

## Bodyguard 6551

### Chapter 6551 Missing

Hmph, I, Shangguan LAN 'er, can be a burden to Lin Yi's junior Brother, but no one else can!

As expected, this mission still requires the help of this little Senior Sister!

"Alright, the three of us will go back first. You be careful!"

Shangguan LAN 'er immediately acted like a little Senior Sister, nodding and patting Lin Yi's shoulder. She really didn't want to lose out at all.

Murong Feiyan and Murong Feifei looked at each other and had nothing to say.

Lin Yi and Shangguan LAN 'er had both made their decision, so they'd just do it.

"Don't worry, I'll be fine. Be careful on the way back. You can follow the marks I've left behind when you come back."

Lin Yi waved his hand and used his pure Qi to draw an arrow in an inconspicuous spot. "I'll head in this direction in a while. Pay attention to the arrows along the way."

"Alright, I'll remember that. Let's go back first."

Shangguan LAN 'er got on her horse and waved at Lin Yi before leaving with the Murong siblings.

Lin Yi cupped his hands at the three and ordered five spirit beasts to follow them around to avoid any danger.

Lin Yi had the other two Spirit beasts come over to take a sniff-there was indeed a very faint scent here.

As an expert in hiding its tracks, the little spirit beast's sense of smell was quite good.

The direction Lin Yi chose was where the spirit beast had found it, but it shouldn't be the nest in the center. It was most likely the direction where the ten bio-humans came from. They might find something if they walked in that direction.

He didn't expect central to develop so quickly. Before this, they were still cooperating with the spirit beast clan, and now they've directly extended their hands to the mystic Sea!

Judging from the mutation of the bio-humans, central had probably extracted a lot of spirit beast genes in the southern island!

Just the genes of these ordinary spirit beasts already had such an effect. If he really managed to obtain the genes of the Vermilion Bird and the others, he would be in deep trouble!

The bloodlines of the four great elders were definitely top-notch existences in the spirit beast clan. However, with their strength, it was impossible for the central government to obtain the genes from them.

However, the clansmen of these four great elders were not all monstrous in strength. It was really not a difficult thing to put in some effort.

The only good news was that Central's new drug wasn't perfect and stable enough, so they had to find Central's base in the mystic Sea area as soon as possible and destroy it in one fell swoop!

If they were allowed to continue developing, the threat would be too great!

Once the center had perfected the medicine, they could mass-produce bio-humans. They wouldn't even need to wait for the earth-formation stage-they'd be able to sweep the Sky Class Island!

Think about it, an Army made up entirely of mountain split body practitioners, how terrifying would their strength be? They wouldn't even be able to face the sea beast Tide head-on!

Moreover, such a terrifying Army could transform at any time and instantly advance to the earth splitting stage. It was also difficult to determine if they had the ability to fight against the sea splitting stage after a third transformation.

Even if it only had the ability of a single attack at the sea Rift stage, which would kill him after using it, it was still an absolutely terrifying power!

The more Lin Yi thought about it, the more serious he felt it was. He thought that the spirit beast clan and the central Alliance were already bad things, but compared to the bio-humans now, it was nothing.

The spirit beast led the way, and Lin Yi left marks from time to time.

Suddenly, the two little spirit beasts stopped and looked left and right. They had obviously lost their direction.

Lin Yi quickly stopped his horse and jumped down to look around. This was a very normal Mountain Valley, and he couldn't see anything wrong.

"Did they come down from the sky?"

Lin Yi raised his head to look at the sky, already having some guesses.

As such, the clues were cut off once again. If he wanted to continue, he didn't know where to start.

The only people he had a grudge against in the mystic division sea were the Xue family, right? To be exact, it was Xue Keyan and Xue Peng from the Xue family. It was such a coincidence that both of them were here!

At this time, the big frog's spirit sense in Lin Yi's Qi sea suddenly jumped.

The little spiritual beast that was monitoring Xue Keyan was actually running towards this area. In other words, Xue Keyan was moving towards this area!

There was indeed something wrong with this guy! Could he be in cahoots with central?

Otherwise, he couldn't have come here at this time to accompany Xue Peng on his mission, right?

Lin Yi raised an eyebrow and let go of the reins, letting the horse return to the school on its own. He then went after Xue Keyan.

Lin Yi's figure flashed, following the two Spirit beasts towards the direction Xue Keyan came from.

But at this moment, something happened-Lin Yi suddenly lost contact with the spirit beast that was chasing Xue Keyan!

To be more precise, the big frog's wisp of divine sense had completely lost contact with the little spirit beast!

This kind of situation was simply unimaginable. It had never happened before!

Before this, only the little spirit beast that was sent back to the illusionary mist space and the ten Little spirit beasts that were assigned to protect the Skybolt pig on the southern island were in such a situation. However, this was mostly due to the distance between them.

And that little spirit beast that he could still sense just now would definitely not be out of his sensing range, unless it had suddenly entered another space, like the illusionary fog space.

That's strange. Did he enter another independent space by mistake, or was he discovered and taken away instantly?

Lin Yi was panicking. He waved his hand and put the two Spirit beasts into his bag before using his lightning escape technique to go to where he lost contact.

Lin Yi didn't care about the movement anymore and stopped when they were close.

Spreading his ghost speed wings, he flew at a low altitude silently, moving forward like a ghost. In a breath's time, he had already reached the estimated position.

Unfortunately, nothing was left here. Whether it was the little spirit beast or Xue Keyan, they had all disappeared without a trace!

Lin Yi's spirit sense spread out, but he didn't find anything.

In such a short period of time, Xue Keyan was able to escape without a trace. It seemed impossible to say that this guy had the ability to teleport.

"Senior ghost, I'll have to trouble you again. Can you help me check if there are any spatial fluctuations or spatial entrances here?"

Lin Yi's ability was limited, so he didn't find anything. He quickly found the thing and let the two little spirit beasts out.

He hoped that he could find the little spirit beast that had disappeared through the connection and sense between them.

"It's no trouble at all. I'm already used to it!"

The ghost laughed weirdly and lazily merged with Lin Yi's spirit sense to scan the surroundings.

Lin Yi himself wasn't in any danger, so the ghost was very relaxed. As far as he was concerned, it was just one little spirit beast missing, what was the big deal?

However, he was still very interested in the issue of space, which was why he came out so readily.

"Are you sure that little thing disappeared here? There doesn't seem to be any spatial abnormalities!"

The ghostly thing asked Lin Yi suspiciously after scanning the area.

Chapter 6552 Being Targeted

The damned thing had been studying the space Array flag recently. Although it was only an incomplete array flag, the laws involved were very profound.

Therefore, this thing had a very deep understanding of space.

If there really was a spatial scale like the one from before, the two of them would definitely be able to detect the problem with their divine senses.

However, he didn't find anything. Everything was normal.

"It should be here, but I can't be sure of the exact location. The error can't exceed a 200-meter radius."

Lin Yi said with certainty. After all, he had the big frog's divine sense in his Qi sea. As long as he was within the sensing range, he could determine the approximate location.

"A radius of two hundred meters isn't that big. If we use our soul consciousness together, even if it's a Space Array, we can find some clues! But now that everything is normal, I think you should think of another way!"

The ghostly thing already knew the ins and outs of the matter, but he really had no other choice.

"Senior ghost, I suspect that someone discovered the little spiritual beast, then instantly captured it, or even destroyed it! If that's the case, the person who attacked us must be at least at the sea splitting stage. It seems that the people the other party sent are not all nobodies!"

Lin Yi's face was extremely serious as many thoughts flashed through his mind.

"That's right. Although that little thing's strength has only reached the earth formation stage, its body is almost undying, unless there's a huge gap between their strength."

"Kid, I have to remind you that the opponent seems to be very strong. You better be careful. Don't get yourself into trouble. If you really can't handle it, go to Feiyang college and ask for help. Feiyang college has a strong foundation and should be able to deal with that mysterious master."

