

Bodyguard 6681

Chapter 6681 Fulfilling Wishes

"Listen, the divine hidden demon eyes were seriously injured this time, so he won't come to you for a while. You should take this opportunity to find a way to leave the abandoned land. With your talent and resources, it won't take long for you to suppress the divine hidden demon eyes. Then, you can come back for revenge!"

"As for the tianwu mercenary group, you don't have to care too much about what Wu Yuhua thinks. You're the only one left, so it doesn't matter if you have this mercenary group or not. It doesn't matter if you stay in the forsaken land either ... What's important is that you live well and don't waste the opportunity that the two of us fought so hard for you ..."

"Little brother, live ... Well ..."

After Wu Yuhua said this, she closed her eyes with a smile.

The last sentence, if Lin Yi wasn't wrong, came from Wu Yuhua. The two of them really did become one.

Lin Yi watched sadly as Wu Yuhua's spirit burned away like ashes, completely disappearing.

"Sister Yuhua, don't worry ... I'll find brother Wu, save him, and revive the tianwu mercenary group! I'll ... Live well!"

Lin Yi held Wu Yuhua's body in his arms and looked up at the sky.

A warm liquid accumulated in his eyes, and his nose couldn't help but feel sour. The gray sky was covered with dark clouds, and drops of rain began to fall. The thing that was sliding down his face ... Was it rain?

Lin Yi didn't reveal his true identity from the beginning to the end. Wu Yuhua's brother was Lei Ying, so he'd let Lei Ying complete her last wish!

The rain started to fall, and Lin Yi threw out a pile of spirit Jade. He used the icy blaze to make a Jade coffin, and carefully placed Wu Yuhua's body inside.

They hadn't known each other for long, but Lin Yi really treated Wu Yuhua as his big sister!

He didn't want Wu Yuhua to be buried alone in the wilderness of the abandoned land, so he made a crystal coffin with spiritual Jade and prepared to bury her in the Jade space.

The Jade space didn't reject Wu Yuhua's body after losing her spirit. Lin Yi closed the lid and put it away in the Jade space, finding a place to put it.

On the other side, Zhong buli's body was lying in the rain, looking very miserable. He didn't have any big wounds on his body, but the fatal one was the consciousness attack of Chu gawang.

He had a high-level spirit defense item, but it couldn't last long. It was like Lin Yi's God bracelet-it was used up almost instantly.

"Lin brat, find out if there's any information on the location of the formation on Zhong buli's body. If there's none, you can only return to broken Yin city and look for ding buqi."

The thing knew that Lin Yi was in a bad mood, but things had to go on.

"Alright, I'll go and look for it."

Lin Yi nodded and came to Zhong buli's side, bowing slightly,"Elder Zhong, I'm sorry for the offense!"

He could just take the spoils of war from his enemies, but he couldn't do that to Zhong buli, his comrade.

After searching for a while, there was no information on the location of the nodes of the formation in Zhong buli's belongings. It was normal when he thought about it. He was so mysterious even when he was traveling, so the location was probably only in his mind.

"There's no other way. I can only return to Broken City. "

Lin Yi sighed softly and put Zhong buli's items back in place, preparing to bring his body back."Senior ghost, in your opinion, how serious are the injuries of the divine hidden demon eyes this time?"

"To be honest, based on the situation just now, if there is no special opportunity, I'm afraid his injuries will not recover in a year or two."

The ghastly thing pondered for a while and speculated.

"A year or two? This means that even if I want to take revenge on him, it will be impossible in a short time!"

Lin Yi shook his head. After all was said and done, he still wasn't strong enough!

If he was strong enough, Wu Yuhua would not have burned herself to save him!

"Don't think too much, let's go back first!"

The damn thing sighed but didn't say anything to comfort him. Lin Yi could understand this himself, so he didn't need to say anything.

Lin Yi nodded and sped back the way he came.

Fortunately, Lin Yi had been using his spirit sense to observe the outside world, or he really wouldn't have been able to find his way back.

However, when Lin Yi returned to Yin Duan city, he was completely stunned by the scene outside the city!

How long had it been since he left? How could such a thing happen?

The black rats had surrounded the entire Broken City and had even climbed up the defense array of the city, gnawing at the light film.

Each of these black rats was as big as a Tibetan Mastiff in the secular world. The aura on their bodies was at least at the xuansheng stage and the mountain opening stage. A few of them had even reached the earth opening stage!

"Senior ghost, what's the origin of this rat?"

Lin Yi looked at the dense group of rats, his hair standing on end.

The rats were so big, and there were so many of them that even Lin Yi's eyes were burning!

"The magical Beast of Darkness, the sun-devouring rat!"

The ghastly thing's voice was extremely grave, even graver than when it saw the shadow God-devouring Lion and the divine hidden demon eyes. "This type of darkness demon beast isn't very strong individually. At most, it's at the earth formation stage. However, they have a special characteristic, and that is their reproductive ability is extremely shocking."

"He's also very strong in the earth-splitting stage, right?"

Lin Yi was speechless-earh stage cultivators weren't strong? On the islands outside of the sky-class Island and the East continent, the highest level of activity on the surface was only at the earth-formation stage!

"Don't interrupt! The reproductive ability of the sun swallowing rats is reflected in the characteristics of their bodies splitting, so a sun swallowing rat, as long as there is enough time, can reproduce into a group. If I'm not wrong, all the sun swallowing rats here have the same ancestor!"

The ghastly thing's tone was a little strange, as if it was disgusted.

"Senior ghost, do you mean that the sun devouring rat also escaped from the formation? And there was only one at that time, but now it's turned into a large rat tide?"

Lin Yi took in a deep breath-the dark beasts weren't simple after all.

The threat that a mere rat posed in the end was probably even greater than that of the shadow God-devouring Lion and the divine hidden demon eyes!

How did the Almighty person who set up the cage do it? and how many students have died in the past trials? Why would they release so many darkness monsters after failing the quest?

"I'm just guessing. Let's not talk about this. Hurry into the city and find ding buqi."

The ghostly thing didn't want to talk much and urged Lin Yi to enter the city.

The entire Broken City was surrounded by rats. Lin Yi used his spirit sense to scan and found that there were at least hundreds of thousands of sun-swallowing rats!

Even though he'd seen the sea beast tide before, Lin Yi was still a little shocked by the sheer number of them.

"Senior ghost, I'll kill my way out and charge into Yin Duan city! Help me open a gap in the defense array. "

As Lin Yi spoke, two super alchemy fire bombs had already formed in his palm!

Lin Yi activated his lightning escape and appeared above the sun-swallowing rats in a flash. He threw two super alchemy bombs into the air.

Chapter 6682 Sun-Devouring Rat

Two huge fireworks instantly exploded in the rat tide. Countless sun devouring rats flew into the sky, their flesh and blood in a mess. The defenseless rat tide immediately fell into chaos.

Lin Yi looked at the scene coldly and emerged from the lightning arc. He spread his ghost-speed wings and hovered above the rat tide, a strong wind gathering around him.

Wind splitting fangs, thousand blade slash!

More than a thousand Wolf Fang wind blades were activated. Like a huge killing machine, they rushed into the rat tide below, bringing with them countless broken limbs and bones. In an instant, hundreds of sun devouring rats were killed.

However, to the entire rat tide, this was just a drop in the ocean. It could not cause any waves at all.

"Hurry up and leave, don't waste time here! You don't understand the habits of the sun swallowing rats. The more you kill, the stronger the remaining sun swallowing rats will be!"

Lin Yi could tell that something wasn't right as soon as the thing finished speaking.

Flesh and blood splattered everywhere, but the surrounding sun devouring rats didn't care. They directly opened their mouths and devoured the flesh and blood. The aura of those who ate the flesh and blood of their own kind would become stronger!

"They can actually devour their companions to strengthen themselves?"

Lin Yi's jaw dropped. The dark beasts were indeed strange and unimaginable.

"Under normal circumstances, they won't devour their living companions, but their dead companions are their best food! This is because it's a part of them, so devouring it is just recycling it. "

The ghastly thing sighed and explained.

Lin Yi's hair stood on end-this was too scary!

