

Bodyguard 6501

Chapter 6501 Xue Peng Resigns!

Of course, Vice Principal Wang only picked the top schools and a few of the lower-ranked schools to announce. There were less than 30 names in total, so the announcement was over very quickly.

As for the schools after that, they could go and look at the ranking on the stone tablet. Those who were ranked within the admission quota of their respective schools would be admitted, and those who were ranked after that could pack their luggage.

For a time, the atmosphere in the square was quite lively. Many of the admitted students were congratulating each other, and it could be considered lively.

After the admission, Deputy Dean Wang announced the student exchange between the divine refining college and the Feiyang college. In order to get Leng rufeng and yang qianxue, he had made an exception and recruited another candidate with eight points in talent after recruiting Xue Peng. He planned to exchange the candidate with the Feiyang college.

Originally, this guy with eight points of talent was not qualified to enter the divine refining college. He had to go back and wait for another year. He didn't expect to be exchanged to the Feiyang college. It was a good ending.

However, after Vice Dean Wang's announcement, Xue Peng suddenly stood up and bowed humbly to old man Wang and Zhang jinmiao. "Vice Dean Wang, Vice Dean Zhang, I originally didn't have any objections to this exchange, but I'm deeply dissatisfied with my performance this time. I feel that it's not yet time to enter the academy, so I want to go home and continue cultivating for a year. I'll take the assessment next year. I hope the two deans can help me."

Old man Wang's face suddenly sank. This Xue Peng was really bold. He actually dared to object to the exchange at this time. No, he wasn't opposing the exchange. He was going back on his word after deciding on the exchange. The circumstances were even worse!

On the other hand, Zhang jinmiao did not care much about this. It was true that Xue Peng was a genius with nine points of talent, but his strength was already at the great circle of black Ascension, which was much higher than Leng rufeng 's. However, he was still beaten up by Leng rufeng!

Therefore, Zhang jinmiao didn't really care if Xue Peng came to Feiyang college.

After seeing Lin Yi and Leng rufeng's talents, Zhang jinmiao's standards had become much higher.

Moreover, her own disciple, Shangguan LAN 'er, was also extremely talented. She was not strong now because she had just broken through to the xuansheng stage. Once her strength level increased, she would probably be far stronger than Xue Peng.

"Xue Peng, if you didn't want to trade, why didn't you say so earlier? Why do you have to bring it up now? do you think this Lord is easy to play with?"

Old man Wang's face was gloomy, completely different from his usual smiling face. He also began to address himself as "this Lord," displaying the aura of a superior.

"Deputy Dean Wang, you misunderstand! How could the students dare to play with the two deans? This was because it had always been a student's dream to enter the divine refinement college. However,

their current performance did not qualify them to enter the divine refinement college, nor did they qualify to enter the Feiyang college. In order to match up to them, they wanted to go home and continue their cultivation and come back next year! I hope the two deans can grant my wish. "

Xue Peng's heart trembled, and he quickly and humbly expressed that he had no intention of underestimating the two Vice Principals and the Academy.

However, what he said didn't change anything. If old man Wang determined Xue Peng to be like that, then he would be like that. There was no room for change.

"Say no more. Since you're not willing to exchange, there's no need for the divine refining college to accept you. Don't you want to go back and cultivate? No problem, you can go back! I can tell you very responsibly that from now on, the divine refinement college will no longer accept you. I wonder if the pride college and the peerless college will give you a chance?"

Old man Wang looked at Xue Peng indifferently, then turned to look at the two top schools.

"Deputy Dean Wang, if your divine refining college doesn't want someone, then our pride college definitely won't want someone, either. Otherwise, people will think that our pride college is picking up trash that you've thrown away. It won't be nice to say!"

The handsome middle-aged man from Pride Academy laughed lazily, showing his support for old man Wang.

If it was a genius with ten points, or someone like Lin Yi and Leng rufeng who weren't even ten points but were infinitely close to ten points, the pride Institute would, of course, be happy to have no one!

However, there was no need to offend the divine refining college because of Xue Peng, who was an ordinary nine-point talent.

With this kind of aptitude, he would only be an ordinary middle-tier student if he entered Pride Academy. He was not strong enough to carry the banner of the three top Academies, so one more or one less did not matter.

"It's the same for our peerless school. If we don't even fight with you for a genius like Lin Yi, the others won't interfere either. It doesn't matter if you fight or give up, we won't get involved,"

Wushuang College's words were beautiful, as long as they didn't offend old man Wang.

Xue Peng's face turned pale. He felt that he was being too tactful. Strictly speaking, the exchange had been completed, so he should be considered a member of the Feiyang college. If he had to offend someone, he should have offended the Feiyang college. Why did the three major colleges suddenly ban him?

This was a big problem!

If the college Alliance took their anger out on the Xue family, all the disciples of the Xue family would be blacklisted in the future, and he would become the sinner of the family!

"Al! "Originally, Feiyang college wouldn't mind taking in talents that the three top schools didn't want. Unfortunately, he was too ambitious and didn't care about the second-rate Feiyang college at all. He only wanted to apply to the three top schools! There's no other way, a small temple can't accommodate a great Bodhisattva, we can't afford to provide for such a genius. Old man Wang, we'll have to discuss this again later, so this exchange is off!"

Zhang jinmiao also made sarcastic remarks and stepped on him a few times.

She'd heard about Xue Peng's fight against Qin Yue and Jiang He, so she understood why Lin Yi and Leng rufeng wanted to trade Xue Peng.

This Xue Peng was pretty smart-he knew that it wouldn't be easy coming to Feiyang school, so he suggested going home and practicing before coming back next year to avoid Lin Yi's revenge. At the same time, he could continue trampling Jianghe and hai next year.

He didn't expect that his little scheme would anger old man Wang. This was the rhythm of his own death!

It would be a good thing if they could keep Leng rufeng and yang qianxue at Feiyang school, but Lin Yi didn't want to let Xue Peng go so easily. Zhang jinmiao was still trying to get him into Feiyang school.

Xue Peng's face turned paler and paler. After the top three schools, it was Feiyang school. If Feiyang school also announced that they would ban him, the second-top schools would follow suit!

After all, no one would offend the top three schools and the second-best school for Xue Peng!

This wasn't the main point. The main point was that if the Alliance of Academies secretly blocked the Xue family because of this, their family's days in the mystic Sea region would be almost over.

"Vice Principal Zhang, you're thinking too much. Feiyang school is the second best school under the top three schools. How could Xue Peng not like it? It was the Feiyang college who looked down on Xue Peng! Actually, I've admired the Feiyang college for a long time. Since the divine refinement college has transferred me to the Feiyang college, I'll definitely cultivate well at the Feiyang college and strive to improve myself and bring glory to the college!"

Xue Peng smiled and cupped his hands at Zhang jinmiao. Feiyang college was his last hope, and he couldn't let go.

Chapter 6502 The Academy And The Mountain

As long as he could get into the Feiyang college, old man Wang of the divine refining college would have nothing to say. The crisis this time could be resolved for the time being. The most important thing was that the crisis of the Xue family could be resolved.

He was the one who caused all this, and he couldn't blame anyone for it. He didn't care if Lin Yi would hate him for going to Feiyang school-he had to get through this first.

Besides, being able to enter the Feiyang school was much better than all the other schools banning him, right?

At most, he'd just avoid Lin Yi when he saw him in the school. What was the big deal?

"Xue Peng, you still have a bit of conscience to say that! Deputy Director Zhang, let's follow our previous agreement. Although there are some small twists and turns, it's not a big deal. "

Old man Wang smiled again and started to discuss with Zhang jinmiao.

If Xue Peng insisted on not going to the Feiyang college, the divine refining college might have to pay a higher price in order to get Leng rufeng. Fortunately, it was just a false alarm. Old man Wang was relieved.

"Alright, for the sake of Vice Dean Wang, I'll pretend that what happened just now never happened!"

Zhang jinmiao waved her hand as if she was forced to do so, and turned to give Lin Yi a look.

After this small interlude, the enrollment also entered its end.

