

Bodyguard 6721

Chapter 6721 Returning Kindness With Ingratitude

If they didn't kill him now, Lin Yi would be in danger!

Most importantly, the biggest danger in the abandoned land was the dark Demon beasts. It was best for the human masters to unite against the dark Demon beasts, and Lin Yi didn't want to waste time on his own kind.

"It's fine if you don't want to kill them. In any case, the city's protective array won't be a problem in the short term. This old master's idea is that you can find out where these guys came from, and then we'll raid their nest!"

The demonic thing laughed weirdly. If he could take advantage of the fact that these people were empty behind him and find the broken map of the hidden killing array, it did not matter if the broken city was destroyed.

"Old ginger is spicier! Later, we'll secretly catch a small fry and interrogate him. We should be able to find out their origins. "

Lin Yi's eyes lit up.

It seemed like the surrounding cities had sent their elite troops to attack Broken City, making it easier for Lin Yi to sneak into the mansion.

With Lin Yi's speed, as long as he knew which cities sent their troops, he could quickly go to the enemy's base. If that didn't work, he could still use the teleportation talismans Wang shiqing gave him!

"By the way, senior ghost, can you also modify and upgrade their great city-guarding formation?"

Lin Yi asked suddenly.

"You want to control their city?"

The demonic thing was shocked. "This is a good plan. If we can get one of their city's controlling formation flags, it might be possible!"

"You can't do it without controlling the formation flags?"

Lin Yi intentionally used an exaggerated tone to provoke the damn thing-it was better to goad it into action than to provoke it!

"What a joke, don't you know who I am? How can I not be able to do such a small thing?"

The ghostly thing liked this and immediately took charge. "Broken city's original defender array was only at level eight. The other cities can't possibly exceed this standard. Without control array flags, it would only take a little more effort!"

"Alright, let's do that! We'll find their lair and then modify the formation of their city. Once we succeed, we'll be able to move freely in the city, and they won't be able to do anything to us even if they come back. "

Lin Yi's heart settled-it was so convenient to have a formation master by his side, and taking a city would be as easy as flipping his hand.

"Eh, don't even think about taking over the city. There are darkness magical beasts approaching! It's the sun-devouring rats and the corpse demon bees!"

The ghostly thing suddenly let out a surprised sound, and the traces of the darkness magical beast appeared within the range of their divine senses.

"Why are there darkness magical beasts everywhere? are they so large that they've covered the entire abandoned land?"

Lin Yi frowned as he tried to figure out if the thousand-man team could hold off the dark beasts.

However, the answer was no. In that team, other than the two experts with the shattered Sea, the others were probably no match for them!

In fact, if the two experts in the shattered Sea did not leave in a hurry, they might also be surrounded and killed!

No matter how strong an expert was, it was impossible to deal with the endless tide of attacks, especially the sun swallowing rat and the corpse demon bee, which had almost an infinite number of new monster mode.

They were enemies, but Lin Yi couldn't just watch them get killed without any defense!

Lin Yi gritted his teeth and jumped out of the tree.

"You're crazy! There might be even more powerful darkness demon beast commanders hiding behind the sun-devouring rats and the corpse demon bees. If you rush over to warn them, you'll become a target as well!"

The damn thing cried out, not expecting Lin Yi to make such an irrational decision.

After all, this 1000-man team was still broken city's enemy. Even if he wanted to rope them in to fight against the darkness demon beasts, he didn't have to risk his life at this time!

"Senior ghost, don't worry! I'll be fine!"

Lin Yi didn't have time to say anything else. Qi exploded from his feet as he activated his super butterfly microstep and charged towards the team not far away.

"Who's there!"

The Golden-robed elder and silver-robed middle-aged man at the front of the group turned to look at Lin Yi with cold eyes when they sensed the Qi.

Lin Yi appeared in the range of the two sea splitting Masters' senses, and he was closer to the core!

But before Lin Yi activated his Qi, they didn't even notice him. Just this point alone was enough to make them wary.

"The person who will save you!"

Lin Yi roared as he swung his arm, shaking off two mountain Masters who were trying to stop him. He used his footwork to avoid an earth-splitting master's attack and arrived in front of the two elders.

"Save us? You should think about how to save yourself first!"

The Golden-robed old man raised his eyebrows and sneered. An invisible pressure instantly enveloped Lin Yi, binding him tightly within.

"A mere kid in the mountain opening stage actually dares to boast shamelessly that he's the one who saved us. Interesting!"

A smile appeared on the silver-robed man's face as he examined Lin Yi.

"It's up to you to believe it or not! There's a large number of demon beasts of darkness coming from behind you, and they're mainly the sun-devouring rats and the corpse demon bees!"

Lin Yi's face was calm, not taking the pressure to heart. "The few of you can't even be considered waves in the rat tide and the bee colony. Hurry up and set up your defenses!"

The difference in strength between the two was indeed huge, but in terms of the strength of his spirit sense, Lin Yi who had merged with GUI Dongxi was far stronger than these two masters. Hence, their pressure was not enough to limit Lin Yi.

"Darkness magical beast? A rat tide? Bee colony? Good story!"

The silver-robed middle-aged man sneered with a look of disbelief on his face. He then asked in a deep voice, "Who the hell are you? Who sent you here?"

"No, I was wrong! With your strength, you can't even set up a defense to stop the sun-devouring rats and the corpse demon bees. A thousand people is not enough! It's best to escape immediately, there's still a chance of survival. "

Lin Yi ignored the silver-robed man and quickly tried to persuade him, "There's no time! Hurry up and give the order to escape!"

"How audacious! You ignorant junior, what gives you the confidence to speak to us like that?"

The Golden-robed old man's face darkened as he roared and raised his hand to grab Lin Yi.

Anyone who dared to offend him had to be prepared to be punished!

Lin Yi shifted his feet and activated his super limit butterfly micro steps. His body turned into a series of afterimages and slid past the Golden-robed elder's hand.

"You have some skills! No wonder you dare to be so arrogant!"

The Golden-robed old man paused-he didn't think that Lin Yi would be able to escape from him!

After all, this was a battle between a sea split cultivator and a mountain split cultivator. Lin Yi had no reason to avoid it no matter how casually they attacked!

Furthermore, the Golden-robed old man had always thought that the other party was unable to move under his pressure.

The Golden-robed old man couldn't help but blush at the sight of this. It was already embarrassing to bully a junior, and he hadn't even succeeded ...

Chapter 6722 Really Here!

"I took the risk to warn you out of good intentions, but you guys actually repaid my kindness with ingratitude!"

Lin Yi shouted, but he was secretly shocked. Qi exploded under his feet and he quickly put some distance between them.

The sea-breaker master was indeed extraordinary-Lin Yi barely dodged with his super limit butterfly micro steps.

"Hahahaha, if you don't listen to your elders, you'll suffer!"

The demonic thing laughed heartlessly. He had been opposing it just now, and now it was as he had expected. "Let's hurry up and leave. Who cares if they live or die!"

Lin Yi didn't even have time to reply before the Golden-robed old man's follow-up attack arrived.

An enraged sea-shattering expert wasn't someone Lin Yi could deal with easily.

"Junior! Don't think that you can escape just because you have good movement techniques. Obediently surrender and let this old man see if the darkness demon beast you spoke of will come!"

The Golden-robed old man shouted in a low voice, taking the opportunity to hide his embarrassment and anger.

Lin Yi barely dodged the elder's second attack with the cloud Dragon's three appearances and super limit butterfly micro steps, feeling a little scared.

An attack at the sea splitting stage would cause fatal damage to him as long as it grazed him!

If he continued to play like this, he would easily get himself into trouble!

"Whether the darkness demon beast will come or not, you can open your dog eyes and see for yourself! This little master will not accompany you!"

Lin Yi said as he continued to Dodge.

The lightning escape could easily expose his identity, and he didn't want to use it unless it was absolutely necessary. As for the teleportation talismans, they were life-saving treasures-every time he used one, he'd have one less. The two-faced girl didn't know how many she had left, and he didn't expect to get them from Wang shiqing.

It was not a problem to rely on the Super limit butterfly micro-steps to cover a short distance, but it was still far from enough to get rid of the two experts in the shattered Sea!

