Chapter 6531 New Student's Mission

"Brother, you're wrong. Father is strict with you because I was born undeveloped. I heard that I'm lacking something compared to you, so he wants to make up for it."

Murong Fei Fei explained to her brother in all seriousness. As for what was missing, she actually didn't know either. Instead, she felt that her brother was a little less intelligent than her. This really made her a little anxious!

"You believe your father's nonsense? He just felt that beating me felt better, so he kept beating me up, right? No, I have to train my body properly so that when my father beats me, his palm will hurt for a long time. "

Murong yuanyan gritted her teeth and swore in her heart that she would definitely practice her body cultivation techniques well. She absolutely couldn't be beaten by her father all the time.

"Brother, do you think that dad, who has lost his touch, will beat you with a stick? If the rod doesn't work, then use a knife. Did you train your body for this?"

Murong Qianqian laughed coldly. Murong Qianyan felt her vision go dark. It was true!

The future was really dark!

Lin Yi and Shangguan LAN 'er stood to the side, not saying a word. They just squinted their eyes and tried to hold back their laughter. These two siblings were Born to Be Good at crosstalk. It would be a waste if they didn't go to the secular world to do it!

With this pair of brother and sister around, time always flew by on the road. In the time it took for them to chat and laugh, they had already arrived at the teaching hall. The four of them were still the first to arrive.

However, to their surprise, Xu Xiaoyan actually came earlier than them today and was already waiting in the teaching hall.

"Instructor Xu, you're so early today?"

Lin Yi asked casually after the four greeted him.

"The four of you are quite lucky. I came so early today because the Academy has released a mission suitable for the new students. I need to bring six people to carry it out. I planned to bring whoever came first. The four of you came first, so congratulations, you can follow me to do missions to earn academic credits and mission points today!"

Xu Xiaoyan smiled as she took out a piece of paper and showed it to the four.

There was indeed a record of a mission that the new students could take on, and it required six people to complete it.

However, when the new students did missions, they usually needed a teacher to lead them. Only after they had completed enough missions and the teacher felt that they could accept the mission on their own could they leave the teacher to do the mission on their own. Therefore, the maximum number of people for this mission was actually seven people, including the teacher.

"The mission level is below the yellow level. The freshman level mission. Six people will form an escort team to escort a batch of supplies to the ten thousand mountains Pavilion in the mountain region back to the market outside the college. After the mission is completed, each person will get one academic credit and three mission points. Because it is a freshman level mission, there is no deposit, and no points will be deducted if the mission fails."

Shangguan LAN 'er looked at the words on it and read them out one by one.

"What? it's just escorting some resources back from the mountains. Do we even need to do that? The journey from the mountain region to the Academy is very safe. There are no powerful spirit beasts at all. Are you afraid of people blocking the road and robbing you?"

Murong yuanyan pouted, looking disgusted.

Escorting resources back to the Academy from the mountain region? this was child's play. His father was the region Lord of the Mountain region. If he really couldn't do it, he could just send a message back and let his father send someone to send it.

"Stupid, this is giving you free points! You're just a bunch of newbies, what kind of difficult mission do you want to take? What if he was directly killed? Besides, you guys haven't even completed any missions below the yellow level, so how are you going to accept higher level missions? don't you know that missions have levels? Before you have completed twenty yellow level missions, it is impossible for you

to take on black level missions. Even if you are a super expert of the sea splitting stage, you have to start from the yellow level missions obediently!"

Xu Xiaoyan smiled and glared at her. She didn't know whether to say that she was charming or fierce, but Murong xuyan obediently shut up and didn't dare to refute!

"Instructor Xu, how are the Academy's missions graded? what are the conditions to be met to accept it?"

Lin Yi asked the question he was more interested in. In order to get more mission points and academic credits to rent the spirit sense room, taking missions was a must.

"The mission system is divided into four levels: heaven, earth, black, and yellow. Each level is further divided into three small levels of difficulty: High, middle, and low. Two low level missions are equivalent to a medium level mission, and two medium level missions are equivalent to a high level mission. If you want to accept the next high level mission, you must first complete twenty high level missions. Do you understand what I mean?"

Xu Xiaoyan stretched out her slender palm, bending her fingers for Lin Yi and the others to see.

"Understood. If you want to accept a black rank mission, you must first complete twenty yellow rank high level missions, which can also be converted into forty yellow rank mid or eighty yellow rank low level missions. Is that right, instructor Xu?"

Lin Yi smiled-pinliang probably knew how to solve a simple math problem like this.

"Not bad, not bad. Your mathematics is not bad."

Xu Xiaoyan nodded in approval, satisfied with Lin Yi's answer.

Lin Yi's lips twitched. I went to elementary school, Sir-you don't think this kind of difficult math is enough to beat me, do you?

"Lin Yi's right-once you've achieved this goal, all the black level missions will be open to you, and the requirements for earth level missions will be the same! What I need to tell you is that with every major increase in level, the academic credits and mission points awarded will have a qualitative leap. "Even if it's the same level with different difficulties, the rewards might be very different. So if you want to earn credits, take on more difficult missions."

Xu Xiaoyan herself was a person who liked to take on difficult missions, so she subconsciously said such words.

"Instructor Xu, didn't you just say that we would be easily killed if we took on difficult missions? You're not afraid now?"

Murong xuyan expressed her doubts, and then she felt that she was really stupid. Was she infected by Murong buqi?

"Murong xuyan, that's a good question. Actually, if you want to die, you don't need to take on a difficult mission. The teacher can fulfill your wish."

Xu Xiaoyan turned her head to look at him, her smile as bright as a flower.

However, Murong xuanyan felt a chill all over her body. She quickly shook her head, indicating that she didn't have such wishes.

Right at this moment, two more people came together, making it just nice to have a total of six people.

Chapter 6532 Can't Be Too Obvious

It was yang Dian and Xue Peng, however, and Lin Yi was surprised to find himself in the same team as these two on his first mission.

This was awkward-should he just kill them? Or to kill them indirectly? Or was he going to kill them with a borrowed knife?

It was still ... So difficult. It was really difficult to decide what method to use to kill them!

"We're all here, six of us. Do you two want to go on a mission together?"

Xu Xiaoyan didn't give a direct order, but asked, and showed the paper to yang Dian and Xue Peng.

"A mission below the Golden rank, instructor Xu. I don't really need such a low-level mission."

Yang Dian looked down on him. After all, he had a year's experience and had done many missions. Although he had not reached the level where he could take on black level missions, it would be more worthwhile to take on yellow level and above missions.

"Instructor Xu, I don't really want to take this mission either."

When Xue Peng saw that yang Dian was not interested, he naturally did not dare to go alone.

Lin Yi and Shangguan LAN 'er were both there, and the Murong siblings were so close to Lin Yi and Shangguan LAN' er. Was he looking for death?

"Yes, no problem. I will respect your opinions."

Xu Xiaoyan's smile was very bright, but before yang Dian could relax, she continued, ""It's fine if you don't want to take the mission, but now I'm recruiting you to join this mission team as a teacher. Do you have any objections?"

"Ah? Instructor Xu, is this okay?"

Yang Dian was a little dumbfounded. What happened to the respect? It can be operated like this?

"Instructor Xu, what will happen if you have any objections? Do you want to deduct my credits?"

Xue Peng hurriedly asked. If they were to deduct his credits, he would definitely have a lot of opinions!

The earlier they deducted their credits, the easier it would be for everyone to quit.

"Do you have credits to deduct? Or do you really want to be dissuaded?"

Xu Xiaoyan raised her beautiful eyebrows and glanced at Xue Peng with a faint smile.

Xue Peng's heart skipped a beat. This Xu Xiaoyan's eyes were really sharp. She could even see that. No, if she made it too obvious, Lin Yi would target her!

