

Bodyguard 6891

Chapter 6891 Discovered

With Huang Yuntian personally leading the team and a few sea split stage experts, it was impossible for the students of the Feiyang college to not be divided.

"I'm at ease when you do things. It seems that I've really found a good helper!"

Huang Yuntian nodded with a smile and praised, ""When you return to the mystic class sea, you have to assist me well so that I can have an easier time,"

"President, you're too kind! This subordinate will do everything in my power and is willing to serve the president!"

Zhuang Yifan cupped his fists and bowed. He was very excited. If he followed Huang Yuntian closely in the future, he might even have the chance to go to the earth-class Sea area in the future, let alone the mystic-class Sea area!

"I wonder how Lin Yi's doing right now, did he find anything?"

Huang Yuntian's tone suddenly changed, and his face revealed a faint worry, ""Do you think Lin Yi will be able to find hidden death sect's tracks before we reach Yunyan Lake?"

"You definitely can! Lil bro Lin is a magical person, he always brings people surprises, and this time will be no exception!"

Zhuang Yifan had full confidence in Lin Yi, so he wasn't worried at all. "Don't worry, Guild Master. Once we reach the great foggy Marsh, we will definitely be able to annihilate hidden death sect!"

As long as hidden death sect was exterminated, the great foggy Marsh would be as stable as Mount Tai!

Lin Yi didn't know much about the Great Swamp's Secret realm yet, but he had a basic understanding of the creatures here.

At this moment, Lin Yi was facing dozens of giant ice cloud crocodiles. These guys were all ten to twenty meters long and had thick skin. They wouldn't get hurt easily.

When Lin Yi passed by the swamp, more than ten cloud ice crocodiles suddenly emerged from the ground and surrounded him!

Its huge mouth opened and closed, spewing out a large amount of icy mist, which actually formed a simple ice cage!

"Everyone, I'm just passing by. Can we discuss this? let me come and leave quietly, and you can pretend you've never seen me?"

Lin Yi talked nonsense as he kept looking for a way to leave while discussing with the ice crocodile.

It wasn't that Lin Yi couldn't kill these cloud ice crocodiles, but it wasn't necessary. If the commotion alerted hidden death sect, it wouldn't be worth it.

It was a pity that the ice cloud crocodiles weren't spirit beasts or Dark Demon beasts. They didn't have much intelligence, so they couldn't communicate with Lin Yi. They just acted on their instincts, and Lin Yi was their prey.

As soon as Lin Yi finished speaking, two more crocodiles suddenly charged at him from the left and right. Their speed was shocking!

Judging from the attack power, this attack was not inferior to an expert of the great circle of the Yuanying stage.

With the ice cage, Lin Yi estimated that even an early stage mysterious Ascension master wouldn't be able to block the attacks of these two crocodiles.

"I didn't want to kill you, but you're asking for it. Don't blame me!"

Lin Yi let out a long sigh. It was impossible for him to leave without making a sound, because breaking the cage made of cold air would definitely cause a commotion!

Since that was the case, he might as well get rid of these cloud hidden ice crocodiles and open a path for the students.

The icy blaze appeared on Lin Yi's fist silently. Lin Yi didn't even need to use any martial arts to deal with these crocodiles. He only used simple punches and kicks that landed heavily on the heads of the two crocodiles.

The cloud hidden ice crocodile's huge body trembled violently in the air and was quickly covered in ice. If this was all, it would only be good for the cloud hidden ice crocodile. After all, the cloud hidden ice crocodile had the word "ice" in its name.

However, the flames that ignited in the ice layer easily burned the huge cloud hidden ice crocodile to ashes.

The rest of the Hidden Cloud ice crocodiles roared in unison and attacked together without fear of death!

"Let's fight! What are you guys shouting about?!"

Lin Yi mumbled as he killed another crocodile with his icy blaze.

Fortunately, he had anticipated such a situation, so before he decided to make a move, he had already set up a simple sound-proof barrier in advance. At least it did not attract the attention of the outside world.

Unfortunately, Lin Yi didn't know that there were two hidden sentries from hidden death sect patrolling the area. They didn't hear the roar of the cloud hidden ice crocodile, but they noticed the unusual situation.

"Someone has entered the great Smoky clouds Lake! There seems to be only one. "

"There are actually people taking risks in this damn place?"

The two hidden sentries from hidden death sect discussed in low voices as they approached. They were prepared to observe the situation first before killing this unlucky fellow.

No matter what identity this person had, why he had entered the Great Swamp, whether it was intentional or not, it did not matter!

The important thing was that the great Smoky clouds Lake was now hidden death sect's territory. Any outsider who entered would die!

"To be able to fight against the Hidden Cloud ice crocodile and still have the upper hand is definitely not an ordinary character. Even if the two of us join hands, we might not be a match for it. To play it safe, why don't we seek help?"

As the two of them approached, they could vaguely see the situation inside through the cage formed by the cold air. One of them suggested hesitantly.

As a patrol guard of hidden death sect, he was naturally not weak. However, it was not an easy task to deal with these cloud hidden ice crocodiles.

"Don't worry, he's alone and has been surrounded by the cloud hidden ice crocodiles. Do you think he can come out unscathed? I'm afraid that after a fierce battle, it'll be good enough if you can still stand. "

The other person waved his hand, indicating for the other party to calm down. "If the people inside can survive in the mouth of the Hidden Cloud ice crocodile, it's not a bad thing for us! When the time comes, we'll attack together, and it'll be easier to capture him alive for a confession. "

Sending out the alarm to get reinforcements was no big deal, but if they were only dealing with a person covered in injuries, then they would be considered as neglecting their duties and being incompetent.

On the contrary, capturing the invading enemy alive was a Meritorious Service, so the previous killer nodded and agreed after a short hesitation.

And so, the two hid nearby, waiting for Lin Yi to come out of the cold cage.

They estimated that Lin Yi would need at least an incense's time to defeat the cloud crocodiles.

However, just as they hid, the cage formed by the cold air let out a crisp cracking sound and then exploded, turning into frost and crystal fragments that scattered all over the sky.

Lin Yi walked out slowly with a bitter smile on his face. He didn't expect this to happen after the battle. What a miscalculation!

Lin Yi's spirit sense was blocked by the cold Qi when he was inside, but now that the cage was broken, it naturally swept out at once.

The two assassins from hidden death sect were good at hiding, but they couldn't compare to the assassin who attacked Lin Yi time and time again. Lin Yi's spiritual sense could detect them.

"You've really attracted people ... I say, you two come out. You think I can't see you hiding in the grass?"

Lin Yi stopped walking and turned to look at the tall grass a few dozen meters away. "Come out! Don't even think about running away, you can't outrun me!"

Chapter 6892 If You Don't Say, Go Accompany

The hearts of the two people in the grass trembled!

This was not what they had expected! They'd thought that Lin Yi would be injured and they'd be able to take advantage of him, but Lin Yi came out completely fine and even found out where they were hiding with one look!

This person was powerful! Not a match!

Run!

The two assassins from hidden death sect were connected in their minds. They did not need to say any unnecessary words or even look at each other. They turned around and flew back almost at the same time!

Moreover, they were running to the left and right respectively, which would increase their chances of escaping.

"Ha ... I told you all that you can't outrun me, but you just don't believe me!"

Lin Yi's lips curled up as he turned into a lightning arc and appeared behind one of the assassins. He casually swung his hand at the back of the Assassin's neck, and the man fell to the ground.

In the next instant, Lin Yi appeared behind another assassin and knocked him down again. It was really easy and enjoyable!

Before the assassin fell to the ground, Lin Yi grabbed him by the collar and carried him to the other one.

"You then. Who asked you to be so ugly? you even came out to scare people!"

Lin Yi looked left and right-the killer didn't look very pleasing to the eye, especially that pair of triangular eyes and that mournful brows. He gave the guy a couple of slaps back and forth, only stopping when he woke up."Tell me, where are your people gathering?"

"Pfft, pfft, pfft ... Who are you? Do you know who we are?"