"You just come and go as you please! Do you really think I'm a fake?"

The Golden-robed old man failed again. He could no longer hold his pride and roared with all his strength!

A huge fire palm print that covered a few thousand meters fell from the sky, sealing off all of Lin Yi's escape routes. The Golden-robed old man's body was also surrounded by the same violent fire.

"Eh, this old guy's flame is not ordinary. It should be transformed from the accompanying Spirit Fire Crystal of some heaven and earth Spirit Fire. Unfortunately, its power is too weak, much weaker than your icy blaze fire."

The ghastly thing was slightly surprised, and then it became very disdainful.

There was still the true body of the ice flame nether Lotus flame in the Jade space, so the Golden-robed elder's fire-related items were nothing to him.

"Ha ... He can kill me without using flames!"

Lin Yi shook his head with a bitter smile and charged into a tree as he spoke, using his wood escape technique to get away from the Golden-robed elder's range.

A series of loud explosions occurred, and flames swept in all directions. Everything within a radius of several thousand meters was turned into ashes!

Lin Yi was hiding in a big tree, looking at the fire that was burning everything three steps away in front of him. He was scared!

Lin Yi almost didn't escape the attack range. He'd be in big trouble if the Golden-robed elder stopped him.

"Senior ghost, that golden-robed old man's attack power seems to be quite suitable for dealing with the rat tide and the bee swarm. Am I worrying too much?"

"Oh, you finally understand? I told you to ignore them, but you didn't listen!"

The ghastly thing snorted and continued, ""With this flame, the Golden-robed old man will have a great advantage against the ordinary sun-devouring rats and demonic corpse bees. With the cooperation of the whole team, the chances of survival will also increase by a lot."

In fact, it was better to be killed than to live a little longer. This was the true thought in the heart of the damn thing.

"Sun-swallowing rats don't die easily, especially those at the beginning and the beginning stages. They can't die immediately and can split into new ones at any time."

Lin Yi nodded and sighed. The Golden-robed old man had the ability to deal with group attacks, but the sun swallowing rat and the corpse demon bee weren't just good at group attacks. Their near-undying characteristic was their most terrifying aspect.

"Don't think too much. The rat tide and the bee colony will be here soon. You should leave here as soon as possible!"

The ghastly thing urged.

Lin Yi looked at the Golden-robed old man's team from afar and decided to give them a final reminder. They were all human elites, after all, and they couldn't just lose them like this.

"The dark magical beast tide is coming. Get into a defensive formation!"

Lin Yi channeled his Qi and sent his roar far and wide, exploding in the air above the Golden-robed old man's team. The entire team heard it clearly!

The gold-robed elder and silver-robed middle-aged man's faces were very ugly. Lin Yi's aura disappeared after that attack, and they thought they'd killed him. They didn't expect this junior to jump out and bewitch them again!

It didn't matter if Lin Yi was telling the truth or not, the entire group of practitioners went into a defensive state subconsciously after hearing what he said. This alone was enough to piss the Golden-robed old man off.

"You delude the masses with your lies! Come out and face your death!"

The Golden-robed old man's hair and beard were all standing up. He roared and waved his arms. One after another, true energy handprints with flames slapped everywhere. The rumbling sounds of explosions continued.

"This old man is crazy ... How much true Qi will he have left when the dark magical beast Army comes?"

Lin Yi curled his lips and shook his head. With such a reckless and brainless leader, this team was probably doomed!

Alright, he was already in danger, so he should be dying even faster now ...

After a short while, a large black Mass of darkness magical beasts appeared in the distance.

The Golden-robed old man and the silver-robed middle-aged man finally noticed the abnormality, and their expressions changed drastically. They looked at each other and were speechless for a while.

"Defend! Defensive formation!"

The silver-robed middle-aged man was the first to react. With a twisted expression, he shouted at the troops to change their formation.

The Golden-robed elder had also regained his consciousness. He immediately took out a Zhen Qi recovery pill and swallowed it. He had not used up much of his Zhen Qi just now, but in the face of the dark demonic beast tide, any trace of Zhen Qi was enough to affect his life!

"I didn't expect that junior to be telling the truth! When did such a large tide of sun-swallowing rats and corpse demon bees appear in the abandoned land?"

The Golden-robed old man's eyes were a little dazed. He was about to face the legendary darkness demon beast, and it would be a lie to say that he wasn't nervous.

"Do you have the confidence to fight against the darkness magical beast?"

The silver-robed middle-aged man took the time to approach the Golden-robed old man and asked in an almost imperceptible voice.

"I don't know. I can't be sure since I haven't fought in a real battle."

The Golden-robed old man shook his head and became more and more nervous. After a slight pause, he continued, "The number ... Is too much ..."

More and more rats and bees entered the range of the two's divine sense, covering the sky and the earth, and there was no end to it!

"...Go all out!"

The silver-robed middle-aged man's eyes flashed with an inexplicable light as he patted the Golden-robed old man's shoulder.

In his opinion, the darkness magical beasts had come too quickly, and it was too late for the entire team to escape! That would only result in a huge defeat. If they fought with all their might, they might still have a chance of survival.

Chapter 6723 Attack Again

What a pity!

No matter how hard he tried, he wouldn't be able to withstand the darkness magical beast's attack!

He had to make plans early! The silver-robed middle-aged man's eyes flickered. He incited the Golden-robed old man to resist in order to buy himself some time.

It would be best if he could successfully defend himself, but if he really couldn't, the silver-robed middle-aged man would use his companions and subordinates as shields to create an opportunity to escape.

In the blink of an eye, the sun devouring rats and corpse demon bees swarmed over like a tidal wave. The Golden-robed elder and his team were like a small stone that was instantly submerged in it.

Then, a dazzling light shone and opened a gap in the dark Demon beasts 'tide. It worked with the Golden-robed elder's flames and quickly killed the sun swallowing rat and the corpse demon bee.

However, the damage they caused was just a drop in the ocean for the entire rat tide and bee colony. They were not a big deal at all!

"Everyone, give it your all! Life and death will be decided in this battle!"

The silver-robed middle-aged man used his true energy to raise the morale of the soldiers. His voice was extremely clear in the beast tide.

The entire team responded in unison, and their momentum instantly increased by a lot, stabilizing the defensive circle in a short time.

However, the silver-robed middle-aged man himself knew that this was only an appearance!

The number and quality of the darkness magical beasts far exceeded his previous estimation. In the beast tide that was in the hundreds of thousands or even millions, this small group of people was like a small stone falling into the sea, not even causing a wave!

He had to leave as soon as possible!

The silver-robed middle-aged man's eyes flickered as he shouted to boost the morale of the soldiers. At the same time, he secretly took out a teleportation talisman.

The Golden-robed old man activated all the genuine Qi in his body and launched a wide-range attack.

Without him, this group would have fallen and become the food of the sun devouring rats or the hotbed of the corpse demon bees.

The Golden-robed old man, who was completely focused on the battle, did not realize that his companion was planning to escape. He was still wondering why the power of the silver-robed middle-aged man had dropped so drastically. Without a sea Rift helper, the pressure on him immediately multiplied.

"I can't block it! Let's go!"

The silver-robed middle-aged man had successfully activated the teleportation talisman. Before he left, he shouted at the Golden-robed elder in a pretentious manner.

Before the Golden-robed old man could react, the silver-robed middle-aged man disappeared in the light of the transfer talisman.

"Bastard! You dare to trick me! Don't let me find you!"

The Golden-robed old man was furious. He was not a fool. He immediately understood that he had been tricked by the silver-robed middle-aged man!

The teleportation talismans in their hands were all ordinary, incomparable to Wang shiqing 's. Not only did it require a long waiting time before activation, but the user's true Qi couldn't fluctuate too much during the process.

If the Golden-robed old man wanted to activate the teleportation talisman, he would have to stop resisting. If that was the case, the darkness demon beast's attack would most likely kill him before the teleportation talisman was activated.

"Damn bastard! He actually ran away first! I won't let you off! I definitely won 't!"

The Golden-robed old man roared repeatedly, but there was nothing he could do. Originally, if he and the silver-robed middle-aged man worked together, they would have a high chance of breaking through without using the teleportation talisman.

