

Bodyguard 6591

Chapter 6591 Finding A Way

After realizing this, the green-robed man was filled with regret. If he had known earlier, he would have left immediately after the first failure.

In the end, it was all because of greed. At first, he was after Lin Yi's accompanying Spirit Fire crystals, and then he was after Lin Yi's thousand changes of wood and forest. In the end, he got himself into trouble.

"Now you know that they are from the Alliance of schools? Why didn't you say that when you were trying to kill him?"

Lin Yi laughed coldly, and his clones attacked even more fiercely!

The green-robed man suddenly fell silent, or perhaps he did not have the time to speak. After all, he was already exhausted from dealing with those avatars.

After a short while, Lin Yi's clones had been killed by over a hundred, but the green-robed man no longer had any strength to fight back. He could only pass out!

However, if he were to lie down in this barren mountain, he'd probably have to stay here forever. Of course, that wasn't Lin Yi's concern.

The green-robed man was really unlucky-other than Lin Yi, there was probably no one else who could fight against wood escape.

Space Lock No escape flag wasn't something you could buy anywhere. Lin Yi got it by accident, and no one else had it.

"I wonder which Academy he's from. He's not strong, but he likes to sneak attack people. His luck is really bad."

Lin Yi sighed and started looting without holding back.

The green-robed man's things were all in the storage bag on his waist, which saved Lin Yi a lot of trouble. There weren't many things inside, but the wood escape technique was enough.

The only pity was that this wood escape technique was also incomplete. There were a total of five levels of wood escape technique, but only three were recorded here.

However, compared to the previous lightning movement technique, it was already quite good. Back then, the lightning movement technique only had two levels.

Lin Yi flipped through the pages and put it away.

If it was something he could learn in a short amount of time, Lin Yi wouldn't mind practicing it first. After all, in this environment, wood escape was more effective than lightning escape.

It was a pity that the wood escape technique was more difficult than the Thunder escape technique. It would take at least one or two days to master the first level.

Lin Yi looked around the flower again, but didn't find any accompanying life fire crystals. Could it be that they didn't appear in large clusters, but grew in small clusters?

However, shouldn't the so-called associated Spirit Fire Crystal grow together with the heaven and earth Spirit Fire? why would it appear alone?

In the time that followed, Lin Yi specifically looked for the fire-element herbs that rarely appeared in the forest. He dug deeper and found two accompanying life fire crystals as expected, along with a lot of rare herbs.

Unfortunately, not every deep excavation yielded results. Some fire-type spirit herbs did not need to be close to the source of the fire. With enough fire-type spirit energy, they could grow. The heat emitted by the spirit fire of heaven and earth was enough.

Finding three accompanying Spirit Fire crystals in such a short amount of time was already quite lucky. However, these three crystals didn't follow any pattern-they were all in three different directions and didn't follow the same line, which Lin Yi didn't understand.

"Senior ghost, do you know about the spiritual fire of heaven and earth?"

Lin Yi couldn't figure it out, so he asked the damn thing.

Lin Yi didn't want to disturb the thing if it wasn't something important-the broken formation flag was about to cause Qi deviation, and he'd get a lot of complaints if he didn't interrupt it.

The fire was important, but it was nothing compared to life and death. Lin Yi was prepared to be scolded.

"Heaven and earth Spirit Fire? You're looking for this?"

The expected scolding didn't happen, and the ghostly thing seemed to be a little surprised.

The damn thing was completely immersed in the space formation flag and didn't care about anything else, so he didn't know what Lin Yi had been through.

"That's right. Senior ghost, do you have any understanding of the spiritual fire of heaven and earth?"

Lin Yi sighed in relief.

"Let me think ... This thing is very rare, so I can't remember it clearly."

That was what the damn thing said, but he didn't know whether it was because he couldn't remember or because of some other reason.

"Don't worry, think about it slowly. "

Lin Yi wasn't in a hurry-he continued searching as he spoke.

"The heaven and earth spiritual fire is considered to be a rather rare item. The reason why it is called a spiritual fire is because it possesses some spirituality. It will not be fixed and will not stay still. Instead, it will roam freely within a certain area."

The ghastly thing thought for a long time before speaking slowly.

"Senior ghost, does this mean that Companion Life fire crystals are also individual existences that travel with the spiritual fire of heaven and earth?"

The heaven and earth Spirit Fire could actually move on its own? No wonder the accompanying Spirit Fire crystals weren't in the same place. Lin Yi suddenly understood.

"If the spiritual fire of heaven and earth stops at a place for a short time, then there won't be any accompanying spiritual fire crystals, or rather, only one or two spiritual fire crystals will appear. Only in a place where the heaven and earth spiritual fire stays for a long time will there be a large number of associated spiritual fire crystals. "

The ghastly thing thought for a moment and explained.

"Senior ghost, is there any way to find the location of the spiritual fire of heaven and earth?"

Zhang jinmiao and Xu Xiaoyan warned him time and time again not to think about the fire, but even if Lin Yi didn't go and get the fire, he still had to get the accompanying fire crystals!

The place where the heaven and earth spiritual fire was now was most likely the place where a large number of accompanying living fire crystals appeared.

"This ... If that Vermilion Bird was here, it would be easy. That bastard's perception of the heaven and earth spiritual fire is unparalleled. Not to mention a range of a few thousand miles, even if it was ten times larger, he could easily sense it."

The demonic thing did not answer directly, but suddenly mentioned its nemesis, the Vermilion Bird.

"Senior ghost, can you say something useful?"

Lin Yi understood now-there was probably no way to find this thing anyway, and he'd have to rely on himself.

"You're getting more and more impatient! If you're so capable, don't come looking for this old man! Do you think I'm willing to waste time with you?"

The ghost laughed eerily. "Actually, there's still a way. I just don't know if it'll work."

"Senior ghost, don't keep us in suspense. If you have a way, just say it!"

Lin Yi didn't know whether to laugh or cry.

"Get lost, I don't have the time to keep you in suspense. If you have that much time, you might as well spend it on studying Space Array flags!"

The ghastly thing snorted twice. Perhaps it was also dissatisfied with the research that had been done during this period of time.

Although it hadn't been long since he got the space Array flag, it was quite depressing that he hadn't made any progress. Especially for an array master like that damn thing, no progress was a regression.

"Yes, senior ghost, please help me deal with this small matter and then continue to study the space Array flag."

Lin Yi urged.

"The method I'm talking about is also related to the Vermilion Bird. Other than you, it's impossible for anyone else to use it, because it requires the fusion of the consciousness pill fire and the true Qi pill fire."
"

Chapter 6592 Digging Out A Fountain

The demonic thing stopped talking nonsense. "The relationship between the heaven and earth spiritual fire and other flames is similar to that of a ruler and his subject. Ordinary flames will automatically lie dormant within the range of the heaven and earth spiritual fire. Therefore, even if ordinary flames can be used, they can't guide you to the location of the heaven and earth spiritual fire. Only higher-grade flames can let you know the general location of the heaven and earth spiritual fire through a weak resistance."

"That makes sense! Senior ghost, you mean that even though the fusion of pill fire hasn't reached the level of the spiritual fire of heaven and earth, it already has the ability to resist the spiritual fire of heaven and earth, so it can point out its location?"

Lin Yi was pleasantly surprised.

He didn't know the level of the refinement fire, but Lin Yi believed that without the spiritual fire, the refinement fire could dominate the fire World.

If the relationship between the spirit fire of heaven and earth and ordinary flames was that of a ruler and a subject, then the relationship between the spirit fire of heaven and earth and the fused alchemy fire was that of a ghost and the current Azure Dragon!

"It's only a possibility, but if the heaven and earth Spirit Fire here is too high level and completely suppresses the fusion alchemy fire, that's normal."

The ghastly thing shook its head and explained with uncertainty.

"Let's try it first!"

Lin Yi started to refine the fire, and the heat rose up. What surprised Lin Yi was that the trace of consciousness within it reacted.