The ghostly thing advised Lin Yi with a serious tone, telling him not to risk it alone.

"Without evidence, how could the Academy act so easily? Even if aunt Zhang helped to speak up for them, I'm afraid that at most, only people at aunt Zhang's level would come out to see the situation. If our speculation is correct, the other party's strength should be above aunt Zhang 's!"

Lin Yi shook his head, rejecting the idea.

He didn't know what to do, so he chose a random direction and sneaked in.

The demonic thing didn't try to persuade him anymore-Lin Yi was good at escaping, and he had the teleportation talisman. He also had the black bead of the frog, so he wasn't completely defenseless. He wouldn't die even if he investigated.

At the same time, seven to eight thousand miles away from Lin Yi.

With a flash of light, the masked man in the black robe appeared on the top of a barren mountain with Xue Keyan in his hand. Then, he threw Xue Keyan to the ground.

"Envoy! What's going on?"

Xue Keyan was still a little dizzy and couldn't tell North from South. He struggled to get up with a confused look and bowed respectfully.

"What do you think? You don't even know that you're being followed. Do you want everyone to find out about our relationship before you know?"

The masked man in the black robe's voice was cold. He was obviously very dissatisfied with Xue Keyan's ability.

"What tracking? By who?"

Xue Keyan was slightly stunned. Although he did not dare to question the masked man in the black robe, he did not really believe it.

When he left the market, Xue Keyan paid special attention to the situation behind him and even set up two small traps. He made a circle to make sure that no one was following him before he boldly came.

Being followed? How powerful must that expert be?

His current identity was only an elder in Xue Peng's family. Who would send an expert to track him?

"You don't believe me?"

The masked man in the black robe snorted and waved his hand. A ball of light with water ripples appeared in the air.

Inside the light ball was the little spirit beast that Lin Yi had lost contact with.

"What is this?"

Xue Keyan was a little dazed. He had never seen anything like this in the ball of light.

"It doesn't matter what it is. What's important is that this thing has been following you. It clearly has a purpose! And I can tell you very responsibly that this isn't a real spirit beast, but a rare puppet. If there's a puppet, it naturally has a master. You've already been targeted! If not for this, I wouldn't have wasted one of my precious teleportation talismans!"

The masked man in the black robe felt his heart ache when he mentioned this.

It was not easy to obtain a teleportation talisman that could teleport people together. In order to not expose his identity, he had also spent a lot of money.

"I'm sorry, envoy, I didn't think that someone would target me. Right, it must be Lin Yi! Other than this brat, no one else will come and watch me!"

Xue Keyan's forehead was covered in cold sweat as he pulled Lin Yi out as if he'd found a life-saving straw.

As long as Lin Yi's name was on it, the envoy's anger would probably be diverted.

"At least you have some brains. I thought the same, so I took you away. I didn't waste that precious teleportation talisman in vain."

The black-robed masked man flipped his hand and kept the light ball that was used to imprison the little spirit beast. "However, it's enough to catch this little thing. I can study how to make this kind of puppet later. This puppet is quite advanced. If I can make it in batches, it will be quite powerful."

"Special envoy, do you think Lin Yi has the method to make these puppets? If we kill him, we might be able to obtain the method to refine this puppet. I've received reliable news that Lin Yi is in that area on a mission. Should we go and kill him?"

Xue Keyan wanted to kill Lin Yi right now, so he tried his best to get the masked man to attack.

As far as he was concerned, the masked man's strength was unfathomable, and dealing with Lin Yi would be a piece of cake. There was no need to hide!

"You're the one who went to kill Lin Yi. I've said it before, we won't have any interaction with Lin Yi. With that kid's intelligence, he's probably already guessed that our organization is behind this from you, but he can't say anything without evidence! Because of this, this is the first and last time I'll save you. You'll have to take care of yourself in the future!"

The masked man in the black robe immediately warned Xue Keyan to dispel this idea.

"Envoy, if what you're saying is true, then Lin Yi is starting to suspect me. What should I do? The testing of the beast soldiers has only just begun, and it's far from being perfect. Do we have to continue in another area?"

Xue Keyan asked the masked man in the black robe with a bitter face. In the original plan, it didn't matter even if they were discovered, but they definitely wouldn't be discovered so quickly.

He had to at least perfect the state of beast soldier before he could fearlessly let others know how awesome his Xue family was.

"Beast soldier? You gave it a name?"

The masked man in the black robe nodded. "This name isn't bad. Let's call it beast soldier from now on. The potion can also be called the beast potion. Xue Keyan, I've made the new beast potion. Are the test subjects ready?"

Chapter 6553 Enemy At The Sea Rift Stage

"Don't worry, envoy. It's all ready. But this time, it's a little rushed. We only prepared 33 of them. 20 of them are of the original infant stage, and 13 of them are of the xuansheng stage."

Xue Keyan carefully sized up the masked man in the black robe. Unfortunately, he didn't show any skin, so how could he see his expression?

"So little? Where are your Xue family's men of sacrifice?"

The masked man in the black robe was obviously very dissatisfied. If it wasn't for the Xue family providing him with experimental subjects, he wouldn't have bothered to cooperate with Xue Keyan.

"Special envoy, it's not easy to train the Xue family's men of sacrifice, and I can't use many of them. If they all become experimentals, how can we continue to capture new experimentals in the future? The 33 cultivators were captured by our Xue family's men of sacrifice. "

Xue Keyan didn't dare to be slow and quickly explained, afraid of angering the masked man.

"Forget it, thirty-three then. After the adjustment of the beast transformation medicine, the success rate will be higher. It's a pity that the original infant stage is too weak. I don't know how many will survive in the end!"

The masked man in the black robe snorted and did not continue to make things difficult for Xue Keyan.

"Envoy, then let's go to the place where the experimentals are being held ... Uh, we'll have to go back a few thousand miles ..."

Xue Keyan looked at where he was and felt a little dizzy.

As the masked man and Xue Keyan rushed back, Lin Yi was completely disappointed. He couldn't find where the little spirit beast went.

Ever since he had obtained these twenty little spirit beasts, other than the one that had taken the initiative to return to the illusion fog space, this was the first time he had truly lost that little spirit beast.

"Kid, since you can't find Xue Keyan, why don't you go back to Feiyang college and find Xue Peng? he must have contacted Xue Keyan. Maybe you can get some useful information!"

The damn thing couldn't stand it anymore-Lin Yi running around aimlessly like this was a waste of time. He might as well go find Xue Peng, who might get something unexpected.

"That makes sense. We'll find Xue Peng and force him to tell us the whereabouts of Xue Keyan!"

Lin Yi's mind was in a mess-if he couldn't find Xue Keyan, then Xue Peng would do the same.

"However, I have to remind you that you don't have any concrete evidence. If you attack your own classmate in the Academy, and it's a classmate who has a grudge against you, it'll easily cause a misunderstanding in the Academy."

The damn thing gave a suggestion, but it also told Lin Yi the disadvantages.

Unless Lin Yi went up and used his essence spirit to devour or search his soul, it wouldn't be that easy to get Xue Peng to talk!

Once they used this overbearing method, there was no turning back. If they didn't get anything, the school would probably take Lin Yi down!

"Senior ghost, do you think Xue Peng knows? Is it worth it for us to take this risk?"

Lin Yi hesitated. If he was alone, he wouldn't have any problems dealing with Xue Peng, even if he had to go against Feiyang school!

But there was still Shangguan LAN 'er, and Lin Yi had to think for her. He couldn't just run away and leave his little Senior Sister here.

"Xue Peng and Xue Keyan have met before, but it's hard to say whether Xue Keyan will reveal anything to Xue Peng. So you can ask Xue Peng, but you must also use methods, not brute force."

The ghastly thing reminded him. In fact, sometimes, it was possible to find Xue Peng's weakness first and then make use of it.

Lin Yi nodded and was about to leave when he noticed Shangguan LAN 'er and the other two with his spirit sense.

