

Bodyguard 6601

Chapter 6601 Black Pearl's Might

When the Dark Flame demonic Wolf and the ice flame nether Lotus fire fought, it would be his chance to escape!

The friction between the cells increased the amount of lightning energy, and the number of lightning arcs on Lin Yi's body increased.

However, just as Lin Yi was about to use the lightning escape technique, the Dark Flame demonic Wolf suddenly appeared in front of him!

It probably hated the lightning arcs on Lin Yi's body, so the Dark Flame demonic Wolf just casually swung its claw and hit Lin Yi.

"Hell! What the hell is this Dark Flame demonic Wolf doing? Did I provoke it?"

Lin Yi cursed in his heart. He barely managed to defend himself before he felt a huge force coming at him!

However, the Dark Flame demonic Wolf's attention was focused on the ice flame nether Lotus fire. To Lin Yi, it was just a stone that was kicked away. It probably just hated his lightning arcs.

If it wasn't for that, Lin Yi would've been killed by the Dark Flame demonic Wolf already. At least he was only slightly injured.

After being hit by the Dark Flame demonic Wolf, Lin Yi flew back like a meteor and crashed into the wall of the cave. His whole body was in unbearable pain, and both his arms were almost broken.

However, Lin Yi was grateful to the Dark Flame demon Wolf's ancestors. If it wasn't for the sudden claw, Lin Yi wouldn't have been able to break free from the restraint of the ice flame nether Lotus fire!

Although he was slightly injured, it was nothing compared to getting out of trouble.

"Go, quickly go!"

The ghostly thing was overjoyed as well, urging Lin Yi to leave.

"Thank you!"

Lin Yi turned around and saw that the battle between the Dark Flame demon Wolf and The Lotus Fire had already turned into white heat. He quickly thanked them and ran.

As for the accompanying Spirit Fire Crystal, he wouldn't be able to use it even if he had the life to take it- Lin Yi wasn't a greedy person.

"But, Yi, it's not worth it to leave now! That Dark Flame demonic Wolf almost killed you, and we're just going to leave like this? You're still thanking him?"

The demonic thing laughed coldly when it saw Lin Yi take a healing pill.

That's right, now was the best chance to escape, but who said that one had to escape when there was a chance?

The Dark Flame demonic Wolf and the ice flame nether Lotus were evenly matched, and when the two sides couldn't win, it was also a chance for Lin Yi to benefit!

"What do you want to do?"

Lin Yi was stunned. He knew that these things were brave, but he didn't expect it to be this bold. "Don't tell me you still want the ice flame serene lotus flame? Trying to gain something from the Dark Flame demonic Wolf and the icy flame nether Lotus fire?"

"That's right! What's wrong with that?"

The ghastly thing laughed.

Lin Yi was speechless. He couldn't interfere in the battle between the Dark Flame demonic Wolf and the ice flame nether Lotus fire.

If he were to bump into something, he would be crushed to dust in minutes. Was it really good to be so willful?

"Forget it, I can't live without being crazy or demonic! Wealth can only be found in danger!"

Lin Yi gritted his teeth and took out the black bead.

It wasn't a waste to use his trump card now-he was almost done for when he was trapped, and he didn't even have the chance to use it.

"But you should be careful. If the situation doesn't look good, run away immediately. Don't force yourself!"

The damn thing told Lin Yi to go up and mess around, but it still reminded him before going all out to help Lin Yi.

The two combined their senses, allowing them to better unleash the power of the black bead. Lin Yi squinted his eyes, staring at the dark red figure in the cave, as well as the blue flame.

The Black Pearl started to glow faintly. Lin Yi knew that he only had one chance.

If it didn't work, both the Dark Flame demonic Wolf and the icy flame nether Lotus fire would immediately launch a counterattack.

No matter which one it was, Lin Yi wouldn't be able to handle it.

In the cave, the Dark Flame demonic Wolf and the icy flame nether Lotus fire were already entangled in a rapid battle.

The black flames and the dark blue flames crisscrossed, and the cold air circled around them.

Lin Yi hid on the side, waiting for the right time to strike. He wouldn't do it unless he had full confidence.

However, there were risks involved in hiding. The two weren't easy to deal with, and the shockwaves from the battle could reach them at any time. Lin Yi knew that this wasn't a long-term plan, but he could only wait until the opportunity appeared.

Finally, after another charge, the Dark Flame demonic Wolf and the ice flame nether Lotus fire were in a stalemate. The two stopped in the air for a moment. This was the chance that Lin Yi had been waiting for!

If it wasn't for the fact that Lin Yi's consciousness was fused with the ghostly thing 's, he wouldn't have been able to make a move even if he found the opportunity.

The black bead flashed, and a powerful attack wave immediately swept out, directly appearing behind the Dark Flame demonic Wolf, not leaving the Dark Flame demonic Wolf any time or opportunity to react!

The Dark Flame demonic Wolf's fur stood on end as the danger approached. Although it didn't see Lin Yi's attack, its instinct told it that it was going to be fatal.

It wanted to Dodge, but the ice flame nether Lotus fire was tightly entangled with it, so it couldn't be distracted.

In just a moment, the attack that was enough to kill a cultivator at the sea Rift realm easily tore the black flames around the Dark Flame demonic Wolf's body and caused its body to be blasted into pieces.

Lin Yi's heart trembled. The Dark Flame demonic Wolf's strength was beyond his imagination. Even the black bead couldn't kill it instantly, only heavily injuring it.

Luckily, there was still the ice flame nether Lotus fire. If Lin Yi faced the Dark Flame demonic Wolf alone, he would probably suffer the counterattack before his death. With Lin Yi's strength, he would basically be buried with it.

"F * ck! Hurry up and get ready to escape!"

The ghastly thing didn't expect the Dark Flame demonic Wolf to be so powerful.

The Dark Flame demonic Wolf was finished, but there was still the icy flame nether Lotus fire. The black bead's remaining two attacks might not be able to pose any threat to the icy flame nether Lotus fire. After all, the icy flame nether Lotus fire was not in a physical form.

"Senior ghost, where are you running to?"

Lin Yi scanned with his spirit sense and smiled bitterly.

Although the battle between the Dark Flame demonic Wolf and the icy flame nether Lotus fire did not last long, the area affected by the aftershock was not small.

The passageway that they had planned to leave through had been destroyed, and the rest had to pass through the battle zone.

The damn thing was speechless-Lin Yi wanted to run, but it didn't seem like it would be that easy!

The Dark Flame demonic Wolf howled mournfully. Unfortunately, it was of no use. The icy flame nether Lotus fire seized the opportunity to sweep it up and turned it into ashes.

The struggle before his death was also blocked by the fire-it didn't really affect Lin Yi.

"Forget it, let's leave it to fate. The icy flame nether Lotus fire is currently digesting the fire power in the dark Flame demonic Wolf's body. This is the essence left behind by the spiritual fire of heaven and earth. For the icy flame nether Lotus fire, it's the most suitable and great supplement."

The ghastly thing sighed and gave up on the idea of escaping.

Chapter 6602 Forcefully Entering The Space

The Dark Flame demonic Wolf was killed, and the entire cave once again fell into the control of the ice flame nether Lotus fire.

Lin Yi felt the restraint again, but he wasn't attacked. There was only the cold air surrounding him, and he wasn't in as much danger as before.

"Senior ghost, what's the situation now?"

Lin Yi could feel cold sweat forming on his forehead, but the moment it appeared, it was frozen by the cold air, turning into ice beads.

Lin Yi didn't dare to move the Black Pearl in his hand, afraid that the fire would rebound on him.

"Don't act rashly, just wait and see. "

The damn thing wasn't sure, but Lin Yi was at his wit's end anyway, so it was better to just wait and see.

"Senior ghost, will the Iceflame nether Lotus flame become more powerful after absorbing the flame essence of the Dark Flame demonic Wolf?"

Lin Yi asked as he stayed still.

"That's for sure. After absorbing the Dark Flame demonic Wolf's essence, although I can't say for sure that it will advance, its power will definitely be stronger! However, it doesn't make any difference to you. It has already crushed you without any suspense. "

The demonic thing laughed evilly. It was a joy in the midst of suffering to make fun of Lin Yi.