The tip of the refinement fire started to jump up and down, a wisp of flame swaying in one direction. Although the refinement fire itself didn't have any intelligence, it had a trace of Lin Yi's consciousness.

Lin Yi could clearly feel that there was something he wanted to do with the refinement fire in that direction.

"Senior ghost, is this the reaction of the spiritual fire of heaven and earth?"

Lin Yi's eyes lit up.

"I think so. You'll know when you see it for yourself. Don't bother me if there's nothing important. Every time I'm at a critical moment in my research, I'll be interrupted by you. That's why there's no progress."

The ghastly thing snorted in dissatisfaction.

"Then I'll go take a look first, you go do your thing."

Lin Yi activated his lightning escape and ran in the direction of the refinement fire.

After a while, Lin Yi came to a Valley.

What troubled Lin Yi was that he'd been here before, but he didn't find anything.

However, the pill fire no longer guided him in the right direction. It had changed to moving up and down. Logically speaking, this should be the place.

However, he couldn't find anything different here, be it with his eyes or his senses.

It was reasonable to say that the place where the spiritual fire of heaven and earth was located should have a higher temperature than other places. However, it was not there. On the contrary, it was lower than other places. This Valley seemed to be emitting a slight chill.

Could it be that there was something different underground? Lin Yi lowered his head and looked at his feet. There wasn't anything special, but since the crystals were all dug out from underground, Lin Yi guessed that there might be something down there.

Lin Yi lowered his body and patted the ground, using pure Qi to flip the rocks and soil around.

After a few hits, a strange aura rushed up from the rocks and soil. This aura clearly had the burning sensation of flames, but when it was not touched, it felt cold.

Lin Yi was standing closer, so the feeling was more obvious. He felt a little strange, not understanding why this would happen. The accompanying Spirit Fire Crystal didn't have a similar feeling.

"Someone's here?"

Before Lin Yi could study it further, four masked men appeared one after another within the range of his spirit sense. They came from different directions, but their destination was clearly the valley!

Lin Yi wasn't afraid of numbers, but he couldn't kill them if they didn't make a move. If everyone who came died and he was the only one left, Feiyang school would be in trouble too and become The Public Enemy of all the schools.

"The aura here must have leaked out and attracted the people nearby. If you want to get more good things, you have to hurry up!"

The ghostly thing suddenly appeared again.

Lin Yi was a little touched-he knew that the thing was ready to help at any time, afraid that he'd be too busy with research to be distracted.

"Senior ghost, I've only just started digging, how did I attract so many people? Isn't this too much of a coincidence?"

Lin Yi thought about how lucky he was-he'd just started moving, and there was someone nearby.

"It means that your luck is starting to turn bad, so you have to be more careful in the future!"

The ghostly thing laughed strangely and sneered.

"If we're unlucky, we can still find this place. If we're lucky, can we just buy all the spiritual fire crystals?"

Lin Yi smiled, not bothered by the joke at all.

Lin Yi didn't know what was under his feet, but he was the one who found it first-the others couldn't get a share.

Unless there was a large area of accompanying life fire crystals, Lin Yi could still give them some for the sake of the Alliance.

"If I'm lucky, I might be able to directly dig out the heaven and earth spiritual fire!"

The demonic thing continued laughing, and Lin Yi couldn't help but roll his eyes.

If they really dug out the spiritual fire of heaven and earth, it would be hard to say whether they were lucky or not. If they were not careful, they might all be burned to ashes by the spiritual fire of heaven and earth. Their luck would be heaven-defying.

The four of them weren't far from each other, and it was only a matter of seconds for a mountain opening cultivator-Lin Yi really didn't have much time left!

Lin Yi increased his digging speed and sent all his pure Qi into the hole. The soil and rock fragments were thrown away, and the heat that was disguised by the cold air was getting clearer.

The cold air outside wasn't a big deal, but the heat inside was terrifying. Lin Yi felt uncomfortable when he was hit by the cold air. If he was in the xuansheng stage, he might've been injured.

Soon, Lin Yi dug a ten meter deep hole in the ground, but he didn't find anything. The strange cold air only got stronger.

Seeing that they were getting closer, Lin Yi had no choice but to stop and move to the side.

The cold air in the pit had already risen to the sky as if it were solid, forming a white cylinder. It was impossible to imagine that people nearby could see this phenomenon from afar.

It wasn't that Lin Yi was afraid of these people, but he was afraid that if they continued digging, they'd make even more noise. If it was like a volcano erupting, everyone would be dead.

"Senior brother, you're too polite. Were you the one who caused this phenomenon?"

The first to arrive was a student in green. His tone was rather polite as he cupped his hands in greeting.

"I guess so. I just dug a random hole and dug this hole."

Lin Yi cupped his fists casually as well-he had a pretty good impression of the man.

Chapter 6593 No Need For Help

"I don't know what this cold Qi is formed from, senior brother wouldn't mind if I stay here and take a look, right?"

The green-clothed man politely asked.

Lin Yi didn't really mind-he just nodded and made a casual gesture.

The other three people also arrived one after another, but no one spoke. They were all on guard against each other and looked at the White cold air together.

Lin Yi didn't mind as he looked at the White Qi quietly.

The White cold air started out like a fountain, but slowly dissipated. Lin Yi walked to the side of the hole calmly.

The other four hesitated a bit before walking into the hole as well. They didn't look out of place on the surface, but Lin Yi knew that they'd start fighting if they made the slightest move.

"Senior brother, did you find anything?"

The previous blue-clothed man's attitude was still very modest and polite.

"Not yet. It seems like we need to continue digging."

Lin Yi looked into the hole-there wasn't a single clue.

"Why don't we all work together? it'll be faster."

Another Man in Black suddenly said in a deep voice. For them, this was a good opportunity to get involved in the matter openly.

As long as the few of them helped out, then whatever discovery they made in the future would naturally be shared.

"If you want to help, then help."

Lin Yi shrugged, as if he didn't notice the man's evil intentions at all.

Lin Yi didn't mind at all-he'd give the Alliance some face, and he didn't mind giving them some. Of course, it'd be embarrassing if these people tried anything funny.

Lin Yi didn't think much of four mere mountain opening cultivators-taking care of them was a piece of cake.

"Wait, let's make things clear first to avoid unnecessary trouble."

The man in green suddenly opened his mouth and stopped the other people who wanted to dig a hole.

The black-clothed man's movements paused for a moment. He turned to look at the green-clothed man, but he didn't express his opinion.

"Tell me about it."

Lin Yi didn't reply and looked at the man in green.

"There are five of us now, but as far as I know, there are at least fifteen people who have entered this forbidden zone. So, I suggest that if anyone else comes later, they can't participate anymore. Does anyone have any problems with this?"

The man in green looked at the four people, including Lin Yi.

"No problem!"

The Man in Black was the first to nod. This was beneficial to them, so there was no reason to disagree.

The five of them working together was enough to deal with the challenges of the people who came later. Although there were still ten people in theory, the probability of these ten people appearing together was almost zero.

Lin Yi nodded in agreement after seeing that the others had no objections.

"Very good, then let's continue! This senior brother was the first to discover this place, and he was also the one who dug out the first pit. So, no matter what's down there, he has the priority to choose and more right to distribute. What does everyone think?"

The man in green nodded and pointed at Lin Yi.

Lin Yi was a little surprised-he didn't think the man would be so kind.

"Hahaha! That kid doesn't have any good intentions. He wants to push you out to be the leader. After ensuring his own interests, he wants you to attract everyone's attention so that he can lay the foundation for us to work together to deal with you later. "

The ghastly thing laughed strangely.

Lin Yi had a good impression of the man before, but it seemed like he wasn't a good person.

"How do you think we should distribute it?"

The Man in Black looked at Lin Yi and asked the man in green indifferently.