"Lin Yi, Lil" bro, why did you run so far alone? where's your wind chasing foal?"

Shangguan LAN 'er saw Lin Yi from afar and smiled, riding her wind-chasing horse to meet him.

"You know how fast I am. The wind chasing foal would be a burden to me, so I let it go back first."

Lin Yi didn't think that Shangguan LAN 'er would come back. Didn't he hint to her to bring her back?

"Brother Lin, did you find anything? We'll come back as soon as possible after we get back!"

Murong xuyan also caught up at this time. So it was this guy who was in a hurry to come back.

"I found a person who seems to be related to those monsters. Their aura is similar, so I wanted to follow them secretly, but I was still shaken off by them in the end!"

Lin Yi shook his head. He wasn't telling the truth, but he wasn't lying either.

"With your speed, you were actually left behind? The other party is this powerful?"

Murong xuyan's expression changed. He had seen Lin Yi's lightning escape technique with his own eyes. He couldn't imagine that there was someone faster than Lin Yi.

"He is indeed powerful. Although I didn't meet him face to face, I estimate that he is an expert who has surpassed the consummate level of earth splitting realm. Perhaps he doesn't want to reveal his identity and whereabouts, so he didn't attack me. Otherwise, I'm probably no match for him at all. "

Lin Yi sighed. Not everyone had the ability to make a spirit beast disappear without a trace.

And Xue Keyan's disappearance was definitely the work of this mysterious master!

If Lin Yi wasn't wrong, this mysterious master should be from central. They were avoiding him because of the contract.

However, he did not know if this fellow was the black bamboo hat man from the southern island, or if it was someone else.

However, the second possibility seemed more likely. After all, the southern island was very important, especially after Lin Yi signed the contract with central. The relationship between central and the spirit beast clan needed to be maintained even more carefully. The man couldn't just leave at this time.

From the looks of it, the Sky Class island's power was quite strong. The high-level practitioners they had were not inferior to any of the ancient houses, and might even be stronger than most of them!

However, Lin Yi knew that the reason why central didn't attack him directly, other than the agreement that could be broken at any time, was because of the confrontation at a higher level!

The center didn't have complete dominance over the Sky Class Island yet, so they didn't want to easily break this delicate balance.

If they had a breakthrough in the development of the biochemical warrior, they wouldn't be so polite to Lin Yi anymore-they might even tear up the agreement.

"Brother Lin, you said that the person's strength has reached the sea shattering realm?"

Murong yuanyan was shocked after hearing that!

The sea shattering realm. His father had not even stepped into the sea shattering realm. He was only half a step into the sea shattering realm. Although there were experts in the sea shattering realm in the Feiyang Academy, there were definitely not many of them.

The Murong family did have a patriarch, but he wouldn't attack easily. Since the other party had chosen to do things in the Murong family's Mountain region, he had to be vigilant.

"It's possible, but it's just a guess. "

Lin Yi understood what Murong xuyan was worried about, but he didn't say much. Central's actions were hard to predict. They might not expose their identity before the plan succeeded, or they might secretly eliminate the Murong family for the plan to go smoothly.

Chapter 6554 Murong Xuyan's Break

"Brother, if you're worried, then send a message back and tell father and the others to be more careful! I don't believe that someone would dare to provoke the MU Rong family in the mountains!"

Murong Fei Fei and her brother's minds were connected. Although she didn't say it out loud, she understood what he meant with just one look.

"Let's go back too. There won't be any more clues today!"

Lin Yi looked at the sniffing spirit beast that Shangguan LAN 'er brought, and shook his head.

Shangguan LAN 'er didn't have any objections, but Murong yuanyan didn't quite agree. "Brother Lin, let's look for clues. Although the enemy may be very powerful, it shouldn't be a big problem if we just follow them."

Murong xuyan was worried about the safety of the mountain, so she wanted to find the person Lin Yi was talking about.

In fact, Murong xuyan was suspicious. She thought that Lin Yi was overreacting. She didn't even know if he really had an enemy in the sea split realm.

"Brother Murong, listen to me. We'll stop here for today. You're lucky that we couldn't track you down. If you really found something, I'm afraid you won't be able to come back."

Even if Lin Yi had the lightning escape technique, he couldn't guarantee that he'd be able to escape from a sea Rift cultivator.

"Lin Yi, I want to know if you've noticed something before? Did you ask the three of us to go back just now because you thought we would hinder your movements? Isn't that right?"

Murong xuyan suddenly exploded. Lin Yi's words seemed to have ignited the anger in his heart.

"Brother Murong, you ..."

Lin Yi opened his mouth to explain, but realized that he'd been thinking the same.

"You don't have to explain, I know that's what you're thinking! In that case, let's split up in the future so that we don't affect each other. It won't be good for either side. "

Murong xuyan's face was cold. The anger that had just burst out was restrained, but this didn't mean that he had no anger.

He'd never admitted defeat, and Lin Yi's treatment of him was a blatant look of disdain! How could he endure this?

"Brother, you ..."

Murong Fei Fei was a little surprised and subconsciously wanted to persuade her. However, she immediately understood.

After all, they were twin siblings. Murong Feiyan was the one who knew what Murong Feifei was thinking!

As the genius of the Murong family, Murong yuanyan had his own pride. Although Lin Yi was strong, he admired him, but he wouldn't look down on himself.

On the contrary, Murong xuyan felt that Lin Yi was her best opponent. The stronger Lin Yi was, the more motivation he had to catch up and surpass!

This was what a genius of the Murong family should do, not rely on Lin Yi and listen to everything he said.

He wasn't trying to suck up to Lin Yi by forming a team with him this time-it was because they'd all experienced the biohazard crisis together, and it'd be easier to investigate in a team.

So Lin Yi's attitude was the biggest trampling on Murong xuyan's pride!

The pride of a genius made Murong xuanyan explode!

"Brother Murong, you've misunderstood!"

Lin Yi waved his hand. He didn't mean to look down on Murong xuyan, but this matter involved the heart of the matter. Even if Murong xuyan was at the sea splitting stage, he might not be able to fight back.

"Brother Lin, you don't have to explain! I, Murong xuyan, also have my own pride. You are a very good friend and also a very good opponent! There is indeed a gap between our strength, but don't worry, I will definitely surpass you!"

Murong xuyan waved her hand and interrupted Lin Yi, "we split up, not to break up with you. Friends are still friends, and opponents are still opponents!"

Lin Yi was silent for a moment before sighing. "I understand, brother Murong has great ambitions. Since that's the case, let's split up. However, as a friend, I'll still give you a piece of advice. This enemy is beyond your imagination!"

Murong yuanyan didn't argue with him. She looked at Lin Yi deeply and nodded slightly. She called Murong Yuanyuan and continued to search with her spirit beast.

Although Lin Yi was a friend worth making, he was also an opponent that Murong xuyan had to surpass. From today onwards, he had to surpass this target!

"LAN er, I'll go with my brother to see if there's any leads. Do you want to go back with Lin Yi or with us?"

Murong Fei Fei also sighed, she was a little annoyed at Lin Yi's hurtful words. She and Shangguan LAN 'er felt like old friends at first sight, and it was rare to have such a good best friend. It wouldn't be good to create estrangement because of this.

"Little Junior Brother and I will return to the Academy first. You all must be careful. If the other party is very strong, be prepared to activate the teleportation talisman at any time to escape. Do not force yourself."

It was rare for Shangguan LAN 'er to speak in such a mature and reserved tone, and Lin Yi, on the other hand, was stunned.

"I know, you guys go back first. I'll find you when I get back!"

Murong Yuan Yan saw that her brother had already walked far away and didn't say much. She hurriedly called out and quickly chased after him.

After the two left, Shangguan LAN 'er turned back to Lin Yi,"Lin Yi Junior Brother, Murong yuanyan is actually not a bad person, it's just that he's a little proud. He thought that he was talented, but he didn't expect you to be stronger than him. That's why he's afraid that you'll look down on him!"

