

Bodyguard 6741

Chapter 6741 Burning Bridges

The sun-swallowing rats wriggled in front of the grey hats like they were running into a stream of rocks, splitting up and going around on their own. Lin Yi didn't understand what was going on.

Lin Yi didn't have time to think about this problem anymore. As the grey bamboo hat left, the rat tide and bees seemed to have suddenly discovered Lin Yi as their target and started to attack him crazily!

Fortunately, Lin Yi's Qi was almost fully recovered as well, and he easily broke through the swarm of mice and bees. He concealed his aura and hid in a giant tree.

When Lin Yi was done and wanted to look for the man with the grey hat again, he had already lost track of him. There was nothing in the range of his spirit sense, too. It was clear that Central's hiding methods were quite powerful!

He might be able to use his spirit sense to create a spatial ripple to find the man, but he didn't plan on doing that. It would consume too much energy, and there was no point even if he could find the man.

If he really wanted to find it, it would be easier and more pleasant to use the walkie-talkie.

After a short while, the sun devouring rats on the outer perimeter suddenly stopped advancing towards broken Cloud City. A small portion of them began to stand up and look around before hesitantly changing directions.

Slowly, more and more sun swallowing rats joined the ranks to change directions. After the main force at the front was slightly confused for a while, they also followed and ran back.

The demonic corpse bees in the sky did not panic at all. Their unity was even better, because resonance required a terrifying level of cooperation, so not a single demonic corpse bee would leave the group without permission.

After the sun-devouring rats left, the corpse demon bees had no intention of staying any longer. They followed the rat tide and left broken Cloud City.

"What's going on? The darkness magical beasts have retreated?"

In broken Cloud City, Xu Changxi stared blankly at the clear sky. He jumped up the city wall in a flash and looked at the distant rat tide and bees. Only then did he believe that everything was real!

"They really retreated! The darkness demon beast has run away!"

"We've won!"

"We've defended! Everyone is alive!"

Cheers sounded from the city walls. Even though the city's protective array had been repaired at the last moment, everyone in broken Cloud City was still under a lot of pressure. The sudden retreat of the darkness magical beasts made them feel like it was unreal.

"Don't be careless! Continue to guard your post!"

Xu Changxi suppressed the surprise in his heart and issued an order to continue to be vigilant. He then turned to li baidai and whispered, "Master Li, I'll go out and check the whereabouts of the darkness demonic beasts. I'll leave the matters in the city to you for the time being."

"City Lord, don't worry. I will do my best to ensure the stability of broken Cloud City!"

Li baidai was secretly happy. He needed such a chance to take control of the new Defender array. "City Lord, those clones of lone wolf ..."

"Do as you see fit. First, you have to ensure the smooth operation of the defender array."

Xu Changxi continued to speak in a voice that only the two of them could hear, "Don't leave behind any future trouble!"

It was basically no different from making it clear. Li Baiwei smiled and nodded.

Li baidai had a misunderstanding with Xu Changxi before, and he didn't forget to bring Xu Changxi along even if he wanted to deal with Lin Yi.

Once the new city protection array was controlled by li baidai, Xu Changxi's position as the city Lord of broken Cloud City would probably be over. Poor Xu Changxi still didn't know that he had unintentionally offended li baidai, and he was still thinking about how to take revenge.

After the two finished their discussion, Xu Changxi left the city and chased after the bees. He didn't care about the retreating Dark Demon beasts, he just wanted to find Lin Yi!

All of Lin Yi's clones were in broken Cloud City, which meant that the main body was fine. Xu Changxi was very disappointed.

Xu Changxi would be very happy if Lin Yi died outside the city!

But since Lin Yi didn't die, Xu Changxi had to come to find him personally.

The new city protection formation was completed, and Lin Yi would have to control it when he returned, while Xu Changxi would be in a passive position.

Lin Yi was strong, but it was better for Xu Changxi to be outside the city than to have the protection of the formation.

Most importantly, Xu Changxi thought that Lin Yi was an arrow at the end of its flight. It was a miracle for him to last so long in the rat tide and bees. It would be unbelievable if he could still maintain his peak condition!

Lin Yi didn't know what Xu Changxi was planning. In fact, he was almost back to his peak condition. The spiritual Qi in the Jade space was pure and abundant, and the speed at which it was converted into Qi was quite fast. He might not be able to keep up with the consumption in battle, but in a stationary state, replenishing Qi was as easy as snapping his fingers.

Lin Yi guessed that the man in the hat was in that direction as he watched the rats and bees leave the city. He needed to think about whether he should go back to the city to get the Jade card and the map or follow the man in the hat and figure out what was the connection between central and the dark Demon beasts.

But Lin Yi got his answer very quickly. Xu Changxi chased the rat tide and the bees out of Cloud Break city, helping Lin Yi make a choice.

The man with the grey bamboo hat wasn't easy to find, but Xu Changxi was right in front of him. What was there to hesitate about?

"City Lord, where are you planning to go?"

Lin Yi revealed himself and smiled at Xu Changxi, "The darkness magical beasts have retreated. Does the city Lord want to track them down?"

Xu Changxi was willing to risk his life for broken Cloud City, and Lin Yi respected him. That was why he was willing to meet him.

If he knew that Xu Changxi wanted to deal with him, he wouldn't be so polite. He would've hidden in the dark and launched a sneak attack.

"Master lone wolf! It's good that you're fine!"

Xu Changxi was a little surprised, but he immediately showed a warm smile. "I came out to look for your tracks. For our broken Cloud City, master is willing to take risks alone. We are all very worried about master's safety!"

"Thanks to everyone's blessings, I was lucky enough to complete my mission."

Lin Yi waved his hand with a smile, not thinking too much about it. They'd all fought side by side, going through life and death together-there was a bond between them. "The rat tide and the bees have temporarily retreated. They shouldn't be coming back in a short time. City Lord, you can rest assured."

"It's all thanks to master lone wolf. Without you, broken Cloud City would be in danger!"

Xu Changxi smiled as he approached Lin Yi, "Right, let's talk about the thing that I mentioned earlier."

Lin Yi's eyebrows twitched a little, a playful look in his eyes.

The Jade and the map were the two things he cared about the most, and if Xu Changxi really wanted to talk, Lin Yi would welcome him.

Unfortunately, the moment Xu Changxi got close, the Jade space immediately sent out a warning!

This idiot actually harbored ill intentions and wanted to burn the bridge after crossing the river!

"How does the city Lord want to negotiate?"

Lin Yi smiled as if nothing had happened. The Qi in his body was already circulating rapidly, and his martial skill was ready to be used.

"This matter is of great importance, we must be careful!"

Xu Changxi lowered his voice and tried to attract Lin Yi's attention with his words. His feet were getting closer and closer, and he was already in Lin Yi's attack range!

Chapter 6742 Two Jade Boxes

"The city Lord is right, this place is not very suitable. Why don't we change to a safer and more secretive place ..."

Lin Yi squinted his eyes as he scanned Xu Changxi's every movement with his spirit sense, including the storage bag on his waist!

If he was right, the Jade card and the map fragment were most likely in Xu Changxi's storage bag. Lin Yi was thinking about how to get the storage bag.

In terms of strength, Lin Yi knew that he wasn't Xu Changxi's match in a head-on fight. He might have a chance if he ambushed him, but in a face-to-face fight like this, he'd be lucky if he could escape.

Snatching a storage bag was obviously much easier than killing Xu Changxi!

"There's no need. There's not many people here. We'll get closer and use our true energy to set up a sound-proof barrier!"

Xu Changxi was overjoyed and thought that he had succeeded. He smiled sincerely and said, "Come, I'll talk to you about this."

Before he finished, Xu Changxi raised his hand and his aura exploded. He locked onto Lin Yi with his martial skill.

Lin Yi gave a big smile. It wasn't easy for Xu Changxi to sneak attack someone who was prepared!

His physical body and true Qi produced the power of Thunder at the same time, triggering a waterfall of thunder and lightning to fall from the sky!

Lightning burial!

Lin Yi didn't stay idle either. After his body could generate lightning, his speed of using lightning skills increased dramatically. In order to deal with Xu Changxi, Lin Yi used his ultimate skill!

