Chapter 6521 Deducing Divine Sense Techniques

"Alright, that's all for today. It's about time, so the first class is over. Here are some spiritual sense cultivation techniques suitable for cultivators in the mysterious Ascension stage. Everyone can take them back and study them to see if they're suitable for cultivation."

Xu Xiaoyan took out a stack of small books and motioned for Shangguan LAN 'er to distribute them to everyone.

The Vice class monitor was finally put to use. Shangguan LAN 'er was also happy to accept the order. She had already received Zhang jinmiao's guidance, but her master said that the teacher would teach her more in detail, so she was also very curious about it.

"That's all for today. We'll continue tomorrow! Disband!"

After Xu Xiaoyan announced the dismissal, she left the teaching hall first.

Shangguan LAN 'er and Murong Fei Fei went together, and Lin Yi could only follow the two girls. However, Murong Fei Fei didn't have a courtyard to choose from because she was late, so she could only stay in the empty courtyard at the foot of the mountain. After leaving the teaching hall, the two of them would have to go their separate ways.

"Yingluo, shall I switch courtyards with you?"

Murong xuanyan caught up with her, trying to please her sister with a big smile on her face. She didn't know what unforgivable things he had done to be ignored by her sister.

"Who are you? Are we close?"

Murong Fei Fei, who was originally talking and laughing with Shangguan LAN 'er, immediately put on a straight face and looked at Murong Feiyan indifferently.

"Alright, alright, alright. I know. We're not close yet!"

Murong xuanyan shook her head with a bitter smile and immediately retreated!

"Yingluo, why don't you stay with me first? the courtyard is so big, and there's no one else other than the puppets. It's quite boring to live alone."

Shangguan LAN 'er conveniently invited Murong Fei Fei to stay in the second courtyard. She was too embarrassed to invite Lin Yi, but Murong Fei Fei didn't have that worry.

"Can I? I've never heard of a courtyard that allows two people to live together!"

Murong Fei Fei was a little moved. It was rare for her to have such a good chat with Shangguan LAN 'er. She also wanted to continue to be with her.

"No problem, if I say I can, then I can. I'm the Vice class monitor! You won't be wrong if you listen to me, go!"

Shangguan LAN 'er wasn't sure herself, but now that she remembered that she was the Vice class monitor, she thought to herself that she should at least have some power. It would definitely not be a problem to arrange for someone to live with him.

Lin Yi also smiled and shook his head. Since they were willing to be together, he naturally wouldn't object. This Murong Fei Fei didn't look like a girl with an evil heart. At most, she had a sharp tongue, but overall, she was more compatible with Shangguan LAN 'er.

After sending the two girls back, Lin Yi went back to his own yard. Xue Peng was very quiet on the other side, and Lin Yi couldn't find a chance to deal with him. He couldn't just rush into his yard and kill him, could he?

He'd be looking down on the school if he did that, and so he decided to wait for an opportunity. Xue Peng was right under his nose, after all, and he didn't have to worry about him running away.

"Let's first take a look at this spiritual sense cultivation technique!"

Lin Yi sat down cross-legged and flipped through the booklet he'd just opened. He only took a few glances before frowning.

These methods of cultivating the consciousness were indeed not very good, and all of them were incomplete. No wonder one had to be at the xuansheng stage or above to cultivate it. If one's strength was slightly lower, cultivating these methods would directly cost one's life.

"This won't do. Although letting LAN 'er cultivate such a technique can increase her divine sense and strengthen her primordial spirit, there will also be some hidden dangers that can't be detected. It's not good for her future development, so it's better to improve it a little."

Lin Yi shook his head slightly and mumbled to himself before starting to modify the methods in the book.

In fact, Lin Yi's battle tactics of heaven's stolen fortune was the best training method, but he was the only one who could practice it now, and he couldn't teach it to others, so even Shangguan LAN 'er couldn't use the modified version.

But it didn't matter-Lin Yi had the complete ancient martial world's spiritual sense training method. The ancient martial world's spiritual sense training method was for practitioners below the original infant stage, but the one Lin Yi was holding was for the xuansheng stage.

The two could be combined to form a new deified soul cultivation technique, achieving the goal of one plus one being greater than two.

The advantage of the battle technique for seizing heaven's fortune was that it could deduce cultivation techniques. There was no problem in deducing from the front to the back, and it could also be deduced from the back to the front!

Shangguan LAN 'er wouldn't be able to use the new one, but Lin Yi could use his own experience and come up with a new one by combining the two flawed ones.

Before dawn the next day, Lin Yi successfully derived a new spirit sense cultivation method, and after seeing her give it to him, he could start to cultivate his spirit sense properly!

Of course, Lin Yi didn't know that the Sky Class island's spirit training was incomplete. If he'd known, he would've told the people around him to train carefully.

Seeing that it was almost time, Lin Yi went directly to the second courtyard to wait for Shangguan LAN 'er. He didn't expect to see Murong xuyan at the entrance!

This guy could be considered a good brother. Knowing that his sister was here yesterday, he came early in the morning to wait for her.

"Brother Murong, you're early!"

Lin Yi greeted with a smile. Since Shangguan LAN 'er was on good terms with Murong Feiyan, he would naturally be more polite to her.

Besides, Lin Yi didn't have any bad feelings towards Murong xuyan. He just greeted her when they met.

"Brother Lin, you're early too."

Murong xuyan smiled as well. He was actually a little wary of Lin Yi, thinking that this guy would become his opponent, even more threatening than yang Dian!

However, his thoughts were similar to Lin Yi 's. Since Murong Fei Fei was on good terms with Shangguan LAN' er, he needed to be on good terms with Lin Yi as well. At least on the surface, he needed to be able to get along with Lin Yi, in case his sister went crazy again.

"Brother Murong and your sister seem to have some misunderstandings. Is there anything LAN 'er and I can help with? If there's a need, please don't hesitate to ask. Of course, if it's not convenient for you, you don't have to tell us. "

After Lin Yi and Murong xuyan greeted each other, they had nothing else to say. The two were silent for a while, and Lin Yi found a topic to talk about.

Although Lin Yi and Murong xuyan's relationship wasn't good enough for them to talk about private matters like this, Lin Yi felt that they were just finding something to talk about. At most, they would have nothing to say after they finished talking. It wouldn't be worse.

"It's just a small misunderstanding between my younger sister and I. We've always been like this since we were young! Brother Lin, don't worry, she'll be fine after a while. When that time comes, she'll become my tail again, and I won't be able to shake her off even if I want to. "

Murong xuyan smiled and shook her head. From his expression, one could feel his deep love for his sister.

Chapter 6522 A Chance Encounter At The Entrance

"That's good. It seems that brother Murong and your sister's relationship is really good. Outsiders like us won't understand, so we're worrying for nothing. "

Lin Yi smiled faintly. Although Murong xuyan didn't mention what kind of friction and misunderstanding there was between him and his sister, it was already a good start to tell Lin Yi.

Besides, Lin Yi only wanted to find a topic to talk about. He didn't need to know about the siblings. He wasn't that nosy.

"I have to thank brother Lin for your concern. My younger sister has been with me since she was young, and I don't have any close friends. I'm also happy for her to be able to meet Junior Sister Shangguan at first sight! In the future, I may have to trouble brother Lin and Junior Sister Shangguan to take care of my younger sister. If there is any inconvenience, please forgive me. "

Murong xuyan was very polite. Lin Yi's impression of him improved a lot when he was willing to do this for his sister.

At the very least, such a person was not a bad person. He was definitely much better than yang Dian.