"If it wasn't for the fact that there's a limit to the sun-devouring rats' strength, this method would allow them to evolve infinitely! It's a good thing that sun-devouring rats can only choose to split their offsprings after they reach the great circle of earth-splitting stage, and they can't break through to the sea-breaking stage. Otherwise, a rat tide would be enough to sweep through the sky-class Island, and even the sea beasts wouldn't be a match for them!"

Lin Yi agreed with the ghostly stuff.

This was truly a terrifying race. It was impossible to completely exterminate them! As long as they hid a few of them in advance, they could reproduce an infinite number of new groups.

At this point, Lin Yi wasn't in the mood to continue killing the sun-swallowing rats. He had business to attend to.

"It seems that the sun swallowing rat, which isn't very strong individually, is the most terrifying type of darkness magical beast! Was there any way to kill it? Are you looking for the Black Cat Sheriff?"

Lin Yi's heart felt heavy as he glanced at the rat tide.

If left alone, this rat tide was enough to destroy the entire abandoned land. Now that the city was broken, the other cities would definitely be next. Some cities might have already been destroyed.

"Of course there is a way, but you don't need to think about it now. You don't have the ability to do it, so take care of yourself first!"

The ghostly thing didn't want to talk anymore and urged Lin Yi to hurry into the city.

Lin Yi sighed and flapped his ghost-speed wings towards Yin duancheng. The sun-devouring rats below kept on attacking him, making it very troublesome.

In order to clear a path, Lin Yi had to use the thousand changes of wood and forest to deal with it. When he arrived at the city gate, there were at least three to four thousand sun-devouring rats that had died in his hands!

However, this was of no use. The dead sun-swallowing rat quickly became the nutrients for its companion.

"The city gate is closed. After the defense array is activated, it won't be easy to get in!"

The ghostly thing's divine sense scanned the broken city gate and felt that it was a little tricky.

It wasn't difficult for that damned thing to break this defense array. However, once it was broken, the entire broken Yin city would fall into the rat tide!

Although there were many experts in broken Yin city, most of them were below the xuansheng stage. They were not even as strong as the sun-swallowing rat.

Once the tide of rats entered the city, it would be a large-scale massacre. All the cultivators would become food for the tide of rats.

"Senior ghost, can you be more reliable? Only now do you say you can't get in!"

Lin Yi couldn't help but roll his eyes.

"Confucius said, why are you panicking! What can trouble this old man?"

The demonic thing snorted and felt that it was in the wrong. It continued to use its spiritual sense to observe the defense array, looking for loopholes that could be used.

"Confucius said, I never said ..."

Lin Yi was speechless.

"I'm talking about sun sikong, han Jingjing's master, sun sikong. Is there a problem?"

"Brat, if you're capable, you can do it yourself!" The ghastly thing was furious.

"There's nothing wrong with that ..."

Lin Yi was speechless. "I think you should ..." Lin Yi didn't dare to argue.

"Hmph!"

The ghastly thing snorted and said indifferently, ""This old master already had a trick up his sleeve! The area we cut out last time can be used as the entrance to Yin Duan city!"

Lin Yi suddenly remembered the formation in the square!

The array flag that was controlling that Jiang was still in Lin Yi's hands. Because of Zhong buli and ding buqi's sudden arrival, Lin Yi didn't have the time to restore the array to its original state after cutting it up.

Therefore, it could be said that it was a completely independent existence that complemented and complemented the entire array. Entering Yin Duan city from there would not affect the entire array.

"I'll be there immediately!"

Lin Yi's ghost speed wings flapped as he tried to fly above Yin Duan city, but he was stopped by the air restriction.

"Don't forget that we can only fly at low altitudes here. Use the lightning escape technique!"

The ghastly thing laughed twice and pointed out.

"This place also forbids flying!"

Lin Yi didn't know what to say. He kept his ghost speed wings and turned into a lightning bolt, flying up the array.

Lin Yi didn't care if the sun-swallowing rats were dead or not-he'd just clear them out first.

In an instant, Lin Yi arrived at the defense array above the square. There were more sun-swallowing rats here, and they were all at least in the mountain opening stage. When they saw Lin Yi, a dozen of them charged at him.

"Not good, the sun devouring rat has found a hole in the defensive array!"

The demonic thing was shocked. Because the defense array was covered with sun swallowing rats, he didn't notice anything wrong.

However, when the sun swallowing rats rushed out, the ghostly thing realized that the rats near the defense array were madly gnawing at the tiny cracks.

"Lin Yi, clear out all the sun swallowing rats here, or else the Plaza's defense formation is going to collapse!"

The ghostly thing shouted loudly. Once the gap was opened, the rat tide would rush into Yin Duan city from here.

Although the damn thing didn't care about the lives of the cultivators in the broken city, this hole was created by him and Lin Yi, which meant that the broken city was indirectly destroyed by them, so he couldn't bear to do it!

Lin Yi didn't dare to slow down and used the thousand blade slash again. The lightning explosion was stronger and had a wider area, but Lin Yi didn't dare to use this kind of explosive power on the defense array. He was afraid that he might accidentally break the defense array for the sun swallowing rats!

The whirlwind formed by the wolf Fang wind blade swept in all directions. Even the mountain opening stage sun-swallowing rat could not face it head-on!

After all, Lin Yi's actual combat strength had already reached the earth formation stage.

Chapter 6683 Repairing The Defense Array

"It's too late!"

The ghastly thing sighed with hatred.

Although Lin Yi was extremely fast in killing the sun-swallowing rat, he was still a step too slow.

The cracks in the defense array were completely torn apart by the sun devouring rat. In an instant, the defense array above the square was completely shattered.

The sun swallowing rats on the defense array fell down while screaming excitedly, and more sun swallowing rats rushed over like a tide into the gap. Lin Yi couldn't stop them in time.

"Senior ghost, we need to think of a way to repair the defense array!"

A lightning arc flashed on Lin Yi's body as he charged into the broken city and tried to block the gap.

"It's no use. The sun devouring rats that entered first have already scattered in all directions to search for the nodes of the defensive array. Although these darkness magical beasts don't understand the Dao of arrays, they can't fight against the large number of them. They can cause damage just by casually eating them. "

"Lin Yi, go find ding buqi right now and ask him to leave with you," the demonic thing said helplessly.

"No, senior ghost. Even if it's useless, we have to try our best to salvage it because the people in the broken city will also do their best to resist. As long as we can buy some time, we can repair the defense array."

For the first time, Lin Yi rejected the ghostly thing and went all out to kill the sun-devouring rat.

The ghostly thing was silent for a moment and did not insist.

The two's spirit sense merged together, and through Lin Yi's hand, the ghostly thing started to throw out formation flags.

The sun-swallowing rats that came in later started attacking Lin Yi as they ate their comrades "meat.

The sun-devouring rat was quite intelligent-it knew that only by killing Lin Yi would its kind be able to enter without any obstructions.

Lin Yi was panicking, but his hands were still in order, attacking and repairing the formation at the same time. Fortunately, he had the help of the damn thing, or it would be really tiring.

After a while, the gap finally closed, and Lin Yi let out a breath of relief. He used all his strength and swept away all the sun-swallowing rats in the area.

"Senior ghost, the other nodes of the formation have not been broken through yet. Let's hurry over to provide support!"

Lin Yi said, worried.

"There are at least eight to ten thousand rats coming in from the gap this time. You have to be mentally prepared."

The ghostly thing wasn't very active, and it didn't have much energy to talk.

If there were thousands of sun-swallowing rats gathered together, Lin Yi could use his wide-area attack skills to kill them all, but if they were spread out across the entire city, it would be a lot more difficult to kill them one by one.

Furthermore, most of the experts in Broken City were not as strong as the sun devouring rats. It wouldn't take long for these eight thousand sun devouring rats to eat these experts, and their numbers would probably double.

Lin Yi turned into a lightning arc and shuttled around Yin Duan city.

In such a short period of time, the entire broken Yin city had turned into a hellish place, with screams and broken corpses everywhere.

The situation was just as expected. The human experts were almost completely massacred. Even if they could occasionally kill one or two sun-swallowing rats, they would soon be surrounded and killed.