"Senior ghost, you said that I helped you kill the Dark Flame demonic Wolf, right? if the ice flame nether Lotus fire had intelligence, would it have a good impression of me? That's why you didn't attack me again?"

Lin Yi didn't pay attention to the monster's teasing as his imagination started to run wild.

"Eh, that's not unreasonable!"

The ghastly thing was slightly stunned, and he was not too sure." "The ice flame nether Lotus flame has a certain level of thinking ability. It might be kind to you for helping me by accident."

"Senior ghost, you also think so! This way, I'm even more confident! Perhaps the ethereal Lotus flame will be grateful and submit to me!"

Lin Yi laughed. Of course, that was just a beautiful dream.

"You're thinking too much. Even if the icy flame serene lotus flame has a good impression of you, it won't submit to you. With your strength, you're nothing but ashes in front of the icy flame serene lotus flame. It'd be strange if it submitted to you. "

The ghost laughed at Lin Yi's wishful thinking-it was already a blessing to be able to leave safely.

While the two of them were conversing, the icy flame nether Lotus fire had already absorbed and digested the flame essence left by the Dark Flame demonic Wolf at an astonishing speed. The blue flame suddenly grew a little stronger, and the flame Lotus that was about to bloom also bloomed a little.

"He has indeed become much stronger!"

The ghastly thing couldn't help but praise. The appearance and aura of the ice flame nether Lotus fire were completely different from before.

But as soon as the ghastly thing finished speaking, the ice flame nether Lotus fire appeared in front of Lin Yi in a flash.

The strange thing was that as the ice flame nether Lotus fire got closer, Lin Yi didn't feel the cold air or the hot air.

"Ice flame serene lotus flame. I don't have any hostility. You can feel it, right?"

Lin Yi forced out an ugly smile, trying to show his kindness to the fire.

It wasn't that Lin Yi didn't want to smile, but his face was numb from the cold.

The ice flame nether Lotus fire didn't react at all, still floating in front of Lin Yi.

No one knew what it was thinking in its simple mind.

"Senior ghost, what's going on? What should I do?"

Lin Yi felt awkward.

"We'll deal with all changes by staying the same. Calm down and don't panic."

The demonic thing thought for a long time, but he still couldn't figure out the routine of this spiritual fire.

"Eh, What's this?"

Lin Yi blinked. His spirit sense felt an unfamiliar stream of consciousness, and this stream of consciousness was cautiously and curiously making contact with his spirit sense.

In this state, Lin Yi could clearly feel the kindness in it. He also understood immediately that this was probably the consciousness of the ice flame nether Lotus fire.

Because the intelligence of the ice flame nether Lotus flame was relatively low, at most equivalent to that of a human infant, it could not clearly express its own thoughts, and could only reveal some of its own instinctive likes and dislikes.

"The ice flame nether Lotus flame is contacting you. Don't be too reckless!"

The damn thing's spirit was connected to Lin Yi, so it immediately noticed and warned him.

He was afraid that Lin Yi would think this was a good chance and use some spirit sense attack to attack the ice flame nether Lotus fire!

In this situation, the consciousness of the Iceflame serene lotus fire was extremely sensitive. As long as it sensed any malicious intent, it would probably surge forward and instantly engulf the entire cave.

"I understand. Senior ghost, don't worry."

Lin Yi quickly agreed. He wasn't stupid, so he tried to show his kindness to make The Lotus Fire lower its guard.

A few breaths later, The Lotus Fire's consciousness went from simple kindness to joy, as if it found something interesting. It immediately followed Lin Yi and the ghostly thing's consciousness.

" It found the space in the jade pendant?! "

The ghostly thing suddenly cried out in horror!

This was something that had never happened before. Even the frog and the Vermilion Bird couldn't detect the existence of the Jade space, but the ice flame nether Lotus fire could?

"The ice flame nether Lotus flame found the Jade space through our consciousness. What do we do now?"

Lin Yi was panicking as well-the Jade space was important, and it was the foundation of his life.

They were too careless. The damn thing's spirit was in the Jade space, and when it used its spirit sense, it would open the Jade space. To show kindness, Lin Yi didn't guard his spirit sense either, which gave the ice Fire the chance to find the Jade space.

If it was any other time, Lin Yi would be on high alert, and even the frog and Vermilion Bird wouldn't be able to use their divine sense to spy on Lin Yi's Jade space.

"We'll wait and see!"

The ghostly thing was a little sullen, but he didn't have any good ideas now.

Lin Yi's forehead was covered in cold sweat, and it turned into ice beads immediately before, but now it quickly evaporated into mist.

A person and a flame faced each other at such a close distance. The entire scene seemed to have frozen.

Lin Yi could only pray that the fire wasn't interested in the Jade space at all. If it wanted to put a fire or something in the Jade space, Lin Yi would have to ... Let it do it.

"Is this the feeling of joy?"

Lin Yi was worried when he suddenly felt the fire's emotions-it was joy.

Before Lin Yi could understand what was going on, the fire disappeared.

In the next moment, Lin Yi was shocked to find out that the blue ice flame nether Lotus fire had entered his Jade space by itself!

Chapter 6603 Space Crossing

Fortunately, there was no turbulence in the space of the jade pendant. It easily withstood the entry of the Iceflame nether Lotus fire. Perhaps this was because it had restrained itself.

"What's the situation?!"

Lin Yi looked into the Jade space, confused. His brain still couldn't process what was happening.

"Perhaps the ice flame nether Lotus fire has taken a fancy to the abundant spiritual Qi in the Jade space!"

The ghostly thing was actually scared to death, but after the ice flame nether Lotus flame came in, it didn't do anything, nor did it set fire, so it wouldn't pose any threat to him.

The space in the jade pendant wasn't damaged by the attack, and he had an extra flame of the ice flame nether Lotus flame. At least he had a neighbor.

The only concern was that the fire wasn't under Lin Yi's control at all. He didn't know when it would explode in the Jade space, and it was like a bomb that could go off at any time!

"It wants to cultivate in the Jade space? By the way, does the spiritual fire of heaven and earth need spiritual Qi to cultivate? "

Lin Yi was still in a dream-like state.

"Nonsense. Why else do you think the Iceflame serene lotus flame is moving around in this area? It's all for the sake of finding a place with more spiritual Qi!"

The ghastly thing's words exposed the heavenly secret.

Lin Yi realized that the Qi in the Jade space was indeed purer than the Qi in Mystic class sea.

Lin Yi sometimes wondered where the Qi came from-it was endless, and the level was so high.

But Lin Yi felt that the Qi in the Jade space seemed to have decreased recently, becoming thinner. He didn't know if it was because he was at a higher level after opening the mountain, or if something was wrong with the Jade space.

Even so, the spiritual Qi in the Jade space was still much richer than most areas in the mystic Sea. It was not difficult to understand why the ice flame nether Lotus fire would want to enter the Jade space.

"Alright, if the ice flame nether Lotus flame wants to cultivate in the Jade space, then let it stay. I just hope it doesn't cause any trouble."

Lin Yi said as he wiped the cold sweat off his forehead.

If he could tame the ice flame serene lotus fire, it would be a great help to Lin Yi. But with his current strength, it was unrealistic.

It was better to wait until he was stronger in the future before he discussed the refinement with this ice flame nether Lotus Lord fire.

"Kid, don't be too greedy. Even though the ice flame serene lotus fire isn't yours, it's still in the Jade space and will be of great help to you. Don't forget about the accompanying Spirit Fire Crystal! Where the ice flame nether Lotus flame is, there will be accompanying Spirit Fire crystals. Consider it the reward that the ice flame nether Lotus flame is giving you."

The ghastly thing laughed twice and easily turned this mysterious thing into a good thing.

"Speaking of accompanying Spirit Fire crystals, there are still a lot of them here, we can't waste them!"

Lin Yi's heart moved-he couldn't order the ice flame nether Lotus fire right now, but collecting accompanying life fire crystals wasn't a problem.