"There are five of us in total. Normally, each of us will get 20% of the harvest. Now that this senior brother has discovered this place, each of us will take out 5% of our 20% and give it to him. In this way, this senior brother will get 40% of the harvest. Is that okay?"

The distribution by the man in green seemed normal, but his arbitrary decision made people feel a little uncomfortable.

Lin Yi wasn't happy about it, but the others were even more so. They couldn't find anything wrong with the man in green, so they didn't say anything.

"Since no one is saying anything, I'll take it as a silent agreement. Time is quite tight, so how about we just agree on this?"

The man in green looked around again and made a decision.

The other three didn't say anything, but they all looked at Lin Yi!

Of course, they didn't want to see if Lin Yi was satisfied, but they wanted to see if Lin Yi really dared to take 40%!

As long as Lin Yi nodded, the three would probably plan to kill him and steal his treasure.

"Isn't it a little inappropriate for one person to take 40%?"

The Man in Black probed, seeing that Lin Yi wasn't going to say anything.

If Lin Yi only took 15% more than the others, the Man in Black could accept it, but according to the man in green, Lin Yi was taking double the amount. He couldn't take it.

"It's indeed not suitable. There's definitely a problem with 40%. Let's not talk about everyone's disagreement, even I can't agree to it!"

Lin Yi said as he waved his hand.

"Haha, you're quite tactful. Since that's the case, we won't treat you badly! How about this, if we find more things down there, I'll let you have 5% first, and then the rest will be divided equally between the five of us. What do you think?"

The Man in Black Thought that Lin Yi was scared and was very proud as he decided on the distribution plan.

As far as he was concerned, letting Lin Yi take an extra 5% was good enough. If Lin Yi wasn't satisfied, then they'd split it between the four of them.

"Senior brother, if you have any ideas, you can tell me first."

The man in green knew that Lin Yi wouldn't agree to this plan, so he ignored the Man in Black and asked Lin Yi directly.

"I don't think you need to help. For the sake of the Alliance of schools, I will give you 10% of the things after I find them."

Lin Yi smiled faintly, his eyes full of mockery under the mask.

Did he really think that he was some great figure? Lin Yi's last bit of patience was about to run out.

He'd planned on giving them 40% as an explanation to the Alliance, but since they didn't want it, he didn't even need the gift!

"Hahahaha, is there something wrong with this guy's brain? Who did she think he was? An earth-splitting stage expert? You only found a place and you dare to claim 90%?"

The Man in Black laughed in anger. He didn't wait for anyone to say anything and jumped out, pointing at Lin Yi and yelling.

The other three, including the man in green, didn't say anything, but they all subconsciously turned to Lin Yi, their eyes unfriendly.

Especially the man in green-Lin Yi's answer was completely out of his expectations, but the effect was even better than expected!

They didn't have to wait for the distribution later-they could work together to kill Lin Yi now and get rid of a competitor.

Chapter 6594 Kill Him Together

To be honest, this was what these guys had planned in their hearts. No matter what was in the pit, one less person to distribute it, they would get more.

"Ha ... A brain is a good thing. Unfortunately, you don't have one!"

Lin Yi's chuckled, a hint of mockery in his voice.

"I can't stand it! Everyone, let's attack together and kill this ignorant little rascal. After that, we'll work together to split the loot evenly!"

As the Man in Black spoke, he began to gather true Qi in his hands, ready to launch an attack.

The other three looked at each other and nodded. A simple Alliance was formed.

"Don't misunderstand, I'm not saying that he's brainless. I'm saying that all of you are brainless! If I were you, I wouldn't get involved. That's just courting death!"

Lin Yi didn't seem to see their killing intent as he continued to persuade them.

"Kill him!"

The Man in Black hmphe coldly and didn't want to waste any more time with Lin Yi. In his eyes, Lin Yi was already a dead man!

Those who could enter this Mountain region were all elites from the various major Academies. Everyone's strength was about the same, and even if there was a gap, it was definitely not too big. One against many, most would have to kneel.

As far as they were concerned, Lin Yi was simply tired of living by provoking the other four so arrogantly!

Before the Man in Black could finish his words, the man in green was the first to make a move!

The man in green seemed to be very considerate of Lin Yi, but it seemed like he was just pretending!

Immediately, the other three made their moves as well. In an instant, Qi filled the air, and swords and knives flashed. Lin Yi was instantly in the middle of a storm, as if he would be torn apart at any moment.

However, the next moment, dozens of thick lightning arcs appeared out of thin air, enveloping the four who were attacking Lin Yi.

Ever since Lin Yi's cells could produce lightning, the strength of the lightning formed by his pure Qi had increased greatly. After breaking through the mountain opening stage, it had a qualitative leap again.

It wasn't an overstatement to say that the lightning bolts Lin Yi could casually cast now were no weaker than the lightning tribulations of a xuansheng stage!

Without any defense, these people would probably be burnt on the outside and tender on the inside.

Seeing that the situation wasn't looking good, the four of them gave up on attacking and started blocking Lin Yi's lightning bolts with all their might.

Lightning practitioners were the biggest headache-if he'd known that Lin Yi was a lightning practitioner, he wouldn't have objected to his plan.

After blocking the dozens of lightning arcs with great difficulty, the four of them didn't even have time to catch their breath before they suddenly felt the temperature around them drop sharply. Snowflakes were actually dancing in the air, and ice and frost were forming.

One must know that this was a natural forbidden area formed by the heaven and earth Spirit Fire. The overall temperature was very high. It was simply unbelievable that such a situation would actually occur!

Although the cold Qi that leaked out from the hole was also cold Qi, it would definitely not lead to the current situation. Moreover, the cold Qi had long dispersed.

"Saber Force!"

One of them exclaimed, recognizing Lin Yi's move.

Someone from the divine refining college?

Lin Yi glanced at the man. He recognized the blade Force, so he probably knew Leng rufeng, but he wasn't Leng rufeng's friend. With Leng rufeng's personality, he didn't have any friends before he met Lin Yi.

So Lin Yi guessed that this was Leng rufeng's enemy, and for some reason, he had seen Leng rufeng in action!

"Stop! Let's talk again!"

The man in green suddenly shouted as he quickly retreated. He didn't know what method he used, but he managed to escape from Lin Yi's attack range after a few turns.

The saber Qi that had already burst out did not cause any damage to the man in green, but the other three guys were a little bitter. They were still slightly injured after resisting it with all their might.

"What do you want to say?"

Lin Yi glanced at the man in green and retracted his blade. He didn't want to kill the four of them.

"I agree with senior brother's distribution plan. How about we do this?"

The blue-clothed man's change was so quick that it caught people off guard.

To be able to accept such harsh conditions, could it be that this green-clothed man had discovered something?

"What are you saying? Even if you agree, we will never agree!"

The Man in Black snorted coldly and immediately expressed his objection.

Lin Yi's strength was shocking, but he still had a trump card up his sleeve. Naturally, he wouldn't accept it.

Ten percent for four people, and Lin Yi alone? Did he think they were beggars?

The man in green chuckled and took a few steps back, indicating that he wasn't going to get involved in the fight anymore. If the Man in Black wanted to continue fighting Lin Yi, he wouldn't stop him.

Lin Yi smiled faintly. This man in green was quite the schemer. Was he planning to sit on the mountain and watch? He'd probably be able to reap the benefits after Lin Yi and the three were both injured.

"What do you two say? Do you want to agree in humiliation, or do you want to take the initiative?"

The Man in Black snorted and ignored the man in green. He turned to the other two and asked, ""Kill this little rascal and we'll split it evenly between the three of us. As for those gutless bandits, just let them be."

The two were hesitating at first-after all, Lin Yi's strength was shocking, and he was even a lightning element practitioner. It would be troublesome to deal with him.

However, when the Man in Black said that, they were immediately tempted. Three people was almost twice as much as five people. There was no reason to refuse!

"Are you confident?"

The two men looked at each other, and one of them asked the Man in Black in a deep voice!