If he was up against earth formation Masters, he could easily take their lives with Thunder burial. Xu Changxi, on the other hand, might be a little difficult to deal with. However, Lin Yi's goal wasn't to kill Xu Changxi.

In addition to its powerful destructive power, Thunder-elemental martial skills also had a numbing effect. Ordinary Thunder arcs were useless against Xu Changxi, but Thunder burial was different!

What Lin Yi needed was for Xu Changxi to be caught off guard and stunned for a short while so that he could take the storage bag.

The dazzling waterfall of lightning completely enveloped Xu Changxi's body. Although he had very good defensive equipment, it still couldn't completely stop the attack of the lightning burial.

Xu Changxi was just about to activate his skill when Lin Yi's sudden attack interrupted him. He fell into a daze.

Why was it like this? He was clearly prepared to launch a sneak attack, so how did he end up being ambushed instead? Xu Changxi was sure that he had the upper hand, but Lin Yi's skills landed on his head before he did.

It was really a huge blow!

In fact, the paralysis effect of Thunder burial only lasted one-tenth of a second on Xu Changxi, which was less than the time he was in a daze, but it was enough for Lin Yi!

Lin Yi was like a fish in water under the light of the lightning burial. He took Xu Changxi's storage bag in an instant and turned into a lightning bolt.

Xu Changxi, as the city Lord of broken Cloud City, had many defensive items on him. Whether it was spiritual sense attacks or martial skills, they would all be greatly weakened.

Lin Yi wasn't strong enough to begin with, and he didn't even think about staying in this situation.

By the time Xu Changxi came back to his senses, he could only see a flash of lightning in the distance. Lin Yi was nowhere to be seen.

'F * ck ... This damn bastard!

Xu Changxi shook his head with a bitter smile. He wanted to give up, but he couldn't!

He couldn't figure out Lin Yi's strength-if Lin Yi could beat him, why didn't he just kill him? The lightning martial skill just now was indeed very powerful, but its power seemed to be still far from that of the sea splitting stage.

Before he could finish thinking, Xu Changxi's body had already chased after the disappearing lightning arc.

No matter what, Xu Changxi had to get Lin Yi back. His entire fortune was in his storage bag, not to mention that Lin Yi was related to the secret of the hidden killing formation!

Unfortunately, Xu Changxi wasn't Liu zhangong, and it wasn't easy to track Lin Yi. When he reappeared at the spot where the lightning disappeared, he couldn't feel Lin Yi's aura or trace anymore.

In fact, Lin Yi was in a giant tree not far from Xu Changxi. He didn't dare to underestimate the speed of a master in the shattered Sea realm, so he changed his Thunder escape technique to wood escape technique after he was a distance away.

In terms of speed, lightning escape was dozens of streets faster than wood escape, but in terms of hiding aura, the two were completely reversed. Xu Changxi wouldn't be able to find Lin Yi even if he was beaten to death.

Seeing Xu Changxi running around like a headless fly, Lin Yi smiled and ran away. After he got rid of Xu Changxi, he opened the storage bag.

So poor!

This was Lin Yi's evaluation of Xu Changxi. He was a master of the shattered Sea and the Lord of broken Cloud City, but he was really poor.

There wasn't much in the storage bag that Lin Yi was interested in. The spiritual jades and materials could only add a little to his storage at most. As for the pills, he didn't even want to throw them away.

The abandoned land was really tough. How did Xu Changxi cultivate to the sea split realm? Just by relying on this little amount of resources, how high must his talent be?

Lin Yi pouted and put the other stuff aside. The Jade card and the map fragment were the most important things. Luckily, Xu Changxi didn't let him down. He even exceeded his expectations with the two Jade boxes in the storage bag!

After opening the jade box, he received two Jade tokens-a heavenly jade pendant and a sun-opening jade pendant!

There were two more pieces of the map, but they weren't connected to the previous one. Lin Yi couldn't figure out the terrain from them.

He didn't come to Yun Duan city for nothing this time-he got more than he expected. He didn't know where Xu Changxi got the jade box, but it ended up in Lin Yi's hands.

With the Megrez Jade plate from last time, there were three stars out of the seven. Lin Yi suddenly felt that the chances of finding all the Jade plates and the map fragment were quite high, but the dark Demon beasts were expanding faster, and he had to act quickly!

In the next two days, Lin Yi moved around the area, going to different cities to look for new pieces of the map. However, to his disappointment and anger, a few cities were attacked by the dark Demon beasts, turning them into ghost territories!

The abandoned land was finished!

Lin Yi's heart went cold-he couldn't imagine how much the sun-devouring rat and corpse demon bees had grown after passing through a few cities!

The most important things were the Jade token and the map fragment. None of the cities that had been attacked had these two things. If he was not wrong, they had been swept away by the darkness demon beasts.

Because of that, Lin Yi's hopes of killing the dark Demon beasts with the help of the hidden killing formation were basically dashed unless he could get the Jade card and the map back from them.

Lin Yi didn't get anything in the past two days and returned to Yin Duan city immediately. The speed of the rat tide and bees was too fast, and although there was a level 9 city protection formation, he couldn't guarantee that Yin Duan city would be as stable as Mount Tai!

Chapter 6743 Enemies Are The Ones Who Understand You The Most

When the surrounding cities were completely destroyed, broken Cloud City and broken Yin city, which they had not been able to take down before, would definitely become the target of attack again!

Lin Yi couldn't care about broken Cloud City anymore. The hundreds of clones he left there were all killed. Whether Xu Changxi and Li baidai could control the level 9 city protection formation to resist the next swarm of rats and bees was up to them.

In the forest far away from Yin duancheng, Lin Yi watched the unprecedented rat swarm with his mouth dry. The bees were at least ten kilometers away from Yin duancheng, and they couldn't even see Yin duancheng with the naked eye.

Terrifying!

With Lin Yi's spirit sense, he could only roughly estimate that the number of mice and bees was in the tens of millions. In such a short time, the number of mice and bees had shown an explosive growth. At least 90% of the people in the abandoned land had died!

Lin Yi did some calculations and knew that he couldn't break through the rat tide and swarm into Yin Duan city!

If it was only the rat tide, Lin Yi could charge in quickly with his speed and methods, but the resonance of the corpse demon bees was his nemesis!

"Gray bamboo hat, where are you?"

Lin Yi thought about it and took out the communicator, calling the man with the grey hat with a cold face. "Hey! A grey bamboo hat! Make a squeak when you hear it!"

"It's rare for you to take the initiative to contact me. Should I really make a sound to express my joy?"

The man with the grey bamboo hat's mocking voice came out from the communication device. He sounded especially detestable. "What, do you want to beg me?"

"Cut the crap. The abandoned land has nothing to do with me. I don't care what it becomes."

Lin Yi hmped, putting on a cold front. "If you want me to beg you, then I have nothing to say to you. After I leave the abandoned land, the Alliance between central and I will be void!"

"Hahaha, it's not good for either of us if the Alliance is void. If you really decide like this, I don't care. I'm not the one in charge anyway."

The man with the grey bamboo hat laughed out loud for a few times before he stopped laughing and continued, "I don't have time to beat around the bush, just tell me what you want to do."

"You can control the rat tide and the bee colony?"

Lin Yi pondered for a while and decided to get straight to the point. Broken City wouldn't be able to last long against the rat tide and bees, "I'm near Yin duancheng. If you can control the rat tide and the bee colony, come here and meet me!"

"Tsk, tsk. You don't look like you're begging for help at all ... Forget it. I'll tell you the truth. I don't have the ability to control the rat tide and the bee colony."

Lin Yi's heart sank at the man's words. He'd clearly shown his ability to control the swarm of rats and bees outside broken Cloud City. Was he lying through his teeth?

Lin Yi's instinct told him that the man was telling the truth-the idiot really couldn't control the swarm!

"Aren't you happy to hear me say this? You feel relieved?"

The man laughed lightly, as if mocking Lin Yi."If I can really control the rat tide and the bee colony, wouldn't our central be invincible?"

Lin Yi blinked, his emotions complicated. The man hit the nail on the head.