But in the next moment, before Lin Yi could collect the crystals, he was shocked to see that all the crystals in the cave were automatically kept into the Jade space!

In all honesty, he really didn't do this, and neither did this ghostly thing!

So it was obvious that uncle fire could also use the Jade space to store items, and this made Lin Yi speechless!

However, Lin Yi didn't have time to think about it. After the ice flame nether Lotus fire and the accompanying Spirit Fire Crystal entered the Jade space, the entire cave started shaking violently!

In the blink of an eye, the rocks that had been ravaged by the Ice and Fire aura turned into countless fragments, falling down with a plop.

"Hurry up and leave this place, or we'll be buried alive!"

The ghostly thing shouted. Of course, it wasn't too worried about being buried alive-with Lin Yi's strength, it didn't matter. It just didn't look good with dust and dirt on his face.

However, before Lin Yi could reply, the entire space in the cave tore apart on its own, and a spatial crack appeared, coincidentally right beside Lin Yi.

"I ..."

Lin Yi wanted to curse, but before he could say anything, a strong suction force pulled him into the crack.

The power of lightning instantly covered Lin Yi's body. This was Lin Yi's subconscious reaction after the baptism of the ice flame nether Lotus fire. He formed a layer of protection in the crack.

Lin Yi's body wasn't weak either, so the spatial crack didn't affect him much. He only suffered some light injuries.

This time, the spatial crack was formed suddenly, so the tunnel was very short. It only took a moment for Lin Yi to be thrown out of the spatial crack again, landing heavily on the ground.

"Bang!"

Lin Yi couldn't help but smile-he couldn't see what was going on when he was thrown out, and he hit a sharp rock.

With Lin Yi's physical strength, normal rocks shouldn't have any effect on him, and they'd probably shatter after hitting him. He didn't know where he was, but the rocks were so hard that Lin Yi was injured.

"Am I still on Sky Class Island?" he asked.

That was Lin Yi's first reaction as he massaged his back.

" How would I know? who knows where the other side of the spatial Rift is! "

The ghostly thing sighed, " this ghostly place's restrictions on divine senses are quite strong. "

That's right, with Lin Yi's spirit sense separated from the ghost's, he could only scan a few dozen meters away. It wasn't even as far as the naked eye could see.

Lin Yi was standing on a cliff, and below him was a lush forest. There were mountains in other directions, and the Qi here wasn't any worse than the Feiyang school. It was obvious that this place wasn't simple.

"It seems very unfamiliar. I don't know if there's anyone nearby."

Lin Yi shook his head. He'd been traveling around all day anyway, and he'd gotten used to it. He'd be able to find his way back.

They were on a cliff, and they had to go down first. Lin Yi spread his ghost speed wings and jumped down.

Unexpectedly, ghost Speed's wings couldn't move, and Lin Yi's body fell straight down.

" No flying?! "

Lin Yi was a little surprised. It wasn't the first time he'd experienced this. The space sealing no escape flag had this ability.

The cliff wasn't too far from the forest, and Lin Yi had just realized that he couldn't fly anymore. He was about to fall to the top of a tree, so he decided to stop using his ghost speed wings and land on a branch.

However, he didn't expect the tree to suddenly swing its branches and whip Lin Yi with a terrifying momentum!

It wasn't enough to hurt Lin Yi, but he was still shocked. He didn't know if there were any other skills in this place.

"Be careful, this place seems to be a formation!"

The ghostly thing seemed to have noticed the problem.

Chapter 6604 The Pond Of Reflection

However, as a master of arrays, this damn thing couldn't find any traces of an array the moment he arrived. It was obvious how high the level of this array was.

In the air, Lin Yi didn't Dodge. The branch hit his body hard, but it only shattered a shadow.

Three appearances of the cloud Dragon!

Lin Yi reappeared at another tree a couple of feet away, but this place was indeed weird. There were branches coming at him from both sides.

"Senior ghost, can you tell what formation this is? "

Lin Yi's second image was destroyed, but he wasn't worried. This thing was very good at formations, and it should have a way to solve it.

"I'm sorry, I couldn't tell! It doesn't seem like it can be broken!"

The demonic thing sighed. He wasn't omnipotent. Before he came to the mystic division Sea area, he could still see through most of the formations, but here, he obviously felt that his level couldn't keep up.

"What should we do now?"

Lin Yi smiled bitterly. If they couldn't get out of the formation, wouldn't they be whipped to death by the branches?

This was probably the purpose of the air ban. If they couldn't fly up, they could only be whipped in the forest.

"Are you stupid? If you can't go up to the sky, you can go down to the ground. Although I can't break this formation, the ground is obviously the life gate!"

After all, this damned thing was an expert in the field of formations, and he still had some insight.

Lin Yi, who was in the air, froze for a second and started to descend without hesitation. When the third shadow was destroyed, he was already on the ground.

Sure enough, after landing on the ground, the branches didn't continue to attack. It seemed that this array was simply to prevent people from flying. As long as they didn't fly up, they wouldn't be dangerous.

"I'm going to faint, so there's such a thing! Senior ghost, you're really amazing!"

Lin Yi wasn't just complimenting him, he was truly impressed.

"Of course, your array Dao level is still far from enough. Learn well."

The ghastly thing laughed smugly.

He wasn't going to tell Lin Yi that landing on the ground wasn't something he saw through the formation, but something he guessed from his own experience!

"Senior ghost, these tree branches are also harder than fine iron, comparable to the rocks on the cliff. Is it because of the formation, or is it natural?"

Lin Yi looked at the branches curiously.

"Indeed, the toughness of the rocks and trees here is beyond imagination. Any random branch can be used by low-level cultivators as a weapon. If I'm not wrong, it should be the effect of the array. Otherwise, these things would be good materials for forging weapons."

The ghostly thing said after scanning a large tree with his spiritual sense.

"Then how should we get out?"

Lin Yi looked around, but he couldn't see anything. He didn't dare to walk around.

"There's no danger on the ground, which means that this formation allows people to pass through. We should be able to find some clues if we look around."

The thing was interested in the formation, and it merged with Lin Yi's spirit sense and started exploring.

After carefully exploring, he found a path that wasn't very clear in the forest. Lin Yi didn't hesitate and quickly followed the path, and after a while, the view opened up.

A small lake actually appeared in the forest, and the density of spirit Qi also rose to a new height.

"Outsider, I'm afraid it's not a good thing for you to barge into this place!"

By the side of the lake, a white-robed man with long hair draped over his shoulders was sitting with his back facing a rock. He held an emerald-green bamboo pole in his hand and seemed to be fishing.

"Hello, senior. May I know where this place is? I didn't mean to intrude. It was an accident."

Lin Yi asked politely, a little surprised.

The aura on the man in white was extremely thick. He couldn't tell how strong he was, but he was definitely not weak.

"This is the reflection pond. I am just a person who has reflected on my mistakes. No matter what reason I have for coming to the reflection pond, it won't be so easy for you to leave."

The man in white said calmly, and Lin Yi's heart skipped a beat.

"Senior, what do you mean?"

Lin Yi straightened his body and looked at the man in white strangely.

"Don't worry, I won't do anything to you. It's easy to enter the reflection pond, but hard to get out. I'm just telling you the truth. If you don't believe me, you can try to go back. "

The man in white didn't care about Lin Yi's attitude at all and continued to smile without turning his head.

"Go back?"

Lin Yi raised a brow. He didn't look back, but his spirit sense had already returned.

The path they had come from had disappeared, and the small forest path had turned into a forest. The gaps between the trees were exactly the same.

"Senior ghost, is this also due to the formation?"

Lin Yi asked the ghost without changing his expression.

"It should be. I've misjudged this time. This formation is really strange. Now that I think about it, it was the formation itself that guided us to this place."

The damn thing couldn't help but smile bitterly-he and Lin Yi had fallen for it. "Looks like we really need to study this formation. How about this, you go back and take a look."

Lin Yi nodded. He knew that the thing was testing the effect of the formation, so he walked back immediately.

However, he quickly realized that he had returned to the reflection pond. What he saw was still the white-robed man with long hair.

"Senior ghost, this formation should be a trapping formation, right?"

