

## Bodyguard 6711

### Chapter 6711 Spatial Divine Sense Skill Fusion

Lin Yi sighed and released his spirit sense to look for the commander of the dark beasts. Since the mountain sect's base was safe for now, Lin Yi didn't need to go help.

After all, with the addition of Liu Zhanggong, the mountain sect still had no worries about self-protection.

A sea-splitting expert might not be of much use in the rat tide or the bee colony, but he was extremely important in a defensive battle. Not to mention that Liu Zhanggong was the Supreme Commander of the encampment, the backbone of all the mountain sect members.

"Senior ghost, if the mountain sect's encampment is breached, do you think they will fight to the death or open a passage to escape from the abandoned land before they fall?"

Lin Yi suddenly frowned as a heart-wrenching question came to mind.

The people of the abandoned land wouldn't care if the darkness demon beast would escape to the mystic Sea, and similarly, the people of the mystic Sea wouldn't care if the abandoned land would be attacked by the darkness demon beast!

In the case that the encampment was lost, the most likely scenario was that the mountain sect would give up the abandoned land and escape. Then, they would think of ways to strengthen the defense of the array outside.

"Logically speaking, the passageway can only be opened once a year. However, when it comes to life and death, I think the mountain sect must have a way to open it early."

The ghostly thing was not sure.

"You think so too?"

Lin Yi was a little worried as he covered the entire area with his spirit sense with the ghostly thing. "The darkness demonic beast's attack is very fierce, but it doesn't seem to be using its full strength. Instead, it's maintaining the maximum pressure that Mountain Master can withstand! Senior ghost, do you think that the darkness demonic beast is trying to make the mountain sect's people unable to bear it in the end, and then temporarily open the passage?"

"I know what you mean ... Don't think too much now. It doesn't matter what the darkness demon beasts do. Even if they go out through this passage, there are still mountain sect guards outside, and they may not be able to achieve their goal!"

"The most important thing now is to find the commander of the darkness magical beasts. It's very good at using virtual and real tactics. It'll be a great threat once it gets out."

Without a commander, the rats and bees were like a pile of loose sand. On the other hand, they would turn into an undead army that could easily sweep through the sky Class Island!

"I understand, but I really didn't notice the existence of a commander here!"

Lin Yi's face was full of helplessness-how was he supposed to kill them without an opponent?

"Hmm ... It seems like it's time to try this move!"

The ghastly thing pondered for a moment and seemed to have made a decision.

"Which move? Senior ghost, do you still have any ultimate moves that you haven't used?"

Lin Yi blinked, his eyes lighting up.

Was this thing going to use its trump card?

"It's not a unique skill. It's just a small trick I came up with after making some progress in my research on space. I haven't used it before because it's not perfect enough."

The ghastly thing said with a strange smile, unable to hide the pride in his words.

The damn thing had been studying the space all this time, and it finally made some progress. It couldn't help but show it off to Lin Yi.

Lin Yi was overjoyed. This damn thing's new method was like a new skill to Lin Yi!

With the spatial ability, Lin Yi's combat strength would undoubtedly increase by a lot.

"But I have to make it clear first, because it's not yet complete, the consumption of spiritual awareness will be relatively large, you have to be mentally prepared."

The damn thing reminded and started teaching Lin Yi the incomplete skill in his mind.

In just a few seconds, Lin Yi had completely mastered the skill that the damn thing taught him.

Lin Yi wasn't unfamiliar with it-it was a simplified version of the spatial scale, so it was easy to understand.

"Using divine sense to affect space and form weak spatial ripples to find hidden enemies ... Truly impressive!"

Lin Yi praised. If it was him, he didn't know how long it would take him to do this ...

"Ha, it's all thanks to your good luck that you managed to obtain the memories of the black-scaled air wind beast and combine them with that half of the space Array flag, allowing this old man to make some progress."

The ghastly thing was overjoyed and showed a rare hint of modesty.

"Senior ghost, this isn't just a little progress. This is the most important first step! If I'm not wrong, you want to use your divine sense to copy the spatial scale and set up a secret spatial array?"

Lin Yi asked.

To use divine sense to form spatial scales to replace formation flags to set up an array, what a shocking idea!

If he didn't know that the thing had been studying the space formation flag, he wouldn't have thought of this.

"Smart! Kid, you have good eyes, you can even see through this!"

The damn thing couldn't help but exclaim-he didn't think that Lin Yi would be able to read his mind with one look. "That's this old man's ultimate goal, but it's impossible to achieve at this stage. I'm afraid it'll take a long time to reach that step, so don't worry about it. "

"I understand! Senior ghost, take your time, I'm not in a hurry. "

Lin Yi smiled and dropped the topic.

After the two's divine senses merged, they began to try to create invisible spatial ripples. This kind of fluctuation would not be detected by anyone other than themselves, and it was definitely the best means of reconnaissance.

Even a dark magical beast with a deep understanding of space like the black-armored wind beast might not be able to detect the existence of the spatial ripples.

"The consumption of divine sense is indeed very large. Senior ghost, you'd better perfect it as soon as possible ..."

Lin Yi's eyes were closed, but his brows were furrowed.

In just a short search, Lin Yi and the ghostly thing had used up about a tenth of their combined divine sense. With such a huge consumption of divine sense, Lin Yi could only maintain it for ten seconds at most and then wait for death!

"Don't talk nonsense, concentrate on the search, this old master's divine sense is also decreasing with every use!"

The ghastly thing snorted to hide the embarrassment in its heart.

The reason why the damn thing didn't tell Lin Yi about this was that it didn't want Lin Yi to treat its space manipulation as something of little value ...

Fortunately, the two of them were lucky this time. They didn't spend too much time and found the trace of abnormality.

"Over there! Prepare for a sneak attack!"

The ghostly thing's spirit shook!

This was the best opportunity to strike. The other party thought that his whereabouts were extremely secretive, so his defense was relatively lax.

As long as Lin Yi's sneak attacks were powerful enough, there was a high chance of heavily injuring the opponent!

"I understand! Watch my performance!"

Lin Yi's lips curled up into a smile as he quickly formed a super alchemy fire bomb in his palms!

After waiting for a while, Lin Yi gathered the Super alchemy bombs in his hands to the limit of his control before turning into a lightning arc and exploding them.

Chapter 6712 The Passage To The Outside World Opens!

Lin Yi controlled the violent explosion to a very small area, concentrating the power to collide with each other, making it stronger.

The icy blaze also started to wreak havoc. The flames that were a mix of two extreme auras, one icy and one scorching, swept in all directions, and the sun swallowing rats and corpse demon bees that were closest to it were all hit.

"Did I hit him?"

Lin Yi was a little nervous-the spatial ripples stopped automatically when he was making the Super pill fire bomb, and he couldn't be sure if the hidden commander changed his position when he attacked.

"I hit it! But not all of them hit, more than half of them were dodged!"

The ghost said with regret. He didn't need to focus like Lin Yi to control the Super pill fire bomb, and so he could see the commander's movements the moment he made his move.

This commander did have some skills. Lin Yi's sudden attack was as fast as lightning, and the dark Beast was able to instinctively avoid the fatal blow at the last moment.

"Shadowless devil corpse beast again! So there's more than one!"

Before the damn thing finished, Lin Yi had discovered its physical body. Under the impact of the two super alchemy bombs and the sweep of the icy blaze, the shadowless demonic corpse beast couldn't keep hiding anymore.

This new shadowless devil corpse beast's body had been blown up by half. A third of the body below its left shoulder was gone, and its left arm had also evaporated.

However, just as the ghastly thing had said, it had dodged most of the Super pillfire bombs. Although it looked miserable, it was not fatal.

"The explosion's range was too small because of your suppression, so it didn't completely cover the shadowless demonic corpse beast's dodging space! Continue to attack, don't give it a chance to catch its breath!"

The ghastly thing suppressed his regret and quickly gave the order.

He didn't even need to say it-Lin Yi had already done it.