If the center could really control the swarm of mice and bees, the Sky Class Island would never have a peaceful day. But in the current situation, not being able to control the swarm of mice and bees seemed to be a dead end!

Lin Yi had always had a question-why would the dark beasts disappear on Sky Class Island when the rats and bees had such strong reproductive abilities?

The thing couldn't answer this question-Lin Yi had asked it more than once these past two days, but it couldn't remember. It only remembered that the swarm had a weakness, but as for what it was ... It was still trying to figure it out.

What he was most afraid of now was that central had control over the weakness of the rat tide and the bees. With Central's ability to enter and leave the abandoned land as they pleased, if they really controlled the rat tide and the bees, the Sky Class Island would be doomed!

"You really can't control the rat tide and the bee colony?"

Lin Yi's mind raced as he subconsciously wanted to confirm,"Two days ago, outside broken Cloud City ..."

"I'm not afraid to tell you that it's not control!"

The man in the gray bamboo hat chuckled and didn't try to hide it. "I just found a little trick that can slightly guide the rat tide and bee swarm. How is it? honest enough, right?"

Lin Yi immediately understood!

Control was equivalent to having the ability to command, but guidance was completely different. It was like a river. Control could make it flow upstream, but guidance could only be used to dig a canal to split it.

"Not bad, you're honest enough!"

Lin Yi's lips curled up. He could've understood it if he thought about it a little more. If the man could control the rats and bees, the Sky Class Island would've been in chaos by now. The man was just being generous.

"Do you want me to help you out?"

The man with the grey hat's voice sounded from behind Lin Yi, forming a double voice message with the communicator.

Lin Yi turned around, his pupils contracting. His spirit sense didn't detect the man's presence, which was a rare situation.

Of course, if the man had any killing intent towards Lin Yi, the Jade space would alert him, and it wouldn't be that easy to sneak attack him!

"Since you're here, you must have the intention to help. Why must I beg you?"

Lin Yi smiled and pointed in the direction of Yin duancheng. "I'm all alone and have no relationship with anyone here. Do I need to beg you?"

"Hahaha, Lin Yi, don't you think I know what kind of person you are?"

The man in the grey hat laughed out loud, but Lin Yi still couldn't see through the veil. "You are indeed not related to the people here, but what if you are not from here? From what I know, you have friends in this city, right? You're not concerned about yourself, but if it concerns you, you'll die!"

No wonder people said that the person who understood you the most was your enemy. Lin Yi could only smile bitterly to himself. He really was that kind of person!

If broken Cloud City saw it, they would help. If they couldn't see it, there was no need to deliberately rescue it. However, broken Cloud City could not do that!

The man with the grey hat was clearly aware of this as well, so after a slight pause, he immediately changed the topic, "How about this, you promise me one thing, and I'll try my best to see if I can lure the rat tide and the bees away. How about it?"

The man with the grey hat obviously knew that there were people Lin Yi cared about in Broken City, and that was why he was asking for such an exorbitant price!

Otherwise, with the Alliance agreement, Lin Yi had the right to ask for help from central.

"What condition? tell me!"

Lin Yi didn't dwell on the details-the covenant was pretty, after all, and only a ghost would believe that it was real.

"I haven't thought about it yet. I'll think about it after we leave the abandoned land."

The man smiled faintly, as if he was certain that Lin Yi wouldn't go back on his word, "Don't worry, it won't go against your morals, and I'm not asking you to do something you can't do. "

Lin Yi's mind raced-he didn't know what the man in the grey bamboo hat was going to offer, but it didn't sound like it was unacceptable.

Chapter 6744 The Purpose Of Helping?

As far as Lin Yi was concerned, central was most concerned about giving the entrance to the wormhole to them. Han Jing Jing had studied wormholes for a long time, and there was a high chance she could open up a new one.

"I can agree to it ..."

Lin Yi nodded after some thought. "But if your conditions are too outrageous, I have the right to refuse!"

"No problem! We're all reasonable and trustworthy people! You believe me, I believe you!"

The man in the gray bamboo hat shrugged and stretched out two fingers. "Then you owe me a favor now, and I have one condition."

Lin Yi's mouth twitched, "wait! If just luring them away is not enough, do you have a way to exterminate the rat tide bees?"

Lin Yi suddenly thought of something-the man with the grey hat had found a way to lead them away so quickly, so could he have found a way to destroy them? If they could get rid of the rat tide and the bees in one fell swoop, the threat of the darkness magical beasts would be greatly reduced. "What if they come back after you lure them away? You can't expect me to agree to your conditions all the time, right?"

"It's good enough that you can lure him away. Don't ask for too much!"

The man with the grey bamboo hat snorted in dissatisfaction and pointed in the direction of Broken City. "By luring away the rat tide and the bee colony, the people in that city can still struggle on whilst at death's door. What else do you want?"

"I want to destroy these darkness magical beasts!"

Lin Yi's face turned serious, "You don't want to see the rat tide and the bees multiply without limit, do you? At the end of the day, central is still a human force. Are they going to sit back and watch as humanity is destroyed?"

"Do you think I would care about the life and death of humans?"

The man with the grey bamboo hat seemed to find it rather ridiculous, and his words were filled with ridicule."What does this have to do with our Center? You should know that our home ground isn't the Sky Class Island, but professor Li's ... Transit station! A straightforward person doesn't resort to insinuations, don't play around with useless things. "

"So you actually have a way?"

Lin Yi's sharp senses told him that the man didn't say no."If you have a way, then say it. If you want me to agree to your conditions, show me some sincerity."

The man in the grey hat was silent for a moment, as if he was considering Lin Yi's words.

"If you say you'll lead them away and then come back to besiege them, wouldn't that be a joke?"

Lin Yi struck while the iron was hot-this was the truth, not a Bluff.

"I'm not sure, but I do have some ideas. "

The man with the grey bamboo hat waved his hand and slowly said, ""I can guide the movement of the rat tide and the bees. If I set a trap in advance, there is indeed a chance to kill them."

Lin Yi's heart trembled-this was a feasible plan!

The only thing he needed to consider was what kind of traps could be set to kill such a huge swarm of rats and bees.

A city-protecting formation?

Release the mice and bees into the city and activate the defender array to kill them?

Lin Yi shook his head and gave up the thought. The formation was powerful, but it couldn't deal with the huge numbers of rats and bees. It was more effective against individual Masters.

Moreover, it was easy to lose control after luring a Wolf into the house!

"Based on my previous observations, your attainments in array Dao are not ordinary. Perhaps you can set up a powerful array to eliminate the rat tide and the bee swarm."

The man in the grey bamboo hat casually said.

Lin Yi frowned. It was possible to kill the rats and bees with formations, but the problem was that there were too many of them. The area of the formation had to be large enough.

Otherwise, only a small portion of the rats and bees would enter the formation. If the rest of them attacked and destroyed the formation, everything would be in vain.

"It's a little difficult ..."

Lin Yi shook his head and continued to plan. "But it's not like there's no chance. If there's a suitable terrain ... And a powerful enough destructive force, there's indeed a glimmer of hope."

"Then let's do this! For the sake of our friendship, I can provide you with a device to help you. "

The man with the grey hat chuckled. Friendship with Lin Yi? Even he found it funny to say this. "I've been studying it for the past two days, and I've assembled a device that can affect the minds of the rats and bees for a short time. I'll set it up near the entrance of your spell formation, and it'll definitely be very useful!"

Lin Yi's eyes brightened. The resonance of the demonic bees was his biggest problem. Even a level nine formation might not be able to completely suppress and kill the demonic bees. If he couldn't kill the swarm of rats as quickly as possible, the formation he set up would explode sooner or later.

If what the man with the gray bamboo hat said was true, then he had indeed helped a lot. It affected the consciousness of the rats and bees, which would inevitably reduce their strength. It was like facing an

enemy who was sober and an enemy who was unconscious, they were two completely different concepts.

"You're really willing to invest!"

Lin Yi looked at the man with the grey hat with a half-smile on his face. This man was taking the initiative just to get Lin Yi to agree to one condition? Or did he actually have other plans?

"I'm trying my best to help you. Don't you think you should thank me?"

"If you don't appreciate it, just pretend I didn't say anything," the man with the grey hat shrugged innocently.