The cultivators and the sun-devouring rat that were killed were immediately devoured and became nutrients for the sun-devouring rat. While their strength increased, they split and produced new offspring at the same time. It was almost an infinite cycle!

Lin Yi immediately activated the thousand changes of wood and forest, and the thousands of clones spread out.

"Lin kid, your clone is not weak. It's almost invincible in the xuansheng stage. It's not that it can't fight the sun-devouring rat in the mountain opening stage. Most importantly, it won't become nutrients for the sun-devouring rat even if it's killed. It's the best martial skill to deal with it!"

The demonic thing exclaimed in surprise. It didn't expect that the simplest martial skill would have such a wonderful effect.

"Unfortunately, there are too few of them. The effect is very limited."

Lin Yi shook his head. If he could increase the number of clones with the thousand transformations, then these rats wouldn't be a threat anymore.

The battle had spread throughout the entire city, and Lin Yi's clones had a huge advantage. With the help of the other Masters in the city, the situation had stabilized.

In order to stop the sun-devouring rat from getting stronger, Lin Yi used his fire to Burn The Sun-devouring rat's body after killing it.

Although the efficiency of this stupid method was a little low, it was quite effective. The speed of the sun-devouring rats' fission was restrained because the rat tide in the broken city was slowly decreasing.

Lin Yi's real body, on the other hand, was reinforcing the nodes under the command of the ghostly thing. An hour later, the tottering defense formation was reinvigorated and strengthened.

"Fortunately, the spiritual Qi in Broken City is abundant and enough to support the operation of the city's protective array. Otherwise, it would have really collapsed! Lin brat, you've done well this time!"

After reinforcing the last node, the ghostly thing couldn't help but exclaim in admiration.

If it wasn't for Lin Yi's persistence, the damn thing didn't think it would have a chance at success at all!

The demonic thing was very pleased-this meant that Lin Yi's strength and formation skills had grown, and it was beyond his expectations.

"Senior ghost, you're not only strengthening the formation, right? Did they make any modifications?"

Lin Yi's attainments in formations weren't low anymore, and this thing was setting up formations through his hands. Naturally, he'd be able to find something.

"That's right, you have good eyesight now! This city-guarding formation was originally a top-tier level-eight formation technique, and can be said to be infinitely close to level nine. Now that I've made some slight modifications, it can be completely upgraded to level nine. You just need to insert the last formation flag and the final upgrade will be completed!"

The ghostly thing laughed strangely and sounded very proud.

To be able to do this in such a short period of time, there were probably only a few people in the world today, other than the ghostly things.

Only now did Lin Yi let out a breath of relief. The gap in the formation was opened because of him, which caused the loss of a large number of Masters in Broken City. Now that he made up for it, he could finally relax a little.

Following the directions of the damn thing, the last formation flag was inserted, and the entire formation appeared in Lin Yi's sea of consciousness!

Lin Yi had full control of the city protection formation.

"That's great! All the invading sun-swallowing rats are under the control of the formation!"

Lin Yi's eyes lit up as he activated the strangulation function of the defense array without hesitation.

Countless rays of light filled with killing intent shone down, enveloping the sun-devouring rats in the city.

Almost in an instant, all the invading sun-swallowing rats were killed, and Lin Yi's clones used the opportunity to burn everywhere with the alchemic fire. The entire Broken City was covered in black smoke.

"Senior ghost, if we let those sun devouring rats outside into the formation and kill them with a powerful formation, would it work?"

Lin Yi asked after some hesitation.

"If you're confident, then let all the sun-swallowing rats outside the city in and exterminate them in one fell swoop!"

"But don't get yourself into trouble!" The demonic thing sneered.

Chapter 6684 Final Entrustment

The upgraded city protection formation was indeed powerful, but it wasn't enough to kill hundreds of thousands of sun-swallowing rats at the same time. If he overreached himself, he would be finished.

Lin Yi estimated the power of the formation and gave up on the alluring idea.

And the key problem was that it was impossible to kill all the sun-swallowing rats. As long as one was left outside, it would come back again in time.

"No one activated the formation when the sun-swallowing rats entered the city. Did all the people controlling the formation die?"

Lin Yi looked at the bodies all over the ground, speechless at the defense of Broken City.

If the defensive formation at the peak of level eight had been activated to deal with the sun-swallowing rats from the beginning, so many masters in the city wouldn't have died.

"Forget it, let's go to the city Lord's mansion to find ding buqi. I don't know what he's doing."

Speaking of ding buqi, the demonic thing was a little unhappy. As the only expert in the shattered Sea in the broken city, the sun-swallowing rat had invaded, and he was not coming out to fight?

If Lin Yi didn't come back, Broken City would've fallen already.

Lin Yi's lips twitched. He didn't have any opinion on ding buqi, and he must have his own reasons for not coming out.

Lin Yi's spirit sense swept across the manor, and the restrictions that restricted his spirit sense couldn't stop him at all. Ding buqi was indeed in the manor, but ...

Ding buqi was seriously injured and on the verge of death?

Lin Yi blinked-he didn't expect something like this to happen.

As the broken city was the only one in the sea Rift stage, who could cause ding buqi to be so severely injured that he almost died? The strongest in the rat tide was only at the earth formation stage, and because of the human experts in Broken City, there was no one who was his opponent.

Lin Yi didn't have time to think about it. He turned into a lightning bolt and rushed into the mansion.

Ding buqi was in the living room. Her meridians were all broken and her primordial spirit was dispirited. She was already on the verge of death. On the floor of the living room, there were a few corpses lying haphazardly.

"Elder ding, how are you? What's happening?"

Lin Yi ran to ding buqi's side and fed her a healing pill. He immediately started channeling his art of Dragon mastery to give her pure energy.

Unfortunately, ding buqi's meridians were all broken, and Lin Yi's pure energy couldn't move an inch. He had to repair her meridians bit by bit first!

"Master Lei, you're back. Is Zhong buli dead?"

Ding buqi's eyes flashed with despair when he saw Lin Yi.

Zhong buli wasn't by Lin Yi's side, and Lin Yi came back by himself, so it was only for a moment, but ding buqi had a bad feeling.

"Yes, we were ambushed by the darkness demon beasts on the way. Elder Zhong risked his life and finally died!"

Lin Yi's expression darkened as he explained the situation to ding buqi.

Ding buqi probably wouldn't have the energy to listen to the details-Lin Yi shouldn't have told her about Zhong buli's death in her situation, but she'd already guessed it herself, so there was no need to hide it.

"Darkness magical beasts again! How did the darkness demon beasts that disappeared for so many years suddenly become so rampant?"

Ding buqi heaved a long sigh, his breathing growing weaker.

"Elder ding, what's wrong? Are all the people here?"

Lin Yi glanced at the body on the ground, confused.

From the looks of it, it didn't seem like the sun-devouring rat's doing. Instead, it seemed like ding buqi and these people had killed each other! Could it be an internal strife?

"I killed him!"

Ding buqi readily admitted, a hint of disgust appearing on his pale face. "These ungrateful B * stards actually took advantage of the fact that I was the only one in the city to plot against me. They wanted to take control of Yin Duan city!"

Lin Yi thought to himself, "as expected, there really was an internal conflict. What's the point of taking control of Broken City?"

Even if they killed ding buqi, when the city Lord or Zhong buli returned, they would not be able to walk out of this alive!

"Master ray, it's all thanks to you that you came back in time. Otherwise, Broken City would have been finished. I know everything you've done for Broken City!"

Ding buqi sighed softly and raised his trembling hand.

At this moment, ding buqi was like an old woman with one foot in the grave. Lin Yi wanted to save her, but there was nothing he could do!

Ding buqi's main injury was not on his body, but on his primordial spirit!

He could heal his body with pills and the art of Dragon mastery, but he couldn't do anything to his soul.

Ding buqi's spirit was heavily injured and was starting to collapse. His life force was fading away bit by bit, and Lin Yi could only look at it all with a heavy heart.

This was the second time Lin Yi had encountered such a situation in a short period of time. The first time was Wu Yuhua, and this time was ding buqi.