Now that he was the only one left, and more than half of his genuine Qi had been consumed, the difficulty of breaking out of the encirclement had increased by more than ten times!

Lin Yi was observing the battle from a distance with his spirit sense. He couldn't help but shake his head and sigh. The Golden-robed old man was strong, but he wasn't that smart.

The silver-robed middle-aged man had suddenly fled. The Golden-robed old man did not want to stabilize the morale of the Army, so he could only shout and shout. The Army that had been in chaos because of the silver-robed middle-aged man's departure was now even more panicked.

The determination to resist that had been gathered with great difficulty was shattered in an instant. The sun-devouring rats took the opportunity to launch an attack and successfully cut into the group of human experts, splitting them into several pieces.

The demonic corpse bees and sun-devouring rats that were hovering at a low altitude cooperated well. They split into several groups and attacked at the same time.

"They're finished!"

The damn thing sighed. The result was obvious-all of Lin Yi's efforts had been for nothing!

"It's a pity that these human elites ..."

Lin Yi said helplessly. He was willing to help at all costs, but the end result wouldn't change.

The numbers of the rats and bees were way beyond Lin Yi's limit, and with the undying nature of these two dark beasts, there was no chance of winning.

If everyone in the group was as fast as Lin Yi's lightning movement, they might have a chance to break out of the encirclement. Otherwise, no matter how hard they struggled, they would just be prey for the dark Demon beasts!

"Let's go. We'll continue with our previous plan!"

The ghostly thing didn't have that many thoughts of bemoaning the state of the universe and pitying the fate of mankind. In comparison, finding the hidden killing formation and annihilating the darkness magical beasts in one fell swoop was what he was most concerned about.

While the two of them were talking, the rat tide and the swarm of bees worked together at lightning speed, instantly crushing the team led by the Golden-robed old man. Shrill screams continued, and nearly half of the human experts became the food of the sun devouring rats, while the rest became the hotbed for the corpse demon bees to hatch.

The Golden-robed elder's eyes were bloodshot, but he couldn't even save himself. He wanted to save his subordinates, but he couldn't. Under the siege of countless sun swallowing rats and corpse demon bees, he could only barely defend.

"Even if I can't save them, I should at least send them on their way, so that they won't be able to rest in peace when they die!"

Lin Yi revealed himself expressionlessly, a super pill fire bomb in each of his hands.

"You want to destroy their bodies so that the sun devouring rat and the demonic corpse bees won't be able to use them?"

The demonic thing was a little surprised-the Super pill bomb wasn't a long-range skill, and Lin Yi would have to get close or even deep into the swarm of rats and bees.

What was the difference between this and directly helping? The danger would not be reduced at all!

"Don't worry, I know what I'm doing!"

Lin Yi's face showed a determined look, the Super alchemy bomb in his palm was already condensed to the limit of control.

With a flash of lightning, Lin Yi appeared above the group in an instant, and two super alchemy bombs fell at the same time, covering all the human masters' bodies.

The Golden-robed old man was surrounded by a few surviving earth-opening realm Masters. They formed a battle formation and supported him, barely holding on.

Lin Yi's super alchemy bomb fell from the sky, creating an endless sea of fire. Under his control, he barely dodged the Golden-robed old man and the few surviving earth-opening Masters.

"Let's go!"

Lin Yi roared-that was all he could do!

The corpsedemon bees all gathered and rose into the sky when the flames shot into the sky, forming a cloud-like formation, using their wings to resist the attack.

The sun-devouring rat didn't have so many tricks up its sleeve. If it could run away, it would run away. If it couldn't escape, it didn't matter even if it died. As long as there was a corpse, it could grow and split again after devouring it.

The Golden-robed old man panted heavily as he looked at Lin Yi with a complicated expression.

"I didn't expect that ... You really came to save us ..."

Although the darkness demon beast hadn't appeared for a long time, the Golden-robed elder and the remaining earth opening realm Masters had used up a lot of their energy and were almost at their limits.

Chapter 6724 Acquaintance In Gray Bamboo Hat

"Don't talk nonsense, hurry up and leave!"

Lin Yi roared again. He controlled the power of the Super alchemy bomb to avoid the Golden-robed old man and the others. It wasn't an easy thing to do.

The sun-devouring rats and demonic corpse bees retreating didn't mean that they had a lot of time to waste. The chance to escape was fleeting, and Lin Yi didn't dare to waste any more time.

"I can't thank you enough for your great kindness! Let's go!"

The Golden-robed old man knew that time was of the essence, so he didn't bother with the formalities. He cupped his fists at Lin Yi and waved his hand, leading his men to escape.

They quickly consumed a bunch of Qi replenishing pills and used their remaining strength to break through the encirclement with Lin Yi's help.

"I can only help you up to this point. You'll have to rely on yourself after this!"

Lin Yi sighed softly and threw down two more super alchemy fire bombs to cover his retreat. He also quickly left.

The Golden-robed old man and the others were all Masters, and they had a better chance of escaping without the low-leveled practitioners holding them back. Lin Yi didn't have to worry about their safety.

"You've already done your best. Those who died weren't your fault. "

The ghost felt that Lin Yi was a little down and consoled him, ""If we can save a few of the most powerful people, we'll be of great help in the future when we fight against the darkness magical beasts. Don't think too much, let's continue with our previous plan."

"Senior ghost, Don't worry, I'm fine ..."

"It's just that watching over a thousand lives disappear in such a short amount of time makes me a little uncomfortable," Lin Yi sighed.

"I understand. That's why you have to hurry!"

The ghastly thing's tone quickly became solemn. "The sun-devouring rats and corpse demon bees are getting bigger and bigger. This time, we shouldn't have encountered the group at the mountain sect's encampment, nor the ones at the nodes of the abandoned land's formation ..."

"The reproductive abilities of the sun-devouring rats and the corpse demon bees are very strong. They are about to engulf us!"

Lin Yi was silent for a moment before nodding heavily. "I'm afraid that humans have already been completely annihilated in many places. Otherwise, the darkness magical beasts wouldn't have reproduced so quickly!"

The sun-devouring rats and the corpse demon bees could not reproduce at any time and place. The sun-devouring rats needed to eat a lot to increase their strength before splitting up, while the corpse demon bees needed high-quality corpses to breed. Therefore, the larger their scale, the more human experts had died.

"You're right. We just don't know if the cities with the Jade boxes of hidden killing formations have been broken through ..."

The demonic thing stopped here. If that was the case, the possibility of finding the jade box was almost zero.

Lin Yi nodded and quickly headed to the nearest city.

An hour later, Lin Yi was standing on a cliff overlooking the entire city, or more accurately ... The ruins of the city ... Lin Yi's heart turned cold!

"The darkness magical beasts have indeed broken through the city!"

Lin Yi murmured. He didn't know what level the original formation was, but there was no doubt that the dark demonic beasts had the ability to destroy it.

"Let's go down and see if we can find anything. "

The ghastly thing sighed softly. The ruins below were like a ghost's lair, and he could only hope that the darkness magical beasts were not interested in the items!

Lin Yi nodded and opened his ghost speed wings, gliding down without a sound.

There were bloodstains everywhere in the ruins, but no corpses were left behind. There was no doubt that all the corpses had become nourishment.

Lin Yi stood in the ruins and used his spirit sense to find a relatively large building. The city Lord's mansion should be there.

However, as he rushed over, Lin Yi was a little confused-why did the sun-swallowing rat and the demonic corpse bee have such a strong desire for destruction?

When they invaded Broken City earlier, they didn't seem to destroy the buildings, but instead chased after living creatures and devoured them. Could it be that there were other darkness magical beasts among the darkness magical beasts?

Lin Yi shook his head. The situation was getting more and more dangerous, and he had to speed up!

Very quickly, Lin Yi's spirit sense swept out, instantly sweeping through every inch of the ruins, even the underground.

After a while, Lin Yi retracted his spirit sense and looked disappointed.

There was nothing left here except for rubble. Not only was there nothing useful left in the ruins of what seemed to be the city Lord's mansion, but there was also nothing left in the surrounding large areas.

It seemed like his previous assumption was correct. This time, it wasn't just the sun devouring rat and the corpse demon bee that had come. There should be other darkness magical beasts as well.

