

Bodyguard 6731

Chapter 6731 Sudden Attack

"The mayor already knew?" Lin Yi asked, surprised.

"I've heard some news, but it hasn't been verified. "

The long-bearded old man waved his hand, not willing to say more about this, so he changed the topic. "Little friend, where did you get your information from? Do you have any concrete evidence?"

"I've seen it with my own eyes, it's definitely true!"

Lin Yi didn't see the massacre, but he did see the rats and bees. There probably wasn't anyone else in the abandoned land who'd seen more than him, "One of the reasons I came to broken Cloud City this time was to remind the city Master to quickly set up a defense. The darkness magical beast's attack isn't something that can be easily blocked."

"Little friend, you're so righteous, this old man is deeply grateful!"

The long-bearded elder cupped his hands casually as a form of thanks. He didn't care about his sincerity, but he had to at least show his attitude. "Let's put this matter aside for now. Does little friend still have any questions for this old master? As long as I can tell you, this old man will definitely tell you everything I know!"

Yun Duan city's protection formation was already activated, and Li baidai was eyeing Lin Yi like a tiger watching its prey, not revealing any flaws. Even if the dark Demon beasts came, they could only attack by force, not by surprise. The long-bearded elder naturally didn't have to worry about the city's safety.

"City Lord is straightforward, this junior will be direct!"

Lin Yi paused for a moment, organizing his thoughts before continuing, "The most important reason I came to broken Cloud City this time is to find a Jade box ... I wonder if the city Lord has something similar?"

"A Jade box? What was it like? This old man has many Jade boxes of all kinds. If little friend likes them, I can give you a hundred or so. "

The corner of the long-bearded old man's eyes twitched unnoticeably, but he immediately replied with a smile as if nothing had happened.

"This Jade box is just an ordinary Jade box. I've heard that this Jade box is only in the possession of the city Lord. It contains the secret of the abandoned land. If the city Lord has it, this junior is willing to pay a great price to exchange for it."

Lin Yi's eyes were sharp as he stared at the old man, not letting go of even the slightest change in his expression. He then continued in a slow tone, "To be more precise, I need the Jade token and the map fragment in the jade box!"

To be honest, Lin Yi wasn't sure-the other Jade cards and map fragments would be the mayor's Secret, just like Yin duancheng 's. His question was extremely risky.

However, the old man's eyes narrowed and flickered-Lin Yi confirmed it immediately!

As expected, broken Cloud city's city Lord also had the Jade token and the map fragment!

With that, he could basically confirm the direction of his search, which was to ask the city Lords of those cities. He should be able to find something!

"I don't know what the jade box, Jade tablet, and map fragment little friend is talking about looks like? Are there any items that can be used as a reference?"

The old man hid his emotions in the blink of an eye and asked Lin Yi with a smile,"This old master has a lot of these things in his hands, what kind of things does little friend need?"

"City Lord, this junior has already said that it's something related to the secret of the abandoned land ..."

Lin Yi couldn't just take out his map fragment-they were still on the streets, after all, and there were so many people around. But the old man flipped out before he could finish.

The aura of a sea-shattering cultivator exploded, destroying the sound barrier Lin Yi set up and trying to restrain him.

"This person has unfathomable intentions and is plotting something. Everyone, be careful not to let him escape!"

The old man ordered calmly. He didn't bother to attack Lin Yi anymore after using his aura to suppress him, "Take him down, this old master wants to interrogate him personally, don't take his life!"

"Yes, city Lord!"

The people around him agreed in unison, and immediately, two of them rushed forward.

Li baidai was overjoyed. He was worried that Lin Yi and the city Lord were having a good conversation, and that the city Lord would protect Lin Yi.

Although a level nine array master was enough to stand up to the city Lord, or even higher, li baidai did not want to offend the city Lord.

Now that the city Lord had asked to deal with Lin Yi, all the problems were solved!

"Broken Cloud City!"

Lin Yi gritted his teeth, a cold smile on his face. "What a good place to warmly receive guests!"

"What?"

The old man was shocked-he didn't think that Lin Yi could still talk under his pressure!

What did this mean?

It meant that Lin Yi had hidden his strength, and his true combat strength was also at the sea shattering realm!

The long bearded elder's thoughts flashed through his mind and he immediately knew that things were bad. He raised his hand and grabbed at Lin Yi.

In fact, the old man's prediction was wrong. The reason why Lin Yi wasn't afraid of the old man's aura was because his spirit sense was strong, not because they were at the same level.

"Bullying the few with numbers, the big bullying the small! Old man, do you still have any shame?"

Lin Yi's pure Qi exploded under his feet, and his extreme butterfly micro step left a shadow behind as he dodged the elder's palm by a hair's breadth. He didn't forget to mock the elder even as he was busy.

"Bang Bang Bang Bang!"

Two loud crashes sounded almost at the same time, and the two masters who went up to catch Lin Yi flew back faster than when they came, falling far away on the ground, unable to get up.

"Don't force me to make a move. The darkness demon beast might come at any time, so what's the point of fighting among the same race?"

Lin Yi held back and didn't kill the two masters. As he dodged, he didn't forget to advise, "City Lord, you should consider it carefully. If there's anything, we can sit down and discuss it slowly!"

"Silly boy, can't you see that the long-bearded old man doesn't want the secret of the killing array to be leaked? since you know about this, he will definitely not let you off today!"

The ghastly thing suddenly chuckled and interjected, showing off his sense of superiority as a bystander. "Don't you think that the long-bearded old man knows who has the rest of the Jade plates and the map fragments? You silly boy, you're obviously not anyone he knows, which is why he wants to capture you alive for interrogation. "

"Senior ghost, what you said makes sense. What should we do then?"

Lin Yi shook his head with a bitter smile. He had already used the lightning escape technique, and the elder was indeed strong. Just dodging was already very difficult for Lin Yi, he didn't have the energy to think about anything else.

"What else can we do? Let's just take this long bearded old man down and interrogate him. We'll make him tell us the whereabouts of the other Jade plates and the map fragments. It's simple and efficient!"

The devilish thing was domineering, as if a sea-splitting expert was a dish that he could easily handle. "Hurry up, don't waste time. Go and kill him!"

"Senior ghost, can you stop fooling around? Don't you think it's already not easy for me to keep my life from him?"

Lin Yi wanted to cry, but no tears came out. All he wanted to say was that not every sea breaker could be dealt with so easily and happily! Moreover, he had to capture them alive, which was many times more difficult than directly killing them!

Chapter 6732 Seizing Control

"I said you're stupid, but you're really acting stupid for this old man!"

The damn thing's tone was full of disappointment at Lin Yi, "Didn't you see li baidai holding the array flag, eager to try? Go and snatch it!"

Lin Yi was suddenly enlightened-how could he have forgotten about this?

Now, when Lin Yi was dealing with the sea-shattering expert, other than sneak attacks, his biggest reliance was the mysterious array Dao!

Broken Cloud City had a ready-made level nine array formation. As long as he snatched the control array flag, that damn thing could make the array formation completely his in minutes!

With the city protection formation, not to mention an old man, even if all the Masters in the city were to join forces, Lin Yi could still suppress them!

"Master Li, be careful. This kid is going to deal with you!"

The bearded old man saw Lin Yi turning into a lightning arc and rushing towards Li Baidai. He shouted anxiously and chased after him.

"City Lord, don't worry. This junior is courting death!"

Li Baidai laughed coldly as the formation flag in his hand glowed brightly. The invisible killing aura continued to fall, bombarding Lin Yi's Thunder arc.

Normally, Li Baidai would never be able to catch Lin Yi's Thunder escape technique, but it was different now. He had already gathered countless killing formations around him, which could be said to be both attack and defense. Lin Yi couldn't penetrate it in a short time, which gave Li Baidai the opportunity to attack.

"Master Li, your formation is not bad, but it's not enough to take my life!"

Lin Yi suddenly stopped, a mocking smile on his face. He looked at li baidai, ""I'm standing right here. Try to kill me. "

"How is this possible?!"

Li baidai's eyes widened in disbelief. ""How did you find this flaw?!"