"No matter what your purpose is, as long as you can kill the rat tide and the bee colony, I'll be sincerely grateful to you!"

Lin Yi waved his hand. It didn't matter what the man was thinking. "Give me the device you mentioned, I'll find a place to arrange it!"

"Take it! The program has been set up, you just need to press the start button. "

The man with the grey hat readily took out a rectangular metal cabinet from his storage bag. It was about the size of a single-door refrigerator, and there was a palm-sized LCD control screen on it.

"Remember, this thing has a limited battery. It can only work for two to three hours. It's up to you how you want to use it."

"Good! Lure the rat tide and the bees away first, and come to this position to find me three hours later!"

Lin Yi put away the metal cabinet and drew a few lines on the ground, forming a simple map. "There's a Canyon here, it's the only way to connect the two cities. You've been there before, right?"

He'd been running around tens of thousands of miles in the past two days, and he knew all the places and terrains. He'd asked this because he suspected that the man wasn't too far away from him.

How could it be so coincidental that he would appear the moment Lin Yi asked for him?

"I know! The terrain of the canyon is not bad, and it can be used to set up traps to limit the number of rats and bees that can enter. It's a good idea. "

The man with the gray bamboo hat didn't have any intention of hiding it. He directly nodded to show that he had been there. "Is three hours enough? I don't want you to have yet to finish setting up when I get there!"

"I said three hours, so three hours! You can start now!"

Lin Yi ordered with a wave of his hand.

To be honest, Lin Yi didn't think the man would come to help for no reason. Was there such a good person in central? He would not believe it even if he was beaten to death!

The man with the grey hat definitely had a motive. He said he was helping Lin Yi, but Lin Yi might be the one helping the man!

Chapter 6745 Don't Forget To Return The Favor

It was just that the situation was urgent, and even if he knew the man had an ulterior motive, Lin Yi still had to seek cooperation, even if he had to suffer a loss!

The man with the grey hat laughed and waved at Lin Yi casually. His figure flickered and he quickly disappeared.

A few minutes later, the sun-devouring rats in the outer area became restless again. Then, they slowly turned around and rushed in another direction!

The movements of these sun swallowing rats spread like ripples in water, and more and more sun swallowing rats were driven by them. Gradually, the corpse demon bees in the air also began to loosen up, and they began to circle around.

In an instant, the rats and bees were all gone, and Lin Yi didn't know what to feel when he saw this.

Broken City was temporarily out of trouble, but Central's mysterious ability made Lin Yi wary!

After a while, Lin Yi changed back to his Thunder Eagle appearance and rushed into Yin Duan city. He activated the thousand forest transformation and sent hundreds of clones into the city to collect formation flags and all the materials.

"Big brother Lei Ying!"

Wang shiqing let out a breath of relief on the wall, but when she saw Lin Yi enter the city, she was both happy and angry. She rushed over and pulled him back, "When did you run out? Leaving behind a clone to fool little Qing, our city was almost lost!"

"Little Qing, you've done well. The broken city is only impregnable because of you!"

Lin Yi smiled and rubbed his head. He had the clone to collect the materials, so he didn't have to worry. "I have something important to do. Continue to watch over Broken City. Once things are settled, we might be able to leave the abandoned land!"

"Really? That's great! I've wanted to leave this damn place for a long time!"

Wang shiqing cheered, not doubting Lin Yi's words at all, "Big brother Lei Ying, do you need Xiao Qing's help? I'm very powerful, I can definitely help big brother!"

"I'm the only one who can do that because Broken City still needs you to stay behind and guard it. "

Lin Yi rubbed Wang shiqing's head and smiled bitterly to himself. The girl in front of him was a two-faced little girl, and he couldn't help but treat her like a little kid ... She wouldn't hate him, would she?

"Alright! Whatever big brother says, Xiao Qing will be obedient. "

Wang shiqing pouted her little mouth, looking unhappy but obedient, as if she was really a little girl who didn't know the world.

Lin Yi pressed a hand to his forehead-it'd be great if the two-faced girl could become a normal, innocent girl ... He'd have less brain cells dying then.

As he spoke, his clones came back one after another, passing the items to Lin Yi and standing to the side automatically, forming a neat line.

"The rat tide and the bees might return. I've left a part of my clone in Broken City. If everything goes well, we'll meet again soon."

Lin Yi put away the materials and pointed at the clones."I just took a look. The city's defensive formation is slightly damaged, but it's not a big problem. My clone will repair it in a while. I'll leave the rest to you."

"Big brother Lei Ying, don't worry. With my love around, Broken City will definitely be fine!"

Wang shiqing's expression changed and she smiled brightly, as if she wanted to give Lin Yi some confidence, "Big brother, you should go and do something big. Xiao Qing is waiting for you to come back and take us out of the abandoned land."

"Then I'll be leaving first, see you later!"

Lin Yi nodded at Wang shiqing and waved at the two brothers, who hadn't said anything this whole time, before rushing out of the city.

In order to save time, Lin Yi activated the teleportation talisman outside the city and arrived at the destination in an instant.

The canyon of heavenly punishment!

It was said that the canyon didn't exist before. Once, a divine Thunder fell from the sky and split the mountains here, forming a narrow canyon Passage. That was why it was later named the canyon of retribution. There were many low-level spiritual herbs in it, and it was a mission area for ordinary mercenary groups.

Lin Yi had heard Wu Yuhua and the others mention this place before-the three mercenaries were still here at the time, but now they were separated.

But now wasn't the time to be sad. Lin Yi started setting up the formation as soon as he entered the canyon.

The canyon's entrance was only seven to eight meters wide, and the largest in the middle was no more than fifteen meters. Lin Yi was planning to turn the entire entrance into a formation, so he didn't have to worry about the rat hordes and bee groups attacking either side.

The entire Canyon was around 12 kilometers long, enough for Lin Yi to set up a trap and kill array. Once it was completed, it would be like a giant python waiting for the mice and bees to come to its door as snacks.

There were still two and a half hours to the time he agreed to meet with the man with the grey hat. If Lin Yi was alone, he wouldn't be able to complete it in time, but he had the thousand changes of wood forest and a few hundred helpers.

Under the unified command of that ghostly thing, ten level nine confinement arrays and killing arrays were set up in sequence at the same time. After they were completed, it was the next stage of ten arrays.

In order to prevent any humans or dark beasts from barging in before the formation was completed, Lin Yi even set up two simple illusion and confusion formations outside the canyon.

Two hours later, the entire Canyon was filled with level 9 arrays. The final task was to connect these level 9 arrays into a whole.

A combination formation!

"Still lacking by a little, what a pity!"

Although the demonic thing was sighing, there was still a hint of pride in his tone. This was the strongest killing formation he had ever set up!

With just a slight difference, he would be able to completely break through the shackles of a level nine formation technique!

Strictly speaking, this could be considered to have exceeded the scope of a level nine array technique. It was just that it had not completely reached the threshold of the next level. However, if it continued, this damned thing's array Dao would definitely have a qualitative leap.

"It's already very good. I wasn't confident at first, but after seeing this trap and kill array, I'm much more confident!"

Lin Yi said, relaxed.

With the help of the canyon's terrain and such a powerful trap and kill array, as long as the gray bamboo hat could successfully lure the rat tide and the swarm of bees into it, he could kill them smoothly!

In addition to the grey bamboo hat, which could affect one's intelligence and strength, the stacking effect would be greatly increased.

"I've already prepared the grey bamboo hat!"

Lin Yi took out his walkie-talkie, "if it's possible, lure all the rats and bees here!"

The reproductive ability of the sun-devouring rats and the corpse demon bees was too terrifying. It was best to kill them all at once, otherwise there would be future trouble.

"Hahaha, great minds think alike. I think so too. I don't know if it's all true or not, but a few rat tides and bees are coming one after another. You'd better pray that the formation can hold on."

The man with the grey hat seemed to be gloating. After a slight pause, he continued, "Lin Yi, if you can't handle it then run away. I don't want to work for nothing, at least you have to pay back the conditions and favor you owe me."

Chapter 6746 The Magical Metal Cabinet

Lin Yi's face darkened. The man didn't tell him this earlier, but now ... Was he trying to use the swarm of rats to kill him?