"How could that be possible! Instructor Xu really knows how to joke. If there will be a deduction of credits, then I definitely have no objections. Instructor, whatever you say, then do it! I definitely can't be dissuaded!"

Xue Peng laughed dryly and puffed out his chest to make his feelings clear. He didn't know if this remedy was effective, but he had to try his best to dispel Lin Yi's doubts.

"If that's the case, then fine. Since you guys have no objections, let's get ready to set off. It's just a mission below the yellow level. The earlier we finish, the better it is for everyone to go back and rest."

Xu Xiaoyan nodded with satisfaction, waved to the six people, and walked out first.

"Instructor Xu, what about the other students' classes today? Don't you need to stay and tell them?"

Now that yang Dian had the awareness of a class monitor, he quickly reminded Xu Xiaoyan. In fact, he hoped that Xu Xiaoyan would let him, the class monitor, stay to inform the others.

Since Lin Yi and Murong xuyan weren't here, he wanted to make his presence known in the new class, but Xu Xiaoyan didn't want to give him the chance.

"It's fine. Let them have their free time today. The guards at the gate will inform them. "

Xu Xiaoyan dispelled yang Dian's idea without looking back, which made yang Dian regret that he had come so early.

After leaving the teaching hall, the guards had already prepared a large flying spirit beast, enough for seven people to ride on. This was the rhythm of flying directly to the ten thousand mountains Pavilion in the mountain region.

Murong Feiyan and her sister were very relaxed about this. If they had an aerial spirit beast, they would be able to return to the young Eagle Peak today.

The mission this time was not difficult at all. He would just take it as going home to take a look. The mountain region was his family's territory.

An aerial spirit beast could fly over in two hours, and they could still play for half a day, just in time to entertain Lin Yi and Shangguan LAN 'er.

"Let's go, we're setting off. "

Xu Xiaoyan led the six people onto the flying spirit beast and immediately soared into the sky, flying towards the mountain region.

"Brother Lin, now that we are in our territory, I will bring you to a fun place to play for half a day. I wonder if you can stay for a little longer. The mountain region is so vast, there is not much time to Play in a Day or two."

Murong yuanyan scratched his forehead, thinking about what to do when they got there.

"Brother, what are you thinking? We're doing a mission, so how can we run around? We can only find a fun place near the ten thousand mountains Pavilion. It's not good to go too far away. "

Murong Fei Fei was also the host and immediately joined in to express her opinion.

"You two know that we're here for a mission, but you still want to go out and play? Don't you have any respect for me, your teacher?"

Xu Xiaoyan turned around and smiled. She glanced at them with curved eyebrows.

The few of them shivered. They really couldn't tell if this charming roll of eyes meant that she was angry or not.

"Instructor Xu, you've misunderstood. How can we not respect you? Aren't we in our Mountain region now? we're the young masters of this Mountain region, so we should at least do our part as hosts. Instructor Xu, why don't we go and get the supplies first? since it's still early, how about we play around the ten thousand mountains Pavilion for a while?"

Murong xuyan quickly nodded and bowed, putting on a smile to explain.

Xu Xiaoyan was as beautiful as a flower, but her methods were not good at all. If she was unhappy, who knew what she would do to them?

"That makes sense. You can bring me along, but you can't not bring me!"

Xu Xiaoyan made her decision with a smile. However, wasn't it a little inappropriate to ask the student to take her to play with her so confidently?

Yang Dian and Xue Peng didn't even dare to breathe. Now that Xu Xiaoyan was on Lin Yi's side, they were in danger. Who could they go to if Xu Xiaoyan abandoned them on their flying spirit beast?

"Of course, we can't miss out on instructor Xu! You're our instructor, and without your guidance, we don't dare to go anywhere!"

Murong yuanyan was overjoyed. This was a good opportunity to get closer to Xu Xiaoyan!

As long as he could maintain a good relationship with the teacher, it would be beneficial for him to compete for class monitor or other aspects in the future.

Xu Xiaoyan didn't put on any airs, so after she spoke, the flying spirit beast suddenly became lively.

The few of them talked and laughed, and it was not lonely. Only yang Dian and Xue Peng were completely like outsiders, incompatible with the atmosphere, and did not speak from beginning to end.

Lin Yi and the others ignored the two-it wasn't the time to deal with them yet, so they'd just let the two play the part.

After flying for a short while, they entered the mountain range of the Murong family. However, they were still quite a distance away from their destination, the Wanshan Pavilion.

Chapter 6533 Escorting Goods

Murong yuanyan and Murong Qianqian introduced the place to Lin Yi and Shangguan LAN 'er on the flying spirit beast, telling them what was fun here, what was the place, what was the best food, and so on.

It could be seen that these two siblings usually ran around the mountain region like crazy, and they were absolutely familiar with the roads!

In such a harmonious atmosphere, the aerial spirit beast began to land.

"Alright, let's go take a look at the Wanshan Pavilion first. Then, we'll decide how long we'll stay in the mountain region. Although it's just a simple yellow rank new student mission, we still need to have a serious attitude."

Xu Xiaoyan took the lead to jump off the flying spirit beast and expressed that the task was more important.

Yang Dian did not say it, but he despised it in his heart. What serious attitude? in the end, he just wanted to know how long he could stay!

After being taught a lesson by Xu Xiaoyan, he didn't like this beautiful teacher anymore. Although Xu Xiaoyan hadn't removed his position as class monitor, it was almost the same.

"Instructor Xu, I'll lead the way. I'm familiar with this place!"

Murong Feiyan stepped out of the crowd and walked towards Wanshan Pavilion with the demeanor of a host.

The mountain region was vast but sparsely populated, so the buildings were very loose. The ten thousand mountain Pavilion was built on a small mountain peak. The entire mountain peak was their property, and it occupied a very large area.

The surrounding terrain was slightly flatter, and there were slightly more dense buildings. There were many residents of the mountain region gathered there, and there were also many shops. If one wanted to play, one would have to go to these places.

The aerial spirit beast had previously landed directly at the foot of the small mountain peak of the myriad mountain Pavilion. This was the myriad mountain Pavilion's guest room. If one wanted to enter, one had to first pass through this place. Otherwise, even if one were to enter uninvited, it would be considered an act of smashing the place.

Murong xuyan said that he would lead the way, but the guest room was not far away. Anyone could see it, so why would he need to lead the way?

However, he was still the son of the mountain region's territory Lord. As half a master, he could lead the way.

"Young master Murong, miss Murong, what brings you two here today? No wonder I felt so refreshed and happy when I woke up today. It's because the two of you are coming. Please, these are your friends, right? Please come with me to the VIP room for some tea. "

When a middle-aged man in the guest room saw the two siblings, Murong Feiyan and Murong Feifei, coming in first, he immediately put on a smile, bowed, and jogged over to greet them respectfully.

It could be seen that the two Children of the Mountain region's territory Lord were extremely popular wherever they went. After all, if they wanted to survive in the mountain region, they had to be at the mercy of the murongs.

"Old Wang, we haven't seen each other for a long time, but you're still so talkative. We're not here to play today. Let me introduce you. This is our Feiyang College's new student class teacher, teacher Xu Xiaoyan. She brought us here to complete a mission issued by the college. You know about this, right?"

Murong xuyan didn't waste any time. After a casual greeting, she stepped aside to let Xu Xiaoyan in and introduced her.

"It's teacher Xu Xiaoyan from Feiyang college. I've heard so much about you!"

Old Wang immediately felt a deep sense of respect. He cupped his hands and bowed seriously.

"You're welcome. We're here to complete the mission. Do you know about the escort of supplies?"

Xu Xiaoyan smiled and raised her arm, indicating that old Wang didn't need to be so polite.