Now, Lin Yi could only hope that the jade box didn't exist in this city. Otherwise, if it fell into the hands of the dark Demon beasts, it would be impossible to get it back!

Lin Yi was lying to himself, thinking that the jade box might not be in this city, but according to the map, this was one of the most likely cities!

Lin Yi didn't want to admit it, but he had no choice.

After sighing, Lin Yi didn't think too much about it and left for the next city. He had to race against the dark Demon beasts for time.

A moment later, Lin Yi got close to another city, Xuanji broken Cloud City!

Although he couldn't see Cloud Break city with his eyes, Lin Yi's spirit sense had already explored the city. The dark beasts hadn't attacked Cloud Break city yet!

Very quickly, broken Cloud City came into sight. This city was built on a cliff, and the only normal way to enter the city was through the main road.

Under the premise that the enemy did not have the ability to fly, broken Cloud City was definitely a natural chasm that was easy to defend but hard to attack. It would not be an exaggeration to say that one man could hold off ten thousand men.

"Lin Yi!"

Just as they were about to reach the city gates, a deep male voice exploded in Lin Yi's ears.

Lin Yi's shock was no small matter. He turned around and stopped on a branch of a big tree, looking around vigilantly.

"Who is it?"

Lin Yi regretted the words immediately.

He was wearing the red dust all creation mask right now, and this was telling everyone that he was Lin Yi!

Sighing, Lin Yi's spirit sense found a grey-robed man with a bamboo hat walking out from the forest, but his outfit looked familiar.

Upon a closer look, weren't they the ones who were hiding in the center? The only difference was that the color of the bamboo hat and the outer robe had changed.

Previously, it was a black bamboo hat. This time, it was a gray bamboo hat.

Lin Yi facepalmed-why was central always involved? He could even enter the abandoned land ...

Just like how the man called out Lin Yi's name when he saw the lightning movement technique, Lin Yi was able to confirm the man's identity as a practitioner from the Kongtong Center from the man's iconic attire!

However, he didn't know if the man with the grey bamboo hat was one of the people he had met before. Did he just change his clothes, or did he change into a different person?

With that thought, Lin Yi prepared the teleportation talisman.

Chapter 6725 Center Everywhere

Lin Yi had signed the peace agreement with central, but it'd been quite some time already. They were in the abandoned land, isolated from the world, and who knew if Central's man with the gray bamboo hat would suddenly attack and kill Lin Yi to get rid of Central's biggest threat?

"So you're Lin Yi! Your disguising ability almost fooled me, you're amazing!"

The man in the grey hat chuckled and gave Lin Yi a thumbs up as he walked over. "I didn't expect to meet you in a place like this. It's a pleasant surprise,"

"Who are you? Have we met before?"

Lin Yi's lips curled up into a faint smile as he took off the mask, "I didn't expect to meet a master from central in the abandoned land either. It's indeed a pleasant surprise!"

It was an accident, after all, and Lin Yi wished that everyone in central would disappear.

"This is the red dust all creation mask you got on the northernmost Island, right? As expected, it's extremely exquisite!"

The man pointed at Lin Yi's mask and praised, "Although I appreciate your honesty, I will not tell you who I am. As for whether I have seen you before, you might as well guess."

"The people in central like to play tricks. I'm too lazy to guess."

Lin Yi's lips twitched. The hats these people were wearing all had the ability to block out divine senses, and he wasn't interested in breaking it by force. It'd be no different from falling out, "Speak, why did you stop me?"

"It's nothing. I just saw you and wanted to say hello. After all, central is still in an alliance with you. As allies, it's normal to say hello."

The man with the grey hat laughed and spoke as if he was speaking the truth. "I haven't asked, what are you doing here?"

"Let me ask you, what is central doing here? will you tell me?"

Lin Yi looked at the man with a half-smile on his face, but he was still on guard. "Actually, I'm more interested in knowing how you got here."

"Hahaha, I can't tell you how I got here. That's a secret of our Center. But I can tell you what I'm here for. After all, we're allies!"

The man with the grey bamboo hat raised his head and laughed a few times. Then, he really revealed his purpose. "Our Center knows about this place, so they sent me here to investigate it. If there's value, more people will come to develop it. How about it? is it honest enough?"

"Honest enough. If I'm not honest, wouldn't I seem very unkind?"

Lin Yi raised an eyebrow in disdain-the man was pretty cunning, after all. "I'll tell you the truth-I'm actually lost. As an ally, Can You Take Me Back to the mystic Sea? If you can't do it, then you can do it in the Yellow Sea!"

Central was too mysterious, and Lin Yi suspected that the man in the hat really had the ability to leave the abandoned land. He didn't go through the sealing formation, but was using some kind of method from central.

If there really was such a method, Lin Yi had to figure out how it was done. Not only could he solve the problem of entering the abandoned land, but he could also prevent the dark beasts from using the power of the center to enter the Mystic class sea.

Wait, the central target wouldn't also be the darkness magical beasts, right? These guys were Masters who wished for the world to be in chaos! Thinking of this possibility, Lin Yi's heart skipped a beat!

"You'll get lost? It didn't matter! As long as you're willing, I can take you out of the mystic division Sea area. It's a small matter. "

The man with the grey bamboo hat agreed immediately. No one knew what he was thinking."From now on, you'll be by my side!"

"I still have some things to deal with now. Why don't we arrange a place and I'll come to find you then?"

Lin Yi was shocked-he didn't think the man would be so straightforward. He couldn't leave the abandoned land before the matter with the dark Demon beast was settled!

Besides, Lin Yi didn't think it was a good idea to stay by the man's side like this. Who knew if the man would suddenly turn on him?

"Yes! I still have to continue exploring this area, so I'll see you when the time comes. "

The man took out a black walkie-talkie and tossed it to Lin Yi. "This is an enhanced walkie-talkie in our Center. The signal can cover an area of 10000 miles. As long as you are still in this area, you can contact me at any time!"

"It looks good."

Lin Yi took the walkie-talkie with a smile and put it away in the Jade space. He was secretly impressed that the walkie-talkie could still work in a place where even divine sense was cut off!

"You won't be able to get a signal if you put it in the storage bag ..."

The man with the grey hat didn't know that Lin Yi put it in his storage space, but he guessed that it might be a similar storage bag.

"It's fine. Don't put it in the storage bag. I can contact you."

Lin Yi's nonchalant attitude left the man in a grey hat speechless.

The rumors were true-Lin Yi was a shameless bastard!

"May I know how I should address you?"

Lin Yi raised his eyes at the man. He was asking, but he knew it was pointless.

"As you wish. You can call me gray robe, old gray, or senior."

The man was quite an easy-going person-Lin Yi would've liked him if he weren't from the Central District.

"Alright, then I'll call you the grey bamboo hat!"

Lin Yi shrugged.

The man in the grey hat was speechless once again. There was no such option in the options he had just given ...

"Lin Yi, How long have you been here? If there's anything you've seen or heard, you can tell me, it'll save me a lot of time. "

Not wanting to dwell on the form of address, the man in the gray bamboo hat changed the topic and started talking about the abandoned land. "I've only been here for a few days, so I'm not very familiar with this place yet. It'll be much more convenient if you can introduce me. "

"I haven't been here for long, so I'm afraid I can't help you."

Lin Yi smiled and shrugged, but a thought came to him."But recently, this area seems to have become a little dangerous. Many human cultivators have been slaughtered on a large scale. Have you heard about this?"

"You're talking about the sun-devouring rat tide and the corpse demon bee colony, right? I know!"

The man with the grey bamboo hat chuckled, not surprised at all."Although I've only been here for a few days, I just happened to see that the darkness magical beasts are indeed ferocious!"

"You've seen it before?"

Lin Yi was taken aback. He didn't think that the man would admit that he'd seen him before."Grey bamboo hat, where did you see it?"

"That's not important. What's important is that these little guys are very interesting. To be honest, I'm thinking about studying them."

The man in the grey hat paused and pointed at Lin Yi, "Are you interested in joining me?"

"Study them for what?"

Lin Yi was worried, but he didn't show it on his face. "The sun-devouring rats and the demonic corpse bees are all dark magical beasts that act on their instincts. Any living creature that approaches them will be devoured. I don't think this is a good idea."

