

## Bodyguard 6541

### Chapter 6541 Quest Leveled Up

"I exploded. I guess the side effects are acting up. This state really has a fatal flaw. After activation, I can only launch one attack."

Lin Yi smiled bitterly and shook his head. He took out a healing pill and gave it to Xu Xiaoyan, signaling her to take the red ribbon back.

Xu Xiaoyan didn't refuse. She took the pill and put it into her mouth, and at the same time, she took back all the red ribbons.

It was only now that she felt a sense of fear.

The freshmen missions below the yellow rank had almost involved her, the instructor, as well. Was this still a mission below the yellow rank?

It's too little to even be below earth-rank!

"Everyone, get on your aerial spirit beasts. We'll leave this place immediately. Those fellows are too strange. We must report this matter to the Academy immediately!"

Xu Xiaoyan wiped the blood from her mouth and called everyone to get on the flying spirit beast.

Other than Lin Yi and Shangguan LAN 'er, the others were all shocked by what had just happened and were still in a daze.

Shangguan LAN 'er's mental strength had improved a lot after going through a lot with Lin Yi recently. The others were all young masters and young mistresses, geniuses, and so on, they had never experienced such danger before.

The twenty-one flying spirit beasts quickly rose into the sky. At this time, Xu Xiaoyan even wanted to abandon this batch of supplies.

Those guys just now were really strange. She just wanted to go back and report to the school as soon as possible. If more of these fearless and powerful enemies appeared, the Feiyang school would be in danger.

"Everyone was shocked this time. Although it was very dangerous, it was not without gains! It was originally a yellow level mission, but now it's definitely going to be adjusted. According to the level of danger, it's not impossible for this mission to be rated as earth level, but the degree of adjustment might not be that big, so it should be rated as black level middle or black level low difficulty. "

After Xu Xiaoyan caught her breath, she saw that several students were still a little stunned, so she smiled and proposed the possibility of adjusting the difficulty of the mission. It was also a kind of comfort.

This wasn't unprecedented. Many times, a low-difficulty mission would have some unexpected changes that would lead to an increase in difficulty.

So as long as the personnel could return safely and report the specific situation, the Academy would correspondingly increase the difficulty of the mission as compensation.

However, just like this time, it was originally a new student mission below the yellow rank, but in the end, it encountered a danger that only existed in the earth rank difficulty. This was really an unprecedented thing!

According to the usual practice, the compensation for the difficulty adjustment wouldn't be too big. In addition, they were quite lucky this time, and there were no casualties in the end. It was almost impossible to adjust the difficulty from below yellow level to earth level.

"Instructor Xu, after the difficulty of this mission has been adjusted, what benefits will we get?"

Lin Yi saw that yang Dian's breathing became heavier after hearing the news, and he immediately knew the significance of this.

"Of course, there are many benefits. For example, the reward of academic credits and mission points may be tens or even hundreds of times more than the original. The academic credits may not be that much, but the mission points will definitely not be less. Most importantly, you have completed the black level mission, which is equivalent to directly skipping the yellow level mission threshold. In the future, you can directly take on black level missions."

Xu Xiaoyan explained to Lin Yi with a smile. After seeing Lin Yi's strength with her own eyes, she looked forward to Lin Yi even more. No matter what the question was, she was willing to answer it patiently.

"So that's how it is! That's a good thing!"

Lin Yi was overjoyed as well-he was just worried that the points for yellow level missions were too little, and now he was able to take on a black level mission! It was indeed dangerous, danger came with opportunity!

In that case, it was not a bad thing to encounter those strange guys. Although he almost used the trump card that the big Frog had left for him, he managed to escape the danger in the end, and the harvest was quite rich.

The only pity was that yang Dian and Xue Peng weren't killed by those guys. At that time, Lin Yi wouldn't lay a hand on his own team members even if he had the chance. That was the most basic bottom line.

"It's a good thing indeed, Lin Yi. With the strength you've shown, there shouldn't be too much danger in the mystic class missions. However, there's one thing-the mission's difficulty can't be higher than the current difficulty level. "

"In other words, if the difficulty of this mission is lower black level, then you can only accept lower black level missions in the future. After you have completed twenty missions, you can then accept medium or high black level missions. If it is Medium Black level, then you can only accept medium or low black level missions. If you want to level up, it will be the same condition, understand?"

Xu Xiaoyan reminded Lin Yi, in case he misunderstood the rules.

"It doesn't matter. Even if it's a black rank mission, it's enough for me to earn points."

Lin Yi smiled-this wasn't an arrangement he couldn't fault. Jumping missions like this wasn't the same as leveling up normally, after all.

Out of the six students, yang Dian was probably the only one who didn't know whether to laugh or cry at this result.

He had used a year's time to quickly complete the number of yellow level upgrade tasks and immediately began to take on black level tasks.

However, after the difficulty of the mission had been adjusted, he was able to take on a black rank mission even though his yellow rank mission was not full yet.

However, there was a limit to it. Rather than that, it was better to continue completing yellow level missions to level up naturally.

But on the other hand, to be able to accept black rank missions and complete yellow rank missions? Even yang Dian himself felt that it was a waste!

Therefore, the best reward for the other five players was of little value to yang Dian. He was in a difficult position as to what to choose.

"There's one thing you need to be careful of, Lin Yi. We don't know what's going on with these guys, but the school might issue a mission like this. For example, looking for clues, gathering information, and so on. The mission level won't be too high, but you guys can take it. You know the danger, so choose carefully and see if it's worth the risk, understand?"

Xu Xiaoyan solemnly reminded him. After all, everyone had experienced the dangerous situation just now.

The danger level of gathering intelligence and information was definitely not as high as before, but once they were discovered, the difficulty of the mission would probably be adjusted again. It was hard to say if they would even be able to return alive to accept this adjustment.

So Xu Xiaoyan didn't know if it was a good thing or a bad thing for Lin Yi and the others to take on a black level mission.

It was good to earn more points, but these newbies, other than Lin Yi, might not be able to adapt to the dangerous missions!

If there were any accidents, it would be Feiyang College's loss. A genius with nine points of talent could not be admitted at any time.

Chapter 6542 Continue

"I understand. Accepting missions is naturally within our means. We definitely won't do anything that's beyond our capabilities."

Lin Yi smiled as he looked at Shangguan LAN 'er and the Murong siblings.

While Lin Yi and the others were discussing the mission, Xue Keyan returned to the barren mountain peak with a pale face.

The masked man in the black robe was still waiting for him at the same place, and it seemed that he had not moved at all.

"Envoy, the first experiment has ended. Ten test subjects have all died. Six of them were killed by their opponents. The other four entered the second stage and launched an attack before self-destructing and dying."

Xue Keyan didn't hide anything. For the sake of perfecting the experimentals in the future, he didn't dare to hide anything.

"Tell me the details. Did you encounter a powerful team or a powerful individual?"

The masked man's tone did not change at all, as if he was not surprised by this result at all.

"The group we met this time wasn't that strong, but surprisingly, Lin Yi was among them!"

Xue Keyan gritted his teeth. This was a good chance to kill Lin Yi-not only could he get his revenge, but he could also please the envoy!

He didn't think that all the test subjects would be destroyed, and Lin Yi was completely unharmed-this made him grit his teeth in hatred.

"Lin Yi, he's leaving the school? Didn't they say that new students are not allowed to leave the Academy?"

The emissary's emotionless voice finally revealed a trace of surprise,"tell me, how's Lin Yi?" Did you kill him?"

Although Xue Keyan had said that all ten test subjects were dead, there was still a chance that Lin Yi would be killed first before the test subjects died. He was looking forward to it.