"Don't worry, instructor Xu. We've already prepared for the mission issued by Feiyang college. All the materials have been prepared. Although there's nothing special here, the scenery in some places is still very beautiful. If instructor Xu is free, why don't you let me make some arrangements for you?"

Old Wang was also a smart person. He maintained his slightly bowed posture and asked with a smile.

He had no choice. If the Murong family was the Overlord of the mountain region, then the Feiyang Academy was the Overlord of the mountain region. He had to treat the teachers who came out of the Academy well.

"Old Wang, you have a good eye, but you don't have to worry about it. When we're here, I'll be in charge of entertaining my teachers and friends. Tell me about this mission."

Murong xuyan patted old Wang's shoulder with a smile, indicating that he should cut the crap and get straight to the point.

At this moment, the group of people had already walked into the VIP lounge in the reception room as they spoke. Lao Wang respectfully invited everyone to sit down and served them exquisite fruits, pastries, and tea. He then talked about the resources for the mission.

"Young master Murong, the materials for the mission have been prepared. According to the requirements, these things should be sent to the market outside Feiyang college by noon tomorrow. Someone will come to you to receive them. There is still plenty of time."

With a smile on his face, old Wang turned his hand and took out the document about this batch of supplies. He handed it to Xu Xiaoyan with both hands.

Xu Xiaoyan took it and flipped through it. Her pretty face showed a slight surprise. "So many? Our flying spirit beasts can't carry so much, and although we have storage rings, it's still beyond the capacity, Are you sure?"

"Instructor Xu must be joking. How can there be a mistake in this kind of thing? in fact, there is nothing valuable in this batch of goods. It's just that the quantity is large. The total transaction amount is only a few million spirit Jade. An aerial spirit beast is definitely not enough. But please rest assured, our Wanshan Pavilion will lend you a few aerial spirit beasts to complete the mission."

Old fifth hurriedly smiled and waved his hand, conveniently taking this matter to their Wanshan Pavilion.

Originally, the transportation had nothing to do with the ten thousand mountains Pavilion. However, the people coming over were teachers from the Feiyang college, and there were also the Children of the Mountain region's domain lord. Not to mention borrowing a few flying spirit beasts, even giving them a few was a small matter!

If he could really establish this connection, it would not only be beneficial to the Wanshan Pavilion, but it would also be very beneficial to him.

"Thank you very much. Otherwise, we would have to go back by land. The original quest didn't require us to go back by land, did it?"

Xu Xiaoyan's reaction was also extremely fast. She immediately thought of this possibility.

It was quite expensive to use flying spirit beasts to carry a large amount of resources. After all, the carrying capacity of flying spirit beasts was limited, and this area required a large number of flying spirit beasts.

It was completely different to travel by land. Other than taking a longer time, there were no other problems.

Since the Academy had issued this escort mission, perhaps it was to let everyone travel by land.

After all, if they used flying spirit beasts, they would arrive in more than two hours. From Wanshan Pavilion to Feiyang college, the air passage was very safe. There was no need for anyone to escort them.

Chapter 6534 The Mysterious Black-Robed Envoy

"I'm not too sure about this. Instructor Xu doesn't need to care about these trivial matters. In any case, our Wanshan Pavilion will be responsible for sending the goods over by flying spiritual beasts. You don't have to worry about it at all. However, it will take some time to mobilize the flying spiritual beasts. While we have this free time, why don't I do a small favor and entertain a few distinguished guests nearby?"

Old fifth once again sent out an invitation. This kind of opportunity to build a relationship was rare, and he had to seize it.

"Old Wang, you can go and do your own things. I've already said that this young master will take responsibility, so you don't have to worry. When will you be ready? We'll come over when it's about time. "

Murong yuanyan didn't want to give old Wang the chance to treat her. He was going to treat himself, so how could he let old Wang snatch it away?

"Hehe, I'm getting old and my brain isn't working well. I forgot what young master Murong said just now. Alright then, I won't disturb everyone's fun. It will take about six hours for the aerial spirit beasts to be assembled and loaded with goods. There's no need to worry about accommodation. Our Wanshan Pavilion has many courtyards prepared for distinguished guests. I guarantee that they're clean, tidy, and full of spiritual energy. "

When old Wang said the time, he secretly looked at Xu Xiaoyan and Murong xuyan's faces and changed the duration.

"That's a little too long. We have to rush back today, and they have to continue with class tomorrow. We're all new students, so we can't just neglect our studies. Can we finish the preparations in four hours?"

Xu Xiaoyan smiled and extended two fingers. She could see that the mobilization of the flying spirit beasts was just an excuse that old fifth had prepared for them. Even if they really wanted to mobilize them, it would definitely not take that long.

Therefore, Xu Xiaoyan was very sure that as long as she said that she didn't need too much time, old Wang would definitely be able to do it within the time limit.

Sure enough, as Xu Xiaoyan expected, old Wang first showed a little embarrassed expression, and then he patted his chest. "Alright! Since instructor Xu has spoken, then I, old Wang, will do it no matter what. Don't worry, four hours. Even if I die, I will prepare everything. I will definitely not delay instructor Xu's matters!"

This favor was done without much effort. Xu Xiaoyan and old Wang's eyes met, and they both revealed an understanding look. Everyone had a tacit understanding.

"Thank you very much. We'll take a walk around first. We'll come back to find you in four hours!"

Murong xuyan said to old Wang and left with Xu Xiaoyan, Lin Yi, and the others.

"Well, instructor Xu, Xue Peng and I will help prepare the supplies here. Although the task is small, we still have to take it seriously. As the class monitor, I feel that it is my duty to do this."

Yang Dian didn't want to go out with Murong xuyan and Lin Yi from the bottom of his heart. Although there were two little beauties, Shangguan LAN 'er and Murong Feifei, it wouldn't be fun if Xu Xiaoyan was there.

It wasn't a bad thing to split up with Lin Yi and the others.

He and Xue Peng had a tacit understanding, so they immediately agreed. The two of them even had a loyal look on their faces, as if they didn't know what they were planning.

"Alright! Then you guys stay here and help old Wang prepare the supplies. If there's anything, contact me at any time!"

Xu Xiaoyan shrugged and didn't force him. She didn't have a good impression of yang Dian and Xue Peng, so it was meaningless to drag them along.

As a result, the seven of them split into two groups and acted on their own. None of them took the yellow rank new student mission to heart.

At the same time, on the top of a barren mountain in the periphery of this Mountain region, two people were talking while looking in the direction of the mountain region.

Lin Yi recognized one of them-it was Xue Keyan, the one he met at the teleportation formation in Mystic division Sea area. They even had a conflict with each other.

Lin Yi found out later that Xue Keyan and Xue Peng were both from the mystic division's Xue house. In terms of seniority, Xue Keyan was Xue Peng's uncle, but in terms of talent and potential, Xue Keyan was far from Xue Peng.

Although Xue Peng's strength was still a major realm lower than Xue Keyan 's, it would not take many years for Xue Peng to soar to the sky and leave Xue Keyan far behind.

This was the height determined by talent. It was also because of this that Xue Peng's status in the Xue family was much higher than Xue Keyan 's.

The other person was wearing a black robe and a mask. Not a single inch of his skin was exposed, making him look extremely mysterious.

"Special envoy, this is the mountain region where Feiyang college is located. The Lin Yi you're looking for is in Feiyang college. My nephew, Xue Peng, is in the same class as him. It shouldn't be too hard to get information on him."

Xue Keyan stood beside the masked man with a bow, and the person they were talking about was Lin Yi.

"Very well, but you have to remember that you're going after Lin Yi because you have a grudge against him. It has nothing to do with us! We're providing some help to support your Xue family to become our business partner. It's your freedom to deal with whoever you want to deal with, but don't ever involve us, understand?"

The masked man in the black robe said calmly, but the unquestionable tone in his voice was very obvious.