"Three against one, do I need to be confident?"

The Man in Black laughed coldly as he looked at Lin Yi, his eyes icy cold. "To be able to make me use this treasure, you can be considered to be capable! You'll be honored to die in my hands!"

"You almost scared me to death when you said that! If your strength was as good as your mouth, you would have been invincible!"

Lin Yi didn't care about it, but he was on full alert-the Man in Black seemed to be taking out some sort of treasure!

"I don't know if he's invincible or not, but he's more than enough to deal with you."

The Man in Black laughed sinisterly and flipped his hand, shooting out five silver rings.

The five silver rings didn't attack Lin Yi directly, but collided with each other in the air, making a clear tinkling sound. They then spread out in all directions, surrounding Lin Yi.

"Your voice sounds nice. You're not thinking of singing the song of Five Rings or something, are you?"

The Jade space didn't alert him, so Lin Yi wasn't too worried.

"If it's good, you should listen more. I'm afraid you won't be able to hear it in the future."

The Man in Black didn't know what the song of Five Rings was, but it didn't matter. As far as he was concerned, Lin Yi was going to die!

The Man in Black chuckled and waved his arms. Thin threads of true energy instantly connected the five Rings between his ten fingers.

Under the control of his pure Qi, the five Rings moved even more nimbly. In an instant, Lin Yi was surrounded by a layer of silver light.

Chapter 6595 Prop Self-Destructs

"Eh, this is interesting!"

Lin Yi was a little surprised. As the silver light got thicker, the pure Qi in Lin Yi's body started to stagnate and couldn't flow smoothly anymore.

Not only that, Lin Yi's dantian was also suppressed by an invisible pressure, and his Qi couldn't leave his dantian. The remaining Qi in his meridians couldn't flow anymore without support.

With that, Lin Yi couldn't even perform simple moves, let alone activating his skills!

"Just a little interesting? Don't worry, there's still a lot of interesting things!"

The Man in Black laughed coldly and looked at Lin Yi with pity.

The other two didn't know what had happened, so they kept silent and watched from the side.

"The two of you, go up and kill him. Now that he has completely lost his true energy, you can launch your attacks outside the light circle and kill this B * stard in seconds!"

The Man in Black gave orders to the other two, signaling them to take action.

After he finished speaking, the Man in Black subconsciously glanced at the man in green, as if he was guarding against him.

The other two were suspicious, but they still attacked Lin Yi without hesitation!

It was no wonder that the Man in Black had to ask for help. It seemed that the five Rings were just a support tool and did not have any attack power.

The Man in Black needed to control the ring, so he couldn't do it himself. That was why he needed someone else to end Lin Yi's life.

Since Lin Yi could understand it, his two helpers naturally understood it as well. The Man in Black couldn't use this item against them directly, so they didn't have to worry about the Man in Black burning the bridge after crossing the river.

Unfortunately, the Man in Black still underestimated Lin Yi. Losing his pure energy wasn't a big deal to Lin Yi. His spiritual sense was just as strong, not inferior to pure energy.

Don't forget that in the ancient martial world, he had relied on his spiritual sense to level up.

Lin Yi threw the three pill fire vortexes at the three Men in Black, and in an instant, their essence spirits were violently torn apart by a huge force.

Fortunately, Mystic class Sea area placed great importance on the training of spirit sense, and these three were elite students. Although their spirits weren't that strong, they all had spirit defense items, so Lin Yi's spirit attack didn't work for a while.

"A divine sense attack?"

The two who were ready to attack cried out at the same time. Although they used items to block Lin Yi's attack, the items weren't permanent. They were quickly consumed by the fire vortex.

The Man in Black wasn't surprised, he was happy. He already saw Lin Yi as a dead man, so the more good things Lin Yi had, the more he would get!

This was a divine sense attack skill!

It was rare even in the mystic seas, and they had never heard of such a powerful one!

The common and more popular spiritual sense attacks were spiritual sense collisions and the like, but they were not on the same level as this spiritual sense pill fire Whirlpool.

"Quick, kill him! This guy won't be able to hold on for long!"

The Man in Black suppressed the joy in his heart and shouted loudly, ordering the two men to continue attacking.

No matter how powerful the spirit sense attack was, it was useless if it couldn't hurt Lin Yi for the time being. Without using pure Qi, Lin Yi's defense would be greatly reduced. He could use this chance to kill him.

The two helpers gritted their teeth and nodded at the same time. They continued to use props to resist the spiritual awareness attack, and the speed of the martial skills in their hands also accelerated a bit.

Lin Yi smiled faintly, not taking their attacks to heart.

Even if he couldn't use his pure Qi, Lin Yi's body wasn't something these people could deal with. The two helpers obviously weren't good at long range attacks either, so they weren't much of a threat to Lin Yi.

Lin Yi used butterfly microsteps as he controlled the fire vortex, his body's strength exploding out and shaking the man's light ring.

The butterfly micro steps didn't require Qi-it was a body-strengthening technique, and Lin Yi had learned it back in the normal world. Only the extreme version of the butterfly micro steps required Qi, and the five Rings had almost zero physical limitations.

"Kill this little bastard! Don't let him have the chance to resist!"

The Man in Black was shocked.

Things had already reached a point where they had to fight to the death. If Lin Yi escaped now, what would the consequences be? Just thinking about it made his blood run cold!

Once Lin Yi was free and could use his pure energy, dealing with them would be a piece of cake.

"Resist? Do you think I'm resisting? I'm only resisting when you have the advantage. Do you have the advantage now?"

Lin Yi laughed coldly and blocked the two helpers "attacks.

"Who are you?"

The Man in Black lost his composure-this was the first time he'd heard of a weirdo like Lin Yi.

His zhenqi, spiritual sense, and physical body were all extremely powerful. He seemed to have no shortcomings at all. He was simply a monster!

"It doesn't matter who I am. What's important is that you've provoked the wrong person."

Lin Yi said nonchalantly, not in a hurry to leave the light.

The Man in Black was already sweating profusely under his mask. He had never thought that he would encounter such an existence!

Lin Yi didn't want to play with the man anymore-he sent a few lightning bolts over to the five Rings.

This was the power of lightning that Lin Yi's cells produced, so it wasn't restricted by Qi. However, without Qi, its power was weakened a lot.

The black-robed man's body trembled. Although the lightning arc had landed on the five Rings of light, he was closely connected to the Rings. Caught off guard, he was almost electrocuted and fell over, his entire body feeling numb.

"How is this possible? How can you still use martial arts?"

The Man in Black exclaimed, completely losing his composure. Lin Yi's performance had really scared him!

The other two saw Lin Yi casually swing out a lightning arc and turned to run without a word!

Their spiritual sense defense was about to break down, and Lin Yi's pure energy didn't seem to be locked. Why didn't they run? did they want to stay and die with the Man in Black?

"You don't have to be afraid. This isn't a martial art technique driven by true energy. In fact, my true energy is still confined ..."

Lin Yi explained with a smile. He was telling the truth, but no one believed him.

The Man in Black was also a decisive person. When he realized that the situation was not right, in order to fight for a chance to escape, he directly activated the restrictions in the Rings and self-destructed the five precious rings!

"BOOM!"

The five Rings exploded at exactly the same time, and there was only one sound. Although it was just a control-type prop, when it self-destructed, the power was still very strong.

At the same time, the Man in Black didn't even look at the result of the self-explosion. He turned around and chased after one of the two men, leaving a trail of smoke behind him.

Chapter 6596 Exchanging A Storage Bag For A Life

In theory, if the three of them ran separately, the success rate would naturally be the highest.

However, the Man in Black did the exact opposite and chased after one of his companions. His purpose was self-evident.

From the Man in Black's perspective, if the three of them split up, Lin Yi would definitely go after him. After all, he was the one who had been targeting Lin Yi.

That would make it look like the Man in Black was luring Lin Yi away while the other two were running for their lives-he wouldn't do something that would benefit others and harm himself.