"No, not only Lin Yi, the others are fine as well. They were brought out on a mission by a mentor, so they're pretty strong! Of course, if it wasn't for the fact that the second stage test subject self-destructed due to the instability, there's still a good chance of killing them. "

Xue Keyan's heart ached as he spoke. If the four experimentals had been able to hold on for a little longer, the outcome would have been completely different!

They were so close to breaking through the defense of the teachers of Feiyang college. As long as they rushed in, it would be a one-sided slaughter!

Unfortunately, he failed at the last step!

"The unstable condition of the test subjects was something we could predict a long time ago, that's why they're called test subjects. It's just a pity that we met Lin Yi at the wrong time!"

The masked man in the black robe shook his head and turned to look into the distance. "We didn't kill Lin Yi, but we'll have another chance. The problem is that we ran into the people from the Feiyang school on our first try. It'll be hard for us to continue testing here. We'll alert the enemy and get the attention of the Feiyang school,"

"Envoy, should we change the location and continue the experiment? We'll find a weaker college and mountain to test it out. When the situation of the experimentals has stabilized, we'll come back and deal with Feiyang college. How about it?"

He'd decided to stay here to deal with Lin Yi, but to show his loyalty he could only give some honest suggestions.

"Your suggestion is not bad, but you don't have to do that. Before the experimentals stabilize, they are all consumables. They will be used up anyway. It doesn't matter where you experiment. It doesn't matter if you attract the attention of Feiyang college as long as you can ensure that you don't expose yourself."

The masked man in the black robe waved his hand casually.

To him, it didn't matter how many experimentals he used up. Since he had already attracted the attention of the Feiyang college, he might as well continue to move around in this area.

The enemy was in the light, and he was in the dark-there was still a chance to catch Lin Yi and kill him.

To him, this was not a loss. The only loss was the experimentals provided by the Xue family.

The most important thing was to perfect the potion through the test subjects!

His original plan was to carefully search for merchant teams or small quest teams in this area, but this was not a bad idea.

The Feiyang college would definitely send out a search team, and the experimentals would use them as practice.

"Yes, special envoy, don't worry. My identity will definitely not be exposed. The experimentals can be controlled remotely. No one will be able to discover my relationship with the experimentals."

Xue Keyan quickly promised, but his heart was full of joy. This was the result he had hoped for the most.

"You have to be careful about where the experimentals came from. Don't let anyone notice. I don't want anyone to trace it back to you before it's completely perfected. Although I can find another partner, it'll save me a lot of trouble if I keep working with you."

The masked man in the black robe was straightforward, but Xue Keyan felt that it was natural.

"Don't worry, envoy. There won't be any problems! I can guarantee it with my life!"

Xue Keyan patted his chest and promised. Half of the ten experimental bodies this time were secret men of sacrifice raised by the Xue family. Their strength was not high, so it did not hurt to use them.

The other half were enemies who had offended the Xue family and had been secretly captured and imprisoned by the Xue family. In the outside world, these were people who had been missing for a long time, so naturally, no one would suspect them.

However, these two sources were not a long-term solution. The consumption of the experimentals was already foreseeable as a bottomless pit. Xue Keyan's words were firm and decisive, but he was not very confident in his heart.

It wasn't that easy to find a sufficient number of test subjects, but in front of the masked man in the black robe, Xue Keyan had to show his confidence.

"That's for the best. The drug will be delivered to you in three days. Prepare the test subjects for the drug! That's all for today!"

The masked man in the black robe said indifferently, then turned around and left the top of the barren mountain.

Xue Keyan hurriedly bowed to send him off. When he looked up again, the black-robed masked man was no longer there.

Xu Xiaoyan returned to the periphery of Feiyang college safely with the large aerial spirit beast team. Fortunately, nothing happened again.

After handing over the supplies and thanking the guys from the Wanshan Pavilion, Xu Xiaoyan brought Lin Yi and the others to the mission Center.

"You guys wait in the hall first. I'll go and adjust the difficulty of the mission and handle the rewards for this mission."

"Instructor Xu, you can go back to your work."

Lin Yi smiled and nodded.

"Alright, I'll be back soon."

Xu Xiaoyan turned around and walked into a corridor. Before entering, she showed a sign to the guard. Obviously, not just anyone could enter.

After Xu Xiaoyan left, yang Dian and Xue Peng ran away, not wanting to stay with Lin Yi and the others.

Lin Yi's group didn't really like the two of them, either, so the six split into two groups and wandered around the hall.

"There aren't many missions posted here, and more than 90% of them have been accepted. It seems like I can't accept all four missions in a month!"

Lin Yi couldn't help but sigh as he looked at the mission Board.

Chapter 6543 No One Is Convinced

"After instructor Xu has adjusted the difficulty of this mission, we can take on black level missions. This way, the range of choices will be much wider. When there are no more missions, we can continue to take on yellow level missions. Brother Lin, do you feel like a pie fell from the sky?"

Murong yuanyan looked at Lin Yi with a faint smile and asked indifferently, as if she didn't care much about this.

But in reality, that wasn't the case. After Murong xuyan saw Lin Yi's strength, she felt a little uncomfortable. It seemed that Lin Yi was also very strong!

How could this be? He was the strongest existence among the younger generation in this mountain. Although it was easier to get credits by teaming up with Lin Yi, Murong xuyan wouldn't say anything because he had his pride.

He could respect Lin Yi, but he couldn't!

On the path of cultivation, one was not afraid of not having an opponent, but of not having any goals.

With such a powerful person as a reference, Murong xuyan felt that it was not bad.

"Heh, but I don't think this is a pie. After all, even if it's a pie, it has to be edible! "If it wasn't for instructor Xu, we would probably have been annihilated a long time ago. It would be more like a discus!"

Lin Yi smiled, not thinking that it was a good thing.

Yang Dian wasn't far away, but he'd been paying attention to Lin Yi's movements-he let out a breath of relief after some thought!

When Lin Yi was fighting the monster before, he was so intimidating that yang Dian was really scared.

But after hearing Lin Yi's words, she immediately understood! If it wasn't for mentor Xu, they would all be dead, including Lin Yi!

Lin Yi had some tricks up his sleeve, but they were all flashy moves that focused on speed. Their actual attack and defense weren't that great.

From this, it could be seen that it wasn't surprising that Lin Yi got first place in the mountain Run training. It was all because of his speed, what was the big deal!

When real experts fought, it was a real competition of Foundation, physical strength, and true Qi. What could you do no matter how fast you were? To escape?

"Look, there's a black level mission that just appeared. If we had the qualifications, we would be able to take it immediately."

While everyone was talking, Murong Fei Fei suddenly pointed at a mission that had just appeared and turned her head.

"Searching for traces of the rock Wolf, a spirit beast at the beginning stage of the mountain opening stage. Eh, someone has already accepted the mission within seconds. That's really fast."

Lin Yi had only just said one sentence when the mission Status changed to accepted!

From this, it could be seen how difficult it was to accept a mission. There were too many monks and too little gruel. Once the mission appeared, it could be snatched away. If he wanted to receive a mission in the future, he would indeed have to be quick-witted.

"Not bad! The spirit sense cultivation room requires a lot of mission points, so in order to cultivate better, many people have no choice but to take on missions continuously to earn points. "

Murong xuyan knew a lot about these rules."I heard that some teams take turns to have people stay here to take on missions, so they can quickly take on any mission. We can also use this as a reference."

Looking at this situation, Murong Feiyan already had an idea in his heart. He planned to let Murong buqi stay here to take on missions.

"What brother Murong said makes sense, but after I get the mission reward this time, I want to go and see the consciousness cultivation room first. As for how to take the mission, that's a matter for later."

Lin Yi smiled-he'd better use his points first, what if they expired?

There were many similar things in the secular world. Hotel points, Shopping Points, credit card points, and expired points were all wasted.

Of course, the most important thing was that Lin Yi had a feeling that this wasn't the only group of strange opponents they'd meet today!