The formation that seemed to be impenetrable wasn't actually flawless-Lin Yi was standing in one of them.

At its root, this was because li baidai's level-nine array was not mature enough. Ordinary people would not be able to discover it, but in the eyes of a Grandmaster, it could be said to be full of holes!

"Do you think that you're a level nine formation master just because you set up an immature level nine formation technique? What a joke!"

Lin Yi laughed in disdain and dodged the elder's attack. He appeared in the blind spot of another formation and continued, "A grade-9 formation spell that is filled with flaws can't even compare to a perfect grade-8 pinnacle formation spell. As an array master, you are putting the cart before the horse. What a joke!"

Li baidai's face turned red and white, and he was speechless!

Lin Yi's every word hit the mark!

In terms of power, the current defender array was many times stronger than the original defender array in terms of attack and defense. However, in terms of completeness and tidiness, it was greatly reduced.

It was like an expert who used a sword suddenly used a halberd. His attack power seemed to have increased by a lot, but the number of flaws he could make use of had also increased greatly. Fighting against an expert of the same level was simply courting death!

"Master Li! Don't listen to this Junior's nonsense!"

The long-bearded old man roared, trying to wake up the confused li baidai, ""This Junior's movement technique is slippery, but his strength isn't strong!"

"Don't worry, city Lord! He can't run!"

Li baidai shook his head and responded loudly. Then, he activated the array more crazily, "City Lord, I'll cooperate with you!"

"Stop cooperating and give me your array flags!"

Lin Yi's voice suddenly appeared beside li baidai, and his palm directly grabbed the control array flag, "Let this young master teach you how to truly play with formations!"

"Hahaha, Lin Yi, you've become sneaky! You actually dared to scare li baidai!"

The damn thing exclaimed, full of praise for Lin Yi's performance. "That old fool, li baidai, and that little fool, his son, are indeed of the same lineage. If he had insisted on using the formation to kill, you would not have been able to get close to him easily for a while. You could only use the incomplete formation to protect yourself."

"I didn't expect that li baidai would doubt his life after hearing a few words from you. He actually wanted to turn the killing aura into a trapping aura. The originally imperfect formation became even more unbearable during the transformation, and the condensed killing aura also became leaking everywhere. What a fool!"

"The main thing is that li baidai is not as wise as senior ghost, he can be stupid if he's not careful!"

Lin Yi was also in a good mood-things were going so smoothly that it was beyond his imagination. "Now, it's up to senior ghost's methods!"

"It's a piece of cake. With the control array flag in hand, controlling the entire defender array is as easy as flipping my hand!"

The bastard wasn't lying. He and Lin Yi had already studied the entire formation with their spirit sense. Once they had the formation flags, the control of the formation changed hands.

"You're looking for death!"

Seeing that li baidai's array flag had been taken away, the long-bearded old man immediately roared and struck out two palms!

The surging pure Qi surged over, sealing all of Lin Yi's escape routes and devouring his body in an instant!

At a time like this, the elder didn't want to leave anyone alive-he was ready to kill Lin Yi!

"That was close! I was almost killed!"

Lin Yi wiped his cold sweat, still feeling the lingering fear. His afterimage had been torn apart, and his real body had appeared in another place."Old man City Lord, what you're doing is really not right ..."

Before he could finish, another violent Qi came and tore Lin Yi's body apart!

Three appearances of the cloud Dragon!

"Old man! Since you're all so aggressive, don't blame this young master for being impolite!"

Lin Yi flashed in the opposite direction and started to activate the formation with formation flags as he shouted!

The same array, when controlled by a different person, the power was completely different!

In an instant, the elder who was chasing Lin Yi was blocked by countless formations. He couldn't even take a step forward and could only watch Lin Yi jump not far away.

"He's ... So strong!"

Li baidai murmured to himself, his face full of disbelief!

He had personally set up and upgraded this city's great array, and his array Dao level was definitely second to none in the abandoned land.

However, in Lin Yi's hands, the power of the array was even stronger than the one who set it up, li baidai!

Just how terrifying was Lin Yi's skill in formations?

"Master Li! Don't just stand there! This is your formation!"

The long-bearded old man shouted. After breaking through seven or eight killing auras, he was already extremely irritated. "Hurry up and take back control!"

The entire broken Cloud City was in Lin Yi's hands, and the old man wanted to eat him alive, but Li Baidai was still standing there as if he had seen a ghost!

The grey-robed elder and the others shouted as well, joining the group that was attacking Lin Yi.

However, the city protection array could not only attack one person. The entire broken Cloud City was actually within the attack range of the array. As long as there was enough spiritual energy, it did not matter how many people there were.

Chapter 6733 Self-Exploding Array

"Don't worry, city Lord ... I'll definitely take back control ..."

Li Baidai's whole body trembled, and he secretly wiped off his cold sweat. Although he wanted to make a resolute military pledge, he didn't have the confidence to speak.

That kid who appeared out of nowhere had profound array skills. Could he really take back the control of the city's array? Li Baidai felt a chill in his heart, and the more he thought about it, the more hopeless he felt.

"Father, that despicable brat thought that he could do whatever he wanted by snatching your array flags. What a joke! Quickly let him know what kind of thing he is!"

Li qianqiu didn't understand the situation after the formation changed hands, and he was still confident in his father, thinking that li baidai could easily crush Lin Yi.

Li baidai turned around and looked at li qianqiu, feeling even more sorrowful in his heart. How could he have given birth to such a silly son? Who was the laughable one now?

"Chiaki, hurry up and find a place to hide. Take care to protect yourself!"

Li baidai didn't want to say anything more. If it wasn't for his only son, he would have killed li qianqiu first. What kind of perverted monster did he have to provoke?

Li baidai ignored li qianqiu and carefully took out an array flag. This was the backup array flag of the city's Grand array. It was the only hope to seize control of the city!

Although li baidai was the one who set up the array, he had no confidence in facing Lin Yi!

"It seems that li baidai still wants to take back the control of the defender array. He really doesn't put me in his eyes!"

The demonic thing saw li baidai's action and suddenly laughed, "Show me your true ability and let li baidai be in complete despair!"

Lin Yi nodded with a relaxed smile. He took out a bunch of formation flags and threw them into the air.

Wood forest thousand transformation!

Hundreds of clones appeared under Lin Yi's command, each of them grabbing a formation flag and charging in different directions.

Li baidai's face turned paler and paler. He could clearly feel that his control over the defender array was rapidly declining, and the backup array flags would soon become useless.

"Stop! Otherwise, I'll self-destruct the city's defensive formation!"

Li baidai struggled for a moment, and suddenly screamed, his face twisted as he pointed at Lin Yi, "My array is not something you can control as you please. At worst, we will just break up and no one will be able to use it!"

Before he finished his words, the array flag in li baidai's hand shone brightly, and the entire broken Cloud City trembled slightly.

"This bastard is telling the truth! He does have the ability to self-destruct the city's defensive formation!"

The ghastly thing was slightly stunned and immediately stopped joking. ""Dammit! Instead of studying formations, you're quite good at playing with this kind of crooked thing!"

"Senior ghost, are you unable to stop him from self-destructing?"

Lin Yi frowned. He only wanted to find the Jade card and the map fragment, not destroy the city!

On the contrary, Lin Yi had always wanted to strengthen the city's protection formation to defend against the invasion of the dark Demon beasts, but the current situation was not what he wanted.

"We did not manage to control the entire defender array. That bastard li baidai could bypass our self-destruction array at any time. If we gave him more time, he would not be able to do anything after we completely changed the array."

The demonic thing sighed, knowing that li baidai would never give them a chance.

Lin Yi's doppelgangers had already stopped moving, afraid that they would provoke li baidai and make him choose to die with them.

"Very good! It's so refreshing to talk to an array expert!"

When li baidai found that the formation had not continued to change, his face suddenly relaxed,""Hand over the controlling array flag in your hand now, and I'll guarantee your safety!"

"Your promise is a joke. Why should I believe you?"

