

Bodyguard 6641

Chapter 6641 It Depends On Your Sincerity

The saying "enemies meet on a narrow road" was true. If it had the ability, it would've killed Lin Yi Long ago. Unfortunately, it was heavily injured and couldn't do anything. It could only bluff and ask for peace now.

After all, Lin Yi's super alchemy bomb from before really did leave a lingering fear in its heart. Before it recovered, it was best not to fight Lin Yi head-on.

"We're going to stop?"

Lin Yi blinked, suspicious. Was something wrong with the lion? Otherwise, with this guy's previous attitude, how could he take the initiative to ask for peace?

Lin Yi had been planning on running away, but he wasn't in a hurry anymore-he decided to slowly circle around and see what happened.

"I won't hide it from you. After being in this cage for so many years, my body and strength have been greatly damaged. Even if I kill you, I will have to pay a heavy price. So, I hope that we can stop here and go our separate ways. We'll have nothing to do with each other from now on. What do you think?"

The shadow God-devouring Lion knew that Lin Yi would be suspicious if it acted weak like this, but it didn't have a better idea. It could only pretend to be generous and tell him the truth that it was "a little weak."

Lin Yi muttered to himself, believing the lion's words.

If he had enough confidence in killing the shadow God-devouring Lion, he definitely wouldn't have listened to its suggestion. Unfortunately, he didn't, so he had to seriously consider it.

"There's nothing wrong with what you're saying. If we fight head-on, we'll only end up with both sides suffering! Since that's the case, it's fine to stop here, but you're a darkness demon beast. If you run out and hurt human cultivators, it'll be my fault. I can't just watch you wreak havoc in the world. "

Lin Yi said righteously, but he was thinking about how to stop the lion.

Whether it was getting help from a Mystic class Sea Master or finding a way himself, both needed time, so stopping for now was just a way to delay things.

Both sides stopped attacking, but their attacks didn't stop. After a fierce collision, the shadow God-devouring Lion suddenly stopped attacking. Instead, it appeared from the shadows.

"Human, I'll show you my sincerity first. Let's have a good talk!"

The lion's eyes were calm, but it was on full alert. If Lin Yi continued to attack, it could quickly re-enter the shadows.

"How do you want to negotiate?"

Lin Yi retracted the lightning arcs and stood far away with his hands behind his back. He started to secretly form a super alchemy fire bomb.

It could only be said that both sides were on guard against each other and had life-saving cards. They would not come out to negotiate so stupidly.

"You also know that I need time to recover my strength. Therefore, I can guarantee that I will recuperate in a secret place! I promise you that I won't appear within the scope of human activity for five years! Five years later, if you have the confidence, you can come and challenge me. Or, after I am born, you can bring your men to surround and annihilate me. "

The dark shadow God-devouring lion's honest appearance made it seem extremely open and honest.

"Five years? However, I heard that you darkness magical beasts are bloodthirsty, and only with a supply of blood can you quickly recover your strength. Tell me, how can I trust you?"

Lin Yi smiled faintly, unmoved.

A Dark Demon beast that was an enemy just a second ago made a promise-Lin Yi wouldn't believe it unconditionally unless he ate too many brain-damaged pills.

"Do you think I need to lie to you? If we continue fighting, do you have the confidence to defeat me? Taking advantage of my weakened state, the most you can do is to fight with me until both of us are injured. I've already overestimated you. "

Although the dark shadow God-devouring Lion had taken the initiative to make peace, the disdain on its face was undisguisable.

Lin Yi was furious-he shouldn't have wasted his breath on this guy, he should've just fought to the death ... If he couldn't win, he'd just F * ck him up ...

"Yi, the shadow God-devouring Lion is at its weakest right now, but you're not strong enough to kill it!"

The thing could see Lin Yi's struggle, but it didn't want him to take the risk.

"Senior ghost, do you have any good ideas?"

Lin Yi smiled bitterly. If he couldn't kill the lion, he'd have to make an agreement.

"You made this guy use his soul to make an oath. The darkness demon beast's soul oath is very cruel, and if you break it, you'll be punished by the heavens! So as long as it dares to swear, we can trust it. "

That damned thing clearly had a deep understanding of darkness magical beasts, and was worthy of being a senior elder of the spirit beast clan.

"I also think that you have no need to lie to me, but you have no proof. How about this, use your soul to make an oath. I heard that your darkness demon beast clan's soul oaths are extremely effective, but as long as you Don't Break the Oath, it won't affect you in any way. If you are sincere, then show it to me!"

Lin Yi spoke slowly, his eyes fixed on the lion to see how it would react.

If it refused, Lin Yi would throw the Super pill fire bomb at its face!

Since the lion needed time to recover, even if Lin Yi couldn't kill it, he could at least make it worse and take longer to recover.

"You know quite a lot. You even know the soul oath of our dark race."

The shadow God-devouring lion's eyes flashed with surprise!

After all, the darkness magical beast had disappeared for a long time. Not to mention a soul oath, it was not easy for the young people to know about the darkness magical beast.

"It's useless to say more, whether you have sincerity or not depends on your performance!"

Lin Yi didn't explain how the lion knew. He just looked at the lion with a half-smile on his face, the Super pill bomb forming in his hand.

"There's nothing wrong with swearing a soul oath, but why should I believe you? After I'm done recuperating, will you bring people to cause me trouble? Although your strength is very weak, your sect's elders must have many powerful experts, right?"

The lion didn't reject the offer, and started negotiating with Lin Yi.

It didn't say yes directly, but Lin Yi could feel its sincerity.

"With your ability, even if you were my sect's senior, you could still easily escape, right? Besides, I have no idea where you're hiding, so why would I go out of my way to find you? How about this, if I find trouble with you within the time limit, your soul oath will automatically be void. "

Lin Yi smiled faintly and made a small concession.

Five years was more than enough for him-Lin Yi believed that he'd be much stronger after that.

Even if the shadow God-devouring Lion returned to its peak state, it wouldn't be a big deal. The lion's main abilities were shadow and God-devouring, so it didn't matter to Lin Yi.

As long as Lin Yi could break through these two abilities, he would be undefeatable.

Chapter 6642 Five-Year Agreement

"Alright, your suggestion is fair. It's a happy decision then."

The dark shadow God-devouring Lion nodded readily. Although it looked fine on the surface, its internal injuries were indeed very serious. In addition to the effects of its weakened state, it needed to quickly find a place to heal.

If it could kill Lin Yi, the lion wouldn't hesitate to kill him. Unfortunately, that was just its fantasy, so as long as Lin Yi's conditions weren't too excessive, it would agree. Besides, Lin Yi didn't even state any conditions-it was the lion itself that made the request.

As long as he didn't break his soul oath, he wouldn't be punished. Five years was more or less enough for him to heal, and it wouldn't be too late to take revenge on Lin Yi when he recovered.

"Alright, then swear it!"

Lin Yi looked at the lion's expression and knew that he'd asked for too little, but he didn't regret it. It was already good enough that he'd been able to buy five years.

The shadow God-devouring Lion was quite straightforward, and quickly swore a soul oath. The devilish thing had been observing it in the dark this entire time, and was certain that it wasn't playing any tricks.

In truth, the shadow God-devouring Lion was still cautious. It had only said that it would not appear in human territory and would not make humans its prey, but it did not say that it would do the same to other races.

The mystic class Sea region had a large mountain range, and the mountain regions where humans lived only occupied a small part of it. There were many mountain ranges that were unpopulated, but there were many ordinary wild beasts and a few spirit beasts living there, so the shadow God-devouring Lion didn't need to worry about the supply of food. As long as it wanted to, there was prey everywhere.

" Five years later, if you have the guts, come back here. I'll wait for you here for ten days starting from today. If you don't dare to come, it's fine. I'll find you eventually. "

After making the oath, the lion looked at Lin Yi indifferently, its condescending attitude returning.

"No problem. Five years later, I will definitely come back here. I hope you can keep your word! If I can't keep you here today, you may not be able to leave in one piece five years later! Don't worry, I won't bring anyone to besiege you. I'll be alone!"