The triangle-eyed killer opened his eyes and spat out a mouthful of blood mixed with a few teeth. His eyes flickered."Brat, if you let go of the two men now, you might still have a chance to live! Otherwise, you'll be cut into a thousand pieces at the end of the world!"

"Ha ... You scared me! Hidden death sect is so awe-inspiring, even a small fry can be so impressive!"

Lin Yi smiled sarcastically before his eyes turned cold. "Don't talk nonsense! Answer whatever I ask, or I don't mind letting you have a taste of what it means to be better off dead than alive!"

Lin Yi didn't have a shred of pity for the people from hidden death sect. If soul searching wasn't too troublesome, he wouldn't even bother to waste his breath.

"You know we're from hidden death sect? How is that possible?"

Triangle eyes "pupils suddenly contracted, obviously extremely shocked."Who are you?"

It had only been two days since hidden death sect had gathered in the great Smoky clouds Lake. Someone had actually come to find them? This matter was terrifying just thinking about it. Could there be a mole in hidden death sect?

This question flashed through triangular-eyes 'mind, and he didn't have the chance to continue thinking about it.

Lin Yi grabbed triangle eyes by the collar and gave him another five or six slaps. This time, all of his teeth fell out.

"I said, I'm the one asking you questions now, not you. One more word of nonsense and you'll die immediately!"

Lin Yi twisted his wrist and pushed triangle-eyes to the ground before stomping on his chest, looking down at him. "Look carefully, you still have a companion by your side, so you are not the one that we can not lack!"

The meaning of his words was, "if you talk too much, you can die. If you don't cooperate, you can also die!"

"Do it, I'm not a man who is afraid of death! I don't care who you are, if you dare to touch a man, don't even think about leaving this Great Lake alive!"

The triangular-eyed man's face was ferocious, but his tone was extremely tough. He put on a look of unyielding loyalty, but the flickering light in his eyes betrayed the uneasiness in his heart.

"Since you're so gutsy, then go to hell!"

Lin Yi's eyes were cold as he reached out his hand, easily pulling triangle eyes "weak spirit out." "If your companion is the same, then you'll be lucky enough to have a taste of Soul searching."

Triangle eyes "spirit was just an illusory shadow, and his face was a bit blurry, but after hearing Lin Yi's words, the fear was clearly expressed.

Unfortunately, Lin Yi wouldn't give him the chance to speak anymore. It was too late for him to regret.

"It's your turn, wake up!"

Lin Yi retracted his spirit and kicked the other killer awake.

This idiot looked a lot more decent than triangle-eyed, with a square face and a righteous chivalrous look. Who would have thought that he was a killer who killed without blinking?

"Tell me, what is your identity in hidden death sect? How many people had hidden death sect gathered this time? Where was the location? How's his strength?"

Lin Yi and the other killers opened their eyes and threatened, "Don't talk nonsense with me and don't ask me questions. Otherwise, you'll end up like your companion's corpse."

The square-faced man had just regained his senses when he saw his companion's body with Lin Yi's reminder. Even the assassin, who had been through mountains of corpses and seas of blood, couldn't help but feel a chill in his heart when he saw the miserable state of his companion's death.

"I'm just a Scout of hidden death sect. There are many things I don't know. "

The square-faced man didn't dare to hesitate and immediately answered, ""This operation has gathered most of the elites in the sect, but we usually don't command each other, so I don't know the exact number. Currently, there are about 250 to 260 people gathered."

The guy was probably intimidated by his friend's dead body, and was very cooperative. Lin Yi was surprised, but he also wondered if the guy was lying.

It was a pity that triangle eyes didn't cooperate, otherwise they could verify it with each other. Fortunately, what Lin Yi really needed to know was the gathering place of hidden death sect. As for the rest, he could go and confirm it himself.

"The place we're gathering at is not far from here. About a hundred miles or so deeper into the Great Swamp, there's a swamp area. In the center, there's a piece of solid land. Our people are all gathering there."

The square-faced guy didn't wait for Lin Yi to ask and started explaining the situation, "I don't know exactly how many experts there are. I only know that there are about three Heavenly Tribulation assassins at the sea splitting stage, 12 or 13 earth splitting stage, and I don't know the rest ..."

Lin Yi rubbed his chin-the man seemed to be telling the truth. The information wasn't complete, but it was enough.

"You better not be lying, or you won't even have the chance to regret it!"

Lin Yi warned the man, but his face wasn't fierce enough to scare him.

"I wouldn't dare, I'm definitely not lying! Every word I said is true! If I'm lying, I'm willing to suffer a thousand cuts. "

The square-faced guy quickly swore, hoping that Lin Yi would believe him.

In fact, he really didn't need to hide it. It was just a meeting point! What's the big deal?

He and triangle eyes weren't Lin Yi's match, but there were other Masters in hidden death sect! As long as Lin Yi dared to go to the meeting point, he could be killed at any time.

Chapter 6893 Old Man Beiming

So, essentially speaking, the square-faced guy didn't think that he was selling information to Lin Yi-he was setting a trap for Lin Yi, making him walk into it!

"Ha ... You speak as if it's true. In that case, I'll believe you for now!"

"Anything else you want to add?" Lin Yi narrowed his eyes.

"No, I'm just a nobody. It's already good enough that I know so much!"

The square-faced man felt lucky and thought that he had managed to get away with it. "See, I already said it ... Can I walk now?"

"I can! Since there's nothing else to say, I'll send you on your way and continue to accompany your companions!"

Lin Yi raised his arm and used the hand again.

"Why? I've already told you everything ..."

The square-faced man blinked and let out a shrill cry, but Lin Yi had already captured his spirit before he could finish.

"I never said that I would let you go and then inform your people. If you're prepared, then the students from the yellow region will be in danger. "

Lin Yi opened his palm and looked at the ball of spirit floating in his palm. "You should be satisfied that I didn't use a soul-searching technique on you. Of course, if I verify that your words are false, you can just wait for me to search your soul!"

The square-faced guy was so angry that he wanted to vomit blood, but his trapped soul didn't have the ability to do so. All he wanted was for Lin Yi to go to the gathering point alone and be beaten to death by the people of hidden death sect!

Wait a minute!

The square-faced guy thought back to what Lin Yi said-what did he mean by golden class students? A student had entered the great foggy Marsh?

Could it be that Lin Yi didn't come to Yunyan Lake alone?

But ... Who was this ruthless young man? It was so embarrassing to be killed without even knowing who did it ...

Lin Yi was heading towards hidden death sect's assembly point in Yunyan Lake. The rest of the troops were split into six groups according to Zhuang Yifan's arrangement, occupying different positions. They were approaching Yunyan Lake.

On an aerial spirit beast, Chang laiting looked at the clouds and smoke in the distance. He whispered to an old man beside him, ""Grand Master, if there's a chance during this trip to Yunyan Lake, can you help your grand-disciple kill that Lin Yi bastard?"

The old man that Chang laiting had addressed as Grandmaster had a Haggard face, deep eye sockets, and a thin beard on his chin. He did not seem to have the demeanor of an expert.

But this unremarkable old man was one of the most famous people in the Golden class sea a few decades ago. Before the name of pill God Zhang Liju resounded on the Sky Class Island, he was definitely the best Alchemist master!

Later on, old man beiming went into seclusion, spending all his time researching the Dao of alchemy. Gradually, he became a legendary figure, and in the eyes of the outside world, he might have died in some remote corner.

No one knew that Chang laiting's mother, zang Zili, was actually old man beiming's disciple. It was because of this relationship that the mother and son had been able to wake up from their vegetative state.

"Don't worry, my good grand-disciple, I've come with you this time not only to protect you from passing the test, but also to deal with that junior. Anyone who dares to make a move on this old man's disciple and grand-disciple will have to suffer the wrath of this old man!"

Old man beiming laughed coldly and his old eyes flashed with a sharp light. "The environment of the Great Lake of clouds is very good for ambushing. As long as we can find that kid's position, Grandmaster will guarantee that he won't even know how he died."

"Thank you, Grandmaster. It's still Grandmaster who loves me! In the future, this grand-disciple will wholeheartedly pay respects to Grandmaster!"