Lin Yi's lips curled up as he glanced at li baidai and the others in disdain,"Besides, do you think you can threaten me with a self-destructing formation? Attention, this is the city gate! I'm in control of the city's protective array, and it'll only take me a blink of an eye to leave broken Cloud City. What about you guys?"

Li baidai's face changed again. Lin Yi was right. Threatening them with self-destructing formations was a joke. Lin Yi should be threatening them in this way.

After all, if the city's defensive formation self-destructed, the number of people in the entire broken Cloud City who could survive would be less than one in a hundred, and with the escape ability that Lin Yi had just displayed, he was definitely the one who had the highest chance of escaping.

"I don't want to hurt the innocent. Let's have a good talk."

Lin Yi waved the formation flag in his hand as he looked at the old man,"City Lord, let's not beat around the bush. If you give me the item, I will return the control of the array to you and guarantee that it will be better than before. What do you think?"

Li baidai's heart skipped a beat. He was a newly promoted level nine array master. As the saying goes, one can tell whether an expert is good or not with a single move!

Li baidai was the best judge of Lin Yi's array skills, and the change of the defender array was indeed as Lin Yi said, it was developing in a more perfect direction.

"City Lord, what does this person want?"

Li baidai couldn't care about anything else. He immediately approached the long-bearded old man and said in a low voice, ""If it's not something precious, then just give it to him. The city's defender array is more important!"

The long-bearded old man turned around and looked at li baidai, thinking, "you know nothing!"

Even ten city protection arrays were not as precious as the thing in the jade box! It was just that he really couldn't say these words out loud.

Seeing that the long-bearded elder did not speak, li baidai was secretly anxious. If there was a complete level-nine array for him to study, and the foundation was set by him, his array Dao would definitely rise to a new level in a short time. This was the most important thing!

"City Master ... This is a matter of great importance. The safety of the entire broken Cloud City is in your hands. Please think twice!"

Li baidai gritted his teeth and continued to persuade the long-bearded old man, ""No matter what it is, it has its value. At most, I'll pay out of my own pocket to compensate for the city Lord's loss!"

In order to gain complete control of the defender array, li baidai was going all out!

"Master Li, say no more! I don't have what he wants, so I'll have to think of a way to take back control of the formation as soon as possible!"

The old man shook his head in denial. He would rather destroy broken Cloud City than give it to Lin Yi. There was no room for discussion!

"Senior ghost, from the looks of it, it's impossible for them to take out the item and give it to me ..."

Lin Yi's spiritual sense had been observing the conversation between li baidai and the long-bearded old man. He was a little disappointed that they couldn't resolve this peacefully.

"Don't worry! Just now, I was too late, but now, your clone has already secretly taken the array flags and is in position. As long as you place the array flags at the same time, you can completely control the city's defensive array!"

The demonic thing laughed proudly. No matter how cunning li baidai was, he still had to drink the water that this old man used to wash his feet!

From li baidai's point of view, the formation didn't change, but Lin Yi's clones were still moving. Each clone followed Lin Yi's planned route and came to the nodes of the formation.

Chapter 6734 Destroying The City-Protecting Array

Now, as long as these clones attacked at the same time, the formation could be completely perfected in an instant.

At that time, the defender array would have nothing to do with li baidai.

This was a level-nine defender array of a higher level. The backup array flag was not enough to detonate the defender array.

"All clones in position, ready to start?"

Lin Yi asked the ghost.

"Do it! If we can't take it by chance, we'll just take it by force!"

The ghastly thing laughed again and again, full of pride!

Hundreds of Lin Yi's clones stabbed their formation flags into the nodes at the same time. After a flash of light, all the formation flags disappeared, and the sky above broken Cloud City changed color.

"Not good! There's a change in the city's defensive formation!"

Li baidai was shocked and immediately activated the array flag in his hand, but there was no response.

"Junior, you're courting death!"

The old man knew something was wrong and attacked Lin Yi immediately.

The violent pure Qi exploded, and Lin Yi didn't notice it in time. He couldn't avoid it in time and was swept by the aftermath. His entire left arm drooped down, and he couldn't use it for a while.

"Senior ghost, can you be more reliable? What about the protection of the formation?"

Lin Yi turned into a lightning bolt and dodged it continuously. He couldn't help but curse in his heart, "I almost died! Where's the complete crushing?"

"Who told you that? There will be a moment of stagnation in the transformation of the formation. Do you need me to teach you this basic knowledge every day?"

The demonic thing snorted. "You were not careful when you were surrounded by powerful enemies. You deserved to be killed. Don't drag me down with you!"

"What you said makes sense, I'm actually speechless!"

Lin Yi's mouth twitched, deciding not to argue about it anymore.

"City Lord! We must kill this brat!"

With a ferocious face, Li Baidai threw out a large number of array flags and quickly set up a defensive array around them. At the same time, several array discs were also activated and thrown around.

"Eh, that old fool Li Baidai still has some brains. He knows that our defender array can't fully exert its power in a short time, so he used all his means to support a space, giving the city Master time to kill you."

The damn thing said as if it was watching a show, not thinking that Lin Yi would be in any trouble, "Lin Yi kid, it's time to test you! Good luck! I'll cheer you on ... No, I'll be your assistant ..."

Lin Yi felt exhausted. Senior ghost, are you here to watch a show? Calling? do you want a packet of melon seeds and peanuts?

The bearded old man didn't let Lin Yi off after his first attack—he chased after Lin Yi and attacked him relentlessly. With the help of a few people beside him, Lin Yi was forced into a difficult position.

Lin Yi pushed his lightning movement to the limit and kept flashing in the small area. He had to use his super limit butterfly micro steps to barely avoid the attacks.

"City Lord, this brat can't escape, kill him!"

Li baidai shouted crazily. In fact, he was under a lot of pressure right now. Once Lin Yi's defensive formation was fully activated, no one here could resist it except for the sea-shattering expert.

The only advantage they had now was to take advantage of this short window of time to restrict Lin Yi and kill him!

"Great work, Master Li!"

The long-bearded old man clearly felt the pressure around him relax. Although it was only for the blink of an eye, it was enough for him to display his strength.

Fire meteors!

Violent flames and rocks appeared out of thin air, turning into huge meteorites that shot into the sky!

This was the old man's ultimate skill, and it took at least half of his Qi to activate it. It was extremely powerful, even stronger than Lin Yi's super alchemy bomb!

"Are you crazy? How dare you destroy the city's defensive formation!"

Lin Yi was busy dodging the attacks and breaking li baidai's formation at the same time, but he suddenly realized that something was wrong.

If they were outside the city, Lin Yi wouldn't have to worry about this at all. Even ten more sea-shattering Masters wouldn't be able to shake a level nine city protection formation, let alone one.

However, they were attacking the city's defensive array, which was mainly used for defense against the outside and not the inside. Not to mention that this was the critical moment of upgrading the entire array!

The ghostly thing jumped as well, yelling in Lin Yi's mind, ""Quickly block it! The city-protecting formation is at its weakest now!"

"Bastard! You know you can't hit me, so you directly attacked the city's protective array. This is drastic!"

Lin Yi clenched his teeth and cursed. Lightning arcs flashed and appeared in the air, ready to block the old man's attack, even if it had to be weakened a little.

Lin Yi's reaction was fast, but he was still a beat too slow!

"Explode!"

The long-bearded elder roared, and the flaming meteors in the sky exploded. The violent power was condensed into one point by him, and it crashed into the city's protective array.

All of this seemed to have happened over a long period of time, but in reality, from the moment the elder struck Lin Yi until now, it had all happened in the blink of an eye. Everything happened too quickly.

Lin Yi tried his best, but he couldn't stop it. He could only watch as a hole appeared in the array!

Lin Yi himself was hit by the aftershock as well, and he was sent flying.

"City Lord! Why did you destroy the city's defender array?"

"What?" Li baidai cried out in shock, his heart bleeding. This was a complete level 9 city protection array! He had been hoping to study it properly after taking back control of it, but now it was all over!

"Master Li, you can repair the city's defender array if it's damaged, but if this junior borrows the power of the array, we'll all be in trouble. Isn't it simple now?"