The explosion hadn't even dissipated yet, but Lin Yi had already used the thousand forest transformation. He split into hundreds of clones, forming small formations of three to five. They surrounded the shadowless demon undead beast, and at the same time, separated the sun-swallowing rats and the undead demon bees.

The sun-devouring rats were still fine-only the ones closest to Lin Yi turned around to deal with the clones, but the rest of the Army was still rushing towards the mountain sect's base like a tide.

However, the demonic corpse bees suddenly exploded! They descended from the sky like a group of Mini Fighter jets, charging at Lin Yi's clone formation without caring about the cost.

After all, the thousand transformations of wood forest only had the strength of Xuan Sheng. Although their individual combat strength was close to the beginning stage of the mountain, they could not fight against the huge number of corpse demon bees.

This was a group of tens of thousands, and their resonance wasn't afraid of Lin Yi's clones at all. They broke through the barrier in an instant and quickly approached the injured shadowless demonic corpse beast!

"Don't let the corpsedemon bees get close to the shadowless corpsedemon. It can use the corpsedemon bees to heal its injuries!"

The ghastly thing reminded him anxiously, feeling a little helpless.

Lin Yi's strength was still too low-IF he could break through to earth splitter, the shadowless undead demons and undead beasts that were separated from the swarm of undead demons would be nothing to worry about. He could kill one or two of them easily.

Lin Yi knew shadowless demonic undead beast's characteristics very well-it wasn't their first time fighting it, after all. He used the icy blaze fire and violent flame thousand explosive fist to attack the air as soon as the damn thing warned him.

However, it only limited the gathering of the corpsedemon bees and the shadowless demonic corpsedemon beasts!

"Lightning burial!"

Lin Yi had no choice but to activate his trump card, activating the sky Thunder!

Although it was easy for people to imagine this kind of move-after all, it was a necessary move to advance to xuansheng-Lin Yi couldn't care so much at this moment!

The flashing lightning waterfall completely enveloped the shadowless undead demon, blocking the undead bees from coming to its aid.

Under the effect of the double killer moves, the shadowless demonic corpse beast howled mournfully, but it could not get any help. Its already broken body quickly melted in the lightning and fire!

Previously, in order to quickly break through the mountain sect's encampment and because of its outstanding concealment ability, the shadowless devil corpse beast had completely released all the corpse devil bees it carried in its body, causing its strength to be at its lowest.

It was because it was too confident in its ability to hide that it didn't expect Lin Yi to be able to use the spatial ripples to locate it and attack it!

For a moment, the shadowless demonic corpse beast was forced into a passive position and could only struggle helplessly in the lightning and fire!

The swarm of demonic bees went berserk and charged at the shadowless undead beast with suicidal attacks. After paying a certain price, they finally broke through the ice flame and lightning burial and arrived beside the shadowless undead beast.

Unfortunately, the shadowless undead beast was already at its wit's end. It could no longer absorb the undead demon bees into its body, nor could it borrow the power of the bees.

But Lin Yi didn't know this. When he saw the demonic bees approaching shadowless demonic undead beast, he could only grit his teeth and fire another super alchemy bomb at shadowless demonic undead beast's broken body. At the same time, he activated his lightning escape and retreated!

If the shadowless demonic undead beast recovered quickly after getting help, it would be extremely dangerous for Lin Yi to stay in the rat tide and bee swarm. It wasn't worth it to risk his life to kill a shadowless demonic undead beast!

The Super alchemy bomb hit the shadowless undead demon, engulfing a large number of undead demon bees. Violent explosions rang out continuously.

"Well done!"

The damn thing couldn't help but praise-Lin Yi's super pill fire bomb was the last straw that broke the camel's back, instantly killing the shadowless demonic corpse beast.

The corpsedemon bees lost contact with the shadowless corpse fiend and flew around like headless flies.

"I was just lucky! If we're any slower, the shadowless corpse beast will meet up with the bee colony, and we'll be in big trouble then!"

Lin Yi let out a sigh of relief. He didn't know that the shadowless undead beast couldn't take in any more undead bees even if it didn't die. "I just wanted to give it a try, but I didn't expect to really kill it ..."

Suddenly, a loud noise came from the mountain sect's encampment, and the nearby space also shook slightly.

"Those idiots, they're actually opening the passage to the outside world at this time?!"

The ghostly thing couldn't help but be furious, and it was about to explode.

Lin Yi couldn't help but sigh. He had high hopes for the mountain sect's strength, but he didn't expect these people to have such low courage!

"Didn't they notice that the swarm of corpse demon bees had left their previous attack formation and returned to the rear?"

The demonic thing cursed endlessly, its words extremely disdainful. It was strong but weak, so it deserved no respect from others. "It's shameful to choose to escape when the pressure is greatly reduced! These people actually have the nerve to call themselves the strongest sect? this old man is going to die of laughter!"

"Don't worry about them. What do we do now?"

Lin Yi was too lazy to discuss shanzong's actions and turned into a lightning arc as he charged out of the swarm of bees.

Lin Yi wanted to see if he could sneak out of the tunnel, but it didn't seem realistic.

Chapter 6713 Staying Or Leaving?

"We'll see how it goes!"

The ghostly thing calmed down and signaled Lin Yi not to act rashly.

"Alright!"

Lin Yi hid his aura and used wood escape to hide to the side, avoiding the bees.

Whether it was the sun-swallowing rat or the corpse demon bee, one or two of them would become a disaster that would sweep the mystic class Sea area. Lin Yi and the damn thing were clear about this.

Lin Yi didn't say anything as he used his wood escape technique to hide in the forest and continue observing.

The demonic corpse bees couldn't find Lin Yi's trail, so they could only turn around and attack the mountain sect's defense array after destroying a patch of trees.

The shadowless undead beast was killed by Lin Yi, but the dark Demon beasts "orders didn't change. The sun swallowing rats and undead bees were still carrying out their original mission.

"The mountain sect's defensive array can't hold on much longer. Be careful and get closer!"

The ghastly thing said worriedly.

Lin Yi nodded and moved closer to observe.

Their spiritual senses easily penetrated the cracked defense array and observed the situation inside.

However, before the passage was completely opened, the mountain sect people seemed to have some disputes. One side was Liu zhangong, and the other side was the most useless young master Gu.

"Senior ghost, it seems like that Gu brat opened the passage on his own, and Liu Zhanggong fell out with him because of this?"

Lin Yi quickly made sense of the situation from their exchange, and his impression of Liu zhangong changed a little.

At least Liu Zhanggong, this old man, wasn't so timid and weak. At the critical moment, he showed the courage he should.

"A bunch of idiots. The passageway hasn't even been fully opened yet, and they've already neglected the defense of the formation!"

The ghastly thing snorted coldly, disdaining shanzong to the extreme. "Do these idiots even have brains? They actually had internal strife? Seeing that the array is about to be taken down, I'm afraid that the darkness magical beasts will also follow us into the mystic class sea!"

"That Gu brat is an idiot. I didn't expect that old fox Liu Zhanggong to be so foolish!"

"Senior GUI, why don't we help them?" Lin Yi was also a little disappointed.

There were too many people he cared about and cared about in the mystic division sea and even the entire sky division Island. If the dark Demon beast came out, what would happen to the people he cared about?

The mystic class Sea region had a strong foundation, and it might not be a problem for a while, but once the darkness demon beast snuck into the other islands, it would be like a hot knife through butter. The other islands didn't have that many powerful Masters to stop it.

The ghastly thing snorted unwillingly. He really looked down on these mountain sect people, and he still had to clean up their mess. He was really unhappy.

However, compared to the disgust it had for the darkness magical beasts, the ghastly thing seemed to feel a little better.

"Go! Help them repair the formation and delay it until the passage closes! I'm not helping them, I'm just trying to stop the darkness demonic beasts from invading the mystic class sea!"

The ghastly thing snorted and found an excuse.

Lin Yi chuckled to himself-he didn't think that this guy would have this side to him.

"Alright!"

"Understood!" Lin Yi replied without hesitation. He emerged from a tree and turned into a lightning arc, instantly passing through the gaps between the mice and bees and arriving outside the sect's defense array.