Therefore, after cultivating for a few days, there might be related missions, such as searching for traces, collecting information, and so on as mentioned by Xu Xiaoyan. Because of the uniqueness of the mission, there might not be many people who would accept the mission, so there was no need to fight over it.

"That's true. Now that we have points, we should go and cultivate to improve our strength. I just don't know how many rewards instructor Xu Can get for us."

Murong yuanyan nodded. He didn't have a chance to fight in the previous battle, which hurt his self-esteem!

So, using the cultivation room to cultivate and improve his combat power was also Murong xuanyan's top priority. It just so happened that he could cultivate with his sister's partner.

What they didn't expect was that Xu Xiaoyan had won a lot of rewards. When she announced the results and everyone heard the number of rewards, they couldn't help but cheer.

"This mission's difficulty has been set at black level middle level, this is already the best result! Although the actual difficulty may not be just within the black grade, the rules are as such. In the future, you can directly accept all missions below the black grade. In addition, in terms of academic credits, each person will be awarded 30 points ..."

When Xu Xiaoyan said this, even yang Dian's eyes couldn't help but brighten!

A normal black level mission would not reward more than 10 points, but this time it was 30 points, it was hard to imagine!

It was obvious that he had suffered a loss in adjusting the difficulty, but he had made up for it with the rewards.

"As for the mission points, each of you will receive 500 points as a reward. This is not the points that you can get from the normal difficulty of the Xuan grade, but also a part of the compensation! "I hope you

can make good use of the credits and mission points in your hands to work hard to improve your strength and combat power!"

Xu Xiaoyan didn't stop. She looked at the six people and continued,""The most important thing is to protect yourself. You must be careful not to take on missions that are beyond your ability!"

"Yes!"

Lin Yi and the others all nodded happily.

"Alright, I'm going to attend a meeting. You guys are going to the cultivation room to cultivate. Let me know in advance. You don't have to come to the usual classes, but you must attend the assessment! If you can't complete the assessment, you can do as you see fit. "

Xu Xiaoyan smiled and left in a hurry.

The six of them once again split into two groups, each going their own way.

Lin Yi and the others decided to check out the spiritual sense room. With so many mission points in their hands, they definitely had to try out the spiritual sense room first.

Xue Peng, on the other hand, pulled yang Dian to a remote corner and started discussing Lin Yi with him in a low voice.

"Yang-Shixiong, you've seen it for yourself. Lin Yi's pretty strong, and now that the four of them have formed their own group, they're completely ignoring us! The next time he challenges you, he'll definitely challenge you for courtyard number one and the position of class monitor. Do you have the confidence to deal with his challenge?"

Xue Peng didn't think that yang Dian was Lin Yi's match, but he couldn't be too direct in case yang Dian was unhappy.

Chapter 6544 Using The Cultivation Room

"What do you mean? Do you think I can't handle Lin Yi? Is that why you're going over to Lin Yi?"

Yang Dian was furious as well-he'd used a lot of resources and connections to stay in the new class, how could he just let Lin Yi kick him out like that?

However, he still had a trump card. As unwilling as he was, he wasn't afraid of Lin Yi!

Lin Yi would be the one begging for mercy when yang Dian decided to open the mountain!

Don't you know that you're no match for Lin Yi? Xue Peng was extremely disdainful, but he had to explain with a smile.

"How can that be! I just feel that only yang-Shixiong is capable of dealing with Lin Yi right now, and I have a grudge against that guy. Even if I wanted to join him, he wouldn't be nice to me! Maybe he'll just kill me in a second, so please don't make fun of me, senior brother yang. "

Xue Peng laughed embarrassedly and deliberately exposed his own shortcomings. As expected, Yang Dian's expression became much better.

"You're right! I don't think Lin Yi's a good guy, always going around two pretty girls with his eyes closed. You're not going to have a good time if you go to him. "

Yang Dian's anger turned into joy. He smiled and nodded, his tone full of envy, jealousy, and hatred.

Xue Peng laughed in his heart. Yang Dian was a classic case of sour grapes. He was the one who wanted to go around two beautiful girls, but he took his anger out on Lin Yi because he couldn't do it!

However, Xue Peng definitely wouldn't say it out loud, so he quickly agreed.

"Brother Yang, let's get down to business. If we don't get rid of this Lin Yi, he'll always be a big problem for us! What do you think we should do?"

Xue Peng looked around to make sure that no one was paying attention before he whispered in Yang Dian's ear in a voice as low as a mosquito.

Dealing with students from the same Academy and class, they definitely couldn't discuss it openly. If the teacher heard it, they would be expelled immediately.

Therefore, Xue Peng tried to keep his voice as low as possible. Fortunately, no one around him noticed a small figure like him.

"You're right, we have to find a way to deal with him, but how should we do it? Do you have any ideas?"

Yang Dian didn't have any good ideas for the time being, so he could only ask Xue Peng.

"I don't have any good ideas either, but this is what I'm thinking. If we want to deal with him, we must know his whereabouts. It's definitely not convenient to make a move in the Academy. Once he leaves the Academy, we'll have a chance!"

Xue Peng continued to analyze in a low voice, "fortunately, we all have the right to take on a black level mission now. With Lin Yi's personality, he will definitely use it. We just need to keep an eye on him and find an opportunity outside the school."

Xue Peng didn't know that his own family's Xue Keyan was coming to discuss Lin Yi with him-he wouldn't be in such a rush to discuss this with yang Dian.

"That makes sense. The problem is that if the four of them act together, even if we follow them, we won't be able to deal with them, right?"

It wasn't that yang Dian wasn't confident, but he didn't want Lin Yi to ruin his plan.

He was planning to accumulate for a year before he decided to open a mountain. Otherwise, if he really opened a mountain, he wouldn't be able to stay in the new student class. He would only be able to enter the advanced class, and he wouldn't have the advantage of resources here.

"Brother yang, I didn't say that we're going to fight Lin Yi head on. They're going out on a mission, and they're going to run into some danger, right? Originally, these dangers might not be enough to threaten them, but with us adding fuel to the fire in the dark, it's hard to say!"

Xue Peng smiled sinisterly-he'd been planning this for a long time just to deal with Lin Yi.

Previously, Xue Peng was still thinking of being persuaded to leave as soon as possible. Who knew that by a freak combination of circumstances, he actually obtained so many credits and mission points as rewards. It was not an easy thing to deduct all these credits.

Plus, these mission points were a huge asset-it'd be a waste to just give them up like that. He decided to give up on the idea of dropping out for now and started planning how to get rid of Lin Yi.

"That makes sense. How about this, I know that the school has some attack tools that can be exchanged with points. We'll each pay a part of our share to get a few, and then we'll secretly attack and use the tools to kill Lin Yi. He won't even know how he died!"

Yang Dian rolled his eyes and laughed as he made a suggestion.

"No problem, I'll listen to senior brother yang. Let's go and Exchange now."

Xue Peng was overjoyed and immediately agreed.

As long as he could kill Lin Yi, spending some mission points was nothing. These points were free anyway, or Lin Yi gave them to her.

Using Lin Yi's points to exchange for items to kill Lin Yi, Xue Peng felt great just thinking about it. He immediately urged yang Dian.

With yang Dian, a senior student, this small matter was naturally not a problem. The two of them exchanged their points for props with ease.

Lin Yi and the others went to the spirit sense room, and there was a disciple in charge of receiving them.

"Junior brothers and sisters, the highest level of spiritual sense cultivation rooms you can rent with your academic credits is C-low grade. Would you like to rent a D grade or C-low grade?"

A young disciple smiled at Lin Yi and the others, telling them to look at the description of the spirit sense rooms.

According to the different credits, the cultivation rooms that could be rented were also different.

Under the condition of academic credits, the effect of using the cultivation rooms within a range was directly proportional to the mission points required.