Lin Yi said with squinted eyes.

"I'm not sure yet. You can continue walking. Take a look around."

The demonic thing didn't answer. Instead, it focused on looking for clues about the formation.

Lin Yi didn't say anything and turned to enter the forest again, but a moment later he was back at the reflection pond. After a few times, even the damn thing had to give up.

"It's too strange. I can't even see any traces of a formation!"

This damned thing was about to doubt its life, but this formation actually didn't have a single mark on it. This was simply inconceivable.

"Young man, have you tried? It's better not to make any pointless struggles. After coming to the reflection pond, without their permission, it's impossible to leave. "

The man in white smiled and tried to persuade her.

"Senior, what is this place? Who are they?"

Lin Yi walked up to the man in white and saluted.

The man in white didn't turn around, only waving his left hand at the rock beside him, signaling for Lin Yi to sit down and talk.

Lin Yi didn't reject the offer. He sat down and studied the man's face.

This person's face was a little pale, as if it was carved by a knife. From the side, he looked handsome. As for his appearance, he was about 40 years old, but his actual age was probably far beyond that.

"I'm Lin Yi, how should I address you, senior?"

Lin Yi slanted his body and cupped his fists.

"There's no need for senior or junior. I'm Wang chaozhi. You can just call me by my name. I'm just a person here to reflect on my mistakes in The Pond of Reflection. I can't be a senior."

The corners of the white-robed man's mouth curled up slightly, revealing a somewhat self-deprecating smile.

Chapter 6605 Sect

"Alright, brother Wang, can you tell me about The Pond of Reflection?"

Lin Yi didn't try to be coy and called him brother.

"You're Lin Yi? You came to The Pond of Reflection, yet you don't know what this place is? I'm very curious, how did you get here?"

Wang chaozhi turned to look at Lin Yi, a trace of surprise in his eyes.

Lin Yi couldn't tell them about the ice flame nether Lotus fire, but it didn't matter if he told them about the spatial crack.

"I was originally exploring, but I accidentally entered a dangerous place and encountered a spatial Rift that suddenly appeared, so I was thrown here. That's why I really don't know where we are. "

Lin Yi smiled helplessly, and realization dawned on Wang zizhi.

"I see. It's not easy for you to survive in the spatial Rift."

Wang zhichi nodded and turned his gaze back to the lake, or rather, the pool.

Lin Yi didn't say anything and followed his gaze to the pool. The tip of the bamboo pole was connected to an almost transparent line, and he didn't know what fish he could catch.

Lin Yi couldn't see Wang chaozhi's strength before, but now that he was sitting next to him, he could basically confirm that Wang chaozhi was an early-stage sea Rift master.

Such an expert had actually been sent here to reflect on his mistakes. What kind of existence was behind him?

If his surname was Wang, could this be the Wang clan, a clan of formations?

Lin Yi had an idea, but the surname Wang was too common-who knew how many practitioners there were in the mystic division sea with the surname Wang? not all of them were from the talisman Wang family.

The two were silent for a moment before Wang chaozhi spoke again, " "Actually, it doesn't matter if I tell you. After all, you've already entered The Pond of Reflection, so it's basically impossible for you to leave. In the future, when I get out, I might be able to help you."

"Thank you for your good intentions, brother Wang. I just don't know what this place is?"

Lin Yi smiled faintly and asked again.

"This is the heavenly spell formation sect! Have you heard of it?"

Wang chaozhi looked at Lin Yi from the corner of his eyes, judging him.

"The heavenly spell formation sect? I've never heard of it. Is it a sect?"

Lin Yi didn't know what Wang chaozhi's eyes meant, but the heavenly array sect didn't sound like a simple sect.

"A sect? Haha, you could say that. However, in the mystic division, the sect was just an insignificant name. The heavenly spell formation sect was an upright sect! Don't tell me you haven't even heard of a sect?"

Wang chaozhi looked at Lin Yi arrogantly, a playful look on his face.

"Sect? Is it different from a sect?"

Lin Yi blinked-he really didn't know what the difference was.

"Lin Yi, you don't even know the sect? you're not from Mystic division, are you? Did he come from the Golden class sea? Are you a student of the Academy or an ordinary cultivator?"

Wang chaozhi chuckled as he revealed Lin Yi's background.

"That's right. I'm a student from the Yellow Sea region. I'm a new student at the Feiyang school."

Lin Yi smiled faintly. It wasn't a secret, and there was nothing to hide.

"As expected, the new students of Feiyang college are pretty strong!"

Wang chaozhi didn't seem to care much about the second-best school, Feiyang school, and gave a perfunctory compliment.

Wang chaozhi continued before Lin Yi could say anything, ""Actually, if you stay longer in Feiyang college, you will know about the existence of the sect! Let's put it this way-on the surface, the most powerful force in the mystic division is the Alliance of schools, followed by the ancient noble families, mountain regions, and some small sects. Is that what you know?"

"That's right!"

Lin Yi nodded, understanding what Wang chaozhi was trying to say.

A sect should be an existence that was above the Alliance of Academies, right?

As expected, Wang chaozhi continued, " you don't know about sects. That's only because you're not at a high enough level! With your talent and strength, you'll know that the sect is more powerful than the Alliance of Academies after staying at Feiyang college for a while! There were even more advanced inheritances and cultivation techniques here, as well as secret realms for cultivation and opportunities for breakthroughs! Many outstanding students will be recommended to study in different sects after graduation. I don't know if you're lucky or unlucky to have come here so early."

"How many sects are there in total? Is the heavenly spell formation sect the only one? "

Lin Yi asked, ignoring the teasing.

"It's hard to say how many sects there are in total, because there are very few large-scale interactions between the various sects, and everyone is hidden from the world. At most, they choose outstanding students from the academies they are familiar with to be absorbed into the sect, so very few people know the positions of the other sects, and naturally don't know how many sects still exist. However, I can be sure that the heavenly spell formation sect is not the only sect."

Wang chaozhi was friendly to Lin Yi and answered his questions in detail.

Lin Yi was silent for a moment, quickly digesting the information he had just received.

So the biggest power in the mystic division wasn't the Alliance of schools, but the sect behind it!

Even Wang chaozhi, a master of the sect, didn't know how many sects existed in the mystic division Sea area. It was really mysterious.

"Brother Wang, which Academy does the heavenly spell formation sect recruit disciples from? Is it close to Feiyang college?"

Lin Yi wanted to get back to Feiyang school as soon as possible. If he just disappeared like that, Shangguan LAN 'er would go crazy!

"This place is very far from Feiyang college. It won't be easy for you to go back!"

From what Wang chaozhi said, the heavenly spell formation sect and Feiyang college should have no more contact.

Lin Yi sighed. It seemed like the spatial crack really did send him far away!

Fortunately, he didn't leave the Xuan class Sea area, but he didn't know what Shangguan LAN 'er would do after knowing that he was missing.

However, it shouldn't be that fast. It would take at least some time for this news to be sent back.

With this time as a buffer, Lin Yi might even find a way to go back.

But what he didn't know was that when he disappeared, the ice flame nether Lotus fire disappeared as well, so the restriction in that area disappeared as well!

The entire area had also collapsed because of the spatial crack that had flashed by. More than half of the experts from the Alliance of Academies and the great families who had entered had died.

Only a small number of people who were far away from the center of the collapse were able to leave unscathed. Then, at the first moment, all the academies and aristocratic families who participated in the collapse received news.

"What? Lin Yi went missing? His life or death was unknown? Master, are you telling the truth?"

On the nestling peak, Shangguan LAN 'er looked at Zhang jinmiao with a pale face. Her delicate body trembled slightly and she looked like she was about to fall.

"LAN 'er, don't worry. We just haven't found Lin Yi yet, it doesn't mean that something will happen to him."

Zhang jinmiao was filled with regret-she shouldn't have let Lin Yi Do this mission.

Chapter 6606 Loved Ones Hurt And Hated Enemies Happy

"Yes, Lin Yi will be fine. He's strong, no danger can stop him."

Shangguan LAN 'er seemed to have caught the last straw of hope, and her defeated eyes finally brightened up a little.