Just the number of rat swarms and bees outside the broken city was already terrifying, and the man with the grey hat actually said that there were a few more groups of them nearby. If the scale was similar ... Could the formations in the canyon of divine retribution really support them?

As much as Lin Yi wanted to take down all the rats and bees, if he really exceeded his limit ... He couldn't care about that now-he had to kill as many as he could!

After a while, Lin Yi's spirit sense detected the traces of the rat tide and the bee swarm. A black line stretched to its limit and rushed over like a tide.

Lin Yi let out a long breath and retreated into the center of the canyon, waiting for the dark beasts to charge in.

Victory or defeat depended on this one move!

The rats and bees were fast, but they weren't as fast as the man. Lin Yi had just stood still when the man appeared at the entrance of the canyon.

"Lin Yi, I'm here. You won't take this chance to kill me, will you?"

The man in the grey hat laughed mockingly as he faced the canyon.

"Ha ... You're thinking too much. Aren't we allies?"

Lin Yi's words made the man in the grey hat relax a lot. Facing the dark Demon beasts, the two of them were comrades in the same battle. Stabbing each other in the back wasn't Lin Yi's style.

"Hahaha, I saw that the atmosphere was tense, so I was just joking!"

The man laughed, brushing off his suspicions."Lin Yi, open the formation and let me in."

In order to lure the mice and bees into the canyon, the man in the grey hat had to enter first. Otherwise, the darkness creatures would probably climb over the cliff.

"Just come in. I won't attack you."

Lin Yi's tone was cold-he really couldn't do anything to the man before leaving the abandoned land. If he really did ask for anything when they got back to Mystic class, Lin Yi wouldn't mind blowing him up with a pill bomb!

The power in the center was getting more and more strange and unpredictable. Powerful experts appeared one by one, and they could kill one.

Especially the man with the bamboo hat. He seemed to be very friendly to Lin Yi, offering his help without hesitation after discussing the conditions, but Lin Yi still couldn't figure out what he was thinking. He felt like he was being tricked.

As Lin Yi's mind was spinning, the man had already put away his walkie-talkie and rushed into the canyon, reaching Lin Yi's vicinity.

The rat tide and the bees in the distance were also quickly approaching the canyon, and they would enter in a minute or two.

"Lin Yi, are you sure your formation is reliable?"

The man with the gray hat stopped in his tracks and turned to look in the direction he had come from. "If you can't, you'd better run for your life, or you'll die in this damn place."

"Thank you for your concern. If you're afraid, you can go over there and wait."

A smile appeared on Lin Yi's face as he pointed at the other exit. "I still have to control the formation. I don't have as much free time as you."

Although the trap & kill array could still unleash its full power without someone controlling it, the power was completely different when someone was controlling it. In order to kill as many rats and bees as possible, Lin Yi had to be in charge of it.

"We're allies, how can I let you face the darkness demon beast alone!"

The man with the grey bamboo hat patted his chest with a smile, putting on an attitude of being in the same boat and going through thick and thin together. He said, "Lin Yi, don't worry, I'll be here with you. Even if there's danger, I'll get you out!"

"How thoughtful! Many thanks!"

Lin Yi glanced at the man with a half-smile before cupping his hands and ignoring him.

At the same time, the darkness magical beasts 'Vanguard troops were already approaching the entrance of the valley. They didn't stop at all, and charged in like lightning!

The rats and bees that were scattered on both sides of the canyon quickly shrank and gathered at the entrance of the canyon. Looking down from the sky, it was as if the tide had encountered a strong suction and was swept in.

The metal cabinet not far from the entrance shook slightly, releasing some electronic waves. Lin Yi's spirit sense couldn't detect the traces of the electronic waves, but it did have a huge impact on the rats and bees.

All the darkness beasts that entered the canyon would shake a little when they passed by the electronic wave area, and then continue to move forward.

After that, the killing aura of the formation began to descend, easily tearing the sun devouring rat and the corpse demon bee into pieces.

Lin Yi's expression relaxed-the situation was much better than he'd expected!

In order to provide energy for this trap and kill array, which was almost beyond the scope of a level nine array, he had almost emptied all the spiritual jades in the Jade space. If he could not get rid of the rat tide and bee swarm before it was exhausted, this trap and kill array would lose its meaning.

Fortunately, the current situation was not bad.

"Tsk tsk, your attainments in array Dao are indeed profound. You actually set up such a powerful array. If you use it against me ..."

"I won't enter your formation again in the future. It's going to kill me!" The man with the grey bamboo hat exclaimed in admiration.

"Other people might be afraid, but you shouldn't be."

Lin Yi's eyes were filled with disdain, "I'm afraid you're confident that you can go against my formation. That's why you're standing by my side, right?"

"I dare to stand here because we're allies, companions. I trust your character, Lin Yi!"

The man in the grey hat shrugged and didn't admit it, even giving Lin Yi a boost.

Lin Yi's lips twitched. This was just a small test between the two, and it didn't mean much. He was still focused on killing the dark Demon beasts.

The monstrous thing's current pinnacle work, a trap & kill array that was almost beyond the scope of a Grade 9 array, was indeed extraordinary. In just a few short sentences, it had already killed tens of thousands of sun swallowing rats and corpse demon bees.

This was also because the mouth of the valley was narrow, and the number of rats and bees that could enter per unit time was limited. Otherwise, more would have died.

"Grey bamboo hat, your metal cabinet can only weaken the sun swallowing rats and the corpse demon bees?"

Lin Yi frowned and asked, "Other than that, does it have any other use?"

Lin Yi asked because his spirit sense told him that the cabinet was still as good as new, without a single drop of blood on it.

This was very abnormal. The rat tide and the bees quickly crumbled under the formation's killing intent, and small pieces of flesh and blood flew everywhere. A portion was devoured by the sun devouring rats that followed behind, and a portion flew on the ground of the mountain walls of the gorge of heavenly punishment.

There was basically no clean place where the rat tide and the bee colony passed.

The only exception was the metal cabinet. Lin Yi didn't notice it at first, but he realized that the flesh and blood disappeared as soon as they touched the cabinet. It was like a drop of water falling into sand, disappearing without a trace.

"Of course not. Other than the sun swallowing rat and the corpse demon bee, all the other magical beasts of darkness will also be affected, and their strength will be weakened."

"There are other dark creatures among the sun swallowing rats and the corpse demon bees that are acting as the commanders of the rat tide and the bees. However, they can only follow my lead!" The man in the grey hat seemed to be a little proud of himself.

Chapter 6747 It'll Expire In Three Hours

Lin Yi's heart shivered. He knew that there were other dark beasts in the rat tide and bees, and he'd even dealt with them before, but he didn't think that the man in the grey hat would know about it as well.

However, the man with the gray hat did not give a direct answer. The metal cabinet might really have other uses, but he did not want to say it!

Lin Yi smiled coldly as he looked at the man. Perhaps this was one of the main reasons!

Since that was the case, he had to find a way to keep the metal cabinet after this matter was over. He could not let the man in the gray bamboo hat take it away so easily.

After all, this was Lin Yi's territory. Even if the grey hat could resist the formation, its strength would be greatly reduced!

"This time, it's really thanks to the help of this thing of yours. Otherwise, the consumption of the array would have increased by a few levels!"

Lin Yi made up his mind and made up some small talk, "How long do you think it will take to finish them?"

"It's hard to say. At the current speed, I'm afraid it might not even take four to five hours."

The man in the gray bamboo hat shrugged. "But my metal cabinet can only last for three hours at most. The time will double. Can your magic array last that long?"

With that, Lin Yi knew that the man must have done some research on formations. His level might not be high, but he wasn't an idiot.

No matter how advanced an array was, it was impossible for it to run at full capacity continuously. For example, if the defender array kept running at full capacity, it would collapse on its own after a long time without the need for external attacks.

However, if it was activated normally, it would continue to be activated as long as there was enough energy.

Lin Yi's formation was at full capacity!

"Don't worry, my formation is much better than your machinery!"

Lin Yi raised his head proudly, a confident smile on his face. "I'm sure that the rat tide and the bees will be annihilated here!"