"I understand, I understand. It's my good fortune to meet the special envoy in the Yellow Sea! Don't worry, special envoy, that Lin Yi not only offended me at the teleportation formation, he even set up a plan to exchange my nephew from the divine refinement college to the Feiyang college. This is absolutely irreconcilable! How could our Xue clan let him go? As long as there's a chance, I'll definitely kill him. There's nothing wrong with this!"

Xue Keyan nodded and patted his chest.

"It's good that you can say that. Remember, we have nothing to do with you. This is especially important-if you can't kill Lin Yi, you can't expose our relationship. "

The masked man in the black robe emphasized again, and Xue Keyan could only nod.

After a slight pause, the masked man continued,""Did you manage to contact your nephew?"

"Not yet. Because Xue Peng didn't enter the divine refining college, he might be a little ashamed and didn't take the initiative to contact his family. As for what's going on recently, I'm not too sure. But I'll find a chance to contact him and tell him to pay close attention to Lin Yi's movements. I believe that his hatred for Lin Yi shouldn't be any less than mine. "

Xue Keyan quickly bowed and replied.

He was helpless about this matter. Previously, his family's arrangement was that Xue Peng only chose to apply for the divine refining college. If he couldn't get in, he would give up and go back to the family. He would take the examination next year. He didn't expect that he would be transferred to the Feiyang college in the end!

It had come so suddenly that the Xue family was completely unprepared!

They didn't have many acquaintances from the Feiyang college. Xue Peng didn't take the initiative to contact his family, so they couldn't contact him for a while.

Chapter 6535 Both Sides Are Satisfied

"You need to arrange this as soon as possible. Since there's a spy by Lin Yi's side, we need to make good use of him!"

The masked man ordered casually, but he wasn't in a hurry. Lin Yi was a new student, after all, and he wouldn't do anything in a short period of time.

"Yes, I understand. I'll go and find my nephew tomorrow! After all, he had been transferred from the divine refining college, so it was normal for someone from his family to visit and ask about him! I've had some conflict with Lin Yi before, but I don't think anyone will notice me. "

Xue Keyan wasn't sure, but he was prepared to be recognized by Lin Yi. Even if he had some history with Lin Yi, it was fine as long as he didn't expose the man in the black mask.

"Mm, you do as you see fit! Is the experimental plan almost ready?"

The masked man in the black robe no longer mentioned Xue Peng's matter, but changed the topic.

"Everything is ready. We're just waiting for a suitable target to appear, and we can execute it!"

Xue Keyan replied respectfully. He was also looking forward to this experimental plan. This was an important plan that would determine the rise of his Xue family.

"That's good, the conditions in your Mystic division Sea area are very good, so the plan should be able to go smoothly! However, don't alert the enemy in the beginning. Do some small-scale experiments on the periphery. When you've accumulated enough experience, you can slowly expand the scale. By then, not to mention this Mountain region, even the Feiyang college can be easily destroyed by you!"

The masked man in the black robe laughed coldly, as if he was very proud of his future prospects.

"I understand. As long as this experiment is successful, our rise will be unstoppable in the future! The entire Mystic class Sea region will be under our control! No, with you leading the way, the entire Sky Class Island will be ours!"

Xue Keyan burst into laughter. He was also looking forward to the future.

"Don't be happy too early. The plan still needs to be carried out step by step. We'll talk about other things after the first experiment is successful!"

Although the masked man in the black robe was very confident in his plan, he could be proud of himself. However, Xue Keyan could not forget himself, so it was necessary to give him a warning.

"Yes, the envoy is right! However, I'm confident that with the special envoy's help, this plan will definitely succeed!"

Xue Keyan humbly nodded in agreement, then he changed the topic, "Envoy, if our plan is successful, will it attract the attention of the Feiyang college? Even if the Academy didn't pay attention, the Lord of the Mountain region would, right? The Murong family is quite powerful in this area. Should we prepare some backup?"

"There's no need to. It'll only be a waste of resources if we invest too much before we make sure that the plan succeeds! So what if the Academy and the mountain region had noticed? Would they be able to find any clues? Besides, our area of activity won't involve the Academy or the forces of the mountain region for the time being. What problem can there be at the very edge?"

The masked man in the black robe waved his hand nonchalantly. In fact, it didn't matter if the Academy and the mountain region knew about it. Anyway, the Xue clan was taking the blame, so he didn't care at all.

If house Xue was destroyed, they could just find another partner. After all, there were many families like house Xue in the mystic division sea!

As long as the conditions were good, there was no need to worry about not being able to find a partner.

"You're right, envoy. I didn't think this through enough. I'll go make preparations now. As soon as I find a suitable target, I'll start the experiment immediately."

Xue Keyan was a little embarrassed and didn't know what to say, so he found an excuse to leave.

"Go. The first experiment is very important. You must not fail! I'll be waiting for your news here!"

The masked man in the black robe waved his hand and sent Xue Keyan away. He continued to stand on the barren mountain, waiting for the result.

Four hours later, Lin Yi and the others had a good time with Murong xuyan leading the way. There wasn't much fun here, but it was more lively than in the school.

Shangguan LAN 'er liked to be lively, so she had a lot of fun shopping. With Murong Fei Fei around, she wouldn't be bored, so she also had a lot of fun shopping with Xu Xiaoyan.

The five of them did not forget the agreed time and returned to the Wanshan Pavilion on time.

The 20 large flying spiritual beasts were already loaded with the maximum amount of supplies they could carry. They stopped in an open space in the ten thousand mountains Pavilion, waiting for Xu Xiaoyan and the others to set off together.

"Old Wang, thank you for your hard work this time. You've been of great help to us!"

Seeing these twenty large spirit beasts, Murong xuyan couldn't help but sigh. She patted old Wang's shoulder and thanked him for his efforts.

"What are you saying, young master Murong? it's my honor to do a small thing for you. Next time, if you need anything, just look for me. I'll do anything for you!"

Old Wang patted his chest hard, his face beaming with joy, showing his molars.

It wasn't easy to get such a compliment from Murong yuanyan, and Xu Xiaoyan was obviously very satisfied. This was a teacher from the Feiyang college. If she could connect with him, she would definitely be of great use in the future.

"Old Wang, thank you. We'll go back first. The sooner we return to the Academy, the sooner we hand in our mission. If we need help in the future, we'll come to you!"

Xu Xiaoyan smiled and nodded at old Wang, accepting this favor.

"Instructor Xu, you're too polite. I, old Wang, have already said that if you have any problems, feel free to look for me. I will definitely not disappoint you!"

Old Wang was even happier. Although Xu Xiaoyan said that she would come to him for help if there was anything, in fact, she was implying that he could also come to her if there was anything. Of course, it was within her ability.

Xu Xiaoyan's status was there, so it was impossible to say this kind of words in the open. She could only give a vague reminder like this. Otherwise, there was no need to say it again after Murong yuanyan said it.

As for whether he could understand it or not, that would depend on Lao Wang's own comprehension ability. However, looking at his appearance, his comprehension ability seemed to be not bad!

Yang Dian and Xue Peng stood on the side without saying a word, waiting for Xu Xiaoyan and Lin Yi to get on the flying spirit beasts before following them in silence.

Lao Wang respectfully cupped his hands to send them off from behind. Although this was only a new student mission below the yellow rank, both parties were very satisfied with the results.

Twenty-one large aerial spirit beasts lined up in a row and took off in the direction of the Feiyang college. Because the twenty large aerial spirit beasts behind were basically carrying at full capacity, the speed was not considered fast.

He estimated that he would have to spend twice as much time on his way back to Feiyang college to hand in the mission.

"Instructor Xu, the difficulty of this novice mission below the yellow level is quite low! If that's the case, how difficult would it be to reach the middle and upper levels of the yellow rank?"