The old man laughed and explained to li baidai before charging at Lin Yi again, "Junior, without the city's Grand array, let's see what other trump cards you have to fight with this old man!"

"The city Lord is far-sighted!"

The others who were attacking Lin Yi instantly understood and praised the elder.

Only li baidai felt like he had been F * cked. Did you think that you could repair such a high-level array? It's not like you can fix your torn clothes with a few stitches!

Li baidai was very clear about his own strength. Before he understood the profoundness of this array, it was impossible for him to repair it by himself!

"Senior ghost, how's the city's defensive formation?"

Lin Yi didn't care about what the people from broken Cloud City were saying. He only cared about the degree of damage to the array. Was it possible to repair it?

"Of course, it's not a problem to repair it. The problem is that you don't have the time to repair it!"

The demonic thing was in a bad mood. The city's defensive formation that had just been set up was destroyed, just like the model that one had painstakingly built had been kicked to pieces. "Let's leave this place first. We'll talk about other things after you're safe!"

The elder's fire meteor didn't just destroy the city's defensive formation, it also injured Lin Yi a little. On top of that, li baidai's array was also destroyed.

Chapter 6735 Old Friend Is Here

Lin Yi's injuries didn't matter-his body was strong to begin with, and with the help of his pure Qi, he was healed in an instant.

On the contrary, li baidai's arrangement was destroyed, and the pressure on Lin Yi disappeared instantly. It was the perfect time to leave!

"Let's get out of the city!"

Lin Yi turned into a lightning bolt and charged at the city gate without hesitation.

"You want to run? It won't be that easy!"

The long-bearded old man snorted coldly, and countless basketball-sized meteorites fell from the sky, burning with flames. They densely covered the entire city gate area.

Fire meteor shower!

Lin Yi's lightning escape technique couldn't escape from the fire meteor Rain. He only stopped for a moment, and the elder was already blocking the exit.

"Junior, this old man advises you to obediently surrender, and you'll suffer less!"

The long-bearded old man's aura rose sharply, and he had a mocking smile on his face. ""Do you think you still have a chance to escape?"

His words were unyielding, but in fact, the long-bearded old man was trying to stall for time.

He'd used two big moves in such a short amount of time, and his Qi was a little messed up-that's why he didn't follow up with another attack, but used words to get Lin Yi to surrender.

In addition, the battle had only started for a short period of time, and the other Masters in broken Cloud City didn't have time to arrive. Once they surrounded him, no matter how good Lin Yi's escape skills were, he wouldn't be able to leave broken Cloud City.

"City Lord, is there any difference between surrendering and resisting?"

Lin Yi didn't continue charging at the gate, stopping to face it calmly. "I don't have any ill intentions in coming to broken Cloud City this time. If you must do this, then you must be prepared to bear the consequences."

As he spoke, Lin Yi secretly took out the Black Pearl. If his life was really threatened, he'd just have to fight to the death!

"Hahaha, are you trying to scare me? Since you were able to snatch control of the city's defender array from Master Li's hands, you're definitely the number one array master in the abandoned land. You're indeed qualified to scare me!"

The long-bearded old man suddenly changed the topic, and his expression became extremely sincere, "How about this, as long as you surrender, not only will this old master not make things difficult for you, but I'll also treat you as an honored guest! As for the matter you mentioned, we can discuss it again. If the reason is sufficient, it's not impossible to consider giving it to you. "

This was complete bullshit-no matter what, he couldn't give Lin Yi the Jade tablet and the map fragment. The elder just wanted to make Lin Yi surrender!

Lin Yi blinked-the old man's suggestion was quite tempting in this situation!

It was a pity that Lin Yi knew he couldn't stay in Yun Duan city forever, or he would be moved by him.

"City Lord, isn't this a little inappropriate? This person's background is unknown. Although he has the ability, if we rashly entrust him with such an important task, I'm afraid it will endanger broken Cloud City!"

Li baidai quickly tried to dissuade him, and an undetectable gloominess flashed in his eyes.

Lin Yi's array skills were obviously above his. If Lin Yi really became an array master in broken Cloud City, what would he have to do with it?

Besides, the conflict between li baidai, li qianqiu, and Lin Yi had already intensified, and they couldn't live in harmony anymore. They had to stop this.

"Don't worry, Master Li. I have my own plans. "

The long-bearded old man smiled and comforted him, but he had no intention of changing his words.

Li baidai squinted his eyes and suddenly thought that he had seen through the truth! This old man wanted to check and balance him, li baidai!

In the past, li baidai's status in broken Cloud City was also very noble, but he could never be compared to the city Lord. However, after he advanced to a level nine array master, the situation was completely different!

As li baidai had only become a level nine array master for a short period of time, his influence had yet to fully develop. However, in broken Cloud City, li baidai's status was not below the city Lord 's, and he could definitely stand on equal terms with the city Lord.

Hence, it wasn't impossible for the city Lord to recruit Lin Yi to control li baidai.

Li baidai's mind turned quickly, and he looked at the long-bearded old man with a touch of hatred in his eyes!

Xu Changxi, don't blame me for being unkind!

Xu Changxi was the name of the long-bearded old man. He would never have thought that his casual words of delaying time would cause such a big misunderstanding to li baidai!

If he knew this would happen, Xu Changxi would probably beat li baidai to death first.

"City Lord's suggestion is not bad. I am very interested. Please allow me to consider it for a moment."

Lin Yi didn't expect li baidai to be so emotional. It was rare to have a good excuse to delay time, so he had to make good use of it!

The hundreds of clones he had sent out before didn't die, and although there were people from broken Cloud City chasing after them, not many of those normal guards were a match for Lin Yi's clones.

If it wasn't for Lin Yi not wanting to kill, broken Cloud City would've been covered in blood and corpses, turning it into hell!

The clones weren't idle either-they were working at full force. With enough time, they could take Lin Yi's place in repairing the formation, and the situation would be in his favor again.

"No problem, but this old master is tied up with matters, and you don't have much time to consider, so you have to hurry!"

Xu Changxi stroked his beard and smiled. When he recovered, the other Masters from broken Cloud City would be here too. It didn't matter if Lin Yi agreed or not.

Xu Changxi had calmed down after a few words. With this time, he would be able to recover some of his true Qi, and it would be the best time to attack!

"Senior ghost, how long will it take to repair the city's defensive formation?"

Lin Yi asked as he tried to placate Xu Changxi. A level 9 city protection formation wasn't something he could handle, he had to rely on some damn thing.

"It will take some time to repair it. There shouldn't be enough time,"

The damn thing was very experienced and knew Xu Changxi's thoughts like a fire. After some calculations, he said, "You won't be able to use the city's defensive formation until you're completely surrounded by them. You can do whatever you want."

Since he knew that Xu Changxi had the Jade card and the map fragment, Lin Yi wasn't going to give up just like that! After leaving the city, he could change his appearance and sneak into broken Cloud City again, or he could directly hide in the city and wait for an opportunity.

Continue to leave the city, draw their attention away, and then come back!

Lin Yi made up his mind instantly. He was going to use lightning escape to fly up into the sky, then change directions to shake off the enemy, and then use his ghost speed wings to get through the broken formation.

But before Lin Yi could do anything, the ghostly thing suddenly shouted, ""Wait! Don't go out!"

"Hell! Why are they here again?"

Lin Yi didn't need the explanation to know why they had to go out slowly!

Outside the city, there were Dark Demon beasts that covered the sky and the earth as they flew towards Cloud Break city. It was Lin Yi's old friends, the sun swallowing rat tide and the corpse demon bee swarm!

Chapter 6736 What A Powerful Junior

As expected, the darkness demon beasts had come to broken Cloud City, and they had come at the best time. Broken Cloud city's city protection array had been destroyed by Xu Changxi himself!

Yun Duan city's fall was almost set in stone, and if Lin Yi wanted the Jade token and the map, this was probably his last chance!

The dark Demon beasts were coming, and Lin Yi could use the teleportation formation to escape easily. Even if he didn't use it, he could still run away with some effort. Even if he got caught in a swarm of mice or bees, it would be troublesome, but he could still escape.