Lin Yi smiled faintly-it'd be hard to say who'd win five years later!

If the lion knew of Lin Yi's strength five years ago, it wouldn't dare to say something like that. It'd just be asking for death.

" Very good. In the next five years, you should quickly make arrangements for the things you haven't finished, in case you won't have another chance in five years. "

The lion looked like it had Lin Yi in the palm of its hand, and Lin Yi almost threw the Super pill fire bomb at its face.

However, the lion had clearly noticed the hands behind Lin Yi's back, and its eyes darted in that direction from time to time, its guard up.

"See you in 5 years then. Don't be killed by someone or killed by yourself before 5 years!"

Lin Yi's lips twitched as he mocked back.

The dark shadow God-devouring Lion snorted coldly and turned into a black shadow, quickly leaving.

Lin Yi watched as the lion melded into the shadows and disappeared completely. This sort of concealment technique was top-tier, and even if Lin Yi wanted to track it down, it'd be hard to find.

"We've finally resolved a crisis. Should I call myself the hero of Sky Class Island?"

Lin Yi smiled and shook his head before throwing the Super alchemy bomb into the maze.

"Sky Class Island hero, you're the one who released the shadow God-devouring Lion. Are you sure you're not a sinner?"

The ghastly thing laughed evilly.

"Senior ghost, weren't you the one who released the shadow God-devouring Lion? If you hadn't been researching the teleportation formation, how could it have escaped?"

Lin Yi didn't know what to say about this shirking responsibility.

"Who knows who I am? Even the shadow God-devouring Lion thinks you're the one who let it out, right? Maybe it was because of this little favor that I let you go!"

The damn thing was starting to be shameless!

Lin Yi didn't know what to say!

That was because what he said made a lot of sense!

The two of them chatted for a while before returning to the side of the teleportation array.

Although Lin Yi had destroyed the nodes of the teleportation formation, making it unable to function, the ghost was still worried and wanted to completely dismantle the formation.

After all, a small node could be easily repaired, but if it was directly removed, it was basically impossible to set it up again, unless it was the person who first set it up.

After about an incense's time, Lin Yi removed a few important formation flags under the ghostly thing's guidance and put them into the Jade space.

In this way, even if someone had the ability to repair it, it would be useless without these array flags.

But if Lin Yi needed it in the future, he could always reassemble it-this way, he'd have the absolute initiative.

After that, Lin Yi slowly exited the formation and stared blankly at the empty wilderness.

"By the way, where is this place? Where should I go ..."

An hour later, Lin Yi finally made it out of the wilderness and saw a mountain range. He didn't see a single person, Dead or Alive, in this time.

For some reason, there was a no-fly restriction in this area. Ghost speed wings could only fly four or five meters into the air before it stopped.

" I finally see the mountain range. I wonder when I'll see a person. "

Lin Yi felt helpless as well-the two-faced girl just ran off like that, not even leaving him a positioning talisman.

However, after entering the mountain range, Lin Yi's spirit sense finally returned to normal, and the range of his search increased greatly. He soon found traces of humans.

These three looked kind, not vicious or cunning, so Lin Yi decided to go ask for directions and borrow a positioning talisman or something.

To avoid trouble, Lin Yi changed his appearance to a different one.

Now, he had become a young man in his twenties. His body was not considered burly, and he had a square face. At first glance, he looked like a young man full of vitality.

In order to get closer to the three of them, Lin Yi had to use the wood escape technique.

After a while, Lin Yi moved to the three men's side and revealed himself from a tree, walking towards them.

"Who is it?"

The only woman among the three noticed Lin Yi's presence first, turning her head around warily.

This surprised Lin Yi. In fact, this woman was the weakest among the three of them, only at the peak of the advanced stage of the original level. The other two men were at the peak of the early stage of the mysterious Ascension realm and the peak of the original level. They were both stronger than her, but their senses weren't as sharp as hers.

"Big Brothers and Big Sisters, I don't have any ill intentions. I just want to ask for directions."

Lin Yi opened his arms with a bright smile, indicating that he wasn't hostile.

Chapter 6643 Abandoned Land

The strength he was displaying now was at the early stage of the mysterious Ascension realm. He was slightly weaker than the strongest of the three, but he was stronger than the other two. This way, he wouldn't make the other party too wary.

"Ask for directions? Where did you come from? Why are you here? "

The strongest Man looked more mature, and was the oldest as well. He immediately stood up after seeing Lin Yi, his expression alert.

The difference between the peak of the early stage of mystical Ascension and the early stage of mystical Ascension wasn't that obvious. Some people with powerful skills or weapons could easily bridge the difference, so the man didn't dare to underestimate Lin Yi.

" I'm a cultivator from the mountain range of the Feiyang college. I was exploring the mountain range and accidentally entered a teleportation array that didn't have a direction. I was teleported here. Now I don't know the direction at all. I just happened to see you guys, so I came to ask for directions. I wonder if it's convenient? "

Lin Yi explained politely with a smile on his face, making him quite approachable with his face.

The three of them didn't completely believe him, but they were obviously much more relaxed.

"By the way, what's your name?"

The girl who discovered Lin Yi seemed to have a good impression of him as she smiled and nodded at him.

The woman looked to be around 28 or 29 years old. She wasn't as strong as Lin Yi, but it wasn't weird for her to call her big sister. After all, Lin Yi was disguised as a young man in his 20s.

"My name is Lei Ying. My friends who are familiar with me like to call me Ying. You can call me Xiao Ying! This sister's name? And the other two big Brothers?"

Lin Yi smiled and cupped his hands as if they were close, and the three's attitude towards him improved.

"Lei Ying, that's a good name. I'm Wu Yuhua, this is my cousin Wu Zhaoyang, and the other is Chu Jiawang."

Wu Yuhua smiled as she pointed at Lin Yi.

Wu Zhaoyang was at the peak of the early stage of mysterious Ascension, and Chu Jiawang was at the peak of the nascent soul realm. The three of them were about the same age, and Wu Zhaoyang should be the oldest, looking like he was in his thirties.

"Brother Wu, brother Zhai, sister Yuhua."

Lin Yi greeted them again before walking closer.

The three of them didn't reject Lin Yi's approach, but Wu Zhaoyang was still on guard. After all, Lin Yi wasn't weak, and he was afraid that Lin Yi would suddenly attack.

"Lei Ying, you're from the mountain range of the Feiyang college? I've heard of this Academy before, but I've never been there. Is the teleportation array you came from still working? Why don't you just send it back?"

Wu Yuhua had a cheerful personality, so they became familiar with each other in just two sentences.

"Yes, but the teleportation formation I entered is a non-directional teleportation formation. There is no reception formation here, just like a teleportation formation talisman. I have no idea where I will be sent to."

Lin Yi shrugged and made it up. Of course, there was a formation here, but it was a one-way teleportation formation. You could come and go, but you couldn't go back, so it was pretty much the same as not having one.

"Is that so? I was still thinking of going over to your place to take a look when I have the chance."

Wu Yuhua laughed out loud and didn't really mind.

"Sister Yuhua, what is this place?"

Lin Yi suddenly felt like he was being influenced by the Black-bellied little girl-even her tone was getting closer to that of a little boy!

He felt a chill just thinking about it, but if he changed his tone now, it would be easy for him to be exposed.

"This is the mountain range of karmic fracture. I wonder ... How far it is from the mountain range where the Feiyang college is ..."

Wu Yuhua scratched her head, a little embarrassed, as if she was worried that she couldn't help Lin Yi.

"Broken mountain range? Where was this place? Are there any Academies nearby?"

Lin Yi was at a loss-he'd never heard of this mountain before, and he couldn't tell where it was.

"There's no Academy in the broken mountain range. In fact, not everyone can enter the broken mountain range in the mystic class Sea area. Similarly, it's not easy to leave."

Wu Zhaoyang suddenly opened his mouth. He still had his guard up against Lin Yi, but he was still friendly.

