gave up on that thought!

Lin Yi's strength was too strong, and it was beyond the limit of what she could handle.

As the little princess of a family of talismans, Wang shiqing had many talismans with her.

However, using talismans required time, and Lin Yi's speed was terrifying. The lightning arc that killed the two of them almost ignored the obstruction of distance.

When the two of them died, they might not even know that they were struck by lightning, right? He really wouldn't even know how he died.

Wang shiqing knew that she couldn't activate the formation as fast as Lin Yi's lightning bolts.

If he couldn't even activate the defense talisman, wouldn't he only be able to wait for death?

On the other side, Leng rufeng's battle had also entered its final stage. He had completely gained the upper hand and was able to defeat Liang Ling Chen, Xue Peng, and the rest of the people.

It probably wouldn't take long to get rid of them all.

Chapter 6489 Sudden Change

At this moment, a change suddenly occurred. The crack beside them once again emitted strong fluctuations, and the sky once again surged with wind and clouds!

This time, the clouds in the nearby sky were stirred up, and quickly merged into the sky above the valley, forming a cloud vortex that was several times larger than the previous one.

"Big brother Lin Yi, the clouds are coming again. Tell them to stop and we'll gather the iron together. If there's enough, we can give you a portion."

Seeing this, Wang shiqing felt like she was holding onto a life-saving straw. She immediately asked Lin Yi to stop the fight.

It wouldn't be too embarrassing to admit defeat at this time. After all, the situation was already quite bad, and no one would think that Wang shiqing had done anything wrong.

"I don't think it's necessary. I think they are people who like to finish what they started. It's not right to give up halfway. We'd better not disturb them. As for gathering the cloud Qi, we can do it ourselves!"

Lin Yi smiled-he wasn't joking at all.

The main purpose of Leng rufeng's attack was to deal with Xue Peng. The cloud-trapping refined iron was just a passing move. Naturally, he would not give up at this time.

Wang shiqing's eyes were wide open, her face helpless. Lin Yi had used the forest's thousand changes again, and Lin Yi had appeared all around her. Anyone with tryphobia would've been scared to death.

"Big brother Lin Yi, you're already so good at gathering clouds to form the iron, you don't have to make things difficult for us anymore, do you?"

Wang shiqing didn't want to give up just like that. She still wanted to convince Lin Yi.

It was a pity that the hundreds of Lin Yi's only smiled at her at the same time before focusing on extracting the clouds.

Wang shiqing felt a little dizzy-hundreds of Lin Yis laughing at her at the same time made her faint. Perhaps she'd get a weird disease called laughing vertigo in the future?

Of course, the only thing that triggered it was Lin Yi's smile!

After trying to persuade her, Wang shiqing gritted her teeth and left the others to themselves. She decided to go with Lin Yi to refine the iron. After all, Xue Peng and Liang Ling Chen weren't her friends. They were just cooperating.

The most important thing was to complete her own mission and obtain enough points to pass the assessment. As for whether the others could pass or not, what did it have to do with her?

Xue Peng, Liang Ling Chen and the rest were almost in despair. Being suppressed by Leng rufeng like this, they could not even collect the herbs themselves, let alone snatch them from others. It seemed like they had no other choice but to use the teleportation talisman to leave.

The two guys who tried to ambush Shangguan LAN 'er were killed by Lin Yi without hesitation, and they knew that today's matter would not end well!

But at this moment, thousands of cloud beasts suddenly flew out of the cloud and pounced on everyone. Their numbers were much more than the first time, and they continued to pour out of the cloud.

This was clearly an Army of cloud beasts!

Lin Yi was shocked. He didn't expect this. Just as he was about to repeat the same trick, some of the small beasts started to merge together, and their strength increased greatly!

Most of them were at the peak of the late stage of mountain split. Although they were still no match for Lin Yi, their strength was enough to affect Leng rufeng and the others.

"The small beasts produced by the clouds can evolve on their own?"

Lin Yi was a little speechless-it seemed like the danger in the valley wasn't just for show. The opening stage cloud beasts that were the size of normal spirit beasts, other than Lin Yi, Leng rufeng, and a few others, were enough to wipe out all the other students.

What was even more terrifying was that Lin Yi didn't know if these cloud beasts could continue to evolve into earth-shattering or even sea-splitting stage.

And these were cloud beasts that couldn't be killed. If they really reached the earth-opening or sea-splitting stage, Lin Yi would have to run!

These cloud beasts did not care if Leng rufeng's target was Xue Peng or the cloud Qi. They had to eliminate everyone around the crack. Every living person was within their attack range.