Those reserve students who had become official students began to line up according to their respective Academies, waiting for the higher-ups of the Academy to bring them back to the Academy.

Lin Yi's side, including Xue Peng and the other exchange student, had a total of six people. He had originally planned to take in eight people, but he ended up missing two.

With that thought, Lin Yi's hatred for Xue Peng reached its very core. If it wasn't for this idiot, Jiang He and Qin Yue could've gotten into the Feiyang school because of the exchange. The school's higher-ups wouldn't have objected to it, either.

Of course, if Jiang He and hai Tianqing were still around, the exchange of Xue Peng would probably not have happened. There was a cause and there was an effect.

"Come, let's go back to the Academy."

Zhang jinmiao said goodbye to the people from the other schools and came over to take Lin Yi and the others to where the flying spirit beasts were.

Other than Zhang jinmiao, there were a few other teaching staff from Feiyang school, but because of Lin Yi and Shangguan LAN 'er, she had to come personally.

"Master, are there only six of us in this batch? Are there six students in a class in the Academy?"

After they got on the flying spirit beast, Shangguan LAN 'er began to ask questions.

"Of course it's more than that. Although there's only one class in your batch, there's an estimated number of twenty people. Other than the eight people that were originally planned to be recruited, there are twelve more who are already waiting in the Academy. However, because only six people have been accepted this time, the two extra places may be able to make up for it."

Zhang jinmiao had always been patient with Shangguan LAN 'er, so she explained it to her in detail.

"Yi, master, why aren't those people needed to participate in the assessment?"

Shangguan LAN 'er's eyes widened in confusion, as if she felt that it was a little unfair.

"Not bad! Because those people really didn't need to participate in the assessment! Although most of them are write-in students and don't enjoy the treatment and resources of official students, there are still two official students who are specially recruited!"

Zhang jinmiao didn't mind and continued to explain to Shangguan LAN 'er.

"Who are those two people? Did he have a powerful background? Was he very strong? Are they as strong as Lin Yi, Lil "bro?"

Shangguan LAN 'er's interest was piqued, and she threw out several questions in a row.

"They're alright. However, they're the nephews and Sons of the Lord of the Mountain region where the Academy is located. They're quite talented. Because the Lord of the Mountain region and the Academy have an agreement, there are two spots for students to enter the academy without taking the test every year!"

"Of course, these two official student slots can only be obtained by those with sufficient talent. If one doesn't have enough talent and is forced into the Academy, it won't look good if they are eliminated in the annual tournament!"

"As for strength, don't worry. No one under the opening stage of the school is as strong as your Lin Yi junior."

Zhang jinmiao didn't really care about this. She was a native of the mystic division Sea area and was also one of the higher-ups of the school. Her strength would naturally give her special privileges, and this was understandable,""Take you for example, LAN 'er. As my disciple, you don't need to take the assessment, but you passed it with your own strength. I'm very pleased with that!"

"Of course, it's all thanks to Lil" bro Lin Yi, otherwise I wouldn't even be at the xuansheng stage!"

Hearing her master say that Lin Yi was the best, Shangguan LAN 'er was so pleased that she almost blurted it out, "What's the mountain domain Lord's job? Was it very powerful? To have such a privilege."
"

It was a good thing Zhang jinmiao didn't ask further-Lin Yi had a lot of secrets, after all, and she was used to it! No matter what, Lin Yi was a student of the Feiyang school-the more secrets he had, the better.

"The region Lord of a Mountain region is the master of that mountain range, similar to the city Lord of a Yellow Sea region. Because more than 90% of the land in the mystic Sea region is made up of mountains, and all the academies are built in the mountains! Outside the academy, there are also many people who live in an area called the mountain region!"

Zhang jinmiao smiled slightly. "To the Academy, the mountain region is actually similar to the outer guards. That's why the mountain region's territory Lord is treated very well. Giving two official student slots is to maintain a good cooperative relationship between them."

In the same mountain range, there were many things that the Academy's people were not interested in doing. They could ask the mountain region Lord for help. Although they would have to pay a certain price, that was normal market behavior. In the end, the Academy would still benefit. Therefore, the cooperation between the two sides was still very pleasant.

"Master, I understand now. A domain lord of a mountain domain is similar to the city Lord of the Golden sea region, that Qian henduo who died, right? In that case, the position of the mountain region's territory Lord isn't that great!"

Shangguan LAN 'er seemed to only know Qian henduo, the city Lord of a yellow-class Sea region, and she only had a deep impression of him because of the big fight at the four Seas Pavilion.

It was precisely because Qian henduo's death didn't cause a single ripple and didn't affect flowing city in the slightest that the yellow-class sea route management Association easily changed a city Lord. This was why Shangguan LAN 'er felt that the yellow-class sea route management Association's city Lord was useless!

It wasn't a big deal that the mountain domain in the mystic Sea region was the same as a city Lord!

"Hehe, you can think of it that way. In fact, in the mystic division Sea area, the school is the strongest power. The mountain region Lord is indeed nothing. Against the school, especially the sub-top and top schools, the mountain region Lord is more like a vassal."

Zhang jinmiao smiled. It was good to let Shangguan LAN 'er understand these things first.

Chapter 6503 Thick-Skinned Senior Students

"Master, how does the region Lord of this Mountain region compare to those aristocratic families?"

Shangguan LAN 'er was born in an ancient aristocratic family, so she naturally cared more about aristocratic families.

Especially since Xue Peng was from a Mystic division sea family, Shangguan LAN 'er had no objections if Lin Yi wanted to deal with him. But before dealing with Xue Peng, she felt that she should first understand the opponent's background, so that she could know herself and her enemy, and win a hundred battles!

"In terms of strength and Foundation, the aristocratic families are better, but in terms of influence and combat power in reality, the Lord of the Mountain region may be stronger. You can see it as a comparison between an ancient force and a new force. Of course, there are strong ones and weak ones. The mountain of our Feiyang college is one of the stronger ones. As for the well-known families, Wang shiqing, who entered the peerless college this time, is from an extremely powerful talisman family. You should know that. "

Zhang jinmiao glanced at Lin Yi subconsciously when Wang shiqing was mentioned.

She didn't know how deep Lin Yi's relationship with house Wang was, but not only did he give in during the individual battle, he even took care of Wang shiqing in the xiankong Valley during the final round!

Anyone with eyes could tell that it wasn't just because Wang shiqing was a little girl! Besides, Lin Yi had asked Zhang jinmiao about the Wang family and Wang Shiyang, so it was impossible for them to be completely unrelated.

But since Lin Yi didn't want to say it, Zhang jinmiao didn't want to ask directly. It wasn't something important, so she'd just let nature take its course.

They chatted and laughed along the way, and time passed very quickly. Before they knew it, the flying spirit beast that the group was riding on had already begun to slowly descend.

Lin Yi looked down and saw a group of buildings with mountains and rivers, and dozens of mountains behind them.

However, some of the mountains were sparsely populated, while some were densely populated with houses. But there was one thing that was the same: they were all filled with dense spiritual Qi!

In such a large area, one would need to use flying spirit beasts to move around. If one were to travel on foot, it would take a lot of time to travel from one end to the other.

Of course, Lin Yi was an exception.

"I'll bring you all to the entrance hall to wait. I'll gather all of your batch of students together and then assign you your lodgings! You two don't need to be so polite, you must try your best to pick the courtyard with the highest level on the young Eagle Peak, because the higher the location, the higher the concentration of spiritual Qi, which is extremely beneficial to your cultivation. "

Zhang jinmiao got off the flying spirit beast and turned back to Lin Yi and Shangguan LAN 'er with a smile. As for the other four, she wouldn't tell them about these small things.

"Master, did you choose this courtyard at will? Then what if someone else takes the one I like first?"

Shangguan linger wasn't unfamiliar with this style-the North Island had similar rules, and Lin Yi had been there before, too, so he understood what was going on.