"So there are seven cultivation rooms, A, B, C, and D. Other than the D room, A, B, C, and D are divided into two classes."

Lin Yi's eyes scanned the room, and he understood what was going on.

Without the mission reward, the new students would only be able to choose the D grade training room, but Lin Yi's group now had at least one more option.

"Two C-grade spirit sense cultivation rooms, thank you."

Lin Yi turned to look at the Murong siblings-there was no way they'd pick the wrong one.

The four of them each transferred the mission points and took the cultivation room number to find their own cultivation room.

Lin Yi and Shangguan LAN 'er found their respective training rooms and opened the stone door with a number.

As soon as he walked in, he felt an extremely comfortable fluctuation in his soul, and he relaxed.

"So comfortable! Lin Yi junior, I feel like I've improved even without training. This spirit sense training room is amazing. "

Shangguan LAN 'er closed her eyes and opened her arms, feeling it with a happy expression.

"It's indeed not bad. If you can improve even without cultivating, then your progress in cultivation will be even faster!"

Lin Yi smiled faintly. His spirit was much stronger than Shangguan LAN 'er' s, so he didn't feel it as obviously as she did.

The entire spiritual sense cultivation room was not big, only about a dozen square meters. There was nothing else except for two Jade futons in the middle.

The strange thing was that this spiritual sense cultivation room was oval in shape. The dome above and the bowl-like bottom below were connected together, looking like an egg that was vertical.

Chapter 6545 The Xue Family Came

Could it be that this shape had some wonderful benefits for cultivating the spiritual sense? Lin Yi didn't know what it was, but it was amazing!

"Lin Yi, Lil" bro, you're right. Come and train, let's not waste time!"

It was rare for Shangguan LAN 'er to be this active, and Lin Yi naturally wouldn't let her down.

"Alright, take this pill first. It's very good for cultivating your soul."

Lin Yi smiled. He sat down on the futon opposite of Shangguan LAN 'er and handed her a soul quenching pill.

Without even looking at it, Shangguan LAN 'er took it and threw it into her mouth, as if she was eating candy.

She didn't even ask what the pill was, which showed how much she trusted Lin Yi.

"Here is the instruction manual for the deified soul cultivation room. Let me take a look first!"

After Lin Yi sat down, he noticed some small words on the ground. He focused.

"I also have some here, en, it's nothing much, just circulating a spirit sense cultivation method and then combining it with a partner's spirit sense to increase each other's progress. Lin Yi, you're the same, aren't you?"

Shangguan LAN 'er swallowed the soul quenching pill and summarized the instructions in front of her.

"It's almost time. Let's start. "

Lin Yi smiled, signaling for her to start her spirit training.

Shangguan LAN 'er grunted and closed her eyes, quickly entering the state of divine sense cultivation.

With the help of the mind calming Pearl and the effects of the soul quenching pill, it was not surprising that she had entered a state of cultivation very quickly.

Lin Yi smiled slightly and closed his eyes as well. His spirit sense could be extended at any time. This was the experience of countless battles, and it was more than a little stronger than a newbie like Shangguan LAN 'er.

Almost in an instant, Lin Yi's spirit sense found Shangguan LAN 'er's spirit sense. Following the weak trace of spirit sense, he could even see the primordial spirit in LAN' er's sea of consciousness.

The soul quenching pill had started to take effect, refining Shangguan LAN 'er's primordial spirit and consciousness. Lin Yi felt that his consciousness was moving along the curved wall of the training room, circulating with Shangguan LAN' er's consciousness.

"There's indeed something. LAN 'er followed my spiritual sense, and her cultivation speed was obviously much faster! Unfortunately, her primordial spirit is too weak and can only passively follow. If the strength of the two's divine senses is similar, they can cooperate and promote each other, and the speed of cultivation will definitely be faster!"

Lin Yi was very impressed with the designer of this room, but unfortunately, his spirit was too strong, and Shangguan LAN 'er couldn't train with him, so this room couldn't be used.

However, Shangguan LAN 'er was different. Her spirit sense was being controlled by Lin Yi, and with the help of the soul quenching pill, her cultivation speed was at least ten times faster than when she was cultivating on her own.

"It seems that if I want to improve the strength of my deified soul, I can only wait for LAN 'er's primordial spirit to become stronger, or change to a better deified soul cultivation room! Let's just take it as cultivating LAN 'er's divine sense!"

Lin Yi didn't have high hopes for a low level training room. After all, his spirit was stronger than these students, and the designer didn't think that a spirit monster like Lin Yi would come here one day.

So Lin Yi decided to just calm down and cooperate with her ...

Time passed quickly during cultivation.

The next morning, Lin Yi and the others all came out of their practises, refreshed as if they'd gained a lot.

"Brother Lin, how are you feeling? how's your consciousness cultivation going?"

Murong xuyan was a pair of twins with connected souls. No matter what kind of cultivation they were doing, they would get twice the results with half the effort. The effect of their spiritual sense cultivation was even more so. She asked Lin Yi with a smile as soon as she came out.

Although she felt that she wasn't as strong as Lin Yi in some aspects, she was still quite proud of her spiritual sense.

What he didn't know was that Lin Yi's spirit sense was far beyond his reach. It was a world of difference!

"I've gained something. In the consciousness cultivation room, I can indeed cultivate my consciousness quickly and strengthen my primordial spirit! "It's a pity that our credits are still too low, and the cultivation rooms we can rent aren't of a high grade. It seems that the mission points alone aren't enough. We need to increase our credits as soon as possible to rent a higher grade cultivation room. "

Lin Yi smiled. This training wasn't of much help to him, it was just to help Shangguan LAN 'er improve her spirit.

Although this training room had no effect on Lin Yi, it was more than enough for Shangguan LAN 'er. With the help of the calming Pearl and the soul enhancing pill, her gains in these twelve hours were definitely much more than the Murong siblings.

"Brother Lin, your requirements are too high. Originally, new students can only rent the lowest grade cultivation room. This mission unexpectedly gave us 30 academic credits, which is already a grade higher. We think it's good enough!"

Murong xuyan thought that Lin Yi was just joking, but she still cared.

Right now, this deific consciousness cultivation room required 1.5 points for two hours. Twelve hours was nine points. If not for a windfall, just doing yellow level missions would not be able to pay the rental fee for a few hours a month!

Of course, the lowest grade cultivation room only cost one point for six hours. This cost was much lower. He only needed to do one yellow rank mission a month and he could last for a period of time.

"Ha ... You're right, but I still want to accumulate credits as soon as possible! Since the time spent on cultivation is the same, why not choose a better environment?"

Lin Yi didn't explain the real reason, only some common sense, but it was enough to convince the Murong siblings.

"Brother, I think what he said makes sense!"

Murong Fei Fei patted her brother, deep in thought.

"Ah?" Murong xuanyan was slightly stunned, but when she saw her sister's serious expression, she couldn't help but nod. ""Alright, I'll listen to you! What should we do now? Do you want to see the new mission?"

"Let's go and take a look first. If I'm not wrong, the Academy should have responded to the enemies yesterday. Perhaps they will release a related mission."

Lin Yi nodded with certainty.

Therefore, the four of them did not return to the eaglet peak, but instead returned to the peak where the mission Hall was located.

At the same time, Xue Peng received a notice from the Academy that someone from his clan had come to visit him and was waiting for him at the market outside the academy.

Although Xue Peng was a little embarrassed to face his family, he had to see them since they were already here. He had to go and take a look.

"Uncle Yan, why are you here?"

When Xue Peng saw Xue Keyan, he was a little surprised. He didn't expect that the family would send this uncle whom he wasn't familiar with.

"What's wrong? Are you very disappointed to see your uncle Yan?"

Xue Keyan laughed and pulled Xue Peng to sit down.