"Ha, that's great. I don't have to save you now!"

The man with the grey bamboo hat crossed his arms in front of his chest and didn't say anything else. He looked like he was watching a show.

Just like that, the two of them silently watched as the swarm of rats and bees swarmed into the canyon.

However, Lin Yi couldn't understand what the man did to make the swarm of bees do something like this.

After three hours, the metal cabinet stopped working without warning and was instantly covered in flesh and blood.

The momentum of the swarm of mice and bees instantly rose, and the destructive power of the formation at the front suddenly dropped by half, while the number of mice and bees that rushed in doubled.

"Retreat!"

Lin Yi's face was serious as he retreated first!

The man in the grey hat was not slow either, following Lin Yi like a shadow. As soon as they left the place, the whole Valley was flooded with rats and bees.

"Can the formation still hold?"

The man in the grey hat asked casually, his emotions not showing, "However, there isn't much left, only about 20% of the original amount."

"No problem!"

"Are you sure this is all of the rats and bees?" Lin Yi said indifferently.

Lin Yi's calmness was only for the man to see, but he was still nervous. If there were any fish that slipped through the net, it wouldn't take too long for the rats and bees to recover to their current size.

"I'm just helping. It's already good enough that I've attracted the nearby areas. Do you want me to search the entire abandoned land?"

The man said faintly. This made Lin Yi even more certain that the man had another purpose for cooperating with them.

Moreover, his goal should have been achieved, so he didn't care if there was anything left in the abandoned land.

"Lin Yi, you need to focus. Confidence is a good thing, but overconfidence will make you suffer!"

The man with the grey bamboo hat suddenly pointed at the surging tide of sun-swallowing rats on the other side of the canyon and said, "Didn't you notice that the sun-devouring rats in the front are all at the earth-splitting stage?"

Lin Yi was shocked. He was too focused on controlling the formation that he didn't pay attention.

After losing the effect of the metal cabinet, the rate at which the sun-swallowing rats were killed after entering the formation slowed down rapidly. At the same time, their devouring ability also increased greatly!

As a result, the sun-devouring rat's evolution speed suddenly had a tremendous change. Those who could rush to the front were basically at the earth-splitting level. Although they were still strangled to death by the attack of the formation in the end, the speed of the strangulation was already very slow!

In other words, Lin Yi's pressure and energy consumption increased again. This was a vicious cycle until it collapsed!

"Gray bamboo hat, I don't care if you did it on purpose or not, but I have to thank you for your reminder!"

"I'm fine. "Lin Yi nodded seriously," it might be dangerous today, but I won't stop you if you want to run!"

"Don't worry, you won't be able to stop me if I want to run away in times of danger!"

The man with the grey bamboo hat laughed heartily. He placed his hands behind his back and said arrogantly, "I'm just here to watch the show. You don't have to care about me!"

"Then you can continue to watch the show!"

Lin Yi nodded and raised his hand, a ball of fire burning in his palm.

Icy blaze!

The best way to stop the sun swallowing rat from eating the flesh of its dead companion was to burn it.

It was a pity that the icy blaze couldn't be merged with the formation-otherwise, the thing would've placed it inside already. Lin Yi was using it as a support weapon now, and it could very well affect the formation's operation.

There were side effects, but Lin Yi couldn't care less. If the formation really collapsed, then everything would be for nothing!

The cold and hot air spread quickly, and the ice-colored flame jumped happily among the rat tide and bees. The corpses of the sun devouring rat corpse demonic bees that were killed by the formation first turned into tiny ice beads, and then disappeared.

"Your flame is not bad, but it's not powerful enough. It can only burn corpses, and it's not very useful for living people."

The man with the grey bamboo hat commented as if he was really watching a show, "Aiya, look, the powerful darkness demon beast can't sit still anymore, it's ready to come out and cause trouble!"

Before he could finish his sentence, three humanoid darkness magical beasts rushed in from the entrance of the canyon!

Lin Yi didn't even need to look closely to know that it was his old rival, the shadowless demonic corpse beast!

"Retreat!"

Lin Yi said in a low voice as he turned into a lightning bolt and retreated. The man with the grey hat followed him to the exit of the canyon.

After the shadowless demonic corpse beast went berserk, the entire formation trembled slightly. If it was just a normal level nine formation, it would have been destroyed in one strike. Fortunately, the demonic thing had a breakthrough in its formation skills, which allowed it to continue.

Previously, with the effect of the metal cabinet, the shadowless undead beasts were also affected, so they were directly strangled to death without any warning. But now, it was not possible. Once they went berserk, it would have a fatal impact on the array.

Under the shadowless undead beast's command, the speed of the rat horde and the bees increased dramatically. The moment Lin Yi and Lin Yi stood still, the rat horde and the bees were already charging at them.

More than 99% of the canyon was filled with rats and bees, leaving only the last bit of space for the two to rest.

Chapter 6748 Must Detonate

Lin Yi's expression was serious as he looked at the blood and flesh in the Asura arena, but his spirit sense was still on the three shadowless demonic corpse beasts.

Under the protection of the corpsedemon bees 'resonance, the shadowless demonic corpsedemon rushed to the front without any injuries. Along the way, it even absorbed a large number of corpsedemon bees into its body, and its strength had actually evolved to the sea Rift stage.

"These three aren't easy to deal with, can you handle them, Lin Yi?"

The man in the grey hat crossed his arms and chuckled. "If you can't take it, just say it. I'll give you a hand since we're allies."

"It doesn't matter if I can't hold on, as long as you can!"

"We're allies," Lin Yi suddenly laughed shamelessly, "you should handle this kind of troublesome stuff. "

"I'm only responsible for guiding the rat tide and the bees. I don't care about anything else. "

The man in the gray bamboo hat shrugged his shoulders, as if he was here to watch a show. Then, he felt that something was wrong. "Wait ... You can't be ..."

"Ha ... You're right!"

A big smile appeared on Lin Yi's face. At the same time, the three shadowless undead beasts had already charged past the front of the rat tide and were heading straight for Lin Yi and Lin Yi.

The shadowless demonic undead beast's target was Lin Yi, and as the commander of the swarm, it could naturally tell who was controlling the formation. As long as Lin Yi was under control, everything would be solved.

But just as Lin Yi finished his sentence, the three shadowless undead beasts suddenly turned in the air and pounced at the man in the grey hat!

A trapping array!

The damn thing had set up a trap and kill array. The killing array was the main force before, but at the last moment, the trap array finally played its role and shifted the shadowless demonic corpse beast to the man in the grey hat!

"Lin Yi, you bastard! You actually tricked me!"

The man with the grey bamboo hat screamed in pain and hurriedly fought the shadowless demonic corpse beast!

Especially in the formation, the man with the grey bamboo hat could not escape even if he wanted to.

After all, the formation set up by that damned thing was already showing signs of surpassing a level nine formation. Even if the man with the grey hat knew some formation techniques, he could not be compared to that damned thing!

But Lin Yi wouldn't let the man get killed by the shadowless undead demon-he still needed the man to take him away, after all. Lin Yi used a trap formation to restrict the beast so that the man could take them down one by one.

"Don't tell me you didn't trick me. I won't believe you even if you tell me!"

Lin Yi said faintly. He did use some tricks to move shadowless demonic corpse beast to grey bamboo hat's side, but grey bamboo hat's calm and fearless look just now was suspicious.

Thinking back to the way the grey bamboo hat directed the rats and bees, Lin Yi was willing to bet that the shadowless demonic corpse beast would be affected to some extent. Even if it didn't make Lin Yi a target at first, it would still charge at him in the end!

Everyone was just showing off their skills, and Lin Yi won for sure!

The three shadowless demonic corpse beasts couldn't find the right direction in the formation, so Lin Yi split some of his attention to control the formation, making one of the shadowless demonic corpse beasts appear under the hat's attack all the time, and not face the hat directly.

In this way, the man with the gray bamboo hat was like playing with a target. It was easy and pleasant to deal with it. In just a dozen seconds, the shadowless devil corpse beast was covered in wounds.

If it wasn't for the large number of demonic corpse bees repairing the shadowless demon undead beast's body at the same time, it would have been killed by the man in the grey bamboo hat!