"Yeah, but what can I do? I'm also in despair!"

Lin Yi smiled bitterly. It was tiring to have a friend with high self-esteem.

"Forget it, let's just go back!"

Shangguan LAN 'er also knew that there was no way to solve this problem. She could only let Murong Feiyan slowly surpass her. If she couldn't, she would be convinced.

There were no outsiders this time, so Lin Yi took out the flying saucer and carried Shangguan LAN 'er and the wind chasing foal on it, flying back to the school.

As for the Murong siblings, Lin Yi naturally couldn't just leave them be. The five little spirit beasts were still not far from them, and if anything happened, Lin Yi could rush over.

Of course, if he ran into that silent practitioner again, he really wouldn't be able to do anything.

Lin Yi put away the flying saucer when they were near the school, and walked into the school with Shangguan LAN 'er.

As for Xue Peng, Lin Yi didn't plan to do anything to him yet. He planned to wait and see if Xue Peng and Xue Keyan would still contact each other. If he did anything to Xue Peng now, it would alert the enemy and bring him trouble.

When the two of them returned to the young Eagle Peak, they happened to meet Xu Xiaoyan.

"Lin Yi, you're back from your mission? Where are the Murong siblings?"

Xu Xiaoyan greeted him with a smile.

"Instructor Xu, I gained something today, or you can say that I didn't."

Lin Yi and Shangguan LAN 'er saluted at the same time, but she rushed to answer the question.

"What do you mean by a little gain? What are you trying to say?"

Xu Xiaoyan pointed at Shangguan LAN 'er. They were already very familiar with each other. Xu Xiaoyan was not old and could be said to be a teacher and a friend in private.

Chapter 6555 Don't Want To Be A Burden

In fact, Lin Yi sometimes really admired Shangguan LAN 'er. She seemed to have a natural affinity, and no matter where she went, she could quickly win people's favor and be loved. This was indeed an amazing quality.

"Lin Yi junior found an enemy with a similar aura to those monsters, but he didn't see the person. According to his speculation, the person's strength might have reached the sea shattering realm. That's why I said I found something, but it's the same as not finding anything."

Shangguan LAN 'er skipped to Xu Xiaoyan's side, held her arm, and told her about the situation.

"Lin Yi, you found an enemy in the sea-shattering realm? Is it related to those monsters?"

Xu Xiaoyan was shocked, and her expression became a little serious. The enemy was actually involved in the sea splitting stage. That was a little serious!

"Yes, but I don't have any evidence to prove his level, so I didn't find anything. But it's just a suspicion. Will the Academy take any action?"

Lin Yi asked, not expecting much.

"I'm afraid that's not possible. "

Xu Xiaoyan hesitated for a moment and finally shook her head. ""If you have concrete evidence that you found that expert at the sea splitting stage, I'm still confident that I can ask the Academy to surround and capture him. But now, there's no evidence at all. No one will believe it easily."

Lin Yi shook his head-this was expected, after all, so he wasn't really disappointed."In my opinion, if we don't pay attention to it as soon as possible, I'm afraid it will bring serious consequences! I'm afraid that the ten monsters we encountered were man-made. They should be puppet soldiers made from human cultivators, and they self-destructed because they were not perfect enough. "

Lin Yi didn't say that it was a bio-human since Xu Xiaoyan wouldn't understand.

"Your idea is very interesting. We can't rule out such a possibility!"

Xu Xiaoyan nodded. "Those monsters do seem to be man-made. Their bodies are very stable during the mountain opening stage, but in the earth opening stage, although their defense power has increased, they are unstable! If they are allowed to stabilize, it will definitely be a disaster!"

Disaster, these two words were not exaggerated at all!

If it was an opening stage puppet, the Feiyang college wouldn't be too concerned. With the defense formation of the college, they wouldn't be completely crushed, but they wouldn't be powerless to resist!

However, once these puppets had the stable strength of the earth formation stage, as long as they formed a large-scale Army, Feiyang college would be annihilated in the blink of an eye!

"Instructor Xu, I seriously suggest that you report this to the higher-ups of the Academy. It's best that we find the enemy's lair in advance and completely destroy them before they develop!"

Lin Yi didn't expect the school to go all out against central, but it was enough for the bio-human experiment.

"I understand. I'll try my best."

Xu Xiaoyan smiled sweetly and patted Shangguan LAN 'er's hand. ""And you, your master can't stay out of it. I'm just the new student's instructor, I don't have enough power. Only with your master will there be something to look at."

"Okay, okay. My master hasn't come to see me for so long. Why don't I go with instructor Xu to find my master?"

Shangguan LAN 'er giggled and did not hesitate to drag her master, Zhang jinmiao, into the water.

"You little girl, it's only been a few days and I haven't seen you in a long time! Your master has been very busy recently, and he even came to me to ask me to take good care of you and guide you. Now do you know how much your master dotes on you?"

Xu Xiaoyan smiled. "That's why you can't find her now even if you want to. I'll remember this. After discussing it with your master, I'll talk to the higher-ups in the college. I hope they will pay attention to it!"

It seemed that Shangguan LAN 'er's wish to see her master was not going to work.

"Instructor Xu, if you have any news, please inform us at once."

Lin Yi knew the school's rules-this wasn't something that could be rushed. He cupped his fist to Xu Xiaoyan.

"Don't worry. "

Xu Xiaoyan smiled and waved goodbye to the two of them.

"Little Senior Sister, these few days, you should just stay in the courtyard and cultivate. Divine sense, true Qi, body refining, you can cultivate whichever you want."

Lin Yi sent Shangguan LAN 'er back to house number two and reminded her.

"Little Junior Brother, you really think of me as a burden! No wonder Murong xuyan is angry, I'm a little angry too!"

Shangguan LAN 'er deliberately puffed up her cheeks and widened her eyes, pretending to be very angry.

"I didn't see you as a burden. You think so yourself, so you're blaming me?"

Lin Yi knew that Shangguan LAN 'er was just joking. If she really cared, she wouldn't have said it out loud.

"I blame you, I blame you! He's clearly my Little Junior Brother, so how can he be so much more powerful than me? This is outrageous, where should I put my face as the little Senior Sister?"

Shangguan LAN 'er giggled, the dissatisfaction she pretended to be had long disappeared, ""Alright, I'll stay here and cultivate properly. I'll try my best not to be a burden to you in the future!"

"I didn't say that you're a burden. It's just that it's really dangerous this time. I can't even take care of myself, so I can't guarantee your safety!"

Lin Yi sighed.

Shangguan LAN 'er looked at Lin Yi's troubled face and suddenly regretted slacking off all the time before. If she was stronger now, not only would she not be a burden, but she would also be a help to Lin Yi.

So, Shangguan LAN 'er had made up her mind to train hard this time and become stronger as soon as possible so that she could stand by Lin Yi's side with her own strength, not be a burden to him!

"Alright, Lin Yi Lil" bro, you can go! By the way, although Murong xuyan is a little proud, his sister and I are still good friends. Don't let anything happen to her!"

Shangguan LAN 'er was still worried about her best friend's safety.

"Don't worry!"

Lin Yi nodded in agreement. Even if Shangguan LAN 'er didn't say anything, there were five little spirit beasts protecting her. If they couldn't even handle it, then it would be useless for Lin Yi to go.

After saying goodbye to Shangguan LAN 'er, Lin Yi returned to his own yard. Xue Peng's yard was just nearby, but he didn't want to alert the enemy, so he could only continue to endure and not touch Xue Peng for now!

He let the two remaining spirit beasts out to monitor Xue Peng's yard and started his own cultivation.

He had to complete his accumulation as soon as possible to improve his strength. Otherwise, he would not even need central to take action. These bio-humans alone were enough to give him a headache.

The next morning, Lin Yi opened his eyes and received a message from the little spirit beast by Hao Zili's side in the market. Hao Zili had successfully broken through to the earth-opening stage!

Hao Zili's hard work paid off, and he finally advanced to the earth-splitting stage.