Chapter 6726 Stop

If central really was interested in the dark Demon beast, Lin Yi felt that it would be many times more of a threat than the dark Demon beast itself!

It was best to dispel his thoughts before the man in gray bamboo hat took action! Or, he could activate the hidden killing formation in the abandoned land as soon as possible and kill all the darkness magical beasts in one fell swoop!

"It's precisely because these two types of darkness magical beasts are species that rely on their instincts to act. Don't you think that researching how to control their instincts and make them act according to your will would be very interesting?"

The man with the grey bamboo hat laughed heartily. He had changed from his previous easy-going self to an extremely domineering one!

Lin Yi's mouth twitched-this wasn't interesting at all! If you really manage to figure out how to control the sun-devouring rats and corpse demon bees, that will be the end of the world!

"Forget it. I don't think you're interested, so I won't force you. Contact me at any time after you're done."

The man waved his hand and disappeared into the forest without waiting for Lin Yi to say anything.

Lin Yi didn't move as he watched the man leave.

No matter where the person in the center appeared, there would be no peace. The abandoned land was already in an eventful period. What changes would the appearance of the gray bamboo hat bring?

He had mysteriously appeared and then left. What was this man with the gray bamboo hat trying to say?

Lin Yi shook his head and threw the grey bamboo hat out of his mind. He put on the mask again and flew back to broken Cloud City.

"Stop! Broken Cloud City is temporarily off-limits!"

Lin Yi had just reached the gates when a bearded guard stopped him from afar.

"What happened in broken Cloud City? Why can't we enter the city?"

Lin Yi cupped his hands, a humble smile on his face. "I just saw someone come out. It shouldn't be sealed, right?"

"The city gates haven't been closed yet, but you're allowed to leave and not enter!"

The bearded guard waved his hand expressionlessly. His attitude was still alright.

"Brother guard, I'm a mercenary from the tianwu mercenary group. I have an urgent matter to attend to in the city, can you make an exception for me?"

Lin Yi smiled as he walked closer to the bearded man and passed him a Jade bottle. There was a pill inside that was suitable for the bearded man.

There were four guards at the gate, and the one who spoke was bearded-he was the strongest, and Lin Yi guessed that he was the leader of the guards.

"No... Brother, it's not that I'm making things difficult for you, but the higher-ups have ordered that we can't enter the city. If we really let you in, we'll both be in trouble."

The bearded man's eyes brightened, and even the corners of his mouth and eyebrows were smiling. His tone of voice had also changed dramatically.

Lin Yi's pills were all special grade, of course. They might not be worth a penny to Lin Yi, but they were priceless in the eyes of the right people!

There was a clear desire in the bearded man's eyes, but he resisted the urge to reach out. No matter what, he was still a man. After all, Lin Yi's strength wasn't that strong yet, and he was on par with the bearded man.

"Can you tell me what happened in the city?"

Lin Yi lowered his voice and stuffed the Jade bottle into the bearded man's hand, no longer forcing him to enter the city. "It shouldn't be a problem to just chat a little, right?"

"Brother, you're also a straightforward person. In that case, I'll just say a few words to you."

The bearded man didn't reject Lin Yi's offer-as long as Lin Yi didn't go into the city, he'd get a pill he needed for free, and it wasn't a big deal for him to reveal some information that wasn't classified.

"Please speak, I'm all ears!"

Lin Yi leaned in a bit more and made a listening gesture, but his spirit was already inside the gate.

"Don't tell anyone about what I told you. There's a lot of implications in this!"

The bearded man whispered into Lin Yi's ear, carefully looking at the other guards. He continued after making sure no one was paying attention, "It's said that a city nearby was massacred. No one knows who did it, so the higher-ups forbid outsiders from entering the city to prevent spies sent by foreign enemies."

"There's such a thing? Which city has been massacred? why haven't I heard anything about it?"

Lin Yi's face was full of shock. Of course, he knew about this, but he wasn't pretending. He was shocked by the city protection formation.

Lin Yi and the damn thing didn't notice it at first, but when they used their spirit sense to check the formation, they realized that broken Cloud City was a level nine formation!

"I thought that there were no level nine array Masters in the abandoned land. I didn't expect that a level nine city protection array would appear in broken Cloud City!"

Lin Yi was shocked at the strange thing in his heart-it was too surprising. "Senior ghost, do you think that the array master who set up the level-nine city-guarding array has also died at that array node?"

"Not necessarily. Have you noticed? This level nine city protection array was recently upgraded, and the technique is not very experienced. He might be an array master who just advanced to level nine. "

The ghastly thing's eyes were sharp, and it could see the difference with a glance. "There are still some parts of this city's protective array that have yet to be completely perfected. Perhaps we can see this array master in broken Cloud City."

The guard didn't know what Lin Yi was thinking, but he was still gloating when he saw Lin Yi's shocked expression.

"Brother, it's normal that you don't know. Not many people know about this. If it were to be leaked, there might be panic in the city. You know ..."

The bearded man lowered his voice again, and Lin Yi wouldn't have heard him if it weren't for his sharp ears.

Of course, he was only doing this to make Lin Yi feel like he didn't pay the price for nothing. "I heard that the higher-ups are reorganizing in the city, so outsiders are definitely not allowed in. You'd better hurry to other cities and try your luck. It's dangerous to stay outside."

"So that's what happened, thank you!"

Lin Yi forced a smile and cupped his fists, ready to leave.

With this damn thing's array Dao attainments, this incomplete level 9 city protection array had many flaws that could be entered, and these flaws were even more than a complete level 8 city protection array.

Since they couldn't enter through the gate, Lin Yi didn't force it. He found a quiet corner and passed through the formation. It would be easier to move.

"A small matter, a small matter! I'm a little ashamed that I can't let you into the city!"

The bearded man laughed, raised his hand to scratch the back of his head, and asked in a low voice, ""Brother, do you still have any more pills? Can you give me a few more? Don't worry, I'll buy it with spirit Jade. "

Although there were alchemists in the abandoned land, they were not very skilled. The quality of the pills they refined was not high, and the quality was generally a little low.

Hence, the pills that Lin Yi took out casually were all priceless.

Lin Yi didn't mind giving the guy a few more golden class pills-they were like candy to him, after all.

Chapter 6727 Is It Funny?

Before Lin Yi could say anything, a group of guards walked out of the gate. The leader was a young man in dark red leather armor. He was thin, with a white face and long eyes. His lips were thin, and the corners of his mouth were pulled down, making him look cold and mean.

"Big beard, what are you doing? Who is this?"

The young man saw the bearded man and Lin Yi on the side of the road, talking to each other very quietly. He immediately asked, "Don't you know the current situation in the city? And you're neglecting your duty?"

"Young master Li, you've misunderstood. I just met a friend and wanted to catch up with him. I didn't dare to delay the matter!"

The bearded man quickly stepped forward and smiled apologetically. It was obvious that young master Li's status was not ordinary. "Young master Li, are you preparing to leave the city?"

"Nonsense! Do I need to report to you about what I'm doing? Which eye of yours saw that this young master was going out of the city?"

Li shaoxiang glared at him, not giving face to the bearded man at all. "Speak, what is this person's name? What is his identity?"

The bearded man was at a loss for words-he really didn't know Lin Yi's name, and he just had to call him a friend in a moment of desperation ...

"Young master Li, my friend is a mercenary. His nickname is lone wolf, just like my nickname, big beard. No one knows his real name, haha ... Haha ..."

The bearded man's reaction was fast enough, and he immediately made up a lie.

His nickname didn't matter anyway. There were at least a thousand mercenaries called lone wolf in the entire abandoned land. As long as they weren't particularly famous, who would know which one was Which?

"Lone wolf, this is our broken Cloud city's Li qianqiu, young master Li. If you want to enter the city, you can ask young master Li. There's nothing in broken Cloud City that young master Li can't do!"

The bearded man laughed dryly and turned to introduce them to Lin Yi, even giving him a look.

Lin Yi chuckled to himself-even a blind man could see the imploration in the man's eyes, and Lin Yi didn't want to expose him.

"Lone wolf greets young master Li!"

Lin Yi cupped his hands casually, giving face to the man.

"What are you holding in your hand? Take it out!"