Although Zhang jinmiao's words meant missing, and her life and death were unknown, Shangguan LAN 'er stubbornly changed her understanding to her own.

They couldn't find Lin Yi, which meant that the possibility of him being alive was very high!

That was the truth!

"Lin Yi ... He's gone missing ..."

Murong Feiyan and her brother were also there. When they heard the news, they didn't know what they were thinking.

Lin Yi's relationship with the two of them was pretty good. Although there were some unpleasant things between them, Murong xuyan had long regarded Lin Yi as a friend, or an opponent that he needed to catch up with and surpass.

Seeing Lin Yi getting stronger and stronger, Murong xuyan's expectations of herself also became stricter and stricter.

So he'd grown pretty fast during this time, but he was still so far away from Lin Yi.

She didn't expect Lin Yi to disappear just like that. She didn't even know if he was Dead or Alive. The feelings in her heart were complicated.

"Shangguan LAN' er, don't worry, Lin Yi will be fine. That guy's life is tough, normal danger won't be able to do anything to him, and I haven't even defeated him yet, how could anything happen to him? So, there's no need to worry about him. Perhaps it won't be long before he appears in front of us."

It was rare for Murong xuanyan to say such comforting words to Shangguan LAN' er.

With Murong xuyan's support, Shangguan LAN 'er's eyes brightened up and she nodded hard. ""You're right, Lin Yi Lil "bro will be fine. He'll be back for us in a few days!"

In the past, Lin Yi was a special existence in Shangguan LAN 'er's heart, but she was still ignorant and didn't understand how special this special existence was.

It wasn't until Lin Yi's disappearance that Shangguan LAN 'er finally understood how important Lin Yi was to her!

"LAN'er, don't worry, that Lin Yi ... He'll be fine. He's the strongest among us. He's probably hiding somewhere to practice, and when he comes back, he'll probably be even stronger, right?"

Murong Fei Fei hugged her best friend and comforted her gently.

"Yes, you're right, Qianqian. I believe that Lin Yi will come back! He said that he would stay with me at Feiyang college. He always keeps his promise. Since he promised me, he will find a way to fulfill it."

Shangguan LAN'er buried her head under Murong Fei Fei's shoulder and nodded hard.

In an instant, Murong Fei Fei felt a warm and wet sensation on her shoulder.

It was obvious that although Shangguan LAN'er said that she believed that Lin Yi would come back, the sadness and hesitation in her heart didn't decrease at all!

The tears that she had been holding back were now pouring down on Murong Fei Fei's shoulder.

Murong Fei Fei sighed and patted Shangguan LAN'er's back. She didn't know what to say and could only let her cry for a while.

In fact, Murong Feifei also felt sad for Lin Yi's disappearance.

Towards Lin Yi, she wouldn't treat him as a rival like her brother, nor would she love him as deeply as Shangguan LAN 'er did. However, it was undeniable that she had some inexplicable feelings for Lin Yi.

It might not have been obvious before, but after this incident, Murong Fei Fei began to realize something.

It was a pity that Lin Yi wasn't here anymore. If he could come back to Feiyang college one day, Murong Feifei didn't know how she would face it.

Those who were close to him felt pain, and naturally, those who were his enemy felt joy!

On the peak, yang Dian and Xue Peng received the news of Lin Yi's disappearance.

The two secretly high-fived each other to celebrate. Lin Yi's existence was like a mountain pressing down on their heads, and now that he was missing, they were naturally overjoyed.

Unfortunately, they couldn't celebrate openly, and the two could only laugh and chat in secret. They didn't know that Lin Yi was only missing, and that he would be back.

The missing Lin Yi was sitting by the pond, frowning. Wang chaozhi continued fishing, ignoring him.

The demonic thing's research on the forest array Dao still had no progress. Although there were no trees above the reflection pond, it was impossible to leave from above.

Even if he used the lightning escape technique, he would be blocked by countless attacks.

Plus, there was a no-fly restriction, so Lin Yi had no hope of walking up there.

"Senior ghost, do you still have no clue about this formation? Could it be that this formation has exceeded your limits?"

The damn thing could even imitate the spatial scale, but there were no traces of the array. It was really strange.

"That's why I said it's strange. This is the first time I've seen such a formation. "

The ghostly thing was lacking in confidence.

"First time? I thought you couldn't even tell that this was a formation?"

Lin Yi didn't hold back at all as he played the part of the truth Emperor, and the damn thing was speechless.

"Little brat, can you not always speak the truth?"

The ghastly thing muttered and changed the topic. ""This sect is called the heavenly spell formation sect. It seems like they're a sect that specializes in the Dao of formations. Therefore, it's only normal for them to have a profound understanding of the Dao of formations. If there's a chance, we can go and learn from them."

"There's nothing wrong with what you've said. In that case, senior ghost, you have to study hard. I'll be relying on your guidance in the future. Let's try again."

Lin Yi sighed and walked into the forest again.

Not long after, he turned back. Now, the time he could enter the forest was getting shorter and shorter. The explanation that the strange thing gave was that the formation would adjust itself automatically, leaving them no chance to find any clues.

Alright, was this formation about to become a spirit?

"Lin Yi, don't waste your time. I told you I can't get out. If I could, I would've left a long time ago. Come over and sit."

Wang chaozhi turned around and waved at Lin Yi, his face expressionless.

No one came to The Pond of Reflection, and Wang chaozhi didn't want Lin Yi to leave.

"Brother Wang, aren't you reflecting on your mistakes in the swamp? even if you can walk out, you can't, right?"

Lin Yi shook his head and sat down beside Wang chaozhi.

"Who said that? If we can get out, who would want to stay here and reflect on their mistakes!"

Wang chaozhi waved his hand disdainfully. He was obviously very dissatisfied with the heavenly spell formation sect's actions.

"Speaking of which, I still don't know why Brother Wang was punished to be here. Is it convenient for you to tell me?"

Lin Yi said casually.

"What's there to say about those trivial matters? it makes people unhappy when it's mentioned. It's better not to talk about it."

Wang chaozhi smiled faintly, evidently not planning on telling Lin Yi.

Chapter 6607 The Heavenly Spell Formation Sect

Lin Yi didn't force the issue-it was just a casual question, after all, and it was someone else's business.

"Brother Wang's strength is unfathomable. You should be a high-level figure in the heavenly spell formation sect, right? The heavenly spell formation sect should be a sect that studies the Dao of formations, right?"

Lin Yi changed the topic and cupped his fists.

If Wang chaozhi had studied the array Dao, he might be able to learn some of the principles of the heavenly spell array sect's array Dao from him, and the damn thing might even be able to find traces of this array.

"I can't say I'm a high-ranking official, or else I wouldn't have been sent here."

Wang zhichi laughed at himself and shook his head. "The heavenly spell formation sect is indeed unique in the field of formations. This is a very unique sect."

"I'm all ears, I'm willing to listen!"

Lin Yi perked up!

As long as Wang chaozhi was willing to tell him, Lin Yi was willing to listen. The more information he had on the heavenly formation sect, the better.

"It's not a secret anyway, so I'll tell you about the heavenly spell formation sect. It's indeed a sect that focuses on the Dao of formations, but the inheritance of the heavenly spell formation sect is different from the inheritance of the Dao of formations in the mystic Sea region! For example, the formations in this forest are not completely man-made. To be exact, the effect of human power is quite limited."

Wang chaozhi casually drew a circle and included all the forests in his sight.

"I understand! This formation had the foundation of a natural formation, and the heavenly spell formation sect took advantage of it. Although it was man-made, the foundation was still natural. No wonder we couldn't find any traces of the formation!"

The ghostly thing suddenly shouted excitedly in the space of the jade pendant. After so long of confusion, it finally found an explanation.

"So that's how it is! As expected, his methods are superb!"

Lin Yi complimented.

If it was just a natural formation, it wouldn't be difficult for the ghost to find clues with his ability, and it was the same for man-made formations. However, this was a natural formation as the foundation and a man-made formation, which was not quite the same as common sense, so the ghost couldn't see it.