Chapter 6546 Beast Soldier

The two of them were in a private room in a restaurant in the city square. There was a soundproof formation, so they didn't have to hold back when talking.

"Why would I? I just didn't expect it. Did something happen at home this time?"

Xue Peng was too embarrassed to bring up the matter of him being transferred to Feiyang college. Instead, he asked Xue Keyan if there was anything else.

He was just asking casually, but he didn't expect Xue Keyan to really have something to ask him!

"That's right. This time, something happened to our family, so I was sent here to find you. It's related to the rise of our family, so you must listen carefully and keep it in mind. Don't leak it out!"

Xue Keyan's expression turned serious as he subconsciously whispered to Xue Peng.

"Uncle Yan, please speak your mind. The family's matters are naturally my matters. If there's anything I can do, I will not refuse."

Since it was related to his family, Xue Peng couldn't help but become serious. He didn't dare to show the slightest neglect.

"Very good. You are a genius of the younger generation of the family. Uncle Yan is very happy to have such a responsibility! But let me think where I should start. "

Xue Keyan smiled in satisfaction. He pondered for a moment before saying, "I know that you have some conflict with Lin Yi from your class-he's very arrogant, and I had a conflict with him back in the Golden class sea!"

"Uncle Yan and Lin Yi have a history too?"

Xue Peng didn't expect this to happen, but this was good. If Xue Keyan said he was friends with Lin Yi, then that would be a real problem.

"Oh? From your tone, it seems like you two have a grudge too? That's great, I'm here to deal with him! You're in the same class as him, so if there's anything he does in the future, find a way to inform me. "

Xue Keyan didn't hide anything-the masked man had ordered him to deal with Lin Yi, and he wanted to deal with Lin Yi himself, too. Naturally, this was his priority.

The good thing was that Xue Peng and Lin Yi had their history as well-the two had the same enemy, and hit it off immediately.

"I won't hide it from you, uncle Yan. Lin Yi and I don't get along, and it's great that you're here to help. But does it mean that we have to deal with Lin Yi when it comes to family matters?"

Xue Peng looked at Xue Keyan suspiciously. He wouldn't believe it even if he was beaten to death if Lin Yi was elevated to the point where the rise of the family was at stake.

"Of course not. It's just a coincidence!"

"You've seen what the family really wants to do, so I'll get straight to the point," Xue Keyan laughed and said.

"Uncle Yan, what do you mean by" I've already seen it "?"

Xue Peng's face was still full of doubt, not knowing what Xue Keyan was up to.

"You've indeed seen it. The attack you encountered on your way back yesterday is what I'm talking about!"

Xue Keyan lowered his voice to the limit. Xue Peng had to try his best to distinguish what he was saying.

It was because of this that when he understood the meaning of the words, his expression immediately changed, and his eyes were filled with disbelief.

"Uncle Yan ... You ... You said that the ten flying monsters yesterday ... You were the one behind it?"

Xue Peng couldn't understand what he was saying, so he began to stutter.

"This is what I meant by an opportunity for the clan to rise to power! Those monsters you mentioned were just the first batch of test subjects. They were not stable enough, so they exploded at the last moment! Otherwise, I'd have killed that Lin Yi kid yesterday. "

Xue Keyan sneered. He immediately thought that Xue Peng might have misunderstood, so he immediately explained, "Didn't you notice anything unusual yesterday? Those so-called monsters all focused their attacks on Lin Yi and your mentor, not you. I've arranged this on purpose, and I don't know if your mentor saw through it. "

"That won't happen. I'm hiding in the back, so it's normal that I'm not attacked."

Xue Peng thought about it carefully and felt that it was true. He heaved a sigh of relief, "Uncle Yan, what is that thing? Did you wait there just to deal with Lin Yi?"

"Uncle Yan, I found a formula in a secret realm in the Yellow Sea. It can change the structure of the human body, giving them incredible strength and absolute loyalty. But it's still in the experimental stage, and the technology is not mature enough."

Xue Keyan didn't tell him about the masked man, but he made up a story, "yesterday was actually an accident. I wanted to try my luck with a merchant group, but I didn't expect to meet your school team. It's a pity that I wasn't prepared, and Lin Yi got the chance!"

Xue Keyan snorted coldly, his face full of displeasure.

"Uncle Yan's right, Lin Yi's pretty lucky. Even such a powerful monster couldn't kill him!"

Xue Peng also sighed. When he didn't know, he only felt a lingering fear in his heart. When he found out that it was his family's Secret weapon, his heart immediately took a 180-degree turn. "That's right, uncle Yan, what is that thing?"

"These experimentals are called beast soldiers. They're all normal human cultivators, but my medicine can make them partially reveal the characteristics of spirit beasts or sea beasts, and thus obtain some of the abilities of spirit beasts or sea beasts! For example, the wings you saw yesterday, and the mutation of their bodies. "

Xue Keyan felt that the name beast soldier was very good. When it was mass produced in the future, the Xue family would be able to form a beast Army and completely conquer the entire Sky Class Island.

"Beast soldier transformation is indeed very appropriate. Uncle Yan, can this kind of beast soldier be mass-produced?"

Xue Peng's eyes lit up as well-with this level of power, Lin Yi would be nothing! Even the Feiyang school might not be a match for the Xue family!

This was also because the beast soldiers he saw yesterday weren't very strong, so Xue Peng didn't dare to think too far, such as conquering the sky Island.

"It'll definitely be possible in the future, but there are still some problems at the current stage and more debugging is needed."

Xue Keyan laughed drily. He was very confident in the black-robed masked man, but the success rate of beast-soldier transformation was too low. Even if it succeeded, it was still very unstable, and it could collapse at any time.

Of the ten people from yesterday, half were Xue family's men of sacrifice, and the other half were Xue family's prisoners on death row. But in order to complete these ten experimental bodies, Xue family had invested not only ten people, but a total of fifty-six people!

There were only ten of them who survived the debugging experiment. The rest had died during the experiment.

That was why Xue Keyan could not guarantee the rise of the Xue family without a mature drug. He could only say that there was a great possibility!

However, once the medicine was mature and stable, and a batch of perfect beast soldiers was produced, it would be much more convenient for them to capture new experimental subjects in the future.

## Chapter 6547 Turbid Yin Pill

Whether it was an open robbery or a covert capture, as long as the beast soldiers were involved, no one would suspect the Xue family, and would only think that they had encountered a monster!

At that time, the entire Mystic division Sea area would be their hunting ground, and no one would be able to escape!

"I understand. Uncle Yan, you can do whatever you want. If there's anything you need, just let me know. I just want to know, do you still have any beast soldiers?"

Xue Peng patted his chest and looked at Xue Keyan with anticipation.

Xue Peng was worried that he and Yang Dian wouldn't be able to defeat Lin Yi. Although he used his mission points to exchange for some attack items, it wasn't enough insurance. However, it would be a different story if he had a beast soldier. Even one beast soldier would be enough!

The insane attack power of the last four yesterday had almost become Xue Peng's nightmare. As long as one of them got close to Lin Yi, he'd be dead for sure.

"Not yet. There were some problems with the first batch of beast soldiers yesterday. The situation in the first stage is still stable, but the second stage soon collapsed on its own, so I have to make some minor adjustments to the medicine. The new beast soldiers will probably be out in two or three days."

The masked man in the black robe couldn't be exposed, so Xue Keyan took all the credit without any guilt.

Xue Peng suddenly felt a deep respect for this uncle that he had previously looked down on. He didn't expect that he had no talent in cultivation. He estimated that he would never be able to cross the threshold of the great circle of mountain-opening, but he had unexpected talent in other aspects.

Compared to an individual's talent in cultivation, this ability to drive the rise of an entire clan was even more amazing!