Chang laiting was overjoyed, and he hurriedly tried his best to flatter old man beiming. "With Grandmaster's help, that Lin Yi bastard won't be able to escape from our hands. I'll torture him when the time comes!"

"There will be an opportunity. When Grand Master captures that junior, he will teach you a few interrogation techniques."

Old man beiming laughed sinisterly. He was willing to disguise himself as an attendant of changlai ting and join the group not just to help him take revenge, but for another reason.

In theory, the students who participated in the selection were not allowed to bring along guards and followers. In order to come here together, old man beiming had spent a lot of money to bribe the recruitment team of ding City Academy to secretly follow them.

Old man beiming put in so much effort for Lin Yi, and because they had the same goal, he didn't mind acting like he was avenging Chang laiting and his son.

"My good Grand disciple, are you sure that Lin Yi is already a Mystic second level or above refiner?"

Old man beiming pretended to ask casually. As an experienced Alchemist, it was normal for him to be interested in this."He doesn't look old, but his alchemy talent is so strong. It's rare."

"Grandmaster, I don't know what kind of dog shit luck that Lin Yi has to have that kind of alchemy skills. In your eyes, Mystic second level is nothing. They're just trash. "

Chang laiting's face was full of smiles as he continued to flatter old man beiming."Grand-disciple is not blessed, if I had been able to listen to grand-master's teachings from a young age, I would definitely be an alchemy Grandmaster by now!"

Whether he could become a Grandmaster Alchemist was still unknown, but with Chang laiting's shamelessness, he could definitely be considered a Grandmaster!

"Your talent in alchemy is indeed not bad, but you're not a good teacher and have delayed your progress! If that girl had sent you to this old master's side when you were young, perhaps I could've raised you into a young Mystic Alchemist. "

Old man beiming stroked his thin beard with his right thumb and index finger. His face was filled with pride and regret.

If Lin Yi was here, he'd say that the old man didn't pass down his pill Dao well, but shamelessness was a great example!

"If you're interested in the future, Grandmaster can teach you alchemy again. Unfortunately, you've already passed the best time to learn, and your improvement speed is destined to be slow!"

Old man beiming shook his head and then changed the topic, "That Lin Yi kid, he's so skilled at refining at such a young age-he must've been taught by a great teacher since he was young. We'll have to question him when we catch him later!"

This was old man beiming's true goal, Lin Yi's pill Dao inheritance!

When old man beiming had retired, he'd done so to study alchemy. Unfortunately, he'd spent decades behind closed doors, and his alchemy skills hadn't improved much. Although he'd had some results, they weren't enough to satisfy him.

He didn't think that coming out of the mountains to save his disciples and Grand-disciples would make him interested after hearing about the young master.

The art of alchemy had been incomplete since the ancient times. Later on, it was divided into different schools. Old man beiming was a master in this field, so he naturally knew this.

Chapter 6894 Nobody Moves

And so, old man beiming really wanted Lin Yi's pill Dao heritage-he wanted to compare it with what he'd learned, and perhaps make a breakthrough in his pill Dao.

He'd lived for so long, and the only thing he pursued was alchemy. This time, he'd used the excuse of avenging his disciple and grand-disciple to steal Lin Yi's alchemy inheritance!

On the flying spirit beast, Chang laiting and old man beiming were both thinking about how to capture Lin Yi and torture him. The Lin Yi they were thinking about, on the other hand, had already arrived at the swamp area that the square-faced man had mentioned.

Along the way, Lin Yi came across another group of two hidden sentries-he didn't hold back and took them out without making a sound. It was a pity that Jiang He and the others weren't here-he could've gotten some points otherwise.

Lin Yi hid at the edge of the swamp and released his spirit sense to check, but there was an obstruction. He couldn't enter the swamp smoothly.

Just as he was about to continue, a few figures flew over from the distance and rushed into the swamp without stopping, disappearing from Lin Yi's range.

It seemed like they were hidden death sect's assassins who had rushed over to gather. This also confirmed the square-faced man's words that this was indeed the gathering point of hidden death sect.

The goal was basically achieved, and it was about time. Lin Yi felt that he should inform Huang Yuntian and the others to come and encircle hidden death sect.

The only thing he needed to worry about was whether the elites of hidden death sect had all gathered here. If there were still fish that escaped the net, there was a possibility that they might rise again in the future.

Should he wait a little longer, or should he take action now? Just as Lin Yi was thinking, the Jade space suddenly sent out a strong warning-someone's attacking!

Lin Yi's body reacted instinctively without even thinking. He activated the three appearances of Cloud Dragon, leaving a shadow on the spot and disappearing!

Dozens of hair-thin black needles pierced through Lin Yi's shadow and into the ground without a trace.

Lin Yi's back was covered in cold sweat. If it wasn't for the Jade space, he wouldn't have known about the sneak attack until he was hit.

As for his body's defense, Lin Yi didn't dare to have too much hope. An opponent that could avoid his detection and attack without being discovered was definitely not something a mountain split stage body could withstand.

Lin Yi's figure had just reappeared a few meters away when a bunch of needles followed closely behind. It was just an illusion, but the opponent's ability to grasp the timing was definitely extremely brilliant.

The scariest thing was that Lin Yi still couldn't find the Assassin's position. After two attacks, the assassin didn't even show a trace of himself.

Lin Yi's third image appeared in the direction the black needle came from, but this time it came from another direction. It was obvious that the opponent's movement technique was also extremely high.

"Lin Yi? I didn't expect you to come to the great Smoky clouds Lake. There's a way to heaven, but you refuse to take it. There's no Door to Hell, but you barged in!"

A sinister laugh sounded from all directions. The person didn't mind that his attack had missed three times, but he recognized Lin Yi from the appearance of Yun Long San, "Although I'm curious how you found us, it doesn't matter. As long as you're dead, it doesn't matter."

"Hiding your head and tail, do you dare to come out and fight fair and square?"

Lin Yi revealed himself and looked around indifferently. "Since you know who I am, don't you have the guts to face me directly?"

As he spoke, Lin Yi had already borrowed the demonic thing's consciousness and activated his spatial scales to search for the enemy.

This person was able to avoid his divine sense detection. Perhaps he was like the assassins who had died before, able to hide in a different space.

If that was the case, using the spatial scale might have an immediate effect.

"Lin Yi, now that you've found this place, you should know who we are, right? Since you know, then you should understand that direct confrontation is only for those low-level punks to play with. What we're best at is to get rid of you before you even see us. "

The voice wasn't in a rush to attack again, and started chatting with Lin Yi, "Are you still trying to find me? It's no use, I can tell you very responsibly that you will never find me!"

"Is that so? I really don't know where your confidence comes from, but I guess your strength isn't that great, so I can only invest. "

Lin Yi smiled sarcastically as he increased the intensity of his search.

The reason why he wanted to chat with the other party was to lure the other party to talk more and give himself away.

The assassin in the dark wasn't so free as to chat with Lin Yi-his three-hit combo didn't affect Lin Yi at all, and so he became more cautious.

As far as he was concerned, talking could distract Lin Yi, and as soon as Lin Yi showed an opening, he'd launch a lightning-fast attack.

Both of them had their own plans. They both wanted to use the opportunity to lure the other to speak to expose their flaws, but both of them were very cautious.

Lin Yi looked calm on the surface, but he was actually frowning. The assassins of hidden death sect were indeed strange. What was it this time?

Continuing to delay was not a solution. The gathering point of hidden death sect was in the center of the swamp. The other party most likely had the means to inform the others. There might be a large group of assassins rushing over now.

To be honest, Lin Yi didn't really believe what Ding Yi said. Hidden death sect gathered all of them to deal with him. Such a large scale operation must have some other purpose. Perhaps they were just taking care of Lin Yi in passing.

No matter what, Lin Yi coming to their door now was the best thing for hidden death sect. Once they were surrounded by a large group of assassins, they might not be able to escape even with the teleportation talismans.