At this level, once Hao Zili returned to the blissful Valley, he would basically be among the top few. As his strength increased, his power and status would also increase.

Chapter 6556 Returning To The Golden Sea

Finally, there was some good news. Lin Yi packed up and used his ghost speed wings to fly to the market.

However, out of respect for Lin Yi, Hao Zili's attitude towards Lin Yi was even more respectful than before.

"Boss Lin Yi, you came! I was just about to inform you that I have successfully advanced to the earth formation stage!"

"Master!" Hao Zili respectfully saluted and greeted him. He did not have the arrogance of a earth-splitting cultivator.

"I came because I knew about it. You didn't let me down. You broke through to the earth opening stage easily, and your strength is quite stable."

Lin Yi smiled faintly. He could see that Hao Zili's breakthrough was close to perfect. The effect of his accumulation was very obvious.

With the help of the turbid Yin pill, Hao Zili not only successfully broke through the barrier of the earth-splitting stage, but he also stabilized his strength at the initial stage of the earth-splitting stage!

In other words, as long as Hao Zili continued to cultivate in seclusion, it was very likely that he would break through again in a short time and enter the peak of the initial stage of the earth creation realm.

"Arggh! This is all thanks to boss Lin Yi-if it weren't for him, I'd probably be stuck at the peak of the mountain-opening realm for the rest of my life!"

Hao Zili was shocked. He didn't think that Lin Yi already knew about his breakthrough. He was even more fearful.

"Alright, let's cut the formalities."

Lin Yi's smile disappeared and he became serious."Be independent. There's something I need you to do for me, but it might be a little too much for you."

"Boss Lin Yi, what are you talking about? just tell me if you need me. I, Hao Zili, won't even frown! Isn't it a slap in my face to say that I'm tormented?"

Hao Zili's expression became serious as he spoke sincerely.

"Then I'll be direct, I want you to go back to the Golden class sea! You've just made a breakthrough. If you continue to cultivate in seclusion here, your strength may rise to another level, but this matter is urgent, so I can only trouble you!"

Lin Yi didn't argue-it was best to let Hao Zili handle this.

"What's wrong with going back to the Golden class Sea area? Boss Lin Yi, you're too funny! It's already not easy for me to break through to the early stage of earth creation, and I don't expect to break through again in a short time! So if there's anything you need, boss, just tell me, I'll definitely do my best!"

Hao Zili patted his chest. It was natural to do things for Lin Yi, and it wasn't difficult at all.

"Okay, then listen up. Go back to the Yellow Sea and help me investigate if there are any similar monsters. If there are, when and where, and if there are any more?"

With that, Lin Yi described the bio-humans. Since the Central District created this monster, the Golden class Sea area might appear as well.

The threat of Central's plan was definitely higher than the spirit beast clan's Sea Expedition last time!

Lin Yi even suspected that the sea Expedition was just a smokescreen central created to collect the genes of the spirit and sea beasts.

"There's such a monster? Boss, don't worry, I'll start investigating as soon as I get to the Golden class Sea area and tell you the results as soon as possible. "

Hao Zili's expression turned serious. If this monster really appeared in the Yellow Sea, then the Yellow Sea would be in chaos!

After all, the strength of a mountain-opening cultivator was already quite powerful in the Yellow Sea region.

But Lin Yi's efforts were probably going to be in vain this time. Central wanted to do the experiment in the Golden sea, but the test subjects there were too low in level, so they skipped the Golden sea and went straight to the mystic Sea.

"If you go back alone, you won't have any information gathering ability! Go and find two people. With their help, you'll get twice the result with half the effort. "

Lin Yi knew a lot of people in the Golden class Sea area, and there were some who could help. He took out a small Jade bottle."This is a henna pill. Go to the Yellow Sea and find Zhuang Yifan of the Yellow Sea Academy Alliance. Pass it to him for me and tell him about this. He should take it seriously!"

Zhuang Yifan managed the school Alliance in the yellow region. Once he heard about this, he would definitely investigate it.

Lin Yi had promised Hao Zili to take the hynadan with him before, and he had fulfilled his promise by letting Hao Zili take it with him.

"Alright, I'll definitely hand it over personally."

Hao Zili received the small Jade bottle and carefully put it away. This was the henna pill that could increase the chances of breaking through to the sea splitting stage from the earth splitting stage! He had no choice but to be cautious.

However, Hao Zili didn't have the slightest intention of coveting it. He didn't need the sea serpent pill right now. Even if he did, he believed that Lin Yi could make it for him at any time, just like the turbid Yin pill this time.

It was so comfortable to follow a good refiner-they didn't even have to worry about the ingredients! A boss like Lin Yi was really something!

"The other one is the Vice President of the yellow Class sea route management Association, he Hao. This old man is quite talkative, but he's a fair man. He'll probably do his best to help after hearing about this! After you find him, try to leave as soon as you can, or else I'm afraid you won't be able to. "

Lin Yi wanted to laugh when he thought about he Hao's talkative nature, especially when he talked to Zhang jinmiao and Shangguan LAN 'er for a few days. The two almost went crazy!

"Alright!"

Hao Zili nodded. His focus was on completing the mission. As for talking too much, he directly ignored it. How much more could he talk?

Hao Zili said goodbye to Lin Yi and left the market for the Golden class Sea area.

As for Lin Yi, he went to the same area again. The Murong siblings didn't come back the whole night, and they were quite cowardly, not coming back until they found some clues. Fortunately, the five little spirit beasts were still there, which meant that they were not in danger.

Lin Yi didn't want to meet up with the two, so they went about their own business. It was more convenient for Lin Yi to move alone.

Xue Keyan and the masked man had completed their second beast soldier transformation almost at the same time Lin Yi left the market. Only five out of the thirty-three test subjects survived.

Among these five, only one was transformed from a Yuanying.

"Envoy, the success rate this time is quite good. It's an improvement compared to the first batch!"

Xue Keyan was already very satisfied with this ratio. He nodded and bowed as he spoke with a flattering expression.

"This time, I adjusted the power of the medicine. Otherwise, do you think that Yuanying stage cultivators can persist? You'd better prepare more cultivators at the mysterious Ascension stage and above next time. It's best if they're at the mountain opening stage. Otherwise, the effect of the medicine will be greatly reduced. "

The masked man in the black robe glanced at Xue Keyan coldly.

"Yes, special envoy. Don't worry. I've already instructed my subordinates to do it. From now on, we'll definitely focus on the xuansheng stage test subjects. However, it'll still be a little difficult to capture an initial stage cultivator alive. After all, it's extremely difficult to capture an initial stage cultivator without any injuries."

Xue Keyan looked at the masked man in the black robe and complained with an embarrassed expression.

Chapter 6557 Battle's Shockwaves

"There's not much value in the nascent Soul Stage test, the damage is too high. If it was useful, I wouldn't have to go to the mystic Sea area, and it would be easier to go directly to the Yellow Sea area!"

The masked man in the black robe snorted in disdain.

Actually, I think that if we can take down an Academy, the experimentals won't be a problem anymore. What do you think, envoy?"

Xue Keyan rolled his eyes and made a crazy suggestion.

"Attack an Academy? Feiyang college? What are you going to use to attack it?"

The masked man in the black robe sneered. With his strength, he didn't dare to provoke the Feiyang college. The old monsters inside were not fake. If he caused trouble, Central's plan would be ruined.

"Envoy, let's not talk about how we're going to attack the Academy first. Let's talk about the benefits of attacking the Academy first! "The Academy's enrollment starts from the mysterious Ascension stage. In other words, all the students in the Academy meet the requirements for being an experiment. This is especially so since the students' talents are rather outstanding. If they're used as experiment subjects, the success rate will increase by a lot!"

As Xue Keyan spoke, his eyes revealed a hint of anticipation.

"You're right. The mystic division sea Academy has almost all the talented xuansheng stage cultivators. If we can use these students as test subjects, the success rate will be very high."