"It's indeed brilliant. It's not that the array Masters of other sects can't modify and strengthen natural array techniques, but I can say with certainty that no other sect can do it as flawlessly as the heavenly spell array sect! Even an array expert wouldn't be able to find any traces of an array. "

Wang chaozhi's expression was unknown. It seemed to be proud, but it also seemed to have some indescribable emotions.

"He's right. The heavenly spell formation sect has already mastered the art of using the natural terrain to set up formations. If I can't see any traces of it, I'm afraid it's even more difficult for others. "

The demonic thing praised the heavenly spell formation sect, but at the same time, it did not forget to praise itself.

"Senior ghost, I don't think it's worth boasting about not being able to see any traces of the formation, right? "

Lin Yi chuckled to himself.

" Not just anyone can obtain the inheritance of the heavenly spell formation sect. I, for example, did not obtain it. "

Wang chaozhi's mood suddenly sank.

Lin Yi didn't say anything, only turning to Wang chaozhi.

Wang chaozhi said that he didn't receive any of the heavenly array sect's array skills, but Lin Yi guessed that the guy's own skills in arrays must be pretty good.

As expected, Wang chaozhi's next words confirmed this point. The depressed mood he had felt earlier was only a flash, as if it had never appeared.

"I am very interested in arrays. In my family, I am considered a genius in arrays. Even if I am not the best, I am one of the best. That is why I have the chance to join the heavenly spell formation sect. I just did not expect that the inheritance of the heavenly spell formation sect is not suitable for me ..."

Wang chaozhi's expression was as calm as water when he said this, as if he was not talking about himself at all.

Lin Yi didn't hear any regret in his voice-it was like he was telling someone else's story.

"I'm getting off topic. Anyway, you just have to know that not everyone is suitable to learn the array Dao of the heavenly spell formation sect. However, those who are able to enter the heavenly spell formation sect are basically all very talented in the art of array Dao."

Wang Chao Zhi smiled and waved his hand casually.

"Brother Wang, in that case, you're also an expert in the field of arrays. Can you give me some pointers?"

Lin Yi wasn't someone who was ashamed to ask, and he'd always ask sincerely when he met someone who knew more than him.

"I can't be considered an expert, but I do have some research."

Wang Chao Zhi's face was filled with reserved pride.

"Then I'll have to ask brother Wang to give me some pointers."

Lin Yi quickly took out some formation flags from his storage bag and started setting up the formation.

"Yi, your array Dao level is really not weak!"

Wang chaozhi's eyes brightened as he retracted his proud expression and started observing Lin Yi's formation.

There were many different inheritances in the Dao of formations, and every one of them had their own special characteristics. Lin Yi's formation came from a ghostly thing, and he'd even fused it with the ten thousand amplification formation. Naturally, it wasn't weak.

As an array Dao expert, Wang chaozhi could also draw parallels from observing other people's array formations. He might be able to bring new inspiration.

After a while, Lin Yi finished setting up the formation. This was a relatively simple level five trap formation, and he didn't need to use all of his formation skills.

"Not bad! Lin Yi, this formation of yours is pretty good, I've never seen it before. Where did you get it from?"

Wang Chao Zhi praised. He put down the Emerald green bamboo pole that he had never let go of and walked into the trap array.

"Brother Wang, please take a look."

Lin Yi didn't say where the inheritance was, and he couldn't.

Fortunately, Wang chaozhi had no intention of pursuing the matter. He took a step forward and entered the level-five trap array.

For Wang chaozhi to be so confident, he must be confident that a level-five confinement array would not affect him.

As expected, Wang chaozhi walked around the formation as if he was taking a stroll-he just wanted to observe a little more. Lin Yi believed that he could escape at any time if he wanted to.

"You're very smart, kid. Later, let him set up a formation too. We'll see what's going on together."

Lin Yi was a sleazy bastard-Wang chaozhi had to do the same if he did, and he could learn from him.

Even though the two paths were different, and it was hard to say if they could be combined, but they could definitely be used as a reference. The damned thing felt that the decline of formation path was related to the fact that each sect had been keeping their own things to themselves.

As expected, after Wang chaozhi finished spinning, he didn't even bother to destroy the formation. He just walked out of the trapping formation with ease.

"Lin Yi, your formation skills are pretty good. It's only a level five formation, but it's done perfectly, with almost no flaws. The most important thing is that you set it up very quickly!"

Wang chaozhi returned to Lin Yi's side, his tone and attitude completely different.

Chapter 6608 No Gains

"Brother Wang, you're too kind. Let's talk about the flaws."

Lin Yi asked with a smile.

This damned thing's formation skills weren't weak to begin with, and it was even better now that he had the thousand amplification formation. Lin Yi might've just set it up casually, but it was still a good formation.

"There are indeed some flaws, but they're all small problems. I believe that you can correct them if you check them yourself."

Wang chaozhi pointed out a few areas that could be improved-it seemed like he had sharp eyes. These were all flaws Lin Yi left behind on purpose.

"Yes, thank you for your guidance, brother Wang."

Lin Yi nodded humbly, "I wonder if brother Wang Can also set up an array for me to learn?"

Wang chaozhi was also eager to try, especially after seeing that Lin Yi's formation skills weren't weak.

"Lin Yi, can I borrow your formation flags?"

Wang chaozhi waved at Lin Yi and took all the formation flags.

From the looks of it, Wang chaozhi's array formation skills were indeed extremely high. He had removed the level-five trap array without any difficulty.

Lin Yi nodded with a smile and focused on Wang chaozhi, waiting for him to set up the formation.

All the formation flags were floating in front of Wang Chao Zhi. He thought for a moment and started to point at the air. The floating formation flags immediately flew to the designated location.

"He does indeed have some skills. Although he has also set up a Grade 5 trap array, it is completely different from our method. You can take a closer look, you might be able to gain some insights."

The ghostly thing reminded him, then carefully watched Wang chaozhi's movements.

Unlike Lin Yi, Wang chaozhi's formation wasn't fast at all. Every formation flag was placed in a clear and steady position, maintaining a perfect rhythm.

After a while, the level 5 trap formation closed up easily. With the ghostly thing's and Lin Yi's eyes, they could easily see the difference between the two level 5 trap formations.

In terms of power, the two were almost the same, but in terms of the way they set up the formation, there was a huge difference.

"Lin Yi, take a look and see what's the difference between mine and yours."

Wang chaozhi turned around with a confident smile on his face.

"Brother Wang's array skills are much better than mine, so I'll take a look first."

Lin Yi smiled and said a few polite words before stepping into the formation.

"Senior ghost, what do you think?"

Lin Yi didn't really study Wang chaozhi's formation after entering the trap formation. Instead, he asked about the damned things.

When Wang Chao Zhi had set up the formation earlier, the two of them had actually already seen it very clearly. They did not even need to enter the formation to know all the details.

"This Wang chaozhi's array Dao Foundation is rather solid and his standard is not bad. However, his array Dao inheritance is rather ordinary and is far from comparable to the myriad amplification array diagram. There is basically nothing that can be used as a reference. It seems like he really did not obtain the array Dao inheritance of the heavenly spell array sect."

The ghostly thing's vision was relatively high. He had originally hoped to get some inspiration from Wang chaozhi, but he did not expect to return in disappointment in the end.

"Senior ghost, you should go back and continue to study the space formation flags. It's up to you to leave this place."

Lin Yi was helpless. He walked around the formation and gave Wang chaozhi a few words of praise. The two discussed formations for a while before asking unwillingly, "By the way, brother Wang, is there really no way to leave this place? "

"Don't think too much. Unless you have the ability to break this formation, there is no way you can leave. This is the territory of the heavenly spell formation sect. If you can leave so easily, the heavenly spell formation sect would be a joke. "

Wang chaozhi shook his head and sighed inwardly. If he really had a way, he wouldn't have stayed here.

Lin Yi didn't know what to say-what was he supposed to do with the school if he couldn't leave? Did they really think he was dead?