Li qianqiu didn't pay any attention to Lin Yi at all. His eyes were fixed on the bearded man's fist, and he roared as he reached out to grab it.

The bearded man panicked-this was the Jade bottle Lin Yi just gave him, and something as good as this should've been kept safe.

However, the full-bearded man was too rare, and he wanted to exchange it for a few more pills from Lin Yi, so he had been holding it in his hands all this time. Now that he wanted to hide it, li qianqiu saw it.

"Young master Li, this is what I, the big-bearded man, asked brother lone wolf to help me find ..."

The full-bearded man hurriedly explained. He wanted to stop li qianqiu, but he didn't dare to resist. In addition, his strength was slightly inferior to li qianqiu 's, so the Jade bottle in his hand was snatched away by li qianqiu.

"A golden core nascent soul! Special grade!"

Li qianqiu exclaimed in a low voice. Originally, he didn't want to snatch it away. He was just curious about what the bearded man was trying to hide. Now, he couldn't hold back the desire in his heart and was determined to take this pill for himself!

At present, li qianqiu's strength was at the peak of the advanced stage of the nascent soul realm, only one step away from the great circle of the nascent soul realm. With this special grade nascent soul golden core, he could even start preparing to break through to the xuansheng stage!

"Big beard, you actually colluded with spies and colluded with the enemy. You want to betray broken Cloud City. You're simply cruel and unscrupulous!"

Li qianqiu rolled his eyes and quickly kept the Jade bottle. Then, he put on a righteous look and pointed at the bearded man, "Men, take down big beard and this spy together! If you dare to resist, kill without mercy!"

"Li qianqiu! You ..."

The bearded man's eyes were about to split open. If he still didn't understand what was going on now, he would really be an idiot.

Unfortunately, the bearded man didn't even have the chance to say anything. Li qianqiu had already made his move, and the first move was a fatal one. Li qianqiu wanted nothing more than to kill the bearded man in one go!

The guards who followed li qianqiu out responded in unison and pounced on Lin Yi and the bearded man from the left and right. In their eyes, Lin Yi's strength wasn't even as strong as the bearded man's, and they could capture him with ease!

"Hey, hey, hey! What does it have to do with me?"

Lin Yi didn't know whether to laugh or cry-this guy was just standing on the side and getting caught in this mess, what was the law here?

"Hahaha, that idiot li qianqiu didn't just come for the big-bearded man's golden core. He probably thinks that you have more good pills on you."

The ghostly thing laughed in a gloating manner, as if it didn't mind the trouble."You don't say. Li qianqiu is quite smart. You do have many good things on you, but it's a pity that he doesn't have the ability to get his hands on them!"

"You colluded with big beard and prepared to harm broken Cloud City. How could it have nothing to do with you?"

One of the guards was still in the mood to tease Lin Yi, not knowing who he was about to face!

"Hell! Who was the one who leaked the news! You even know that I'm going to harm broken Cloud City!"

Lin Yi squeezed out a troubled expression. He really did plan to make a move on broken Cloud City. Although it was to stabilize the city, it might not be a good thing for the ruler of the city.

"You're still in the mood to joke even when you're about to die. I'm actually starting to admire you!"

Li qianqiu laughed mockingly, looking at Lin Yi as if he was looking at a piece of fish on an anvil.

"Young master Li, this kid is quite cooperative. Why don't we catch him and make him have some fun?"

A guard at the side smiled in a flattering manner. In his eyes, dealing with Lin Yi and Li qianqiu was enough, so he decided to speak to li qianqiu.

"Good idea. Interrogate him properly first. Just don't kill him."

Li qianqiu laughed heartily. He had completely withdrawn from the battle with the bearded man and was waiting for the final result with a peace of mind.

In li qianqiu's eyes, the bearded man was already a dead man, while Lin Yi was a half-dead man!

But before he could finish, the guard who said he wanted Lin Yi to have fun flew out and hit the wall, blood spurting out of his mouth.

Lin Yi appeared beside li qianqiu like a ghost and calmly retracted his leg. Behind him, the two guards who had rushed up to attack him were holding their stomachs and groaning on the ground.

"How is that possible?"

Li qianqiu's slender eyes suddenly widened as cold sweat began to drip down his forehead.

Lin Yi's strength and aura were at most on par with these three guards, instant kill? Three?

"Young master Li, is it funny? There's some fun, right?"

Lin Yi dusted his hands casually and looked at li qianqiu with a half-smile, "Don't worry, I didn't kill them, so I won't kill you. "

"Who the hell are you? This is broken Cloud City, don't be too impudent!"

Li qianqiu backed away subconsciously and pointed a finger at Lin Yi, "I'm warning you, if you dare to make another move, you'll definitely die without a burial ground!"

"Protect young master Li!"

The guards who were surrounding the bearded man shouted. They abandoned their target and gathered around li qianqiu.

Chapter 6728 None Of Them Are Good

The three guards at the gate followed, pointing their weapons at Lin Yi. They had the numbers, but none of them dared to attack him.

"Enter the city! Quickly enter the city!"

Even under the protection of several people, li qianqiu still didn't feel safe. He shouted as he flew back into the city, "You guys block him, don't let him in!"

The guards all had bitter expressions on their faces, not knowing if they should listen to the first half of li qianqiu's words-enter the city or the second half-stop Lin Yi ...

"I'm sorry, I'm already here. Broken Cloud City is quite prosperous!"

Lin Yi activated his super butterfly micro steps and instantly dodged a few guards, appearing behind li qianqiu like a ghost. Li qianqiu's back was facing the city, so Lin Yi entered the city even faster than li qianqiu.

"Don't mess around!"

Li qianqiu's forehead was covered in cold sweat. He didn't dare to turn around after hearing Lin Yi's voice, afraid that he would be killed if he annoyed Lin Yi, "This young master's father is a formation master in broken Cloud City! If you dare to touch me, you'll be blasted into pieces by the city's great array!"

"Eh? Your father is an array master? He was the one who set up the city-protecting formation?"

Lin Yi was pleasantly surprised. He was just thinking about the city protection formation, and now he heard the news, ""Is your father in the city?"

"I'm here! My father is in the city, don't mess around!"

Li qianqiu agreed repeatedly. Then, he slowly turned his stiff body and squeezed out an ugly smile on his face, "You're lone wolf right? May I know your name? It was just a misunderstanding, a misunderstanding!"

"Just call me lone wolf. It's just a form of address."

Lin Yi waved his hand nonchalantly-he hadn't thought of a name for his face yet, so lone wolf was fine."Call your father over. I have some things to talk to him about."

Li qianqiu was still worried about how to inform his father without offending Lin Yi, but he was overjoyed when he heard this. He immediately sent out the signal!

"My father will be here soon. Please wait a moment!"

Li qianqiu smiled and bowed humbly, not daring to offend Lin Yi in the slightest. However, once his backing was here, he'd take his time to deal with this arrogant adopted son of his!

Lin Yi curled his lips and laughed to himself. Li qianqiu's signal was obviously an alarm, and the city gates closed automatically after the signal was sent out. The city's defensive formation was completely closed, and the entire broken Cloud City entered a state of alert.

"Senior ghost, are you sure there's no problem? Don't go overboard!"

Lin Yi's biggest confidence came from this damn thing-he was helpless against a level 9 defense formation."If that stupid old man Li qianqiu successfully activates the killing intent of the city's defensive array, I won't be able to stop him ..."

"Tsk! I can crack this rubbish level-nine city-guarding array with my eyes closed. Don't you trust me?"

The demonic thing pretended to be displeased, but then laughed strangely."If that's the case, then go and crack it yourself. Who knows, you might be able to greatly improve your level of array techniques!"

"Senior ghost, time is of the essence. Can we stop playing?"

Lin Yi shook his head with a bitter smile. If he could handle a level 9 defense formation, why would he need this thing's help?

"You know that time is tight? Then why are you wasting time? isn't it easier and more direct to control the defender array and search for the jade box by force?"

The damn thing hmphed. He was more concerned about activating the hidden formation than Lin Yi was, "Why don't we do it now?"

"Let's wait a little longer. A level-nine formation master is very important to the abandoned land. He can be of great help."

Lin Yi raised his head and looked into the distance after saying that. "Someone's coming!"