The masked man in the black robe nodded in agreement with Xue Keyan.

"That's right. That's why I think that directly attacking an Academy is extremely crucial to our plan!"

Xue Keyan's blood was boiling as he spoke.

"Okay, then I'll leave this to you. Remember, I won't show up, so you take care of everything yourself. If you can take down Feiyang college, I'll give you a credit."

The masked man in the black robe said calmly.

Xue Keyan's face froze. If the masked man didn't make a move, how could he conquer Feiyang college?

Let alone the Feiyang school, even a third-class school could kill him without leaving any bones behind.

"Uh, envoy, then let's wait until we have a better beast soldier. It can be our mid-term goal."

Xue Keyan laughed drily and quickly covered up the hole he had dug.

"I look forward to your performance. Don't Let Me Down!"

The masked man in the black robe glanced at Xue Keyan indifferently, and his tone was emotionless, "Go and test these five bio-soldiers! We need to prepare the next batch of experimentals as soon as possible. We need more of them. Otherwise, it'll be difficult for me to find a way to improve them with so few experimentals. "

"Yes, I'll gather the next batch of test subjects as soon as possible. I'll go and do my experiments now, envoy!"

Xue Keyan nodded like a chicken pecking at rice, and left the secret temporary base with the five beast soldiers.

As soon as Xue Keyan left, the masked man in the black robe also left. He needed to monitor the state of the beast soldiers, so he could not be too far away from Xue Keyan.

The new beast soldier directly extended its ugly wings that were not yet mature enough and flapped towards the area of the previous battle.

Due to the mission distribution of Feiyang college, a small group of students had gathered there to do missions. They were the most suitable place to test out their skills.

Not only would he have opponents, but he could also capture some students to use for the next batch of beast soldiers.

Xue Keyan, as the controller, followed the five beast soldiers from a distance and directed their actions.

At the same time, the Murong siblings did not find any clues after a day and night of searching. Although the spirit beasts they brought with them had a sharp sense of smell, they could not find any new clues.

"Brother, are we still going to continue? The scope of the mission is only so big, and the search is almost done. Now that there are other teams involved, we should either expand the scope or return to the Academy!"

Murong Fei Fei was already tired of this aimless search. If it wasn't for the mountain region, she would have gone back long ago.

"Alright, let's go back to the Academy first and then expand the scope of our research. However, we need to report to the Academy first, in case it doesn't count as us completing the mission."

Murong yuanyan nodded. In fact, he was also a little tired. There were no clues in this area at all, so it was a waste of time to search.

"Brother, when the news reaches the mountain, father should be prepared. With father's help, we don't have to be too nervous. We've been searching for so long without any clues, which means that the monster hasn't formed a large scale yet."

Murong Fei Fei consoled.

"That kind of monster isn't big enough, so it's not a threat. But that sea Rift realm monster Lin Yi mentioned is a big threat. We can't let our guard down."

Although Murong xuyan wasn't very happy with Lin Yi, she knew that Lin Yi wouldn't say things without thinking.

"Brother, have you ever thought about it? even if we find that sea splitting stage cultivator, what can we do? Kill him? Don't joke around, they can destroy us with a little finger, what's the difference between that and crushing two ants? What's the point even if we manage to escape? He's the same as Lin Yi, he only knows about this enemy. "

Murong Yanyan sighed. She'd been trying to understand why Lin Yi didn't want them to go-it was meaningless.

"I understand. Let's go back to the Academy first."

Murong yuanyan was silent for a moment and then nodded gently.

The two of them turned back and walked in the direction of the Academy. Along the way, Murong yuanyan still didn't give up on looking for clues. She still commanded the spirit beasts to sniff out the aura, hoping to find some clues.

He had indeed found some clues and found the aura that was similar to those monsters!

"Yingluo, there's a problem in that direction!"

Murong xuanyan saw the spirit beast in front of her start to move to the side. It was very determined and almost couldn't be held back. She suddenly became excited.

As expected, those monsters still existed! It was just that he had hidden himself too well, so he had not been discovered.

"Brother, let's give up on the wind chasing foals and follow them secretly. If anything goes wrong, immediately activate the teleportation talisman! We definitely can't act rashly. "

Murong Fei Fei knew that her brother wouldn't back out at this moment, so she could only think of the consequences.

"Alright!"

Murong Feiyan nodded immediately. Even if he didn't consider his own safety, he had to consider for Murong Feifei. If the other party was really at the sea splitting stage, then running away was their only choice.

As for whether there was a chance to escape, he really didn't think about it. After all, he had never seen the true strength of an expert at the sea splitting stage!

The two of them immediately gave up on the wind chasing foals and quietly followed the spiritual beast. They were very careful to hide their tracks. Unfortunately, the two of them thought that they were good at hiding their tracks, but in fact, they were very rough. If the little spiritual beasts around them had their own minds, they would definitely look down on them!

After advancing quickly for a few minutes, the fluctuations of a battle came from the distance. Murong Feiyan and her sister looked at each other and immediately heaved a sigh of relief.

#### Chapter 6558 Inexplicable Reversal

The fluctuations of a battle meant that both sides still had the strength to fight. If one side was really an expert in the sea shattering stage, the other side wouldn't have a chance to fight back at all. If both sides were in the sea shattering stage, this area would probably have been destroyed a long time ago.

"Go over and take a look?"

Murong Feiyan turned to look at Murong Feifei. Although her tone was questioning, her feet had already quietly moved forward.

The twins "minds were connected, so he knew that Murong Fei Fei wouldn't object.

Murong Fei Fei only rolled her eyes and followed after him silently.

Soon, the two of them were seven or eight hundred meters away from the battle. Because the trees were blocking them, they couldn't see anything, and their divine sense wasn't strong enough to probe over.

As they got closer, the shockwaves from the battle also slowly weakened. Without a doubt, this was proof that victory was about to be decided.

After the tracing spirit beasts rushed over, they suddenly turned around and fled to the side before they could enter the battle. Their spiritual intelligence was not low, and they knew that they would only be courting death if they rushed in.

"Brother, I don't know if there are students from the Academy inside. Should we help?"

Murong Yuan Yuan asked.

"The situation is unclear. You stay here and don't move. I'll go over and take a look. Be ready to support or retreat at any time!"

Murong Feiyan waved her hand without turning her head and ordered in an unquestionable manner.

He also knew that it would be very dangerous to go there. It was definitely not good to let Murong Fei Fei take the risk with him. At this time, he had to protect his sister!

"Brother! Aren't you afraid that it'll be more dangerous for me to be here alone? If the two of us join forces, we can still protect ourselves. If we split up, we'll only be defeated one by one!"

Murong Fei Fei said quickly. Time was of the essence and she immediately followed after.

"Alright, let's go!"

Murong xuanyan was silent for a while. She didn't stop him and sneaked over.

Five monsters with ugly wings on their backs surrounded the five students of Feiyang college. They were obviously a team of senior students who were on a mission, but the battle between the two sides had ended.

There were five monsters standing, and the five students they surrounded were all unconscious on the ground. Clearly, they had been completely defeated by the other party.

"Five! Brother, what should we do? Are we going to save her?"

Murong Fei Fei felt a chill in her heart. Those who could enter the Feiyang college were all talented people. Perhaps the two of them were more talented than the five unconscious students, but they had entered the school a year earlier, so their strength might not be worse than theirs.

"Save people? If we go to save them, who will save us? Don't be silly!"

Murong yuanyan glared at her sister. The aura of the five monsters was not obvious. It was almost the same as the first time they met.

Needless to say, these were all body practitioners comparable to the beginning of the mountain. One such monster would not be able to bear the consequences, let alone five? Was he going to court death?

As for those five seniors, it wasn't that Murong xuanyan didn't want to save them, but she couldn't save them!

"Brother, why do you think those monsters don't kill people? The five of them are only unconscious. Could it be that you want to use them as bait to lure the reinforcements and besiege them?"