"A person who hides his head and shows his tail can never show his face in public. Since you don't dare to fight me face to face, I can't be bothered to argue with you. Next time, send someone stronger. A weakling like you is no threat to me."

Lin Yi taunted the assassin on purpose as he moved away from the swamp, "That's all for today. If you're not satisfied, then quickly make your move."

Perhaps the spatial scales would be able to track the Assassin's movements, but if the assassin was able to hold back, Lin Yi might as well leave the Yunyan Lake. Huang Yuntian and the rest of the Army should be here soon.

When the main force arrived, they would surround and annihilate hidden death sect!

But Lin Yi was a little worried now-if all the assassins from hidden death sect had the same stealth ability, then the students participating in the selection would be in danger.

"Since you're already here, you still want to leave? Lin Yi, don't be too naïve, just give up and I'll let you die a quick death!"

The dark voice was still vague, and the source could not be found. "Don't think that I can't do anything to you just because you're fast. To tell you the truth, the great Smoky clouds Lake will be your burial ground today!"

Chapter 6895 Dying Without A Burial Ground

"Ha ... The Feng Shui here is not bad. Unfortunately, I can only leave it to you!"

Lin Yi moved quickly-as long as he could draw out the assassin, he could kill him with all the talismans he had!

"Everyone knows how to talk big. Today, I'll see if you die or I live!"

The killer didn't want to give in either. He seemed to be ready to attack.

"There's no need to look, you'll definitely die! I'm alive!"

Lin Yi's heart was on full alert as he extended his merged spirit sense into the ground.

However, the soil here was special, and the swamp was chaotic. Lin Yi's spirit sense couldn't detect it.

But it was Lin Yi and the damn thing working together, after all. In terms of strength alone, no one in the entire golden class Sea area could compare.

It was as expected! There was something strange underground!

Lin Yi's eyes lit up, but he didn't move.

If he was not wrong, this assassin had actually mastered the earth escape technique!

He'd been hiding underground the whole time, so how could Lin Yi find him?

"Why aren't you making a move? If you don't make a move, I'll really leave! Didn't we agree to fight to the death?"

Lin Yi continued to talk nonsense, but his feet didn't stop moving at all.

The previous three attacks were all from behind Lin Yi. Lin Yi wasn't sure if the opponent had to be out of the earth escape state to attack, or if they were just attacking to confuse him.

It would be more effective if he attacked from under Lin Yi's feet!

In fact, when Lin Yi sensed that the opponent might be using an earth escape technique, he hoped that the opponent would attack from under his feet so that his spirit sense could easily lock onto the opponent.

"If I say you can't leave the great Smoky clouds Lake, then you can't leave the great Smoky clouds Lake!"

The eerie voice sounded again, but this time it was clearly focused on Lin Yi's back, as if the person was going to attack him from behind.

If Lin Yi didn't notice the abnormality underground, he might have turned around to attack!

However, he didn't do that. Instead, he turned into a lightning bolt and shot into the sky. He instantly appeared hundreds of meters high in the air!

The thick clouds completely covered Lin Yi's body. Even divine senses couldn't penetrate the special clouds in the Great Swamp, let alone the naked eye. The assassins were stunned.

They'd just said that Lin Yi wouldn't be able to get out of Yunyan Lake, but he'd just disappeared without a trace-what was the point of this?

He thought that Lin Yi was just trying to escape, but he didn't expect to become Lin Yi's target.

Lin Yi's eyes were cold as he hovered in mid-air, his spirit sense covering the ground below through the small cloud tunnel that the lightning arc had passed through. He suddenly circulated his Qi, and countless lightning arcs appeared on his body.

Under this influence, the water vapor in the clouds also began to produce electricity through friction, instantly creating new lightning arcs, and the entire area directly turned into a terrifying thundercloud.

Lightning burial!

Lin Yi's spirit sense locked onto a weird spot underground and activated his strongest lightning element skill, lightning burial!

A waterfall of lightning poured down from the sky. It was just a casual attack from Lin Yi, far from his strongest state, but it was more than enough to deal with an assassin who didn't dare to fight him face to face.

The killer hiding underground would not even have the time to think about dodging before he was blasted out!

The violent lightning waterfall fell to the ground, and countless lightning arcs scattered and scattered. The area within a radius of several hundred meters was filled with lightning, and even more lightning arcs went deep underground, completely surrounding the abnormality.

With his spirit sense, Lin Yi clearly saw a figure appear from the ground, twitching from the lightning. He'd been forced out of the earth escape technique.

Without the earth escape skill, it was like being buried alive underground ... There were also countless lightning bolts waiting for him, and Lin Yi couldn't help but mourn for this idiot for three minutes ...

Lin Yi spread his ghost speed wings and hovered in the air, continuing to use his divine sense to monitor the assassins underground.

With such violent shockwaves and sounds, the assassins from hidden death sect would definitely rush out to investigate. That was why Lin Yi hid in the clouds, which was relatively safe.

Lin Yi thought that the assassin would die underground after being hit by lightning burial, but he didn't expect the assassin to be able to struggle out of the soil after escaping from the earth escape technique.

"You're quite tough, but I said you die and I live. If you don't die, Won't You Be letting me down?"

Lin Yi laughed out loud in the air as he flapped his ghost-speed wings and dove down, "Continue to receive my attacks!"

Thunder burial's numbing effect hadn't worn off yet, and the assassin was in a sorry state. Lin Yi had to take advantage of the situation to kill him. A Dragon-shaped killing intent was already at him before Lin Yi even arrived.

Once hidden death sect's backup appeared in the swamp, it would be difficult to kill the assassins on the ground. He had to take advantage of this moment and kill them in one strike!

If they let this assassin who knew how to burrow through the earth off, who knew how many students he would kill in the great Smoky clouds Lake!

Even Lin Yi himself would be in danger. After all, he couldn't keep merging with the thing's consciousness and keep monitoring the situation underground.

"Lin Yi! You're dead for sure today!"

The Assassin's entire body was burnt black, and his face was covered in black ash. His hair stood up as if it had exploded. He raised his head and saw Lin Yi's attack, and dodged to the side in anger.

After avoiding the Dragon-shaped killing intent of five elements with great difficulty, the killer even started to curse arrogantly, ""You want to kill me with this little trick? You'd better wash your neck and wait for your death!"

"You really won't die if you don't brag. You're on the verge of death and you can still lie with your eyes open!"

Lin Yi laughed coldly. The Dragon-shaped five elements killing intent turned around and continued to attack the assassin from behind. That agile posture was no different from a real Dragon.

This time, the assassin from hidden death sect, whose body had not fully recovered from the numbness, could no longer Dodge. A look of disbelief and shock appeared on his charred face. His pupils rapidly contracted as he saw the five-colored Dragon-shaped killing intent of the five elements emerge from his back.

Instant kill!

The arrogant assassin from hidden death sect could not say another word. His entire body fell apart, turning into a rain of blood that fell to the ground. He had indeed died without a burial place!

Lin Yi appeared outside the blood rain like a ghost. He reached out and grabbed a storage bag with his pure Qi, easily pulling it into his palm.

Lin Yi opened the storage bag with familiarity and scanned inside with his spirit sense. He was disappointed, "There's actually nothing?!"

The only thing that caught Lin Yi's attention was the Assassin's earth escape technique. He already had the Thunder escape technique and the wood escape technique, but he couldn't have too many martial arts techniques that couldn't be copied.

Chapter 6896 Black Snake Lake

Unfortunately, the Assassin's storage bag didn't have any earth escape technique manuals. There were only some normal elixirs, spiritual jades, and so on. They were quite a lot on the outside, but Lin Yi didn't care about them at all.

"If I had known, I would have used the soul snatching hand to restrain his primordial spirit. I've really miscalculated this time!"

Lin Yi shook his head with a bitter smile. The Dragon's five elements killing intent was very powerful. The attack just now destroyed the opponent's body and Yuan Shen when the opponent couldn't defend.

Lin Yi couldn't even get a confession out of her now, and he had no one to blame.

"Forget it. A cultivation technique like the earth escape technique depends on fate. I'll talk about it when I have the chance in the future!"