Lin Yi was very concerned about earning academic credits and mission points in the future, so he decided to ask about it now that he had the chance.

Chapter 6536 48 Times A Year

"Actually, the overall difficulty of yellow rank missions isn't too high! With the current strength of the lowest xuansheng stage student in the Feiyang college, completing a yellow rank mission shouldn't be too dangerous!"

"At most, the yellow level missions will be a little dangerous, but it will definitely not be fatal. After all, this level of mission is set up mainly for the students to adapt to the mission system and earn mission points for the cultivation room. "

Xu Xiaoyan explained to Lin Yi with a smile. This was what she should tell the students, and it was part of her job.

"However, because the difficulty of the yellow rank missions is relatively low, the academic credits and mission points that can be obtained won't be too high. At most, it's barely enough to rent a low-level spiritual sense cultivation room for a period of time!"

"If you want to get more points to rent a better spirit sense cultivation room, you have to take on missions above the black grade. At this level, for students below the peak of the middle stage of the black rising realm, there will be a certain level of danger to their lives! As for the students above, if you don't pay attention, there's a possibility that you'll die. "

"But in general, it's more of a trial. As long as we can form a reasonable team, it's relatively easy to complete a mission of this level."

"That's why, for the sake of the future, it's best for you to start forming a tacit team when you accept the yellow rank mission. This will be very beneficial for Future Group missions! A team that has been working together for a long time will definitely have far more combat power than a temporary team. I don't need to say much about this, you should be able to understand. "

After Xu Xiaoyan said this, she looked at the six people on the flying spirit beast. Unfortunately, yang Dian and Xue Peng were obviously out of place with the other four people. Otherwise, with the combat power of this team, they might be able to complete the black level mission now.

Although it wasn't the enrollment year this year, Feiyang college had an unexpected harvest of geniuses!

Lin Yi and Shangguan LAN 'er were both nine-point geniuses, and so was Xue Peng. The Murong siblings were also geniuses, and with yang Dian from the last batch, the lineup was even more magnificent than the admission year!

Even the second-best Feiyang college would find it difficult to gather five or six geniuses with nine points in one batch. However, they had somehow achieved it this year.

It was no exaggeration to say that this year's freshmen of Feiyang college were likely to be the strongest new class in the college Alliance. That was why Feiyang college sent Xu Xiaoyan as a teacher. It was clear how much importance they attached to her.

It was still the same sentence. Unfortunately, these six geniuses with 90% talent were obviously not of one mind at the moment. They were divided into two factions. It was difficult for them to coexist peacefully, let alone cooperate perfectly.

"What instructor Xu said makes sense. We will pay attention to the formation and development of the team. Then, how many missions are issued by the Academy? Are we always able to receive the corresponding missions?"

This was Lin Yi's main concern-getting enough missions was the key factor in earning points.

With his strength, he didn't even need a small team. He could complete all the difficulties of the Golden class alone. Not to mention his actual combat strength, just the nine little spirit beasts were enough to sweep the yellow Class and even the black Class missions!

He didn't know what the earth grade was like, but he guessed it wouldn't be too difficult.

So, as long as there were enough missions, Lin Yi could directly start the point-farming mode with Shangguan LAN 'er and the Murong siblings. Whether it was academic points or mission points, they would be able to easily harvest them.

"There's no fixed number of missions. Sometimes it'll be more, sometimes it'll be less. In terms of accepting missions, the new students have an advantage, and that's that they can give priority to the students of the new student class to take on the lower and middle yellow level missions!"

"In other words, if you all take on the same yellow rank or lower Mission as a student who isn't from the new student class, the final mission will be given to you new students!"

"This is because missions of this difficulty are meant for you to practice. Once you reach the yellow level, the situation will be different. You have to compare the success rate of the previous missions and the number of missions taken before you can decide who will be assigned the mission."

Xu Xiaoyan explained it in detail, and Lin Yi basically understood the rules of the mission system. With his status as a new student, it seemed that it wasn't realistic for him to quickly accept missions above the black level.

"Yang Dian, how many missions have you accepted?"

Xu Xiaoyan suddenly turned to look at yang Dian. She felt that it was not good to ignore him. These six were the elites of this year's new student class. If possible, Xu Xiaoyan still hoped to bring them together.

"Me? Right now, it's equivalent to eighteen yellow level top and one yellow level middle missions. This time, there's an additional yellow level low level mission. As long as I take one more yellow level low level mission, I'll have nineteen yellow level top missions. If there's a suitable yellow level top level mission, I'll be able to take a black level mission after completing it!"

Yang Dian replied with a little pride. He had not wasted this year. Although he could not take on a black level mission, he was very close to it.

"Instructor Xu, it seems that the difficulty of this mission is still a bit high. There's actually someone who hasn't completed a yellow level mission in a year and still has the nerve to be so proud."

Murong yuanyan pouted, looking very disdainful.

"What do you know? there's a limit to the number of missions that the new student class can take on. Every month, everyone can only take up to four missions at most. In a year's time, we'll only have forty-eight chances to take on missions, and that's not even four missions per month. For me to be able to complete eighteen yellow level top-tier missions is definitely not an easy feat. If it were you, I don't know how many you'd be able to complete in a year!"

Yang Dian snorted. He was very dissatisfied with Murong xuyan looking down on him and couldn't help but reprimand her.

If it was really as he said, then taking all 48 missions under the yellow level would only be equivalent to 12 missions above the yellow level in a year.

No wonder yang Dian was reluctant to take on this escort mission at the beginning. Although it was not dangerous, he would waste a mission opportunity.

"Alright, there's no need for you to argue over this. It's meaningless. As long as you're willing, the middle and high level Yellow level missions can be easily completed. In the future, as a teacher, I will keep an eye out for you. As long as there is a suitable one, I will definitely give it to you first to complete. I guarantee that you will be able to receive a black level mission within a year. "

Xu Xiaoyan smiled and waved her hand, stopping the possibility of the two of them continuing to quarrel.

Murong xuyan and yang Dian snorted and didn't continue to speak. They could ignore the face of others, but they couldn't ignore Xu Xiaoyan's face. Otherwise, it was hard to say what would happen to them.

Chapter 6537 Enemy Attack

Lin Yi continued to ask Xu Xiaoyan about some mission information. He paid more attention to this information. If he did the yellow level missions step by step, he would need at least five months to reach the threshold of the black level.

This speed was too slow, and Lin Yi wanted to ask if there were any shortcuts.

"Actually, the Academy is limiting the number of missions the new students receive every month for the good of the new students. After all, the most important thing for a freshman to do after entering the Academy was to build a solid foundation. If they were to focus solely on missions, they would definitely

spend a lot of time on missions, which would not be beneficial to the growth of the freshmen. Missions are just a supplement to your cultivation, so that you can apply what you have learned. Don't put the cart before the horse. "

Xu Xiaoyan explained with great patience.

After a slight pause, Xu Xiaoyan continued,"Of course, if you can show enough strength in the assessment to prove that the missions will not affect your cultivation and will instead be beneficial to your cultivation, the Academy will not object to it. After all, the more points you get from the missions, the more points you will spend on cultivation. This is actually not contradictory."

"Instructor Xu, do we have to wait for three months for this assessment? Can it be brought forward? Or do you want to have a sudden assessment?"

Lin Yi smiled-he didn't have the patience to wait that long. He'd been stuck at the peak of Mystic Ascension for too long already, so he needed to finish his accumulation as soon as possible and break through to the mountain opening stage.

What would other people think if they knew what Lin Yi was thinking?

How long had he been cultivating? Was it long enough to stay at the great circle of black Ascension? How could they say that they could be stuck for a few years or even decades? Are you still alive?

"That's not for sure. Maybe there will be, maybe there won't be. You should look forward to it."