At this moment, the sun-devouring rats and the demonic corpse bees were all focused on attacking the cracks on the defense array. As a result, the remaining parts of the defense array were left with fewer rats and bees.

Lin Yi took the chance to approach the defense array from these loose spots, and with the ghostly thing's spirit sense as the guide, he easily jumped into the broken defense array.

As Lin Yi continued to wave the array flags, the mountain sect's defense array closed up quickly. The people at the entrance of the tunnel were surprised to see the flashing lightning.

"The defensive array is fine now. I don't care if you guys leave or not, but I have to leave! This young master will personally report the news of the large-scale appearance of the darkness demon beasts, don't stop me!"

Mr. Gu was the first to react, and he was pleasantly surprised!

He didn't care how the defense array had been repaired. As long as he could leave, it was fine. Thus, after saying that, he immediately lifted his feet and walked into the passageway.

"Little Gu! You're putting me in a very difficult position. Not only did you not help defend the base when it was attacked, but you also took the opportunity to open up a passage to the outside world. Now, you're even trying to escape! You say it! Do you even have me in your eyes?"

Liu Zhanggong squinted his eyes and stopped young master Gu. His expression became gloomier and gloomier, but there was an inexplicable light in his eyes, ""Do you know that even your father can't bear the responsibility if the higher-ups blame us for this?"

"Elder Liu, a straightforward person doesn't resort to insinuations. You actually want to go out as well, right? I'm the one who opened the passage, and it's none of your business whether the higher-ups blame me or not. So, do you have any other questions?"

Young master Gu stopped in his tracks. He still had scruples about Liu Zhanggong. If it was someone else, even if they were not as strong as him, he would not stop and talk nonsense.

"Xiao Gu, don't you understand? This matter was not simple! If there's any slip-up, you can't take the blame just because you want to, not even your father! In the end, won't I, Liu zhangong, be the one to suffer?"

Liu Zhanggong looked up at the defense array in the distance and blocked young master Gu calmly, not giving in an inch.

"The passageway has already been opened even if it wasn't opened. Everyone here can be a witness. The responsibility is on me. Elder Liu, what else do you want?"

Young master Gu was anxious. He didn't want to waste time with Liu Zhanggong, so he turned to the others. "And you guys, do you want to leave the abandoned land with me, or do you want to stay and face the darkness demon beast?"

The rest of the mountain sect Masters all turned their eyes to Liu Zhanggong.

Young master Gu's status was extraordinary, but the abandoned land was still managed by Liu Zhanggong, an elder with real power. They all knew which was more important.

Without Liu zhangong's order, they didn't dare to leave with master Gu, even if they really wanted to leave.

As long as Liu Zhanggong didn't die, whoever dared to leave with master Gu wouldn't be able to live well. Even if he didn't die, he would suffer for the rest of his life!

"I'll give you one last warning. After I report the situation of the abandoned land, the passage connecting to the abandoned land will likely be sealed! At that time, even if you want to leave, you won't be able to!"

Young master Gu sneered, his eyes sweeping over all the mountain sect Masters, including Liu zhangong. "This is your last chance! If you want to leave this place alive, then follow me!"

After saying that, Mr. Gu walked around Liu zhangong, who was blocking his way, and continued to walk toward the passage.

This time, Liu Zhanggong didn't do anything. Instead, he looked at his subordinate indifferently, "Little Gu has a point. There's no point in us staying here. Let's go back to the sect!"

The remaining mountain sect experts were secretly relieved after hearing this.

Chapter 6714 Choosing To Stay!

Leaving the abandoned land together was naturally the best outcome. As long as the darkness demon beast was sealed here, the mystic class Sea region would still be absolutely safe.

As for whether or not the natives of the forsaken land would be slaughtered by the rampaging darkness magical beasts, that was simply not within their scope of consideration!

After Liu Zhanggong finished speaking, he looked deeply at the lightning arc in the distance. Then, he turned around and walked into the tunnel. At the same time, he revealed an unnoticeable smile!

This idiot from the Gu family was still useful at critical moments. Just as he said, he was the best scapegoat!

After Lin Yi finished repairing the array, he saw the mountain sect people enter the fully opened tunnel. He heard the conversation between Liu Zhanggong and Liu Yutian.

"The mountain sect ... Is indeed a laughable sect! They even talk about being the strongest. Just the way they do things is disgusting!"

Lin Yi shook his head with a cold smile, not hiding his disdain for shanzong at all. The slight change in his opinion of Liu Zhanggong was gone.

"Lin brat, stop your nonsense! The passage hasn't closed yet. You can follow me out now ... It's a rare opportunity! If the mountain sect's people really sealed off the passage, it's hard to say whether we can get out in the future!"

The ghastly thing suddenly changed the topic and quickly warned.

Although the mountain sect despised him, Lin Yi's benefits were still the top priority. He had to grab the opportunity.

"Forget it, I'll just stay here and cover their retreat!"

Lin Yi shook his head after some thought.

To be honest, Lin Yi had really been moved before, but after weighing the pros and cons, he chose to stay.

The mountain sect people didn't have a good impression of Lin Yi, and Liu Zhanggong's recruitment wasn't reliable either. If they followed him to the enemy's base, who knew what that Gu guy would do to them?

Lin Yi might be the one to take the blame in the end, so it wasn't realistic at all to follow them out!

Not to mention, Wang shiqing was still in the abandoned land, and the two-faced little girl was Wang Shiyang's sister. Lin Yi couldn't let Wang Shiyang stay in the illusion fog space and his sister in the abandoned land at the same time.

If the mountain sect's people left, this passage would most likely be sealed. Even if Wang shiqing and the other two had the trial identity card, they wouldn't be able to leave.

But if Lin Yi stayed, they still had a chance. If Lin Yi left, the abandoned land would be their home forever.

"Not good! The sun-devouring rat and the demonic corpse bees have gone berserk!"

The ghastly thing suddenly cried out in alarm. The defensive array that had just been repaired and strengthened was instantly on the verge of collapse under the attack of the darkness magical beast. "The rat tide and the bee swarm really did hold back! If you go all out now, even the defensive array won't be able to withstand it!"

This situation was not only because the sun-devouring rat and the corpse demon bees no longer held back, but more importantly, they had launched self-destructive attacks one after another, and all of them were concentrated on one point!

This defense array was not that advanced, and even if it was repaired, it could only resist for a while. Now that these darkness magical beasts had activated their self-destruction mode, it naturally became shaky.

"Destroy the tunnel, we can't let the dark beasts enter the Mystic class sea!"

The ghostly thing felt a headache coming on. He had been too careless this time. He didn't expect the rat tide and the bee colony to suddenly burst out with such power!

The mountain sect might or might not have set up any traps in the outside world. The damned thing did not dare to take the risk and placed its hopes on the ridiculous mountain sect!

Once the darkness demon beast passed through the passage, the mystic class sea and even the entire Sky Class Island would be in danger!

The spirit beast clan was in even more danger!

He wondered if the king would be able to awaken and summon The Guardian sacred beast from ancient times ... Wait, the demonic thing was slightly stunned. It seemed to have thought of something!

However, this wasn't the time to think too much. These thoughts flashed through his mind like lightning. He couldn't help but urge loudly, "Hurry up! We can't delay any longer!"

Destroying the passage was the safest way. As for whether Liu Zhanggong and the others had already left the passage and whether their lives would be affected after destroying it? The damn thing couldn't be bothered!

It would be best if these cowards died!

"Not good! We can't pass!"

Lin Yi roared, also extremely anxious. He activated his lightning escape technique and turned into a lightning arc, but he was blocked by the corpse demon bees "resonance defense outside the tunnel, while the sun-swallowing rats rushed into the tunnel.

The thousand changes of wood and forest instantly split into hundreds of Lin Yi clones, but they were all useless. Facing the ultimate goal of rushing out of the tunnel, whether it was the mice Army or the bees, they were all completely ready to die!

Both sides were fighting with their lives on the line, and in this respect, Lin Yi's clones were naturally at an absolute disadvantage. Not only in quantity, but also in quality, they couldn't be compared to the rat tide or the bee swarm!