Lin Yi mumbled as he put the loot away, his ghost speed wings flapping as he left.

He did not turn back to meet up with Huang Yuntian and the others. Instead, he entered the swamp quietly and was prepared to investigate the assembly point of hidden death sect.

The shockwaves from the battle earlier could alert the people of hidden death sect. At the same time, it was a signal for Huang Yuntian and the rest to move forward.

Lin Yi estimated that the rest of the troops should have entered the Great Swamp by now. They'd guess that Lin Yi was the one fighting as soon as they saw lightning burial.

Lin Yi had only left for two to three minutes when a dozen figures appeared from the swamp's direction. They stopped at the spot where the battle had taken place.

"There were people fighting here just now. One of them should be one of our people!"

The leader of the masked assassins carefully observed the traces on the ground. There was a large rain of blood and the charred remains of Thunder burial. "The other party is a lightning element expert ... There seem to be traces of other elements 'true Qi, but it's not as obvious as the lightning element!"

This person's entire face was wrapped in a black cloth, only revealing a pair of slender Phoenix eyes. A cold light flickered, and although he was filled with killing intent, he was still extremely calm.

"Split into groups of two and search thirty li in all directions. Report back as soon as possible no matter what you find!"

Her Red Phoenix eyes quickly gave out her orders. It was obvious that she had a high status in hidden death sect. "The two of you, go back and report the situation here immediately, and then report my way of dealing with it. This is an urgent matter, and we can't afford to make any mistakes!"

"Yes!"

The two named killers cupped their fists and bowed in unison, then quickly turned around and disappeared into the smoke above the swamp.

"All of you should also set off immediately. Remember the rules. If you discover anything, one of you should report back while the other person should keep an eye on the target!"

The killer with the Phoenix eyes glanced around coldly, with a domineering aura of a superior, "It doesn't matter if you all die, but don't delay my important matter!"

"Yes, sir!"

The rest of the people bowed and cupped their fists. Then, without any nonsense, they formed groups of two with the people beside them and flew off in all directions. In the end, only one person was left without a partner, waiting for the Phoenix-eyed man's instructions.

"Keep a distance of a thousand feet from me and head towards the assembly point in a fan-shaped formation. Search for traces!"

Dan Feng immediately gave a calm order.

In fact, Lin Yi was indeed in the area that the Phoenix Eye was searching for!

He'd brushed past the assassins earlier, but thanks to the smoke and Lin Yi's ability to hide his presence, he hadn't been discovered.

Lin Yi was almost at the center of the swamp. The outer area of the swamp was like hell to normal people, but it was a smooth path for him.

However, the closer he got to the center, the thicker the smoke became, and even the range of his divine sense became narrower. The distance that could be seen with the naked eye was three to five steps, and the distance that his divine sense could reach was at most twenty steps.

Lin Yi was a little troubled-why did hidden death sect choose this place to gather? Was it for the sake of secrecy?

If Ding Yi didn't show up, Lin Yi wouldn't have been able to get any information about hidden death sect. They could've just chosen any place, why did they have to come all the way to Yunyan Lake?

There must be something strange!

Not only was hidden death sect's actions strange, even Ding Yi was very strange!

Lin Yi decided to be more careful of Ding Yi in the future-he wasn't a simple man!

As he was thinking, Lin Yi's spirit suddenly stopped, as if it encountered an invisible barrier and couldn't move forward.

The obstacle was just twenty meters in front of Lin Yi, and it didn't look like a spirit sense shielding formation. Lin Yi was curious.

His body flickered slightly, and he crossed twenty meters in an instant. What appeared in front of Lin Yi was an almost transparent circular light film-he wouldn't have noticed it if he didn't touch it.

A defensive barrier?

Lin Yi reached out a finger and touched the light-he couldn't see the entire thing, but it seemed to be a big cover, covering the entire area.

The transparent light didn't seem to be formed by a formation-it might be some precious item, or some Super master's technique. Lin Yi couldn't figure it out after studying it for a long time.

All of a sudden, the transparent light film shone brightly, especially the spot Lin Yi touched. It was like a miniature sun!

I'm finished! His hand was numb.

Lin Yi's heart shivered as he spread his ghost speed wings and left the spot!

There was an 80% chance that the light membrane had an automatic alert function and was about to launch some kind of attack.

In an instant, Lin Yi had moved a few hundred meters along the edge of the light, but the bright spot was still following him like a shadow, keeping up with him.

To hell with it! This was a tracking light film? What the hell was that?

(Damn thing: none of my business!)

Lin Yi cursed in his heart and could only retreat quickly. He didn't dare to continue flying around the light membrane, or he would definitely attract the attack of the hidden death sect Masters.

However, Lin Yi didn't get far before something even more shocking happened. The swamp below was like still water, but as the light shone, the swamp started boiling like boiling water!

Lin Yi quickly used his ghost speed wings and flew up!

However, something completely unexpected happened. As the mud bubbles exploded one by one, a dark light shot into the sky like an arrow, shooting towards Lin Yi.

It was like Lin Yi was a magnet, attracting all the iron pieces around him!

This was too F * cking deceptive, right?

Lin Yi didn't expect hidden death sect to have such a powerful move. He quickly used wild fire Eight Trigram palm, and the strong fire Qi swept in all directions, temporarily blocking the impact of the dark light.

It was only then that Lin Yi realized that the black light wasn't light at all, but black snakes as thick as a thumb!

Although the raging fire Eight Trigram palm killed a dozen snakes, there were still thousands of them. Lin Yi couldn't kill all of them!

Lin Yi was suspicious-was this still great Yunyan? Could it be that he had come to the wrong place and entered the black serpent Lake?

Lin Yi didn't dare to fight with these black snakes, so he flapped his ghost speed wings and flew higher.

Chapter 6897 You Are Lin Yi!

Unfortunately, even though Lin Yi was tall, the black snakes were even taller!

The black snakes arched their bodies like lightning, using each other's momentum to shoot themselves towards Lin Yi in the air!

Even the speed of the ghost speed wings couldn't completely shake off the black snakes chasing after them, and with the black snakes coming from all directions, Lin Yi felt like his head was about to explode.

He wasn't afraid of the black snakes-he didn't need much time to kill them, but what he lacked the most right now was time!

The people from hidden death sect were probably alerted by the light membrane, and those Masters might already be on their way. Lin Yi didn't want to face so many of them head on.

Even if he wanted to fight, he had to find a place where he could display his full strength, and not stay in this strange swamp!

Lin Yi was fighting the endless black snakes while trying to get out of the swamp. At this time, a figure appeared from the smoke and attacked Lin Yi in the air!

This person was the Phoenix-eyed killer from before. He had immediately rushed over after seeing the light membrane's reaction.

The range of Lin Yi's spirit sense was restricted to a few dozen meters, and it was already too late when he found the Phoenix Eye. However, Lin Yi didn't panic. With a flash of lightning, he instantly left the attack range of the other party.

As he dodged, he killed more than a dozen black snakes. However, there were too many black snakes. A dozen of them was like a drop in the ocean.

"Surrender! I'll spare your life!"

Her Phoenix eyes missed, and her heart shivered. She knew that she'd met a master. She raised her voice, trying to shake Lin Yi's determination, "In this swamp, no matter how powerful you are, you can't escape from our trap! Surrender immediately to avoid any mistakes!"

As he spoke, Red Phoenix eyes tapped his feet repeatedly, and the black snake in the air actually became his stepping stone for his movement and jump!

With that, the Phoenix eyes closed in on Lin Yi-it wasn't as fast as lightning escape, but it was still pretty fast.

Lin Yi was blocked by the black snakes, and he couldn't even use his lightning movement or ghost speed wings. The guy got closer in an instant.

"You want me to surrender? It's still bright, stop dreaming!"

Lin Yi's lips twitched as he killed the two snakes with a wave of his hand, not caring about the Phoenix eyes at all. "Hurry up and come closer, so I can send you on your way!"

If it was a master of the broken sea realm, with the help of these black snakes, Lin Yi might not be able to handle it!