"Today is the first selection. The order of selection will be decided according to the results of the assessment. Once the selection is done, we can only wait for the challenge in a month's time to decide! In other words, even if you get the courtyard you want today, if you are not strong enough a month later, it will still be snatched away by others! Therefore, you must cultivate properly on a regular basis. Otherwise, when the time comes, you won't even be able to keep your own courtyard and master won't be able to help you. "

Zhang jinmiao looked at Shangguan LAN 'er with a smile. She wasn't trying to scare her. This kind of fight for the side courtyard was a rule set by the Academy to train the students.

The location of a side courtyard was not only related to the concentration of spirit Qi, but more importantly, it was also related to the distribution of cultivation resources, so these students could not afford to ignore it.

Lin Yi was probably the only one who wasn't interested in a yard like this, with the endless spiritual Qi in the Jade space and the spiritual jades and spoils of war.

"I know, master!"

Shangguan LAN 'er stuck out her tongue secretly, but she wasn't worried at all. With Lin Yi here, she had nothing to worry about.

"There's one more thing I have to tell you. The highest place of the nestling peak, the courtyard with the densest spiritual Qi, has already been occupied. If you want that courtyard, you can challenge it this time because that person is the genius of the previous batch. Originally, when this batch of new students entered the school, he was going to move away from the nestling peak, which was specially used for new students. However, he took the initiative to request to transfer to this batch because of his outstanding talent. It is said that this request is also for better cultivation. As such, the higher-ups of the Academy have agreed to his request. All of you must pay more attention to this person. "

Zhang jinmiao reminded Lin Yi and Shangguan LAN 'er. Although Lin Yi was stronger than the genius from the last tournament, it was better to be careful.

"Master, is this guy from the last tournament very powerful? Why did the Academy agree to his request?"

Shangguan LAN 'er did not want to fight for the highest courtyard, but she was still very curious about this guy who had taken the initiative to transfer to the new student class.

"He's indeed very powerful. Even if he's not the strongest in the last batch of freshmen, he's definitely in the top three. His current strength level is at the great circle of mysterious Ascension. However, his great circle of mysterious Ascension is different from others. He's the kind of person who can break through at any time. This is also known as the mountain-splitting thought."

Zhang Jinmiao said as she looked at Lin Yi with deep meaning.

Lin Yi's heart skipped a beat-he didn't think he'd meet someone like him here, someone who could split open a mountain with a thought but didn't break through. Interesting!

Lin Yi didn't want to suppress his strength in the first place, but when he was able to break through the mountain with a thought, the situation was a bit complicated, and it wasn't suitable for him to consolidate his strength.

After training in the secret realm, Lin Yi realized that his accumulation in the xuansheng stage wasn't as perfect as he thought.

Lin Yi's Ascension to the great circle was only a superficial level-it was far from enough. It was a good thing that he didn't break through back in the southern island, or he wouldn't have been able to come to the East continent's Mystic division sea with Shangguang Lan'er. Once he reached the mountain opening stage, he'd lose the right to apply for the school.

Lin Yi's interest was piqued when he heard that there was a guy who could split a mountain with a thought, but suppress his cultivation.

Perhaps he could find a chance to chat with this person and discuss the necessity of accumulating a deep foundation in the xuansheng stage as well as their respective methods.

"It does sound a little powerful. I shouldn't be a match for it, right? Therefore, it's better not to Rob other people's courtyards. "

Shangguan LAN 'er stretched out her finger and tapped twice on her fair and flawless chin, making a thoughtful look, and then said such an extremely obvious fact with a sweet smile.

Chapter 6504 The Courtyard Flower's Personal Expert

"It's already good that your courtyard hasn't been snatched away, but you still want to snatch someone else 's? aren't you thinking too much?"

Zhang jinmiao looked at her disciple with both anger and amusement. Although Shangguan LAN 'er was very talented, her current strength was really too weak.

Even among the registered students, there were many who were stronger than her. However, most of these people did not dare to snatch Shangguan LAN 'er's courtyard. After all, their status was different, and they had to take into account the existence of Zhang jinmiao, their master.

"Master, don't worry. Lin Yi is here, no one can take my yard."

Shangguan LAN 'er giggled as she patted Lin Yi's shoulder. With such a strong bodyguard, what was there to be afraid of?

Zhang jinmiao and Lin Yi smiled at each other. They were about to enter the hall, so they didn't say anything more.

After entering the outermost building of the school, Lin Yi saw the twelve students from the same batch already waiting in the hall. There was also a young man with a lively expression sitting on the side, looking back and forth at the twelve new students who were standing and waiting with disdain.

However, when he saw Zhang jinmiao come in, the young man with a lively expression immediately stood up. His expression became humble and respectful as he quickly came up to greet Zhang jinmiao.

"Deputy Dean Zhang, why are you personally bringing the new students here this time? Such a small matter, you just need to give the instructions in advance, and I'll immediately come and help you with it."
"

This young man was extremely respectful to Zhang jinmiao, but he naturally showed some contempt for the freshmen behind her. He didn't even greet them.

"Yang Dian, what are you doing here? Are you here to see your new fellow disciples?"

Zhang jinmiao nodded slightly in response. Then, she asked a simple question, vaguely revealing his identity.

Lin Yi and Shangguan LAN 'er suddenly understood-Zhang jinmiao didn't mention the name of the genius from last year, but it seemed like yang Dian was one of them.

"Yes, I heard that there are many geniuses joining our Feiyang school this time. As their senior brother, I should come and show some concern. Besides, if someone wants my courtyard, I should give them a chance. If I don't even come, wouldn't it show that I'm not a good senior brother? Don't you think so, Vice President Zhang?"

Yang Dian was talking to Zhang jinmiao with a smile, but his eyes fell on Shangguan LAN 'er behind her. Seeing the pure and lovely Shangguan LAN' er, this guy's eyes lit up.

Shangguan LAN 'er didn't like the way Lin Yi was looking at her. She snorted and stood behind Zhang jinmiao, winking at Lin Yi, indicating that this genius from last year's tournament couldn't be compared to being seen in person.

Lin Yi smiled, not thinking too much about it. As the saying goes, "a Fair Lady is a gentleman's prey." Shangguan LAN 'er was pretty and cute, so it was normal for her to attract attention. He couldn't beat up everyone who liked her and dig out their eyes or something, could he?

However, Lin Yi was in a daze-he'd been walking around for so long, and now he was in a place similar to Songshan first high. Didn't that mean he'd become the school Beauty's bodyguard again?

"This Junior Sister looks very talented! Our Feiyang college has another top genius, congratulations! How should I address you, Junior Sister?"

Yang Dian took a step forward, bypassed Zhang jinmiao's block, put on a smile that he thought was friendly and handsome, and slightly bowed to talk to Shangguan LAN 'er.

"She's my disciple this time, Shangguan LAN 'er from Beidao. Yang Dian, you can guide her in the future. Of course, don't disturb her cultivation!"

Zhang jinmiao turned sideways and appeared in front of yang Dian again. She squinted her eyes slightly and said indifferently. She sounded very polite, but yang Dian could hear the coldness in her words clearly.

"Haha, so you're Dean Zhang's direct disciple. Junior Sister Shangguan, you'll have a bright future! As the saying goes, "a great teacher produces a great disciple." With principal Zhang's careful guidance, Junior Sister Shangguan's talent will definitely be able to be brought into full play. I don't dare to give Junior Sister any pointers, as that would only delay her cultivation. However, senior brother has come here a year earlier, so you have a lot of cultivation experience that is not bad. We can exchange pointers more often, and I think it will be of some help to Junior Sister. "

Yang Dian laughed. When he heard that she was Zhang jinmiao's disciple, he didn't dare to be rash and quickly put in a good word.

"Yang Dian, you don't have to be humble. There are indeed a few talented freshmen in this batch, but as a senior, you do have to bear some responsibility. You can do as you see fit in the future. Let's not talk about this now. I'll assign a courtyard on the young Eagle Peak."

Zhang jinmiao didn't have any special opinion of yang Dian at first, but this guy was obviously coveting Shangguan LAN 'er, which made Zhang jinmiao very unhappy.