"You're too kind, brother Murong. LAN 'er's situation is similar. She didn't have many friends since she was young. Her only best friend from the West Island is still in another Academy in the mystic division sea. It's her good fortune to be friends with your sister. From now on, we'll just help each other. There's no need to trouble each other, right?"

Lin Yi was the kind of person who would return the favor ten times if someone showed him respect one foot. If Murong xuyan was polite, he would be polite as well. The atmosphere between the two was very harmonious, and their conversation started to become casual.

The two of them stood at the entrance of the second courtyard and chatted happily for a while. Then, Shangguan LAN 'er and Murong Fei Fei walked out hand in hand.

Seeing that Murong Feiyan was also at the door, Murong Feifei's smile disappeared immediately, making Murong Feiyan very embarrassed. They were, after all, biological twins, so there was no need to be so disrespectful, right? He didn't even show her a smile so early in the morning?

"Lin Yi, Lil" bro, you're here this early? I was going to call you when I passed by. "

Shangguan LAN 'er, on the other hand, gave Lin Yi a bright smile and greeted Murong xuyan with a nod.

Although Murong Feifei didn't like Murong Feiyan for the time being, they were still blood-related siblings after all. Shangguan LAN 'er wouldn't neglect Murong Feifei's brother.

"I have something to tell you, and I left early, so I came to find you. I just happened to see brother Murong here, so we chatted for a while."

Lin Yi greeted Murong Feifei with a smile before turning to talk to Shangguan LAN 'er.

"If you have something to say, I'll take my leave first!"

Murong yuanyan's mind was sharp and clear. Hearing Lin Yi's words, she knew that it was not convenient for her to continue waiting for Shangguan LAN 'er. She guessed that Lin Yi was trying to create an opportunity for Murong yuanyan. Whether it was true or not, it was right for her to leave first.

"That's good, then we'll meet again in the teaching hall. Brother Murong, are you going with your sister?"

Lin Yi turned and winked at Murong xuyan. He could do her a favor at no cost.

Murong Jinyan looked back at her with a grateful expression and immediately nodded in agreement. ""Then I'll take my leave as well. I won't disturb brother Lin and Junior Sister Shangguan's conversation."

Murong Fei Fei and Shangguan LAN 'er smiled and said a few words, "see you later." Then, she snorted and swung her long ponytail. She walked past Murong Fei Yan with a proud face, not even bothering to talk to him.

"Hey, Yingluo, look out for the road. There's a pit over there, don't roll in!"

Murong xuyan greeted Lin Yi and Shangguan LAN 'er briefly and quickly chased after them. However, his words would easily get him beaten up by Murong xuanyan!

"Get lost! Why didn't you roll down? Who are you? Are we close?"

Murong Fei Fei turned around and scolded, but Lin Yi and Shangguan LAN 'er didn't hear much anger in her voice.

"Are we not close? I even know your father and mother, and I also realized something. It's so coincidental that I also call them father and mother! How could there be such a coincidence?"

Murong xuyan's thoughts were a little active today. She finally didn't give up on the question of familiarity.

Perhaps it was because there were no outsiders around, but when there were only the two of them, the siblings 'bickering mode could start smoothly.

"Murong xuanyan! You said you wouldn't bring your parents out to talk, you're cheating!"

Murong Fei Fei's eyes widened in anger, but in the end, she couldn't help but laugh.

Murong yuanyan also laughed out loud. The little conflict between the two siblings had probably disappeared like smoke in the wind. As expected, quarrels between biological siblings were just a means to enhance their relationship.

"Ha ... These two siblings are quite interesting. However, it's a good thing that they've reconciled."

Lin Yi shook his head with a smile as he watched the two walk away.

"Lin Yi, Lil" bro, is there really something you need me for, or are you just trying to create a chance for the two of them to be alone and clear up the misunderstanding?"

Shangguan LAN 'er tilted her head as she looked at Lin Yi, her big eyes blinking, a sly smile on her face as if she had seen through everything.

"Of course it's because I have something to talk to you about. What does it have to do with me whether the two of them are on good terms or not? I don't have that much free time. "

Lin Yi smiled and didn't say anything else. He handed the revised booklet to Shangguan LAN 'er.

"I have this one too, why are you giving me another one?"

Shangguan LAN 'er took it, but didn't open it. She looked at Lin Yi suspiciously.

The booklets distributed by Xu Xiaoyan were all the same, so Shangguan LAN 'er knew it was no other book as soon as she got it.

"The techniques for cultivating the spiritual sense here are all incomplete. I've modified them a little, and there are three that are more suitable for you to cultivate. You have to keep this booklet well and don't let anyone see it, not even Murong Fei Fei. Also, I can't let anyone know that I've changed my spirit sense cultivation method. "

In order to avoid unnecessary trouble, Lin Yi sent these words directly to Shangguan LAN 'er.

There was a reason why he was being so cautious-the Sky Class island only had incomplete spirit sense training methods, and if people knew that Lin Yi had this ability, he'd become a Public Enemy.

As the saying goes, an ordinary man is not guilty, but a treasure is a crime!

Lin Yi's current strength was nothing in front of a real master. He may have seemed to be in the limelight all along, fighting and killing people of a higher level, but that was all because of his many hidden cards!

For example, the little spirit beast, the black bead of the big Frog, and the ghostly thing's self-sacrifice at the critical moment. These were not his own strength and were not enough to be relied on in the long run.

Chapter 6523 The Benefits Of Body Tempering

Mystic class seas valued spirit sense-if the news of Lin Yi being able to repair spirit sense got out, he'd really be in danger. He didn't know how many masters there were in Mystic class sea, but with his strength, he was no match for them.

"Mm, I understand. I won't let anyone know!"

Shangguan LAN 'er also understood how important this was to Lin Yi, and immediately nodded seriously, putting the booklet into her storage ring. She even looked around vigilantly, afraid that someone would see it.

In fact, Lin Yi's spirit sense had already covered the surrounding area, and he'd find out if someone came. Talking to him was just a safer way.

"Alright, let's go to the teaching hall. Yesterday, instructor Xu lectured us for almost an entire day. I wonder what he will talk about today or what he will teach us. I'm looking forward to it."

Lin Yi smiled and went back to talking as he walked down the stairs with Shangguan LAN 'er.

"Lin Yi, Lil" bro, you're not expecting to see mentor Xu, are you? She's a real beauty!"

Shangguan LAN 'er suddenly said something that even Lin Yi was surprised by.

"What are you thinking? That's our instructor!"

Lin Yi didn't know whether to laugh or cry as he looked at Shangguan LAN 'er. Did this girl like to tease him recently?

This kind of evil practice can not be allowed to grow! How should I educate her?

Lin Yi thought hard and realized that it was good enough that his little brother wasn't being taught a lesson by her-he shouldn't try to resist!

"What's wrong with the instructor? Isn't a teacher a great beauty?"

Shangguan LAN 'er giggled, as if she found Lin Yi's expression interesting, and didn't want to let him go.

"Yes! So what if instructor Xu was a great beauty? Don't joke around with your teacher, we have to respect him!"

Lin Yi pretended to be angry and looked at Shangguan LAN 'er with a serious face.

"Alright, then I won't say anymore."

Shangguan LAN 'er stuck out her tongue with a smile and stopped talking about this topic.

The two soon arrived at the teaching hall. Other than the Murong siblings, there weren't many people here. Lin Yi and Shangguan LAN 'er saw that the two siblings had made up, so they smiled and went up

to talk to them. The atmosphere between the four was very harmonious. After Murong buqi came, he couldn't get into their little circle for a while.

After a while, all the new students had arrived one after another. They were naturally divided into small circles and were talking to each other.

Yang Dian and Xue Peng were the only two people who stood alone on the side with no one around them.