Xu Xiaoyan smiled but didn't give a definite answer, which made Lin Yi look forward to it.

While they were talking, the group had already flown for more than two hours. According to the time they arrived, they should be almost back at the Academy by now.

However, because there were simply too many resources on the large aerial spirit beasts, they were only halfway through the journey.

Although this area could be considered to be under the influence of the mountain region and the Academy, it was undoubtedly the most remote and weakest place!

Regardless of whether it was the Academy or the mountain region, they basically did not have much interest in paying attention to or managing this remote corner. It was precisely because of this that the appearance of the unforeseen event was not so surprising!

When this group of large flying spirit beasts passed through this area, ten black shadows silently soared into the sky. There was no fluctuation of spirit Qi on their bodies, so it was difficult to judge their specific strength level.

"Enemy attack! Please be careful!"

Xu Xiaoyan's pretty face changed slightly. She obviously didn't expect that such a new student mission below the yellow rank would actually encounter an enemy attack.

After she finished speaking, Xu Xiaoyan immediately jumped off from the flying spirit beast and instantly jumped onto the flying spirit beast at the back to prepare for defense. This was because, in addition to the loaded supplies, there was only one fellow from the Wanshan Pavilion. There was no combat power at all.

It was just that the ten black shadows were in groups of two, and they bypassed Xu Xiaoyan's flying spirit beasts and chose to attack the other five. Xu Xiaoyan wanted to go over and rescue them, but it was already too late.

In the next moment, a lightning arc flashed and appeared at the back of the group. Then, more than ten lightning arcs appeared out of thin air and blocked the attacks of the black shadows. It was Lin Yi who made the first move.

"It's just as Vice Dean Zhang said-Lin Yi's the strongest of all the new students. I'm afraid there's no one in the last batch who's a match for him. "

When Xu Xiaoyan moved again, she was very shocked.

With Lin Yi's help, Xu Xiaoyan wasn't in a hurry anymore. Zhang jinmiao had revealed that Lin Yi's strength was enough to deal with a mountain opening master!

And the people who would Rob people in this kind of place shouldn't be too powerful.

"Instructor Xu, command all the large spiritual beasts to land. These guys can fly!"

Lin Yi called out to Xu Xiaoyan after forcing the shadows back.

Lin Yi realized that the lightning bolts didn't do much damage to them. They only turned around in the air and went back to attacking the flying spirit beasts.

On the backs of these ten enemies, there was actually a pair of ugly wings made of flesh. The feathers on them were sparse, and there was even a trace of blood, as if they had just grown out of their bodies.

Although they were ugly, their wings gave them the ability to fly nimbly. In terms of speed, they were even faster than the flying spirit beasts that were loaded with goods!

And these flying spirit beasts that had no combat power at all were no match for these enemies. Landing was the best way to save their lives.

"All of you, land!"

Xu Xiaoyan noticed this as well. It seemed like no one but Lin Yi could fight against these flying enemies in the air.

A single mistake could cause the death of a large aerial spirit beast, and the mission would be a failure.

The great instructor Xu Xiaoyan led a team to carry out a mission for freshmen below the yellow grade, but in the end, she actually failed and returned. She would be the laughing stock for the next ten years. This kind of result was obviously not what she wanted.

Once the aerial spirit beast landed, the other party would have to land if they wanted to continue attacking. However, in that case, the other party's aerial advantage would be gone.

On the ground, Xu Xiaoyan was confident that she could easily deal with these robbers.

Lin Yi turned into a lightning arc and shuttled between the flying spirit beasts, but to his surprise, these guys with ugly wings on their backs were all extremely strong!

The lightning bolts couldn't do much damage to them, and they healed very quickly!

"Where did these guys come from? Could there be such a strange species in the mystic Sea? The strength of their bodies is too strong, could it be that they all cultivate the body?"

Lin Yi was shocked, but since he couldn't kill them, he just had to make sure these flying spirit beasts landed safely.

The only good news was that these guys' attacks were simple, and their power wasn't strong. It was equivalent to a peak xuansheng or half-step mountain splitter, and they weren't a threat to Lin Yi.

"Form a circular formation and defend one side. Pay attention to supporting your companions!"

Xu Xiaoyan quickly commanded the twenty-one flying spirit beasts to form a circular defense. Then, she sent Murong xuanyan and the other five people in five directions, plus the twenty employees of Wanshan Pavilion to form a defensive circle. She was the commander of the overall situation, supporting all sides at any time.

At this moment, Xu Xiaoyan didn't expect to chase after those guys. She only hoped to protect herself.

The most important thing now was to ensure the safety of the students, not to deal with these petty robbers.

Chapter 6538 Strange Species

Luckily, she didn't have to worry about Lin Yi. The guy couldn't cause too much damage to these people, but he wasn't dangerous.

"What kind of monsters are these? How come I've never heard of it before?"

The smile on Xu Xiaoyan's face had disappeared, and her pretty face was full of seriousness.

"What a strange body. It seems like it's still growing stronger. Normal lightning bolts have no effect on them at all. Could it be that they can evolve in the middle of battle?"

Lin Yi was a little shocked as well. Of course, he hadn't used his trump card yet, but even so, these weird guys were still very strong.

As if they felt that they couldn't do anything to Lin Yi, the ten black shadows quickly gathered together and stopped attacking Lin Yi.

Lin Yi didn't hesitate and returned to Xu Xiaoyan's side.

"Instructor Xu, What is this? This kind of physical strength seemed to belong to a body practitioner, and a body practitioner at the level of a half-step mountain split! For such an enemy to appear in a yellow level mission for the new student class, it's really ruthless ..."

Lin Yi didn't know what to do-he'd have to give up on earning points if all the missions were like this.

"No, no, no, I've never seen such a person before! Perhaps, he couldn't even be called a human! As you can see, the feathers on their wings are getting fuller, and their claws are also changing, their nails getting longer and sharper. I can't be sure if they were humans before or if they were just pretending to be humans, but in short, there were no such existences in this Mountain region before. "

Xu Xiaoyan observed the subtle changes in these enemies, and she was also very curious.

"Indeed, these guys" strength is actually continuing to grow with time. We have to deal with them as soon as possible to prevent their strength from exceeding the scope of our response! However, instructor Xu, I want to keep one of them alive and see how powerful he can become in the end. It can also be considered as a preparation for the possible encounters in the future. "

Lin Yi was confident in killing these guys, but he still needed Xu Xiaoyan's permission since they were on a mission.

"Do you think we'll encounter this kind of ... Thing again in the future?"

Xu Xiaoyan didn't know how to describe this creature. She could only say that it was a thing.

"I have a premonition that these things will become a major threat to our Academy. I dare to say that there won't be just ten of them. From the looks of it, they seem to have just begun to mutate. In the future, there might be even more powerful ones."

Lin Yi had a guess, but he couldn't confirm it.

"Then what do you plan to do? Do you have the confidence to deal with them? Do you need my help?"

Xu Xiaoyan was a little ashamed when she spoke. As an instructor, it was natural for her to stand up and protect the students, but those guys could fly, but she couldn't!

She had to protect the other students, too-she couldn't do much to help Lin Yi.

"No need, instructor Xu. You just need to protect the other students."

Lin Yi smiled. These guys had strong bodies, but they weren't hard to deal with.

With that, Lin Yi turned into a bolt of lightning again and instantly appeared in front of these guys. A five-colored Dragon-shaped killing intent roared out!

This time, Lin Yi didn't hold back. The Fuxi Eight Trigrams could be seen clearly in the Dragon's body.

As soon as the Dragon-shaped killing intent of the five elements appeared, it waved its dragon claws and directly hit the guy in the front. Although his body was extremely strong, he had no ability to resist this claw. He was torn apart and turned into a rain of blood.