After all, Shangguan LAN 'er was Zhang jinmiao's direct disciple. If she were to court her in front of her, it would be a little disrespectful!

Besides, Lin Yi was Shangguan LAN 'er's best match. Yang Dian had some strength and talent, but he was still far from Lin Yi!

What's more, yang Dian actually asked the college to allow him to stay in the young Eagle Peak for his own cultivation. This was blatantly occupying the freshmen's resources, which Zhang jinmiao didn't like.

"Yes, principal Zhang. I'll accompany my junior brothers and sisters here and wait for your orders."

Yang Dian still treated Zhang jinmiao respectfully, but he was trying to stay by Shangguan LAN 'er's side.

"Yang Dian, you're different from them because you now occupy the courtyard at the top of the young Eagle Peak. You have to accept the challenges of many new students to continue to keep your courtyard, so you can't stand here. You have to come to the front with me."

Zhang jinmiao glanced at yang Dian indifferently and made up her mind to get him as far away from Shangguan LAN 'er as possible.

"Yes, director Zhang!"

Although yang Dian was a little reluctant, he did not dare to disobey Zhang jinmiao's words. Not to mention that he only had the strength to open a mountain with a thought, even if he had the strength to open up a land with a thought, he was still nothing in front of Zhang jinmiao.

Zhang jinmiao gestured for Lin Yi and Shangguan LAN 'er to stand beside the other twelve people while she walked to the front with yang Dian.

"Students, welcome to Feiyang college. I am the vice Principal of the College, Zhang jinmiao. Today, I'm going to introduce you to your fellow students and assign you to your own courtyards on the eaglet peak. This is related to your cultivation for the next year, so please be careful when you choose."

Zhang jinmiao didn't say any nonsense and went straight to the point.

Chapter 6505 I Don't Think It's Worth Bullying Him

"There are a total of 23 courtyards on the nestling peak from the bottom to the top. The number of new students every year generally does not exceed this number. However, I want to tell you that these 23 courtyards are divided according to the concentration of spiritual energy, and can be further divided into eight grades! At the foot of the mountain are the six worst ones, and above them is the number five four three two one one one. The peak is the best one, and the one near the peak is slightly worse, and the one further down is another grade. Now, I will announce the rules of selection. "

Zhang jinmiao briefly introduced the situation in the courtyard. After everyone heard it, they all looked at yang Dian.

This guy was obviously someone from the previous batch, but he had come to this batch with thick skin and occupied the only first grade courtyard. This was simply intolerable!

Although most people would not get the chance to occupy the top courtyard, with one more person occupying the best courtyard, the lower ranks would also be moved down!

As a result, those who could have chosen the third grade became the fourth grade, and the fourth grade became the fifth grade. Who would be willing to accept this?

Yang Dian didn't care about everyone's gazes. It was natural for him to occupy the best courtyard, and he was doing it with peace of mind.

It wasn't that he looked down on any of the geniuses, but he looked down on everyone. Otherwise, he wouldn't have stayed to accept the challenge. If he lost, he would become the biggest laughing stock.

"The order of choosing a courtyard is determined by the score of one's talent. Students with good talent can receive such preferential treatment when choosing a courtyard for the first time. It can also be considered as a little care from the Academy to geniuses! But after a month, you'll have to rely on your own strength to keep your courtyard. If you lose to others, you can only blame yourself for not working hard, and in the future, you won't be able to obtain the Academy's resources, so you have to pay attention to it. "

After a short pause, Zhang jinmiao pointed at yang Dian."In addition, if anyone wants the top courtyard, they can choose to challenge yang Dian this time! Because he's a student of the previous batch, the one-month protection rules for newcomers "challenge don't apply to him. Anyone can challenge him, but only today!"

"Lin Yi, Lil" bro, do you want to go pick that annoying guy? Even if you don't care about the dense spiritual Qi, at least the scenery at the top of the mountain is good. "

Shangguan LAN 'er elbowed Lin Yi's arm, encouraging him in a low voice.

It wasn't that she wanted Lin Yi to deal with yang Dian, but she felt that only Lin Yi had the right to own the courtyard at the top of the mountain. That yang Dian, who was so thick-skinned to come and steal their resources, should be staying at the courtyard at the foot of the mountain.

"Do you want the courtyard at the top of the mountain? If you want it, I'll go and snatch it for you. "

Lin Yi smiled as he sent a message to Shangguan LAN 'er.

Shangguan LAN 'er's heart was filled with sweetness, but she was not very interested in the mountaintop courtyard. If she stayed in the best place, she would naturally have to cultivate the most diligently. If her progress was not fast enough, wouldn't it be bad to embarrass her master?

"If I don't want it, you don't want it either?"

Shangguan LAN 'er looked at Lin Yi curiously. She didn't believe that he was afraid of yang Dian. This guy probably thought it was too troublesome and didn't want to fight.

"If you don't want it, why would I want it? He's useless. Although yang Dian is not very likable, I don't want to bully a small figure like him. "

Lin Yi shrugged. If Shangguan LAN 'er wanted it, he'd take it from her without a second thought. Since she didn't want it, then it was useless.

To Lin Yi, there wasn't much of a difference between a courtyard at the foot of the mountain and a courtyard at the top. Shangguan LAN 'er was still weak, so there wasn't much of a difference between a first or second grade courtyard.

No matter if it was the first or second place, the density of the spiritual energy was far beyond what she could absorb and use, so there was no need to deliberately compete for the highest courtyard.

As the two of them were discussing in secret, Zhang jinmiao continued,""According to the rules, the first one to choose a house is the student who got the highest score, Lin Yi. He got nine points on the talent test, but his performance is no different from a genius with ten points. So, does anyone have any objections to the first choice?"

Zhang jinmiao looked at everyone's expressions. Yang Dian was surprised, and the two people recommended by the Lord of the Mountain region didn't seem to be convinced by Lin Yi.

As for Xue Peng and the other three, who had seen Lin Yi's performance in the entrance exam, they wouldn't say a word. A genius that even a top tier school would fight for-if they couldn't get priority in a yard, it'd be a joke!

As far as Xue Peng and the others were concerned, Lin Yi didn't even need to choose. They should've just given him the best house.

Yang Dian? What was it? A senior student from the previous batch actually had the nerve to come and occupy the best courtyard?

What were the higher-ups of Feiyang college thinking? If they were in the divine refinement college, old man Wang would've kicked this guy out and let Lin Yi stay in the best house.

"Very well, since no one has any objections, Lin Yi, you can choose a yard. The top yard is now taken by yang Dian. If you want it, you have to challenge him. If you don 't, you can only choose another yard!"

Zhang jinmiao smiled as she looked at Lin Yi. She didn't know what Lin Yi would choose. If Lin Yi wanted the top yard, yang Dian wouldn't be able to keep it.

Xue Peng was delighted as well-that yang Dian should have some strength, and it'd be great for Lin Yi to fight him, no matter who won!

So the guy looked at Lin Yi with anticipation, hoping to hear the answer he wanted from him.

It would be even more wonderful if both sides were injured!

Lin Yi would have no time to deal with yang Dian's business after he made an enemy out of him.

The two people recommended by the mountain Lord were also looking at Lin Yi with anticipation, hoping to see what was so special about this genius who got first place in the exam. They could also find out yang Dian's background and figure out how to deal with him.

"Principal Zhang, I'll choose the second grade courtyard. I don't have much use for the courtyard at the top."

Lin Yi smiled faintly and gave an answer that disappointed both Xue Peng and Shan Yu.

Lin Yi didn't continue calling Zhang jinmiao "aunt Zhang" in front of so many people, and still called her Dean. Zhang jinmiao was more and more satisfied with Lin Yi-this EQ was what it was like to do great things.

Chapter 6506 The Young Master Of The Zone Leader

Yang Dian wasn't surprised at all-Lin Yi knew that he wasn't a match for Lin Yi, so he didn't even dare to challenge him. He'd wanted to use the number one genius of the freshmen to establish his dominance, but it seemed like that wasn't necessary anymore.