Unfortunately, Phoenix eyes wasn't a sea-shattering expert. He was only in the earth-opening stage. Even with the help of the black snakes, Lin Yi wasn't afraid at all!

"You're still so stubborn even when you're about to die! I'll count to three, and if you don't surrender, you can only die!"

She obviously didn't recognize Lin Yi, or she wouldn't have wasted so much time and used her ultimate, ""Three!"

Before he finished his sentence, dan Fengyan stepped on his black snake and shot towards Lin Yi like a cannonball, activating his strongest skill at the same time.

"So when I count to three, I'll directly count to three? I've really learned something new!"

Lin Yi laughed mockingly as he flapped his ghost-speed wings, "But if you surrender, I won't accept it either, so you should just die!"

Wind splitting fangs, thousand blade slash!

Countless wind blades danced in the air, clearing all the black snakes around Lin Yi before continuing to charge at the man.

Her Red Phoenix eyes immediately revealed an inexplicable look of horror!

His skills crumbled when they met Lin Yi's thousand blade slash, not even the barriers could stop it. He couldn't accept this.

The other party's aura was clearly not powerful, much weaker than his, but why was the result like this?

However, this wasn't the time to think about this. He had to save his life first!

Phoenix-eyed put his arms together, and hundreds of black snakes piled up in front of him to block Lin Yi's thousand blades!

Blood and flesh flew everywhere!

Under the whirlwind of the thousand blade slash, the group of black snakes was instantly ground into countless pieces!

This surprised Lin Yi- neither the wild fire Bagua Palm nor the lightning bolts were effective against the black snake, but the thousand blade slash was.

"Something's wrong! You're Lin Yi?"

Phoenix-eyed dodged Lin Yi's attack using the snake as a cover, and he cried out in realization, "Why are you here?"

"You talk too much. Shouldn't you be more concerned about how you're going to die?"

Lin Yi's face was cold as he used the lightning movement technique to flash through the tunnel created by the thousand blade slash and appeared beside Phoenix eyes, ""Do you have any last words? If not, you can be on your way!"

Lin Yi activated his raging fire Bagua Palm with the icy blaze. The black snakes nearby seemed to be afraid of the icy blaze and stopped in their tracks.

"Lin Yi, there's a way to heaven, but you're here to die!"

Without the black snake to support him, the red Phoenix eyes almost fell down. He could only laugh in exasperation and fight back with all his might!

Unfortunately, he couldn't use his full strength in such a short time. He could only watch as Lin Yi's palm, covered in Ice Fire, broke through his simple defense and landed on his chest!

The flames erupted, and the red Phoenix Eye instantly turned into a huge block of ice. Then, it quietly burned in the ice, and finally turned into ashes!

After Lin Yi's attack landed, he didn't bother with the slanted eyes anymore and turned around to continue flying.

Since the thousand blade slash was extremely effective against the black snakes, Lin Yi decided to use it to open a path. It was indeed much faster than before, but he was still a little confused. How could someone from hidden death sect control the black snakes in the swamp?

These black snakes were not spirit beasts, nor were they Dark Demon beasts. They were just ordinary animals without any spiritual intelligence. Their skin was tough and their speed was extremely fast. Even an ordinary Yuanying stage master might not be their opponent.

Could it be a biological weapon that hidden death sect had raised?

After a while, Lin Yi was out of the swamp area. The people from hidden death sect were alerted, but they couldn't catch up to Lin Yi. Only Phoenix-eye was unlucky-he tried to stop Lin Yi and got killed instead.

At the same time, Huang Yuntian had also brought his men into the Great Swamp!

However, the sky above the Great Lake of clouds and smoke was a little strange. Flying spirit beasts were unable to enter, so the various recruitment teams brought their assessed students to land on the ground and walk forward.

Just as Lin Yi expected, the commotion from the lightning burial was enough to attract Huang Yuntian's attention. This was the best signal, and so after entering the Great Swamp, Huang Yuntian ordered everyone to head straight for the swamp.

"Yifan, Lin Yi must've encountered an enemy, that's why there's such a strong battle wave! I'm going to receive them personally, so I'll leave the command to you. "

As soon as Huang Yuntian entered the Yunyan Lake, he pulled Zhuang Yifan over and whispered, ""You know how important Lin Yi is to me, I can't lose him."

Chapter 6898 Overwhelming Battle

"Guild Master, isn't it a little inappropriate to let this subordinate command the overall situation? Why don't I go with you to welcome brother Lin?"

Zhuang Yifan was a little hesitant. He didn't mind giving orders to the students in the Golden Division, but would the members of the recruitment team in the mystic division listen to him?

"What's wrong? You're now the president of the Alliance of Academies at the Yellow Division, and soon you'll be the managing elder of the Alliance of Academies at the mystic division. You're more than capable of commanding this kind of operation!"

Huang Yuntian patted Zhuang Yifan's shoulder, "Now is the time for you to take on the heavy responsibility. I'm worried about the others!"

"This subordinate thanks guild leader for your trust. I will definitely not let you down!"

Zhuang Yifan hurriedly cupped his fists and bowed. He looked excited, as if he would die for his friend. "President, you're going to meet little brother Lin alone? Although President is powerful, hidden death sect is extremely strange. It's better to bring some guards, right?"

"It's inconvenient to have too many people. Elder Gu and I will be enough!"

Huang Yuntian did not want to be alone. Instead, he brought Gu Tiannan along, ""We'll go first. When you get there, set up a proper encirclement, and then we'll launch the general attack,"

"This subordinate understands! Don't worry, President!"

Zhuang Yifan nodded in agreement. He was already thinking about how to command and arrange so that he could complete the task beautifully.

It could be said that this was his first battle after returning to the mystic class Sea area, so he had to show off his momentum! In the future, when they arrived at the mystic Sea region Alliance of schools, their position would be even more stable!

After Huang Yuntian finished his instructions, he flew to Gu Tiannan's side and whispered a few words. Gu Tiannan's face was calm and he did not speak. He only nodded slightly and followed Huang Yuntian away from the group, disappearing into the smoke of the Great Lake.

While the two masters were sending reinforcements, Lin Yi was in trouble again.

Initially, he thought that he was fast enough to escape from hidden death sect's pursuit. However, he realized that things were not that simple.

Although the people from hidden death sect could not catch up to him, they were like a lingering spirit!

As soon as Lin Yi slowed down, there would be faint auras from all directions trying to surround him.

Could it be that there were some tracking marks?

Lin Yi flapped his ghost-speed wings and hovered in the air. He held his chin and scanned his body with his eyes and spirit sense, but found nothing.

The smoke in this area was thinner, and his spirit sense could cover a radius of about a thousand meters. Lin Yi could feel that there were a dozen auras approaching from the edge of his spirit sense.

And their target was very clear-it was all on Lin Yi. He didn't believe that there weren't any tracking marks!

Could it be because he had touched the transparent light film and left behind his aura?

This was the only possibility Lin Yi could think of-he should've been killed by hidden death sect the moment he sneaked into the Great Lake otherwise.

He raised the finger that touched the light film and looked it over, but he really couldn't see anything wrong with it.

There was no spiritual sense mark, and there was no abnormality in the circulation of true Qi!

"Forget it, let's just settle it!"

Lin Yi paused and looked at the closest aura, "We'll start from your side!"

There was a flash of lightning in the air, and Lin Yi was far away, opening up the counter-attack.

The assassins from hidden death sect probably didn't know that they were after Lin Yi, so they underestimated him. They thought of surrounding him from the start, but they didn't expect that this would give Lin Yi the chance to break them one by one.

If the people from hidden death sect could form a small team, not hoping to defeat them, but just trying to stall for time and stick to Lin Yi, then it would really be hard for Lin Yi to escape.

The Assassin's Heart skipped a beat as his premonition of danger grew stronger than ever. Before he could react, a lightning arc appeared in front of him.

It was brilliant and dazzling!

This was the last feeling hidden death sect's assassins had when they saw the lightning arc. After that, the dazzling lightning arc completed its target of killing. It made a turn in the air and disappeared in another direction.