Murong Fei Fei wasn't a hot-blooded young woman who was filled with righteousness, so she instantly calmed down.

"It's possible! The other possibility was that these monsters needed them to live! As for why, it was hard to say! Yingluo, go back to the Academy to get help. I'll keep an eye on them. "

Murong Feiyan was very calm. The situation was actually very dangerous, so he thought of a high-sounding reason to let Murong Feifei get out of danger first.

"You go, I'll keep an eye on them!"

Murong Fei Fei didn't even need to ask to know what her brother was thinking. She had no choice. Sometimes, it wasn't always a good thing for twins to be connected in their minds.

Murong Feiyan cared about her sister, but Murong Feifei also cared about her brother. Sometimes, the two of them would quarrel until they were too busy and then ignore each other.

However, when faced with danger, no one would retreat. They would all think of blocking the knife for the other.

"Don't mess around! I'm your brother, you have to listen to me. Hurry up and leave, or it'll be too late!"

Murong Feiyan turned her head and glared at Murong Feifei angrily, indicating that she shouldn't waste her time here.

Murong Fei Fei didn't have the time to say anything when the sky above them turned dark.

They looked up and saw that two of the five monsters had quietly flown over their heads. In the blink of an eye, a violent true energy had descended from the sky and completely enveloped the two of them.

"Let's go!"

Murong Feiyan's expression changed. If she used the transfer talisman now, she might be able to escape. But the problem was that Murong Feiyan might not have the time to activate the transfer talisman.

Therefore, he didn't dare to use it first, for fear of leaving his sister here to die.

Murong yuanyan subconsciously circulated her genuine Qi with all her might and used the Murong family's ultimate skill, shifting stars, in an attempt to forcibly reverse the attacks of these two guys.

Just as Murong Feiyan made her move, Murong Feifei also moved. The two of them moved almost at the same time. This level of tacit understanding was absolutely terrifying in the eyes of outsiders!

With the two of them working together, the power of the Murong family's Secret art instantly soared, far exceeding the level of each before the two combined. Moreover, the two siblings' target was the same with a tacit understanding.

With a loud bang, the two beast soldiers in the air were thrown out at the same time, and the Murong siblings were also forced back a few steps.

The two of them had worked together to shift the attack of one beast soldier to the other, causing a direct collision between the two beast soldiers, which saved their lives.

Otherwise, under such an attack, their bodies would have been smashed into meat paste.

The two beast soldiers that had been sent flying quickly flapped their wings and stabilized themselves, floating in the air nimbly. The Murong siblings, however, felt a chill in their hearts. They would probably not be able to escape today.

Although they had successfully used the shifting stars to defend against the first wave of sneak attacks, the other party's strength was too strong. It caused the true Qi in their bodies to churn endlessly, and their arms were extremely numb. For a moment, they were actually unable to move.

Seeing the two beast soldiers charging at him again, Murong Jinyan's heart was filled with despair. He even regretted it. If he had returned to the Academy with his sister, he wouldn't have fallen into such a dangerous and desperate situation.

Shua shua shua!

A series of light air-piercing sounds could be heard. Dozens of invisible wind blades flew in front of Murong xuanyan and the other man, hitting the two beast soldiers, making a teeth-numbing sound of friction.

In just an instant, the two beast soldiers were cut into several pieces in the air, and then turned into a rain of blood, shattering with a loud bang.

"What's going on?"

Murong yuanyan looked at the sudden scene in front of her in a daze. She was a little confused for a moment. How did the situation, which she was about to die, suddenly have an inexplicable reversal?

Chapter 6559 Terrifying Power

"Brother! Someone is here to save us!"

Murong Fei Fei's reaction was quick as she cried out in surprise.

The three remaining beast soldiers not far away also noticed the sudden change, and immediately began the second stage of their mutation.

An attack that could kill them in seconds was definitely above the earth formation stage. If they didn't enter the second stage, they had no chance of winning.

After the invisible wind blades killed two beast soldiers, they continued to fly forward. The remaining three beast soldiers were their targets.

It wasn't some mysterious master who launched this attack, of course-it was the five little spirit beasts that Lin Yi had sent to protect the Murong siblings.

"Oh no, those monsters have started to mutate again. Qingqing, let's go!"

Murong xuanyan's expression changed drastically when she saw the second stage of the beast soldier transformation. She took out the teleportation talisman and urged her sister to leave.

"Let's go!"

Murong xuanyan quickly agreed and activated the transfer talisman.

They didn't know the strength of the hidden expert, but they had seen the power of the second stage of beast transformation soldiers with their own eyes. If it wasn't for Xu Xiaoyan, who was at the consummate stage of earth creation, defending with all her might, they might have been completely annihilated.

Even so, Xu Xiaoyan could only defend against one wave of attacks. If those monsters didn't suddenly die, Xu Xiaoyan would definitely not be able to survive the second wave of attacks.

Were the experts who helped them as powerful as Xu Xiaoyan? Murong Feiyan and Murong Feifei didn't dare to take the risk.

The Murong siblings left, but the little spirit beasts that were protecting them did not leave. Instead, they continued to attack the three mutated beast soldiers.

Because they suddenly lost their target to protect them, they could only continue to execute their previous order, which was to continue attacking.

However, when the attack landed on the three beast soldiers, it only produced the sound of metal clanking. It could no longer break through their defenses.

The three beast soldiers' bodies expanded, and their new armor gave off a monstrous aura as they attacked the five little spirit beasts. Their speed had obviously increased, no slower than Lin Yi's ghost speed wings.

Although the bodies of the little spirit beasts were not as tough as the beast soldiers, they had a strong self-healing ability and were equivalent to an undying body. After enduring a wave of attacks, the five little spirit beasts were not injured at all, but the three beast soldiers self-destructed again.

Although the debugging failed again, the beast soldier entered the second stage one breath longer, but it was of no use.

When the three beast soldiers exploded in the air, Lin Yi arrived at the scene. Without any hesitation, he wrapped some of the blood and flesh of the beast soldiers with his Qi before the scene was completely destroyed.

Lin Yi didn't know if he could preserve it like this, but it wouldn't hurt to try.

However, the blood mist continued to explode and disintegrate in Lin Yi's pure Qi, even the surrounding pure Qi was corroded into nothingness. Such overbearing power, even if the beast soldiers were only used as suicide weapons, was enough to deter many masters of the earth opening stage.

As for the flesh and blood in its normal state, it was not completely annihilated. Wrapped in genuine Qi, the speed also began to slow down, but it only slowed down and did not stop. As long as there was enough time, it would still be completely annihilated.

"What a powerful technique. He really didn't leave any clues behind!"

Lin Yi was very impressed with Central's methods-this organization was really persistent, and they were very careful. If there was a chance, Lin Yi would definitely get rid of this thorn in his side!

Unfortunately, all the advantages Lin Yi had up until now were things that didn't affect the big picture. He lacked the decisive power.

Lin Yi shook his head and looked at the five students on the ground. He took out a flying saucer and threw them on it before rushing back to the school.

Saving them was something Lin Yi did on the way, and he didn't have time to take care of them after returning to the school. He left them on the peak and went to find Xu Xiaoyan.

When he saw Xu Xiaoyan, Lin Yi was still maintaining the consumption of Qi, but the flesh inside was only the size of an egg.

"Instructor Xu, this is the flesh of those monsters. It has just appeared. Please hand it over to the higher-ups of the Academy for inspection as soon as possible!"

Lin Yi didn't have time to say anything else and passed the Qi to Xu Xiaoyan.

Xu Xiaoyan's pretty face changed slightly. Looking at the constantly dissipating flesh and blood, she quickly took the true Qi ball and prepared to find the higher-ups of the college. This was extremely rare evidence to prove that the threat did exist.

However, to everyone's surprise, after the true energy mass was transferred to Xu Xiaoyan's hand, the speed at which the flesh and blood inside was annihilated suddenly accelerated, and it completely dissipated almost at the speed of lightning.