Xue Peng had no choice. Whether they were official or write-in students, they were all related to the Murong family. They wouldn't come to get close to him for no reason.

As for the schools that passed the test, including the one that was transferred from the divine refinement school, they all knew that Lin Yi and Xue Peng didn't get along. In Feiyang school, Lin Yi and Shangguan LAN 'er clearly had an advantage, so they all grouped together and excluded Xue Peng.

As for yang Dian, since he was a senior student from the previous batch, he had the best resources in the new class and even snatched the class monitor, so he was naturally viewed with hostility by everyone. He wanted to talk to Shangguan LAN 'er and Murong Fei Fei, but he had not digested the humiliation he suffered yesterday, so he was more obedient today.

"Everyone's here pretty early! "Very good, I like students who are punctual the most. Everyone has done well. Yesterday, we talked about spiritual awareness cultivation. Today, we are going to talk about body cultivation. Perhaps everyone will say that body cultivation doesn't need special attention. When the strength level increases, the body will naturally be strengthened. For those who think this way, I can only say that you are wrong! A true body-refining expert could contend with experts of the same level without using true energy, but what would happen if he used true energy? I don't think I need to say more, right?"

As soon as Xu Xiaoyan came in, she was still smiling like a flower. Then, she went straight to the point and talked about the content of today's class.

Lin Yi nodded slightly. He was now pursuing the Trinity of consciousness, Qi, and body training, so he agreed with Xu Xiaoyan's theory.

However, he didn't expect Xu Xiaoyan to talk about body cultivation in the second class. Did Feiyang college also have this kind of Trinity cultivation concept?

However, in terms of spiritual sense cultivation, Feiyang college was destined to be unable to do this. However, it should not be a big problem to cultivate both body cultivation and true Qi.

Just like in the secular world, there were internal and external cultivators. Those who cultivated both would definitely be stronger than cultivators of the same level who only cultivated in one direction.

"Although you guys didn't say anything, I can already see that some people don't think so. Do you guys think that pure body refining is meaningless, and that it's enough to just increase your level? I just said that body practitioners can fight against experts of the same level without using true Qi, don't you think it's too difficult? Do you want us to try?"

Xu Xiaoyan looked around with a smile and clenched her white and slender fist, making a crisp cracking sound.

All the students were cursing madly in their hearts. We didn't say anything, we didn't do anything. It's all instructor Xu's own words!

Who told you that we don't care? Who told you that we thought it was too difficult?

In terms of body training, Lin Yi was probably the only one who was pretty good at it. The rest of them were mostly natural body strengthening after their strength increased-they couldn't even be considered body training.

To make a simple comparison, if they were all at the peak of the xuansheng stage, the others 'bodies would be the normal human' s, but after Lin Yi's body refinement, his body would be comparable to the spirit beasts 'at the peak of the xuansheng stage.

If everyone didn't have pure Qi, Lin Yi could still fight against the Masters of the spirit beast clan, but the others would be torn to pieces.

This was the difference between body-tempering and non-body-tempering!

However, as one's strength increased, the difficulty of body tempering would become more and more difficult. This was also why most people would choose to cultivate true Qi.

For example, Xu Xiaoyan's complete earth-splitting strength would be stronger than Lin Yi's current body even without body training. This was the body's natural evolution under the nourishment of pure Qi. In order to withstand more pure Qi, the body naturally needed to be stronger.

In other words, if Xu Xiaoyan wanted to teach this new student class A lesson, she could still completely abuse these rookie new students without using true energy and martial arts techniques.

"Silence means consent. Who wants to try the benefits of body refinement first?"

Xu Xiaoyan's smile was like a flower, and she had already started to think about who to pick first to try.

Chapter 6524 A Good Opportunity To Persuade Others To Retreat!

No one wanted to be a sandbag, so they all turned to look at yang Dian.

As the class monitor of the new student class, of course, he had to step forward at this time. Not to mention, it was also a happy thing to see him being beaten up by Xu Xiaoyan. Needless to say, everyone was actually a little looking forward to it.

"Instructor Xu, we all agree with what you said. There's no need to demonstrate. You can just directly teach us the body refining method. I can't wait!"

Yang Dian didn't want to be the scapegoat, so he immediately put on a smile and tried to divert Xu Xiaoyan's attention.

"Yang Dian, you're a senior from the previous batch, and you've been practicing body refinement for a year. It's just right for you to demonstrate to your junior brothers and sisters. You can also show me how far you've reached in body refinement. Come on!"

Xu Xiaoyan smiled and waved at yang Dian, not paying attention to what he said.

Yang Dian really wanted to cry but had no tears!

What was there to demonstrate about body refinement? Wasn't this just getting beaten up?

Let everyone see how happy it is to be beaten up after body cultivation? Instructor Xu, can we stop?

"Come on, why are you in a daze? Don't you want to listen to your mentor? This will deduct your credits! Especially if the class monitor doesn't listen to the instructor, you'll have to pay double!"

Yang Dian's forehead was full of black lines. Looking at Xu Xiaoyan's beautiful smile and the terrible words she said, he could only walk over obediently.

"Instructor Xu, Let's Make a Deal first. My body refining is not good enough. I didn't refine my face at all, so I can't hit my face!"

Yang Dian looked at Xu Xiaoyan with vigilance, afraid that his handsome face would be damaged.

"Oh, really? Maybe your skin is too thick, so you don't need to train this part of your body. You can try it later. "

Xu Xiaoyan's lips curved into a beautiful arc as she looked at yang Dian with curved eyes, making the genius of the last tournament break out in a cold sweat.

"Instructor Xu, let's just forget it."

Yang Dian felt that he really shouldn't mess with beautiful women. Each one was more powerful than the last. How was he going to live in the future? She couldn't possibly turn around and look for a handsome guy, right?

"Stop talking nonsense. You're not allowed to use your true energy. I'm going to make my move!"

After Xu Xiaoyan finished speaking, she kicked lightly with her long legs and kicked at yang Dian with lightning speed.

Yang Dian had no choice but to lower his body, cross his hands in front of him, and receive the kick ...

Then, his entire body flew out like a cannonball and fell to the ground near the martial arts stage. He rolled a few times before coming to a stop.

"Instructor Xu! I admit defeat! I admit defeat!"

Yang Dian didn't get up. He quickly lay on the ground and pretended to be dead. This demonstration was enough. If he did it a few more times, he was afraid that there wouldn't be many bones left. He had better admit defeat quickly.

"You're too weak! There's no demonstration effect at all!"

Xu Xiaoyan retracted her long legs, sighed, and shook her head. She finally let this guy go.

Yang Dian secretly wiped the cold sweat from his forehead and secretly heaved a sigh of relief. His arms were still in pain. If he didn't use his true energy, he would definitely be at a disadvantage in this head-on fight!

Even if he used his true energy, he would definitely be at a disadvantage ...

"Everyone can see that, right? If you can't train your body, you'll be at a disadvantage in battle, so you can't underestimate body training. "

Although Xu Xiaoyan didn't feel satisfied, it was still good to achieve the effect.

"Instructor Xu, yang Dian was a genius from the last batch, so his body refining should be not weak. His body refining doesn't seem to be helpful in combat. Wouldn't it be better to use his time to cultivate true energy or divine sense?"

There was no need to ask who said this. It was definitely the honest boy, Murong buqi!

Murong xuyan wanted to cover her face again. How could she have forgotten to sew this guy's mouth first?

It was not easy to see yang Dian make a fool of himself, and he was secretly pleased. Was he trying to direct the fire to him?

"Brother, I finally understand why buqi's parents gave him such a name. It was to remind them that he was their biological son and they must not give him up!"