After coming to the mystic division, Lin Yi felt a deep sense of defeat. His golden finger, which had always been successful, was weakened infinitely here, and he had to run for his life all this time.

"Master Ley, this is the secret of our Broken City. I hope you can help me pass it to the city Lord! I'm sure Zhong buli didn't have time to tell you how to find the city Lord when you came back this time, so I'll tell you now ..."

In ding buqi's hand was a palm-sized Jade box with a seal on it.

Lin Yi's spirit sense could easily and happily pass through the restrictions, but he didn't do that.

Since it was broken city's Secret, he was not too curious.

"Don't worry, elder ding. I'll definitely bring the thing!"

Lin Yi accepted the jade box and promised.

"Thank you, master Lei!"

Ding buqi's face flashed with a gratified smile.

"Elder ding, is this what they're after?"

Lin Yi shook the jade box in his hand and glanced at the body on the ground. Could it be that this secret involved the control of Broken City?

"That's right, but I don't have time to explain it to you. You'll know when you see the city Lord. You must remember that position ..."

Ding buqi gestured for Lin Yi to come closer before whispering a location.

Lin Yi didn't know what was going on-he wasn't from the abandoned land, so he'd have to find out where the place ding buqi was talking about.

"Master Lei, I'll leave the rest to you!"

Ding buqi was panting heavily, and it looked like he was about to die.

"Elder ding, rest well. Leave it to me."

Lin Yi held ding buqi up, sighing in his heart. Ding buqi was about to run out of energy.

"No, listen to me. If you don't tell me now, you won't have the chance."

Ding buqi's mouth twitched with bitterness, and he shook his head slightly. "Master Lei, I know what's going on outside. You saved everyone's lives in Broken City, but the enemy is too strong. If things go south, you have to take care of yourself ..."

"I will!"

Lin Yi nodded. Take care of yourself, take care of this Jade box!

The jade box that ding buqi yearned for even before his death showed how important the secret was!

Lin Yi didn't understand why city Lord Yin Duan didn't keep such an important thing with him, but instead left it with ding buqi.

Chapter 6685 All Dead?

"Please, you ..."

At this point, ding buqi's eyes widened, and his hands tightened around Lin Yi before letting go.

After Zhong buli, ding buqi also fell.

The fate of these two people was just like their names, they would never leave each other.

Lin Yi sighed and closed ding buqi's eyes. He carried her body out of the living room.

As for the traitors on the ground, Lin Yi took the spoils of war when he passed by and formed a ball of icy fire to burn them all to ashes.

These traitors were probably the Guardians who controlled the great formation of the city. Sure enough, they were jackals of the same tribe as protector Jiang. In that situation, they didn't protect yinduan city at the first moment, but joined forces to seize power.

Outside the living room was an exquisite courtyard. Lin Yi blasted a hole in the middle of the courtyard and buried ding buqi and Zhong buli, then made a simple gravestone.

"Elder Zhong, elder ding, rest in peace here. I will do my best to protect Yin duancheng and not let the sun-devouring rat destroy your home ..."

Lin Yi stood in front of the two's graves, cupped his fists, and bowed before turning to leave.

After leaving the mansion, Lin Yi looked up at the sky. The protective light film of Broken City was still filled with sun-swallowing rats, and the atmosphere in Broken City was heavy.

Just now, there were only eight to ten thousand sun-devouring rats, and they had already dealt a heavy blow to Broken City. There was even a rat tide that was dozens of times larger. Everyone in the city was filled with despair. This time, Broken City was most likely doomed!

"Senior ghost, can we first let in a portion of the sun swallowing rats, and after we kill a batch, we will let in another batch, gradually nibbling away at the rat tide?"

Lin Yi frowned, but he wasn't sure.

"It's not that it's impossible, but the problem is, can you close the formation in time after you let it in? If we fail, the tide of rats will rush in, and the consequences will be unimaginable!"

The damn thing didn't say whether it supported it or not, it only mentioned the disadvantages.

Lin Yi pinched his chin and started calculating. Even the ghost couldn't be sure of something like this, so he couldn't be sure.

Just as Lin Yi was hesitating, the entire Broken City suddenly brightened up. The sun shone down from the sky and instantly dispelled the haze in the hearts of the people.

It wasn't the sudden appearance of sunlight, but the sudden retreat of the sun-devouring rats!

The densely packed sun swallowing rats on the defensive array's light film suddenly disappeared, and the sunlight naturally shone into the entire Yin Duan city.

"The rat tide has retreated! The rat tide has retreated!"

This was because shouts of surprise and joy rang out from all over the broken city, one after another.

Lin Yi was a little surprised-the rats had the upper hand, why did they retreat all of a sudden?

This strange situation made Lin Yi a little speechless. He was just about to make a difficult decision, but the tide of rats didn't even care about him. They just retreated without any warning.

"Perhaps the sun-devouring rats realized that the formation had been reinforced and they could no longer easily break through the city's defensive formation, so they left."

The ghostly thing couldn't guess the specific reason, and only the sun-swallowing rat knew the reason.

However, no matter what, driving away the sun-swallowing rat was a good thing for Broken City. He hoped that the next city the sun-swallowing rat went to would be safe and sound.

"Take advantage of the rat tide's retreat and leave Yin Duan city as soon as possible. Quickly meet up with the city Lord and see if you can return directly."

The ghost didn't want to stay in the abandoned land any longer and kept urging Lin Yi to move.

After continuously encountering so many troublesome darkness magical beasts, that damned thing had had enough! Lin Yi's strength was still too low, and he didn't have an advantage against these dark beasts. He was being suppressed all the way, and even he wasn't happy.

Instead of staying here and facing danger at every step, it was better to leave as soon as possible and come back to sweep the world in the future when he was stronger.

"Senior ghost, before we leave, shouldn't we make some arrangements for the broken city? After all, almost all the higher-ups in the city are dead. After such a serious incident, there is no one to call the shots, because Broken City might continue to be in chaos. "

"What does it matter to you whether the broken city is chaotic or not? You still want to be the city Lord?"

The ghastly thing was speechless and was about to explode from anger. "Lin brat, you're like a clay Bodhisattva crossing a river, you can't even protect yourself now. You should think more about yourself! If the rat tide comes back, you won't be able to leave even if you want to! Don't worry, because Broken City has a stable supply of spiritual Qi, the city's protective array can be kept open. You just need to find a guard at the gate to give him the array flag. "

Lin Yi nodded and didn't insist. The higher-ups of Broken City were done for, but there were still a lot of middle-level Masters. These people had already started maintaining order in Broken City, so he didn't need to worry.

"Alright, let's go now!"

Lin Yi nodded-he'd helped Broken City, and he didn't owe him anything. He'd already done his best, and it was time to do what he needed to do!

At the city gates, Lin Yi passed the formation flag to the guard leader and quickly left the city.

In order to get there as soon as possible, Lin Yi used all his strength to activate his lightning escape and ghost speed wings. Compared to Zhong buli's speed before, he was a few times faster.

After half a day, Lin Yi arrived at a Canyon in the mountain range. This was the location that ding buqi had given him.

But as for the exact location, he had to find it himself since ding buqi had never been there before.

But Lin Yi wasn't in a hurry. He merged with the ghostly thing's spirit sense and started scanning the entire Canyon.

"There's nothing? Looks like there's a hidden formation outside the formation nodes. We'll have to search for it carefully. Let's go into the canyon first. "

The ghostly thing was a little surprised, but it made sense.

If the nodes were discovered so easily, they would've been destroyed long ago. How could they wait for Lin Yi to come?

He just didn't know how Broken city's people discovered it. Logically speaking, with their array Dao standards, they shouldn't have been able to see through the concealment array.

Lin Yi entered the canyon and started scanning with his spirit sense. He only scanned roughly before, but now he was searching inch by inch. He found the traces of the stealth formation very quickly.

After all, someone had already come in and out. No matter how careful one was, it was impossible to restore the concealment array to its original state, because the person who came in and out did not have the array Dao attainments!

"Tsk tsk, this concealment array is not simple. If it wasn't for the fact that some of it has been damaged, we wouldn't have been able to discover it so easily."