"Big brother Wu, what is the meaning of this? What's so special about the broken mountain range?"

Lin Yi blinked, not having a good feeling about this.

"Lei Ying, you've never heard of the broken mountain range in the Academy? Perhaps the broken mountain range is a taboo in your world. "

Lin Jiawang also interrupted with a smile.

"Taboo? Why is that so?"

Lin Yi found it strange, but the bad feeling in his heart was getting more and more obvious.

"Because of the broken mountain range, it's called the abandoned land of the mystic Sea region! To enter and exit the mountain range, one must have a special passage title plate, or else it's impossible to pass through the restriction. To be honest, I'm very surprised that you were able to teleport here."

Wu Zhaoyang called Lin Yi to an empty space in the forest and sat down to talk.

"Abandoned land? And a pass token? Big brother Wu, what's going on? "

Lin Yi sat to the side and asked humbly.

Wu Yuhua and Lin Jiawang sat down as well. Wu Yuhua took out some food and gave it to the others after some simple processing. Lin Yi had a portion too.

"The abandoned land was a place where the mystic-class sea used to imprison some fierce beasts and criminals a long time ago, so it was called the abandoned land! The spiritual Qi here is very thin, almost not suitable for cultivation, and because an ancient Almighty set up a formation, the entire abandoned land is shrouded in it, and there is only one entrance."

Wu Zhaoyang took a bite of the food and started chewing slowly.

"After a long time, the formation seemed to have some flaws, so the spiritual Qi in the abandoned land slowly became more abundant. The people here also slowly began to have the opportunity and environment to reproduce. However, there are still restrictions when they want to enter and leave the abandoned land. "

Wu Yuhua continued explaining.

"The few of us have never left the shattered Yin mountain range, or rather, the abandoned land. It's not that we don't want to leave, but because the number of places we can leave is limited. The competition is fierce, and it's not something the few of us can participate in."

Lin Jiawang spoke as he ate, and the three of them described the place to Lin Yi in a few words.

Lin Yi scratched his head. He wasn't thinking about how he left the mountain range right now, but where did the two-faced girl and her group go with the teleportation formation? Was he still in the broken mountain range?

But after listening to Wu Zhaoyang and the others' descriptions, Lin Yi suspected that the Black-bellied loli trio couldn't leave the mountain range at all!

At most, the teleportation talisman would only bring them far away from the teleportation array.

Now that he thought about it carefully, the Almighty who had imprisoned the darkness demon beast was clearly meticulous and had set up a thorough plan!

He had left these trials to kill the weak magical beasts of darkness for the peerless college, but he was afraid of failing the trials, so he had closed all the entrances, leaving only the teleportation array.

The destination of the teleportation was this abandoned land!

Chapter 6644 Tianwu Mercenary Group

This way, even if the person failed the trial and the darkness magical beast escaped through the teleportation formation, it would just be moving from a small cage to a large cage.

The abandoned land was originally a place used to imprison and exile criminals. It was also impossible for the darkness demon beast to leave this place.

As for the trial participants, regardless of whether they killed the darkness magical beast or not, it would not be the end of the mission. The real trial would probably only officially begin in this abandoned land!

It was really terrifying!

Lin Yi sighed in his heart. Who could have set up such a masterpiece?

But, since it was part of the test, there had to be a way to leave. Lin Yi let out a breath of relief-perhaps the right to leave was the key.

Thinking back to the deal he made with the lion, Lin Yi found it funny.

So these factors were all within the Almighty's expectations, and Lin Yi was still worrying over nothing!

"Is the competition to leave very fierce? How can I get this qualification?"

Lin Yi shook his head and asked.

"The abandoned land has ten spots to go out every year. It doesn't seem like a lot, but it's actually a lot! In the beginning, only people could enter and not leave this place. No one knew when it started, but a team of managers was stationed in the outside world, allowing people to compete for the spots to leave the abandoned land! Those who are at or below the mountain opening stage can participate, but those who have broken through the earth opening stage are not qualified to leave. "

Wu Zhaoyang swallowed the food in his mouth and explained.

The three of them worked together well, each taking turns to speak without delaying their meals. Lin Yi realized that this food was very effective in recovering pure energy, and it wasn't ordinary food.

"I can't go out after I reach the earth-splitting stage? That's not fair, is there anyone who has any objections?"

Lin Yi was a little surprised-how could these earth stage Masters let go of a path like this?

"Yes, but so what? Someone once tried to force their way through the exit, but they were easily killed by the people outside with a formation!"

Wu Yuhua told him about the legend."I heard that it was a long time ago. At that time, the one who wanted to use violence to pass through was the most powerful expert in the abandoned land. His strength had even surpassed the sea Rift stage! Unfortunately, he was still like an ant in front of the array, without the slightest ability to resist! From then on, no one dared to leave in this way. "

Lin Yi, on the other hand, was secretly shocked. A master who had surpassed the sea shattering realm was killed so easily. With this deterrence, no one here dared to attack again.

However, it would be a little interesting to limit the level to the mountain opening stage and below. Every year, the ten who emerged from the cruel competition could be said to be the geniuses among geniuses. One could imagine how powerful they were. Those who won in this survival of the fittest method were even better than the students of the top Academies.

Lin Yi could even guess that the people guarding the exit were from a powerful faction, perhaps one of the mysterious sects.

"Lei Ying, at your age, it's already pretty good that you have such strength. However, I don't think it'll be easy for you to go back! It's a good thing you're already at the mysterious Ascension stage. Otherwise, it wouldn't have been so easy to get the right to undergo the lightning tribulation."

Lin Jiawang shook his head with a bitter smile. He was now at the great circle of the original level, which made it difficult for him to advance to the xuansheng level.

Lin Yi's heart jumped. Lin Jiawang's meaning was clear-the abandoned land also had lightning points for Ascension, but this resource seemed to be under control. It wasn't easy to use them.

However, Lin Yi wasn't stupid enough to reveal the fact that he could create lightning tribulations. The abandoned land wasn't clear, and the three seemed like nice people, but they were new acquaintances, after all, so he had to be careful.

"Lei Ying, with your current strength, it's basically impossible for you to fight for a spot to leave. Why don't you cultivate properly and think of a way to fight for a spot after you've broken through to the opening mountain realm? there are ten spots every year anyway, so you don't have to worry about not having a chance."

Wu Yuhua patted Lin Yi's shoulder with a smile.

"Thank you, sister Yuhua. I'm not strong enough, so I'll cultivate for a while more."

Lin Yi didn't argue, but he started planning in his heart.

He had to get the spots as soon as possible, and Lin Yi didn't want to stay here for too long. Shangguan LAN 'er would be worried if she didn't have any news about him.

"Brother Lei Ying, since you're new here and have no place to go, why don't you join our mercenary group? you can do missions to earn some cultivation resources, and you can also occasionally obtain some unexpected benefits during exploration. It's better than you cultivating alone."

Lin Yi's sudden invitation startled Wu Zhaoyang, but he didn't object.

"You are a mercenary group?"

Lin Yi blinked, not knowing how to respond.

According to Lin Yi's thoughts, they should leave as soon as possible. Joining a mercenary group was a waste of time, but these three looked good, so he couldn't just reject them.

" It's a bit of an exaggeration to call it a mercenary group. It's actually just a small team of mercenaries. There are only three of us, and we're called the tianwu mercenary group. We usually take on some missions to earn cultivation resources. "

"If you don't mind, you can join us. Other than earning cultivation resources, it'll also be more convenient for you to sign up for the quota competition."

Wu Yuhua really wanted Lin Yi to join them. After all, Lin Yi's strength wasn't weak, and with him in the mercenary group, they could take on higher level missions.

" Is there a relationship between joining a mercenary group and registering for the quota competition? "

Lin Yi's heart moved-he could ignore everything else, but this spot was something he had to pay attention to.