Murong Fei Fei covered her mouth and laughed secretly. It was hard to believe that she could still maintain her usual poisonous tongue at this time ...

Murong Feiyan almost laughed at his sister's words, but he didn't dare to laugh out loud. Teacher Xu Xiaoyan was obviously not in a good mood after hearing Murong buqi's words. If she saw Murong buqi laughing, she might think that she was laughing at her teacher, and that would be really unlucky.

This damned girl, could she be deliberately setting me up? Murong xuyan's mood was fluctuating. In order to keep her expression normal, she almost suffered an internal injury ...

"Murong buqi, what you said is very reasonable. You've actually made teacher speechless. Come, come, come, let me show you the benefits of body cultivation. After you experience it for yourself, you'll more or less understand."

Xu Xiaoyan still had a smile on her face, but the slight sound of grinding teeth showed that her smile didn't mean she was in a good mood.

"Instructor Xu, I was wrong! I'm just a new student and don't know anything. Please forgive me, instructor Xu. Please continue with your lecture!"

Murong buqi, this honest boy, seemed to have been enlightened all of a sudden. With such a straightforward attitude of admitting his mistake, even Murong xuyan was about to have a whole new level of respect for him!

It seemed that Xu Xiaoyan's two beautiful little fists also had the additional effect of improving the students 'IQ!

Xu Xiaoyan squinted her eyes and stared at Murong buqi for a while, until his back was covered in cold sweat, then she nodded and retracted her cold gaze.

"You're right. As a new student, you should listen to your teacher. Otherwise, what do you need a teacher for? Can't you just be your own instructors?"

Xu Xiaoyan reached out her hand and pointed at Murong buqi, indicating that she would remember this debt first. Whether or not it would be settled in the future, that would have to wait.

With Murong buqi as an example, no one dared to raise any more doubts. It seemed that Xu Xiaoyan, this beautiful mentor, did not have a gentle and beautiful temper as she looked. They should be more careful!

"Let's not talk too much about body training today. Let's start training. No one is allowed to use true Qi. Starting from the teaching hall, we will go up the mountain, then down the mountain, and then to the teaching hall on the mountainside. Within four hours, whoever runs the most laps will get a credit reward, whoever runs the least will have their credits deducted, and whoever gives up halfway will have even more credits deducted! We'll talk about the exact amount when the time comes. Now, start running!"

Xu Xiaoyan seemed to have lost interest in talking, so she let everyone go up and down the mountain for a run.

Hearing this news, the only person whose eyes lit up was Xue Peng. He was just thinking about how to be persuaded to leave as soon as possible, and this opportunity had appeared. Others were the least afraid of running away, but he was afraid that he would not be the last!

Chapter 6525 A Serious Expression

"Listen up. I can see your status at any time. If anyone doesn't run with all their strength and skits in the middle, I'll have to train him in body refining myself! In four hours, if anyone holds back their strength and doesn't run with all their might, you'll know what the consequences are!"

Xu Xiaoyan's smile was a little cold, and she clenched her fists a few more times, making a crisp cracking sound.

Everyone's heart turned cold. They stole a glance at yang Dian, whose hands were still trembling and had not recovered, and instantly put away their thoughts.

Compared to running, being personally taken care of by instructor Xu Xiaoyan was really too scary!

Originally, they had thought that as long as they were not in the last place, they could just run around. Although they could not use true energy, four hours was not too long and should not be too tiring.

But now, no one would think that way anymore. They all secretly swore in their hearts that they would definitely use all their strength to run!

"Don't worry, instructor Xu. I'll keep an eye on them and lead them. I won't make you worry!"

Yang Dian patted his chest with his trembling hand. He didn't dare to say anything and ran out first.

Following that, the students behind him also followed. At this time, there was no room for modesty. Since they were going to run with all their might, then they would go and fight to see if there was a possibility of first place!

No one was using true energy, so it was really hard to say who would win!

"Lin Yi, Lil" bro, you don't have to keep me company-mentor Xu said we have to run at full speed, you'll be targeted if you do this. "

Shangguan LAN 'er knew Lin Yi's strength, and so when she started running, she saw Lin Yi following her at a steady pace, and quickly whispered to him to leave first.

"It's okay, I'm running at full strength, but I don't use zhenqi to run. The distribution of energy is very important. You can't rush too fast at the beginning, or when you consume too much energy, your speed will become slower and slower later. You might collapse in less than four hours. Didn't you hear what the teacher said? The punishment for giving up halfway is even heavier. "

Lin Yi smiled and explained to her in a low voice.

Murong xuanyan and Murong Feifei were right beside Shangguan LAN 'er, and Lin Yi didn't want to hide it from them, so he didn't use telepathy. Although his voice was soft, the two of them could still hear him.

"Brother Lin is right. We shouldn't rush in too fast. If we accidentally use true Qi, instructor Xu will definitely notice."

Murong yuanyan nodded in agreement. Murong Yuanyuan was going to go with Shangguan LAN 'er anyway, so it didn't matter how fast it was.

Thus, the four of them ran unhurriedly and gradually fell behind the team. They didn't care and continued to run at their own pace.

At first, Xue Peng wanted to fish in troubled waters and get last place so that his credits would be deducted, but he was afraid that Xu Xiaoyan would pull him to demonstrate her body refinement, so he

decided to run normally. He felt better that Lin Yi and the others were behind since it was always good to be far away from Lin Yi.

By the time the four reached the peak, everyone had already left.

Although they couldn't use their true energy, these people were still in good health, especially yang Dian, who had taken the lead and was now far ahead of the main group.

This guy was ready to fight for the first place. It seemed like he had a strong need for credits and would not let go of any opportunity to increase his credits.

"Going up the mountain is quite physically exhausting. Without using true energy, I can't say for sure that I can finish running for four hours! Brother Lin's suggestion to distribute the stamina points is really correct. "

When the four of them started to return from the top of the mountain, Murong xuanyan couldn't help but sigh.

In the past, they had all used true energy to move. Once they stopped using true energy and relied solely on their physical strength, they immediately felt the difference.

"Am I right? If we keep running like this, we'll definitely slowly surpass everyone. Don't worry, we won't be the last. "

Lin Yi said with a smile as he ran down the mountain.

His body was undoubtedly the best among the four of them, so running in front to take the lead would make the people behind feel more relaxed.

Moreover, he had experience in long-distance running. When he was in the secular world, he had this kind of training since he was young. It was not a problem for him to run up and down West Star Mountain a hundred times a day. With him controlling the rhythm, the stamina consumption of the three people behind him would be less.

Shangguan LAN 'er and the other two didn't know what was going on, but they didn't feel tired at all following Lin Yi. They automatically lined up like this and ran down the stairs at a steady pace.

Yang Dian ran back before they reached the foot of the mountain. He saw Lin Yi and the others and greeted them with a smile from afar, ""Sister LAN 'er, sister Wanwan, you guys should run with me. Following this Lin Yi is a waste of your time! I've experienced this kind of running method many times. There won't be a problem if you follow me. I guarantee that you'll get a good result. "

Shangguan LAN 'er gave yang Dian a dirty look and didn't even bother to talk to him. She just walked past him, but Murong Fei Fei smiled.

"Okay, but we haven't reached the foot of the mountain yet. Why don't you run down with us first and then we can run together?"

Murong Fei Fei's smile was very sweet, but her words weren't sweet at all. She was clearly digging a hole for yang Dian to jump into!

He didn't expect yang Dian to agree without hesitation. He knew it was a trap, but he still jumped into it so easily. He was indeed talented!

"It's a small matter. Come, you guys run with me. I'll bring you guys a lot faster than that useless Lin Yi. Junior Brother Murong, do you want to come with me?"