However, it was hard to say for Xu Changxi. Once broken Cloud City fell, it was almost impossible to get back what he had on him!

"City Lord, there are dark magic beasts swarming towards broken Cloud City. Please immediately command the defense!"

Lin Yi's face was a bit ugly. He raised his head and quickly finished his sentence to the old man, then immediately turned to Li Baidai, "Li Baidai, the city's great array needs to be repaired. Otherwise, it will collapse under the attack of the darkness demonic beasts. Let's join forces!"

However, Lin Yi didn't add insult to injury. He cared more about the safety of the entire city than the map!

Broken Cloud city's population was in the tens of thousands, and Lin Yi really couldn't just watch as the dark Demon beasts massacred the city!

"Junior, you're still trying to use such a lowly trick to deceive this old man? You're too naive!"

Xu Changxi laughed coldly. He didn't believe a single word Lin Yi said.

Li baidai was even more displeased. He admitted that Lin Yi's array Dao was stronger, but it wasn't to the point where Lin Yi could call him by his name. Did Lin Yi think he was an apprentice?

To join hands to repair the defender array and then use it against them, did he look like an idiot?

As for the invasion of the darkness demon beasts, no matter how many experts in the entire broken Cloud City had set up sentries, they had not discovered it. How could he, lone wolf, have discovered it?

Unfortunately, li baidai didn't know that he was an idiot in Lin Yi's eyes!

"The darkness demon beast is really here, it'll be too late if we don't act now!"

Lin Yi panicked, not knowing how to explain. He couldn't just say that all of you here were trash when it came to divine sense, and that even all of you combined couldn't compare to him, could he?

"Junior! This old master has already been very polite to you and invited you with great sincerity. Since you don't know how to appreciate my kindness, don't blame this old master for not sparing your talent!"

Xu Changxi's face darkened as he raised his hand to grab Lin Yi. The rest of the people followed suit, either attacking Lin Yi directly or blocking his escape routes.

Other than that, there were two other sea-shattering experts nearby, ready to intercept Lin Yi at any time.

"A bunch of idiots!"

Lin Yi couldn't help but curse under his breath. He knew that it was useless to say anything now. Only when the mice Army and bees really appeared would these idiots believe him.

"I'll go out and throw two super pillfire bombs to stop the darkness demon beasts from coming in. Senior ghost, you should first think about how to fix the formation as quickly as possible. "

With that, Lin Yi activated the three appearances of Cloud Dragon, leaving a few afterimages to attract the enemy's fire as he appeared in mid-air.

The lightning arc flashed as he closed the distance between him and the breach. Without waiting for the people below to react, Lin Yi spread his ghost speed wings and flew through the hole, leaving the area of the city protection formation.

At the same time, Lin Yi's clones that were scattered all over the city started to gather in groups of two or three to form a battle formation. They quickly searched the shops in the city for formation flags and

armors-they were necessary for repairing the city's defensive formation quickly. Lin Yi himself didn't have time to transport them, so he could only take what he could.

In such a critical period, it was best to make a deal without any capital!

"What a slippery kid, chase! We can't let him escape!"

Xu Changxi's face was as dark as water as he gave a low shout and chased after Lin Yi. Before he left, he didn't forget to remind li baidai, "Master Li, please repair the defender array as soon as possible. This time, you must firmly take control of it."

"Don't worry, city Lord, I'll do my best!"

The corner of li baidai's mouth twitched. He was not very confident in repairing this unrecognizable defender array, so he did not have much confidence in his words.

If he had the ability to repair the array, li baidai would definitely be the first to kill Xu Changxi!

Xu Changxi was a little speechless. Li baidai's tone made him feel uneasy ... However, he had no choice but to rely on li baidai ...

Xu Changxi couldn't care less about the array anymore-the most important thing was to catch Lin Yi!

More than ten experts from broken Cloud City rushed out of the city gate one after another, but they could only see the lightning arc that flashed in the distance.

Lin Yi's speed wasn't something that just anyone could catch up to-just looking at him made most of them give up on chasing him.

"This Junior's escaping speed is really fast. You guys go back and guard broken Cloud City well, this old man will go alone!"

Xu Changxi gritted his teeth. Normally, he wouldn't even bother to chase after an opponent like this, but Lin Yi knew the secret of the jade box. He had to!

Xu Changxi left the others behind and flew away. He wasn't as fast as Lin Yi's lightning escape, but he wasn't too far behind Lin Yi.

After just two to three thousand meters, Xu Changxi's expression became extremely ugly because he also found traces of the darkness demon beasts!

That junior wasn't lying! There really was a darkness magical beast!

The problem was, how did the other party discover it? Could it be that this Junior's divine consciousness was even stronger than him, the city Lord of broken Cloud City and the expert of the shattered Sea? And it was much more powerful?

How was this possible?

Xu Changxi stopped subconsciously. This was too unbelievable. If Lin Yi was stronger than him, he would be asking for death if he chased after Lin Yi alone.

BOOM! BOOM!

Before Xu Changxi could figure it out, two small mushroom clouds rose in the distance with a loud noise. The violent waves swept in all directions. Even from so far away, he could feel the strong aftermath!

"So strong! Is that junior really that powerful?"

Xu Changxi's face turned pale, and he couldn't help but exclaim in shock. The power of the two explosions was definitely not inferior to his fire meteor!

Two meteors? Xu Changxi's face turned even paler. It seemed like he was struggling to do it ...

Just who was that junior called lone wolf? How could he be so powerful?

Lin Yi didn't know that his super alchemy bombs scared Xu Changxi. If he did ... He would've thrown a few more to scare him!

Whoosh! Whoosh! Whoosh! Whoosh!

In fact, Lin Yi wasn't having an easy time either. He was standing on a tree far away from the explosion range, panting.

Throwing out two super alchemy bombs that he couldn't control was a huge burden on Lin Yi, and with the consumption just now, even if there was an unlimited amount of Qi in the Jade space, it would take some time to convert it into Qi.

Chapter 6737 Back Again

The Super pill fire bomb was indeed powerful, and it directly destroyed tens of thousands of sun devouring rats and corpse demon bees. However, it was useless, and this loss was nothing to the darkness demon beasts.

The sun-devouring rats and the corpse demon bees didn't panic at all after being attacked. Their target was still broken Cloud City, and they didn't even care about Lin Yi!

Lin Yi let out a breath of air-his dantian was full again, and two more super alchemy bombs appeared in his hands!

No matter what, he had to delay the darkness demon beasts 'advance. He had to repair the city's defensive array before they arrived, or broken Cloud City would definitely die!

The ghost wanted to remind Lin Yi that everything he was doing now was useless. Once the hidden killing formation was activated, everyone in the abandoned land would be dead. It didn't matter whether he saved them or not.

The wisest thing to do was to take advantage of the fact that Xu Changxi was alone outside and assassinate him. Then, they would snatch the Jade token and the map fragment and leave broken Cloud City. If necessary, they could even use the sun swallowing rat and corpse devil bees to consume Xu Changxi's true Qi.

It was just that Lin Yi didn't seem to realize this, or he did, but didn't want to accept it.

Lin Yi made two more super alchemy bombs, and the icy blaze exploded, but it still couldn't stop the dark beasts.

Lin Yi had just left the explosion range, but he was surrounded by countless corpse demon bees. The strange resonance formed an invisible barrier, making him feel like he was in a swamp.

"Open it!"

Lin Yi roared, his aura rising as he activated his martial skill!

Wind splitting fangs, thousand blade slash!

The densely packed tiny wind blades exploded with a sharp screech and shot in all directions in the air without any pattern. The corpse demon bees 'resonance had not reached a perfect fit yet, so they were affected by the wind blades and were forcibly opened up.

Lin Yi's figure flashed and turned into a lightning arc, passing through the gap. He didn't continue to fight and immediately pulled away from the rat tide and bees.

"Oh, what a coincidence, we meet again!"

A mocking voice sounded, and a grey-robed man with a bamboo hat appeared on a tree not far from Lin Yi. "He looks a little disheveled! Do you need any help?"

"A grey bamboo hat? Why did you come back?"