" Of course it's related. If it's an individual who signed up, it will go through multiple inspections. As for mercenary group members, there will be a lot less unnecessary trouble. If they have enough mission experience, they can even get a certain amount of bonus points. "

" That's why there are quite a number of mercenary groups in the mountain range. The largest ones have hundreds or thousands of people, while the smallest ones have two or three people. We belong to the smaller ones. "

Wu Yuhua was honest and didn't think that Lin Yi would look down on them at all.

Wu Zhaoyang looked embarrassed. He was the leader of the mercenary group, so he was embarrassed to be called that by his cousin.

With Lin Yi's strength, it wasn't impossible for him to start a small mercenary group by himself. Taking a step back, he could easily join a bigger mercenary group. There was no reason for him to join the tianwu mercenary group.

Wu Zhaoyang and Wu Yuhua were cousins, and Chu Jiawang was his good friend. That was why they were in the same team. Lin Yi was a stranger, and he wasn't confident in bringing him in just like that.

Chapter 6645 Joining A Mercenary Group

"So that's how it is, then I'll be counting on my three brothers and sisters to take care of me in the future!"

Lin Yi didn't mind since he didn't have much to do anyway.

"Younger brother Lei Ying is truly a straightforward person. In that case, we'll be brothers from now on,"

Wu Zhaoyang was overjoyed. He laughed and patted Lin Yi's shoulder.

"I've already seen that brother Lei Ying is a good person. Don't worry, you won't suffer a loss if you join our heavenly martial mercenary group. We're like a family here!"

Lin Jiawang was also full of smiles.

Wu Yuhua was happy as well-she was the type of person with better senses, so she was the weakest, but she was the first to notice Lin Yi's tracks.

Other than that, she could also feel that Lin Yi wasn't a bad person, so she was extremely warm towards him from the start.

The other two knew about Wu Yuhua's abilities as well, and because of that, they quickly got to know each other and even invited Lin Yi to join their group.

It wasn't that they had faith in Lin Yi, but they had faith in Wu Yuhua's senses.

"Right, have you finished fighting for this year's quota? "

Lin Yi chatted with the three for a while before getting back to the main topic.

" No. The registration date for this year is three months later. It's a one-month period. After that, it's the competition. "

Lin Jiawang replied casually, but he didn't think much about it.

"Lei Ying, don't tell me you're thinking of participating this year? Although you're quite strong, it's still a bit of a stretch for you to participate in the competition. "

Wu Yuhua's thoughts were sharp, and she seemed to have seen through Lin Yi's intentions, but she was still a little shocked.

It wasn't that cultivators in the early stages of the mystic Ascension realm couldn't sign up, but if they participated in the competition with such strength, they would simply be giving up their luck!

In the end, which one of those who could take one of the ten spots wasn't an expert above the mountain opening stage? In fact, ordinary mountain-opening stage cultivators were only stepping stones for the final ten. After the initial stage of the mysterious Ascension realm, they weren't even enough to fill the gaps between the teeth.

"I'm just asking. I want to understand the detailed rules of registration, the competition methods, and so on. It's better to be prepared."

Lin Yi said with a smile.

Wu Yuhua was still a little confused, but she explained it to Lin Yi in detail.

Lin Yi listened carefully and nodded from time to time, calculating in his heart. If he guessed correctly, the two-faced little loli and the other two should still be here, and they should meet again in this year's quota competition.

Lin Yi was helpless-he'd changed his appearance again, but the two-faced girl was too sensitive. She might recognize him again.

With Lin'er's experience, the Thunder Eagle might not be able to hide from the little loli's eyes. It would be troublesome when the time came.

"Lei Ying, what's wrong?"

Wu Yuhua couldn't help but ask after seeing Lin Yi's helpless face.

"Oh, it's nothing. I'm just worried. I don't know when I'll be able to participate in the contest, and I don't know when I'll be able to return."

Lin Yi explained with a sigh.

"What's the point of thinking so much now? the day of the competition is still far away. Although your talent is very good, and you're already at the early stage of the mysterious Ascension realm at such a young age, but it's not that easy to go from the early stage of the mysterious Ascension realm to the mountain opening realm! With your talent, it'll be pretty good if you can reach the barrier of the mountain-opening stage in seven or eight years. "

Wu Yuhua patted Lin Yi's shoulder.

"Lei Ying, don't think about the fight for the slots for now. Just focus on your cultivation. I know that you want to go back now, but if you don't have the strength, you won't have the chance to go back."

Wu Zhaoyang also persuaded him with a heavy heart.

Everyone wanted to go back as soon as possible after being teleported from a familiar place to a strange abandoned place. Everyone understood Lin Yi's thoughts.

But understanding was one thing-with Lin Yi's strength, he still couldn't stand out in the competition.

Lin Yi nodded, saying that he'd train hard and think of a way to go back when he'd become stronger.

There were still three months until the registration, and Lin Yi decided to go on missions with the mercenary group first-he might come across some unexpected fortune.

After making his decision, Lin Yi relaxed a lot. He'd help the tianwu mercenaries with their missions for the next three months as a way of thanking them for their help.

"Alright, we've rested enough. Let's continue to complete the mission!"

Wu Zhaoyang clapped his hands and got up to greet them.

Of course, the most important thing was to greet Lin Yi. The other two didn't need him to say anything at all. They had years of tacit understanding.

"Big brother Wu, what's our mission this time?"

Lin Yi got up and asked enthusiastically.

He'd been a mercenary and assassin before in the common world, and he'd done it once in the southern island too-he wasn't a newbie, but the missions here and the common world couldn't be compared.

"This time, we're going to the wind crack cave to search for a knife. The relative of the person who issued the mission was lost there. Since there's a general area, as long as the knife is still there, it's not a difficult mission! If it wasn't for the wind crack cave's inherent danger, the difficulty would have been even lower."

Wu Zhaoyang smiled and explained the mission.

"Lei Ying, the difficulty of mercenary missions is divided into nine levels. Level 1 is the lowest and level 9 is the highest. Our tianwu mercenary group is too small, so we usually don't take any missions that exceed Level 5. This Level 4 mission is already quite good. "

Wu Yuhua also very considerately explained the grading.

Wu Zhaoyang was a little embarrassed. His cousin was really honest. If you want to explain, then explain. Why do you always bring your own mercenary group out to talk about things?

The highest difficulty of the missions that they accepted was not higher than level five. Was this something to be proud of? What if Lei Ying felt aggrieved in the tianwu mercenary group? wouldn't he be scaring them away for nothing?

"Oh right, Lei Ying, we're on a mission right now, so we can't let you join our mercenary group. After this mission is completed, we'll register your name! Don't worry, even though you haven't registered your name, you're already our brother. The reward for the mission will definitely not be short on you. "

Wu Zhaoyang felt a little awkward and quickly changed the topic.

"It doesn't matter, these are just small matters."

Lin Yi said with a wave of his hand. He didn't really care about that-the mission reward wasn't even as high as what he could give away.

"Ding is ding, Mao is Mao. What needs to be said must be made clear!"

Wu Zhaoyang was very satisfied with Lin Yi's attitude and set off first.

Lin Jiawang walked beside Wu Zhaoyang, while Wu Yuhua and Lin Yi were behind.

"Lei Ying, my cousin is a good person. Don't worry, he won't mistreat you! Our tianwu mercenary group may be small, but we're all brothers and sisters. We don't have the schemes and schemes of those big mercenary groups, so there's nothing wrong with following us!"

Wu Yuhua might have felt that her words had made Lin Yi lose confidence, and quickly came to remedy the situation.

Chapter 6646 Wind Beast?

"I know that brother Wu, brother Zhai and sister Yuhua are all good people. I'm very happy to be with you."

Lin Yi said with a faint smile, his words true.

Wu Yuhua's senses were exceptional, and she could tell that Lin Yi wasn't lying. She smiled in satisfaction.

The four of them weren't as fast as Lin Yi when he was walking alone, but they weren't slow either. An hour later, they'd covered a few hundred miles and came to a bare rock.