A mountain-splitting expert was killed in an instant without even seeing his opponent's face clearly. It was truly an aggrieved death.

It couldn't withstand a single blow!

Lin Yi felt pretty good-he'd turned into a fire in the dark, and the assassins from hidden death sect were like moths flying into the fire, waiting to be slaughtered!

Perhaps when Huang Yuntian and the others arrived, Lin Yi would've already taken care of half of the assassins.

The assassins from hidden death sect were not stupid. When the second person was killed, the remaining assassins already knew that they were in trouble. They immediately gave up on their plan to surround and kill the second person and quickly gathered together.

When Lin Yi killed the third one, the assassins had already finished gathering. It wasn't realistic for them to continue killing, and they had to be prepared to be entangled.

Lin Yi didn't need to do anything-the assassins quickly gathered around him.

"I was wondering who it was, to be able to kill so many of our brothers in a row, it's Lin Yi! There's a path to heaven, but you refuse to take it. There's no Door to Hell, but you barge in!"

The leader of the assassins held the daggers in his hands and recognized Lin Yi immediately, "Today is the day you die! This will be your burial ground!"

"Can you change your lines? All of you from hidden death sect were taught by the same teacher, right? You only know these two sentences?"

Lin Yi picked his ear lazily with his pinky. "Just based on the few of you who are going to die the moment you come up, you actually have the nerve to boast shamelessly! I'm too lazy to talk nonsense with you, I'll just send you on your way!"

Without waiting for the assassins to reply, Lin Yi circulated his pure Qi and activated his skill.

Wood forest thousand transformation!

Hundreds of doppelgangers swarmed forward and drowned the dozen or so assassins in the crowd.

Among this group of assassins, only the two leaders were earth-opening experts. The others were basically mountain-opening or even xuansheng experts.

Other than the two in the lead, the rest were no match for Lin Yi's clones.

Lin Yi's clones might only have Xuan Sheng's strength, but when they formed a battle formation, their power couldn't be underestimated.

Lin Yi, on the other hand, thought that the hidden death sect's formation was just a joke. He could break it with his eyes closed.

In just a few dozen seconds, there were more than a dozen bodies on the ground. Only the leader of the assassins was still waving his dagger, barely holding himself up from falling.

Although the Assassin's face was covered, the eyes that were revealed were full of fear!

He'd experienced Lin Yi's power first hand-he'd gotten his friends crushed like that, and he was starting to get scared.

"Your subordinates are all dead, aren't you disloyal if you don't die? Why don't we just die together?"

Lin Yi didn't make a move, but crossed his arms. "If you don't want to die, I can accept your surrender. Tell me, do you want to die or live?"

Chapter 6899 Hidden Death Sect's Trump Card

"Lin Yi, don't get too cocky. I'm no match for you, but you're not leaving Yunyan Lake alive today! I'll go first and wait for you down there. Let's see how long you can be arrogant!"

The leader of the assassins laughed wildly as he pierced two of the doppelgangers with his dagger. Unfortunately, there were more doppelgangers to fill the gap, so he could not see any hope at all.

Unexpectedly, in the next moment, he actually directly reversed the dagger and slashed his neck with lightning speed. Blood spurted out and he fell to the ground.

Lin Yi frowned-he didn't think that this guy would be this stubborn. He'd rather kill himself than surrender.

Lin Yi had wanted to take this guy down and force some information out of him, but it seemed like he'd have to use soul-searching now.

Lin Yi's hand landed on the man's body, capturing the man's yuan Shen that had yet to dissipate and holding it in his palm.

"If you cooperate, you will suffer less. If you don't, I will have to use the soul-searching technique."

Lin Yi looked at the Assassin's weak soul in his palm, a warm smile on his face.

Of course, this was only what Lin Yi thought. In fact, in the eyes of the spirit in his palm, Lin Yi's face was a Devil's smile, it was terrifying to the extreme.

"Lin Yi, you won't even let go of a dead person's soul, you're crazy!"

The killer primordial spirit roared in anger.

"I don't have time to waste with you. If you're willing to cooperate, then speak. If you're not, then shut up. I'll give you time to think about it. When the time is up, start searching your soul!"

Lin Yi's face was cold. Was he supposed to talk about kindness with someone from hidden death sect, who had hunted him down time and time again and even threatened the people around him?

"I'll count to three, hurry up and consider!"

Lin Yi said as he extended his other hand, raising three fingers. "Three! Time's Up, you're not saying anything because you want to have a taste of Soul searching? Alright, I'll fulfill your wish!"

"Shameless! You call this counting to three? Don't you have any shame?"

The killer's yuan Shen was enraged. If he still had a body, he would've jumped up and pointed at Lin Yi's nose, "This old man's wish is for you to die! Are you satisfied?"

"Isn't this method of counting unique to your hidden death sect? I learned it from you guys. Why? are you not satisfied?"

Lin Yi laughed coldly and used his essence spirit to devour!

If the killer's essence spirit cooperated, Lin Yi really didn't want to use it, but since the killer would rather die than submit, there was no other way.

Even if he had to spend some effort, Lin Yi had to figure out how the people from hidden death sect were tracking him. Otherwise, it would be a big problem.

The absorption was completed quickly, but Lin Yi's brows were still furrowed.

Perhaps the Assassin's level wasn't high enough, and Lin Yi didn't get any useful information. He just got a bunch of useless memories.

The only thing he could be sure of was that hidden death sect was able to track him because Lin Yi touched the transparent light film in the swamp. Anyone who touched it would be invisible for a period of time, providing hidden death sect with the coordinates.

It was indeed strange! Lin Yi couldn't help but sigh. Hidden death sect had endless tricks up their sleeves, and if he didn't uproot them, they would always be a problem!

Since he knew that he couldn't avoid hidden death sect's pursuit, Lin Yi was more confident. As long as it wasn't a sea shattering expert, he could find Huang Yuntian and kill the assassins at the same time.

Once the main force arrived, the situation would be completely reversed and hidden death sect would only be slaughtered.

Unfortunately, Lin Yi didn't know that Huang Yuntian had already brought Gu Tiannan to help him. However, Lin Yi's current position was very far away from Lei zang's position, so the three of them just happened to pass by each other.

In a normal environment, even if he couldn't see with his eyes, he could still use his divine sense to find the other party. But in the Great Swamp of clouds, the effective range of his divine sense was greatly reduced. Naturally, Lin Yi didn't find Huang Yuntian and Gu Tiannan.

After walking for a while, Lin Yi started to feel strange. He may be moving fast, but the assassins shouldn't be so quiet!

Since Lin Yi's location was exposed, it didn't make sense that hidden death sect didn't follow up after the assassins died!

Lin Yi was feeling puzzled when he suddenly felt the violent fluctuations of a battle. From the direction, it should be near the swamp where hidden death sect was located. A battle of this level should definitely be above the split sea!

Could it be a trap? Lin Yi's first thought was that the people from hidden death sect were intentionally making a scene to lure him over, but he quickly overturned this guess.

If they had the time, the hidden death sect's sea-splitting expert would have already caught up to them and launched a sneak attack. Why would they need to waste so much effort?

Since it was not a trap, it meant that someone had a conflict with the hidden death sect's sea splitting expert!

The next moment, Lin Yi quickly flew towards the direction of the battle. He had a way to escape anyway, and the master of the shattered Sea couldn't kill him instantly.

After a while, Lin Yi arrived at the battle area.

"Huang Yuntian? And that old man Gu Tiannan!"

Lin Yi's spirit sense finally reached the battle area and saw the people on both sides, "why are they here together?"

As the commander, why did Huang Yuntian run over instead of commanding? And he even brought that old man Gu Tiannan!

Of course, none of that was important anymore. What shocked Lin Yi was that the half-step to heaven-breaking Huang Yuntian and the mountain sect elder Gu Tiannan were actually evenly matched with the two hidden death sect Masters!

Half-step heaven-cleaving!

Hidden death sect really had a trump card!

If these two had come after him, he wouldn't have been able to escape.