The damn thing complimented and started teaching Lin Yi how to enter the formation.

Lin Yi didn't even need to break the invisibility formation-he just drove in, and the protective formation behind him was already broken. Lin Yi just passed it, and everything opened up.

"Eh? There's an intense battle here?"

Lin Yi didn't even have time to see where the nodes were when he was shocked by the bodies in front of him! These corpses were already lifeless, and no one knew how long they had been dead.

Chapter 6686 Conspiracy?

"Be careful!"

The ghastly thing reminded.

Lin Yi nodded, but didn't rush into action. He observed his surroundings carefully.

It was a basin surrounded by towering mountains, and the sky was covered in clouds. There didn't seem to be any other way in and out other than the entrance Lin Yi came in from.

In the middle of the basin, there was an irregular stone pool with a radius of dozens of meters. In the middle of the stone pool, there was a stone platform. It was blocked by a faint mist, and one could not see what was inside.

The surroundings of the stone pool were slightly damaged from the battle, but it did not affect the stone pool at all.

"The stone pool is a brilliant defense array. It's impossible to break this defense array without extremely high array Dao attainments. The stone platform in the center of the stone pool should be where the nodes of the array are!"

The ghostly thing was a little uncertain.

"Senior ghost, can you open this defense array?"

Lin Yi still couldn't see through the stone pool's defense array, and if that thing couldn't do anything, he'd have to force it.

"I need to do some research. The person who set up the defensive array is very skilled in array Dao and has already surpassed the scope of a level 9 array technique. It's too awesome!"

This was the first time that the demonic thing had spoken like this. Clearly, the person who had set up the defense array was very impressive.

"I wonder if the city Lord of Broken City is among these corpses?"

Lin Yi turned his attention back to the body while the thing was studying the defense array.

"Go look for clues on these corpses."

After the demonic thing finished speaking, his spiritual sense landed on the stone pool's defense array and he began to study it.

Lin Yi was looking for clues on the body, but there was nothing. It seemed that someone had already taken the loot, and quite thoroughly.

There were no clues, and he couldn't confirm the identity of the bodies, so Lin Yi decided to burn them all to ashes so that they wouldn't be exposed in the wilderness. It'd be annoying.

The corpse quickly melted in the flames, but the next moment ...

Countless buzzing sounds could be heard from within the flames as a black shadow broke free from the flames and charged towards Lin Yi.

"What the hell?"

Lin Yi was shocked-this was too sudden, there were no signs at all! He had already subconsciously turned into a lightning bolt and flew to the side.

"It's the corpse demon bee! You're really a jinx! You run into darkness magical beasts everywhere you go, you two are natural enemies, right?"

The ghostly thing was about to explode in anger. He had wanted to study the defense array in peace, but his plan had been ruined.

"Darkness magical beasts again? How many darkness magical beasts are there in this abandoned land?"

Lin Yi's heart was breaking down-who wanted to run into dark beasts everywhere?

"Corpse demon bees live in corpses and absorb nutrients. They are not afraid of water or fire and are difficult to deal with! However, these demonic corpse bees are not mature yet, so they should not be too difficult to deal with. "

The ghastly thing said indifferently, as if he knew every kind of darkness magical beast very well.

"How do we deal with it?"

Lin Yi continued to Dodge, speechless. "Not too hard?"

The demonic corpse bees in the air had already gathered into a black cloud, and Lin Yi was in a hurry.

"The primordial spirit of the corpse demon bee is very weak before it matures! Use the spiritual awareness Whirlpool and the thousand blade slash. "

After the ghastly thing finished speaking, he became serious again. "If there are juvenile demonic bees, then there must be adult demonic bees. Be careful, there might be a bunch of them coming out from somewhere."

Lin Yi's mouth twitched. Was this a warning or a jinx? However, no matter what, he had to get rid of the small group of demonic corpse bees first.

Lin Yi threw a few spirit sense vortexes around the bees and controlled them to gather in the center, enveloping all the corpse demon bees.

Sure enough, just like what the ghost said, the undead demonic bees had almost zero resistance to spiritual sense attacks. The demonic bees that were sucked into the spiritual sense vortex fell down without any resistance.

Lin Yi quickly followed up with another Wolf Fang wind blade, and the unconscious bees were completely crushed by the wind blade. Not a single one was intact when they landed.

Lin Yi let out a big breath of relief. The corpse demon bee seemed to be the weakest of all the dark beasts he'd met. Even the sun-swallowing rat was stronger than it!

"Hmph, don't be too happy yet. These are undeveloped demonic corpse bees. Mature demonic corpse bees aren't that easy to deal with. When they fly, they will resonate and form a layer of Sonic defense that can resist soul consciousness attacks and physical attacks!"

The ghastly thing sneered and poured a basin of cold water on him.

"Does that mean that we can't use the soul consciousness Whirlpool to deal with the adult corpse demon bees?"

Lin Yi's heart skipped a beat, and he retracted his contempt.

"It's not that you can't. As long as your consciousness is strong enough, you can ignore the corpsesedemon bees' resonant sound wave defense! It's just that your divine sense is still too weak, even with my help, it still depends on the size of the corpse demon bees. "

The demonic thing said as he scanned the surroundings with his divine sense. He relaxed a little, as he did not find any other corpse demon bees.

"The big corpse demon bee didn't appear. It's probably not here!"

Lin Yi looked around-he didn't let his guard down, but he felt a lot more at ease.

"The big demonic corpse bees aren't here yet ... Lin Yi, why do you think they're not here? With the demonic corpse bee's habits, it shouldn't give up on its offspring so easily. "

The ghastly thing felt that something was amiss.

"Is that so? Then why?"

Lin Yi was confused as well,"forget it, who cares. Let's open the array and see if the node can help us leave the abandoned land."

"Wait! I think I've thought of something! Open the defense array? The main point is to open the defense array?"

The ghastly thing's voice suddenly rose, as if it had understood!

"Did the big demonic corpse bee not come out on purpose and wait for us to open the defense array?"

Lin Yi was surprised. He had a great connection with this thing, and he immediately thought of something.

"It's very possible! The darkness demon beasts have been trapped in the abandoned land for who knows how many years, so it's impossible to forcefully attack the only entrance. Even if they do, it'll be useless. The initiative is in the hands of the people outside, and if they don't let us in, it'll be useless no matter how strong they are. "

The ghastly thing said slowly.

"But if that's the case, how did the people here die? The purpose of them coming here is to study how to open a passage, which is exactly what the darkness demon beast wants. They shouldn't be killed, right?"

Lin Yi shook his head, thinking it was weird.

"Maybe these people are the same as us. They discovered the darkness demon beast's plot and were ready to give up, so they were killed? To be honest, I'm even suspecting that the darkness magical beasts intentionally released this information to attract everyone here. "

The more it thought about it, the more it was scared. If this was really the dark Demon beasts 'plan, then Lin Yi was in danger!

Chapter 6687 As Expected, She Did It On Purpose

"The darkness demon beast intentionally leaked the information? How did they discover this node?"

Lin Yi couldn't help but admit that the ghost was right.

The location of this Canyon was extremely remote, with thin spiritual energy and scarce resources. Usually, no one would come here on purpose, let alone discover the concealment array that even ghosts would find difficult to discover.

But the darkness magical beasts were different. When they escaped from their cages, they were very weak and couldn't appear in the public eye, so they chose some remote places to hide and recover, which made it easier for them to find this place.

"It's no longer important how you discovered it. You should leave immediately. I've already memorized the general situation of the defensive array. Come back after you've studied it. I keep feeling that something's not right. "

The ghastly thing didn't say much and directly urged.

Lin Yi nodded and turned into a lightning arc, flying towards the exit.

However, when they passed through the broken defense array, the Jade space suddenly sounded an alarm!

In the next moment, countless small attacks came at Lin Yi's lightning arc!

Lin Yi was shocked. He instinctively controlled the lightning arc to change direction, but after several turns, he had no choice but to retreat back to the stone pool.

"There's indeed a problem!"

The ghostly thing snorted and quickly merged with Lin Yi's spirit sense, ordering Lin Yi to quickly scatter the formation flags.