Yang Dian didn't say anything. He directly turned around and ran down the stairs. He even asked Murong Qianyan kindly.

It couldn't be helped. Murong Feiyan was Murong Feifei's brother and was one of the people yang Dian needed to be on good terms with.

"Ran ran, don't make fun of this class monitor yang Dian. It's a small matter to delay him from earning credits, but it's a big deal to disrupt our rhythm."

Murong xuyan didn't like to talk to yang Dian either. She was just dissatisfied with her sister's behavior.

Murong Fei Fei thought about it and agreed. It wasn't worth it to delay her own rhythm in order to tease yang Dian, so she might as well send him away.

"Senior brother yang Dian, you promised to help me yesterday, but you haven't done it yet!"

Murong Yanyan's words changed and she started to use her trump card from yesterday.

"Junior Sister Yingluo, don't joke around ..."

Yang Dian's mouth twitched. How is that helping? Help her stay away from her?

Who would stay away from a girl when they wanted to pursue her? But that was what yang Dian had promised himself. He had brought this upon himself!

"I'm not joking. Senior yang Dian, can't you see my serious expression?"

Murong xuanyan turned her head and pointed at her beautiful face.

Chapter 6526 Advantages Of Body Tempering

Yang Dian was dazzled by her pretty face, and then he felt like ten thousand horses were galloping in his heart!

This wasn't a serious expression, it was clearly a mocking expression, okay?

"Okay, senior brother yang Dian, you'd better leave quickly. Remember, I like senior brother yang Dian very much, and I like you to stay away from me!"

Murong Fei Fei giggled and waved at the embarrassed yang Dian, then ran away.

Yang Dian, who had stopped, spat bitterly. He could only turn around and run up the mountain unwillingly. He was thinking about when he should teach this little girl a lesson and let her know that it was a big mistake to like to stay far away!

"Yingluo, you're provoking yang Dian like this. Be careful that he will take revenge on you! I don't think that guy is a broad-minded person. There will be a chance for him to catch you. After all, he is the class monitor, so you must not be careless. "

Out of concern for her sister, Murong xuyan reminded her seriously.

"I say, brother, it's all because you're not good enough. Wouldn't it be fine if you snatched the class monitor over? You can't even defeat yang Dian, it's so embarrassing. I'll take care of you in the future, just follow me obediently!"

Murong Fei Fei casually criticized her brother, and it didn't feel out of place at all.

"What do you mean you can't beat them? He's a genius who can open a mountain with a thought. Even if he were to cross levels and challenge an expert in the opening stage, he might still have a chance of winning!"

Murong yuanyan was naturally not convinced. Although he felt that he had lost a little aggrievedly, it hurt his self-esteem to be looked down upon by his sister!

"You're saying it as if we can't skip levels and challenge those in the mountain opening stage. Is that rare?"

Murong Fei Fei had a disdainful look on her face. She rolled her eyes and lowered her voice, ""Brother, why don't we find a chance to ambush yang Dian and beat him until he can't even take care of himself? this way, we can eliminate the threat in advance. With our strength, we can definitely suppress that yang Dian if we work together!"

"What are you thinking? Private fights were forbidden in the Academy, let alone ambushes! If you want to be fired and get beaten up by your dad, don't drag me down with you!"

Murong xuyan was furious. This sister was really lawless. She couldn't be ignored!

"What are you saying? Father hasn't beaten me up since I was ten years old, and I've always given you my share, right?"

Murong Fei Fei didn't feel that there was anything wrong with that. Instead, she felt a little proud.

Murong Feiyan thought that this was what she was angry about!

Why do you beat me up every time I get into trouble, and you still beat me up when I get into trouble?

If we get into trouble together, I'll still be the one getting beaten up, and twice as much?

Although they were twins, Murong xuyan had always thought that she was picked up from the streets, right?

Although she said that, Murong Feiyan couldn't bear to see her sister get beaten up, so it was fine to take the beating for Murong Feifei, but she couldn't take the beating for no reason!

But in that case, body cultivation seemed to be a good idea. At least when he was beaten up in the future, his father's hand would hurt a little. This way, he would be beaten less, right?

To be able to use body cultivation in this place, Murong xuyan's brain hole was quite big. She wondered what his father would do if he knew? He would probably find a metal rod to beat him up ...

Lin Yi, who was running in front, couldn't help but want to laugh. Were these two siblings sent by the monkeys to be a joke?

But because of this, Lin Yi and Shangguan LAN 'er both felt that this kind of friend was not bad.

The four of them followed Lin Yi's pace and distributed their energy accordingly, climbing up and down the mountain at a steady pace. An hour later, they had completed ten laps.

During this process, the four of them were no longer the last team. Instead, they had unknowingly run to the front of the middle.

Yang Dian, on the other hand, was one lap ahead of the slowest runner. He had a clear advantage, but he was only half a lap behind Lin Yi.

At this time, Xu Xiaoyan's figure would appear on the mountain road from time to time. Every time she appeared, she would beat a student a few times and seal the other party's dantian Qi sea.

Without a doubt, this guy couldn't help but use his pure energy. With Xu Xiaoyan's strength, it was more than enough to monitor these twenty people. No one could hide from her except Lin Yi.

"I didn't think that using my body to go up and down the mountain would be so tiring. It's only been an hour. If I didn't run with brother Lin, I might have had to use my true Qi."

Murong xuanyan gasped and couldn't help but sigh.

"You've been used to using Zhen Qi since you were young. Before you officially start body cultivation, this habit is actually not good for your body. Once you lose the help of Zhen Qi, you will be very uncomfortable! "Therefore, I think that instructor Xu's training this time is still very meaningful. If you encounter a situation where your true Qi is sealed in the future, body cultivation will be of great help."

Lin Yi still looked relaxed and at ease. When he turned around and smiled at Murong xuyan, his breath wasn't disordered at all.

"Brother Lin, do you think that there will be a situation where true Qi can't be used? If there was such a situation, it would probably be a situation where he was the meat on the chopping block, right? If you don't have a strong body, you won't be of much help. "

Murong xuanyan still didn't think much of it. He always thought that genuine Qi was the foundation. Body cultivation and spirit sense were only Supplementary Methods at most. He didn't need to spend too much time on them.

Just as Murong buqi had said, if he had the time to train his body, he would be able to gain more from it.

"Brother Murong, please don't think that way. That kind of situation definitely exists! Let me give you a simple example. Two people who are evenly matched, after a battle, both of their true Qi will be completely consumed. At that time, do you think the body practitioner has the advantage, or the person without the body practitioner has the advantage?"

Lin Yi found an example so easily that Murong xuyan was speechless.

This was because such a situation really existed. Once it happened, there was no doubt that the body cultivator would completely crush the opponent who didn't cultivate the body.

"What brother Lin said makes sense. In any case, this is the curriculum. We have to cultivate in the end, so let's just cultivate properly!"

Murong xuanyan followed his advice and didn't continue to argue on this issue.

Out of the four, Shangguan LAN 'er was the weakest, and naturally the one with the weakest body. So after an hour, although Lin Yi was controlling the rhythm and helping her distribute the energy, she was still a little tired, and didn't even want to talk anymore.

Chapter 6527 Exposed

Thinking that she still had an hour and a half left to run, Shangguan LAN 'er suddenly felt very uncomfortable.

But with Lin Yi by her side, she didn't want to give up. As long as Lin Yi was by her side, all the difficulties didn't seem to be a problem!

After another half an hour, the Murong siblings did not want to speak anymore.

Other than yang Dian, only Lin Yi's group of four didn't stop. The others had underestimated the simple task of running up and down the mountain.

At this time, all of their legs felt as heavy as lead. They didn't even feel like they were their own legs, let alone walking.