Lin Yi's heart skipped a beat-it wasn't a good thing to run into the mysterious man in the middle of all this. "Weren't you interested in the darkness magical beasts? Now is a good time to research it. Why don't you give it a try?"

"It's just research. You don't have to go up and do it. Watching you do it is the same."

The man in the grey hat chuckled and shrugged. He continued, "Of course, if you beg me, I can still consider helping you on account of our Alliance. How about it? Are you begging me?"

"I can beg you, but I don't know if you can help. Why don't you show off your skills first, and then I'll decide if I want to formally ask you for help?"

Lin Yi raised an eyebrow and looked at the grey bamboo hat with a faint smile. If the grey bamboo hat really did make a move, he might be held back by the sun swallowing rat and the corpse demon bee. No matter what, he had helped.

"Hehe, you want to provoke me? Do I look like such an idiot?"

The man in the grey hat did not fall for it. He tapped his feet lightly and retreated a few hundred meters like a ghost. His voice could still be heard clearly from afar, "Lin Yi, think about it carefully. If you want to beg me, then do it now. Otherwise, it'll be useless when I'm far away."

Lin Yi hmphed coldly. The man in the grey hat might be stronger than him, but the sun-swallowing rats and demonic corpse bees were the least afraid of individual strength. There were so many of them, so he could kill them all he wanted. They'd be fed if he didn't want to.

There was no point in begging for the hat if he couldn't solve the root of the problem-he couldn't ignore any small details in the game between Lin Yi and central.

"Although your death is a good thing for us, it's not bad to be able to bring you back. You know how to look for me when you need me!"

The man with the grey hat disappeared into the distance, but his voice was still clear as if he was talking right next to Lin Yi's ear.

Lin Yi hmped. As long as the man with the grey hat didn't come and cause trouble, he would be of great help. He turned his gaze back to the dark beasts. In just a few sentences, the dark beasts had advanced a lot, getting closer and closer to broken Cloud City.

The repair work of the array was slow. The higher-ups of broken Cloud City who didn't chase after them all turned around to kill Lin Yi's clones, slowing down the repair work even more.

They were really a group of idiots who could do nothing but ruin things! He could still live if he didn't drag them down, but if he did, he could only wait for death!

Lin Yi was furious, but luckily, he saw Xu Changxi running back at Full Speed with his spirit sense. Xu Changxi must have found the dark Demon beasts and knew the situation was urgent.

With Xu Changxi's words, repairing the array should be a lot easier. Lin Yi thought about it and decided to go back to cloud Broken City to repair the array.

Of course, before he left, Lin Yi wanted to fire two more shots ... Even if he couldn't stop them, he'd kill more!

The two super alchemy bombs exploded again, and Lin Yi didn't care about the result. He turned into a lightning arc and rushed towards broken Cloud City with his ghost speed wings!

The city gates were already closed, and Lin Yi didn't say a word. He went in from where he came out from. Time was tight, and he didn't have time to waste with the people of broken Cloud City.

"Lone wolf, you still dare to come in! Are you trying to fish in troubled waters?"

The moustached man was standing guard at the bottom of the formation, and he panicked when he saw Lin Yi. He sounded the alarm and got into a defensive position!

Lin Yi pouted! Since you're guarding this place, shouldn't you attack immediately when you see the enemy? What was going on? why was he protecting her while retreating?

"Dodge! I don't have time to waste on you!"

Lin Yi waved his hand casually as he spoke, and the man jumped back like a startled bird. He didn't know why he was so afraid of Lin Yi.

But this was good too-it'd be more convenient for Lin Yi to do things without any disturbance.

"Little friend lone wolf, I hope you're a friend and not an enemy!"

Xu Changxi saw that Lin Yi was back in broken Cloud City and immediately flew over, speaking more politely.

"City Lord, I've never wanted to be enemies with broken Cloud City. It's always been you guys who have been attacking me!"

Lin Yi looked at Xu Changxi indifferently and took out a dozen formation flags, "Now is not the time to talk. I need to repair the city's defensive formation immediately. City Lord, do you want to stop me?"

Xu Changxi was conflicted. He let Lin Yi repair the array and Lin Yi would have full control of it.

Whether it was for Xu Changxi or broken Cloud City, this was not a good thing. However, the dark magical beast tide was right in front of them. If they did not repair the city protection array, the entire broken Cloud City would be destroyed!

Chapter 6738 Temporary Reconciliation

"Little friend, you must be joking. Why would this old man stop you?"

Xu Changxi quickly weighed the pros and cons and forced a smile as he cupped his hands. "The safety of broken Cloud City requires everyone's hard work. We must abandon our prejudices and work together to overcome this difficulty."

"Well said, city Lord! In the face of darkness magical beasts, we humans must unite!"

Lin Yi finally smiled as he quickly took out a formation flag to repair the hole.

It didn't matter if Xu Changxi meant what he said, as long as he could focus on dealing with the darkness demon beast, it was a good thing!

"Yes, yes! Then I'll leave this place to you, little friend. This old man still has to go command the city's defense, so I won't disturb you!"

Xu Changxi was a little embarrassed. To be honest, he still wanted to kill Lin Yi. Compared to the Jade card, he didn't mind giving up on Cloud Break city.

But now that there was a chance to save broken Cloud City, Xu Changxi wanted to try. It wouldn't be too late to deal with Lin Yi after the darkness demon beasts retreated!

He didn't care about the threat that Lin Yi would pose to him after he took control of the formation. After all, he had broken through the formation once, and he could break it again. Plus, he didn't know if the formation could last long against the countless sun swallowing rats and corpse demon bees.

Xu Changxi thought to himself and left without waiting for Lin Yi's reply. In fact, his best choice was to wait for Lin Yi to finish repairing the array and then kill him. However, he wasn't confident that he could kill him in one go.

The beast horde outside the city was about to arrive, and if they couldn't kill Lin Yi, the situation would become even more complicated. Xu Changxi didn't want to take the risk!

Lin Yi's spirit sense had been focused outside the city, and he let out a breath of relief as the formation repaired itself.

Maybe there's still time!

It was all thanks to the many avatars left in the city that the time needed to repair was greatly shortened.

In just a dozen seconds, the damaged gap began to slowly close. Although it had not been completely repaired, the entire defender array was operating again, and a faint light gradually lit up.

At this moment, a small group of around 7000 to 8000 corpse demon bees suddenly separated from the swarm of corpse demon bees outside the city. They formed a huge arrow in the air and shot towards the city's defensive formation at lightning speed!

Lin Yi was shocked. The giant arrow formed by the demonic corpse bees was at least ten times faster than the rest of the Army. The gap that was supposed to be closed before the dark beasts arrived was now completely exposed to the arrow attack.

He had to block it!

Just as the thought flashed through Lin Yi's mind, his body had already rushed out of the gap, and dozens of lightning arcs hit the tip of the arrow first.

The arrow was engulfed in electricity, and countless sparks flew out from the arrow. Unfortunately, Lin Yi's attack didn't affect the formation of the demonic bees at all, and the arrow continued to charge towards the formation.

Lin Yi had already predicted that his lightning bolts wouldn't be able to affect the demonic corpse bees, so he started to form the Super alchemy bombs as soon as he charged out. Unfortunately, he didn't have enough time, so he could only put his hands together and throw them out.

The demonic corpse arrow resonated loudly, and Lin Yi's super pill fire bomb exploded in a hurry, but it didn't have any effect, just like the lightning.

The demonic corpse bee arrow pierced through the Super pill fire bomb and struck the hole in the city's defensive formation with its remaining flames and lightning.

The giant arrow was completely shattered after the collision, and all the corpse demon bees that formed the giant arrow were turned into ashes without exception!

Lin Yi's heart trembled. He finally understood why the arrow was able to rush out so quickly. It was an attack that completely exhausted its life force!

All the corpse demon bees that formed the giant arrow would die immediately even if they missed their target. This was the most terrifying part about the darkness demon beasts. They were not afraid of death!

All of this takes a long time to describe, but in reality, it happened in the blink of an eye!