Countless low-level arrays were completed in an instant, and then they were combined together to form a high-level array. After a few times, a level 9 defensive array was miraculously formed in a short time.

This was a new formation technique that this damned thing had just learned. Even though it was profound and intricate, it was not something that a formation master like him could not understand. After careful deliberation, he was able to use it with ease.

The only pity was that this damned thing had no way of combining this formation technique with the original one for the time being. In order to pursue speed, the function of the formation was very simple. A defensive formation was a defensive formation, and it could not be layered with a deathtrap formation and so on.

Lin Yi had just finished setting up the formation when the attack came from the entrance and slammed into the defensive formation!

If it weren't for Lin Yi's perfect coordination with the damn thing, he would've been dead if he had been just a little slower!

However, from the looks of the attack, it did not seem to be triggered by the corpse demon bee. Although the corpse demon bee's attack was powerful, it was not so concentrated.

"Human, since you're here, don't even think about leaving. I see that your array Dao is quite good. Open the defense array obediently and I'll let you live. You've killed so many little corpse demonic bees, so you should at least compensate me before you leave!"

An eerie male voice came from the entrance, but he didn't see anyone.

Lin Yi's expression changed. After he fused with the ghostly thing's spirit sense, it was a few times stronger. He couldn't see anyone with his eyes, but his spirit sense detected something.

"Senior ghost, What is this? Invisibility? Our combined divine senses can't even catch his whereabouts!"

Lin Yi was surprised-no wonder he didn't notice it when he was outside. He'd have been fooled if he hadn't paid attention.

"It's the shadowless demonic corpse beast! They liked to devour the corpses of human experts and then turn into human-shaped magical beasts! Its biggest feature is that it can become invisible, and he is the best partner with the corpse demon bees. No matter how large the scale of the corpse demon bees is, they can live in his demon corpse!"

The ghastly thing explained in a solemn voice, ""The most important thing is that shadowless devil undead beast has the same divine sense as us. Its power can be combined with the undead devil bees to unleash an attack that is far beyond its own strength!"

"Ha ... These shadowless demonic undead beasts are quite intelligent. We can now confirm that this is fake news that they deliberately released. And their goal is for us to open the path to the mystic class sea!"

Lin Yi smiled coldly as he made his decision.

Lin Yi wasn't a selfless person, nor was he a warm-hearted person, but there were still many people he cared about in the mystic division sea. He'd rather die Here than help the dark beasts open the path.

"Senior GUI, it seems like we'll have to fight for the ten spots if we want to return to the mystic division Sea area."

Lin Yi sighed. He couldn't open the passage now, and he had to fix the defensive and invisibility formations to avoid being discovered by others.

"You don't have to fight for a spot, you just need to kill the shadowless demonic corpse beast."

These things were always very cruel, encouraging Lin Yi to be a cruel person and do cruel things.

"That makes sense. Then, senior ghost, tell me, how can we kill the shadowless demonic corpse beast?"

Lin Yi shrugged. Killing him wasn't a problem, but the problem was how he was going to do it.

"Shadowless undead demon is not that powerful, and its attack and defense are average, but once it is combined with the undead demon bees, it becomes more than one plus one equals to more than two! You can try the ultimate super pill fire bomb and the black bead. "

The demonic thing pondered for a moment. He knew what cards Lin Yi had up his sleeves, and these were the only two that he could target.

"I'll try, but it's fine to try. Where can i try? We didn't even find the target?"

Lin Yi's combined spirit sense with the damn thing could only occasionally find the shadowless demonic corpse beast's traces, but he couldn't lock onto it at all. How was he supposed to attack?

"Don't worry, you should be prepared first. The shadowless demonic corpse beast is wandering around, looking for an opportunity to attack the defensive formation. As soon as he makes a move, his traces will be exposed. At that time, we'll use the Super alchemy bombs to limit his range of movement, and the black bead as the ultimate killing move."

The ghostly thing had a plan.

Lin Yi nodded silently and didn't say anything else. He started to form the Super alchemy bomb in his palms. This time, he wanted to control it to the maximum power, so it would take a little longer.

It just so happened that the shadowless demonic corpse beast was also looking for a weak point in the formation, giving Lin Yi enough time to prepare.

"Human boy, what do you think? As long as you agree to open this array, I will definitely keep my promise. I can even swear that if you don't agree, I will start attacking!"

The shadowless demonic corpse beast's voice was erratic, obviously not wanting to expose its position.

However, its threats and instigations were child's play to Lin Yi. He couldn't be bothered with it at all. If it couldn't wait to make a move, Lin Yi would be even happier. That way, he would be able to determine its location.

The shadowless demonic corpse beast had been talking for a long time, but Lin Yi was still hiding in the defensive formation and didn't react at all. He was furious!

"Refusing a toast only to drink a forfeit! Do you really think that this formation-breaking technique that's strong in appearance but weak in reality can stop me? Let's break your defensive formation first and see what else you can rely on!"

The shadowless demonic corpse beast sneered and launched a fierce attack at the spot where it thought was the weakest.

After some observation, it realized that even though Lin Yi's formation was a level nine formation, it wasn't perfect due to the lack of time. There were always some weaknesses.

Chapter 6688 Plan To Kill

"I found it!"

Suddenly, Lin Yi's eyes lit up, and he was about to throw out the Super pill fire bomb.

"Don't worry, just wait a little longer. Our formation isn't that easy to break!"

The demonic thing wasn't in a hurry at all. It stopped Lin Yi's impulse and told him to continue observing.

After two fruitless attacks, shadowless demonic corpse beast disappeared from Lin Yi's senses and changed its position to attack again.

"Cunning indeed! It might have dodged the attack just now! I'm impressed!"

Lin Yi couldn't help but admit that this guy was experienced.

"Do I need you to tell me? Don't get distracted, pay attention to its movement and habits. "

The ghastly thing snorted proudly.

Lin Yi nodded and waited patiently. The shadowless demonic corpse beast had attacked four to five directions, and it really did cause the formation to become unstable.

"There's still a huge flaw in this formation. This technique still needs to be perfected. In addition, the formation flags are also lacking. If there's a chance, I'll prepare some high level formation flags as backup."

Through this experiment, the damn thing had also discovered some shortcomings of the formation.

The shadowless demonic undead beast returned to its original trajectory after a few fruitless attacks. It was a subconscious action, but Lin Yi noticed something.

Lin Yi smiled confidently and turned into a lightning bolt, charging out of the formation. He threw the Super alchemy fire bombs to the left and right!

"BOOM! BOOM!"

With two loud sounds, the two waves of explosions were like two large nets that attacked shadowless demonic corpse beast from both sides. Shadowless demonic corpse beast was shocked as it was right in the middle of the two waves of explosions. No matter if it moved forward or backward, it would fall into the trap.

Moreover, the shadowless demonic corpse beast could clearly feel that the two violent waves of explosions were enough to take its life! Therefore, it could only choose to Dodge!

In a hurry, the shadowless demonic undead beast might not have been able to think too much. It followed its instincts and rushed towards the area where the aftermath of the explosion was the least intense!

Lin Yi raised his head, a smile on his face as a Black Pearl appeared in his palm.

This time, Lin Yi activated the Black Pearl without hesitation. An attack wave that could kill a sea-shattering expert instantly appeared in front of the shadowless demonic corpse beast. Before it could react, it silently penetrated its body.

In the seemingly empty air, a human-shaped black corpse slowly appeared. It looked extremely ugly, and when it was completely revealed, it began to gradually dissipate.

"Lin Yi, don't be careless! This attack might have killed the shadowless corpse beast, but the corpse bees in his body might not die. Be prepared for battle!"

The ghastly thing warned in a deep voice.

Although the plan was going smoothly, the corpse devil bees were still inside the shadowless corpse beast. It was impossible for them to die together.

As expected, as the shadowless undead beast's corpse disappeared, a group of undead bees suddenly appeared out of thin air.

The buzzing of the wings created a huge roar, and at the same time, formed a layer of defense.

Lin Yi activated his divine sense vortex immediately, but it shattered when it hit the sonic barrier, not affecting the corpse demon bee at all.

"Senior ghost, are you sure I can kill these corpse demon bees?"