"That's the wind crack cave. It's said that there will be a violent storm inside. Everyone, be careful. "

Wu Zhaoyang pointed at the cave under the rock and turned back to remind the others.

Of course, this was mainly directed at Lin Yi-he knew about both Lin Jiawang and Wu Yuhua beforehand.

Lin Yi replied, but he didn't think much of it. The three of them could enter the cave, so why couldn't he? The wind inside probably couldn't hurt him at all.

The four of them filed in and immediately felt a violent surge of wind. Everyone's clothes fluttered, but no one would use their true energy to resist it at this time. After all, they had just entered. If they wasted their true energy like this, they would not be able to move forward at all.

"Prepare to turn left ahead. The wind will increase several times. Everyone, be on your guard!"

The leader, Wu Zhaoyang, turned around and shouted at the people behind him. The wind was too strong, and his voice had to be condensed with true Qi, otherwise it would be easily blown away.

On the surface, Lin Yi's strength was second only to Wu Zhaoyang's, so he was arranged to hold the line at the back and protect the team. Since everyone was following behind Wu Zhaoyang, the one who took the most pressure was Wu Zhaoyang, and Lin Yi was the most relaxed one.

Soon, the group arrived at the fork in the road. There were three of them, and Wu Zhaoyang chose the one on the left.

Lin Yi's sharp senses told him that the wind was getting stronger at every intersection, and it wasn't coming from one direction, so there was a vortex-shaped wind nest at the intersection.

When passing through this wind nest, Wu Zhaoyang and the other two had to use their true Qi to protect themselves and then slowly pass through the passage. Otherwise, they would be directly blown away.

The wind crack cave was quite strange, but where did the wind come from?

Lin Yi walked at the back of the group with nothing to do, so he started studying the wind crack cave's structure.

Unfortunately, the detection abilities of his spirit sense were greatly weakened here. Lin Yi's spirit sense was a blur, and it was hard to find anything useful.

It wasn't that Lin Yi's spirit sense was restricted, but the range was still so large that it could cover the entire wind crack cave.

But the problem was that he couldn't see anything even with his spirit sense out. It was like his eyes were fine, but he was wearing a pair of glasses that didn't fit.

It wasn't that he couldn't see, but he couldn't tell what he was seeing at all!

It was impossible to find the source of the wind in this state.

After entering the tunnel on the left, the wind was several times stronger. Wu Zhaoyang's speed was obviously reduced. The three of them also covered their bodies with Zhen Qi, otherwise, their clothes would be easily torn.

Lin Yi was the last one, but he didn't show any difference. He just did what the people before him did- this amount of Qi wasn't even worth mentioning to him. His own recovery speed was faster than his Qi consumption.

"Eh, there seems to be something in the wind?"

Lin Yi's spirit sense was blurry, but he could still feel that there was something strange moving in the wind.

He searched with his eyes, but he couldn't see anything.

Lin Yi wasn't sure if there was really something there, or if it was just a normal phenomenon in the wind crack cave.

"Sister Yuhua, do you feel anything wrong?"

Lin Yi knew that Wu Yuhua's senses were exceptional, so he leaned in and asked loudly.

"It does seem a little off!"

Wu Yuhua was slightly taken aback, but she immediately felt it with her heart and nodded heavily.

When Wu Zhaoyang and Lin Jiawang heard Wu Yuhua's voice, they immediately went on high alert and slowed down.

Wu Yuhua turned around and pulled Lin Yi's arm, taking a step to the side. She didn't mind that the wind pressure would increase a lot.

Lin Jiawang, on the other hand, moved to the other side, with Wu Zhaoyang following closely behind. The three of them formed a circle with their backs against each other, leaving an empty space between Wu Yuhua and Lin Yi.

Lin Yi didn't dare to waste any time and quickly filled in the gap, forming a defensive circle with his back against the three.

This kind of battle formation could defend against danger from all directions, but its weakness was that it was inconvenient to move, and the wind that it had to withstand was multiplied.

Wu Zhaoyang and the other two worked together to form a defensive layer around their bodies with their Zhen Qi, temporarily isolating them from the wind. However, this method consumed a lot of their Zhen Qi, so it could only be used in an emergency, not for a long time.

"Yuhua, did you find any problems?"

Wu Zhaoyang didn't look back after the wind was blocked. He stared straight ahead and asked in a deep voice.

"Just now, Lei Ying asked me if there was anything wrong. I felt it, and it was indeed not right! It's like there's something spying on us and it's going to attack us at any moment, but I can't find any signs of anyone. "

Wu Yuhua spoke quickly. It was impossible for their true energy to maintain the defensive barrier all the time, so the time they had to communicate was rather limited.

"Lei Ying, what did you find?"

Wu Zhaoyang couldn't care less about how Lin Yi was better than Wu Yuhua, he just wanted to know if Wu Yuhua was telling the truth.

"I'm not too sure either. I just feel like there's something in the wind that causes the direction of the wind to change. Sometimes, it feels like it's flowing in the opposite direction."

Lin Yi didn't hide anything. He was only in the early stages of the mystic Ascension realm, so it was normal for him to find out.

"There's something in the wind. Could it be a wind beast?"

Wu Zhaoyang frowned. He had only heard of wind beasts but had never seen one.

"It's possible. This is the wind crack cave, so it's not strange for wind beasts to appear here! It's just that encountering wind beasts at the exit isn't a good sign. Should we continue or retreat first?"

Richard gawang was a little worried, but he didn't move at all.

He also understood that in the current situation, whoever left the team would be the first to suffer!

"What are wind beasts?"

Lin Yi was confused and quickly asked. There were too many things he'd never heard of in the mystic class sea.

"Wind beasts aren't things, but a kind of ignorant creature that is unique to the wind crack cave. They are born from the wind and use the essence of wind spiritual energy as their bodies. They move by instinct and like to wander in the wind of the wind crack cave. When they meet outsiders, they will attack."

Wu Yuhua quickly explained.

Chapter 6647 Killed In One Move

Although Wu Yuhua knew about this, she had never seen a wind beast before, so she couldn't hide her nervousness when she spoke.

"According to the legends, the strength of the wind beasts varies. Generally, they are at the Golden core stage and the original infant stage. The powerful ones can reach the xuansheng stage. The strongest might have the strength of the mountain split stage. However, those are the Kings of the wind beasts and will not easily appear in the outer regions."

Wu Zhaoyang introduced himself as well, not so much as to explain to Lin Yi, but to comfort them.

Right now, they were still in the outer area of the outer area. Even if they encountered wind beasts, they would probably be at the Golden core or original infant stage. This was what Wu Zhaoyang was trying to say.

Lin Yi didn't feel anything, but Lin Jiawang and Wu Yuhua clearly relaxed a lot. If it were only golden core and nascent soul wind beasts, then there was nothing to worry about.

Wu Zhaoyang and Lin Yi didn't need to do anything. The two of them were enough.

"Let's continue moving forward. The wind beasts here aren't much of a threat. If we stop here and maintain our current state, we'll only be wasting our energy."

Wu Yuhua suggested.

"That's good. Let's continue forward. If the wind beasts attack, everyone attack with all your might. We must kill the wind beasts. This kind of opportunity is very rare. We can also earn a considerable Commission by obtaining the wind Spirit crystals."

Wu Zhaoyang nodded, deliberately showing a relaxed posture so that the three people behind him didn't have to be too nervous.

Lin Yi didn't know what the wind Spirit crystal was, but he could guess that it was similar to a spirit beast's inner core.

"Wind beasts are condensed from the essence of wind spiritual energy, so they are very difficult to kill. They are often shattered and then condensed again. Only an extremely strong instantaneous power can destroy a wind beast, and the wind Spirit crystal is the core of the wind beast. It condenses all the wind spiritual energy, and for cultivators who practice wind attribute martial arts, it is a rare treasure that can be sold for a high price."

Wu Yuhua explained as she removed the true energy shield.