"Two or three days is no problem! "Uncle Yan, I have an idea. After your beast soldier comes out, we can meet up at a place. I'll think of a way to lure Lin Yi over, and then you can use your beast soldier to kill him. I'll pretend that I didn't manage to save Lin Yi, but I'll bring back important information and continue to hide in Feiyang college. When your beast soldier is fully adjusted, we'll work together from the inside and destroy this damn school!"

Xue Peng became excited as he spoke, as if everything he said had been successfully realized.

"Good, your plan is not bad, let's do it! I'll be staying in an Inn in the market outside the academy. I'll be waiting for your news and tell the public that my family sent me to take care of you. "

Xue Keyan immediately decided.

In fact, it was very normal for the students of the Academy to have one or two followers or guards following them to the Academy. Those with a strong background would be directly brought into the Academy, such as Murong buqi.

Xue Keyan, on the other hand, lived outside the academy, so he wouldn't attract any attention.

Not to mention, there were other students who came to visit as well, and the person they were looking for was Lin Yi! This person was Hao Zili, who had followed Lin Yi from the Yellow Sea to the mystic Sea.

"Hao Zili, why are you only here now? Are you in trouble?"

Lin Yi was about to go to the mission Hall, but he rushed over after receiving the news of Hao Zili's arrival. Shangguan LAN 'er, on the other hand, went to look at the missions with the Murong siblings.

"Boss Lin Yi, after I reached Mystic class sea, I seemed to have some enlightenment, so I stopped for a while to organize my thoughts. I'm a little slow and caused you to be worried. I'm really sorry."

Hao Zili quickly greeted Lin Yi and explained why he was late.

"You have some enlightenment? Have you touched the barrier of the earth-opening stage?"

Lin Yi's eyes brightened, a smile on his face.

"There are indeed some signs of a breakthrough. If I can go into seclusion for a period of time, I might really have a chance to break through."

Hao Zili also laughed very happily. Entering the groundbreaking stage had also been his goal for many years. He didn't expect to have such an opportunity when he had just arrived at the mystic-class Sea area.

"Since you can't enter the inner section of the Academy, you can find a place to stay in this city square. After that, you can go into seclusion to comprehend and break through to the earth splitting stage as soon as possible. I might still need your help later!"

Lin Yi's last sentence was purely encouraging Hao Zili.

Hao Zili, who had just broken through to the earth stage, couldn't be of much help to Lin Yi. However, it was still a good thing if Hao Zili could break through!

"Yes, boss Lin Yi. I'll go into isolation, but I might not be able to follow you until I break through."

Hao Zili lowered his head apologetically. He said that he was here to work for Lin Yi, but he had to go into isolation right away. It didn't make sense.

"It's fine. I'm in the Academy, and you can't help me much. The earlier you break through, the more help it will be for me. You should go and settle down first. Don't rush into closed-door cultivation. I'll go back and think of a way to refine a turbid Yin pill for you. After you take it, you'll have more confidence in entering the earth formation stage!"

Lin Yi smiled. He had always been generous to his own people. Since Hao Zili had a chance to break through, he wanted to maximize it.

"Turbid Yin pill? Boss Lin Yi, isn't this too expensive? I ..."

Hao Zili was overjoyed. He did not know what to say.

During the chaos, the heavens and earth were split apart. Pure yang became the heavens, and dark and heavy became the earth!

The turbid Yin pill was the best pill to advance to the earth formation stage. A special quality turbid Yin pill could increase the success rate by at least 30%!

Hao Zili knew very well how good Lin Yi's skills were. It was very rare for Lin Yi to make elixirs under Mystic first level that were of special quality!

Although the turbid Yin pill was used to advance to the earth opening stage, it was still on the same level as the mountain gaze pill. They were both Mystic first level pills, but it was slightly more difficult to refine than the mountain gaze pill.

"It's just a turbid Yin pill. If it wasn't for the fact that I don't have earth elemental grass and mixed spirit fluid, I would have made it for you long ago. But don't worry, our college should have these two things.

You can exchange them with points. I just happened to earn a sum of points yesterday. You can go find a place with peace of mind. I'll come to find you again tonight."

Lin Yi patted Hao Zili's shoulder and turned around.

In fact, he could use the cores of sea beasts to make dark pills as well, but Lin Yi still chose to exchange for spiritual medicine to make pills. Even if it was just a little better than the ones made from the cores of sea beasts, it was still good!

Hao Zili had nothing to say. Lin Yi was always loyal to the people around him, which was why Hao Zili and the other two were willing to follow him.

As the saying goes, words can't express my gratitude for a great favor, I'll just do my best to repay it in the future!

Lin Yi, who had just parted ways with Hao Zili, saw Xue Peng in the market. Not only him, but Xue Keyan, who had a conflict with him, was also there!

The two seemed to have just met, and Xue Peng also looked like he was about to leave.

"Lin Yi!"

Xue Peng's face changed-he'd just finished discussing with Xue Keyan how they were going to trick Lin Yi, and here he was, in person. Even with a guilty conscience, he was still able to keep his calm, which showed how strong his mentality was.

Chapter 6548 Deliberately Provoking

"Hey, isn't this Xue Keyan from the Xue family? we meet again! The two of you are together. It seems like you want to scheme against me, right?"

Lin Yi saw it, and he wouldn't pretend he didn't see it. He walked over and stabbed him.

Xue Keyan was taken aback-Lin Yi had hit the nail on the head! He and Xue Peng had been plotting against Lin Yi, but he couldn't admit it!

"Of course not. Lin Yi, right? we're friends after all. I was a little reckless last time, so don't hold it against me. I was the one who suffered, right?"

"Now that you and my family's Xue Peng are in the same new student class, that's a proper senior-Junior Brother relationship. We'll just meet like this and forget about our enmity with a smile. What do you think?"

"As the saying goes, it's better to squash enmity than keep it alive! If there's any unhappiness between you and Xue Peng, let's talk it out today. In the future, we'll be good friends. The more friends there are, the more paths there are, right?"

Xue Keyan's attitude changed really quickly-he was all smiles now, trying to build a good relationship with Lin Yi.

Even if he wanted to deal with Lin Yi in the dark, he had to lower Lin Yi's guard first.

"Right, right, right, Lin Yi, we're brothers in the same class now, and we just went through life and death together yesterday-we're comrades now, right? Let's just forget about the misunderstanding between us, okay?"

Xue Peng also quickly expressed his opinion. If it was before today, he might have been sincere.

But after knowing that the beast soldiers were created by his family, Xue Peng was determined to trick Lin Yi and then find a chance to lure him into a trap. For this purpose, what did it matter if he suffered a little?

"Forget it? Xue Peng, I can let go of the small matter between me and your family, but the fact that you dealt with Jiang He sea and Qin Yue, causing them to be unable to stay in the mystic division sea, can't be settled with just a few words! I won't make things difficult for you in the city square today, but you must not fall into my hands in the future!"

Lin Yi didn't know what was going on, but he wasn't going to let it go just like that. He decided to warn Xue Peng.

It was indeed not suitable to deal with Xue Peng in the Academy. In any case, this guy also understood in his heart that it didn't matter if everyone spread out to talk.

Xue Peng's smile froze-he'd feel a bit awkward if Lin Yi threatened him to his face, but he relaxed when he remembered that Lin Yi didn't have many days left.

Lin Yi felt that something was wrong with these two, but he didn't know what it was. If he met them outside the school, he would probably catch them and interrogate them. He could only let them go for now. It was more important to make the turbid Yin pill for Hao Zili.

Xue Keyan and Xue Peng didn't say anything else to Lin Yi and left, leaving him feeling that something was wrong. He thought about it, but couldn't come up with anything. He decided to put it aside for now and went to the exchange office to exchange for earth element grass and mixed spirit liquid.