Xu Xiaoyan still maintained the output of her true energy, but there was nothing left in the true energy Mass.

"What's going on? Why did it suddenly accelerate its annihilation?"

Xu Xiaoyan raised her head and looked at Lin Yi, her face stiff.

"Instructor Xu, are you asking me?"

Lin Yi was confused as well-this was the first time he'd been in a situation like this, how would he know what was going on?

However, Lin Yi pondered for a while and had some speculations. He guessed that this situation had something to do with the nature of his Qi. Lin Yi's battle tactics of heaven's fortune had natural healing abilities, and the speed of the destruction of the flesh and blood was greatly suppressed by the battle tactics of heaven's Fortune's Qi.

After Xu Xiaoyan's change, the nature of his genuine Qi changed completely. The suppressed annihilative nature bounced back from the bottom like a spring.

Before Xu Xiaoyan and Lin Yi could react, the beast soldier's flesh was completely annihilated.

"If I don't ask you, do you think I'd ask myself?"

Xu Xiaoyan rolled her eyes at Lin Yi and dispersed the Qi in her palm helplessly,"Forget it, tell me what happened."

Lin Yi couldn't say his guess out loud, and could only silently bear Xu Xiaoyan's rolling eyes,"this time, it was another team from the school that encountered those monsters first. They encountered five monsters, and when I arrived, they were all unconscious."

Although Lin Yi saved the five students, they were the ones who discovered the bio-humans first. They still had to take the credit.

Murong xuyan and Murong Feifei rushed back as well. It seemed like their teleportation talismans didn't bring them back to the school directly, but outside instead, so they came back a little later than Lin Yi.

"Instructor Xu, we found traces of those monsters. Senior students from five Academies were captured by the other party. We were saved by a mysterious master. Later, those monsters began to mutate twice, so we used the teleportation array talisman to escape."

Murong yuanyan didn't even have time to catch her breath as she spilled everything out before nodding to Lin Yi as a greeting.

Chapter 6560 Reporting To The School

"Lin Yi, are you and them talking about the same thing?"

Xu Xiaoyan turned to look at Lin Yi. If there were two groups of monsters, it meant that the number of enemies in that area was beyond imagination.

"It should be the same thing. When I arrived, I just happened to see brother Murong and the others activate the transfer talisman and leave, so they didn't know what happened after that."

Lin Yi said after greeting the two.

"Big brother Lin, you saw us? Could it be that the expert who saved us was you?"

Murong Feifei was shocked and subconsciously looked at Lin Yi. Was his strength already this strong?

"Not really. When I arrived, I happened to see you guys activating the array talisman. I didn't see the person who saved you. Those monsters self-destructed after the second mutation, so I took the opportunity to collect some of their flesh and blood to show it to the Academy. I didn't expect their destructive power to be so strong that they completely dissipated the moment I returned."

Lin Yi explained casually, not planning to reveal the little spirit beast.

"What about the five senior students? Are you hurt?"

Murong xuyan didn't forget what they wanted to do but failed. If what Lin Yi said was true, then the five seniors should be fine.

"Don't worry, they're fine. They're just unconscious. I've brought them back."

Lin Yi's opinion of the Murong siblings was a whole new level-they'd risked their lives to save someone, and they almost got themselves killed as well, but they weren't saying anything about it now.

"Lin Yi, Murong, the monster you saw this time, is it any different from last time? Don't miss out on any minute details. This is very important. "

Xu Xiaoyan nodded. The witnesses were all here, so she let them talk about the details.

"I can't see any difference. If I have to say something different, it should be that it has just awakened! As time passes, more and more feathers will appear on their wings. If there's enough time, they might even become two majestic wings. "

Murong xuyan pinched her chin and tried to recall. Other than the wings being a little different, he really couldn't think of any other problem.

"They just awakened ... How did they awaken? What was it before the awakening? People? Or a spirit beast? Or some other species?"

Xu Xiaoyan frowned and asked.

"I'm sorry, instructor Xu. We haven't found each other for long and couldn't find any clues. Yingluo, have you found anything?"

Murong Feiyan turned around and asked, but she only got Murong Feifei to shake her head.

"Lin Yi, what did you find?"

Xu Xiaoyan placed her last hope on Lin Yi-he was the last one to go, so he might notice something different.

"A little, but it's not obvious,"

Lin Yi nodded, "when I arrived, the remaining three monsters had all mutated. After launching a wave of attacks, they couldn't find any opponents, so they wandered around for a while before self-destructing."

"You're saying that they swam around for a while after the attack? So you're able to last longer than last time?"

Xu Xiaoyan's sharp senses picked up on the meaning behind Lin Yi's words and immediately had a bad guess.

Could the monster this time be an evolved version of the previous one? Thinking of what Murong xuyan said about their wings being plumper than before, the possibility of this was higher.

"Yes. Although I have not calculated it, I can deduce that after the transformation, the monster this time lasted longer than the last time! If we had encountered them last time, we might have been in danger. "

Lin Yi said honestly. Xu Xiaoyan's silk ribbon defense was at its limit last time. If the biochemical monster didn't self-destruct in the air, Xu Xiaoyan's defense would collapse completely in no time.

"This is troublesome! I'll report this to the Academy immediately. We can't just sit by and do nothing! Lin Yi, Murong, you guys go and turn in your missions first. I'll come find you guys tomorrow, so don't take any more missions for now. "

Xu Xiaoyan ordered and left in a hurry. She was worried that Lin Yi and the others would be in danger if they continued to take on missions.

The Murong siblings had been saved by someone this time. Otherwise, they would have been dead by now. Losing two geniuses was a heavy blow to the Feiyang college. Moreover, they were the children of the Lord of this Mountain region. If something happened to them, the relationship between the Feiyang college and the mountain region would be affected.

"Yes, we know!"

The Murong siblings looked at each other and nodded in agreement.

The danger this time made the two of them see their own strength clearly. In the face of powerful strength, talent was nothing.

Lin Yi naturally nodded in agreement. In fact, with the current situation, he couldn't do anything to central alone.

If the school took this seriously and took action, then it didn't matter if Lin Yi joined or not.

"Brother Lin, thank you for rushing over in time. Otherwise, those five students would have been in danger!"

Murong yuanyan cupped his fists. This incident made him see clearly that Lin Yi wasn't a selfish person, and his anger from before faded a lot.

"It's nothing. We're all classmates. "

Lin Yi smiled faintly, not taking it to heart.

And so, Lin Yi and the Murong siblings went to find Shangguan LAN 'er first. The four of them had accepted the mission as a team, so they had to accept the rewards together when they handed in the mission.

On the way, the five seniors that Lin Yi saved earlier woke up as well, and after asking around, they found out that it was Lin Yi who saved them.

"Excuse me, which one of you is Lin Yi?"

A tall young man among the five saw Lin Yi's group and immediately greeted them with a smile.

"I'm Lin Yi,"

Lin Yi cupped his fists as a greeting.

"Hello, Junior Brother Lin. I'm a student one year above you. Zou yang, I heard that you saved us. Otherwise, I'm afraid we'll be in deep trouble! If there's anything you need help with in the future, Junior Brother Lin, just let us know. We won't refuse. "

Zou yang introduced himself politely and expressed his gratitude to Lin Yi with sincerity.

"Senior brother, you're too polite. I didn't do anything, I just brought you back on the way. The ones who really saved you were these two, Murong Qianyan and Murong Feifei! They were the first ones to find you. When they saw you unconscious, they wanted to save you. If they didn't delay you for a while, you might have been taken away by those monsters. "

Lin Yi didn't take the credit, but turned his body slightly to the side and put the Murong siblings "credit first.

"Junior Brother and Junior Sister Murong, thank you! I'll say it again, I can't thank you enough for your kindness. If you need anything in the future, just ask. I, Zou yang, am not a man even if I frown!"

Zou yang didn't put on any airs as a senior-he immediately bowed respectfully and thanked the Murong siblings with his team.