In an instant, all of Lin Yi's clones were destroyed!

No matter how many times Lin Yi used the thousand forest transformation and how many clones he created, the swarm of rats and bees would annihilate them all!

"Think of a way to break in. No matter what, we can't let the darkness demonic beasts attack the mountain sect's exit so unscrupulously!"

The demonic thing was enraged. At this point, he couldn't even care about Lin Yi's safety anymore. The only thing he needed to think about was destroying the entrance.

He had to destroy the passage!

"Understood!"

Lin Yi gritted his teeth and used all the powerful skills he could use, but the large consumption of pure Qi made him feel weak and dizzy.

If it wasn't for the Jade space's Qi that was constantly entering his dantian and turning into Qi, Lin Yi might've just fallen to the ground and never get up!

After a while, Lin Yi finally managed to open a small gap in the demonic bees 'blockade. He used his lightning escape technique and arrived at the entrance.

Lin Yi threw the Super alchemy bomb he just condensed over.

As soon as the bomb left his hand, Lin Yi took out the teleportation talisman Wang shiqing gave him and activated it.

With a violent explosion, Lin Yi disappeared in the light of the teleportation, and the tunnel collapsed as expected.

The only pity was that the tunnel wasn't collapsing too quickly, and quite a few mice and bees swarmed in. As for whether or not these dark beasts would reach Mystic class, Lin Yi couldn't do anything.

He had already tried his best, and the outcome could only be determined by the heavens!

Because the city was broken.

Wang shiqing and the others had successfully taken over the city, and Lin Yi didn't know how they did it, but he was happy to see it.

"Big brother Lei Ying, you're back! Little Qing has helped a lot. "

Wang shiqing smiled as she moved closer to Lin Yi, a strange light in her eyes. "I didn't expect big brother Lei Ying to have such high prestige in Yin Duan city. We just strolled around and we could hear praises for you everywhere!"

"It's been hard on the three of you!"

Lin Yi thanked her casually and glanced at Wang shiqing, wondering what the two-faced girl was up to.

He really couldn't relax for even a moment with this little girl.

Chapter 6715 The Next Plan

"It's not hard. It's fun to help big brother Lei Ying. We all had a lot of fun."

Wang shiqing raised her head and looked at Lin Yi with an innocent smile. It was extremely cute, but the two brothers behind her couldn't help but curl their lips, not thinking much of it.

"I have some bad news to tell you!"

Lin Yi coughed lightly and ignored Wang shiqing.

"Is there a problem with the mountain sect's base?"

Wang shiqing pouted, not surprised at all.

"That's right. The mountain sect's encampment was besieged by the sun-devouring rats and the corpse demon bees. In a critical moment, they opened the passage to the outside world and all of them evacuated from the abandoned land!"

Lin Yi said with a look of disdain.

"Ah? The mountain sect's people have all run away? Where's the passageway?"

When Wang shiqing saw Liu Zhanggong leave in a hurry, she had guessed that something had happened, but she didn't expect it to be this big. Her little face was instantly filled with shock.

With Wang shiqing's intelligence, she immediately thought of the consequences of this matter. "Big brother Lei Ying, did the darkness magical beasts invade the mystic class sea?"

"I saw a small portion of them rush into the tunnel. If it's only that, it shouldn't be a big problem. The mountain sect must have some defensive measures at the exit of the tunnel to prevent the people from the abandoned land from rushing into the tunnel in large numbers. Those sun-swallowing rats and corpse demon bees may not be able to escape."

Lin Yi couldn't help but sigh as he looked at the three. "The information I wanted to say is that I might have already destroyed that passageway ..."

The two Yun brothers were stunned, but Wang shiqing looked relieved.

"That's great! If the tunnel is destroyed, at least it'll make sure that the other darkness magical beasts won't continue to enter the Mystic class sea!"

Wang shiqing heaved a long sigh of relief and laughed again. "Big brother Lei Ying, this news isn't bad. It's a blessing in disguise."

"Little Junior Sister, the passageway has been destroyed. How are we going to go back?!"

Yun mochen frowned and whispered in Wang shiqing's ear.

Looking at the current situation, the entire abandoned land would soon be swept by the darkness magical beasts. If they couldn't leave, the danger would naturally increase.

"What's the matter? we're in Broken City, and darkness magical beasts can't come in easily. We don't have to worry about our safety!"

Wang shiqing waved her hand, not caring at all.

"It's not a problem with the darkness magical beasts, it's that we can't go back!"

Yun mochen slapped her forehead. Why couldn't this Little Junior Sister grasp the main point?

"Oh, right! Big brother Lei Ying, do you have any way to return to the mystic class Sea area?" We can't possibly stay in Yin Duan city forever, right?"

Wang shiqing blinked her eyes at Lin Yi as if she just realized what was going on.

Wang shiqing was so calm because she felt that Lin Yi must have some other way to leave if he didn't escape with the mountain sect people.

"That's not necessary. You can choose to leave Yin duancheng. You don't have to stay here."

Lin Yi raised a brow. He didn't believe that this two-faced girl wouldn't have thought of such a simple thing.

So Lin Yi looked at Wang shiqing as well, blinking his eyes innocently. He loved acting, so let's do it together!

Yun hunyun wanted to slap Lin Yi in the face-his little sister was cute, but what was a man doing with her?

After weighing the pros and cons, Yun hunyun decided that she couldn't beat Lin Yi in a fight and turned her head away as if she didn't see anything.

"Big brother Lei Ying, do you want us to go out and die? If we leave yinduan city, there will be darkness magical beasts everywhere. The three of us can't even be considered appetizers. "

Wang shiqing glared at Lin Yi before sitting back down, "Senior brothers Yun, we don't need to worry. Let's stay in the city Lord's mansion in Broken City for the time being! Anyway, someone will be more anxious to leave the abandoned land than us. Let him think of a way. "

The so-called "someone" naturally referred to Lin Yi. Wang shiqing was very confident that Lin Yi wouldn't stay in the abandoned land at ease.

The Yun brothers looked at each other helplessly. They didn't want to have too much contact with Lin Yi, but Wang shiqing didn't seem like she would leave Yin duancheng for the time being.

"Up to you. However, I've just taken over Broken City and have a lot of things to do. If you want to stay, you'll have to help!"

Lin Yi smiled faintly as he thought about how the two-faced girl and the two Yun brothers might be able to fill in the gap in the middle and upper echelons of Broken City.

Wang shiqing, on the other hand, was a cunning and scheming girl. The two Yun brothers were no pushovers either. Which of the peerless Academy's disciples weren't top talents in the mystic division?

"Who made the rule that I have to help if I stay in Broken City? We didn't eat, drink, live, or take anything from you, why should we help you?"

Yun Hu N coldly snorted. He had long been unhappy, so he couldn't help but open his mouth to retort.

This is big brother Lei Ying's territory and you can't beat him. Is it really appropriate for you to say such things?"

Wang shiqing giggled as she turned around to tease Yun Yunyun, causing her to feel a little awkward ...

What Little Junior Sister said made so much sense that Yun hunyun was left speechless!

"Little Junior Sister, you don't have to worry about this idiot. I feel that it's only right for us to help. After all, the broken city is also related to our safety. Only by controlling and stabilizing the city to the greatest extent can we better deal with the darkness demon beasts" invasion. "

Yun Momo glared at her younger brother before moving closer to Wang shiqing and whispering to her.

Yun moqian didn't make it clear because Lin Yi was there, but Wang shiqing understood. Lin Yi was the boss here, and she'd be punished if she dared to make things difficult for him.

Plus, they still had to count on Lin Yi if they wanted to get out. If they didn't build a good relationship with him now, what if he found a way out and didn't bring them along?

"Eldest senior Brother Yun is right. Broken City has become our home, and it is our duty to contribute to our home!"

Wang shiqing smiled and patted her chest. "Big brother Lei Ying, just tell us what to do. As long as it's within our power, we will definitely help you!"