The sub-top tier schools had both in stock, and Lin Yi had enough mission points as well, but after exchanging, he only had two digits of mission points left. It seemed like he had to go out and accept missions, or he wouldn't be able to afford the spirit sense room for a few days.

After returning to his courtyard at the young Eagle Peak, Lin Yi took out the Shennong cauldron and started making the dark cloudy pills for Hao Zili. He had the recipe, so it wasn't difficult at all. He made three dark cloudy pills in no time, and they were all special grade. He didn't disappoint!

When he returned to the market again, Hao Zili had already found a rented courtyard. This was more suitable for closed-door cultivation than an Inn, and the concentration of spiritual Qi was not low. At least, it was much stronger than the yellow-class Sea area. Therefore, Hao Zili felt that it should be enough.

"This place is not bad, you're good at picking!"

Lin Yi smiled and praised Hao Zili. He took out a turbid Yin pill and gave it to him. "The turbid Yin pill is here. Go into seclusion and try to break through as soon as possible. I'll also set up a defensive formation for you here to prevent anyone from disturbing you."

"Thank you, boss Lin Yi. I really don't know what to say."

Hao Zili was extremely grateful. He had a high status in the blissful Valley, and it was not easy for him to get a turbid Yin pill.

Even if he was willing to pay a high price, he might not be able to find someone to make the pill. He didn't expect to find the opportunity to break through the moment he came to Mystic division sea, and Lin Yi even prepared the pill for him.

"What are you thanking me for? since you don't know what to say, then don't say anything. Hurry up and prepare for your closed-door cultivation!"

Lin Yi smiled and waved Hao Zili away. He then took out some formation flags and started setting up a defensive formation in the courtyard.

The safety of the market was still guaranteed, and Lin Yi only used normal formation flags to prevent anyone from interrupting Hao Zili's breakthrough.

Hao Zili was not pretentious. He solemnly put away the turbid Yin pill and began to make the final preparations.

"Are you ready? Then hurry up and go into seclusion. If you don't succeed, don't come out!"

Lin Yi finished his work quickly and joked with Hao Zili with a smile.

"Yes, boss. I won't come out if I don't succeed this time!"

Hao Zili laughed and patted his chest. He was very confident in his breakthrough. Even without the turbid Yin pill, he was 50% confident that he would succeed.

Now that he had the dark Yin pill, and special grade at that, it was like a 30% increase in his chances. If he still couldn't succeed, how could he face Lin Yi?

"Alright, I'll be waiting for your good news!"

Lin Yi laughed heartily and patted Hao Zili's shoulder.

"Right, boss Lin Yi, I noticed that you went to provoke those two guys from house Xue, and I thought you might have some intentions. I noticed that Xue Keyan didn't leave, but stayed in an Inn in the market. Should I stop my practicing and monitor him? I have a feeling that he's not a good person."

Hao Zili changed the topic and started talking about Xue Keyan.

He'd seen how arrogant Xue Keyan had been during the conflict at the teleportation formation, and how he'd started a feud with Lin Yi-he'd recognized the guy right away.

He'd heard of Xue Peng as well-he didn't get along with Lin Yi during the entrance exam, and so he paid attention to the two without Lin Yi's orders.

"Xue Keyan is definitely not a good person, but you don't have to worry about him. Right now, nothing is more important than your promotion! I'll find another way to monitor him. "

Lin Yi smiled faintly. He wasn't surprised that Xue Keyan didn't leave-he was probably planning something.

#### Chapter 6549 Accepting A Mission

House Xue and house Xue were enemies with Lin Yi, and threatening Xue Peng was to provoke them, to see if they'd react in any way. Lin Yi didn't expect the two to take the initiative to be friendly, and it was so fake that he couldn't believe it.

In this situation, Lin Yi would never believe that the two wouldn't do something. He was prepared to let a little spirit beast out to watch Xue Keyan the whole day!

On Hao Zili's side, although there was a defensive formation, Lin Yi still left a small spirit beast as a guard.

If anything happened, the formation and the little spirit beast's protection would be enough to hold on until Lin Yi came to help.

In addition, the little spirit beast that was keeping an eye on Xue Keyan could also come over to help at any time. For Hao Zili, it should be foolproof.

"Alright, since boss Lin Yi has already made arrangements, I won't say anything more. I'll start my closed door training now and try to help boss out as soon as possible!"

Hao Zili smiled as he took the control array flags Lin Yi handed over and prepared to go into seclusion.

Lin Yi nodded and said a few more words of encouragement before leaving the courtyard.

At this time, the little spirit beast that was monitoring Xue Keyan had already found its place. It was hiding outside Xue Keyan's room. With the little spirit beast's concealment ability, Xue Keyan was not able to find its trace.

Lin Yi rushed back to the mission Hall after settling things in the market. He didn't know if Murong xuyan and the others had received any missions today.

"Lin Yi junior, you're finally here. Did Hao Zili make the arrangements?"

Shangguan LAN 'er saw Lin Yi and immediately went up to him.

Originally, he had said that he would go and arrange Hao Zili's accommodation and come back immediately. He did not expect that he would be gone for almost a whole day.

Shangguan LAN 'er thought to herself that she should have gone with him if she had known earlier, and wondered if she had missed something fun.

"It's all arranged. Hao Zili has gained some insight and may break through soon, so I delayed a little more time and made the appropriate arrangements for him."

Lin Yi explained with a smile, not going into the details.

"That's great! Hao Zili broke through as soon as he arrived. This is a good sign. I have to go and congratulate him!"

Shangguan LAN 'er smiled happily. They had traveled together from the North Island, and she had long regarded Hao Zili as one of her own. So, when she heard that he had made a breakthrough, she was really happy.

"Sure, we'll go together!"

Lin Yi smiled and nodded. He turned to Murong xuyan, "brother Murong, did you find a mission that's suitable for us?"

"Brother Lin, I was just about to tell you. Today, there are indeed many missions regarding those monsters. They are all about searching for traces and gathering information. We can accept them, but the mission requirements are that we must be equipped with teleportation talismans before we can go out to carry out the mission. As the opponents are more dangerous, we must ensure our safety while gathering information. Otherwise, it would be useless if we can't send back any information."

Murong Jinyan pointed at the noticeboard as he spoke, and Lin Yi followed his gaze-it was a request indeed.

"I can go to the exchange office to exchange for the teleportation talismans. It'll be an extra life-saving method."

Lin Yi nodded, not thinking that there was anything wrong with it.

"Big brother Lin, I've already exchanged for the transfer talismans. This is for you!"

Murong Feifei handed over a teleportation talisman. It was obvious that they were prepared even before Lin Yi arrived.

"Alright, thanks. How many mission points does this cost? I'll transfer it to you."

Lin Yi took out his silver card-it was proof that he could take on mysterious level missions, and it was also a tool for him to record his credits and mission points.

There were four kinds of materials used to make the medallion, namely Jade, gold, silver, and bronze. They corresponded to the missions of heaven, earth, black, and yellow in the mission Center.

The Jade card allowed him to take on missions of all levels, but Lin Yi's Silver card only allowed him to take on black and yellow level missions.

However, because he had obtained the qualifications by adjusting the difficulty of the mission, he could only accept missions that were below the black level.

"No need. LAN 'er has already given it to me. If you want to give it to her, just give it to her. This is between you two. I don't care."

Murong xuyan smiled and winked at Lin Yi, meaning that they were almost a family, why were they still so clear about the difference?

"Lin Yi, Lil" bro, do you want to give the points back to me? Are you really going to return it to me?"

Shangguan LAN 'er looked at Lin Yi and blinked her big eyes, her expression unreadable.

Lin Yi took his silver medal without hesitation, avoiding the topic.