Before li qianqiu's signal had even dissipated, broken Cloud city's response mechanism was already in full operation. The news of the nearby cities being massacred must have agitated the higher-ups of broken Cloud City.

Apart from li qianqiu's father, there were also many experts from broken Cloud City who arrived first.

The entire broken Cloud City wasn't big or small, and in the blink of an eye, a few figures landed in front of Lin Yi and Li qianqiu!

"Father!"

Li qianqiu looked at one of the middle-aged men who had a similar cold and stern face to him. Li qianqiu immediately shouted and ran over.

Lin Yi didn't stop him, allowing li qianqiu to reach the middle-aged man.

"That brat is a spy. After he was discovered, he wanted to take me hostage. Uncles, quickly take him down!"

Li qianqiu's courage was boosted as soon as he returned to his father's side. He pointed at Lin Yi and started making up stories again, "I heard him talking about the massacre in the city just now. Maybe he did it!"

"Li qianqiu, is it alright for you to spout such nonsense?"

Lin Yi furrowed his brows and looked at li qianqiu with a half-smile, "Do you think you can still run back if I hold you hostage? Don't you know that there's a price to pay for talking nonsense?"

"This young master would speak nonsense? You spy, you're about to die and you still dare to be stubborn!"

Li qianqiu laughed coldly as he raised his hand and pointed at Lin Yi, "Hurry up and surrender, or else this young master will let you know what's called a life worse than death!"

Although Lin Yi's combat strength was shocking, it had never exceeded the nascent soul realm. Thus, li qianqiu was full of confidence and wasn't worried about his own safety at all.

Not to mention that li qianqiu's father was an early stage mountain-opening expert, the people who came with him were all the middle and upper echelons of broken Cloud City. They were basically all Peak Mountain-opening experts and earth-opening experts. Who would care about a mere Yuanying stage Lin Yi?

"Chiaki, calm down! What's with all the shouting and yelling!"

Li qianqiu's father spoke indifferently before giving Lin Yi a disdainful look."Is there a need to send out a warning for a mere original infant stage kid? What a disgrace!"

On the surface, he was reprimanding li qianqiu, but in reality, he was looking down on Lin Yi.

"You're right, father. Chiaki has lost her composure!"

Li qianqiu was extremely respectful to his father, and his expression changed in an instant.

"Master Li, you're wrong! Young master Li has thought things through thoroughly and is taking responsibility for our broken Cloud City by acting cautiously. What if this spy has accomplices and takes advantage of the chaos to attack and seize the city gate? the consequences will be dire!"

A moustached man at the consummate level of the mountain-opening realm laughed as he tried to exonerate li qianqiu. He also took the opportunity to curry favor with li qianqiu,"Master Li, please don't blame young master Li. I'll take down this junior first!"

With that, the mustached man took a step forward and reached for Lin Yi's throat, as if he was going to lift him up by the neck.

Lin Yi frowned, disappointed. He wanted to see an array master who could set up a level nine city protection array. His goal was to train him to become The Guardian of the abandoned land and help the other cities upgrade their arrays.

After all, Lin Yi had a lot of things to do, and he couldn't go to every city. He was just doing it while he was searching for the Jade boxes.

Unfortunately, li qianqiu's foolish father didn't seem to be a good person either ...

Chapter 6729 Last Chance!

"Is this how broken Cloud City treats its guests?"

Lin Yi laughed coldly as he burst out with his super butterfly micro-step and dodged the moustached man's palm in an instant. He appeared beside li qianqiu, "Li qianqiu, let me try how to make life a living hell!"

"Father, save me!"

Li qianqiu was scared out of his wits. Lin Yi's sudden attack had him feeling fear from the bottom of his heart.

"Audacious fanatic! You're looking for death!"

Beside li qianqiu were a few other higher-ups of broken Cloud City. One of them was an old man in a gray robe at the earth formation stage. He reacted the fastest and punched out while shouting.

A sharp burst of pure energy instantly appeared between Lin Yi and Li qianqiu!

At the same time, the grey-robed elder threw out another punch, aiming at Lin Yi's head.

One punch to protect li qianqiu, one punch to kill Lin Yi. The grey-robed old man's combat experience was outstanding, especially that punch which was extremely tricky. Those who didn't have much combat experience would easily fall for it.

Unfortunately, Lin Yi wasn't just anyone. In terms of combat experience, he didn't lose to anyone.

Other people relied on cultivation to advance, but he grew up almost all the time through battles.

"So powerful! You scared me to death!"

Lin Yi was scared, but his face was full of disdain. He continued to use extreme butterfly micro steps, and his body flashed like a ghost, instantly dodging the two attacks from the elder.

"Ahoho ahoho"

Li qianqiu's shrill scream immediately turned into a mournful wolf howl!

The first sound came from the sudden appearance of Lin Yi in front of her, and the second was from the pain of her legs being broken by Lin Yi.

"How dare you!"

Li qianqiu's father was both shocked and furious as he roared and waved his hand at Lin Yi.

All of this happened in a split second, and those with average strength couldn't see it clearly. Only the higher-ups of broken Cloud City had witnessed the entire process, but unfortunately, no one had the ability to stop it.

"Little bastard! You're dead!"

The grey robed old man was extremely embarrassed as he gritted his teeth and continued to pounce on Lin Yi!

With his strength, he could only watch as Lin Yi injured Li Qianqiu after he made his move. This was extremely embarrassing!

He had to kill Lin Yi to wash away the humiliation!

"If you want Li Qianqiu to die, then continue!"

Lin Yi grabbed Li Qianqiu's neck casually and turned him around. "Don't doubt if I dare to kill him!"

Li Qianqiu's face was completely red as he covered his mouth with his hands, not daring to let out any more screams. He couldn't care less about his broken legs that were dragging on the ground. Right now, he only regretted provoking Lin Yi!

He should have asked the old man to activate the city's defensive array to kill this bastard. It was the biggest irresponsibility he could ask someone to do it!

"What do you want?"

Li Qianqiu's father forcefully retracted his palm and raised his hand to stop everyone, including the grey-robed old man. "Release Chiaki immediately, and I'll guarantee your safety! You won't have a good ending if you catch him!"

"I'll pretend I didn't hear the second half of your sentence. Let's talk about the first half of your question. What do I want?"

Lin Yi shrugged, his face calm and collected. "I should be the one asking you what you want. I've come to broken Cloud City in one piece, and you guys are randomly shouting about fighting and killing. You can't expect me to stretch out my neck and let you guys slaughter me, right?"

"It's a misunderstanding ... A mistake ... It's all ... A misunderstanding!"

Li qianqiu let go of his hand. Like a fish out of water, he panted and tried to explain, "Lone wolf ... I wanted to ... Teach ... Big ... Big beard a lesson ..."

"Didn't you want me to suffer a fate worse than death?"

Lin Yi clenched his fist, silencing li qianqiu. He then looked at the people around him with a half-smile, "Let's cut the crap. This is the current situation. You've offended me. If you want me to let you go, show me your sincerity!"

"What sincerity do you want? Just lay down the rules!"

The grey-robed old man took a glance at li qianqiu and continued the conversation with a grim expression.

Today's incident wasn't a big deal, but a weak original infant stage like Lin Yi was able to Dodge the grey robed elder's attacks. It was quite embarrassing for him. No matter what, he had to stand up and face Lin Yi.

"Call broken Cloud city's city Lord out. I don't trust you small fries."

Lin Yi's lips curled up as he shrugged, "It's not that I'm looking down on you, but there are some things that you really can't decide!"

"Brat, don't push your luck, you're pushing it!"

The grey-robed old man's expression turned even uglier. When had he ever been looked down upon like this?

However, li qianqiu was still in Lin Yi's hands, so he could only swallow his anger. "Our city Lord is so busy every day. He doesn't have time for you, little guy!"

"Chiaki! You're the one who started this mess, so you have to bear the consequences!"

Li qianqiu's father suddenly interrupted the grey-robed old man, "Broken Cloud City isn't a place where any Tom, Dick, or Harry can do as they please. Do you think that just because you've captured a hostage, you can make us refrain from shooting at the rat for fear of breaking the vase?"