"It's great that you can think like this! Little Qing, I'll leave the matters of Broken City to you. I need some time to go into closed-door cultivation, so don't disturb me unless the darkness magical beasts come to attack. "

Lin Yi didn't want to waste time on trivial things, so he gave the entire city to Wang shiqing.

"No problem. I'm very happy to share big brother Lei Ying's burden!"

Wang shiqing's big eyes curved into two crescent moons as she smiled. With Lin Yi gone, she would be the actual manager of broken Yin city. If Lin Yi didn't give her orders, she would be the boss herself. Just thinking about it made her excited, "With the help of the two senior Yun 's, big brother Lei Ying, you can rest assured and go into seclusion!"

Chapter 6716 City Lord's Item

In fact, Wang shiqing knew that Lin Yi controlled the array and his position in Broken City was unshakeable, but it took a lot of courage for him to let the three of them set it up.

No matter what, Wang shiqing felt the joy of being trusted. It was a good feeling!

"Then I'll have to trouble you three! You guys can do whatever you want, I'm going to start my closed-door cultivation!"

Lin Yi smiled as he looked at the three and placed the formation flags on the table. "This is the control sub-formation flag for the great array of Broken City. Take it in case of emergency."

"Thank you, big brother Lei Ying!"

Wang shiqing ran over and grabbed the three array flags, her smile growing brighter.

Although it was not the main control array flag and could not fully control the city protection array, the sub-array flag was enough for the three of them to use.

"You're welcome. I'll leave the broken city to you!"

Lin Yi's lips curled up as he patted her head. Was this the legendary dog head patting with a smile?

Of course, he couldn't let Wang shiqing know about this. Otherwise, the two-faced little loli would definitely think of a way to take revenge.

After sending the three away, Lin Yi found a quiet room in the mansion and closed the door. He took out the jade box from the Jade space.

Back then, the middle and upper echelons of Broken City had rebelled and fought with ding buqi for this Jade box. It was said that it was related to the secret of Broken City, and only the city Lord had the right to open the jade box.

Now that the broken city's former city Lord had become the demonic corpse bees "food, and Lin Yi had control over the broken city, he automatically became the new city Lord. This Jade box was rightfully his.

"Alright, now let me see what the secret of Broken City is. I hope it will be of help to our current situation!"

Lin Yi let out a long breath and examined the jade box.

The restriction wasn't too complicated for Lin Yi, and he broke it after some time.

The lid of the jade box popped up on its own, and the box was divided into three compartments. A Jade tablet, a roll of silk, and a fragment of a map were placed in each compartment.

"What's the use of these?"

Lin Yi shook his head and took out the silk. Out of the three items, this was the only one he could find a clue about.

Lin Yi opened the silk scroll-it was covered in tiny words, and there was quite a bit of content. Lin Yi scanned through it, and his expression turned serious.

There was a killing formation hidden in the abandoned land?

Lin Yi let out a soft cry, his breathing becoming more and more rapid-it was obvious how emotional he was.

The ghostly thing didn't pay much attention to it at first, but when he scanned it with his divine sense and reflected the words on the silk into his sea of consciousness, he was immediately surprised.

"There really is a hidden killing formation! This was a backup plan left behind by the mighty figure who had set up the abandoned land. As long as the hidden killing array was activated, the entire abandoned land would be turned upside down. Other than a few safe spots, all lives in the other places would be wiped out! What a powerful killing formation!"

Even the demonic thing couldn't help but exclaim. This hidden killing array had already surpassed his array Dao level. It could be seen how deep the array Dao attainments of that Almighty person were!

"Not only that, once the hidden killing array is activated, the entire array of the abandoned land will be reactivated. The previously exposed node will also be shifted!"

The silk in Lin Yi's hands trembled slightly. This news was too shocking, and he needed time to digest it. "Does this mean that even if the darkness demon beasts aren't completely killed, they won't be able to use that node to open up a passage to the mystic class sea?"

"In theory, that's true ... So you want to activate the hidden killing array to completely eliminate all the darkness magical beasts in the abandoned land?"

The ghostly thing pondered for a moment, his tone calm but with a hint of something unknown, but Lin Yi didn't notice it.

"Senior ghost, don't you think this is a good opportunity? Eliminate the darkness magical beasts in the abandoned land and prevent them from going out to wreak havoc on the Sky Class Island! We can hide in a safe spot and watch the situation ..."

Lin Yi couldn't hide his excitement. Killing the dark Demon beasts and leaving the abandoned land-there was nothing more perfect than that. "Once the formation of the abandoned land is reactivated, the destroyed passageway may be rebuilt. The problem of leaving will be solved immediately!"

"Don't be happy too early! The records on the silk were not complete enough, and the passage only had a possibility of appearing. The most important question now was, do you know where the reserved safe points were? Once the hidden killing array is activated and you haven't entered the safe point, you will die too!"

The demonic thing hmphed, pouring cold water on Lin Yi's plan. His biggest concern was Lin Yi's safety. Activating a killing formation was indeed dangerous, and it was important if Lin Yi could get to the safe point after completing it.

"Senior ghost, don't worry. The safe spot must be near the location where the killing array is activated. We will definitely be fine!"

Lin Yi, on the other hand, wasn't worried at all. He was full of confidence-this came from the powerful being.

The silk recorded that the person in charge of the secret of the hidden killing formation was the confidant left behind by the powerful being in the abandoned land to monitor the entire abandoned land.

In the beginning, the abandoned land was indeed a barren land, but the people who sent it here were not simple people, so it was necessary to leave some means.

The safety of his trusted subordinates was naturally his top priority.

"I'm not talking about the location of the safe spots ... Forget it, let's not talk about this!"

The ghastly thing gave up on the topic halfway through his sentence.

In fact, what the ghost wanted to say was that the safety points set up by the powerful being would definitely not be very spacious. Each point could only accommodate a few people at most. After all, there would definitely not be many monitors left behind.

Once the hidden killing array was activated, there was no place in the entire abandoned land that could be called absolutely safe except for a few safe spots. Not only the darkness magical beasts, but all the people in the abandoned land would be the targets of destruction!

Would Lin Yi really use a method like burning Jade and Jade together, letting countless people and dark beasts die with him?

If Lin Yi couldn't bear to let the safe spot be filled with people he didn't know, would he still be able to enter?

"This Jade token is one of the tools to activate the hidden killing array and restart the Grand array of the abandoned land. The records say that there are seven Jade tokens. I wonder where the other six are?"

Lin Yi put the silk back into the box and picked up the other Jade token.

The Jade wasn't big, not even half the size of Lin Yi's palm. There were mysterious patterns on the front, and the Big Dipper in the center.

The back was the same pattern, but the center had been changed to two small words, "Megrez"!

Chapter 6717 Hidden Killing Array

"Looks like the hidden killing formation is arranged in the shape of the Big Dipper. This Jade plaque is the tool for the Megrez star's position. The other six Jade plaques correspond to the positions of the other six stars."

Lin Yi touched the patterns on the Jade token, lost in thought. "Senior ghost, do you think that Broken City Yin is where Megrez planet is located?"

"It's hard to say! Megrez is located at the center of the seven stars. Perhaps you should look for the map of the broken mountain range to see if there's any terrain similar to the seven stars. "

The demonic thing didn't say anything. He didn't continue because he wanted Lin Yi to leave the abandoned land safely and kill all the dark beasts.

As for how many people would die in the abandoned land, it was not within the scope of the ghost's consideration!

"That makes sense! Senior ghost, you're the most experienced!"

Lin Yi smiled and nodded. He took out the map fragment as he put the Jade away. "Senior ghost, take a look. Is this map fragment the location of the hidden killing array?"

"I can't tell ... The damage is too severe. I can't identify it!"

The ghastly thing looked at it carefully for a while and finally gave up. "It's probably the same as the Jade token. I can only understand it after I've gathered everything. "

"Senior ghost, why do you think this thing is in the hands of Broken City Lord Yin? Apart from the possibility just now, could it be that Broken city's city Lord was a descendant who was left behind to monitor the abandoned land?"

Lin Yi frowned. The trusted aide of that higher being might have died long ago. If he was still alive, his strength would be way stronger than Broken city's city Lord.