Lin Yi was able to handle it with ease, but it wasn't so easy for his clones to extract the cloud Qi and refine the cloud-trapping iron.

Even if the cloud beasts in the mountain opening stage were scattered, their recovery speed was many times faster than before, and they recovered almost instantly.

Lin Yi's clones were more than enough to deal with the cloud beasts, but they were at a complete disadvantage against the mountain opening stage cloud beasts, and they were constantly being destroyed.

"This is really troublesome! Could it be that the trapping cloud Valley was like this? If that's the case, who among these students will be able to get enough cloud-trapping fine iron?"

Lin Yi used his lightning escape technique to move back and forth, constantly scattering the cloud beasts while thinking quickly.

He didn't have to worry about Shangguan LAN 'er and yang qianxue for the time being. Lin Yi's little spirit beast was basically there to protect them. After Leng rufeng's attack was interrupted, he could only give up on revenge and retreat to the two women's side to defend.

However, with the little spirit beast around, they were not in any danger. They even had the free time to extract the cloud Qi and refine the cloud-trapping fine iron.

Wang shiqing's face was pale. She had already used her defensive talisman. After looking around, she found that Shangguan LAN 'er and the others were very safe, so she ran to them.

"Xiao Qing, be a good girl. Don't have any thoughts that you shouldn't have. Otherwise, brother will be angry."

Lin Yi didn't stop Wang shiqing. He had to help her out for Wang Shiyang's sake, but he still warned her.

Wang shiqing was a girl with many thoughts in her mind. If she dared to lay a hand on Shangguan LAN 'er, Lin Yi would not let her off easily, even if she was Wang Shiyang's sister!

Hearing Lin Yi's warning, Wang shiqing's heart stopped.

She really did have that thought in mind-Shangguan LAN 'er and yang qianxue were obviously not Lin Yi, and they didn't have any precautions against her at all, so the chances of success were quite high.

But after seeing Lin Yi's methods, she gave up on that idea.

At the moment, Lin Yi was still friendly to her, and she really didn't need to offend such a powerful person for some irrelevant people.

Moreover, Lin Yi, Leng rufeng, and Shangguan LAN 'er were all geniuses with nine points in their talent. Even yang qianxue, who was the worst, was close to nine points. If he offended such a team with endless potential, he might bring trouble to his family.

"Lin Yi bro, why do you always misunderstand little Qing? Hmph, what a bad guy!"

Wang shiqing took the time to roll her eyes at Lin Yi and obediently ran into Shangguan LAN 'er and the others "defensive circle. Seeing that they were concentrating on extracting the cloud Qi to form the cloud-trapping iron, she also started to copy them.

Chapter 6490 More Dangerous Things

Shangguan LAN 'er and the others had applied for Feiyang college, while she had applied for Wushuang college, so the admission line was even higher. Since the possibility of snatching it was not high, it was more reliable to do it herself.

"Eh? This time, the clouds didn't enter the crack, but turned into cloud beasts to attack us?"

Lin Yi noticed this strange phenomenon after playing for a while.

No wonder the number of cloud beasts this time was so high that it made one's hair stand on end. After the fusion, there were even more cloud beasts during the mountain opening stage than the first time!

This could be called a Cloud Beast tide, and it was a Cloud Beast tide that would only increase and not decrease!

Even Lin Yi was starting to feel the strain.

The defensive circle formed by the little spirit beasts could barely protect themselves, and it was basically impossible to counterattack. There were simply too many cloud beasts, and they were killed and then resurrected. This simply made people feel despair.

Only those three girls were all big-hearted, and under such circumstances, they still extracted the clouds and condensed them.

The speed at which they harvested the cloud trapping fine iron was quite fast. In such a short time, they were already in the process of refining the second piece and they were almost done.

Lin Yi didn't have many clones left, and some of them were able to refine the cloud trapping iron. He took five or six of them, and with Shangguan LAN 'er and the others, it was more than enough for the recruitment.

On the other side, several people in Xue Peng's team had already used the teleportation talismans to return to the square, giving up on the assessment this time!

After all, if he failed this time, there would be a next time. If he lost his life, he would really have nothing left!

Those who could stay here were all the best of this batch of students. No one was willing to lose their bright future here.

Lin Yi was exhausted and didn't know what to do. At the critical moment, he needed the ghost to help, "senior ghost, come and help!"

To block these cloud beasts, there must be a powerful formation!

But with Lin Yi's skill in formations, he wasn't strong enough to set up a formation like this. He could only ask for help from the ghost.