The man knew that he'd become Lin Yi's helper, but he had no choice but to grit his teeth and endure it.

In a situation like this, the man wouldn't cut corners and feign an attack-Lin Yi would've thrown the three shadowless demonic corpse beasts to him at any time, letting them gang up on him.

"Lin Yi, this thing isn't easy to kill, come and light a fire!"

The man with the grey hat was getting a headache from the shadowless demonic undead beast's tenacious vitality, so he decided to push the blame to Lin Yi,""Hurry up! Otherwise, I'll run out of true Qi and die!"

Lin Yi's mouth twitched-the man had to have a trump card if he dared to leave him in the formation. He said they were allies, but he was no less wary of Lin Yi than Lin Yi was of him.

The reason why the man with the grey hat did not leave was probably because he did not want to expose and waste his trump card. Even if his true Qi was exhausted, he could not stay and wait for death!

"Lin Yi, I'm really leaving if you don't help!"

The man with the grey bamboo hat attacked the shadowless devil corpse beast continuously, and he made two more noises.

"If you have the strength to talk nonsense with me, why don't you put in more effort to kill a shadowless demonic corpse beast first!"

Lin Yi said as he sent a few wisps of the icy blaze over to the shadowless demonic corpse beast, "We're in the same boat now, so it's the best choice to work together. "

"Bah! You're clearly trying to drag me down with you! There's no room for discussion about scamming an ally!"

The man with the grey bamboo hat cursed, but his hands were not careless. Taking advantage of the ice flame temporarily restricting the shadowless demonic corpse beast's movements, he burst out his true Qi with all his might and killed the injured shadowless demonic corpse beast in one blow!

"Well done! Continue!"

Lin Yi smiled and moved another shadowless demonic corpse beast over without waiting for the man to speak.

The man with the grey hat was extremely furious. Was he really being ordered around like a Coolie?

"Lin Yi! Just you wait! We'll slowly settle this score later!"

The man with the grey bamboo hat bellowed in rage. He silently grabbed a piece of the shadowless fiendish corpse beast's corpse and put it into his storage pouch.

Lin Yi's attention was on the mice and bees, so he didn't notice what the man was doing. Otherwise, he would've known that the man was just acting to collect the corpses of the beasts.

After a while, the rat tide and the bees were extremely close to Lin Yi and the other one. The closest sun-swallowing rat was only one step away, and its body was emitting a dark red light!

These sun-devouring rats, who had unreservedly ascended with the Qi of great circle of earth-splitting, were about to evolve and break through!

"Gray bamboo hat, let's get out of the formation's range!"

Lin Yi called out expressionlessly, the formation flag in his hand emitting a faint red light. "All the rats and bees have entered the canyon, but the formation seems to have lost its effect. I'm going to detonate the formation for the final attack!"

"Wait, my metal cabinet is still over there. It's very important and can't be lost!"

The man in the grey hat had just killed the last shadowless demonic undead beast, and he raised his hand to stop Lin Yi. "There aren't many rats and bees left. You don't have to detonate the formation, do you?"

"Take a look for yourself, what's the state of the sun devouring rats in the gorge of heavenly punishment?"

Lin Yi hmped coldly, but his mind was on the metal cabinet."That metal cabinet is out of power. I'll assemble a new one for you. I'm sure we can't get it back now."

"Assemble your head! Do you think you can just assemble it? I must take it back!"

The man in the grey hat was determined. He observed the situation in the canyon and exclaimed,""They're all earth formation stage sun-swallowing rats?!"

Chapter 6749 Kill Them All

The man with the grey hat had been busy dealing with the shadowless undead demon, so he didn't pay attention to the rat tide and the bee colony. He only realized that something was wrong now.

There were at least hundreds of thousands of sun-devouring rats in the entire Gorge, and none of them were below the earth formation stage!

Unknowingly, the rat tide with uneven strength had turned into a super Army of earth-opening stage sun-swallowing rats.

In the past, these sun swallowing rats would divide and reproduce, but now, none of them had split. On the contrary, they were still increasing their strength.

It was probably because of the formation that these sun swallowing rats didn't have time to split up and their genes mutated.

No matter what species it was, such a situation would occur in a dangerous place.

"It's too late! If we wait any longer, the sun-devouring rat will definitely evolve!"

Lin Yi shook his head. Even with the man's strength, he couldn't get through the rat tide to get the metal cabinet!

Moreover, there were still the corpse demon bees in the air. Although the size of the bees had been reduced by dozens of times, the remaining corpse demon bees were still the best among the bees!

Other than that, Lin Yi had his doubts about the cabinet's true purpose, and he didn't want to take the hat back. It would be best to destroy them all while the formation was destroyed!

"Give me a few seconds!"

The man with the grey hat waved his hand and took out a palm-sized metal controller. He quickly pressed a few buttons on it.

At the same time, the metal cabinet at the other end of the canyon shot up from the thick layer of flesh and blood. Two wings extended from the rectangular cabinet on both sides, and flames spewed out from the bottom as it tried to fly away from the dangerous place.

"The gray bamboo hat. Didn't the metal cabinet run out of power?"

Lin Yi's tone was unfriendly as he looked at the man with the grey hat. "It's amazing that something without electricity can still fly!"

The man with the grey hat's hand stiffened, but he immediately laughed, "It's out of power, but the flying device doesn't use electricity. What's so strange about that? Don't you agree?"

I'll say your sister!

Did they really think he was a native of a Sky Class Island?

Lin Yi smiled coldly and didn't say anything. He just looked at the gray bamboo hat, but the metal cabinet on the other end couldn't move an inch!

If a peak level-nine trap & kill array could not kill those rats and bees, would it not be able to trap a small metal cabinet?

"Lin Yi, stop it! Time is of the essence ..."

The man with the grey hat was extremely anxious. If he could not retrieve the metal cabinet, wouldn't his efforts be in vain?

"I'm ready to detonate the formation. Do you want to leave?"

Lin Yi waved the glowing formation flag at the bamboo hat as he made a gesture of leaving the formation.

He just wanted to see how important the metal cabinet was to the gray bamboo hat gang or the center!

"Lin Yi, you still owe me a favor, I want it back now!"

The man with the grey hat paused for a second before throwing out his trump card, "This favor is very simple. I just want to take back my things. Are you trying to renege on your debt?"

Lin Yi narrowed his eyes at the man-this idiot had clearly planned this all along, even taking this into account.

"Alright!"

Lin Yi nodded and relaxed his control of the formation, allowing the cabinet to fly back to him. "I've already cleared the debt I owe you!"

Even if he knew that there was something wrong with the metal cabinet, Lin Yi had no choice but to return the hat. Breaking his promise wasn't something he could do!

"Now that the favor is cleared, you still have to fulfill one of my conditions!"

The man with the gray hat raised his hand and put away the rapidly flying mechanical cabinet. He said with a smile, ""You don't have to be so calculative. Without my help, could you have annihilated them?"

"Don't talk nonsense, hurry up and leave!"

Lin Yi looked at the man with the grey hat indifferently before leaving the canyon. "If you want to stay here and live or die with the rat tide and the bees, I don't care!"

The man laughed and appeared beside Lin Yi in a flash. If he'd been any slower, Lin Yi might've taken the chance to kill him.

After exiting the formation, Lin Yi threw the formation flag into the canyon without hesitation, detonating the formation.

This was the plan Lin Yi and the damn thing had planned from the start-they wouldn't use it unless they had no other choice, and now was the last resort!

The entire Canyon of heavenly punishment shone brightly after the array flag landed. From a distance, it looked as if the mountain range had been split open by the light.

The countless spirit jades that were used as the energy source of the formation shattered into dust at the same time, and a huge amount of spirit Qi exploded together with the formation!

Raging flames soared to the sky!

It was like a new sun had risen in the canyon of heavenly punishment!

Lin Yi couldn't help but close his eyes from afar. The loud sound waves came rolling over like thunder, and the powerful aftershock instantly destroyed the surrounding forest, turning the surrounding hundred miles into a desert!

"Tsk, tsk, tsk, its power is really incomparably strong!"

The man in the grey hat praised.

Lin Yi, on the other hand, didn't feel happy at all.