So Lin Yi felt that his guess was very likely to be true. Of course, this wasn't important. What was important was that the other Jade cards and broken maps were most likely in the hands of the other castellans!

"It's possible, because there's a high chance that the broken city is like what you've speculated, the position of the celestial star in the Big Dipper. Without further delay, find someone to get a map of the mountain range and study it!"

"Alright, I'll get someone immediately!"

Lin Yi thought so and put the jade box into the Jade space before opening the door and leaving.

The higher-ups of the house were all dead, but the middle and lower levels were still intact. Lin Yi quickly found a guard and asked where he could get a map of the mountain range.

"City Lord, there's a complete terrain model of the entire mountain range in the meeting hall. If you need it, I can bring you there."

It was a rather young guard, looking at Lin Yi with eyes full of respect.

Lin Yi had practically saved the entire broken Yin city all by himself, especially with his clones going around to save people. The people of broken Yin city viewed him with a high level of respect that even Lin Yi himself couldn't imagine.

"Alright, then I'll have to trouble you to lead the way."

Lin Yi smiled and nodded, signaling for the guard to lead the way.

"This subordinate will do as you command! I'm willing to serve the city Lord!"

The young guard couldn't hide the excitement and pride on his face as he led Lin Yi to the meeting hall after a solemn bow.

The mansion was huge, and Lin Yi wasn't very familiar with it. The spirit sense barrier wasn't strong, but he didn't want to destroy it. It was better to have someone lead the way.

The meeting hall wasn't too far away, and they soon arrived at the place after a few turns.

"City Lord, this is the meeting hall, is there anything else you need this subordinate to do?"

The young guard bowed slightly, a respectful smile on his face.

"Thank you for leading the way. I don't need any help for the time being. You can go back first!"

Lin Yi nodded lightly and thanked him with a smile before sending him away.

A hint of disappointment flashed across the young guard's face. Being able to be with his idol was a rare opportunity. Unfortunately, he couldn't help much, so he could only bow and leave.

Lin Yi pushed open the door and entered the room. A huge model of a mountain range came into view, taking up almost two-thirds of the room.

"It's indeed the terrain model of the yinduan mountain range. Look over there, the small red house represents yinduan city!"

The ghostly thing had found their exact location.

"Senior ghost, broken Yin city isn't in the center of broken Yin mountain range. It can only be said to be in the center of the outer region."

Lin Yi pointed at the Red House on the map, and looked at the uninhabited area deeper in the mountain range.

He had never set foot in that place before, and he never thought that there would be such a vast area there. It was nearly ten times larger than the outer mountains.

The area occupied by human cultivators was actually less than one-tenth of the entire broken Yin mountain range! This situation was far beyond Lin Yi's expectations.

"Let's not worry about that area for now. Let's look at the distribution of the surrounding cities!"

The demonic thing was more concerned about the hidden killing formation. If he could determine the position of the Big Dipper, activating the killing formation would be very smooth.

"Every city has a label, but there are more than two digits of cities in the entire mountain range, as well as some small villages. Senior ghost, can you see anything?"

Lin Yi glanced at the houses scattered around the model, feeling a headache coming on. "How nice would it be if there are only seven cities and these seven cities form the Big Dipper?!"

"Haha, you wish! Stop daydreaming!"

The demonic thing laughed a few times before sighing softly. As expected, it was not easy to find the hidden killing formation just by looking at the terrain of the mountain range. "If the broken city is the location of Megrez planet ... Fine, the surrounding cities can be said to be the other six stars. This won't do!"

"Does this map fragment correspond to the location of the mountain range?" Lin Yi took out the map fragment again and compared it to the mountains.

Unfortunately, the map fragment was too small, and it was impossible to see what was drawn on it. It was impossible to find the location with this!

"What can you see from this? For now, he had to find the rest of the Jade plates and the map fragments. As for the location of the hidden killing formation, it would naturally come to fruition when the time came. It's also possible that after you've gathered all the map fragments, you'll realize that the hidden killing formation isn't activated at seven locations, but at one location ..."

The ghastly thing suddenly changed the topic. "Feng Duan city is a good target. You can go there and look around. You might find another Jade box."

"Senior ghost, are you trying to say that I have a grudge against Feng Duan city, so I don't have any psychological burden if I go over and attack them?"

Lin Yi couldn't help but laugh. In order to get the other Jade plates and map fragments, he would fight for them, no matter if they had grudges or not. "But senior ghost, what you said makes sense. Perhaps the seven Jade plates can activate the formation as long as they are concentrated at a node."

"The most important thing now is to confirm whether the other Jade tokens and map fragments are in the hands of the city Lords or left in their respective city Lords' mansions."

Feng Duan city was relatively close to Broken City, so it was more suitable to be the first target.

Chapter 6718 Attack On Broken City

"It doesn't matter whether you have a grudge or not. I think that with the red dust all creation mask, it won't be a problem for you to enter sealed break city. Plus, the city is in a bit of a mess right now, so as long as there are Jade plates and map fragments there, your chances of getting them are quite high!"

"Then let's go to Feng Duan city now!"

Lin Yi decided to carry it out immediately. Time was of the essence as the number of sun swallowing rats and corpse demon bees were increasing. He had to stop them from reproducing.

"Before you leave, leave a few clones to explore Yin Broken City and see if there are any clues to the hidden killing formation. We need to confirm if Yin Broken City is really Megrez's location!"

This thing was thinking about Zhou Xiang, Lin Yi thought.

He left behind a Thunder Eagle clone with the thousand changes of wood forest and forest, pretending to be in closed-door cultivation to guard Yin Duan city. He then changed his appearance and created 20 clones to search for Yin Duan city. Of course, the main focus was the city Lord's mansion.

After that, Lin Yi changed his appearance and left the mansion.

Broken City only allowed people to leave, not enter, so no one stopped Lin Yi when he left the city. He passed through the gate smoothly with a strange face.

However, as soon as Lin Yi left the city, he saw a cloud of dust flying towards Yin Duan city.

"What's that? The darkness magical beasts have come to attack Broken City again?"

Lin Yi was a little surprised. If the sun-swallowing rats and the corpse demon bees were really coming at the same time, he wouldn't dare to leave the city.

Although the city's defensive formation had been repaired and upgraded, Lin Yi couldn't be at ease if he didn't stay behind to defend against the endless attacks of the dark Demon beasts.

"It's not a darkness magical beast! It's a team of human experts!"

Lin Yi released his spirit sense and frowned. He felt that there was something strange about these people!

Could it be a large mercenary group? But that wasn't right either. They were all wearing standard armor and looked more like an Army!

"Those who come with ill intentions will not come! Maybe the other cities knew that something had happened to Broken City, so they wanted to take over Broken City! Don't worry, just follow them!"

The ghostly things didn't matter. The city protection array wasn't that easy to destroy. Moreover, Broken City didn't rely on the protection array alone. It was a place without any Defense Forces.

If Lin Yi didn't appear, Broken City would've lost all its middle to high level members and would've been swallowed up!

However, the situation was different now. It was definitely not an easy task to break through Yin duancheng with just these experts.

Lin Yi nodded after some thought, deciding to observe the situation first.

If the situation was really as the thing had predicted, and other cities were coming to take over Yin Duan city, Lin Yi couldn't just leave like that.

After all, the broken city was not only his shelter in the future, but it was also related to the hidden killing formation in the abandoned land. He could not afford to lose it.

The group of human masters hadn't gotten close yet, so Lin Yi decided to use his wood escape technique and quietly meet them, observing the situation up close.

"This is indeed not an ordinary mercenary group! We can see some clues from the composition of the members. "

Lin Yi hid in the trunk of a giant tree, his face indifferent as he watched the group pass by quickly.

As Lin Yi got closer, he could feel the killing intent rising from these people. It seemed that the ghost's guess was right.

The whole team was more than a thousand people, and only a small half of them were Yuanying experts. The rest were about six hundred xuansheng experts, and a small part of mountain and land splitting experts. The leaders were two sea splitting experts.