The Man in Black was very fast, and in the blink of an eye, he'd left his pursuers behind. This was the same as drawing the trouble to Lin Yi-Lin Yi would most likely deal with the people behind him first, giving the Man in Black a chance to escape.

"It's a pity about these five Rings!"

Lin Yi shook his head and walked out from the dust.

Lin Yi was very interested in this five-ring Soul Master-he didn't think that the Man in Black would be so decisive as to self-destruct to escape.

Lin Yi didn't mind the three of them splitting into two. These guys didn't have the wood escape technique, so it was a joke to compete with him in speed!

With a flash, Lin Yi caught up to the Man in Black and threw out a wild fire Bagua Palm. In the mountains formed by the spiritual fire of heaven and earth, fire-type skills would naturally be enhanced to a certain extent, so this palm was more powerful than usual.

The Man in Black was shocked. There were too many unexpected things today. If this continued, he would be surprised out of habit.

The violent flames crashed towards the Man in Black, but something strange happened. A layer of light suddenly appeared, blocking all the flames!

Lin Yi wasn't surprised-the man's fifth ring was good stuff, after all, and it wasn't surprising that he had a few other powerful items. It'd be weird if he died right away.

After blocking a wild flame Eight Trigram palm for the black-clothed man, the light membrane let out a clear cracking sound and turned into light fragments, drifting in the air and disappearing.

"Stop! I admit defeat!"

The Man in Black's heart was broken, and he couldn't help but beg for mercy. This time, he was really afraid and regretful!

His defensive light film was not an ordinary item. It could withstand a full-force attack from an early stage earth creation realm cultivator!

If it was an attack from a mountain opening cultivator, it could block at least eight to ten times, but Lin Yi's casual attack shattered it! Just how powerful was this?

The Man in Black was so scared that he almost cried!

Was this the opening of the mountain? How could he display earth-opening stage martial techniques? What kind of existence had he provoked?! If he had known earlier, he would have followed the green-robed man, a wise man submits to circumstances!

Unfortunately, there was no medicine for regret in this world. Even if the Man in Black regretted it to the point where his intestines turned green, it was of no use in the current situation.

"It's too late!"

Lin Yi's cold voice sounded in the man's ears. He felt endless fire pouring into his body, and the heat ignited all his meridians in an instant!

"You want to use the teleportation talisman to escape? There was still a chance if you used it earlier, but it's too late now!"

Lin Yi put away the man's storage bag and took the talisman from his hand.

When the Man in Black said he had admitted defeat, he had actually wanted to stall for time so that he could use the teleportation talisman to escape. In the end, he didn't succeed in activating it even at his death.

The other two helpers who didn't run far were scared out of their wits. When Lin Yi and the Man in Black were fighting, they had already taken out their teleportation talismans. After Lin Yi killed the Man in Black, they activated the talismans without hesitation, afraid that they would follow in the man's footsteps.

It wasn't that Lin Yi didn't see what they were doing-in fact, it wasn't just the two of them who were preparing to run, the man in green had taken out a teleportation talisman as well.

The man in green understood that he'd schemed against Lin Yi before, and seeing how Lin Yi killed the Man in Black with such decisiveness, he'd probably come for him later. It was better to run.

"You guys better not leave. Since you're here, why don't you take a look at what's underground before you leave?"

Lin Yi smiled faintly as he held a small flag in his hand. An invisible wave enveloped the area, forming a special boundary.

The space sealing no-escape flag!

He'd just gotten his hands on the wood escape technique with this, and now that he'd had a taste of it, he wanted to use it again.

In this sealed space, all kinds of space were locked, and the teleportation talisman used the rules of space to teleport, so it was also within the range of the space-sealing no escape flag.

Of course, this was also because the level of the transfer talismans they were using was not high. If it was a high level talisman, it would be above the level of the space sealing no escape flag and would not be restricted.

Unfortunately, they weren't Wang shiqing or Wang Shiyang. None of them had high level talismans.

"This senior brother, everything is the work of that little bastard, the Man in Black. I've always been seeking benefits for senior brother, and this matter has nothing to do with me! Even if I offended you just now, I'm willing to compensate you!"

The green-clothed man realized that the teleportation talisman was not working and immediately apologized.

It was better to admit his mistake before Lin Yi came looking for trouble!

Most importantly, the Man in Black's death had robbed the man in green of his courage to run. Lin Yi was too fast, and he didn't think he could outrun Lin Yi.

It was a good thing that the man in green didn't know that Lin Yi's lightning escape couldn't be used within the range of the flag. If he knew, he might've chosen to run, and then ... There was no then, because Lin Yi put away the flag and killed him ...

"Since you've admitted your mistake, then continue digging. I have to deal with some small matters first."

Lin Yi didn't plan on killing the man in green-it was more valuable to have him Scout the way.

As for the other two, since they'd joined the Men in Black, Lin Yi didn't need to be polite. He'd already killed one, so he didn't mind killing two more!

"I admit defeat!"

"I surrender!"

The two helpers gave up resisting at the same time, bent their knees and surrendered.

They were all geniuses and elites from their respective Academies. It was not worth it to court death for the sake of their so-called face. Moreover, they were all wearing masks now. Who knew who was who? What face was there to speak of?

"Ha ... You're making things difficult for me!"

Lin Yi was planning on killing them, but the two surrendered so quickly that it was a bit awkward.

However, Lin Yi had always been a good-tempered person. As long as he didn't cross Lin Yi's bottom line, Kang Zhaoming would be able to live until now!

Seeing that the man in green was quite tired from digging the pit, it would be faster to send two more people to help!

"Senior brother, this is my storage bag. I'll give it all to you."

"Senior brother, this is all I have. Everything inside is yours. You're welcome."

The two helpers saw Lin Yi's hesitation and immediately handed the storage bags to Lin Yi with both hands, ready to trade their lives.

Chapter 6597 Simply Can't Die In Peace

"Alright, since you're not the main culprit and your attitude is good, I won't argue with you."

Lin Yi smiled faintly as he put the bag away. He pointed at the hole, signaling for the two to start working.

The man in green was digging at random intervals, paying close attention to any changes in Lin Yi's situation.

When he saw Lin Yi send the two over, the man in green immediately ran to Lin Yi, leaving the digging to them.

"Senior brother, this is Junior brother's little apology. Please don't hold it against me and don't lower yourself to my level,"

The man in green handed Lin Yi a storage bag and lowered his head, afraid that Lin Yi would come for him.

"You have a good eye."

Lin Yi smiled faintly as he accepted the storage bag with a mocking tone.

With a sweep of his divine sense, he found that there were many good things inside. Although there was nothing he particularly wanted, their value was not low. It seemed that the blue-clothed man had also put in a lot of effort.

"Senior brother must be joking. If I had good eyesight, I wouldn't have done such a stupid thing just now."

The man in green bowed slightly and said with embarrassment.

"Alright, I won't say anything unnecessary. You go and help them dig. Dig out something as soon as possible. It will save everyone's time!"

Lin Yi waved his hand casually, signaling the man to go dig.

However, before he could finish his words, white cold air suddenly appeared from the pit again and rushed up!

This time, the range was even wider. The two people at the edge of the pothole were caught off guard and were contaminated by the cold air.

In the blink of an eye, the two of them froze, and their bodies were covered with frost as if they were frozen.

Lin Yi and the man in green didn't even have time to react before they saw the two frozen men start to burn in blue flames. In the blink of an eye, they were turned into ashes, but the layer of frost was still intact!

"What the hell is this?"

Lin Yi took in a cold breath and couldn't help but exclaim.

Even from a distance away, the Jade space still sounded an alarm-the danger level of the White mist was beyond Lin Yi's imagination.

Could it be that he had found a spiritual fire of heaven and earth?

Lin Yi could only think of one possibility for such terrifying flames!

"You'll know when you see it!"