Wu Zhaoyang was still in the first position, with Chu Jiawang behind him, followed by Wu Yuhua and Lin Yi. Their formation had returned to its original state, but everyone's vigilance had increased significantly.

Lin Yi followed behind, thinking about the wind beasts. He didn't know if there were many of them here, but if there weren't, it'd be good practice. It'd be troublesome if there were too many.

Lin Yi searched for the wind beasts as he walked. He couldn't find their exact location, but he could still sense the unusual movement in the wind.

Soon, Lin Yi noticed a trail rapidly approaching their group.

"Be careful! Wind beasts are approaching!"

Lin Yi didn't have time to remind her, but Wu Yuhua was one step ahead.

Under normal circumstances, Lin Yi's spirit sense would be stronger than Wu Yuhua's, but in this environment, Wu Yuhua's senses weren't inferior to Lin Yi's at all. She might even be more accurate.

Wu Zhaoyang and Lin Jiawang each took a side after receiving the notification, while Wu Yuhua pulled out her short sword and stabbed out, aiming at the trajectory in Lin Yi's consciousness.

Wind beasts were almost invisible in the wind and had the natural ability to become invisible in the wind, so it was extremely convenient to launch a sneak attack.

He didn't expect Wu Yuhua to see through him this time. Unable to Dodge in time, he crashed into her short sword.

Fortunately, the wind beast's body could gather and disperse freely. As long as the core Wind Spirit crystal wasn't damaged, it wouldn't be easily injured. It didn't matter if it was damaged a little, as it would quickly produce new wind spiritual force to repair it.

As the second strongest in the group, Lin Yi couldn't just stand by and do nothing. They could lose their chemistry for now, but they still had to show their strength.

The wind beast only paused for a moment after Wu Yuhua's attack, but it continued to charge at Lin Yi. Lin Yi took a step to the side and waved his raging fire Eight Trigram palm.

There was no need to use the icy blaze in a place like this. It was just a normal raging fire Bagua Palm, and Lin Yi had suppressed its power, making it only as strong as a primary stage mysterious Ascension cultivator.

Even so, the flames of the wild fire Bagua Palm were still extremely strong. After all, Lin Yi's battle strength was not weak when he was in the early stage of xuansheng.

The wind in the wind crack cave surged, and a red flame exploded. With the help of the wind, it became even more ferocious, burning wildly in the direction of Wu Yuhua's short sword.

The wind beast, which was originally invisible and shapeless, actually revealed a trace of its form under the wild fire Eight Trigrams palm.

The bat-like shape was only 40 - 50% similar, but Lin Yi couldn't find a better word to describe it.

After the wild fire Eight Trigrams palm hit the wind beast, it only took an instant for the little thing to explode with a bang and completely disappear.

An ice-colored crystal the size of a thumbnail was revealed, floating down in the wind.

Wu Yuhua flicked the tip of her short sword and flicked the small crystal towards her. She reached out and grabbed it, a look of joy on her face.

Wu Zhaoyang and Lin Jiawang turned to look at Lin Yi as well, their eyes full of admiration.

Blowing up a wind beast in one move was not something that just anyone could do. If the power was slightly lacking, the wind beast would recover infinitely in the wind.

"Lei Ying, this is your loot. Take it."

Wu Yuhua looked at the wind Crystal in her hand and handed it to Lin Yi.

Originally, the spoils of war that the mercenary group had obtained should have been gathered together and then distributed according to their contribution.

But this time, Lin Yi basically killed the wind beast all by himself, so Wu Zhaoyang and Lin Jiawang didn't mind giving him the wind Spirit crystal.

Lin Yi didn't stand on ceremony and nodded with a smile. He didn't really need the wind Spirit crystal, but it would be weird if he didn't want it.

Wu Zhaoyang turned around and continued to lead the team. However, his face had become a little serious.

Although Lin Yi easily and happily killed a wind beast, he was very sharp and noticed that the wind beast was not weak. It was around the strength of a mid-stage nascent soul practitioner.

They had just entered the wind crack cave, which could barely be considered as the outer periphery, and they had already encountered a mid Yuanying stage wind beast. Was it a coincidence? Would they encounter even more powerful wind beasts next?

Wu Zhaoyang was a little worried, but he had no other choice. The mission area wasn't too deep. It wouldn't make sense to give up just like that.

He braved the wind and walked for a while more, and Lin Yi's spirit sense picked up the tracks of a few more wind beasts.

Perhaps it was because the wind beast had been killed too easily, but these few didn't attack rashly. Instead, they followed the four of them from a distance.

"Didn't they say that wind beasts were ignorant creatures and shouldn't have any intelligence? why do these few look so smart? Is it driven by instinct?"

Lin Yi muttered to himself. Unfortunately, his spirit sense was too blurry and he couldn't see the situation clearly, nor could he tell the level of these wind beasts.

Chapter 6648 Wind Beasts Increase In Number

If Lin Yi wasn't strong enough to protect the three of them, he might've suggested for Wu Zhaoyang and the others to leave.

"Turn right up ahead. There's a cave that's sheltered from the wind ten steps away. Let's go in and repair it."

Wu Zhaoyang turned around and shouted at the three of them. Although they had only left for a short while, there wasn't much space for them to rest.

The few of them did not have any objections, and they soon arrived at the cave that was sheltered from the wind. Although the space here was not large, and could only accommodate a dozen people at most, there was indeed no wind at all.

The wind outside was extremely shrill, but none of it entered the cave. It was indeed magical.

"Everyone, take a seat and adjust your condition. We're still far from the target's area, so we must maintain our peak condition at all times."

Wu Zhaoyang asked the three of them to sit down and took out a map to study.

Lin Yi used his spirit sense and saw everything on the map in his mind.

This map should be the internal topographic map of the wind crack cave, but it was not complete. There was a large area of black blankness, which should be an area that had not been explored.

He didn't know where Wu Zhaoyang got the map from. It didn't look reliable, but the passages outside were more detailed.

No wonder Wu Zhaoyang knew where to turn and where to take shelter.

"We're here now, and the area we need to explore is here. In terms of distance, we've only covered less than one percent. Everyone, be prepared. This mission might not be as simple as we thought."

Wu Zhaoyang spread out the map and let them gather around to take a look.

Lin Yi understood that Wu Zhaoyang had probably noticed the wind beasts around them as well. Perhaps he didn't know as much as Lin Yi did, but it was enough to attract his attention.

"Hahaha, with Lei Ying's addition, our strength is much stronger than before. What's there to worry about?"

Wu Yuhua laughed heartily. Her spiritual sense was outstanding, so she must have sensed the wind beast's existence. Was she still pretending that nothing had happened to calm the Army?

Lin Yi looked at Chu Jiawang casually. Perhaps he was the only one out of the three who didn't notice the wind beast?

It was also possible that he had noticed it but did not say it out loud.

Everyone had a tacit understanding, but they were all mentally prepared. It seemed to be quite interesting.

"I don't think it's too far away. With the map's guidance, it should be easy for us to reach the target area."

Lin Yi looked at the circled area on the map-this was their mission's destination.

"As long as there are no accidents along the way, it should be relatively smooth."

Wu Zhaoyang nodded with a smile, but he was not sure.

Would there be no accidents?

The wind beasts were the most unexpected thing in the wind crack cave. Now that he could already sense the presence of wind beasts, the road ahead would not be smooth.

After exchanging a few words, Wu Zhaoyang put away the map and started to recover his true Qi. In fact, they didn't use up much of their true Qi, so they quickly recovered to their peak state.

"Let's go. We'll continue moving forward and try to reach the target location as soon as possible."

Wu Zhaoyang waited for the others to recover, then stood up and told them to leave.

They were still in the same formation, with Lin Yi at the back. But this time, his spirit sense detected a few more tracks. If he was not wrong, there were at least ten wind beasts around the team.

"You want to gather your companions to besiege us? How could an ignorant creature with no intelligence have the ability to think in such a group?"

Lin Yi squinted his eyes, suspicious. Was there someone commanding the wind beasts?