After the first one, the second one followed. As the Dragon Claw tore one apart, the head of the Dragon leaned to the side and opened its mouth wide. It bit the other one in its mouth and easily bit down, turning it into nothing.

The remaining eight immediately spread out, no longer daring to face Lin Yi head on. They took a roundabout route instead.

Although they had lost two of their companions at once, they did not seem to care at all. They were not even frightened by the Dragon-shaped killing intent of the five elements. They continued to fight as they should.

The ones who were scared were yang Dian and Xue Peng. Xue Peng was a bit more aware of Lin Yi's strength, but yang Dian didn't. This was his first time seeing Lin Yi in action, and he didn't expect to see such a violent scene!

He thought that he could suppress Lin Yi for a bit, but he didn't think so anymore.

The lightning escape technique made Lin Yi as fast as lightning, and this type of Qi deification technique was even more powerful.

Yang Dian felt that if he were to fight Lin Yi, he'd be killed in an instant. It seemed like he needed to adjust his strategy against Lin Yi.

Lin Yi didn't know that he'd scared the hell out of yang Dian and Xue Peng-he was still chasing after the guys that were flying around.

After discovering the power of the Dragon-shaped five elements killing intent, these guys had already consciously avoided it. Their speed was even faster than the Dragon-shaped five elements killing intent, so it was not easy to hit them again.

The first two were only killed because they were caught off guard.

Lin Yi frowned and thought of using his lightning movement to chase after them, but these guys were very agile. When Lin Yi caught up to them, they could even change directions!

This caused Lin Yi's attacks to miss a few times, and after seven or eight consecutive attacks, only two of them succeeded.

Although he had killed two enemies, there were still six left! These guys saw that Lin Yi was in trouble, so they turned around and charged into the formation.

"Good!"

Xu Xiaoyan's beautiful eyes were filled with killing intent. She was already very aggrieved that she couldn't take the initiative to attack just now. Now, these guys actually dared to rush over and attack the circular array. Did they really think that she was just a decoration?

Xu Xiaoyan's figure flashed and appeared in front of an enemy who was closest to the circular formation. She raised her hand and a red ribbon shot out from her wrist!

The ribbons turned into rings in the air because the guy immediately wanted to change direction to Dodge. However, the ribbons seemed to have a life of their own and moved with him. In the end, they still accurately wrapped around the guy's body.

"Die!"

Xu Xiaoyan's pretty face was frosty, and there was no trace of a smile on her face anymore. After wrapping around the enemy, she let out a light shout and tightened her wrist, tightening the red ribbon.

When the silk ribbon was released and retracted, only the enemy was left in the air for a moment before falling.

However, before it could land on the ground, that fellow's body exploded. It had actually been strangled to death by the red silk ribbon!

This kind of terrifying attack made Lin Yi shiver.

As expected, instructor Xu Xiaoyan could not be easily offended!

She casually waved her hands and danced with the ribbon. Her movements were elegant and beautiful like a dance, but she easily killed a guy who was equivalent to a mountain split body cultivator!

Even Lin Yi wouldn't be able to get away from it.

Chapter 6539 The Enemy Is Evolving

Xu Xiaoyan took back the ribbon and didn't even look at the unlucky guy who had yet to fall. Her delicate body twisted, and she quickly moved her position again. The red ribbon continued to attack.

It was still gently and loosely wrapped around the opponent's body without a trace of smoke and fire. After tightening and loosening, the ribbon retracted, and the opponent directly burst when he fell.

The Murong siblings were already dumbfounded. Instructor Xu was indeed instructor Xu. It was fine when he didn't make a move, but the moment he made a move, it was with such power!

Lin Yi's power was stronger, with lightning and Dragons, and even a few explosions, but compared to Xu Xiaoyan, it felt a lot weaker.

At the same time, on a mountain peak far away, Xue Keyan was trembling with his eyes closed.

"I didn't think I'd run into this Lin Yi kid on my first test. Too bad the first stage of the test didn't seem to work on him! The experimentals aren't even worth looking at. The envoy is still waiting for the results, so we can only take the risk and activate the second stage. "

Xue Keyan muttered to himself as if he had made a difficult decision.

Then he raised his right hand, bit his index finger, and wiped the blood on the tip of his finger vertically on the middle of his forehead, as if he had a third eye. The blood mark kept squirming, and it really looked like he was about to open his eye.

In the end, a red light flashed between his brows and the blood mark disappeared without a trace. His face also became a little paler!

It was obvious that he had used an unknown technique. Perhaps it was similar to a forbidden technique in the cultivation world, and the damage to his body was relatively greater.

"Xue Peng was there too. Although I avoided him when I gave the order, I couldn't care less if I was really implicated! As long as we can kill Lin Yi today, everything will be worth it. As long as the special envoy is happy, house Xue will never lack a young genius with 90% talent!"

Although Xue Keyan's face was pale, the smile at the corner of his mouth carried a trace of pride and madness.

On the other side, Lin Yi had also returned to the round formation. There were only four enemies left, and he couldn't be bothered to chase after them. They were going to attack the round formation anyway, so he just had to wait for the rabbit wine here.

"Instructor Xu! If you're so powerful! Why do you still want me!! Freshman, to charge into the enemy lines? wouldn't it be better to get rid of them earlier?"

Lin Yi stood beside Xu Xiaoyan, too lazy to continue fighting.

"I'll rush out? But he had to be able to catch up to them first, right? "Besides, I've only killed two while you've already killed four. I can see that your strength isn't any weaker than me, your teacher. Are you trying to play the pig to eat the Tiger?"

Xu Xiaoyan retracted her red ribbon and returned to her charming smile.

"Mentor, what are you saying? when have I ever pretended to be a pig? Besides, killing four of them was a fluke. I just happened to have two extremely powerful martial skills. "

Lin Yi smiled faintly and replied humbly.

"You've already turned your true Qi into a spirit, which is not a simple martial art technique. If you have enough true Qi to support it, this Dragon you've created will have its own consciousness one day and become a real Divine Dragon! Well, the divine Dragon might be a little exaggerated, but it's not a problem to become a real spirit beast. "

Xu Xiaoyan looked at the Dragon-shaped killing intent of the five elements in the sky, especially the Fuxi Eight Trigrams in its body. She couldn't help but sigh.

She couldn't even use true Qi deification with her current strength, and she didn't expect Lin Yi, a mere Mystic Ascension peak stage, to be able to do it so perfectly.

Unfortunately, Lin Yi was still at the peak of Mystic Ascension realm. Turning his pure energy into spirit was just a slightly more powerful martial skill. There was no way his pure energy could supply this Dragon to become a real spirit beast.

Although Lin Yi was strong, far stronger than his peers, his pure energy was still only at the peak of the mystic Ascension realm!

Even if he was drained dry, it would not be enough to meet the needs of true Qi turning into spirit to evolve into a living body. It was not even one in ten million, so there was no need to talk about whether he was satisfied or not.

Xu Xiaoyan didn't know that if Lin Yi wanted to, he could do it. He had the endless spiritual Qi in the Jade space as support. If he wanted to make this spiritual Qi into a living being, he could!

But Lin Yi didn't plan on doing that yet. The amount of Qi needed to turn Qi into a real life form was too much, and even with the Qi in the Jade space, it would take time to convert it into Qi.

He didn't know how long it'd take for him to convert and supply the Qi, but Lin Yi didn't have the time to waste.

He said that he was here to accompany Shangguan LAN 'er, but Lin Yi knew that he could use this opportunity to train himself.

At the same time, he could also ask around to see if there was any news about the transit station, or find a way to the transit station. Getting Zhang Liju back was the most important thing.

"Instructor Xu, isn't it a little inappropriate for us to chat like this? Those four guys didn't run away either, it seems like they're planning something bad. Why don't we make the first move and kill them all?"