"Brother Murong, it's not a problem for us to accept the mission. However, I feel that we might not be able to gain anything from this operation because those monsters can fly. Besides the dead ones, it's hard to say if there are other existences! Maybe we won't find anything after going out and wasting a few days. You'd better think about it. "

Lin Yi voiced out his concerns in a serious tone, in case they didn't get anything out of it. It'd lower everyone's morale for future missions.

"Brother Lin, I think you're thinking too much. It's only a few days. Moreover, this mission requires the four of us to work together. Therefore, we can take turns to train on the flying spirit beasts. We can find the enemy's tracks and face them together. Moreover, these missions have one thing in common, and that is that the rewards are very generous. As long as you can complete them, they are equivalent to two or three missions of the same difficulty, so you won't lose anything!"

Murong xuyan smiled as she let Lin Yi read the mission description. As expected, the reward was two to three times higher than other missions of the same difficulty. It seemed that the school took this very seriously.

"In that case, let's take one. However, let's choose the mission from the area we were in yesterday. That way, we'll have a higher chance."

Lin Yi smiled and started looking through the missions, "this one then!" In the area we were in yesterday, our chances were still relatively high.

This mission was to search for a new species within the designated area!

A human with a pair of wings on its back. Its body is as strong as a body cultivator in the mountain opening stage. Under normal conditions, there is no fluctuation of aura on its body. Once its aura is released, its strength will be greatly improved. Its body will also expand and form an armor-like defense on the surface of its body.

Once you encounter them, record the location and report as soon as possible. The difficulty of the mission will be set as below the black level. The reward will be eight academic credits and eighty mission points.

In addition, there were additional rewards. If a battle broke out and the body tissue of this creature was collected, there would be additional rewards depending on the situation.

However, the Academy did not encourage students to fight with them. It would be best if they could escape immediately and ask the Academy's teachers to take action.

Chapter 6550 No Clues

"Aiya, if I knew this would happen, I would have collected some monster body fragments yesterday!"

Only then did Shangguan LAN 'er remember why she didn't go to collect yesterday.

Fortunately, Lin Yi had subconsciously used his Qi to set up a simple soundproof barrier around the four of them, so no one could hear them.

"It's not that I didn't want to collect them yesterday, but I couldn't. Those guys all exploded to death, and there was no complete tissue left. Their blood also seems to have the characteristics of self-

destruction, not to mention the body tissue, even the blood on the ground quickly disappeared. So, if you want to get this bonus, you have to catch a monster alive."

Lin Yi smiled faintly. He and Xu Xiaoyan weren't careless people, and he noticed this phenomenon yesterday.

"Captured alive? Then forget it. "

Murong xuanyan quickly shook her head and waved her hands. What a joke, those guys would suddenly mutate or self-destruct all of a sudden. Wouldn't it be asking for trouble if she caught them alive and kept them by her side?

Who knew when they would suddenly self-destruct? if that happened, they would all be finished. What a loss!

"Ha ... Alright, since we've accepted the mission, let's go back and say hello to instructor Xu first. We'll go and search again tomorrow."

Lin Yi didn't say much-he'd have to see how it went when the time came.

The four of them took out their silver medals and registered their mission. They had accepted the mission as a team, and there was a limit to the number of people in the team.

This was because the search required a covert operation, and it would be troublesome if there were too many people!

"The time limit of the mission is ten days. After ten days, the mission will automatically fail and the mission will be re-issued. However, if you receive any information after ten days, even if it can't be considered a success, you will still be rewarded. "

The person in charge was quite friendly, explaining the situation to Lin Yi and the others with a smile.

"Thank you for your guidance, senior brother. We'll remember it."

Lin Yi thanked them and left the hall.

The next day, after reporting to Xu Xiaoyan, the four of them set off for the battle area and started searching for missions.

"Lin Yi, Lil" bro, that's where we fought last time. Should we go and take a look?"

Shangguan LAN 'er took the lead, pointing at the battlefield before turning back to talk to Lin Yi.

This time, they didn't ride on flying spirit beasts. Instead, they each rode a wind chasing foal.

This kind of low-level spirit beast was not strong, but it ran like the wind and was extremely fast. An ordinary flying spirit beast might not be able to win against the wind chasing foal in a short distance straight sprint.

Because the monsters they were tracking had the ability to fly, it would be dangerous to ride on flying spirit beasts. The Academy did not allow this.

"There's nothing much to see. After those monsters died, they left nothing behind."

Although Lin Yi said that, he still followed behind Shangguan LAN 'er to take a look.

He didn't find anything along the way, and for safety's sake, Lin Yi scattered the remaining seven little spirit beasts around.

Of course, before those monsters transformed, the little spirit beast could still suppress them. However, once they transformed, the little spirit beast could only give an early warning.

"Brother Lin, where do you think those monsters came from?"

Murong yuanyan couldn't understand. He grew up in this Mountain region but had never seen such a thing.

"If you don't know, how am I supposed to know? Maybe it's a new hybrid species?"

Lin Yi didn't tell the truth-he felt something was wrong the first time they encountered those monsters!

Although it was the first time he had seen these guys, he had an inexplicable sense of familiarity.

Lin Yi was almost certain that central was behind this!

Only the Central's genetic mutation technology could create such a product.

It seemed that the research at the Center had become more and more terrifying. They could actually create bio-humans who could burst out with the strength of the earth formation stage in a short time!

If this went on, it wasn't impossible for the Sky Class Island to completely fall.

He had been worried about central cooperating with the spirit beast clan, but now it seemed that he should be more worried about central itself!

The destructive power of this organization had already exceeded that of the spirit beast clan and the sea beast clan!

Fortunately, the ten biochemical monsters seemed to be unstable last time and all self-destructed in the end.

If the center could develop a more stable bio-human. That would be the beginning of the disaster on Sky Class Island.

"Lin Yi, Lil" bro, why are you daydreaming? what are you thinking about?"

Shangguan LAN 'er turned around and saw that Lin Yi seemed to be deep in thought, and waved her hand in front of his eyes.

"No, I'm just thinking about where these monsters came from. By the way, can you guys see if there are any clues here?"

Lin Yi came back to his senses and jumped down from the horse, walking around.

Other than the traces of the battle that day, there was indeed nothing left. Whether it was the pieces of the body or the blood, they all seemed to have evaporated into thin air.

In addition, the clothes of those people were not left behind, which showed how domineering the backlash in their bodies was. With a trace of blood, it was completely removed.

"If we really didn't find anything, how are we going to investigate? Shouldn't we find a spirit beast with a keen sense of smell to see if there's any scent left behind? perhaps we can find the other party's nest?"

Shangguan LAN 'er clapped her hands and suddenly said.

"LAN 'er, what you said makes sense. Anyway, there's still time. Why don't we go back first and find a few more spirit beasts with a keen sense of smell?"

Murong Fei Fei immediately nodded in agreement. She felt that this idea was not bad.

"Brother Lin, what do you think?"

Murong xuyan turned to look at Lin Yi. If his sister thought it was good, then he would think it was good too. In that case, it was only Lin Yi left.

"I have no objections. Why don't you go back and prepare your spirit beasts? it's best if you can exchange for some tracking tools."

Lin Yi suggested after some thought.

"The three of us will go back? You'll stay here alone?"

Shangguan LAN 'er was slightly stunned. Weren't they supposed to act together?

"It's faster for me to move alone. While you guys are preparing, we can explore the general situation of this area first, and then we can meet up."

Lin Yi patted Shangguan LAN 'er's shoulder and sent her a private message, "Go back and prepare well. I suspect that these guys are related to central. I can't say it out loud in front of the Murong siblings, but Senior Sister LAN 'er, you should understand that you can't help me."

Shangguan LAN 'er's heart was filled with sweetness-she'd thought of herself as a burden, but now that Lin Yi said it, she felt that she was the closest person to him.

She did have an obligation to help Lin Yi take the Murong siblings away so they wouldn't affect Lin Yi.