The man in green suddenly laughed and pressed his hand on Lin Yi's side. An invisible wave instantly covered his body.

The Jade space's warning wasn't over yet, and Lin Yi didn't expect the green-clothed man to suddenly attack him!

"What are you doing?"

Lin Yi roared, but he suddenly realized that other than speaking, he couldn't even move a finger. It was impossible to break free from the invisible force in a short time.

"I'll help you, senior brother. I'll send you in to see if there's any good stuff. I've brought out my most precious treasure!"

The man in green sneered smugly but didn't continue to talk nonsense. Instead, he waved his hand and threw an array talisman hidden in his palm directly into the hole.

In the next moment, Lin Yi's body followed the talisman into the hole. This kind of talisman wasn't lethal on its own, but it was deadly now!

The man in green flashed to Lin Yi's back and pushed him again. He was worried that the formation would be destroyed by the White gas in the pit, causing Lin Yi to escape at the last moment.

With the addition of this palm, Lin Yi was like a meteor falling to the ground, reaching the top of the pit even faster than the talisman and turning into an ice crystal.

"Senior brother, if you find something good, you must remember to share it with Junior Brother!"

The man in green laughed as he waved at Lin Yi, as if Lin Yi really was going to the pit for treasure.

The blue flames appeared within the ice crystals, wrapping Lin Yi up and sending him straight into the hole!

"I was too careless! He had actually been plotted against by this idiot. Had things been too smooth recently, so he had let down his guard? Or is it really like what that damn thing said, that my good luck has run out recently?"

Lin Yi still had the time to criticize himself-the man in green wouldn't be so happy if he knew!

At first, Lin Yi thought that he was dead for sure as well. When the blue flames surrounded him, the terrifying heat and burning sensation made him despair.

However, at the crucial moment, the Qi in Lin Yi's body automatically circulated and turned into the refinement fire. His divine sense also entered the refinement fire, forming a layer of refinement fire that wrapped around his body.

The refinement fire wasn't a match for the blue fire at all, and it was being consumed quickly, but it saved Lin Yi's life for now.

"You little brat, you've really gone too far this time! Let's see if you still dare to be careless in the future!"

The ghostly thing also sensed the danger and ran out to curse.

"Senior ghost, now is not the time to talk about this. Hurry up and think of a way to get out of this!"

Lin Yi smiled bitterly. He was still falling, and it was getting faster and faster.

They didn't dig more than ten feet deep before, but they were at least seventy or eighty feet deep now. It was clear that there was a tunnel underground, and Lin Yi and the others had only dug the connection point to the surface.

"What can we do? I'm also in despair!"

The ghastly thing replied in a bad mood and then went to think of a way.

The blue fire got stronger and stronger as he went deeper into the ground, but the strange thing was that the layer of ice around Lin Yi didn't melt at all.

Lin Yi tried using his lightning movement technique. His cells could activate the power of lightning, but it couldn't break through the ice!

Although the restriction of the talisman was gone, the isolation effect of the strange Ice and Fire was no less than the previous restriction.

"Senior ghost, can you set up some kind of formation to help me block it?"

Lin Yi's forehead was covered in sweat. The blue fire was getting hotter and hotter, and his refinement fire was almost at its limit.

This was only Lin Yi-anyone else would've been turned to dust by now, even if they had a refinement fire. Lin Yi's physique, pure Qi, and Arts were all special-he didn't die on the spot.

"Don't think about such a good thing. Once you take out the array flags, they will be burned immediately. You can only rely on yourself. "

The demonic thing was helpless as well-he and Lin Yi were in the same boat, and neither of them could escape.

If Lin Yi was done for, the thing would be buried with him. If there was a way, he wouldn't hide it, but he didn't have any.

"Don't tell me that I'm really going to die Here today?"

Lin Yi sighed softly. Facing life and death made him calm down.

However, it didn't matter if he died, but what about the beauties in the secular world?

Chu Mengyao, Tang Yun, Chen Yushu, Guan Xin, tu Ranran, and Yu Xiaoke were all still unconscious, and their cheap master, Zhang Liju, was still missing. They were all dead!

Chapter 6598 Ice Flame Serene Lotus Fire

Just as he was sighing, Lin Yi's body suddenly shook, and the ice around him rolled a few times before finally stopping.

"We've arrived?"

Lin Yi felt a little dizzy-he couldn't extend his spirit sense out, so he didn't know what was going on around him.

The fusion Fire was now forced to stick to the surface of Lin Yi's skin. If the blue fire added a little more strength, the fusion Fire could be destroyed at any time.

"Release the power of lightning in your body to the surface of your skin and form a Double Defense with the fusion of the pill fire!"

The ghastly thing suddenly spoke.

"Can the power of lightning Resist this kind of flame?"

Lin Yi was suspicious-the failure of his lightning escape was the best proof that the power of lightning was suppressed.

However, suspicion was just suspicion. Lin Yi still did as he was told and covered the surface of his body with the lightning. The fine lightning arcs jumped and moved on the surface of his skin, tangling with the refinement fire and forming a new layer of defense.

"The power of Thunder is the purest and most yang power in the world. Even the spiritual fire of heaven and earth can't surpass it. Although your power of Thunder is at a lower level and can't break through the seal of the spiritual fire of heaven and earth, it should be no problem for simple defense."

Lin Yi felt like the guy was saying that because he'd already seen the results!

"The pressure has indeed decreased. Senior ghost is really knowledgeable!"

Lin Yi complimented casually. It didn't matter if the thing was wise or not, at least it gave him the right strategy.

Lin Yi's body wasn't weak, but it couldn't compare to pure Qi or spirit sense! Moreover, the latter two could be replenished, but the physical body could not be replenished quickly, so the power of lightning produced by cells could not be maintained in theory.

Fortunately, Lin Yi's Qi could also produce lightning, and the two types of lightning were even stronger when combined. Combined with the refinement fire, it even pushed the blue fire away a little.

"Kid, I don't know if you're lucky or not, but this place should be where the spiritual fire of heaven and earth is located!"

The demonic thing laughed evilly. Lin Yi's life was safe for now, and he had time to observe his surroundings.

Lin Yi's lightning and refinement fire worked together, weakening the blue fire a little. Only then did he and the ghost's divine senses have the chance to check it out.

At this moment, they were in an underground cave. Although they did not know how deep it was, the entire cave was not dark. On the contrary, it was very bright. However, the entire cave was covered in a layer of faint white fog, making it a little hazy.

"Senior ghost, is that the spiritual fire of heaven and earth?"

Lin Yi was at the edge of the cave, and he was talking about the blue fire in the center.

The flame was not large, only three fingers wide and two fingers long, but it was shaped like a lotus flower that was about to bloom. With the faint white mist, it appeared extremely exquisite and beautiful.

Who would have thought that such an exquisite and beautiful flame Lotus would have the power to burn the mountains and boil the seas!

"Do you still need to ask? If it's not the spiritual fire of heaven and earth, how can it have such a shocking power?"

The ghastly thing's voice carried a hint of surprise. The blue flame that wrapped around Lin Yi wasn't even the main body-it was just a bit of aura that leaked out, and it almost took Lin Yi's life.

If Lin Yi were to face The Lotus Fire directly, the fusion of fire and lightning would be like a paper tiger-he'd be destroyed with a single touch!

Lin Yi took in a deep breath-the ice around him was melting, but the cold was getting more and more obvious. It was a fire, but it couldn't hide the cold.

"Senior ghost, what kind of flame is this? how can it have both cold and hot auras at the same time?"

Lin Yi's body was a little stiff, and he still couldn't move. All he could do was increase the defense of his fire and lightning.

"That's why I said that I don't know if your luck is good or bad. This is not an ordinary yellow level Spirit Fire, but a half step black level Spirit Fire! If I'm not wrong, this should be the ice flame serene lotus flame!"

The demonic thing sighed softly. It wasn't a good thing for Lin Yi to encounter a yellow level Spirit Fire that was about to evolve into a black level Spirit Fire.