Lin Yi pointed at the four enemies flapping their wings in the air. He wondered if he could kill three of them and Capture One alive if he suddenly attacked.

"You're right, then go! As the saying goes, when a teacher has something to do, a disciple has to do it. I will be here to cheer you on. "

Xu Xiaoyan's smile was as beautiful as a flower as she patted Lin Yi's shoulder with her Jade-like hand, as if she had high hopes for him.

"Alright, I guess it's me too ..."

Lin Yi shook his head and didn't reject the offer. It was his original plan anyway.

However, at this moment, the bodies of the four guys in the air in the distance surged with red light at the same time, and their bodies began to swell rapidly. Moreover, they had not made any sound all this time, but they actually let out a beast-like roar in unison!

"What's the idea? Did he transform?"

Lin Yi paused as he was about to leave.

"They're evolving! Can you feel their aura?"

Xu Xiaoyan's pretty face changed slightly. There was no true Qi fluctuation on these guys before, even in the battle. At most, they just showed their powerful body refining strength.

But now, it was different. The red light seemed to have opened the cage that held the demons, and the aura of the four men suddenly soared!

In a short period of time, he had already broken through to the early stage of earth creation, and it was still rising.

Not only that, hard red armor was continuously growing on their swollen bodies, as if they were wearing blood-stained armor!

They were definitely not pretending to be cool. Xu Xiaoyan was sure that the defensive ability of these four guys had also made a qualitative leap. Perhaps with the improvement of their true energy, they had also reached the strength of earth-splitting body practitioners.

Chapter 6540 How Did He Die?

"Lin Yi, don't go! These guys are very dangerous. "

Xu Xiaoyan grabbed Lin Yi's arm without a word.

If Lin Yi was able to suppress his opponent when he went out earlier, he would be completely suppressed now!

Xu Xiaoyan didn't believe that Lin Yi could take on enemies of this level. She didn't dare to say that she could take on all of them, and it wasn't all four of them. She couldn't say for sure if she could take on any one of them.

If only their true Qi had reached the earth-opening stage, it would not be that scary. However, their defensive ability had also reached the level of earth-opening stage body practitioners. That was too terrifying!

This meant that even an attack from a cultivator at the earth-opening stage of the same level might be useless. Perhaps only a cultivator at the sea splitting stage could kill these four guys!

"Instructor Xu, it's useless even if I don't go over. They'll come over. The combat power of these four guys has already soared dozens of times. Once they rush over, I'm afraid it'll be difficult for us to resist them!"

Lin Yi's eyes were sharp-these four probably wouldn't even be able to break through the five elements Dragon killing intent.

Unfortunately, Lin Yi had tried it just now, and his best spirit sense attack had no effect on these things. It wasn't that they had spirit sense defensive items, but they didn't seem to have any essence spirit at all!

This was a very strange phenomenon. Even the spirit beast clan and the sea beast clan would have primordial spirits. Could these guys be new species?

"Let them come over. We'll put all our efforts into defense. Their condition is very strange. I don't believe that this state can last for long. Maybe they'll be fine after this!"

Xu Xiaoyan shook her head lightly. Her opinion was very original, and it made Lin Yi's eyes light up.

That's right, skills or forbidden moves that burst out for a short period of time usually had very strong after-effects, and they couldn't last long.

"Everyone, gather together and form a defensive formation. We'll split the pressure!"

Xu Xiaoyan shouted in a low voice and raised both hands at the same time. Two red silk ribbons soared into the sky, one on the left and one on the right, flying back and forth, quickly forming a red silk cover, enveloping all the flying spirit beasts and people inside.

The four guys in the distance had already flown over at this time. Almost at the same time as Xu Xiaoyan's silk ribbon was shot out, they began to move. Four red lights were like lightning, and their speed was extremely fast!

It couldn't compare to Lin Yi's lightning movement, but it was only a little weaker than ghost speed wings.

Lin Yi's heart shivered. These guys "strength was too terrifying to even think about. Super strong defense, super fast speed, and the strength of their pure energy had reached the peak of late earth-opening!

Other than experts at the sea Rift realm, there was probably no one below the sea Rift realm who could be their match.

Boom! Boom! Boom! Boom! Four loud sounds rang out, and the red silk veil that Xu Xiaoyan had set up was hit from four directions. The four human-shaped dents almost tore the red silk ribbons apart!

Fortunately, it was still blocked in the end and was not completely penetrated by these monsters.

However, Xu Xiaoyan didn't feel good either. Her pretty face instantly became extremely pale, and her originally red lips suddenly lost their color. Then, a mouthful of blood spurted out of her mouth uncontrollably, and her pale lips were dyed with bright blood!

"Instructor Xu!"

Lin Yi and the others were all shocked, especially Murong xuyan, yang Dian, and Xue Peng. Whether they could go back alive now all depended on Xu Xiaoyan!

If Xu Xiaoyan couldn't hold on, all of them would be finished, so they couldn't help but be nervous.

Lin Yi was shocked as well. He knew that Xu Xiaoyan's Red ribbon was a defensive weapon, but he didn't expect that one attack from those four guys would almost break Xu Xiaoyan's defensive shield.

To be honest, Lin Yi was starting to regret it-he'd been too careless and underestimated them. If he'd let the spirit beast out earlier, he could've killed them all, and they wouldn't be in this situation after transforming.

He looked up through the gap between the ribbons and saw that the four guys had returned to the air and were diving down again. Lin Yi took out the black bead that the frog gave him. It was the only one left, but he couldn't care about anything else. These guys' bodies were strong, and Lin Yi could only use the black bead to defeat them.

At the same time, he began to condense the Super alchemy bomb in his other palm. The black bead only had three chances to attack, and the opponent had four. The last one would have to be taken care of by the Super alchemy bomb, and there couldn't be any mistakes in the process. If the opponent avoided a mistake, the situation would be extremely unfavorable!

Strength, he was still not strong enough! Lin Yi had killed earth-formation and sea-shattering cultivators before, but those weren't his true strength. He had to rely on his trump cards. Once he used up all his trump cards, he could only suppress his opponents who were one level higher than him. It wasn't something he could rely on when his opponents were getting stronger.

Victory or defeat would be decided in a single move. Lin Yi's eyes and senses locked onto the four enemies who were swooping down from the sky. He was ready to use his Thunder escape to close the distance and launch a fatal attack that couldn't be dodged!

However, an accident happened again. Everyone's nerves were stretched to the limit, waiting for the other side's attack to arrive. Who would have thought that this menacing diving attack would never arrive? The four figures that were diving at high speed exploded into a rain of blood in the air at the same time. Then, they were all bounced off by the red ribbons, splashing onto the surrounding ground, forming red spots.

Everyone was dumbfounded. They didn't know what move this was. A suicide attack? He should only commit suicide when he was attacked, right? Or were they trying to scare their opponents to death in such a bloody way?

So the question was, should everyone cooperate and act like they were scared to death? After all, he was really dead ...

Even Lin Yi didn't expect this. He was ready to attack, and the lightning arcs on his body were crackling, but his opponent ... Was gone?

Fortunately, he didn't move too fast. Otherwise, the black bead in his hand would have been activated. Even if he lost one attack, it was enough to save his life from the hands of an expert at the sea splitting stage!

"Instructor Xu, they're all dead."

Lin Yi took a deep breath and put the black bead away, dispersing the Super alchemy bomb in his palm. He then whispered to Xu Xiaoyan, who was still a little stunned.

"Dead? Oh, right, why did he die?"

Xu Xiaoyan was still a little dazed. She didn't even bother to wipe the blood from the corner of her mouth. She was prepared that her defense would be broken through this time. Once her defense was broken, she could only fight for her life and save as many as she could.

Although if her defense was broken, she would most likely be severely injured, and it was hard to say whether she could go all out.