"Lin Yi, don't worry too much-we can't get out, but there's plenty of Qi here! The effect of cultivation is not bad, so you can just treat it as closed door cultivation here. Maybe one day you'll have a breakthrough and you'll be able to go out. "

Wang chaozhi was just trying to comfort Lin Yi. If even he couldn't break through to the sea Rift realm, Lin Yi wouldn't be able to do it no matter how much he went into seclusion.

"Brother Wang, you're right. I'll just cultivate then!"

Lin Yi cupped his fists to Wang zhilue and turned to find a flat place to sit down, acting like he was going to start training.

Of course, Lin Yi didn't really want to increase his strength. He had just opened the mountain, and it was impossible for him to break through again in a short time. He just suddenly thought of wood escape.

The entire forest was filled with trees, so perhaps the hope of leaving this place lay in the wood escape technique.

In the next moment, Lin Yi's spirit entered the Jade space, and his body sat down cross-legged, maintaining a cultivating posture.

He was practicing wood escape in the Jade space, and the outside world was completely fine, so Lin Yi wasn't worried that Wang Chao Zhi would notice anything.

With the experience of Thunder escape, it was easier for Lin Yi to learn wood escape. After one day, he was at the beginner level of the first level.

"There's no need to hurry and cultivate the rest. Go and try to see if you can use the wood escape technique here."

The ghostly thing who had been paying attention to the situation suggested immediately.

"Senior ghost, why are you in such a hurry?"

Lin Yi jumped in shock after finishing his training.

"You want to leave this place as soon as possible? That doesn't matter, I don't care anyway, this old man's plan is to blindly rush. "

The ghostly thing laughed eerily."Are you planning to finish cultivating the wood escape technique before going out?"

" No, the wood escape technique is not that easy to cultivate. I just want to get a companion Spirit Fire Crystal to refine it first. "

Lin Yi pointed at the area where the ice flame nether Lotus fire was.

The space in the Jade was quite big, and the ice flame nether Lotus fire took up a corner. It didn't affect the ghost thing or Lin Yi much, and the accompanying Spirit Fire crystals were all around the ice flame nether Lotus fire. They seemed to be more peaceful.

The reason why Lin Yi wanted to refine the accompanying Spirit Fire Crystal was because he had seen how powerful the ice flame nether Lotus fire was. Even the accompanying Spirit Fire Crystal wouldn't be too weak!

Even if wood escape didn't work, Lin Yi could still burn the entire forest down with his new fire, no matter what natural formation it was!

However, that would offend the heavenly formation sect, and even the Feiyang school might not be able to protect Lin Yi. It was a last resort.

Lin Yi knew that the fire had a mind of its own, so he didn't get too close. He used his spirit sense to carefully touch the fire, trying to show that he didn't have any bad intentions.

Feeling Lin Yi's approach, the ice flame nether Lotus fire jumped a few times, and that familiar consciousness started to contact Lin Yi's spirit sense again.

With their previous experience, both sides seemed to be very familiar with the situation.

It was a mysterious feeling-Lin Yi could clearly feel that the ice flame nether Lotus fire had no hostility towards him!

Chapter 6609 Encountering An Obstacle

However, The Lotus Fire's intelligence was limited. It only showed some emotions when communicating with Lin Yi, but it couldn't clearly express it in words.

However, the ice flame nether Lotus fire's joy was a response to Lin Yi's request, allowing him to use the surrounding crystals.

In fact, the life fire Crystal was useless to the ice flame nether Lotus fire, so it didn't care.

"Many thanks! Then I won't be polite!"

Lin Yi reached out his hand happily and took away a blue crystal.

This kind of dual attribute companion Spirit Fire Crystal, after refining, could produce a flame similar to the ice flame serene lotus fire. Although it could not be compared to the main body, it was not inferior by much.

The only regret was that this kind of flame could not grow, but the heaven and earth Spirit Fire could grow continuously. It was not impossible for it to become a heaven grade Spirit Fire in the end.

However, the flame produced by the accompanying Spirit Fire Crystal would be the same as it started, and would not change at all.

"Not bad, not bad. It's going quite smoothly. It seems that the ice flame serene lotus flame has a good impression of you. You'll have more or less a chance to tame it in the future."

To the damn thing, he and Lin Yi were already a pair-one for good, one for bad, one for bad. The stronger Lin Yi was, the safer he would be. Any chance to strengthen Lin Yi was something to be happy about.

"Let's talk about the future later. Let's refine the accompanying Spirit Fire Crystal first. "

Lin Yi smiled faintly and started refining the accompanying life fire Crystal.

Other people couldn't use their primordial spirit to refine the accompanying Spirit Fire Crystal, as they would directly kill their own primordial spirit if they were not careful.

But Lin Yi was different-his Yuan spirit body was special, and he could use the fusion Fire to refine the accompanying life fire Crystal.

So Lin Yi was still refining the accompanying Spirit Fire Crystal in the Jade space, while his body was still in a state of cultivation outside. Wang chaozhi didn't notice anything wrong at all.

"I've succeeded!"

Another day passed, and he put the space formation flag aside as he focused on Lin Yi's damn thing.

There was a small blue flame floating in front of Lin Yi's soul.

It wasn't as beautiful as the ice flame nether Lotus flame. It was just a small flame, but there was a lot of ice and frost around it, which kept repeating.

Even when he was close to the flame, he could not feel the heat of the flame, but there was no cold aura either. The existence of the frost seemed to be an illusion.

"It's indeed not simple. This flame is much stronger than my fusion alchemy fire!"

Lin Yi waved his hand happily, and the floating fire obediently landed in his palm.

"Not only is it much more powerful than the fused pill fire, but if you can fuse the fused pill fire into this flame, its power will be even more powerful! It might be comparable to the power of a heaven and earth spiritual fire. At that time, even if I give the other accompanying spiritual fire crystals to someone else, it's unlikely that I'll be able to surpass you. "

The ghastly thing thought with a strange laugh.

"That makes sense. I can try it later!"

Lin Yi's eyes fell on the fire in his palm, and the more he looked at it, the more he liked it.

The fire produced by the accompanying Spirit Fire Crystal couldn't level up, but Lin Yi's fusion with the refinement fire might really make the fire stronger.

However, Lin Yi wasn't in the mood to study it yet. He needed to get out of here first.

Lin Yi raised a finger, letting the flame dance on his fingertip. "From now on, I'll call you icy blaze fire. It's a good name."

Outside, Lin Yi's spirit returned and he slowly opened his eyes.

Although his cultivation had not increased in the past two days, he had learned the first level of the wood escape technique and obtained the icy blaze fire. It could be considered a great harvest.

"After cultivating for two days, did you gain anything?"

Wang Zhengzhi raised his voice from a distance, clearly paying attention to Lin Yi's situation.

"I have some gains. Thank you for your concern, brother Wang."

Lin Yi smiled and nodded at Wang Mingzhi before standing up. "I'll try to get out of the array again. Maybe I'll have a chance to leave. If I don't come back, brother Wang doesn't need to worry about me."

"Hahaha, if you can get out of the formation, I'll be happy for you. I'm just afraid that you'll be back again when I turn around! If you want to try, then try it. If you really get out, remember to quickly escape. Those who leave The Pond of Reflection in private are guilty of the most heinous crimes!"

Wang Chao Zhi waved his hand at Lin Yi as if he was joking.

Lin Yi didn't think much of it and waved back with a smile before running into the forest.

Because of his many attempts, under normal circumstances, Lin Yi would only be able to stay in the formation for a dozen breaths before coming out.

This time, after he entered the forest, he immediately used the wood escape technique and hid in a big tree.

"What a magical feeling. Entering the trees is as natural and smooth as a fish entering the water. Although it can't be compared to the Thunder escape technique, it's still better than normal running speed."

Lin Yi moved quickly between the trees, carefully experiencing the wood escape technique.

He'd just learned it, so it was still a bit raw-he'd have to use it over time to get used to it.

"It seems that the wood evasion technique has taken effect. At least you didn't return to the reflection pond."

After a dozen breaths, Lin Yi was still walking through the trees and didn't go back, so the ghostly thing was relieved.

As long as it was effective, they'd be able to leave this formation sooner or later. The ghost even wanted Lin Yi to walk around and observe the formation more-perhaps he'd be able to find some clues.