The incomplete defender array began to fluctuate violently, and the area near the gap was hit hard, causing the spot that was about to close to collapse again.

At the same time, the darkness demonic beasts 'Army was already close, and the corpse demon bees shot out another two giant arrows!

Lin Yi didn't think that the dark Demon beasts would find Yun Duan city's weakness in an instant, and wouldn't let go of it!

Lin Yi sighed and used his lightning escape to return to the city and repair the formation.

"City Lord, gather all the experts in the city to defend the gap in the formation!"

Lin Yi used his pure energy to send out his roar, which reverberated throughout the entire broken Cloud City. The three continuous attacks from the demonic corpse bee arrows widened the gap in the formation, and the following attack from the main force was beyond Lin Yi's ability to handle.

Xu Changxi didn't need Lin Yi's signal to rush back, and he immediately went into a defensive state!

"I'll clean up the darkness magical beasts near the gap, you hurry up and repair it!"

Xu Changxi said and quickly used his battle technique to attack the demonic corpse bees that were coming in. At the same time, he called out to his companions, "Everyone, pay attention to your coordination. Focus your attacks on the darkness magical beasts at the gap and attack in sequence. Make sure that there are no gaps in your attacks!"

Lin Yi relaxed a little. Xu Changxi was strong, and his commanding ability wasn't weak either. With the cooperation of the higher-ups in broken Cloud City, they could still hold off the attacks from the gap.

The only thing to worry about was the defensive power of the defender array. Because it was incomplete, it could only exert less than one-tenth of its defensive power.

The sun-devouring rats and the demonic corpse bees covered the entire formation, attacking from all directions. It was hard to guarantee that the other parts of the formation would not be broken!

"Master lone wolf, how much more time do you need? Can I be of any help?"

Li baidai didn't join the defense team, but came to Lin Yi's side and whispered. As a level nine array master of broken Cloud City, it would be a waste to fight in close combat.

However, with Lin Yi around, li baidai was in an awkward position. He couldn't do anything about the array that Lin Yi had upgraded. Whether it was repairing or controlling it, he could only watch from the side without Lin Yi's guidance.

Li baidai had no choice but to let go of his grudges and schemes and try to steal some knowledge of formations from Lin Yi.

"Master Li, you've come at the right time!"

Lin Yi was still quite polite when addressing li baidai. After all, they were all in the same boat now.

However, li baidai didn't have the time to be happy when Lin Yi extended his hand to him, "Do you have formation flags? I'm almost out of them!"

Lin Yi had been placing a lot of importance on the storage of formation flags recently, buying some useful formation flags first wherever he went, but he still couldn't afford to squander a lot.

With this damn Grandmaster here, Lin Yi's formations were already pretty powerful, and he naturally needed a lot of formation flags.

Upgrading broken Cloud city's great array had already consumed a lot of energy, and repairing the damaged and attacked array was a bottomless pit. It was too wasteful to use high-level array flags, so li baidai came at the right time.

Chapter 6739 Charging Alone

"There are! Please feel free to use it!"

Li baidai felt a little sullen, and quickly took out a bunch of array flags from his storage bag and handed them to Lin Yi, "If it's not enough, I can get someone to get it."

"Pile all of them on the ground first. We'll talk if it's not enough!"

Lin Yi didn't even turn his head as he finished his sentence. With a wave of his hand, he sent dozens of formation flags into the sky with his pure Qi, maintaining the consumption of the gap.

Li baidai suppressed his anger. If it wasn't for the fact that he couldn't escape with broken Cloud City destroyed, he really wanted to kill Lin Yi.

After taking out all the array flags from his storage bag, li baidai didn't say anything more. He secretly observed Lin Yi's technique, trying to find something useful.

"Master lone wolf! The city's defensive formation could not hold on any longer! Can you increase the speed?"

Xu Changxi could feel the array shaking violently. He couldn't help but turn around and shout at Lin Yi. At the same time, he was prepared to run.

Broken Cloud City was important, but when they couldn't defend it, Xu Changxi would prioritize his own life!

With the entire broken Cloud City as their target, the darkness demon beasts might not focus their attention on a single expert in the shattered Sea.

"Don't be noisy!"

Lin Yi roared, frustrated. Last time at Broken City, he almost relied on himself to win back the defeat. This time, he had so many people helping him, but he still didn't want to do it.

Although there were only sun-devouring rats and no corpse demon bees last time, the gap was still too big!

Xu Changxi was furious and was thinking about whether he should kill Lin Yi right away. They couldn't hold on to broken Cloud City anyway, so he might as well take care of the problem before leaving!

"Master Li, quickly choose a place in the city that's easy to defend and hard to attack and set up a defensive array as much as possible. If the city's Grand array can't withstand it, there'll still be a place to hide in the end!"

Lin Yi thought for a while and ordered li baidai.

The corner of li baidai's mouth twitched. If the city's defender array could not withstand it, how long could the defense array that was set up in a hurry last?

Once the darkness magical beasts entered the city, even if they had set up a level nine defensive formation, it would probably be torn apart quickly.

Lin Yi understood this, but he didn't have a good idea.

"Master Li, do as he says!"

Xu Changxi frowned slightly and nodded to Li Baidai. Once Broken Cloud City fell, he would have to break out anyway. If someone could hold on for a while longer, it would be better to attract the darkness demon beasts for more time.

Li Baidai had no choice. No matter how unhappy he was with Xu Changxi and Lin Yi, he couldn't do anything now. He could only do as he was told.

Lin Yi looked at the tottering defensive layer of the city's defensive formation, thinking of all kinds of countermeasures.

"City Lord, I'm afraid we can't continue like this. Someone must charge forward and scatter the darkness magical beasts near the gap in the formation!"

With that, Lin Yi's eyes hardened. "I'll take care of this. My clone will continue to repair the formation. Please continue to maintain the defense, City Lord and everyone!"

"You're going to fight alone?"

Xu Changxi and the others were all shocked. This guy went out of the city alone to fight? was he looking for death?

Or did he actually see that the situation was not good, so he wanted to take the opportunity to escape?

Xu Changxi couldn't be blamed for thinking this way, as he had the same thought. However, he felt that the best time to break out was after the city's defensive array was broken. At that time, the darkness demon beasts' attention would be diverted by the people of broken Cloud City.

If he left the city alone, he would definitely become the target of the darkness magical beasts. If he didn't have extraordinary strength, he would only be courting death!

"That's right. I'm afraid that this is the only way to repair the city's protective array. Once the array is closed, I might not be able to enter the city in time. At that time, broken Cloud City will still rely on you guys to defend!"

Lin Yi smiled faintly and activated the thousand changes of wood and forest. He left one of his clones to repair the formation and saluted Xu Changxi before rushing out of the gap.

"...Take care!"

Xu Changxi was silent for a while before he cupped his fists to Lin Yi, who was killing his way through the gap.

The facts proved that Lin Yi was really risking his life for broken Cloud City and not trying to break out himself!

This made Xu Changxi feel very strange!

If Lin Yi died outside like this, Xu Changxi wouldn't mind calling him a hero. Of course, that was if the broken Cloud City was still safe.

In fact, Xu Changxi hoped that Lin Yi would die at the hands of the dark Demon beasts, and everything would be much easier!

Lin Yi didn't know that Xu Changxi was hoping for him to die, or else the Super pill fire bomb would hit Xu Changxi's head!

The two super alchemy bombs exploded outside the formation, and Lin Yi controlled the direction and power of the explosion so that it didn't affect the formation at all. However, it cleared the area around the gap in the formation!

Lin Yi's clone in the city took this opportunity to close up the gap a little. A few more seconds and he might be able to fix it completely.

The explosion hadn't even finished yet when the small wind blades exploded with Lin Yi at the center. Wind splitting fangs, thousand blade slash!

The sun-devouring rat and the demonic corpse bees were blown away by the bomb, and they were unable to get close!

"Good! Beautiful!"

Xu Changxi's eyes lit up as he cheered for Lin Yi, "Hold on a little longer! We'll be able to repair the hole in the formation immediately!"

Lin Yi's clone snorted. He was connected to Lin Yi's original body, and he knew that Lin Yi's original body was under a lot of pressure.