"You're such a troublemaker. Trouble follows you wherever you go. Can't you just let me enjoy my old age?"

The damn thing mumbled as it walked out, very displeased with Lin Yi for interrupting its space formation flag research!

But even so, he still did what he should do.

"Senior ghost, it's not time for you to enjoy your old age yet! Wasn't it said that the capable did more work? You'll have to put in more effort and quickly help me set up the formation!"

Lin Yi smiled, not bothering to talk to the thing anymore. It was more important.

In order to buy some time and space, Lin Yi used the thousand forest transformation again, ordering his clones to sacrifice themselves to stop the cloud Beast tide.

Taking advantage of this opening, the ghostly thing quickly ordered Lin Yi to throw down formation flags and set up a simple level eight defense formation. It wasn't that he couldn't set up a higher level one, but time didn't allow it!

If they delayed any longer, the defensive circle formed by the little spirit beasts would soon be unable to hold on against the tide-like Army of cloud beasts.

If it wasn't for the fact that the cloud beasts hadn't appeared yet, the little spirit beast would have already been unable to hold on.

"Alright, do you still need me to help you set up a killing array or something?"

Even though the ghostly thing was not very satisfied with the level-eight defense array, time was short, and it was not easy.

"Not for now. Senior ghost, you can continue to enjoy your old age! I'll come to you for help if I need anything. "

Lin Yi joked as he started his plan.

The demonic thing laughed and cursed. He couldn't be bothered with Lin Yi. These cloud beasts weren't a threat to Lin Yi's life, anyway. He should continue to study his Space Array flags.

The level 8 array kept the cloud beasts out, and Lin Yi activated the thousand forest illusionary technique to its maximum. Then, all his clones started to absorb the cloud Qi!

He could already tell that the cloud beasts originated from the clouds. Because the crack didn't absorb the clouds, they all turned into cloud beasts to attack them.

Since that was the case, it was a good way to deal with the cloud beasts by extracting the cloud Qi and refining the cloud trapping fine iron!

Thinking back to the previous time, it seemed that Lin Yi's clone was also extracting the clouds too quickly, causing the entire cloud pillar to collapse and all the cloud beasts to disappear.

This time, Lin Yi didn't expect to make much of it-as long as they survived the cloud beasts, they could go to the teleportation point and return to the square. They had enough of it, anyway, and they'd reached the cut-off point.

One had to admit that Lin Yi's thinking was correct. After his clone started to extract the cloud Qi, the cloud beasts went crazy. Almost 90% of them started to attack Lin Yi's defensive formation.

If it weren't for the fact that this formation was of a decent grade and had been set up under the guidance of that damned thing, it probably wouldn't have been able to withstand their attacks.

With that, the pressure on the others was greatly reduced. At the same time, even Xue Peng and Liang Ling Chen heaved a sigh of relief. The few of them had almost given up, but they gritted their teeth and persevered. Otherwise, they would have lost all hope of entering the Academy.

The clouds in the sky were being sucked away at a speed visible to the naked eye. Lin Yi was going all out-if it weren't for the support of the Jade space, he'd be a dried-up corpse already!

"It's effective, it's really effective!"

Lin Yi was overjoyed when he saw the cloud beasts coming out slower and slower. He knew that his guess was correct, so he started extracting the clouds even more.

Unfortunately, after he had finished refining a batch of the cloud trapping fine iron, the cloud Qi pillar collapsed again. He did not have the chance to refine it again.

But this was already the best result. Lin Yi didn't think that he'd be able to make it successfully, and even get a few hundred more portions of cloud-trapping iron. It was an unexpected gain.

Wang shiqing's eyes turned red with greed at the amount of cloud-trapping refined iron. She thought about whether she should be thick-skinned enough to ask for some, but she wasn't sure if she would succeed!

If it was Shangguan LAN 'er, then there was a good chance, but it was hard to say for Lin Yi.

Before the girl could say anything, Lin Yi quickly kept the iron and wanted to tell everyone to leave.

The cloud beasts were gone, but Lin Yi had a bad feeling that something more dangerous was about to happen.

The Jade space would only alert Lin Yi the moment he was in danger, and the danger Sense he'd developed from his near-death experience wasn't as sharp and accurate as the Jade, but it was much more effective.

However, before Lin Yi could even open his mouth, the entire Valley started shaking!

Even someone as strong as Lin Yi couldn't stand straight after being caught off guard!

Those who were slightly weaker directly fell to the ground on their butts.