"Senior ghost, we can't pass through here. The wood escape technique can't pass either!"

Lin Yi suddenly stopped in the middle of a tree. There was nothing special in front of him, but his wood escape technique was interrupted.

"It seems like the influence of the formation still exists. Even if we're in the tree, we can't completely avoid it."

The ghostly thing's spirit sense merged with Lin Yi's and scanned the area carefully, but found nothing.

"Do you want to go out and take a look?"

Lin Yi tried again to no avail, so he decided to leave the tree and see if he could get around the invisible barrier from the outside.

"As long as you don't leave the range of the formation, you'll only return to the reflection pond. Even if you use the wood escape technique again, there might be some changes. This formation has the ability to adjust itself, so I think this is your only chance. Next time, it's unlikely you'll be able to use the wood escape technique to leave,"

The ghastly thing denied.

"Senior ghost, do you mean that this formation has already discovered that we were taking advantage of a loophole, so it adjusted in time to stop us?"

Lin Yi blinked-he'd never thought that a formation could be this smart!

The heavenly spell formation sect!

Such an array Dao could really be said to be the work of the gods and unfathomable!

"I'm just speculating. Perhaps no one has ever used the wood escape technique before, so you were able to come all the way here. But it's impossible for you to do so after that!"

The ghastly thing muttered.

"If that's the case, then let's break this barrier!"

Lin Yi's expression turned serious as well as he started to form a super alchemy bomb.

Chapter 6610 Wang Chaozhi Comes After

"Are you sure? If you destroy this formation, the heavenly spell formation sect will go on a rampage and hunt you down all over the world!"

The damn thing reminded. After all, Lin Yi had a lot of enemies now.

"It's better to be hunted down all over the world than to be trapped here!"

Lin Yi didn't think much of it as he pushed the Super pill fire bomb out.

This time, the Super alchemy bomb wasn't refined for long. Lin Yi wasn't afraid of offending the heavenly array sect, but he was afraid of making too much of a commotion and attracting the attention of the heavenly array sect's Super Masters.

"BOOM!"

Even so, the Super alchemy fire bomb still caused quite a commotion, and he did not know if it would attract the attention of the heavenly spell formation sect.

"The barrier has loosened, let's go!"

The thing reminded Lin Yi.

Of course, Lin Yi didn't wait for him to finish and used wood escape to break through the barrier.

As he broke through, Lin Yi put on the manifestation of the red dust on his face and turned into an ordinary-looking middle-aged man, in case the people from the heavenly formation sect stopped him.

Wang chaozhi knew what Lin Yi looked like and where he came from, but he wasn't too close to the heavenly spell formation sect, so he wasn't too worried about Lin Yi's identity.

Even if Wang chaozhi revealed it, it wouldn't be a big problem. After all, Feiyang college was a top-notch college. The sect usually hid from the world and wouldn't casually vent its anger on Feiyang college.

"The formation has changed! The trapping array has turned into a killing array!"

Lin Yi's face changed as he broke through the barrier.

Originally, it was only an attack from above, but now it was an attack from all directions!

Lin Yi's Wood escape was only at the first level, after all, and he was pushed out by the trees and attacked from all directions.

"The heavenly spell formation sect's array Dao is indeed powerful!"

The ghastly thing clicked its tongue in admiration, yearning for this kind of array Dao inheritance.

"Now is not the time to talk about this. Take care of my little life first and quickly help!"

Lin Yi dodged dozens of attacks and blocked some with his hands and feet. His face darkened as he merged the demonic thing's consciousness with his.

Now that the speed and degree of fusion of the two's spiritual awareness were becoming more and more perfect, it could basically be regarded as a very powerful life-saving means.

With the addition of the ghostly thing's consciousness, Lin Yi's judgment of the situation immediately became a few times more accurate.

Unfortunately, this formation wasn't simple at all-the attacks were getting stronger and stronger. Lin Yi's spirit sense was able to predict the attacks accurately, but his body couldn't keep up with the rhythm.

In an instant, Lin Yi was hit by seven branches.

Fortunately, Lin Yi's body was strong, and he had the protection of the lightning and fire on the surface of his body. He wasn't hurt, but if this continued, he might attract the attention of the heavenly array sect!

Lin Yi was getting impatient and decided to use the icy fire-he didn't care about the consequences anymore!

A faint blue flame appeared in Lin Yi's palm, and the light grew brighter, forming a layer of faint blue flames on the surface of Lin Yi's body, and a cold air spread out.

When the surrounding branches came into contact with this cold air, their speed was greatly reduced. At the same time, they were covered in frost.

All of a sudden, blue flames burst out from the inside of the branches, burning them all up in an instant.

"It's so powerful. It's comparable to the spiritual fire of heaven and earth!"

Lin Yi was overjoyed, but the power was within his expectations.

"Don't be happy too early. Hurry up and leave!"

The demonic thing was afraid that things would change if they delayed any longer and immediately urged Lin Yi to leave.

Lin Yi didn't dare to slow down and rushed forward!

After the formation turned into an attack-type killing formation, the trapping formation's effect had already disappeared.

After all, this was a place where natural formations were the foundation. It was already quite difficult to change formations on their own, so it was impossible to have both.

Lin Yi was using super butterfly micro steps and raging fire Eight Trigram palm at the same time.

The icy blaze covered Lin Yi's body, and every time he attacked, he would naturally bring along some of it.

Although the icy blaze fire had not been integrated into the wild flame Eight Trigrams palm, such a combination had already doubled the power of the wild flame Eight Trigrams palm.

The branches near Lin Yi were all burnt.

With the icy blaze's help, Lin Yi was like a hot knife through butter.

"A flaw has appeared in the formation!"

The ghastly thing's tone was filled with joy because the range of the fused divine sense was constantly expanding. This was the best proof that there was something wrong with the formation.

"So the heavenly spell formation sect's array Dao is not without flaws!"

Lin Yi smiled faintly, but his hands didn't stop moving as he dashed forward.

The ghastly thing did not say anything, but it was very surprised.

Previously, he had been dealt a heavy blow by this array technique. He felt that the array Dao of the heavenly law array sect was stronger than his array Dao after merging with the myriad amplification array diagram.

However, it turned out that this wasn't the case. At the very least, the formations he set up wouldn't let Lin Yi break through so easily. Trapping and killing formations could coexist without having to change them.

It could only be said that the two array Dao inheritances each had their own merits. If they could be integrated, then they would be truly powerful.

"Eh, that Wang chaozhi has also followed us out. He also realized that there's a problem with the array, so he's trying to escape?"

The demonic thing realized that Wang Chao Zhi was heading in their direction and felt a little strange.

"It seems that Wang chaozhi really doesn't have a sense of belonging to the heavenly spell formation sect. He wants to escape from The Pond of Reflection whenever he has the chance. But if it were me, I would have made the same choice."

Lin Yi wasn't surprised-he'd felt Wang chaozhi's dissatisfaction with the heavenly spell formation sect before, and it seemed to be true.

"Why don't you suspect that this guy is here to kill you? Even a fool would know that you were the one who caused the formation to malfunction. If we were to catch you, we might be able to atone for our crimes with our contributions and stop reflecting on our mistakes. "

The ghost wasn't as simple as Lin Yi.

"That makes sense. Let's not go with him."

Lin Yi didn't plan on regrouping with Wang chaozhi in the first place, so he turned and ran in another direction.

Under normal circumstances, Wang chaozhi would've chosen the fastest route to leave the reflection pond, which was Lin Yi's route.

But if Wang chaozhi did the same, it'd be obvious what he'd do. It could be considered a test.

Wang chaozhi's speed was extremely fast. His strength and formation skills allowed him to move several times faster than Lin Yi in this formation.

Unless Lin Yi used ghost speed wings or lightning movement, he wouldn't be able to compete with Wang chaozhi at sea Rift realm.

In the blink of an eye, Wang chaozhi was in the direction Lin Yi had turned, and he could still see Lin Yi's back from afar.

However, Wang chaozhi only paused for a moment before continuing to advance on the fastest path. He had no intention of giving chase.