But Lin Yi's clone couldn't say much-the entire defensive formation was under attack, and it had only been a few seconds since the start, but it was already on the verge of collapse.

The situation had taken a turn for the better, but it was still not optimistic!

On one hand, Lin Yi was desperately attacking from above, and on the other hand, he had to pay attention to the repair and damage of the formation at all times. He calculated the time it would take for the gap to close up, and he only had that one moment to return to broken Cloud City!

If he went back too early, all his previous efforts would be in vain!

If he went back too late ... He wouldn't be able to go back!

Lin Yi looked at the endless tide of sun swallowing rats and corpse demon bees and felt a headache. If he couldn't enter broken Cloud City, it wouldn't be easy for him to escape!

The pressure around Lin Yi was getting heavier and heavier, and he was multitasking-he was reaching his limit.

"Oh, what a coincidence to meet you again. You look like you're working hard. Do you need help?"

The man with the gray bamboo hat suddenly appeared at the edge of the beast tide in the distance, and his mocking laughter could be heard clearly through the heavy noise, ""How is it? If you want help, then beg me!"

"Grey bamboo hat ... How did you do that?"

Lin Yi was shocked-the center was indeed mysterious. The grey hat was at the edge of the beast wave, but not a single sun swallowing rat or corpse demon bee attacked him."What can you do to help?"

"We're all allies, so I won't be stupid. What can I do to help?"

The man in the gray bamboo hat shrugged his shoulders and actually walked slowly into the dark magical beast tide!

Chapter 6740 Owing A Favor

However, the strange thing was that both the sun-devouring rats and the corpse demon bees automatically moved aside, allowing the grey-hooded figure to walk in easily.

Lin Yi's hair stood on end-he'd never seen anyone walk so freely in a swarm of rats and bees, other than someone possessed by a Dark Demon beast!

Could it be that the man in the grey hat was actually a darkness magical beast? Even the darkness magical beasts were absorbed by the center?

"Don't think too much, I'm a pure-blooded human, not a lowly creature like a darkness magical beast!"

The man seemed to read Lin Yi's mind as he spread out his hands. He didn't care if Lin Yi believed him or not."I found something interesting after my research. You see, you only need to ask me, and I'll use my findings to help you. As an ally, can you ask for more?"

"As an ally, shouldn't you help me unconditionally?"

Lin Yi opened his mouth with much difficulty. He was under too much pressure, and he wasn't as relaxed as the man with the grey hat,"To be honest, I suspect that you have some unspeakable secret with the darkness magical beast."

"No need to doubt, just take it that I do. So what?"

The man with the grey hat laughed and stopped in his tracks. He stood in the middle of the overwhelming swarm of rats and bees. "I'll say it for the last time, beg me!"

Lin Yi gritted his teeth. The hole below was about to be completely repaired, and if he didn't go in now, he wouldn't have a chance to return to Cloud Break city. But facing the strange grey bamboo hat, Lin Yi wanted to know how he did it.

"Alright, since you're not willing to beg me, I'll leave!"

The man in the gray bamboo hat shrugged his shoulders, turned around, and slowly walked back. He continued, ""In fact, it's not a bad thing for us if you die at the hands of the darkness demon beast, so I won't stop you if you want to die. If you don't die, I hope we can meet again one day!"

"Stop!"

Lin Yi roared, and the thousand blade slash that was about to dissipate suddenly burst forth, forcing the surrounding dark beasts back a little. He then activated his lightning escape technique and instantly left his original position.

The gap in the array closed up almost at the same time. The defensive layer of the entire city protection array shone brightly, and its defensive power increased by nearly ten times in an instant. The precarious situation that was originally on the verge of collapse was immediately reversed.

Yun Duan city had many of Lin Yi's clones. As long as Xu Changxi and the others didn't lose their minds and kill all of Lin Yi's clones, the city protection formation would be able to last for a long time under the attacks of the dark Demon beasts.

"Do you have anything else to say?"

The man in the grey hat turned to Lin Yi.

"How did you make the darkness demon beast ignore you?"

Lin Yi didn't waste any time and stared at the man with a determined look, "Also, how do you want me to beg you?"

"You have so many questions!"

The man in the gray bamboo hat laughed and shook his head. The veil on the bamboo hat swayed slightly like water ripples. "I won't answer your previous question. You know what kind of ally we are. To be honest, I think it's good for you to die Here."

Lin Yi raised an eyebrow as he tightened his grip on the black bead.

The man in the grey hat was very strong, and Lin Yi didn't dare to be careless.

Without a trump card, Lin Yi wouldn't put himself in a dead end so easily. Although the man kept saying that he was an ally, it was just as he said-everyone knew what was going on with central and Lin Yi's Alliance.

If there was a chance to kill the other party, no one would show mercy!

The reason why the man in the grey hat did not add insult to injury was probably because he had other plans.

"If you die Here, I think it's pretty good too."

Lin Yi's lips curled into a mocking smile. "Everyone's quite busy. Let's stop talking nonsense and talk about the problem of asking for help!"

"Don't you know how to beg? If you're willing to kneel and lick my boots, I won't object. "

The man with the grey bamboo hat laughed and waved his hand. "Forget it, if you really knelt down and begged me, I'd even suspect that this is a fake Lin Yi!"

Lin Yi hmphed coldly and didn't say anything. The black bead in his hand was ready to be activated at any time.

On the other hand, Lin Yi's spirit sense had been searching for any abnormalities within this two-meter radius, but he couldn't find anything special no matter how hard he searched.

Why did the swarm of rats and bees avoid the gray bamboo hat? It was too strange!

"Alright, I'm not going to talk nonsense with you. I'll get straight to the point!"

The man with the gray bamboo hat straightened his back slightly, and his entire aura instantly changed. He was like a sharp sword that had been unsheathed, revealing its sharpness. "I can think of a way to deal with the darkness demon beast, but after it's done, you must surrender unconditionally!"

Killing Lin Yi had always been Central's wish, but a dead Lin Yi would bring them a lot of trouble. A alive Lin Yi who surrendered would bring them immeasurable benefits.

It was no wonder that the man with the grey hat did not make a move. He was trying to cast a long line to catch a big fish!

"Ha ... Why should I surrender unconditionally? The darkness magical beasts aren't targeting me alone, so what good would it do me if you get rid of them?"

Lin Yi said nonchalantly. He couldn't show any hesitation at a time like this, even if he was really tempted. "Are you going to say that the rat tide and the bees are actually under your control? if I don't surrender, you'll completely destroy the forsaken land?"

"No, I'm still far from controlling the rat tide and the bees. These low-level magical beasts are not worth mentioning! You said you wanted to destroy the entire abandoned land ... Now that you mentioned it, I'm quite interested. "

The man with the grey hat was obviously provoking Lin Yi on purpose, but seeing that Lin Yi didn't react, he didn't continue and changed the topic, ""Let's not talk about these useless things. Continue to think about it. Contact me if you need anything. "

Lin Yi knew that the man was about to leave, and he wanted to stop him and figure out how he was affecting the rats and bees.

But Lin Yi also knew that unless he used the black bead to kill it in one hit, there was no way he could win against the man in the grey hat.

Lin Yi couldn't kill the man before he figured out what he was capable of. He could only look on coldly as the man turned around.

"Since we're allies, I'll help you with a small favor this time. I'll lead the rat tide and the bees away, and you'll owe me a favor. How about it?"

The man didn't leave immediately after turning around, his back facing Lin Yi.

"No problem, I'll accept this favor! In the future, as long as it's something that I can do and doesn't go against my heart, I'll return the favor!"

Lin Yi didn't hesitate this time. Although the city protection formation of broken Cloud City was repaired, it had suffered a huge blow and damaged its Foundation. The consumption of spirit Jade was also relatively large, and he didn't know how long it could last.

On top of that, Lin Yi wanted to see what the man with the hat could do, and how he'd lure the swarm away. The price of a favor wasn't much!

"Alright, then it's settled!"

The man in the grey bamboo hat did not turn around. He laughed and walked away slowly.