"Why are you unhappy?"

The man in the grey bamboo hat consoled Lin Yi, "You're worried that there's someone else who's escaped? Even if there are, there won't be too many of them, and they won't be able to cause any big waves in the abandoned land. "

Lin Yi's mouth twitched. He knew what the grey hat meant-over 90% of the humans in the abandoned land were dead, and the sun swallowing rats and demonic bees didn't have much left to breed.

Although it didn't have much to do with Lin Yi, it was still sad to think about it as a human practitioner.

Lin Yi used his spirit sense to scan the canyon-there was only a huge crater there, and even the mountains on both sides were gone. The mice and bees that entered the formation had no chance of escaping.

"I'm going to a place where there might still be sun devouring rats and corpse demon bees! You're coming too?"

Lin Yi was thinking about the abandoned land's formation node!

If there weren't any sun swallowing rats or corpse demon bees, then Lin Yi was pretty sure that the Horde of rats and bees he'd attracted here were all that was left in the abandoned land!

"No problem, we're allies!"

Lin Yi didn't know what the guy was thinking, but he didn't think that the bastard was apologizing for what happened.

Perhaps there were some hidden plans in it?

But for the sake of dealing with the dark Demon beast, Lin Yi decided to pretend that he didn't know ... And it seemed like he didn't have to pretend-he really didn't know!

The two weren't slow, and the canyon wasn't too far from the node. Ten minutes later, Lin Yi and the man in the hat arrived at the node.

"You mean this place? I've been here before!"

The man with the grey bamboo hat casually turned his head and looked around, then said indifferently, "They were also lured to their deaths by me. Are you relieved now?"

"En, if there's none here, there shouldn't be any other places."

Lin Yi was shocked. He didn't think that the man with the grey hat was this powerful. He came here in such a short time.

Chapter 6750 I Have Money

"Since there isn't, let's go!"

The man with the grey hat saw that Lin Yi wasn't moving and asked, "You still have something to do?"

Lin Yi nodded and ignored the hat, starting to set up the formation. There were no dark beasts here, but it wasn't safe to expose the nodes outside. Plus, the dark beasts in the abandoned land weren't all dead.

The man didn't say anything, watching Lin Yi set up the formation with interest. Lin Yi wasn't worried that the man would learn it from him.

After a while, the node was hidden by Lin Yi. If they wanted to enter, they would have to break through level nine stealth formations, illusionary formations, trap formations, and killing formations. Lin Yi didn't think that the dark Demon beast could break through them so easily.

"I didn't think you'd be so good at formations. I don't think anyone on the entire Sky Class Island is better than you!"

The man in the grey hat watched as Lin Yi finished the final arrangement before clapping lightly.

"You're too kind. The Sky Class Island is so vast, and there are countless people stronger than me in the Dao of formations. You just didn't see it,"

Lin Yi's face was calm-this thing's formation skills were powerful, but there were always people better than him,"Gray bamboo hat, it seems like you've studied formations quite well. You're an expert!"

A normal formation master would only find Lin Yi's formation to be amazing, but anyone who could understand a little of it would be considered a great formation master.

"How is he an expert? he only knows a little bit! I hope that you will not be stingy with your teachings in the future!"

The man with the grey bamboo hat laughed and cupped his hands. He then changed the topic, "I'm done with my business in the abandoned land, and I'm going back to the mystic division. Do you want to come with me?"

"Of course, but I still have a few friends. Can we leave together?"

Lin Yi blinked. He didn't expect the man to be in such a rush, but it made sense.

Perhaps the man with the gray bamboo hat had come to the abandoned land with the purpose of using the metal cabinet to achieve a certain purpose!

The man took advantage of Lin Yi's eagerness to get rid of the rats and bees, turning cooperation into help. He made Lin Yi owe him a favor and agree to an unknown condition.

However, this idiot would never have thought that when the metal cabinet was trapped in the trap array, a weak current had swept through it!

The technological products of the secular world were awesome, but no matter how awesome they were, they couldn't withstand a large area of electrical leakage, just like the electronic products that the Hong Chamber of Commerce had given him ...

Of course, if the hat really did protect him from lightning, then he'd just accept it. He didn't lose anything anyway.

"We can 't!"

The man with the grey bamboo hat refused immediately, "I can only take you away. You can decide for yourself whether you want to leave or not!"

Only one? Lin Yi hesitated.

The Yun brothers were one thing, but the problem was Wang shiqing, the two-faced little loli. Her brother was left in the illusionary fog space, so he couldn't leave her in the abandoned land, right?

Not to mention, he'd made a promise to the Black-bellied little loli that he'd send her home for sure-he couldn't just leave the abandoned land like that!

Lin Yi may be a cold person, but he would do what he promised!

"I've decided to stay!"

Lin Yi made his decision after a moment of silence.

"Since you've already decided, I have nothing else to say!"

This decision was a little out of the man with the grey hat's expectations. He nodded and suddenly changed the topic. "Then I'll bring one more!"

Ah? He's bringing one more? Brother with the grey bamboo hat, can't you be a little more reasonable? Wasn't this way of speaking too casual?

Lin Yi had just made a painful decision when the man with the grey hat turned the tables on him. He couldn't react in time.

"Can't I even bring one more? Then you should stay!"

Lin Yi's silence pissed the man off a little-he thought Lin Yi was pushing his luck. Who else could he be convinced of? "Actually, it's not a bad thing for us that you're trapped in the abandoned land!"

Without Lin Yi's interference, Central's business would be much more convenient, but the agreement would need to be re-signed soon. Without Lin Yi, Central's connection with the secular world would be cut off. It was hard to say which was more important.

"Alright! Just one more!"

"We're going back to Yin duancheng now," Lin Yi said.

As long as he could bring Wang shiqing out, he'd just leave the two idiots of the Yun family in the abandoned land. Whether they died or not had nothing to do with Lin Yi.

"Let's go! Don't waste time!"

The man with the grey bamboo hat snorted and took out a teleportation talisman. "Come here, this is a formation talisman that can teleport multiple people!"

"Yo, you still have good stuff. You're pretty wild!"

Lin Yi joked, but he was on alert. It seemed that the mystic division was developing very quickly-one teleportation talisman was enough to tell.

Up until now, Lin Yi had only seen this type of teleportation talisman in Wang shiqing's hands. Not even the two Yun brothers had one!

Apart from the Wang family, anyone or power that could get their hands on a teleportation talisman like this was no ordinary person in the mystic division sea!

The man ignored Lin Yi and activated the teleportation talisman.

A ball of light enveloped the two of them and they quickly disappeared. At the same time, the light of a teleportation talisman lit up outside Broken City.

"It's really convenient and accurate! Old grey, do you still have any stock? Give me a few!"

Lin Yi looked at the gate and clicked his tongue in admiration. He even hooked his finger at the man with the grey hat.

The man with the gray bamboo hat stiffened. If it wasn't for the bamboo hat, one could probably see the black lines on his head.

Old grey?

"You can just call me the grey bamboo hat! Get used to it. "

The man with the grey bamboo hat suppressed the anger in his heart and said coldly, "I do have a transfer talisman, what do you want to exchange for it?"

"Name a price, I have plenty of money. Look at the cards I have here, there are a few billion in them!"

Lin Yi took out a few bank cards from the common world and waved them at the man.

The man almost wanted to kill Lin Yi-you're using a bank card from the common world to buy stuff on Sky Class Island?

Do you think I have to bring a credit card machine with me to swipe your card?

"Get lost!"

The man with the grey hat gritted his teeth and walked into Yin Duan city, not bothering with Lin Yi.

"An ally! We're allies! Do you have to be so heartless?"

Lin Yi's lips twitched as a cold light flashed in his eyes!

The man with the grey hat wasn't cold like this before-it seemed like he'd completed his purpose of using Lin Yi, so he'd returned to his original appearance.

He didn't know the man's true identity, but Lin Yi was sure that he was a loyal follower of central!

If he had the chance, he had to think of a way to get rid of gray bamboo hat. He was scheming and powerful. He would definitely be a strong enemy in the future!

As they spoke, the two reached the gate of Broken City, and the guards opened the gate as soon as they saw Lin Yi.