This lineup was more than enough to deal with Broken City Yin, which had no leader. If the defender array had not been upgraded, there was a great chance that it would be broken in one fell swoop.

"What are you going to do? We'll let them attack the broken city and then retreat?"

The demonic thing asked casually. This team was not weak, but he did not take it to heart. "Should I go back and show my face to intimidate these people?"

"This is so troublesome ... Let's see how things go first. Anyway, there's still a clone in the city. It'll be best if they know how to retreat. We'll see if they can 't."

Lin Yi rubbed his forehead. He knew that this team probably couldn't pose a threat to Broken City, but he didn't want to kill them for Broken City.

The human masters were at a disadvantage, and the dark Demon beasts would only benefit from the internal conflict. This group was quite strong, and Lin Yi still wanted to use them against the dark Demon beasts.

In troubled times, everything really came together!

"I hope they'll be sensible and turn back on their own! However, I must advise you not to have too much hope. "

The demonic thing snorted coldly. Sometimes, the bad nature of human experts was even worse than that of the spirit beast clan. He had seen it too many times."If we fail once, Broken City might become the target of all the cities in broken mountain range!"

"You mean that if they can't take down yinduan city, they will join forces with the other cities to attack us?"

Lin Yi was stunned, but it wasn't impossible!

Everyone would fight together and then split the benefits after the fight. This was a very normal thing.

Lin Yi nodded silently and used his wood escape technique to catch up to the group, quickly reaching the outer area of Yin Duan city.

If he had been more ruthless, he could have taken the opportunity to launch a sneak attack on this team and condensed two super alchemic bombs that he could control to the limit. He could casually throw them out and reap the lives of a large number of experts.

Other than the two sea severing Masters, normal earth splitting Masters might not even be able to survive Lin Yi's sneak attack, let alone those below earth splitting realm. They would only be slaughtered by the Super alchemy fire bomb.

"Who is in charge of Broken City now? Come out and talk!"

The entire group stopped five miles away from the broken city. The leading golden-robed old man spoke in a deep voice. His voice spread far and wide, forming a thunderous sound in the sky above the broken city.

This man was one of the two experts in the shattered Sea. His strength was indeed extraordinary.

Wang shiqing stood on the city wall with the two Yun brothers, looking at the thousand-man team from a distance with a serious expression.

The guards on the lookout immediately informed Wang shiqing when they found traces of the troops outside the city. At the same time, they closed the city gate and activated the city-guarding formation.

It was also because of this that the Golden-robed old man stopped moving forward. Facing Yin duancheng, who was obviously on guard, he felt that it was necessary to find out the truth.

As the saying goes, "superior soldiers go against schemes." If they could take over the broken city without shedding a drop of blood, they would be able to maximize their benefits!

"Black-bellied little loli, you've done a good job. At least from the looks of it, you've done a good job in defense."

Lin Yi nodded to himself and continued to hide on the side, waiting to see how Wang shiqing would react.

However, on the city wall, Wang shiqing's small face suddenly had a smile, and she became calm and relaxed. She wasn't as serious as before, as if she didn't care about the troops outside the city at all ...

Chapter 6719 What Are They?!

"Has Thunder Eagle City Master started his seclusion? Oh, he's already in seclusion? Then there's no need to disturb him. We'll handle this ourselves ..."

"The broken city guards are all in position? There's no need for all of them to go into battle. Half of them will be used as reserves. Summon the mercenary groups in the city to help defend the city. All the patrols will be dispatched to avoid any abnormalities in the city ..."

"Eldest senior Brother Yun, second senior Brother Yun, each of you will lead a team and use the formation flags that big brother Lei Ying gave you to set up the defense of one side of the city wall. With the three of us working together, Broken City will definitely be fine."

Wang shiqing asked about the situation, assigned tasks, and talked to a few people in a short time. Everything was in order.

The Yun brothers were stunned. They had long felt that their Junior Sister was extraordinary, but they did not expect her to be so powerful that it exceeded their imagination!

If these things were done by the two of them, they might be able to arrange it perfectly, but it wasn't so easy to be immersed in it in such a short time.

After arranging everything, Wang shiqing said with a smile, "I'm in charge of Broken City, so if you have anything to say, you can tell me!"

The strength of the two-faced little loli and the Golden-robed old man were worlds apart. Naturally, she was unable to create that kind of thunderous and astonishing momentum. However, it was not a problem for her to clearly transmit her voice to the opposite camp.

"Is Broken City really empty? You actually let a little girl who still stinks of her mother's milk take charge!"

The Golden-robed old man laughed out loud, and his expression instantly relaxed.

Even though there was a distance between them and the defense array, the Golden-robed elder could still see through Wang shiqing's true strength. A little girl who hadn't even opened a mountain wasn't worthy of his attention.

"Old grandpa, we have a lot of people in Broken City, but our city Lord felt that I was enough to deal with you, so I reluctantly came to talk to you. If you are not satisfied, I can ask my assistant to talk to you."

Wang shiqing was innocent and didn't seem to mind the Golden-robed old man calling her a little girl.

However, there was a needle hidden in her words. She disparaged the Golden-robed old man without batting an eye. This showed that this Black-bellied little loli was definitely not really unconcerned.

The Golden-robed old man was immediately at a loss for words. He was clearly inferior to the Black-bellied little loli in terms of verbal confrontation.

"Little girl, this old master doesn't want to be labeled as a bully. Go and call your city Lord over, or else this old master won't be polite!"

The Golden-robed old man snorted and waved his hand disdainfully.

"Old grandpa, I've already made it clear just now. If there's anything, you can talk to me directly. If there's nothing else, you can go back quickly. Don't waste everyone's time here."

Wang shiqing still had an innocent smile on her face, and her words were impolite. If they were outside the city, she wouldn't have dared to speak to the Golden-robed old man like this.

However, with the protection of the powerful defensive array, Wang shiqing was confident and felt that it was not a big deal to provoke him.

To stir up three-foot waves even when there was no wind, the Black-bellied little loli had never been an easy person to deal with!

"Childish! You're so arrogant!"

The Golden-robed old man's expression wasn't very friendly. After shouting, he felt that with his status, it wasn't appropriate for him to fall out with a little girl like Wang shiqing.

How could a mighty expert of the shattered Sea bully a little girl who had not even opened a mountain yet? If word of this got out ... It would be a bad thing!

"Don't talk nonsense with her. Open the defense array of Broken City first!"

The silver-robed middle-aged man beside the Golden-robed old man said in a deep voice.

At the same time, he waved his hand forward. Immediately, a late-stage earth-splitting expert led a team of 20 mountain-splitting and xuansheng experts and rushed towards Yin duancheng.

Compared to the whole team, these mere 20 people were almost negligible, but each of them was an expert and was definitely an elite team. In theory, they were more than enough to test the waters and attack.

"What a joke. They're going to attack our defensive array with so few people? You're underestimating me!"

A trace of contempt flashed in Wang shiqing's eyes, and she smiled disdainfully.

She didn't need to worry about the attack of 20 people at all. Even a sea splitting expert wouldn't be able to break through the great array of broken Yin city with such a small number of people, let alone a late-stage earth splitting expert!

Except for Wang shiqing, the other guards on the city wall were all ready to fight back.

As Broken City had been built for so many years, it was rare for it to be attacked by other cities, and the guards were seriously lacking in combat experience.

Dozens of beams of light instantly flew through the air and bombarded the great array of broken Yin city. Before the 20-man elite team could even get close, they had already opened fire!

The guards on the city wall couldn't help but look nervous. In broken Yin city, almost all of the middle and upper echelons had been wiped out. Land opening experts only existed in large mercenary groups. The strongest guards were only at the mountain opening stage. They were not sure if the city protection formation could withstand this wave of attacks.

Once the defensive array could not hold on, they would have to face the enemy's attack directly. Without experts to hold the line, it was foreseeable that the casualty rate would reach an unimaginable height!

No one wanted to be part of that number, so the moment the enemy attacked, the guards were almost all praying sincerely ...

"He blocked it! He blocked it!"