"Hahaha, you're a smart guy, Junior Brother Lin Yi! We can get to know each other more in the future, and if there's anything you don't understand, feel free to ask me! Come along, Junior Sister Shangguan!"

Yang Dian laughed out loud. The first two sentences were quite normal, but he changed the topic at the end and talked about Shangguan LAN 'er again. His intention was too obvious.

Lin Yi's mouth twitched. He suddenly felt that the villa at the top of the mountain was not bad. Should he go back on his words and beat this idiot to death? it would save him a lot of trouble in the future!

"Alright, Lin Yi's done with his selection. Next up is Shangguan LAN 'er."

Zhang jinmiao looked at her disciple and nodded with a smile.

She also had some selfish intentions, and wanted Shangguan LAN 'er to choose a third-class yard. It was the closest yard to Lin Yi's, and the two of them could look out for each other.

Besides, Zhang jinmiao had already seen Lin Yi's ability to guide others. It might not be useful to geniuses like Leng rufeng who had found their own path, but it was the best mentor for a newbie like Shangguan LAN 'er who had just entered the xuansheng stage.

"Principal Zhang, is this Junior Sister Shangguan the genius who got second place in the assessment? Why is it her turn?" One of the two men from the mountain domain suddenly spoke. Although his tone was respectful, his expression was somewhat dissatisfied.

"Which one are you?"

Zhang jinmiao's expression was calm, but she was a little unhappy in her heart.

Not to mention that Shangguan LAN 'er was a real genius with nine points of talent, even if she wasn't, with Zhang jinmiao's identity, what was the big deal about arranging her own disciples to have priority in choosing the courtyard?

How could this kind of thing be discussed by people who were recommended to enter without taking the exam?

"I am Murong buqi, nice to meet you, director Zhang!"

Murong buqi seemed to have just remembered, as he cupped his fists and bowed slightly to greet Zhang jinmiao.

"So you're the nephew of the mountain region's Lord Murong. You must be Lord Murong's son, Murong Qianyan, right?"

Zhang jinmiao's eyes turned and landed on the other young man beside Murong buqi. There were two people who were recommended this time. One was the son of the mountain region's territory Lord, and the other was a disciple of the Murong family's side branch. He could be considered as territory Lord Murong's cousin, and was the one who spoke, Murong buqi.

"Murong Feiyan greets principal Zhang, please forgive me. My cousin always speaks without thinking. He says what he thinks. On the bright side, he's straightforward, but in fact, he's just lacking a nerve. The rules are set by the Academy, so principal Zhang will naturally handle it impartially. Cousin, don't speak carelessly!"

Murong Feiyan's attitude was very good, but in the end, she was still using words to block Zhang jinmiao. Her thoughts were much deeper.

"I heard that Governor Murong's son, Murong xuanyan, also scored nine points in the talent test. Even if he takes the test, he can still enter the Feiyang college smoothly. He can even enter the top three schools. It's our honor to have a genius like you join us."

Zhang jinmiao smiled faintly. She had indeed heard of Murong xuyan's name. She was a famous genius in this Mountain region.

Moreover, he had a twin sister who was quite talented. However, he did not know why she was not recommended this time. Instead, she found Murong buqi from the side branch.

"I heard that your sister's talent isn't below yours. Why didn't she come with you this time?"

Zhang jinmiao was very tolerant of geniuses, especially the young talents of their own Mountain region. If they could join Feiyang college, it would greatly enhance the strength of the college.

"Dean Zhang, you're too kind. I'm not worthy of your praise."

Murong xuyan had a humble expression on her face. After waving her hand, she talked about her sister. "My sister Murong Fei Fei has been spoiled since she was young. I originally wanted her to come with the students, but there was a small conflict between her and the students. So in a fit of anger, she refused to come with me and would rather come again next year. She's really too willful!"

At the mention of Murong Fei Fei, Murong Fei Yan's face was full of helplessness. However, her eyes and lips were clearly filled with love. It was impossible for such a brother to not have a willful sister!

"I see. The enrollment quota this time hasn't been used up. If your sister's anger has subsided, you can let her come back with you. I see that you have already entered the great circle of black Ascension, so your sister shouldn't be too far off. If you wait until next year, you may not have the opportunity to enter the academy."

Zhang jinmiao was indeed a person who only cared about the Academy. The unhappiness she had earlier had long dissipated. Now, she was even preparing to give the extra spots to the Murong family. It was obvious that recruiting talents was the most important thing to her.

"Thank you, principal Zhang. I would like to thank you on behalf of my younger sister!"

Murong xuyan was overjoyed. She didn't expect that not only did Zhang jinmiao not blame Murong buqi, but she also gave him such a good thing. It was really a pie that fell from the sky!

"Well, it's my duty to recruit talents for the Academy. What Murong buqi said just now makes sense. Although LAN 'er is a genius with nine points of talent, she's my disciple after all. Although she's in line with the rules, it's not appropriate. In that case, Murong xuyan, you can choose first!"

Zhang jinmiao magnanimously waved her hand and allowed him to choose a courtyard first.

In fact, this was Lin Yi's request to Zhang jinmiao. He didn't want Zhang jinmiao to be in a difficult position. He didn't have high expectations for the courtyard, and he wanted a second grade courtyard for Shangguan LAN 'er.

Zhang jinmiao was quite satisfied with Lin Yi, and since he said so, she'd just go along with it. She could also shut those people up and prevent Shangguan LAN 'er from getting into trouble.

"No need, no need. We haven't passed the test, so how can we choose a courtyard first? This was not in line with the rules! Thank you for your kindness, but I don't think so!"

Murong xuyan didn't think that he wasn't qualified to choose first. It was just that Zhang jinmiao had just given his sister a precious place in the school, so he naturally had to return the favor.

The mountain region had always been the Academy's vassal, so it was better not to offend Zhang jinmiao if they could get on her good side.

"It's okay. If I say you can, then you can. Territory Lord Murong's twin children are very famous in the entire Mountain region. In fact, you could have come to the Academy a long time ago. Why did you wait until now?"

Zhang jinmiao was indeed a little puzzled. The Murong family's twins were definitely talented and did not need to take the assessment. They were in a favorable position and enjoyed the moonlight first. If it were anyone else, they would have entered the Academy when they were in the early stage of the profound Ascension realm. Why would they wait until they were in the great circle of profound Ascension realm?

Chapter 6507 Courtyard Battle

After the mountain-opening period, one could choose to graduate and travel and cultivate on their own, or enter the academy's advanced class to continue their studies.

With the strength of the great circle of Ascension, he probably entered the new student class just for a transition. The things that could really be learned were basically nothing other than the cultivation of the spiritual sense.

Of course, the Academy didn't allow students to register for the advanced class directly. Other than following the prescribed order, one would have to rely on special recommendations. However, the zone leader didn't have the ability to do so, unless it was the higher-ups of the Academy or someone from the mystic division Sea region's Alliance of Academies who came forward.

This was because many basic things, such as the spiritual sense, were most effective when studied at the xuansheng stage. Therefore, when the Academy went out to recruit students, they only accepted cultivators at the xuansheng stage. They didn't accept anyone at the higher or lower level.

As for the individual cultivators outside, once they missed the best time to cultivate their spiritual sense, it would be difficult for them to have any further attainments in the aspect of spiritual sense, even if they were to split open a mountain or a piece of land. Only if their spiritual sense had really passed the test would they be able to enter through special recruitment.

"Speaking of which, it's also because we brother and sister are too slow-witted that we didn't completely understand the family's Secret art, so father forbade us from leaving home to study in the Academy. Unknowingly, our strength level has been raised a little too high."

Murong xuanyan said it humbly, but he couldn't hide the pride on his face.

"So that's how it is! The talent of you siblings is indeed unquestionable. You've already mastered the family's Secret art at such a young age. Very good! Murong xuanyan, you don't have to be so polite, just choose a courtyard first!"

Zhang jinmiao smiled and nodded. She was very happy to have such a talent join them.

"Young master Yan, since principal Zhang is so eager to fight, it would be disrespectful to him if you refuse. Why don't you challenge the top courtyard and leave the choice to that Junior Sister Shangguan?"