After the shock, Lin Yi suddenly felt a wave of fear. Thinking about it carefully, if Huang Yuntian didn't come, then wouldn't these two masters be the ones who came to kill him?

Huang Yuntian and Gu Tiannan's appearance here was a complete coincidence.

Lin Yi was shocked, and so were Huang Yuntian and Gu Tiannan. They were already the top masters in the mystic division, but they didn't expect to meet an equal opponent in the Golden Division. It was unbelievable!

"Who are you people? Why did you invade hidden death sect's territory?"

Gu Tiannan's opponent was a white-haired man with a mask on his face. He still had the energy to speak, "If it's a misunderstanding, please leave immediately and we won't pursue this matter!"

Lin Yi secretly despised them. Hidden death sect was also a bunch of people who bullied the weak and feared the strong. Seeing Huang Yuntian and Gu Tiannan's strength, they were a little scared.

"What a joke. Since when did Yunyan Great Lake become hidden death sect's territory? I even said that the yellow-class Sea area is my backyard!"

Huang Yuntian laughed arrogantly, completely not putting the other party in his eyes, ""Where can i not go in the Yellow Sea? A mere hidden death sect has the nerve to be arrogant in front of me?"

"Just who are you people?"

The white-haired Assassin's eyes narrowed. He felt that Huang Yuntian seemed to have some background. He suddenly felt uneasy, ""Report your background!"

Chapter 6900 Brilliant Prediction

As he spoke, the white-haired masked assassin forced Gu Tiannan back with a single move. He signaled for his companions to retreat and put some distance between them and Huang Yuntian, ""Let's make things clear before we fight!"

Huang Yuntian and Gu Tiannan also took a few steps back and did not continue fighting.

The two assassins from hidden death sect were strong, and it wouldn't be a short time before a winner was decided. The most important thing now was to make sure Lin Yi was safe.

"You guys are not qualified to know my background. I have a brother nearby, did you guys see him?"

From Huang Yuntian's point of view, if Lin Yi were to meet these two assassins, it would be almost impossible for him to survive.

If something happened to Lin Yi, who would make the void pill? What about the heavenly scar grass? Huang Yuntian's hope of returning to the earth-class Sea region was even further away.

What he didn't know was that Lin Yi was already nearby-he'd be right next to him in the blink of an eye.

"Are you talking about that kid who killed many of our men? I didn't see him!"

The white-haired masked assassin glanced at Lin Yi and said coldly, "Since you're in the same gang, don't blame us for being merciless!"

Before he finished his sentence, the white-haired masked assassin charged towards Lin Yi.

He could feel the mark on Lin Yi's body, so he wanted to kill Lin Yi first when Huang Yuntian and Huang Yuntian weren't paying attention.

The other killer wearing a devil mask moved and blocked Huang Yuntian and Gu Tiannan's path.

The ghost Face killer was naturally not a match for Huang Yuntian and Huang Yuntian. However, he was an assassin, and it was not his style to fight head-on. His best skill was to wander and entangle.

It was easy to stall Huang Yuntian and Gu Tiannan and create a time difference for his white-haired companion to kill the target.

Huang Yuntian paused, not understanding what was going on. He felt Lin Yi's battle Aura and his face changed. He charged at the ghost Face killer with all his might.

Gu Tiannan was hesitating. To be honest, he didn't think it was a bad thing if Lin Yi was killed, but he needed the sky scar grass as well. Gu Tiannan and Huang Yuntian were on the same boat for this secret realm operation, so Lin Yi couldn't be killed.

After a slight hesitation, Gu Tiannan followed suit. He wasn't in a hurry, however, as he was just attacking the ghost Face killer normally. Lin Yi's life or death depended on fate!

Lin Yi saw the white-haired masked assassin charging at him and was very depressed.

Why did they suddenly stop?

If Huang Yuntian continued to hold the two masters off, Lin Yi could take the chance to ambush them and kill one of them.

Lin Yi knew that he wasn't a match for a master who was half a step into heaven breaking!

Even if he was an expert in the early stage of the sea Rift realm, he could only use a sneak attack to suppress him. As for a half-step to heaven splitter ... The most reliable way to save his life was to find a way.

The white-haired masked Assassin's body flickered, and a short sword in his hand silently stabbed towards Lin Yi's throat.

It was a hit!

Unfortunately, it was only Lin Yi's shadow. The dagger didn't stop after piercing through Lin Yi's Shadow's throat. It drew a beautiful arc in the air and instantly appeared in an empty space more than ten meters away.

If someone was watching from the side, they would think that the white-haired masked Assassin's sword was somewhat inexplicable. Why did he stab the air?

But in fact, Lin Yi just appeared when the dagger reached him, and the sword went through his throat again!

Of course, this was just an illusion, and it didn't cause Lin Yi any real damage, but Lin Yi was still covered in cold sweat!

Ever since he had used the [three appearances of Cloud Dragon], the white-haired masked assassin was the first person who had accurately judged and attacked him before he had even appeared.

All of Lin Yi's previous opponents only attacked after the cloud Dragon's third appearance-it was like he was leading them by the nose.

The white-haired assassin was completely different-his insight attack almost made Lin Yi unable to turn into void in time!

"Die!"

The white-haired masked Assassin's eyes lit up. With a low sneer, he drew a beautiful arc with his short sword again and instantly stabbed at another opening.

Without a doubt, Lin Yi would be there!

The three appearances of Cloud Dragon couldn't keep on transforming into a shadow and let the killer attack him. Unless Lin Yi was in his Yuan Shen State, he would be killed sooner or later!

However, Lin Yi didn't want too many people to know that he could keep switching between spirit States.

"You want me to die? Let's see who dies first!"

Lin Yi didn't Dodge anymore. He activated the defensive talisman that Wang shiqing gave him and circulated his pure Qi, activating the Dragon-shaped killing intent!

The white-haired masked Assassin's short sword pierced through six layers of defense in a row and almost completely destroyed a sea Rift stage defense talisman. Only then was he barely able to resist the attack.

As soon as the Dragon-shaped killing Qi of the five elements appeared, it was cut into pieces by the white-haired masked Assassin's short sword before it could even roar and soar!

Strong!

He was really too strong!

They were not opponents on the same level at all!

Lin Yi frowned. His Dragon-shaped five elements killing intent was enough to fight against earth splitting Masters, but it was useless in front of the White hair killer.

Lightning arcs flashed as Lin Yi quickly put some distance between him and the white-haired killer. He formed a super alchemy bomb in one hand and activated a sea Rift attack talisman with his other hand, blasting it at the white-haired killer.

Lin Yi didn't expect to kill the White hair killer. What he wanted to do now was the same as the ghost Face killer, and that was to stall for time!

As long as he could drag it out until Huang Yuntian and Gu Tiannan came to help, the crisis would naturally be resolved.

The White hair killer's body was like a ghost, disappearing in a flash and avoiding the attack. He then reappeared not far from Lin Yi.

"So fast!"

Lin Yi couldn't help but exclaim. His opponent's speed wasn't as fast as the lightning escape technique, but it was only a little slower. He could barely catch up to Lin Yi's trajectory.

"Die!"

The white-haired killer shouted again and stabbed the dagger in Lin Yi's direction at an extremely tricky angle. This was a pre-judgment attack, as if Lin Yi was going to crash into it.

It was because of this ability that the White hair killer had the confidence to kill Lin Yi even when he was slower.

Lin Yi immediately turned into a lightning arc and made an irregular turn, barely dodging the Assassin's short sword. He then threw the Super alchemy fire bomb at the assassin.

The white-haired killer had obviously never seen this thing before. A look of contempt appeared in his eyes. What was the use of such a slow attack?

He dodged the Super pill fire bomb with a light step and continued to stab at Lin Yi with the dagger.

"Explode!"

Lin Yi shouted as he activated the Super alchemy bomb with his spirit sense, causing it to explode behind the white-haired killer.

The violent blast wave hit the white-haired killer's back. Lin Yi had expected the white-haired killer to Dodge, so he directed the blast towards him. It worked.