"Leader, I sense danger. Something's not right with the surroundings!"

He had only taken a few steps when Wu Yuhua called out to Wu Zhaoyang.

In the mission, Wu Yuhua always addressed her cousin as "leader." Chu Jiawang didn't wait for Wu Zhaoyang to turn around and had already taken a defensive stance.

"What's going on?"

Wu Zhaoyang didn't dare to delay and immediately stopped.

When Wu Yuhua said that she felt danger, it was no small matter. Since she mentioned danger, it must be real danger!

"I don't know. It's probably the wind beasts. Perhaps there are a lot of them, or they're very powerful. In any case, I have a feeling of fear."

Wu Yuhua's expression was slightly unnatural. Her spiritual sense had always been accurate, and if she sensed danger, it must be something that was life-threatening.

"Let's retreat to the cave to avoid the wind. We have plenty of time. Don't take any risks. "

Wu Zhaoyang made a quick decision, alert and alert as he signaled for Lin Yi to turn.

Lin Yi didn't say anything and turned around. It was only a few steps before the four of them were back in the cave.

Yuhua, describe what you felt in detail. If it's really dangerous, we'd rather give up on this mission."

Wu Zhaoyang's face was extremely serious. If they gave up on this Level 4 mission, the tianwu mercenary group would suffer a huge loss.

First of all, the mercenary group's reputation would be damaged. Second, the preparations for this mission would be in vain. The time and energy they had spent on this would all be for nothing.

However, this was nothing compared to the safety of the mercenary group.

As long as he was alive, he would have the chance to start all over again. So, Wu Zhaoyang made the decision at once. If things couldn't be done, he'd rather retreat!

"I can't explain it clearly. I just feel that it's very dangerous, as if I'm going to be devoured by a fatal danger at any time ... Perhaps the number of wind beasts is increasing. Although it's not very clear, I think so."

Wu Yuhua's face was slightly pale, and she carefully chose her words as she thought about it.

There was a lot of uncertainty in Wu Yuhua's words, but her spiritual sense was outstanding. Even if she was uncertain, Wu Zhaoyang and the others would not take it lightly.

"In that case, the situation is a bit serious! The moment we entered, we encountered a wind beast that was equivalent to a middle Yuanying stage cultivator. The level of danger of this mission can be imagined! Let's go back, the rating of the level four mission is clearly not accurate. We need to go back and redefine the difficulty of this mission. "

Wu Zhaoyang made a prompt decision.

"Big brother Wu, don't worry. I'll go Scout the situation first."

Lin Yi raised his hand to stop Wu Zhaoyang's decision. He didn't want to waste this opportunity.

Three months later, they would have to sign up for the slot contest, and there were not many opportunities for them to complete missions for the tianwu mercenary group.

"Lei Ying, this is too dangerous. Don't be rash. It doesn't matter if you can't complete the mission. Everyone's safety is the most important."

Wu Yuhua immediately tried to stop him. She didn't know Lin Yi's true strength, but a mere early stage xuansheng realm wasn't enough to handle the danger she felt.

"It's fine. There won't be any danger. I have a clone technique. "

Lin Yi said after some thought.

The thousand changes of wood, forest, and forest wasn't a very special martial skill, but after Lin Yi's constant improvements, it had become quite powerful.

Chapter 6649 Doppelganger Scouting

With Lin Yi's true strength, even if it was just a clone, it was enough to make him invincible among the xuansheng stage.

He was afraid of scaring the three of them, so he only created a clone after he finished speaking.

Wu Zhaoyang and the other two were dumbfounded when they saw an identical Lin Yi.

Doppelganger technique, this was a legendary divine technique. He didn't expect that this new young man actually had such an ability.

Lin Yi's clone looked the same as Lei Ying, but he had to suppress his strength to the early stage of the mysterious Ascension realm.

From the appearance and aura, it was exactly the same as the main body.

So Wu Zhaoyang and the other two really thought that Lin Yi was skilled in the legendary cloning technique, but in reality, it was just a clone from the thousand forest illusionary technique. It was on a completely different level from the real thing.

In a true cloning technique, the clone would be exactly the same as the main body. When attacked, it would not die. It was like having a pair of twins. Even their thoughts were independent. However, the thousand forest illusory transformations was far from reaching this level.

"So powerful, it really is a clone technique! Lei Ying, Who are you? With your abilities, you should be a top student in one of those top schools, right?"

Wu Yuhua mumbled to herself as she looked at Lin Yi. This was the first time she felt like her mercenary group had found a treasure.

"No, my strength is very ordinary. This doppelganger technique only has a form, and it will shatter when attacked."

Lin Yi smiled and explained humbly.

"This is considered ordinary? Your strength has doubled! Who among cultivators of the same level can be your match?"

Lin gawang was amazed and envious.

If he knew this move, he might be able to fight against a xuansheng stage expert!

"I originally thought that I was a little stronger than you. Now it seems that the gap is a Little Big!"

Wu Zhaoyang shook his head with a smile. After seeing Lin Yi's raging fire Eight Trigram palm, he felt that Lin Yi's combat strength was probably stronger than his.

Now that he saw Lin Yi's doppelganger, Wu Zhaoyang knew that he was no match for Lin Yi.

However, he didn't feel that it was inappropriate. It was definitely a good thing to have such an expert in the mercenary group!

Of course, Wu Zhaoyang was also considering that with Lin Yi's strength, potential, and combat strength, it would be difficult for him to stay in the tianwu mercenary group forever.

This would limit Lin Yi's development, and only a better platform would allow him to display his abilities.

"Brother Wu, you don't have to praise me. This clone of mine is actually nothing special. After being hit, it will dissipate. The only good thing is that it won't affect my main body. After dissipating, I can continue to clone as long as I have enough true energy."

Lin Yi said honestly, not underestimating himself.

As he spoke, Lin Yi's spirit sense detected that there were a few more wind beasts outside. It seemed like they were really going to gather together to fight them.

To be honest, Lin Yi only wanted to help out with the mission, but he was really interested now.

For example, what was the reason for the wind beasts to gather together?

To deal with an opponent like the tianwu mercenary group, was there a need to gather and surround them so solemnly?

Was there someone behind all this?

"Alright, let's cut to the chase. I'm going to go out and investigate. Then, we'll decide whether to advance or retreat."

With that, Lin Yi turned and left the cave without waiting for their permission.

Wu Zhaoyang opened his mouth and wanted to tell him to be careful, but he felt that it was a little strange.

Lin Yi said that the clone was an existence that could be abandoned at any time, so there was no need to worry about its safety.

What he didn't know was that it wasn't Lin Yi's clone that walked out this time, but his real body!

What was left behind was the clone created by the thousand changes of wood forest.

"I'd like to see just what kind of secrets are hidden in this wind crack cave. As for the tianwu mercenary group's mission, my clone will be enough to handle it."

Lin Yi had a faint smile on his face as he walked out of the cave.

He'd come out in his true form to go deeper into the wind crack cave. It wasn't marked on the map, and Lin Yi thought it was the place with the highest chance of hiding a secret.

As for the wind beasts that gathered over, he could just casually get rid of them!

After leaving the group, Lin Yi didn't need to hide his strength anymore. He used his wild fire Bagua Palm casually, and although his spirit sense couldn't clearly capture the wind beast's traces, as long as he followed the wind and activated his martial skill, his hit rate was almost a hundred percent.

In just a few breaths "time, Lin Yi had successfully harvested ten ice-colored Wind Spirit crystals, almost killing all the wind beasts that gathered nearby. Even if there were fish that slipped through the net, it didn't matter.

"What a fellow! There's already a xuansheng stage wind beast here! Who's controlling this from behind the scenes? who doesn't want the tianwu mercenaries to enter?"

Lin Yi put away the wind Spirit crystal and started thinking.

The only answer seemed to be searching for it himself, and in order to ensure the tianwu mercenaries 'safety, Lin Yi decided to walk the entire path by himself first, killing all the wind beasts along the way to avoid any danger.