Lin Yi's heart skipped a beat-he felt like he was going to die just by looking at the Horde of demonic corpse bees.

"Run if you can't kill him!"

The demonic creature was a little scared when it saw the increasing number of the corpse demon bees.

The larger the scale of these things, the harder it was to deal with them. With Lin Yi's current strength, it was obvious that he wasn't strong enough to deal with these corpse demon bees!

If the shadowless undead beast had released the swarm of undead bees from the start, that damn thing would've urged Lin Yi to run away already. Why would it bother killing the shadowless undead beast?

Lin Yi didn't say anything as he turned into a lightning arc and charged towards the exit. The swarm of corpse demon bees paused for a moment before following him!

Fortunately, the corpse demon bee's speed wasn't Lin Yi's match at all. It couldn't catch up even if it wanted to.

Lin Yi didn't run immediately after he got out of the exit. Instead, he turned around and threw out formation flags as hard as he could, sealing the exit.

After a while, the seal he'd just set up started shaking violently from the attacks of the corpse demon bees, but Lin Yi didn't care and continued to wave the formation flags.

After it stabilized, Lin Yi rushed out of the stealth formation and quickly set up a trap and kill array.

This time, he was not setting up a low-level high-level trap and kill array, but a stacking array that the ghost had taught him!

The sealing of the exit earlier was only to buy time for the corpse demon bees to escape!

But this time was enough for Lin Yi to complete a few stacking formations with the help of the ghost.

"Little Lin, what are you doing? I think you'd better run away!"

The damn thing panicked when Lin Yi stopped to set up the formation-wasn't he looking for death?

With the speed of Lin Yi's lightning escape, the demonic corpse bees couldn't catch up at all.

But Lin Yi was determined to set up a formation here-this was driving him crazy.

The Lin Yi from before would always listen to anything the ghosts said, but this time, he was very determined.

"Senior ghost, I have to give it a try. If I want to run, the corpse demon bees won't be able to catch up with me. Since we're in an undefeatable position, what are we afraid of?"

Lin Yi smiled, determined.

Lin Yi was Lin Yi after all, and the thing didn't want to turn Lin Yi into another version of itself. After a short silence, it didn't force him.

The level nine trap & kill array was completed quickly, and Lin Yi continued to set up the defense formation to prevent the corpse demon bees from not entering the formation and only attacking from the outside.

After finishing, Lin Yi stuck the flag into the formation. As long as the corpse demon bees entered the range of the formation, they would be affected.

If the demonic corpse bees couldn't fly, could they use the resonance of their wings to create a sound wave defense? Lin Yi was looking forward to it as well.

Not long after the defensive formation was completed, the seal inside was broken, and the swarm of corpse devil bees rushed out.

Lin Yi was already prepared for this. He opened the gates of the trap and kill formation and let the swarm of bees rush into the formation. In an instant, all the bees were inside.

However, even though the flight-restricting flags had started to take effect, the demonic corpse bees did not lose their ability to fly. They were only restricted to a lower altitude.

"Calculation error!"

Lin Yi smacked his forehead awkwardly and activated the killing intent of the trap & kill array!

In addition, the wind splitting tooth thousand blade slash was also launched in coordination with the killing aura. The sharp Wolf Fang wind blades cut back and forth, cutting the swarm of bees into countless small pieces.

"Not bad, continue! As long as the resonance of the demonic corpse bees is reduced, you still have a chance to kill them!"

The damn thing was overjoyed-he didn't think that Lin Yi would succeed!

As long as he continued, he might really be able to exterminate these corpse demon bees!

Chapter 6689 Can You Bear The Consequences?

Lin Yi didn't have time to chat with the thing. He activated a few more spirit vortexes and controlled the formation to coordinate with the thousand blade slash.

Some of the demonic corpse bees were killed by Lin Yi in an instant.

However, after the rest of the demonic bees got used to the attack, they gathered together again and tried their best to form a resonance. This weakened Lin Yi's attack and the formation by a lot. At most, he could only cause some damage to the outer area.

"Little Lin, run! There are still corpse demon bees over there ... Aiya, my God, there are too many!"

The demonic creature suddenly discovered another swarm of demonic corpse bees swarming out of the exit not far away and immediately began to curse.

Lin Yi's heart sank as well-the demonic bees in the formation were already hard to kill, not to mention the new ones outside!

Once the two groups of demonic corpse bees met up, they'd create an even stronger defense, and Lin Yi wouldn't be able to kill them even if he wanted to.

"Let's leave while we can! It doesn't matter if you kill more or less. Although these creatures' reproductive ability is not as good as the sun swallowing rats, they are not weak either. You can't kill them all! When the formation is broken, you won't be able to leave even if you want to."

The demonic thing was furious-there was no point in Lin Yi fighting these bees.

Lin Yi didn't want to give up, and just as he was hesitating, a black line rushed over.

Sun-devouring rat! A rat tide!

"Why is the sun-swallowing rat here? Was it the previous wave? Or did they switch to another wave?"

Lin Yi didn't dare to stay any longer.

Lin Yi took the flag back and dashed out of the formation, disappearing in a flash.

The demonic corpse bees outside the formation hadn't arrived yet and couldn't stop Lin Yi. They could only attack the formation Lin Yi left behind and try to save their companions.

"Senior ghost, this place can't have become a stronghold of the darkness magical beasts, right? Did the sun swallowing rat come to join us?"

Lin Yi only stopped after making sure that there were no dark beasts chasing after him.

"Maybe, but this has nothing to do with you. Hurry up and run! If you really want to exterminate these darkness magical beasts, it's best to unite all the human experts in the abandoned land. "

The ghost didn't seem to be interested in it, but Lin Yi wanted to deal with the dark beasts, so he suggested.

"Why would the experts of the abandoned land Trust me? Furthermore, since all the experts in Broken City are dead, the other cities are probably not any better off. It will be very difficult to organize them!"

Lin Yi shook his head. It was impossible for him to fight the dark Demon beast alone.

"Also, find a way to inform the people outside the abandoned land. Tell them that a huge change has happened here and ask them to send reinforcements."

The ghastly thing suddenly sneered. "However, I'm guessing that when the people outside hear that something has happened here, they will probably seal off the entrance and forbid anyone from entering."

Lin Yi nodded. This was an abandoned land, so what did something happen there have to do with the people outside?

If the people outside knew that a large number of darkness magical beasts had appeared, it would be strange if they didn't seal the exit completely!

But now, Lin Yi's worry wasn't about how much damage the dark beasts would bring to the abandoned land. What he was worried about was that if they destroyed the array, the nodes would be exposed!

Before, these dark demonic beasts had spread the news that they wanted to attract the array Masters to destroy the defense array and open the nodes, but now that Lin Yi had seen through their plan, they would definitely try to destroy it themselves.

It might not be effective in a short period of time, but with so many dark beasts attacking it together, the array could probably only last for a year. Lin Yi had to be anxious.

"What are you going to do?"

If Lin Yi could think of it, the thing could as well.

"We definitely need to protect this node. I'm planning to go to other cities to see if I can gather people to help."

Lin Yi's head hurt-this wasn't his responsibility, but it was now on his shoulders.

"I'll do my best and leave it to fate!"

The ghastly thing sighed softly, looking a little bleak.

The abandoned land was probably hopeless. That damned thing only hoped to keep the darkness demon beast there, or else the entire Sky Class Island would be in chaos.

It was a good thing that Lin Yi accidentally destroyed the portal to the air wind beast. If the dark Demon beasts had come to the abandoned land, the situation would have been even worse.

Lin Yi wasn't in the mood to talk about this anymore. He made sure they were going in the right direction and headed to the nearest city.

Feng Duan city!

It was one of the few big cities in broken mountain range, smaller than broken Yin city but not by much. This was Lin Yi's target.

With his identity as a member of the tianwu mercenary group, he had no problem entering the city. All he had to do was pay a small entrance fee.

After entering the city, Lin Yi didn't waste any time and went straight to the city Lord's mansion.

It would be more effective to ask the people from the city Lord's mansion of Feng Duan city to help him. As long as he could convince the city Lord, everything else would not be a problem.