Lin Yi was taken aback. He didn't expect li qianqiu's old man to be so tough all of a sudden. He didn't even show any signs of it before!

Li qianqiu's father didn't wait for anyone to speak and immediately took out a controlling array flag. In the blink of an eye, the weather in broken Cloud City changed, and the invisible killing aura of the array Dao continued to condense and increase.

"Father! Don't get too excited! Please calm down!"

Li qianqiu's expression changed drastically as well. In his panic, he ignored Lin Yi's palm and shouted at his old man, "Father, it's not that serious. There's still room for discussion ..."

Li qianqiu didn't have a clear idea of how powerful the city protection array of broken Cloud City was. In any case, killing lone wolf was definitely a piece of cake. The problem was that his life was still in lone Wolf's hands!

If the old man were to activate the formation, lone wolf would definitely kill li qianqiu before he could!

What had this old man done today? Wasn't this young master his only child? Could it be that the old man actually had an illegitimate son outside and wanted to take the opportunity to come back and fight for the throne?

If li qianqiu's father knew that this brat had so many tricks up his sleeve, he might just kill him and pretend that he never gave birth to this silly son ...

"Last chance! Release her immediately!"

Li qianqiu's father ignored his son and glared at Lin Yi coldly, "I, li baidai, promise you that if you let qianqiu go, I will let you leave! If not ... You will die without a doubt!"

Lin Yi laughed to himself. It wasn't that li baidai was threatening him with a formation, but the names of these two were just too funny. Centuries and centuries and centuries ... To think they'd be able to rule the world!

"Enough with the nonsense. Show me what you have. I'll take it all!"

Lin Yi hmped on purpose, his face full of disdain. "If you all want li qianqiu to die, then go ahead. If you all don't want him to die, then quickly call your city Lord out!"

Chapter 6730 City Lord Appears

Li baidai looked like he was ready to fight to the death, but Lin Yi didn't believe that he'd launch an attack on the formation without caring about his son's life.

"Why do you have to see our city Lord? This old man is a member of broken Cloud city's Elder Council. If there's anything you want to say, you can say it. There's no need for the city Lord to show himself, this old man can also satisfy your request!"

The grey-robed old man glanced at li baidai and started discussing with Lin Yi, "Master Li, you always keep your word, but I can't bear to see two young talents fall like this, so let's talk it out!"

Li baidai glanced at the old man in grey without saying anything, secretly grateful in his heart. He did make that tough stance to threaten Lin Yi, not to sacrifice his son.

If the grey-robed old man didn't come out to smooth things over, li baidai wouldn't have a way out, and he couldn't really launch an attack, right?

Lin Yi's lips twitched-he didn't want to waste time! However, if he could not meet the city Lord of broken Cloud City, he had no place to inquire about the jade box.

With his spirit sense, Lin Yi didn't find any traces of the jade box. If broken Cloud City really had a Jade box, it was very likely to be in the mayor's personal storage bag.

"In broken Cloud City, this old man will definitely keep his word. If you have any requests, just say it!"

The grey robed elder forced a friendly smile, but he wanted to kill Lin Yi a hundred times over,"If you're worried, I can seal my true Qi and Exchange hostages for you. How about it?"

"Hahaha.....Thank you very much! However, I'm more familiar with brother Chiaki, so I won't trouble you!"

Lin Yi laughed as he shook his head. He turned to li qianqiu and asked,"What do you think, brother Chiaki? Isn't it good for us to be closer?"

Li qianqiu wanted to cry but had no tears. Who wants to be close to you? I think it's best for you to die as far away as possible!

"Yes, yes, yes. Brother lone wolf is right. You and I feel like old friends at first sight. It's time to have a drink and talk through the night. Why don't we find a place to have a drink first?"

Li qianqiu was cursing in his heart, but he immediately forced a smile on his face and said, "Because Broken City is my territory, I know best where to find good wine and good food. I guarantee you'll be satisfied! Brother lone wolf, do you think we should head over now?"

"No rush! I won't disappoint you, brother qianqiu. However, I still have some matters to attend to, so let's wait for a while before we start drinking. "

Lin Yi smiled as he patted li qianqiu's shoulder. It really did look like a reunion between old friends-if li qianqiu's legs weren't broken, it'd look even more like it.

"Little friend, this old man is broken Cloud city's city Lord. May I know why you want to see this old man?"

Just as they were talking, a figure suddenly appeared in the field and said unhurriedly, ""Let qianqiu go first, so that Master Li won't worry. With me around, I'll give you a chance to speak."

"City Lord!"

"Greetings to the city Lord!"

"Greetings, city Lord!"

For a moment, everyone cupped their hands in greeting. It seemed that this city Lord was not an imposter.

Lin Yi smiled at the old man. This was a sea-shattering expert, and his movements were quick and secretive.

However, Lin Yi had already discovered the elder's tracks, so he wasn't surprised at all.

"So you're broken Cloud city's city Lord. It's a pleasure to meet you!"

Lin Yi let go of li qianqiu and cupped his fists, "I'm relieved to be able to see the city Lord! Brother qianqiu, you can also retire after your success. "

There wasn't only one sea split realm cultivator in broken Cloud City. The reason why Lin Yi wanted to see the city Lord was because he wasn't sure who the real person holding the jade box was. Now that he had seen him, he naturally didn't need li qianqiu as a hostage.

"Little friend, you're more courageous than others, and you're not a simple person!"

The bearded old man smiled and praised Lin Yi. He then raised his hand and sent out a gentle stream of pure energy, bringing li qianqiu, whose legs were broken, to li baidai's side, "Grandmaster li, qianqiu is fine. Please treat him first. I'll have a chat with this young friend."

"Many thanks, city Lord!"

Li baidai politely thanked him and reached out to support his son. He quickly joined his broken leg together and fed him some healing pills.

During this process, li baidai didn't relax his control of the city's defensive array. Instead, he condensed even more killing aura, ready to attack Lin Yi at any time. It was obvious that the anger in his heart didn't dissipate even after li qianqiu's return.

"Young friend, please speak your mind!"

The old man raised his hand at Lin Yi, ready to listen.

"City Lord, this junior has come to broken Cloud City this time to inquire about the whereabouts of these two items. I hope that city Lord can tell me the truth!"

Lin Yi ignored Li Baidai's hostility and spoke to the old man as an equal, "Apart from that, this junior has another important news that concerns Broken Cloud City and even the entire abandoned land."

"Oh? This old master's interest is piqued by what little friend has said. Do you want to ask me a question first or tell me the information first?"

The long-bearded old man stroked his beard and paused for a moment before continuing, "This old man still wants to hear the news first, I wonder if it's convenient for little friend to say it first?"

"Since the city Lord has spoken, this junior will naturally obey!"

Lin Yi shrugged as he gathered his Qi and set up a simple soundproof barrier around the two. The people who were blocked outside all had ugly expressions on their faces, but they couldn't do anything because the mayor was here.

However, this only made their hatred and anger towards Lin Yi even deeper. They wanted to tear Lin Yi into pieces right now.

Lin Yi didn't set up the soundproof barrier because he didn't want people to know about the dark Demon beast, but because he didn't want the killing formation to be exposed.

"City Lord, I'll make a long story short. I heard that Broken Cloud City has already received news that a nearby city has been destroyed. I just don't know who the murderer is, is that right?"

Lin Yi didn't beat around the bush and went straight to the point.

"That's right. The news you brought is about the murderer?"

The old man's face turned serious-this was what he cared about the most, and if Lin Yi could help him, he wouldn't mind paying a price.

Broken Cloud city's combat strength was not considered strong among the nearby cities. At the very least, the cities that were massacred would not be any weaker than broken Cloud City.

Since the murderer had the ability to easily slaughter other cities, he naturally had the ability to get rid of broken Cloud City. Fortunately, a level nine array master, li baidai, had recently appeared in broken Cloud City and upgraded the city's defender array, which gave the long-bearded old man a sense of security.

"It is indeed about the murderer!"

Lin Yi nodded with a serious face,"but it's different from what the city Lord thought. It was the dark Demon beasts that massacred the city. To be exact, it was the sun swallowing rats and the corpse demon bees."

"It really is a darkness magical beast!"

The long-bearded old man let out a long sigh, not surprised at all.