The next second, cheers erupted on the city wall.

The attack of the 20-man elite team outside the city did not even cause a wave at all. It was like a clay ox entering the sea, completely eliminated by the formation.

"Why are you so happy? Wasn't it just blocking a wave of small attacks? what was there to cheer about? I've heard that even the darkness demon beasts 'sun-devouring rat tide can't do anything to this great array. How can a few people be stronger than the rat tide?"

Wang shiqing pouted, her little face full of indifference. She couldn't understand the guards "cheers.

Wasn't it only natural for him to block the attacks of so few kittens?

"Miss Wang is right! We can even resist the rat tide, so what's the big deal about some enemy forces?"

A guard recalled the battle with the sun-swallowing rats and immediately agreed.

Without exception, everyone present had experienced that battle. Their courage was immediately boosted, and they nodded in agreement.

Just now, they were suddenly faced with the troops of human experts and couldn't make contact with the sun-swallowing rats for a while. After all, in their hearts, although the sun-swallowing rats were powerful, they were still beasts without any intelligence and couldn't be compared with humans.

"That's right. You've all seen the power of the sun-devouring rat tide with your own eyes. I can tell you very responsibly that the fighting strength of those people outside is simply no match for the sun-devouring rat tide! If you can resist the rat tide, why are you afraid that you can't stop them?"

Wang shiqing waved her little hands and gave an impassioned speech to boost morale. "Also, our city's protective array has been upgraded by Thunder Eagle City Master. Even the rat tide can't do anything to us, so what can the scum outside do?"

Chapter 6720 What Can I Do?

Hearing this, the guards on the city wall immediately felt more confident and their morale soared. They felt that they would definitely win this battle, and all of them raised their weapons high.

The battle fervor quickly spread, and even if the guards in the distance didn't know what Wang shiqing was talking about, they were influenced by their comrades and raised their weapons up high.

"I didn't expect this Black-bellied little loli to have some leadership qualities. With just a few words, she was able to raise the morale of Broken City Yin!"

Lin Yi, who was hiding in the distance, had been observing Wang shiqing's performance with his spirit sense. He couldn't help but praise her.

Outside the broken city, the first round of probing did not yield any results. The 20-man elite team quickly retreated and rejoined the main force.

"This city's defensive formation is not simple and can not be easily solved! How troublesome!"

The silver-robed middle-aged man's expression was a bit gloomy. His probing attacks were useless, as he could not see the actual situation of the city's protective array.

At most, it could only be said that Broken city's defenses were powerful and not something an elite team could shake. As for how powerful it was, they would need to invest more troops to test it out.

"It's quite troublesome. I'm likely to return empty-handed today. But before that, I have to test the limits of this city protection formation."

The Golden-robed old man snorted and wondered if he should launch an all-out attack.

Regardless of whether they could break through the city today, as long as they could create an opening, this operation would be considered a success!

"Do it! Focus your attacks and break the surface with a single point!"

The silver-robed middle-aged man lightly nodded and looked at the left side of the city wall.

"If we want to break through from the front, the city gate is the best choice. The defense of the city wall over there looks weak, but if we really fight, the difficulty will definitely not be much lower than the city gate."

The Golden-robed old man sensed the silver-robed middle-aged man's gaze and immediately shook his head in rejection.

"I'll listen to you!"

The silver-robed middle-aged man shrugged and began to observe the situation at the gate.

"Let's go!"

The Golden-robed old man did not waste any more time. With a wave of his hand, he led all his men and charged towards the city gate.

The 1,000-man team quickly changed their formation and formed a huge offensive battle formation, gathering everyone's power.

In terms of the total number of attacks, the battle formation did not bring about much improvement, but just by gathering the scattered attacks into one, it was enough to increase the power by more than several times!

"Senior ghost, it seems like we're in trouble. Can the great city-protecting formation withstand such an attack?"

Lin Yi was a little worried.

The combined attack of the two experts in the shattered Sea realm and over a thousand experts through their battle formation could almost reach the level of breaking the heavens!

Although the city protection formation had been upgraded, it was still hard to say whether it could withstand such an attack!

The sun-devouring rats were huge in number, but they did not have the means of human battle formations. Their concentrated attack power was even worse, and there was no way to compare them.

"A normal level-nine array will definitely not be able to withstand it. However, the scope of the broken city's protective array is huge, and all the materials used to set it up are top-notch. I have such a good basic array and I don't lack the energy of the array. A few small fries are not enough to deal with me."

The demonic thing laughed arrogantly.

Lin Yi said, relieved.

As he spoke, the joint attack struck the city's great array like lightning. The originally invisible defensive layer glowed brightly, and violent ripples spread out in circles.

The expressions of the guards on the city wall changed rapidly. At first, they were frightened, then they were overjoyed, and at the same time, they cheered in unison!

The enemy's attack had ended, and the city's great array was not damaged at all!

Lin Yi couldn't help but cheer in his heart. The defense of the city's defensive formation was indeed incomparable to normal formations of the same level. It seemed that this damn thing's skills in setting up formations were really impressive!

An Ordinary grade-9 defensive formation would have been completely destroyed by such a powerful attack.

The Golden-robed elder and the silver-robed middle-aged man looked at each other with ugly expressions. The Golden-robed elder waved his hand to signal for the team to retreat.

"The previous defender array of Broken City was definitely not this powerful. In the information we collected, there was no mention of upgrading the defender array. What do you think?"

After retreating a thousand meters, the Golden-robed old man asked the silver-robed middle-aged man in a low voice with a gloomy expression, "Could it be that the information we collected was wrong?"

"Rather than saying that the information is wrong, it is more accurate to say that the information is outdated! Previously, Broken City definitely did not have such a powerful city protection array. The only possibility was that an array master had come to Broken City! This person is most likely the new city Lord who has yet to reveal himself!"

The silver-robed middle-aged man's long and narrow eyes flickered with a cold light. His heart was also heavy. "Judging from our probing attacks just now, it will take at least a few days for all of us to break this defender array!"

"It's not impossible to attack continuously for a few days, but the consumption of true Qi can be replenished in turns. The problem is that the people in the broken city are not all dead, so will they let us attack them without any reaction? Once the city retaliates, they don't even need to move out on a large scale. They only need to ambush and harass us in a small area, and it'll be enough to make us suffer. "

The Golden-robed old man shook his head and smiled bitterly. At this point, he narrowed his eyes and stared at the silver-robed middle-aged man. Although his strength was slightly higher, his opinions still needed to be discussed. "What do you think? Should we continue to attack or temporarily retreat?"

"Retreat! If we continue to attack, we won't be able to gain any advantage. The surrounding wolves are looking around. We're not stupid. It's very likely that we'll end up benefiting others if we fight to the death!"

The silver-robed middle-aged man was extremely decisive. He made his decision without the slightest hesitation.

"Alright! We'll retreat!"

The Golden-robed old man's face flashed with a trace of helplessness. He had mobilized so many people to take Broken City, but in the end, he had only launched his strongest attack and then retreated. If word got out, he would lose face.

However, he had to admit that the silver-robed middle-aged man's words were very reasonable. The third party would benefit from the crane and clam's fight!

"Don't worry too much. None of the surrounding wolves will let Yin duancheng off!"

The silver-robed middle-aged man lowered his voice and muttered, ""Let's leave this place and wait for two more days. We'll form an alliance with the other cities that are rushing over to share the risk and losses, because the broken city will fall sooner or later!"

The Golden-robed old man immediately nodded slightly. In this way, the benefits they would receive would naturally be greatly reduced, but the losses they had to bear would also be greatly reduced.

The most important thing was that with more people, the attack power would increase by several times, and the time needed to break the defender array would also be greatly reduced.

"Lin kid, are you just going to watch them retreat and then join forces with more people to besiege Yin duancheng?"

The ghastly thing suddenly said coldly.

"Then what can I do? I'm also in despair! Can I kill all of them by myself?"

Lin Yi rolled his eyes. Not to mention the two sea-shattering Masters, even those Masters who opened up mountains ... A super pill fire bomb might not be able to kill them all at once!