Murong buqi was so direct that he even encouraged Murong Qianyan to challenge yang Dian.

"Buqi, don't say anything. You've ruined everything."

Murong Feiyan scolded in a low voice, directly swallowing back the rest of Murong buqi's words.

Lin Yi didn't choose to challenge yang Dian before, but Murong yuanyan didn't look down on him. Instead, she felt that Lin Yi was unpredictable and was an opponent worthy of attention!

And he would not challenge yang Dian easily. He did not really need a villa with rich spiritual energy now.

At the level of the great circle of black Ascension, it was no longer the time to use Reiki to improve. What he needed to learn now was more knowledge about the spiritual sense and the perfect mountain-splitting.

Therefore, Murong Feiyan wasn't going to challenge yang Dian!

However, Murong buqi encouraged him to make a move. This was simply a pig teammate. It seemed that he had to call his sister over as soon as possible. Siblings working together would bring about benefits that could cut through gold!

Murong buqi didn't dare to talk back after being scolded by Murong Feiyan. He could only lower his head and retreat obediently.

Although he was Murong xuyan's cousin in terms of seniority, he was actually just a disciple of the Murong family's side branch. His status couldn't be compared to the zone leader's son at all.

She was lucky enough to enter Feiyang college because of her talent, but it was more because Murong Feiyan wanted to find a study partner.

Zhang jinmiao didn't say anything. She just smiled and looked at Murong xuyan, waiting for him to make his own decision.

"Principal Zhang, I don't have a high demand for a courtyard, so I'm not prepared to challenge a courtyard at the peak of the mountain. I'll just choose a third-grade courtyard."

Murong yuanyan smiled and cupped his fists, saying his decision.

"Alright, since you've already decided, then it's settled!"

Zhang jinmiao didn't care if anyone wanted to challenge her. They were all freshmen, so this wasn't important. What was important was the future challenges and the College's assessment.

After Murong xuanyan, it was Shangguan LAN 'er, Xue Peng and the others' turn to choose their courtyards. Shangguan LAN 'er's talent was there, and she was also Zhang jinmiao's disciple. This time, no one could say anything. In the end, she chose one of the two courtyards in the fourth grade.

Xue Peng was the owner of the other house, and the two became neighbors.

Lin Yi smiled as he looked at the result. He'd planned to exchange courtyards with Shangguan LAN 'er anyway, and now that Xue Peng's courtyards were right next to his, he'd have more opportunities to deal with the kid.

In the end, when Xue Peng saw Lin Yi and Shangguan LAN 'er switch courtyards, his face turned extremely pale. He was already thinking about breaking through the mountain opening stage as soon as possible and leaving Feiyang school to travel!

He'd lost the chance to increase his potential, but it was still better than being remembered by Lin Yi- he'd be left with nothing if he died.

But, now that he'd broken through to the mountain opening stage, he wasn't afraid of Lin Yi anymore-it wasn't even certain who'd be the one taking him down!

Yang Dian, on the other hand, was rather surprised and even pleasantly surprised!

While he was cursing Lin Yi in his heart for trying to please Shangguan LAN 'er, he was also very happy that he would be able to be neighbors with Shangguan LAN 'er!

"Everyone has already chosen their own courtyards. In a while, you can use the Academy's flying spirit beasts to head to your courtyards, or you can also take a look around before going back on your own!"

"What I need to tell you is that a month later, there will be a courtyard exchange challenge. At that time, if anyone wants to exchange courtyards, you can grab the opportunity! Of course, you'll have a chance every month, so it's fine if you don't participate next month, or the month after that!"

"There's one more thing you must remember. Feiyang college will have an assessment every three months. Students who don't pass the assessment will have their credits deducted! "Once your credits are in the negative, you'll be expelled. To put it bluntly, you'll be expelled from the Academy. Moreover, both official and write-in students have to abide by this rule. Please be careful!"

Zhang jinmiao's words could be considered a warning to the new students. However, Xue Peng's eyes lit up when he heard this, as if he had found a more reasonable escape route.

"Master, why didn't you tell us about this before?"

Shangguan LAN 'er quickly sent a voice transmission to Zhang jinmiao. She also knew that it was not the right time to ask about it in public.

"Because it's not very important. The two of you will definitely pass the assessment, unless you are lazy to an outrageous extent. If that's the case, I won't feel any heartache even if I expel you."

Zhang jinmiao smiled and also sent a message to Shangguan LAN 'er.

After talking to Shangguan LAN 'er, Zhang jinmiao continued to speak to the crowd,""As for how you get your credits, your instructor will naturally explain it to you in class, so I won't go into detail here! Those who want to return to the young Eagle Peak can go and borrow their flying spirit beasts. Those who want to take a look around and familiarize themselves with the environment are also free to do so. I hope that I will still be able to see everyone after the next assessment!"

With that, Zhang jinmiao waved her hand, signaling for them to leave before gesturing for Lin Yi and Shangguan LAN 'er to follow her.

Chapter 6508 Setting Up A Stall To Sell Pills

"Lin Yi, LAN 'er, you'll be in the same class as the new students for the first few months, so we won't have much chance to see each other. Lin Yi, you have to help me keep an eye on LAN' er, make her train hard and not embarrass me!"

Zhang jinmiao smiled at Shangguan LAN 'er before turning to Lin Yi.

"Master, how can you do this? As my master, shouldn't you personally guide your disciple's cultivation? How can you just leave it to Lin Yi, Junior Brother?"

Shangguan LAN 'er pouted, but she actually felt that this was pretty good, being able to train with Lin Yi as a Junior Brother was pretty good!

"As a new student, it's more important for you to lay your Foundation first. For the time being, you don't need master to personally guide you. You just need to cultivate according to the homework master has given you! After you pass the first test, you'll have time to see master often. "

Zhang jinmiao had no other choice. Although Shangguan LAN 'er was her disciple, the unified basic courses were the most important during the first freshman period. Moreover, those were the optimized plans that had been perfected after thousands of trials and errors, so there was no need for Zhang jinmiao to interfere at all.

"Master, do you mean I have time or you have time?"

Shangguan LAN 'er was quite sharp this time and actually caught a loophole in Zhang Jinming's words.

"We have time. After the first assessment, you and I will have time, so don't say that master and teacher are forcing you to cultivate and not giving you freedom!"

Zhang jinmiao tapped on Shangguan LAN 'er's nose, the love in her eyes visible even to the blind.

"If that's the case, then it's better if master doesn't have too much time!"

Shangguan LAN 'er stuck out her tongue secretly and chuckled.

"Lin Yi, are you two going back to the peak or what? If you want to walk around, these places on the outskirts of the Academy are also very good! The buildings on the outside are used to communicate with the outside world, so it slowly formed the appearance of a small town. Although it can't be compared to the mountain region, it's still quite lively. If you want to see it, you can take a stroll here. "

Zhang jinmiao pointed at the surrounding streets and buildings. After coming out of the entrance hall, there was indeed a lively atmosphere like that of a town. It was completely unlike the atmosphere that a sub-top school should have.

"Lin Yi, do you want to go with us?"

Shangguan LAN 'er was very interested in this, but she valued Lin Yi's opinion more, so she had to ask first.

"That's good. Auntie Zhang, do you want to come?"

Lin Yi nodded and looked at Zhang jinmiao, but he felt that she probably didn't have time to hang out with them. After all, she'd just returned to the school, and there should be a lot of things she needed to deal with.

As expected, Zhang jinmiao smiled and shook her head, rejecting the suggestion. "I won't be going, you two can walk around on your own. When you want to go back to the peak, just borrow a flying spirit beast from the people outside the hall. Lin Yi, don't fly by yourself-you'll get your points deducted if you go to the wrong peak."

"Okay, Auntie Zhang, I'll remember that."

Lin Yi agreed with a smile, and waved goodbye to Zhang jinmiao with Shangguan LAN 'er.

As he strolled along the streets, he could see young people wearing the robes of the Feiyang college walking by. It was obvious that this place outside the college was still very popular.