Yang Dian's speed also inevitably slowed down. Although he had the experience from last year, he thought the same as Murong Feiyan. He always felt that it would be better to use his time to cultivate genuine Qi, so he didn't spend too much time on body training.

The reason why he stopped at the level of mountain-splitting with a thought wasn't because he wanted to dig out more of the potential of the Trinity as Lin Yi thought-it was entirely because he wanted to purify his Qi!

Once one broke through, true Qi would be one of the sources of power!

It could be said that he and Lin Yi didn't choose the same path, and their future achievements couldn't be compared. Lin Yi's potential was obviously much stronger than yang Dian 's.

Yang Dian was half a lap ahead of Lin Yi's group, but because of the drop in speed, Lin Yi was now much closer to him and could see his back from afar.

There was no one else between yang Dian and Lin Yi's group of four. Those who had been lapped once or twice didn't count-these five were the first group.

There were still two hours left. It was hard to say who would run the most laps in the end, but it seemed that it would be difficult for yang Dian to keep running all the way to the end.

"Hey, Murong buqi, you're giving up just like that? If you can't run, then walk slowly. Don't stop, if you stop, it means you're giving up halfway. Do you understand? let's go!"

Lin Yi saw Murong xuyan's clansmen by chance and reminded them.

This honest boy was still okay. He had only been overtaken by one round, while most of the write-in students had been overtaken by more than three rounds. The gap was indeed quite big.

"Murong buqi, did you hear what brother Lin said? let's go, don't embarrass the Murong family!"

Murong xuyan didn't want to say anything, but since Lin Yi had spoken, and this person was from the Murong family, he couldn't just pretend he didn't see anything.

Murong buqi didn't reply, he just nodded while panting heavily, and really dragged his heavy feet, one step at a time!

As Lin Yi said, it didn't matter if she ran or walked slowly-it was a sign that she didn't want to give up!

If he were to lie on the ground, he would have given up completely. Not to mention the punishment for giving up halfway, even if there was no punishment, he couldn't give up just like that. That would be a disgrace to his 'no abandon' name!

Lin Yi only let Murong buqi continue because of Murong xuyan and his sister, but he didn't expect this guy's willpower to be so strong. He couldn't even walk anymore, but he still gritted his teeth and kept running!

But it was still hard to keep up with Lin Yi's pace, and so the distance between them widened again. Even so, he didn't give up.

This made Lin Yi very happy-he felt that his words weren't for nothing. It wasn't easy for them to have such an effect.

As Lin Yi walked forward, he started encouraging the students on the ground. They were all in the same class, and Lin Yi felt like he should help them out if he could. He even reached out to pull them up.

As a result, the originally sparse running teams on the mountain path began to slowly increase again. It was just that these students who rejoined were mostly walking and not running.

After their true Qi was sealed, the burden on their physical bodies became even more obvious. The fatigue and pain were also extremely clear.

The students had never experienced this feeling before. They deeply understood how inconvenient it was to not have true energy ...

However, no matter what, they had already begun to have the idea of tempering their bodies. It was not that they wanted to become stronger, but it was enough to make it easier for them to run in the future.

A few people who couldn't stand up after Lin Yi's encouragement saw the people at the back gritting their teeth and holding on, and finally stood up and joined the group.

At the last moment, no one gave up, and they held on for another two hours.

At this moment, they had already exceeded the limits of their bodies, but they still persevered.

This willpower had already moved Lin Yi, but their bodies made Lin Yi look down on them.

They had only been up and down the mountain for four hours. They were all great masters of the xuansheng stage, but they couldn't even hold on. Even the elite soldiers of the secular world were stronger than them, right?

Even if they didn't use true energy, their explosive power was enough to deal with the elites among ordinary people, and they could still easily crush a group. However, in terms of running, without the use of true energy, their endurance was really not good!

So far, Lin Yi and the others had run around forty laps, and so had yang Dian. He was riding alongside Lin Yi and the others, and there was almost no difference between them.

Those who ran less should have run around twenty to thirty laps.

For the last time, he ran up from the foot of the mountain. Looking at the teaching hall halfway up the mountain, yang Dian began to exert his strength. He had to win first place, or it would be too embarrassing.

The previous batch's geniuses had already trained their bodies for a year. In the most basic running, mountain-climbing, and downhill competition, they lost to the new students in the end?

It would be so embarrassing if word got out!

He had stayed behind to enter the new student class so that he could obtain first place in everything and obtain the most resources so that he could help himself improve. If he were to be defeated by the new students the next day, what would he do for the next year?

What was the point of staying in the new student class? To be ridiculed?

Therefore, no matter what, yang Dian couldn't fail. He used all his strength and was almost at the critical point of using his true energy!

If he didn't have experience in this area, he might really not be able to control himself.

At this time, Xu Xiaoyan suddenly appeared beside Lin Yi's group with a faint smile. She didn't even look at Lin Yi and the others, only looking up at the sky and said indifferently, "If those who didn't use all their strength still can't get first place, then they'll have to be my sandbag for four hours!"

After he finished speaking, he left in a carefree manner ...

Lin Yi was speechless. He thought that he could hide his condition, but Xu Xiaoyan saw through it!

Chapter 6528 The Unlucky Xue Peng

Maybe Xu Xiaoyan was just bluffing, but no matter what, she was sure that Lin Yi didn't use his full strength.

To be a sandbag for four hours?

Lin Yi thought that this punishment was very creative, but he didn't want to try it at all. He wanted to surpass yang Dian at the last minute and get first place's points, and now he couldn't let it go.

In order not to be a sandbag, he had to start sprinting now!

"Instructor Xu is talking about me. I'll take my leave first. You guys can come up slowly!"

Lin Yi turned around and gave the order. He didn't wait for the others to reply before he started his final sprint.

Even if Lin Yi hadn't reached his limit yet, the four hours of climbing and descending the mountain still made him very tired. This was very good for body training.

After he returned, he would use the heaven seizing fortune battle technique a few times, and his body might have a trace of improvement!

Don't look down on this little bit of progress. It was not easy to have such a harvest after just four hours of running.

When Lin Yi started to speed up, the distance between Murong xuyan and the other two was quickly widened.

They were shocked to find that Lin Yi had hidden a lot of his strength!

At least in terms of physical strength, the three of them combined were no match for Lin Yi.

Of course, Murong xuyan wasn't convinced. She always thought that body training wasn't very useful in actual combat. Lin Yi's example was reasonable, but that would only happen when both sides were equally matched!

If one party's strength was higher than the other, then the natural physical strength and true energy would also be higher than the other party. This way, there would not be a situation of a tie, so true energy was still the most important!

At least, he felt that Lin Yi was no match for him in terms of pure energy.

Similarly, yang Dian noticed Lin Yi's approach immediately.

No, he wasn't getting close-it only took a few breaths for Lin Yi to overtake yang Dian and charge at full speed into the hall.

Yang Dian, who was dumbfounded, didn't even think about chasing Lin Yi anymore. Lin Yi's speed had completely exceeded his limit. He couldn't catch up to him even if he was beaten to death!

If it wasn't for the fact that he was still instinctively charging forward, he would have been so scared that he would have stopped.

However, if he really stopped at the last moment, Xu Xiaoyan would probably consider it as giving up halfway, right?

The four hours were over just as Lin Yi entered the teaching hall. A Bell chimed, signaling the end of the fight.

It was as if everyone had been drained of all their strength, and they all collapsed on the spot.

At this moment, no one cared about their manners. They looked like they had just been fished out of the water, and could do nothing but gasp for breath.

In the past, they had never thought that it would be so difficult to not use true Qi!