No matter how strong Lin Yi was, he was still at the beginning stage. If it was just a normal yellow level Spirit Fire, the thing would try to convince him to take it, but this was a black level Yellow fire-he couldn't even escape!

"Of course it's because of my good luck!"

The corner of Lin Yi's mouth twitched. The Alliance's information was obviously wrong. He thought it was just a yellow fire, but he didn't expect to encounter a half-step Mystic Flame!

"Don't think too much. Find an opportunity and run. The heaven flame is not something you can resist. A flame of this level has already developed its own intelligence. If it thinks that you are hostile, it will turn you into ashes at any time. "

The thing wasn't trying to scare Lin Yi-Lin Yi wouldn't be able to hold out for even a second if the fire started.

"I want to run too, but the problem is that I can't run away from this place!"

Lin Yi smiled bitterly. The ice around him had melted, but he still couldn't use his lightning escape.

Lin Yi's full-powered lightning was barely enough to protect his body-if he used the lightning escape technique again, he'd be burnt to ashes if he stopped using the lightning, let alone escape.

Other than that, the hole he came from was opened up, and the White Qi kept flowing out. Lin Yi couldn't go back the way he came unless he was looking for death.

"Let's find a way to recover our mobility first. There might still be a passage out of here."

The demonic thing was still calm-his spirit sense couldn't extend too far, and he couldn't find any other way, but Lin Yi felt a lot more at ease after hearing that.

"There are quite a lot of accompanying Spirit Fire crystals here. As expected, a base camp is different!"

Lin Yi couldn't move, but he could still observe his surroundings.

The cave was very bright. With the ice flame nether Lotus fire as the center, there were many accompanying Spirit Fire crystals, at least one or two hundred.

"Eh, senior ghost, the color of the accompanying Spirit Fire Crystal here is similar to the ice flame serene lotus fire, but it's actually different from the accompanying Spirit Fire Crystal we discovered earlier?"

The accompanying Spirit Fire crystals were faintly visible under the White mist, but Lin Yi could tell that the color of the crystals was different from before.

"There's nothing strange about it. The Iceflame serene lotus fire is an extremely special existence. It possesses the two opposite attributes of Ice and Fire. The accompanying Spirit Fire crystals around it would naturally be contaminated with such a special attribute. "

The ghastly thing explained.

"I understand now. The accompanying Spirit Fire Crystal that I found earlier lost the nourishment of the icy flame serene lotus fire, so the fire element slowly strengthened and the ice element gradually weakened. In the end, only the fire element was left!"

Lin Yi said.

Chapter 6599 We're Doomed, We're Doomed

The accompanying Spirit Fire crystals here were obviously much more valuable than the ones before, and Lin Yi didn't even think about it and decided to keep them for himself!

As for how he would leave after taking it for himself, he could only take it one step at a time.

"More or less. However, if I put these accompanying Spirit Fire crystals into the Jade space, it wouldn't be a problem. But if I put them in my storage bag, after a period of time, they might be the same as before!"

The ghastly thing suggested.

Lin Yi nodded. The food in the Jade space wouldn't go bad for a long time, and the herbs would be fresh too-it was a good place to store Spirit Fire crystals!

Since he had the Jade space, Lin Yi was ready to take all the crystals. Even if he couldn't use them, he could sell them to someone else!

As for the mission from the college Alliance, he could just hand over some ordinary Spirit Fire crystals to deal with it. Why should he give the good things that he risked his life to the college Alliance for free?

"You'd better think about how to save your little life first. "

The damn thing reminded Lin Yi of his current situation mercilessly-he couldn't even guarantee his own safety, and he still wanted to get the loot? wasn't he a little too ambitious?

"Senior ghost, do you think the Jade space can contain the ice flame nether Lotus fire?"

Lin Yi's heart skipped a beat as he looked at the blue flame with a heated gaze.

"I'll wipe! Are you crazy? The ice flame nether Lotus flame is not something you can think of right now. You'd better get rid of this idea. The Jade space is powerful, but if you bring this thing in, I'll be finished if I can't control it. "

The damn thing jumped-Lin Yi sure was daring! He was looking for death!

He was most afraid of fire. Alchemy fire was already very harmful to him. If a half-step black level heaven and earth Spirit Fire was brought in, wouldn't that be asking for his death?

The Jade space wasn't only related to Lin Yi's strength and growth, it was also related to the life of the ghostly thing!

"Then forget it."

Lin Yi quickly shook his head.

"That's right, there seems to be an exit over there. You can leave from there!"

The ghostly thing regained its composure and guided Lin Yi's spirit sense to a place not far away.

Lin Yi followed the directions and found the exit that wasn't blocked by the cold air, but he couldn't move right now. It was useless even if he saw the exit ...

However, in the next moment, the phenomenon suddenly changed.

Lin Yi could feel the temperature around him rising rapidly, and the fusion of fire and lightning was getting too much to handle. A bad feeling rose in his heart. "Senior ghost, something doesn't seem right. Is the ice flame nether Lotus fire going to explode?"

"It seems to have discovered your existence, so it made some kind of reaction!"

The ghastly thing also felt that something was wrong, and its attention turned to the ice flame serene lotus fire.

"Could it be that I snatched its spiritual fire Crystal and it's unhappy?"

Lin Yi frowned. It was almost an instant, and his defensive layer was getting closer and closer.

"Nonsense, do you think you'll feel good if someone else steals your things? Refer to the Man in Black!"

The demonic thing was still in the mood to tease him.

Lin Yi didn't have the time to care about that, because he suddenly realized that the defensive layer ... Had been crushed!

"F * ck, is he going to die?"

Lin Yi finally understood the despair the Man in Black felt.

However, the next moment, Lin Yi realized that his body had regained its mobility.

Lin Yi's reaction was fast as well. He used all his strength and super limit butterfly micro steps, dashing towards the tunnel like a ghost.

However, Lin Yi didn't get far before a wave of heat mixed with ice came surging over, enveloping him again!

The fusion of fire and lightning was released instantly, but it was suppressed back. Lin Yi's skin was quickly covered in ice, but the fire mixed with the cold air had already burned the skin under the layer of ice into charcoal.

"Amazing!"

Lin Yi frowned, sighing in pain.

"Let's go all out!"

The damn thing was also scared out of its wits-if Lin Yi died, it would be dead too!

And so, the thing quickly merged its spirit sense with Lin Yi's, using this powerful spirit sense as a Foundation to create a rough layer of spatial scales, forming a new barrier on Lin Yi's burnt skin.

"Quickly run! I can't hold on for long!"

After the ghastly thing finished doing this, it suddenly shouted loudly, changing its previous slow and unhurried manner of speaking.

Under normal circumstances, it was impossible for the ghostly thing to deploy such spatial scales as a defense. This time, it was a matter of life and death. Coupled with the research he had done during this period, he had some insight into the spatial scales, which was why he could barely simulate some.

If Lin Yi could really escape, the ghost believed that he would be able to improve his understanding of space after doing some reverse engineering, and he would be more suitable to study the broken array flag.

"I'm running! It's already fast enough!"

Lin Yi was shocked at first, then he started running.

There were accompanying Spirit Fire crystals everywhere, and even if they were right next to him, he wouldn't dare to take them. One mistake and he'd be in a tragic situation.

The ice crystals on Lin Yi's body cracked, but his movements weren't as restricted as before because of the spatial scale.

Lin Yi was like a shooting star with a long flaming tail as he moved at high speed, crossing half the cave.

At this time, the ice flame nether Lotus fire seemed to have been completely startled as well. The temperature in the cave continued to rise, but in contrast, the ice crystal on Lin Yi's body was getting thicker and thicker, and the cold was getting more and more shocking!

These two completely opposite attributes were surprisingly harmonious in this cave!

The tunnel was right in front of him, but Lin Yi's sprinting body came to a complete stop. He couldn't move at all-a thick layer of Ice Armor covered his body, completely freezing his movements.