"The things here are indeed quite neat and tidy. There are all kinds of shops, and some students even directly take out the things they obtained from their missions to set up stalls. Lin Yi, Lil "bro, do you have anything you don't want? we're here to set up a stall!"

Shangguan LAN 'er was in high spirits. Seeing the students setting up stalls, she also wanted to try it out.

"Sure. I just don't know if anyone will come and interfere if I set up a stall randomly."

Lin Yi remembered that time when he was selling medicine at the Qingyun sect in the ancient martial arts world. Medicine Master Chen from the five elements sect came to interfere, but Shangguan LAN 'er didn't understand what he meant at all.

"Why are you interfering with our business? Isn't everyone setting up a stall?"

Shangguan LAN 'er raised her head to look at Lin Yi, her face full of question marks.

Lin Yi smiled and shrugged, explaining to her that there would be fights wherever there were people, and that the school was no exception. He found an empty seat, took out a picnic mat, spread it out, and pulled her to sit down.

"Here are some of the pills I made. Do as you see fit. Sell them for as much as you can. Let's play for a while and go to other places to take a look."

Lin Yi took out some elixirs made from the cores of sea beasts and gave them to Shangguan LAN 'er, giving her some fun!

At this moment, Lin Yi felt like a kid playing house. Other people sold things for money, but Shangguan LAN 'er did it for fun.

"Yi, what kind of medicinal pill is this?"

After Shangguan LAN 'er took it, she opened one of the bottles, looked inside, and sniffed it, ""It seems ... To be ... The mystic supporting pill?"

Shangguan LAN 'er looked at Lin Yi in shock. She'd never eaten the mystic supporting pill before, but the Shangguan family was a rich family, after all. She'd heard of it before even if she'd never eaten it before, and she could recognize some of its characteristics and smells.

"It's a Mystic supporting pill, but it's not made from Mystic supporting grass. It's made from the inner core of a sea beast and spirit herbs. There's a slight difference with the mystic supporting pill made from Mystic supporting grass. This is the best for sea beasts. Although human cultivators can eat it, I don't think it's as good as cultivating on their own."

Lin Yi nodded. This was something he used to practice his skills with, and he hadn't given it to anyone yet.

It wasn't that eating it would cause problems, but after going through the secret realm, Lin Yi knew that there was no point in just leveling up-it'd just waste his potential!

The best way to cultivate was to dig out all the potential in each level, and then break through. Such a cultivator was invincible among the same level, and it was normal to challenge those of higher levels.

And this Xuan supporting pill was a fast pill that could raise a person's Xuan rising stage level all at once. It was equivalent to wasting all the potential from before. It was too wasteful to only stimulate a very small part of it through the Xuan supporting pill!

After understanding this, Lin Yi kept all the Xuan supporting pills and didn't give them to his friends and companions. It would be like pulling up the seedlings to help them grow, and it wouldn't do them any good.

"Lin Yi, Lil" bro, this won't kill you, will it?"

Shangguan LAN 'er looked left and right before moving closer to Lin Yi and asking in a low voice, her little face full of "I'm selling fake and inferior products," a very risky expression.

"Don't worry, it won't kill you!"

Lin Yi didn't know whether to laugh or cry. This was the mystic supporting pill, not some poisonous pill. How could it kill someone?

Chapter 6509 Silly And Sweet, Good Person

"Stall owner, how much is this bottle of Mystic supporting pill? I want a bottle. "

The guy who was holding the Jade bottle did not want to let go at all. He held the Jade bottle tightly and looked at Shangguan LAN 'er nervously, fearing that she would bid a high price. If he could not afford it, he would be in trouble.

Although he didn't need as many as six pills, the extra could be sold to others. In his opinion, the price of a bottle of profound Qi pills would definitely be a little cheaper than selling one pill!

However, he really didn't have many spiritual jades on him. Right now, he only wanted to ask for the price. If it really didn't work, he would have to quickly inform his friends to come over and collect spiritual jades to buy the medicinal pills.

This was a special grade Mystic supporting pill! This was simply raising a small level without any side effects! Wouldn't he be a fool not to buy it!

Shangguan LAN 'er felt a little nervous when she saw how nervous he was. She stretched out her white hand and waved it, indicating that it was five thousand spiritual jade pieces a bottle.

However, before she could speak, the guy holding the Jade bottle had a look of despair on his face. ""Five million spirit Jade? There were too many! Brothers, is there anything that you want? How about we gather spirit Jade to buy it?"

Originally, he had wanted to go back and find someone to gather the money, but he was worried that it would take too long to go back and forth and he would miss it. Therefore, he wanted to partner up with the people next to him to buy a bottle. No matter what, he had to make sure that he had one pill first.

Was five million a lot? It wasn't much at all!

In the Feiyang college, the students were all in the Xuan Ascension stage. Most of the students in the opening stage would choose to travel outside. Therefore, the market for special grade Xuan raising pills was huge!

There were people who would buy it for five million each, and it could even be sold for a sky-high price in an auction!

It wasn't that there weren't any alchemists in the mystic class Sea area who could refine the mystic supporting pill, but the key was that the mystic supporting grass couldn't be found! This also meant that the value of the profound Qi pill would not be too low.

Hearing that it was five million a bottle, the surrounding people were also tempted. Those who had more spiritual Jade were even thinking about buying more by themselves and selling it for five million a bottle. They should not have to worry about the sales.

Shangguan LAN 'er, who had been thinking about the 5000 spiritual jades, was dumbfounded. What was going on?

Wasn't it supposed to be five thousand spiritual Jade? How did it become five million spirit Jade? Lin Yi's skills were great, but the mystic supporting pill was made from the inner core of a sea beast!

Oh, right, they still didn't know that these were made from the inner cores of sea beasts, so they thought that five million a bottle was more reasonable, right? This had to be made clear, or else it would become a deliberate scam.

"Well, I didn't say that it was five million spiritual Jade per bottle!"

Shangguan LAN 'er waved her hand, drawing everyone's attention back.

"Not five million? Could it be 50 million? Then I can't even afford one!"

The guy holding the Jade bottle was in extreme grief!

There was once a bottle of special grade Xuan supporting pills in front of me, but I didn't have 50 million ... By the time I had 50 million, it had already become someone else's poop ...

Shangguan LAN 'er did not know what this fellow was thinking about. She was already stunned by his imagination. Fifty million spiritual Jade? What was he thinking? There were clearly no more than 10000 at the end!

If Lin Yi could hear Shangguan LAN 'er's inner voice, he would definitely ask her what she was thinking, there should be ten thousand of them!

"No, it's not 50 million. My Mystic supporting pill isn't made from Mystic supporting grass. It's made from the inner core of a sea beast and spiritual medicine, so it's not that expensive ... It's not 50 million, nor 5 million ..."

Shangguan LAN 'er said everything she was thinking honestly, and Lin Yi laughed to himself. If someone were to do business like her, they'd lose money sooner or later!

The buyer was taking the initiative to increase the price, but you were haggling the price to death. Such a strange business method was really unprecedented! To be able to witness it, these Xuan raising pills were worth it!

"It's not 50 million or 5 million. Could it be 500 thousand?"

That guy immediately felt that he had ascended to the heaven from the hell!

Facing the sea, the flowers bloomed in the warmth of spring! The world was truly beautiful!

As for those refined from the inner cores of sea beasts? So what? It was fine as long as it was the mystic supporting pill! It was fine as long as it was a special grade Mystic supporting pill!

"Here are five hundred thousand spiritual jades. Thank you!"

Before Shangguan LAN 'er could finish her sentence, he took out a green spiritual Jade card and stuffed it into her white and tender hand. He was afraid that Shangguan LAN' er would go back on her words, so he turned around and ran away with the Jade bottle!

What a joke! He could even believe that a bottle of special grade Mystic supporting pills would sell for fifty million, but now it only cost five hundred thousand spiritual Jade. This felt like robbery. If he didn't run now, would he be caught?

"Ah? That ..."