If he could use his true Qi, these dozens of laps wouldn't be a problem at all. He could run for a few days without any problem. How could it be so difficult?

The seal that Xu Xiaoyan laid down automatically dissipated after the time was up. Those who lost their true energy felt the loosening of their sea of Qi and immediately circulated their true energy to recover from their fatigue.

Those who weren't sealed even started to recover their physical strength at the first moment. When they could use true energy again, they were really like fish that had returned to the water. They were almost greedily circulating their true energy.

After a while, everyone had finally recovered and returned to the teaching hall.

Other than Xu Xiaoyan, there was only a calm Lin Yi and a disappointed yang Dian in the hall.

"Good, you're all back. First place is Lin Yi, he'll get one academic credit! The others did not receive this reward. As for the last place, forget it, everyone did well, and no one gave up halfway, so there was no last place this time. Isn't that surprising? Are you surprised?"

Xu Xiaoyan laughed out loud as if she had done something great. She looked very proud.

Xue Peng was dumbfounded. He didn't dare to be lazy, but he was a little petty. In the end, he became the one who ran the least, and he was only a few steps behind the person in front of him.

It was definitely not easy to achieve this, but Xu Xiaoyan actually said that there was no last place?

Can you not joke around? How could something that had been agreed upon be changed at will? Do people have any integrity? This was simply preposterous!

But he couldn't just jump out and say that he wanted his points deducted-that'd make him look stupid, and Lin Yi would see through his thoughts, making things even more difficult for him.

Therefore, after thinking about it, Xue Peng could only grit his teeth and swallow his losses.

Other than Xue Peng, everyone else had a cold expression on their faces. What accident? What surprise? Please, I've had a huge shock today, alright?

He didn't allow the use of true energy, but he still ran like this. He almost ran out of breath. He was really scared to death!

"Alright, I know that everyone is tired, so let's not talk anymore. Here are some basic body training methods, take them back and have a look! "If you're interested, then practice. If you're not, then forget it. Body refinement isn't a compulsory course. Those who like it can do it, and those who don't like it can do it too. Those who have good results in body refinement can get more credits. If you don't go, it won't reduce your credits either. So, just do whatever you want!"

Xu Xiaoyan's smile was very bright. For the first time, many students felt that this beautiful instructor was also very hateful!

Since it wasn't a compulsory course, and it wasn't that important, why did he have to take this course? Wouldn't it be better to say it directly?

Shangguan LAN 'er did not think too much about it. She took the small book and distributed it to everyone. Originally, everyone did not plan to learn body cultivation, but after getting the small book, they all wanted to learn body cultivation.

This was really a strange thing. Perhaps after overusing himself just now, he subconsciously wanted to become stronger.

"Oh right, I forgot something-not only did Lin Yi get first place himself, but he also encouraged and helped the students along the way-that's great! Since everyone was in the same class, they were a group. Regardless of whether there was friendship between them, they should support each other! If you can't form such a team concept when you carry out a mission together in the future, it's hard to say if you can survive the mission! Yang Dian, as the class monitor, you didn't do this. I hope you can reflect on your actions!"

Xu Xiaoyan retracted her smile, which was rare. After praising Lin Yi, she started criticizing yang Dian.

Chapter 6529 Change The Class Monitor?

Yang Dian's expression changed slightly. He dodged his eyes and lowered his head."Yes, instructor Xu is right. I was careless."

"It's not negligence. You were so focused on winning that you didn't care about the other students in the new student class! As a class monitor, this is an extremely irresponsible behavior, especially when you're not a freshman. Didn't you learn these principles from the previous batch? I'll give you a warning this time. If there's a next time, you don't have to be the class monitor anymore!"

Xu Xiaoyan shouted in an extremely stern and low voice. She had always been smiling, but she was even more oppressive when she was angry. Yang Dian's forehead had begun to sweat.

"Yes! Don't worry, instructor Xu, there won't be a next time!"

Yang Dian nodded hard, not sure if he was being sincere.

"Instructor Xu, I don't think this yang Dian is suitable to be the class monitor at all. Besides, he's not a freshman, so why should he be the class monitor of our freshmen? It's already good enough to be able to join the class, so I suggest that we remove yang Dian from his position as class monitor and let Lin Yi take over. What do you guys think of my suggestion?"

The only one who dared to say it so bluntly was the honest boy, Murong buqi. This time, Murong xuyan didn't think there was any problem.

Murong xuyan wanted the class monitor position as well, but Lin Yi's performance before really touched her!

Xu Xiaoyan was right. Since everyone was a team, they should not give up on anyone!

To be honest, if he, Murong Qianyan, was the class monitor, he would probably be the same as yang Dian. After all, who could be distracted by taking care of others when they were busy with their own affairs?

So, if Xu Xiaoyan changed Lin Yi to be class monitor this time, Murong xuyan wouldn't object. Next time, he would fight for what he should fight for, because he believed that as long as he paid attention, he could do better than Lin Yi!

Those who had received Lin Yi's encouragement and help all agreed after hearing Murong buqi's words.

Lin Yi's help might be insignificant, but it was still a world of difference when compared to yang Dian 'S. No one would reject a favor like this.

Lin Yi himself was also taken aback by Murong buqi's words. He didn't think that a small thing he did would earn him such a good relationship.

However, he didn't have any psychological burden about snatching yang Dian's position as the class monitor. If Xu Xiaoyan agreed, then it was no big deal.

"Instructor Xu, isn't this against the rules? Since the class monitor had already been decided, it would still take a month for a change, right? How could he be dismissed the next day? Besides, I was just negligent today and didn't do anything that would anger the heavens and the people. There's no reason for me to be removed from my position!"

Yang Dian was anxious. He didn't want to lose his position as class monitor for no reason.

Not only would this position reward him with academic credits, but it also had special privileges and resources that he valued the most. If he didn't have the position of class monitor, it would be meaningless for him to stay and join the new student class!

"Everyone's opinions are good, but yang Dian's words are also correct. He has only been on duty for two days. If he has made some mistakes, we have to understand! After all, no one is perfect. I've said it just now, I'll let him off this time, but if there's a next time, I'll definitely not let him off!"

Xu Xiaoyan didn't hesitate and made a conclusion.

She wasn't happy with yang Dian as the class president either, and she'd wanted Lin Yi to be the class president for a long time, but now wasn't a good time. She'd think about it next time.

Murong buqi still wanted to say something, but he was pulled back by Murong Feiyan. Seeing Murong Feiyan glaring at him, Murong buqi quickly shrunk his neck and didn't dare to say anything more.

As a member of the Murong family, she didn't help Murong xuyan get votes, but was cheering for Lin Yi. This was double-crossing!

Luckily, Murong xuanyan didn't think he was wrong this time, so she didn't argue with him.

"Alright, this matter ends here. You've all obtained the body tempering method, so you're dismissed for today. Go back and think about what kind of cultivation path you should choose! I'll see you tomorrow!"

Xu Xiaoyan finally showed her signature smile again. She waved her hand casually and turned around to leave.

After Xu Xiaoyan left, yang Dian glanced at Lin Yi coldly and left the hall first.

He already saw Lin Yi as a thorn in his side, and Shangguan LAN 'er was always with Lin Yi. This kid even threatened his position as class monitor, so he had to find an opportunity to teach him a lesson.

Lin Yi glanced at yang Dian indifferently as well. He could feel the hostility in the man's eyes, of course. He didn't fight for class president not because he was afraid of yang Dian, but because he didn't want to waste his time.

But if this guy jumped out and provoked him, Lin Yi didn't mind letting him know that there was a huge difference between the same mountain-splitting thought.