Very quickly, Lin Yi arrived at the gates of the city Lord's mansion. There were two guards standing on either side of the gates, blocking Lin Yi's path.

"The city Lord's mansion forbids unauthorized people from entering and leaving. What are you doing?"

One of the guards looked at Lin Yi coldly.

"There's a matter regarding the life and death of Feng Duan city. I need to see the person in charge of your city Lord's mansion. Please help me pass the message."

Lin Yi spoke politely, not in the mood to make things difficult for the guards.

"A matter of life and death? Tell me about it, or else you can't report it. "

The Guard's eyes flashed with mockery, obviously thinking that Lin Yi was just talking nonsense.

It was a matter of life and death, how could a normal-looking practitioner like Lin Yi know about it? If anyone dared to spout such nonsense, and the guards went in to pass on the message every time, they would have long been kicked out by the city Lord to guard the city gate!

"Are you the city Lord or the manager? Is there any use in telling you?"

Lin Yi frowned, a little pissed.

Lin Yi was a little annoyed when he saw the Guard's mocking look-he only asked him to report, what was the point of mocking him?

"This is the city Lord's mansion, not a place for you to be unreasonable. I'll give you some advice, leave quickly! Otherwise, bear the consequences!"

The Guard's eyes turned cold, and he was sure that Lin Yi was here to cause trouble.

"You're just a guard. Can you bear the consequences if you delay a major event?"

Lin Yi was furious-time was of the essence, and he didn't have time to waste on a guard.

So after he finished, Lin Yi stepped forward and with a slight sway of his body, he passed through the gap between the two guards and entered the mansion.

Chapter 6690 If There's Anything, Say It Here

Lin Yi's divine sense had already covered the entire mansion through the restrictions. There was a powerful sea-shattering master in the mansion. He was either the mayor or a manager, so Lin Yi went straight to him.

"Stop! Do you want to die?"

The two guards couldn't see Lin Yi anymore. They turned around and realized that Lin Yi had already entered the corridor of the mansion. They shouted angrily.

Recalling Lin Yi's movements, he was like a ghost!

If Lin Yi wanted to kill them both, they wouldn't even have the strength to resist. So, when they were chasing Lin Yi, they immediately sounded the alarm, asking the house's Masters to come out and help.

The alarm went off, and Lin Yi immediately felt a few spirit senses sweep past him. Some were at the sea-shattering realm, and some were at the earth-splitting realm.

Lin Yi was happy to see that happen-it'd be much easier to talk if all the Masters in the house were gathered here.

As he walked into the courtyard, there were already quite a few mountain and even land splitting Masters surrounding him.

"Brat, who gave you the guts to break into the city Lord's mansion?"

A mid-stage earth-splitting man looked at Lin Yi coldly, but didn't attack immediately. He wanted to know who Lin Yi was.

"I want to see the person in charge of the city Lord's mansion. Can you take responsibility?"

Lin Yi looked around-this mid-stage earth creation man was the strongest of all the people who'd come out. The stronger Masters probably didn't even think of Lin Yi as a threat.

It would be a joke if all the big shots in the city Lord's mansion were to come out because of a mere xuansheng stage cultivator.

Most of the people who came out now were xuansheng and mountain opening stages, and there was only one Earth opening stage. This was already a good enough impression.

"I can take responsibility, I can break your legs!"

A cold smile appeared on the middle stage earth-splitting man's face. Since Lin Yi didn't want to talk, he'd have to fight!

One of the peak stage Mystic Ascension Masters didn't even need to listen to Lin Yi's orders as he charged at Lin Yi with a sinister smile!

For this kind of little Shrew who didn't know the immensity of heaven and earth, breaking into the city Lord's mansion and still being so arrogant, breaking both his legs would be considered light.

Lin Yi frowned-he was here for a partnership, not for trouble!

But the problem was that even if he didn't cause trouble, he wouldn't be able to see the person he wanted to see, so he could only cause trouble!

The peak xuansheng was just about to reach Lin Yi when he suddenly lost his balance. His upper body was still leaning forward, but his lower body was thrown back.

Before he could figure it out, two waves of intense pain had already spread from his left and right legs to his entire body. Even his brain felt like it was trembling.

Lin Yi turned his body slightly, avoiding the mystic peak stage who was spinning in the air. He didn't even look at him.

If she wanted to break Lin Yi's legs, then sorry, she'd have to break both of his legs first!

"Good boy! No wonder you dared to come to the city Lord's mansion to cause trouble!"

The man at the middle stage of the earth splitting realm changed his expression slightly. He waved his hand, signaling a middle stage mountain split expert to come forward.

Lin Yi's aura didn't change at all when he attacked, so they couldn't figure out his true strength.

And so, the mid mountain split practitioner didn't dare to be careless anymore, approaching Lin Yi cautiously.

"I really have something to do. If you waste your time here, you'll be the ones to suffer in the end. Listen to my advice, don't harm others and yourself!"

Lin Yi felt helpless. He didn't want to reveal the news about the dark Demon beast to the ordinary people, in case it caused panic.

However, if these guards continued to pester him, not only would it be a waste of time, but it would also be a waste of available combat power!

"You better surrender! This isn't a place where you can act so atrociously!"

The middle-stage mountain split master who got closer said in a low voice. He couldn't figure out Lin Yi's strength, so he wanted to test him with words.

Lin Yi sighed. It seemed like the managers weren't going to come out until they made a big scene!

Wood forest thousand transformation!

In an instant, every corner of the courtyard was filled with Lin Yi's clones. At least a few hundred Lin Yi's appeared at the same time and started beating up the guards.

Lin Yi didn't want to kill anyone, so he didn't need to use any martial arts. All he needed to do was beat them up.

Other than the earth formation and a few Mountain Formation Masters who were able to defend and counterattack with ease, the others were all surrounded by Lin Yi's clones.

Although they were not seriously injured, it was enough for them to be heartbroken.

"Stop!"

A deep male voice was heard, and the powerful pressure unique to the sea Rift realm descended instantly.

Lin Yi himself wasn't affected, but all his clones were stunned, giving the guards a chance to counterattack.

Since a powerful person had appeared, Lin Yi didn't have to cause any more trouble. He stopped the thousand changes of wood forest and waited for the sea Rift master to appear.

Almost in the blink of an eye, a burly middle-aged man with a square face suddenly appeared in the field. His eyes swept across the people around him with a cold and sharp gaze, clearly dissatisfied.

"Who are you? What business do you have in the city Lord's mansion?"

The square-faced man's eyes finally settled on Lin Yi as he asked faintly.

If it wasn't for Lin Yi's powerful moves and his unknown background, the man would've killed Lin Yi with a slap the moment he appeared.

"I am Lei Ying from the tianwu mercenary group, and I have come to seal break city to report an important matter that will affect the life and death of the city. I wonder if this senior can make the decision? If it's possible, please talk to me in private. "

Lin Yi smiled faintly and cupped his hands in return.

The square-faced man's expression didn't change as he looked at Lin Yi indifferently, as if he was trying to figure out who the tianwu mercenaries were, but he couldn't figure it out no matter how hard he thought about it ... He probably never heard of them before?

This guy probably wouldn't even know that Lin Yi was the only one in the entire tianwu mercenary group ...

"There's nothing that can't be said to people! Everyone here is our city Lord's mansion's trusted aide. If you have anything to say, just say it. If you don't want to say it, then quickly leave. I'm too lazy to argue with a little fellow like you!"

The square-faced guy said faintly. If Lin Yi didn't know what was good for him, he wouldn't mind killing him!

A mercenary group that he had never heard of would not be a great existence!

"Alright, since you've said so, it doesn't matter if they know!"

Lin Yi shrugged, thinking that he'd been worrying too much-these guys could do whatever they wanted."I came from Broken City. Previously, Broken City was attacked by the dark magical beasts, sun-devouring rats, and suffered heavy casualties."

Lin Yi wanted to talk about the nodes, but decided to start with Yin duancheng.

The square-faced man's expression changed slightly. Broken city's strength was above Feng Duan city 's, but even they had suffered heavy casualties. The severity of the matter could be imagined.