Shangguan LAN 'er was dumbfounded. She looked down at the green spiritual Jade card in her hand, then looked up at the buyer who had run away quickly. She wanted to say that 500000 was too much, 5000 would do!

Unfortunately, he didn't even give her a chance to speak!

Then, a green spiritual Jade card suddenly appeared in Shangguan LAN 'er's hand. One of the more observant ones followed suit and stuffed a card worth 500000 spiritual Jade into her hand, grabbed a bottle of Mystic supporting pills, and ran away.

"Hey, hey, hey ..."

Shangguan LAN 'er was stunned again. She wanted to call out to him, but her hand felt heavy, and another talisman...Another one ...

The onlookers were all smart people. Seeing that they could buy the pills like this, they quickly paid their spirit Jade cards, grabbed the pills, and ran away, not giving Shangguan LAN 'er a chance to regret.

In the blink of an eye, all the pills in front of Shangguan LAN 'er had been sold out! It's really snatching! Shangguan LAN 'er was still in a daze even after everyone had finished running.

What's wrong with this world? I only want five thousand spiritual jades, so why are they all trying so hard to stuff five hundred thousand spiritual jades into my hands? Is it because I'm too beautiful? The naive Shangguan LAN 'er could only think of this explanation ...

"Lin Yi Junior Brother, the people here are so nice. They know I can't get change, so they didn't even ask for it!"

Shangguan LAN 'er came back to her senses and even joked.

"I've never seen anyone charge five thousand for 495000 change ..."

Lin Yi smiled, impressed by her imagination, "Alright, we're done setting up the stall. Let's continue shopping."

"But I think it's fun. Why don't we continue to set up our stall? take out all the pills you have and I'll help you sell them. The people here are so good. I'll definitely sell them to you at a high price."

Shangguan LAN 'er waved the spiritual Jade card in her hand and patted her chest in high spirits.

Lin Yi didn't know what to say. In their eyes, you, this beautiful little girl, are the best person in the world, right?

The mystic supporting pills could be sold to them for tens or even hundreds of times the profit. Lin Yi wanted to meet more good people like this.

"Alright, let's continue shopping. I have to keep my pills as reserves. Wouldn't it be too troublesome if I sold them all and didn't have anything to use?"

Lin Yi quickly tried to persuade Shangguan LAN 'er before pulling her away.

Lin Yi didn't care about elixirs, but there were still a lot of spiritual herbs and herbs he needed to use. He couldn't just let her play around.

"Junior Brother, you're so boring. Forget it, I'll give you these spirit Jade cards. Let's go shopping!"

Shangguan LAN 'er pouted, but immediately became happy again, handing the spirit Jade card to Lin Yi.

"Take it. This is what you earned from selling medicinal pills. Just take it as the money for today's shopping!"

Lin Yi smiled faintly. He naturally didn't care about a few million spiritual jades. Not only that, but he also took out the ring he got as a reward. "This is the ring that was awarded to you for the assessment. I wanted to give it to you but I forgot to keep it with me. Take it and put the spiritual Jade card in it."

"For me? Little Junior Brother, you're still very good!"

Shangguan LAN 'er was instantly overjoyed-she wouldn't stand on ceremony with Lin Yi, not to mention that she didn't care about the value of anything Lin Yi gave her. As long as it was a gift from him, even if it was a grass ring, it was still the most precious grass ring in the world.

He put the ring on his finger happily. The ring had the ability to adjust itself, and it immediately adjusted to the most suitable position, which was quite convenient.

"It's very pretty, Lin Yi lil bro, thank you! Let's go, little Senior Sister will treat you to a meal and go shopping!"

Shangguan LAN 'er stretched out her palm and looked at the ring, her heart almost filled with honey.

"Young lady, I heard that the Xuan raising pill you bought was made from the inner core of a sea beast? I wonder who refined it? Can you introduce me to him?"

The two of them had only taken a few steps when an old man in a Daoist robe came out and stopped them. He wanted to ask about the Xuan raising pill.

"Who are you? I don't know you!"

Shangguan LAN 'er was innocent, but she wasn't stupid. She wouldn't answer anyone's question honestly, not to mention that this involved Lin Yi, so she had to be on guard.

"I'm an Alchemist in this Mountain region. I'm very interested in the matter of refining sea beasts' inner cores. If I can get to know that Alchemist, I'll definitely reward you handsomely."

The old man in the Daoist robe replied with a kind smile and said that he was interested in the elixir refinement of the inner elixir of sea beasts.

It was a pity that Lin Yi wasn't interested in him at all—he only wanted to go shopping with Shangguan LAN 'er.

"I'm sorry, we don't know who made those pills. In fact, these pills were the spoils of war after one of our battles. We don't even know who we got them from, and as for the person who made them, we naturally don't know. Because those pills are of no use to us, we can take them to auction or find a big shop to sell them. We can get more spirit Jade, but that way, the chances of being discovered will be higher. That's why we decided to set up a stall here to sell them. "

Lin Yi stood in front of Shangguan LAN 'er, bullshitting without a change in expression.

You don't say, it really did sound like that! At the very least, the old man in the Daoist robe looked disappointed, as if he was somewhat convinced.

Otherwise, there was no reason to sell so many special grade profound Qi pills so easily. They were simply sold like cabbages on the roadside.

"By the way, since you don't know who refined it, how did you know that those Xuan raising pills were refined from the inner cores of sea beasts?"

The elderly in the Taoist robe changed the topic, thinking that he found a flaw in Lin Yi's words.

"Because I've eaten it! I've also eaten a mystical nurturing pill made from mystical nurturing grass. Although the effects of the two pills are similar, there are some subtle differences, especially those made from the inner cores of sea beasts. There's obviously a fishy smell of seawater. I'm definitely not mistaken. "

Lin Yi said with a big smile, his words convincing.

The old man didn't know what to say-he couldn't think of anything wrong with Lin Yi's explanation, and he saw that Lin Yi didn't even hesitate at all-he didn't seem to be lying.

What he didn't know was that Lin Yi had thought of everything before he said it, including the possible oversights and precautions. The old man couldn't find any evidence that Lin Yi was lying.

"Alright, we still have to go eat. If there's nothing else, we'll take our leave first!"

Lin Yi smiled and walked around the old man with Shangguan LAN 'er. He was too lazy to explain to the old man about the sea beast's inner elixir, so he just lied to him.

It was more interesting to go shopping with Shangguan LAN 'er than to talk nonsense with this old man.

"Lin Yi, Lil" bro, why don't we tell him the truth? Did this matter need to be kept a secret? Then didn't I get you into trouble when I told you just now?"

After they were far away, Shangguan LAN 'er sent a worried voice to Lin Yi.

"No, there's nothing to keep a secret about. I just didn't want to talk to him. He wanted to ask us something, but he didn't even tell us his name and only said that he was an Alchemist from the mountain region. Don't pay attention to this kind of people in the future. It's better for us to go shopping. "

Lin Yi smiled, explaining why he was ignoring the old man as he comforted her.

Shangguan LAN 'er recalled carefully and found that the old man in the Taoist robe didn't say who he was, nor did he ask Lin Yi and Shangguan LAN' er's names. He went straight to the Xuan raising pill and sea beast inner core. This kind of person did have other purposes, and it was right to ignore him.

"You're right, in the future, we shouldn't pay attention to such boring people. Let's go, little Senior Sister will take you to eat something good first!"

Shangguan LAN 'er's mood immediately brightened up. She was always so bright and cheerful, and this was what Lin Yi admired the most about her.

Just as they were about to ignore the boring people, another one appeared in front of them!

"Sister LAN 'er, brother Lin Yi, what a coincidence, you guys are shopping too. It's rare for me to come out and see you guys, what fate! How about we go together?"

There was no need to ask to know that this boring person was yang Dian.

"Senior brother yang Dian, please call me Junior Sister Shangguan. You can't call me LAN 'er!"

Shangguan LAN 'er frowned slightly and corrected yang Dian's way of addressing him.

She had called her Junior Sister Shangguan before, but now she was calling LAN 'er Junior Sister? When did I become so close to him?