Lin Yi already had the map in Wu Zhaoyang's hands imprinted in his mind, so he knew where to go next.

However, that path only led to the tianwu mercenary group's mission area and did not lead them deep into the core area of the wind crack cave.

In simple words, it was a dead end. If they wanted to go deep into the core, they had to retreat and find a way out.

"I have to speed up! It would be awkward if the clone collapsed!"

Lin Yi's heart jumped-the thousand changes of wood and forest couldn't be maintained forever, and it would disappear after a while.

However, if the clone was not in battle, it should have no problem maintaining it for a day and a night. However, he could not be too tight on the time.

He had to finish his business within this time and meet up with the tianwu mercenaries before they realized anything.

With a flash of lightning, Lin Yi activated his lightning escape and disappeared into the distance.

The wind in the wind crack cave affected his lightning movement technique, but Lin Yi's speed was still shocking.

As he advanced, Lin Yi's spirit sense was still vaguely catching the abnormal trajectory of the wind. He killed those wind beasts and when he stopped, he had more than twenty Wind Spirit crystals in his hand.

"This place ... Doesn't seem right?"

Lin Yi stopped at a fork in the road, confused.

On the map in Wu Zhaoyang's hand, there should be Three forks in the road, but now there were only two left. The one that disappeared was the one that led to the target area!

The wind here was getting more and more intense, and even with Lin Yi's strength, he had to cover his body with pure Qi, otherwise there would be a lot of resistance when he moved.

Lin Yi stood where the tunnel should've been and knocked on the rock in front of him-it felt extremely heavy.

This was indeed not an illusion, and there was no formation. When he sent his divine sense over, he also did not feel any sense of space.

Chapter 6650 Leveling Up

"Is there a mistake in the map?"

Lin Yi frowned.

He didn't think he had remembered it wrong. After scanning it with his spiritual sense, the map seemed to have been printed in his sea of consciousness, so there was no possibility of him remembering it wrong.

The map wasn't perfect, but Lin Yi didn't think that the person who recorded it would make such an obvious mistake!

Could it be that something had happened to the wind crack cave after this?

Lin Yi shook his head. He didn't have time to waste and walked into a random tunnel.

According to the map, this passage could also lead to the target area of the mission, but the distance was almost twice as long, which was equivalent to a big circle.

Luckily, Lin Yi had his lightning escape technique and was extremely fast.

Lightning arcs flashed as Lin Yi charged forward at full speed, killing the wind beasts along the way.

Soon, Lin Yi came to a relatively empty cave. It was like a huge Palace, able to accommodate hundreds of people. It was the largest space in the known area on the map.

And this large rock cave was also the place with the strongest wind in the known area!

This was because there were seven passages connected to this place. The wind power from all the passages gathered here, colliding and surging with each other, forming a violent vortex.

Cultivators with slightly weaker strength would probably be torn to pieces after entering this vortex.

"What a powerful wind vortex. With this kind of power, I'm afraid that any master below the Yuanying stage will be torn apart. Even Yuanying stage cultivators may be injured!"

Lin Yi stood at the entrance, not going in immediately.

Originally, the sky martial mercenary group did not need to pass through this place. However, they did not expect that a passageway would mysteriously disappear. As such, this was their only option, unless they decided to retreat.

"Eh? There are wind beasts here as well?"

Lin Yi was about to step into the wind vortex to study it when his spirit sense sensed something strange.

These were the traces of the wind beasts 'existence!

However, Lin Yi's spirit sense was still very blurry. It was only an instant, and he couldn't find the trace anymore.

"It seems like he's a powerful character. His hiding ability is also extremely outstanding!"

Lin Yi looked straight at it, guessing what was going on.

Earlier, when Lin Yi was about to step into the wind vortex, the wind beast accidentally revealed a flaw, but it immediately covered it up.

The wind beasts in the whirlpool were obviously quite intelligent. Perhaps it was just instinct, but the wind beasts Lin Yi had encountered before didn't have this kind of instinct.

From this, it could be concluded that this was the strongest wind beast they had encountered so far.

Previously, what Wu Zhaoyang meant was that the wind beasts that could be encountered were usually at the Golden core stage and the original infant stage. The more powerful ones were at the xuansheng stage, and the strongest were at the mountain opening stage!

But the weakest ones he'd come across so far were at the original infant stage, not golden core stage, but quite a few at the xuansheng stage. Could it be that all the wind beasts here had evolved?

Lin Yi squinted his eyes as he calculated. His spirit was scanning the wind vortex even more carefully.

If he wasn't wrong, this was at least an opening stage wind beast. It was about the same strength as Lin Yi, but it was a threat to him.

With Lin Yi's physical defense, the wind vortex couldn't hurt him. At most, it would tear his clothes.

However, it was a different story when there were mountain splitting stage wind beasts lurking to the side. It was very difficult to defend against the attacks of wind beasts with just the defense of the physical body.

However, if they did not kill this wind beast, even if the tianwu mercenaries came, they would still be annihilated!

Lin Yi's eyes turned cold-luckily he'd arrived first!

"I can't find it! You hid it well!"

Lin Yi smiled coldly and raised his palm. "Since we can't find him, then let's just kill him!"

Wild fire Eight Trigram palm! Ice flame blessing!

The dark blue flame instantly soared and directly integrated into the entire wind vortex. The entire vortex made a creaking sound. The cold air that could even condense the air could not freeze the wind vortex.

The wind that filled the sky brought along countless Sparkling Ice crystals as they danced in the air. The light of the flames was even more intense, dyeing the entire Space Blue.

With a sharp howl, the three flaming wind beasts charged out of the wind vortex and charged at Lin Yi like meteors.

The combination of the wild fire Eight Trigrams palm and the icy blaze fire didn't directly extinguish them!

"Powerful indeed! All three of them are at the late-stage of mountain split or above!"

Lin Yi's heart shivered. He thought that there was only one wind beast inside, but there were three!

But Lin Yi wasn't worried at all. He didn't even move a step, just standing there with his hands behind his back.

He watched as the three wind beasts rushed over, and when they were about to get close to him, they exploded into blue fireworks!

The raging fire Eight Trigram palm might not have enough power to kill, but with the icy blaze fire, Lin Yi was sure that the wind beasts wouldn't be able to last long.

Lin Yi could tell from the moment the three wind beasts charged out that this was their last struggle!

In fact, only in the wind vortex could the wind beasts' abilities be displayed to their fullest. Since they had rushed out, it could only be said that the damage caused by the icy flame was too great, and it had reached the limit of what they could bear.

As expected, they rushed over to give Lin Yi three mountain opening Wind Spirit crystals, that was all!

Lin Yi reached out his hand and three pigeon egg-sized Wind Spirit crystals landed in his palm.

The crystal from a mountain opening wind beast was pretty good, the wind energy within was extremely pure. It was a pity that Lin Yi didn't know any wind element Arts, otherwise he would've been able to train with half the effort.

"I wonder where I can find Thunder spirit crystals. It's not a bad choice to get some Thunder spirit crystals to cultivate the Thunder escape technique."

Lin Yi put away the wind Spirit crystal with some regret.

The fire in the wind vortex slowly died out and returned to its original state. Lin Yi then stepped into the wind vortex and walked towards the passage of the target area.

Just as Lin Yi expected, the wind vortex's power was quite shocking. After going deep, even normal nascent soul masters might not be able to resist it!

However, Wu Yuhua and Lin Jiawang didn't have much of a problem. Although they found it difficult, they wouldn't be unable to hold on.

After entering the wind vortex, Lin Yi's spirit sense was even more fragmented, and his detection range was even more blurry.

This influence was naturally formed. Although it didn't weaken his consciousness, it had a similar effect to weakening and restricting it.

After testing the strength of the core area, Lin Yi was ready to speed up and continue clearing the path when the Jade space's warning came!

Lin Yi was taken aback-the warning was too sudden, and he almost didn't have time to react. The lightning arc was a second too late, and dozens of small bloody wounds appeared on his body.