Xue Peng walked out of the hall quickly with his head down. He'd been keeping a low profile ever since he came to Feiyang school, but Lin Yi was doing so well now.

It had only been two days, and Xue Peng would not be persuaded to leave so quickly, so he had to find a way to protect himself.

As far as Xue Peng was concerned, yang Dian, who was in direct conflict with Lin Yi, was a good choice. It was also good to make Lin Yi change his target to yang Dian.

Xue Peng quickly left the hall and caught up with yang Dian while the others were talking to Lin Yi. The two started talking in low voices.

Xue Peng's talent was also nine points, and he had almost become a student of the divine refinement college. His strength was naturally extraordinary. Yang Dian, who felt that he was alone, was overjoyed to receive an olive branch from Xue Peng.

The two of them hit it off immediately. With a common enemy, it was easy for them to share a common enemy and form a solid Alliance.

Lin Yi had been paying attention to Xue Peng's movements, and noticed him walking with yang Dian at first notice, but he didn't mind. The two weren't good people, and it would be easier to deal with them if they were together.

"Everyone is tired. Let's go back first. We'll talk about it tomorrow!"

Lin Yi wasn't used to people talking to him, so he was about to leave with Shangguan LAN 'er.

The others weren't too familiar with Lin Yi, so they didn't dare to force him. They all left, leaving only the Murong siblings.

"Brother Lin, you did a great job today. If you were the class monitor, I think you would do much better than yang Dian! But I'll say the ugly words first, even if you become the class monitor, I'll still fight for it."
"

Murong xuyan was Frank and directly said what she was thinking.

Chapter 6530 Sworn Siblings

"Brother, save it. You can't even win against yang Dian, and you still have the cheek to fight with brother Lin. Don't say that your sister doesn't support you. I don't think you have any hope."

Murong Fei Fei pursed her lips. Not only did she not encourage her brother, she even poured a basin of cold water on his head.

"Yingluo, don't tell me you've taken a fancy to brother Lin? You can't be so direct even if you're an extrovert. Your brother is your brother after all!"

Murong xuyan pretended to be shocked. She looked at Murong Feifei and then at Lin Yi, as if she finally saw through everything.

"Get lost! How can you talk about your own sister like that!"

Murong Feifei raised her leg and wanted to kick Murong Feiyan, but he dodged it nimbly. ""LAN 'er, don't listen to my brother's nonsense. I won't steal my best friend's man!"

"WH...WH...What man snatching! Don't spout nonsense ..."

Shangguan LAN 'er blushed at Murong Fei Fei's carefreeness and stole a glance at Lin Yi, feeling her face burning up and tongue-tied, unable to speak.

"You're still shy, really. Let me tell you a secret-your Lin Yi may be outstanding, but your sis already has someone she likes. She won't covet your Lin Yi, don't worry!"

Murong yuanyan whispered in Shangguan LAN 'er's ear, occasionally letting out a few bell-like laughter.

Lin Yi looked up at the sky awkwardly. He couldn't hear you no matter how quiet you were! He really didn't mean to eavesdrop on them ...

It seemed that he had to teach the siblings some telepathic tricks when he had the time. In the future, their quarrels would be as quiet as a mime.

Lin Yi didn't want to eavesdrop on the two girls "private conversation, so he walked a few steps away and took out the body training manual.

Compared to spiritual sense cultivation methods, body cultivation was much more complete. However, the mystic Sea didn't place enough importance on body cultivation.

This was similar to the secular world. Not only was physical Kungfu hard to practice, but the cultivation speed was also slow. If there was a choice, no one would choose to practice it.

It was even more so in the mystic division Sea area. With such an abundant spiritual Qi, it was simply ridiculous to not use it to cultivate true Qi but to refine one's body.

Therefore, even though the body-tempering technique was complete, there were still very few people who really valued it and were willing to spend time and energy on it.

"This body refining technique is quite complete. Although it's the most basic and can't be compared with the heaven seizing fortune battle technique, it's very suitable for new disciples to cultivate. If LAN 'er is interested, you can try cultivating it."

Lin Yi had an idea of what was going on after reading it, but he couldn't help but fall into confusion.

Shangguan LAN 'er's genuine Qi was the strongest at the moment, and she had a little foundation in spiritual awareness cultivation, but she had no foundation in body cultivation. If she spent her time on these aspects, her progress would definitely be slowed down. Was this really appropriate?

In particular, Shangguan LAN 'er's current strength was still relatively weak in the new class. Once her cultivation progress was too slow, she might not be able to get the ideal results in the assessment once every three months, which would be a bit embarrassing.

Lin Yi knew that improving in all three directions was the best way to train, but he was different from the others. The heaven seizing fortune battle tactics was just that heaven-defying-training in one technique was the same as training in three directions at the same time.

If Shangguan LAN 'er wanted to achieve this, she had to train in three different techniques. Not only would she need a lot of time, but her progress was also far slower than Lin Yi's, so he didn't know if this direction was suitable for her.

"I still need to discuss it with LAN 'er and see if she has any considerations about her own development. Rufeng was almost delayed by me before, so LAN' er can't be careless. The cultivation method that suits me may not be suitable for others. Now is the time for LAN 'er to develop rapidly. If she makes a wrong choice, it will have a great impact on her."

With that thought, Lin Yi couldn't afford to be careless anymore. Unfortunately, the damn thing was immersed in studying the space Array flags, and Lin Yi didn't want to keep troubling him unless it was a matter of life and death.

Zhang jinmiao was the same-Lin Yi didn't know where to find her, so he could only wait for her to come and find Shangguan LAN 'er.

Lin Yi didn't pay much attention to what the others were talking about. After sending Shangguan LAN 'er off, he went back to his yard.

It was fine to put this matter aside for the time being. Shangguan LAN 'er first had to unearth the potential of her current level, which also took some time. As for whether she wanted to cultivate in all three directions, it could be decided after observing for a while.

Time flew by quickly after he entered the training state. It was already the morning of the second day when Lin Yi opened his eyes.

With a sweep of his divine sense, he found that Shangguan LAN 'er and the Murong siblings were already waiting outside his courtyard.

"Everyone's so early today, did something happen?"

Lin Yi walked out of the yard and greeted the three with a smile.

"Nothing much. I just woke up early, so I was waiting for you at your door."

Murong xuyan smiled and nodded at Lin Yi. After yesterday's interaction, he and Lin Yi were at least familiar with each other. Even if they couldn't be called friends, their relationship was still okay.

"Let's go and see what kind of class our instructor Xu is going to give us today. "

Lin Yi smiled as he called the three down the mountain.

To be honest, Lin Yi was really looking forward to it. The first day was about spirit sense training, the second was about body training, what would the third day be?

True Qi? This didn't seem like much to say. What everyone paid the most attention to was the cultivation of true energy.

"Actually, I don't think it's important what class instructor Xu is teaching. What's important is whether she will continue to beat up yang Dian. If I can see such a good show every day, it would be worth coming to the college."

Murong Fei Fei giggled as if she had come to Feiyang college to see yang Dian get beaten up.

"You went to school for this? Little sister, it's fine to say this here, but don't say it when you go back, or else father will definitely beat people up. "

Murong xuanyan persuaded her sister earnestly. Just by looking at her expression and not listening to the content, one could see the height of her worry for the country and the people.

"If dad beats people up, then so be it. He won't beat me up anyway."

Murong Fei Fei laughed heartlessly and didn't take it to heart.

"That's the key! Father won't beat you up, he'll only beat me up. Why do you think this is? I was just born a little earlier than you, do you have to treat me like this?"

Murong xuyan really wanted to cry but had no tears. She deeply felt that running out of her mother's womb was the first and biggest mistake she had made in her life!