And under the ice Armor, a dark blue Heat was burning wildly. The spatial scales that were set up with great difficulty only lasted for a moment before they began to collapse.

If it was a real spatial scale, even the original body of the ice flame serene lotus fire would find it difficult to burn it. After all, it was a high-end spatial rule, and even the heaven and earth spiritual fire could not break through it.

It was a pity that the spatial scales arranged by the demonic thing were too thick and shallow. They were called spatial scales, but in fact, they were just a counterfeit. To the ice flame nether Lotus fire, they were like a layer of window paper that could be broken with a single poke.

"This is bad, this is bad, I can't run this time! I haven't even had time to complete my grand plan, and I've been dragged down by you!"

The demonic thing was in despair, but what could he do?

"Senior ghost, don't say useless things. Hurry up and think of a way? We can't just wait for death, can we?"

Lin Yi hesitated. He wanted to take out the black bead-he didn't know if it would be effective against the ice flame nether Lotus fire.

Chapter 6600 Darkness Demon Beast

Unfortunately, Lin Yi's body was completely locked down, and he couldn't take out the black bead.

"Hurry up and take out your trump card, stop hiding it!"

The bastard was just spouting nonsense-he knew better than Lin Yi what cards he had up his sleeve.

"My biggest trump card is you!"

Lin Yi was speechless. His body was sealed, and he could only activate one Spirit sense Whirlpool.

After Lin Yi merged with the ghostly thing's spirit sense, the power of the Spirit sense Whirlpool had increased a lot. From Lin Yi's point of view, since the ice flame nether Lotus fire had its own consciousness, it might be effective in spirit attacks.

Unfortunately, Lin Yi's thinking was too simple. The moment the spirit sense Whirlpool appeared, it was completely destroyed by the ice flame nether Lotus fire's aura that filled the cave. It didn't even cause a wave.

"This is too abnormal! It can even burn soul consciousness attacks. If someone can subdue the ice flame serene lotus fire, won't his soul consciousness be invincible and can defend against any soul consciousness attack?"

Lin Yi sighed. He didn't want to wait for his death, but he had no other choice.

The demonic thing went silent as well-the difference in strength between Lin Yi and the ice flame Lotus fire was clear-this wasn't something that could be balanced out by a genius or a higher level opponent.

"If you really can't do it, just put your primordial spirit into the Jade space and give up your physical body."

The ghostly thing put away its usual frivolity and suggested word by word.

This was his last resort. Lin Yi's body was sealed by the ice flame nether Lotus fire, and only his Yuan spirit could escape.

But once he chose this path, not only would the Jade be unable to withstand the fire, how would he be able to get out in the future was also a problem!

Yuan spirit bodies were afraid of fire the most. If the fire didn't get tamed for a hundred years, Lin Yi wouldn't be able to get out of the Jade space if it kept burning!

At that time, he would probably have to spend his entire life studying Space Array flags with that damned thing!

Naturally, Lin Yi didn't want to choose this path, but he had no other choice in this life and death situation.

The scorching flames had completely destroyed the spatial scales, and in an instant, Lin Yi was burnt beyond recognition. His entire body was charred black, and there was even an ice crystal covering him, making him look like a frozen mummy.

"Senior ghost, it looks like we're really going to be companions!"

Lin Yi gritted his teeth and was about to make that difficult decision!

"Wait! What the hell is that?"

The ghastly thing suddenly cried out in alarm.

Lin Yi's heart skipped a beat as he looked at the direction the thing was pointing at.

A dark red shadow rushed into the cave like a ghost, and before Lin Yi could see what it was, he heard a soul-shaking roar.

The ice flame nether Lotus flame shook violently, affected by the roar. The pressure around Lin Yi lightened!

Lin Yi's fire and lightning fusion was like a spring that had been pushed to its limit. He took the opportunity to bounce back to the surface of his skin.

"Amazing! What the hell is this?!"

Lin Yi was both surprised and happy-he didn't think that someone would show up and save his life for now.

The ice flame nether Lotus fire seemed to feel the threat as well and turned its attention to the red shadow, which made Lin Yi relax a lot.

"Dark Flame demonic Wolf! Your luck is back! Don't look anymore, hurry up and escape!"

The ghastly thing urged with a grave tone.

"Dark Flame demonic Wolf? Is it a high-rank spirit beast from the spirit beast clan?"

Lin Yi had never heard of such a beast.

"Are you stupid? It's a Dark Flame demonic Wolf, a Dark Demon beast, not a spirit beast!"

The ghastly thing cursed unhappily, showing that he was quite afraid of the dark Flame demonic Wolf.

"What are darkness magical beasts? I've never heard of it before!"

Lin Yi asked as he tried to recover his mobility.

"Strictly speaking, the darkness demon beast is also a branch of the spirit beast clan, but I don't have time to tell you the story. You just have to remember that the darkness demon beast's combat power is much stronger than spirit beasts of the same rank, and its desire to kill is extremely strong. It will attack without any reason, so it's best if you avoid it when you encounter it, unless you can suppress it!"

The ghastly thing quickly explained.

Lin Yi's expression turned serious. The Dark Flame demonic Wolf's arrival wasn't a bad thing for him.

"Senior ghost, the icy flame nether Lotus fire seems to be extremely afraid of the dark Flame demonic Wolf. Could it be that it can restrain the spiritual fire of heaven and earth?"

Lin Yi asked as he tried to break free.

"It's not a restraint. The Dark Flame demonic Wolf is the natural enemy of all kinds of spiritual fires! This fellow relies on devouring all kinds of flames to increase its strength. When it was weak, ordinary flames, cultivators' alchemy flames, or other flames formed by other reasons were all its food. When it grew stronger, it began to search for spiritual flames of heaven and earth to supplement itself."

Speaking up to this point, the ghastly thing felt that he was too lucky. If it wasn't for the Dark Flame demonic Wolf, he would most likely have died today.

"Senior ghost, what level is this Dark Flame demonic Wolf? Can you deal with the ice flame serene lotus flame?"

Lin Yi couldn't see through the dark Flame demonic Wolf's strength, but the ice flame nether Lotus fire was a bigger threat to him now, so he was more inclined to the Dark Flame demonic Wolf.

"Don't worry, it's enough. You'd better hurry up and think of a way to escape!"He said.

That thing couldn't see through the dark Flame demonic Wolf's strength, so it was vague.

It wasn't that the Dark Flame demonic Wolf's strength was higher than the ghost, but that the darkness magical beast was a bit special. Its hiding ability was extremely outstanding, and under normal circumstances, one couldn't see through its strength at all.

But no matter what, this Dark Flame demonic Wolf dared to face the ice flame nether Lotus fire head on, so it was definitely not a simple character!

As the two of them spoke, the cold air and flames in the cave became stronger and stronger. This time, the body of the Iceflame nether Lotus fire directly entered the battle state and began to launch an all-round attack on the Dark Flame demonic Wolf.

The Dark Flame demonic Wolf's body quickly lit up with a layer of black flames. The icy flame nether Lotus fire's cold air had no effect in front of this Black Flame. As soon as it came into contact with it, it

made a sizzling sound and turned into a puff of mist that merged with the cold air. It was repeatedly evaporated.

As for the blue flame of the ice flame nether Lotus fire, it didn't have any advantage against the Black Flame of the Dark Flame demonic Wolf. They were only on par.

However, the Dark Flame demonic Wolf's agility was extremely outstanding. It seemed like the ice flame nether Lotus fire was tied, but it was actually of no use. The dark red figure kept flashing and approached the ice flame nether Lotus fire again.

The Ice and Fire auras in the cave began to shrink rapidly. It seemed that the ice flame nether Lotus fire had begun to mobilize all its power to deal with the Dark Flame demonic Wolf.

"It's loose!"

Lin Yi was overjoyed when he realized that he had regained control of his body.
